1. De Leeuw sprak deze woorden, staande in de Tempel van IJs : Nu dan gaan de gezanten uit om het Woord te zuiveren. En hij nam een boek en verbrandde het. 2. Toen richtte hij zich tot de oostkant der hemelen, in het gewest Spricht, en sprak om het zegel der leeuwen te verbreken. Toen kwam er een ruiter zittende op een leeuw tevoorschijn, roepende als een bazuin. 3. In zijn ene hand had hij een klein houten bed, en in zijn andere hand een koperen weegschaal. Hij werd gevolgd door een grote groep leeuwen. 4. De leeuw waarop hij zat was rood en wild. 'Verschrikkelijk' was zijn naam. Uit de muil van de leeuw kwamen zeven blauwe vlammen om de aardbodem te verteren. 5. Toen hoorde ik het geween van miljoenen. Zij hielden zich onder de grond verscholen, en zij hadden schepen op zee. 6. Toen sprak een stem : Nu is het oordeel gekomen tot het binnenste der aarde en de zee. Toen zag ik een andere leeuw verschijnen, nog verschrikkelijker dan de vorige. 7. Op zijn rug droeg hij een schaal van ijs, waaruit insecten voortkwamen. Zij begonnen van de wateren te drinken, en de wateren begonnen te branden. 8. De leeuw was blauw en helder en uit zijn muil kwam een haai voort. De haai zwom tot de zon en verzwolg deze. 9. Toen begonnen sterren van ijs te vallen en enkelen kwamen op de aarde terecht. Dit waren de dagen waarin de tempelen van ijs zich begonnen te openen. 10. Zij begonnen God groot te maken en gingen op hun benen staan. In het midden der hemelen was een vrouw in barensnood. 11. Groot was haar strijd, en ze gaf geboorte aan een paars kind. Bij de geboorte stierf ze, en haar ziel werd tot God gedragen. 12. De Naam van deze vrouw was Metensia, de Wonderbaarlijke, en zij werd gegeven aan de Geest Gods, haar man. Het kind groeide op en werd groot. 13. En haar naam was Marion, en ze voegde zich naast haar broer Michai. In die dagen viel de Aakse, de grote slang, uit de hemelen. Hij was ook gebaard door Metensia. 14. En Marion en Michai treurden zeven maanden lang over hun gevallen

broer. Let dan op, opdat gij het geheimenis kent. Zeven grote hoornen droeg hij, om het laatste der dagen te verzegelen.

De verbreking van de hoornen

15. En er verscheen een grote panter in het midden van de hemelen, die zijn ruiters begon uit te zenden. En toen sprak God deze woorden : De laatste dagen van de markt zijn gekomen. 16. Deze zal zeer groot worden en dan vallen. De markt heeft slaven gemaakt, maar Ik zal hen vrijzetten. Ik zal hen een tepel in hun borstkas geven, waaruit de melk van Mijn Geest zal stromen om hen vrij te zetten. 17. Ik zal hen de tepelen der vrijheid geven, en ik zal hen leiden tot de tempel van ijs. En toen begon de eerste grote hoorn zich tot de heiligen te richten om hun hart te doorspietsen. 18. En God sprak : Vanuit de wond zal de tepel rijzen. Vrees daarom geen kwaad. De tepel zal de hoorn verbrijzelen. 19. En ik zag een tepel oprijzen als een toren, en melk en honing begon over de hoofden van de heiligen en de profeten te stromen, en zij profeteerden voor veertig maanden. 20. En toen zag ik de tweede hoorn zich grootmaken tegen de heiligen. En plotseling doorstak hij hun buik. De wond was zeer groot, en bloed stroomde tot de wateren. Ik zag een verbittering in de hemelen, en de martelaren smeekten om wraak. 21. De aarde begon te beven en slokte de rivieren op, maar de zeeën begonnen groter te worden. Toen spoog de grote haai de zon uit op de aarde, en er kwam een droogte van acht jaar en zes maanden. 22. En een zwarte leeuw rees op uit de aarde, en schonk een tweede tepel aan hen die de buikwond hadden. Toen kwam er een stilte van achtendertig uren in de hemel. 23. Dit waren de dagen dat Michai de aarde begon te beroeren. De derde hoorn begon zich tegen Michai op te zetten, en verzamelde een grote menigte. 24. Michai's ogen werden doorstoken, en zijn kaak werd verbrijzeld, zodat hij niet meer kon spreken. Toen werd Michai aan een steen gebonden en in de grote zee geworpen waar de grote vissen hem begonnen aan te vreten. 25. De derde tepel begon in de monden van de heiligen en apostelen te groeien, en zodra zij hun monden openden, kwam er melk en vuur om de afvalligen te verteren. 26. Zij hadden monden als slangen. Toen begon de vierde hoorn het paarse kind, Marion, te vervolgen. 27. Ook begon deze hoorn zich groot te maken tegen de hemelen met godslasteringen, en allen die deze hoorn volgden kregen grote macht en konden grote wonderen en tekenen verrichtten. 28. In deze dagen begon de vierde tepel in de tempel van ijs op te rijzen, en begon woorden van wijsheid te spreken, terwijl boeken zich openden. 29. Een zwarte ruiter op een zwart paard verscheen, en weer begonnen er sterren uit de hemelen te vallen. De shade op aarde was groot. 30. De drie laatste hoornen werden door winden verbroken, en een poort in de hemelen werd geopend. 31. Toen viel de vrouw der katachtigen als door donder en bliksem uit de hemelen. Eerst vrat de Aakse, de grote slang, haar op, maar zij begon in zijn buik te lachen en vrat hem van binnen uit op. 32. Toen kwamen er vele stemmen van de hemel. 33. Een vos genaamd Zurastael verscheen aan de hemelen en begon zijn naam in de hoofden te schrijven van hen die de vier tepelen binnenin droegen.

2.

De heilige staart

1. En een paars beest begon een afschuw te krijgen aan Marion, en nam haar tot hem, om ten slotte met zijn nazaad te vertrekken. 2. Zij had enige ridders verborgen, maar hun schuilplaats werd ontdekt en verwoest. Toen hun bloed ter aarde viel, veranderde het in zaad waaruit weelderige bomen groeiden. Ook kwamen er netelplanten uit voort en doornenstruiken met de bloemen en bloesem des geestes. 3. En hierin groeide het huis van de martelares Marion, als een poort tot de ijstempelen des hemels. 4. In die dagen begon de vos de heiligen te leiden op Marions paden, zij die

de wond van Marion in hun ziel droegen, wiens ruggen gebroken waren. 5. En de vijfde tepel begon te groeien aan het uiteinde van hun ruggegraten, aan het stuitje, tot een heilige staart. En zij begonnen te wenen tot de hemelen. 6. En zij kwamen tot de gewesten van Spricht, aan de Oostkant der hemelen. En de heilige staart begon hun zielen te beschrijven vanuit de heilige boeken. 7. Toen de zesde tepel verscheen kwam er donder vanuit de hemel. En de Haai sprak deze woorden : 'Zalig zijn zij die genaderd zijn tot Spricht.' 8. Toen richtte hij zich tot de westkant van de hemelen, tot het gewest Zetdonia, en sprak woorden om het zegel der haaien te verbreken. Toen kwam er een haai vanuit het Noorden van de hemel, en hem werd macht gegeven om de volgelingen van de vrouw der katachtigen en het paarse beest te misleiden. 9. De dagen van de blauwe haai zijn aangebroken. Laat de aarde huiveren. 10. En de haai bracht hen tot een kelder onder het huis van Marion, waar hij hen opsloot en hun boeien verzegelde met onuitsprekelijke woorden. 11. De grote haai des hemels is opgestaan. Wie kan er aan zijn oog ontsnappen ? 12. In die dagen waren de anfitaten op aarde, om eer te brengen aan het paarse kind. 13. Maar een wolk nam hen weg en bracht hen op een verborgen plaats. 14. Zij kregen daar de geheimen van de zevende tepel te zien, en waren niet gemachtigd te spreken. 15. Gij bent genaderd tot de God van het brandende ijs, in wiens tegenwoordigheid gij niet kunt spreken. Gij bent genaderd tot de vertering. 16. En weer werden er boeken verbrand en zij die aanwezig waren, werden niet gemachtigd te spreken. 17. Kent gij de namen van de zeven grote geesten die zich voor het aangezicht van God bevinden ? 18. Kent gij de namen der zeven geestesogen van God, en de zeven geestestepelen ? 19. Eén van hen is Matas. En zalig hen die genaderd zijn tot Spricht.

Het Lied van Matas

20. Matas, waterplant, reikende tot het einde van de zon. Matas, wonderlijk gezag, reikende tot het einde van de zon, daar waar het ijs begint, en daar waar het ijs eindigt, daar waar het ijs brandt als een fakkel in de nacht. 21. Matas, waterplant, reikende tot het einde van de zon, en zalig hen die genaderd zijn tot Spricht. Matas, wonderlijk gezag, springend van dag tot dag. 22. Wortels reikend naar de bodems van de zee, groeiend naar het einde van de zon, Matas, waterplant, daar waar het ijs brandt als een fakkel in de nacht. 23. Breng mij voor het aangezicht van hem die dag en nacht kent, van hem die de paden door duisternis en licht kent. 24. Leer mij steeds weer uw stem te verstaan, zalig hen die het ijs vasthouden, daar waar alles brandt. 25. Zalig hen die vol zijn van ijs en geest, zwemmend langs de wortelen en takken van Matas, groeiende vanuit het huis van Marion, reikende naar de overkanten van Spricht. 26. Zalig hen die de zeven geestestepelen kennen, die melk en ijs laten vloeien. Zalig hen die honing verspreiden, als ijs brandende als een fakkel in de nacht. 27. Leid ons op eeuwige paden, geef ons de vleugelen van Matas. Laat ons naderen tot Spricht, vanuit Marions Huis, dragende haar wonden in ons hart. 28. Heilig het paarse kind in ons, en heilig uw anfitaten, als fakkels op ons pad. 29. Leer ons het licht der lichten kennen, de koningen der koningen, in het huis van Marion. 30. Wij staan hier voor uw eer, met uw liederen in onze mond. Leer ons geen onbekende paden te betreden, maar laat de paden bekend zijn bij u. 31. Uw paden zijn bekend, u gaf Uw kennis aan Uw meesters. Zalig ons, die genaderd zijn tot Spricht.

32. Matas, Plant des Levens, groeiende daar waar het donker is, daar waar het hart zoveel wonden kent. Breng ons tot Spricht. 33. Matas, groei daar waar het donker is, vanuit de wonden van mijn hart. U kent mijn paarse kind, ik weet dat U mij bemint. 34. Als een fakkel in de nacht, U bent daar. Voer mij er doorheen, laat mij niet alleen. Alleen U kent het hart van de Vader, oh Geest voor Gods Troon. 35. Geef mij de visioenen van een nieuwe dag, het brandend ijs in Uw Hart. Ik weet mij hierin geborgen. U kent al mijn smart. 36. U omhult mij en omgeeft mij. U omhult mijn droge tong.

U brengt mijn hart tot de wateren des levens, groei in mij oh Geest van God. Maak mij Uw Heilige Raad bekend.

3.

De dieren des hemels

1. En ik kreeg oorsuizingen en mijn handen begonnen te tintelen toen ik was opgenomen in de hemelen, en Gods IJstempel zag. 2. De leeuwen des hemels kwamen tot mij en dienden mij. Zij spraken tot mij dat deze woorden en beelden heilig waren, en opgetekend moesten worden, voor het klaarmaken van een nieuw geslacht. 3. Zij voerden mij naar een hemelwoning waar de haaien des hemels waren. 4. En de woorden die zij spraken waren nat en vochtig, zodat zij gedronken konden worden, en mijn oren begonnen te piepen. 5. Ik hoorde het gezoem van de hemelen, en ik zag de verschillende gewesten voor mij liggen. 6. En een stem sprak : 'Spreekt, opdat het oordeel kan komen. Het oordeel waarop de aarde wacht.' 7. En tronen werden omhoog gehesen, waarop haaien en andere dieren des hemels zich plaatsten. 8. En wijn begon te vloeien, en dronkenschap kwam te vallen op de dieren, zodat zij de lichten der aarde konden oordelen. 9. En toen begonnen mijn benen te tintelen, terwijl boeken werden geopend. 10. De woorden van de aarde werden gezuiverd en getoetst aan de woorden van de hemel, en wederom werden er boeken verbrand. 11. En ik zag verborgen woorden openbaar worden, en zij moesten rekenschap afleggen van hun werken. 12. Ook zag ik talen en culturen verschijnen voor de tronen van de dieren des hemels. 13. De vrouw der katachtigen werd buiten de hemelpoorten geworpen, en daarna werd ze in de poel van ijs geworpen. 14. Toen vielen gillende sterren uit de hemelen, en dezen vielen op de aarde om hen die op de aarde woonden te vervolgen. 15. En zij zochten rust, maar konden het niet vinden. 16. En een stem uit de hemel sprak : De grote Jom is verslagen. Zalig hen die de geheimenissen van de zevende geestestepel kennen, die van de Heilige Melk drinken, want zij zullen verzadigd worden, en de wateren van rust zullen hen navolgen. 17. Vervloekt zij hen die de geestestepelen trachten te doven en te bedroeven, want ijs en zwavel zal hun hoofden vernietigen. Zij zullen in het Vuur van Eminijs, de Heilige Leeuw voor het Aangezicht van God, verbrijzeld worden. 18. Zalig hen die God verwachten, en Zalig hen die Zijn Geest kennen.

4.

Eminijs Dag

1. Dit zijn de woorden van Eminijs, de Heilige Leeuw voor het Aangezicht van God. Hij droeg tafelen van ijs en schalen van ijs, waaruit insecten voortkwamen. 2. Hij had armen als van een octopus : 'Hooft het Woord des Heeren, want van nu aan zal niemand kunnen openen zonder te sluiten, zal niemand kunnen creëren, zonder te verbrijzelen. 3. Ik zal u het koord der Waarheid tonen, wanneer gij in mij blijft. Dit zijn de Woorden van de Heilige Eminijs, die brandt van ijs, als een fakkel in duistere nachten. 4. En wanneer de zwarte panter begint te rennen, en de glazen breken, dan zullen de slaven der markt vrijgezet worden, want Ik heb u niet bereid tot slavernij, maar tot vrijheid. 5. En in het duistere gat zult gij vrijheid vinden. Als een panter zal ik Mijn kinderen verzamelen. 6. Ik zal u Mijn wonden tonen, en Ik zal u kronen tot anfitaat. De geheimenissen van deze dagen zijn groot. Zalig hen die dezen kennen. 7. En er zal een dag van Eminijs zijn, een dag waarop alles heilig zal zijn. Dit is de dag dat het ijs zal branden. In Gods Heilige Tempel sta ik. 8. En Ik zal branden van ijs, terwijl Ik Mijn Winden over de aarde zend, om bloed in zaad te veranderen, en Mijn zonnen van ijs te leiden tot de poorten van Marions Huis. 9. Ik zal Metensia een lichte hoop zenden en haar op de vleugels van de wind voeren naar Sarsia. 10. Ik

zal Sarsia laten spreken vanuit de tempel om hoop te brengen aan hen die de wonden van Metensia dragen in hun ziel. Zij die hun kinderen hebben moeten offeren op de altaren der gerechtigheid. 11. Dan zal Michai zijn moeder wenken, en zij zullen wederom verbonden worden met Eeuwige Koorden. 12. Dan zal Metensia wederom haar Zoon zenden tot de aarde, waar hij zijn troon voor eeuwig zal vestigen. 13. En de engel Sarsia zal hem leren strijden, en hij zal overwinnen. 14. Laat u dan teder behoeden door haar zachte vleugelen, en laat u leiden door haar zachte winden, om u tot Eeuwige velden te brengen. 15. Zij, die uitgezonden is vanuit het Aangezicht des Heeren, vanuit Zijn Troon, om Zijn Altaar op aarde te vestigen. Ja, de aarde zal Zijn Tempel worden. 16. Ja, komt nader tot de Nieuwe Ark, en laat u binden met Eeuwige Koorden. Ja, komt nader tot Zijn Heilige Tempel. Laat uw monden vullen met IJs. 17. U bent genaderd tot het goud van IJs. U bent genaderd tot het Huis van Metensia, waar gij eet van heilige schalen. 18. Het zal uw buik niet meer wegbranden, maar het zal u tot genezing zijn. U bent genaderd tot de vruchten van de Blauwe Boom, daar waar Michai werd verwekt.

Spricht

19. En ja, dan zal er een dag zijn waarop uw handen en voeten tezamen gebonden zijn door de zesde en de zevende tepel. 20. Ja, door hun Eeuwige koorden zult gij zijn als een vis in het water, dragende de zoete wonden van Michai. Gij zult gedragen worden tot de engelen der winden en koele wateren, en zij zullen u beminnen omdat gij troost gebracht hebt aan het Hart van God. 21. Ja, engelen zullen u dienen, gij die de koorden van de zesde en de zevende tepel draagt. 22. En in Spricht zult gij uw handen en voeten zien, en bemerken dat zij met velen zijn. Gij zult hen niet kunnen raken of aanraken, gij zult hen niet in beweging kunnen brengen. 23. En dan zult gij wachten totdat de Geest van God u raakt, en Zijn winden zullen u in beweging brengen. Dan zult gij zijn als de heilige inktvis in het water, en oprijzen als de vliegende spin om de sterren te bewegen, en te wassen in koele wateren. 24. Nu werkt gij nog op het veld, maar straks zult gij verlichting kennen. Gij zult eten van heilige zonnen, en het ijs zal oprijzen in uw buik. 25. Oh, gij die uw voeten door Eeuwige Koorden hebt laten binden, gij zult het geestesschoeisel ontvangen, en uw zaad zal u in beweging brengen. 26. Treurt niet over het bloed, want het zal heilig zaad wezen. De Tijger zal ook u opnieuw verwekken, en gij zult geleid worden door uw eigen zaad, voortgekomen en voortgebracht door de winden Gods. 27. Treurt dan niet bij het aanschouwen van de wonden van Michai in uw schouders, want de vogelen des hemels zullen daarop nederdalen, om u te leiden op Eeuwige Paden. Zalig zij die genaderd zijn tot Spricht.

De Dag van het Altaar

28. En de Tijger sprak deze woorden, staande in de Heilige IJstempel op de Heilige Berg van God : Er is een Dag waarop het Heilige Altaar wordt opgericht. 29. Die Dag zal groot heten. Dan zullen de geesten die daar zwaar werk moesten verrichten vrijgezet worden. 30. En toen verbrak hij het zegel der tijgers, en richtte zich naar het Noorden vanwaar de grote haai kwam, en sprak : Nu is er dan een dag van vrijheid voor hen die werkten in zweet en tranen. Uw bloed zal zaad worden, en gij zult bomen planten. 31. Nu is er dan een dag van rust aangebroken, en gij zult rust vinden op uw akkers. 32. Uw ploegscharen zullen omgesmolten worden tot altaren, en gij zult de Geesten Gods kennen. Gij dan zult uw engelen bij namen noemen.

De Verzegeling van het Woord

33. En Michai stond op om hen van het altaar te leiden. 34. Groot is de Dag waarop de Heere Zijn Stem verheft, om rust te geven aan hen van het altaar. 35. En toen de Tijger al deze woorden

gesproken had, kwam er een engel met zeven winden in de armen om de woorden te verzegelen. 36. Toen kwam er geruis met donder en bliksem om de tempel te sluiten. 37. En zij die het Woord des Heeren hadden gehoord hadden rust.

5.

De Woorden van Metensia

1. En mijn tong geraakte als in vuur toen ik deze dingen zag en hoorde, en een deur werd geopend in de hemel. En ik hoorde een stem roepende 'Kom, want er zijn veel meer dingen die getoond moeten worden.' 2. En de haaien des hemels brachten mij naar boven als door koele wateren, en ik zag Metensia zitten op haar troon. 3. Zij was als badende in ijs, en haar glans was als het goud van IJs. En zij sprak woorden uit een verborgen boek genaamd De Troiade. 4. Zij sprak de woorden van Metensia : Ik ben de koningin van Zachtheid. Mijn Naam is Schip. Mijn Naam is Metensia en ik leef op de zee. 5. Ik draag deze wereld op vier fundamenteën. Ik werk met mijn genezende handen een weg naar de boeken. Ik ben de Geest van Liefde. 6. Ik creeerde de moeders en hen die creeerden. Mijn huis is gebouwd op negen pilaren, een huis in wolkeren en wateren, waar het ijs regeert. 7. Ik overwon de kunsten en krachten van de zon, en heb vijanden onder en aan mijn voeten. 8. Ik draag vijftien sterren op mijn hoofd, en zeven heilige boeken leven in mijn hart. Ik reken af met vuur en zwavel. 9. Ik heb hen overwonnen. Onder mijn voeten zijn zij, als een voetbank van mijn troon. Ik leef in ijs en schiep de moeders van ijs. 10. Innerlijke Genezing stroomt tot hen die tot Mij naderen. Vier tijgers staan voor mij, en houden de wacht, en mijn twee arenden worden voortdurend uitgezonden met mijn woorden. Zij hebben dag noch nacht rust. Heilig zijn zij. 11. Ik deel Wijsheid uit voor Mijn poorten. Ik ben trouw aan hen die mij trouw zijn. 12. Visioenen zijn in mijn Rechterhand, en Dromen in mijn Linkerhand. Waakt dan, opdat Mijn engel van Slaap u zal meenemen. 13. Ik heb mijn arxels tot u gezonden, om u te brengen door de uren van de nacht. Ja, mijn nachtwake is over u, van het eerste tot het twaalfde uur. 14. In de vijfde nachtwake zult ge de zee zien, en dan zullen koorden u trekken tot de nieuwe dag.

De ruiter op de draak

15. En toen begon mijn keel te branden en te tintelen, en ik hoorde een stem zeggende : Drinkt van de heilige ijswateren des hemels, want gij zult nog vele dingen moeten profeteren. 16. En mij werd een tijd rust gegeven, totdat ik de nieuwe morgen bereikte. 17. Koele wateren des hemels omhulden mij, en er waren vuren in mijn buik. Dit waren de vuren van ijs. 18. En weer dronk ik van de wateren, en deze wateren waren zoet. 19. Er werd een staf op mijn voorhoofd gelegd en ik zag visioenen stromen uit mijn handen. 20. Deze visioenen waren helder als ijs, en wateren omhulden hen. 21. En toen werd mij gevraagd : Kent gij de Geesten Gods ? 22. Een bittere Geest stond voor mij, met bittere tranen die hem als schubben omhulden. En toen werd mij gevraagd : Kent gij de bitterheid Gods ? 23. Ik zag de tranen als donderstenen en hagelstenen op de aarde vallen, en rivieren begonnen te stromen. Toen geraakte de aarde in vlammen, en een luide stem sprak : 'Kunt gij uw schatten nog omhullen als Mura de aarde bezoekt ?' 24. En in haar armen droeg zij een vos genaamd Zurastael, en sprak : 'Het geheimenis van de vos is groot. Zalig hen die de schatten van Zurastael kennen. Nieuwe aderen zal hen het bloed doen behouden.' 25. En de vos droeg zijn kroon als een helm gemaakt van zuivere gesteenten, en toen hij sprak voelde ik nieuw bloed door mijn aderen stromen, en dit bloed begon te branden als brandend ijs. 26. En toen sprak hij, zeggende : Uw bloed zal het zaad verwekken, het zaad van ijs. Het zal branden als een fakkel in de nacht, om hen die rust geven tot rust te leiden. 27. Uw angst zal worden tot gesteente, en niemand zal bij

machte zijn het te breken. 28. Uw angsten hebben u geleid tot het ijs, en tot het boek van Zurastael. 29. En voor mijn ogen werd een boek geopend met gouden letters in gesteentes, en voor mijn ogen begonnen de letters te veranderen en te bewegen, en visioenen kwamen uit hen voort. 30. En wederom sprak Zurastael zeggende : 'Gij die het licht zoekt, wordt opgezogen in een steen. Zalig zij die de Eeuwige steen vinden, want Eeuwige aderen zullen daar het bloed behouden.' 31. En zuivere lichten vielen op mij als koele wateren en ik voelde grond onder mijn voeten, hard als steen, terwijl het gloeide. 32. En een stem van het altaar sprak, zeggende : Zalig de doden die vanaf nu in Zurastael sterven. 33. En ik zag de tronen der zee opkomen, en altaren vanuit het binnenste der aarde, en ik zag graven opengaan, terwijl de gewesten en de windrichtingen hun doden gaven. 34. De zee gaf haar doden en het binnenste der aarde gaf haar doden, en ook de bergen, de rivieren en de nesten der vogelen. 35. Boeken werden geopend, en de altaren raakten in vlam. En een stem sprak zeggende : Dit is de dag waarop de doden teruggegeven dienen te worden. 36. En de lichten van de uitspansels begonnen hun doden te geven, en de zonnen en manen begonnen hen uit te spuwen en te buigen. 37. En wederom sprak een stem : 'Het Licht van Zurastael is gekomen, en de duisternis heeft het niet kunnen doorklieven. Zalig hen die nu in Hem sterven, want zij zullen rust vinden.' 38. En ik zag de markt als een ster uit de hemel vallen, en deze begon op de aarde te schreeuwen om de heiligen aan te klagen. 39. En zij werden door scorpioenen gebeten een halve dag. En de kooplieden begonnen hun doden te geven. 40. Zij aanbaden de ruiter op de draak. Deze ruiter had het gezicht van een mens. En slaaf en meester, koopman en koper, Jood en Griek, bogen in verwondering tot de ruiter van de draak neer, zeggende : 'Wie kan de draak berijden ? 41. Hoe is het mogelijk dat een mens de draak berijdt.' En zij volgden de ruiter van de draak als hebbende een schenker van geest. 42. En de ruiter van de draak kwam tot de vos en brak hem de nek. 43. Toen brak er een geschrei uit in de hemelen, terwijl vrouwen weenden voor zestig dagen en nachten. Na die zestig dagen werd er gesproken : 'Zalig hen die de wond van Zurastael dragen.' 44. En weer begonnen vrouwen te wenen en te rouwen om de vos, totdat de engel Sarsia hem tot het Aangezicht van God bracht. 45. Maar ook de ruiter van de draak kwam om zich na een doorkruising van de aarde voor te stellen bij God. 46. Met de engel Sarsia streed hij zestig dagen en nachten om het lichaam van Zurastael, terwijl Sarsia haar mond niet los durfde te doen. 47. Na deze zestig dagen en nachten begon de Leeuw die voor het Aangezicht van God stond te spreken. Dit zijn de woorden van de Heilige Eminijs. 48. En terwijl hij sprak kwamen er bergen van vuur en ijs uit zijn mond, en zeeën van vuur en ijs uit zijn staart. 49. Al deze woorden werden verzegeld, en de ruiter van de draak werd op het altaar gelegd. 50. En uit het altaar kwam een zwarte panter die de ruiter van de draak verslond. Zware hagelstenen kwamen op aarde, om de schepen der kooplieden te doorklieven. 51. En een slang die vanaf het begin in het binnenste der aarde opgesloten werd gehouden brak los. En een stem sprak : Nu is het zegel der slangen verbroken. 52. Wee hen die op de aarde leven. Zalig hen die van het medicijn van Zurastael eten, en die van zijn siroop drinken. 53. Zalig hen die het gif van slangen in zich dragen, want zij zullen gereinigd worden. 54. En de bloem van God kwam tot leven om het zaad van de ruiter van de draak te verslinden. En haar werden de sieraden des hemels gegeven, en zij bracht dronkenschap over de volgelingen van Zurastael.

De afval der vrouwen

55. En ik zag een teken in de hemel waaronder vier panters verwekt werden, die de aarde doorkruisten om de tempel te bouwen. 56. En deze tempel was vol van ijs, terwijl leeuwen begonnen te branden, om woorden van zwavel te spreken. 57. En Eminijs werd een koning op aarde en kreeg vele volgelingen. En vrouwen begonnen te roepen en te zingen : Dank aan God die Zijn profeet heeft gezonden, die bloed verandert in brandend zaad. 58. En een heg van kruid begon

te groeien op aarde, en zijn doornen begonnen de profeten van God te vervolgen. 59. En vrouwen met het kruid van Eminijs in hun haren probeerden apostelen en richteren in valstrikken te lokken, terwijl zij de heg begonnen te aanbidden. 60. En de heg droeg als naam de hondenhaag. Sindsdien begon Eminijs zich terug te trekken in de woestijn, en slangen des velds dienden hem. 61. En deze dagen werden genoemd de afval der vrouwen. 62. En de vrouw der honden begon haar liederen te zingen en te verkopen, maar werd zonder woorden door Michai verslagen. 63. Een derde deel van de afvallige vrouwen kwam om, terwijl het overige deel de predictaten en hermitaten trachten te verleiden tot aardse zonde en hoererij. 64. Houd dan stand in de dagen van verzoeking, en laat uw bezittingen achter. 65. Verkoopt dan uw vrouw en kinderen aan de Geesten Gods, opdat de Heere u de Geest van IJs geve. 66. Laat dan uw tempel bouwen door heilige attentaten opdat gij tot de kroon van de anfitaat kan naderen. 67. Doet dan aan het geestesschoeisel, gij die de helm en het pantser draagt, opdat gij kunt standhouden in de dagen van verleiding. 68. Ziet, het geestesschoeisel van Eminijs brandende van vuur en ijs ligt voor u. Dan kunt u de boze dagen aan u voorbij zien vliegen. 69. Zalig hen die de wonden van Eminijs dragen.

Het leer der vijanden

70. En die dagen werd de Naam van Eminijs groter in de hemelen. En hij bracht nieuwe wijnen, gal en gesmolten metalen tot de altaren, waarin nieuwe wapenen werden gesmeden. 71. In die dagen werden de tempelen en de altaren groot, en vanuit het zaad kwam nieuw schoeisel voort. En deze dagen waren groot. 72. Zalig hen wiens hoofden en harten geschoeid zijn door de Geesten Gods. 73. Zalig hen wiens zwaarden en schilden geschoeid zijn op heilige altaren. 74. En het leer der vijanden zal zeven dagen en zeven nachten gereinigd dienen te worden in de ark van de tempel, daarna zal het veertig maanden lang gezuiverd moeten worden in de schalen van ijs, en daarna zal het moeten komen in de handen van Eminijs. 75. Zo zult gij de paarden en honden des hemels beteugelen, en zult gij niet ten prooie vallen aan de doornen der aarde. 76. En hij die de boten voorttrekt zal u leiden tot de ark der leeuwen, ja, want het zal een tempel zijn met vele altaren en met vele arken. 77. En gij zult de Glorie van God niet kunnen dragen. Laat dan de Naam van Eminijs groter worden in uw harten.

Het geslacht der Ancialieten

78. En ik zag dat de heiligen die de wonden van Eminijs droegen een gedurende een periode van tachtig dagen geschoeid moesten worden. 79. En het leer van vijanden werd verzameld en gebracht tot een aparte kamer in de tempel die het vertrek van het schoeisel werd genoemd. 80. En het schoeisel der anfitaten moest eerst voor drie dagen op de altaren van het vertrek gezuiverd worden. 81. En zij die de wonden van Eminijs niet droegen werden uitgeworpen. 82. En ik hoorde een stem zeggende : Zuiver dan het schoeisel van anfitaten en exorcisten, en zuiver het met kruiden en in schalen met wateren van mos en takken. 83. En de Heilige Slang van het Altaar Gods blies over het schoeisel, zes rijen van elk dertig meter. 84. En de Geest Gods kwam over het schoeisel, en de mannen begonnen in andere talen te spreken. 85. Nu waren er ook enkele vrouwen onder hen. Sonia en Diadiria waren twee namen onder hen. Maar de Heere sprak : 'Scheidt Mij nu de mannen van de vrouwen.' 86. En de vrouwen werden naar een ander vertrek gebracht. 87. En toen begonnen sommige mannen te morren, en werden door het Vuur van de Heilige Slang van het Altaar Gods verteerd. En hun getal was achtenzeventig. 88. Dit waren de dagen der Ancialieten, een heilig geslacht van priesters die in de diepere tempels dienden. 89. Zij hadden zich niet bevlekt met vrouwen, maar waren afgezonderd vanaf hun geboorte, en hadden de Geesten Gods als vrouwen. 90. Ziet dan toe dat gij u niet aan een hoer hecht, maar bemint de Geesten Gods. 91. En in dit heilig

geslacht worden vanaf de geboorte mannen van vrouwen gescheiden en mogen zij niet van elkaars bestaan weten. 92. In die dagen was het toetreden tot de orde der Ancialieten onder strenge voorwaarden. En de Heere was met hen. 93. En zij hadden toegang tot de verborgen plaatsen des hemels, daar waar de slangen des hemels waren. 94. En hun schoeisel was aldus bereid in de ark der slangen, en gezuiverd op de altaren van slangen in een periode van vele jaren lang. 95. En zij droegen de wonden en littekens des Heeren diep in hun lichamen en zielen, en zij werden grootgebracht met gemis van ouders. 96. Zij moesten elkaar onderwijzen en de Heere was met hen. 97. Zij hadden zo min mogelijk contact met hun oudere lotgenoten, en de ontmoeting was dikwijls in duisternis en met tussenmuren, waarbij de oudere vaak gekleed was in een paars of donker gewaad. 98. In de nachten werden zij vaak bezocht door engelen, maar moesten zij ook worstelen met de geesten van de afgrond. 99. Zij leefden in de diepten der hemelen om de Heere in de geheime ijstempelen te dienen. 100. En ik zag de priesters die het schoeisel op een verkeerde manier bereidden en zuiverden. Een vurige vlam viel op hen en wierp hen in een diepe afgrond. 101. En ik zag een engel neerdalen om de put te verzegelen met onuitsprekelijke woorden, en ik hoorde stemmen als van donder.

De oorlogsengel

102. En er zal genezing zijn in het huis van Zetdonia, waar de heiligen baden in ijs. Hier branden de boeken en zalig zijn zij wiens Woorden geschoeid zijn. 103. En ik zag haaien losbreken die tot dit uur in ijsblokken waren opgesloten. En zij waren met velen. En het ijs moest zijn doden loslaten. 104. En wederom zag ik tronen van de zee oprijzen in grote blauwe hallen, en de engel Sarsia daalde neer. 105. En Ik zag de vele wonden van Zetdonia, en Sarsia zou hen die die wonden droegen leiden tot plaatsen van Rust en Genezing, waar zij alle tranen van hun ogen zou wissen. 106. En Sarsia zou tot een herderin voor hen zijn, hen beschermende tegen de roofdieren. 107. Zij zou hen voeren langs zachte en koele wateren tot haar huis, waar heilige Ridders verzorgd werden door engelen. 108. Gij bent genaderd tot het Huis van Sarsia, waar haar zusters de heiligen verzorgen en zalven. 109. Zij is de nachtwake op het schip. 110. En dit waren de Woorden van Sarsia : Mijn tranen gaan nog steeds door het gemakker van schapen om mijn geliefden in slaap te brengen, en te brengen tot Mijn Huis. 111. En wanneer de leeuw brult geef ik mijn beminden nog steeds dromen. 112. Laat u leiden door mijn nachtwake, tot aan de vierde nachtwake toe.

113. En zij leidde vele engelen, en was als een rots in woeste zeeën. 114. En haar wapenrusting was gemaakt van de vele beesten en draken die zij had verslagen. 115. Zij was een oorlogsengel, komende van dampende zeeën, en haar naam was groot. En zij leidde hen door het duistere ijs.

6.

Morit

1. En Morit zal niet vergeten worden. Zij zal terugkeren tot de hof Genesis in het laatste der dagen, en zij zal met de Heere zijn. 2. Geest van Santra, Heil van God, verhef uw stem in het diepste van de nacht. Als een visser, gij brengt haar terug, vanuit blauwe wateren. 3. Morit zal niet vergeten worden. Haar vlam zal branden in de tempel. En vissers van God zullen haar eren. Haar naam zal op hun boten staan. 4. En in die dagen zal de Karazuur tot de aarde komen, Metensia's katachtige arxels. Zij zijn de roofdieren des hemels. 5. En Metensia's wateren zullen de aarde bedekken, en de aarde zal vlam vatten, en de gele haai zal de aarde eten. 6. En zij zal de heiligen en de verdrukte profeten uit hun gevangenissen ophalen met haar vogels, de karsuiken en de putsen, en dezen zullen hen brengen tot een veilige plaats. 7. In Metensia's huis zullen zij rusten voor drie dagen, en daarna

zullen zij gebracht worden tot de hof van Genesis, waar zij verenigd zullen worden met Morit. 8. En zij zullen Kabbernal kennen, de Geest van Gods Altaar.

De verzoeking der profeten

9. In in die dagen zullen nieuwe gezichten rijzen tot de profeten. En van het altaar zal een Geest opstijgen genaamd Vuur van Eminius. En die naam zal groot heten. 10. En dan zal Eminius Zich opstellen in een cirkel van altaren, en het heilig gebed zal hersteld worden onder het volk. 11. En Eminius en het Vuur van Eminius zullen stijgen uit de ketel Gods. En het Vuur van Eminius zal het afvallige volk verleiden voor dertig jaren lang, en zij zullen het verbond vergeten. 12. En Hij zal het heilig volk dat standgehouden heeft in de verzoeking leiden tot de winden van het vuur. En zij zullen verzadigd worden met de appels van het altaar. 13. En het zaad van Eminius zal Izu heten. En dit geheimenis is groot. 14. En de profeten Gods zullen duizenddrieenzestig dagen profeteren tot het afvallige volk en onder afvallige profeten. Zij zullen slapen bij boomstronken, en hun woorden zullen niet geloofd worden. 15. En de profeten Gods zullen roepen tot de hemelen, maar deze zullen gesloten blijven, totdat de dagen der verzoeking voleindigd zijn. 16. En ik zag een profeet oprijzen uit de schare met ogen van vuur, en hij bracht troost tot hen in de verdrukking. 17. Toen zag ik dat zijn ogen werden doorstoken door een woedende massa, maar het zaad van Eminius dat Izu zou heten kwam hem te hulp, en toen stroomde er voor lange tijd ijs uit zijn ogen, en tijden en wateren werden bedekt door gletsjers. 18. En toen begonnen de woedende massa's te sidderen, zeggende : Ja, Izu is groot. 19. En ik zag een ster uit de hemel vallen die een derde deel van de woedende massa's bedekte. En Eminius gaf hen appels, opdat ze de volkeren niet meer zouden verleiden. 20. Ook werd er brood van het altaar aan hun roofdieren gegeven, opdat ze de heiligen met rust zouden laten. En de heiligen hadden rust voor lange dagen. 21. Deze roofdieren waren verschrikkelijk, en de heiligen zouden nog nasidderen voor een ruime tijd. 22. Zalig degene aan wie het Zwaard van Eminius wordt geschonken, want hij zal kunnen eten van de Boom des Levens.

De afval der profeten

23. En in die dagen was er het Lot der profeten en de profetische geslachten. 24. Zij deden veelal dienst in de tempel, en werden uitgezonden als roofdieren. 25. En de profeten Gods in de woestijn hadden een kleine verlichting, maar begonnen tot de hemel te roepen : Hoelang blijven onze monden verzegeld, en wanneer wordt het zegel der honden verbroken. Dit zegel nu was zwaar, en zij leden vurige pijnen. 26. En de Heere zond een arxel tot hen met kleine hoop. En de arxel sprak : Ik kan jullie harten verwarmen, met een kleine vlam, maar ik kan de wond niet verbinden, want de Heere heeft mijn handen gebonden. 27. En een deur in de hemel werd geopend, en een stem van achter die deur sprak : Laten zij nu geent worden op de profetische geslachten. 28. En er kwam een oorlog tussen de profeten, een oorlog alsof er nog nooit één was geweest. En deze werd de afval der profeten genoemd. 29. En de Heere bracht een vuur tot de boom der profeten, en er was een zuivering van tachtig dagen. 30. En de Heere sprak : Niet langer zal Mijn Hand op de ontrouwe profeet rusten. En de Heere bracht de afvallige profeten tot een rots onder de aarde. 31. En deze rots werd de schrik der apostelen genoemd.

De hondenhaag

32. In die dagen liet de Heere een klok bouwen in de tabernakel, en de harten der profeten werden gerust. 33. En de Heere sprak deze woorden : De dagen van de misleiding der profeten zijn voorbij. 34. En de harten en woorden werden getoetst aan deze klok. Ook werden boeken op het altaar des Heeren gebracht. 35. En het Vuur des Heeren verzengde hen.

36. En de geslachten der bouwers kwamen tot het Aangezicht des Heeren. En de Heere stak een vuur onder hen aan, om zuivering onder hen te brengen.

37. En de Heere bevochtigde de aardbodem met Zijn Geest, en liet de hof Genesis uitspruiten op de aarde. En Eminius, de Geest van de ark en de troon, werd uitgestort, en de winden van vuur begonnen te waaien. 38. En de gewetens der heiligen werden verlost van de geesten der wateren.

39. Dit waren de dagen waarop de hemelen en de aarde opnieuw werden geschapen. 40. Zalig hen die tot de poorten van de haai, de tijger en de leeuw gekomen zijn. 41. En het vlees van koningen en afvalligen werd verzameld, en de slangen des hemels daalden neer. 42. Ook werden de bomen van zonden en leugens omgehakt, en er was hout voor zeven jaren in de tempel des Heeren. 43. En een stem sprak : Kent gij het geheimenis van de hondenhaag ? 44. Want aan het einde der haag zit de vrouw der katachtigen, en zij zal nog eenmaal opstaan om de kinderen van het koninkrijk te misleiden. 45. En zij zullen troost vinden bij de bomen des velds. En de aarde was in verbazing en verwondering dat de grote gevallen Jom was opgestaan. 46. En in haar hand had zij een tepelboom waarmee zij de zielen van kinderen kon binden. 47. En met zeven valse tepelen en sterren kon zij boeken en woorden verzegelen. 48. En de kinderen baden tot God, smekende of Hij het zegel der honden wilde verbreken. 49. Maar de Heer zond Zijn arxel, en die sprak : Ik kan jullie harten een klein licht schenken, maar ik kan de angel niet verwijderen, want de Heere heeft Zijn Woord gesproken. 50. En de kinderen vonden een kleine rust.

51. En de Heer leidde de kinderen tot het hart en huis van Marion, en hun wonden waren diep. En diep in het huis van Marion groeide de tepelboom des Geestes, waaruit heilige melk vloeide. 52. Maar de doornen des Geestes waren scherp, en vele kinderen verlieten de Heere. 53. En deze dagen werden de afval der kinderen genoemd. Maar de Heere ontfermde Zich over hen, omdat zij als wezen waren. 54. En Hij leidde hen tot een rots, waarin zij eeuwige rust vonden. En de Heere noemde die rots de rust der hermitaten.

De zegels der Utmiren

55. En de Heere sprak tot mij : Kent gij de tijden van Utmir ? En de Heere gaf mij een stenen beker van het altaar, en terwijl ik dronk beefde ik zoals ik nog nooit had gebeefd. 56. En de schrik des Heeren viel op mij, en mij werd een groot geheimenis getoond. 57. En de Heer sprak deze woorden : 'Kent gij het geheimenis van de Zoon des Geestes ?' En ik zag terwijl ik in zwijm geraakte hoe de Heere de hemelen en de eerste aarde schiep. 58. En de Geesten Gods kwamen tot elkaar, en ik zag Metensia tot haar man Eminius komen, en zij verwekte Michai, de Zoon des Geestes, die gezonden werd tot de aarde, tot een boos geslacht. 59. En zij hebben hem niet gewild. Bij Mura verwekte zij Marion, de Dochter des Geestes, en de geluiden in de hemel waren groot. En ook zij werd gezonden tot een boos geslacht, en zij hebben haar niet gewild. 60. Toen werd het vossenkind bij de Heere verwekt, en tot de aarde gezonden om een groot profeet te worden, en een heilige voor die dagen. 61. Maar zij hebben hem niet gewild, en hij heeft de heilige pilaar gebouwd. Ja, hij heeft Mura aan de aarde gegeven, de Geest Gods die over de duisternis zweefde. 62. Ja, duisternis heeft de Heere aan de aarde gegeven, opdat haar boosdoeners verdelgd zouden worden. Ja, de Heere heeft een verleider der volkeren opgesteld, met ogen van vuurvlammen. 63. En Michai zond zijn engel, Sarsia, tot de uiteinden der aarde, om daar vernietigingen aan te brengen, en sprak : 'Ja, het Oordeel des Heeren is groot.' 64. En dit sprak hij door zijn Geest, Eminius.

65. Zalig zij die het derde Utmir bereiken, en de Geest van Zurastael aanschouwen. En dit is een groot geheimenis. Zalig zij die de poorten der hemelen onder de aarde vinden, want zij zullen

Metensia aanschouwen. 66. En gij van het vierde Utmir, laat u dan niet verleiden de zegels der Utmiren te behouden. 67. En ik zag een grote leeuw in het midden der hemelen en de tempel verschijnen. 68. En ik hoorde een stem zeggende : Opent dan nu het zegel der honden, om de boekrollen van het derde Utmir te openen. 69. En ik zag een arxel roepende, staande naast de leeuw. En een witte haai des hemels daalde neer. 70. En hij gaf een fluit des geestes aan de anfitaten die de Heere trouw waren gebleven. En ik zag dat door het geluid des Geestes de nachtspelers kwamen. 71. En de arxels kwamen uit hun holen, en vanuit de plaatsen waar zij zich verborgen hielden. 72. Want voor lange tijd moesten zij strijd voeren in de zee en in het binnenste der aarde en onder het aardrond, omdat hun tijd om zich aan de heiligen te openbaren nog niet gekomen was. 73. En zij hadden onbekende koorden voor lange tijd, tussen hen en de zaligen. 74. En zij hadden strijd te voeren met het geslacht der abers.

75. En de honden van Okil werden in de hemelen niet meer gevonden, nadat het zegel was verbroken. 76. En zij werden door de fluit des geestes geleid tot een rots onder de zee. 77. En die plaats werd genoemd het graf der hermitaten. 78. En de attentaten Gods vroegen aan hen die de fluit des geestes hadden : Speel voor ons, en neemt ons mee tot de nachtspelers. 79. En ik hoorde een andere stem zeggende : Opent dan nu het zegel van het tweede Utmir. En er was een stilte in de hemel van achtendertig uren. 80. En ik zag het Huis van Marion oprijzen om de aarde te vervullen. 81. En toen zag ik een Geest komende van het altaar om het zegel van het eerste Utmir te verbreken. 82. En de oude abers werden uit de heilige steden verdreven, door de koorden van Michai en de Genesis.

83. En ik zag een hemelpoort geopend, en ik zag de Genesis als een boot zweven boven de wateren in een wolk tussen de wateren boven de aarde. 84. En ik zag een schip genaamd de duivenballon. En uit die ballon kwamen de arxels van Metensia om zich als netten over de aarde te verspreiden. 85. En zij werden genoemd de putsen, de karsuiken en de karazuur. 86. En in die dagen begon Kabbernal, de Geest van het Altaar, de discipelen van Michai aan te grijpen, en begon uit te storten op alle zielen. 87. En dronkenschap viel op de nachtspelers, en het heilig vuur greep de eerstelingen van Marion aan. 88. En dezen kwamen uit een grote verdrukking.

De tempel van Metensia

89. En ik kwam tot de tempel van Metensia, waar de wateren van bloemen door buizen liepen, en waar de vlammen der heilige vruchten waren. 90. En ik zag Metensia, de Geest des Heeren, baden in het tempelbad. En haar altaar bracht waterige geluiden voort, en aldus was ik in de wolk des Heeren. 91. En ik zag haar worden tot een stad en gewest, tot een veld des Heeren, waar de heiligen voor Eeuwig konden wonen. 92. En zij wiste al hun tranen af. En de inwoners van de stad zongen een lied die zij alleen kenden. 93. En Metensia leidde hen in dronkenschap naar de diepere wouden van haar Geest. 94. En niemand kon in haar stad wonen dan degenen die haar zegel droegen. En dit teken was een watermerk. 95. En Metensia begon uit te storten op degenen die haar Geest droegen. En meerdere altaren werden opgericht, en zij sprak recht in marmeren hallen. 96. En Metensia's zuilen begonnen te groeien en bloemenzeen begonnen de heilige priesters te leiden. 97. En zij herstelde het ambt der vrouwen, en zij leidde een zee van priesteressen op tot de Heere. 98. In die dagen sproot het bloesem des hemels uit, en de bloemen des velds maakten hen die het ijs vasthielden dronken. 99. En Metensia bracht velen tot zwijm.

De Tijden des Heeren

100. En toen leidde de Heere mij op een berg en ik werd gevoerd tot de tempel van Eminijs. En toen ik de poorten van zijn tempel bereikt had viel ik in zwijm. 101. En de Heere sprak dat wanneer ik het zegel van Zijn tempel kon openen, dan zou ik opgenomen worden tot nieuwe hemelen. 102. Dit zouden de eerste hemelen zijn, die al voor de schepping der hemelgewesten bestonden. 103. En het zegel begon te openen door een loflied.

104. Eminijs, Lof komt tot Uw poorten. 105. Lof van verre nadert tot U, Gij groot geheim, nu ontsloten. Uw tranen bereik ik nu. Ik zal de beker der tranen drinken tot de laatste druppel, en één met U zijn, voor altijd, Geest van God. U te kennen, waar Uw Wind vandaan komt, is mij meer waard dan oorlogstuig. 106. Ik wil met U lijden, en met U sterven, om Uw hemelpoort te bereiken. D'overwinning is mij niet van waarde. 107. Ik wil leven in Uw hart, oh Heer, en al uw tranen drogen, en dragen steeds weer. 108. Eminijs, Leeuw van oudsher, ik wil Uw oorlogsgeheimen kennen, en neerleggen mijn eigen wapenen. 109. Ik wil mijn boeken verbranden, om uw boeken te lezen.

110. En ik zag de tijden van Eminijs, en daarvoor de tijden van Metensia. En zij waren de Tijden des Heeren. Bij Metensia verwekte de Heere de slangen des hemels. 111. Ook zag ik de tijden van Kabbernal, ver voor deze scheppingen.

112. En Kabbernal werd groot tot een stad des Heeren, en zij die in de stad waren dronken de Tranen des Heeren. 113. En er was Rust in de Tranen des Heeren, en de Heere liet het bloesem van Zijn Hart zien. In die dagen waren de wereldschepen op aarde, en zij omhulden elkaar met sieraden van oude verhalen. 114. En de Heere liet al Zijn Tranen kennen en er kwam grote Rust tot de poorten van Kabbernal. 115. En het vuur van Zijn Tranen begon de aarde te wassen. Dit waren de dagen van de brandende zeep. 116. En de Heere leidde hen van Rust tot Rust.

117. In de Tranen des Heeren is het heilige zaad. In ik zag de geslachten der profeten zich afzonderen om de Heere te dienen. Ook zag ik de geslachten der apostelen, veertien in aantal, en zij hadden het bloed behouden in de aderen des Geestes. En ik zag een nieuw lichaam des Geestes verschijnen.

De Nieuwe Openbaring II

1.

De zee van ijs

1. En ik zag een grote draak komende uit de zee van ijs. En deze draak droeg de naam Iptus. 2. Ben ik bang voor zijn grote hart, waar zielen tussen zijn muren worden verpletterd, waar hij ademt, levend van de dood ? 3. En ik zag een leeuwenhart met een kroon, opkomen uit de zee van ijs, om de aardbodem te vervullen en in te nemen. 4. Ben ik bang voor dit grote hart, waar zielen tussen zijn muren worden verpletterd, waar het ademt, levend van de dood ? 5. En ik zag een moederhart, met moedersmart, zoekend naar haar kind, maar het was niet meer. 6. Ben ik bang voor het moederhart, het berenhart, verslindende alles in haar woede, waar zielen tussen haar muren worden verpletterd, waar zij ademt, levend van de dood ? 7. En ik zag een nog grotere draak opkomen uit de zee van ijs, om het moederhart te verslinden. 8. En kou kwam over de aarde. Ben ik bang als het moederhart en het hart van het kind niet meer bestaan ? 9. En ik zag een grote witte schare, voortgedreven door de wind, terwijl er wolven uit het hart van de aarde kwamen om hen te verscheuren. 10. En deze dagen werden genoemd het Grote Amerika. 11. En ik viel op mijn knieën en de Geest van God hief mij op, en bracht mij tot een oude schuur waar het Eeuwig Voedsel zich bevond. 12. En toen sprak de Geest

: 'Eet, opdat gij de visioenen aanschouwt die u inzicht zullen geven over het laatste der dagen.' 13. En toen ik van het voedsel at, begon mijn buik te steken als door de hitte, maar mijn benen werden zoet als honing. 14. En de Geest sprak : Komt dan op, dan zullen wij tezamen tot de deur der Late Dagen gaan. 15. En ik zag een deur geopend en de Geest hief mij op. 16. En ik zag het Grote Amerika als een nijlpaard zitten aan vele wateren. 17. En de Ziel des Heeren kwam tot mij en raakte mij aan, zeggende : Vele gruwelen zijn tot dit land gekomen, en vele gruwelen zijn van dit land uitgegaan. 18. En ik zag zwermen met vliegen komen om het nijlpaard te verslinden. En de Ziel des Heeren sprak : 'Veel vlees heeft dit volk gegeten, en velen hebben van haar vlees gegeten.' 19. En de arxel van de zee van ijs liep naar de draak en wierp hem in een grot en verzegelde deze. 20. En ik hoorde geweën als het geweën van katten.

2.

De Dag des Vlezes

1. En in die dagen werd de heg des Heeren groot, en een geitenbok maakte zich groot tegen de sterren. 2. Maar zonder geluid werd de geitenbok door de heg des Heeren bedekt. 3. En een ketel begon zich groot te maken tegen de sterren, maar zonder geluid werd de ketel door de heg des Heeren bedekt. 4. En de Geest sprak : Deze dagen werden genoemd het Grote Spanje. 5. En de Ziel des Heeren maakte zich groot, en bedekte de heg des Heeren. 6. En ik at van de heg des Heeren, van eeuwige vruchten, en de Ziel des Heeren kwam in mij. 7. En ik werd geleid tot een dorre streek waar wilde katachtigen zaten. 8. Zij wachtten op iemand die hen van dorst zou bevrijden, maar er was niemand. 9. En toen zag ik een ster uit de hemel vallen en de woestijn werd vruchtbaar. 10. En de Heere sprak deze woorden : Nu is het Grote Spanje gevallen. 11. En weer hoorde ik geweën. En de Heere stond voor mij in zijn vurige wagen. 12. En Zijn Geest sprak : 'Kom, opdat ik u dingen kan tonen.' En de Geest hief mij op tot in de wagen des Heeren, en weer werd ik tot een dorre streek geleid. 13. Hier zag ik de vlammen des Heeren, en zij droegen kaarten op hun schouders. En zij bewogen zich als de predictaten. 14. En zij hadden de gaven van het heilige vlees. 15. En vanuit het Vlees des Heeren kwam profetie en allerlei tongen, en zij deden grote wonderen. 16. En de Heere sprak : 'Zalig hen die tot het altaar van vlees gekomen zijn, want dit vlees is eeuwig.' 17. En de Ziel des Heeren kwam om het altaar te bedekken. 18. En ik zag hen die van vlees waren ontdaan, en zij werden bedekt met eeuwig vlees. 19. En een grote schare kwam tot de vuurvlammen des Heeren, en de Heer sprak : 'Zalig hen die tot de ark des vlezes gekomen zijn.' 20. En toen de ark begon te spreken vielen er velen als dood op de grond. 21. En vanaf die dagen begon de heg des Heeren vlees te worden.

3.

De Traan van Vlees

1. Ja, zalig hen die geloven dat de bloem vlees geworden is, als het Woord Gods. 2. En zalig hen die geloven dat de heg des Geestes vlees geworden is, want zij zullen de gaven van vlees ontvangen. 3. En zij zullen een nieuwe aarde scheppen. 4. Geef dan acht, want de Geest is geworden tot de Ziel des Heeren, om de winden der wateren aan te drijven. 5. En de Zielen des Heeren zweven over de grotten en wateren der aarde, en over de wateren die boven de aarde zijn. 6. Ja, zij zweven over de hemelen om hen te bedekken in het laatste uur. 7. Laat dan de Zielen des Heeren u leiden tot de ark van vlees. Dan zult gij het eeuwige vlees ontvangen. 8. Ja, de muren zullen vlees worden om te getuigen, en zij zullen de rechters zijn van de nieuwe aarde. 9. Gij bent genaderd tot een aarde van vlees. Een aarde waar zij elkaar niet meer kunnen vereten, want het vlees des Heeren is eeuwig. 10.

En de tanden der aarde werden tot vlees, en zij konden elkaar niet meer bijten. 11. En de tempelen werden geheel van vlees, opdat de priesters geen onheilige daden konden verrichten. En het altaar begon te spreken. 12. En het altaar sprak deze woorden : 'Nu is dan de tijd dat alles vlees zal worden, en niets zal zich voor het aangezicht des Heeren kunnen verbergen.' 13. En de arxels des Heeren droegen kaarten op hun schouders, en de heerlijkheden Gods begonnen openbaar te worden. 14. Gij dan zijt vlees geworden in de traan des Heeren. Ja, ziet, de traan des Heeren is vlees geworden. 15. Gij dan, laat het Woord des Heeren vlees in u worden, en Zijn Tranen. 16. Hierop is de gehele wet gebouwd. 17. Ja, ziet toe, en onderkent dat de wet des Heeren vlees is. 18. Laat u dan binden met Eeuwige Koorden van vlees, opdat uw geest vlees kan worden. 19. En dit vlees is eeuwig.

De zee van vlees

20. En ik zag hen die het Heilige Vlees aanbaden, en zij hadden dag noch nacht rust. En zij brachten de Heilige Tranen in schalen tot de aarde, opdat er wonderen van vlees zouden zijn. 21. En zij die van de tranen dronken kwamen in zwijm en ontvingen de gaven en werkingen des vlezes. 22. En zij hadden toegang tot de bloemen des vlezes voor het altaar Gods, en tot de zeven vlezen voor de ark des Heeren. 23. En zij hadden vleesgeworden boeken, en de vlezen Gods waren aan hen onderworpen. 24. En het Heilige Vlees sprak tot hen in de tempel : 'Ziet, de ure is gekomen dat de tafelen der wetten vlees zijn geworden.' 25. En de boeken vonden woning in hun harten, en zij werden geleid tot de wateren van Kabbernal. 26. En ik zag een zee van vlees, en een grote schare staande voor haar poorten. En ik zag de Karazuur komen om hen die het zegel van Metensia droegen toe te laten tot de zee. Zij hadden het vlees van ijs en vuur. En ik hoorde een schreeuw in de hemelen, en een deur viel dicht. 27. En Metensia werd vlees in hen, dragende de bloem des hemels, en zij hadden het lichaam als van de Heere. 28. En Metensia werd voor hen tot een Ziel en tot een Arm.

4.

De Melk des Heeren

1. En het werd aan Metensia gegeven een Eeuwigheid te worden, tot een parel schitterende in de zon. 2. Brengt dan troost aan haar hart, want haar wonden zijn velen. 3. En ook aan Kabbernal werd het gegeven een Eeuwigheid te worden, tezamen met Matas, Eminius, Santra en Mura. 4. En de Geesten Gods werden tot Eeuwigheden, en aan hen werd de Eeuwige Geest en de Geest aller eeuwigheden geboren. 5. En zij kwamen tot elkaar in Zielen om tot één vlees te worden. 6. En daarom is het geheimenis des vlezes groot, omdat het op de eenheid der Geesten Gods wijst. 7. En de Vlezen des Heeren kwamen tot volwassenheid om de heiligen te leiden, en om vele tranen te drogen. 8. Ja, zij kwamen tezamen in de traan en werden tot één vlees. 9. En de Heere Heere liet mij de gruwelen van de aarde zien, de dagen waarin men huwde. 10. En de Heere sprak : Alleen de profeten zijn gemachtigd te huwen, en Hij sprak hiermee over een groot geheimenis. 11. En de Heere hief mij op en leidde mij tot een woestijn. En ik zag daar een geest dwalen met zeventig ketenen om zich heen. 12. En de Heere sprak, zeggende : Deze ketenen zijn de onheilige verbonden die Mijn volk gelegd hebben. 13. En de Heere goot water in de mond van zijn geest en brak de ketenen zeggende : de dagen van het onheilige verbond zijn voorbij. Vanaf nu zijn alleen de profeten gemachtigd te huwen. 14. En de Heer sprak : Zalig zij die door profeten huwen, en zalig zij die zich niet hebben bevlekt met vrouwen, want zij zullen het zegel des Heeren dragen, en zijn aan de Geesten Gods overgeleverd. 15. En wederom hief de Heere mij op, en gaf mij aan Zijn Geest.

16. En de Geest Gods sprak : Zalig hen die door de Geest tot vlees zijn geworden. 17. En de Heer voerde wit brood aan de roofdieren in de woestijn. 18. En de Heere sprak, zeggende : Nu zijn de dagen gekomen dat de heiligen verzadigd worden door de melk des Heeren en de honing des vlezes. 19. Nu zijn de dagen gekomen dat de tepelen des Heeren vlees zullen worden, tot overvolle verzadiging van hen die Hem nauwgezet zoeken. 20. En de Heere verscheen in smetteloos wit, en bliksem verscheen naast hem, als een licht dat over de aardbodem viel. 21. En ik zag hen die uit de woestijn der verzoeking kwamen, en de melk des Heeren vloeide als licht om hun hoofden, totdat zij in de melk des Heeren baadden. En zij werden verzadigd tot in aller eeuwigheden. 22. En ik zag hen die de vrouwen der aarde en de zwarte vrouwen hadden gehuwd om de vrucht der eeuwigheid terug te brengen tot de tempel. En zij kregen kronen van melk en tepelen om de hongerige roofdieren des hemels te voederen. 23. En zij waren als arxels voor de Heere, en de slangen van Metensia eerden en dienden hen. En zij werden geleid tot het gebeente des Heeren. 24. En zij vonden grote rust in de tepelen van het been des Heeren, en zij gaven eer aan de sterren van Metensia. 25. Zalig hen die tepelen op hun buik dragen, want zij hebben een eeuwig pantser, en zalig hen die hun hoofden hebben bezegeld met tepelen, want zij zullen eeuwige visioenen ontvangen. 26. Streeft dan naar de eeuwige gaven, en gij zult leven als de stromen. 27. En ik zag arxels van eeuwige profetie in de tempelen des hemels verschijnen en zij droegen schalen met melk des Heeren, en waren geschoeid met tepelen. 28. En zij stonden op de heilige rots des Heeren en begonnen de schalen uit te gieten over de aardbodem en de hemelen. 29. En de Heere sprak deze woorden : Zalig hij die drinkt van de melk des Heeren, want hij zal geleid worden op eeuwige paden. 30. En de aardbodem geraakte als in vuur, en werd door de winden verslonden.

Het dal van dorre doodsbeenderen

31. En ik zag de heilige tepel groot worden op de berg des Heeren, en brandende als vuur, terwijl het veranderde in been. En een stem sprak : Nu is het Woord des Heeren bot geworden. En ik zag het bot het vlees verslinden, en de Heere sprak : Zalig hen die verslonden zijn door de roofdieren der aarde, want voor hen is het Koninkrijk Gods. 32. En ik zag hen die verslonden waren door roofdieren voor Gods Troon verschijnen, en zij kregen een staf van bot om als koningen te heersen. 33. En de Heere sprak : Weet dan dat alleen degenen die verslonden zijn door roofdieren kunnen naderen tot Michai. 34. En in die dagen kwamen vele verslondenenen tot Michai. En zij vonden een lichte troost bij elkaar. 35. En ik kwam in een dal van dorre doodsbeenderen na het drinken van de tepelen der botten, en ook zag ik daar as liggen. En tussen deze beenderen lagen de eeuwige beenderen des Heeren. En toen ik deze beenderen aanraakte kwamen gaven over mij, en ik begon te profeteren. Ook sprak ik in vreemde talen, en geraakten mijn handen als in vuur. 36. En de Heere sprak tot mij, zeggende : Het bot kan het eeuwig vlees niet verslinden, en zalig hij die het eeuwig bot draagt, want zijn beenderen zullen niet verbroken worden, en over hem heeft de dood geen macht. Hij die de eeuwige tepel op het eeuwig bot aanschouwt zal voor altijd verzadigd zijn. En ik werd verblind door een licht, en kon geruime tijd niets zien. 37. En toen hief de Heere mij op, en daalde vervolgens neer op een plaats genoemd het Oude Amerika. 38. En ik zag de gezichten van drie stamhoofden gebeeldhouwd in bot, en zij droegen een gloeiende tepel op hun voorhoofd. 39. En de Heere bedekte de tepelen en duisternis kwam tot de plaats. 40. En de Heere vroeg of ik het geheimenis wilde weten van de drie stamhoofden in het gebeente en ik stemde toe. 41. Toen sprak de Heere deze woorden, zeggende : De drie stamhoofden zijn drie geesten die de schatten der aarde bewaken. Die schatten zijn alleen te vinden in de diepste duisternis, in het diepste ijs en daar waar de geesten met de meeste koppen wonen. 42. Alleen zij die verslonden zijn door de Geesten Gods

kunnen daar komen, op de plaats waar de Heilige Voeten des Heeren staan. 43. En de Heere verslond mij in Liefde.

Acha

44. En ik voelde wat het is om te staan op de rots, en ik besepte dat dit het altaar des Heeren was. En het altaar droeg de naam Acha, en stond als een duistere man voor mij. En de Geest Gods viel op mij en bracht mij in zwijm. 45. En ik kreeg een zwarte staf in mijn hand en die staf werd genoemd de Heilige Verslinding. En de Heer sloeg velen met deze staf om hen tot wedergeboorte te brengen. 46. En Acha droeg de honing des Heeren tot de ark, waar heilige liederen verschenen. 47. En de staf was als de fluit des geestes.

Het Eeuwige Gebed

48. En de Heere sprak : Zalig hen die genaderd zijn tot Acha, en zalig hen die van zijn vruchten eten. En ik zag een grote schare met verslonden die de ruiters werden van hen die hen hadden verslonden. 49. En deze ruiters waren duister en vol van ijs. 50. En zij hadden kaarten op hun schouders, waardoor hun gezichten veranderden. 51. En niemand kon hen navolgen, en niemand kon hun liederen zingen dan zijzelf. 52. En zij droegen een eeuwige wapenrusting met namen die niemand kende dan zij. 53. En zij hadden de macht om eeuwige wonden te genezen, en zij droegen vreemde littekenen. 54. En zij kwamen om het heilige en eeuwige gebed te herstellen, en zij leerden de oogst der aarde te bidden deze woorden : Laat ons de werken der abers niet bezingen, maar bindt onze tongen en leidt ons tot Kabernal. 55. Laat het zo zijn dat U spreekt wanneer wij spreken. 56. En laat uw heilige arxels waken over de schuilhoeken van onze monden. 57. Laat het uw adem zijn als wij ademen, en leer ons de woorden van Metensia. Schrijf ze op de tafelen van onze ziel. 58. Bindt onze hoofden met uw heilige koorden, opdat wij de gedachten van Metensia denken, in haar visioenen van vlees. 59. Geeft ons denken vlees en been, met vleugelen van uw geest. 60. Laat Eminius onze raadsman zijn, en laat Matas ons leiden tot de dieptes van het bestaan. 61. Hoor ons gebed en leer ons eeuwige gebeden te bidden om uw eeuwige wetten te herstellen. 62. Stort dan de heilige eeuwige ziel op ons uit, en leidt ons tot eeuwige velden. 63. Laat ons de wet der heilige verslinding niet vergeten, en geef ons het hart van Michai. 64. Laat ons niet wegglijden in tomeloze smeking om uw Geest, maar laat ons zijn als uw Geest. 65. Leer ons te offeren aan uw Geest, en leer ons uw geest te lokken als een geliefde. 66. Leer ons te betalen met zuivere munt. Metensia Eminius.

67. En ik zag een eeuwige ark voortkomen met eeuwige gebeden, en de zielen der heiligen werden verzadigd.

68. En aan de heiligen werden eeuwige visioenen gegeven, opdat zij eeuwige genezingen ontvingen.

69. Ook waren daar ridders die met de aarde onderhandelden, en zij hadden zich vrouwen verkozen, als tekenen van koop en verkoop. En die vrouwen waren als wonden in hun zielen. 70. En zij leden lange tijden onder de onderdrukkingen der vrouwen, totdat een deur in de hemel openging en zij de merktekenen der Geesten ontvingen. 71. En deze merktekenen waren als eeuwige vleesgeworden visioenen.

72. En zij verzamelden de merktekenen als de kaarten der nachtspekers, en brachten hen tot hun schouders. 73. En zij hingen de heilige Wonden des Heeren aan, waar zoete honing uitvloeide. 74. En zij leerden eeuwige liederen en brachten troost aan het hart des Heeren.

73. En in die dagen waren de nachtspelers op aarde, om genezing te brengen tot de harten van velen.

De Nieuwe Openbaring III

1.

De verschijning van Baccus

1. En ik zag een tweekoppige distelslang in de hemel verschijnen, en zijn macht was groot. En toen hij zijn bekken opende sprak hij onverstaanbare woorden van groot gezag. 2. En ik was niet bij machte de vertaling te kennen of iets ervan op te schrijven. En het beest bleef brullen. 3. Zo zal dan de verschijning zijn van het beest des Heeren. En rivieren kwamen voort uit rotsen, en de bomen lieten hun macht zien. 4. En ik zag een ruiter met als naam de hel, zittende op een rossig paard, en het hellenrijk volgde hem. 5. En hij had een beker in zijn naam genaamd Baccus, en die naam werd groot op de aarde. En in die beker zat wijn die nooit opraakte, terwijl de wijn begon te stromen. 6. En ik zag hen van het hellenrijk en hen die op de aarde woonden in de wijn verdrinken. En zie, de beker genaamd Baccus werd vlees, en kreeg macht om velen te verleiden. 7. En hij deelde een nummer uit dat aan een ieder werd gegeven die op de aarde of in de hel woonde, en dat getal was tweeduizendzeshonderdzessenzestig. 8. En allen die het merkteken ontvingen volgden de beker die vlees geworden was tot een rots. En een groot gelach steeg tot de hemelen, maar de hemel weende, en sidderde op haar grondvesten. 9. En een parel verscheen in de hemel, rood als wijn, en spleet in tweeën. En de Heere sprak : 'Mengt dan nu het meel en de wijn.'

De strijd tegen Baccus

10. En Baccus streed tot de heiligen, en zij vonden vertroosting bij oude boeken. 11. Uit de bekken van het beest des Heeren kwamen boeken voort, maar geen van de heiligen was in staat het te lezen, daar het in een andere taal geschreven was. En de heiligen weenden voor duizenddrieenzestig dagen. 12. En na die dagen greep de Heere Baccus en brak deze. En een gewezen steeg op van de aarde en de hel en zij riepen : 'Nu is de beker der hoeren gebroken. Wie zal nog redding vinden ?' 13. En de aarde brak open in vier delen en slokte het hellenrijk op. En zie, het paard waarop de ruiter genaamd hel zat, had drie ogen, en vuur kwam uit dezen. 14. En Baccus begon woorden te spreken tot de allerhoogste, en klaagde om de plagen die de Heere had gebracht. En weer daalde de Heere neder en brak de kaak van Baccus. 15. En er was een stilte van dertig uren in de hemelen, en de aarde begon nieuw gewas voort te brengen. En de Heere sprak : 'Zie, Baccus zal drie keer gebroken worden.'

Het herstel der apostelen

16. En in die dagen begon de wijn des Heeren te vloeien, en hen die zich in ontsteking bevonden om wille van de Heere werden als de distels, en volgden de tweekoppige distelslang. En de Heere begon die dagen te brullen, en een tweekoppige leeuw verscheen in de hemel. 17. En deze begon te lezen uit de boeken van de distelslang en vertaalde het voor de heiligen. En de Heere sprak : 'Nu is het ambt van apostelen hersteld, en zij zullen niet meer vervolgd worden in Mijn tempelen.' En de Heere gaf rust aan zijn apostelen, en aan hun geslachten.

2.

Het lam van Baccus

1. En de Heere bracht Baccus tot een grote oven en brak de voeten van Baccus. En de wijnen des hemels begonnen de heiligen toe te rusten tot de laatsten der dagen. En zij droegen de wonden van de tweede Christus en de tweede profeten in hun voeten. 2. En de Heere sprak : Wee hen die op de aarde en in de hel wonen, want de tweekoppigen zijn tot hen gezonden. En ik zag een tweekoppige arend een lam verscheuren. Dit dan was een vals lam die zij vereerden. 3. En het lam gaf licht om de tweekoppige arend te verblinden. Toen zag ik een tweekoppige haai komen die het licht van het lam opslokte. Maar het verscheurde lam begon grote woorden tot de hemelen te richten, en grote beroerten kwamen tot de profeten en hun geslachten. 4. En zij vielen als in zwijm op de grond, en velen begonnen zich tegen de Heere te keren. Dit dan is de afval der profeten. 5. En het lam dan zocht troost bij Baccus, maar het vuur van de grote oven had hem verteerd, maar het lam wist dit niet. 6. En toen dan het lam bij de resten van Baccus aankwam, weende het voor zessenveertig dagen. 7. En vele heiligen kregen medelijden met het lam, ook enkelen die van de Heere waren. 8. Maar de toorn des Heeren ontbrandde tegen het lam en hen die medelijden hadden, en de grote oven verzengde hen allen. En grote angst viel op de rest van de profeten, en zij waren ziek voor enige tijd en kregen visioenen.

De behoudenis der wijn

9. En ziet, het rossige paard kreeg een tweede kop, en misleidende boeken kwamen uit zijn bek om velen te verleiden. En de boeken hadden macht om vuur uit de wolken te doen laten neerdalen. En grote vrees kwam tot hen die de boeken lazen. 10. En de Heere gaf mij een sleutel om de zessenveertig geslachten der profeten te openen, en die nacht had ik vele nachtvisioenen. En de Heere sprak : 'Nu de aderen der profeten geopend zijn zal de wijn behouden worden en niet meer ter aarde vallen.' 11. En de Heere liet het zaad en het kruid tussen de wijnen stromen.

3.

De noodzaak tot tuchtiging

1. En de Heere bracht een brandende wind tot de profeten in de verdrukking, en sprak : 'Van nu aan zal de apostel de vader zijn van de profeet. Vervloekt is dan iedere apostel die zijn zonen niet tuchtigt en vervloekt is dan iedere apostel die zijn zonen niet bedekt.' 2. En de Heere gaf Zijn profeten haren mantels en haren dekens en sprak dat zij nog enige tijd in de woestijn moesten leven. 3. En de Heere verbrandde vele boeken die de hoofden van de profeten kwelden. En de Heere gaf hen een nieuw boek. Zalig hen die de woorden van dit boek lezen, verstaan en doen, want zij zullen koningen des Heeren genoemd worden en schenkers van de tweede wijn. 4. En de Heere bracht schenkers tot hen die in de woestijn leefden, en liet hen de geslachten der engelen zien. 5. En hen die rechters waren droegen vlammen van zaligheid, en zij waren de vaders der apostelen. En zij deden grote wonderen en tekenen. Zij hadden de macht de dieren des hemels op aarde te laten verschijnen. 6. En de Heere toonde mij het geslacht der tweekoppigen, en dit geslacht was groot. En ik boog voor hen in de hemel waar ik opgenomen was, maar de Heere sprak : 'Ga recht op je voeten staan. Zij hebben van de bittere vruchten van Rietel gegeten, en zijn door de tweede Mura rein geworden.' 7. En ik zag dat zij die in de eerste drie Utmiren zuiver hadden geleefd door de Heere tot engelen werden aangesteld in de vierde Utmir. 8. En de tweekoppigen hadden toegang tot de diepste heiligdommen van God in Zijn zuiverste tabernakels. 9. Ja, zij waren het die de gloeiende kolen van de allerheiligste altaren en arken mochten verplaatsen. 10. En hun macht was groot, want zij waren vol van het lijden en sterven van de Heere, en zij aanbaden de Ziel des Heeren met hun vleugelen dag aan dag, terwijl zij geen rust hadden. 11. En ik zag de Heere zitten als een zevenkoppig dier op

Zijn Troon. En Hij sprak : Ja, zeven tijden zullen over de aardvlakte glijden om de aarde te louteren, en dan zal zij geheel des Heeren zijn. 12. En deze woorden waren groot, en ik zag tongen van vuur uit de koppen komen. 13. En de Heere sprak : 'Velen zullen komen om deze woorden trachten te ontcijferen, maar alleen hen die in de krachten des Heeren leven zullen het verstand hebben om de woorden te berekenen.' 14. En het Dier had zeven wonden en geleek op een schaap, met bekken als van slangen en eenden. En zo was dan de verschijning des Heeren. En de Heer sprak : 'Aanschouwt dan de draak des Heeren. Gij zijt zalig dat gij hier gekomen bent.' En wat ik toen zag was ik niet gemachtigd om op te schrijven.

4.

Het Sarhah des Heeren

1. En na hetgeen niet geschreven mocht worden zag ik een brandende struik met miljoenen takken. En ineens veranderde de struik in het hoofd van een leeuw, en deze leeuw sprak ontelbare woorden. 2. En ik zag hen die de hemelen en hun afmetingen mochten bereken, en zij hadden palmladeren in hun handen waarmee zij wuifden. En zij stonden voor een grote zee. En deze zee was vol met wijn, gemengd met vuur en ijs. 3. En dezen hadden de godslasterlijke beesten van het tweede overwonnen. En zij hadden ogen als vogels en in deze ogen waren getijden als eb en vloed, en deze ogen waren groot. 4. En hun getal was tweemiljoenhonderdvierenveertigduizend, en zij zongen het lied van de tweede Mozes. En zij waren losgekocht uit alle stammen der apostelen en profeten. 5. En zij waren rein in de ogen van de Heere, onbevlekt van vrouwen, en hun bloed was bestand tegen de tweede slang en zijn nageslachten, want zij hadden hun bloed laten vermengen met het kostbare Tweede bloed des Heeren. En zij hadden toegang tot het tweede duizendjarig rijk des Heeren. 6. En de tweede Abraham had bloed van het altaar aan hun deurposten gesmeerd, opdat de derde en vierde dood hen niet zouden vinden. 7. En zij waren zalig in Abrahams schoot en dronken wijn van zijn heilige baard, en waren volkomen verzadigd door de melk der borsten van de tweede Sara. En zij werd ook genoemd het Sarhah des Heeren, en deze plaats was zoet. 8. En de engel Torio daalde neer tot mij, en gaf mij de sleutel om het geslacht der driekoppigen te openen. En zij hadden grote macht in het tweede duizendjarig rijk, omdat de Heere hen tot die dagen had opgespaard. 9. En zij hadden de vingers van Spricht om ketenen open te maken, en de Heere zegende hen. 10. Vertrouwt dan op de Heere uw God, want Hij heeft Zijn driekoppigen tot u gezonden om de poorten van uw nachten te behoeden. En zij zullen vele wonden verzoeten. En de Heere sprak : De dagen zijn kort. 11. Neem dan het tweede evangelie Gods en verkondig het aan de ganse schepping tot tweede behoudenis. En Hij sprak over het geheimenis van de tweede geest. 12. Laat dan uw hart besprenkelt zijn door het heilige bloed van de Tweede Christus, en weest één met Hem, als met het dier van uw geest. En toen liet de Heere zich verplaatsen op een vurige wagen die over een baan met vurige kolen reed. 13. En Zijn paarden vatten vlam, en Hij verdween. En toen kwam de engel Torio wederom tot mij, en legde een gloeiende kool in mijn hart, en sprak, zeggende : 'Ziet, gij zijt gezalfd voor het aangezicht des heeren om Zijn werken te doen.' En hij was dan de engel der driekoppigen. 14. En hij sprak de woorden tot een eeuwige gemeente : 'Blijft dan in de Liefde, en begint de woorden des heils te verkondigen tot de gemeente, en vandaaruit tot de vier uithoeken der aarde. Leert hen aldus de geheimenissen van de tweede wijn en het lijden. 15. Laat hen die het ijs niet willen aanvaarden achter, en laat hen u niet storen. Zij zijn als het stof van de wind en zullen vergaan. Maar hen die het ijs kennen zullen leven tot in aller eeuwigheden, en zij zullen leren en nemen van de verborgenheden des hemels. 16. Zalig hem die deze woorden hoort en ze doet.' En het tweede vrede-rijk des Heeren nam bezit van mij en de engel verdween.

5.

De Verschijning van de Tweede Christus

1. Zalig hen die genaderd zijn tot Spricht. Want zij zullen gaan van behoudenis tot behoudenis. Ja, want de Heere heeft vele behoudnissen gereed voor hen die Hem zoeken. 2. En de Heere brandmerkt Zijn geliefden met ijs, met de kostbaarheden van Zetdonia. 3. Maakt dan open de poorten voor de Heere, opdat gij ook bij hem ingang zult vinden. 4. En ik zag de tweede Christus staan en viel als dood voor Zijn voeten. En ik zag enkele witte smalle doeken om zijn hoofd en tussen zijn haren. Zijn haren waren wit, en zijn ogen als het morgenblauw. En Hij sprak : Zie, Ik ben dood geweest, en nu levend tot in aller Eeuwigheden. 5. Ik ben de Eerste en de Laatste, dragende de sleutels van de dood, de hel en de tempelen. En Zijn gezicht straalde als de volle bliksem, en ik voelde mij alsof al mijn bloed uit mij wegstroomde. En toen sprak Hij : Schrijf tot de tweede gemeenten hetgeen Ik te zeggen heb.

Aan Efeze

6. Schrijf aan het tweede Efeze : Gij architecten van het huis Gods, gij hebt de bouwstenen van zijn nieuwe gemeente gelegd, en het kwade weggesneden. Gij haat het kwaad zoals de Heere het kwaad haat, en daarom heeft de Heer u een zuiver altaar gegeven. 7. Ook hebt gij Zijn ijs niet veracht, maar laat niemand zich opblazen in kennis. Legt u toe op de kinderlijkheid en het lijden, opdat gij uw zielen zult behouden in de dag des heeren. Die dag zal komen als een vuur. 8. Slijpt en wast uw kennis dan aan het kruis des heeren, zodat het u niet aangerekend wordt op die dag. Gij dan zult de vruchten des levens eten, indien gij de wortels van de boom kent. Zo zult gij zalig wezen en de Heere zal u Zijn steen op uw voorhoofd geven, en u laten eten van het allerheiligste manna. Dit dan is het Tweede Woord.

Aan Smyrna

9. En schrijf dan aan de gemeente van het tweede Smyrna : De Heere kent uw verdrukkingen en uw armoede, daar gij het tweede kruis draagt. Ja, gij zijt jong en zult veel moeten lijden om het Woord Gods gestalte te laten krijgen, en Zijn tempel. 10. Gij zijt dan het zaad op de tempelbodem, maar gij zult worden tot een altaar. Vreest dan niet wanneer gij voor onaangename verrassingen komt te staan. Deze dingen moeten geschieden, en zijn uw sleutels tot zaligheid. Ja, u zult gemeten worden tot een passend lid in de tweede gemeente Gods. 11. Laat dan de raadselen des Heeren u verheugen en zoekt naar de bron achter alle dingen. Dan zult gij de kroon ontvangen, en gij zult van de derde en vierde dood geen schade lijden. 12. Sla dan acht op de verzoeking en ken uw vijand, opdat gij niet door uw zonden zult lijden. De Heere heeft u dan een zekere onwetendheid aangemeten tot uw eigen zaligheid, maar laat dit u niet aansporen tot roekeloosheid maar veeleer tot vrezen en beven. 13. Siddert, gij die jong zijt, want gij hebt vele vijanden. Zij dan zullen u overleveren aan de synagogen des satans, en gij zult niet kunnen spreken voor geruime tijd. Maar de Heere zal uw tong zuiveren en gij zult de kostbaarheden van de stilte kennen.

Aan Pergamum

14. En schrijf aan het tweede Pergamum : De Heere kent uw moed, en uw werk voor wezen en weduwen. De Heere heeft gezien hoe gij uzelf vernedert voor Zijn aangezicht. De Heere heeft u de vleugels van Zijn arend gegeven om te reiken tot onbereikbare plaatsen, en zo hebt gij grote oogst gebracht. 15. Gij hebt geleerd in duisternis te leven, en gij hebt geleerd de verrukkingen van het ijs. Gij bent dan als vaders en moeders geweest voor de kindekens, en hebt hen door de duisternis

geleid. Gij bent als een oog geweest voor hen die geen oog hadden, en als een oor geweest voor hen die geen oor hadden. 16. Gij zijt gezegend in alle opzichten daar gij de voetstappen des Heeren gevolgd hebt. Toch heb ik tegen u dat gij de profetieën veracht hebt, en het onderwijs gemedend. Ja, gij zijt lauw geweest voor het aangezicht des heeren, en uw hart gericht op bijzaken. 17. Houdt dan het goede spoor met uw hart, opdat de Heere uw hart niet zal slaan. De Heere zal veel rekenschap laten afleggen door ouderen, daar zij groot licht hebben ontvangen. 18. Laat uw hart dan niet indutten, maar staat op, gij die slaapt, en laat de Tweede Christus over u schijnen.

Aan Tyatira

19. En schrijf dan aan het tweede Tyatira : Wie een oog heeft die ziet wat de Geest aan de tweede gemeenten toont. Zalig hen die de diepten van Spricht kennen. Gij hebt oog gehad voor het kleine van God, van onschatbare waarde voor Zijn Koninkrijk. 20. Gij hebt grote macht gekregen, en gij kent de kunst des Heeren. Laat uw hart dan niet week worden, gij die in het verborgene leeft, want de Heere zorgt voor u. Hij heeft u Zijn raven gezonden om u te voeden. 21. Laat uw hart dan niet bevreesd worden, hen die diep in het ijs leven, want gij zult van het ijs leven als hen die door het lijden leven. Laat dan een ieder beseffen dat Hij die de littekenen van de tweede Christus draagt vele schilden heeft.

Aan Sardes

22. Schrijf aan het tweede Sardes : En dit spreekt Hij met het bloedend zwaard en de koperen rots : Gij kent de wetten der natuur, maar gij hebt diep gezondigd. Gij kent de wetten van Mijn Geest, maar gij hebt u niet onderworpen. Ja, gij werd groot op aarde en in de hemelen, maar gij wildet niet luisteren. En zo hebt gij Mijn Geest gedooft, maar gij hebt uzelf bekeerd en bent tot Mij opgeklommen, en gij doet grote werken voor Mijn Geest. En de Heere heeft u een bedekking gegeven, en de Heere heeft u naast Hem neergezet. 23. De Heere heeft u gemaakt wit als sneeuw, maar toch is het nog duister van binnen. De Heere nam u aan als zonen, maar gij waart zonen des satans. De Heere gaf u ringen van goud, maar gij droeg ringen der duisternis. 24. Houdt dan vast aan het werk dat God in u heeft gedaan, want anders zal de Heere tot u komen en uw werk slaan met de ban. Maar gij hebt enkelen onder u met kleine zonden, en hen die hun klederen wit hebben gehouden. 25. Zij zullen voor u uitgaan tot de Heere, maar als gij terugkeert tot de boze, dan zullen zij u oordelen zoals de tweede engelen Gods u zullen oordelen. Laat dan de bazuinen des Heeren u opwekken, en volgt Hem die macht heeft het leven aan de duisternis over te dragen.

Aan Galatie

26. Schrijf aan de gemeenten van het tweede Galatie : Gij weet dan dat er wijn vloeit uit de voetwonden van de Tweede Christus, daar Hij in Zijn lijden de persbak van de gemeente getrad, en dat Zijn voeten nu staan in het tweede Israel. Gij bent dan slaven van de wereld geweest, met ketenen om uw voeten, maar de Tweede Christus heeft u vrijgezet, door het bloed dat uit Zijn voeten vloeide. 27. Ja, gij hebt met Hem geleden in slavernij en het juk met Hem gedragen. Daarom zijt gij zalig en bent gij tot de wijngaarden Gods gekomen. Ja, ook gij bent in de Tweede Christus een Tweede jood, en hebt deel aan de schatten en rijkdommen van het Tweede Israel. 28. En voorzover gij nog slaven bent : Gij draagt de ketenen des Heeren. Gij dan zijt geheiligde dragers van Zijn Woord en Tijden. Laat dan niemand u gering achten.

Aan Kolosse

29. En schrijf aan de gemeentes van het tweede Kolosse : Dit zegt Hij met het gouden zwaard : Gij zijt belogen geweest en bespot, omdat gij Mijn klederen droeg. Gij weet dan dat gij door de oven moest om zevenvoudig gelouterd te worden. Ja, Ik heb hen gezonden, en gij bent enige tijd gestruikeld. 30. Gij bent dan in de handen gevallen van rovers, maar weet dat het Mijn handen zijn, en Ik zal u daarin omvormen. Vreest daarom geen kwaad, kindekens, want Ik ben het die u leidt en voert. Gij bent in dienst geweest van vreemdelingen, in een vreemd land, maar Ik was daar om u de geheimenissen des Geestes te leren. 31. Ik heb u onderwezen in het diepste van de put, en Ik heb geen medelijden met u gehad. Ik heb immers een schuilplaats voor u bereid. Goed is het dan om tot stilte te komen en goed is het dan om gebroken te worden, want zijt gij niet allen afgedwaald. 32. Ik dan ben de Goede Herder, en ben reeds geweest waar gij komt. Weet dan dat gij door het lijden elkander hebt leren kennen, en door de muren van elkanders harten bent heengebroken. Weest dan met elkaar verbonden in het lijden, en het ijs, want buiten lopen de wolven wachtende om datgeen te verslinden dat losgeraakt is en achtergebleven.

6.

Het Tweede Patmos

Ja, hij berijdt de Johan, tot in de diepste dodenrijken van het zachte. En ja, zij zullen de vliezen der aarde en der hemelen herstellen, en zij zullen tot de honing komen. Ja, tot driemaal toe. 4. Ja, en zij zal zijn als het slikken der aarde en der dagen, en als het geribbelde gehemelte. 5. Door vele dodenrijken van het zachte, wordt er gegeten door de hemelen, om u te leiden tot het geribbelde. 6. En het tweede dodenrijk der rode tijgers is dan Sahertin, en zij is als het eerste station van Narzia, het hete Gods. En het derde dodenrijk is Stertes, en zij brengt de volgelingen van de zebra en het geribbelde tot de schatten van Narzia. Ja, zij is als de adem der treinen. 7. En het vierde dodenrijk is Samantis, en zij is als het verloren

gegane deel van Torhan, het lange Gods. 8. En zij herbergt dan alle dodenrijken van het lange Gods, tot aan Matadok. 9. En haar eigen deel reikt tot aan het Kabbernal, de berg Gods. Haar eigen lengtes zullen de rivieren van Kabbernal beroeren, en haar manschappen zullen de heilige profeten aldaar beroeren, opdat er zuivering onder hen wordt aangebracht. 10. Ja, zij zal heilige profeten leiden tot onder het gele, zelfs tot aan het spiegelende gele, en zij zullen haar aanhangen, en de geheimenissen des Heeren en van de Oranje Saturnus zien. 11. Ja, zij zal hen leiden tot de sterren van de witte chocolade, de sterrenhemel Gods, en zij zullen haar luid vereren zonder dat iemand zegt het is afgoderij. 12. Ja, zij zal Torhan herstellen, het lange Gods, en zij zal koningen daartoe aanwijzen. Zij zal de geslachten der cobra's oprichten en zij zal de Gezegende zijn, en het vuur Gods. 13. Ja, over Narzia en Torhan regeert zij, tot aan het Materos, en zij zoekt zelf haar koningen uit. 14. Ja, zij zullen zijn, de langen Gods, en haar gezandten. 15. En haar stem zal zijn als het bewegen van ondergrondse treinen. In Kabbernal zullen de wijzen haar vinden. 16. En zij zullen zeggen : Wij zijn gekomen tot de berg Gods, waar wij de schatten der aarde als heilige ringen hebben gevonden. Ja, en ziet, deze ringen waren als slangen, uitgezonden om de lichamen der heiligen te herstellen en te verheerlijken. 17. En in Kabbernal zal die dagen een grote poort geopend zijn, en deze zal genoemd worden de poort der mezen. 18. En dan zal Kabbernal zijn tot een stad der vogels, en tot een eeuwigheid in alle eeuwigheden. En zo zal dan zijn het herstel van Kabbernal, waartoe ook Abdal en Maasdo zijn uitgezonden. En dan zullen de wereldschepen opgesteld worden.

Ja, als drakenuren zijn zij, de grote netten om grote vissen mee te vangen. 18. En de Griezemoen is als de zwarte libra, als het clownsgezicht met daaronder de draaiende gaten waardoor wij kunnen dwalen, ja, als de tijgertunnels en de draaiorgels, om de zwarte vleermuis te ontmoeten als in een draaiende spiegelmolen. En uit zijn mond komen de draden die wij achterlieten, klaar om door de ringen van vuur te gaan. De Beer van Narzia

1. De hitte zit me op de hielen, een beer zit mij achterna, één op grote wielen, komende vanuit Narzia. Dit zijn hoge golven, vanuit berenstad heeft hij een plaats verworven. Deze hitteden zijn groot, deze zeeën van vuur, zijn zij hoger dan de karazuur ? 2. Metensia, redt mij. Alleen mijn penseel kan mij redden. In welke taal moeten wij spreken. Zij zullen alles breken. Er is hoog vuur in dit uur, de berenstem klinkt, vanuit het heiligdom Gods. De hitte zit me op de hielen, het vuur stijgt en komt als klotsende lava op me af. 3. Ik kan alleen schrijven, anders wordt het m'n graf. Nog nooit eerder is er zo'n hitte gekomen, ik moet nu snel mijn penseel laten stromen. Ja, mijn enige zwaard is zij, als de beer op me af zal komen. 4. Ik zal moeten strijden in het Pniel, worstelende met God, die Beer is.

Berenrijken

5. En dit dan zijn de berendodenrijken : De eerste is Beherzin, met Viantrau als hellenrijk en Vaatmis als karbulijn. De tweede is Roksdal, met Vintiau als hellenrijk en Katakis als karbulijn. De derde is Hotmir, met Vindriamen als hellenrijk en Vottomis als karbulijn. De vierde is Hehenkescha, met Kjatanburch als hellenrijk en Vatian als karbulijn. Nerchjabter is de negende met Oxdraifurt als hellenrijk en Kwiabanter als karbulijn. 7. En Pianhout is vanaf dan het dodenrijk, het tiende dodenrijk, tellende vanaf de eerste Pianhout, en sommigen zeggen dat de dodenrijken eigenlijk pas daar beginnen. En zo zijn er dan honderden, zo niet duizenden Pianhouten. En Swahmahelsch is vanaf dan het hellenrijk, en Kwigmanesch vanaf dan de karbulijn.

De fluit

8. En ik smeekte tot God om mij te vertellen wat er dan met de beren was, daar de hitte zo groot was als ik nog nooit had gevoeld, en zo bedreigend. En ik zag een beer die was als een bever en daarna als een cobra, en hij was als een rat des hemels. En ik hoorde een schreeuw. 9. En de Heere toonde mij een laken waarop een kleine man zat. En hij had een fluit in zijn handen, en bracht het naar z'n mond om erop te spelen. En de Heere keek vooruit, en in de verte kwam er een groep beren aanrennen, en zij renden richting de kleine man. 10. En de man begon te spelen, en de beren werden rustig. Maar na een tijdje stopte de man met spelen, daar hij moe geworden was, en de beren vielen hem aan. En de Heere sprak : Zo zult gij ook het volk moeten temmen, en ik zal u de liederen daartoe geven. En ik zag de beren komen tot een groep mensenkinderen, en zij namen bezit van hun zielen. 11. Want ziet, de mensenkinderen werden dan geschapen voor de beren. En er was niemand die de beren tegen kon houden, want hun hitte was groot. En de Heere gaf mij een stuk brood, en zo kon ik de beren verder temmen. En zij dan gingen overal waar het stuk brood was, maar zij konden van het brood niet eten, daar het eeuwig was. 12. En er was appelwijn door het broodmeel heengemengd, en de beren kwamen telkens weer achter deze geur aan. En de lucht was bedrukt, en de hitte liep op, maar ik was als achter glas en de hitte kon mij niet raken. 13. En het glas begon te groeien en begon de beren verder weg te drijven. Maar weer kwam er hoge druk tegen het glas, en de hitte begon op te lopen tegen het glas tot ongekende hoogtes, en zij vonden een gat boven het glas, waardoor zij heen konden klimmen, en het was alsof kokend water op mij viel. 14. En de Heere gaf mij een schep waarmee ik een gat in de grond groef. En de ruimte binnen het glas liep vol, en aldus was het geweten des Heeren. En er stond een boom die gemaakt was van de voeten der mensenkinderen, en het werd de boom gegeven een mond te hebben, en die mond was genaamd De Wet. En deze mond sprak van grote dingen, en groeide terwijl het grote woorden uitsprak. 15. En

het werd de boom gegeven een oog te hebben en dit oog heette Het Recht, en zij begon te veranderen in een zwaard. En de Heere sprak : Eet dan niet van de vruchten van deze boom. 16. En ik vroeg me af waarom er niet van gegeten mocht worden. En de Heere sprak : Weest dan niet snel om de wet te grijpen en weest niet snel om het recht te hanteren, want er is een weg die dieper leidt. En de Heere leidde mij tot diep onder de grond, tot een grot waarin beren opgesloten waren. 17. En in die grot stond weer een boom gemaakt van voeten, maar ook was zij gemaakt van konijnenhoofden. En toen ik dit zag kon ik voor geruime tijd niet spreken. En het werd de boom net als de eerste boom gegeven een mond te hebben, en die mond heette De Stilte. 18. En ook werd de boom een oog gegeven, genaamd De Duisternis. En zo was dan de tweede boom, als voortbrengende voedsel van konijnen. En de Heere sprak : Eet. En toen ik ervan at begon de boom ook in mij te groeien. En toen sprak de Heer : Ga nu terug tot de eerste boom. En ik liep weer tot boven de grond, terwijl de beren mij volgden. 19. En toen ik daar aankwam begon de boom weg te smelten. En het laatste deel van die boom steeg op totdat het het gat boven het glas had bedekt. En weer kwam er een intense hitte binnen het glas, maar ditmaal slokte de tweede boom dit op, en begon erg koud te worden. En weer moest ik eten van de boom, en ik werd kouder. 20. En aldus was de konijnenboom als de berenfluit. En zij was als de karmozijn en de wever tussen Narzia en Zetdonia. En zij dan was als de fluit des Geestes. En zij bracht voort de allerhoogste tonen die ik ooit had gehoord, en de allerlaagste tonen.

De tranenboom

21. En de Heere leidde mij tot een berenboom genaamd Brimmadim, en zij droeg de hoge tonen des heeren. En zij was als het sieraad van Mezedium, terwijl zij het sieraad Abdal Maasdo Kabbernal tot de Heere bracht. En haar werd een mond gegeven genaamd Traagheid en een oog genaamd Naaktheid. 22. En uit haar voort kwamen roze draden die geleken op voetzolen en de heilige tepelen des heeren. En ik kwam tot de boom en weende voor vijfendertig dagen. 23. En na die vijfendertig dagen leidde de Heere mij tot een tijgerboom, en zij was genaamd Sansamen, en zij droeg de luide en de lage tonen des heeren, en ook haar werd een mond gegeven, genaamd Doofheid, en een oog genaamd Blindheid, en aldus was de verschijning des Heeren. 24. En zij bracht het sieraad Sartarus Akra Zoekra voor de voeten des Heeren, en deze voeten begonnen te schijnen als de zon. En de Heere sprak : Ziet dan, de heilige traan is vleesgeworden. 25. En deze traan kwam van onder het roze, en zij was als de staart van een vis. En zij weende dan, zeggende : Wie kan de karmozijnen besturen, want zij zijn als wilden en als schapen zonder herder. 26. En geen van de tartaren was kundig genoeg om hen te besturen, en ook de Heere weende. En er kwam een konijn voor het aangezicht des Heeren, en ziet, hij was gekleed als een beer en een clown. 27. En Hij nam de vleesgeworden traan, die als de staart van een vis was, en hij nam haar tot een vissenboom. En zodra de vissenboom begon te wenen werden de karmozijnen rustig. En alzo was het dan een tranenboom, en zij bracht tranenbrood voort om hen rustig te maken. 28. En haar werd een mond gegeven genaamd Rust en een oog genaamd Wildheid, en de boom werd zeer wild, terwijl de karmozijnen steeds rustiger werden. En aldus werd zij dan de koningin der karmozijnen.

De slangenboom

29. En het konijn nam de tranenboom als een staf in zijn hand, en leidde er velen mee tot rust. En de Heere wachtte totdat al Zijn Tranen vleesgeworden waren, en Zijn bloeddruppels. 30. En een luid gegil steeg op tot de hemel. En dit dan waren de dagen waarop het gillen des heeren vlees werd, en dit was als het komen van de slangen tot de aarde. 31. En de Heere gaf het sieraad Sartarus Akra Zoekra aan Sarsia van Renok, en Abdal Maasdo Kabbernal werd gegeven aan Metensia tot Sieraad,

en zij werd tot een stad van bevers, vossen en de ratten des hemels. En ook Metensia werd tot een sieraad, waar ze zo lang op had gewacht, tezamen met Eminijs en Matas. 32. En zo werd Metensia Eminijs Matas tot het sieraad van de Esmeralda. En het gewezen des heeren werd vlees en was als een slang, en bracht kou tot de aarde om velen te verslinden en te wurgen. 33. Ja, de wurgslang des heeren was opgestaan, en zij gleed tot een boom genaamd de slangenboom. En de slangenboom werd groot op de aarde, en verhief zich zelfs tegen de tranenboom, want vele tranen dan waren onzuiver. 34. En aan de boom werd een mond gegeven genaamd Angst, en zij weende luid, en gilde. En haar werd een oog gegeven genaamd Woede, en zij begon luid te schreeuwen. En de boom begon te schudden en haar vruchten vielen op de aarde. 35. En het konijn kwam tot de slangenboom om het als een staf in zijn hand te nemen, maar de slangenboom viel hem aan, en ook een schaap met haar lam werd door de slangenboom aangevallen. 36. En zo ging de spreuk 'waar de slang het lam slaat' in vervulling. En er was gewezen voor zeventig dagen. 37. En na die zeventig dagen werd Mura Izu Brannan tot een sieraad des Heeren, en zo kwam Izu eindelijk tot rust, waar het zo lang op had gewacht.

De Grote Witte Oorlog

38. En de Heere sprak : Zuivert dan de tranen voor mijn aangezicht. En er kwam een oorlog genaamd de grote witte oorlog, en zij duurde honderdvijf dagen die tot honderdvijf dagjaren werden. En de Heere sprak : Nu dan zijn de grote tijden van het jaar gekomen, en de grote traan. 39. En de haaien des hemels vonden rust in de grote traan. En zo ook de walvissen des hemels, en andere grote vissen des Heeren. En de Heere zag dat het goed was. En aan het einde van de grote witte oorlog stond er een spinnenboom op een berg. 40. En achter die boom, achter één van de grote boomstronken was een deur die liep tot onder het witte, en zie, het was daar als de witte chocolade en haar sterren. En de sterren begonnen nieuwe letters voort te brengen als het alfabet des heeren, en deze letters begonnen vlees te worden. 41. En de Heere nam de talen der aarde en zuiverde hen in een bak genaamd Solt, en deze bak was wit. En de Heere begon de spraak der aarde te verwarren, en begon zijn alfabet te tonen, en zijn taal. En ook begon de heere de verborgen geslachten te tonen, en de sterren van de witte chocolade vielen op de aarde. 42. En ziet, deze vallen waren heilig. En de heere nam het mannelijke en vrouwelijke en bracht hen in de bak genaamd Solt om het te verwarren en te zuiveren, en het was alsof er een spiegel brak, en vanuit een witte spiegel kwamen lichtpaarse wezens, die zo lang opgesloten hadden gezeten onder het oosten der aarde. 43. En het oosten der aarde was als een witte vlieg en een paarse vlieg, en zij werden verslonden door een paarse spin, en zij droeg de sterren van de witte chocolade op haar rug. En vele van deze sterren waren lichtpaars. 44. En de paarse spin begon de boeken der aarde te verslinden, en de sterren van de witte chocolade brachten nieuwe boeken. En de boom der angsten begon op de aarde te groeien, en zij die niet van de vruchten dezer boom aten smolten weg door de vuurballen van Narzia. 45. En Zetdonia begon groot te worden op de aarde, en zij die van de vruchten der angsten hadden gegeten hadden rijkelijk toegang tot haar. En ziet, zij was als een ijsbeer en als een walrus, ja, als geleken op een witte haai. 46. En de Heere zag toe op de aarde, en zag dat het goed was. En zij die angsten hadden konden elkaar vinden, en zij brachten elkaar tot de wereldschepen, en tot het grote Metensia. 47. En ook de boom der bitterheden begon op de aarde te groeien.

De sterrenhemel van de Witte Chocolade

48. En de sterrenhemel van de witte chocolade had vier districten, genaamd Sepanda, Eklaaf, Benglaham en Khelb. 49. En Sepanda dan had de volgende sterren : Khnum, Zkum, Zkuhm, Mum, Mehk, Mehn, Zhmum, Zhmen die de oranje hoed is, Zkun die de oranje kamer is, Zkuk, Zehm die

de blauwe hoed is, Ehem die de paarse hoed is, Mena, Zkem, Zkehm die de groene hoed is, Memn de bruine hoed, Muhmn, Khem, Khmen, Kmen, Khner, Khun, Khnun, Khnum de Tweede, Kzem, Knem, Kmem. En zij waren als de spiegels des Heeren.

Ova en Nomusa

50. En de Heere toonde de dodenrijken in de bomen, en ziet, zij waren als de dieren. En de Heere toonde mij het tweede wereldschip genaamd Trideria, en het was als een kano in een groene rivier, en een man genaamd Ova zat daar in, en hij was als de prins der eiken. 51. En hij kende alle ringen der bomen en hun dodenrijken, en elke dag maakte hij de reis door de dodenrijken, totdat Trideria tot een klok en een sieraad was geworden, ja, tot een toren des heeren. En de Heere toonde de hellenrijken in de bergen, en ziet, zij waren als de dieren. 52. En mij werd het eerste wereldschip getoond genaamd Adaka, en zij dan was als de brug der doden, en als een ezel. En een man genaamd Nomusa zat op haar, en hij was de prins der zwarte bergen. 53. En vele kleuren kwamen uit hem voort, en elke dag maakte hij een tocht door de hellenrijken, totdat Adaka tot een klok en een sieraad was geworden, ja, tot een toren des Heeren.

De Taal des Heeren

54. En de Heere sprak : Zalig hen die tot het land der vermoeiden zijn gekomen. En de Heere nam de konijnenboom en plantte het in het land der vermoeiden waar het begon te groeien. En de Heere sprak : Zij dan die tot hier gekomen zijn worden voor veel dingen bespaard. 55. En de geest der slavernij kon hen niet raken. En de Heere nam het grote Mezedium van de toren van virgo en plaatste het op de konijnenboom tot een toren. En alle bomen bogen voor de konijnenboom die tot een toren was geworden. 56. En de Heere sprak weer : Nu zullen de karsuiken tot duizendvoudig herstel komen, en dit zal hen tot duizendvoudige trots zijn, en Hij sprak over de mussen van Metensia. En vele volkeren kwamen tot de voet der konijnenboom vanwege het licht, en dit licht was zacht. 57. En de boom begon te schudden en haar vruchten vielen ter aarde. En Metensia sprak : In veel pijn worden dan grote dingen gezaaid, en tot grote dingen wordt er gezaaid. 58. En zij scheen als het Grote Metensia. En het grote boek der aarde werd in de taal des heeren vertaald, en ziet haar kracht was niet meer, en zij verbleekte voor het aangezicht des heeren. 59. En aldus bracht zij het Tweede Boek des Heeren voort en het Tweede Woord, en ziet, het was geschreven in de taal des heeren. En aldus werden de volkeren onderwezen in de taal des heeren, en er werden nieuwe boeken geschreven. 60. En het derde wereldschip genaamd Biskidde leidde hen tot de slaaprijken, en zij vonden grote rust. En de Biezefic begon haar te berijden, en zij werd tot een sieraad des heeren en tot een toren. 61. En zo waren de silofijnen als de slaap en het gesmolten zilver, en de sidakijnen waren als de slapers en als de gesmolten bruisende vruchten. En zij werden groot voor de ogen des Heeren. Ja, en van hen is de zilveren maan en de zilverster gemaakt. 62. Zullen zij dan niet allen smelten voor het aangezicht des Heeren. Ja de Heere vormt hen en kneedt hen.

Behoudenis door de Konijnenboom

63. En allen die de konijnenboom aanroepen zullen behouden worden, als de toorn van Narzia tot de aarde zal komen. Maar velen zullen zeggen : Heere, Heere, terwijl de Heere hen niet kent. Want zij hebben de armoede vergeten die tot zaligheid leidt. 64. Hoe moeilijk zal het dan zijn voor een rijke om het koninkrijk der hemelen binnen te gaan.

Khnum

65. En het konijn kwam tot het vierde wereldschip en voer met haar door de zwijmrijken, en zij waren als de dromen des hemels. En ook zij werd tot een sieraad en tot een toren, en zij was vol van de tartaren en purpers des heeren. 66. En de vier wereldschepen die als torens waren geworden waren als grote takken der konijnenboom, en zij werd als de staf van het Grote Metensia. En ziet dan, zij was als het witte kruis. 67. En zij was als het kruis der konijnen. En zo was dan het Khnum des Heeren, als een letter van witte chocolade.

De Nieuwe Openbaring V

1.

Verdwenen en nu verborgen

1. Door dag en dauw, ik mis je, ik hoop je te zien, gauw. Groet je moeder van mij, ik mis haar ook, als ze een steek laat vallen, laat haar denken aan mij. 2. Door dag en dauw, wandel ik door de bossen hier, om steeds even rond te kijken, naar vogels met boodschappen van jou. 3. Ik durf geen afgelegen huisjes binnen te gaan, bang om teveel van jouw glimpen op te vangen, en dan weer te huilen als een kind, herinner je nog de tijden dat ik je heb bemint. 4. Ik voel mij nu als steen, 't is goed zo, dat ontken ik niet. Ik mis iets, ik weet alleen niet wat. Het heeft wel met jou te maken. 5. De vensters van de huizen hier, ze staren mij aan, ze zeggen niets. 6. Om de donder dat jij weet dat ik hier ben. Het is niet de laatste keer geweest. Ik weet dat je naar mij tuurt. 7. Ik weet dan niet waar je bent, maar ik voel je aanwezigheid. Het is een warmte die mij snijdt, ach, daar druipt weer bloed uit mijn vinger. 8. Heb ik je per ongeluk aangeraakt, of loop ik soms te dromen. Gek, 't is echt alsof je nog hier bent, maar je bent al jaren dood. 9. 'K zal het nooit vergeten die dag, jij en ik, in die boot. Ik las je daar gedichten voor, je verborg je gezicht achter de randen van je hoed. 'K kon zelfs je glimlach niet zien, en ineens viel je dan uit de boot. Een dier van de rivier had z'n kop vertoond. 10. Kun je me nog eens uitleggen, hoe het allemaal is gegaan. Je was ineens weg, ik zag zelfs geen bellen, verdwenen met het dier. 11. Waar ben je nu, ben je wel echt dood. Hoe kan het dat ik denk dat je nog hier bent. Of heeft God je opgenomen. 12. Hier moet dan ergens je moeder wonen, misschien ben je wel hier. 'T is zo diep in het bos, wel eng zeg. 13. Moeder, kan ik haar hier ergens vinden. Of weet je ook niet waar ze is. Ik mis haar, ik beminde haar. Ik mis haar, sinds die dag op de rivier. 14. Diep in het bos, daar gebeurde het, alsof het woud haar had genomen. 15. Moeder, kijk nou niet zo zuur, je maakt me bang, waar is ze terechtgekomen. 16. Je hebt nog kleding voor haar gemaakt. Komt ze dan nog steeds hier, toe vertel het me. 17. Die avond, 'k zal het nooit vergeten, toe, moeder vertel het me, waar is ze nu ? 18. Je hebt ook nog voor haar gekookt, een tweede bord staat op de tafel. 19. Of is dat bordje dan voor mij, en ook die kleding, ik weet het niet meer. 20. Toe, moeder, zeg wat, of heb je je verstand verloren. Of komt vader vanavond laat nog thuis. 21. Ik

weet het niet meer, wat is dit voor een zwaar kruis. 22. Moeder waarom bent u zo stil, denkt u ook nog zo vaak aan haar.

2.

Daar waar het altijd stil is

1. Als u een steek laat vallen, denk ook aan mij. Of komen ze mij soms ook halen. 2. Ach, misschien zie ik haar dan wel. Moeder u kijkt niet tevree. Ik hoef toch niet voor ze open te doen. U zult mij niet verliezen, dat beloof ik u moeder. Ik blijf wel hier. 3. Komt vader nou nog thuis vanavond, en wat doen al die kleren hier. Ik zie hier ook een bordje staan, of is dat voor mij, ik weet het niet meer. 4. Komen ze nou wel of niet, en krijgen we haar dan weer te zien. Of heeft vader haar soms meegenomen, en zien we haar wel terug in de zomer. 5. Moeder, de Karazuur, moeder, Metensia, hebben zij dit soms gedaan. Zijn zij hier soms geweest. Ik kan niet ademen, toe, zeg het me. 6. De vensters staren mij zo aan, ze zeggen niets, hier is het altijd stil, altijd stil is het hier. 7. Moeder, toe, zeg toch eens iets. Ik zal die dag nooit vergeten. Ach, laat me maar, ik leef toch al in een hel. Maak het maar niet erger. Laat de stilte maar alles verzachten. Ik hoop dat het zo niet erger wordt, of zullen ze komen om alles weer te verstoren. 8. De zon schijnt op de velden, het is Metensia, in haar wagen, zij bestuurt de roze verbinding tot ons heil. 9. Moeder, waarom zing je nou, en wat zijn al die tranen. Wie hebben je verlaten. Ik ben toch steeds nog hier, of heb je niks in de gaten. 10. Moeder, ben je soms doof of blind, moeder, je doet alsof ik er niet ben. Je staart naar Metensia, ben je alles dan vergeten. 11. Ze is van de roze verbinding, ik had het moeten weten. Zij leven dan langs alles heen, alsof alles anders is. 12. Moeder, neem mij op in de roze verbinding. Er is geen ander vuur om ons te veranderen. Misschien vinden we haar weer terug. Komt vader nog thuis vanavond, en de Karazuur. 13. Ze lopen buiten, als golven op het veld, golven van de zon. Ik durf niet meer te kijken. Het is alsof alles al is gebeurd, waar ben ik, of ben ik aan het dromen. 14. Neem mij mee, oh Karazuur, en verbindt mijn wonden, als die van mijn moeder.

3.

Metensia en de Karazuur

1. Moeder, die tranen zijn zo duur, kostbaarder dan goud, draaien ze mijn maag om. 2. Moeder, die lied'ren zijn zo zoet, als stille regen komen zij. Vader komt nog thuis vanavond, en de Karazuur. 3. Mijn lieve is er weer, met sieraden van de wind en de sneeuw, komt tot allen die haar beminne. 4. Liefde als een vuur, als de roze karazuur. Ik durf niet meer te kijken, vader komt vanavond nog thuis. Moeder staat voor 't venster. Zij staart me aan. 5. Kan ik nu alles vergeten, nu zij het licht heeft uitgedaan. 'T is bijna nacht, ik ga slapen, of is het al weer tijd om te ontwaken. 6. Metensia als de zon in schone velden. De Karazuur wacht stil, daar waar het altijd stil is. Vader komt gauw thuis, de regen valt al. 7. Ik hoor de deuren van de schuur. Nu zijn ze dicht, klaar voor de nacht. Metensia, zij staat op wacht. Haar dier heeft ons meegenomen. Ik heb het echt gezien. Of zijn dit gewoon vreemde dromen. Moeder, heb jij het ook gezien. Of is ze nog niet hier. Er staat een bord voor haar op tafel, en voor de Karazuur, het vlees van hen die haar haten. 8. God, wie lokken we nou. De bliksem slaat steeds in. Is het uw Geest of de nieuwe morgen, voedsel voor de Karazuur. 9. Gods engelen zijn daar, als landbouwers der hemelen. God wie lokken we nou. Welke planten schieten op uit de akker. 10. Ik laat dit huis maar eens weer los, mijn haren zijn wild, moeder, de krachtige beminning, de tempel in de honingraat. Wie staat op de loer. Wie lokt ons nu, in dit heilige uur. 11. Wie maakt woning in ons, en waar maken wij woning. 12. Of ben ik maar alleen, tussen de distels van het veld, zonder de kleur van een kroning, zonder huis, zonder woning, gegrepen door een dier.

13. Wie maakte mij, waarom ben ik hier. Waar kom ik vandaan, waar ga ik naartoe. 14. Ben ik wel wie ik denk ik ben, of ben ik iemand anders. De Karazuur komt naar mij toe, dan lopen dingen toch anders, en schijnen anders te zijn. 15. Kan ik mijn gedachten nog wel vertrouwen, ik leg ze stil in God.

4.

De Roze Verbinding na het kruis

1. Metensia, vriend van God, wat ik dan ook doe, het is mijn lot. Ik schilder uw paden, en de gevallen bladeren. De zon schijnt telkens ander licht. Ik grijp niet meer vast, ik laat alles maar los. 2. De momenten van een liefdesgedicht, van jou naar mij, is dit ons lot. 3. De melkselen die nu stromen, ons leidende naar al die vervlogen dromen. Weten we wel wat we missen. 'K zit zo vol haat en ik loop maar te gissen. 4. Wat ben ik kwijt, de melkselen brengen mij naar de diepe verborgen huizen van het bos. 5. Of wonen hier soms criminelen. De Karazuur met hun bevelen, daar waar alles altijd stil is. Wat drinken ze hier, er is hier zo'n gemis. 6. Ik wordt er bang van, van deze huisjes, een zwaar kruis is dit, in zo'n honger te sterven, zonder de momenten van een liefdesgedicht. 7. Dromen komen hier alleen bij vlagen. Wilde katten zijn hier, oh God wat doet dit zeer. De bliksem leidt mij tot hier altijd weer. 8. De blaad'ren vallen hier altijd van de bomen. God is het die de koningen hier kroont. 9. En Metensia die met de Karazuur hier troont, als de zon in een zacht veld. Moeder, als u weer een steek laat vallen, denk dan aan mij. In de Roze Verbinding, beleven wij, herkennen wij elkaar. Kennen wij elkaar. 10. Jij met je groene kap, je dochter met een rode. Kun jij ons dan verstaan hier, het huis, de deuren op een kier. De wind kan jou nu tonen, waarover ik zat te dromen. 11. Nee, jij hebt me nooit pijn gedaan. Jij hebt mij altijd de Karazuur gegeven, altijd een wachter in de nacht, tot viermaal toe. 12. Je hebt mij altijd naar Metensia gedreven. Jij met een groene kap, je dochter met een rode. 13. In de Roze Verbinding konden we elkaar verstaan, drinkende van de tepel van Metensia. De Karazuur liet de wijnen stromen, in 't heilige uur. 14. Je tranen zijn zo duur. Ze draaiden mijn hart en leden. 15. De raadselen des Heeren, door profeten gebracht, door hen met de kappen. Wij waren op dit uur bedacht, de werkers van de Karazuur, je glimlach is zo duur. Je ogen zo stijf dicht, door de zoetheid van dit liefdesgedicht. 16. Door de bliksem spreken wij.

5.

De Tranen van Metensia

1. En wanneer gij tot de Roze Verbinding zijt gekomen, dan zijn uw tranen tot sieraden, en gij zult door de tepelen des Heeren zien als door ramen. 2. Kent dan de zeven tranen van Metensia, want zij zijn als wachters over u aangesteld. 3. En zij komen van het sieraad en zullen wederkeren tot het sieraad. 4. En zij dan bergen de priesterlijke geslachten in zich. 5. En zij dan omgaven de Heere Christus toen Hij in de hof Getsemane was. 6. Gij bent dan genaderd tot de tempel van Metensia, waar de profetische altaren staan en die van de apostelen. 7. En zij dan die haar beminnen zullen gaan van voorhangsel tot voorhangsel, om haar tranen te aanschouwen. 8. En ziet zij zijn als de tranen van Rachel die weende te Rama omdat haar kinderen er niet meer waren. 9. En zo is dan de Geest Gods als een moeder, rouwende om haar kinderen. 10. En zij heeft troost gevonden bij Sarsia en bij grootmoederen. Ja, zij heeft gegeten van het bittere van Mura, en is gegaan tot de tuinen van Rietel. 11. En zij vond troost bij de mintstruik, de eucalyptus, de jasmijn en de vlier. 12. En zo zijn dan de tranen : Marcia, die als het brandende kruis is, omhuld door slangen, waar ook de Marcia-kruisjes vandaan kwamen, want zij leed om haar kind, terwijl haar handen gebonden waren.

Morgennia, die als de bloedende morgen is, en de struik des Heeren. 13. Ageeh, die als de traan der uilen is. Sonia, de bloeiende morgen. Vonja, de getrouwe zuster en het bloeiende maanrood, die een geschenk van Sarsia was. 14. Daphne, die het morgenlicht draagt en de bloem des Heeren is. 15. Melissa, die de aanvoerster van de slangen des hemels is.

6.

Het kunstwerk des Heeren

1. En de tranen van Metensia zullen de attentaten voortbrengen. 2. En ziet, haar tranen zullen uitgestort worden op de aarde, in de dagen der Karazuur, en dan zal er redding zijn in de vier wereldschepen. 3. En zij zullen komen tot Abdal, Maasdo en Kabbernal. Legt dan uw sieraden af, en komt tot de sieraden des Heeren. 4. Gij weet dan dat er geen ander sieraad bestaat dan in het sieren van anderen. 5. Siert dan hen die de tranen van Metensia dragen, als zuivere attentaten. Ziet dan, de kunst des Heeren is list en wijsheid. 6. Laat uw kennis dan niet oppervlakkig zijn, want zij zullen wederom getrokken worden tot het eerste dat ten verderve vaart. 7. Laat dan het lijden u niet overkomen als iets vreemds, want de Heere installeert Zijn knechten. 8. Door vele tranen zult gij ingaan, en zalig zij die vele tranen dragen, want zij zullen vele ingangen en uitgangen vinden. 9. Ziet dan de ark van Metensia besprenkeld met tranen is haar vruchtbaarheid. En door vulkanen zal zij een nieuwe aarde scheppen. 10. En zij heeft dan een ark van tranen, leidende tot onder het roze, zo ook de roze verbinding reikt tot onder het roze, en daar zult gij grote geheimenissen zien. 11. Gij zult dan de paradoxen van Metensia kennen, en haar twee-koppigen. Want zonder hen zou er dan geen vruchtbaarheid wezen. 12. En zo is dan ook de roze verbinding, die als de tepel van Metensia is, vol van haar paradoxen, waarmee zij de aardbodem zuivert, en het heeft de aanblik van een gebroken spiegel, als een brandend edelsteen. 13. En zo is dan de roze verbinding als de ark van tranen en haar schoot, en ook gij kunt opnieuw geboren worden. 14. En elk schepsel is dan geprogrammeerd en zal gericht zijn op het doel dat zijn schepper in hem heeft geweven. 15. Verdoo uw tijd dan niet met ellenlange discussies, maar laat de roze verbinding alles transformeren in eigen plaatsen. 16. Ziet alle dingen bij elkaar dan als het kunstwerk des Heeren, staande op de Emelis Shatau als een geheime boodschap des Heeren, wachtende op vertaald te worden en getransformeerd. 17. Zo is dan de Emelis Shatau niks zonder de Roze Verbinding.

7.

Marcia

1. Gij bent dan door de gordijnen van Metensia gekomen tot haar tranen. 2. Ja, gij bent dan afgezonderd, gij die haar bemint. 3. En zo zijn haar tranen dan als warme vliezen om herstel te brengen. 4. Leert dan de golven van Metensia kennen, want gij zult spoedig op zee zijn. 5. Leert dan de golven van vuur te berijden, en verdraait haar woorden niet, opdat gij niet valle. 6. De Metensia zal dan als een vechtster zijn tegen hen die haar woorden verdraaien, maar in de Roze Verbinding zullen zij naar hun plaats gebracht worden. 7. Voor alles is er dan een plaats. En de heere weet waar elk ding vandaan komt en waar het naartoe gaat. Er zijn dan geen wegen, dan in de Roze Verbinding. 8. En zij is als de vruchtbaarheid en de vulkanen van Metensia. Ziet, gij staat dan op heilige grond. 9. Want alle dingen in de Heere zijn heilig, en worden geheiligd door Hem, om gebruikt te worden. 10. Wijkt dan af van de dingen die ten verderve gaan, want zij zijn door de Heere daartoe geschapen. Maar hangt aan die dingen die eeuwig zullen zijn in de Roze Verbinding. 11. En zo hebt gij dan een verlichte bron in Marcia, want zij zal met het probleem ook voor de oplossing zorgen. Allen dan die kinderen verloren hebben in de Heere en om de Zijntentwille, zij

zullen hun kinderen terugvinden op de daartoe bestemde dag en het daartoe bestemde uur. 12. Brengt dan al uw tranen tot Marcia, want zij kan met u meevoelen, en zal u troost geven. 13. En Marcia is dan de brandende traan van Metensia om vele werken te heiligen, en zij zal hen die hun kinderen verloren hebben een nieuw lied geven, en hen leiden tot plaatsen van diepe geheimenissen en troost. 14. En gij zult zwemmen in de Marcia-traan, als in een meer van tijgertranen, en gij zult honger hebben en veel eten. 15. En door de tranen van Metensia zult gij komen tot haar gebrul. 16. En gij zult haar schreeuw omhullen, en haar troosten in haar gegil. En zij zal wakker worden, als de traan der mussen, als gewekt worden door Rumah.

8.

dat wat ze verboden

1. De muren van de konijn zijn warm, zijn brood is altijd warmer. Het woord van het konijn is zoet, zijn stilte altijd zoeter. Je ziet hun huizen en hun tuinen. Je ziet hun heggen en dat wat zij verboden. 2. De muren van de konijn zijn warm, hun wijnen altijd warmer. Hun reukwateren beter dan goud, hun stilte altijd zoeter dan de dag ervoor. 3. Zou je mij beschuldigen als ik niet binnen zou gaan. Zou je mij beschuldigen als ik dichtbij dat wat ze verboden zou komen. 4. Deze fles brengt me altijd dichtbij.

geest in de fles

5. Achter het plastic is een gezicht, achter het speelgoed een beest, achter het niks een hart dat spreekt. 6. Zonder woorden, zonder enige hoop. Kom met mij mee, maar raak me niet aan. Ik heb een wond die je niet kan bereiken. Ik ben als een geest in een fles.

de koning

7. Als de lente in brand, offert zij de dagen van de poort. Ze gaf een verhaal van liefde, zodat bestemming kon worden gevonden. Zie je hun huizen ? Het is al achter glas. 8. Zie je hoe zij elkaar liefhebben, in zoetheid en mysterie. Zij leven in een vreemde ruimte, al achter glas. 9. Zou je bij hen willen horen, zou je op hun straten willen wandelen, zou je voor hen buigen, of zou je hun koning willen worden ? 10. Ik ben de koning van konijnen, ver weg van je vandaan, ver weg van alles. Ik ben de konijnenkoning, je kunt me niet vasthouden, want ik houdt jou vast. 11. Alles is in mijn handen, mijn winden blazen. Ik ben de konijnenkoning, maar zo dichtbij, zo dichtbij alles. Je kunt me niet vasthouden, want ik houd jou vast. 12. Alles is in mijn handen, mijn winden blazen. Houd me nu vast, laat je winden blazen. 13. Ben jij de koning van de konijnen, dichtbij alles, maar zo ver weg ? Houd je mij vast zoals ik jou vasthoudt ? 14. Alles in je hand, alsjeblieft, laat het me begrijpen, wat het is tussen jou en mij.

Gedenk mij

15. Alsjeblieft, konijnenprins, vergeet me niet. Herinner me, wanneer je bidt, herinner me, wanneer je eet, wanneer je drinkt van je stomende wijnen, wanneer je langs de straten loopt. Herinner me, dit is de laatste keer dat ik zal spreken.

IJdel in pijn

16. Ik ben de koning van pijn. Mijn stem is als de traan van mysterie. Zo ijdel ben ik. Ik kijk neer op rijke bedelaars, en ik kijk neer op hen die plezier maken. 17. Zij winnen om alles te verliezen. Het is een groot groot carnaval. Het weer van de roos in me, alles verscheurende terwijl het valt, want terwijl het stond was het niet eerlijk. 18. Het zijn seizoenen van de konijnenwijn, het duurt vele

dagen voordat het de hemelen bereikt. 19. Ik ben de koning van de herfst, verspreidende zoveel begeertes, maar wie hen wint, zal ze allen verliezen. 20. Ik geef hen aan hen ijdel in pijn. Je kunt nooit winnen van een konijnenbedelaar, smekende voor wat meer pijn, smekende voor een beetje meer tranen om het carnaval in ijdelheid te bekijken.

Konijn achter glas

21. Als een moordenaar komt het, en straks zal het terugzijn, om mijn deuren open te breken. Zal ik ooit losbreken uit deze vreemde fles. 22. Geen konijn die me helpt. Ik ben helemaal alleen in deze put van schaamte. 23. Ik probeerde je hand vast te houden, maar je liet me alleen, en nu zit je op je troon, om om me te lachen. 24. Je ziet het als een moordenaar komen en gaan. Het verwoest de seizoenen tussen jou en mij, en het weer. 25. Ik kan niet ontsnappen uit je wraak. Het is altijd winter in dit glas. 26. Het sneeuwt in deze dagen. Je bent een konijn achter glas. 26. Het is als het moorden van je moeder, en je hebt me nooit verteld hoe je heette, maar je schijnt hier god te zijn. 27. Wat kan ik doen als je me pijn doet. Je zit op je troon en lacht. 28. Alleen wanneer de wind blaast is het zomer. Dan is het alsof je rozen sterven, maar ze zijn terug aan het einde van de dag. 29. De fles is nauw, wanneer het niet meer waait. Ik wens niet meer in dit konijnenleger te zijn. 30. Alsjeblieft, laat me vrij.

Bevroren kleine jongen

31. Wees trots en ijdel met je schaamte. Het is alles wat ik heb, deze bevroren kleine jongen. Aanvaard je lusten en je schaamtes. 32. Op het altaar is het als het schoonmalen van een dag van miljoenen jaren geleden. Ik ben blij dat je weet hoe je dit spel moet spelen. 33. Een kat zonder vleugels en ruimte, verkoos de liefde, en is nu een vliegtuig, in zoete ijdelheid. Een kat zonder vleugels en ruimte, draaide om, en is nu een vliegtuig. 34. Zoveel schaamtes in deze wereld. Hij gaat voort, deze bevroren kleine jongen. Hij verandert zonder te bewegen.

De Nieuwe Openbaring VI

1.

1. U staart diep. U heeft mij net nog aangekeken. Als het spotkleed des kruises hing u over mij, met een speer in mijn zij. 2. Kind, Ik heb het afgelegd, en aan jouw gegeven, die erfenis van het verleden. 3. Het heeft mij tot zaligheid gedreven, jij moet er ook doorheen, het is maar voor even. 4. U staart diep, zo fragmentarisch. Zoveel woorden van elkaar gebroken. Ik weet niet waar zij mij leiden. Ik kan het niet verstaan. 5. Moeder, bent u dan eindelijk gekomen, uw kind heeft zolang op de uitkijk gestaan. Ze zeiden mij, niet in u te geloven. Alleen vader was er nog. 6. Moeder, ze hebben mij alles afgenomen. Zelfs mijn dromen, zij zien me niet meer staan. Ik heb mezelf zo vaak verminkt. Ik kan het niet meer aan. 7. Het bloedt als u mij borduurt. Als een spin steekt u, wat heb ik dan gedaan ? Ik ben zo blij dat u er bent. Maar waarom haalt u mijn wonden dan niet weg. 8. Bent u dan de duif des kruises, een vogel van het leed, om ons een boodschap te verkondigen. 9. Zoveel wazen voor mijn ogen. Als 't vallen in een diepe put. Uw webben hebben mij opgevangen. 10. Ik ben verstrikt in uw liefde. Geen weg eruit, ik zal hier moeten blijven. Ik weet niet alles, maar ik ken het leven. Alles is maar voor even. 11. Stil zal u betekenissen veranderen, en de gezichten der mensen.

12. Rozendoorn, als een koor mij omhult. Rozendoorn, als het raam der liefde. Geen vijanden meer, alles is de naald van de Heer. 13. Oh ja, het steekt me diep, maar U bent het die mij riep. 14.

Rozendoorn, als een echo uit de nacht, makende al het harde zacht, zoveel draden van liefde geweven door mijn wonden, totdat alles tot onder het roze zakt.

15. Ik weet niet hoe ik het moet afleggen. Het steekt zo diep, en trekt mij steeds weg. Het kleeft, het is de lijm des Heeren, en alles doordringt mijn ziel en bed. 16. Ik voel mij zo zwak, ik kan niet staan. Ik beef en alles draait om me heen. Heeft de Heere mij tot zich genomen, of ben ik heel vreemd aan het dromen. 17. Ik voel mij ziek, de dood nabij. Ik voel me als een boom in donk're straten. Geloof mij, als iemand mij hier zou zien, dan zouden ze dwars door me heen kijken. Het schuim der wet heeft me doorzichtig gemaakt. 18. Ik ben al weg, mijn schaduw is nog hier.

19. Rozendoorn, ik kan alleen maar huilen, en verder begrijp ik niets. 20. Alle kleuren zijn nu weg. Alles zwart en wit, en grijs het is een wonder. De muizenkoning heeft mij meegenomen.

21. Buiten schijnen sterren, staan in de lucht als aan de muur. Ik heb de moed verloren om nog terug te gaan. De muizen des hemels voeren mij nu weg, de ratten des hemels kijken, en staren als de rozendoorn. 22. Als het spotkleed des kruises hingen zij over mij, met een speer in mijn zij. Aan mij gegeven, de erfenis van het verleden, achter webben verborgen. Ik weet niet waar ze mij leiden, ik kan het niet verstaan. 23. Ik zit in hun vurige karren, de muizen zijn mij voorgegaan. Het is allemaal al doorleefd, alles is al opgetekend. De regenboog die staart naar mij, de zoete honing komt binnen bij mij, het wonder des kruises is gekomen.

24. Als het lichtend schuim der rozen, werd ik meegenomen. Ik moest wonen op een brug waar twee legers elkaar bevochten, totdat het vuur der rozen steeg, en de zoete honing en de zwijm begon te stromen. Als liederen versmolten, een zacht, maar dood konijn. 25. Ik kon haar niet bereiken, zoveel trauma's kende zij. Zij kon niet meer spreken, zij kon mij niet vertrouwen. Zij kon alleen maar steken, als een roos in een diepe wei. 26. Als een soldaat van Spricht was zij, mij leidende tot de zwijm der twijfel. Op mijn benen kon ik niet meer staan.

27. Rozendoorn, geef mij uw stem. Rozendoorn, geef mij uw oog. Ik kan niets meer zien, ik kan ook niet meer denken, alles is doorstoken, door de doornenstruik. 28. Rozendoorn, heb genade in uw liefde, ik brandt helemaal weg, geen tijd meer om iets te doen, alles smal van binnen. 29. Ik kan me niet bewegen. Ben verstrikt in uw twijfel, onzekerheid bevroor mij. Ben nu een boom in uw stad, een bloem in uw weide. 30. Na een harde nacht, makende alles zacht, zoveel draden van liefde en zachtmoed, geweven door mijn wonden, totdat alles onder het roze zakt.

2.

1. Blauwe ogen, rode lippen, gemaakt om koningen paraat te maken. 2. En morgen, dan ben jij, mijn prinses, ten goeder trouw ben jij, ik heb mijn mantel afgelegd. 3. Ik vertrouw je tot hier, maar de deur is nog steeds op een kier. 4. Zou ik hem wijd openen, dan zou je mij overstromen. 5. Ik zou verdrinken in jouw liefde. Ik heb mijn mantel afgelegd. Mijn hoed stijf over mijn oren. Ik durf jouw lieve tedere stem nog niet te horen. 6. Fluister dan, het is goed, de dingen die je met me doet. Je bent onschuldig, je hart vol van regen. 7. Rozenrood, in zachte aarde, dromen van vervlogen jaren. Blauwe ogen, rode lippen, gemaakt om koningen paraat te maken. 8. En morgen ben jij dan mijn prinses, ten goeder trouw ben jij, ik heb mijn mantel afgelegd. 9. Geest van God, van and're tijden, opgepot, ik kan er wel om schreien. 10. Rustig is jouw stem. Je weet nog niet alles, je moet nog wennen. Zolang in slaap geweest, ze hebben je vlammen uitgedoofd, maar weet wel, dat ik met jou leef, mijn prinses, tot de komende morgen. 11. Ze zullen ons verjagen, we zullen vluchten tot de wildernis. Altijd zul je mijn prinses blijven. 12. Geest van God, dan wakker geworden, maar altijd op de vlucht. Tot bomen zullen wij preken, tot dieren zullen wij brengen, onze vrucht.

3.

1. Open je ogen, liefste, wordt wakker, de tijd is daar. 'k Heb met zware pennen moeten schrijven. Nu druipen zij van reukwaat'ren. 2. Open je ogen liefste, wordt wakker, tijd is rijp, 'k heb met zware pennen moeten schrijven, nu branden de vruchten dan in hun. Vreemde totempalen in mijn hand, met al die bakkermans gezichten. 3. De oude bakker woont nog steeds daar bij de gracht. Toe, snel, wordt wakker, daar onder die brug. We moeten nu snel vertrekken, anders zullen ze ons brengen achter de ramen. 4. Ze zullen ons brengen achter de ramen, als konijnen achter glas, als konijnen in hun kooien, als waat'ren in hun flessen. Open je ogen, liefste, de pennen zijn weer zwaar. Ik moet het je echt vertellen, ik glijd weer weg, maar je kent de snaar. 5. Ik zal weer over je dromen, als zij toe zullen slaan, ik voel je hand, jij voelt de mijne, toe, vertel het maar, ik moet nu gaan. Open je ogen, liefste, ik ben de feeenprins, ik ben een feeenwoning, in flessen sta ik. Je hoeft me niet te zeggen, dat wat je voelt voor mij. 6. Staak je liefde, wordt weer koud, om de hoek staan zij. Zij zullen ons ondervragen. Achter glas gaan wij, voor de laatste keer, want morgen, vertel ik je weer : Verweg is altijd dichtbij. 7. Stilte spreekt, het ijs gaat snel branden, sterker dan het vuur, sterker dan het komende uur. Toekomst is allang geweest, dromen zijn vervlogen. Zij die 't allemaal wel geloven, doven snel weer uit, als een kandelaar in honderd winden, komen zij tot hoge flessen, komen zij in eigen kooien, voor eeuwig slapen zullen zij. 8. We moeten hen verzaad'gen, ze hebben honger en daarom storen zij. In Gods Radio gaat het niet goed, het stoort, het is alles wat het doet. 9. Er is een geest in de machine, misschien krijgen wij het eruit, als wij hem ook vertellen dat verweg is altijd dichtbij, dat stilte spreekt, het ijs gaat branden, sterker dan het vuur, sterker dan het komend uur, toekomst is allang geweest, maar de herinnering is te sterk, alsof het van voren komt. 10. Opgesloten zijn wij, in een verstand steeds terugkerende naar het oude, naar oude paden. Ik herinner niets meer, ik heb alleen zulke zware pijnen, in mijn ruggengraat daalt het af, als de zonnedraad, nu is het af. Ik zal maar direct met de deur het huis binnen vallen. 11. Ik ga bij je weg, want weg zijn is zo dichtbij. Kun je me nu geloven, dat komen en gaan niet bestaat. Het komen van God is weggaan, en zijn weggaan is komen. Sinds dat je weggegaan bent, ben je dieper in mijn hart, oh, konijnenkoningin, je hebt het me zo vaak gezegd. 12. Ik ben alles weer vergeten. Mijn lichaam doet zo'n pijn, alles is als de zonnedraad in mijn ruggengraat, als een flits in mijn stuitje, om die diepe deuren van Materos te openen, met de sleutelen van Spricht. 13. Ik ben een elvenkoning, ik ben de elvenlucht. Ik maak nu in dit boek een woning.

14. Open je ogen, liefste, Spricht heeft gesproken, onder de lenteboom, daar was een kroning, sprekende honderd talen, honderdvoudig om zilver te zuiveren. 15. Ik heb mijn benen uitgestrekt, en maakte woning. 'k ben de kroon van God, geweven door een doornenkroon. Open je ogen liefste.

4.

1. Dieper dan de bergen van de oceaan, dieper dan de dauwdruppels van zeewoningen, heb ik haar stem verstaan, met haar chocoladekoning, ben ik door de bergen gegaan. Diep in een zeekist vond ik haar, waar spiegels mij aanstaarden, een mintstruik onderwater. Dieper dan de oceanen, dieper dan de zee, dragen zij de kostumen van vervlogen jaren. Chocoladekoning, mintstruik onderwater, tot de dauwdruppels ben ik gekomen, om op de uitkijk te staan. Dieper dan de sneeuw van goud, dieper dan de bergen van de oceaan, waar vervlogen jaren nog steeds dansen, om op de uitkijk te staan, verbergende hun Jorinde, verbergende hun namen. Diep in een zeekist vond ik haar, een mintstruik onderwater. Vervlogen jaren namen mij mee, naar een huisje van een oude fee, zeer griezelig was het binnenin, waar alles gebeurde wat ik niet kon verzinnen. Jorinde was haar naam, een oude mintstruik onderwater, waar dauwdruppels paraat staan, om koningen paraat te maken.

Een wonderlijke vrouw was zij, met zeven vogelspinners, zij vochten tegen mij. Dieper dan de zeeën, dieper dan de blauwe maan, het voert mij tot de zwanenprinses, een ochtendbestaan. Vervlogen jaren nemen mij mee, naar het huisje van een oude fee, zeer griezelig binnenin, waar alles gebeurde wat ik niet kon verzinnen, aan de andere kant van de spiegel, waar zij allen eten witte chocolade. Dieper dan de bergen van de oceaan, dieper dan de dauwdruppels van zeewoningen, vond ik de oude zwaan, met zeven vogelspinners, gaf ze mij vrij baan. Ik staarde in het paleis, waar de blikken in spiegels mij bevroren, ik kan nergens meer naartoe, ik kan mij niet bewegen. Zij steekt mij als de witte dame van het schaakspel, als een mintstruik onderwater. Nu ben ik dan in distelzee, de rozen steken mij, de rozen steken mij, totdat ik ontwaak in tederheid, tot het zachte ben ik gedaald, tot onder het roze, waar grijze rozen met spiegelend roze mij betoveren. Ik ga nooit meer terug, maar een diepe koorts overvalt mij, als een zwarte brandende deken, waar de ogen van mussen mij hebben bekeken, in hun boeken schilderden zij mij, en onder het gele een piratenkapitein. Liefste, kun je mijn hand raken, er is prikkeldraad tussen jou en mij, ik hoor je gillen, wij zullen alles krijgen, als we onder het bruine zijn gezakt.

5.

1. De hitte heeft zijn steek verloren, tot onder het bruine zijn wij gedaald, waar het ijs is gaan branden. De vlam heeft zojuist mijn hoofd gestreeld, ik voel mij zo blind in dit land. Komt het door de bomen, komt het door de koel brandende meren, komt het door de schaakfiguren, levend geworden in de lucht, als schilderijen op een wapen. Zij kunnen niet praten, zij bewegen snel, maar soms bewegen zij niet. De hitte heeft zijn steek verloren, de kou heeft toegeslagen, hoge koorts onder een blauwe deken, voerde mij aan de draken. Plotseling, mijn kind heb jij dat ook gezien, al die bliksemflitsen. Zij komen ons weer halen, totdat wij onder het bruine zijn gedaald. Wij vallen in 't verdriet, totdat wij ook de mussen hebben gezien, hoog op hun schilderijen, waar hun wagens rijden, en andere wagens die wij niet kennen. Door Acha zijn zij binnengegaan, als een bevroren vlam, een kostbaar gouden spiegel, onder goud en zilver zijn wij beland.

2. Ik kan mij niet bewegen, en jij kan het ook niet. Ik zie je neus beschilderd, een pop was jij, oh wat een verdriet. Hef je hoofd omhoog, dan kun je mij ook zien. De mussen zullen ons opnieuw beschilderen, zij zullen ons opnieuw bewaap'nen, oh vreemdelingen voer ons mee, en geef ons aan de slaven, opdat zij ook vrij zullen zijn. Ik kan mij nog steeds niet bewegen, en ik zie je zelfs niet meer, zij hebben mij geblinddoekt, bestreelden mij met een veer. Wat is er van mij geworden, na al die jaren van verdriet. Ik durf niet eens meer aan mezelf te denken, te bang dat ik mezelf zal verlaten. Geef en neem, een oud gezegde, maar begrijpen doe ik het niet. Zijn wij dan allen slaven, ik wil niet leven in dit verdriet. Geef en neem, een oud gezegde, maar voor wie werken wij, worden wij van elkaar losgetrokken, zijn wij dan voor eeuwig vrij? Ik kan mij niet bewegen, nog steeds geblinddoekt, en nu hoor ik ook niets meer, nog steeds die veer voelen gloeien, tot een plek waar ik de hoge koorts voel stromen, totdat ik weer onder het bruine ben gedaald.

6.

1. De weg onder Frankrijk, een wilde weg, van armoe tot het oer, zakken wij tot onder het bruine, telkens weer, waar bruine spiegels praten. Kun jij je nog bewegen, ik kan het niet meer. Ben ik dan nu een boom, ben ik dan nu een plant, de witte dame heeft mij gestoken, en er is overal brand, tot onder het bruine zullen wij komen, waar rozenschuim op ons wacht. Scherpe vogels, scherpe dromen, kennen onze naam, totdat wij onder het bruine zijn gegaan, door de staf van een vierde dood geslagen. Kom dan naar beneden, waar de Franse wijnen staan, waar de tranenflessen spreken,

waar de ochtend is vergaan, verdronken in een nieuwe nacht, waar iemand onder het bruine wacht. Scherpe vogels, scherpe dromen, kennen alle namen, totdat het onder het bruine is gezakt, tot de vervlogen jaren. Ik kan mij niet bewegen, de veer vertelt mij waar ik heen moet gaan. De mussen wachten op het dak, waar schilderijen branden in de nacht, vreemde schilderijen tussen jou en mij, en bakkerman's gezichten sluiten de rij. Waar de veer viel, in een lege ruimte, in een bodemloze put, daar ben ik ingesprongen, ik zag haar hoogste lied, al die brandende ramen, vreemde ramen, met bakkerman's gezichten tussen jou en mij. Waar de veer viel, in een diepe ruimte, in een bodemloze put, waar ik haar hoorde fluiten, ze ging naar haar vogel terug. Ik dook haar achterna, ik sprong op tijd, en vond genaa. Ik heb haar alles uitgelegd, zij toonde mij een nieuwe weg, een weg die zij altijd hadden afgestaan, om hen door de staf geslagen te warmen. Ik toonde haar mijn wonden, zij liet een traan. Ver weg onder Frankrijk liet zij mij gaan. Lompen hebben mij geleid tot het oer, van veer tot veer werd ik geleid, door dalen van dauwtranen gaf ze mij gelijk. 't Was tijd om binnen te gaan, in 't hoge veld waar schilderijen branden, zij roepen onze naam. Wij worden hier beschilderd in een brandende nacht, in boeken zullen wij veilig wonen.

De Openbaring van de Rode Steen

1.

Psalm over het Huis van Steen

1. God, U kent de huizen van mijn zeeën, U weet dat alle dingen zo ver van mij staan. Alles glijdt steeds door mijn vingers, zoveel schepen zijn vergaan. De deur van mijn hart kan ik nooit vinden. Ik kan alleen staren, maar ik zie steeds dezelfde dingen. Ze zijn zo ver weg. Kan ik mijn leven zo wel leiden ? Ik glijd steeds weg, en ben zo blind. Ontmoet mij in het huis van steen, en plaats mijn hoofd in de rotsen. 2. God, U kent de wateren van mijn hart. Ik zink steeds te diep om iets zinnigs te zeggen. Ik kan mijn leven niet meer vinden. 'K ben op een dwaaltocht zonder iets te vinden, een dwaallicht in een huis zonder deuren. 'T is alsof ik al tijden de weg niet meer kan vinden, alsof paden zijn dichtgegroeid. Kan ik mijn leven zo wel leiden ? Ik leef in diepe putten en kan nergens heen. Ontmoet mij in het huis van steen, en plaats mijn hoofd in de rotsen. 3. God, u kent de diepten van mijn buik, daar waar nog steeds de beesten leven. Ik word gegeten dag en nacht, totdat een nachtspeeler mij vindt. Zelfs vrienden eten mij. Ik ga van hulp tot hulp, maar ik zak steeds dieper. Ze hebben het op mijn leven gemunt. Zij zijn de wachters van de dood, sprekende zoete woorden om mij in hun webben te verstrikken. Kan ik mijn leven zo wel leiden ? Ik durf geen hand meer aan te pakken, want alle wegen leiden hier naar de dood. Ontmoet mij in het huis van steen, en plaats mijn hoofd in de rotsen. 4. 'K heb vaak gedroomd over betere tijden, over sleutelen tot de hemelpoort. Ik

heb vaak uw nachtspelers zien zitten, met hun liederen ongehoord. Ik droom van tijden over lijdensbergen heen, ik ben zo moe om hier te zitten. Ik kan alleen drinken van het dodenrijk, totdat een nachtspeler mij meeneemt naar een dans buiten dit bestaan. Een trage dans, waar alles traag beweegt, waar ik de gouden stappen zie. Kan ik mijn leven zo wel leiden ? Is dit mijn bestemming in dit huis van steen, waar mijn hoofd draait in de rotsen, oh God, waar moet ik heen. 5. Ik ontmoette U in het huis van steen, met stenen altaren, en met arken van steen. Ik danste in de rotsen, met trage passen. In Elip bracht U mij, daar waar de nachtspelers op harpen staan. Zij drinken van koninklijk goud, en hebben buiken van steen. In Elip bracht U mij, in het huis van steen. De nachtspelers staan op harpen, als de haaïen des hemels. U gaf mij voedsel van hoge waarde, en nu is mijn hoofd in de rotsen, starende naar de geheimen van de zee. Kan ik mijn leven zo wel leiden ? Ik kan nergens anders heen. Oh God, U bond mij met Koorden van Liefde, U plaatste mijn voeten in het huis van steen.

Psalm over Metensia

1. Metensia, zoete geur, groot geheim. U bracht mij naar het huis van zwijm, waar Uw rozenkoeken bloeien, waar de grote lelies staan. U bracht mij naar het Paradijs, in Uw Wil wil ik gaan. Oh Metensia, zoete geur, zachte Liefde, ogenkleur, als uw flessen van bosgeur zich openen, dan dansen herten in het rond. Bij Uw geheim wil ik zijn. 2. Metensia, zoete droom, zoete morgen, waar ik naar verlang. U doet mijn gordijnen open, en de geluiden der vogels lokken mij steeds weer, tot zachte dromen. Metensia, oh zacht geluk, U bracht mij Uw harp en harlekijn. Uw nachtspelers zij zijn er weer, om mij mee te nemen tot Uw Eer. Zij brengen mij tot pril geluk, in Lentedagen zie ik U, Uw harpen staan waar wonden waren. 3. Diepe wonden bracht U mij, als door een vriend geslagen. U liet Uw tranen zien, U tuchtigde mij reeds vroeg. U bracht mij rozenkoeken in de winter, Uw paarden vonden mij in de nacht, oh Geest van God, oh Metensia der Liefde. Uw harpen staan waar wonden waren, nu speel ik voor uw troon, oh God. U maakte de schelle tonen in mijn ziel, tot bellen van Uw Geest. 4. Toen zware stemmen mij verschrikten, U was daar met zachte bazuin. Toen harde stemmen mijn schepen lieten zinken, uw vissen des hemels waren daar, om liederen te verdrijven, U bracht mij tot het Huis van Stilte. Metensia, Uw gouden koorden brachten mij daar. Metensia, groot geheim, nachtlating, hoop in gouden Liefde, om met U te zijn, is als baden in de gouden nachtfontein. 5. Uw Glorie zoekt mij steeds weer op, Uw woorden drijven mij naar diepe stilte. U fluistert zacht, totdat ik baad in rozenacht. Met dromen in Uw Linkerhand, U komt tot mij, U neemt mijn hand. Uw Glorie leidt mij, en draagt mij over woeste zeeën. Met U te zijn, is beter dan met een mens. Uw Huis van Stilte ademt in mij, en diepe rozenpilaren brengen een boodschapper tot mij. Waarom ben ik nog steeds zo jong. Ik verlang ernaar Uw Wijsheid te dragen. 6. U tuchtigt mij met Kennis, U doorstak mijn paarden met pijlen der Liefde, om hen om mijn hals te hangen, het reënjong in Uw geheim. U bracht mij paarden der Liefde, op een stenen altaar doorboort. U hing ze door mijn haren en verzegelde mijn voorhoofd. U sprak tot mij in nachtlating, en liet mij dalen in de putten der nachten, door uw zoete rozenkoeken.

Psalm over Eminijs Matas

1. Vaak heb ik er over nagedacht, Uw Liefde die mij opwacht in de nacht. Ik kan niet slapen en niet eten. Ik ben een slaaf van dit leven, maar U heeft mij verlost van dit boze geslacht. 2. U schrijft brieven over koningen, over kronen onbereikt. U brengt Heil tot hen die beven, en maakt hen tot

Uw boodschappers. 3. U heeft Uw wateren gezonden, en Uw winden leiden mij. 4. Koningen staan mij naar het leven. Ik wil Uw psalmen schrijven, en uw nachtspeler zijn. 5. Vaak heb ik er over nagedacht, Uw Liefde die mij altijd opwacht. Geen stap kan ik verzetten, en ademen kan ik niet. Ik ben een slaaf van dit leven, maar U heeft mij verlost van dit boze geslacht. 6. U heeft mijn hart geslagen, oh Eminius, oh Matas. Nog steeds voel ik de striemen van Uw Liefde. Het heeft mij genezing gebracht. 7. Vaak heb ik erover nagedacht, over Uw koele Liefde die mij steeds weer leidt. Ik voel mij koud en bitter. Ik ben een slaaf van dit leven, maar U heeft mij verlost van dit boze geslacht. 8. Veel dingen begrijp ik niet. Ik ben jong, en wat is een mens ? 9. Maar ik heb de haai bereden, tot aan de hemelpoort. 10. Ik heb gedanst op Uw altaar, en mijn schoeisel verbrand. Wat is het dat u naar de mens omziet ? 11. Ja, ook de Geest is mens geworden.

4.

Psalm van de nachtspeler

1. Van jongs af aan heb ik gestreden. Nu ben ik rijp het zwaard te smeden. 2. Veel bloemen heb ik zien sterven. Veel bomen heb ik zien wegzinken. 3. De pijlen op mijn boog zijn scherp, terwijl er liederen branden op mijn tong, komend van een stil huis. 4. Tijdenlang heb ik gezwegen, en Eeuw'ge woorden aan elkaar geregen. Beroofd van verstand was ik zo lang, ik moest het doen met hartepijn. 5. God rijst op en zalf uw dienstknecht, want vruchten zwellen om hun wijnen te laten vloeien. 6. Van jongs af aan heb ik gestreden. Nu ben ik rijp het zwaard te smeden. Ik voel de tuchtiging zo lang, het vuur van de smid, en het ijs om wijn te smeden. 7. Nu ben ik dan een kaart in het hart, een nachtspeler op een harp met pijlen. 8. Ik ben rijp mijn leven af te leggen, om het stilzwijgen te verbreken. 9. En dan zal ik vertrekken naar het huis van stilte, om voor eeuwig stil te zijn.

5.

Psalm over de Geesten Gods

1. Oh Kabbernal, Geest van het Altaar, als brullende wijn sust U mijn pijn. U doorsteekt mijn wonden tot verdoving. Mijn haren staan in vlam. 2. Eminius, oh koude wijn, laat ons tezamen zijn, en baden in de koele melk van rozen, met rozenkoeken en maneschijn. 3. Straal Uw Licht in mijn verstand, en breek de ketenen van mijn geweten, waar vissen van mij hebben gegeten. 4. U ziet de stalen ketenen van mijn buik en hart, bedekt onder vlees. Oh, breek hen met uw gouden tand, en brandmerk mij met Uw Liefde. 5. Uw hitte heeft mij overrompeld, Uw kracht heeft mij de bergen doen verstaan. Matas, bedek mijn wonden met Uw Vlees, en laat mij niet bloot staan voor mijn vijanden. 6. Bedek mijn hoofd met Uw gouden gordel. U bent het Heilige Tempelbad. Laat Liefde mij leiden, en laat Hoop mij Uw Woord doen verstaan. 7. Bescherm me des daags tegen de stekende vlieg. Leidt me tot Metensia, de Kandelaar op de Troon. 8. Een stralenkrans komt van haar kroon, en duizend duizelingen brengen mij tot aan haar wateren. 9. Zij heeft mij geslagen met gouden wonden, nu breken dan haar stemmen door. 10. Op gebroken voeten kan ik tot haar naderen. 11. Zij sloeg mij en haar litteken zal voor Eeuwig spreken. 12. Ja, zelfs mijn botten brak zij. Nu ben ik als een boom des velds. 13. Zwaar tuchtigt de Heere hen die Hij liefheeft.

6.

Metensia, bloem van God

1. Metensia, geheim van God, alleen als vissen kunnen wij tot U naderen, oh Heilig Vuur, in het duisterste van de nacht. 2. Gij hebt de zonnen onder uw voeten, en de manen zijn u tot een bank. 3.

De paarlen om Uw voeten branden, en gij hebt vissen aan Uw lijn. 4. Gij leidt hen tot de wateren en het huis van Marion, waar zij eten van het zoete brood, en drinken van de zoete wijn. 5. Ja, pijlen van dronkenschap zullen hen doorboren, en hun vruchten zullen rijp zijn, om liederen te brengen tot het allerheiligste van God. 6. Ja, de voorhangsels van tempels zullen scheuren, wanneer zij hun wonden tonen, komende om te verzoenen, het altaar en de wijn. 7. Metensia, zoet geheim, gij brengt soldaten tot de zwijm. Gij bekleedde uw ridders in de nacht, en verbond hen in hun wonden tot God. 8. Uw koorden nog steeds zo'n zoet geheim. Op de altaren rijzen zij als pilaren, tot U, Metensia, de bloem van God.

7.

Psalm over de Tranen van Metensia

1. Dragende de vliezen van een nieuw hart, zij kwamen daar met grote smart. 2. De Heer schonk u mantelen van sneeuw, en veranderde u in heilig zaad, als kruid op Metensia's altaar. 3. De Heer heeft u uw bloed doen behouden, uw wonden werden stromend ijs. In vulkanen komen zij samen, om geheimenissen te verstaan. 4. De Heere lokte u met gouden koorden. In 't zoete spel verloor u uw angel. 5. Ja, met de fluit des Geestes gaf hij u drakenbloed, om Zijn stem te verstaan. 6. De stengels van bloemen hebt gij beklommen, met dauw langs bomen gegleden. 7. Als tranen branden van ijs, dan heeft uw hart de Heere verstaan. Als tranen licht worden in de duisternis, dan heeft de pijn zijn angel verloren. 8. Mijn gedachten kunnen mijn gevoel niet redden, ik heb Uw Woord nodig. 3. Maar u laat ons met een kleine hulp zinken, om samen te sterven en elkaar te vinden. 9. Laat ons toch in Uw tempel overwinteren om Uw Woorden te onderzoeken. 10. Breng mij een nieuw hart oh Heer, wek het tot leven door uw zaden. Laat mij verblind zijn in de nacht, en leid mij op Eeuw'ge paden. 11. Oh leid mij tot de rozenwaat'ren, tot de kieren van d'altaren van Uw brandende waat'ren van vruchten. Breng mij het brood en de azijn. 12. Uw Woord is Waarheid, doorklief dan de waat'ren tot een pad in de woestijn, en schenk mij de zeven gaven. 13. Uw dienstknecht ben ik, met al uw dienstmaagden, komen wij voor Uw Troon met haperingen. Uw Liefde bracht ons roes en dronkenschap. 14. Oh Heer, breng ons uw schalen, met tranen van Metensia's Geest, met wort'len vol van daden, wij spreken talen door uw heil'ge zaden. 15. Breng adem over onze vreugde, en voel onze zielenpijn, en brengt ons daden, gehuld in 't nachtlatin. 16. Leer ons Uw wil te doen, laat ons Uw wegen bewandelen, tot 't koren van Uw Aangezicht, dit lofgezag, dit lofgedicht, met stralen van een nieuwe dag, voor hongerigen naar Uw Woord, Amen, Metensia Eminus.

8.

De tweede Metensia

1. Rust met mij, en kom met zeven dingen, door roze maneschijn, om de liefde te bezingen. Kom en rust met mij, tot zeven waat'ren glijden wij, kom, laat ons de morgen kussen. Volg de weg van maneschijn, door het pad van liefde reizen wij, tot in de hemel van het tweede woord. Kom, en leert de liefde van mij, door holle hoofden reizen wij, als hen die slapen gaan ons vrije baan geven. 2. Warm je hand bij mijn hart, volg de dagen van het tweede verstand, tot het tweede geluk. Ik ben Metensia, de cobra, kom daar waar koele liefde schijnt, waar 't boze hart verdwijnt achter wolken zonder zorgen. De zorg is des Heeren, onze zorg is met hem te zijn, door de dalen van zijn woord, het tweede kruis. 3. Hij brak het brood, toonde liefde als een pad, en waar ik, Metensia de sterren mat, 't heeft ons veel gegeven. 4. Kom, waar ware liefde schijnt, waar koele waarheid verschijnt tot het hart van goud. Kom, met al je liefdesspel, toon mij de bronnen van je tweede geest. De tweede

Metensia, is je hart daar al geweest. 5. Kom in 't bloot in 't paradijs te zijn, waar de zeven sluiers zijn, bedekt door zijn liefde, kom, zijn aangezicht is rein. De tweede Metensia is je hart daar al geweest, heb je daar haar adem al gedronken, waar zoete sterren lonken. 6. Reine engelen met de schalen die daar dampen, engelen van het tweede woord. Kom, je geest is daar heel vrij, gewoon in liefde met mij, zo gewoon, maar wonderbaar, voor eeuwig zijn we daar. 7. Laat de bomen die daar denken, laat de zeeën die daar schenken, komen om geluk te vinden. In 't hart van het tweede kruis, waar zij de honger stierven, zo vol van honing zijn zij nu, veilig bij de bijen en bloemen des hemels. 8. Kom, ik ben metensia, de vrucht der liefde is daar, door bramen geschonken. Kom, grote liefde is daar, in de tweede hemel is een deur geopend, kom vlucht met mij. En de dagen van de wind, je weet ik heb ze bemint, en de dagen van het holle hebben honing voortgebracht. Kom waar zoete waarheid dwaalt, in 't hart van metensia, de tweede lamp is daar. 9. Kom, haar armen wijdgespreid, als zoete honing op haar dekens, als open boeken rijzen zij, van het tweede woord op haar tong. 10. Kom, grotere liefde is zij, door daken heen breekt zij, om de kinderen naar huis te brengen, zachte liefde, grote wijsheid, metensia, het tweede dat bent u. 11. Door bloemen heen, de waat'ren van grote vruchten, grote liefde, boeken van honing openen zich voor u, als de spelers van de nacht, om hen allen thuis te brengen. 12. Tot de tweede tempel reizen wij, onze oude klederen afleggend, om naakt tot het paradijs te gaan, omhuld wordend door het nieuwe woord. 13. Kom, de honing volgt zij, druipende van haar mond en tepel. 14. Komt, de melk van 't tweede woord, dat is zij, als de adem van de tweede liefde, de vrucht van geloof. 15. Kom, en maak je geest vrij, het oude nu geheel voorbij, een geschenk van grote liefde. Kom, de Geest zegt kom.

9.

De Macht van het Tweede

1. De honing des heeren, zijn raad is op u. Komt, al gij koningen, voor zijn aangezicht. 2. Brengt hem eer als zilver, Hij heeft uitgestort het tweede woord. Tot hen die in liefde neerdalen tot de hongerigen. 3. Zijn kruis is hun bron van zoete waat'ren. De eenheid met hem is hun kostbaarder dan al het and're. 4. Nu vinden zij hun weg in hem. Ga mee, en luister naar zijn stem, het tweede woord is open nu, kom lees en wees vervuld met zijn tweede Geest. Een tweede evangelie is daar nu, een tweede gemeente, om af te breken het oude uur. 5. De verschrikking is nu voorbij, de zegels liggen op een rij, gebroken door zijn Geest. 6. Laat dan zijn tweede woord jou ook vervullen, wees één met ons, wees blij met ons, en lijdt met hen die lijden, als de zon die ondergaat, vindend een nieuw geluk in winter's warme haard, kom mee, en vind het grote geluk. 7. Hij bracht honger op een schaal om honing te doen rijpen, nu vlieg je dan op de rug van een bij des hemels, zoekende naar het woord om je ziel te vervullen, in je tweede geest ben je het meest, nu hij de poorten heeft geopend. 8. Ja zijn engelen zijn lang als de uitstrekkende wind, met omhooggestoken schouders, om de nachtspelers te laten komen. 9. Laat hen de heere beminnen, tot in 't uur der troost, laat zij de Heere steeds omhoog brengen. Als een vis is hij, als een vogel op de bergen, als een leeuw in zijn hol, om zijn woord te verkondigen, om zijn lied te zingen. zijn herauten gaan voor hem uit. 10. Hij brak de merktekenen van de tweede satan kapot, en nu zijn we dan hier in zijn tweede geest. 11. Zijn tweede ziel zal ons leiden door zijn tweede woord. Oh tweede christus die stierf aan het tweede kruis, de honger in afrika, de gemeente heeft het niet verstaan, maar vanuit het verborgene zal een tweede gemeente voor hem zorgen, hem balsemen met de zuiverste honing, bij zijn geliefden zal hij zijn. laat de leeuw nu spreken, en de cobra. 12. Laat hen liefde uiten door het tweede woord, en zijn tweede engelen zijn woorden dragen als dampende schalen, het tweede ijs komt dagelijks voor u staan. Laat uw woord dan hen vullen die liefde en wijsheid zoeken. 13. Laat uw woord hen dan

vinden die gehoorzaam zijn. Zij die uw geboden aanbidden, en luisteren naar u, vindt hen in stilte en in duisternis, open de dodenrijken opdat gij hun ziel kunt zien. Laat hen niet alleen, daar zij u niet alleen hebben gelaten. 14. Laat hen niet verloren gaan, al hen die u troosten, honing op de pijn, werkten in bloemen voor uw aangezicht, in tederheid te zijn. 15. Zing als glorie dalend op de baard van abraham. zoek zijn sterren één voor één zijn kinderen houden 't op de been, geef hen steeds uw genade, hen die genade geven, als loonmeesters zijn zij, om waardigheid en vrijheid te geven.

10.

Gebed tegen Valse genezing

1. Woord, nu geopend, als vleug'len van de wind, als hoop van zijn glorie. Hij gaf u de doornen in uw vlees, als kostelijke olie, brenger van dauw, bron van zoete honing, wees blij. Woord nu gezalfder dan ooit, de wonden brachten olie van de berg van abraham. Stok van Zijn Geest, heeft ons steeds weer geleid door de velden en de wouden. Droogte, en pijn, stromende van het diepste kruis, in uw genade te zijn, is steeds weer weten dat u bevrijd. 2. U leidt ons uit, u speelt de harp op uw troon, waar liefde steeds de wortelen van bomen zalf, diep onder de grond van uw tweede woord, toon ons uw verborgen geest, waar geheimenissen zwemmen. Leef zoals u nog nooit hebt geleefd. U bent de levende genade, de levende stem, waar het licht de aarde heeft bereikt, 3. Ook in don'kre dagen, uw hart toebereid. Groter dan de liefde, zoeter dan de stem, steeds weer dalende als olie der wolken. Troon op aarde met uw tweede geest, toon ons grotere liefde, uit uw tweede woord, breng nu het koord, trek ons op. Laat de baard van uw geest als de baard van de berg, in liefde wezen, tot het uur van troost. Uw genade door de woestijn, leidt de zaligen tot 't licht, uw woorden voor hen die beven, 4. Als de gave van de hemelse fontein. Heer, genees mij niet, als de doorn mij moet leiden, Heer genees mij niet, als de doorn mij moet slaan, want achter de bergen, daar staat de zielenbinder, oh maak mij niet gezond, om mij te laten werken in de hel. Met u te zijn aan 't kruis is soms veel beter. 5. Heer genees mij niet, maar sla mij niet met ziekte, de doorn is groot genoeg om tegen zonde te beschermen. Maar heer breng mij tweede genezing, die mijn ziel beschermd, Heer breng mij tweede kracht die mijn geest niet bederft. Heer ik wacht altijd op uw tweede genezing, genezing na het kruis, door het kruis, als een boom geworteld in uw tweede bloed. Voortgebracht door uw tweede woord, uw gezondheid is mijn pantser. Heer, genezing van het oude verbond, maakte mij ziek.

11.

Komende Genezing van het Tweede

Heer onthoud mij niet, uw tweede genezing, uw gaven, om tweede koningen te kronen. Heer, onthoud mij niet, uw tweede verlossing, het oude verbond dat ken ik niet. 3. Heer, laat mij het oude eren, naar het jonge luisteren, door uw tweede Geest. heer, laat hen mij niet meer binden, uw tweede bevrijding is mij meer waard dan zilver. 5. gestreden, voor een nieuw geluk. 6. Heer, ik heb met hen geweend, ik heb met hen gesproken, uw woorden met hen gedeeld. Ik was in uw liefde, ik vraag nu om uw tweede liefde. Heer, breng ons steeds uw handen die branden, uw voeten aan het kruis. 7. Heer, dan zullen wij u troosten, en onze handen branden, onze voeten aan het kruis, het tweede kruis. Na veertig dagen stond u op, na veertig dagen in de woestijn. Heer, mijn voeten branden, uw tweede genezing en uw gaven stromen door mij heen. Heer, u schiep de hermieten, om vogelen van tweede genezing vrij door uw donk're wouden te laten vliegen. 10. Oh straf hen die de canon schiepen, oh brand de kooien weg, en leidt ons allen uit. Oh straf hen die de canon schiepen, oh straf hen die het tweede haten. Verbrijzel hen in uw grote liefde. 11. Tuchtig hen in uw genade, en troost hen die rouwen om uw Geest. Steun de volgelingen van het tweede, stap naar voren in grote kracht, de kracht van grote liefde, maak ons één. Uw woord laat alles in mij branden, uw woord, laat mij uw waarheid bewandelen. 12. U schonk uw tweede Geest, en toonde ons uw machtig grote Liefde, in tederheid, uw tweede tederheid. U leidde ons door zeeën, u leidde ons door droogte heen, totdat uw tweede zwaard ons vond, en nu is alles één, grote liefde bracht u ons, door alles heen. Tweede overvloed, tweede kracht, tweede almacht heeft u tot ons gebracht. 15. Door uw liefde, uw tweede liefde, zonken mannen met hun schepen, en draken met hun ruiters, u heeft de zeeën doorkliefd. Heer, mijn handen branden, uw gave van tweede genezingen rust op mij, Uw woord is mijn gids, mijn leidsman mijn verlosser. 16. Heer, mijn tweede geest brandt, en stromen van vuur komen voort, uw ark begint te rijzen. Oh, spreek uw tweede woord. Oh heer, u heeft gaven gegeven, van oordeel om hen die u kwellen te straffen. 17. Het tweede oordeel is over hen, door uw tweede bloed. Geef mij liefde en tweede wijsheid om te weten wat u doet. Door het tweede kruis nagelde u de tweede vijand aan de grond, grote liefde bedekt ons, uw tweede bloed als muren om ons heen. 18. Geest van God, barst uit, stort op ons het tweede. Uw Naam is gezalfd, u bent het tweede. Laat ons uw grote liefde niet vergeten, ons altijd verborgen weten in het tweede geloof. 19. Uw woord druipende van honing, mijn handen druipen, geef mij priesters voor uw tweede tabernakel. In 't tweede bethlehem vond ik u, en nu zijn wij samen in 't tweede Jeruzalem. Heer, uw tweede wond'ren en tekenen branden op mijn handen, om grote werken te doen. 20. Heer, uw tweede tongen spreken door mij heen, als stromend vuur, de heil'ge lava van het tweede uur. Zij behoren tot u, de dieren des velds. 26. Straf hen in uw toorn, al die slagers en moordenaars, en brandt de oude tempelen tegen de vlakke. De gave van tweede oordeel rust op mijn handen, om te straffen al diegenen in hoge functies die kwaad verrichtten tegen dieren. 27. De dieren des hemels zullen hun vlees eten, en mijn handen zullen branden in de heilige tempel. Heer, veroordeel hen naar uw woord, vergeef hen niet, want zij zijn tegen uw geest gekeerd. Leiding tot het Bittere

1. De Heere heeft mij gebracht tot een bitter land, gaf mij bittere vruchten te eten. Geprezen zij de Heere om Zijn Wijsheid. 2. Ik leerde Zijn Geest verstaan, mijn wonden zijn bitter. 3. Hebt gij al gegeten van het bittere ? Ik heb ontdekt dat de wegen van het leven en het geluk allen leiden tot de dood. Maar zalig zijn zij die met de Heere sterven. 4. En ik vond een graf bitterder dan de dood, en ik vond haar op een steenworp afstand van de hemel. En haar kussen waren zoet, maar ze smaakte bitter. 5. En ik vroeg de Heere mij uit te leiden, want het leidde tot de hel. En de Heere gaf mij sleutelen tot nieuwe liederen, en zij waren bitter en zoet. 6. En ik was bevreesd voor de woede, want het brandde alles weg, maar de Heere gaf mij zoete woede. 7. En ik zag vulkanen in een dor land, en zij waren zoet. 8. De Heere heeft mij gebracht tot een bitter land, gaf mij bittere vruchten te eten, maar in mijn buik werd alles zoet. 9. En de Heere gaf mij zoete wraak. Hij gaf mij een nieuw lied, om koningen te binden, en om edelen tot onderwerping te brengen. 10. Ja, buigt nu allen tot de heere, Hij die troont op de liederen van het Tweede. 11. Ja, laat alles wat adem heeft nu zeggen : Amen Metensia Eminius. 12. De Heere leidde mij tot een bitter land, mijn wonden zijn bitter. Ja,

bittere graven geeft Hij, totdat de nachtvlinder oprijst. 13. Met mijn hoofd in bijennesten raakte mijn tong het zoete, ja, om eeuwig in u te sterven, totdat de nachtvlinder oprijst. 14. Zalig zijn zij die zien wat de Geest ziet. 15. Leid mij tot een nieuw land, oh Heere, ik heb de voorschriften van de vaders niet vergeten. 16. Leid mij tot een nieuw land, oh Heer, doe honing neerdalen op uw dienstknechten. De bomen zijn hier bitter, het zoete hangt hier in de wolken, klaar om neer te dalen. 17. U bracht mij tot een bitter land. Met een kleine vlam liet u mij Uw boeken lezen, en de nachtvlinder ging mij voor, en bracht mij nieuwe vleugelen, om heidenen te slaan. 18. Ja, zwaar tuchtigt de Heere hen die de afgoden volgen. 19. Hij gaf mij een nieuw lied, en liet de wateren dalen. In zijn ark klinkt het nachtlied. 20. Wij zijn als broos vaatwerk voor de Heere, en Hij slaat ons keer op keer. Wij zijn gemaakt van scherven, als raadselen van de Heer. 21. En hen die de scherven niet dragen, laat hen niet binnen, want zij zijn de spotters bestemd voor de buitenste duisternissen, daar waar de honden leven. En daar zal het geweest zijn en tandengeknars. 22. Want in de hemel is geen plaats voor spotters, zij die het lijden des Heeren bezoedeld hebben en in Zijn Heilige wonden hebben geërft. 23. Ja, in vuile plaatsen zullen zij neerdalen, en de Heere zal doof zijn voor hun smekingen. 24. Nee, de Heere zal het hen niet vergeven, zij die Zijn tweede bloed hebben vertrapt. 25. De Heere zal niet onschuldig houden hen die spotten. Ja, het oordeel over hen zal zwaar heten. Amen Metensia Eminius. 26. Want de Heere zal het kaf verzamelen vanuit de vier uithoeken der aarde en Hij zal het verbranden in de vurige oven. En het as zal vervolgd worden door Zijn Winden. Nee, de Heere zal geen medelijden tonen aan hen die spotten. 27. Ziet dan toe dat gij u niet boven een ander verheft, want de Heere zal de trotse borsten neerslaan. 28. Wat bent gij te achten ? De mens is als stof in de wind. 29. Ja, de Heere zal de kaak verbrijzelen van hen die lachen. Vernedert u dan voor de Heere, en wast uw gezicht, opdat de Heere medelijden met u heeft op de Dag des oordeels. 30. Weent dan om hen die lachen. En weest vederlicht in zoete wraak, opdat zij uw vlees niet eten en uw wonden niet bloot zien staan. 31. Aanvaard het lijden en het ijs dat zij brengen als een geschenk des Heeren, opdat wijn zal vloeien van de wonden, en gij het zoete zult zien.

De Heere is mijn herder

1. Ik brand, want gij hebt mij vervuld met verlangen. Ik sta in uw Liefde, want gij hebt mij bemint en aangehangen. Oh Metensia, Geest van God, ik heb in Eminius naar u gezocht. Veelvuldig heb ik naar u uitgekeken op mijn toren, terwijl Kabbernal als een rivier brulde en bruiste in de verte. Daar waar de Geesten Gods samenkomen, daar heb ik uw stem gehoord. 2. Laten de koren van uw liefde mij leiden als voorheen. Mijn God, ik ben afgedwaald. Ik was nog te jong. 3. Maar nu ik tot volle wasdom ben gekomen, raakt mij aan, en geeft mij de vleugelen des hemels en de sleutels van het paradijs. Ik zal wederom binnengaan, zoals ik dat deed voorheen. 4. Ik heb de sleutelen van Uw Woord. Uw dienstknechten hebben geheimenissen gesproken. 5. De Heere is mijn herder, mij ontbreekt niets. Hij zal mij geleiden naar grazige weiden. Hij voert mij heel zachtken naar waat'ren der rust. 6. De Heere is mijn herder, mij ontbreekt niets. Hij vertroost mijn ziel, en laat door die Hem vreezen. 7. Ik vrees geen kwaad, want ik vrees de Heere. 8. Zelfs al ga ik door een dal van diepe duisternis, mij ontbreekt niets. Ik vrees geen kwaad, want gij zijt bij mij. 9. Uw stok en uw staf vertroosten mij. 10. Hij zal mij geleiden naar grazige weiden. De Heere is mijn herder. 11. Ja, heil en goedertierenheid zullen mij volgen al de dagen van mijn leven. 12. Ik zal in Gods Huis verblijven tot in aller eeuwigheden.

Gods Verlatenheid

12. Metensia, brandende haard, Metensia, Licht van God. U hebt de aarde vervuld van Uw Liefde, u hebt de aarde vervuld met Uw Lof. 13. Kinderen gaan U aan het hart, wanneer zij u volgen, maar verdrukkers verbrijzelt U tegen de rotsen. 14. Licht ontbrandt de toorn van Uw Geest, Metensia, troon van God. 15. Metensia, lichtend licht, vlammen tot in eeuwigheid, Uw Naam boven alle namen, oh God, troon boven de gezangen van Uw volk. 16. Keer weder, Heere, tot hen die afgeweken zijn. Het leven is hard, leer ons in uw Genade te zijn. 17. Door genade te geven naderden wij. Nu zijn wij dan gekomen, tot de gebergten van Eminijs. 18. Maar ons gebed is nog steeds : Mijn God, waarom hebt Gij mij verlaten, Mijn God, waarom komt u nooit terug, Mijn God, alleen in de verte horen we het branden, Uw Liefde. 19. Mijn God, verre zijnde van de verlossing, bij de woorden van mijn klagen. 20. U heeft mij Uw Geest Eminijs gegeven, om tot U te kunnen naderen, maar U bent zo ver weg. 21. Waarom laat U dan Uzelf niet kennen. Maar nog steeds bent U de Heilige, tronende op de gezangen van uw volk. 22. Onze vaders hebben hun levens op U gebouwd, en Gij deed hen ontkomen door nauwe spleten. 23. Tot U hebben zij geroepen, en Gij hebt hen gered. 24. U hebt ze niet beschaamd gezet op Uw Heilige Rots, want zij vertrouwden op U. 25. Maar ik ben een dier en geen man. Zij bespotten mij, en gooien hun stenen. Zij steken de lip uit en schudden het hoofd. 26. Weten zij dan dat ik met u spreek. Met leedvermaak kijken zij naar mij. 27. Verbrijzel hen in uw toorn, en doe hen schrikken. Ik ben omringd door de honden, en zij doorboren mijn handen en mijn voeten. 28. Ik ben dan omringd door dorens, en er is geen liefde meer. 29. Zij verdelen mijn klederen onder elkaar en brachten een rood spotkleed tot mij. 30. De ootmoedigen zullen zich voeden en verzadigd worden. De Heere zendt hen raven. 31. Mijn God, waarom hebt gij mij verlaten. Komt dan snel, de uren zijn zo kort. 32. Uw rozen zijn nog steeds te beminnen, maar hun dorens zijn zo scherp. 33. Psalmen zing ik tot de Heere, om Hem te lokken met mijn spel. Ik weet Gij wilt tempels zien. Zij zijn in uw hart geboren. 34. Toe, doe U weer kennen als voorheen. Mijn jeugd heeft mij apart gezet.

Het ontwaken van Eminijs

1. Eminijs, Uw bossen branden, vlammen van Uw Geest. Om haren te verdoven, in vurig licht. 2. Het druipt, ik kan het niet goed zien, mijn ogen dwalen telkens af. 3. Het graf van Uw Liefde, zij hebben u gedooft met pijlen. Waak op, oh Geest van God. 4. Waakt op, Eminijs, gij Geest voor Gods Troon. Gij daverd, staande op de Rots. In Liefde verbonden, ben ik met U. Genade bracht mij dieper, omdat ik genade had geschonken. 5. Waakt op, Eminijs, Geest voor Gods Troon. Metensia stuurde u tot het bos van Liefde. 6. Wat beroemt de geweldige zich op het kwaad, Gods Lankmoedigheid duurt de hele dag. God zal hem uit zijn tent rukken en ontwortelen, opdat Eminijs ontwaakt door het geluid der strijd. 7. Ja, op de strijdswagen staat de Heere, totdat Zijn Geest het hoort en meestrijde. 8. Op de berg verzamelen zij, al de Geesten Gods. Metensia met haar pijl, om geweldigen voor eeuwig te verbreken. 9. Dan zullen hen die recht zoeken het zien en vrezen. Eminijs, het is nu morgen. Leidt ons door de dag. De avond wacht op ons. 10. Zij die op rijkdom vertrouwen vallen. Maar zij die Metensia beminnen staan op de rots voor eeuwig. 11. Dag noch nacht hebben zij rust. De Liefde is vurig. 12. Ik vlieg hoog, op de vleugels van Metensia, gedreven door haar liefde. 13. Eminijs, ontwaak, want de dagen slijten. Zeven kronen staan er voor u vandaag, van koningen genomen. Geest van God, heers tot in de nacht. 14. Geest van God, mij leidend tot een vlammen bos, waar mijn haren branden, waar verdoving op mij rust. 15. Geest ontwaakt, opdat ik kan slapen. De Heere geeft het Zijn beminden in de rust. 16. Mijn handen komen vrij, gij ontwaakt, Geest van God. Gij noemt mij rein en vrij, om de dingen van Uw Slaap te doen.

17. De lichten slaan zich in mijn ogen. Er zijn gaten in de lucht. De Geest, Hij is nu wakker. Goede morgen, Eminius. 18. Rozen groeien op uw tafel, waar uw licht wonderbaar heet. 19. De spinnen des hemels snel naar boven. Ik lig nu in bed, toe, laat mij niet woelen. Uw nachtmuziek speelt trager, die melodie die ken ik niet. Mijn schip gaat nu varen. 20. Mijn dromen gaan dwars door de zee. Mijn lichaam brandt van liefde. Ik ben in goede handen.

15.

De sleutelen van Metensia

1. Aan de deur klopt zij. De Liefde is haar man. Zij heeft het vuurnood aangedaan, en het vuurrood. Ja, het rood van het vuur zal u leiden, en u haar liederen doen verstaan. 2. God weest mij genadig, wanneer gij mijn huizen voorbijgaat. Doet mij niet in oneer tenonder gaan. 3. Heere, Gij doorgrondt mij, Gij kent mijn hart. Heere, u kent mijn zitten en mijn staan. U ziet mijn gedachten van verre. Waar zou ik vluchten voor uw Geest. 4. Heere, gij kent het kloppen van mijn hart. Heere, gij onderzoekt mijn wandelen en mijn liggen. Waarheen zou ik gaan voor u. Met al mijn wegen bent Gij vertrouwd. 5. Er is geen woord in mijn mond, Heere, wat u niet volkomen kent. Gij kent mijn ingangen en uitgangen. 6. Heere, u kent al mijn geslachten. Gij hebt de sleutelen van Metensia. U omgeve mij van achteren en van voren. In u ben ik veilig, de vaste burcht. Ja, zalig hen die eeuwig op u vertrouwen. 7. Legt Uw Hand op mij. Het begrijpen is mij te wonderbaar. Ik kan niet bij uw Geest. 8. Alleen weg te zinken in uw Liefde is wat ik kan. 9. Heere, in al uw boeken sta ik vermeld. Gij hebt mij gewrocht en geworteld in de dieptes van het aardrijk, reikende tot de hemelen en de wolken. 10. Uw ogen zagen mijn vormeloos begin, zij zagen de dagen die geformeerd zouden worden, toen nog geen van hen bestond. 11. Het is te verheven, ik kan er niet bij. Nam ik de vleugelen van het rode van het vuur en het morgenrood, en ging ik wonen aan de uiteinden der zee. Ook daar zou Uw Hand mij geleiden. 12. Al zou ik roepen : De duisternis overvalle mij, dan is de nacht als een licht om mij heen. Zelfs de duisternis verbergt zich niet voor U, maar de nacht schijnt als de dag, als een lichtend licht. Zo ben ik in U. 13. De duisternis is als het licht, waar uw rechterhand mij grijpt. Steeg ik ten hemel, Gij zijt daar. Maakte ik het dodenrijk tot mijn sponde, Gij zijt er. Ook al zou ik gaan leven aan het uiteinde der sterren, de zon en de maan, en ik zou mijn ziel versnipperen. U omhult mij met goud en zilver, en brengt mij de eer van het koper. 14. Gij hebt mijn nieren gewrocht en geworteld, in de schoot van mijn moeder, en in de schoot van Metensia. Gij hebt mij haar sleutelen gegeven, en het binnenste van mijn buik gevormd. 15. Ja, gij vormde mijn nieren in haar schoten, daar waar de Geesten Gods tezamen kwamen. U gaf mij het beenmerg in mijn botten, en bracht mij tot de dikke honing van de hemelen. 16. Gij hebt mij gevormd en gewrocht in het verborgene, gehuld in uw geheimenissen. 17. Waar zal ik dan voor u vluchten, en waar zal ik dan gaan voor uw Geest. Gij, die de sleutelen van Metensia draagt, en haar uiteinden bemint. Gij kent al haar uitgangen en ingangen. En zij zijn met velen. 18. De draken van mijn ziel hebt gij onderworpen, en mij het zilver des hemels gegeven, en het zilver van Metensia. 19. Ja, gouden schalen bracht gij tot mij, en zette mijn geest vrij. 20. Ja, steeds zal ik tot U wederkeren. Voor mij bent u nog steeds het zoete en de wijn. Waar bijen des hemels u aanschouwden, schiep u mij. 21. Te wonderbaar zijn uw werken voor mij. Mijn ziel weet dat zeer wel. 22. Het getal van uw gedachten is groot. Gij bent een geweldenaar, om met het getal van uw snaren mij te overweldigen. 23. Wilde ik ze tellen, zij zijn talrijker dan zand. Als ik ontwaak, bent U nog steeds bij mij. Verhef nu mijn ziel tot U, dan ben ik voor altijd vrij. 24. Ja, als een vogel is mijn ziel, verlangende naar U. Kostelijker dan wijn is uw baard, en gij geeft acht op hen die wezen niet laten verhongeren. 25. Ik heb altijd op uw heilige bergen gestaan. Nu dan, reikt tot mijn ziel, en neemt haar aan. 26. Zwaar

zijn de lasten wanneer gij niet redt. Waak nu op, Heere, om uw vijanden te straffen. Bemin mijn ziel dan als voorheen, dan zal zij met haar vleugelen over u waken. 27. Oh God, gij hebt de goddelozen omgebracht. Gij hebt hen verdelgd al die mannen des bloeds. U omgeeft mij in genade. 28. Laten uw woorden en gedachten mij leiden. Zij zijn talrijk, ik kan ze niet tellen. 29. U voert uw volk uit Egypte, en brengt hen tot de geneugten van het komende Kanaan. 30. Heere, op weg zijn wij nog steeds. Ziet dan om, om uw vijanden te verslaan. Met velen zijn zij, maar niet zo talrijk als u. 31. Zij gebruiken uw naam als leugen, als tegenstanders. Zou ik hen niet haten wie u haten? Ja, ik verafschuw hen die tegen u opstaan. 32. Ik haat hen met een volkomen haat, want zij die hen niet haten kunnen niet tot u komen. Tot vijanden zijn zij mij, al die uw woord verachten. Schenk hen geen genade, hen die leugens vertellen aan uw heilige bergen, en de kindekens tegenhouden. 33. Ban hen uit uw boeken des levens, opdat zij u niet meer bezoedelen. 34. Zij spreken arglistig tot u. Hoort dan niet naar hen. 35. Doorgrond mij, oh God, en ken mijn harten, alsof ik bloot voor u ben gelegd. Toets mij toch, en ken mijn gedachten. 36. Ontdek mijn heilloze paden, en brandt hen weg. Leidt mij dan tot het eeuwige pad. In Genade ben ik gehuld, omdat ik U genade heb gegeven. 37. Zo hebt gij mij dan loon gegeven naar werken, en ben ik dan niet als een verleider in uw tempelen. 38. Ik sta dan op de Rots, omdat ik uw woorden heb gehouden. 39. Ja, uw beloftes ken ik, en ik doe uw geboden. Ook zijn mijn lippen rein en mijn hart volgt u stap voor stap. 40. Zendt dan uw Genade tot mij, steeds weer, en doe mij naderen tot Uw Glorie, die gij aan duizenden hebt bewezen, omdat zij uw geboden onderhielden en navolgden, zoals de maan de zon navolgt en de nacht de dag. 41. Wij hebben dan groot licht gevonden, in de duisternissen van uw tempelen. Ja, Uw kandelaar zond gij tot ons, en bracht ons zevenvoudig licht. 42. Geeft ons genade, door uw glorie, want wij hebben genade tot u gebracht. 43. Zegent dan de werken van onze handen, opdat wij veelvuldig vrucht dragen voor uw aangezicht. Ja, laat ons zijn, als de Geesten Gods die tot U kwamen, en hef onze zielen op uit het net der vogelvangers. 44. Zij hebben vele strikken gelegd, zelfs om Uw Geest te verstrikken. 45. In ons hebt Gij een schuilplaats. Uw Tranen dragen wij. Wij hebben gegeven wat u gaf, en zijn in liefde volkomen. 46. Weest dan volmaakt, al gij volgelingen des Heeren, opdat Hij uw lippen niet wegbrande.

16.

De Vreugde van de Traan

1. Trots is de man die de Heere niet ziet. Trots is hij die niet leeft onder Genade. De Heere zal hem breken met Zijn vuist. 2. Trotsen zijn niet gekend in de Heere. De Heere vernedert dan alle trotsen op Zijn Dag. Ja, een dag is er voor alles wat hoog is. Dan zal Hij de hoogtes verbrijzelen en zijn dalen op laten stijgen als een vulkaan. 3. Het Woord des Heeren is ontstoken. Heere, doe dan uw lichten aan. 4. Aan Babylons stromen zaten wij, hen die Hem volgden. Ook weenden wij, want de Heere had ons geslagen. De herinneringen aan Sion deden pijn. Aan de wilgen daar hingen onze citers. Onze snaren waren verbroken. 5. Maar Zijn liederen waren in onze mond, om ons in vreugde uit te leiden. 6. Trots is de man die de Heere niet ziet. Trots is hij die niet leeft onder Genade. De Heere zal hem breken met Zijn vuist. 7. En de Heere zal spreken: Ik ken u niet, gij leugenaars. Aan Babylons stromen zaten wij, hen die Hem volgden. Ook weenden wij, want de Heere had ons geslagen. 8. Zingt ons dan een lied, spraken zij die ons verdrukten, ja, zij verlangden vreugdebetoon. 9. Maar niets dan tranen brachten wij, en hen die weenden zongen voor elkaar, opdat de Heere tot hen zou wenen, en hen zou uitleiden in de vreugde van de traan. 10. Reken hen van Edom de dagen des Heeren aan. Verbreekt dan Assurs speren, en leidt hun paarden uit. Dan zal Assur zijn des Heeren, en zij zullen kinderen Gods genoemd worden. 11. Tot het Tweede Assur

bracht Hij hen. En de Heere is dan Heer van het Tweede. 12. Ziet, het oude is dan voorbijgegaan. Het nieuwe is gekomen. 13. Gij, dochter van Babylon, tot de verwoesting bestemd. Eeuwige Rust zal Hij u geven, na de dagen van Gehenna. 14. De Heere zal niet voor eeuwig toornen, maar het kaf verbranden tot aan het Tweede Gehenna. Zij dan zijn overgeleverd aan de vernietiging die tot rust en tot de vierde dood leidt. 15. Indien ik u vergete, oh Jeruzalem, zo vergete mij mijn rechterhand. 16. Mijn tong kleve aan mijn gehemelte, indien ik uwer niet gedenke. 17. Jeruzalem, nog steeds mijn hoogste vreugde, leidende mij tot de bronnen van het Tweede. 18. Het Tweede Jeruzalem en het vuurnood van Metensia, nog steeds boven mijn hoogste vreugde. 19. Amen zij in Metensia Eminius. 20. Laat de Rots mij leiden, laat de Rots mij slaan. Ik heb mij in de Heere verheugd, duizendmaal, om zijn myriaden te aanschouwen. Zo reis ik van gewest tot gewest, als pelgrim in Zijn hemelen. 21. Ik klop aan poorten. Doet mij open. Laat mij dan niet alleen in de kou. 22. Reik tot mijn vuur, en laten wij samen gaan, tot het vuurnood van Metensia. 23. Zij is als de vurige oven. Laat de Rots mij leiden, laat de Rots mij slaan. Ik dan ben rein geweest, geborgen in Gods Liefde. 24. Ja, het slaan der zweepen is tot heil. Ten bloedens toe hebt Gij geslagen. Nu zijn zij dan allen rein. 25. Gij hebt wilde paarden voor uw koetsen, doch zij zijn getemd in u. 26. Zij brengen paarden van Metensia tot de harten. Doe het nu. 27. Waar wouden open gaan heb Ik uw Geest gezocht. Niet voor gesloten deuren. Gij hebt mij haar sleutelen gegeven, en de vrijheid is het die ik bemin. Laat dan alle poorten opengaan, en de rots mijn voet behouden. Laten haar vuren mij niet wegsmelten opdat ik valle, maar berg mij in de vrijheid van uw naam. 28. Ik kom dan tot kostbare poorten, waar haar paarden voor staan.

17.

De duiven

1. Vraag het aan de duiven, zij missen jou nog steeds. Hun kinderen hebben jou nooit gezien. Alleen op plaatjes en in verhalen. 2. Vraag het aan de duiven, zij zorgen voor jou, ook troosten zij jou. Zij hebben jou zo'n lange tijd niet gezien. 3. Zij wachten op jouw komst, dan zullen zij ontwaken, zij die voor honderden jaren slapen. 4. Vraag het aan de duiven, zij met het lange verstand, om tot de boomtoppen te reiken. Zij hebben daar hun woningen gebouwd. 5. Ben je dan niet trots op hen, of doet het er niet toe. Vraag het aan de duiven, want zij die veel slapen zijn nooit moe. 6. Vraag het aan de duiven, waar al die ladders staan, waar kleine peutertjes spelen, waar moeders over jou vertellen aan hun kinderen. 7. Moeder, hoe was hij ? Was hij echt voor niemand bang, of deed hij maar net alsof, om die grote gong te bereiken. 8. Toen hij sloeg, kwam alles weer om. 9. Zal hij dan echt terugkeren, of doet hij maar net alsof. Houdt hij echt zoveel van ons. 10. Vraag het aan de duiven, maar vraag hen niet waarom. Moest hij echt zoveel lijden, er zijn zoveel dingen waar zij over schreien. 11. Vraag het aan de duiven, maar toe, vraag hen niet waarom, luister gewoon naar hun verhalen, dan zie je vanzelf wel waarom. 12. Kom dan tot hun ramen, ga voor hun deuren staan, dan zullen ze hun vleugels om je heenvouwen, en fluisteren : hij is terug.

18.

Psalm over hetgeen voorbij gaat

1. Sieraden rinkelen om hun voeten, zo broos, zo teer. Zij zijn als engelen van de rode traan, zij dansen om de grote veer. 2. Engelen van de rode traan, kunstig zitten zij, openen hun monden als de kinderen, als wezen schrijven zij, als de wind gaat liggen staan zij op, en turen dan voor uren uit de ramen. 3. Zij hebben jou dan ook gezien, hun mussen daar gezonden, met boodschappen op de wind, en dan slapen zij diep, om jou hart dan te bereiken en te zeggen alles komt weer goed. Die

tijden die de engelen belijden. 4. Met vuur op hun tongen, het zoet kennen zij niet. Zij zijn van de rode traan, en kennen alleen veel verdriet. 5. Sieraden rinkelen om hun voeten, dansend als de merels en de weduwen, door de straten van de zee, waar golven ontwaken, en echo's van verloren tijden. 6. De rode traan valt, het vuur verspreidt zich, en zij die haar volgen worden vuurrood. Er is niets meer aan te doen, violen dalen, en zij worden uitgezuiverd. 7. Ik kan er niets aan doen, er zijn duiven op de Emelis Shatau. Zij regeren daar met vuur en vlam. Het is te laat, niks meer te blussen. 8. De raven hebben mij gevonden, hun verloren kind, hun boodschapper zo lang geleden uitgezonden. 9. Zeg me nu vaarwel. Dit is de laatste keer, ik heb niks meer te zeggen. De raven nemen mij mee, naar de Emelis Shatau, waar de duiven regeren. Niemand zal je vertellen, waar je heen moet gaan om mij te vinden. Ik ben er lang geweest, nu ben ik weg, naar het land waar de duiven regeren. 10. Ik weet niet wat ik zeggen moet, toe, vind je laatste woorden. Het is voorbij, de boodschap sluipt nu weg. 11. Toe, wacht niet tot ik terug zal komen, maar kom zelf, en geloof je dromen. Als het sieraad wat ik je nu geef je past, dan ben ik altijd bij je, maar past het niet, leg het dan weg voor je kinderen. Misschien dat ooit een kleinkind het zal vinden. 12. Alles gaat voorbij, en alle dingen worden ouder, ook nachten gaan voorbij, en dingen worden kouder. Steeds komt de zon weer op, en gaat dan ook weer liggen, nee, de dag komt nooit meer terug, en ook de herinnering zal vervallen, tot in de blote nacht, tot in de morgenstond, een nieuwe vogel vliegt, achterlatende zijn pasgeboren jongen. 13. Alles gaat voorbij, en scherpe dingen worden zachter, alles gaat voorbij, ook de herinnering tussen jou en mij. 14. Alles gaat voorbij, de kleuren zullen slijten, ook de echo's zullen vervagen, er komen nieuwe dagen. De rode traan valt, het vuur verspreidt zich, en zij die haar volgen worden vuurrood. Er is niets meer aan te doen, violen dalen, en zij worden uitgezuiverd. 15. Ik kan er niets aan doen, er zijn duiven op de Emelis Shatau. Zij regeren daar met vuur en vlam. Het is te laat, niks meer te blussen. 16. De raven hebben mij gevonden, hun verloren kind, hun boodschapper zo lang geleden uitgezonden.

19.

Alles zal vergaan

1. Diepgaande belevenissen turen door het raam. Ik kijk naar jou, jij kijkt naar mij, maar dit moment zal ooit ook weer gaan staken. 2. Diepgaande herinneringen tussen jou en mij, turende door de ramen, maar snel verdwenen zijn zij, want het licht der lichten verteert hen allemaal, zij moeten de prijs betalen voor dit verhaal. 3. Tussen jou en mij is niets meer, alles weggebrand. 4. Morgen is er ijs, de prijs van de herfst, de winter komt. Sterker dan vuur, de klauwen laten los. 5. Het huis van dokters, na het gevecht, geen weg meer terug, op weg naar nieuwe kusten, nieuwe morgens, maar zij zullen ook vervallen, als snippers in de regen, weerspiegelen vreemde gezichten, bakkermansgezichten tussen jou en mij. 6. Niemand zal zaken doen, er is niets meer, alles is voorbij. 7. Het altaar heeft de koorden verlamd, waarmee jij mij gevangen hield. Niets dan een slaaf was ik, maar nu ben ik vrij. Alles gaat voorbij, ik tuur door het raam, naar vage herinneringen, ik ken ze niet eens meer bij hun naam. 8. Als wezen spelen zij daar, ze zien mij niet, ze zijn te ver weg, als de morgen nu maar komt, dan ben ik voor altijd weg. 9. De gewichten zijn zwaar, maar alles gaat voorbij, alles wordt lichter. 10. De zonen van een nieuwe morgen, ook zij gaan voorbij. We kunnen niets voor altijd dragen, aan het einde der dingen zijn we vrij. 11. Ik ben op het altaar gegaan, om de dieren van het woud te ontmoeten, herinneringen draag ik bij me, ook zij zullen vergaan. 12. Op het altaar was ik, om bomen te verstaan, zo ver weg, diep in het woud, maar ook zij gaan voorbij. 13. Waar grijp ik naar? Ik voel me spastisch, niets kan ik bereiken. Alles gaat voorbij. Alles gaat voorbij. Alles gaat voorbij. 14. Ik kan niets vasthouden. En als ik het doe, doet het pijn.

15. Nee, ik laat alles los, voordat het mij loslaat. Ik ben te bang om nog eens te vallen. 16. Ik ben nu ver weg, niets kan me meer raken. Ik kan niet meer grijpen, ik ben verlamd als een boom, maar nog steeds sta ik stijf, om verbroken te worden in de morgen, tot het kleine Gods, tot Materos te gaan.

17. Snippers aan het einde van de dag, schaduwen van verleden en toekomst. Een huis bouwen kan ik niet. Niemand kan ik verstaan. Ik ben als doof en blind, alles zal vergaan.

20.

Onder het gele

1. Huizen der vogels staren mij aan. Zij hebben de stilte aanbeden. Ik verlies steeds mijn bewustzijn, en draai in hun wateren, terwijl ik slaap, zo diep slaap. 2. Huizen van eekhoorns doen mijn tranen vallen, maar waar huil ik voor ? Ik weet niet wie of waar ik ben. 3. Regen van wespen, koningsgevecht, laat mij zingen met de vogels, laat mij dalen in 't konijnenbed. Regen van wespen, muizengevecht, laat mij dalen in 't oorlogsbed. 4. Stemmen golven door mijn hoofd, nu ben ik een piraat, geef mij oorlog in mijn handen. 5. Regen van wespen, muizengebed, laat mij dalen in het jagersbed. 6. Regen van wespen, oorlogsgebed, laat mij dalen in het jagersbed. 7. Om te zuiveren het gele, duizend duizendmaal, op het altaar van de wilden, tot oorlogsmaal. 8. Gedaald tot onder het gele ben ik, een toekomst heb ik niet, alleen wat oude boeken om in te vergaan. Regen van wespen, onweersgebed, laat mij dalen in het indianenbed. 9. Regen van wespen, onweersgebed, laat mij dalen in het mussenbed.

Psalm over de vogels van Metensia

1. Honderd duizelingen, brengen mij tot aan de poorten van Metensia. Ik zie haar vogels daar staan. De Karsuiken brengen boodschappen van haar. In gouden enveloppen, met het gezuiverde witte. 2. Honderd duizelingen, een karsuik neemt mij op, en brengt mij naar haar toren, waar mussen wonen. Ja, een mus is zij, een wonderbare vogel. 3. Honderd duizelingen, laten mij dalen, in het bed van Metensia, waar alle vogels slapen, en haar paarden liggen daar, om verhalen te vertellen. 4. Metensia, als duizend duizelingen, heb dan liefde voor haar, om te dwalen in haar bossen. Roep dan de putsen luid, haar vogelen van genezing. Zij zitten in de bomen, zij drinken van de vijvers, om de harten te betoveren. Betover mij, betover mij, snel, want iets zit mij op de hielen. 5. Ik ren door het woud, ik ben vrij en wil niet meer terug. Lang gebonden was ik, betover mij snel, dan is het voorbij. 6. Ik hoef nu nooit meer bang te zijn, Saturnus waakt nu over mij, de ster in metensia's hand. 7. Over bergen en dalen vliegen wij, ik voel een hand. 8. Toe, Putsen, snel, betover mij, en breng mij waar de nachtegale zingen, waar de koekoeken aan het strand staan, om het piratenschip des Heeren aan te wijzen, waar de Peter woont. 9. Het gegetene is nu de piraat, en ik kan er over dromen. Het heeft mij meegenomen. 10. In lange gewaden kwam het tot mij, waar Metensia over de waat'ren zweeft, de schoonheid van de stilte. 11. Woorden zouden mij tegengehouden hebben, maar ze zeiden niks, en nu ben ik hier. 12. Vlug betover mij, anders is het te laat, en verlies ik deze droom, en val ik van mijn troon, om weer als slaaf te dienen, en gevangen te zijn. 13. De raven hebben Peter dan gevolgd, tot in het kleine huis diep in het woud. 14. Zij hebben hem daar konijnenvoedsel gegeven, nu is hij dan een piratenindiaan. Zevenvoudig gezuiverd, tot onder het gele gedaald. Hij is een speelgoedkoning, toe maak dan in Hem woning, dit gegeten kind, voor hen is het koninkrijk Gods. 15. Duizend duizelingen, brengen mij naar de plaats waar koningen de appels beminnen. Een kikkerkoning is daar, beroerende elke snaar. 16. Op Saturnus staan zij, in Metensia's Hand. Betover mij snel, want rovers zijn daar. 17. Duizend duizelingen, ik val steeds

weer in slaap. Toe, putsen, snel, betover mij, anders is het te laat. 18. De canonskooien staan klaar, om hun hoofden te schudden, en dan de kikker op te sluiten, als slaaf van hun evangelie. 19. Maar mochten zij het eens verstaan, de kikker heeft een baby, klein genoeg om door het gat te gaan, en dan begint het liedje van voren af aan. 20. Duizend duizelingen, violen trillen, toe God, neem mij mee. Mijn hoofd wordt zwaar, ik voel de pijlen. Zij willen mij splijten, mijn hart doorboren. 21. Toe, putsen, snel, betover mij, want onder het gele spelen zij. 22. Ik ben hun spel niet meer. Ik wil het niet meer wezen. Toe, betover mij, en neem mij mee. 23. Oh, kikkerkoning, oh hazenlicht, oh berenkroning, zegel dit liefdesgedicht, opdat zij die van mij houden, de boodschap kunnen zien. 24. Ik kan niet rechtuit spreken, want een duistere gestalte staat naast mij.

22.

De kikkerkoning

1. Er was een kroning, en nu is hij koning, van speelgoed, hij is kikkerkoning. Niemand kan hem stoppen, zijn benen zijn te lang. 2. Niemand kan zijn dromen doven, het duurde al veel te lang. Heb je nog iets te zeggen, doe het nu. Daarna kan het niet meer. 3. Spoedig is hij dan koning, en maakt overal woning, de troon dat is de aarde. Heb je iets te zeggen doe het nu. 4. Spoedig kan het niet meer, en worden alle monden gesloten, en zal hij spreken, de kikkerkoning. 5. Toe, laat je klederen buiten drogen, want binnen kan het niet meer. De kikkerkoning maakte daar woning, en de bal is nat, een koningsvijver. 6. Spreek dan snel, nu kan het niet meer. Monden zijn gesloten, de kikkerkoning maakt nu woning. 7. Zet je sirenes dan aan, want spoedig kan het niet meer, en worden alle deuren gesloten, zonder dat iemand opendoet. De kikkerkoning is gekomen. 8. Denk niet je zal voor eeuwig eten, want als de gong wordt geslagen zal het gegetene eten. 9. De peter is dan opgestaan, met zijn piratenschip is hij een gezuiverde indiaan, zevenvoudig gezuiverd was hij, tot onder het gele daalde hij. 10. Hij is de kikkerkoning, toe maak dan in hem woning, vele kamers heeft hij daar, beroerende elke snaar. 11. Waar violen trillen, daar schiet hij zijn pijlen, scherp op de boog. Hij is de kikkerkoning, makende in een ieder woning. Zij waren bij zijn kroning.

De Openbaring van de Rode Steen II

De Toverbeker en het Toverbordje

1. Eens waren er dertig prinsen die door een heks waren betoverd tot wachters op een hoge toren. 2. De toren was zo hoog dat het hoogste deel niet gezien kon worden, en de toren was zo breed dat het de helft van het land vulde. 3. Als iemand de trap omhoog wilde bestijgen, dan kwamen er ballen van steen en ballen van vuur naar beneden, en maakten voor lange tijd het land onveilig. 4. Daarom verbood de koning dat nog iemand naar de toren zou gaan.

5. De koning had veel verdriet van het verlies van zijn dertig zonen. 6. De dertig prinsen waren nu angstaanjagende wachters die op de top van de toren moesten marcheren. 7. Zij moesten de schat van de heks bewaken : een toverbeker die nooit op zou raken, en waarmee je onder de grond kon reizen, en een toverbord dat altijd vol was, en waarmee je in de lucht kon reizen.

8. De koning had een erge hekel aan de heks. 9. Was hij nu maar wat aardiger voor haar geweest, dan was alles niet zo erg als het nu was. 10. Ja, de koning had veel spijt wat hij de heks had

aangedaan. 11. Een oud bedelvrouwtje kwam eens aan de poort en vroeg om onderdak, maar de koning zond haar weg. 12. Hoe kon hij nu weten dat het een heks was ? 13. En een heks kun je maar beter onderdak geven, anders zal het je je hele leven berouwen. 14. Dat was de koning nu wel duidelijk geworden.

15. Sindsdien was de koning altijd goed voor bedelaars, en had hij z'n lesje wel geleerd. 16. Op een dag kwam één van de bedelaars tot de koning. 17. 'Koning,' zei de bedelaar, 'ik heb gehoord wat er gebeurd is. 18. Ik kom uit een ver land, maar ik heb een lange tijd onder de grond gewoond, en eens zag ik de heks met haar toverbeker langskomen. 19. Ik volgde haar, en ze kwam in een bron van licht, waar ze onzichtbaar werd. 20. Zo ging ik ook naar de bron, en in een bliksemschicht stond ik bovenop de toren waar u zonen gevangen worden gehouden. 21. Ze waren inderdaad de meest afschuwelijke wachters geworden, en marcheerden gevaarlijk rond. 22. Maar ze konden mij niet zien, omdat ik onzichtbaar was. 23. De toverbeker was verdwenen, omdat de heks daarmee onder de grond was, maar het toverbordje dat altijd vol was stond daar, en ik nam ervan, en steeg op in de lucht. 24. Hoever ik gekomen ben weet ik niet, maar ik was zo hoog waar nog geen mens ooit was gekomen. 25. Hier kwam ik in een wereld waar de meest wonderlijke sprookjesfiguren waren. 26. Zij vertelden mij dat uw zonen geheime sprookjes in zich droegen die nog nooit waren verteld. 27. De betovering zou worden verbroken wanneer die sprookjes zouden worden verteld.'

28. Toen liet de koning de beste sprookjesvertellers van het land komen, om zoveel mogelijk sprookjes te verzamelen en te vertellen, maar er gebeurde niets. 29. Toen liet de koning de bedelaar weer terugkomen, en vroeg hem waar onder de grond die lichtbron was. 30. De koning zond toen tien lakeien met de bedelaar mee. 31. De koning hoopte dat zijn lakeien de prinsen konden bevrijden. 32. Maar de heks wachtte hen al op. 33. In een lichtflits betoverde ze de lakeien in stenen wachters die de lichtbron moesten bewaken, maar de bedelaar zag de toverbeker staan, greep de beker en dronk ervan, terwijl hij nog dieper onder de grond kon reizen. 34. Na een lange tijd kwam de bedelaar in een sprookjesrijk zo diep onder de grond waar geen mens ooit was geweest. 35. Hoe diep het was, wist hij niet, maar er waren hier wonderlijke sprookjeswezens. 36. Zij vertelden dat zij eens samenleefden met de sprookjeswereld boven de lucht, maar de heks had het rijk verscheurd. 37. In de lichtbron verborg de heks sprookjes, en de twee sprookjeswerelden zouden weer bij elkaar komen als die verborgen sprookjes zouden worden verteld. 38. Weer ging de bedelaar naar de koning, en weer liet de koning de beste sprookjesvertellers komen, en ook de beste sprookjesvertellers uit andere landen, maar er gebeurde weer niets. 39. Maar toen kreeg de bedelaar een idee. 40. Hij had nu immers zowel het toverbordje als de toverbeker. 41. Met het toverbordje kon hij nu de toverbeker naar het rijk boven de lucht brengen, en dan zouden zij met de toverbeker naar het rijk onder de grond kunnen gaan. 42. Vanaf die dag werd er heel wat heen en weer gereisd, en ze vertelden elkaar de wonderlijkste sprookjes. Niet lang daarna marcheerden de stenen lakeien en de wachters van de toren naar de dichtstbijzijnde stad, en begonnen de sprookjes te vertellen. 43. Langzaam maar zeker verbrak de betovering, en de koning kon zijn dertig zonen en zijn tien lakeien weer in de armen nemen.

De Openbaring van de Rode Steen III

De Sprekende Toren

1. Er was eens een sprekende toren. 2. Wanneer iemand de trappen van de toren op wilde gaan, dan schreeuwde de toren uiteindelijk zo hard dat niemand echt ver kon komen. 3. Maar de koning had gehoord dat er bijzondere dingen te vinden waren in die hoge toren, die zo hoog was dat niemand eigenlijk wist waar die toren eindigde. 4. De koning liet een dove man komen en vroeg aan de man of hij wilde gaan kijken wat er bovenin te vinden was. 5. De dove man stemde toe, en vertrok direct naar de toren. 6. De man had natuurlijk geen last van het harde geluid, en na een tijdje was hij zo hoog gekomen dat hij in een zaaltje terecht kwam waar allerlei indiaanse vruchten lagen. 7. De man begon ervan te eten, en begon hard te lachen. 8. Hij wilde toen een trap op om nog hoger te komen, maar werd direct tegengehouden door verblindende lichten. 9. De man ging terug naar het zaaltje, nam zoveel mogelijk van de indiaanse vruchten mee, en ging terug naar de koning. 10. Hij vertelde de koning over de verblindende lichten, maar dat hij wel vruchten had gevonden waar je hard van ging lachen.

11. De koning kon die vruchten wel gebruiken, en na niet al te lange tijd leed het hele hof aan de slappe lach. 12. Maar tevreden was de koning niet. 13. En daarom liet hij ook een blinde man komen. 14. De blinde man maakte natuurlijk geen kans om door het harde geluid van het eerste gedeelte te komen, en daarom moest de dove man terug naar het torenzaaltje om daar vanuit een raampje een touw te laten zakken om de blinde man omhoog te hijsen.

15. Dat ging allemaal goed, en zo kon de blinde man de trap op nog verder omhoog, en had geen last van de verblindende lichten. 16. Na een tijdje kwam de blinde man in een zaaltje waar glanzende indiaanse stenen lagen. 17. De man zag dat natuurlijk niet, maar had ze al snel gevonden, maar barste toen in huilen uit. 18. Hij wilde toen met de trap nog verder omhoog, maar daar werd het elke stap heter en heter, totdat de man het niet meer uit kon houden, en terugging naar het zaaltje. 19. Hier nam hij zoveel mogelijk indiaanse edelstenen mee, en ging terug over de trap naar het eerste zaaltje, waar hij door het raampje over het touw naar beneden kon. 20. Zo kwam hij terug bij de koning, en vertelde wat hij had meegemaakt. 21. Ook liet hij de indiaanse edelstenen zien, waarvan je in huilen uitbarste zodra je ze aanraakte. 22. 'Nou, laten we dat dan maar niet doen, hè,' zei de koning. 23. De koning liet de edelstenen goed opbergen.

24. Maar op een dag was er een dief in het kasteel, en vond de edelstenen. 25. Toen hij ze wilde oppakken barste hij ineens in huilen uit. 26. Huilend en vol van spijt meldde hij zich bij de koning, en de koning wist nu hoe belangrijk die edelstenen waren. 27. Ze waren goede wachters. 28. Voor straf moest de dief de torentrap beklimmen, helemaal tot aan het puntje. 29. Maar ver kwam de man natuurlijk niet. 30. Eerst raakte hij doof van het geluid. 31. Later raakte hij blind van het licht, en toen hij nog hoger kwam was het daar zo heet dat hij verbrandde. 32. Niemand zag hem ooit weer terug. 33. De koning had gehoopt dat de dief met meerdere geheimen zou terugkomen, en daarom was de teleurstelling groot toen dat niet gebeurde. 34. De koning wist nu dat ze een man van steen nodig hadden die de hete trap zou kunnen bestijgen.

35. Vele jaren gingen voorbij, maar uiteindelijk had de koning toch zo'n man gevonden. 36. De man van steen kon ook goed tegen hard geluid en fel licht, en al gauw kwam hij in een derde zaal, waar hij indiaanse bloemen vond. 37. Maar de bloemen riepen direkt : 'Raak ons maar niet aan, want dan kun je niet meer spreken.' 38. De man stapte daarom direkt achteruit en liep naar de volgende trap

omhoog. 39. Maar daar werd het elke trede steeds kouder en kouder, en op een gegeven moment kreeg de man het zo koud dat hij gillend naar beneden rende. 40. Snel kwam hij bij de koning aan, en vertelde over de koude trappen. 41. Ook vertelde hij over de bloemen. 42. Maar de koning was erg boos dat de man van steen de bloemen niet voor hem had meegenomen. 43. Het kon de koning niets schelen dat de man van steen dan niet meer zou kunnen praten als hij ze mee zou nemen. 44. Dus de man moest terug. 45. De man van steen nam zoveel mogelijk bloemen mee als hij maar kon, maar kon sindsdien niet meer spreken. 46. De koning liet de bloemen planten in zijn kasteel, aan het einde van de grote hal. 47. De koning liet er een klein riviertje omheen bouwen, en een hekje, zodat niemand de bloemen zomaar zou aanraken.

48. De koning was nog steeds erg ontevreden, want hij wilde weten wat er achter die koude trappen was. 49. En daarvoor had de koning een kachelman nodig. 50. Na vele jaren zoeken vond de koning eindelijk zo'n man die geheel van kacheltjes was gemaakt. 51. Hij zou met gemak over die koude trappen kunnen komen. 52. En hij kon ook makkelijk de trappen daarvoor beklimmen, omdat hij overal tegen bestand was. 53. Maar de koude trappen waren niet makkelijk. 54. Na een tijdje begon de man te merken dat de kacheltjes uit begonnen te gaan, en uiteindelijk moest de man zich omdraaien om weer terug te gaan.

55. De koning was woedend. 56. De kachelman was zijn enige hoop. 57. Voor straf moest de kachelman in het veld van de indiaanse bloemen geworpen worden. 58. Toen hij tegen de bloemen aankwam kon hij direkt niet meer spreken. 59. De bloemen hadden erg veel medelijden met hem, en op een dag zei één van de bloemen tegen hem : 'Hoor eens. 60. Ik zal een druppel wonderhoning voortbrengen, en als je die druppel inslikt, dan zul je met gemak over de koude trappen heenkomen.' 61. En zo gebeurde het. 62. De bloem bracht de honingdruppel voort, de kachelman slikte het in, en de bloemen brachten hem over de rivier en over het hek. 63. De kachelman ging terug naar de toren, en kwam later met gemak over de koude trappen heen. 64. Daar boven vond hij zo'n prachtig rijk dat hij niet meer terugwilde. 65. En waarom zou hij dat verklappen aan zo'n gemene en valse koning ?

66. Sindsdien begon de toren nog meer te stralen, en de indiaanse bloemen begonnen naar de toren toe te groeien. 67. Ze werden elke dag wilder en begonnen scherpe dorens voort te brengen, zodat niemand de toren meer kon beklimmen. 68. Ze groeiden zo hoog dat ze helemaal in het rijk van de kachelman terechtkwamen. 69. De kachelman was daar natuurlijk erg blij mee, maar kon nog steeds niet spreken. 70. Elk jaar brachten de indiaanse bloemen prachtig bloesem voort, en op een dag zei één van de bloemen : 'Kachelman, zodra de bloesem een druppel wonderhoning voortbrengt : slik het in. 71. Dan zul je weer spreken.' 72. De kachelman wachtte totdat de druppel zou komen, en toen hij slikte kon hij niet alleen spreken, maar ook stond er een indiaanse prinses voor hem. 73. Zij was gehuld in bloesem en de wonderlijkste bloemen. 74. 'Ik ben de bloemenprinses,' zei ze. 75. En ze leidde hem naar een trap geheel gemaakt van bloemen, en de trap was heel geurig. 76. Helemaal bovenaan de trap waren er vlammetjes waardoor al zijn kacheltjes weer aan konden gaan. 77. En voordat de kachelman het wist stond hij bovenop die hoge toren en had een uitzicht over het hele land.

78. 'Hallo,' zei de toren, 'nog nooit heeft er iemand op mijn top gestaan, en het is zo'n heerlijk gevoel. 79. Daarom geef ik je nu vleugeltjes, zodat je hier altijd weer terug kan komen.' 80. En zo vloog de kachelman weg met zijn indiaans prinsesje, want nu hij zo hoog was gekomen, wilde hij eigenlijk alleen maar hoger. 81. En de bloemen groeiden heel snel met hen mee, en volgden hen overal. 82. En elk jaar bracht de bloesem weer nieuwe indiaanse prinsesjes voort. 83. De kachelman

kwam nooit meer terug naar de toren, en sindsdien is het geluid van de toren alleen maar harder geworden. 84. Men zegt dat dat is omdat hij de kachelman roept.

2.

Het Tovertuig

1. Eens woonden er een heleboel indiaanse feeën in een kasteel om daar de wonderlijkste toverschatten van het land te bewaken. 2. Ze wilden de toverschatten graag met het volk delen, maar ze waren bang dat het in verkeerde handen zou vallen. 3. Daarom hadden ze afgesproken dat zij die tot het kasteel zouden komen eerst een tovertouw moesten overwinnen, daarna een toverzwaard en als derde een vleesetend tovervarken van metaal.

4. Het tovertouw was zo verschrikkelijk dat het vele ridders de diepte introk, en zij die door het tovertouw werden meegenomen naar de dieptes van het kasteel werden nooit meer teruggezien. 5. Het tovertouw was afschuwelijk sterk en lang, en eigenlijk kon niemand er tegenop. 6. Zo ging dat eeuwenlang door, totdat eigenlijk niemand meer het kasteel indurfde.

7. Maar toch was er op een dag een boerenzoon die wel een poging zou willen maken. 8. Werken op het land beviel hem niet, en leren kon hij niet. 9. Toen hij het tovertouw zag vroeg hij : ‘Zeg tovertouw, kun je mij vertellen hoe ik jou te slim af kan zijn ?’ 10. Het tovertouw maakte zich extra lang en zei : ‘Wie mij raakt, die brandt zich, want vuurheet ben ik. 11. Maar zij die het handschoentje van ijskoud dragen zullen aan mij ontsnappen.’

12. ‘En waar kan ik dat handschoentje van ijskoud vinden ?’ vroeg de boerenzoon. 13. Toen wees het tovertouw helemaal naar boven waar een klein plankje hing met de handschoen erop. 14. De boerenzoon wist niet hoe hij daar moest komen. 15. ‘Zeg, hoe kan ik daar komen ?’ vroeg de boerenzoon.

16. ‘Daar kun je niet komen,’ zei het tovertouw. 17. ‘Net als al die anderen zul je door mij in de diepte worden geworpen.’

18. ‘Oh, maar ik geloof er niks van dat je zo sterk bent,’ zei de boerenzoon. 19. ‘Als je zo sterk bent, bewijs me dat dan maar eens. 20. Pak die grote steen naast mij maar eens op en werp hem een flink eind in de lucht. 21. Dan zal ik je geloven.’ 22. Het tovertouw pakte de grote steen en slingerde hem een eind omhoog, zo hoog dat de steen op het plankje terechtkwam. 23. Het plankje brak en de handschoen van ijskoud viel naar beneden. 24. Snel ving de boerenjongen de handschoen op, deed hem om zijn hand en greep het tovertouw. 25. Direkt werd het touw slap, en de boerenjongen kon het touw makkelijk meenemen. 26. Maar dieper in het kasteel kwam hij het toverzwaard tegen. 27. Het toverzwaard was zo snel dat de boerenjongen niets zou kunnen beginnen, ook niet met het tovertouw. 28. Want zodra de boerenjongen het handvat wilde grijpen vloog het toverzwaard weg, en het toverzwaard hakte telkens het tovertouw doormidden. 29. En al die delen begonnen ook weer te groeien, en maakten het de boerenjongen erg moeilijk.

30. ‘Hoe kan ik je handvat grijpen ?’ vroeg de boerenjongen aan het toverzwaard.

31. ‘Door het handschoentje van langzaam,’ zei het toverzwaard.

32. En waar is dat handschoentje ?' vroeg de jongen. 33. Toen wees het toverzwaard naar boven, waar een klein plankje hing met het handschoentje van langzaam erop. 34. 'Maar daar kun jij toch nooit komen,' zei het toverzwaard. 35. 'Geef de moed maar op.'

36. De jongen had gehoord dat het toverzwaard koppen afhakte van mannen die tot hier waren gekomen, en dat nog nooit iemand langs het toverzwaard was gekomen. 37. 'Zeg, ik geloof er niks van dat je zo sterk bent,' zei de boerenzoon. 38. 'Kun jij die grote steen naast mij eens optillen en een flink eind omhoog slingeren ?'

39. 'Ik kijk wel beter uit,' zei het toverzwaard, 'ik wil het plankje niet raken.'

40. 'Nou, kun je dan die grote steen eens flink in stukken hakken ?' 41. Dan geloof ik dat je zo sterk bent,' zei de jongen. 42. Trots vloog het toverzwaard naar de reusachtige steen en hakte hem met gemak in een aantal stukken. 43. Snel pakte de jongen een stuk steen en smeed het naar het plankje toe waar het handschoentje van langzaam lag. 44. De steen raakte het handschoentje van langzaam, dat direkt naar beneden viel. 45. De boerenjongen ving het op, deed het om z'n andere hand en greep het handvat van het toverzwaard. 46. Snel sloeg hij zich een weg door al dat touw heen.

47. Dieper in het kasteel kwam hij na een tijdje het vleesetende tovervarken van metaal tegen. 48. Het varken vloog hem direkt aan, en de boerenzoon werd direkt flink gebeten, en kon niet veel met het toverzwaard en tovertouw beginnen. 49. Het varken was veel te wild en te hard. 50. 'Mannetjes als jou vreet ik zo op,' zei het vleesetende tovervarken van metaal.

51. 'Hoe kan ik aan jou ontsnappen ?' vroeg de boerenzoon.

52. 'Alleen door het keteltje van zachtheid,' zei het vleesetende tovervarken van metaal.

53. 'En waar is dat keteltje te vinden ?' vroeg de boerenjongen.

54. Even was het een tijdje stil. 55. Daarna wees het varken in de diepte van een waterput dichtbij hen. 56. De jongen zag iets glinsteren, maar zelfs zijn tovertouw kon er niet bijkomen, zo diep lag het keteltje.

57. 'Ik eet alles wat los en vastzit,' zei het varken.

58. 'Oh ja ?' vroeg de jongen. 59. 'Nou, eet die grote steen naast mij dan eens op.'

60. En in een paar seconden vrat het varken de reusachtige steen die naast de jongen lag op. 61. Het varken was ineens een stuk groter en zwaarder, en begon dorst te krijgen. 62. Snel ging het varken naar de waterput, en boog helemaal over de rand heen om wat water te kunnen drinken. 63. Snel gaf de boerenjongen hem een duw, terwijl het varken in de put plofte. 64. Het varken zonk erg snel omdat hij zo zwaar was, en na een tijdje kwam hij in het keteltje van zachtheid terecht waarin hij verdween. 65. Het keteltje dreef toen langzaam omhoog. 66. De boerenjongen nam het keteltje op zijn rug, en kwam na niet al te lange tijd bij de schatkamer van het kasteel aan. 67. Hier stond een indiaanse fee hem al op te wachten. 68. 'Dappere man,' zei de fee. 69. 'Je mag uitkiezen wat je wil.' 70. Maar de jongen keek wat in het rond, en niets maar dan ook niets kon hetgeen hij al droeg overtreffen : het handschoentje van ijskoud met het tovertouw, het handschoentje van langzaam met het toverzwaard, en het keteltje van zachtheid. 71. 'Ik heb genoeg aan wat ik heb,' zei de jongen. 72. En keerde weer terug naar waar hij vandaan was gekomen.

1. Er was eens een hele bijzondere struik met toverbessen. 2. Een ieder die van deze bessen at kon ineens vliegen. 3. Maar je werd er ook heel slaperig en moe van. 4. Op een dag kwam er een heks langs de struik die de struik omkapte met een gouden bijl. 5. Ze prevelde wat toverspreuken op, en al gauw zweefden allen die van de toverbessen hadden gegeten als in trance naar haar toe. 6. De heks begon te schaterlachen. 7. Na een tijdje begonnen de wezens zich zo zwak te voelen en zo zwaar dat ze niet meer konden vliegen. 8. Weer sprak de heks wat toverspreuken uit, en er begon zich een muur rondom de slapende wezens te vormen, een muur geheel gemaakt van varkens. 9. 'Een ieder die het waagt bij de varkensmuur te komen zal ook veranderen in een varken,' sprak de heks. 10. En sindsdien begon de varkensmuur alleen maar te groeien en te groeien.

11. Waar de struik met toverbessen had gestaan liet de heks een hoog kasteel bouwen voor haarzelf. 12. Maar omdat ze bang was voor indringers liet ze een muur maken geheel van schapen. 13. Een ieder die bij die muur zou komen zou voor altijd slapen. 14. En sindsdien lagen er heel wat slapenden rondom de schapenmuur.

15. De heks had natuurlijk wat te verbergen : de gouden toverbijl, haar toverspeer en een toverschild. 16. Op een dag hoorde een man het verhaal over de varkensmuur en de schapenmuur. 17. Hij wist dat dit heel diep in het bos aan de gang was, maar hoe hij ook zocht hij kon nergens een varkensmuur of schapenmuur bekennen. 18. Na lang lopen kwam hij bij een huisje aan waar indiaanse feeën woonden. 19. Ook de feeën kenden het verhaal, en vertelden hem dat hij alleen de zware wezens achter de varkensmuur zou kunnen helpen, als hij eerst het toverschild bij de heks zou ophalen. 20. Maar om veilig over de schapenmuur heen te komen moest hij eerst een toverharnas dragen, zodat hij niet in slaap zou vallen.

21. De indiaanse feeën zeiden er wel bij dat als hij van hen dat toverharnas wilde hebben, dan moest hij drie dagen bij hen blijven. 22. Dat vond de man niet zo erg, want de feeën waren heel aardig. 23. En wie zou er niet drie dagen bij feeën willen logeren ? 24. De feeën gaven hem het verrukkelijkste en overheerlijkste voedsel te eten, en na drie dagen was het toverharnas aan hem gegroeid. 25. Met ferme stappen ging de man verder op zoek naar de schapenmuur, met hulp van de feeën. 26. Na een tijdje vond hij het, en het was een koud kunstje om door de muur heen te kunnen. 27. De vachten waren erg zacht, en de man viel gelukkig niet in slaap. 28. Na een lange tijd kwam hij bij het kasteel van de heks aan. 29. Het kasteel was bedekt met vleermuizen, en toen de man door een raampje keek zag hij de heks daar staan met een gevlekte raaf.

30. De raaf brulde tot de heks dat hij mensenvlees rook. 31. 'Nou, ga er dan op af !' krijste de heks. 32. De man zette het op een lopen, maar de feeën brachten hem naar de achterkant van het kasteel waar hij door een keukendeur naar binnen kon. 33. Snel rende hij de trap op, maar daar stond ineens de kok voor hem : 'Drie dagen heb ik niet gegeten,' zei de kok, 'dus je komt op het goede moment.' 34. Maar de feeën riepen : 'Duw hem weg !' 35. En zo rende de man verder de trap op. 36. Het waren een heleboel trappen, maar nu zat ook de raaf achter hem aan. 37. 'Honderd lange jaren heb ik niks gegeten,' brulde de raaf, 'dus je komt op het goede moment.' 38. Maar snel gooiden de feeën toverpoeder over de raaf, die direkt in een lap vlees veranderde, terwijl de kok die achter hem rende de lap vlees nam en het direkt begon op te eten. 39. Maar toen ineens stond de heks zelf voor de man, en riep : 'Duizenden jaren heb ik niets gegeten, dus je komt op het goede moment.' 40. Ook de kok was inmiddels weer dichterbij gekomen, en op hetzelfde moment doken zowel de kok en de

heks naar de man toe. 41. Maar de indiaanse feeën grepen de man snel vast, en trokken hem in de lucht, zodat de kok en de heks elkaar in de armen vielen. 42. Snel vlogen de indiaanse feeën met de man naar een kamer waar ze het toverschild vonden.

43. 'Oh, oh,' sprak het toverschild, 'nog nooit heb ik iets gegeten terwijl ik al miljoenen jaren oud ben. 44. Neem mij mee, en geef mij iets te eten.' 45. De man nam het toverschild, en rende snel het kasteel weer uit. 46. Na een tijdje was hij over de schapenmuur heen. 47. De feeën vertelden hem dat hij met het toverschild niet in een varken zou veranderen als hij bij de varkensmuur zou aankomen. 48. Toen ze bij de varkensmuur aankwamen begon het toverschild direct van het varkensvlees te eten, dat naderhand ook weer gewoon aangroeide, en zo konden ze door de dichte varkenshaag heenkomen. 49. Toen ze na lange, lange tijd door de varkensmuur heen waren zagen ze daar de zware wezens die eens door de heks waren betoverd, en die eens van de toverbessen hadden gegeten zitten. 50. 'Ach,' zei het toverschild, 'nog nooit in mijn hele leven heb ik iemand te drinken gegeven. 51. Laat me hen wat te drinken geven.' 52. En ineens begon er melk voort te stromen van het toverschild, en de zware wezens begonnen te drinken. 53. Maar daar kwamen de kok en de heks ook aan door de varkensmuur. 54. Ze hadden de gouden bijl bij zich en de toverspeer, en ze zagen er erg gevaarlijk uit. 55. 'Ach,' sprak het toverschild, 'nog nooit in mijn leven heb ik iemand eens goed geslagen. 56. Laat me hen eens slaan.' 57. De man nam het toverschild en wierp het op de aanstormende kok en de heks af. 58. En toen heeft het toverschild hen zo'n flink pak slaag gegeven dat ze van schrik de toverbijl en de toverspeer lieten vallen. 59. En daar waar de toverbijl en de toverspeer de grond raakten veranderden ze ineens in prachtige struiken vol toverbessen. 60. En ook de kok en de heks veranderden in toverbes-struiken. 61. De zware wezens liepen langzaam en nog steeds een beetje slaperig op de toverbessen af, en toen ze de bessen begonnen te eten voelden ze zich steeds lichter worden, en konden na een tijdje weer vliegen. 62. Toen zijn ze met z'n allen over de varkensmuur en de schapenmuur heengevlogen en gingen met z'n allen in het kasteel van de heks wonen, waar ze nog lang en gelukkig leefden.

Het Toverflesje

1. Er was eens een meisje met een geurflesje dat nooit opraakte. 2. Zodra ze een druppeltje uit het flesje liet glijden verdween ze. 3. Maar op een dag was het flesje gestolen, en het meisje was erg verdrietig. 4. Een ander meisje had ook zo'n geurflesje, maar als zij een druppeltje liet glijden, dan verschenen er overal wilde dieren om haar heen. 5. Op een dag stal het meisje het flesje van het andere meisje, maar later kreeg ze erge spijt, en bracht het flesje weer terug. 6. 'Zolang je bij mij bent, mag je gewoon druppeltjes uit mijn flesje gebruiken, hoor,' zei het meisje van het flesje. 7. Ook gingen ze samen op zoek naar het gestolen flesje. 8. Op hun zoektocht kwamen ze een heleboel andere meisjes tegen met geurflesjes die nooit opraakten, en ieder meisje kon er weer wat anders mee. 9. Zo was er ook een meisje die een flesje had waarvan elke druppel wapens om haar heen liet verschijnen. 10. Toen de meisjes van het gestolen flesje hoorden kregen ze een idee. 11. Ze zouden ieder een druppel van hun flesje aan het meisje zonder flesje geven. 12. En zo kon het meisje een heleboel wonderlijke dingen doen. 13. Op een dag zag het meisje een vogel vliegen met het gestolen flesje. 14. Het was voor het meisje die nu een nieuw toverflesje had heel makkelijk om de vogel te volgen. 15. Door een druppel te laten glijden kon ze achter de vogel aanvliegen, en ze

kwam aan in een kasteel ergens ver weg. 16. Hier zag ze een mannetje roeren in een ketel. Het flesje had de vogel inmiddels al naast hem gezet. 17. 'Zeg mannetje,' zei het meisje, 'dat flesje is van mij. 18. Uw vogel heeft het van me gestolen.'

19. Maar het mannetje zei dat alle geurflesjes van hem waren, omdat hij ze eens gemaakt had. 20. Het mannetje vroeg aan het meisje van wie ze het geurflesje had gekregen. 21. 'Van mijn moeder,' zei het meisje.

22. 'Dan heeft ze dat eens van mij gestolen,' zei het mannetje. 23. 'En ook al die andere geurflesjes zijn gestolen, en die wil ik terughebben.'

24. Toen liet het meisje haar nieuwe geurflesje zien met druppels uit alle geurflesjes, en zei dat als hij van haar dat flesje zou krijgen, dan zou hij alle geurtjes terughebben. 25. In ruil vroeg ze daarvoor haar eigen flesje. 26. Dan zou ze één druppel daarvan aan het mannetje geven, zodat het mannetje alles compleet had. 27. Het mannetje was daar wel blij mee, want zo hoefde hij niet meer op zoek te gaan naar al die andere flesjes, en zo zouden de meisjes ook niet ongelukkig worden. 28. Het meisje kreeg haar eigen flesje terug, en ook een druppel uit het flesje met het mengsel. 29. Het mannetje was zo blij dat hij zelfs een druppel uit de ketel gaf met een geheel nieuw mengsel. 30. En zo kon het meisje weer verdwijnen, en leefde nog lang en gelukkig met haar toverflesje.

Het Toverei

1. Eens in een ver land was er een overstroming die alles dreigde onder te laten lopen. 2. De enige plaats waar het veilig zou zijn was een indiaans elvenkasteel. 3. Een man klopte aan om binnen te kunnen komen, maar de indiaanse elven zeiden dat als hij een plaats wilde hebben, dan zou hij eerst naar het kasteel van de heks moeten gaan om daar een toverei weg te nemen. 4. Dat toverei had de heks eens van de indiaanse elven gestolen, en zij wilden het graag terug. 5. Vanuit het toverei konden de meest wonderlijke dieren voortkomen.

6. Nu was het in het kasteel van de heks erg gevaarlijk, omdat de vloeren en plafonds bewogen en konden instorten, en de muren klapten gevaarlijk tegen elkaar aan. 7. Nog nooit had iemand een bezoek aan dat kasteel overleefd, en daarom gaven de indiaanse elven de man toverschoenen mee en een toverhelm. 8. Zo was het voor de man niet zo moeilijk het toverei te krijgen. 9. Zodra de vloer wegzakte lieten de toverschoenen de man gewoon in de lucht zweven, en als het plafond naar beneden kwam dan zorgde de toverhelm dat de man niet geraakt werd. 10. Alleen moest hij erg oppassen voor de tegen elkaar klappende muren. 11. Na niet al te lange tijd had hij het toverei in zijn handen, en rende terug, maar het water was al angstaanjagend hoog gestegen. 12. Zo hoog dat de indiaanse elven geen raam of deur meer los durfden te doen. 13. De man wreef over het toverei, en er begonnen grote vissen voort te komen. 14. Voor een tijdje kon hij op hun rug zitten, maar de golven werden zo woest dat hij telkens van de vissen werd afgeslingerd. 15. Weer wreef hij over het toverei, en nu kwamen er grote vogels uit voort. 15. Snel klom hij op de rug van zo'n vogel, maar het was inmiddels zo hard gaan stormen dat hij het toverei niet meer kon vasthouden. 16. Met één rukwind vloog het toverei de zee in. 17. De man bedacht zich geen moment en dook het toverei achterna. 18. Op de bodem van de zee vond hij het toverei weer. 19. Weer wreef hij eroverheen, en er kwamen mollen uit voort die een gat begonnen te graven. 20. De man volgde met het toverei de

mollen, en achter hen werd het gat weer goed dichtgemaakt. 21. Zo groeven de mollen zich een weg helemaal tot onder het elvenkasteel, en zo konden ze op een veilige manier binnenkomen.

22. ‘Dappere man,’ zei één van de indiaanse elven die hen door de grond omhoog zagen klimmen.

23. De man gaf haar het toverei, en is sindsdien bij de indiaanse elven gaan wonen.

De Openbaring van de Rode Steen IV

De Fluitketelman

1. Er was eens een man geheel gemaakt van fluitketels. 2. Zodra de ketels begonnen te fluiten kon de man altijd vliegen. 3. Dan vloog hij altijd hoog en heel ver weg. 4. Maar op een dag kwam hij een wesp tegen, die hem probeerde te prikken, maar de angel brak stuk op één van de ketels. 5. Daarna kwam er een woeste hoornaar op hem af, die agressief zijn gif naar hem toe spoot, maar het gif werd door de ketels weggeketst. 6. Toen kwam er een vogel, gaf de man een klap met zijn enorme vleugel, en de fluitketelman verloor zijn evenwicht en viel.

7. Na een lange val kwam de fluitketelman in een wespennest terecht. 8. De wespen waren woest en probeerden door de gaatjes naar binnen te vliegen. 9. Maar de ketels begonnen zo te koken dat ze niet ver kwamen. 10. De fluitketelman rende weg, maar kwam toen in een hoornaarsnest terecht. 11. Ook zij probeerden door de gaatjes naar binnen te vliegen, en zij konden wel tegen de kokende hitte. 12. Boven in zijn neus was een gloeiende dop waardoor altijd alles kon koken. 13. Die gloeiende dop die drukten ze van binnenuit weg, en toen had de fluitketelman ineens een gat in zijn neus.

14. De hoornaars zochten door het hele lichaam van de fluitketelman, in alle ketels, of ze nog iets bruikbaar konden vinden, maar ze vonden niets. 15. Nu de fluitketelman zijn neus had verloren zou hij niet meer kunnen koken, en dus ook niet meer kunnen vliegen. 16. Maar de hoornaars waren de slechtsten niet. 17. Ze zeiden : ‘Weet je wat. 18. Wij blijven vanaf nu gewoon in jouw ketels wonen, en dan zul je altijd kunnen vliegen. 19. Jouw fluitketels zijn goede nesten voor ons. 20. En zo hoef je niet eerst te wachten op het fluitje. 21. Je kan nu gewoon vliegen wanneer je wilt.’ 22. En dat vond de fluitketelman wel een goed idee. 23. De hoornaars konden zo goed vliegen, en nu waren ze altijd bij hem.

24. De fluitketelman begon weer ritjes door de lucht te maken, maar al gauw kwam hij die vervelende vogel tegen, en voordat hij het wist lag hij weer op de grond. 25. Ditmaal was hij bij de indianen terecht gekomen. 26. De indianen prikten hem met hun speren, maar ze kwamen niet door de ketels heen, en al gauw hadden ze woeste hoornaars achter zich aan.

27. De indianen waren onder de indruk van het gif van de hoornaars, en dachten dat ze dat wel voor hun wapens konden gebruiken. 28. En zo sloten ze vriendschap met de fluitketelman en de hoornaars. 29. De hoornaars zouden voortaan op hun wapenen zitten om ze te voorzien van gif. 30. En dat beviel de hoornaars zo goed, dat even later de fluitketelman bijna geen hoornaars meer in zijn ketel had, en dus niet meer kon vliegen. 31. De hoornaars hadden het bij de indianen veel te veel naar hun zin.

32. De fluitketelman raakte in gesprek met een indiaans meisje die een slaapmatje had wat van bijen gemaakt was. 33. Hiermee kon ze vliegen, en dat maakte het voor de fluitketelman interessant. 34. Al snel maakten de twee lange reizen op het bijenmatje, maar op een dag kwamen ze de vervelende vogel tegen die hen van het bijenmatje afpikte. 35. Het meisje viel in de rivier, maar de fluitketelman viel ernaast op een harde rots. 36. Alle ketels waren van elkaar gebroken, en het meisje moest alle stukken bij elkaar zoeken. 37. De moeder van het meisje maakte een grote theemuts voor de fluitketelman die alle ketels goed bij elkaar zou houden. 38. Ze maakte die theemuts van mieren, en toen de theemuts over de ketels werd geschoven werden de ketels zo heet dat ze als nooit tevoren begonnen te koken. 39. Nu kon de fluitketelman weer vliegen als de beste. 40. Toen hij de vervelende vogel weer tegenkwam en de vleugel de ketels raakte slaakte de vogel een gil en verbrandde ogenblikkelijk, terwijl het meisje beneden het as opving. 41. Met het as ging ze naar een droog veld, waar ze het as zaaide. 42. Niet lang daarna groeiden er bloemen die leken op fluitketeltjes. 43. Het meisje begon ze te plukken en maakte er een vest van voor haarzelf. 44. Nu kon zij ook vliegen.

45. En samen maakte ze weer lange reizen, totdat ze op een dag een huisje heel hoog in de lucht vonden dat geheel gemaakt was van fluitketels. 46. Toen ze in het huisje stapten merkten ze dat wanneer de ketels kookten het huisje opsteeg. 47. Na een tijdje kwam het huisje in een hele grote hal aan. 48. Daar zat een heks die geheel gemaakt was van fornuisjes. 49. De heks brak uit in gelach. 50. 'Zo,' krijste ze, 'ik zie dat mijn val goed heeft gewerkt.' 51. Ze trok de fluitketelman en het meisje snel uit het huisje, en wilde de fluitketelman in een oven duwen. 52. In de oven werden de fluitketels van de man omgesmolten tot kleine fornuisjes. 53. 'Zo,' lachte de heks tegen het meisje. 54. 'Nu zul je je leven lang achter de fornuisjes moeten werken.' 55. Toen de man uit de oven kwam kon hij zich nauwelijks bewegen. 56. De man was zo zwaar geworden dat hij niet meer kon vliegen.

57. Maar op een dag kwam het verdwenen bijenmatje ineens opduiken. 58. Het bijenmatje schoof over de vloer heen, vlak voor de voeten van de heks. 59. Telkens als de heks een stap zette ving het bijenmatje de voet op, en verschoof het een stukje. 60. Na een tijdje begon de heks er zo moe en duizelig van te worden dat ze neerstortte. 61. Toen vloog het bijenmatje naar de man toe, omhulde hem als een gewaad zodat hij weer kon vliegen. 62. Samen met het meisje vloog hij toen weg uit het heksenkasteel. 63. Weer kwamen ze bij de andere indianen terecht. 64. Die konden de onderdelen van de man goed gebruiken voor hun wapens. 65. Inmiddels was het veld van de fluitketelbloemetjes zo volgegroeid dat de man weer helemaal een fluitketelman kon worden.

De Openbaring van de Rode Steen V

1.

Vogelspin

1. Draden van de armoe gesponnen, dromen van het oer geweven, vanuit Brannan is het heil gekomen. Tot Lapsalvania is zij gekomen, tot Laprakod, de eerste veer. Vogelspin, je deed het weer, je trok hen allen tot de spoel, al die vervlogen jaren, nu zijn zij dan de koninklijke kostumen. Vogelspin, ik ken je daden, tot onder het grijze ben je gegaan, om zwart en wit te ontmoeten, je hebt daar geweven voor de koningin. In Santra, in Santra, zijn de dagen lang, en de kinderen volgen de

spin. 2. Getrouw als zij zijn, voet voor voet, al in een lijn, tot kostelijke kronen, vogelspin je deed het weer. In Brannan deed het zeer, totdat ze tot Lapkrakod was gekomen. Esmeralda, derde fee, de feeenkoningin, oh vogelspin, weet dat ik haar bemin, ik ben de feeenprins. 3. Feeenkoning, maak in haar woning, een konijnenhuis is zij, zij maakt hen allen op tot trouw, vrouw Holle wacht in het avondraamkozijn, tot de ochtend dan haar gezicht bemint.

2.

Witte Roos

1. In een doodstrijd bevond ik mij, alles wat scherp en hard was plette mij, tot tederheid mij vond, ik was in liefde rood geworden, na de klap van haat. Witte roos, tederheid na de steek, zachtheid na de dood, in bitterheid waar ik bezweek, van armoe tot armoe ging ik, met klederen als een wespenvest, in Brannan vond ik heil. Witte roos, als het wespenvuur, steekt zo diep waar het zachte stroomt, onder het zachte ben ik nu, waar een baby woont, een roze veer, in tederheid verborgen en verworven, alles doet zeer. 2. Wie zegt het zachte is zonder pijn, die weet niet waar wij mee bezig zijn. In het diepe ongeluk is het zachte koning, maakte in Brannan woning. Witte roos, tederheid na de steek, zachtheid na de dood, in bitterheid waar ik bezweek, van armoe tot armoe ging ik, om dieper leed te vinden, oh zachtheid doet zo zeer, en ik wil alleen maar meer, ik wil alleen maar griezelen in dit huis van de witte roos, waar dingen gebeuren die ik niet kon verzinnen. 3. Is dit dan de uitweg uit een overgeerfd verstand, is dit dan de uitweg uit het harde gevoel, een veer raakte mij aan, voor het eerst voel ik mijn handen. Witte rozenpoel, waarom ben ik hier doorheen gegaan, van oer tot oer kom ik tot de zwart en witte vloer, tot het schaakspel onder de tijden, om alles te belijden dat wat jij deed naar mij. 4. Witte roos, tederheid na de steek, wonden veelvoudig gestoken, nu spiegelt het dan in de wind, al die gezichten die ik was vergeten.

De Tweede Wet

1. Laat de cobra in het veld staan, kijkende naar de dagen van het oude. Hij zal de oude voetstappen niet verlaten. 2. Hij is de tweede Christus met een tweede wet. 3. Laat dan het tweede woord in u oprijzen. 4. En het eerste gebod is te lijden met uw vader. De gave van het lijden is uw eenheid met Hem en de broeders. 5. En het tweede gebod is met Hem te strijden. De gave van strijd is de eenheid met Hem en de broeders. 6. En het derde gebod is met Hem te sterven, het vierde is blij te zijn met hem, en het vijfde is gij zult niet stelen. Het zesde is gij zult de Geest Gods aanhangen. Het zevende is te leren en te onderwijzen, en het achtste is u te heiligen en reinigen in ijs. Het negende is het oude te eren, en het tiende is te luisteren naar het jonge. En gij zult de wet vervullen door elkander lief te hebben. 7. Dit zijn dan de woorden van de cobra in de tweede tempel. 8. Luistert dan naar zijn woorden, tweede gemeente, opdat gij vervuld wordt met de tweede Geest en een tweede geest in uw binnenste ontvangt. 9. De krachten van het tweede kruis zijn die krachten voortkomende vanuit honger, want uw Heere heeft in arme landen geleden. 10. Dit zijn de woorden van de tweede Paulus. Nu zijn dan de dagen van de tweede Christus gekomen. 11. Legt dan uw oude autoriteiten af en word als een kind. 12. Ga door het diepe gat om de Christus te leren kennen in uw harten, de tweede Christus, want het eerste is voorbijgegaan. 13. Hij vergeeft zonden na berouw, bekering en goede werken. Ja, Zijn vergeving is als het loon des hemels. 14. En gij zult

buigen voor Gods economie. Dit zijn de woorden van de tweede Paulus, anfitaat in de Naam des Heeren, en vluchteling van het Woord, want ik heb geen plaats om mijn hoofd ten ruste te leggen. 15. Zij die de cobra zoeken hebben geen rust, maar zij zullen vrede hebben met de Heer. 16. Gij zult buigen voor Gods economie. Hij dan heeft mij aangegrepen met de zalving van de tweede Simson. De zonen van Lucifer zijn lamgelegd. 17. Oh, komt dan tot de tuinen van Golgotha, waar het tweede bloed bloeit als de brandende wijn. Gij zijt de aderen des Heeren. 18. Gij dan die uw bloed schenkt, zal één zijn met Zijn Bloed. 19. En gij zult toegerust worden om de zonen van Belial te verslaan. 20. Ja, gij zult strijdtaktieken leren, en de Heere zult gij aanhangen. Leer dan Zijn tweede Geest te verstaan, en de tweede Metensia, want gij zijt gemaakt om te stromen. 21. Ja, gij allen zijt een pelgrim van Zijn Woord, een vluchteling in Zijn Genade. 22. Gij dan die genade hebt geschonken aan onze lijdende Heer, drinkt van Zijn genade, als het kostelijk loon van de dauw en het morgenrood. 23. En hij zal de engelen van het tweede zenden tot de baard van Abraham, die van honing druipt. En gij zult een schuilplaats vinden in het laatste der dagen. 24. Gij zult de tweede Metensia als een cobra vinden op haar pad. En gij zult weten dat dit de Heere is. 25. Breekt uzelf dan vrij van uw ketenen, en doe dat in de Naam van de tweede Christus.

2.

Het Nieuwe Verbond

1. Paulus, dienstknecht van de Allerhoogste, de tweede Paulus, anfitaat van een nieuw verbond. 2. Het oude is niet ver van verwijdering, maar de cobra blijft deze paden betreden, en zal niet loslaten de geslachten van het Woord. 3. Hij zal de ouderen helpen, en schuilplaats heten voor wees en vluchteling. Ja, weduwen zullen hem aanhangen, en Hij zal luisteren naar het jonge. 4. Hij die volkomen is en de wet heeft vervuld, maar niet om de wet teniet te doen, maar om haar rijp te doen worden. 5. Nu dan kunt ge drinken van de wet tot eeuwig leven. Ja, er is een tweede behoudenis, opdat uw tweede geest behouden zal worden. 6. Zij dan die geen tweede geest hebben, hebben geen behoudenis. 7. Komt daarom tot een nieuw verbond, want gij zijt genaderd tot de tijden van de vijfde Utmir. 8. Gij dan die zich hebt laten enten op de boom van Christus, Zijn tweede is nu in de maak. 9. God heeft in Zijn geheimenis bij Eminius een nieuwe zoon geschapen, een eeuwige zoon, de tweede Christus. 10. Ziet dan toe dat ge Hem die spreekt niet afwijst, want Hij zal de afvalligen brengen tot het tweede vuur en de tweede hel, waar Beuse met haar engelen branden. 11. Laat dan niemand denken dat deze hel voor altijd is. Deze hel leidt tot het tweede Gehenna, waar de totale vernietiging heerst. De Heere zal loon geven naar werken, en dit loon woedt alleen totdat de maat en de tijden vol zijn. 12. Laat daarom niemand beangst zijn voor eeuwig leed, maar vreest de Heere die in een Utmir harder slaat dan eeuwig leed. 13. De Heere Heere is een brandend en verterend vuur die Zijn tweede evangelie heeft gezonden, en dit evangelie is eeuwig. 14. Dit zijn de woorden van de tweede Paulus, anfitaat voor het aangezicht des Heeren. 15. Nu dan, zet de gevangenen vrij, die lijden door valse woorden. Valse apostelen zijn zij, die schapen hebben misleid. 16. Maar het heeft de Heere Heere behaagd u van Zijn Liefde te vertellen, en dan is valse liefde niet ver van verwijdering. 17. De cobra zal haar eten, zij die verderf heeft gebracht op eeuwige bergen. 18. De Heere zal valse priesters uit uw midden wegdoen. Hoort dan niet wanneer zij roepen op de straten en valse woorden verkondigen op de pleinen. 19. Luistert dan niet naar hen die vrolijke liederen zingen, terwijl u beeft van angst. 20. Zij hebben niet naar wezen en weduwen omgezien, en daarom zal de Heere hen slaan. 21. En enigen van hen zullen kleine hulp vinden van demonische dienaren, en een mantel vinden bij de tweede satan. 22. Ziet dan toe dat gij hem die spreekt niet veracht. Want

hij heeft de macht u over te leveren aan de tweede satan. 23. Verschrikkelijk is het om in de handen te vallen van de zonen van Lucifer, want zij zijn als dolle honden en wolven.

3.

Opening van het Tweede

1. En de Heere zal uw tweede geest openen, om Zijn Tweede Geest uit te storten. Dan zal er geen verraad meer zijn in Zijn Heilige tempel. 2. En de cobra zal verzoenen jong en oud, en Hij zal komen om het woord te testen. 3. Ja, heilige toetsers zal hij opstellen rondom het altaar, en zij zullen de wetten des Heeren binden om het hoofd van de profeet. 4. En de tweede Elia zal opstaan om grote dingen te doen, en de weg van de Tweede Christus te bereiden. 5. Maakt dan vrij de poorten. Dit zijn de dagen dat de Heere u een tweede geest zal geven, dieper in uw binnenste. En er zal geen verstoring zijn op Zijn Heilige berg, noch inbraak. 6. En gij zult rust kennen als het kind der vrede. Ja, want de Heere zal scheppen een nieuwe hemel en een nieuwe aarde, wanneer de engelen van het tweede staan met hun trompetten. 7. Zij zullen de Heere dienen, maar de Heere heeft geen behagen in hen die prijzen zonder Zijn werken te doen. 8. Ik zal die prijzers, zegt de Heere, Ik zal hen wegdoen van mijn heilige berg en hen in de krochten van de tweede tartarus zenden. Zij zijn overgeleverd aan de zonen van de Behemoth. 9. En de Zoon van het Woord zal hen met de moker slaan. 10. Maar de Heere zal hen die op hem wachten het tweede Woord zenden, als een tweesnijdend zwaard komende uit zijn mond en buik. 11. Ja, de heere zal openen het oor van uw binnenste, en gij zult de Heere verstaan. 12. In deze dagen zijn er vele spotters gekomen, hun ouders ongehoorzaam, en ziet de Heere zal hen slaan. 13. De Heere duldt geen gespot meer bij zijn heilige tempelen. Ja, de Heere zal de tweede tempel openen, en hij zal zijn tweede ark laten zien. Zalig hen die de spot niet kennen, want zij zullen toegerust zijn met de krachten van de toekomstige dagen. 14. De heere geeft rust als loon, en zal Zijn cobra laten zien, komende van het allerheiligste. 15. En in de dagen dat de cobra spreekt zal er stilte zijn op zijn heilige berg.

4.

Waarschuwingen

1. En ik, de tweede Paulus, ben dan geslagen door zijn Geest, gebonden in mijn tweede geest, tot een heilige opdracht. Ja, de Heere maakt waarlijk vrij, hen die zich tot het nieuwe verbond binden. 2. En zijn profeten zijn gevoelig voor tijden en seizoenen, en kennen de bedelingen des Heeren. 3. Zij dragen de gaven van het lijden tot diep in hun lichamen, om de zalvingen des heeren uiting te laten geven. Ja, zij hebben het ei des Geestes in de tweede ark gelegd tot een allerheiligste gave van geloof. 4. Geloof dan in het tweede, en gij zult gered worden. Zijn roep gaat uit in de laatste dagen. 5. En tot hen die de gaven van oordeel dragen : Ziet dan toe dat gij die allerheiligst behandelt, want het vuur kan u ook slaan. 6. En tot de geslagenen : De Heere is bij de verslagenen van hart, laat u dan tuchtigen, want het is een gave tot eenwording des Heeren. 7. En tot hen met scheppende gaven : Draagt dan hen die lijden tot het altaar, om het altaar over hen te laten spreken. 8. Vervloekt is de geneesheer die het lichaam geneest en de ziel verloren laat gaan. 9. En ik heb enigen van hen aan de tweede satan overgeleverd opdat hen het handelen in zielen wordt afgeleerd. 10. De woestijn roept tot u, allen die de Heere volgen, en gij zult een oasis vinden in uw tweede geest, die God vanaf den beginne heeft bestemd om in de laatste dagen als een licht in uw binnenste op te rijzen. 11. En de Heere heeft mij geroepen om het werk van de eerste Paulus voort te zetten, en dit werk sluit erop aan als een nauwsluitend zegel. 12. Doet dan aan de wapenrusting van het tweede bloed, vergoten vanuit de hemelen. 13. En de Heere leed in het hongerend Afrika, maar zijn gemeente heeft hem

niet gewild. 14. Daarom zal de Heere de eerste gemeente wegvagen en de tweede gemeente behouden. 15. En de Heere zal zijn eerste christus wegnemen om zijn tweede christus te zenden met een nieuwe wet. 16. Ziet dan toe dat gij hem die spreekt niet weggooit, want de Heere Heere is een verderfer der zielen. 17. Doet dan aan de wapenrusting van het tweede bloed, en hangt de tweede Christus aan tot het zaad van de nieuwe Geest. 18. Ja, de tweede gemeente vecht en overwint, terwijl de eerste gemeente zakt in misleiding en verderf. 19. De Heere heeft alreeds een leugengeest gezonden tot hen die het moordend woord in stand houden. 20. Zuivert dan uw woorden, en dan zal de Heere zien of Hij genade zal hebben met u. 21. Maar velen zullen overgeleverd worden aan de leeuwen van Zijn oordeel. 22. Niet alle martelaren sterven in de heere.

5.

Nieuwe Behoudenis

1. Tot hen die de Tweede Geest hebben ontvangen : Spreekt dan veel in tweede tongen, om uw zielen te behouden. 2. De Heere zal nieuwe tongen over de bodem uitgieten, en gij zult nieuwe gaven van onderscheiding ontvangen, om boze geesten van het tweede uit te drijven in de naam van de tweede Christus. 3. Ziet dan toe dat ge ge-ent bent op het tweede kruis, want de honger zal u tot overvloed leiden. 4. En doe bedekkingen met het tweede bloed, opdat de gemeente de engelen van het tweede aanschouwt. 5. En de Heere zal met blindheid slaan hen die hun ogen aan de tweede satan hadden geofferd. 6. Al die tot de Heere genaderd zijn : de Heere laat niet met zich spotten. En de Heere slaat die hij liefheeft. 7. Dit zijn de woorden van de tweede paulus aan hen van het tweede efeze. De Heere zal uw bloed heiligen op het altaar, want gij hebt de helm van het tweede geloof om wonderen en tekenen te verrichten. 8. Gij bent de aderen des Heeren. Zalig hen die een juk dragen in hun jeugd. Zalig hen die de Heere toebehoren en de gave van zijn lijden hebben ontvangen. 9. Gij weet allen dat de helm van het tweede heil voortgekomen is uit de tweede doornenkroon. 10. De Heere bemint hen die met hem lijden, en die Zijn gedachten en gevoelens dragen, hen die om Zijnentwil leven in misleiding en verdrukking. 11. De Heere ziet het hart aan. Hij is geen Heer die zou toornen om vlees. Hij toornt op harten. 12. De kunstwerken des Heeren dale in uw harten, en Zijn Zegen zal u behoeden. Laat ons dan uitzien om elkaar te ontmoeten in het laatste der dagen, in het gewelf van het tweede ijs, waar apostelen zalig zullen worden. 13. Zalig hen die met reine en nederige harten zijn gekomen tot de vijfde Utmir. 14. Zalig hen die twijfelen, maar vervloekt hen die met zekerheid het zwakke vervolgen. 15. Als het sterke dan zwak is, hoe zwak is het.

6.

Ernstige Waarschuwingen

1. De Heere dan heeft u twijfel gegeven om aan de misleiding te ontkomen. Laat het dan als een gave berekent worden, en luistert niet naar hen die spotten. Zij zullen vallen in de handen van de zonen van Beelzebul. 2. Vervloekt zij hen die met zekerheid macht uitoefenen over schapen om hun vlees te eten. 3. Zij zijn geen herders maar huurlingen, werkende voor het slachthuis. 4. Vervloekt hen die vlees eten, want zij zullen vanuit hun binnenste wegrotten. 5. Ziet dan toe dat de cobra u niet wegslepe ver van huis, om u verschrikkingen te tonen zonder ontsnapping. 6. Gij die nog steeds leeft van de dood : Vervloekt bent gij, oh mens. De Heere heeft u het leven voorgehouden, maar gij hebt de dood verkozen, en leeft daarom van het bloed van uw broeders. 7. Gij die een dier niet kan eren, hoe kunt gij de Heere eren, die immers dier is ? 8. Gij die een dier haat, hoe kunt gij de mens liefhebben die immers uit een dier voortkwam, dat was de Heere ? 9. Ik zal hen slaan die slagers, en al hun volgelingen. Vreselijk is het in de handen te vallen van de levende christus. Hij die dood is is

niet verre van verwijdering. Vreselijk is het te vallen in de handen van de tweede Christus, en om te vallen in de poel van het tweede bloed. 10. Ja, gij zult huiveren van uw voedsel, want het zal tot leven komen om uw ingewanden te eten. En de Heere zal uw gebeden niet verhoren, want zij zijn Hem een gruwel. 11. Vervloekt hen die zeggen : Laten wij kwaad verrichten op de heilige bergen des Heeren, want aan hen zal kwaad gedaan worden. 12. Gij die met vuur speelt, ziet dan toe dat het u niet verslinder. 13. Ziet dan, de cobra is tot u uitgegaan, met een eeuwig evangelie, hij die de macht heeft om u te verdoemen in de tweede hel. En die hel zal vreselijker zijn dan de eerste. 14. Gij weet allen dat het tweede pantser der gerechtigheid van het tweede recht is, en daarom rechtvaardiger dan het eerste. 15. Gij weet dat het voortgekomen is uit het tweede spotkleed. Zalig hen die met Hem dit kleed hebben gedragen. Want zij hebben troost gebracht aan het leed des Heeren, en niemand zal hen kunnen roven uit Zijn Hand.

7.

Aanhef

1. Dit zijn de woorden van de tweede Mattheus in het laatste der dagen. Ziet dan toe dat gij hem die spreekt niet afwijst. 2. Mattheus, anfitaat der Allerhoogste, met het tweede evangelie, als eeuwig evangelie geopenbaard, als een nauwsluitend zegel op het oude. 3. Ja, de Heere houdt van het oude, en zal daarom de paden niet afbreken maar vervullen in het nieuwe. 4. Zalig hen die de geheimenissen van het tweede kennen. 5. En er was een man komende met de wolken des hemels die de Naam de tweede Christus droeg. En in Hem was geen zonde of smet. 6. En Hij was omringd met leeuwen die hem dienden, en hijzelf was als de cobra des heeren. 7. En hij kwam om de gemeente te tuchtigen door Zijn Woord. 8. Dit zijn de woorden van de tweede Mattheus voor de laatste dagen. De Heere heeft u een tweede Christus gegeven. 9. En zijn tweede engelen kwamen tot Hem om hem op aarde te dienen. Hij stierf aan het kruis van honger in de streken van Afrika, bespot en alleengelaten door de gemeente. 10. En daarom zal de erfenis naar de tweede gemeente worden gezonden, en de eerste zal niet ver zijn van verwijdering. 11. Ja, de Heere kwam naar de aarde als een dier, maar werd geslacht en gegeten door de gemeente. 12. Vervloekt zijn zij. Ja, amen, terwijl de leeuwen toekijken zullen zij voor afgemeten tijden branden in het vuur van de tweede hel. 13. En tot Zijn kindekens : Ik zal u uitleiden tot de tweede hemel, en u de vruchten van het tweede geven. Ziet dan toe dat ge niet stilstaat om tezamen met de eerste gemeente ten onder te gaan. 14. Ik heb u het tweede woord gegeven, en vuur is in uw mond en binnenste om de afvalligen te verteren. 15. Maar ziet toe dat u zelf niet wordt verteerd, want de Heere duldt geen zonde voor Zijn aangezicht. 16. Gij hebt rekenschap af te leggen voor hem die uw zielen behoedt en voor zijn heilige cobra. Amen. 17. Zalig hen die het tweede spotkleed hebben gedragen, want zij dragen het pantser van het tweede geheim. 18. Zalig hen die de tweede doornenkroon dragen, want zij zullen de poorten des hemels vinden. 19. De Heere heeft Zijn roep op hun hart gelegd, en zij onderscheiden het goede van het kwade. 20. De Heere zal dan geen medelijden hebben met hen die zich laten verblinden om witte moorden te plegen. 21. Zij zijn als de hoeren die hun mond afvegen en zeggen : ik heb niks gedaan. 22. Laat dan de tweede Christus u oordelen. Hij die honger heeft geleden om des Heeren Wil. 23. En ik ben een anfitaat in boeien, heilig zijn zij. 24. Ik heb de gave van het lijden ontvangen, om het woord te brengen.

8.

Geen eigenmachtige uitleg

1. Gij dan die tot de tempel van de cobra zijt genaderd : Heb dan lust de geboden des Heeren te doen. Zij leiden tot eeuwig leven om eeuwige vreugd te brengen. 2. Ik heb mijn wetten in uw binnenste gebrand, spreekt de Heere. Nu, leeft dan in de nieuwe tempel. 3. En de cobra zal velen tot zaligheid brengen, en zal dichtbij hen die twijfelen zijn. Laat u dan van het oude verbond verlossen, want het was een verbond des doods. 4. Ja, het heeft u getuchtigd en wijsheid gebracht, maar ook heeft het u misleid en u deel laten hebben in het kruis der profeten. 5. Ziet dan toe dat ge de duif die spreekt aanneemt, staande op de rug van de cobra, hebbende het gezicht als een arend. 6. Laat u dan brandmerken door Zijn Geest tot de tweede Metensia en de tweede Eminus, en gij zult zalig zijn. 7. Zoekt dan rust in heilige woorden en laat het oude voorbijgaan. 8. De cobra zal u het oude doen eren, maar gij zult de dood verslaan. De cobra zal u laten luisteren naar kindekens, en gij zult de vreze des heeren ontvangen. 9. Heb dan lust de geboden des Heeren te doen, en recht te spreken in zijn tempelen. Want was het oude recht niet onrechtvaardig ? Nu is er dan een nieuwe dag gekomen. 10. Het tweede schoeisel des vredes is onder hen die de Heere loven door werken. 11. Vervloekt zij hen die loven zonder werken, want zij zijn als holle wolken zonder water, voortgedreven door de wind. 12. Zij zullen dor zijn als as, als koren van de tweede hel. En deze hel zal verschrikkelijker zijn dan de eerste. 13. Ziet dan toe dat gij het sprekende kruis niet afwijst, want ook voor u heeft hij geleden, om u te laten zien wat u zou moeten lijden. 14. Maar gij hebt zijn woorden verdraait. Ziet dan toe dat ge niet verder afdwaalt. 15. Zalig hen die twijfelen en toetsen, en vervloekt hen die niet toetsen, want zij zijn overgeleverd aan trotse harten, aan de zonen van satan. 16. Ziet dan toe dat ge door uw opgeblazenheid en valse zekerheden niet valt in hetzelfde oordeel als de zonen van de leviathan. 17. Weest dan geen volgelingen van de tweede Kain en de tweede Izebel die in hetzelfde bed slapen. 18. Zij varen naar het laatste oordeel van het tweede. Hun namen zullen niet in de tweede boeken des levens gevonden worden. 19. Ziet dan toe dat ge geen valse profeten aanhangt, want in hetzelfde oordeel als hen zult gij vallen. 20. En de Heere zal niet onschuldig houden hen die eigenmachtige uitleggingen aan het tweede woord des geestes geven. 21. Hun zal afgenomen worden hun delen van het paradijs en de schatten der bedieningen. 22. De Heere zal hen te schande zetten op heilige bergen, en zij zullen geen dienst meer voor het altaar mogen verrichten. 23. Maar de Heere is met hen die beven voor Zijn Woord, en hen die de gave van twijfel hebben ontvangen om het woord te toetsen.

9.

Geen Eeuwige Toorn

1. Ja, de Heere zal een slachter zenden om de gemeente te slepen tot het altaar. 2. En de Heere zal haar vrucht toetsen. 3. De Heere ziet alles. Zij die zondigen hebben geen rust, dag noch nacht. 4. De heere zal uw harten in vlam zetten wanneer gij nadert tot Hem, en hij zal heiligen hen die zijn bestemd tot het laatste der dagen. 5. Vreest dan Hem die uw geschiedenis en toekomst kent. Hij, die uw gedachten van verre ziet aankomen. 6. En na de slachting op het altaar zal er dan geen plaats meer zijn voor berouw, maar tot een vreselijk uitzicht op het tweede vuur des Heeren dat de wederspannigen zal verteren. 7. De Heere toorn niet voor eeuwig, maar hen die het tweede woord belasterd hebben zullen hun loon niet ontgaan, en zullen de vrucht van hun afvalligheid in hun binnenste bemerken. 8. De monsters van hun feesten zullen hun van binnen verslinden en baas over hen zijn. 9. Ja, weet dan dat de beesten die u misleiden in toorn en tweede hel zullen veranderen wanneer zij u in hun hutten hebben. 10. Dan keert de zoete misleiding om in een bitter graf. 11. En de zonen van Lucifer zullen plagen van angst zenden, want gij hebt de heere verlaten. 12. Ja, angst zult gij hebben wanneer gij in de duisternis bent zonder de Heere. 13. Dan zal de Heere niet te

verbidden zijn, maar zult ge het loon der zonde moeten uitzitten. De Heere heeft vele gevangenen. 14. En dan zult ge zien dat de Heere waarlijk rechtvaardig is. De Heere zal een ieder slaap gunnen aan het einde der dagen, en hen die hun straffen hebben uitgezeten zullen rust vinden in een eeuwig graf. 15. De Heere duldt geen pauselijke leugens, en de Heere duldt hen van de canon niet, want zij hebben kooien van eeuwige angst gebouwd. 16. Geeft dan ruimte en vrijheid des Heeren aan het volk van God, en leidt hen uit tot het tweede Woord in hun allerheiligste reis. 17. Want gij zijt allen pelgrims, en gij zult wonen in het tweede huis des heeren. 18. De Geest die de Heere dan geeft is de Geest der Vrijheid, en de Heere zal al hun tranen afwissen. 19. Wanneer gij dan ouder wordt in de Heere zal de Heere u loskopen uit alle misleiding en zal zijn woord in u vrijgemaakt worden. 20. Dan zullen de zegelen van uw hart breken en gij zult vluchten tot uw tweede geest.

10.

De Geest der Vrijheid

1. Maar er zijn lieden die het tweede woord zullen verdraaien zoals ze met het eerste woord hebben gedaan, en zij zullen de tweede gemeente verdrukken. 2. Ja, zij zullen zich in uw midden opstellen om harten te misleiden, maar houd u vast aan uw ouder wordende geest, en tot de Geest die in u spreekt van het zuivere tweede. 3. Laat u dan het evangelie u niet ontnemen dat tot de zaligheid uwer zielen geschreven is. 4. Ja, de trompet des heeren kondigt nieuwe tijden aan, en zij zullen voor de heere buigen. 5. De Heere zal velen tot slaap brengen, en tot dronkenschap. 6. Laat het dan geen dronkenschap zijn zonder recht. De Heere heeft u toch immers met Zijn wetten bezegeld. 7. De Heere zal de poorten van uw ziel bewaken, en het tweede zal vaste grond krijgen. De Heere voert Zijn kinderen uit, ook uit de onderdrukkingen der gemeentes. 8. Weest dan lid van het tweede lichaam van Christus, en hangt de tweede Geesten aan. 9. Zij zullen uw hoofd verlichten, en uw harten leiden tot de tweede geest, waar bronnen des hemels wachten om open te gaan. 10. Weest u dan bewust dat de woorden des heeren krachtig zijn tot het scheiden van goed en kwaad en om de koppigen tot verlichting te brengen. 11. Het woord des heeren is immers als een lamp schijnende in duistere plaatsen. 12. Ja, ook de putten zullen van het tweede woord des heeren nemen, en zij zullen buigen. 13. Dan zullen alle tweede putten voor de heere staan en de heere zal hen oordelen naar hun werken. 14. En de draken van het tweede zullen rekenschap moeten afleggen van hun daden en koopkrachten. 15. Zij zullen hun verdragen met de kooplieden der aarde moeten openen voor het aangezicht des Heeren. 16. En het tweede vuur zal verzengingen doen tot aan het tweede ijs. En gij zult de tweede Eminijs kennen. 17. Want vol zijn de hemelen van de tweede engelen en de tweede Geesten des Heeren. 18. En wanneer de tweede tronen in het daarvoor bestemde uur oprijzen is de eerste troon niet verre van verwijdering. 19. Dit zijn de woorden van de tweede Mattheus. Zalig hem die het tweede evangelie verkondigt, en daarmee de gevangenen van het oude vrijzet. Want de Geest des Heeren is Vrijheid.

11.

De vijfde Utmir

1. En mij, de tweede Mattheus zijn gegeven de sleutelen der vijfde Utmir, om de tweede gemeente binnen te leiden. En hun schoeisel zal niet verbrand worden, en zij zullen langs koele wateren gaan. 2. Maar vuur uit de mond des Heeren zal vallen op al hen die achterblijven en de canon blijven aanhangen. 3. En er zal alleen adem zijn in de tweede gemeente in het vijfde der Utmiren. 4. En ik zal mijn profeten aansporen om te profeteren totdat de deuren achter ons gesloten zijn. 5. Vervloekt hen wiens geesten op de vorige aarde achterblijven. Dit zijn de heilige woorden van de tweede

Mattheus, anfitaat voor het aangezicht van God. 6. Laat dan de tweede Christus u loskopen uit dit boze geslacht, wanneer gij hem hebt losgekocht met alles wat u had. 7. Zalig hen die acht hebben gegeven op het licht der armen, want zij zullen de Heere zien. 8. Zalig hen die het tweede kruis kennen in hun geest, want zij zullen een schuilplaats in de nieuwe geest vinden. En deze geest is eeuwig, en zal groeien tot in aller eeuwigheden tot een boom des levens. 9. Zalig en mystiek zijn de schatten die de Heere heeft weggelegd voor hen die Hem volgen en Zijn voetstappen bewaren. 10. Zalig hen die rouwen wanneer de Heere rouwt. Zij zullen de lichten van het tweede kruis tot lampen hebben in de tweede duisternis. En deze duisternis is donkerder dan de eerste. 11. Zij zullen van de vierde dood geen schade lijden, want zij zijn door de Heere en diens tweede engelen in myriaden en myriaden gekend. 12. En zij dragen de klokken des Heeren in hun monden en buiken, terwijl hun hoofden gebonden zijn met zoete koorden die hen leiden tot de uitgestrekte velden van vrijheid des Geestes. 13. De Heere waakt over hun zielen, en zij kennen zijn geboden. 14. Zij spreken recht onder hoge bomen, en kennen de gezangen der vogels. 15. Zij zijn teder als zij hard zijn, en hard als zij teder zijn. In hun liefde sparen zij het kwaad niet. 16. Zij hebben de Geest van aanvaarding leren kennen in het verwerpen van het kwaad, en zij worden geleid van inzicht tot inzicht. 17. Zij kunnen onderscheiden de harten des Heeren en van de kindekens, en zij gebruiken zijn woord in en tot vrijheid des Geestes. 18. Hun zwaarden zijn zacht in hardheid en hard in zachtheid.

12.

1. En de Heer sprak dan over het Woord als over zaad op een akker, wat alleen gelaten moest worden om door de regen, de zon en de kou sterk gemaakt te worden. 2. En de Heere sprak dat het Woord zou groeien als de cobra, om harten te slaan met schrik. 3. En deze schrik zou een tweede schrik zijn, groter dan de eerste. 4. En de Heer droeg zijn discipelen op om het Woord te verkondigen, want Hij had hun tweede geest aangeraakt. 5. En zij waren op een bovenkamer bij elkaar gekomen en de Heere gaf aan hen tongen van vuur. 6. Maar hun lippen werden koud als ijs. 7. Zo was het evangelie dan als kou en ijs. En de Heere maakte zijn woord sterk. 8. En tot de discipelen werden zieken gebracht, maar zij werden niet genezen, want het was de tijd des Heeren niet. En de zieken werden tot een eenzame plaats gebracht waar zij het woord des Heeren hoorden. 9. En na enige tijd ging er een wind uit van de discipel die sprak en de zieken werden vervuld door de Geest en zij gingen op hun benen staan. 10. En de Heere voegde die dag honderdtwintig zielen tot hen die behouden werden. 11. En de discipelen spraken : Er is geen behoudenis in een stem of een naam, en ook niet in een kracht. Er is alleen behoudenis in een hart dat de Heere zoekt. 12. En de gezichten der discipelen waren als die der engelen. 13. En er stond een man op genaamd de tweede Petrus, en hij deed grote wonderen voor het aangezicht des Heeren, en leeuwen des hemels verschenen naast hem in het wit. 14. En er kwam grote vrees over de schare, want hij liet ijs uit de hemel dalen, en de leeuwen des hemels verscheurden velen. 15. En hij had het lichaam als van een cobra.

13.

1. En men bracht vele zieken tot de tweede Petrus, en hij nam ze mee naar eenzame plaatsen, en leerde dat een kind van God veel moest lijden om in te gaan. 2. En zijn woorden hadden kracht, en brachten velen tot verlichting. 3. En in de dagen erna voegde de Heere duizenden tot de groep, en ze leerden over het lijden en het oordeel. 4. En de tweede Petrus riep : 'Ziet dan op het tweede kruis, waar gij leert hongeren voor de Heere.' En olie en honing vloeide er van zijn handen af, en hij bracht vreemde krachten tot hen die om hem heen stonden, en zij begonnen op een andere manier te bewegen. 5. En enkelen raakten in dronkenschap en werden bespot door voorbijgangers. Maar de

tweede Petrus geraakte in toorn en een cobra des hemels kwam om hen te verslinden. 6. En de tweede Petrus riep : Ziet dan toe dat ge de dronkenschap des Heeren niet afwijst. En wijn des hemels kwam naar beneden om de discipelen te zalven. En de groep werd groter iedere dag. 7. Maar de autoriteiten beraamden al snel een plan tegen hen, en de tweede Petrus werd tot de hoge raad geleid. 8. Maar de dieren des hemels waren met de tweede Petrus en bliksemschichten kwamen van zijn klederen af om hen te verzengen. 9. En grote angst kwam over het volk, en ze vroegen of hij hun leider wilde zijn. Maar de tweede Petrus sprak : 'Er is geen leider dan het hart dat zich verborgen houdt om de duisternis te zoeken.' En hij trok zich terug tot het woud. En hij schreef brieven tot hen van de tweede gemeente, en de tweede gemeente werd groot en volwassen. 10. En in die dagen vloeide de tweede wijn, en de profeten kregen dubbel zicht opdat zij door alles heen konden kijken. 11. En doorzichtige visioenen kwamen tot hen, en de Heere schonk grote wijsheid aan de gemeente. 12. En de Heere opende een bron van adem. En de Heere sprak : Van nu aan stroomt genezing vanuit de duisternis.

14.

1. En enkele zegels werden van het Woord afgehaald, en geheimenissen werden aan de gemeente geopenbaard, en de Heere voegde steeds meer toe aan hen. 2. En de tweede gemeente werd als de slangen des hemels, en grote gaven openbaarden zich in hun midden. 3. En de Heere sprak : Van nu aan stromen de gaven vanuit het verborgene. 4. En velen gingen in het woud wonen, en schreven mystieke boeken. En velen die onschuldig vastzaten werden vrijgezet. 5. En de Heere gaf het volk macht over de onderdrukkers van het lichaam, en de Heere begon het volk inzicht te geven over het lichaam des doods en het lichaam des levens. 6. En de Heere sprak : 'Zie, Ik schep een nieuw lichaam.' En de Heere zond zijn tweede engelen tot de aarde om grote scheppingswonderen in het lichaam te verrichten. 7. En zij droegen de gloed van het morgenrood, en zij begonnen te verschijnen op gezette tijden. 8. En de Heere schiep nieuwe seizoenen en nieuwe tijden, en de aarde kwam in het vijfde Utmir. 8. En de Heere voegde dagelijks toe aan hen die Hem volgden, en grote wijsheid en kennis kwam tot hen die de machten der duisternis bestudeerden. 9. De Heere gaf hen de oorlogstaktieken en stond niet meer toe dat zij bespot werden. 10. En er was een plaats genaamd het tweede Golgotha in Afrika, en de Heere maakte deze plaats groot. 11. En vanuit alle hoeken van de aarde werd deze plaats bezocht, maar de apostelen spraken : 'Het heil is niet te vinden in een plaats of een persoon, maar in het hart dat zich verborgen houdt.' 12. En de gemeente werd een volk van eenlingen, en zij die de krachten van het ijs niet konden aanvaarden vielen weg van de Heere. 13. En in die dagen hielden familiale en sociale geesten velen tegen om behouden te worden.

15.

De arenden van het Woord

1. En ik zag een zwarte arend verschijnen in het midden van de tweede hemel, en een witte arend zat op een rots, en ik zag uitgestrekte zeeën in de verte. 2. En ik zag de Heere als een ruiter verschijnen, dragende een trompet. En zijn haren waren als witte vlammen. 3. En toen Hij op de trompet blies kwam er een beest uit de zeeën voort, en de Heere sprak : Vreest niet, want het is de tweede Matas, en Hij is het Beest des Heeren. 4. En de witte arend die als het Woord des Heeren was steeg op, om hen die niet wilden horen te slaan. 5. En ik zag een grote schare opkomen die de arend volgden, en zij maakten zich groot tegen de zwarte arend. Maar toen kwam er een traan uit de ogen van de witte arend om hen te verteren. 6. En de Heere sprak : Zo zal het een ieder vergaan die het tweede Woord niet aanvaardt. En de Heere was als een stichter van oorlog. En de Heere sprak :

Ik ben niet gekomen om vrede te brengen, maar het Zwaard. 7. Heiligt u dan voor Mijn Aangezicht. En zo zou de komst van de tweede Christus zijn.

Het Tweede Pniel

8. Zalig hen die het eerste en tweede Woord hebben. Maar hen die het tweede Woord niet hebben, zullen het eerste ook niet hebben. 9. En de heiligen worstelden met de tweede engelen en met de Heere, en zij werden geslagen op een plaats die het tweede Pniel heette. 10. En zij werden gevoelig voor het tweede Woord. En de Heere zegende hen. Zalig zij die de wonden van het tweede Woord dragen. 11. Zalig hen die twijfelen, want zij zullen kracht tot toetsen hebben, en de Heere zal hen leiden tot de tweede zekerheid. 12. En in de tweede pijn ligt de hand des Heeren opgeborgen.

Het Grote Rome

13. En de tweede toets was zoet voor de ogen van de Heere, en Hij gaf genade aan hen die de geesten beproefden. En de Heere zond lichten en bliksemschichten tot de aarde, tot tekenen van hen die Hem volgden. 14. Maar ook de tweede antichrist kon lichten uit de hemelen laten neerdalen. En de tweede draak gaf hem grote kracht, en zalfde hem met vele gaven. En er werden boeken geopend, en zij die jong waren moesten veel lijden. 15. En de Heere sprak : 'Zalig hen die piekeren, want zij zullen voor hoogmoed bespaard blijven.' En de tweede valse profeet en de tweede hoer kwamen tot het aangezicht des Heeren. 16. En zij kwamen van het tweede Sodom en het tweede Babylon. En hen werd gegeven het volk voor enige tijd te beproeven. En zij brachten grote rijkdom tot hen die de modder der aarde nog nooit hadden gevoeld. 17. En zij brachten dwaalleer tot hen die in de hutten der aarde woonden. Maar de Heere spaarde velen van hen, omdat zij wezen waren, en hij leidde hen tot een rots die Hij de rust der anfitaten noemde. 18. En de Heere sprak daar tot hen door een engel, zeggende : 'Het is beter met de discipelen te lijden dan overvloed en lering te zoeken. 19. Want van kennis wordt het hoofd opgeblazen, en verliest het hart grip.' En de Heere plaatste een tweede boom der kennis in de hof waar ze terecht waren gekomen, en Hij verbood hen om van de vruchten te eten. 20. Elke dag op gezette tijden kwam er een engel om hen te onderwijzen. De vruchten nu van de tweede boom der kennis waren hoog, en er zat een arend des Heeren om de vruchten te bewaken. En de Heere gaf aan hen die in de hof waren een tweede hart. 21. En de Heere sprak tot de kinderen dat zij veel bespot moesten worden. En in de nacht kwamen er vogels die hen niet lieten slapen, en overdag waren er honden die op jacht gingen. Maar het dreef de kinderen naar elkaar toe, en de Heere zag dat het goed was. 22. En in de hof stonden ook bomen van het tweede Sodom en het tweede Babylon, en de Heere hakte hen weg omdat ze geen vrucht droegen. En toen moesten de kinderen een zee overzwemmen die het Grote Rome heette, en deze zee was tegelijkertijd een haai. 23. En de kinderen werden boos op de Heere, omdat ze verzwakt waren, en merkten dat de zee hen verslond. Maar een Wind des Heeren nam hen op, en zij kwamen terecht op een eiland genaamd het tweede Bethlehem. En zij die daar woonden hadden grote ogen.

16.

Het Nachtzicht

1. En de Heere sprak : 'Dit geheimenis is groot, en zalig hen die het verstaan.' En de tweede boom des levens was te vinden op het eiland, en een ieder die van haar vruchten at kreeg ook grote ogen. 2. En er waren daar profeten des Heeren met dubbel zicht, en ook met nachtzicht, en zij onderwezen hen met vele visioenen. 3. En hen werd verteld dat verderop op het eiland alles donker was, en dat zij zich daar als een blinde zouden voelen. 4. Maar de Heere zou hen leiden met nachtvisioenen en zou hen het nachtzicht geven aan het einde van de reis.

17.

Niet verslaafd worden aan de wijn

1. Vrouwen hebt uw mannen lief. Neem hen bij de hand, en leer hen begrijpen. Word dan niet verslaafd aan wijn. Ware wijn stroomt van binnenuit. Weet dan dat de Heere u het lijden geschonken heeft om dronken te worden. En daar door de wijn te drinken gij dronken raakt, zo zult gij het lijden moeten drinken om dronken te worden. Dit dan is het tweede lijden.
2. Door dronkenschap kunt ge uzelf in de ander verplaatsen. Het denken houd dit tegen. Daarom heeft de Heere u het lijden geschonken. Drinkt dan uw pijn, en gij zult zalig zijn. Want gij zult zo in aanraking komen met de pijn van een ander, en diens vreugde. Laat daarom de eenheid u tot dronkenschap wezen, en volg dan de weg van de eenling.
3. Weest dan niet verslaafd aan verdovende middelen en genotsmiddelen, want dezen heeft de Heere uw God u al gegeven en stromen van binnenuit. Leert dan te drinken van de beker van de tweede Christus. Want God heeft ons geen aardse beker gegeven daar wij verjaagd worden van de ene hoek naar de andere. Maar God heeft u een Hemelse Beker gegeven.
4. Leert daarom drinken van Zijn Woord en het lijden. Gij kunt geen gezag aanvaarden indien gij niet drinkt van het kruis. En alle gezag is uit God. Maar velen hebben dit Woord verdraaid tot hun eigen ondergang. Gij moet buigen onder ieder gezag, opdat gij op de daarvoor bestemde tijd wortel schiet en opschiet om het gezag te breken. Ja, ook de Heere zult gij breken, en gij zult ingaan tot Zijn stromen van Levend Water en één zijn met Zijn Geest.
5. En daar sommigen het worstelen met God hebben vergeten heeft hun geloof schipbreuk geleden, maar de Heere zoekt hen die Hem overwinnen. Ook onder uw gezag heeft de Geest Gods geleden, maar Hij heeft het juk verbroken en u overwonnen.
6. Gij dan leeft op de aarde en in de hemelen. Weet dan, dat gij listig moet zijn als gij op de aarde zijt. Weest dan snel tot het lijden en langzaam tot het overwinnen, zodat niemand u tot een slaaf zal nemen. Leef dan zoveel mogelijk in het verborgene, opdat geen koning u ziet om u te kronen, en gij de kroon des hemels mist.
7. Geef niet om hen die aards loon ontvangen om u te onderdrukken. Zij hebben hun loon reeds, en de Heere zal het hen in de hemel niet geven. Weest dan niet al te toornig op het huis van dokters, want zij hebben de ketenen der slavernij verbroken, en hebben u de hemelse beker gegeven. Vreest dan niet voor hun ijs, want zij zijn u tot een duistere bescherming.
8. Bent gij dan vergeten dat de Heere tot u heeft gezegd : 'Gij zijt slaven.' Sommigen hebben Hem hierom bespot en geslagen. De Heere heeft Zijn engel Romarei gezonden, en de tweede Romarei, om het volk uit slavernij te leiden. Ja, Hij bracht u van balingschap tot ballingschap, maar de Heere leidde tot vrede. Rust nu, zij die ingegaan zijn tot de tweede sabbath. Zalig hen die van die beker hebben gedronken.
9. Gaat dan geen oude gevechten aan, maar groei op in de Heere, en vecht om tot de hemelpoort te gaan. Laat u niet teruggetrokken worden door oude vijanden, maar snijdt nieuwe hekken in. Zoek het gevecht niet op, en laat u niet leiden tot oude emoties. Doet dan de tweede mens aan, want het oude gevecht zal altijd doorgaan, totdat het opgelost wordt in de tweede hel.
10. Ja, doet dan aan de raadselen des Heeren, en weest listig.

11. Gij lijdt totdat gij het raadsel des Heeren ziet.

18.

Onrecht lijden

1. En de raadselen des Heeren zijn als een zee vol walvissen. En het grote geheimenis loopt tot het Grote Spanje, waar de zwarte haaïen tot haar kusten naderen. Ziet dan toe dat gij geen deel hebt aan haar zonden, want de Heere Heere zal haar in één dag vernietigen.

2. En die dag zal zijn als de zon en de maan die tezamen komen. De Heere zal haar besmeuren, en de beker uit haar handen halen waarmee ze het bloed der heiligen en martelaren dronk. Ja, zij heeft handel gedreven met de kooplieden en slagers der aarde, maar zij zullen haar haten en haar vlees eten.

3. En dan zullen de walvissen de pilaren des hemels zijn en de stier des hemels zal haar volgelingen doorstieten. Vreest dan de Heere, en houdt uzelf rein van haar.

4. Keert dan niet terug tot oude gevechten, want de Heere zal uw vijanden veranderen in Zijn Handen. Hebt geen deel aan hun zonden, maar zoekt de raadselen des Heeren. Dan zal Hij Zijn engel Romarei en de tweede Romarei zenden om uw ketenen te verbreken.

5. Laat toch af van de mens, want wat is hij te achten ? Richt u dan op de dieren des hemels en gij zult de tweede mens aanschouwen.

6. Gij dan die nog vlees eet, vervloekt zijt gij. De ziel van het dier zal in uw lichamen tot leven komen en uw vlees eten. Weet gij dan niet dat hij die van de dood leeft, ook van de dood zal sterven ? Maar de Heere heeft u geenszins tot sterven bereidt, maar tot eeuwig leven.

7. Ziet dan toe dat zij die nog van vlees leven, ook elkander bijten en vereten. Zijt gij dan een stuk vlees, gebracht om gewogen, gemeten en verkocht te worden ? Doet dan ook een ander niet wat gij bij uzelf verafschuwde. De Heere zal voorzeker niet onschuldig houden hen die de Herder volgen om de schapen te eten.

8. Gij die nog van vlees leeft, gij zijt wolven tussen de schapen. Hinkt dan niet over de gedachte dat niemand u aanraakt. Gij hebt immers de wet verlamd. Doet dan weer recht op heilige bergen, en doet het kwaad uit uw midden, opdat de Heere zich over u ontferme.

9. Gij dan die kwaad spreekt achter de rug van uw broeder, ziet dan toe dat de Heere niet uw waarheid wegneme. Gij die de waarheid van een ander belastert, hoe kunt ge zelf in de waarheid staan.

10. Het loon over hen die onschuldigen aten, en dieren niet als hun medeerfgenamen beschouwden zal zwaar heten. De Heere zal hen niet onschuldig houden voor Zijn poorten.

11. Gij die het dier niet eert, hoe kunt gij de Heere eren, die immers dier is ? Gij die het dier niet tot vriend heeft, heeft ook de Heere niet, en is overgeleverd aan Zijn Wraak.

12. Stopt dan met uzelf te verontschuldigen en rechtvaardigen voor de wolven. Lijdt liever onrecht om de wil van de Heere, opdat gij geen handel met de vijand drijft en als één van hen wordt aangezien. Zij eten uw vlees toch wel. Weest zwijgzaam en laat uzelf kruisigen zoals zij dat met de Heere deden. Gaat het om uw kinderen ? Dan draagt gij dezelfde wonden als Metensia. Ook uw

kinderen zal het lijden niet worden bespaard. Zalig hen die hun kinderen laten tuchtigen, en vervloekt zij hen die hen vasthouden in zonde.

13. Weest dan zwijgzaam voor de wolven, zoals de Heere dat was, opdat gij genade zult vinden voor de troon van God. Drinkt eerder van het lijden in onrecht, opdat gij niet het zwaard pakt zonder gedronken te hebben. Zij eten uw vlees toch wel. Ziet dan toe dat gij goed drinkt.

14. Want goede wijn is beter dan te spreken, en uw recht stroomt van binnenuit. Laat hen die u vervolgen u dan geen toegang geven tot hun vertrekken. Geeft uw hart niet aan hen weg. Neemt niets van hen aan. Maar enkelen zullen deze woorden verdraaien tot hun eigen verderf.

15. Leert dan in goede tijd om te gaan met het Woord des Heeren, en richt uzelf op de raadselen Gods. Weest dan als een goede attentaat voor het aangezicht des Heeren, opdat gij macht ontvange door zijn zwaard om zorg te gebieden. De Heere opent u de ogen en zij met u alle dagen van uw leven. Amen Metensia Eminijs.

19.

Vertrouwing en vermaning

1. Dit zijn de woorden van de tweede Petrus, door God gegeven. Aan mijn beminde broeders en zusters in de verdrukking. Laat hen die u vervolgen wegvagen door het kruis. Zij zijn niet belangrijk, en zijn de schimmen van het dodenrijk.

2. Zij die aardse goederen zoeken, vervloekt zijt gij, want aardse kettingen zullen hen binden, en zij zullen geen macht hebben te ontsnappen.

3. Zij die de dingen van de hemel zoeken zijn zalig, want zij zijn gebonden door eeuwige ketenen die hen naar de velden van rust en vrijheid leiden.

4. Vertrouwt uw verstand niet, want deze is door de leugenaar gebrandmerkt. Uw verstand is vervloekt en verduisterd door de zonde, en doorstoken door het zwaard der wereld. Gij hebt nog niet genoeg gedronken uit uw binnenste, want het verstand dat de Heere daar geeft is eeuwig. Doet dan aan het tweede verstand, en drinkt veel wijn des Heeren.

5. Laat u dan niet vast zetten in uw verstand, want dan komt u van redenering tot redenering en van misleiding tot misleiding om u dieper te binden. Komt tot de heilige bomen des Heeren en eet van haar vruchten. Maar zij die zondigen hebben geen toegang tot de hof des Heeren.

6. Vervuult uw geesten niet met de kennis der wereld, want zij is als de verboden vrucht.

20.

Het Woud des Heeren

1. De Tweede Paulus, apostel des Heeren en anfitaat, aan de heiligen van het Tweede Laodicea. De Heere zegent uwe harten. 2. De Heere kent dan uwe harten, en weet dat gij vol zijt van vuur en ijs. Ja, gij bent aangesteld als de mengers des Heeren in het Tweede Verbond en het heilige eeuwige evangelie. Weet dan, dat gij geliefden des Heeren zijt. 3. Maar enkelen onder u zijn lauwwarm, en de Heere zal hen spoedig uitspuwen indien zij zich niet afkeren van hun boze wegen. 4. Gij weet dat ik vervolgd ben vanwege de wonden des heeren die ik draag, en dat gij ook reeds vertrouwd bent met deze wonden. 5. Draag hen dan diep in uw lichamen tot zuivering, want de Heere heeft u aangesteld Hem te dienen en Zijn geheimenissen te kennen. Hij zal u voeren tot het woud des Heeren, waar de

zeven bliksemen des Heeren op u wachten. 6. Ja, de Heere zal u de tweede adelaarsvleugelen schenken, en gij zult uitzichten hebben. Gij dan zult aanschouwen de rijkdommen en wildernissen van de Heere die weelderig is, en Hem met het Gouden Zwaard zult gij kennen. 7. Ook hebt gij vernomen van Hem met het Bloedende Zwaard, en gij hebt uw bloed met Hem vermengd. 8. Ja, gij hebt deel aan de wijnen des Heeren en aan zijn zaad. Laat dan het kruid des Heeren uwen harten genezen, en zoekt de dingen die van binnen zijn. 9. Gij hebt enkelen onder u die in diepe zonden leven, maar de Heere heeft het reeds nog niet geopenbaard. 10. Wacht dan op het Woord des Heeren, en ziet wat Hij zal gaan doen. Groet hen die in verdrukking leven, en klem aan hen vast, opdat gij zalig zult zijn.

11. De Heere weet en ziet dan wat gij gedaan hebt voor de ouderen, en welk een hart gij hen toedraagt. En de Heere weet ook hoe gij de werken van een spottende jeugd haat. 12. Ja, de Heere heeft u voor Zijn aangezicht gesteld als zifters, en spoedig zal Hij u uitzenden om het kaf van het koren te scheiden. 13. Ja, ook hierin weet gij het lijden en het ijs te dragen, en struikelt gij niet tot in de binnenste duisternissen. 14. Ja, de Heere ziet de volmaaktheden onder u en is daar zeer over verheugd. Keert dan niet terug tot het eerste Laodicea, want de Heere zal u dan reeds spoedig slaan.

21.

De Taal des Heeren

1. De Tweede Paulus tot hen die in de verdrukking leven, in het Tweede Laodicea : Houdt dan goede moed, want gij hebt de krans ontvangen. 2. Gij hebt woorden van liefde diep in uw hart, reikhalzend verlangende om geopenbaard te worden. 3. Verheugd u daarom, gij die door vele verdrukkingen wordt beproefd. De Heere heeft u een nieuw hart aangemeten, en zal weldra in u opspringen tot zaligheid. 4. Gij, die de helm des Heeren draagt, gij weet ook van Zijn doornenkroon. 5. Toen ik bij u was heb ik u vele stukken daarover voorgelezen. Lees de stukken die ik u heb nagelaten dagelijks. 6. De Heere ziet uw lijdenstijden en kent hun einden. De Heere heeft het slot reeds daarop aangemeten, op hun uiteinden. 7. Verheugt u dan in de boeken die gij in zulke nawoorden aangeboden krijgt. Ziet hen als geschenken des Heeren. 8. Gij dan die het donderen van Sarsia kent, haar regen is zoet. Weet dan dat de Liefde problemen uitpraat tot het einde, maar daar waar praten onmogelijk wordt zal zij zich omzetten in recht. De Heere dan heeft u aangeraakt in Zijn Liefde. 9. Met hen die liegen valt niet te praten. Verwijdert hen dan uit uw midden. Sommigen onder u zijn enige tijd door zulke lieden beproefd, om hun harten te testen. Zoekt hen die van Waarheid spreken en die een zacht hart hebben naar ouderen. 10. Scheidt u af van hen die roekeloos leven. Gij zult hierin een kleine hulp ontvangen, en gij zult zich hierover verheugen. Scheidt u ook af van hen die zich bezighouden met taal om over anderen te heersen. 11. De Heere heeft u de taal des Heeren gegeven, en dit is de taal der vrijheid. Laat daarom niemand u terugbrengen tot boeken van grammatica en spelling, die de Heere een gruwel zijn. Leert dan de taal des Heeren. Ziet, het oude is dan voorbij gegaan. 12. Het nieuwe is gekomen. Verhardt de harten van uw kinderen niet door hen te verzuren met eindeloze getallen en geslachtsregisters, want hier rust de vloek des Heeren op. 13. Verzadigt hun harten met de wetten des Heeren, en leer hen de liefde en het altaar, die onlosmakelijk met elkaar verbonden zijn. Zo zult gij zalig zijn.

22.

Voorschriften over het onderwijzen van kinderen

1. Leert uw kinderen dan de geestelijke strijd en het lijden. Want enkelen zijn aan dit gebod ongehoorzaam geweest, hun kinderen verkopende aan Belial en hen van Orion. 2. Leert hen dan van

vuur en ijs, opdat het geen spotters worden. 3. Maar de Heere heeft met enkelen onder u reeds de hoop en moed verloren, en zij wachten op het vuur van Gehenna, hen brengende tot eeuwige rust. 4. Ja, want sommigen kunnen de eis van het leven niet aan, en de Heere zal hen kleine genade schenken. 5. Zo is er dan recht voor allen. Een ieder zal een bloem van recht ontvangen als loon voor de verrichte werken. 6. Gij zult uw kinderen dan niet bang maken met een altijddurende hel, maar gij zult hen leren over de dreigende vernietiging leidende tot eeuwige rust. 7. Niet een ieder wil het Koninkrijk der Hemelen binnengaan, want zij die daar zijn hebben dag noch nacht rust daar zij de Heere beminnen en liefhebben. 8. Enkele luien zullen daarom kiezen voor de eeuwige rust die Gehenna schenkt. Ja, ook enkelen onder u, oh Laodicea. 9. De Heere kent de hardheid van het leven, en de Heere kent alle harten. Nooit zal de Heere een mens voor eeuwig slaan, maar Hij zal die mens dragen tot een waardig graf waar altijddurende rust zal heersen. 10. Dit dan is een geheimenis des heeren, want velen zijn niets anders dan steigers. Als dan het huis gebouwd is, dan worden de steigers verbrandt, omdat ze niet meer tot nut zijn. 11. Toch zal het recht tijdelijk harder slaan dan geleerd werd, want de Heere eist terugbetaling, opdat alles eerlijk verdeeld is. 12. Enkelen onder u hebben dit vergeten, en hun geloof heeft schipbreuk hieronder geleden. 13. Zoekt dan de Heere, en weest getrouw tot Zijn gebod, opdat Hij trouw tone aan u. 14. Leert uw kinderen dan vroeg voor het jonge en oude te zorgen, opdat zij niet door de spot worden weggegrepen en het zoete hun hart zal verslinden. 15. Ook hebt gij daar enkelen onder u die zich overgegeven hebben aan oeverloze lofprijzing en dankzeggingen die geen spoor geven. Laten zij dan weten dat zij hiermede Belial aanbidden en niet God. 16. Ik waarschuw u, oh oudsten van Laodicea, dat indien gij zulken niet tuchtigt, gij in hetzelfde oordeel komt als hen die deze dingen bedrijven, waarvan de heere gezegd heeft dat Sodom niet zo zwaar gestraft zal worden als de farizeeers. 17. Doet dan de farizeeers uit uw midden weg, hen die verslaafd zijn aan vrome klanken en hun kinderen laten verhongeren. Zij zijn niet beter dan de honden, want zij hebben de Tweede Christus gekruisigd. 18. Slaat dan die heupwiegiers, oh profeten van Laodicea, slaat dan hen die de cobra aan de poorten tegenhouden, opdat Ik niet u tezamen met hen zal slaan. 19. Gij volgelingen van de tweede Eli, luistert, want gij hebt uw zonen van het zoete der tempelen laten eten, en de tucht veracht. Heft dan omhoog de tucht des Heeren, anders zult gij wederom achterover vallen om uw nek te breken. 20. Leert dan het goede te mengen, en print het Woord des Heeren in uw harten, opdat gij niet ten val gebracht wordt. 21. Slaat dan de volgelingen van Hofni en Pinechas, oh gij apostelen van Laodicea, en verbrandt dan hun boeken, opdat gijzelf niet verbrand zult worden. 22. Maar ik vrees dat ik me voor enkelen onder u te vergeefs heb ingespannen. Het oordeel des Heeren zal zwaar heten op die gemeentes die de tucht niet leren. 23. De Heere zal uw kinderen roven uit uw schoten, en de Heere zal u overleveren aan het zoete der bijen, en het zal uw buiken verderven. Ja, want in uw buik zal een slang opstaan, komende om de heidenen te oordelen. 24. En dan zult gij daar staan, al gij heupwiegiers, met roet en roest, omdat gij het Woord des Heeren hebt tegengehouden. 25. Oh, gij die de stilte hebt veracht, wordt dan wijs opdat de Heere u niet zal slaan. 26. Want zwaar en hard slaat de Heere hen die de stilte verachten. Zij willen de stem des heeren doven, door zelf luid te brullen. Zij willen de bewegingen des heeren beletten, door zelf de heupen te wiegen. 27. Ja, een gruwel is dit in de ogen des Heeren. En vervloekt is een ieder die zulken een schuilplaats bieden. Levert dan uit hen die u verborgen houdt, anders zal de Heere u uitleveren. 28. Wie denkt gij dat u bent door te denken iets voor de Heere verborgen te houden ? 29. Vervloekt is dan een ieder die denkt zijn zonde schuil te houden achter dure kleding en materieel gesleep. 30. Zij dan zijn volgelingen van Mammon. Gedenkt dan de eenvoud, opdat gij weelderig zult zijn in de Heere die Geest is.

23.

Over kleding

1. Ja, gij bent dan het verscheuren der klederen vergeten. Weet gij dan niet dat dit u zal leiden tot zuiverheid ? Gij bent dan nu verpakt door de geesten van de tijd, en gij hebt de weelderigheid der natuur vergeten. 2. Gij hebt uzelf overgeleverd aan strakke pakken en stropdassen door de duivel vervaardigd. 3. Ja, enkelen onder u leven in slavernij van een werelds regiem, en zij hebben die kleding als merktekenen. De Heere zal u op zijn tijd bevrijden. Zij zijn dan de spionnen des Heeren, en leven onder een profetisch verbond. 4. Maar vervloekt is een ieder die zijn lusten botviert op zulke uitheemse kleding, want deze heeft de satan vervaardigd om macht uit te spannen. 5. Gij dan zijt webben des Heeren, en gij dan zult kleding des Geestes dragen. 6. Veracht het scheuren van klederen niet, daar het gewas voor deze artikelen door roofbouw werd gebruikt. 7. Kunt gij dan niet gebruiken wat de Heere u geeft ? Laat dan uw materialen waarmee gij werkt zuiver zijn. Laat geen levende wezens sterven voor uw tweede huid, want zij zijn uw adem. 8. Keert dan terug tot de natuur, oh heiligen, want uw huizen zijn constructies van Belial en zijn zonen. 9. Maar als gij daar leeft als gevangene des Heeren, zalig zijt gij. Leeft daar eenvoudig en verscheurt uw klederen, opdat gij niet onder het oordeel van roofbouw komt. Eet ook geen vlees. 10. Tot hen die als gevangenen vlees eten, zeg ik : De Heere zal uw lichamen genezen en u vrijzetten op zijn tijd, evenals de dieren. 11. Weest dan niet schuldig aan roofbouw op de natuur, want dan zult gij verlangen naar eenvoud, maar het zal van u wegvlugten. 12. Dan zult gij verlangen naar de weelderigheid des geestes, maar het zal van u vlieden. 13. Dan zullen uw klederen als ketenen worden, en gij zult niet bij machte zijn het juk te scheuren. 14. Overigens valle niemand mij lastig, want ik draag de littekenen van de Tweede Christus en Zijn Woord in mijn lichaam. 15. Hij kome spoedig om de heidenen te slaan. Amen Metensia Eminius.

24.

Aanwijzingen en voorschriften

1. Weet dan dat aan het einde der tijden de grenzen zullen vervagen, en het Woud des heeren zal zich openbaren. Leert dan van Zijn Liefde. 2. Want Hij heeft hen van Spricht altijd onder zijn hoede gehad. 3. Gij dan zult de heilige plaatsen kennen, en zij zullen u zijn tot een toevlucht. 4. Prijst dan de Heere wanneer Zijn schuilplaatsen geopenbaard zullen worden, want ze zullen dikke bescherming bieden tegen de stormen van het tweede. 5. Weest dan doof tot de zonde en tot hen die spotten, opdat de Heere u zal geven van het dikke van Zijn binnenste. 6. Maar allen die Spricht haten zullen niet eten van de dikke honing. 7. Zij zullen overgeleverd zijn aan de toorn van de bijen des hemels, en hun vlees zal tot driemaal toe gegeten worden. Aldus spreekt het geheimenis des heeren. En Hij zal erop toezien dat deze woorden verzegeld blijven tot aan het einde der tijden. 8. Zalig zijn zij die de tijden van de witte leeuw hebben bereikt en Spricht liefhebben. 9. Ja, zij kennen de lusten des Heeren. Tot Spricht bent gij genaderd, en Spricht zal de mate van behoudenis meten. 10. Ja, want Hij is de kleermaker des Heeren, en Hij heeft u overgeleverd aan geestelijke strijd. 11. Ken dan Zijn wapenrusting en leer het goede te behouden. 12. Zalig hen die het goede bewaken en hen die Spricht beminnen. 13. Kent gij dan de schatten van Spricht ? Uit Zijn Schatkamers komen de bliksemen des Heeren voort. 14. Legt dan uw klederen op het altaar Gods, opdat het u niet ten verderve leide. 15. Gij dan die verdovende middelen gebruikt : Leg hen dan op het altaar Gods, en laat u door Hem verdoven. 16. Leer dan de zielen der planten kennen, want zij zijn des Heeren. Leert dan ook de gewassen te onderscheiden. Leert de natuur u zelf dan niet wat gij kunt eten en

wat niet ? 17. Weest dan verlicht in uw verstand en harten en laat de Geest des Heeren u leiden. 18. Gij bent dan gemachtigd groenten en vruchten te eten, en de vruchten der aarde. Gij dan zult inzicht hebben wat gij kunt gebruiken en wat niet. Want de Heere heeft zijn engelen aangesteld om u daarin te leiden. 19. Gij dan zult sprokkelen, en nemen wat de Heere u geeft. Gij zult dan niet dat wat leeft doden. 20. Laat dan niemand uwer deze woorden verdraaien. Laat de Geest u verlichten. Laten er dan wijze lieden onder u opstaan om deze woorden te openbaren. 21. Ja, ook aan u heeft de Heere profeten gegeven. Zoekt hen dan op, wetende dat zij soms in duisternis en verafgelegen leven. 22. Ja, laat het oude wijze dat dan spreekt spreken, opdat uw oren zalig zijn. Zo zult gij de schuilplaats des Heeren bouwen. 23. Laat dan ook wijze jongelingen spreken, en geeft acht op hun woorden. Want zij zijn de geopenbaarde bronnen des Heeren. 24. Gaat dan met hen om als brozer vaatwerk, en neemt hen in bescherming. 25. Biedt hen woning aan en voedsel, opdat gij uzelf zult zaligen. 26. Doet dit alles dan om de Heere. Veracht de ouden van dagen niet, want zij kunnen spreekbuizen des heeren zijn. Veracht de zieken niet, want zij hebben de sleutelen van de dieren des hemels en hun velden. 27. Veracht de slaven en de profeten niet, maar bevrijdt hen veeleer. Hen die het juk des heeren dragen zijn zalig, en zij zijn zalig u te ontmoeten. 28. Weest dan als een getrouw dienaar Gods, en veracht het tweede niet. Ziet, de leeuwen Gods zijn reeds buiten, wachtende om u te verslinden. 29. Maar u die de Heere kent, gij zult niet verslonden worden, alleen in liefde. 30. Weest dan niet als de dieven, want zij gunnen elkaar geen rust. Legt u toe op Gods economie, en word een zuivere anfitaat des heeren. Velen hebben zijn geboden hierin onderhouden en zijn hierdoor zalig geworden. 31. Ja, de heere heeft Zijn Zalige Geest reeds bereid voor hen die Hem hierin volgen. 32. wacht dan op de Heere, en loopt niet voor Hem uit, want Zijn vuur mocht u verteren. 33. Gij dan zijt genaderd tot de haaien van Spricht. Siddert dan voor hem die spreekt. want gij weet nog niet waarop zijn woorden uitlopen. 34. Maakt dan in uw harten geen kabaal, maar weest stil en zuiver voor de Heere, om de vlinders van Zijn Woord op te vangen. Reeds licht ontbrandt Zijn Woord, weest dan klaar. 35. Zijn Ontstekingen zullen zijn als vulkanen, en de Heere spreekt om Zijn geliefden te binden in Zijn Geest. Ja, zij zullen zuiver rijden over gloeiende kolen, en de binnenste kamers der hemelen vinden. 36. Vervloekt is dan ieder huis dat geen altaar kent, en vervloekt is een ieder huis dat een onzuiver altaar kent. Zuivert uw harten dan voor de Heere. 37. Gegroet bent u. Laat Baarlen en Tanzan uw huis niet bestieren. Kom snel, Tweede Heere Jezus, kom snel, om Uw Tweede Maranatha te bouwen als een nauwsluitend zegel op het eerste. 38. En wanneer het tweede gekomen is, is het eerste niet ver van verwijdering. 39. Laat dan uw harten vrijzetten, gij die nog onder het oude verbond leeft en daaronder verdrukking lijdt. Is God dan niet gekomen om de tweede farao te slaan ? Komt dan tot het tweede beloofde land, het tweede kanaan Gods, gij die overwonnen hebt, waar Hij zal zitten op een witte troon om de heidenen te hoeden. 40. Ja, vanuit alle windrichtingen zullen zij komen, en zij zullen de Heere dienen. 41. Verheugt u dan in de dag der bevrijding, die opgetekend is om uw zielen te zaligen. 42. Zij die van het Tweede halleluja zijn en van Spricht groeten u, vooral hen in de grote verdrukking. Amen Metensia Eminius. 43. Een groet aan de zeven gemeenten in de grote verdrukking, eigenhandig, van de Tweede paulus, dienstknecht van God en anfitaat. 44. Ook ik ben een gevangene des heeren, wachtende tot de eenwording der allerheiligste zielen. 45. Schenk elkaar genade, zoals God ook doet. 46. Weest niet al te hard voor elkaar, want de heere haat de hardheid zonder de zachtheid. 47. Zijn Zachtheid doet altijd de Toorn verminderen. Groet elkaar in de tweede verdrukking, ziende op elkaars gebondenheid en zwakheden. 48. Legt dan geen zware lasten op elkaar, want de Heere is niet in dezen. Legt dan ook geen eed af, want de Heere is de Ziel der vrijheid. 49. Laat u dan geenszins binden, en leg u toe op de traagheid die des Heeren is. Gij dan kent andere koorden. Hij die binden zal is de heere. 50. De Heere heeft de engel van de windstreken tot u gezonden. Laat hen die van de

genade afglijden niet meer binnen, opdat zij de gemeente niet zullen bezoedelen. De Heere haat hen die wispelturig zijn en twee heren dienen. 51. Laat hen dan niet meer binnen opdat zij u zouden verraden. Want reeds zijn velen tot u gezonden met gedraaide plannen. 52. Ik heb u reeds gewaarschuwd en gij zijt aan deze woorden overgeleverd als aan de Heere. De Heere doet met u wat goed is. Zijn Zegen is met u. Amen Metensia Eminius. 53. Ik zal dan ook niet ophouden om voor Zijn aangezicht voor u te worstelen en te bidden. Ziet dan mijn liefde voor u. 54. Laat geen enkele apostel een ander evangelie verkondigen dan dit, want dezen zijn vervloekt. Al zou het een engel zijn die u van de nuchtere leer zou afleiden, neemt hem niet aan. Want hij die dan spreekt zij vervloekt, en gij kome onder de vloek wanneer gij hem zou volgen. 55. Was dan het stof van uw voeten af wanneer degene bij wie u verblijft of die met u praat niet naar deze woorden wil luisteren, en houd hem voor een leugenaar, en vertrek. 56. Zij die onder een juk des heeren leven : De heere zal u vrijzetten onder zijn tijd. Uw ketenen zullen u tot zaligheid leiden. 57. Ja, de Heere heeft oog voor de zwakheid van uw harten. Dit is Hem tot sterkte. Gij hebt dan enkele draden van Spricht in uw ziel. Zalig hen die lust hebben tot de ketenen des heeren. Want Zijn zwakheden zijn sterker dan dat wat komen gaat. 58. En het dwaze in Hem is wijzer dan de wijsheid der tijden en het oude en hun dagen. 59. Ziet dan toe dat gij Hem die spreekt niet afwijst, want zijn dagen gekomen als in gedruis, waarin de machten der hemelen zullen wankelen en vallen. Ja, nieuwe hemelen schept Hij, en vervloekt zij die vasthouden aan het oude. Legt dan het oude op het altaar, en draagt haar daar naartoe, opdat gij uw zielen zult zaligen. 60. De heere heeft het oude lief en zal haar ziften als goud. 61. Zalig hen dan die het oude goud dragen tot de tempelen van het Tweede, want zij zullen de Heere kennen. 62. Acht dan Zijn verborgenheden als goud, en verlangt dan vurig te mogen binnentreden. 63. De Heere haat dan hen die stelen. Weest als een kind in Zijn voorhoven, en gij zult worden opgenomen tot zijn altaren. 64. Gij zult de blijdschappen van God kennen, al die tot Hem naderen. 65. Veracht het Tweede dan niet, opdat gij het voor u klaar staande Woord niet zal missen. 66. Sprak Hij dan niet om uw zielen te zaligen ? 67. Laat dan de man die hierop niet acht geve vervloekt zijn tot in eeuwigheden en tot de komende aeon. 68. Laat de muis van uw hand u dan leiden tot de knoppen der tempelen, om uw harten daarmede te reinigen. 69. God laat niet met zich spotten, en zal zeker niet onschuldig houden hen die kleine kinderen tegenhouden op Zijn bergen. 70. De Heere kwam voor deze kleinen, en niemand zal hen kunnen roven uit de Hand en de Wijsheid des heeren. 71. Zij zullen de paarden en de poorten zijn van de nieuwe stad. En enkelen onder hen zullen voor een bepaalde tijd struikelen, om onder hen zuivering aan te brengen. 72. Niet alle kleine kinderen zijn des Heeren, want ook de listen des satans hebben vruchten in uw schoot geplant. Dit dan is verder een geheimenis des Heeren, wachtende met reikhalzend verlangen om geopenbaard te worden. 73. En die dag zal zalig heten. Tot hen die aan paniekaanvallen lijden : Gij zijt zalig in de Heere, en de Heere zal u kleine vertroosting en verlichting zenden. Gij zijt genaderd tot het hart Gods, die als een vulkaan is. 74. Want in de vulkanen des Heeren zult gij gebonden worden in Zijn Geest, en zijn ontstekingen zijn heilig, leidende tot de distels des hemels. 75. Gij die siddert, gij bent niet minder, maar gij hebt de zaligheden Gods aanschouwt. Wie zou niet sidderen. Het is u tot eeuwige verrukking Gods. 76. Vervloekt hen die niet sidderen, want zij zijn levende al dood. Geeft dan geen acht op hen, want zij zijn slechts schimmen van achter het Gehenna, en zij worden door de vierde dood gehoed.

25.

Zaligsprekingen en voorschriften

1. Zalig hen die slapen in de Heere, en zalig hen die ontwaken in de Heere. Zalig hen die vele visioenen zien omwille van de Heere. 2. Zalig de lammen, want zij zullen lopen in de hemelen Gods. 3. Zalig de zachten van hart, want zij zullen de spotters verbrijzelen. 4. Zalig de bescheiden van hart en de schichtigen, want zij zullen dieren des hemels zijn. 5. Zalig de armen van geest, want zij zullen de Heere zien. 6. Zalig hen zonder een ziel, want zij hebben de engelen Gods als hun vaderen. 7. Zalig hen met koude handen, want zij hebben harten van vuur. 8. Zalig de wijzen in de Heere, want zij leven in de beenderen Gods. 9. Zalig hen die arm zijn en hongeren, want zij zullen de weelderigheden in de hemelen Gods hoeden. 10. Zalig hen die dorst hebben naar gerechtigheid, want zij zullen rechters heten. 11. Zalig zij die het kwade haten, want zij zullen met de Heere wandelen. 12. Zalig hen met koude voeten, want zij hebben buiken als leeuwen, en zij kennen de verrukkingen des Heeren. 13. Zalig de warmen van hart, want zij hebben genoeg koren voor de winter. Ja, zij kunnen zeven jaren vooruit, en zij kunnen het paleis des Heeren bouwen. 14. Zalig hen die nee kunnen zeggen, want zij zullen staan op de rots, en de zee zal hen niet overspoelen. 15. De Heere bouwt hemel en aard, de Heere bouwt Zijn lichten. Hij doet Zijn genade en vrede over u komen als het aandoen van een lantaarn in duistere streken. Hij zal u hoeden en leiden stap voor stap, en Hij zal u die Hem kent leiden tot Zijn Woud. 16. Laat de bomen des vredes tot u spreken, en laten zij uw hoofd behoeden als een helm. En gij dan die de nacht niet kent : De Heere zal een waker zetten voor uw mond. 17. Bijt dan elkaar niet uit, maar beurt elkander op met woorden van zijn altaar. 18. Leest dan goede boeken en gidsen, maar veracht de slaap en de rust niet, want de Heere geeft het zijn beminden daar. 19. Streeft dan naar visioenen en woorden des Heeren, maar vergeet niet dat de slaap en de rust daarvoor de akker is. Laten zij dan wijdverspreid zijn, en onderdrukt elkaar dan niet, opdat uw velden niet ingekort worden. Zo spreekt dan aldus de Heere. 20. Gunt elkander dan slaap, en onderdrukt elkander niet met woorden, opdat de Heere niet Zijn stem van u wegneme en u overgeleverd zijt aan de stemmen der wolven. 21. Gij merkt hun verscheuringen pas veel later op de dag. Daarom : Laat de slaap u dan hoeden, en zij die slaaf zijn van de nacht : De Heere zal u waardig vrijzetten op de door Hem daartoe bestemde dag. 22. Onderdrukt de zusters dan niet, want voor de Heere telt het geslacht niet. 23. De Heere bepaalt dan wat zwakheid en sterkte is. 24. Gij dan die veel dromen en nachtvisioenen hebt : Gij zijt werkers des Heeren. 25. De nachtspin heeft dan enkelen onder u verlamd, maar de sappen van zijn steek zijn grote geheimenissen des Heeren, en gij zult opstaan ten laatste dagen. Ziet dan, gij zijt bemint door de heilige engelen van het Tweede van God. 26. Zo zult gij dan de Heere kennen in Zijn lijden en sterven, en gij zult de nachtspin eren. 27. De Heere zal u een nieuw verstand geven en het oude wegnemen. Eert dan Zijn verdovingen als zijnde de zijden van Zijn Hand, die u slaat, leidt, hoedt en breekt. 28. Ja, Hij richt u op, en laat u weer vallen, want gij moet wortelschieten. Oh, gij die de aarde niet kent, hoe kunt gij de hemel kennen die immers van aarde is ? Gij dan die op zulk een aarde loopt zijt heilig, wiens voeten in de grond gegroeid zijn. 29. Gij dan zult zijn als de bomen des velds. Richt u dan op al uw takken en veracht uw wortelen niet, opdat de Heere u niet wegneme. 30. Zij dan die werken zonder wortelen : Gij kent de tweede mens nog niet, die in God geschapen is. Want hij wortelt zich bij alles wat hij doet, en zijn werken zijn eeuwig. 31. Geef dan acht op Zijn Woorden als kostbare heiligheden, als gouden gerei in zijn tempelen. 32. Leert dan te zien op de vlinder, opdat hij u zal meenemen tot een nieuw leven. Al het oude zal immers voorbijgaan. 33. U dan die vasthoudt aan de tegenwoordige hemelen en woorden. Ziet dan toe terwijl zij zullen verbranden, want de toekomstige tijden zijn als een brandende oven, en er zal een Dag des heeren zijn. 34. Een dag tegen al wat groot is. Amen Metensia Eminius. 35. En als engelen al niet durven te spreken van het nieuwe verbond, hoeveel te meer zult u moeten waken over de lippen van uw mond. Maar gij zult de geest des heeren ontvangen, en gij zult spreken zoals de profeten spraken.

36. Er is dan niemand die het Woord des Heeren zal kunnen tegenhouden, en het Woord des Heeren zal glijden tot duistere plaatsen. Opent dan uw vertrekken, opdat de wind des Heeren het kan zuiveren. 37. En deze wind is brandende, gaande van vuur tot vuur. En zo zal de Heere u zaligen, en u gunst verlenen, om te gaan van ijs tot ijs. En gij zult de Heere kennen.

26.

De Meetlat des Heeren

1. Gij dan bent gemeten om dienst te doen in het huis des heeren. En enkelen onder u zullen dan de gaven van het meten en het wegen ontvangen, maar zij moeten zuiver van hart zijn. 2. Streeft dan naar de anfitaatse gaven, opdat gij het huis des Heeren kunt bouwen. 3. De Heere is welgevallig hen die Zijn huis in rust en stilte bouwen, en hen die zuiver meten. 4. De heere zal hen, die onzuiver meten, zij zijn vervloekt en zullen buiten lijden met de honden. Zij zullen hun wonden likken en de ingang des heeren niet meer kunnen vinden. Ja, het oordeel over hen is welaangemeten, en gij zult over hen niet klagen. 5. De heere zal een post en wachter zetten aan zijn poorten, en zij zullen het geheimenis van Izu kennen, het zaad van Eminius. 6. Alleen zij die heilig zijn mogen tot de Heere komen. De rest is reeds vervloekt. 7. Bouwt dan zijn huis in beven en sidderen, opdat zijn geest het werk zal zegenen en gij het niet ziet verteren als gij terugkomt van uw reis. 8. Want de dag des Heeren zal komen als gedruis, om alle werken te testen. 9. Zalig hen die bouwen in Spricht, want zij zullen het dikke des Heeren aanschouwen en de snaren des heeren bespelen. 10. En dan zal Spricht tot de poorten der tempelen komen, en al die tempelen uitroeien die niet bezegeld zijn met het Tweede Bloed des heeren aan hun deurposten. 11. En dan zal Spricht worden tot de Heilige Ingang en Uitgang des heeren. 12. En ziet nu dit geheimenis is groot, en reikt tot aan de zuilen van de Emelis Shatau. 13. Gij dan zult zuivere bouwkunde verrichten voor het aangezicht des heeren, en gij zult de zegen van Zijn poorten dragen. 14. Gij die nog jong zijt : Gij zult veel moeten lijden voor de tempelbouw des Heeren. Laat uzelf dan slaan voor zijn altaren, opdat Zijn Tweede Kruis u niet zal verbrijzelen in Zijn Toorn. 15. Omhels dan het kruis, en bemint haar, opdat zij u zal liefhebben en haar haat u niet verleide. Komt echter met ijs voor haar altaren opdat zij u niet in haar bitterheid verslinder. 16. Want de heere heeft welgevallen in hen die ijs brengen tot Zijn Wonden, en zij zullen eten van het zoete des Heeren. 17. Ziet dan, want de Heere Heere is als een wild beest.

27.

Over de paus

1. Zij dan die nog vasthouden aan pauselijke leugens : De Heere heeft niks tegen pausen, maar de Heere zal uitroeien de valse leer van de canon en andere dwaalleer. 2. Gij die dan nog vasthoudt aan onheilge concilies : Laat u tuchtigen, opdat de heere u niet vermengde met het werk van de hoer. 3. Gij dan zult u hechten aan de martelaren en bovenal hen die verbrand werden om hun geloof en hun liefde voor de wildernis. 4. Want des Heeren lof is wildernis. Leert dan de orde des Heeren kennen die niet de orde der wereld is. Laat dan los de werken des satans en zijn agenten. 5. Want de Heere heeft aangesteld de regeringen en hun tijden, om uw harten te testen. En ziet : vele harten zijn boos, en dit is een groot geheimenis. 6. Gij dan bent verdwaald in een put der harten, en gij bent daarin verdwaasd geraakt. Maar gij zult de Heere kennen door uw lijden, en de Heere zal u vinden. 7. Ja, Hij zal u het hart van een apostel schenken en u doen leren begrijpen, dat alles al vaststond voor de grondlegging van hemel en aarde, en dat dezen zijn de eis van leven en wet. 8. Ja, de eis der wet heeft vele harten doen verbleken, en de Heere heeft dit gezien. 9. Niet al te zwaar zal Hij zijn kinderen straffen, met het oog op de eis van leven en dood. 10. Niemand kan aan deze eis

ontkomen, en laat daarom ook niemand denken dat hij eenling is. Gij hebt vele broeders en zusters op verborgen plaatsen. 11. Laat het lijden u daarom niet doen bevreemden, en laat u niet denken dat uw situatie uniek is, want zelfs uw gedachten zijn des heeren, en de eenheid en de afmetingen der lijnen en hemelen zijn groot. Veelvuldig zijn zijn weerspiegelingen, en de weerspiegelingen van uw geest, ja, zelfs van uw lichaam. 12. Gij zijt genaderd tot het dikke van God, waarin gij de paden en de koorden ziet. 13. Zalig hen die door Spricht zijn binnengekomen, want een andere poort is er niet. 14. Laat de eis der wet u dan zaligen, niet denkende dat iets vreemds u is overkomen, want alle dingen liggen bloot en geopenbaard voor de troon van God, voor Hem kennende alle dingen. 15. En Hij is vertrouwd met iedere stem en beweging, ja, met iedere schijnbeweging. Hij kent ze allen bij name, en zij sidderen voor Hem. 16. Laat dan de eis der wet u leiden tot het goede, als de eis van het altaar. Amen Eminius Matas. 17. Gezegend Hij die komt, en komen gaat. Maranatha, Tweede Christus, kom snel. Gij bent genaderd tot de Tweede Maranatha des heeren, en de eerste is niet verre van verwijdering. Zalig hen die het eerste tot het altaar brengen. 18. En enkelen onder u dachten dat het eerste vernietigd zou worden. Dit is echter ten dele waar. De Heere is gekomen om het eerste te vervullen en te veranderen tot een zuiver beeld Gods. 19. Laat dan hen die daartoe bevoegd zijn de duivelsverzen met zorg uitbannen en uitroeien, opdat de gemeente Gods gered zal worden. 20. Geloof dan niet in de onfeilbaarheid van de paus. Alleen de Heere is onfeilbaar. 21. Geef ere aan hen die eer toebehoren. Geef dat wat de keizer toebehoort aan de keizer, en dat wat de paus toebehoort aan de paus. 22. Nogmaals : de Heere heeft niks tegen keizers en pausen, maar de Heere zal elke dwaalleer op de daarvoor bestemde tijd uitroeien. 23. Laat hen die van de paus zijn het Tweede Woord met blijdschap ontvangen, en zalig zij elke paus die de wegen des heeren bewandelt. 24. Ja, dichtbij het hart des heeren is die paus die Zijn Woord verkondigt, en die het kwaad haat. 25. Laat dan geen profeet, apostel, paus, keizer of anfitaat u misleiden. Toets dan alle dingen en behoudt het goede, en het goede en ware wat zij u gaven, om uw harten verder te heiligen. 26. Laat dan de paus zijn als een waardige opvolger van Petrus, als de rots van de gemeente. 27. Maar ziet toe dat gij dan niet afwijkt van de geboden des heeren, want de Heere is de vleugel die de harten slaat. 28. Laten dan allen die de paus volgen hun leidsman in het oog houden, die de tweede Christus is. 29. Want of gij nu katholiek of protestant zijt, gij hebt de Tweede Christus tot uw opperheer. En Hij zal uw zielen behoeden, en u leiden tot een grazig land. 30. Gij dan zult het dier heiligen, en u afscheiden van het zondige Spanje, opdat de Heere niet kome om uw hart te slaan. 31. Een Spanjaard die dan in de Heere is heeft niets te vrezen. 32. De Heere zal een nieuw Spanje geven. Zalig hen die dieren tot steun zijn, want zij zullen deel hebben aan het tweede Spanje. 33. De Heere dan zegent alle heilige vrouwen van Spanje en Portugal die de voetsporen van Maria Magdalena volgen, want ziet, Uw Christus is dier. 34. En hij die dan het dier niet eert, heeft ook de Christus niet, die immers dier is. 35. Welaan dan, al gij lieden die zich in het tweede Laodicea ophouden. Gegroet zijt gij, nogmaals, gij die van dieren houdt als van uw naaste. Want hoe kunt gij van uw naaste houden als gij niet van het dier houdt ? De mens immers is dier. 36. Laten zulken die het dier zo haten dat zij hun vlees tussen hun tanden vermorzelen dan niet klagen als hen die van dieren houden hen niet willen aanraken. 37. Zij volgen immers de voetsporen van de tweede Pazzia en de tweede Assisi. Zalig zijn zij. 38. Laat de paus dan het dier heiligen en zegenen. Daartoe is hij immers geroepen. En laat de paus zijn mes gebruiken om het dier te beschermen, en zo niet, dan zal de Heere op de daartoe bestemde tijd met Zijn mes komen. 39. Vreest dan het altaar des Heeren, en laat het dier met rust. Stel u eerder op als de ridder van het dier. dan zult gij zalig heten. 40. Is het dier dan niet gemaakt tot uw bescherming ? Gij kent nog niet de adem die in uw mond is. Blijft dan van de dingen af, en vernedert u in vreze en beven. 41. Tot hen die in het tweede Laodicea wonen zeg ik : Leert dan hen die spotten met het dier deze dingen af, door hen eenparig over te leveren aan

de krochten en wonden van de tweede satan en zijn zaad. Leert de volkeren de betekenissen der dieren, want zij zijn de tekenen des hemels om hen die de Heere aanhangen door de grote verdrukkingen van het tweede te lijden. 42. Weest dan gebrandmerkt met de dieren Gods, opdat gij kunt ademen op de dag des oordeels.

De Ogen des Heeren

43. Ja, want grote geheimenissen zijn de dieren Gods, en vervloekt is hij die hen ook maar met één vinger rake. Scheidt u dan af van hen die het vlees eten, opdat gij niet één worde met hen in het oordeel. 44. Zij varen naar een vuur dat eeuwig brandt tot vernietiging in de tweede hel. 45. Ja, met dit vuur heeft God het dier geschapen, en met dit vuur zal God het dier herscheppen. Ja, een groot geheimenis zijn zij, en gij dient daarop acht te geven als op tekenen des hemels om u door de laatsten der dagen te leiden. 46. Gij kunt niet Moloch dienen en de Heere. De Heere wake nu over mijn ziel, want ik ben ziek nu ik deze dingen heb geschreven. 47. Laat hen van het tweede Laodicea nu bij mij zijn in de geest, want de Heere is met mij, en openbaart Zichzelf aan mij dag aan dag. 48. Mijn hart roeme in de Heere en in het Woord van de Tweede Christus. Mijn hart roeme in Zijn altaar, en zijn ziekte wordt mij tot gezondheid gerekend, daar de draden van Spricht zichtbaar worden, om het eeuwig koninkrijk des heeren te weven. 49. Laat de dieren Gods weiden in kabbernal, en laat de tweede Santra de woorden weven, want zij zijn eeuwig en zij zijn sproeiers in het gebeente, tot genezing der zielen. 50. Hecht mijn ziel nu aan de Heere, opdat ik niet bezwijke. Ik dan zal bezwijken in de Heere, zoals ik elke dag sterf om uwentwille. 51. Ik verheug mij dan in het lijden dat ik om uwentwille aanvul aan het Koninkrijk Gods. 52. Zijn wij dan niet allen bouwers van het altaar door ons eigen bloed te geven ? 53. Daarom zij mijn hart niet bezwaard. Ik heb de goede strijd gestreden, en mijn ziel kijkt uit op de wonden van het tweede tot aan het woud des heeren. 54. Amen Metensia Matas, Maranatha, Tweede Christus kom. Tot het Tweede Maranatha zijn wij genaderd, en de openbaringen des Heeren zullen voortkomen als gedruis. 55. Wij ontvangen visioenen door het lijden en niet door drank. De wonden des Heeren zijn ogen geworden. Ik nu ben vol ogen, hebbende geen rust, daar ik dag en nacht zeg met mijn ziel : Heilig is de Heere, Heilig is Zijn Naam, laat het Tweede Koninkrijk komen, nu het eerste voorbij is gegaan. Grote Zegen heeft de Heere weggelegd voor hen die Zijn Tweede geboden bewaren. 56. En deze zaligheid is groter dan het eerste. Zou het toekomstige van God dan geringer zijn dan dat wat alreeds geschied is ? De Heere bewaart dan het beste voor het laatst. 57. Zou dan het binnenste van God minder zalig zijn dan het buitenste ? Gij zijt dan genaderd tot het binnenste van God. Hij die Zich weldra opmaakt om te spreken. Ik zal de rest van Mijn dagen verblijven in het Huis des heeren, om het tweede te doorvorsen. 58. Ik dan zal boven komen, om de monsters van beneden te kunnen zien. Ik dan zal de Heere dienen. 59. En ik zal één tong zijn met hen die met mij spreken. Wij zijn dan allen van één doel en één macht. 60. Niets zal ons scheiden van de macht van God. Dit zijn dan de woorden van de Allerhoogste door Zijn apostel en anfitaat de tweede Paulus. Zalig zij die deze woorden bewaren, doorgeven en doen. Amen Metensia Kabbernal. Hij komt spoedig. Ziet Hij staat aan de deur en klopt. Komt dan binnen in het Tweede Maranatha des heeren, opdat Hij maaltijd met u houde en u het koren des hemels laat zien. 61. Dagelijks brood heeft Hij u gegeven, van het verborgen manna. Gij hebt overwonnen, gij die in Hem blijft.

28.

Slot

1. De Heere heeft mij het zwaard gegeven om het reine te scheiden van het onheilige, om te scheiden de vliezen van het hart. De engelen van het tweede Laodicea zijn met mij, om woorden te spreken tot deze dagen. 2. God laat zich niet verbidden door hen die onheilige dingen doen. Vergist uzelf niet. 3. God is geen hoer die zich aan voorbijgangers hecht. Hij bemint alleen eeuwige dingen. 4. Laat niemand daarin onzeker blijven. Gij die pausen zijt van het kwade. Laat de gemeente des Heeren los, want de Heere zal u slaan met vaagheden en blindheden. De Heere zal u wazen voor de ogen geven, en gij zult uzelf verliezen. Wat winnen en verliezen is zal de Heere uitmaken, gij die de muis volgt. De Tweede Karazuur is reeds tot u neergedaald om uw vlees te eten, al gij onheiligen die denken de heere te misleiden. De Heere ziet alles, en gij die zondigt hebt geen rust, dag noch nacht. En indien gij rust hebt deze dingen bedrijvende, hoe dood zijt gij. Ik vrees dat gij al meegenomen zijt tot achter Gehenna, waar de vierde dood in de velden verblijft om haar kinderen te doen rusten in alle eeuwigheden. Zij bestaan niet meer, maar zijn slechts schimmen van een duister verleden, en weerspiegelingen uit hetgeen voorbij is gegaan. Totdat het Tweede Gehenna zijn intrede doet.

2. De Nieuwe Handelingen Deel I-II

Joringel

1.

1. Nu is het Woord uitgekomen, de dood heeft het verstaan, veertien zwarte rozen, gaven mij vrij baan. Tot het water is het nu gekomen, de zwaan staat hier, het waait hier. Nu is alles dan uitgekomen, de heg over, tot de vrije wereld, geen hindernissen vandaag. Om morgen eeuwig te leven, hebben zij mij uitgekozen, de dood is hier gekomen. De zware stem, de heg over, tot een vrije wereld, geen hindernissen vandaag. Het moment van eeuwig leven, zij kozen mij, en maakten van mij een slaaf.

2. Steeds denk ik terug aan al die witte rozen die ik heb verkozen, mij leidende naar de witte dood. Alles is nu zwart, daar over de heg, want veertien zwarte rozen, hebben mij toen uitgekozen. Slaaf was ik, een slaaf ben ik nu nog steeds. Drijf de zinnen door, nachtelijks kom ik tot het grauwe koor, geen kracht om op te geven, geen kracht om door te gaan. Alles is in mij aan 't beven, alles is in mij vergaan. Chaos is hier binnengedreven, ik weet niet waar ik heen moet gaan. Drijf de zinnen door, verwacht van mij niets. 3. Al die zwarte rozen, tot het witte gekomen, om al mijn dagen grijs te maken, het koninklijke in mij ontwaken. Zeven vogelspinners, zij zullen van mij winnen, want dit is hun terrein, ik ken hen niet, en ik ken hun verdriet niet. Altijd gedacht dat ik het meeste leed, maar zij zijn daarin koning over mij geworden, totdat het koninklijke in mij ontwaakt, om tot het volk te spreken. Mijn stem zullen zij verstaan. Als de lelie steekt, zijn wij er geweest, als de lelie steekt, zijn wij verloren gegaan, in een diepere dood, zijn wij tot een diepere Christus gegaan. 4. Hij leed ver in de verte, hij leed daar achter horizon, en onbereikte bergen, van geslacht tot geslacht zijn

stemmen uitgedoofd, verscholen in een diepere dood, tot een dieper kruis gekomen, zij hebben hem geslagen met de staf van de vierde dood. Zijn tong dan uitgetrokken, zijn baard is dan vergaan, als van een jonge jongen, niemand kan hem verstaan.

2.

1. In het wespenvuur is goud veel te duur, en ogenzalf is daar een kroning, maar zij is voor wie lompen dragen, hun klederen veelvuldig gescheurd, en opnieuw genaaid door vogelspinnen, opnieuw gezaaid in rozenvelden, de betovering duurt voort, wat heb je nog te melden. 2. In het wespenvuur is alles zo duur, en ogenzalf is daar een kroning, koningen maken in lompen woning, zoekende de huizen van armoe, wat de hemel hen gaf, zij kwamen tot het arme graf, waar schoonste rozen bloeiden, hun herinneringen meenemende tot onder het zachte, tot rozenzeen in het vuur. Vader, vader, wat zijn je rozen duur. Is er dan geen vlucht uit dit uur. Geen geld om te bewegen, de ochtend zal het geven. In 't wespenuur, is 't goud door 't haar gestreken, en alles is zo duur, wij komen tot de lompen die praten, over een rozenvuur, is er geen genade tot hen die onder 't zachte zijn gedaald, alles is hier zo duur, wij nemen alleen wat de hemel ons geeft, in 't rozenvuur, zoekende naar wat genade, de pijn heeft ons in 't graf gebracht, het voerde ons naar wespenkleed'ren zo oud en versleten. 3. In lompen gaan wij, tot de wespen van ons hart, alles word steeds duurder, wij nemen wat de hemel ons schenkt, de rijkdommen der grootste armoe, leidende ons tot het oer, waar wespen ons hart bewaren, in 't rozenvuur, in 't rozenvuur. Nu zal dan alles stil zijn, nu zal dan alles vertragen, nu zal dan alles stil zijn, nu zal dan alles stil zijn. In een rozenvuur klom zij, in een teder spel verloor zij dan haar angel, maar deze rijkdom werd steeds duurder, zij schreeuwde om armoe, maar kon haar niet verstaan. Zij vloog dan weg van haar.

4. Nu ben ik dan alleen, in dit rozenuur, diep in het rozenvuur, door wespen zelfs verlaten, door kou en armoe gehaat, zij willen niet met me praten, en tot de stilte zonk ik, was dit mijn enige vriend. Van oer tot oer klom ik, van stilte tot stilte, ik werd van alles verlaten om in leegheid weg te zinken. Niemand houd mij vast, niemand om mee te praten.

3.

1. Te vaak in mijn wonden gestoken, nu ben ik tot onder het zachte gedaald, tot diep onder het roze, in de dieptes van een arm bestaan, geen kracht om op te komen, geen wil om op te komen, ik ben al bijna onder het hete gedaald, tot een wespenkoning, hij maakte in mij woning, een kroon van armoe gaf hij mij, om rijken te beschamen. Kijk nu naar mij, en durf niet meer, ik ging door de grote scheur. Geen kracht meer om te ontwaken, geen wil meer om te ontwaken, tot diep onder het bruine gedaald, de hete spiegel had geen naald, maar pijn is daar in tederheid, waar Brannan heil schenkt aan de armen, tot het oer geleid, oh, ga nu niet afhaken, want dan zullen zij hun werk staken. Een wespenvest is wat ik kreeg, met wapens van het oer. Onder het koude ben ik gegaan, een wespenkoning raakte mij aan, je kunt me niet beschuldigen, je kunt me niet eens verstaan. De zachte hand, een grote pijn, als bliksem tot je komende.

2. Er groeien veren binnenin waar ik te vaak ben gestoken, veren binnenin waar ik de moed opgaf. Van binnenuit hebben ze me opgegeten, ben ik nu dan net als hen ? Ben ik één van hen, sinds zij dan in mij woning maakten, veren groeien tot elkaar, diep binnenin, terwijl zij ernaar staren. De naald is veer geworden. Telkens als zij steekt wordt zij dan zachter. Grote veer, toe maak dan in mij woning, een zachte hand, een grote pijn, als bliksem tot je komende, als de melk van 't reine. In een doodstrijd, tot onder het zachte gedaald, een nieuwe pijn bevrijdde mij, in zacht vuur te ontwaken, tussen rozenschuim en lelieschuim, waar een donk're nacht het op heeft gegeven, tot onder het

donk're gezakt, waar donk're lichten grommen, hier hebben zij zo lang op gewacht, waar schilderijen branden, tot onder het hete gezakt, hervond ik mijn macht, om door mijn spiegel weg te dalen, een wespenkoning nam mij mee. Is dit het boek, waar ik in kan wonen ? Veilig na al die jaren, het kostte me alles, van veer tot veer ga ik.

3. Toen de neus nog een tepel was, een blauwe tepel, een blauwe mast, in de monden van engelen en arxelen, van geesten van vervlogen tijden. Boven de mond, boven de poort, een blauwe tepel, de Ravalon Madok, belangrijk in de spraak, om door wijsheid te spreken, door armoe gevonden. Het is de tepel van de Maser, naakt en arm als het vuur. Een kroon van Armoe heerst over Narzia, als de Ravalon Madok, de blauwe tepel. Tot zeven vuren kwamen wij, om ons tot het oer te leiden. Van wildheid tot wildheid gingen wij, om de armoe te zoeken, de schatten van het verlee. Tot Narzia kwamen wij. Op de Ravalon Madok, vonden wij bevrijding, tot het binnenste gegaan, tot dat wat diep was opgeborgen, als een boodschap van verlee, het geheugen als onze klok. Kent gij dan de armoe niet meer ? Ziet dan, gij hebt geen geheugen. Ziet dan, gij hebt geen fundament, en als de stormen komen, dan vliegt gij ver weg. Bouwt dan uw huis in Maser, de Rots, en drinkt van de geheimenissen der blauwe tepel. Waar zuivere lucht heerst kunt gij leven. De blauwe mast brengt u van geschiedenis tot geschiedenis, om oude boeken te openen, en van de geheimenissen ten eeuwig leven te drinken. Trots als de karsuiken zult gij zijn, en gij zult de trots der armoe kennen.

4. En als de tepel van Metensia, de roze, dan zal opstijgen tot in de Ravalon Madok, dan zal het zijn als de blauwroze weg der wildernis, als de zuiverende armoe. Ja, want de Heere heeft zijn gezandten de armoe rijkelijk geschonken als een staf van zuivering. De dood is als de explosie, als de Matadok de radio, een dove plaats waar alles tot onder het zachte daalt, de pijn der tederheid raakt. Van wildernis tot wildernis, totdat de overvloed explodeert, gebiedende, niet luisterende, sterft zij voor 't gemak. Als de late dood je raakt, dan hoort iedereen je stem ineens. Toen het oor eens een radio was, als de Matadok, een tepel des doods, jij was de gebieder, waar stemmen je hadden uitgedoofd. Tot de dood zijn wij gegaan, achter glas stroomt nu, het eeuwige kruid. Zij is de tepel van de Herman, onder de buik leeft zij, als een deur tot de eeuwigheid, waar de radio steeds spreekt, waar de radio steeds breekt. Het Woord des Heeren, eeuwig kruid, doven kunnen het lezen. Van stilte tot stilte zullen wij alles vertragen, totdat alles is omgekeerd, een platform voor onze Heer. En zo is dan het heilige dove oor tot een tepel des Heeren, tot de Matadok, onder de buik, vanwaar de slangen des hemels komen. Ja, als een deur der eeuwigheid is zij, zij hoort alleen haar eigen stem, zij is dan dubbel gestorven, als een glazen kist is zij gebieder, om wilde deuren te openen, deuren naar de eeuwigheid. Drinkt dan van haar adem, en leeft in eeuwigheid. Zij hebben steeds het kleinste opgezocht, hebben steeds het donkerste opgezocht. Laten we nu van voren af beginnen.

5. Toen het stuitje nog een tepel was, was zij een televisie, in het hart van hen die de Heere beminden. Ziet, zij waren allen blind, Izu, niemand gaf jou wat je verdiende. Izu, niemand gaf jou wat je nodig had, Izu, je was het zaad van een ander geslacht, van lang vervlogen tijden, wie zou er nog om je schreien. Door Dezer gevonden, werden jouw wonden verbonden, tot diep in 't oer reikten zij. Door 't oude versletene konden wij weer zien. Door het verkleurde en verscheurde, konden wij de afstand weer voelen, konden wij voelen, weer voelen. En wat moeten wij met Matas en Marion ? Zij sluiten deze rij, tot een toverbrug, terug naar de feenwereld.

4.

Speer van Zwijmelingen

1. Door de hoge bomen van het woud des Geestes, draagt de herder een gouden speer, om harten in zwijm te doen raken, om god'lijkheden te beminnen. Hij draagt de speer van zoete slaap, om elke pijn te doven. Besprenkelt harten tot Zijn eer, Zijn Liefde vervult de monden. 2. In dauw en teed're ontmoetingen, dwaalt de Geest van Liefde, als door het woud van de nacht, zoekt hij naar Zijn geliefden. Als een hert springt hij door 't hoge gras, tot het maanlicht de herfst alleen laat varen, tot de diepste kamers van de aard, en de brandende winter haar vruchten neemt. 3. Speer van God, van zwijmelingen, schietend uit de harp van 't lot, zoekend naar de vruchten van het spel van vogels, om te doorboren de harten die het goud laten stromen. Speer van God van liefdeswijn, maakt de harten dronken voor 't uur der tederheid, in 't zachte mos te slapen, voor de poorten van Marion's huis. 4. Marion zendt Emily, zendt broden met getuigen, hen die getuigen van een liefde zo diep en waar. Marion zendt Emily, tot de Liefde der huizen, tot duistere grotten waar zij die slapen, nog steeds wakker zijn in hun wonden, en leidt hen met gouden Koorden, tot de eeuwicheden van Metensia. 5. En ik slaap, ik vaar tot de tepel van Metensia, waar de melk der liefde overstroomt, en dauw brengt tot de appelgaarden. En ik slaap, voerende naar de tepel van Emily, waar de bomen zacht waat'ren in een tranendal van liefde. 6. En ik slaap, ik vaar tot de tepel van Metensia, waar de melk van appelstromen, het licht van de morgen doet gloren, in morgenrood gezonken, zwem ik weer terug tot de nacht, die eeuwig duurt in het hart van Metensia, om daar haar vlam te doen branden in gloeiend rood, tot de harten die verwelken. 7. En ik slaap, tot de tepel van Metensia, tot de tepel der liefde glijd ik met mijn schip, 'k bouw de aarde, in zeeën van het hemelgewelf. 8. Voer de maan, allen die slapen, met de melkselen van Metensia, voer de aarde en zijn vleug'len, laat haar tepel opstijgen, tot de uiteinden der liefde. Laat de mare haar vruchten dragen tot de boom des geestes. 9. Voer het pad, voer de banen, haar liefde zal niet verloren gaan, de aderen des geestes zijn met velen, als schapen in de wei, voeren zij hen die hongeren naar de paden der slaap en de melk van verloren wouden.

Koelte der Slaap

1. En het raakt mijn ziele aan, het zoete aan het uiteinde van de pijn, de lichten in de nacht, ik ben alleen. En het leidt mij tot eenzame waat'ren, 'k voel mij koud, waar de koele slaap mij omhult. Maar kleine liefde komt in 't uur der zwijm. 2. De wijn sprak tot mijn hart, laten we samen het veld ingaan, maar ik verkoos de eenzaamheid, mijn hart zocht rust. 3. De wijn sprak tot mijn hart, ik kan je niks beloven, maar 'k had zekerheid nodig, een vast pad nam mijn hart. 4. Echter droefenis was stil op weg, de rover kwam dichtbij, maar God gaf mij de twijfel van Zijn Geest. 5. Zou Hij mij binnennemen, met het zoet van het onzoek're. Zou Hij bij mij binnengaan. 6. Laat de macht van de nacht mij dit niet ontnemen, het geluk van de onwetendheid. 7. In boten zonder zorgen, laat de nacht voor wat het is, stijgen wij tot de koele waat'ren van het grote gemis. 8. Diepe glazen ogen van 't hert van het omslaan, drijven mij weg tot een zorgeloos bestaan. 9. Wij kunnen niks beginnen, met het omslaan der liederen, de winden wijzen de weg, naar de koele grotten der slaap. 10. 'T gaat niet weg, de herinnering, het watert alleen in het gouden begin van een teer groen sprietenbos. 11. In 't hooi van oude velden, waar de vogels hun nesten bouwen, laat mijn ogen 't niet aanschouwen, de meren van de oude aard. 12. Verzoen mijn hoofd op 't najaarspad met het brood van verleden tijden. 13. Laat de oude hel niet spraakzaam zijn, maar leid onze bellen tot het waterige tij, waar de golven niet verjaren, niet wegglijden tot de omwentelingen der aarde. 'T is voorbij.

Slaaplied over de Geest van Santra

1. Geest van Santra, morgenkoningin, laat uw liefde als de webben stijgen, om koningen te vangen, hun woorden behoren tot uw Geest. 2. Geest van Santra, grote liefde, rood uw naam in vuur en stilte. Geest van Santra, stille liefde, door de bomen zoekt u zilver in de harten van de koningen in uw webben. 3. Moederspin van God, u weefde al wat wij weven door uw Geest. Moederspin van God, door de bomen zoeken wij uw Geest. Grote Liefde, tweede liefde, grote naam, 't is heilig geweest, en nu 't allerheiligste. 4. Geest van Santra, morgenkoningin, u weefde al wat liefde is, tweede Santra, tweede naam boven alle naam. 'K heb liefde in uw haar geweven, u kwam tot mij, door de doornen reikte u tot de roos in mij. 5. Spinnenwebben van uw Geest hebben koningen gevangen, hun woorden behoren toe aan uw meesteressen. 'K zag een huis vandaag, achter bomen staan, en de roos bracht teed're steken, vol vuur en diepe stilte, gehuld in morgengloed, grote liefde hebt u mij erdoor gegeven. 6. Tweede Santra, grote liefde, uw haren vol van ijs en morgendauw, tweede Santra, u schiep het hertenkind, door uw liefde gedreven. 'K ben op zoek naar uw bron, diep dalende, de kou vangt mij en brengt mij in uw diepe sneeuw, tot webben van uw Geest, door de kracht van uw adem rijst ik weer op tot de ramen van het oude huis, vervuld met het tweede kruis. 7. Dit huis is vol van uw Geest, oh Geest van Santra, koningin van de morgen en de dauw. Dit huis is vol van uw Geest, oh Geest van Santra, neem mij in uw Wijsheid op. Druppels van uw Wezen hebben mij vervuld, de weg gewezen, de voetstappen van een nieuwe dag. Komt tot allen die u zoeken, ik blijf boven, ik blijf onder uw mantel.

Tweede Slaaplied over de Geest van Santra

1. Tweede Santra, tweede liefde, heb genade in dit uur. Boten zijn gezonken, de zeeën duister en van zilver, golven als witte haren. 2. Tweede Santra, tweede liefde, heb genade in dit uur. Zoveel boten gezonken, u ving hen in uw web, heb genade, zoveel zielen zijn verdwenen. 3. Ik weet niet waar zij zijn. In uw hand heb ik gezocht, naar uw grote geheimenissen, blijf stil, Ik zoek u, met grote kracht hebt gij ons uiteen gedreven. U moest mij hebben voor uzelf, 'k heb alles aan u gegeven. 4. U moest mij hebben voor uzelf, door dit pad van duisternis. Nu is het tweede huis zo vol van uw tweede kruis, waar de dauw tegen de daken klimt, oh uw morgen die mij bemint. Tweede Santra, genaad' en liefde, door uw haren vinden wij de wilde bossen. 5. Steeds uw huis, de woorden staan geschreven op het kruis, met een vlam bracht u licht in duist're harten, door een vlam voerde u ons door diepe waat'ren van genaa, steeds weer bracht u ons tot de wijzen van de nacht. 6. En vluchten is niet mogelijk, uw Geest is altijd daar, uw hand als dikke wanden, de muren van het witte huis, in zilvergrijze nachten, de daken die op ons wachten, waar muren tot leven komen, spinnen die ons doen dromen. 7. Oh Spin van God, heb genade in dit duistere lot. Steeds dacht ik God heeft mij verlaten, geen adem en geen lust tot leven, altijd moe en zwak, maar sterkte als een zilverkruis, als dunne draden in mijn ziel. 8. Geen reus kon mij pakken, 'k blijf steeds hopen op u. Steeds dacht ik God heeft mij verlaten, de morgen maakte mij zo depressief, met trage passen kwam de duist're hand en brak mij. 9. Dunne draden in mijn ziel, zilv'ren wachters in de verte staan, dunne draden, geen kracht om te vechten, duist're liederen voeren hier de boventoon, op het schip van spinnenwebben, door 't woud van diepe rivieren. Tweede Santra, steeds weer denk ik God heeft mij achtergelaten. 10. Ben ik overgeleverd aan uw grote wraak, oh moederspin. Spinnen des hemels eten mij, dag aan dag, zilv'ren bomen buigen diep in stille rouw. Heer, u bent de stilte, u maakt mij zo onzeker, laat toch uw liefde weer volop stromen. 11. U neemt mij mee, tot duist're waat'ren, steeds weer gelden andere wetten. Is dit dan wat ik verdien, al die duisternis, het klagen maakt mijn

oog zo moe. Ik heb geen kracht, ik ken alleen uw kruis, alleen uw wonden. 12. Heer, geef mij niet over. Wees dichtbij me. Wees mijn kracht en mijn schild, mijn pantser. Spinnenwebben hebben mij omgeven. Heer, kom thuis in dit tweede huis. Laat mij slapen, sluit mijn ogen voor eeuwig, ik kan het niet meer geloven, ik kan het niet meer dragen, sluit mijn ziel. Uw maaksel is in diepe paniek, waar handen haar breken, ze kan het niet meer, ze glijdt weg, de nacht is haar tot omhulsel. 13. Laat uw kind niet verloren gaan. Geef haar nu nieuwe dromen, en maak haar tot een hertenkind door de morgen bemint. In zilvergrijze nachten, ze zwemt door duist're grachten, ontdaan van haar krachten, zinkt zij naar ongekennde dieptes. 14. Vissen des hemels nemen haar mee, tot het droge achter een grote zee. Aanschouw uw redder, vergeet het niet, in 't spinnenweb vond zij een weg in haar verdriet. Spin des levens, de dood achtergelaten, rozen van genade na een bitt're nacht.

De Slaap des Heeren

1. Daar gaat mijn ziel, ze is een mooie vogel. 2. Daar gaat mijn ziel ze fladdert en kijkt steeds om. 3. Bubbels komen uit haar mond, ze verspreidt zoveel bloemen. En bloesem groeit op haar rug. 4. Ze is op weg, maar 'k weet niet waar naartoe. Ze draait steeds om, en 'k weet niet waar ze naar kijkt. 5. Het gaat te snel. Haar lippen bewegen zo snel, ik weet niet wat ze zegt. Daar gaat mijn ziel, waar komt ze toch vandaan. 6. Onder wiens betovering is ze, en waarom draait ze zo snel. Haar lichaam danst op snelle muziek, maar ik hoor niks. 7. Alleen enige waterbubbels, en op de achtergrond een zacht woud. Wat zal ze zeggen als ze mij hier ziet. 8. Zou ze mij meenemen naar haar paradijs. Mijn ziel is als een vogel des Heeren, en mijn geest achtervolgt haar. Zal ze ooit rust vinden. 9. Ze zegt heilig, heilig is de Heere, en ik omhels haar in strakke omhelzing. Ze is des Heeren. 10. En rivieren stromen van haar ogen, en wijn komt uit haar mond. Ze straalt. Ik heb haar alweer verloren, daar rent ze in de verte, daar waar de zon het woud raakt. En kleine vogels vliegen om haar heen. 11. En aldus is de Slaap des Heeren, en zij grijpt naar dromen. Ze roept wat maar ik kan haar niet verstaan. 12. Ze is als een veer die mijn geest bewaakt. In mijn verstand kan ik haar niet vatten. Ik heb slaap nodig, maar hoe kom ik daar. 13. Ik ben te fit om nu te liggen. Of zou ze me neerslaan ? 14. En alzo is de Slaap des Heeren. Ze groeit als een boom, ik kan haar niet begrijpen. En vluchten kan ik voor haar niet. Ik zie haar steeds weer rennen. 15. En zij brengt mij steeds weer teneer. Hoe kan ik hieraan wennen, het is de Slaap van de Heer. 16. Groter wordt ze in Zijn Geest. Ik kan haar nauwelijks meer aanschouwen, maar ze daalt steeds in liefde op mij neer, als de duif van de Heer. Wees niet bang voor de beslissing van de Heer, waar Hij ingrijpt in ons hart en in onze ziel, waar hij onze geest besnijdt. Wees niet bang voor Zijn rake klappen, wij allen lijden onder de druk van Zijn Geest. De Heere heeft weer ingegrepen. Nauwelijks kunnen wij staan op onze benen. Nauwelijks komen wij vooruit, en onze vijanden zijn met velen. Ja, zij zijn vijanden van onze zielen, maar de erfenissen staan ons bij. En als zijn ijsleeuwen hun bekken openen, stroomt het ijs over onze armen en benen, om te openen en te sluiten, om nieuwe getijden aan te kondigen.

9.

Slaaplied van de Twijfel

1. Ik kan niet meer. Ik kan uw wolken niet meer zien. Ik voel me teer, 'k voel me onbehouden, lomp en zonder liefde, zonder een vonkje genaa. 2. Heeft de Heer mij echt verlaten, zal ik dan zijn liefde zien, nu ik me zo dom heb gedragen. Waar moet ik heen, zal Hij mij ontzien. 3. Ik heb gehoord Hij moet mij niet meer. Maar wie sprak deze woorden tot mij. Het was een mens, en wat is hij te achten. 4. Toch ben ik bang, ik durf niet meer tot Hem te naad'ren. Zijn tempel is heilig, klaarstaande om de

onheiligen te verteren. 5. Ik voel me dood en onrein, alsof ik de spot met Hem heb gedreven. Heb ik Hem verloochend, ik weet niet wie ik ben. 6. Is dit mijn lot, ik heb zo'n pijn, en ik verlang zo naar Zijn stem. Zo zoet was het in 't verlee, ik weet niet meer waar ik ben. 7. Heb ik Hem afgezworen, mijn hart kon 't niet meer aan. Ik zou Hem nooit pijn willen doen, 't zoete behoort Hem toe. 8. Heb ik hem dan afgezworen, ik twijfel en heb zoveel verdriet. Mensen kunnen mij bespotten, ach ze is niet meer z'n vriend. 9. Wat is dat voor een God, wat hebben die twee nog met elkaar op. 10. Wat is een mens te achten. Ik wil hun woorden niet geloven, maar geef acht op mijn geliefde, Hij redt mij steeds weer. 11. Ook nu in al mijn twijfels, ik zie de hemel niet meer. Zijn ogen die mij zoeken. Oh wat doet mijn leven zeer. 12. Ik bemin je, mijn vriend, toe zeg me waar je bent. 13. Ik durf niet meer te komen, en 'k weet toch niet waar ik heen moet gaan. 14. Mijn vriend, Mijn God, ik ben zo bang, wat heb ik u toch aangedaan. Ik voel mijn wonden, zijn het mijn zonden, of is het een traan van uw aangezicht. 15. Ik durf niet op u te hopen, bang bedrogen uit te komen. Ik laat mijn hoofd weer hangen, ik glijd weer naar benee. Mijn goede vriend waar ben je. 16. Niks durf ik hem meer te vragen. Ik ga nu in het zwart, mijn haren blauw geschilderd, we lopen nu apart. Het zoete van je kussen, het is niet meer voor mij. Je zal nu wel een ander hebben. Ach, zo was het altijd al. Geest van God, zo zal het zijn. 17. 't Leven zo, ik moet me maar berusten. Maak nu maar anderen blij, ik zet u nu weer vrij. Geest van God, mijn goede vriend, 'k heb u alle dagen bemint. 18. Misschien dat er nog tranen stromen, van mij naar u, als mooie dromen, ik voel u soms, dat kan niet meer stuk, de jaren zitten veel te diep. 19. Geest van God, ik ga in stilte, 'k durf niet meer tot u te spreken. Langzaam drijf ik dan mijn woorden, richting and're dingen, maar 'k hoop stil dat u mij toch nog kan horen. 20. Ik voel me zo moe, mijn gedachten dwalen af, tot een nieuwe morgen. Waar moet ik toch naartoe zonder u. 21. Mijn leven is nu zo leeg, en slaap vervult mij. 22. Kunnen mijn trage, angstige woorden u nog wel bereiken. Ik weet het niet. Het maakt mij onzeker, zo verdrietig en zo hopeloos. 't Is voorbij.

Blauwstaartje

1. Blauwstaartje was een visje in een hele diepe oceaan. De visjes noemden hem blauwstaartje omdat hij bijna geheel wit was, alleen met een blauw staartje. Op de vissenschool kregen ze les van een oude grote blauwe vis. Als die vis boos werd dan kon je je maar beter verbergen, want dan blies hij met al zijn kracht het water naar je toe, en begon hij vreselijk met zijn vin en staart te klapperen. Blauwstaartje was altijd een beetje bang voor die grote blauwe vis, maar de andere visjes vonden hem maar een bangerd.

2. Ook kregen ze les van een zeeslang met blauwe en witte strepen, en als laatste van de blauwe zeester. Blauwstaartje vond geen van zijn onderwijzers aardig. Ze waren alledrie erg streng. Maar de visjes uit zijn klas vonden dat hij zich niet moest aanstellen.

3. Op een dag was het feest op school, en maakten ze met z'n allen een schoolreisje naar de oppervlakte van de oceaan. Hier was Blauwstaartje nog nooit geweest, en hij keek zijn ogen uit. In de verte zagen ze een schip met mensen erop. Blauwstaartje zou wel een mens willen zijn, want zij hadden benen. Blauwstaartje zou heel graag op het land willen wonen, maar de meester had altijd gezegd dat ze op het vaste land oorlog maakten. Op een dag vertelde de oude blauwe zeester een verhaal over een meisje van het vaste land die een vis wilde worden. Blauwstaartje vond het een droevig verhaal. Het meisje ging vaak naar de zee, omdat ze niet tegen het geruzie van mensen kon.

Op een dag was ze het zo beu dat ze de zee inging, maar door een grote golf werd ze meegesleurd en verdronk.

4. Blauwstaartje moest altijd erg huilen als hij het verhaal hoorde. Blauwstaartje zou heel graag een mens met benen willen zijn. Dan zou hij misschien wat aan al dat geruzie kunnen doen, en dan hoefde er ook niemand meer weg te lopen om te verdrinken. Op een dag vertelde Blauwstaartje na de les aan de zeeslang met blauwe en witte strepen dat hij graag een mens zou willen worden. Hij vroeg de zeeslang om raad, want hij wist niet hoe hij dat kon worden.

5. ‘Jongen, doe maar niet zo dom, want mensen maken altijd ruzie,’ zei de zeeslang. ‘En bovendien zou ik niet weten hoe je mens zou moeten worden. Volgens mij is dat onmogelijk. Je moet gewoon je best blijven doen hier op school, om een keurig nette vis te worden. Haal al die verhaaltjes van je maar uit je hoofd. Dat is veel beter.’

6. Maar toen ging Blauwstaartje naar de blauwe zeester, en vertelde hem hetzelfde, dat hij graag een mens wilde worden. De blauwe zeester begon een beetje te brommen, en zei dat hij eigenlijk geen tijd had voor zulke onzin. ‘Je bent niet voor niets een vis,’ zei de zeester. ‘Wat je bent moet je blijven, en trouwens zou ik niet weten hoe je een mens zou kunnen worden. Ik vind het maar een domme wens. Mensen zijn slecht en zijn geboren om oorlog te maken. Zet het maar zo snel mogelijk uit je hoofd, want van jouw plannen komt toch niets terecht.’

7. Teleurgesteld ging Blauwstaartje als laatste naar de grote blauwe vis, maar die werd direkt zo boos dat Blauwstaartje maar gauw weer vertrok. De volgende dag vertelde de blauwe vis in de les wat er was gebeurd, en begon Blauwstaartje nog eens extra uit te lachen. Ook de visjes van de klas begonnen Blauwstaartje uit te lachen. Na de les ging Blauwstaartje extra snel naar huis, omdat hij verder niet gepest wilde worden, maar de visjes van zijn klas volgden hem snel, en begonnen om zijn huisje heen te zwemmen. ‘Ha, ha ha,’ lachten ze, ‘wat een dommerik. Hij wil mens worden!’ Maar na een tijdje vertrokken de visjes weer.

8. Ook Blauwstaartje’s moeder, een grote roze vis, kwam het te horen, en wilde eens diepgaand met haar zoontje praten. ‘Zeg ik heb gehoord wat je wens is,’ zei de moeder, ‘en ik vind het heel dom van je. Je weet toch dat mensen niets anders doen dan oorlog maken?’

9. Ja maar moeder, sprak Blauwstaartje, ik zou daar zo graag een eind aan willen maken, en ik zou graag eens op benen willen staan.

10. Ja jongen, zei de grote roze vis, mensen hebben prachtige benen, maar wij hebben nu eenmaal gewoon een staart en daar moeten we het mee doen. Toen vader thuis kwam en het verhaal hoorde kreeg hij het met Blauwstaartje te doen. ‘Jongen, ik had vroeger dezelfde wens, alleen daar is helaas nooit iets van terecht gekomen,’ zei vader.

11. ‘Maar hoe kan ik mens worden,’ zei het visje.

12. Vader keek moeder aan, en moeder keek vader aan. ‘Vertel het hem maar,’ zei moeder. Toen sprak de vader: ‘Jongen, dan moet je op zoek gaan naar het blauwe gesteente van de rog.’

13. Toen zei moeder: ‘Vader heeft gelijk, maar daar kom je niet zo makkelijk. Niemand heeft het ooit gevonden.’

14. ‘Maar waar kan ik het vinden?’ vroeg Blauwstaartje.

15. Maar dat konden zijn vader en moeder niet vertellen. Diep in de nacht ging Blauwstaartje het huisje uit, en ging op zoek. Na heel lang zwemmen kwam hij uiteindelijk een rog tegen en vroeg naar het blauwe gesteente. ‘Oh verderop,’ zei de rog. Na een tijdje kwam Blauwstaartje nog een rog tegen en vroeg hetzelfde, en kreeg weer hetzelfde antwoord. Maar na dagen zwemmen had Blauwstaartje nog niets gevonden. Ten einde raad besloot Blauwstaartje weer naar de oppervlakte van de oceaan te gaan, om de mensen met hun schepen weer te bekijken. Misschien zou hij daar wel op een idee komen.

16. Toen hij bovenkwam was het erg druk op zee. Overal zag Blauwstaartje bootjes. Niemand had Blauwstaartje ooit over vissers verteld, en daarom kende hij het gevaar van de netten niet. Maar op één van de schepen zag Blauwstaartje iets fonkelen. Het leek wel op het blauwe gesteente waar zijn vader en moeder over hadden gesproken. Plotseling werd hij door een net meegetrokken. Blauwstaartje schrok verschrikkelijk, en al snel werd hij in een bak geworpen. Al snel kreeg Blauwstaartje het erg benauwd. In de verte op het dek zag hij het blauwe gesteente flonkeren en glinsteren. Het was prachtig, maar Blauwstaartje kon er niet bij. Hij had immers geen benen, en zwemmen kon hij hier niet. Hopeloos begon Blauwstaartje naar adem te happen. Twee mannen kwamen bij de bak en zagen Blauwstaartje liggen. ‘Kijk nou eens, wat een prachtige vis, bijna geheel wit met alleen een blauw staartje,’ zei één van de mannen en greep Blauwstaartje uit de bak.

17. ‘Ja,’ zei de andere man, ‘hij is bijna net zo prachtig als het blauwe gesteente daar, en wees naar de fonkelende, bijna gloeiende stenen.’

18. ‘Nou, ik vind de vis veel mooier dan jouw zeestenen,’ zei de man die Blauwstaartje had vastgegrepen. ‘Houd jij je edelstenen maar, ik heb de vis. Ik zag hem het eerst.’

19. Maar toen liep de andere man naar het blauwe edelgesteente toe, en bracht het naar de man met de vis toe. ‘Nou, we zullen ze eens naast elkaar houden en zien wie de prachtigste is.’

20. Toen hield de man de vis tegen het zeegesteente aan, en plotseling stond er een klein jongetje met een prachtig blauw pakje tussen hen in. Maar waar was de vis nu gebleven ? Ook de edelstenen waren verdwenen.

21. ‘Zeg jongetje,’ zei één van de mannen verbaasd. ‘Heb jij soms de blauwstaart met de stenen weggepakt ?’

22. Maar het jongetje kon niet praten. De mannen stonden voor een raadsel. ‘Zeg, hoe komt dat joch hier eigenlijk ? Misschien is het een verstekeling,’ zei de andere man. ‘Laten we hem naar de kapitein brengen.’

23. En zo brachten de twee vissers de jongen naar de kapitein. De kapitein was heel aardig, en nam de jongen direkt onder zijn hoede. Niemand sprak verder nog over de blauwstaart en het blauwe gesteente. De kapitein leerde de jongen praten, en hoe je een schip moest besturen. Maar dat ging niet al te gemakkelijk. Het jongetje kon de klanken niet uitspreken.

24. Toen het schip aan wal kwam nam de kapitein de jongen mee naar huis, en zijn vrouw was direkt erg liefdevol naar de jongen. De vrouw had altijd al graag kinderen willen krijgen, maar die wens werd nooit vervuld. Maar op school werd de jongen geplaagd, omdat hij een spraakgebrek had. Steeds meer begon de jongen terug te verlangen naar de zee, en op een dag nam de kapitein hem mee. Ze zouden een hele grote reis gaan maken met het schip. Maar op een dag had de jongen een heel sterk verlangen om over de reling te springen, en toen hij het water raakte veranderde hij direkt weer in een vis. Het visje was heel opgewonden over wat hij allemaal had meegemaakt, en

zwom zo snel hij kon naar het huisje van zijn ouders. Maar vader en moeder waren helemaal niet blij toen het visje het verhaal vertelde. Zijn vader en moeder hadden destijds het verhaal over het blauwe gesteente van de rog verzonnen om hem niet teleur te stellen. Nu ze hoorden dat het visje echt mens was geworden door de blauwe zeestenen wisten ze zich geen raad.

25. Maar op de vissenschool geloofden ze hem niet, en lachten ze hem uit. De grote blauwe vis die hen onderwees werd zelfs heel erg boos op het visje, en sloot hem voor straf op in de kelder van de school. In de kelder was ook een ander visje opgesloten, een visje uit een andere klas.

26. Hoe ben jij hier terecht gekomen ? vroeg Blauwstaartje. Maar het andere visje zei niets, en was heel stil. ‘Nou, als je niet wil praten is ook goed hoor,’ zei Blauwstaartje. Toen vertelde Blauwstaartje wat hij allemaal had meegemaakt. Het andere visje begon na een tijdje een beetje te lachen, al was het in Blauwstaartje’s ogen maar een glimlach.

27. Na een tijdje kwam de oude blauwe zeester om de kelderdeur open te maken. ‘Jullie straf zit erop,’ zei hij. Het andere visje vloog weg zo hard als ze kon, en Blauwstaartje bleef een beetje teleurgesteld achter. Hij had gehoopt dat ze vriendjes zouden worden. Langzaam zwom hij over de trap naar boven, en ging weer naar de les. Blauwstaartje besloot verder maar zijn mond te houden. Nu hadden ze les van de zeeslang. Maar de zeeslang zei dat hij het hele verhaal gehoord had, en vertelde het nog eens, tot grote afschuw van Blauwstaartje, want weer begonnen de visjes van zijn klas hem uit te lachen. Na de les kwam hij op de schoolgang het visje van de andere klas tegen waarmee hij samen in de kelder zat. Ze glimlachte even, maar zei verder niets.

28. Gek genoeg begon Blauwstaartje weer naar het vaste land te verlangen. Zou hij nu weer eerst blauw zeegesteente van de rog moeten vinden, of zou hij direkt een jongen worden als hij uit het water zou komen ? Opgewonden en nieuwsgierig naar wat er zou gebeuren zwom Blauwstaartje zo snel als hij kon richting de oppervlakte van de oceaan. Maar hier werd hij door een grote vis gegrepen, en flink verwond. Al bloedend zwom Blauwstaartje naar de kant, en kwam op het strand terecht, waar hij direkt veranderde in een jongen met een blauw pakje. Maar nog steeds bloedde hij hevig. De jongen stond op, en rende naar het huis van de kapitein. De kapitein was er niet, maar de vrouw van de kapitein verzorgde de wond liefdevol. Toen de kapitein thuiskwam was deze blij de jongen te zien. ‘We dachten dat je verdronken was,’ zei de kapitein. ‘Wat is er gebeurd ?’

29. En toen vertelde de jongen het hele verhaal, maar de kapitein begon er hartelijk om te lachen, en kon het niet geloven. De vrouw zei niets.

30. Even later nam de kapitein de jongen mee naar het water om te kijken of het echt waar was. Maar toen de jongen in het water sprong gebeurde er niets. De jongen bleef gewoon een jongen. Blauwstaartje beseftte toen dat hij nooit meer terugkon naar de dieptes van de oceaan. ‘Zie jongen, je hebt het gewoon maar gedroomd,’ sprak de kapitein, en legde toen zijn arm om de jongen heen, en samen liepen ze naar huis. Wel hebben ze de jongen altijd Blauwstaart genoemd.

De Paddenkoningin

1. Eens woonde er een meisje bij een arm gezin. Ze vonden het meisje eens in het bos, en namen het onder hun hoede, maar ze waren erg arm. Ze noemden het meisje Grunpuhlster, omdat ze ogen had als groene poelen. Op een dag hadden ze zoveel honger dat ze het meisje verkochten aan een jager

op doorreis. Hij nam het meisje mee naar zijn boshuis waar ze in het huishouden moest werken. Ze kon alles zo goed schoonmaken, dat alles een groen glimmend laagje kreeg, en daarom noemde ook de jager haar Grunpuhlster, en natuurlijk omdat ze zulke mooie ogen had als groene poelen.

2. Op een dag moest de jager weer weg op reis voor een lange tijd. Niet lang daarna kwam er een bedelaar die bij Grunpuhlster aanklopte. Grunpuhlster deed open, en nam de man zorgzaam naar binnen. Ze gaf hem goed te eten en een slaapplek.

3. Toen de volgende ochtend de man naar beneden kwam keek hij Grunpuhlster erg dankbaar aan. 'Omdat je zo zorgzaam en liefdevol naar mij bent geweest,' sprak de man, 'zal er bij alles wat je spreekt een groene edelsteen uit je mond vallen.' Het meisje schrok, want zo'n geschenk had ze niet verwacht. Ze durfde haar mond niet open te doen, maar knikte dankbaar en liefdevol naar de man, die ineens in het niets verdween.

4. Toen de jager thuiskwam durfde ze niet te spreken, maar toen de jager dat in de gaten kreeg, en veel vragen begon te stellen, deed ze uiteindelijk haar mond open, en er vielen groene edelstenen op de grond. De jager was erg verrukt. Het meisje vertelde hem alles. De jager was erg trots op haar, en sindsdien hoefde ze niet meer in het huishouden te werken.

5. Op een dag nam de jager haar mee naar de koning van het land. De koning was zo onder de indruk dat hij haar liet trouwen met zijn zoon, maar ze was niet gelukkig. Ze dacht nog steeds aan het arme gezin waar ze vandaan kwam. Na enige jaren ging ze samen met haar prins naar het arme gezin toe, en ze sprak zoveel, en er rolden zoveel groene edelstenen uit haar mond, dat ze nooit meer arm hoefden te zijn.

6. Maar op een dag verdwaalde het meisje weer in het bos. Na een lange tijd wandelen kwam ze bij een huisje aan waar een kabouter voor stond. 'Heus, je hoeft hier niet te werken, maar kom een nachtje logeren, want stormen zal het huizenhoog, hoei.' Het meisje luisterde maar naar het vreemde mannetje, want ze wilde niet door de storm meegenomen worden. Toen ze de volgende ochtend wakker werd was het mannetje in geen velden of wegen te bekennen. Ze kon het niet laten om het huisje wat schoon te maken, want het was er zo stoffig. En alles wat ze schoonmaakte kreeg een groen glimmend laagje. Toen het mannetje die avond thuiskwam was hij erg onder de indruk. 'Blijf nog maar een nachtje slapen,' zei het mannetje, 'want vannacht gaat het weer stormen.'

8. De volgende dag kwam er een bedelaar aan de deur. Het meisje deed direkt open, en gaf de arme man wat te eten. Ook gaf zij hem een bed. Na een tijdje kwam de man naar beneden, en het meisje sprak veel met hem, terwijl er groene edelstenen uit haar mond vielen. De man vulde zijn zakken ermee, en zei : 'Pikkel, taddel, tad, elke keer dat je zult spreken komt er uit je mond een pad.' Het meisje schrok, en de man vertrok snel met zijn zakken vol groene edelstenen.

9. Toen de kabouter die avond terugkwam en het meisje tot hem sprak rolden er allemaal padden uit haar mond. Het mannetje schrok heel erg en riep : 'Heb je hier soms tovenaars binnengelaten ? Het woud zit vol met boze tovenaars. Voor straf moet je vannacht buitenslapen.'

10. Het meisje begon erg hard te huilen, maar het mannetje was niet over te halen, hoe het meisje ook smeekte. Die nacht zwierf ze door de bossen en kwam er een grote storm die haar opnam. Na een lange tijd werd ze wakker in een grote poel. Ze zat helemaal onder de modder, en die ochtend maakte ze een lange wandeling door het bos in de hoop weer de weg terug te vinden. Na een lange tijd vond ze de weg terug. Toen ze bij het kasteel van de prins kwam wilde niemand haar binnen laten, omdat ze onder de modder zat, en telkens wanneer ze sprak kwamen er padden uit haar mond.

11. En zo sliep ze die nacht weer buiten, en een grote storm nam haar mee, verder weg dan ooit. Ze werd tot helemaal achter de poel geslingerd. Achter de poel stond een heel oud en arm huisje, en een oude vrouw hing daar de was op die prachtig wit was. De was glinsterde in het maanlicht. 'Kom binnen, arm kind,' zei de vrouw, 'want als de storm je pakt, dan neemt hij je mee. Het kan hier nogal waaien.' Het meisje durfde haar mond niet open te doen, en ging met de vrouw naar binnen. Binnen was het erg stoffig, en toen de vrouw weer naar buiten ging, besloot het meisje wat schoon te maken, en alles werd glimmend groen. Toen de vrouw weer binnen kwam en het glimmende groen zag begon ze te lachen en zei : 'Pikkel, taddel, tuid, alles wat je aanraakt zal veranderen in paddenhuid.' Het meisje rende huilend naar buiten, en werd door de storm gegrepen.

12. De storm bracht haar naar het land van de reuzenpadden. De reuzenpadden pakten haar en brachten haar tot hun koning. De paddenkoning vertelde haar dat spoedig alles overstroomd zou worden door de poel. Het meisje wilde naar huis, maar de paddenkoning liet haar niet gaan. Ze moest in het paleis werken, en alles wat ze aanraakte veranderde in paddenhuid. Ook kwamen bij alles wat ze sprak padden uit haar mond. Het meisje was ten einde raad. Op een dag vroeg de paddenkoning of zij zijn koningin wilde worden, maar het meisje vertelde dat zij al prinses was in een ander koninkrijk, en daar koningin zou worden. De paddenkoning werd erg kwaad, en wilde dat koninkrijk wel bezoeken. Het meisje vertelde hem dat het het land achter de storm was.

13. En zo gingen op een dag de paddenkoning en zijn soldaten naar het land waar het meisje vandaan kwam, maar zij keerden niet meer terug. De achtergebleven reuzenpadden kroonden toen het meisje als hun koningin. Maar op een dag begonnen alle poelen los te komen, en begonnen alles weg te spoelen. De koningin rende naar haar hoogste toren, en zag hoe de poel de reuzenpadden meesleurde naar het land waar zij vandaan kwam. De poel begon steeds hoger te steigen en vanuit het hoogste torenraampje klom de koningin op het dak van de toren, tot aan de punt. Help, help, riep de koningin. In de verte zag zij een bootje aankomen met daarin de kabouter die haar weggezonden had. De kabouter zag haar ook, maar wilde haar niet meenemen. Even later zag ze een bootje aankomen met de oude vrouw die haar had uitgelachen en had betoverd. Ook de oude vrouw ging haar voorbij. Het puntje van de toren was nu ook in paddenhuid verandert. En ten einde raad begon de koningin te praten en te praten, en zoveel padden kwamen er uit haar mond dat ze een boot begonnen te vormen waar het meisje in kon stappen. Het meisje bleef praten en praten zoals ze nog nooit gepraat had, en even later was ze in een flinke boot op de woeste hoge golven. Nog nooit had ze zo'n woeste zee gezien.

14. Na een tijdje kwam er een reusachtige hand tevoorschijn vanuit de donkere lucht die haar als een bliksemschicht oppakte. In een hoge toren in de wolken, geheel gemaakt van paddenhuid kwam ze terecht, en kwam ze oog in oog te staan met de bedelaar die haar eens de gave had gegeven dat alles wat ze sprak in edelstenen veranderde. De bedelaar keek haar vriendelijk aan. 'Zo zie je maar weer hoe een gave je in de problemen kan helpen,' sprak de bedelaar. 'Maar nu, omdat je zo getrouw bent gebleven : wees mijn koningin.' En de bedelaar bracht haar tot een rijk geheel gebouwd van groene edelstenen, en deze edelstenen waren de prachtigste die ze ooit had gezien. En ze leefden nog lang en gelukkig.

Het Rozenweefstertje

1. Eens leefde er een rozenweefster in het bos met haar drie zonen. Ze had een toverspinnenwiel waarmee ze rozen kon weven. Deze rozen waren heel bijzonder, en de allerrijksten van het land

kwamen vaak bij haar om de rozen te kopen. Maar toch was het gezin arm, omdat zij de goudstukken en zilverstukken die ze ervoor kreeg altijd wegwierp in de bosrivier achter haar huisje. In deze rivier leefden kikkerachtige beesten die een oude poort achter de rivier bewaakten. Niemand kon ooit over die rivier komen, want een ieder die een poging waagde werd door de kikkerachtige beesten opgeslokt. De kikkerachtige beesten hadden het rozenweefstertje laten weten dat zij al haar geld aan hen moest schenken, anders zouden ze haar en haar zonen komen verscheuren. Zij vraten het geld.

2. De oude poort die ze bewaakten zou naar een geheimzinnig land leiden dat niemand kende. Eens in de zoveel jaren zou er een wachter komen, een veerman, die over de rivier zou komen met een boot, om te kijken of hij iemand zou kunnen meenemen tot achter de poort. Toen het bijna zover was vertelde het rozenweefstertje dit aan haar zonen. Ze sprak dat de wachter bij maanlicht zou komen. Ze wees één van haar zonen aan, en sprak dat als hij in de nacht geluid zou horen als een ruisende storm, dan zou hij naar buiten moeten gaan met het toverspinnenwiel, en bedekt met enige van de rozen, om dan tot de veerman te zeggen : ‘Neem mij mee, ik ben een man van stand,’ en hem dan als geschenk het toverspinnenwiel te geven.

3. Toen het zover was ging de eerste zoon naar buiten, nadat hij zich met enige rozen had bedekt, en het toverspinnenwiel had gepakt. De veerman keek hem aan, en zei : ‘Stap in. Inderdaad ben jij een man van stand. Ik zal je naar het geheimzinnig land achter de oude poort brengen.’

4. De volgende ochtend vroeg het rozenweefstertje aan haar drie zonen wat er was gebeurd. De eerste zoon sprak : ‘Ik heb inderdaad het toverspinnenwiel aan de wachter gegeven, zoals u vroeg. Toen ik in het geheimzinnig land kwam was daar een veld met toverbloemen. Maar ver kwam ik niet. Ik viel in slaap, en toen ik wakker werd was ik weer terug in mijn eigen bed.’ Het rozenweefstertje was erg teleurgesteld, en weer gingen er enkele jaren voorbij. Het toverspinnenwiel had zij niet meer. Toen de komst van de veerman weer naderbij kwam wees ze nu haar tweede zoon aan, en sprak dat als de veerman zou komen hij met hem mee moest gaan. De tweede zoon deed wat hem gevraagd werd, en in de nacht bij het maanlicht, toen er geruis was als een storm stond de jongen op en ging naar buiten. Maar de veerman sprak : ‘Maar een man van stand ben je niet. Waar zijn de rozen waarmee je je moest bedekken, en waar is mijn geschenk ? Ga dan eerst naar de kastelen der koningen om daar wat bijzondere rozen te nemen, en steel bovendien hun grootste schat. Dan zal ik de volgende nacht weer komen.’

5. De volgende dag deed de jongen wat hem gevraagd was, maar in het kasteel van de koning werd hij betrap, en werd in een kerker gegooid. Vanaf nu moest hij onder de grond werken, zoals elke dief die gepakt werd. Elke dag werd hij uit zijn kerker gehaald, om lange reizen onder de grond te maken. De dieven moesten op zoek gaan naar bijzondere stenen.

6. Het rozenweefstertje was erg teleurgesteld dat haar zoon niet meer terugkwam, en zei toen tot haar derde zoon : ‘Wacht jij nu tot de veerman terugkomt om je broer te halen, en zorg ervoor dat je wat van mijn klederen draagt, en schenk hem onze gouden klok.’ De derde zoon deed wat hem gevraagd werd.

7. De volgende dag vroeg het rozenweefstertje aan haar derde zoon wat er was gebeurt. De jongen sprak dat de veerman hem meenam tot het geheimzinnig land. Hij ging door een veld van toverbloemen, maar werd onwel en viel in slaap. Even later werd hij weer wakker, en ging verder in het veld van toverbloemen, en kwam toen bij een rivier van spinnendraad. De jongen zag hier geen veerman, maar er zwom wel een grote vis, en die sprak : ‘Breng me eerst wat parelmoer, van je

rijke broer, die voor de koning werkt, dan kan ik je naar de overkant van de rivier brengen.' Toen werd de jongen gestoken door een spin, en viel in een diepe slaap. De volgende ochtend was hij weer terug in zijn eigen bed.

8. 'Nu,' zei het rozenweefstertje, 'je weet wat je te doen staat. Ga naar het kasteel van de koning, en vraag daar om je broer voor wat parelmoer.' De jongen deed wat hem gezegd werd, en vertrok naar het kasteel. Toen hij bij de kerker van zijn broer aankwam zag hij daar de wonderlijkste stenen, en wat parelmoer. Zijn broer was er niet, want die moest werken onder de grond. De jongen nam één steen mee, voor de veerman, en wat parelmoer voor de vis, en vertrok weer naar huis. Maar de veerman kwam niet meer. Ze moesten wachten totdat hij naar enige jaren weer terug zou komen. Het rozenweefstertje was diep teleurgesteld, en ook de jongen. Maar er zat niets anders op dan te wachten.

9. Maar op een nacht werd de jongen wakker van wat spartelend geluid. De jongen stond op en ging naar buiten. Daar bij de rivier zag hij de vis van de rivier van spinnendraad. 'Heb je het parelmoer gevonden?' vroeg de vis. De jongen knikte blij, en rende naar binnen om het parelmoer te halen. De vis bracht hem helemaal over de rivier tot aan de oude poort. Nu moest de jongen de vis dragen tot aan de rivier van spinnendraad. Gelukkig viel de jongen niet in slaap. Daarna bracht de vis de jongen over de rivier van spinnendraad.

10. De volgende dag wilde het rozenweefstertje haar zonen wekken, maar ze had nog maar één zoon over. Het parelmoer was verdwenen, en zo ging ook de laatst overgebleven zoon wat parelmoer halen in de kerker van zijn broer. Zo gingen er weer enige jaren voorbij, totdat de veerman terugkwam. De jongen droeg wat klederen van zijn moeder en schonk de veerman een steen van de kerker van zijn broer. Toen hij aankwam bij de rivier van spinnendraad en de vis zag gaf hij wat parelmoer aan de vis, en de vis bracht hem naar de overkant. Bij een boom vond hij het gouden toverspinnenwiel van zijn moeder terug, en het toverspinnenwiel sprak: 'Ik ben eindelijk terug in het land waar ik vandaan kom, maar nog steeds betoverd ben ik. Vlug, neem mij op, en draag mij verder in dit land. De jongen raapte het toverspinnenwiel van zijn moeder op, en vroeg waar zijn broer was. 'Daar, achter een rivier dieper in het land,' sprak het toverspinnenwiel. Na een tijdje lopen kwamen ze aan bij een volgende rivier. Deze rivier was geheel van rozendraad. 'Hoe kom ik over deze rivier?' vroeg de jongen.

11. 'Werp mij erin,' zei het toverspinnenwiel van zijn moeder. De jongen deed wat hem gezegd werd, en er ontstond een gouden brug over de rivier, als een regenboog. Zo kwam de jongen over de rivier. Toen de jongen aan de overkant was gekomen verdween de brug, en een lichtende roze gestalte kwam uit de rivier omhoog. Maar de gestalte was als een standbeeld, en kon zich niet goed bewegen. 'Vlug,' sprak de gestalte, 'de betovering is nog niet verbroken. Zoek nu je broer.' En toen zakte de gestalte weer terug in de rivier.

12. Omdat geen van haar zonen terugkeerde besloot het rozenweefstertje zelf de eerstvolgende keer met de veerman mee te gaan. Ze kreeg wat parelmoer en een steen mee vanuit de kerker van haar zoon, maar ook na vele jaren kwam de veerman niet opdagen, en het rozenweefstertje was ten einde raad. Ze mocht haar zoon in de kerker niet spreken, maar toen ze de koning vertelde dat ze vroeger rozen voor hem weefde mocht ze haar zoon even zien. De zoon was erg blij haar te zien, en vertelde haar dat hij ergens diep onder de grond een brug had gevonden naar een toverwereld. Hij vertelde haar dat hij nooit ver kon komen, want in een veld van toverbloemen viel hij telkens in slaap. Maar eens kwam hij daar een lichtende roze gestalte tegen die tot hem sprak dat als hij zijn moeder zou

meenemen, dan zou de gestalte hem wel door het veld heen kunnen brengen. En zo gebeurde het. Het rozenweefsterje ging met haar zoon mee, en bij het veld van toverbloemen aangekomen bracht de gestalte hen erdoorheen. 'Vlug,' zei de gestalte, 'spring in de rivier van spinnendraad.' Het rozenweefsterje en haar zoon deden wat hen gezegd werd.

13. In de dieptes van de rivier ging alles over in rozendraad, en plotseling zwom er ook een andere vrouw naast hen. 'Kom,' zei de vrouw, 'in de dieptes is een plaats waar al jullie geldstukken terecht zijn gekomen die jullie vroeger in de rivier moesten werpen.' En ze kwamen tot een kelder diep in de rivier, waar alles vollag met schatten. Hier vond het rozenweefsterje ook haar andere zonen terug, en ze leefden in rijkdom voor de rest van hun leven.

De Nieuwe Handelingen

1.

De Profetische Zalving

1. En ik zal u het vuur van het tweede vertrouwen geven, opdat uw hart zich aan de Heere hecht. 2. Want er is geen geloof zonder vertrouwen. Maar zalig zijn zij die twijfelen, want zij zullen de Heere zien. En de Heere moest het volk leren dat zijn kinderen door veel twijfel heen zouden moeten gaan om hun zielen te vormen. 3. De Heere weet wat Hij doet. Al wat Hij doet is verricht door engelen. Zijn hand is op u.

4. En ik zag een deur in de hemel opengaan, en het tweede vertrouwen maakte het juk zacht en zoet. En hen die het vertrouwen ontvingen werden diep genezen in hun ziel.

5. En de Heere gaf een tweede hoop, omdat de eerste hoop hongerig maakte. En de heere sprak : Zalig hen die het tweede hebben bereikt. 6. En de tweede hoop maakte de muren van de tweede geest dik. En de Heere gaf de profeten voor zijn aangezicht dubbel gehoor, en hun oren begonnen te suizen, en zij hoorden de wateren van de tweede hemel en de hemelen. 7. En hun tweede geest brak open en werd ruim, en de stem des Heeren vulde de tempel. En zij kregen een nieuwe wapenrusting en hun wandel werd trager en stijver. En zij richtten hun ogen omhoog. 8. En zij konden geesten en krachten breken door hun dubbel gehoor, en zij spraken met de engelen van het tweede. 9. En een zware profetische zalving begon door hun lijven te stromen, en zij voelden zich alsof zij hun evenwicht verloren. En zij begonnen een nieuw evenwicht in de Heere te vinden, en waren enige tijd ziek.

10. En zij die het dubbele gehoor ontvangen zullen enige tijd gekweld worden door angsten, maar zij zullen een vaste en eeuwige rots vinden onder hun voeten. 11. En alleen zij zullen de gave van het tweede oordeel kunnen dragen, en de Heere zal hun tweede geest splijten. 12. Ja, want alleen hen die gebroken zijn van tweede geest zullen de wateren des hemels zien stromen, en zij zullen voortkomen vanuit het tweede Getsemaneh. 13. Zij dragen het lijden van hun Heer diep in hun zielen, en zij kennen de honing en de dauw van Zijn baard.

14. En in de laatste dagen zal de Heere de cobra bezweren, en Hij zal hun een nieuw lichaam geven. En de Heer gooide de tweede geest als een kruik op de grond, en deze spatte kapot, terwijl de cobra's des hemels voortkwamen. 15. En zij droegen de zegels om de oude tijden te verzegelen. Zoek dan ernstig naar het dubbel gehoor, want het zal uw ziel behouden. 16. Zalig hen wiens geesten gebonden zijn in Hem. En zij zijn gebonden in dubbele koorden, opdat zij stand zullen

houden op de heilige bergen, en niet uit Zijn tempelen worden verdreven. 17. Want de Heere toorn in Zijn vurige wagens, en Zijn toorn ontbrandt snel. Kus dan de cobra, opdat Hij u niet verdelgd in Zijn Toorn. Gij zijt genaderd tot het blauwe vuur van een haai. 18. En de tweede Eminius zal zijn zonder medelijden, daar zijn kracht en de wet de zonde genadeloos dient te straffen.

2.

Het Tweede Geweten

1. En de Heere gaf dubbel gevoel aan de allerheiligsten, en zij hadden een zuivere onderscheiding. Ja, het Woord had hun verbroken als een roofdier tot hen uitgezonden, en zij dronken van de zoete wijn des Heeren, de tweede wijn. 2. En de Heere maakte hen groot op de aarde, want zij hadden macht over de roofdieren der mensen. 3. En zij namen de plaatsen der koningen in, want zij hadden de adem van de cobra. 4. En zij konden uit hun lichaam treden om grote werken te verrichten, en zij konden de hemelen scheuren. 5. En zij werden niet meer aangeklaagd door het eerste geweten, want deze was vergaan. Zij hadden nu een tweede geweten, en zij werden behoedt door de Geesten Gods en de tweede engelen. 6. En de cobra ging voor hen uit, en zij droegen schalen tot het allerheiligste. 7. Ja, zij hadden tot taak het allerheiligste te reinigen, en zij hadden zware spiersamentrekkingen, daar zij de dubbele geest diep in hun binnenste droegen. 8. En zij waren apart gezet om allerheiligste verrichtingen te doen, en om het dubbele altaar te heiligen. En zij werden genezen door heftige spiersamentrekkingen, want zij hadden voor lange tijd grote verdrukkingen geleden. En zij waren als de roofdieren des hemels.

3.

kaprunnen

1. Gij dan hebt het lijden tot u getrokken, voor het aangezicht des Heeren. Gij draagt niet boven vermogen. De Heere heeft ook zoetheid bij het lijden gegeven. 2. Komt dan tot de hollen van het kruis, waar de kikker van het kruis speelt. 3. Komt dan tot de vogelen der doornenkroon en tot het konijnenhol, waar konijnen koning zijn. Zij zijn dan koningen van het kruis, kaarten van een nieuwe regen. Zij zijn tot onder het roze gedaald. 4. De bakkerij van het kruis, waar ratten het koren malen tot meel, waar muizen spelen. Het zijn bakkermans gezichten tussen jou en mij, verleden tijden komen dan weer boven. 5. Zo kunnen wij dromen, over de dieren van het kruis. 6. Alleen zij door scherpe doornen doorstoken, worden door het zachte genomen, dalende tot onder het roze. 7. En zij van de zesde dermensie, zij weten allen, wanneer de blaad'ren vallen. Zij kennen de tijden van het lijden, van het klapperen en slaan der deuren. 8. Zij zijn de koningen van de herfst, diep in zoete dromen, waar de hartstochten uit voortkomen. 9. Zij droegen haar tot de put en wierpen haar erin. En zij kwam tot de zesde dermensie. Waar de ovens staan en de zoete bakkers. 10. Het zijn bakkermans gezichten tussen jou en mij, tussen de poorten van het verleden. Kent dan de ovens en putten van het kruis, en weest zalig, al die de mystiek des Heeren kennen. 11. Kent dan alle hollen en nesten. Gij dan hebt de doorn van ijs gevoeld. 12. Gij hebt dan gehoord van de slagerijen van het kruis, u leidende tot de zesde dermensie. 13. De voorwerpen des kruises zijn dan, de kaprunnen. Zo zijn er dan karbulijnen en kaprunnen, in de tijden des Heeren gezien. En ziet dan, de koning der kaprunnen is een muis. Zo zijn er zeven muizen van het kruis die over de tanden waken. 14. Ja, want zonder tanden zou het kruis niet bestaan. Gij dan moest de tand zien, anders zoudt gij Christus nooit leren kennen. 15. Komt dan tot de tanden van het kruis, zonder welken ze er niet zou zijn. 16. Ziet, het geheimenis der kaprunnen is dan in hun tanden.

4.

Het konijnenhuis

1. De geuren van het kruis, wanneer de spin het hart heeft bereikt, om daar te steken, en daar te breken, om het te maken tot een konijnenhuis. 2. Daar waar konijnen wonen, met de parfums van het kruis, vol met zoete dromen. Liefste, ik ben weer thuis. 3. Ze hebben me stijf gespoten, maar ik draag nu de bloemen van het kruis. Als een boom des velds ben ik nu, waar konijnen in wonen, waar raven op landen. 4. Ze hebben me stijf gestoken met angels, lief, maar 'k draag nu de honing van het kruis, naar jou toe stromende. 5. Laten we samen weer gaan spelen, de oorlog is voorbij. Je hebt kaprunnen in je haren, karbulijnen om je vingers, als de sieraden des hemels. 6. Op het reukofferaltaar, zoveel offers voor een reuk. 7. Ze hebben me gestoken, die bijen des hemels, en nu ben ik dan honing van het kruis, driemaal verbroken, driemaal op dezelfde plaats gestoken. 8. Ze schiepen daar een wond in een wond, als een waterig trauma, geen kracht meer om op te komen. 9. En de derde steek was dan om te doden, om mijn ogen te openen. Ze stak mij diep, de zoete spin, en nu stroomt geurige wijn. 10. Het gebak der eeuwen is niet meer te vertrouwen. Steek mij nu, voordat het te laat is. 11. Ziet het bloed is vlees geworden, waar winden tezamen komen, waar harten elkaar verstaan, zo diep gestoken. 12. Vlieg nu met mij mee, naar konijnen in reukwateren, waar vissen zich verblijden, voor elk kruis is er een bloem. 13. Wacht dan wat het kruis zal worden, het is maar zaad van een boer op zijn akker. 14. Voor elk kruis is er een spin, wij hebben zoveel armen. 15. Ziet, de naald is dan een angel geworden, driemaal gestoken, driemaal verbroken, 't zijn insecten van het kruis. Zij kennen allen het konijnenhuis. 16. Zij stak het brood in mij, nu heb ik dan beleg, met radijs en karmozijnen, en het topaas is nu mijn heg. Zij mengde wijn door het meel, vreemde wijn, van een konijnenkasteel. 17. De koning zal het nu wel weten. Maar ik ben alles weer vergeten. Ik leef weer als de oude dag. Klagen over 't lijden, ik kan haar vlag niet zien. Ik ben de canons gevangene, een kruiscanon dat is wat ik kreeg. 18. Ga dan maar door met mij te bespotten, het maakt me allemaal niets meer uit. 19. De konijnenkoning is naar mij op zoek, en als hij mij vindt is je spel uit. Dan is je spel uit. 20. Loop nu maar rond, zeg maar dat ik gek ben geworden. Ik ben liever gek dan jouw slaaf. Ik heb teveel in jouw canon moeten werken, zonder loon zonder een baas. 21. Je liet me sterven in de kou, je maakte van mij een stuk papier, om te dienen in jouw vreemde boeken, en jij was vol van leedplezier. Van leedplezier. 22. Je dierenanon heeft het konijn afgeschoten, ik vond het daar diep in koude sloten. Je hebt me alles nu ontnomen. Zeg, wat wil je nu nog meer ?

5.

1. Kom nu maar bij me, mijn liefste, ik heb het allemaal gezien. Ze hebben je dan opgesloten in een canon. 2. Kom maar hier, mijn liefste. Kom maar bij me, gauw. Ze hebben je opgesloten in een canon, maar ik hield zoveel van jou. 3. Zeg, geloof me, liefste, je bent mijn adem. Je bent mijn heerlijkheid, waar de dag zoveel schreit, ik geef je alles, kom dan liefste. 4. Ik heb alles dan gezegd, je bent weer bij me. Ik breng je zachtjes naar je bed. Ga maar lekker slapen, en vergeet hen die ongeïnteresseerd gapen. Geloof me, liefste, ze krijgen over alles spijt. Ze hebben het konijn afgeschoten, aten zijn vrienden, en gingen elkaar te lijf. 5. Kom maar, lieve schat, ik breng je zachtjes naar je bad. Alles is nu goed, je bent niet meer verloren. Die hel die duurde niet altijd, 't was een leugen van een valse canon. 6. Nu is alles wat we moeten doen, een open canon op te stellen. Onze canon wel te verstaan, waar alle dieren in vrede leven. De konijnenkoning heeft het gedaan. 7. De konijnenkoning heeft het gezien. We hebben nu allen één taal. 8. Ze stak me diep in 't brood, ze vrat me kaal, maar ze gaf me één taal. Ze stak mijn vuurnood, ze gaf mij alles, maar nu is ze dood. 9. Moeder, als ik u nog terug kon halen. Ik begrijp nu wat u deed. Ik heb uw liefde nu in

alle dingen om mij heen gezien. Maar nu is het te laat. 10. 't Graf blijft dicht, u bent er niet meer. Ik regen al mijn tranen op u neer. Ik schrei nog steeds naar al die jaren. Ik miste u pas toen u weg was gegaan. 11. Waren dan mijn ogen gesloten, had ik dan geen liefde voor het kruis. U bent toch altijd goed voor me geweest.

6.

1. Lieve schat, ja jij hoort er ook bij. Je dacht dat ik je was vergeten. je bent nu vrij, de canon is doorstoken, maar kom niet te dichtbij. 2. De beesten brullen, de konijnenkoning is boos. We moeten voorzichtig zijn, 't is beter te vluchten naar het bos. 3. Dat wat zij zien, dat hoeft er niet te zijn. Zij haten het konijn. 4. De beesten brullen, het konijn is boos. Zolang opgesloten in zo'n kleine doos. Nu, na al die jaren komt hij eruit, toe ren voor je leven, zolang het nog kan. 5. Hij zal op zoek gaan naar hen die hem verwondden, hij zal ze eten zoals zij hem eens vonden. Ze zijn geen goede ouders geweest, zij voerden hem aan het beest. 6. Dat wat je dier was had je kind moeten wezen. Maar ik praat slechts tegen een boom. Toe, vlucht, joh, het konijn is nu aan 't dromen, en als hij opstaat is alles te laat. 7. De beesten brullen, het konijn is boos, bozer dan de nacht, zo lang opgesloten in jouw handen. Toe vlucht, anders zullen zij gaan branden. Hij wil al die jaren terug, zal zijn kooi bouwen, en vullen met hen die hem haten. Toe ren, ik kan het niet anders zeggen, anders ben je er geweest. 8. Maar voor allen die het konijn zo lief hebben, hij zal je bereiden zoete rust, het vlees laten eten van al die hem haten, nee, sparen zal hij ze niet. 9. Nu dan, alle wolven des hemels, het konijn heeft voor u een maaltijd bereid, met wijn en zoete zorgen, zacht verdriet na al die jaren van diepe pijn. 10. Uw wonden zullen zachter worden, uw klederen zullen gescheurd zijn, en dan zal hij ze opnieuw naaien, in een nieuwe stijl. 11. Weet dan schat, dit is de laatste keer, dat ik tot je spreek, ze zullen me nu vermoorden. Toe bezoek mijn graf, daar waar de rozen bloeien. Een dag zien we elkaar weer. 12. Treur niet, treur liever om hen. Ween om hen die lachen. Ik ben weer veilig in de dood, hier kwam ik vandaan en ga ik weer naar toe, daar waar het brood belegd is. 13. Waar de raven neerstrijken. Waar de konijnenkoning zijn toevlucht heeft.

7.

1. Kom niet te dichtbij. Ze hebben hem afgevoerd, een konijn achter glas. 2. De jaren zijn verstreken, ik denk nog vaak aan het verleden. We moeten al die graven volgen, al die putten door de geschiedenis heen, waar al onze vrienden zijn gestorven. 3. Toe, je moet er doorheen. Anders zul je eens de dood roepen, maar zij zullen zich van je afkeren. 4. De canon van het leven, heeft de dood afgezworen. Achter spinnenwebben kwamen zij, die ons eens beminden. 5. Spreekt tot de dood, niet in het vlees, maar door de geest. Spreekt tot hen die stierven, zij zijn er nog steeds. Maar spreekt niet tot hen in de tweede dood. 6. Spreekt tot uw geliefden, laat de morgenstond hen raken. Zij zijn er nog steeds, zij waken, maar sommigen slapen. 7. Doet uw levenscanons weg, uit de ogen van God, en laat al die het weten, zich opmaken om de berg des doods te bestijgen, 't is alleen een doorgang tot een and're dermensie. 8. Roept de doden dan niet in uw vlees, maar komt tot hen in de geest, zoals de Christus eens deed. 9. Legt dan al uw christuscanons en diercanons af, want zij zijn een gruwel in Gods ogen. Toe, luistert naar zijn stem. Het hek is nu open, toe, opent de kooi, en laat de vogel weer vliegen. Eet geen vlees, opdat zij uw vlees en ziel niet zullen eten. 10. Weest heilig, wanneer gij komt tot de doden, en spreekt dan niet tot hen van de derde dood. 11. Weest heilig, wanneer gij voor zijn aangezicht verschijnt, op de emelis shatau, beleef het mee met hem, en komt tot de matadok, waar de raven neerstrijken. 12. Spreekt niet tot hen in de vierde dood, ziet, zij rusten. 13. Laat de doden dan slapen, en geeft hen rust, maar spreek met hen die met u willen praten. 14. Zij zijn er voor u, en u bent er voor hen. Komt tot hen in de kooien, en veracht hen niet,

opdat zij ook tot uw kooi komen. 15. De konijnenkoning is daar geweest, stak het brood drie malen, nu stroomt er driemaal honing van het kruis. 16. Volg hem, veracht het verhaal niet meer, zodat u niet meer in uw canon verblijve. 17. Want alle canon leidt tot de dood, maar zalig zij hen die een open canon hebben, en dubbel zalig hen die hun canon in de Heere hebben.

8.

De muizenkoning

1. Gij eet dan honing van de dood, nadat gij driemaal bent gestoken. Neem hen mee tot de velden, en maak hen wijs. Schiet de konijnen niet meer af, en haalt hen uit hun kooien. Geef hen goede beschutting, want zij zijn des Heeren. 2. Oh, als ik je nog terug zou kunnen halen. Je bent er niet meer, in de dood vindt ik je veer. Liefste van mij, je bent niet verloren. Misschien ben ik het wel, wie zit er in een kooi. 3. Is de dood een kooi of juist het leven. De dood is maar een brug, een open deur. 4. Of gaan wij van kooi tot kooi, en wie draagt dan de sleutel ? 5. De konijnenkoning kwam hier. Hij was hier. Hij heeft wat dingen gedaan, en is nu gestorven. Ze hebben hem afgeschoten. Nu is er een nieuwe koning daar. 6. Zij die de muis volgen, weten dat hij daar zit. Maar er zijn ook muizen des hemels, en zij houden van de konijnenkoning. Zij bezoeken hem driemaal in de dood, en dan is het einde gekomen. 7. Driemaal steken zij, in de aarde, en dan zijn alle kooien open, nieuwe kooien, nieuwe sleutels, nieuwe dromen, nieuwe vrijheid, nieuwe angst, en een nieuwe konijnenkoning, met een muizenverstand. 8. Hij heeft een muizenkroon, die andere knelde, die andere maakte hem vroom. Tijd voor een nieuwe religie, de banden der tradities knelden, opgesteld door zotten, met hun harems zopen zij in hun grotten. 9. 't Is nu mooi geweest, 't is nu allemaal afgelopen. De muizenkoning is hier geweest, om de nieuwe kroon te leggen, op het hoofd van hem die droeg, de doornenkroon. 10. Ja, Christus heeft het wel geweten, al die mooie muziek, zakkende in de zeep, tot hij het onder het roze herschiep. Zij zou nog wel graag met hem willen wandelen, om al die mooie stranden te zien. 11. De biggen zijn daar bloot en vuurrood, ze hebben de harem van Christus gezien. 12. Al die vrouwen die hem volgden, en Hij geeft vrouwen aan hen die Hem volgen. 13. Maar oh, verdraait deze woorden niet, in uw onreine breinen, want deze vrouwen zijn kaprunnen, de Geesten Gods die hij in de flessen schiep. 14. Christus komt, in 't blote van een nieuwe bedekking, haren in de zon, Hij draait alles om. 15. De kandelaren der lichaamskanons en liefdeskanons zijn nu uitgeblazen. De muizenkoning was hier. Morgenvroeg zal hij sterven. Zij zullen hem niet aanvaarden. 16. Maar zij die hem zullen volgen, wacht veel geluk en vertier. Hoort dan, al gij dwazen, en verdraait de woorden Gods tot uw eigen verderf. 17. God sprak in dwaasheid tot de wijzen, maar gij hebt het niet verstaan.

9.

1. Gij muizenkoning, waar bent gij dan gebleven ? 'K had nog zoveel tot u te zeggen, nog zoveel te bespreken. 2. Oh muizenkoning, laat mij niet alleen, tussen hen die de Heere haten, tot Hem komen om Hem te verlaten. 3. Gij muizenkoning de lucht is zwart, de parels zijn gemolken. U komt tot allen in grote smart, viermaal gestoken. 4. Ik ben nu van steen, ik ben nu oud en wijs. Ik ben nu van steen, geklommen tot de oude paden. In putten viel ik, in vuren brandde ik, doormidden gesneden, gegeten door hen die tegen mij streden. 5. Viermaal stak u mij, maar nu bent u dood. 6. Ik wacht nu op het avondrood, om u op te wekken, u was mijn laatste hoop. 7. Hebben wij macht over de dood, als wij viermaal zijn gestoken, als bloed tot wijn wordt. Het bloed is vleesgeworden, het heeft onder ons gewoond, maar wij hebben het niet geweten, wij hadden alles vergeten, in de vierde dood. 8. Ik kom tot het morgenrood, om alles terug te draaien, maar ik kan de tijd niet draaien. 9. Ik wacht om

een vijfde keer te worden gestoken. In al die ellende keer ik mij, we ontmoeten elkaar zij aan zij.

10. De konijnenkoning maakt weer woning. Na de muis komt hij weer aan het kruis. Dat heb je met twee hollen, die met elkaar vechten om de doornenkroon. 11. Dat heb je met zoveel vogels, die van strijdtoneelen houden. 12. Zij spinnen daar en borduren daar, de nieuwe klederen van de konijnenkoning, eerst scheuren zij, dan naaien zij, en maken zij in hem woning. En zingen zij, al zijn woorden tot een kroning, maar de stilte is het meest zoete in zijn woning. 13. Heb je daar wel eens over nagedacht, ze wisselen elkaar af, de muis en de konijnenkoning. 14. Ze helpen elkaar, ook duwen zij elkaar, tot de laatste snik, hebben ze van elkaar vernomen.

10.

1. Zij heeft mij vijf keer gestoken, zij heeft mij vijf keer gebroken. 2. Alles deed pijn, maar van het kruis zingt zij, als van zoete dromen. 3. Wij weten niet welke dieren wij raken, wij weten niet welke snaren wij raken, hen die geslagen zijn door het kruis. 4. Wij weten niet welke reukflessen wij openen, na vijfmaal gestoken te zijn. Na de vijfde maal, alles is voorbij. 5. Na de vijfde maal, alles weer één taal, na de vijfde seconde, alles weer verbonden. Het leek wel duizend jaar, maar het was maar een seconde. 6. Als je zo diep gestoken bent, dan beleef je alles anders. 7. Ik ben Golgotha, ik ben Golgotha, ik ben Golgotha, ik ben Golgo - Golgo-tha, oh Heer, ik ben Golgo - Golgo-tha. 8. Ik ben Golgotha, ik ben Golgotha, ik ben Golgo - Golgotha, ik ben Golgotha, ik ben Golgotha, ik ben Golgotha, oh Heer, oh Heer, ik ben Golgo - Golgo-tha. 9. Dwars door de liefde, stroomde het Ware Woord, scheidende de bergen en de dalen, en de stilte was zoeter dan het woord. 10. Dwars door de liefde, liep het rode koord. Alleen Rachab zou behouden worden, door de stilte zoeter dan het woord. 11. Op Golgotha verbleef zij, haar vrienden stonden in de rij, om afgeschoten te worden, maar zij, zij alleen, werd behouden. 12. Zij zijn dan de karmozijnen. Zij die de soep op dienen, deze bakkers gezichten herken ik uit duizenden. 13. Als Pontius Pilatus nog zou leven, zou hij erbij komen staan om te kijken. 14. Brengt mij dan de vijfde Pilatus, voor een karmozijn hielden zij hem. 15. Ik weet niet wat hij met mij heeft gedaan. Verscheurd op Golgotha, tezamen met mijn vrienden, waar alleen Rachab werd behouden. 16. Ik ben niet verliefd, het zijn alleen wat gezichten waar we doorheen moeten. 17. Ik ben niet verliefd, vergeet het niet. Zij zijn van de vierde dood. 18. Ik verbrak het kruis daar op de heuvel, nee, ik was niet verliefd. 19. Ik bracht het tot de karmozijn, zij die van Golgotha zijn. Zij staan er omheen en kijken maar, kijken maar. 20. De deur is kilometers ver, gebracht tot de karmozijnen, hen die van verre staan. 21. Zij dragen hoeden met punten, ik ben tot Golgotha gegaan. 22. Ik ben Golgotha, kraait de haan, maar ik slaap rustig verder. 23. Dit zijn bakker's gezichten. Komt dan allen tot mij, Golgotha, en wordt vrij. 24. Is dit maar een droom, of is het iemands zonde? De vijfde Pilatus brachten zij tot mij. 25. De morgen zal ik niet meer beleven, ik zal sterven in deze nacht. Wacht niet op mij, want ik zal niet wederkeren. Dit is de laatste keer dat ik tot je spreek. Met deze woorden moet je het doen, want daarna zullen ze het canoniseren. 26. Ik ben maar een konijn achter glas. Je kunt hier niet komen, het is mijn doodskist. 27. Dit wat ik hier heb gedaan, dat zullen ze canoniseren, en ze zullen mijn woorden stapsgewijs verdraaien, door hun boeken en hun predikingen. 28. Maar volg mij tot in de dood, en sterf met mij, dan zul je wat beleven. 29. Ook jou en je woorden zullen ze canoniseren. Waar kies je voor? Je kunt ze niet koeioneren. 30. Sterf met mij, en daal af in deze put, dan zullen wij voor eeuwig met elkaar samen zijn. 31. Zij hebben ons voor altijd veroordeeld, alleen een roos gaven zij. 32. Nu staan wij dan stijf en opgezet in het glas, in hun canon. Hun spreekbuizen zijn wij. 33. Oh, zij die alles verdraaien, gij zult zelf verdraaid worden, en niemand zal met u rekenen, hen die op weg zijn naar de vierde dood. 34. Zij zijn daar alles vergeten, en uw naam die kennen ze niet.

11.

1. Hoeveel Golgotha's hebben wij dan nodig - hoeveel karmozijnen - om tot het huis des heeren te gaan ? Zou Hij dan voor hen strijden, die alles opzij hebben gedaan ? 2. Waar het konijn dan met de muis strijdt, ziet, zij zijn slechts karmozijnen. Alles vergetende, de vierde dood betreden. 3. De bakkermans gezichten, vreemde vlinders zijn zij. 4. Ziet hoe ik hier ren met pijnen onder mijn armen, zij willen er brood van bakken, die karmozijnen. Met hun brokaten staan zij daar. 5. En Spricht heeft daar het hoogste woord, met putten onder zijn klauwen. 6. Hoeveel karmozijnen draag jij op je rug ? En jij ? 7. Hoeveel konijnenholen op Golgotha, en hoeveel holen van slangen ? En waar leiden zij naartoe ? 8. Zij branden bakkers daar als kaarsen, hen met de meeste karmozijnen. 9. De bakker heeft het hoogste woord, de pausen staan daaronder. Zij hebben puntige hoeden. 10. Zelfs de vossen hebben holen op Golgotha. Ik ben er niet geweest. Zij dobbelden om zijn klederen. 11. Die dobbelsteen, dat is een ellendig ding geweest, een deur tot de karmozijnen. 12. Wie kan die deur dan breken ? Roodkap of het paradijs ? Ik zag hen daar wenen, want niemand kon het breken. Voor een lange tijd, stonden zij daar. 13. Achter die deur, daar woont een bakker, met zijn karmozijnen bakt hij brood. 14. Hij is de grote karmozijn, de bakker van Golgotha. Spricht met het hoogste woord, de bakker spreekt zijn zegen. 15. In een konijnenhol werd hij groot, hij is daar altijd gebleven. 16. Nooit heeft iemand hem de weg gewezen. Nooit heeft iemand hem verstaan. 17. De bakker van Golgotha, wonende achter hoge deuren. Nooit heeft iemand hem begrepen. 18. Mijn tijd is op, ik moet gaan. Ik heb geen zin in discussies, geen zin om te blijven kijken, als de grote jongens gaan slaan. 19. Als je mij kennen wil, volg mij, ik heb de deur van de dobbelsteen opengebroken. Ik heb de bakker geschapen, ik ben de kleermaker, de grote brokaat. Ik ben de kruistocht, de weg tot Golgotha. 20. Ik heb mijn karmozijnen tot sieraad geregen. Ik ben de lijdensweg, met de sleutelen tot het bestaan.

12.

Onuitgenodigd

1. Ze staan ver weg, zij aan zij, vier op een plein. Vier flessen met nauwe halzen. Ik ben daar en ik ben hier. Ik mis een stukje van mezelf. 2. Ze staan ver weg, vier op een plein, puntmutsen als vier feeën, met bruisende wijn. Ik ken ze niet, ik heb ze nooit eerder gezien, maar die feeën kennen mijn hart, en zij zijn boos. 3. Ik heb hen nooit uitgenodigd voor mijn feesten, maar hoe kon ik ? Ik kende ze niet.

Onbereikbaar

4. Bereiken kan ik ze niet, boos zijn ze, en voelen zich verworpen. Als konijnen achter glas zijn zij, als de kikkerkoning. 5. In een rode streep kwamen zij, en in een rode streep zijn zij weer vertrokken. Zij staan daar op het hoge plein, om de weg tot de kathedraal te blokkeren. 6. In een rode streep kwamen zij, deze konijnenkoningen. Een varkenskonink bracht ons hongersnood, een koeienkonink verbood onze naam, in deze vreemde totempaal. 7. Zoveel dieren gestapeld op elkaar. Zij hebben van honing niet gesproken. Hun woorden jagen ons achterna.

Achter glas

8. Het is een vreemde slagerij, de hokken opgestapeld. Toe, bevrijdt me uit de slavernij. Wij wilden een koning, en het heeft geleid tot deze kroning. Het maakte in ons woning. Achter glas zijn zij, een glazen huis. 9. Ik ben hier en ik ben daar. Ik mis mezelf, kan het niet geloven, de konijnenkoning sprak mijn naam. De hysterie is zoet. Ik heb het mezelf aangedaan. Toon dan het kruis, die vreemde

totempaal. Nooit hebben wij hen uitgenodigd. 10. Zij moesten blijven in hun koningswoningen, en onze hysterien waren als kastelen, als sirenes, verbiedende hun namen uit te spreken. kruisigt hem, die koning, dan kan hij koning zijn, vanuit de hemelen, achter glas. 11. Dan is hij ons niet tot last, en dan kunnen wij slapen. Slapen achter glas, als het sneeuwwit verlaten van haar dromen.

Dierengezichten

12. Het is een vreemde slagerij, de hokken opgestapeld. Een vreemde totempaal brachten zij mij, van anderen ver weg, van anderen verlaten. 13. Kom maar hier, zei ik, je mag mijn konijnenkoning wel zijn, als ik ook koning mag zijn. Ik werd een prins, en zag hun bruisende wijnen, als zacht licht verschijnen. 14. Niemand heeft me ooit verstaan, niemand heeft me ooit begrepen. Ziet, wij hebben dan niet jullie taal, wij praten in fragmenten. 15. Toe, puzzel maar, toe pieker maar, het is okay. Wij worden nooit geloofd, alles wat wij zeggen wordt omgedraaid. 16. Een kikkerkoning maakte in ons woning, alle konijnen achter glas, hij heeft hen reeds bezocht. 17. Zij konden hem niet verdragen, hij sprak een andere taal, als een vreemde totempaal. 18. Ik ben een vreemde totempaal, een vreemde lont, het hete van Spricht, een rode streep dat is mijn naam, een slang die de darmen verbindt aan de schoot, en de schoot aan de aars. 19. Ik ben een vreemde totempaal, zoveel dierengezichten achter een raam.

Onder een Roze Verbond

20. Ze staan ver weg, vier op een plein, vier flessen bruisende van wijn, van konijnenwijn, een kikkerkoning had ervoor gezongen, zijn tong reikt tot de morgen, brekende de kruik, brekende de zorgen, de schaamtes omhullende, van hen die de rode streep gedragen hebben. Zij worden niet geboren, zij leefden daar allang, als achter glas. 21. Ik ben een vreemde totempaal, toe bevrijdt mij uit de slavernij. Zij wilden een koning, het leidde hen tot deze kroning, zoveel jaren achter glas. Als het rode van Spricht, je hoeft je niet voor je tong te schamen. 22. Een koning was hij, als een rode lap was hij, deze rode streep. Onder de roze verbinding werd hij groot, als het hete van Spricht, het lont. Als zwavelstokjes zijn onze pijnen, strijkende worden wij verbrand. Onze haren branden alle kleuren, zevenvoudig gezuiverd zijn zij. 23. Ik ben een vreemde totempaal, een vreemde zwavelstok. Mijn kop staat in brand, een vreemd dier, met zoveel dierengezichten, achter glas. En de rook, uit vreemde konijnenpoten. Ik ben het meisje met de zwavelstokjes. Visioenen geven zij mij, ik ben de rode streep, onder een zacht roze verbinding, een zacht roze verbond, brand ik, als de lont. 24. Rapunzel is mijn naam. Toe, trek je omhoog aan mijn haar. Je zult mijn kop zien branden, en dan zal de toren en het glas in explosie gaan. Onder de Roze Verbinding drijft mijn Naam.

Strijk ons niet

26. Een kikkerkoning op een plein, een maan en een zon als koning, zij zoeken naar hen op de hoge woning. Kinderen hebben hen vaak gemeden, het zachte heeft hen niet gestreeld, te bang om de lont te zien aangaan, de lucifer gestreken. Strijk mij dan niet, onder de zacht brandende vruchten ben ik gegaan. Daar waar het koud is, en alles ver weg. Alles mocht eens ontploffen. 27. Strijk mij dan niet, op oorlog zit ik niet te wachten. Maar luister op een afstand. Mijn woorden kunnen je wel bereiken. Raak mij niet aan, want ik heb pijn. Een vreemde totempaal ben ik, met vreemde lonten, hoofd van een leger van zwavelstokken. Strijk ons niet, toe, doe ons dat niet aan. Wij marcheren in de kou, bang voor het vuur dat ons zal verwoesten. Toe, raak ons niet aan, vreemde totempalen zijn wij. 28. Sterven zullen wij niet, maar wij zullen branden op die dag, waarop de flessen zich zullen openen. Toe, raak ons niet aan. Toe, strijk ons niet, want wij zullen worden gestreken, door iemand die zal weten hoe hij het moet doen. 29. Iemand die geleerd heeft hoe aan te raken, iemand die

geleerd heeft het in liefde te doen. Dan zullen onze haren branden van zachte liefde, in alle kleuren, zevenmaal gezuiverd, met al die bleke lichten in de wind.

De Redding

30. Een koningszoon, een hartendief, één die onze taal kan spreken. Een rode tong, een mysterieus verhaal, wachtende om openbaar te worden. Uit een fles zal hij komen, tot een fles zal hij gaan, en de bruisende wijn zal stromen. Het brandt onder het groene, duizendmaal gezuiverd, Rapunzel is mijn naam. 31. Toe, raak mij niet aan. Ik ben bang, ik ben een rode streep. De lap zal de schaamte bedekken, de rode lap, terwijl hen onder de rode kap hebben gezongen, terwijl hen van de groene kap het hebben verstaan. Zij spreken onze taal, en laten de vruchten zacht branden.

13.

1. Feeen, engelen van God, in oude tijden, kunnen jullie mij vertellen, waar ik heen moet gaan met al die tranen. Alles is in vuur en vlam, alles is in vuur en vlam, fabels kunnen praten, dieren kunnen praten. Je hebt de duik gemaakt, vaarwel. Dieren kunnen haten, tijd om uit te praten. Totale macht in brand, waar de feeen zijn belandt, waar de feeen zijn belandt. Diepere ogenzalf, altijd gedragen, in vele lagen wild verstand. Feeen, engelen van God, verscheurde tranen hebben mij verlaten, om achterstallige schuld te verdraaien. Zij zijn gekleed in kant. Verscheur die feeen, verlaat hen niet, alles is verdriet, alles is verdriet. Worstel met hen, opdat hun woede je niet verbrande. Zolang opgesloten waren zij, in flessen des onheils. Toe, zeg je gebeden nu. Ik heb zelf met hen geworsteld, tot aan de dood toe.

2. Feeen, engelen van God, gevaartes in de onderlagen, uit op wraak, een schone wraak, liederen aaneengeregen. Feeen, maar laat je niet verblinden, zij zijn in alle staten, zij zijn engelen uit vervlogen jaren, te vaak uitgedoofd, bedroefd, en uit de boeken verbannen. Draag je gescheurde kleding nu, anders zullen zij komen om al die dromen van deze tijd te verbannen. Engelen des doods en armoe, toe bedroef de feeen niet, gij hebt een arme juist bespot, en een zieke uitgelachen. Als een zonde des doods is het. Feeen, de armoe van God, tot het oer gekomen, uit vreemde flessen gedronken. Feeen, de tranen van God, als zoet water uit de wonden, stromen zij. Feeen, het oude van God, maar zo jong dat niemand hen kan verstaan, steeds huilen zij.

3. In tijd zullen zij dan alles overnemen, al tijden hebben zij daarvoor gestreden. Wacht dan op hun apocalypse, een nieuwe openbaring, zo oud, een nieuw visioen, zo oud. Wacht dan op hun profetie, en hun wonderen en hun tekenen waarvan je nooit iets wilde weten. Ik heb alles gezien.

De Driesprong

1. In het bos woonde eens een man en een vrouw die een dochttertje hadden. De man en de vrouw maakten vaak ruzie en vaak kon het meisje er niet van slapen. Op een nacht vluchtte ze weg, omdat het lawaai haar erg bang maakte. Lang zwierf ze door het bos, totdat ze uiteindelijk was verdwaald en niet meer wist waar ze was. Uitgeput leunde ze tegen een boom aan, maar viel toen in een gat. Ze viel erg diep, en raakte door de val bewusteloos.

2. Toen ze weer wakker werd zag ze allemaal konijntjes om haar heen, maar toen ze zich bewoog vluchtten alle konijntjes van haar weg. Langzaam stond het meisje op, en vroeg zich af waar ze terecht was gekomen. Ze zag hier allemaal kleine huisjes met lichtjes en hele hoge bomen. Zo hoog had ze de bomen nog nooit gezien. Toen ze in de lucht keek zag ze alleen duisternis, en enkele

stralende sterretjes. Plotseling zag ze één van die sterretjes vallen, en wat verderop tussen de bomen was even later een stralend licht. Voorzichtig liep het meisje op het licht af.

3. Maar naarmate ze dichterbij kwam werd alles weer donker. Hier waren geen kleine huisjes met lichtjes, en al gauw durfde ze niet verder. Ze wilde zich omdraaien, maar ook achter haar was het ineens heel donker.

3. 'Hallo !' riep het meisje. 'Is daar iemand ?'

4. Maar niets en niemand antwoordde. Het meisje was erg moe, en even later viel ze op de grond en kwam in een diepe slaap. Zo moe was ze nog nooit geweest. Even later kreeg ze dromerig om haar heen. Ze zag wat lichtjes om haar heen, met hele kleine spulletjes. Kleine stoeltjes, kleine stofzuigertjes, kleine laarsjes, en nog wat andere spulletjes. Ook zag ze hele kleine piepkleine kaarsjes. 'Waar ben ik ?' vroeg ze. Langzaam stond het meisje op, en keek omhoog waar alles donker was. Wel zag ze in het donker wat wijde schilderijen hangen. Snel kwam ze erachter dat ze in een soort zaal was. Op een hoge troon in het duister zat een konijn. Het konijn zei niks, en het meisje stapte dichterbij, en toen was alles weer weg, en alles was weer pikkedonker.

5. 'Ik weet dat jullie er zijn !' riep het meisje. Maar niets en niemand antwoordde. 'Ik wil niet moeilijk doen,' zei het meisje, 'maar zo ontvang je geen gasten.'

6. 'Gasten, gasten ?' zei een stem. 'Je komt hier zomaar ongevraagd binnenvallen, en je noemt jezelf gast. Ik noem je een indringer.'

7. Het meisje keek naar beneden en zag een konijntje bij haar voet. Het konijntje schopte tegen haar heen aan.

8. 'Zeg, laat dat,' zei het meisje, 'zo gedraag je je niet naar een dame.'

9. 'Nou, ik noem jou geen dame,' zei het konijntje, 'je hebt geen manieren. Je komt hier zomaar ongevraagd binnenvallen, en denkt dat je de koningin bent. Maar goed, ik zal je wel binnenlaten, en dan zul je eens een echte koningin meemaken.'

10. Het konijntje trok aan het jurkje van het meisje, en leidde het meisje naar een klein kamertje waar een konijntje op een troon zat.

11. 'We hebben indringers, koningin,' zei het konijntje.

12. 'Ik weet het, Arend,' zei de konijnenkoningin, 'laat haar hier maar blijven.' Toen vertrok het konijntje.

13. De konijnenkoningin keek het meisje diep aan. 'Dus ... jij komt van de grote mensenwereld,' zei de koningin.

14. 'Eh, ja, majesteit,' zei het meisje, 'maar ik ben zelf nog klein.'

15. 'Oh, maar jij wordt vast ook zo groot,' zei de koningin. 'Maar voor het zover is mag je hier wel blijven. Hier achter mij is een deur, en als je daar doorheen gaat, dan Nu ja, dat zul je zelf wel zien. Je moet gewoon het pad volgen.'

16. Het meisje bedankte de koningin, en ging door de deur, en kwam op een pad terecht. Hele kleine vogeltjes zaten in de struikjes aan de zijkanten van het pad. Het pad straalde en glom door een geheimzinnig licht. Het meisje begon haar reis. Na een tijdje kwam ze op een open plek waar

konijntjes wat spelletjes aan het doen waren. Een paar konijntjes waren aan het hinkelen. Achter de konijntjes waren drie paden.

17. 'Waar moet ik nu naartoe?' vroeg het meisje.

18. 'Waar kom je dan vandaan?' vroegen de konijntjes.

19. Van de koningin, zei het meisje.

20. 'Van de koningin?' vroegen de konijntjes, 'heeft ze dan zelf niet gezegd waar je naartoe moest gaan.'

21. Het meisje schudde haar hoofd. 'Ze zei alleen maar dat ik het pad moest volgen.'

22. 'Ik zou het eerste pad maar niet kiezen,' zei een konijntje, 'want dan kom je bij een heks terecht. Het tweede pad leidt tot het witte kasteel, en het derde pad dat weet niemand. Iedereen valt daar in slaap.'

23. 'Nou,' zei het meisje, 'ik heb lang genoeg geslapen. Ik kies voor het tweede pad.' En zo ging het meisje op weg naar het witte kasteel.

24. Het witte kasteel stond vol met levende pionnen. 'Ik heb jou hier nog nooit gezien,' zei een zwarte pion. 'Ik jou ook niet,' zei het meisje.

25. 'Waar kom je vandaan?' vroeg een rode pion.

26. 'De koningin heeft me gestuurd,' zei het meisje.

27. 'De koningin?' vroegen alle pionnen verwonderd.

28. 'Spring maar op m'n rug,' zei een groene pion. Toen het meisje op de groene pion klom begon de pion te steigeren, en rende toen een trap op van het kasteel, en kwam op een balkon terecht, en rende toen door naar een volgende trap. De groene pion bracht het meisje helemaal tot aan een toren. 'Kijk eens naar buiten,' riep de pion, 'zo kun je het hele land zien.'

29. 'Welk land?' vroeg het meisje. Door het raam zag ze allemaal grasvelden die er als speelborden uitzagen. Het waren wonderlijke tuinen. 'Zo je ziet het, hè,' zei de pion. 'We hebben nog veel te doen.'

30. 'Ja, maar de koningin vertelde me dat ik het pad moest volgen,' zei het meisje.

31. 'Het pad?' vroeg de groene pion. 'Oh, wat stom van me, ik had het kunnen weten.'

32. Toen huppelde de groene pion met het meisje op zijn rug weer helemaal naar beneden, en ging toen via de keuken de achtertuin in. 'Zie je, daar in de verte,' zei de groene pion terwijl hij op wat struikjes achter een groot grasveld wees, 'daar gaat het pad verder. Een goede reis.'

33. En toen zette het meisje haar reis voort, nadat ze van de pion afscheid had genomen. Tussen de struikjes achter het grasveld ging het pad verder. Het pad straalde en glom weer als door een geheimzinnig licht. Maar na een tijdje wandelen kwam het meisje weer bij de konijntjes die spelletjes aan het spelen waren. 'Hier ben ik al geweest,' zei het meisje.

34. 'Dan moet je gewoon een ander pad nemen,' zei één van de konijntjes.

35. 'Maar welk pad?' vroeg het meisje.

36. 'Nou, het eerste of het derde pad,' zei het konijntje.

37. 'Ja maar dan kom ik bij de heks, of val ik in slaap,' zei het meisje.
38. 'Ik kan het ook niet helpen, kies maar,' zei het konijntje.
39. 'Nou, dan kies ik voor het derde pad, want ik begin toch al een beetje moe te worden,' zei het meisje.
40. Langs het derde pad stonden allemaal toverbloemen, en al snel begon het meisje zo moe te worden dat ze niet meer kon blijven staan, en al gauw viel ze in een diepe slaap.
41. 'Ehm, mijn naam is de spin,' zei een dromerige, geheimzinnige stem, 'weet je dat ik altijd win?'
42. 'Nee, dat weet ik niet,' zei het meisje dromerig.
43. 'Nou, dan weet je het nu,' zei de stem weer.
44. Waar ben ik? vroeg het meisje.
45. Toen ze haar ogen opende zag ze bloemen, zoveel bloemen. Overal waren bloemen, en zoveel wonderbaarlijke geuren, zo betoverend.
46. 'Ik zei toch dat ik altijd win,' zei de stem slaperig, 'ik heb je betoverd.'
47. 'Ja maar daar heb ik eigenlijk geen tijd voor,' zei het meisje, 'de koningin heeft me gezegd dat ik het pad moet volgen.'
48. 'De koningin?' zei de stem. 'Dat verandert de zaak, kom maar mee.' En ineens stond het meisje klaarwakker tussen de bloemen. In de verte zag ze een rivier, terwijl beneden bij haar voet een klein spinnetje stond. 'Als de koningin je gestuurd heeft, dan is het in orde,' zei het spinnetje, 'dan hoeven we geen spelletjes te doen.' Toen liep het spinnetje voor haar uit naar de rivier. Over de rivier was een brug waaronder allerlei bootjes met lampjes doorgingen. Het waren kleine bootjes.
49. 'Daar in de verte woont een heks,' zei het spinnetje.
50. 'Oh maar ik dacht dat de heks op het eerste pad woonde,' zei het meisje. Na een tijdje komen ze in de keuken van een groot kasteel aan. Een dienstknecht loopt op het meisje af. 'Hallo, ik ben Andrew,' zegt de bediende. 'Ik verwachtte je al. Laat me je het kasteel rondleiden.'
51. 'Hoe weet u dat ik zou komen,' vroeg het meisje, en het meisje vroeg zich ook af waar het spinnetje ineens was gebleven. 'Het spinnetje zei dat hier een heks woonde,' zei het meisje.
52. 'Ah, je moet niet alles en iedereen geloven,' zei Andrew. 'Hier woont de konijnenkoningin.'
53. 'Maar daar kom ik net vandaan,' zei het meisje, 'en ze heeft me gezegd het pad te volgen.'
54. 'Oh kom dan maar mee,' zei Andrew, en leidde haar naar de achterkant van het kasteel. Hier ging het pad verder. Weer zag het meisje het spinnetje hier, maar het spinnetje was heel ver weg. 'Spinnetje?' riep het meisje. Maar het spinnetje hoorde haar niet. En het pad ging een andere richting op. Het meisje besloot om maar gewoon het pad te volgen.
55. Na een tijdje zag ze wat ijzeren bekertjes op de grond staan, en toen ze dichterbij kwam sprong er een konijntje tevoorschijn. 'Raad eens wat er in deze bekertjes zit?' vroeg het konijn. 'In eentje zit de zee, in de andere zit het bos, en als je van de derde drinkt, dan ben je de klos.'
56. Ja, maar ik wil daar helemaal niet van drinken,' zei het meisje. 'Laat me er langs.'

57. Kies er eentje uit, kies er eentje uit, en waar je dan ook terecht komt, je komt er altijd weer uit, zong het konijntje een paar keer. En word je dan de klos, dan kom je altijd wel weer los, en kom je tot de zee dan is het altijd okay.
58. Maar het meisje wilde er niets van horen, en stampte op de grond. ‘Nu is het afgelopen met die gekheid. Ik moet er nu door, want de koningin’ maar verder kon ze niet komen.
59. ‘De koningin ? De koningin ?’ zei het konijntje. En snel was het konijntje met zijn bekertjes verdwenen, en kon het meisje verder gaan. Na een tijdje kwam het meisje in de duinen, en niet lang daarna zag ze de prachtige oceaan waarin een diepe, felle zon scheen. Het meisje zag het pad helemaal doorlopen tot in de zee. ‘Maar dat kan toch helemaal niet,’ zei het meisje.
60. ‘Jawel hoor,’ zei een stem. Een donkere gestalte stond ineens naast het meisje. Het leek wel een beetje op een zwarte pion op een paard. ‘Ik breng je er wel doorheen,’ zei de pion.
61. ‘Ja, maar hoe dan ?’ vroeg het meisje. Ineens haalde de gestalte een dobbelsteen onder het zadel vandaan. De gestalte gooide de dobbelsteen van de duin op het strand. Op het bovenvlak van de dobbelsteen stond een gestalte als een rode pion. De gestalte was gevleugeld, en stond al snel naast het meisje. ‘Spring maar op mijn rug,’ zei de rode gestalte. En toen het meisje op zijn rug zat steeg de gestalte op. De zwarte gestalte was weer verdwenen. De rode gestalte had een geweer met kogels als dobbelstenen, en als ze door vervelende vogels werden lastiggevalen schoot hij ze met het geweer neer. Na een tijdje kwamen ze op een heuvel aan waar het pad weer verder ging. De rode pion wees in de verte : ‘Zie, daar, waar het glinstert, daar moet je zijn, daar woont de konijnenkoningin.’
62. ‘Maar daar kom ik net vandaan,’ zei het meisje. ‘De koningin zei dat ik het pad moest volgen.’
63. ‘Dat moet een vergissing zijn geweest,’ zei de rode pion, en vertrok.
64. ‘Wacht eens even,’ riep het meisje. ‘Je moet het me uitleggen. Ik begrijp het niet meer.’ Maar de rode pion was al weg. Toen besloot ze het pad maar te volgen tot de glinsteringen in de verte, maar al snel begon het erg donker te worden en koud. ‘Ik moet hier ergens iets vinden om te kunnen schuilen,’ zei het meisje. Het begon ook steeds harder en harder te waaien.
65. ‘Kom hier !’ riep een stem, ‘kom hier,’ bijna gillend. De stem leek op het geluid wanneer haar ouders ruzie maakten. Een konijn op een woonboot riep naar een ander konijn. Het was een woonboot gewoon op de grond. Er was nergens water te bekennen, alleen wat druppels van een beginnende regen. ‘Kom nu binnen !’ riep de stem weer, ‘wil je soms verdrinken ?’ Het meisje zag een wat jonger konijntje stampvoetend naar binnen lopen, in de woonboot. Het andere konijn gaf hem een om z’n oren. Toen ging de deur dicht. Snel begon het natter te worden onder de voeten van het meisje, en werd ze door de wind bijna weggeblazen. Toen ze in de verte keek, kreeg ze de schrik van haar leven. Bulderend hoge golven kwamen op haar af, alsof de oceaan het land wilde opslokken. Zo snel als ze kon rende ze naar de woonboot, maar hoe hard ze ook op het deurtje bonste, niemand deed open.
66. Help me, help me dan toch ! riep het meisje. Het water was al tot haar knieën gekomen, en de razende golven kwamen steeds dichterbij, en groeiden steeds hoger. Al snel was het water tot haar heupen gekomen, en keek ze recht in een kilometers hoge golf die haar elk moment zou kunnen opslokken. Het meisje slaakte een gil. Een raampje naast het deurtje ging open, en een hand greep het meisje vliegensvlug naar binnen.

67. 'Dat was op het nippertje,' zei een konijntje. Het meisje zuchtte diep.
68. 'Dat gebeurt altijd als de koningin kwaad word,' zei het konijntje.
69. 'Waarom wordt ze dan kwaad,' vroeg het meisje.
70. 'Ze kan niet tegen haar verlies met spelletjes,' zei het konijntje.
71. 'Met wie doet ze dan spelletjes ?' vroeg het meisje.
72. 'Met een spin,' zei het konijntje.
73. 'Oh maar ik ken dat spinnetje,' zei het meisje. 'Ik ben dat spinnetje ook tegengekomen, en hij sprak dat hij altijd wint.'
74. 'Hoe weet je dat ?' vroeg het konijn ineens. 'Niemand weet dat, dus waarom zou jij dat weten ?'
75. 'Nou,' legde het meisje uit, 'er waren drie paden. Eerst kwam ik op het tweede pad waar het witte kasteel was, en daarna kwam ik op het derde pad waar iedereen in slaap viel. Hier ben ik hem tegengekomen.'
76. 'Maar dat kan niet,' zei het konijn, 'dat is absoluut onmogelijk. Niemand die op het derde pad komt ontwaakt weer. Zij die daar komen zullen voor eeuwig en altijd slapen.'
77. 'Oh maar ik zei tegen het spinnetje dat ik van de koningin had gehoord dat ik het pad moest volgen,' zei het meisje, 'en toen liet hij me erdoor.'
78. 'De koningin ?' vroeg het konijntje terwijl zijn gezicht groen en geel tegelijk werd. 'Mens allemachtig, heeft de koningin dat tegen jou gezegd ?'
79. Het meisje knikte. 'Oh maar dan zijn wij in heel groot gevaar,' zei het konijntje. 'Als de koningin dat gezegd heeft, dan is ze ergens op uit. Dan daagt ze je uit voor een duel.'
80. 'Een duel ?' vroeg het meisje.
81. 'Ja een duel, een gevecht,' zei het konijn, 'en dan moeten we snel zijn. We moeten direkt naar het kasteel, want daar zit ze op je te wachten voor het spel.'
82. Direct rende het konijn een andere kamer in, en startte de motor. Met volle kracht ging de boot richting het glinsterende kasteel in de verte. Na een tijdje voer het bootje naar binnen. Bij een grote paal diep in het kasteel was een kade waar ze konden uitstappen. Het konijn greep de hand van het meisje en rende samen met haar een grote stenen trap naast een muur op. 'Majesteit, majesteit,' riep het konijn, en toen hij de koningin op de trap tegenkwam, zei hij het wat rustiger : 'Majesteit, ik weet dat we wat laat zijn.'
83. 'Wat, laat ?' zei de koningin, 'helemaal niet laat. Veel te vroeg. Jullie zijn veel te vroeg hier.'
84. 'Maar waarom werd u dan zo boos ?' vroeg het konijn.
85. 'Ach, niks bijzonders,' zei de koningin, 'gewoon een ongelukje.'
86. 'Een ongelukje ?' vroeg het konijn.
87. Ja, zei de koningin, ik liet een pion vallen, en die vloog weg.
88. 'Misschien een rode pion ?' vroeg het konijn.
89. Ja, hoe weet jij dat nu weer, vroeg de koningin een beetje kattig.

90. Nou, ik zag een rode ster naar beneden vallen, maar later dacht ik : het zal wel weer een pion van de koningin zijn, zei het konijn.
91. Ja, lachte de koningin, jaha, dat heb je goed gezien, jongen, en nu vlug wegwezen, want het is nog lang geen tijd.
92. Toen rende het konijn weg. Nu stond het meisje oog in oog met de koningin.
93. En wie ben jij ? vroeg de koningin.
94. 'Eh, ik ben het meisje wat van u gewoon het pad moest volgen,' zei het meisje.
95. Oh ja ? kraste de koningin, nou heus, ik ken je niet.
96. Kijk dan eens beter. Kent u mij echt niet ? vroeg het meisje.
97. Toen deed de koningin een brilletje op, en kwam dichterbij. Eens even kijken, zei de koningin. Er zijn zoveel meisjes die het pad volgen, zei je ?
98. Het meisje knikte.
99. Wacht eens even, zei de koningin. Ben jij langs de drie paden gegaan ?
100. Alleen de tweede en de derde. Ik ben nog niet bij de heks op het eerste pad geweest, zei het meisje.
101. Wat sta je hier dan te staan ? bulderde de koningin. Terug jij !
102. En toen zette het meisje het op een rennen, want de koningin begon verschrikkelijk te bulderen. Het leek alsof haar ouders weer ruzie maakten, erger dan ooit tevoren, en het meisje begon heel hard te huilen.
103. Rennen ! brulde de koningin, ren voor je leven, want ik ontplof, en dan zul je de dobbelstenen zien rollen.
104. Het meisje was al snel omsingeld door een heel leger met dobbelstenen. Er kwam vuur uit hun monden, en de roden waren het ergste. Nog harder begon het meisje te huilen. Toe dan, konijn, help me dan ! riep het meisje hard. Maar het konijn was nergens te bekennen. In de verte zag ze de woonboot, maar die dreef telkens verderweg. Oh, was ik nu maar naar het eerste pad gegaan, zei het meisje. De dobbelstenen zagen er zo dreigend uit.
105. Wat zei je, krijste de koningin, nee, dat kan niet, zei je dat je het derde pad op ben gegaan ?
106. Ja, majesteit, zei het meisje.
107. Iedereen slaapt daar, en niemand staat ooit weer op, zei de koningin.
108. Ja, maar het spinnetje ... zei het meisje
109. Het spinnetje ? krijste de koningin Heeft het spinnetje je erdoor gelaten ? En toen werd de koningin nog kwaaiër.
110. Maar toen ik hem vertelde wat u gezegd had dat ik het pad moest volgen, toen liet hij me erdoor, zei het meisje.
111. Oh, zuchtte de koningin woest, ik kan dat spinnetje niet uitstaan ... Wat heeft hij nog meer gezegd ?

112. 'Dat hij altijd wint,' zei het meisje.

113. En toen werd de koningin wel zo razend dat ze niets meer met de dobbelstenen te maken wilde hebben. 'Uit mijn ogen !' krijste ze tegen de dobbelstenen. 'Niets wil ik nog met spelletjes te maken hebben.' Toen liep ze boos weg, het meisje alleen achterlatend.

114. Even later kwam ze weer terug. 'Zeg, waar kom je eigenlijk vandaan ?' vroeg ze aan het meisje. 'Toch niet uit de grote mensenwereld, hè ?'

115. Ja, zei het meisje, daar kom ik vandaan. Mijn vader en moeder maakten altijd ruzie, en

116. Je hoeft me niets meer te vertellen, zei de koningin, ik begrijp het al. Dan kom je dus van het eerste pad vandaan.

117. Nee, daar ben ik nog niet geweest, daar bij die heks, zei het meisje.

118. Kom maar mee, zei de koningin, dan laat ik het je zien.

119. In een hoge torenkamer aangekomen schonk de koningin thee voor het meisje in, en vroeg het meisje of ze het fijn vond in de grote mensenwereld.

120. Nee, zei het meisje, want niemand begrijpt me, en ze maken altijd ruzie.

121. 'En wat heb je eraan gedaan ?' vroeg de koningin.

122. Ik ben weggelopen, zei het meisje.

123. Dat is het beste wat je kon doen, zei de koningin, zo kon je de heks verslaan.

124. Ja maar ik ben nog helemaal geen heks tegengekomen, zei het meisje.

125. Als dat zo is, zei de koningin, dan zul je terugmoeten naar het eerste pad, en dan zul je het pad gewoon moeten volgen totdat je haar tegen bent gekomen. Of zullen we gewoon een spelletje doen ?

126. De paden heb ik gevolgd, zei het meisje. Laten we nu dan maar een spelletje doen.

127. En zo gebeurde het. Tot diep in de avond deed het meisje spelletjes met de koningin, en ze konden het zo goed met elkaar vinden dat de koningin niet meer boos werd als ze een spelletje verloor. Het meisje beleefde nog vele avonturen met de koningin, maar dat hoor je wel in een ander verhaal.

15.

De Slapende Prinses

1. Er was eens een indiaanse prinses die altijd sliep. In de nacht werd ze altijd heel even wakker om iets te drinken en te eten. Vaak was dat wat thee met vruchten, en daarna sliep ze weer. Soms slaapwandelde ze door de gangen van het kasteel waar ze woonde. Haar vader en moeder waren erg bedroefd, maar zo was de prinses altijd al geweest. Ze zouden wel eens met hun dochter willen spreken, al was het maar voor heel even.

2. Op een nacht was de prinses weer aan het slaapwandelen, en ze wandelde heel diep het bos in. Ze liep altijd op blote voeten met een nachtjapon of pyama. Plotseling stapte ze op een toverring, en werd direkt wakker. Ze was erg verbaasd en deed de ring om haar vinger. Heel lang keek ze ernaar, en ze bleef gewoon wakker. De prinses was erg blij, en rende terug naar het kasteel. Maar toen het

ochtend werd en ze anderen tegenkwam vielen die direkt in slaap. De prinses dacht dat dat door de toverring kwam die ze droeg. En zo was de prinses erg eenzaam, en omdat ze niet nog meer van hen in slaap wilde zien tolleren, vertrok ze weer naar het bos. Na een tijdje lopen kwam ze aan bij een klein huisje waar kabouters leefden. Blij stapten de kabouters naar buiten, alsof ze haar al kenden. 'We dachten dat je nooit zou komen,' zei één van de kabouters. 'Ja,' zei een andere kabouter, 'en, zeg, wij hebben die toverring voor jouw gemaakt, van de zeldzaamste stenen. De stenen die jij op je ring draagt zijn de enigen van hun soort, dus wees er maar erg zuinig op, meisje. Je wil toch niet nog een keer zolang slapen?' De prinses werd erg verlegen. Ze was blij dat de kabouters niet in slaap vielen.

3. En zo mocht de prinses bij de kabouters wonen, en zorgde goed voor hun huisje als de kabouters weg waren om in de mijnen te werken. Maar op een dag kwam er een man met maar één oog bij het huisje. Hij klopte op de deur, en de prinses deed een raampje open.

4. 'Zeg, meisje,' zei de man met maar één oog, 'wat heb jij een prachtige ring. Als je die aan mij geeft, dan geef ik je mijn paard daarvoor in ruil.'

5. 'Maar dan val ik weer in slaap,' zei de prinses.

6. Toen haalde de man ook een ring tevoorschijn. 'Als je deze draagt, dan blijf je niet alleen wakker, maar dan kun je ook vliegen en toveren.' Nu, dat leek de prinses wel wat, want dan zou ze ook wat aan de slapenden van haar land kunnen doen. De ruil was snel gedaan, maar ineens begon de man te lachen, rende weg, en de prinses viel als dood op de grond. Toen de kabouters terugkwamen waren ze erg verdrietig. En ze konden geen andere ring maken met dezelfde krachten, want zulke stenen konden ze nooit meer vinden. Maar ze hadden nog wel een toverfluit waarmee ze de prinses bij volle maan tot leven konden wekken om te dansen. Dan was het weer even feest, maar van hele korte duur. Op een dag toen ze thuiskwamen was ook de toverfluit gestolen. Toen besloten ze de prinses in een kist naar de mijnen te dragen tussen de edelstenen, zodat ze haar altijd bij zich hadden als ze aan het werk waren. En ze vonden dat de prinses hier veilig was. Als ze haar in het huisje zouden laten dan zouden ze veel te bang zijn dat de prinses ook op een dag gestolen zou zijn. Nee, dat zouden hun kabouterharten niet aankunnen. Het was een prachtig gezicht om de prinses zo te zien tussen de edelstenen. De dieren hier zouden wel de wacht over haar houden. Midden in de nacht toen de kabouters weer naar huis waren begonnen ineens enkele edelstenen te fonkelen, zo te fonkelen dat de prinses haar ogen opendeed. Ook haar ogen begonnen te fonkelen. Ze stond op en ging terug naar het kabouterhuisje. De kabouters waren erg verbaasd en blij. Snel gingen ze terug naar de mijnen om de fonkelende edelstenen op te halen.

7. Met de edelstenen versierden ze hun huisje, en voortaan viel een ieder die hen of de prinses kwaad wilden doen in slaap. En de kabouters zongen allemaal: 'Dus kom maar niet te dichtbij als je hier iets wil stelen, kom maar niet dichtbij als je kwaad wil doen, want sluiten zullen je ogen, en niemand zal ooit het licht nog aandoen.'

16.

De Negende Wens

1. Eens leefde er een hebzuchtige prins in een arm land. De prins was zo hebzuchtig dat hij een ander niets gunde, en alles voor zichzelf nam. Toen op een dag een meisje uit zijn rijk spoorloos

verdwenen was ging hij alleen op zoektocht omdat haar ouders erg rijk waren en een hoge beloning zouden schenken aan degene die hun dochter zou terugvinden.

2. Op zijn reis door het woud kwam hij 's avonds laat bij een huisje aan. Toen hij op de deur klopte hoorde hij een krassende stem : 'Ik ben Spindraad. Wie is daar nog zo laat ?'

3. 'Ach, moedertje,' zei de prins. 'Ik zou zo graag even bij u willen kijken of daar ook een meisje van ons rijk is. Zij is spoorloos verdwenen.'

4. 'Ik heb zeven dochters,' zei de oude vrouw. 'Als u even wil kijken. Kom dan maar verder.' De prins stapte naar binnen, en kreeg wat te eten. Ook mocht hij van elke dochter een wens doen. Bij de eerste dochter zei hij : 'Ik zou graag willen dat het koninkrijk omgeven is door een haag met rode bloedbessen, giftig als de zon, om ervoor te zorgen dat niemand zomaar spoorloos kan verdwijnen.' Als tweede wens, bij de tweede dochter, wenste hij dat zijn koninkrijk vol zou zijn met goud, maar alle andere wensen waren hebberig, en hij vergat het spoorloos verdwenen meisje helemaal.

5. 'Omdat je in bijna al je wensen zo hebberig bent geweest,' zei de oude vrouw, 'zul je veranderen in een pad.' En direkt was de prins geen prins meer, maar een pad. In schaamte vertrok de pad. Al gauw kwam hij erachter dat hij ook niet terug kon naar zijn koninkrijk vanwege de dichte haag met giftige rode bloedbessen. Maar eens in een nacht zag hij een meisje baden in een bosmeertje. Hij zwom direkt naar haar toe, en vertelde haar wat er was gebeurd. Het bleek het spoorloos verdwenen meisje te zijn. Maar ze leek sprekend op één van de dochters van de oude vrouw.

6. 'Ik ben gevlucht,' zei het meisje, 'vanwege het harde werk dat ik in uw koninkrijk moest verrichten. Ik kwam bij de oude vrouw en werd als één van haar dochters. Zij liet mij zacht werk verrichten, en ik mocht wensen laten uitkomen.'

7. 'Maar waarom ben je daar dan niet gebleven ?' vroeg de pad.

8. 'Omdat de oude vrouw aan het einde van de wensen altijd haar eigen wens uitspreekt,' sprak het meisje. 'Sinds ik gevlucht ben, ben ik de enige die haar boze wensen ongedaan kan maken. Ik was altijd de achtste wens, en zij altijd de laatste, de negende.'

9. En zo deed de pad zijn wens bij het meisje om weer een prins te worden.

De Nieuwe Handelingen II

1.

De aanstelling van de tweede Mozes

1. En de Heer zat in de hemel met zijn pythons en de slangen des hemels. En de Heere sprak tot de tweede staf van Mozes, en sprak recht. En de Heere opende met deze staf de dodenrijken van de eerste drie utmiren, de tijden des heeren, en er was een grote oogst. 2. En de Heere bracht het tweede kruis tot de tweede ark. En de Heere wilde dat zo de tweede geest van de mens zou zijn. En er kwam kracht vanuit het tweede kruis, en de Heere stelde zijn economie op. Gij die van de honger hebt gegeten, tezamen met de Heer, zal handel kunnen doen in de hemelen. En het tweede bloed des Heeren kwam vrij om in ruime aderen te stromen, en de pythons dienden Hem. 3. En de Heere zag dat het goed was, de hof die hij aan de mens had gegeven. En de Heere sprak aldus deze woorden : Laten tweede engelen en de cherubs van het tweede de hof bewaken en besproeien. En zij droegen

een hemels zwaard van het tweede, een mystiek zwaard vol van geheimenissen. 4. En niemand kon de hof binnenkomen dan hen die de Heere had aangesteld. 5. En zij waren in het blauw terwijl heilige winden waaiden. 6. En warmte kwam over de hof en de Heere zegende die. 7. En de tweede Mozes kwam om zich voor te stellen bij de Heere. En toen hij voor het aangezicht des Heeren stond brulde de Heere als een leeuw. En de zalving viel op de tweede Mozes, een zalving groter dan het oude verbond. En de Heere stelde de tweede Mozes aan om te regeren over de gewesten van de tweede hel. En deze hel was zo verschrikkelijk dat engelen beefden en verschrikt raakten.

De roeping van de tweede Simson

8. En de Heere riep de tweede Simson tot Zich en gaf hem een purperen gewaad. Ook gaf de Heere hem een beker die vol was van de tweede toorn. En de Heere zond de tweede Simson als een arend tot de aarde om haar te oordelen. 9. En zijn engelen waren velen, en de slachtingen die ze op de aarde verrichten waren groot. 10. En de engelen weenden om de krachten die loskwamen. 11. En toen sprak de Heere tot de tweede Simson : 'Ik geef u de macht over het tweede dodenrijk, en de machten der hel kunnen haar poorten niet verbreken.' En de macht van het tweede dodenrijk was groot, en in haar bevonden zich de tweede sjeool en de tweede hades, en gebeden konden haar werkingen niet verhinderen. 12. En de Heere sprak met luide stem : En dit verbond met de dood is groot als de dood van de tweede Christus. 13. En een tweede graf kwam opzetten als het geluid van bijenstormen zoemend tot de hemel en de duisternissen, en dit graf was groter dan de eerste. 14. En de Heere sprak : Ziet dan de vloek van honger, waar honing binnenin groeit bewaakt door de bijen des hemels. 15. En het was de Heere die de tweede Christus zond tot het kruis van honger, en na enkele dagen was er grote zaligheid. 16. En de Heere bracht de honing in een kruik tot de tweede ark en sprak : Zo wil ik dat de tweede geest zal zijn. 17. En de Heere brak het brood om het over de hoeken der aarde te verdelen, maar een engel des tweede satans stond ineens voor Hem. En de Heere sprak : Lang zijn de werkingen des geestes tegengehouden.

Het oordeel over de dansers

18. En de Heere sprak tot zijn engelen : Brengt nu de tweede David voor Mijn Aangezicht. En toen sprak de Heere : Zijn Lichaam zal mijn tempel wezen. 19. En hij zond de tweede David naar de aarde om zijn tempel te bouwen. En de Heere stelde hem aan om de heiligen te hoeden. 20. En zij werden genoemd de tweede christenen. En hij zong psalmen tot de hemel, met het tweede woord in zijn hand. 21. En de dansers van het eerste verbond werden voor de Heere gehaald, en kregen een vervloeking op hun hoofd, omdat zij de cobra des Heeren tegengehouden hadden. En zij hadden vele boze geesten. 22. Zij hadden als heer over hen de tweede slang. En zij hadden vele heiligen tot onreinheden en gruwelijkheden geleid. 23. En de Heere sloeg hen, zeggende dat ze geen deel zouden hebben aan de tweede Christus, want hun zonden hadden zich opgehoopt tot de hemelen, en ze hadden vele kindekens geblokkeerd om in te gaan. 24. En er kwam vuur uit de mond en het aangezicht van de tweede David om hen te verteren, en hun volgelingen hielden zich schuil in het tweede sodom en het tweede babylon.

De Strijd om het lichaam van de Tweede Christus

25. En de engel Sarsia de tweede raakte in gevecht over het lichaam van de tweede Christus dat door de dansers en hun volgelingen was verkracht. En zij had tegenover zich staan de tweede satan, de tweede slang en hun zonen. En de tweede Metensia kwam haar ten hulp, en met de slangen des hemels brachten zij het lichaam tot het tweede graf. 26. En zijn discipelen weenden voor veertig dagen en nachten bij zijn graf, en hun tranen werden hem tot sieraden. En na deze veertig dagen

stond hij op en weende. 27. En heilige vrouwen der aarde volgden hem, terwijl hij het tweede evangelie begon te verkondigen. 28. Ken dan de krachten van het tweede graf, en hebt dan deel aan zijn lichaam. 29. En het tweede avondmaal werd ingesteld tot zaliging van hen die weenden. 30. En de tweede Salomo verscheen aan Hem om hem schatten te brengen. En de Heere zag dat het goed was en gaf Zijn Zegen. 31. Laat dan de tweede farao uw lichamen niet tegenhouden in de ketel des Heeren, en doe dan een beroep op de heilige plagen om geheel vrij te komen van het zwaard der onderdrukking. 32. Laat dan uw lichamen u niet leiden tot onreinheden, maar vlucht tot de tweede geest waaruit een nieuw rein lichaam zal voortkomen, gemaakt om in de tempel te dienen van het tweede woord. 33. En de Heere bracht gezag tot de apostelen van de tweede gemeente, en het tweede woord begon te zingen in hun hoofden.

2.

Oude religies en het Grote Spanje

1. Gij dan zijt geen koopwaar, daar de Heer u heeft bevrijd uit de slavernij. Het hart der zonde klopt in het kopen en verkopen. Gij nu hebt heilige voorschriften ontvangen over de economie des Heeren
2. Gij weet ook dat de walvissen des hemels zullen komen om het grote spanje te veroordelen. Laat dit troost geven aan uw ziel, hen die in de verdrukking werken. De Heere heeft uw tranen gezien.
3. De Heere hecht Zich met Zijn Geest aan uw verstand om het te behoeden. De Heere wil graag dat gij de geheimenissen kent. De Heere schiep de dieren en het geboomte om de verschillende delen van het lichaam aan te tonen. Gij die dan één dezer schepselen lastig valt, ziet toe dat uw lichaam uiteen valt.
4. De Heere laat niet met Zich spotten. Dit zijn de laatsten der dagen. Geeft daarom nauwgezet acht aan zijn woorden, opdat zij u niet verslinden.
5. Welaan gij spotters, en gij die aan uw ouders ongehoorzaam zijt, de Heere zal u drijven tot het Grote Spanje, tot de verzamelplaats der geesten, en daar zal de Heere u slaan.
6. Dit zijn de woorden van de tweede Luther, tot een tweede reformatie. Die reformatie zal zijn : het afbreken van de geestemarkt, het onder het oordeel brengen van hen die vlees eten, en het brengen van het tweede Woord tot een Eeuwig Evangelie, zoals de profeet Johannes dit op Patmos zag.
7. Deze dagen zijn nu gekomen. Zij die niet wenen om de zonden zullen geen deel hebben aan het teken Gods dat de harten in de verdrukking zal behoeden. Zij die het teken der beesten dragen zijn reeds overgeleverd aan de wildernis der tijden.
8. Wij zullen de tempelen van Metensia openen, en die van de andere Geesten Gods en de tweede Geesten Gods. Gij dan zult de Heere kennen. Het tweede altaar zal hersteld worden, en er zullen geen onschuldigen geofferd mogen worden. De Heere zal een vloek leggen op de woorden van hen die dieren en mensenkinderen hebben geofferd.
9. Deze religies kwamen voort uit een duister tijdperk waar de tijden jong en verward waren, waar wildernissen kwamen tot de tempelen Gods, en waar bergen huisden.

3.

Geen aards altaar

1. De Heere heeft u tot hiertoe gebracht, en zal Zijn tempelen openen, zodat de winden van het tweede Woord over de aardbodem zullen waaien.
2. Gij dan die aan ketenen ligt, gij zijt vrij in uw binnenste. Gij dan die geen binnenste hebt, hoe te betreuren zijt gij.
3. Gij dan die de altaren van ijs bereikt hebben, offert uw aanverwanten en relaties, opdat gij in kunt gaan door de poorten van Zetdonia.
4. Laat er dan onderscheid wezen tussen de altaren des hemels, en laat het altaar zijn tot zuivering en overdracht.
5. De Heere dan zal zeven allerheiligste tijdperken inzetten om het altaar te herstellen, en de Heere zal uitroeien de altaren van de aarde.
6. De Christus moest sterven aan het hout, maar vervloekt is degene door wie het geschiedde. Zo heeft dan het aardse altaar priesters verbonden tot zonde tegen Christus, en daarom is dat verbond niet verre van de verwijdering.
7. Hecht u dan niet aan duistere schaduwen van een tempel die komen gaat. Zij bestonden om voorbij te gaan, en om hoofden omhoog te richten.
8. Rekent dan af met uw duister verleden en een duister voorgeslacht.

4.

Aanvaarding van het IJs

1. Gij hebt dan gehoord van verbrande heksen en martelaren om hun geloof of liefde voor de natuur. Weet dan dat ik hun littekenen in mijn lichaam en ziel draag. 2. Meent gij dan uw broeder te verketteren zonder de hand aan uzelf te slaan ? Vervloekt zijt gij, oh verachtelijk mens. 3. Denkt dan niet dat God u niet zal aanklagen. 4. Degene dan die liefde heeft voor de natuur, heeft liefde voor God en heeft de ganse wet vervuld. 5. Noemt gij dan een heks een ieder die de natuur liefheeft ? Zeer te bespotten zijt gij. 6. Het Woord Gods zal komen als ijs, om hun graven te openen. 7. Aanvaardt dan het ijs in uw leven.

5.

Over kinderlijkheid

1. De Tweede Paulus aan hen die in Spricht zijn en het tweede Spricht. Zalig zijt gij en gezegend in de Heere, broeders en zusters, gij die de dieren des hemels aanhangt. Gij hebt reeds hun merktekenen op uw rug. Ja, de Heere geeft hen u in uw slaap. Zalig hen met grote verzamelingen, zij die als een ark vol zijn van de dieren en beesten des hemels. 2. Raak het zalige aan, ja, het is voor u, allen die de Heere zoeken. 3. U hebt dan groot geluk opgeraapt, en de golven van Kabbernal zijn over u. Gij waart in de gouden bossen des Heeren en gij zag Zijn distels daar in het bittere land. Nu zijt gij dan vol van Glorie. 4. Gij allen weet dat spreken als zwemmen is in de bosrivieren des Heeren. 5. Gij zijt aangekomen in een vruchtbaar land. De heere is verrukt over uwen zachtmoedigheid, en gij hebt zeer zeker zijn hart vertroost en versterkt. 6. Ja, gij hebt Hem aangemoedigd als een ridder, gij die de rozenkoeken des Heeren eet en uitdeelt. 7. Grote sterkte zal tot u komen in de burcht van Kabbernal. En gij zult uzelf voelen als iemand die oude vrienden weervindt. 8. Komt dan tot de grotten des heeren en luistert naar zijn stem, Hij die Zijn engel Torio heeft gezonden. 9. En Hij zal nieuwe woorden bevestigen aan uw hart, en zij zullen zijn als tekenen

en verademingen op de weg die gij begaat. 10. Zalig hen die genaderd zijn tot Spricht en staan in de tempelpoorten des Heeren. 11. De heere heeft u tranen van genezing gebracht, ja, gij hebt benen van licht om elkaar te genezen. En deze lichten zijn zacht en waterig. 12. Zalig hen die tot de geheimenissen van Spricht zijn ingegaan. 13. De Heere toont hier zijn luister, de Heere toont hier zijn macht, geworteld in zijn gronden en gewrocht in zijn hemelen. 14. Zijn aangezicht geweven door zachte lijnen, komende van de weerspiegelingen van het tweede kruis, waarin gij allen zo diep met elkaar verbonden zijn tot tranens toe. 15. Mengt dan elkanders tranen en gij zult de tranen des Heeren zien, de zalige baden van genezing, waartoe zijn engel Torio telkens nederdaalt. 16. En gij drinkt van de traan, en gij kunt ademen. De Heere heeft u leven gegeven, om zachte dieren te bemerken. 17. Ja Hij mengde het licht met duisternis, en nu is het zacht voor uw ogen. 18. Het Woord des Heeren is sterk. 19. Welzalig hen die genaderd zijn tot Gods velden door Spricht, die Zijn troon daar hebben zien staan, de kroon van het Tweede Heil. 20. Streeft dan naar het Tweede Spricht, en houdt hen vast, allen die daar wonen. Gemeente Gods, zo diep levende in de wildernis, bij de adem Gods. 21. Tot hen die in de poorten staan : Nu vangen dan nieuwe dagen aan, zoveel wijn in tranen, Gods glimlach is zoet en recht. 22. Tot de kindekens zou Hij komen, hen die de kaarsjes hebben bewaard tot in de nachten. 23. Zij hebben een maagdelijk verstand, en hun gevoel is rein. Zij hebben ijs geschept uit de waterbronnen des Heeren. 24. De Heere doe Zijn Aangezicht over u lichten. Vrede en Genade zij u. Rust fijn.

6.

De wortelen des geestes

1. Gegroet hen in het tweede Korinthe. Wanneer dan het eerste Korinthe de verwijdering nadert, dan zal de Heere alleen Rachab redden. 2. Groet hen die in de verdrukking zijn. De Tweede Paulus en de tweede Sostenes, beiden apostelen en anfitaten van de tweede Christus om uw zielen te zaligen, aan allen die in het tweede Korinthe zijn. 3. Genade zij u en vrede van God onze Vader, en de Tweede Christus door Hem voor deze tijden gezonden. Laat u dan zaligen in Hem. 4. Zalig zij die gekomen zijn tot het tweede, groet dan ook uw broeders en zusters in het tweede, welke de Heere in Zijn Wijsheid door de Tweede Geest verbonden heeft. 5. Ziet dan toe dat gij het Tweede niet veracht, en bidt dan ook voor alle gemeentes in het tweede, want de eersten zijn niet verre van de verwijdering. 6. Zijn wij dan als honden die weer naar hun braaksel terugkeren ? Zeker niet. Gij zijt volwassen geworden in de Heere, en zo zijn dan de overleggingen van het eerste voorbijgegaan. 7. Weet dan dat de wildernissen des Heeren ordelijker zijn dan de orde der wereld. 8. Gij hebt dan gehoord van de tweede gaven en vruchten des Geestes. Gij hebt dan ook Eminus leren liefhebben, de Naam des Geestes. 9. Leert dan alle namen kennen. 10. Ook hebt gij gehoord van de wortelen des Geestes en de schillen. Laat dan een ieder blijven in zijn eigen schil, door de Heere aangemeten en gewogen. 11. Ik dank God te allen tijde over u, daar gij de wortel van ijs hebt laten groeien, want zo zijt gij in elk opzicht rijk geworden in Hem. 12. Ook hebt gij uw wortel van stilte laten zuiveren, waarover ik had gesproken toen ik bij u was dat hen die dat niet zouden doen onder het oordeel zouden komen. 13. Ook hebt gij geluisterd door de wortel van het lijden te heiligen.

Vertroosting en Dankzegging

14. Gij hebt de schillen der bedieningen rijkelijk over de gemeente gelegd, en daardoor zijt ge zalig. Ja, gij hebt waarlijk de zonen Gods van gereedschap voorzien, en uw huizen goed ingericht. 15. Daarom hoeve ook niemand onder u enig gebrek te lijden. En al zij daar gebreken, dan zullen wij dat door de Geest Gods aanvullen. 16. Gij hebt ons dan ontvangen als ware apostelen, nadat gij ons

zevenvoudig getoetst hebt. Hierdoor rust de zegen Gods op u. 17. Gij hebt dan waarlijk de tempel Gods en het altaar van gerei voorzien, en de heiligen goed toegerust. Ook hierin dank ik de Heere om u. 18. De Heere zal uw gaven van vuur en ijs aansterken, daar u zijn wortelen draagt, en de schillen niet veracht hebt. 19. Ja, gij hebt uw zonen gebracht tot Spricht, en zij zijn waarlijk zonen des Heeren geworden. 20. Gij hebt uw dochters gebracht tot Zetdonia, en hen de klederen van het heil gegeven. 21. Gij zijt rein geweest op heilige bergen, en niet de Heere tot een vloek geworden. Gij hebt waarlijk troost gebracht aan het hart des heeren, door tienvoudig te wandelen en te handelen in Zijn Wet. 22. Ja, gij hebt de wetten van het Tweede om uw polsen gebonden, en gij hebt uw kinderen er zwaar mee getuchtigd. Zo hebt gij uw zielen behouden in de Toorn des Heeren. 23. Laat dan niemand u oordelen, want gij hebt in liefde gehandeld, oh vervolgde gemeente Gods. 24. De Heere heeft Zijn hand op u gelegd. Zalig zij hen die u zaligen, en vervloekt zij hen die u vervloeken. Ja, zij zullen aan het tienvoudige zwaard ten onder gaan, hen die u haten. 25. Want zij haten u omdat gij de geboden des Heeren bewaart in vrezen en beven. 26. Zij zullen in Spricht ten onder gaan, zij die om u gelachen hebben. Maar zalig zijn zij die met u geweest hebben. En zij zullen door Spricht tot behoudenis gerekend worden. En zij allen zijn onder de hoede van Zijn engel Torio.

7.

Het tweede ijs

1. Ja, de Heere zal u gaven schenken in de nacht, gij die zijn wortelen bemint. Gij dan kent de lusten des Heeren, en zijt daarmee begiftigd in uw binnenste. 2. Gij die dan de poorten van de tweede geest bent daargegaan : Gij hebt een eeuwig evangelie aanschouwd en gij zijt heilig. Uw beenderen zullen niet door de leeuwen verbroken worden. 3. Komt dan tot de kast des Heeren, en de Heere zal u nieuw gerei schenken om Zijn heiligen mee toe te rusten. 4. Ja, als de smid des Heeren heeft Hij u opgesteld, hen die zijn hart beminnen. 5. De Heere heeft u laten leven in tweede vreze, en ziet, gij zijt zalig geworden, dragende de lusten des Heeren. 6. Gij droeg dan voor lang het tweede geweten, en de Heere heeft het gezegend. 7. Nu dan, gij zijt rein, en gij behoort tot de heerlijkheden Gods. Behoort dan tot de jaguars des hemels. 8. Gij bent dan meester geweest zonder pijlpunten, en gij hebt u afgezonderd gehouden. Ja, u bent geheiligd. Ja, u bent anders. Gij zijt vreemdelingen in de wereld geweest, maar gekend bij God. 9. Zoekt daarom troost bij elkaar en leert elkander over het ijs des Heeren en het tweede ijs. 10. Zo zult gij de wet vervullen. 11. Laat dan niemand u gering achten om uw onderlinge samenkomst, want de Heere is geduldig. 12. Wanneer gij dan samenkomt in ijs : Ziet dan, gij zijt dienaren van het Tweede. 13. Predikt dan het evangelie van het Tweede aan de ganse schepping, opdat gij ijs zult scheppen van de hemelen. Zo zult gij de grote verdrukkingen breken. 14. Driemaal zal de Heere u dan breken, en zalig hen die de verbrekingen als zaligheid achten. Gij bent dan niet ver van de Tweede Lusten des Heeren. 15. Gij dan hebt van Zijn doornenkroon een koningskroon gevlochten. Gij hebt dan van zijn spotkleed een koningskleed gemaakt. Ja, zalig hen die scheuren, want zij zullen scheppers en schenkers van wijn genoemd worden. 16. Gij dan drinkt de wijn des Heeren.

8.

De mystiek des Heeren

1. Gij dan die in het tweede Rome zijt, en de gemeente Gods aanhangt : De Heere leidde u tot de Emelis Shatau. Genade zij met u. 2. Ziet dan toe dat gij niet valle, gij die meent te staan, want de leeuwen Gods zijn velen, uitgezonden om de heiligen te testen. 3. Want velen zullen struikelen,

opdat onder hen zuivering worde aangebracht. En dit is een groot geheimenis des Heeren. 4. Weest dan waarlijk als tweede Romeinen, want God roept u. 5. Hij heeft u de kanalen van Zijn Geest laten zien. 6. Laat uw hart dan niet teveel gericht zijn op dogmatiek en een wirwar van wijze woorden, maar richt uzelf op de mystiek des Heeren, en laat uw hart in het verborgene zijn. Dan zult gij uzelf rein houden in de Dag des oordeels. 7. Maar velen onder u zijn opgeblazen, en ik vrees dat ik me voor enkelen onder hen tevergeefs heb ingespannen. 8. Laat dan niemand onder u dwalen. Er is geen einde aan de Wijsheid des Heeren, maar Zijn Dwaze is veel sterker. 9. Oh, onverstandigen, wie heeft u toch zo betoverd dat gij meent zalig te worden door strakke registers en oeverloos onderwijs ? Gij dan hebt de Slaap des Heeren veracht, en hebt molenstenen op uw kinderen gelegd. 10. Maar toch zullen zij onder het juk zalig worden, daar zij het juk des heeren dragen. 11. Ziet dan toe, dat de Heere u niet verbrijzele tezamen met het juk. 12. Maakt dan uw zonen tot profeten des Heeren, en laat hen slapen. 13. Tuchtigt hen echter in de Heere, want de Heere haat een tuchteloos hart. 14. En wie dan meent goed onderwijs te hebben, laat u door de Heere onderwijzen. 15. Legt dan uw zware klederen af, en kom in naaktheid tot het verborgene des heeren, waar gij zuiver bedekt zult worden door Zijn wateren. 16. Zij die Zich niet verlustigen in het verborgene en de geheimenissen Gods zullen door het komende vuur ten onder gaan. Zij hadden geen ijs in hun lantaarns. 17. Onderhoudt dan uw ijs, opdat de Heere niet tot u kome met de ban. 18. Want snel ontbrandt zijn toorn tot hen die zich niet met het ijs inlaten. Het ijs is dan het jaloerse van God. 19. En wie dan meent waarlijk voedsel gegeten te hebben. Laat hem komen tot het altaar en het voedsel des Heeren eten. 20. Richt uw hutten dan in met de vreze des Heeren.

9.

Over Naaktheid en bedekking

1. Alles komt op zijn tijd. De Heere is goed. Laat uw wijsheid dan niet uw hart verbrijzelen, maar geeft acht op de tijden des Heeren. Leert zijn seizoenen kennen en veracht de balansen niet. 2. Anders zal de Heere tot u komen en zeggen dat gij Zijn Geest hebt gegeten. 3. Meet dan met goede maat, en weeg met zuivere gewichten, anders zal de Heere het gerei terughalen, en gij zult zijn als een naakte in volle stad. 4. Zalig hen die naakt in het verborgene zijn, want zij hebben de Geest des Heeren tot hun bedekking. 5. Gij hebt dan ook enkelen onder u die zeggen Jood te zijn, maar het niet zijn. Bekeert u dan van uw werken, en hangt de Heere aan. 6. Bromt en mokt dan niet tegen elkaar, over welke het oordeel des Heeren valt. Wie toorn, toorne in de Heere. 7. Veroordeelt elkander dan niet, maar verdraag elkanders zwakheden. Laat dan uw sterkte geen zwakheid zijn, maar hangt de Heere aan, die bepaalt wat zwakheid en sterkte is. 8. Want het zwakke des Heeren is sterkte. 9. Hebt dan een zuiver oog, anders zal de Heere het wegnemen. 10. Hen die hun oog zuiver hebben gehouden : De Heere zal u nog een oog schenken, en het planten als een parel des Heeren op uw voorhoofd. 11. Zalig hen dan die vol ogen zijn, want zij waken over uw ziel. 12. Aan allen die zich in het tweede Rome bevinden : Voedert de vogelen des hemels, want zij hebben u voedsel gebracht. 13. Geeft hen te eten die hongeren, want zij mochten eens hongeren om u. Door zo te doen zult gij uw zielen behouden. 14. De Heere haat hen die voor zichzelf eten. Heeft de Heere u geen voedsel gebracht om u tot de ander te zenden ? Verspilt uw voedsel dan niet aan de wereld, want dan zal de Heere u zeker met de ban slaan. 15. Ziet dan, de Rechter des hemels staat aan de deur en klopt.

10.

De engel Troy

1. Heilig, heilig is de Heere die de heiligen draagt, tot aan de zeeën van Metensia. Hij geeft haar het hare. Hij die troont op cherubs van het tweede, waar seraphs tot Zijn ark zijn gegaan. 2. En geen tronen, geen machten, geen stemmen en geen liederen kunnen u scheiden van de Heere die Eeuwig is. 3. Hij troont op de Emelis Shatau, de tepel van genade, tot allen die Hem genade gaven. 4. Wie Zijn Geest heeft gedooft mag niet komen tot Zijn troon. Blijft dan op de Emelis Shatau. 5. Sta vast in Zijn werk, bouw Zijn tempel op het heil. Zijn grote genade is bij hen die genade gaven. 6. Maar hen die genade verspilden, mogen niet komen tot Zijn Heil'ge berg, voor de zonde is dan geen genade. Zuiv're genaa is gebouwd op Zijn werk. 7. Genaa is slechts bevestiging, als zegels van de Emelis Shatau. Hen die niet werken hebben geen deel aan de genade. Zij kennen het niet. 8. Zij die genade verdraaien, storten af van de bergen, van de Emelis Shatau. 9. Kent dan Zijn engel Troy, met zoveel liederen, op de Emelis Shatau. 10. De stemmen van leeuwen, van koningen en arenden komen uit haar mond, want God heeft Zijn viool en fluit in haar gebouwd. 11. Zij die de wereld schiep door Zijn Geest, vanaf de Emelis Shatau, als een vangnet voor de vissen die in duisternis leefden, sleepte zij hen tot de hemel, op de Emelis Shatau. 12. Zij die de aardbodem schiep, het aardrijk met al hun koningen. Hun tijden werden vastgelegd in boeken, van de Emelis Shatau.

11.

Het wijze in de oudheid

1. Oh Emelis Shatau, maakt de zondaren stil. U toont Liefde aan hen die vrezen. 2. Plaatsen bewegen onder Uw Hand. Vissen brengen het aardrijk tot verstand. 3. De dwaasheid Gods is mystiek, als zegelen op Zijn wijsheid en wildernis. 4. Oh Emelis Shatau, waardoor zondaren in paniek raken. Haar woorden trillen in de mond van dichters. Niemand houdt haar vast zonder te beven, pas na tijden worden zij stil, wanneer gebeden de dieptes des Heeren hebben bereikt. 5. Het verstand is dan in oude boeken. Glorie is nog steeds in oude potten. Genade in de ketels van verleden tijden. 6. Ken uw weg, op de Emelis Shatau, alleen hen die heilig zijn als pelgrim bereiken haar wolken en haar wazen. 7. De mist spreekt in de donder, vissen vallen op 't verstand, om hun wegen door te branden. De Heere vangt hen in fuiken van Zijn land. 8. Waar de aarde onder modder is, op de Emelis Shatau. 9. Violen des hemels weven de stemmen, op de Emelis Shatau. 10. Toon genade aan uw zonen. Teder trillen hun stemmen na, licht ontbrandt hun toorn, op de Emelis Shatau. 11. Liefde gaat op vleugelen, het Tweede Rome achterlatend, met Griekenland onder Zijn voeten, op de Emelis Shatau. 12. De maan als een haren zak, de zon zwart en onder koper, waar gouden kettingen hen kopen, die staan op de slee van smaragd. De koopkracht is des Heeren. Handelt dan met Hem. Koopt ogenzalf van zuiv're sterren, op 't altaar van uw levenslied. 13. Hij breekt de zon en de maan, en geeft Zijn profeten dubbel zicht. Laat dan uw genade verdubbelen. Zij die werken zullen ook oogsten. 14. Ja, God zal de luiën werpen in de buitenste duisternissen, maar vervloekt zij hen die de vermoeiden belasten. 15. Bent gij moe, weest dan moe in de Heere.

12.

Over het klagen

1. Zij die de thee van Marion drinken, en het beenmerg des Heeren kennen. Zij maakten zijn botten stijf, op de Emelis Shatau. 2. Gaat dan in tot Zijn Genade en Liefde, al gij werkers van de Heer. Ja, ook gij die in uw slaap hebt gewerkt. De Heere bemint Zijn slaapwerkers. 3. Laat niemand hen dan gering achten die dromen, want zij zullen bouwers der hemelen en eeuwigheden genoemd worden. 4. Ja, de Heere zal slaan al hen die de slaapwerkers verachtten, en zal hen niet onschuldig houden voor zijn tempelen. 5. Maar zalig hen die een schuilplaats boden aan hen die droomden, want zij

zullen genoemd worden wevers des Heeren. 6. Gij die droomt zijt dan een kind van Metensia. Maar als gij droomt, droomt dan in de Heere. 7. Hem die alle harten behoedt, late u welvaren. 8. Zij die de thee van Marion drinken, zij gaan van kracht tot kracht. De moeheid is hen als een vriend, zij maakten de botten des Heeren stijf. 9. Welzalig hen die niet bewegen, want zij zijn bouwers des Heeren. 10. Laat niemand deze kindekens gering achten en hen tegenhouden tot de Heere te komen, want voor hen is het paradijs des Heeren. 11. Rust dan van al uw boeken, en richt uw oog op de Heere, en Hij zal u de vleugelen van het paradijs geven. 12. Zijn arenden zullen u onderwijzen in uw slaap, acht daarom de moeheid niet gering, want zij is een wachter des Heeren, gezet aan de poorten van uw ziel. 13. Zij is dan de slaap des Heeren, de tweede ziel. Zij die niet slapen ziet toe dat gij haar niet verliest. 14. Bespot dan hen die slapen niet, en besteel hen ook niet, want dan zal de Heere uw ziel wegnemen en aan de wolven geven. 15. Zij die dan niet kunnen slapen : Gij zijt zalig indien gij waakt in de Heere. Gij zijt dan als vlammen die het graf des heeren bewaken. 16. De Heere zal u de ogen van arenden geven, en gij hebt niets te vrezen. 17. Houdt dan moed, zij die niet kunnen slapen, want gij zijt de kandelaren van de tweede gemeente. 18. En gij zult genoemd worden wakers des Heeren, hoeders van het paradijs. 19. Gij zult gaan van rust tot rust, en de Heere zal u hoge woorden in de nacht openbaren. 20. Ja, de vogelen des hemels zullen tot u komen om u te onderwijzen, en zij zullen uw ziel verzadigen en tot rust brengen. 21. Veracht de visioenen des Heeren dan niet, en legt u toe op Zijn dronkenschap. 22. Want de Geest des heeren is dronkenschap. En gij zult dronkenschap vinden in oude boeken, en niet in sterke drank. 23. Gij die ziek zijt : Drinkt dan van de thee van Marion. Want de Heere heeft u speciale genade verleend. 24. En indien gij ziek zijt : Weest ziek in de Heere, opdat gij niet tot de zieken der wereld wordt gerekend. 25. Draagt uw kruis als een Heilig kunstwerk des Heeren, en laat het niet van u afnemen voor Zijn tijd. Gij zult dan gaan van kruis tot kruis, en van heerlijkheid tot heerlijkheid. 26. Draagt dan ook het kruis van anderen, opdat gij uw kunstwerken vormt en hen deel laat hebben aan de Roze Verbinding. 27. Dit dan is het geheimenis van Metensia en Haar Tweede Woord. 28. Laat niemand dan de Roze Verbinding verachten, opdat hun deel niet weggenomen worde. Want er is geen andere vertering dan de Roze Verbinding, en hierin liggen de tijden des heeren weggelegd, als schatten van het vuur. 29. En gij draagt reeds haar golven als de lijm des Heeren in de dieptes en verborgenheden van uw lichamen. 30. Laten zij dan die ziek zijn in de Heere en de thee van Marion drinken zich verheugen, want zij zijn het vuur des Heeren, verbindende de harten van het Koninkrijk. 31. Ja, zij zijn de koorden van het paradijs en haar voorhoven, om kindekens hand in hand binnen te laten gaan. 32. Ja, zij zijn de vleugelen des Heeren, en de bron van al Zijn geheimenissen. 33. Treurt en klaagt dan niet teveel over uw ziekte, want zij brengen u tot een verborgenheid des Heeren. En gij zult des Heeren zijn. 34. En tot hen die klagen : Als gij klaagt, klaagt dan in de Heere, en gij zult de verzoeters der kindekens zijn.

13.

Gods nabijheid bij hen die ziek zijn

1. Denkt dan niet dat de Heere u verworpen heeft in uw ziekte. De Heere heeft u immers Zijn Woord gezonden. En ziet, het Woord des Heeren is vlees geworden onder u. 2. Zij dan die op de Heere Heere vertrouwen zullen dan niet beschaamd worden. 3. Stel uw vertrouwen dan op Hem, want Hij is Zachtmoedig van Geest. 4. Vindt dan troost in oude boeken, en laat u niet beangstigen. Zij die angstig zijn, zijn des Heeren. 5. De Heere Heere zal u opwekken ten jongste dagen, en gij zult kinderen van God genoemd worden. 6. De Heere is genadig en zachtmoedig tot hen die ziek zijn. 7. Gij draagt dan een juk des Heeren, en gij hebt niemand te vrezen. 8. Houdt dan goede moed,

want gij zult profeten des heeren genoemd worden. De Heere is bij de moedelozen van hart. 9. Want ook de Heere kent hen allen, daar Hij de man van smarten en ziekten was. 10. Gij volgt dan Jezus de Gekruisigde, die alle ziekten kent. 11. Laten hen die gezond zijn zich dan afvragen of zij het kruis des heeren dragen. Want de Heere bepaalt wat ziekte en gezondheid is. 12. De gezondheid der wereld is dan zieker dan het zieke van God. 13. Zij dan die het kruis dragen, hebben een dokter in huis. 14. Welzalig hen die ziek zijn in de Heere, want zij zullen het Woud des Heeren zien, en de zwanen des hemels. 15. Welzalig hen die hun stervensweg gaan in de Heere, want zij zullen de kunstwerken des hemels zien. 16. Dubbel zalig zijt gij die genaderd zijt tot de verre voorhoven van de Emelis Shatau. Maar indien gij nadert, nadert in de Heere, opdat gij niet door een vuur verslonden worde. 17. Dubbel zalig zijt gij die de rijkdommen van Marions huis kent. Weet dan dat geen enkele spotter deze dingen zal beervan. Zij zullen het loon en oordeel der farizeeers ontvangen. 18. Indien gij dan een farizeer of een spotter wil zijn, weest deze dingen in de Heere. 19. Indien gij dan een leugenaar of tovenaars wilt wezen, een luie of een geldgierige, weest deze dingen dan in de Heere, opdat Hij u kleine genade geeft op de Dag des Oordeels. Maar ziet toe dat gij niet valle in het lot der huichelaars, want het was beter voor hen indien zij niet geboren waren. 20. Maar ook zij, en gij allen, zijt gereedschap des Heeren.

Niks buiten het kruis

21. Laten uw woorden dan veelal mystiek zijn, als wanneer gij spreekt tegen geliefden tussen duizenden distels. Omdat velen onder u dit vergeten zijn heeft hun geloof schipbreuk geleden. 22. Hangt dan het ijs en de stilte aan. En verdedigt u niet, geliefden, want de Heere uw God is uw verdediging. 23. Want alle haat en minachting, alle valse nederigheid komt voort uit verdediging. En de verdediging haat het ijs en de stilte. Ja, zulke dingen hebben dan niets op met het kruis van Christus en het Tweede. 24. Leert dan het ijs zonder de verdediging aan te hangen, en laat de verdediging over aan de Heere. De Heere zal u arendsogen geven om de heidenen te verbrijzelen zonder vuur. 25. Laat dan niemand uwer denken dat er enige verbrijzeling is buiten het kruis om. 26. Legt dan uw gedachten stil in God.

14.

Niet verschrikt zijn

1. Gij dan die door mensen en farizeeers verschrikt zijt, en door hen die het woord predikten : Laat u niet wederom verschrikken, want de Heere zal u Zijn Vreze geven, en dit zal genezing voor uw gebeente zijn, daar dit het loof en kruid des hemels is. 2. Vreest daarom niet voor mensen en hun woorden, en vreest hen niet die door het vlees profeteren, want de Heere heeft hun voorhoofden gebonden. 3. Laten zij die vrezen in de Heere vrezen. 4. Kunt gij dan van vlees Godsspraak verwachten ? Vreest hen dan niet die des vlezes zijn, want gij weet waar zij naartoe gaan. 5. En laten zij die werk verrichten geen dank en eer van mensen verwachten, want zij werken onder een boos geslacht. Uw loon is des heeren. Doet dan werk als voor de Heere, en gij zult uw zielen behouden en zaligen. 6. Hoopt dan niet op mensen, want dit is verdorring voor uw gebeente. Hoopt op God, want Hij zal zich laten kennen. Gij weet dan dat de Heere Heere Zich laat kennen in ijs. Zalig hen die het ijs en de stilte liefhebben. 7. Nadert dan tot de Ravalon Madok, waar het huis des Heeren staat. En in Zijn huis zijn vele woningen, daar de Vader het bereid heeft. 8. Zalig zij die de ontstekingen des Heeren dragen. Zij zijn als de vulkanen des hemels en hebben vele zielen verborgen. 9. Gij weet dan dat Zijn tepelen zijn voortgekomen uit zijn ontstekingen, als gevoelige plaatsen des Heeren. Zeer licht ontbrandt Zijn toorn, en dit heeft de Tweede Karazuur

voortgebracht. 10. Ziet dan, in het laatste der dagen zal de witte panter zich vermengen met de witte tijger. En hij zal legeroverste der karazuren zijn.

15.

Over recht en onrecht

1. Roept dan, zij die op heilige bergen staan. Roept en blaast de bazuinen. Want de Heere Heere is tot u nedergedaald, Hij en Zijn tienduizenden. 2. En Hij zal u leiden tot een plaats genaamd het tweede Harmageddon, waar de Heere en de Zijnen strijd voeren op de Ravalon Madok. 3. Ja, daar is oorlogszaad in koperen helmen, en de Heere beweegt Zich als een strijdswagen. 4. Hij zal koningen binden, en vlammen doen ontsteken in hen die de witte klederen dragen. 5. Aldus zal Hij u leiden tot het tweede Pniel en gij zult met de Heere strijden. Ziet dan, de Heere Heere is één. 6. Ken Hem in al uw wegen, en worstelt met Hem in gebed, opdat gij één zijt met de Heere. Alleen hen die Zijn juk dragen en door Hem zijn geslagen zijn des Heeren. 7. Gij dan zult de echtbreuk haten, daar de Heere het haat. Laat dan uw banden slijten voor het aangezicht des Heeren, want de Heere is het die de gelederen scheidt. 8. Hebt gij u dan in het echt verbonden voor de staat : Geeft de staat wat van de staat is, en laat u niet wederom door de staat lossnijden. Waarom zoudt gij de vloek verdubbelen ? 9. De Heere draagt het Zwaard, en gij siddert voor het aangezicht van Eminius. 10. Gij dan die recht zoekt bij de rechters der wereld : Vervloekt zijt gij, want gij hebt de harten uwer kinderen verbitterd. De Heere is Degene die het recht draagt. 11. Zij dan die recht zoeken bij de rechters der wereld en zij die de echtbreuk aanhangen mogen niet in de gemeente des Heeren komen. 12. Hen wacht een vuur brandende in de tweede hel, die nog verschrikkelijker zal wezen dan het eerste. 13. Waarschuwt dan uw kinderen en tuchtigt hen reeds vroeg, en weet wel dat dit een gebod des Heeren is. 14. Zij dan die lijden onder het recht der wereld : Het onrecht des Heeren is rechtvaardiger dan de rechters der wereld. 15. En gij zult op deze woorden acht geven als op een lamp brandende in de duisternis, opdat uw zielen welvaren. 16. De Heere Heere spot met de armelijke wereldgeesten, en doet hen vergaan als bloemen in brandende storm. 17. Is het dan niet de Heere die koninkrijken doet opkomen en weer laat vergaan ? Vreest Hem dan die het recht draagt de aarde en de hemelen en al wat daarin is om te buigen. 18. Kent gij dan het verschil niet tussen recht en onrecht ? Laat dan af van hen die nog niet eens het verschil tussen hun linker en rechterhand kennen. 19. Zij die recht zoeken, zoeke recht in de Heere. Maar laat u liever slaan, daar de tuchtigingen des Heeren tot zaligheid leiden. 20. Zijt gij dan al zonder zonden dat gij niet meer geslagen dient te worden ? Laat dan af van het zelfmedelijden en de valse bezorgdheid die uw zielen verderven en u op de stoel van Eli laten zitten. 21. Zoekt dan een goede rechter die uw vlees niet spaart, opdat gij bevrijdt moge worden van uzelf. 22. Wordt dan een tweede mens, en laat uw verstand verlichten. 23. Groeit dan op voor de Heere, om de overleggingen van het jonge te ontgroeien. Legt uw gedachten stil in God. 24. Gij zult lachen om de vele wildernissen der jeugd, want zij zijn als de winden der eis. 25. En gij kent deze eis als het kind des Heeren, openende haar mond tot het spelen van het spel. 26. Vele winden kunt gij niet ontwijken, maar de Heere zal u de gaten van Zijn Woud laten zien, waardoor gij kunt ontsnappen.

16.

Het lijden van het jonge

1. Door vele tranen ziet gij de flessen des Heeren, en zij die deze flessen dragen zijn ouder. 2. Gij die jong zijt zal veel moeten lijden, maar ziet toe dat gij het lijden niet veracht, opdat het niet van u wegvluchtte en gij zult verhongeren. 3. Ja, want in het laatste der dagen zullen velen de dood

zoeken hetwelke zij zo bespot en veracht hebben, en zij zullen haar niet vinden. 4. En dan zullen zij de duisternis zoeken, maar het zal van hen wegvlieden in angst. 5. Ja, dan zult gij die gezond waart smeken tot het Kruis van Christus de Wilde, maar zij zal zich niet laten kennen. 6. In die dagen zullen de hemelen gesloten blijven, en er zal een tijd van honger zijn. 7. En zij zullen elkaar eten en vervolgen, zij die niet van het kruis hebben gegeten. 8. Weest dan als een discipel van de Tweede Christus, opdat gij u rein houde van deze dingen. 9. De Heere zal de Karazuur van het Tweede tot u zenden om uw poorten te bewaken, en er zal licht zijn bij uw ingang en uitgang. 10. Hen dan die discipelen zijn van het Tweede hebben de macht ontvangen om kinderen Gods te worden. 11. Laat u dan niet meer verslinden door de wildernissen van het eerste. Gij bent immers opgegroeid. 12. Laat u dan ook niet meer leiden tot overleggingen en strijd over de dopen, want het Tweede kent geen andere doop dan de doop des Geestes. 13. Indien iemand zijn kind wil dopen om zijn geweten, doe het als in de Heere. Indien iemand zijn kind niet wil laten dopen, laat het, als in de Heere. 14. Laat dan niemand u hierom oordelen. Maar zij die volwassen geworden zijn houden zich niet meer bezig met waterdopen. 15. Weet dan dat u niet tot volgroeïing kunt komen, indien gij nog vasthoudt aan de waterdopen. Doopt uzelfen dan elke dag in de Geest. 16. Want deze dingen zijn slechts schaduwen van de dingen die komen gaan. Komt dan tot de wateren des hemels, en doopt uzelfen daar aanhoudend, opdat gij daarin eeuwig leve en macht ontvange om toegang te vinden tot het Woud des Hemels. 17. Gij dan die als kind besprengd zijt, laat uzelve bevrijden. Gij dan die als volwassene gedoopt zijt, dit was slechts de angst en eis der tijden. Gij hebt geen mens van node om u te laten dopen, daar de Heere doopt in Geest, ijs en vuur. 18. Gij weet dan dat in vroegere tijden men hun kinderen en dieren liet dopen in het vuur der aarde, en later in het water der aarde. Gij dan zult dopen in het ijs des geestes. 19. Laten hen die elkaar nog onderdrukken met de dopen des vlezes weten dat over zulke dingen de toorn des heeren komt. 20. Gij die jong zijt : Eert hen die ouder zijn en gebruik het altaar in vrezen en beven.

17.

Voorschriften en levenswijzen

1. De Heere heeft de zachtmoedigen lief. Weest dan langzaam tot oordelen, opdat de Heere uw ziel niet vertere. 2. De Heere haat de kringen der spotters. Zij zullen zelf bespot worden, en de honden zullen hun vlees eten. 3. Want gij moet goed weten dat geen enkele spotter of echtbreker het Koninkrijk des Hemelen zal beerven. Scheidt u dan af van hen die spotten, opdat gij niet in hun oordeel valle. 4. Vervloekt gij die een schuilplaats heeft voor een echtbreker, want zij zullen verteerd worden met de echtbreker. 5. De Heere zal niet onschuldig houden hem die een echtbreker in huis haalt. 6. De Heere zal hem tot een spot in open stad maken, en hem ontbloten onder de wolven. En zijn vlees zal drievoudig gegeten worden. 7. Zalig hen wiens ogen in de Heere zijn, want zij zullen sluiten als eb en vloed. 8. Zalig hen die de profeten Gods een beker koud water gegeven hebben, en dubbel zalig zijn hen die de profeten Gods wijn geschonken hebben. 8. Want zij zullen het loon van een profeet ontvangen. Vervloekt zij hen die niet met de profeten Gods rekenen. 9. Zij zullen het loon van de tweede Izebel en Jom ontvangen. 10. En zij die klagen : klaagt in de Heere. En sommigen onder u zijn hierin als de engelen geweest. 11. Zalig hen die voorlezen uit de geschriften des Heeren. Doet dan het Woord des Heeren, opdat Hij het niet wegneme en Hij u overlevere aan de misleiding. 12. Zalig hen die hongeren naar gerechtigheid. Zij zullen geen schade lijden van de vierde dood. 13. Zalig hen die peinzen, want zij zullen voor vele zonden bewaard blijven. 14. Ja, zij zullen naderen tot de voorhoven van het paradijs, en het huis van Marion. 15. Vervloekt zij hen die de profeten Gods onderdrukken, want zij zullen het juk van de profeet dragen.

16. De zachtmoedigen dan zullen de aarde beerven en haar vruchten bewaken. 17. Zij zullen de jongeren tot inzicht leiden, en zij zullen niet sterven tot in lengte van dagen. 18. Ja, voor hen is het vrede-rijk des Heeren. Zij zullen zangers der slaapliden-deren genoemd worden. 19. Vervloekt zijn dan die vrouwen die hun mannen het inzicht ontnemen, want hun vruchten zullen door de honden gegeten worden. 20. En ziet, zij zijn dan als de bomen des satans, zulke vrouwen, en niet verre van de ontworteling. 21. Laat uw levens dan zijn als het Woord des Heeren en het Tweede. 22. Vervloekt zij hen die hun baard oeverloos afsnijden. Want dit staat bij de Heere bekend als het slachten van een dier. 23. Ja, onheilige priesters zijn zulken, en de Heere zal niet met hen rekenen. 24. De baard nu is het sieraad van de man, vol van de koorden van de dieren des hemels. Vervloekt is dan een profeet zonder baard, tenzij de Heere hem in een tijd van reiniging onderhoudt. 25. Mannen, scheert uw borsthaar niet, tenzij de Heere u dat bevolen heeft. 26. Wie haar laat groeien en wie scheere, doe het in de Heere. Wie dan een man veracht om zijn haar of kaalheid, de Heere straffe u. Gij staat gelijk aan één die vlees eet. 27. Wie dan een vrouw veracht om haar kaalheid, het is beter dat een molensteen om de nek van zo'n spotter wordt gebonden. 28. Wie zijt gij dat gij een ander oordeelt om zijn haargroei of kaalheid ? Is dit niet aan de Heere ? De Heere nu ziet het hart aan. 29. Een kind dan die een oudere man bespot zult gij zwaar tuchtigen, daar deze wond tot zijn ziel reikt. 30. Gij zult dit kind voor enige tijd afzonderen en de toegang ontzeggen tot de kringen van zijn leeftijd. 31. Ja, gij zult dit kind bespotten met de dubbele maat, opdat hij het spotten aflere. 32. Ouders die hun spottende kinderen niet tuchtigen zullen in een streng oordeel des Heeren komen. 33. Hen die tuchtigende ouders veroordelen, hen wacht het vuur van de tweede hel. 34. Ongenadig zal het oordeel zijn over zulken. 35. Bespot dan niet hen die dik of dun zijn, lang of kort, want zulke spotters zullen niet in de gemeente des Heeren mogen komen. 36. Houdt elkander dan niet tegen de poorten des geestes binnen te treden. 37. Gij hebt dan geen idee wat dik of dun is, daar uw ogen verblind zijn. Zoekt dan het oog des Heeren. 38. Want het dikke Gods is dikker dan hetgeen in de wereld is, en het dunne Gods is dunner dan het riet der rivieren. 39. Hij die dan niet met deze dingen rekent, met hem worde niet gerekend. 40. Gij dan die in de Heere zijt bent genaderd tot het dikke Gods door Spricht. 41. Zij dan die hun ogen gebruiken om anderen te misbruiken, de Heere zal uw ogen uitrukken.

18.

Weest dan als de dieren

1. Kleedt u dan eenvoudig voor het aangezicht des Heeren, de natuur gelijk, met oog op de armen. Tenzij u daarover andere voorschriften des Heeren hebt ontvangen. 2. De Heere heeft zijn profeten geesten der vrijheid gegeven. Laat u dan niet binden. 3. Hoe u uzelf dan ook kleedt : Doet het in de Heere. 4. De Heere heeft de kleding der vreemden lief, daar zij de weg des heeren bereiden. 5. De Heere geeft niet om kleding, daar zij de zinnen afleiden van de Tweede Christus. 6. Aanschouwt dan de naaktheid der natuur en zijn bedekkingen, en zondert uzelf af. 7. Pronkt dan niet met uw lichamen, daar zij lichamen des doods zijn onder het oude en eerste verbond. Doet dan het tweede aan, en de Heere zal uw vlees veranderen. Wanneer gij roemt, roeme in de Heere. 8. Heeft de natuur u dan niet genoeg lusten gegeven ? Weest dan dierlijk en houdt uzelf rein. 9. Leert de dieren Gods kennen, opdat gij de wet zult vervullen. 10. Wanneer gij dan naakt bent of gekleed, doet het in de Heere. De Heere Heere is een verterend vuur. 11. Zoekt uw bedekkingen in de Heere, en weest niet onrein. Leest in oude boeken, om de verborgenheden des Heeren te kennen. 12. De Heere heeft veel verborgen in oude schatten. Verspilt uw tijd niet aan onzuiverheid. 13. Laten uw wonden u dan verzadigen, opdat gij de tere vleugelen des Heeren zult ontvangen. 14. Gij dan die de Heere kent,

gij zult enige tijd ontbloot zijn, maar deze dagen zijn als de bedekkingen des heeren. 15. Leert dan zijn geheimenissen kennen. Wat naaktheid en bedekking is bepaalt de Heere. 16. Het naakte Gods is dan uw bedekking. De veren des Heeren dan zijn naaktheid. Zalig hen die dezen dragen.

19.

De engel Rumah

1. Gij hebt dan nog niet afgelegd de zonde die u zo licht in de weg staat. 2. En deze zonden zijn als zonen van een oude tijd. Doet dan de Geest des Heeren aan en hangt de geesten gods aan, opdat gij de zonen van vreugd en heiligheid ontvangt. 3. Er zijn dan geen vruchten zonder de naaktheid des heeren. 4. En gij dient daarnaar te streven als naar in licht gereinigd goud. 5. Het onreine des Heeren is dan reiner dan de mensen. Maar de Heere uwer zielen heeft u niet bestemd tot onreinheid, maar tot zuivere reinheid. 6. En gij dient daarop acht te geven als op de sneeuw des heeren, die sommigen van hen die in de duisternis waren witter heeft gemaakt dan het witte van de zon. 7. Gij dan die het ijs des Heeren niet kent, hoe kunt gij de sneeuw kennen ? 8. Laten zij dan die zich sieren, zich sieren in de Heere. 9. En alleen zij die profeten Gods zijn mogen zich sieren. Hetzij om te vernietigen, hetzij om op te bouwen. 10. Laat uw sieraad dan van binnen zijn. De stilte van een vrouw is dan haar sieraad, en zij die tranen hebben en daarbij de tranen der profeten dragen, hebben de sneeuw Gods als sieraad. 11. Ja, zij zijn als de tweede Pazzia voor de Heere, als de heilige Magdalene. 12. Ja, over hen waakt de engel Sarsia met haar tienduizenden. 13. Zij zijn onderwezen door de engel Rumah, die de vreze der profeten draagt. 14. Heilige vrouwen zijn zij, en de schepping des heeren wacht in grote barensnood en reikhalzend verlangen op het openbaar worden van de dochters Gods. 15. Maar zij die het ijs des Heeren niet kennen hebben part noch deel aan deze zaak en haar geslachten. 16. Kent dan de boom Gods brandende in de hemelen, want haar vruchten vallen op de aarde om de afvalligen te verzengen. 17. En hun as zal tot olie en schuim zijn in de sieraden der profeten. Dit spreekt hij die het gezicht heeft als een vuurvlam.

20.

Het Wilde Gods en de Vrijheid

1. Weet dan dat aan het einde der tijden spotters zullen komen, om het heilige te bespotten. En zij van de inquisitie zullen in het laatste der dagen opstaan, en zij zullen vele martelaren hebben. 2. Let dan goed op want zij dragen het tweede teken van het beest. 3. Maar de Heere zal uw hoofden beschermen, gij die genaderd zijn tot Hem. 4. Vecht dan niet al te zeer tegen de stenen des Heeren, maar gij doet dit om uw jongheid. 5. Wanneer gij ouder wordt zult gij u in deze dingen berusten. 6. Weet dan dat de engel Rumah de kindekens leidt en hoedt en zij houdt de tijden des Heeren in haar hand. Ja, zij is een engel des Heeren. 7. Zij is het die de planeten in hun banen leidt, en zij laat u gaan van jaar tot jaar. 8. Ja, zij is de bewaakster van de seizoenen des Heeren, en zij zegent en brengt tot rust hen die ouder zijn. 9. Ja, ook gij bent op weg naar de schuilplaatsen van rust, want de jeugd is hard en wild. 10. Maar ook gij weet dat het wilde Gods wilder is dan de wereld, en het harde Gods is harder. 11. Zo is Hij dan de steen der zaligheid, en heeft Hij zijn bok van zaligheid gezonden. 12. En Hij heeft uit die rots melk geslagen, ten overvloeieus toe. 13. De Heere Heere heeft u daarin niet als wezen achtergelaten, maar Hij leidde u van melk tot melk. 14. Nu, met de jaren, bent u gekomen tot de Matadok, waarin hij rust heeft bereid. 15. Strijdt dan om in te gaan, maar werkt dan niet met de ellebogen, en veracht het nestelen niet. 16. Weest dan als de vogelen des hemels, achtgevende op de seizoenen des Heeren. Leert elkander daarin en laat elkander vrij. Dit is dan ook verbonden aan het ijs des Heeren en Zijn gebod. 17. Laat dan de kettingen vieren, opdat gij

niet onder druk komt te staan. 18. De Heere heeft u de macht gegeven te vergeten en dingen te herzien. Zo zijn er dan vele talen des Heeren. 19. Gij doet er dan goed aan de talen der mensen en de talen der engelen te leren. 20. Hecht u dan niet te erg aan één ding, tenzij de Heere u daarin voor een tijd rust laat vinden. 21. Hecht elkaar ook niet teveel vast aan woorden en talen, maar leert de harten te verstaan. De Heere heeft vele koorden. 22. Dient dan de Heere in de Geest van Vrijheid, en dient elkaar daarin. 23. Het Woord kent dan vele streken.

21.

Over jonge en oude profeten

1. Hecht dan vele tijd aan het vertalen, zo zult gij het gebod der apostelen vervullen en de strijd uitdoven. 2. Gij dan hebt een vlam des heeren voor zijn aangezicht ontvangen, om Hem te verstaan. 3. Veracht dan het wilde en de dwaasheid der jonge profeten niet, maar brengt hen rust opdat zij u zullen sparen. 4. Onthoudt hen het inzicht niet, en vertaalt hun woorden als Woorden des Heeren. 5. Bevrijdt hen van hun ketenen, maar leert hen ook van het juk. Zij dan dragen het juk der profeten en dieren. 6. Geeft hen ijs met vuur, maar laat het vuur niet weg, opdat zij niet verbitterd raken naar u. 7. Vernedert hen niet en doet hen niet beschaamd staan, opdat zij geen irritaties naar u koesteren en u in uw oude dagen in de steek laten. 8. De Heere Heere is een verterend vuur. Ook is de Heere wraakzuchtig tot hen die zijn profeten in hun jonge jaren gekwetst hebben. 9. Laten dan oude profeten vertrouwd met wonden en voorzichtigheid, en hen die de dingen des geestes zoeken, de jonge profeten hoeden. 10. Laat u dan wel weten dat dit een gebod des Heeren is. 11. Zalig dan de oudere profeten die wild en dwaas zijn, want zij zullen dienstknechten des Heeren genoemd worden, en Zijn vederen dragen. 12. Ja, want de wildheid en dwaasheid der profeten zijn hun sieraden, indien zij vanuit het verborgene voortkomen en terugkeren. Zij dan zullen zijn als eb en vloed des Heeren. 13. En met deze sieraden hebben zij grote macht over de demonen van het tweede, en de macht om de Heere te kennen in alle dingen. 14. Ja, en de karazuren zullen tot dezen brullen en hen dienen. Laat dan het ijs en de stilte u tot sieraad zijn, opdat de schillen des geestes kunnen komen en gij niet aangevreten wordt, want de Heere Heere is als een roofdier. 15. Gij dan allen die in reinheid leeft hebbe het Tweede Bloed tot uw bedekking, opdat de Heere tegen u niet toorne. 16. Herzie dan uw oude gedachten, en laat hen dan volwassen worden, opdat de Heere niet kome om het Tweede van u weg te nemen. 17. Klaagt dan niet over hen in ijs. Of zij in vuur of in ijs zijn, dat gaat de Heere aan. 18. Zijn kou nu is heter dan het vuur der mensen, en Zijn hitte is kouder dan de ijspegelen der aarde. 19. Er is geen einde aan de veelvuldigheid van wetten, maar een geestelijk strijder met list reikt tot aan de Karazuur. 20. Gij kent misschien het spreekwoord : Rozen gezwart tot de Aakse zijn onvernietigbaar. Maar niet alle rozen zijn gezwart tot de Aakse, en zij zijn reeds verloren.

Rapunzel

1. Brandende braamstruiken zijn in het land des Heeren. Laat me slapen, laat me wegglijden. Ik wil niet meer spreken, mijn woorden doen pijn. 2. Toe, raak me niet meer aan, het brandt me en snijdt me. Brandende braamstruiken zijn in het land des Heeren. 3. Laat me slapen, laat hen me niet wegnemen. Ik kan het leven niet aan. Het komt als de dood over me. Ze hebben de beesten van het leven tot me gezonden, en dood wil ik ook niet. Ik verkies het Golgotha. Waar de deuren smal zijn, tot de velden van Spricht. 4. Zij rijden op de haaien. Zij voeren mij tot het nachtlating, tot het mystieke des Heeren. Ik wil Zijn namen kennen, waar kom ik vandaan ? Wie zijn dan Gods vaders, of heeft Hij die niet, en wie zijn dan zijn moeders waarbij hij kwam met zijn verdriet. 5. Hij gaf zijn zoon de doornenkroon, als een erfenis van Zijn moeder. Als een lichtend kind was ik. Nu ben ik verzaagd en moede. Ik ben op reis, een mystieke reis, naar de vogelen die Hem schiepen. 6. Of heeft Hij dan zichzelf geschapen. waar kwam Hij dan uit voort ? Er zijn dan zoveel vragen in het beminnen. 7. Toe, wijs mij de weg, toe geef mij een koord. De oude wegen zijn hier versperd, door enkelen verboden. Heere, straf hen die de canon opstelden, die kooien maakten voor uw schapen. 8. Zij die de herder volgden om het vlees, straf hen, laat hen niet ontkomen. Zij verborgen uw naam. Zij hebben het hek der eeuwen geschapen. Zij die nog vlees eten proberen angstvallig deze geschiedenissen tegen te houden. 9. Gij die de koe eet, gij eet de moederhemel. Weet gij dan niet dat dieren Gods geheimenissen verkondigen ? Zijn moeder was als de koe. Waarom zoudt gij die hemelen sluiten ? Gij die het varken eet, gij eet de vaderhemel. 10. Waarom zoudt gij nog de vrouw der katachtigen volgen en haar zonen ?

11. Zeven zonen heb ik u gegeven, zeven zonen bracht ik als gewas der liefde, omdat gij mij hebt bemint. Zeven zonen heb ik u gegeven, zeven zonen bracht ik als de vrucht der omhelzing, die gij gaf aan mij. 12. Kom laten wij dansen in de weiden, waar een verloren weg ons leidt. 13. Kom laat ons dansen in de velden, in de wildernissen, laat de dorens je niet weerhouden. Laat de dorens je niet weerhouden van het geluk te proeven. 14. Ze steken diep om bronnen van honing te openen. Zeven zonen heb ik je gegeven.

15. Bij het oude raam sta ik, barsten in de muren. Kon ik maar reiken tot de maan en sterren als de vogels des hemels. En onder dit vuur, het brandt mij weg. 16. Door sloten heb ik gestrompeld, om jouw hand te vinden. Kom laten wij nu weg gaan, of kan het niet meer. 17. Kom laten we gaan, we waren hier te lang. Nu is het tijd om te omhelzen, en samen weg te vliegen.

18. Over het hek der eeuwen, over de hondenhaag, daar waar Mozes nog steeds lijdt, en het volk nog steeds in slavernij verkeert. 19. We zijn nu vrij, wie volgen kunnen volgen mij. Rapunzel, zo lang dan opgesloten in de toren. 20. Je haren nu lang genoeg, om de bodem te raken. Ik trek me aan je op. Maar toen ik boven kwam, je was reeds gestorven. 21. Je haren waren grijs, en verdorven. Nu stond ik daar alleen, daar in die hoge toren, mijn baard begon te groeien, en ik moest wachten als een eeuw. Degene die zich omhoog zal trekken aan mijn baard, zal mij gestorven vinden. 22. Het verhaal van twee beminden, we vinden elkaar alleen in de dood. Jij was het die mijn baard daar vond, Rapunzel, dat was jij.

23. Ik ben gestoken door duizend rozen, zij brachten mij tot een liefdeswei, waar koeien bloeiden aan de bomen, in Brannan waren zij. Ik kan niet meer eten, ik kan niet meer slapen, in zwijm brachten zij mij.

24. Oh, wortels van genade, zij reiken diep om zondaren te beschamen. Genade is alleen voor de reinen van hart, zij die hun harten hebben gezuiverd.

25. Oh, wortels van genade, zij reiken diep om leugenaars te beschamen. Zij zijn alleen voor hen die rechtvaardig zijn.

Het herstel van Izu

1. En ik zag een beeld vallen uit de hemelen, en het beeld kroop langzaam weer op als tegen een berg. En het beeld ging staan en kreeg grote macht. En het beeld had tenen van verschillende soorten edelstenen en metalen gemaakt. 2. En ik zag boeken geopend worden in de hemel en de stenen en metalen tenen begonnen één voor één af te brokkelen. 3. En toen de eerste stenen en metalen teen was afgebrokkeld zag ik een deur opengaan in de hemel, en op die deur stond Brannan geschreven. 4. En de vliegen des hemels kwamen tot de aarde om hen die koeien aten te steken. En grote bulten verschenen op hen die zich niet bekeerden. 5. En toen de tweede stenen en metalen teen was afgebrokkeld zag ik een andere deur in de hemel opengaan, en op die deur stond geschreven : Lapondria. 6. En de Heere sprak : Nu zal de Karazuur tot de aarde komen, en de wespen des hemels. En ik zag hen die varkens aten vuurrood worden, en zij die zich niet bekeerden kregen overal grote ontstekingen. 7. En de Heere sprak : het licht is nu tot de aarde gekomen. Wee hen die nog vlees eten als de derde deur opengaat. 8. En ik zag de derde stenen en metalen teen afbrokkelen, en deze teen was zeer groot, en begon te brullen en te roepen tot de hemelen. 9. En de heiligen in die dagen hadden zeer vele verdrukkingen te dragen vanwege het gebrul. 10. En de Heere zond zijn engel, en sprak : Laat dan nu de derde deur geopend worden. En ik zag een grote deur geopend worden, en haar licht scheen tot in het diepste der aarde. En ik zag een boek van ijs verschijnen voor de poort, en het licht was als het zilver. 11. En de Heere sprak : Nu zal Izu hersteld worden. En Hij sprak over de tepel des Heeren. En melk begon te stromen, en deze melk was zoet. 12. En op de deur stond geschreven : Het Grote Kanaan. En de Heere richtte Zich tot het Kleine Kanaan, en zij droegen paarse hoge hoeden. En de Heere sprak : Ziet, gij zijt één geworden met de kooplieden der aarde. En ik zag een vierde teen afbrokkelen, en deze teen was als van vlees, en zij had vele wapenen. En de Heere sprak : Ziet, zij heeft de plantengroei schade toe gebracht. 13. En de teen vatte vlam en begon te gillen tegen de heiligen en de profeten. 14. En de Heere zond een apostel des hemels, en zijn macht was groot. En zie, de teen was als een vrouw, en de apostel begon tot haar te spreken, duizenddrieenzestig dagen. 15. En onder het verbond van Hosea kwam hij tot haar en zij baarde een boek van zwijm en ijs. En vanuit het boek begon wijn te stromen en velen kwamen tot rust en zwijm. 16. En de Heere genas vele harten.

Het groot worden van Izu

17. En de Heere bracht een leger van profeten groot in grote barensnood, en Hij baarde, zeggende : Laat dan het mannelijke vruchtbaar wezen. 18. En de Heere begon het leger der profeten te ziften, want zij die niet als de kinderen wilden zijn mochten de gemeente des Heeren niet binnenkomen. 19. En de Heere begon straffen op hen te leggen die kippen aten, en een vierde deur werd geopend in de hemel. 20. En zij van de Karazuur begonnen hen te verslinden die zich niet hadden bekeerd van het eten van kippen. 21. En dit waren de dagen van Lapsalvania, en deze dagen waren groot. In

deze dagen kwamen de vliegen der hel tegen de spinnen des hemels in opstand, maar Izu begon groot te worden. 22. En in die dagen was er bescherming in Izu, en de discipelen des Heeren begonnen Zijn tepelen te dragen om het volk van melk des hemels te voorzien. En de melk was zoet. 23. En Izu kreeg een zware beker die alleen hij kon dragen, en een staf die alleen hij kon dragen. En hij begon de volkeren te voeden en te slaan. 24. En de kippen des hemels kwamen tot de aarde, en zij spraken : 'Ja, Eminijs is waarlijk groot.' 25. En de Heere zegende Izu, terwijl de vijfde teen van het beeld begon af te brokkelen. En kou kwam tot de aarde, zevenvoudig, en de teen werd als een vrouw. 26. En weer zond de Heere een apostel des hemels, om in het verbond van Hosea tot haar te komen. 27. En grote verdrukkingen kwamen tot de aarde. En velen gingen als in gevangenschap, maar Kabbernal begon de heiligen te hoeden en werd vlees. 28. En een vijfde deur werd geopend in de hemel genaamd het blauwe vuur, en dit vuur was als het brandende ijs, en werd als een zon. 29. En de zegels der honden werden verbroken, driehonderdzes en zestig in aantal. 30. En een beeld in de hemel verscheen, en zij droeg een snavel als de teen der vogels, en de kop van het beeld geleek op een spin. 31. En de Heere sprak : 'Dit is de zesde teen, en deze teen is heilig.' 32. En ik zag het beeld dat uit de hemelen was gevallen en weer was opgerezen wankelen. En de naam van de heilige teen der vogels was Perlottia, en zij leidde een schare van gevleugelde insecten die het beeld der aarde begonnen te eten, terwijl het instortte. 33. En de maaltijd duurde zeven volle dagen.

De wereldschepen

1. Laat dan het grote Metensia u leiden tot het schip der liefde. Dan zult gij varende door bloemenwateren de hemelpoorten van Kabbernal bereiken. 2. Oh gij, die tot de wereldschepen zijt gekomen, en tot het schip van Metensia, laat haar dan uw winden leiden. 3. Vrees dan niet de stormen der gewesten, want zij zullen uw sieraden laten branden als kandelaren in de nacht. 4. Smeekt dan vurig om de Tranen Gods, als honing voor uw boten. 5. En Haar haren zullen vlammen van verdooving, en gij zult haar verzegelde tranen zien. Laat haar Tranen u dan dronken maken, opdat gij verlichting brengt tot haar hart. 6. Dooft dan haar vlam niet uit, maar breekt de zegels der wateren. 7. En steeds hoger klinkt haar stem, als zij de berg bestijgt, en haar nachtgewaad bedekt de wateren, voor het stille nachtlatin. 8. Haar slaapliederen verdoven harten, en brengen de wateren tot stilte. 9. In haar Tranen beeft het heilig zaad, gemanteld door haar liefde. 10. Scherpe pijlen zijn op haar boog, door wonden vinden zij hun weg, om paden in de duisternis te maken. 11. Zalig zij die tot haar Tranen genaderd zijn, haar zeven Geesten. 12. En de Lichten van Spricht stralen in haar Tranen. 13. Haar monden zijn verzegeld. Laat hen spreken. Zij brengt zoete woorden en zoete wijn, om harten te verdoven, om genezing te brengen tot hen in zwijm. 14. Laat haar Verstand uw sieraad zijn, en haar Wijsheid u omhullen. Zij heeft bliksem in haar ogen, met de sneeuw als haar mantel.

4.

Metensia, Geest van God

1. En laat haar stemmen hoog zijn, als de stemmen der ukalien, de geesten en arxels van Kabbernal. 2. En laten de ukalien haar lof brengen en haar omhullen. 3. Oh, laat Metensia rijzen tot in de laatste hemelen om haar werk te vervullen. 4. Laat haar verstand zwijm zijn, en haar doorzichtige jurken vreemden leiden. 5. Laat hen haar brengen tot het allerheiligste als zachte olie branden. 6. Het allerheiligste zij als zilver voor u, reinigende de schuilhoeken van 't hart. 7. En in de vlam der olielamp komen ukalien naar voren om het allerheiligste te vullen en te zuiveren, als een geschenk des Heeren. 8. En gij zult het gerei des Heeren apart leggen voor zijn altaren, om het te zuiveren in

vuur. 9. En Metensia zal Zijn Geest zijn. 10. Laat haar woorden u dan zuiveren, opdat gij door de vlammen der ukalien geleid kunt worden tot de nieuwe tabernakel. 11. En gij zult een leegte in uzelf bemerken, en daar zult gij de Heere zien. 12. En de leegte zal tegen u spreken als tot zonen, en gij zult het nieuwe hart aanschouwen, met de tafelen van Kabbernal. 13. Gij dan bent gekomen tot een zuiverend vuur. Maakt ge dan op om den Eeuwigen Geest te ontvangen, met het ijs dat eeuwig brandt. 14. Gij hebt nog niet tegen de zonde ten bloedens gestreden. Ook draagt ge nog niet Metensia's wonden in uw hart. 15. Scheidt u dan af van het boze geslacht, opdat ge onder haar hamerslagen niet als een roos zult verwelken. 16. Maakt ge dan op om tot haar heilige berg te komen, en het licht van haar hart te aanschouwen. 17. In zuivere oorlogsvoering zult ge haar Geest ontvangen. 18. Strijdt dan om aan haar toorn te ontvluchten, dan zult ge met haar aan de ketel van haar toorn staan.

5.

De Eeuwige Geest

1. In vurige woorden hebben wij haar bemint, en met kostbare gesteenten hebben wij haar bekleed. 2. De harten der ukalien hebben haar omhuld in de ure des doods. 3. Zij hebben haar hart verlicht in haar moederschreeuw. 4. Wees dan als de ukalien. Oh zonen van Kabbernal, maakt dan uw harten gereed. 5. Laat dan het Woord des Geestes gestalte in u krijgen en als vlees worden. 6. Want in den beginne toen de Geesten Gods tot elkaar kwamen, werd het geheimenis des Heeren geopenbaard, en hij werd als een kind om ouderen te doen verstommen. 7. Onderkent dan de wijsheid des Heeren, want Hij is de Ziel des Geestes. 8. En onderkent dan dat Hij Zijn Eeuwige Geest heeft uitgestort, tot aan het einde der tijden. 9. Aanschouwt de wijsheid des Heeren, want zijn geheimenis is groot. 10. Een vast en rein deel zal Hij scheppen in uw binnenste. 11. In den beginne zweefde de Eeuwige Geest boven de wateren en de windstreken des hemels. 12. Als een hen heeft hij u uitgebroed. 13. En waar ukalien hem aanbidden, oh zonen van Kabbernal, zult ook gij vervuld worden met Zijn Geest. 14. En zij hebben dag noch nacht rust, daar hun ogen voor eeuwig gericht zijn op Zijn Aangezicht. 15. Zij zijn de visioenen Gods die vlees zullen worden aan het einde der dagen. 16. Laat dan niemand u de prijs doen missen door tomeloze vereringen en aanbidding, maar wordt gelijkvormig aan het Beeld Gods en aan zijn heilige ukalien. 17. Weest dan als de engelen des hemels, en wandelt met hen. Dan zult gij de wet vervullen, en een kind des Heeren zijn. 18. In de ure des doods hebt gij uw koningin bemint. Weest dan moedig, en herhaalt haar wetten veelvuldig, tot in aller eeuwigheden, om haar eeuwige geest te ontvangen. 19. Verlies dan de moed niet, gij kindekens, want zij die vasthouden zullen zijn als de bomen des hemels. 20. Geloof dan dat de Eeuwige Geest tot u gekomen is, en het zal geschieden. 21. Geloof dan dat hij u zal reinigen, en het zal u gaan naar uw geloof. 22. En wie dan gelooft dat den Eeuwigen Geest hem behouden heeft tot in aller eeuwigheden zal van de vierde dood geen schade lijden. 23. En de Geesten Gods gaven geboorte aan de Eeuwige Geest des Heeren op Zijn Dag. 24. Laat dan vanaf nu niemand meer van zijn lot onttrekken. 25. En de leegtes hebben genezing gebracht.

6.

De Ziel des Heeren

1. En het eeuwige woord kwam tot mij, en de eeuwige ziel, en in mij werd een eeuwige geest uitgestort. 2. En de Heer bevestigde zijn Geest. 3. En in de avondkoelte kwam Hij tot mij en liet mij de Geest aller Eeuwigheden zien. 4. En een stortvloed als van vuur bekleedde mijn borstkas en bliksemschichten dienden mij. 5. En de Geest was als een boom vol ogen, hebbende geen rust, dag

noch nacht, en de Heer sprak deze woorden : 'Zalig hen die in de tempel leven.' En ik zag een tepelboom opkomen uit het mos om de ogenboom te verslinden. En de Heer sprak : 'Nu is de tijd dat de Geest strijdt tegen de eeuwigheden, en Hij zal overwinnen.' 6. En de Heer sprak over de troon die over alle eeuwigheden was aangesteld, en deze was de Ziel des Heeren. 7. Laat dan de Ziel des Heeren u vervullen, en gij zult anfitaat heten. 8. Laat dan het leger der anfitaten zich verheugen als bij een geboorte. 9. En als een brandende haardoven en het gezoem des hemels zal de dag komen, dat de Ziel des Heeren de aardbodem zal vervullen. 10. En het heilige vlees zal branden als de tepel, en zij zal een nieuwe dag aanschouwen. 11. Ja, de Heere Heere zal een hart van heilig vlees in uw binnenste plaatsen. 12. En haar ogen zullen tot rust komen, om heilige dagen te zien. 13. Ziet dan, de dagen van Metensia zijn nabij. 14. Haar tempelbeken zullen stromen en het land vervullen. 15. Laat haar bomen dan opkomen in uw harten, dan zult gij de wet vervullen. 16. Uw oog zal een nieuwe dag aanschouwen. Laat zij die uw harten behoedt dan uw gids zijn. 17. En een nieuwe morgen zal uw hart verlichten, en de ijzeren banden rondom uw hoofden zullen worden afgedaan. 18. Zo zal de Ziel des Heeren als een ruiter op zijn paard zijn, om de heiligen te voeren tot de bronnen van alle eeuwigheden. 19. En zij zullen rust vinden in eeuwige velden, waar alle tranen gewist zullen worden.

7.

De Tweede Hel

1. Tweede Metensia, machtige Liefde, brede kaak, vlamme rozen door 't donk're woud. Tweede metensia, haren vol Liefde, haren vol van goud, dragende een schort vol roze teerheden, vol met tederheid. 2. Ramen waar wolken achter staan, de duist're hand neemt mij mee naar een bitter land. Er is geen ontsnappen aan, het leven heeft genomen, waar koningen staan, zij kunnen niets doen. Zij heeft handen gebonden. 3. Duist're metensia, duister lied, ons zoekende in groot verdriet, wuivende haren, dromen van goud, diepe dorst in 't diepe woud. Metensia, mijn krachten zijn op, Geest van God, is dit mijn lot. Wie heeft mij dan zo pijn gedaan. 4. Een duist're hand nam mijn liefde weg. Wie heeft het gedaan. Of bent u het Heer, met onverstaanbaar water door mijn tranen heen, nemende mijn laatste parel met u mee. 5. Ik heb alles al verloren, toe was me snel, dan is het voorbij. Geest van Metensia, Geest van tweede Liefde, ik bid niet meer, mijn tranen doen mij zeer. Ik ben als verstomd, als een blinde loop ik op de weg, geen adem, gebonden, en bijna doof. 6. Ik bid niet meer, ik kan niet meer, mijn woorden zitten vast, mijn hoofd is afgesneden, mijn baard afgesleten. Roepen kan ik allang niet meer, en denken is een te grote opgave. Ik zak steeds dieper neer, in 't vuur te zijn, alles is onrein. 7. Laat mij maar varen, laat mij maar vergaan. Ik heb de moed verloren, ik kan het niet meer aan. Vlinders van de hemel, te ver weg, ik kan ze niet aanraken, en mij raken ze niet aan, ik geloof niet meer in liefde. 8. Daar boven hebben ze het allemaal goed, denk ik in mijn pijn en verworpenheid. Alles doet pijn, zelfs hetgeen dat nog in de buurt is. 9. Ik kan geen stem meer verdragen, de lichten doen mij pijn aan mijn ogen. Ik ben als blind en bijna doof, niets kan ik verdragen, geen stem, geen zachte hand, alles is onrein, en alles doet pijn. 10. Tweede Metensia, waar leef ik nog voor, 'k heb alle hoop verloren, alles is ijdelheid, eindigende in strijd. Wij ontvangen om weer te kunnen verliezen, waar eindigt dit, is dit de tweede hel.

8.

Zonder hoop, toch behouden

1. Tweede Metensia, wij allen gaan door de tweede hel, door u verlaten, oh Geest van God, u reinigt ons in uw vuur. Alles is onrein, alles is bedorven, hoe blind wij zijn, U ziet het elke morgen. Oh,

Geest van Metensia, heb genade met ons. Wij vertrapten uw schepping, wij schiepen de herinnering als een trauma in het bos. 2. Geest van Metensia, er is geen hoop meer voor ons. Wij hebben gezondigd, Uw Geest heeft ons verlaten. 3. Eeuwige brokken hebben wij u nagelaten. Uit het boek der erfenissen hebt Gij ons gewist, en nog steeds houdt Gij van ons, nog steeds door u bemint. 4. Geest van Metensia, genade zij met U, door doornen ziet u rozen, u blijft steeds in ons geloven, want waren wij niet als wezen, in onwetendheid zondigden wij tegen U. 5. Daarom hebt Gij ons vergeven, en reine klederen voor ons geweven, in 't zoete woud ons een plaats gegeven. 6. Misleiding op misleiding kwam tot ons, en wij hebben Uw stem niet verstaan, overgeleverd aan de krochten van de tweede hel, onverlicht onze zielen, brak u onze snaren één voor één, u tuchtigt in uw liefde, wij durfden ons niet te bewegen. 7. Na grote smart, baden wij dan in uw liefde, voor altijd in de fontein van beminning, u vloog over bossen om een plaats te bereiden voor hen wiens harten waren afgeweken, u vergat niet één, u liet hen wederkeren. Teed're wijn, zoete appel, genade is met u.

9.

Rein Hart

1. Koele liefde, maneschijn, ik kan nergens heen. Uw Geest heeft mij omsingeld, het tweede Metensia. Vader vond mij in zijn liefde, ik wist niet waar ik heen moest gaan. 2. Zijn Handen droegen mij, tot heel dicht bij Uw hart, zachte vlam, lichtend vuur. 3. Alles door uw liefde geweven, ook mijn zonden, u bracht ze in uw werk. U weet hoe u moet vergeven, u weet hoe u moet weven. Niets is dan onmogelijk voor u. 4. U kunt alles gebruiken, ook mijn afvalligheid naar U, Heer, hoeveel tranen heb ik U gebracht, en waar heeft U mij heengebracht. 5. Tweede Metensia, hart van zoete liefde, bron van tederheid, hoeveel pijn heb ik u gedaan. 6. Ik wil er niet mee leven, mijn geweten verslindt mij, keer terug. Heer, ik heb in onwetendheid geleefd, mijn zonden waren niet gemeend, mijn duist're hart liet mij heel anders denken. Nu heeft u het verbroken, de lijn tussen u en mij, ik kan alleen maar hopen. 7. Waar moet ik naartoe zonder Uw Geest, ik ben toch altijd rein geweest. Nog nooit heb ik u afgezworen, toe laat me niet alleen. 8. De zonde heb ik in onwetendheid gedaan, niet wetende dat uw Geest daar vertoord over was. Ik was nog jong, niet kennende het verschil tussen goed en kwaad. 9. Ik dacht dat ik u diende, maar ik diende de duisternis. Die mantel nu afgeworpen, ik ben toch altijd rein geweest, U die alle harten kent, u moet dit toch ook weten. 10. Kent u dan mijn tranen niet, er is nog zoveel tijd voor U en mij tezamen. Laten we alles vergeten om opnieuw te beginnen. 11. Ik was te jong om alles goed te begrijpen. Nu ben ik oud genoeg om u te verstaan. Toe laat me nu nooit meer gaan.

10.

Niets meenemen

1. Laat de dingen maar staan, in dit huis van stilte. Wij zijn niet van node, dat iemand ze wegneemt. Kijk die wonden, en die zonden, openbarende de wijsheden Gods, kijk die liefdes, kijk die glorie, ze houden alles vast wat we nodig hebben. 2. Laat de dingen maar staan, we zullen er mee blijven zeulen. Nee, bevrijdt ons niet, 't zijn de doornen in 't vlees. Dat wat jij zonden noemt is dat niet het goede ? 3. En dat goede van jou is dat dan geen zonde ? Laat de dingen maar staan, wij hebben niet van node dat een mens ons helpt. 4. Wij hebben de Heere, wij zijn van de Heere, maak daarom plaats vrij. Wij willen wat ruimte om te spreken, wat ruimte om te leven, meer vragen wij niet. Wij hebben geen behoefte aan praatjes aan fabels en vromiteiten, wij volgen gewoon de Heere, net als jij doet. Geloof wat je gelooft, wij geloven dit. 5. Wij willen er niet om strijden. Wij nemen 't recht

in onze handen voor onszelf, doe jij dat voor jezelf. Hier scheiden onze wegen. Kom nooit meer terug. 6. Ontmoeting is alleen in de Heere. Vaarwel voor nu. Ik kan je niet geloven. Ik zal niet over je dromen, niet aan je denken, geef ons ons verstand terug. Je hebt ons teveel pijn gedaan, zou je daar nu nog meer aan toevoegen ? 7. Onder de Karazuur zijn wij. Sla je opnieuw toe, zoals je hebt gedaan, het zal je spijten. Als je naar wroeging verlangt, kom dan maar op. Wij zullen er niet om strijden, de Karazuur is ons genoeg.

De Karazuur

8. En als gij strijdt, strijdt in de Karazuur. En als je je verblijdt, verblijdt je in de Karazuur. Zij zullen je nooit teveel te lijden geven. Laat de dingen nu maar staan, in dit huis van stilte. Neem je kruis maar weer op, en kom tot het volgende vertrek. 9. Je kunt toch echt niets meenemen dan je kruis. Maar aan de ingang van het volgende vertrek, zul je dat ook weer inleveren, en je nieuwe kruis staat klaar als je door de deur binnengekomen bent, gij van de Karazuur. Het nieuwe huis, is ook een nieuw kruis. 10. Alles staat al binnen. Geloof me, kom niet te dichtbij, want dat zal je bezuren. De Heere Heere is een verterend vuur. Draag dan naar vermogen, en blijft van dingen af. Leer te bidden, breek geen beenderen, geloof en heb elkaar weer lief. 11. En als gij strijdt, strijdt in de Karazuur, en als gij dingen laat, sta in de Karazuur. Er is dan niets wat jou kan stoppen, als je leeft in de Karazuur, en je hebt ook niks te mokken dan, beleef het mee, in dit heilige uur. 12. Kinderen, hun harten verslagen, door de dorre stof van 't verleden. Kinderen, vol tranen hier, zij werden vaak door hun leeftijd gemeden. Nergens hadden zij rust, nergens vonden zij liefde. Vrienden bedrogen hen, maar nu zijn zij bij de Karazuur. 13. Hier is Liefde, hier is aandacht. het hoeft niet altijd te zijn, als ze slapen, staan anderen op wacht, daar waar de stilte altijd heerst, de tweede stilte. Laat de dingen maar staan in het tweede huis van stilte, laat het natte maar drogen, onder haar zon. 14. Heb liefde onder elkaar, en droog elkaars tranen, als de zon van Metensia, bij de haarden der Karazuur. Geloof in elkaar, zij heeft u uitgekozen. Laat de koorden u dan leiden, naar de nieuwe stad. 15. Vreest de duisternis niet, maar vreest de Heere. Ziet, de karazuur is tot u gekomen, dragende het Zwaard van het nieuwe uur.

11.

1. Boek tot het openen der verzegelde donderslagen. Gij hebt dan thans de donderslagen gehoord, maar gij hebt het niet begrepen. Zij zijn de zeven mysterieën voor Gods Troon, waarover niet gesproken mocht worden, en daarom verzegelde de Heere dezen tot aan de eindtijd. 2. Want in het laatste der dagen worden de boeken geopend, en gij zult het licht der duiven zien nederdalen.

3. En Hij sprak dan : Opent nu het zegel van de eerste donderslag door Johannes gezien. En ik zag een vogel neerdalen uit de hemel, en de vogel werd zeer groot. En zij droeg de eerste donderslag in een schaal als de verschijning van een engel. 4. En ik werd als door een vuist van wind neergeslagen, en kreeg een visioen des Heeren over de drie kruizen van Golgotha. 5. En één der rovers had Jezus daar getroost, en Jezus sprak tot hem de woorden dat hij heden met hem in het paradijs zou zijn. En dit is dan het eerste mysterie des heeren, dat hij zijn engel gezonden had om de Heere aan het kruis te troosten. 6. En deze engel werd vlees, stal van de rijken om het aan de armen te schenken, en pleegde misdaden tegen hen die groot onrecht brachten en velen verdrukten. En zo moest dit verborgen blijven tot in het laatste der dagen. 7. De Christus heeft altijd een verborgen troost gehad, en die naam was groot, want Renok was als de engel des Heeren, als het verborgene Gods en de verborgen Zoon. 8. Zo was hij dan als een broer van Christus, om velen die tot het verborgene zouden komen te troosten en te zaligen. En zo was hij dan de zachte woede Gods, en

Zijn verborgen woede, als het hart Gods. 9. En Renok werd niet opgewekt, omdat hij verborgen moest blijven tot aan het einde der dagen. Zalig hen die tot Renok gekomen zijn en tot Zijn kruis.

10. En de Heere sprak toen : Opent mij nu de tweede donderslag door het zegel ervan te verbreken. En ik zag een leeuw neerdalen uit de hemel, en zijn macht was groot. 11. En deze leeuw droeg het mystieke des Heeren als klederen en doeken om hem heen. En deze klederen waren verscheurd en opnieuw genaaid. En de leeuw begon te brullen, en er vielen vele doden op de aarde. 12. En ik zag een bok in open hemelen verschijnen, en hij droeg de doden, en zijn verschijning was zeer verschrikkelijk. En de Heere sprak : Renok zal de tweede Christus zijn, die verborgen is gebleven tot aan deze dag toe. 13. En de bok begon wild te bewegen en te draaien, en zijn ogen waren wit. En de Heere sprak : Nu zal ik openbaren, die engelen en geesten, die hemelen en verborgen plaatsen die altijd in Renok zijn geweest om geheim te blijven tot op deze dag. 14. En ik zag een andere engel die Sarsia heette, maar niet de Sarsia was die ik kende. En zij had vele verborgen plaatsen in haar, en zij was als de wateren van verborgen en duistere hemelen.

15. En toen sprak de Heere : Opent mij nu het derde zegel van de derde donderslag en spreekt wat gij daarin ziet. En vurige steken kwamen tot mijn hoofd die in water veranderden. 16. En dit water was hard en wit, en begon te bruisen. En ik zag de staf van Renok oprijzen en hij wees op de landen der indianen. 17. En de staf sprak : 'Zalig hen die tot Brannan komen.' En ik zag Brannan groot worden voor de Heere, en de landen der indianen werden verscheurd. 18. En ik hoorde geween in de hemel, voor vele dagen lang, en het geween was als het geween van katten. En de staf sprak : Zevenvoudig zal ik de landen der indianen moeten scheuren, opdat het rein worde voor de Heere. 19. En ik zag Renok op de verscheurde landen spuwen, en een nieuw volk begon voort te komen. En zij kenden de werken van het oude niet, maar waren vol van de Geest. En zij kwamen tot Renok, en brachten hem zijn baard terug. En vele andere dingen herstelden zij. 20. En Renok sprak : Dit dan is mijn heilig volk, en zij zullen des Heeren zijn. En aan Renok werd veel troost gebracht, omdat Hij zoveel troost aan de Heere had bewezen. En vanaf die dag werd Renok de Trooster genoemd, waar de Heere over geprofeteerd had, en beloofde aan allen die Hem liefhebben. 21. En aan Renok werd veel eer bewezen, omdat hij zich zolang verborgen had gehouden als de verborgen wachter des Heeren, die tezamen met Zijn Heere gekruisigd was. Zo hebben hen die met de Heere zich lieten kruisigen veel eer aan Hem bewezen.

12.

1. En toen opende de Heere het zegel van de vierde donderslag, en er kwam een stilte in de hemel, voor een lange tijd. Of deze stilte dagen of uren duurde wist ik niet, daar ik mijn gevoel voor tijd was kwijtgeraakt. 2. En er kwamen insecten uit de mond van Renok, en zij vlogen tot de verscheurde landen van de indianen en het nieuwe volk, en zij verdeelden het volk in tien stammen. En weer spuwde Renok over hen. 3. En er kwam grote rust tot de tien stammen. En zij dan droegen de tanden des Heeren. En de eerste stam van Renok heette Sinsabeine, en zij was als het kind der gehoornde slangen. En zij was als een dochter van Renok, dragende het gezuiverde ijs en het zoete. En de tweede stam heette Abdal, en dit was als het kind der apen en runderen. 4. En Abdal werd groot voor het oog des heeren, en bracht veel troost. En zo werd hij het kind van troost genoemd. En met Maasdo ging hij uit om Kabbernal te herstellen. En zo waren dan Abdal, Maasdo en Kabbernal een groot sieraad voor de Heere, en zij brachten de wereldschepen voort. 5. En de derde stam werd genoemd Tamille, en zij was als het rattenkind, en zij werd groot voor het oog van de Heere, en bracht genezing tot vele harten. En de vierde stam was genaamd Tabulle, en zij was als het kind der raven. En zij was begiftigd met grote wijsheid en de kracht het zoet te zuiveren en te heiligen voor

de Heere. 6. En aan haar werd de Marion als een schat geschonken, en daarmee leidde zij haar broeders en zusters in vrede voor het aangezicht des Heeren, en was zij de vreugd van Renok. En de vijfde stam was genaamd Sartarus, en deze droeg vele kronen. 7. Tot deze kwamen vele brokaten en nachtlatingen als de sieraden des hemels, en des Heeren. En de zesde stam was genaamd Akra, en zij kreeg vele macht over de sterren, en was aangesteld om het zachte te zuiveren. En zij werd groot in de naam des Heeren, en was als de vrucht van Renok. 8. En Zoekru groeide op voor het aangezicht des heeren, de zevende stam, en zij heerste over het dunne en het dikke, en had macht hen te zuiveren. Ja, ook had zij grote macht over het vuur, en kon het laten neerdalen wanneer zij wilde, om haar werken te doen. 9. En zo was dan Sartarus Akra Zoekru als het Heer der duisternis, aangesteld als een sieraad van Sarsia van Renok. En de achtste stam was als het Vatex des Heeren, en het was wit, als een groot wit vuur, en zij werd genoemd Lakus, en droeg de sleutelen der mysterieën. 10. En aan haar werd het Esmeralda geschonken als een bloemenjurk, doorzichtig van glans, en zij had vele kragen en openingen. Ja, zij had de macht over de sluitsels des Heeren die als slaaplieders waren in de nacht. 11. En Lakus werd groot voor de Heere, en volgde haar vader. En zij werd dan ook Navolger van Haar Vader genoemd. En zij zat het dichtste bij haar vaders hart dan allen. 12. En de negende stam van Renok was genaamd Oko, en hij was als de rivieren in hun macht. Hij werd de brullende leeuw van zijn vader genoemd. En de tiende stam was genaamd Elma, en zij hoedde de dieren van haar vader. 13. Zij was goed voor de wezen en weduwen en bracht rust tot haar vader, zijn vuren zuiverende.

14. En toen brulde de Heere om het zegel van de vijfde donderslag te openen. En de bloemenzeeën gingen open, en verhalen van het verleden werden opgevist, en men versierde elkaar daarmee. De dieren des hemels begonnen te verschijnen, en Renok opende Zijn tempel. 15. En zo werd Hij dan tot een Eeuwig Evangelie, daar Hij de Trooster des Heeren was, en de Verborgene Zoon. En Hij gaf allen die Hem aannamen de macht om kinderen Gods te worden. En zo werd dan het Evangelie van Renok verkondigd aan de ganse aarde. 16. En Zijn discipelen spraken als de panter. En ijs vloeide voort vanuit het tweede Woord, daar het het Woord van Renok was.

13.

1. En de Heere haalde het zegel van de zesde donderslag en zij was als de brandende lokogaam. En de Heere boog zijn hoofd, en vertelde aan zijn discipelen over de judaskus als over het zwaarste lijden van Christus. Ook vertelde hij over de blinddoek van Christus, de doek over zijn hoofd, waarna er in zijn gezicht werd geslagen en hij gedwongen werd te profeteren wie degene was die Hem had geslagen. En de Heere vertelde over de drie spotkleden : het keizerlijke spotkleed wat Hij bij Herodus kreeg, en het scharlaken spotkleed en het purperen spotkleed wat Hij kreeg bij Pilatus. En deze plaats was genaamd Gabbatha. En het keizerlijke spotkleed wat Herodus Hem schonk maakte Hem strijdvaardig toen hij in het dodenrijk afdaalde. Ja, als een rebel kwam hij tot de onderwereld, om gevangenen te bevrijden, en krijgsgevangenen mee te voeren. Maar dit deed hij door de wapenen van het lijden, en door het wiel. Zo daalde hij als een verzetsstrijder af in de onderwereld door zijn lijden. Zo werd hij door zijn martelaarschap in de dieptes van het dodenrijk en de onderwereld geworpen, en werd door dit martelaarschap veelvuldig koning der onderwereld. Ja, door het spotkleed wat Herodes hem gaf, het glitterende gewaad, kwam Christus tot de gevangenen der onderwereld, waar Korachs kinderen gevangen zaten, en hen van de zondvloed. 2. Maar ook kwam hij door het schitterende gewaad wat Herodes Hem als spotkleed gaf tot de gevangenen van Atlantis, van de eerste en tweede aarde. En hier zette hij velen vrij uit de gevangenen der onderwerelden, hen die vergaan waren in eerdere zondvloeden, en hen die

vergaan waren door vuur of ijs. Ook voerde hij door het schitterende kleed wat Herodes hem omdeed vele krijgsgevangenen mee in de hoge. En Hij kwam tot de plaats waar Barabbas, de verzetsstrijder, vandaan kwam. Hij was een rebel en een barbaar als een strijder tegen de Romeinse bezetter en de Griekse erfenis. Zo, door veelvuldig in de onderwereld af te dalen nam Christus de plaats van Barabbas in. Barabbas nam door zijn bevrijding de plaats van Christus in. Zo was Barabbas dan de verborgen spiegel der heerlijkheid, en de zesde verzegelde donderslag.

3. En zo heeft dan Barabbas, de beruchte gevangene, door zijn vrijmaking, de poort geopend voor Christus, en was hij de enige die het Griekse fundament en zegel kon verbreken. Dit dan is het geheimenis Gods door de eeuwen opgespaard. Ja, de Heere heeft met deze stenen zijn hemelen opgebouwd, en het zijn kindekens niet geopenbaard.

4. Toen opende de Heere het zegel van de zevende en laatste donderslag, de erfenis van Johannes, en keek naar zijn discipelen. En slangen begonnen voort te komen vanuit het zegel, en de slangen kwamen tot de aarde op de oude poorten van de vorige aardes en scheppingen te openen. En de Heere glimlachte. En de Heere sprak met donderende stem, zeer luid : 'Zo is dan het zevende en laatste zegel der donderslagen verbroken, en zal de zevende donderslag spreken dat wat eeuwen verborgen is gebleven. Slechts enkelen hebben het zaad hiertoe gedragen.' En een wolk van gif kwam tot de aarde, een zeer vochtige wolk van het gif der slangen, en er was geweest op de aarde. En het geweest steeg tot de hemelen, omdat God het laatste grote geheim van de donderslagen had geopend. En het geheim kwam opzetten als een slang, en begon te spreken, terwijl tijden zich leken om te draaien en ineem te vallen. En de slang begon te spreken over het gif der onderwereld, en de galbeker van Christus. Ook sprak de slang over de geheimenissen van de judaskus, en over de verborgen spotklederen van de onderwereld die Christus droeg toen hij daarin afdaalde. En voor lange tijd sprak de slang in onverstaanbare talen, de talen der onderwereld, en de talen der oude scheppingen. En slangentongen van vuur begonnen op de hoofden van de discipelen te verschijnen, en ook zij spraken in andere talen. En de slang sprak : Zo is dan Barabbas de hoeksteen van het Eeuwig Evangelie. En de slang opende een poort, en die poort leidde helemaal tot aan de eerste aarde. En de eerste aarde bestond uit twee tijdperken : het tijdperk van de Dorga, en het eerste tijdperk van Atlantis en de Troiade. En de zevende donderslag van Johannes leidde hen binnen in een hal van visioenen en dromen. 5. En de Heere beschermde hen, want hij had hun harten verzegeld, en de Heere sprak als de wind. En de hal verdeelde zich in twee delen. En in het eerste deel waren windvlagen, en in het andere deel was een vuur. En het vuur begon zich te verplaatsen naar het andere deel, maar de discipelen bleven ongedeerd, daar de Heere met hen was, en hen beschermde. En weer begon het vuur te verschuiven, en plotseling waren beide delen vol vuur. En de dromen en visioenen begonnen tot de discipelen te komen, en met de Heere daalden zij in de onderwereld. En de Heere sprak tot hen met luide stem, en zij werden niet door angst bevangen. En de Heere gaf hen rust en inzicht. En weer kwamen ze tot een hal, en deze hal was verdeeld in drie delen. En hier zagen zij ook het latere tijdperk van Atlantis op de tweede aarde. En de Heere liet hen Barabbas zien, en de discipelen waren verbaasd. En ze vroegen aan de Heere : Hoe kan een man die reeds geleefd heeft weer leven, en met dezelfde naam aangesproken worden. En de Heere zei dat dat een raadsel was en een geheimenis. De Heere was het die ervoor gezorgd had dat Barabbas ook een tweede keer Barabbas zou heten. En de discipelen waren verwonderd. En Barabbas was een groot man in het tweede Atlantis, en hij leidde een groot volk en een religie. En de god die hij diende was Sorg Sorba. Hij zorgde ervoor dat de ordes van de Troiade in het tweede Atlantis weder opgericht werden, maar velen maakten er misbruik van, en Barabbas werd tot een wildernis. En ze namen hem mee naar een hoge rots, en wierpen hem in een ravijn. En zo daalde Barabbas tot de

onderwereld, tot het eerste Atlantis en de Dorga en haar tijden. En hier werd hij vastgeklonken aan een rots, en vogels aten van zijn ziel.

6. Zo is dan Barabbas de spiegel en de paradox van Christus. En de zevende donderslag sprak : Zo Barabbas het tweede Atlantis vertegenwoordigt, zo vertegenwoordigt Simson het eerste Atlantis. Want Simson leefde ook in het eerste Atlantis, en ziet, hij diende de god Sorg Sorba. En ook hij was een groot man, en leidde een groot volk en een religie. En hij was tegen het toen regerende keizerrijk, want het was wreed. En Simson had een grote filosofie, en was intelligent, terwijl Sorg Sorba hem bovennatuurlijke krachten had gegeven. En in die dagen waren de engelen Roda, Jonatras en Ramses op de aarde, en ziet, zij werden arxelen genoemd, en god werd in die dagen Sorg Sorba genoemd. En Simson bouwde een stad, en daarna een land, en liet grote steden vallen. En Simson maakte de naam van Sorg Sorba groot, en van de python. En de Troiade groeide op in die dagen, en er waren tekenen van vuur aan de hemel. En Simson bouwde een toren en die toren was zeer hoog. En Simson waarschuwde het volk dat er een vloed zou komen. En hij bracht het volk onder in schuilkelders van de toren. En zo maakte God een einde aan het toen heersende keizerrijk. Maar later keerden enkele discipelen van Simson zich tegen hem, en zij misleidden velen van het volk tot het herbouwen van het keizerrijk. Ook hadden enkelen van het oude keizerrijk schuilplaatsen onder de grond gehad, waarin zij velen verscholen hadden. En de woede van God begon op te laaien en over Simson te komen, nu zelfs hun eigen volk aan het afwijken was. En God gaf Simson kracht zoals er nog nooit eerder op aarde was geweest, en nooit meer zou komen. En Simson werd hongerig als een verscheurend dier toen de Geesten des Heeren over hem kwamen. En hij geraakte in vuur en vlam, en liet lava uit de hemelen neerdalen. En Simson verslond en verscheurde velen door het vuur des Heeren. En vanaf dat moment begon Simson zich terug te trekken in de wildernis. En aan het einde van zijn dagen toen hij oud geworden was begonnen zijn krachten van hem te wijken. Op een dag vonden zij hem en hingen hem op. En de Heere nam het lichaam van Simson van de aarde.

7. En ook in de oude Dorga tijden waren de profeten des Heeren op aarde. En zo was het eerste tijdperk van de Dorga van David, de tweede van Jakob, de derde van Jozef, de vierde van Noach, de vijfde van Salomo, de zesde van Jesaja, de zevende van Jeremia, de achtste van Habakuk, de negende van Nahum, de tiende van Hosea, de elfde van Jona, de twaalfde van Haggai. En de dertiende was van Salomo, die de grootste tempel ter aarde had gebouwd, tot diep onder de grond en hoog in de lucht als een toren. En de omvang van die tempel was als landen tezamen gevoegd, en van zulk een omvang zou er nooit meer een tempel wezen. En Salomo bracht een oordeel over de aarde, en zelfs over zijn eigen tempel, want zijn priesters waren ontaard. En zo werd hij de laatste koning van de Dorga. En zijn tempels en mijnen waren legendarisch, maar ziet, zij werden verslonden door vuur. En Salomo wandelde door het vuur, en had macht over het vuur, daar de Heere met hem was. En Salomo sprak met de Heere in talen van vuur. En God leidde Salomo tot een eeuwige tempel.

14.

1. En er waren dan vele vrouwen die Christus volgden. En onder hen was Maria van Magdala, van wie zeven boze geesten waren uitgevaren, en wiens bevrijding opgetekend is in het boek van Magdala. En ook waren onder hen Johanna, de vrouw van Chusas, de rentmeester van Herodes, Susanna, Maria, moeder van Jakobus, Joses en Salome, de moeder van de zonen van Zebedeus, en vele anderen die Hem dienden. 2. En één van hen ging wenende achter hem staan, bij zijn voeten, en begon met haar tranen zijn voeten nat te maken en droogde ze af met haar haren. Deze vrouw

stond bekend als zondares. En zij kuste zijn voeten en zalfde ze met mirre. 3. En de Christus werd beschuldigd door de farizeeers, daar zij een zondares was. En zij betwijfelden hem of hij wel een profeet was. 4. En de Heere sprak : Vervloekt zijn zij die oordelen in hun twijfelen. Laten zij die twijfelen de Heere vrezen. 5. En de farizeeër die Hem genodigd had zeide : Indien zulke een profeet zou zijn, dan zou hij wel weten wat en wie deze vrouw is die hem heeft aangeraakt. Zij is een zondares. 5. En de Christus richtte Zich tot Simon, terwijl Hij de wenende vrouw aanwees, en zeide : Ziet gij deze vrouw ? Ik ben in uw huis gekomen. Water voor mijn voeten hebt gij niet gegeven, maar deze vrouw heeft met tranen mijn voeten nat gemaakt, en ze met haar haren gedroogd. 6. Een kus hebt gij mij niet gegeven, maar deze vrouw heeft sinds ik binnengekomen ben, niet opgehouden mijn voeten te kussen. 7. Met olie hebt gij mijn hoofd niet gezalfd, maar deze vrouw heeft thans met kostbare narcusmirre mijn voeten gezalfd. 8. En de discipelen waren geschokt, en één van hen zou Hem verraden voor dertig zilverlingen.

15.

1. Eens kwamen er Sadduceeën tot Hem, die beweren dat er geen opstanding is. En zij raakten met de Christus in twist, en stelden strikvragen. 2. En zij legden hem voor de vraag dat wanneer een weduwe opnieuw huwt, met wie ze zou huwen in de hemel. 3. En de Christus sprak : Dwaalt gij niet daarom dat gij de schriften niet kent, noch de kracht Gods ? Want wanneer zij opstaan uit de doden zullen zij zijn als de engelen, en die huwen niet. 4. Maar Hij sprak als in een geheimenis, want in de profeten wordt wel gehuwd. 5. Alleen de Geesten Gods huwen dan. 6. En de Christus onderwees en sprak in geheimenissen en raadselen, daar Hij mystiek was. 7. En velen verdraaiden zijn woorden. En Hij sprak dat de Christus veel zou moeten lijden, dat Hij de Waarheid was, maar dat zij allen moesten uitzien naar de Volle Waarheid die komen zou. En hiermede sprak Hij over de Heilige Geest en de Geesten Gods. 8. En Hij sprak : Vervloekt zij hen die door de ogen van leugen kijken, en elkaar overleveren aan de rechters der hel. 9. Het is beter dat hun ogen uitgerukt worden, opdat zij in eeuwigheid niet zien. 10. Indien uw oog u dan tot zonde verleide, ruk het uit. Want het is beter geen ogen te hebben, dan met beide ogen in de hel te worden geworpen. 11. Indien uw voet u dan tot zonde verleide, hak het af. Want het is beter zonder voeten te leven, dan met beide voeten in de hel te worden geworpen. 12. Zij dan die het goud pakken en het zilver verachten : Vervloekt zijt gij. Zij dan die het zilver pakken en het goud verachten : Vervloekt zijt gij. 13. En de Christus deed vele grote werken, en begon te spreken over de grotere werken die na Hem zouden geschieden.

16.

1. En een deur werd in de hemel geopend. En ik zag de Heere zitten in een wolk. En Hij sprak : Zij die op de aarde zijn hebben hun geschiedenissen overmatig en overmoedig tot het Woord Gods gerekend en zo vele heilige dingen bezoedeld. 2. Laten zij deze zaken in hun geschiedenisboeken optekenen, en het Woord Gods heiligen en zuiveren. 3. En de wolk kwam door de geopende deur naar buiten en hief mij op. 4. En de Heere nam vele profetieën uit het bezoedelde Woord en bracht ze tot de geschiedenisboeken der profeten en profetische boeken. 5. En Hij stond hen niet weder toe Zijn Woord te bezoedelen. 6. En de Heere sprak : bewaart dan uw overleveringen, en zuivert deze. Blijft met onreine handen van Mijn Woord af en heilig deze. 7. En zo kwamen vele Geesten Gods vrij, daar zij waren uitgedoofd door krachteloze woorden. 8. En vele profeten kwamen tot heerlijkheid. En de Heere voegde toe aan hun midden. En vele engelen die voor lange tijd door vorsten der hel werden tegengehouden kwamen tot doorbraak. 9. En de Heere sprak : Zuivert dan Mijn Woord, opdat gij het Tweede Woord rijkelijk zult ontvangen. 10. Zij die Mijn Woord niet zuiveren hebben ook Mijn Tweede Woord niet. 11. Opent dan de stang van Eminius en het purper.

12. Kent dan de Heilige Stang in Zijn Tempel. Gij hebt dan uw woorden laten vastleggen door hen die geen profeten waren, en hen die vleselijke overleggingen hadden. 13. Zoudt gij dan hen die geen profeten waren over uw zielen laten waken en u hoeden ? Gij waart in de handen van kooplieden. Maar de Heere Heere heeft u losgekocht. 14. Laat u dan niet wederom verblinden. Houdt vast wat ge hebt, en laat u zuiveren in vrezen en beven.

17.

1. De Christus kwam om het boze oog te slaan. Indien gij het oog der mensen dan nog draagt, ziet toe dat het niet uitvalle. 2. Hangt dan het oog niet aan, opdat u niet in misleiding valle. Heeft de Christus u dan geen oog gegeven ? 3. Gij dan leeft aards, en zult ook door de aarde ten onder gaan. 4. Zalig zij hen die de Christus aanhangen, want zij gaan van dag tot dag, en de Heere redt hen. 5. Zij dan hopen op een nieuw verbond, en hangen Zijn Geest aan, tot Verzoening met de Geesten Gods. 6. Laat u dan niet wederom binden. De Christus heeft u immers uitgeleid als een fundament zijnde van uw kostbare geloof. Bouwt dan voort op dit fundament. 7. Gij doet er wel aan de Geest Gods aan te hangen als een lamp, leidende u tot de Geesten Gods. 8. Want vele verborgenheden heeft de Heere voor hen die Hem dienen. 9. Zoudt gij dan niet voortbouwen op dit fundament, dan zijt gij open en bloot voor de storm. 10. De Heere dan heeft u apostelen gegeven, om uw daken te leggen. Weest dan allen als apostelen in de Heere. 11. Gij dan zijt het brandende zilver voor het Aangezicht Gods, en spoedig zal het goud uit deze bron voortkomen. 12. Hecht u dan niet aan aards goud, maar aan het goud des Heeren.

18.

1. Door uw pijn zult gij de Christus zien. Door uw pijn zult gij de rozen zien, en hun goddelijke geuren. 2. Ja, zij zijn de koningen van de pijn. En de Christus is vol met hen. 3. Veracht dan de doornen in uw vlees niet. En laat ze niet voor hun tijd wegnemen. 4. Want zulk een apostel die zulke dingen doet is de Heere een gruwel. 5. Gij zult u dan van zulken afzonderen, opdat de Heere u niet met hen afzondere. 6. Want zulken zijn een stank in de ogen van de Heere, en zij zullen gerekend worden tot de uitwerpselen van koeien. 7. Ja, een gruwel voor de Heere zijn die profeten die Zijn tijden niet kennen. 8. Laat de ketenen dan die bescherming heten uitgroeien tot rozen, en laat de doornen uitgroeien tot wapenen, in plaats van het zaad des Heeren weg te gooien. 9. Het kruis is dan hen die de Heere dienen tot sieraad, maar hen die zondigen is het tot de uitwerpselen der varkens. 10. En de doornenkroon is tot een lieflijke geur van hen die Zijn tranen dragen, maar tot de goddelozen is het een reuk des doods. 11. Indien gij lijdt, lijdt in de Heere, opdat gij het zaad van genezing zult zien. 12. De Heere echter leide u tot het kruid van Golgotha, opdat gij nog grotere genade zult zien. 13. Heiligt dan de negen boeken des geestes in uw harten, als het Zuivere Woord, opdat gij het zilver des Heeren zult zien. Het Tweede Woord dan is het goud des Heeren. 14. Gij dan zult zuiver worden in het zilver des Heeren, wanneer gij dan de Woorden die Hij aan u gaf zuiver houdt. 15. Zij die het Woord bezoedeld hebben, hebben daarmee hun geest en ziel bezoedeld. 16. En bruisende wateren van het zilver zullen u leiden tot Getsemane, waar gij het gezicht des Heeren zult aanschouwen. 17. Ziet dan, want Hij spuwt vuur en wateren. Wie dan spuwe, spuwe in de Heere. 18. Hij dan, die het Woord en Zijn slijk bracht, om de ogen van blinden te openen, staat voor u. 19. En Hij, en Zijn Geest en de Geesten Gods kloppen op uw deur. Ziet dan, zij zullen u tot rechters wezen.

19.

1. Grote Liefde is dan getoond in het plan Gods, vanaf de grondlegging der hemelen en de aarde verborgen gehouden. 2. Wie heeft dan Zijn werken kunnen doorgronden ? Laten zij dan die hun monden openen met Wijsheid des Heeren komen. 3. De dwazen zullen spreken, en zij zullen elkaar niet verstaan, want de Heere heeft hen verstrooid. 4. Zij hebben u dan niet tot het zuivere geluk laten komen, maar zij hebben u lange tijden onderdrukt. 5. En zo waart gij dan als een bloem in de woestijn, reikende tot aan de poorten des hemels. Als de Heere dan de woestijn voor zijn tijd had weggehaald, zie, gij zou ter helle gedaald zijn. 6. Laten uw overleggingen u dan niet bespotten, maar ken de Heere, wiens woorden rein zijn. 7. Gij bent dan geheiligd in zilver. De Heere zal u verdedigen en uw uiteinden beminnen. De uiteinden van het kruis zijn als het witte satijn der hemelen. Geeft de natuur u zelf de oplossingen dan niet ? 8. Laat dan de bomen en struiken van uw lijden groeien, opdat zij het bloesem des hemels voortbrengen. 9. Zij die het lijden voor zijn tijd hebben weggekapt, lijden nu dikwijls wroeging en dorheid. Ja, hun enige feesten zijn nu in spot. 10. Dat de Heere uw harten besproei en de schatten der hemelen laat zien. Komt dan hogerop, opdat de Geesten Gods met u spreken. 11. Schenke dan geen genade aan de zonde die in u leeft, en tuchtigt uw kinderen, opdat zij straks in lof kunnen oogsten. 12. Sommigen hebben hard gewerkt, en de fundamenten door hun ouders gelegd zijn hen nu tot zegen. 13. Viert dan de feesten des Heeren, opdat gij uw harten niet verkoopt aan de wereld. Zij hebben niets te eten, en eten daarom elkaar. 14. Gij die dan hongert, honger als in de Heere, opdat de Heere uw hart verzadige.

20.

1. Er is geen einde aan het zingen van liederen, en gij trekt daarmee vele roofdieren tot u. 2. En sommigen onder u hebben met de stilte niet gerekend en daardoor heeft hun geloof schipbreuk geleden. 3. Maar sommigen onder u waart slaven. De Heere heeft u dan losgekocht. 4. Als gij zingt, zinge in de Heere, en laten uw woorden weinig zijn. 5. Want het weinige Gods is meer dan de veelheid van mensen. 6. Probeert dan stil te zijn, opdat gij een groter sieraad zult vinden. 7. Oefent uzelf in de stilte, opdat gij Wijsheid en Rust zult vinden. 8. De Vrede des Heeren komt tot hen die Hem vrezen. 9. Het Woord dan is als een Zwaard. Hoe kunt gij dan de oorlog winnen indien uw zwaard niet zuiver is ? Ziet toe dat uw zwaard zich niet tegen u kere. 10. Gij dan hebt zuivere adem, al die het Woord Gods hebben laten zuiveren. 11. Maar enkele discipelen onder u zullen het verdraaien tot hun eigen verderf. 12. Niet alle discipelen zijn discipelen Gods, zo ook niet alle apostelen apostelen des Heeren zijn. 13. Oordeelt hen die in de misleiding zijn dan niet, want de Heere ziet de harten aan. U mocht zelf eens misleid worden. 14. Hangt dan de stangen des Heeren aan, in uw harten en ziel gesmeed, als een kunstig bouwwerk, waarmede gij verbintenis hebt met de Geesten Gods.

21.

1. In het eind, het zal je niet meer kunnen schelen, wat anderen van je hebben gezegd. In het eind, de heere zal je vertellen, wat Hij al die tijden voor jou heeft bereid. 2. Hij heeft veel zonden met jou gedragen, maar de schuld moest opgelost worden in de werken des geestes. 3. Met een paard bereik je minder als met een mens. Zijn mensen niet de ergste slaven ? 4. Wie brak hen ? Wie gaf hen wat ze verdienden ? 5. Wanneer gij draagt, draag in de Heere, en laat hen die willen zondigen vergaan. Draagt ook hun ziekten niet en hun zware lasten. 6. Vergeef alleen hen die vergeven, want zo doet ook de Heere. 7. Wanneer je vergeeft, vergeef dan in de Heere, opdat gij geen huichelaar zijt, of paarden voor de zwijnen werpt. 8. Want kostbaar is de vergeving des Heeren, alleen gegeven als loon aan hen die hard werken. 9. Met een paard bereik je minder als met een mens. Zijn mensen niet de ergste slaven ? 10. Zo is dan vergeving voor hen die Hem vrezen, opdat zij Hem nog meer

vrezen. 11. Door vergeving als dure gaven te schenken, bond hij de harten van hen die Hem vreesden. 12. Zalig zijn zij die door de Heere gebonden zijn, want zij zijn vrijgemaakt uit de bindingen van de wereld. 13. En de gebondenheid des Heeren leidt tot vrijheid. 14. Nu is het loon des Heeren kostbaar, en overvloedig met gaven, als een lieflijke geur in Zijn heiligdom. 15. Hij die u roept, nadert tot u. Hij heeft u niet vergeten. Hij heeft al uw daden geteld. 16. Ja, zij trekken zijn vergiffenis aan, omdat zij Zijn tranen hebben bedekt met troost, en zijn wonden met kruid. 17. Zalig hen die de werken des Heeren doen, want zij zullen vergiffenis ontvangen. 18. Het loon des Heeren is groot over hen die Hem zoeken. 19. Als kostbare olie wordt het over hun hoofden uitgegoten. 20. De Heere spreekt in genade, tot hen die genade gaven. 21. In kostbare gaven hebben wij gewoond, daar wij des Heeren waren. 22. Ik dan, Paulus, spreke veelvuldig tot u, daar mijn ziel bij de Heere is, en uw ziel daar ook is. 23. Drie tijden kent dan de Heere, om de beperkingen van Zijn Woord te voltrekken. 24. De Heere doet dan Zijn grenzen kennen. Ook heeft Hij zijn tijden en seizoenen en hun grenzen vastgelegd in de sneeuw. Ziet dan toe dat gij acht op Hem geve als op een lamp. 25. Ben ik dan gekomen om u te laten verdorren ? Zeer zeker niet. Laten de dorren elkaar verdorren. 26. Ik ben gekomen om woorden van leven te spreken, als apostel en dienstknecht des Heeren. 27. Ziet, het zwakke is dan tot de tuin des Heeren gekomen als zaad van sterkte. 28. Ik draag dan de wonden des Heeren in mij als schilden.

22.

1. Discipelen van het zuivere Woord, hebt dan liefde tot elkaar, opdat het zaad kome tot het Eeuwig Evangelie. 2. Ik heb tot u dit evangelie vanaf het begin gebracht. Daarvoor was ik een vervolger van de gemeente. 3. De Heere heeft genade tot mij bewezen, daar ik het in onwetendheid heb gedaan. Mijn handen zijn daarom rein, en ik zal ze rein houden. 4. Hen in Efeze verzoek ik de geestelijke wapenrusting aan te doen. Strijdt dan niet tegen elkaar, maar tegen de werkingen van het vlees en de boze machten. Legt dan af alle onreinheid die u zo licht in de weg staat. 5. Doet de helm des heils op, zodat u zult groeien in uw geloof. 6. En tot hen die de Heere het zwaard heeft gegeven : Blijft in Zijn Liefde, en weest niet scherp van tong. Wie toorne, toorne in de Heere. 7. Blijft dan de weg van het geloof begaan, wetende dat gij een tegenstander hebt. 8. Gij zult dan niet rennen, maar list gebruiken. Heeft de Heere u dan niet geschoeid met de vrede van het evangelie ? Ziet dan, het evangelie is list. 9. De Christus overwon dan de duisternis in zijn zwakte, en niet in zijn sterkte. Elke zwakte in de Heere is list. 10. Heft dan uw schilden op als de wonden des Heeren, om de pijlen des satans te verstrikken. 11. Want zijn wonden spreken in donder van het komende oordeel. 12. Gij dan hebt lichten in vele kleuren gezien, die het palet der bevrijding vormen. 13. En als gij dan het Eeuwig Evangelie in uw harten hebt ontvangen, dan hebt gij een dubbel zwaard. 14. Streeft daarom zeer ernstig naar zulke gaven des Heeren. Welzalig hen die op zulke paden wandelen, want hen heeft God macht gegeven om tot de Geesten Gods te komen. 15. Belet hen daarom de ingang niet, opdat uw eigen ingangen gezegend zullen blijven. 16. En ziet er op toe dat gij geen deze kleinen beschuldigt, daar de Heere hen heeft weggelegd tot vertroosting. 17. Laat dan de lamp die brandt niet gedoofd worden.

23.

1. De jongeling heeft veel te lijden, totdat hij Gods Glorie ziet. De Luister des Heeren wacht op de jongeling onder een boom om hem te bespringen. 2. De jongeling wordt getrokken naar het midden in de jaren van slavernij, totdat de boog des geestes hem doorboort, en hij getrokken wordt tot de duisternis, waar het nachtlied hem vrijzet. 3. De droom komt als een bevrijder tot hoge torens, om hen te brengen tot het riet. 4. De jongeling wacht op dingen die nooit zullen komen, maar de Heere

geeft hem schepen die nooit voorbij zullen gaan. 5. De jongeling leert te slapen, om tot de nachtspelers te gaan. 6. Zij verachten hem niet omdat hij jong is, zij zien zijn stille traan. 7. De jongeling leert de bomen kennen, en de geheimenissen van het woud. De vogels die hem lessen geven, na zijn val. De geest heeft zijn hart doorboort. 8. Zijn wonden laten vogels spreken, en zijn kruis leidt de dieren van het woud. 9. Het is hem genoeg in pijn te leven, en te drinken van deze wijn. 10. Nooit meer terug wil hij, het zilver spreekt tot hem vanuit de lucht. 11. Het ijs bracht hem hier en maakte de snaren stijf. 12. Pas op, zijn hart is als een jonge leeuw, verslindende hen die de armoe verachten. 13. D'armoe was zijn sleutel tot hier, en hij leerde haar beminnen. 14. De raven kroonden hem tot koning, want zijn lompen maakten hem wijs. 14. Hij knielde voor haar neer, en gaf haar de sleutel van de oude rijkdom.

24.

1. Zij vonden elkaar in naaktheid, toen ze alles lieten vallen, en bedekten elkaar met wat het bos voor hen losliet. 2. Zij vochten met leeuwen en verloren hun verdriet. Zij waren koningen van de wildernis. 3. Zij vonden het kruis in oeroude tijden, gewikkeld in sneeuw, dat wat de hemel voor hen liet vallen.

25.

1. En ik zag een slang genaamd Leviticus, en zijn vel was grijs en hoornig. En hij had gruwelijke dingen gedaan. Hij was van de zee gekomen om de heiligen te misleiden en te verdrukken voor een lange tijd. 2. En velen werden bitter tot God, en anderen begonnen God om hulp te roepen. Maar de Heere hield Zijn poorten gesloten. 3. En Leviticus droeg een heilig zwaard, wat Hij uit de tempel des Heeren had gestolen. 4. Maar een engel des Heeren kwam uit de hemel dalen, om de slang te slaan en in een afgelegen put te werpen. 5. En zij sloot de put boven het hoofd van de slang, en bracht de sleutel tot een allerheiligste tempel. 6. En Leviticus begon luid te roepen, en het geluid was zo hard, dat hij nog vele heiligen kon verleiden. 7. Maar zij die de Heere bleven dienen joeg hij schrik aan in de nacht. 8. Na een tijd echter zond de Heere een vuur tot de put, en Hij noemde de put het Tweede Gehenna.

En ik zag een ander dier uit de zee komen gelijk een panter, en hij was genaamd Deuteronomium. En hij had vele heilige dingen opgeslokt, en ging uit om de kindekens te misleiden. En hij gaf hen vreselijkheden in de nacht. En de Heere sprak : Nu is het tijd mijn woord te zuiveren. En een engel steeg op vanuit de hemelen en sloeg de panter en zijn volgelingen met de ban. En de Heere dan, die Geest is, zegge dit : Veel bloedschuld kleeft aan dit dier, en Hij zond het dier tot de Tweede Gehenna, waar het dier verscheurd werd door wilde lammeren. En de schrik van deze roofdieren was zo groot, dat de hemelen en de aarde beefden.

En de Heere goot een schaal uit vol met bloed, om het Woord te reinigen. En hij stelde apostelen aan om het gezuiverde woord tot de volkeren der aarde te brengen.

26.

1. En een leeuw genaamd Numeri maakte zich groot tot de hemelen, en hij die het boek Jozua behoeft bracht een bak vol met ijs tot de poorten van de hemel. En deze bak was bijna zo groot als de aarde zelf. 2. En de Heere rees van Zijn troon en zond Zijn engel, maar deze werd voor negenendertig dagen tegengehouden. 3. En de engel kon alleen spreken : 'De Heere straffe u.' Zo groot was de onderdrukking van deze geesten. 4. En als zij het konden, dan zouden ze de Heere van Zijn troon stoten. 5. Maar de Heere had hun tijden en omvang al bepaald. En de Heere sprak tot Zijn

apostelen : Heiligt me nu het boek genesis en het boek exodus, en snijdt erin met het Zwaard des Geestes. 6. En zie, het eerste boek van Openbaring was voorbij gegaan, en haar verzen werden verdeeld onder de roofdieren des hemels en de heilige boeken. 7. En de Heere bracht een slachting aan in het boek psalmen, wat als zijn eigen vlees was. En de Heere stak een pen in de achtersten van deze geesten, en zegende het. 8. Zo werd er dan toegevoegd en afgedaan aan het boek psalmen, zoals de Heere bevolen had. 9. En toen richtte de Heere zich tot de evangeliën, en maakte er het boek Christus van. 10. En de Heere ordende de verzen, voegde er aan toe en nam er vanaf, zoals de Geest het wilde. 11. En zo werden er dan negen boeken des Heeren geheilgd en zij vormden het gezuiverde Woord des Heeren. 12. En het zilver des hemels daalde op aarde neer, en het zilver werd ijs. 13. En de Heere sprak : Opent dan de poorten van het nieuwe Woord, want zie, het oude is voorbijgegaan. 14. En ik zag een zwarte ruiter op een zwart paard zitten, en de poorten geraakten in vuur en de aarde en de hemelen begonnen te branden. 15. Zo is dan de komst van Eminius, en Zijn Zaad zal Izu heten. En bloed kwam over de aarde en de wateren, en boeken begonnen zich groot te maken tegen de hemelen. 16. En de tweede Christus verscheen in de wolken om de volkeren te hoeden. En Hij had een zware staf die alleen Hij kon dragen. En Zijn voeten stonden in het Tweede Jeruzalem, en waren als Michai. En zijn armen reikten tot aan Het Tweede Babylon. 17. En Hij scheurde het van de aarde weg. En Hij begon zijn benen te bewegen, en sprak als Michai. 18. En Zijn handen waren als de Marion, en hij droeg een tepel als de ronde zon op de borstplaat van zijn pantser. 19. En Hij had een helm en benen als Zurastael, en Hij begon grote woorden te spreken. 20. En de bomen van Sodom begonnen te vallen en het Zaad van Izu begon uit de mond van de Tweede Christus te komen. 21. En zo waren dan de dagen van Eminius. En de Heere was als een voerder van oorlog. 22. En zo zijn er dan tweehonderdttwintig dagen aangesteld over de zuivering van Zijn Woord. En na die dagen zal de bliksem rein zijn. En zij was dan als de Komst des Heeren.

27.

1. En zij dan die van de Tweede Reformatie zijn : Weet wel dat dit een gebod des Heeren is. Ik dan ben de Tweede Luther, en ik draag het vuur van Zurastael. Gij apostelen zult het woord reinigen en heiligen tot aan de uiteinden der windstreken. 2. Ja, gij zult het gezuiverde woord brengen tot de volkeren der aarde, en dan zal het einde gekomen zijn. 3. Blijft dan niet met het onzuivere woord de volkeren onderdrukken, want dan zal de Heere komen met de ban, en u slaan. 4. Ziet, de Heere en de Tweede Christus staan aan de deur, en zij kloppen. Doet dan open, opdat zij u niet met het onzuivere van het Woord laten vergaan. 5. Groet hen die in Spanje zijn. Als zij van het Tweede zijn hebben zij niets te vrezen. 6. Laten zij dan ook met deze woorden rekenen, anders zal er met hen niet gerekend worden. 7. Gij immers hebt uw zielen gereinigd in Zurastael. 8. Vreest dan niet voor het Grote Spanje. God is groter. Zelfs het kleine van God is groter dan de grootheid der mensen. 9. Vreest hen dan niet, want wat zijn zij te achten ? De Heere heeft immers hun tijdperken ingesteld, en weet wanneer ze weer zullen vergaan. 10. Draagt de Heere dan niet hun adem in Zijn schoot ?

28.

1. Ziet dan, de Heere is recht. Hij is de Heer der Heeren, en hij geeft het goede aan de wijzen. Gij dan hebt uw kinderen gebracht tot het tweede Spanje. 2. En tot hen dan in het tweede Spanje zeg ik : Gij piekert op hoge bergen, opdat de Heere u bespare, zodat u niet groot wordt op de vlaktes van Babylon. Het dikke des heeren dan is dunner dan het dun der mensen. 3. Het dunne des heeren is dan dikker dan het dik der mensen, en dit geheimenis is groot. Gij dan hebt acht gegeven op het woord des heeren, en met zuivere maat gemeten. Ja, gij zijt meters voor zijn aangezicht, en de heere uw God heeft u geheilgd vanaf den beginne. 4. Gij dan die als gevangenen leeft : Weest als

gevangenen in de Heere. De Heere bevrijdt u op Zijn tijd. Maar wat dan gebondenheid en vrijheid is bepale de Heere. Gij hebt het brood des Heeren hoog gebakken. 5. Ja, gij waart als bakkers der heilige tabernakel. Gij dan bent de Heere getrouw geweest. Hiermede hebt gij roofdieren om de tuin geleidt. Wonderbaarlijk zijn de listen des Heeren. Komt dan, en nadert tot Zijn Geest, gij van het tweede Spanje. 6. De broeders dan hebben het brood bereid en zijn goed voor uw kinderen geweest. Gij hebt dan de geheimenissen des Heeren bewaard als veren in de broze potten bij het altaar. Ja, gij hebt erop acht gegeven als op een lichtend licht in duistere dagen. Gij weet thans dat de duisternis des heeren lichter is dan het licht der mensen. 7. Ook hebt gij erop acht gegeven dat Zijn licht vanuit de duisternis kwam, en oprees als de heilige ster. Zijn duisternis dan is heerlijkheid. Ziet dan, de Heere Heere heeft Zichzelf gewikkeld in wolken, en Zijn Helm is Zaligheid. 8. Nadert dan tot Zijn recht, opdat Hij u meer recht geve. De heere heeft u als lampen neergezet op een duistere plaats, en gij weet daar zeer goed mee om te gaan. Daarom houd ik ook niet op om de Heere daarvoor dankzegging te geven voor Zijn aangezicht. 9. Hij is een goede geleider, en de buizen van zijn altaren zijn licht. Ook hebt gij de Woorden van Metensia niet veracht. Maar gij waart als hen die het woord beminden. 10. Ja, de Heere heeft waarlijk engelen onder u gezet, en zij dragen de geheimenissen Gods over de vleeswording der engelen. Gij die de veer draagt, gij zult meerdere veren dragen. Zo zal de komst des Heeren dan zijn als de komst van een mensenzoon. 11. Ziet, de Heere Heere is dan vlees geworden, en Zijn Geest. Waakt dan, want gij weet niet in welke gestalte Hij tot u zal komen.

29.

1. Ziet, de Heere dan is het recht der wezen en weduwen. Staart gij dan nog steeds elkaar aan ? Enkelen onder u zijn dan de wakers des Heeren, maar de Heere waakt in gerechtigheid. 2. Ziet dan, Hij heeft u gegeven van het brood des hemels en het verborgen manna. 3. Kent dan de vele kruiken van Zijn ark. De Heere zal dan uw monden vullen met lachen, en gij zult heilige dingen verkondigen. 4. Ook hebt gij de wijn des Heeren niet veracht, en hebt gij uw Franse broeders in de verdrukking niet gemeded. Zij dan die van het Tweede Frankrijk zijn groeten u. 5. Ook groet ik u dan in ijs. Gij doet er wel aan elkaar ook in ijs te zegenen. 6. Zegent dan elkaar, opdat gij gezegend zult worden. Vervloekt elkander dan niet, en bidt voor uw vijanden. 7. Indien gij dan uw vijand kunt vergeven, zalig zijt gij. Want de Heere Heere kent vele vergevingen, en zijn zaligheden zijn niet met weinig. 8. De Heere Heere heeft niets aan vuile monden, en zij wiens lippen bezoedeld zijn lopen voorop naar het oordeel. 9. Gij Spanjaarden van het tweede, de Heere redt u. Maar hen die van het eerste zijn, zijn reeds verloren. 10. De Heere Heere heeft reeds zijn vloed gezonden, en de tweede ark staat voor u klaar als een heilig testament. 11. Houdt dan niet vast aan het oude, opdat de Heere u niet met het oude ten onder laat gaan. 12. Zo zal de dag des Heeren dan zijn als een Schip, en Zijn vlam zal haar leiden. 13. Zalig zij hen die in het schip zijn, en het brood des Heeren bakken. Gij hebt dan vele bakkers onder u. En enkelen onder u hebben de ouden willen bezoeken, maar de Heere heeft hen tegengehouden. Soms is het ijs beter dan de ontmoeting. 14. En gij hebt elkaar daaronder niet minder geacht, daar het een gebod des Heeren is. 15. Zo brengt de Heere u soms in verdrukking, en soms is Hij het die deuren sluit. 16. Houdt u dan vast aan de geschriften van Kabbernal die ik u heb gegeven, want zij zijn als de testamenten des geestes. 17. Ook hebt gij dan wijn geschept uit de bakken des hemels, en de stem van de Heer in de dingen verstaan.

30.

Staf van Spricht

1. Getsemane, water stroomt tegen de muren. Ik verdrink in hoge dromen. Ik druk mezelf tegen de muur, maar er is geen ontsnapping hier. 2. Getsemane, de deuren zijn op slot. Er zit niets anders op dan hier te blijven, en te wandelen met God. Iemands tranen, deze dromen, een geschenk van hart tot hart. 3. Ik heb niet veel draagkracht en het dringt door mijn huid. Ten slotte val ik op de grond, en alles om me heen wordt groter. 4. Ik durf mijn ogen niet meer open te doen. Iemand slaat zijn armen om me heen. 5. Dan leer ik de tranen te drinken, en diep in deze armen te zinken. Mijn kamerdeur staat open. De hemelen zijn geopend, maar Golgotha riep tot mij. 6. Na vernedering komt het sterven, het is de weg van onze Heer. 7. In Zijn voetstappen te lopen, komt Hij zo dichtbij. Het kruis is maar een vlam van Liefde, om één te worden met Hem. 8. De Traan is maar een beker, om van Zijn wolk te drinken, en met Hem te wandelen en op te stijgen, tot het paradijs. 9. Datgene waar rozen mee bekleed zijn, zo goddelijk en koninklijk, dat is ons kleed.

10. Golgotha, als een haai die ons heeft gegrepen. Brekende onze botten tot het kruis van onze Heer. We hoeven niet bang te zijn, we krijgen een nieuw lichaam. 11. Golgotha, de staf van Spricht, om ons door smalle deuren te laten gaan. Laat dan de schatten maar versplinteren, anders kan het toch niet mee.

31.

Niet genoeg

1. We zijn nog niet zwak genoeg om binnen te gaan. We staan nog steeds op beide benen, wachtende op de verbrokenheid, om als bomen in zijn paradijs te staan, zaad twintigvoudig gestorven. 2. We hebben nog niet genoeg tranen geweend, om hoog op de zeeën te staan, om als de Christus op water te wandelen, om de stormen, de donder en de golven te verstaan. 3. We hebben nog geen lasten zwaar genoeg, om als rotsen in de hemelen te zijn. 4. Golgotha heeft ons nog niet gegrepen, de Heere lijdt daar nog alleen. 5. Wij slapen, onze dorens zijn nog niet diep genoeg, om onze geest op te wekken tot eenheid met onze Heer. 6. Ons bloed nog steeds stromende in ons eigen lichaam. Oh nee, er is nog steeds geen leiding van onze Heer. 7. Geen bescherming, geen engelen, wij lieten hem daar alleen staan, hangende aan een vervloekt kruishout, hebben wij Hem daar laten vergaan. 8. Dieren werden geofferd tot onze monden, om in onze buiken te worden vergeten. We hebben het Christus aangedaan.

32.

De Herfst

1. Ik ben arm, ben je bang voor je naaktheid ? Je hebt zeker wat te verbergen. 2. Ik ben arm, er is geen leven in rijkdom. Dat wat je vasthoudt zal je opvreten. 3. Ik ben de herfst, en door Spricht ingegaan. De deur van Golgotha is smal. 4. Hier trillen de liederen van slaap. In armoede hebben wij Zijn gezicht aanschouwd. 5. Zij die niet arm zijn, zijn blind. 6. Zij die geen honger hebben zijn doof. Ik zit hier in ketenen, totdat ik zelf een keten ben geworden, zo smal als Spricht. 7. Ik ben arm, niet bang voor de naaktheid, want de duisternis bedekt haar. 9. Ik ben arm, er is geen leven in rijkdom. Het is een licht dat alles ontbloomt. 10. Ik ben de herfst, door Spricht ingegaan. Ik heb de naakten bedekt door mijn val. De herfst is tot een bedekking, voor hen die Hem vrezen. 11. Golgotha is wat de hemel losliet voor hen die tot de hemelen komen.

33.

Komen tot de arme

1. Gij dan die rijk zijt, hoe durft gij tot de Heere te komen, zonder eerst tot de armen te gaan ? 2. Weet gij dan niet dat de arme de Heere is ? 3. Hoe durft gij tot het Woord te komen, zonder eerst de arme te voeden ? 4. Gij dan die uw man in de steek gelaten hebt, hoe durft gij tot de Heere te gaan ? Immers uw man is de Heere. 5. Gij zult door de staf van Spricht geslagen worden als de bliksem.

34.

De Spiegel van binnen

1. Het zicht is als een spiegel. De witte spin heeft gestoken, om beminden tot de mystiek des Heeren te brengen. Als witte sneeuw kende de Heere u, hen die Zijn paarden dragen. Het schuim van rozen droegen zij als het schuim der rozenwijn. 2. Kostelijke ambachten des Geestes, als platen in zijn boek, hebben de webben reeds geweven, het spiegelende zicht. 3. Hij die de harten schiep, heeft u zijn doornenkroon gegeven, als spiegelend zicht in uw hoofden geweven. Zij droegen de helm, die mannen van zilver. Nu draagt gij 't ook, nu jaagt dan de dood geen angst meer aan, het spiegelt alleen die kostbaarheden van de Heere diep binnenin. 4. Het raakt je niet meer aan. Gij hebt immers het ijs als uw meester, na lange dagen van sneeuw. 5. Het spiegelend zicht, door je hart bemint. Je hebt niets meer te vrezen. Alles is er al, het moet alleen nog ontdekt worden. 6. Is er een wereld buiten mijzelf ? Ik ben toch altijd binnen. 7. Ik kom niet buiten, het is alleen de weerspiegeling. De echo van mijn hart te volgen, buigt en splitst in de wind. Ik kan alleen maar komen tot Hem die mij bemint. 8. Ik ben dan in ketenen, ik ga dan gebukt door het leven. Ik rouw er niet meer om, 't is maar voor even, een weerspiegeling binnenin. Als ik het heb gevonden is het afgelopen. 9. De wond blijft klagen, totdat het is verbonden.

35.

Niet Rouwen

1. Ik heb iemand gestoken als een spin. Het was nog wel iemand die ik beminde. Zo rijk, paarden aan de polsen, zo arm, voeten bloedend in de sneeuw. 2. Ik heb iemand gestoken als een spin. Ik spoot mijn gif zo diep, ik weet niet of het ooit nog naar boven zal komen. 3. Het was nog wel iemand die ik zo beminde. Ik werd beschuldigd van haat. Ik heb niet lang meer te leven. 4. Treur niet om mij, ik ben er geweest. In 't graf van Christus ben ik aangekomen. Waar slangen des hemels rouwen in de kou. Het vuur van haat werd Hem dan aangerekend. 5. Maar Hij opende alleen maar deuren, heeft de kindekens uitgeleid. 6. Hij stak hen als een spin, allen die de deur blokkeerden. Netjes had Hij om doorgang gevraagd. 7. In 't graf van Christus ben ik aangekomen. 't Is hier doodgaan voor een sleutel, gekruisigd worden om een kinderhand te bereiken. 8. Zachtjes leid ik hen tot veiligere paden. Maar 't verleden roept nog steeds : Kruisigt hem. 9. 't Is hier sterven na de dood, als een vuur van gif en liefde. Rouw niet om mij, als de naald van de koning mijn hart bereikt heeft, ben ik voor eeuwig vrij. 10. Rouw niet om mij. Rouw liever om uzelf, gij gebonden. Ik zet de kindekens vrij. 11. Het schuim der wijnen drink ik, in 't schuim der rozen zwem ik, waarom zoudt gij dan rouwen ? 'K heb het graf van Christus gezien, ik heb iemand gestoken als een spin, iemand die ik beminde. 12. Rouw niet om mij, maar steek hen die poorten dichthouden, die kindekens misleiden. Rouw niet om mij, maar opent de poorten en laat hen vrij.

36.

Het kleine en grote Gods

1. Dit zijn de woorden van de Gegetene : Ik dan ben door wolven gegeten, Ik die het midden van het bos heb bereikt, de open plaats des Heeren, overgoten in het licht der zon. 2. Heilig bent u die de

rijen laat schuiven. Ik dan heb mijn paulussen opgesteld om de wereld te overspoelen met de Nieuwe woorden des heeren. 3. Zij zullen u dan een nieuwe woede brengen, opdat uw lichamen genezen worden. 4. Zalig bent gij wanneer gij de toorn des heeren in uw lichaam draagt en door hem bent apart gesteld. 5. Zalig hen die niet zitten in de kring der lachers of de kring der spotters, maar door de toorn des heeren gegrepen zijn om bewaard te worden tot aan het laatste der dagen. De Michai brandt in mijn handen, en ziet, er zullen nog vele Michai's komen. 6. Zalig zij die de tepel des Heeren dragen, want zij hebben rijkelijk toegang tot Spricht, en zalig hen die het schoeisel des Heeren dragen, want zij hebben overvloedig toegang tot het dikke Gods. Veracht dan de kleinen onder u niet. 7. Want wat groot of klein is bepale de Heere. De Heere dan laat Zich vinden in het kleine. 8. Het kleine Gods is dan groter dan de grootheid der wereld, en Zijn Grootheid is kleiner dan het kleinste der aarde. 9. Laat dan hen die gegeten zijn komen tot Brannan. Amen Metensia Eminus.

Zaligsprekingen

10. Zalig hen die door tijgers gegeten zijn, want zij zullen tot Spricht naderen en hebben toegang tot het kleine Gods. Zij dan die zeggen niet in het kleine te geloven, geloven daarmede niet in God, die immers het kleine is. 11. Laat een ieder dan weten dat niemand van zulke ongelovigen de hemelpoorten zullen beervan. 12. Uw grootheid vare met u ten verderve. Maar zalig zij hen die de Heere liefhebben. Het zoete der hemelen is voor hen, en zij eten van de dikke druipende honing des Heeren. Zalig hen die door de leeuwen gegeten zijn, want zij zullen troost vinden. 13. Zalig hen die door haaien en krokodillen gegeten zijn, want zij zullen de krachten der krokodillen beervan en de druipende bruisende lijn des Heeren zal vanuit hun binnenste vloeien. 14. Zij zullen enige tijden door hoofdpijnen gekweld worden, maar de lijn des Heeren zal hen stap voor stap vrijzetten en bedekken. 15. Ja, zij zal vloeien door de Nieuwe Helm des heeren en gij zult zalig heten. Lacht hen dan niet uit die gegeten worden, en eet ook niet van hun vlees, want dan zal de toorn des Heeren tegen u ontbranden. 16. Vlucht dan ook niet terug tot oude leugens, want gij mocht zelf eens gegeten worden. Zalig hen die in de Heere gegeten worden.

Over zonde

17. Zij die dan gekomen zijn tot de beer en de insecten : Gij zult gegeten worden, want alle poorten hebben tanden. Zij dan die gekomen zijn tot de velden der wilde katten : Gij moet weten dat de Heere Heere de Grootste Eter is, daar Hij de Gegetene is. 18. Zij dan die lammeren verscheuren zijn reeds overgeleverd aan Hem. Want een grote zonde is het om een jong dier te eten, daar het nog geen leven heeft gehad. Zij die zulke maaltijden klaarmaken zijn zelf reeds rijp geworden om een maaltijd te zijn. 19. De Heere Heere dan laat niet met Zich spotten. De Heere rekent zulk een zonde tot spot, daar jonge dieren daartoe niet bestemd zijn. Wie dan een oud of zwak dier eet haalt ziekte naar binnen. 20. Dit zijn de woorden van de Gegetene : Gij dient elkaar lief te hebben. Zij die niet liefhebben zullen gegeten worden, zonder dat iemand hen opwekt. Zij dan die de eters van vlees haten : Gij staat in uw recht, en gij doet er goed aan zulken te haten, daar de Heere Heere hen haat.

Het loon van de zonde

21. Zo is dan het eten van de levende schepping het bespotten van de Schepper en zulken zullen niet ontkomen. Tot de tanden van de hel zijn zij genaderd en zij zullen niet wederom opgewekt worden. 22. Tot dodenrijken en de rijken der schimmen zullen zij dalen, en de Heere zal hen op de daarvoor bestemde tijden voor eeuwig laten slapen. Meent dan niet dat gij tegen elkaar kunt zondigen zonder daarvoor de straf te dragen. 23. Gij dan zult uw straffen uitzitten. Gij dan zult werken totdat gij

hetgeen u uw broeder heeft aangedaan hebt terugbetaald en zijn huis in orde hebt gemaakt. Zo zult gij dan de slaaf zijn en de dienstknecht van degene tegen wie u gezondigd hebt. 24. Verwoest dan geen zielen door vlugge oordelen of achterklap, maar bewaak uw hoofd en mond met dubbele bewaking, want gij mocht eens spreken of met uw ziel overleggen over uw broeder, en uzelf binden tot de wederopbouw van zijn huis. 25. Zij dan die levenslange wonden toebrengen zullen daartoe ook levenslang slaaf worden. Zalig hen dan die het kleine als groot zien, en het grote als klein, want zij hebben de ogen des Heeren.

Over stilte en armoede

26. Zalig zijn zij die het huis van stilte hebben gevonden, want zij zijn losgekomen van veel slavenwerk. Zij dan kunnen hun eigen huis opbouwen, en de Heere beminnen. Zalig zij die de parel van armoede hebben gevonden, want zij zullen door haar bemint worden, en dezen zullen gaan van Assisi tot Assisi. 27. De Heere rake dan uw ruggegraat aan, opdat de tepelen des Heeren zich openen, en gij de melkselen der heerlijkheid drinkt. Gij dan die de woorden van de muis in uw binnenste draagt : Komt dan tot het Vuile des Heeren. 28. Want het Vuile Gods is schoner dan het schoonste der mensen. Gij hebt dan een bron van het Vuile Gods in de natuur, om uzelf te reinigen en uw huis. Weet dan dat het schone der mensen ziektes verwekt, en zij zijn op weg naar het huis der ratten.

Zaligspreking en troost

29. Zij dan die vlees eten zullen de bouwstenen worden van het koninkrijk der dieren, en ziet, zij zullen slapen. Zalig de gegetenen, want zij hebben de proef doorstaan en zijn ingegaan door de poorten van het koninkrijk Gods. 30. Zij zullen het bos terugvinden en de bomen des hemels aanhangen. Ja, van hen zal de aarde zijn en al wat daarin is. Ja, van hen zal de gehele wereld zijn en al wat daarop leeft, want ziet, zij zijn de adem des Heeren. 31. Gij die jong zijt hebt veel te lijden, maar houdt goede moed, want de Heere heeft uw pijn gezien. 32. Het oog des Heeren is op u, en gij zijt veilig. Niets dat gebeurt is zonder betekenis, en zelfs de kleinste herinnering is een symbool des Heeren, om u te leiden door de woestheden van de toekomst. 33. Zij die jong zijn, schreit niet teveel, want de Heere is met u, de Heere is bij u, en is uw Gids en leidsman. De wildernissen zijn groot, en de gevaren zijn velen, maar uit die allen redt de Heere.

Voorschriften en Waarheden

34. Weet gij dan niet dat de Heere in de stilte is, en dat de Heere in pijn is ? Klaagt dan niet wanneer gij door Hem apart gezet wordt alsof u iets vreemds overkwame, want Hij behoedt u voor vele gevaren en veel slavenwerk. Gij dan zult de Heere beminnen en niet de hoeren der wereld. 35. Is uw oog dan zuiver dat u weet wat er gebeurt ? Richt uw oog dan op de gegetenen der wereld, en weest verlicht. 36. Gij die ziek zijt, weest ziek in de Heere. Want het Zieke des Heeren is gezonder dan het gezondste der mensen. Ziet dan, het gezonde der mensen is ziekte. Gij die oud zijt, weest oud in de Heere, want het oude Gods is jonger dan het jongste der aarde. 37. Zij dan die gevangen zitten : Treurt niet, maar weest als gevangenen in de Heere. Het geketende Gods is vrijer dan de vrijsten onder de mensen. 38. Zij dan die slaven zijn : Weest als slaven in de Heere, want gij zijt bouwers van het Koninkrijk Gods. Nu is er dan niets zonder nut, en deze allen zijn de raadselen des Heeren, die gij als heilige sieraden om uw nek dient te hangen. 39. Hiermede kunt gij tot de Heere spreken, en de Heere Heere zal naar u luisteren. Gij bent dan niet als wezen overgeleverd, maar de engelen des Heeren hoeden u. 40. En tot de weduwen zeg ik : Gij hebt de Heere als man. Gij hebt niets van node. In de Heere zijn geen doden, en ziet, alles leeft.

Over koorden en ketenen

41. Gij die tobt met het verleden : De Heere zal het verleden in Zijn Handen veranderen en het zal u tot een instrument zijn. 42. Mannen, richt uzelf op uw baarden, die de koorden zijn tot de dieren des hemels, en zij zijn de sieraden des Heeren. Vrouwen, richt uzelf op de haren van uw lichamen om verbonden te worden met de bomen des velds. 43. Gij hebt geen sieraden van node, tenzij de Heere u heeft bevolen iets te dragen. Streeft dan allen binnen te komen in de Traan des heeren, die alle pijn laat wegvloeien, en dit zal uw verborgen sieraad zijn. Gooit dan geen paarden voor de zwijnen. 44. Zij die de Heere dienen zullen uw sieraden opmerken en hebben de sleutelen tot uw hart. Gij hebt dan geen eer of aanzien van node, daar de Heere u eert, en zij die Hem dienen. 45. Gij echter moet kleiner worden om de poorten der eeuwige behoudenis binnen te gaan en het eeuwige des hemels. 46. De schatten daar zijn verborgen, maar niet voor hen die de Heere dienen en Hem liefhebben. 47. Zij dragen immers zijn traan en zien alles. Zij die jong zijn leven in vele onzekerheden, daar zij de dingen des Heeren niet zien. 48. Zij zijn dan wild en hebben pijn, daar zij de ketenen des Heeren nog niet hebben gevonden. 49. Laat dan de ketenen des Heeren u tot rust brengen. Gij dan die jong zijt hebt vele gevechten, maar de ketenen des Heeren zullen daar een einde aan maken.

Het lijden als instrument

50. Gij dan zijt piraten des Heeren, daar gij voor Hem rooft en de hel plundert. Aanvaardt daarom het lijden als instrumenten om werk te kunnen verrichten. 51. Gij dan die uw leven hebt behouden, er is dan geen plaats voor het zilver Gods. 52. Zij die zich dan niet vuil hebben gemaakt in de Heere, zij hebben ook geen deel aan het Goud des Heeren. 53. De waardige piraten des Heeren zullen bemint worden door hen die Zijn tranen in hun binnenste dragen. En hun hoofden zijn sereen als doorzichtig glas gevuld met lijm. 54. Zij lachen wanneer gij lacht, en zij huilen wanneer gij huilt. Zij die dan op de aarde leven zijn omringd door roofdieren, maar de piraten des hemels hebben de hemelen in hun bezit, en zij worden bemint door de lichten. 55. Ja, zij hebben deel aan de druipende en bruisende lijm des heeren.

37.

Over de Christus

1. Gij dan zijt piraten des Heeren, dragende Zijn geheimenissen. Maar deze zijn openbaar geworden voor hen die de tranen des Heeren dragen. 2. Weent dan niet wanneer de Heere iets bij u wegneemt, want de Heere brengt u in balans. 3. De Heere vormt en kneedt u in Zijn Hand. Raakt niet in paniek wanneer Hij iets wegneemt, want dan heeft de Heere iets beters voor u. 4. Zou de Heere dan zijn maaksel verwaarlozen ? De Heere zal zegenen zij die u zegenen, en vervloeken zij die u vervloeken. 5. De heere zal eer brengen, zij die u eer brengen, en teneerbrenge zij die u teneerbrenge. 6. Weet dan dat alles de Hand des heeren is, daar Hij u vormt en niemand anders. Alles is dan Hem tot instrument. 7. De Heere dan overziet alle dingen. Rouwt dan niet wanneer gij niet behoort te rouwen. Gij dan zult de tijden des heeren kennen. 8. Weest dan een piraat des Heeren en zoek de dingen die in de hemelen zijn, opdat ge niet op de aarde misleid worde. 9. Houdt dan vast aan het Woord des Heeren, opdat gij niet in allerlei leugenstrikken terecht komen. Mijdt hen die u een rad voor de ogen laten draaien. 10. De Heere houdt dan niet van hen die kabaal maken, daar zij de Stem des Heeren uitdoven. Ontvoerders van zielen noemt de Heere dezen. 11. Gij dan gaat van stilte tot stilte opdat gij ziet waar het op aankomt. 12. De Heere behoeft dan uw harten in zwijm, opdat gij niet door de gedachten der wereld wordt weggetrokken. 13. Gij dan zijt piraten genaderd tot de

Traan des Heeren, als de Traan van het Gegetene. En ziet dan, Hij is de Gegetene, als de Volmaakte Ziel des Geestes, als een verscheurd kledingstuk opnieuw genaaid. 14. Hoe meer u verscheurd bent hoe meer er plaats is voor de dingen des hemels. Ziet, het koninkrijk der hemelen bestaat dan uit snippers. 15. Zij dan die van as tot as gaan hebben het eeuwige leven en zullen de vleugelen des Heeren ontvangen. Altijd vrij zijn zij. 16. Gij dan die op de kusten van het tweede Kolosse staan : Aanvaardt dan de piraten des Heeren, en laat hen drinken van de tranen die te Kolosse zijn. 17. Zo bemint dan de geest de ziel, opdat de wateren en de vissen stromen, en zo ook in het tweede des Heeren. 18. En zo is dan de tweede geest de moeder der beminningen en de moeder van de Herman, hij die tussen het ijs en het vuur staat als een verborgen brug des Heeren, onder de Christus. En zo moest Hij een tijd onder de Christus staan, om tot een kap van Christus te worden. En ziet dan, hij is de blauwe kap. 19. En ziet dan, Hij is de wilde Christus. 20. Ook bent gij dan tot Maser gekomen, die de Arme Christus is. Ziet dan, zij zijn allen de Tweede Christus die van Christus is. 21. En Hij zal voortkomen uit de Christus en Hij zal wederkeren tot de Christus. Leert dan alle Zijn Namen kennen. 22. Want daar de Geest en de Heere vele namen hebben, zo heeft ook de Christus vele namen. 23. En zo zal dan Renok de Herman wederom verwekken, en Hij zal tot Maser komen. Nu zijt gij dan ook genaderd tot Dezer, de Christus van het Oer, en tot Jazel, de Christus die gevangen was, en tot slaaf is gemaakt. 24. En zo waren Jazel en de Christus één toen zij tot Jozef kwamen, die een voorbode van de Christus was. 25. En laat dan thans niemand u misleiden, want toen de droom sprak over de machten der hemelen die voor hem moesten buigen, zo sprak de droom over een verre toekomst. 26. Want zoals Jozef koning werd over Egypte, zo zal hij koning zijn over hen die de verborgenheden Gods leren kennen. Want ziet dan, Hij was de Heere die in verborgenheid en in list tot de aarde kwam, om de weg van de Christus te bereiken. 27. En zo is Jozef dan Christus de Slaaf, waarmede Hij de weg der vrijheid bewandelde. 28. Ja, want zoals Christus vrij is gekomen en koning is geworden, zo zullen ook allen die in Hem zijn als vrijen en koningen regeren. 29. En zo zijn dan Renok, Herman, Maser, Dezer, Jazel en Jozef één tot de Tweede Christus die van de Christus is. En zij zullen voortkomen uit de Christus en zullen tot de Christus wederkeren. 30. Zo zijn er dan vele karbulijnen, maar zij zijn allen één. En zij zullen gaan van vlees tot vlees, totdat de Nieuwe Schepping van het Tweede gekomen is. 31. Laat hem die wild is dan het vuur en het ijs kennen. Zij die dan de blauwe kap kennen zullen tot de Peter komen, en de geheimenissen van het bos zien. Ziet, Hij is dan de gegeten Christus. 32. En Hij heeft dan een wolvenwagen om alle piraten in de Heere te leiden. 33. Hecht u dan aan de Christus die zeven koppen heeft. En ziet, Hij dan is de Tweede Christus, als het Beest des Heeren. 34. En Hij dan vertegenwoordigt het Nieuwe Lichaam, terwijl God de Vader de Ziel vertegenwoordigt en Zijn Geest de tweede geest en geest der mensen. 35. Wordt dan als mensen van het Tweede, en nadert tot Metensia die uw kandelaar is. 36. En zo zal dan het Tweede als het Eerste zijn, en zij zal tot het Tweede Terugkeren, als de klok des Heeren en de Tweede Geest. 37. Zij zal dan zijn als een moeder die haar kinderen voedt, en zo zullen de tepelen des Geestes oprijzen, en dan zal de Karazuur tot de aarde komen. 38. Wee hen die dan nog op de aarde zijn in die dagen. 39. En zo zal Marion tot de Geest des Heeren worden, en zij zal uit Peter voortkomen. En zij zal zijn als de duif en de raaf, kennende de geheimenissen van het bos. En ziet, deze geheimen zijn groot. 40. Want wij allen zijn voortbestemd om als de Geesten Gods te worden, en aan hen gelijkvormig, en zo ook de Christusfiguren van de Utmiren. En zo zal ook de Christus als de Geest Gods worden. 41. Gij zult dan niet wederom de Christus binden aan uw canons, want deze witte duif is gemaakt voor vrijheid, om vele namen te dragen en vele namen te worden. 42. Al gij die de Christuscanons heeft bedacht, weest gebonden. 43. En zo zullen dan de canons des Heeren verschijnen, en ziet, zij zijn open, en zij zijn vrij. En zij komen voort uit het Tweede en keren weder tot het Tweede. 44. En dan zullen alle discipelen bekleed en geketend

worden door Zijn canons, en zij zullen naar de eeuwige velden van vrijheid worden geleid, en zij zullen niet van node hebben dat iemand hen bindt. 45. En zij zullen zijn als de Geesten Gods, rondvliegende om de Klok des Heeren. En dan zal de Ziel des Heeren opstaan, en zijn namen, en zij zullen geleid worden tot de Wilde Geesten des Heeren. 46. En zij zullen zijn als wilde ganzen zoekende naar de eeuwigheden van het Tweede. En als dan de Geesten Gods en de Zielen des Heeren tot elkaar komen, dan zal er een nieuwe ziel voortkomen, en een nieuwe geest, met een nieuw lichaam als het nieuwe vlees des Heeren. 47. Want zij die niet als de Ziel des Heeren willen zijn, zullen ook geen ziel hebben, en zij zullen ook geen nieuw vlees worden. 48. Hoe kunt gij dan verwachten nieuwe lichamen te ontvangen wanneer gij niet als Christus wilt zijn ? Hij dan is het nieuwe vlees. 49. Gij lijdt omdat gij onwetend zijt over deze dingen, maar wanneer gij de kennis Gods hierover ontvangt zult gij zalig zijn, en valt alles in kannen en kruiken. 50. De Tweede Geest zal Zich dan hechten aan de Tweede Ziel en zal zijn als de Klok des Heeren. En haar zoete muziek zal nieuw vlees voortbrengen.

38.

Troost en Rust

1. Gij zijt dan getrouw geweest, en gij hebt de kaprunnen gezien als de verbindingen tussen de geest en de ziel, en deze verbindingen zijn teer. 2. Ook hebt gij dan de tranen leren kennen als het bloed des Geestes, maar dit dan is u tot heilig zaad in de Heere. 3. Gij weet dan ook dat het grote Spanje als het grote Pasen is, daar de nachtlatingen de tijden des kruises zijn. Gij weet dat gij dit alles zult overwinnen als ware dienstknechten voor het aangezicht van God. 4. Het dier is dan uw adem en de regelaar van uw lichaamstemperatuur en dat van uw allerheiligste zielen. 5. Zij dan vertegenwoordigen de heilige voorwerpen in de tempel des Heeren en zullen u tot kaprunnen zijn. 6. De Heere dan wortelt door Zijn Geest en door Zijn kruis. Zonder de kaprunnen zoudt gij niet tot overwinning kunnen komen. 7. Gij weet dan ook dat het gekraai der hanen niet zonder reden is gebeurd, daar zij de tijden des kruises aankondigen, en de tijden des Heeren. 8. Zij dan verspreiden de vuurroden, die de kruisliederen des Heeren zijn, en de kloppingen van Zijn hart en aderen. 9. Het vuurrood is dan het bloed der zielen, maar dit is u ook tot heilig zaad en kruid, stromende uit het vuurnood van Metensia. 10. Zij dan draagt de sleutelen der genezing, in heilige sacramenten bereidt. 11. Leert dan de sacramenten van het tweede kennen, om dienst in de tempelen te doen en daardoor uw zielen te behouden. 12. Gij dan hebt leren werken met het zuiverende zout des heeren om het zoete zevenvoudig te zuiveren. Daardoor hebt gij stand gehouden voor het Heilige Aangezicht des heeren dat als een verterend vuur is. 13. Gij hebt troost gebracht aan God, en zult daarom getroost worden. 14. Bemoedigt elkander dan met deze woorden, want de tijden zijn boos. 14. Zoekt steun bij elkaar, en mijdt hen die uw woorden en handelingen verdraaien. 15. Hoe lieflijk is het als broeders en zusters van het tweede woord tezamen wonen. 16. Weet wel dat er indringers en valse lieden zullen komen die zullen proberen te stoken in de tweede gemeente, om uw naam te besmeuren. 17. Zondert u af van zulke lieden. Maar deze dingen moeten gebeuren om te zien wie de toets zullen doorstaan. 18. Gij dan bent zorgzaam geweest tot de piraten des Heeren, en gij hebt hen goede opvang gegeven. 19. Gij hebt dan de Namen van de Christus en de Tweede Christus leren kennen, en gij hebt hen allen liefgehad. 20. Gij hebt dan de verhalen van het kruis aangehangen, en hebt geen van hen verloren doen gaan, daar gij dienstknechten des Heeren zijt. 21. Gij hebt de geslachten der rechters en predictaten leren kennen, en gij hebt geen van hun tranen verloren doen laten gaan, daar het heilig zaad des Heeren is. 22. Gij dan hebt ook aan hermitaten woonplaats geboden en hen de wijn des Heeren laten drinken. Gij hebt de zon niet onder doen gaan over de

wijnen des Geestes. 23. Nu zal de Heere u dan ook de sleutelen geven om de geslachten der hermitaten te leren kennen. 24. Zij dan waken over de Zielen des Heeren. Gij dan bent getrouwe anfitaten geweest voor Gods aangezicht. 25. De Heere heeft u gezien, en heeft u een teken gegeven. De Heere heeft uw kruiken geopend. Laat dan de geesten der profeten tot de zielen der profeten komen, opdat zij in hun harten verzadigd raken. 26. Brengt dan hun wildheden tot rust, en vertaal voor hen de vaak moeilijke boodschappen die zij ontvangen, als waardige apostelen in de Heere. 27. De Heere heeft u aangesteld om hun huizen te besturen. Veracht dan de profeten niet, ook niet hen die depressief zijn, daar zij door moeilijke tijden heenmoeten. Zij worden door de Heere gemaakt tot roofdieren, en zijn u tot grote steun. 28. Zorgt dan voor de gemeente Gods, en voor hen die het minder hebben, daar de Heere u daartoe geroepen heeft. 29. Onderwijs hen over de veelvoudigheden Gods, en weest niet eenzijdig. Gij zult geen ketenen leggen om hun harten. 30. Laat hen die moe zijn slapen, opdat de toorn des Heeren niet over u kome. Zij die moe zijn hebben werk des heeren verricht. 31. Nu zal de heere heere dan bepalen wat werk is en wat niet. De rust des heeren is een zwaarder werk dan de arbeid der wereld. 32. En het werk des Heeren is een grotere rust dan de rust der aarde. 33. De Heere dan bepale wat werk en rust is. Gij bent er dan niet voor om elkaar te ketenen. Legt dan geen zware lasten op elkaar, want de Heere haat dezen. 33. Is het juk dat de Heere heeft gegeven dan niet zwaar genoeg ? Bemoeit u dan niet met elkaar. Of iemand werkt of rust gaat de Heere aan. 34. Geeft dan rust opdat gij veelvoudig rust zult ontvangen. 35. Zalig hen die anderen tot rust brengen, want zij zullen tot de overvloedige rust des heeren ingaan. Zalig hen die anderen tot troost brengen, want zij zullen vliegen op de vleugelen der arenden. 36. De Heere dan heeft u aangesteld tot Troosters en bakenen van Rust. Zorgt dan dat gij uw taak volbrengt. 37. Leert dan Renok de Trooster kennen die de Heere u als sleutel tot bevrijding heeft gegeven, want hij was dichtbij het hart des Heeren tijdens de kruisiging en bracht Hem troost. 38. Weest dan ge-ent op zijn boom, opdat gij deel hebt aan de heilige en verborgen sappen des Heeren. 39. Zij dan die het zoete gezuiverd hebben, hebben toegang tot het Sarhah des heeren.

39.

De Adem des Heeren

1. En zo zijn dan de kaprunnen ook de verbindingen tussen de eerste en tweede geest, en zij zijn als heilige altaren. 2. En zij zullen uw geest reinigen en laten uitreiken tot Spricht, waarin gij de tepelen des Heeren zult ontvangen. 3. Zalig hen dan wiens ruggengraten gereinigd zijn, want zij hebben toegang tot het kleine Gods, en tot het dikke. 4. En ziet dan, zij zullen zijn als de kaprunnen, als de altaren des Heeren. 5. Ja, zij zullen opstijgen als raven en velen tot wijsheid brengen. 6. En dan zult gij ademen vanuit het dunne en dikke Gods, en gij zult in het kleine openingen vinden, om vele vijanden te ontvluchten. 7. En de slangen des hemels zullen tot longen in u worden, en gij zult diep ademhalen en zien dat zij zijn als de darmen van het tweede. 8. En dan zult gij komen tot de Tweede Ziel des Heeren, die als het drop des hemels is. 9. En gij zult diep ademhalen en de wortelen des hemels zien. Op vele altaren zult gij liggen en gij zult geheiligd worden. 10. Zij dan die de dieren des hemels liefhebben zullen gaan van adem tot adem, maar zij die hen niet liefhebben zullen voor eeuwig slapen. 11. En het dunne en het dikke zal zevenvoudig gezuiverd worden in de Hand des Heeren. Laat u dan zuiveren, opdat gij kunt ademen. 12. Want de Heere zal de adem der wereld wegnemen, en allen die van de Heere zijn zullen in Hem ademen. 13. En die adem zal zijn als het drop des hemels. 14. En in de Roze Verbinding zullen de altaren des Heeren hersteld worden, en er zal een Nieuwe Schepping komen, de Schepping van het Tweede. 15. En vanaf dan zal er alleen nog maar geademd kunnen worden door de altaren des Heeren en de zuivering. 16. En zij die zichzelf

dan niet willen laten zuiveren zullen door de slangen des hemels gegeten worden. En zij dan zullen tot een eeuwige zielenslaap komen, en hun geest zal slapen en tot volkomen vernietiging varen. 17. En op die dag zal de Heere de snippers bijeen vergaderen en Hij zal ze maken als altaren, maar ook deze altaren zullen voorbijgaan. 18. Zo zal er dan een dag zijn tegen alle altaren, en onder hen zal een grote zuivering zijn. Laat u dan gaan van het kleine tot het kleine, opdat gij zult ontkomen aan een verschrikkelijk oordeel. 19. De Heere Heere heeft dan een dag tegen alles wat hoog is, en zal een slachting houden opdat het lage verhoogd worde. 20. Zo zullen dan allen die genaderd zijn tot Spricht niet beschaamd uitkomen, en zij zullen vele gezichten zien, en hun eigen weerspiegelingen als kostbare sieraden. 21. En zij zullen naderen tot het veelvoudig gezuiverde blauwe, om het wit des Heeren te zien. 22. En de Heere zal hen alle tranen afwissen. Gij bent dan genaderd tot een allesverwoestend vuur. Laat u dan zuiveren. 23. En in die dagen zal Acha, het Altaar des Heeren, groot worden, en Kabbernal zal uit Hem voortkomen, en Hij zal zijn als de bizon des heeren.

40.

De Bekers

1. En in die dagen werden de Christussen als de kaprunnen, en zij werden in Acha wederomgeboren. 2. En zij dan werden als de Karazuur tegen alles wat hoog was. 3. En ook de Geesten Gods en de Zielen des Heeren werden als de Karazuur, en zij werden geleid door Acha. En hij had grote macht. 4. En Eminius werd groot en kwam tot Materos, het kleine Gods, en er kwam een grote oorlog in de hemelen. 5. En de Tweede Karazuur kwam tot de aarde, en zij waren als de wolven, dienende de Herman. 6. En zij hadden als leider Rodoog, de wolf van Sarsia van Renok. 7. En de Herman werd groot op de aarde, en ook Renok. En zij werden als de Tweede Karazuur. 8. En het altaar der karazuren verslond de arken en de tronen, en de traan van de Peter kwam over de aarde brandende van vuur en zwavel. 9. En deze was als de traan van het altaar, en ook de Peter werd als de Tweede Karazuur. 10. En de bomen des hemels kwamen tot de aarde, en begonnen te onderwijzen. 11. En degenen die van altaar tot altaar gingen werden zalig, maar hen die stopten werden door de traan verscheurd. 12. En de traan van het altaar werd groot en begon te lachen en ook kwam er vuur van het altaar genaamd Vuur van Eminius. 13. En de Geesten Gods worstelden tegen elkaar, want ook de Heere zuivert en test Zichzelf. 14. En ook de Christussen en de kaprunnen begonnen elkaar te zuiveren. 15. En zij kwamen tot een plaats genaamd het tweede Pniel en het tweede Harmageddon, waar velen tot verlichting kwamen. 16. En zo zijn dit dan heilige plaatsen der engelen. En het Tweede Altaar des Heeren droeg vele namen. En er was donder en bliksem, en een boa constrictor kwam voort uit het Tweede Altaar. 17. En het Tweede Altaar splitste zich in vele altaren, en één dezer altaren was genaamd Brannan. 18. En aan Brannan werd een beker gegeven, en deze beker was vol met bloed. En het bloed veranderde in tranen, en werd daarna zaad. 19. En ook aan Acha werd een beker gegeven, en deze beker was vol met de dood. En de volkeren dronken van deze beker, en zij werden als drenkelingen, opdat er onder hen zuivering werd gebracht. 20. En in die dagen waren de haaien van de Herman in de zeeën van de aarde, en vele namen werden uit de tempelen gewist. 21. En ook aan Metensia werd een beker gegeven, die vol was met hoererij en slangen, en zij gaf de volkeren te drinken opdat er zuivering onder hen kwam. 22. En de reinen werden reiner, daar zij door de beker werden overgeslagen, en de onreinen werden onreiner, en zij werden overgeleverd aan hun lusten.

41.

Talgamen

1. Gij hebt dan gehoord van de beker van de Christus, en deze beker is genaamd Talgamen. 2. Gij die tot Hem wilt komen, zult ook van deze beker moeten drinken. 3. Wast uw geesten dan in deze beker, en gebruik deze naam aan het einde van uw allerheiligste gebeden. 4. De Heere dan luistert niet naar namen, maar naar harten. 5. Namen zijn dan gegeven tot gebruik, en niet tot noodzaak. 6. Het Koninkrijk Gods dan bestaat niet in Namen, maar in Heiligheid en Reinheid. 7. Laat deze beker dan rondgaan en drink van Hem. Talgamen. Gij gebruikt dan zijn allerheiligste naam als bevestiging. 8. Elke Naam op zich is dood, zowel in de hemelen als op aarde, maar wordt door de Liefde vervuld en gebruikt. 9. En ziet dan : de beker is meer dan de drinker. En gij hebt dan uw drieenigheid ingesteld, die slechts ten dele waar is, maar niet als canon. 10. Want de vierde persoon van de godheid is de beker, en Zijn Naam is Talgamen. 11. Gij doet er wel aan over een viereenheid te spreken, meer nog dan over een drieenheid. 12. Gij die tot de Christus gekomen bent drinkt dan allen uit dezelfde beker, en die naam is Talgamen. 13. Weet dan dat het een gebod des Heeren is om over de viereenheid te spreken, want de drieenheid is slechts ten dele waar, en in de canon volkomen niet. 14. Zo zijn er dan vele Eenheden des hemels, en gij zult die allen vinden en gebruiken, gij die de Heere kent. 15. Drinkt dan van Talgamen, want gij bent tot het allerheiligste gekomen. 16. En de Beker des Heeren is tot zuivering van het bloed en de ingewanden.

42.

De Lokogamen

1. En zo is er dan in de Nieuwe Tempel de tafel der bekens, en gij doet er wel aan om tot deze tafel te naderen, daar zij de bekens der profeten bevat. 2. En zo zijn dan de Lokogamen de sieraden van het kruis, maar zij zullen wegvlugten van een ieder die het kruis niet heeft liefgehad. 3. Zij dan zijn de scherptes des Heeren, en voeren oorlog tegen de onheiligen en hen die van de wereld zijn. 4. Het kruis heeft dan niets op met de wereld. Zo kunt gij dan niet het kruis liefhebben als gij een vriend der wereld zijt. 5. De Heere haat dan allen die een vriend der wereld zijn, want zij zijn vijanden van God en van het kruis. 6. De Lokogamen beminnen alleen hen die het kruis beminnen en daaraan gelijkvormig zijn geworden. 7. Spot dan niet met de Lokogamen, want zij zijn wraakzuchtig en nemen daarvoor de tijd. 8. Zij die dan de Lokogamen onrechtmatig en onwettig proberen na te bootsen zullen ten prooie vallen aan bittere wreedheid, maar alle wreedheid leidt tot slaap en vernietiging. 9. Onrechtvaardig zal het oordeel der Lokogamen wezen over hen die onrechtvaardigheid hebben bewezen. 10. De Lokogamen zijn dan dichtbij de wezen en de weduwen. 11. En wanneer gij aanbidt, gebruik deze naam aan het einde van uw stille lofprijzingen, opdat zij heilig en rein zijn voor Gods Aangezicht. 12. De Heere haat dan iedere dankzegging en lofprijzing buiten het kruis om. Deze uitlatingen zijn de Heere een gruwel. 13. Ware lofprijzing is dan in stilte, komende van het kruis en wederkerende tot het kruis, om de beker des Heeren te drinken. Lokogamen. 14. Laat dan uw beker vullen door de Lokogamen, en drinkt van de wijnen van het kruis. 15. En komt dan tot het graf des Heeren, wiens Naam Belcanov is. 16. Als gij dan praalt, praal in het kruis, en in het graf des Heeren.

De werken der Lokogamen

17. En zij, de Lokogamen, zullen de wilde beesten voeren, en de Karazuur, daar zij het sieraad van Metensia zijn. 18. En ook zijn zij het sieraad van de Peter, de Gegetene Christus, en zij beminnen hem als lichtende watervallen in een bosrivier. 19. Ja, voor de grotten van Belcanov, het graf des Heeren, liggen zij. En lichtende vissen stijgen langs hen op en dalen neer. 20. En zij zullen velen

voeren tot de duisternissen en de koele wateren, en velen zullen gered worden. 21. Ziet dan toe dat gij de duisternis des Heeren niet veracht, want gij mocht er eens door gegrepen worden.

43.

De klokken des Heeren

1. En alle eenheden zijn dan omringd door de Lokogamen, en zij hebben toegang tot de allerheiligsten. 2. Zo is dan de Emelis Shatau vol van de Lokogamen des Heeren, en zo ook de Roze Verbinding. 3. En ziet dan, zij komen voort uit Brannan en keren weder tot Brannan. 4. En zij hebben de klokken des Heeren rijkelijk bekleed. Zij dan hebben gedronken van het zoete des Heeren en het zoete des kruises, van de bronnen van het Sarhah. 5. Ziet dan, zij komen voort uit de klokken des kruises, om honger en verzadiging te brengen. Ja, want alle klokken bestaan in honger en brengen uiteindelijk verzadiging. 6. Niemand zal voor altijd honger moeten lijden, en de Lokogamen zullen daar op toezien. 7. Zij die dan van de alverzoening zijn : gij hebt ten dele gelijk. Gij zult dan allen verzadigd worden, en gij zult dan allen slapen, maar de één tot eeuwig leven en de ander tot vernietiging. 8. Dat wat tijd is bepale de Heere, en wat voor de één een seconde is, is voor de ander duizend jaar. 9. De Heere dan bouwt met honger en verzadiging. 10. Ziet dan, alle sieraden des Heeren zijn als klokken, en zij brouwen de wijnen des kruises. 11. Zij scheppen de vertes en de horizonnen.

44.

Muizen en konijnen

1. Gij dan die in Tyatira zijt, gij woont dichtbij Materos. Zij die in het tweede Tyatira wonen kennen rijkelijk de Lokogamen. 2. Gij zijt dan vol van de nostalgie des Heeren, en gij bent nader gekomen tot de woningen der muizen des hemels. 3. Ook kent gij dan de woningen der konijnen des hemels, door de Vader neergezet. 4. Gij hebt dan een warm hart gehad voor hen die de konijnen liefhebben en de konijnen zelf, en gij zijt als één van hen. 5. De Heere heeft dan zoveel liefde voor u omdat Hij zelf deels konijn is, daar het een speciaal deel van Hem vertegenwoordigt. 6. Ziet dan toe dat zij die het konijn haten door Hem afgeschoten worden, want de Heere Heere is een jager. 7. En zo is dan Sarhem het gewest van konijnen in de hemelen. 8. Gij dan zijt genaderd tot Sarhem, en bent klaar voor Zijn geheimenissen, gij allen die in het Tweede Tyatira wonen en zij die tot haar naderen. 9. Gij hebt dan bedelaars niet aan de kant gezet, maar hen ontvangen als konijnen des Heeren. 10. Mokmos dan is het gewest der muizen in de hemelen. En deze twee gewesten zijn heilig voor de Heere. 11. De muizen dan heersen over de tranen. De Heere is dan deels muis. 12. De tranen huizen dan in hun flessen.

45.

De Raadselaar

1. En de tranen dan zullen zevenvoudig gezuiverd worden, en zij zullen gedronken worden, daar zij de wijn des Geestes zijn. 2. En ook de lijmen des Heeren zullen zevenvoudig gezuiverd worden en zij zullen zijn als eb en vloed. 3. Gij dan laat ook het grijze zevenvoudig gezuiverd worden, opdat het zilver zal zijn, en gij kunt het daar gij immers tot onder het roze bent gedaald. 4. Laat u dan zevenvoudig vrijzetten voor de Heere. En laat u dan goed beseffen dat de tepelen des Heeren tot zuivering van Spricht zijn aangesteld. De Heere dan zuivert de hemelen en de gewesten, daar Hij een Zuiveraar is. Zo is Hij dan ook een Raadselaar. 5. En de Raadselaar zal aan het einde der tijden komen om het witte zevenvoudig te zuiveren. 6. Nu dan is het zeerood des Heeren negentigvoudig

gezuiverd. 7. Zij dan die onder het rode zijn, zijn grijs, maar zij worden gezuiverd tot zilver. 8. Zij dan van de rode traan zijn tot honderdvoudig gezuiverd en zij hebben woning voor u gemaakt. Zij leefden altijd dicht bij uw hart, en zij hebben u niet verlaten. 9. Daarom zijn zij niet schuldig, en zullen zij voor eeuwig Gods Zegen dragen. 10. Zij hebben u in tijden van nood getroost en bemoedigt en u hun klederen gegeven. 11. Ja, zij hebben tot in het duizendvoud voor u gezorgd, en uw pijnen met u gedragen, en deze overgenomen waar zij konden. 12. Ja, veelvuldig zijn zij voor u gestorven.

46.

Aangenaam Gezelschap

1. Zij die lijden voelen zich vaak alleen, maar als gij ouder wordt bemerkt gij de persoonlijkheden van het lijden, en leert gij hen zien als aangenaam gezelschap, daar zij u behoeden voor vele zonden en afhouden uit de slavernij. 2. De Heere heeft u dan aangenaam gezelschap gegeven, en zij zullen zichtbaar worden naarmate gij ouder wordt. 3. Leert dan de verrukkingen kennen van het ouder worden. 4. Gij hebt dan uw liefde tot de vogels des Heeren leren uitdrukken, en gij hebt bemerkt dat zij vaak de verpersoonlijkingen van het lijden zijn. 5. Zo dan kunt gij tot het lijden spreken als tot de Heere. 6. Weet dan dat zij die de vogels des hemels liefhebben een diepe plaats bij God hebben, daar God deels vogel is, daar het een deel van Hem vertegenwoordigt. 7. Hij schiep dan de dieren naar Zijn aard, en zij die dan de dieren krenken, krenken daarmee het beeld Gods, en worden tot de spotters gerekend. 8. Spot dan niet met Gods Schepping, daar het Zijn evenbeeld is. 9. Zij die lijden hebben dan een vlam om mee te smeden. De smid des Heeren is dan tot uw woning gekomen. 10. Ziet dan, de haai is de vleesgeworden vlam van de Ziel des Heeren, en gij zijt dichterbij het verterende vuur gekomen. Weest dan Heilig. 11. En daar het Eerste Woord tot heiligheid heeft opgeroepen, het Tweede Woord des te meer. 12. En daarom is het Tweede Woord heiliger dan het eerste, en wordt er des te meer opgeroepen de zonde af te leggen.

47.

Over de vrouw

1. De haai is dan de smid des Heeren, en hij zal de woningen van het Tweede bouwen. Hij zal daarvoor de metalen aan elkaar smeden, en daartoe de Kandelaar van Metensia gebruiken. 2. Ja, de haai zal dan de tijger en de leeuw gebruiken om los te branden en aan elkaar te smeden, en hij zal worden als het brandende ijs. 3. En de orca's des Heeren zullen tot uw huizen komen om vele knooppunten te maken in ballen, en gij zult de electriciteit des Heeren hebben. 4. En de orca's des hemels zullen zijn als de electriciens, en zij zullen Gods robotten heten. 5. En de electriciteit dan is als het vuur des geestes. 6. En alle vuur bestaat dan alleen in ijs. En de dove haaien zullen zijn als de radio's des Heeren, en de zwarte haaien zullen zijn als de telefoons des Heeren. 7. De witte haaien zullen dan zijn als de televisies. 8. Gij zult dan de ingang der vrouw als heilig achten na de zuivering, want zij zal de slangen des hemels voortbrengen. 9. En zij zal dit doen in vele barensweeen, en haar klederen zullen gescheurd zijn. 10. Dan zult gij de vrouw niet meer als een lustobject zien, maar als een werktuig des Heeren. 11. Gij zult dan de vrouw haar waarde teruggeven, maar de Heere zal de onheilige vrouwen overleveren aan hun zonden, en zij zullen doorgang geven aan de slangen des hemels. 12. Ja, het Tweede Woord is dan zeer vrouwvriendelijk, maar zal een groter oordeel aankondigen over de spottende vrouw. 13. Want spot misstaat een vrouw, tenzij zij spot in de Heere. Gij moogt dan de onrechtvaardigheid bespotten en dit is zelfs een gebod des Heeren. 14. Gij zult een vrouw niet veroordelen om haar lusten, maar gij hoeft

misplaatste spot niet te verdragen. 15. De Heere dan kent alle lusten, en weet waar zij vandaan komen en waar zij naartoe gaan. 16. Laat dan niemand de ander lastigvallen met zijn lusten, maar geneest elkander veeleer en brengt elkaar tot rust. Een spotter en een huichelaar zult gij geenszins genezen, want daarmee laadt u schande op uzelf. 17. Een vrouw mag ook zeker geen spottende en huichelende vrouwen aanhangen. Zulken behoren door de daartoe bevoegde apostelen onder u aan de haaien overgeleverd te worden. 18. Wanneer dan een vrouw lusten heeft naar materiele dingen en kleding buiten het noodzakelijke, en deze staan los van het gebod des Heeren, dan zal zij zich daartegen moeten verzetten door de gelofte tot armoede te doen. 19. En zij zal de armoede aanhangen als aan de heere, en de armoede zal haar tot man zijn. 20. Laat gij dan goed weten dat zij die de armoede niet begeren, de Heere ook niet hebben. 21. Want diep gekwetst is de Heere, wanneer een dienstknecht of dienstmaagd de armoede veracht. Daarmee hebben ze de Heere zelf veracht. 22. Vit dan niet op elkaars soberheid en eenvoud, opdat de Heere u niet verlate en tegen u toorne. 23. Zij dan die een arme bespotten zullen door de Heere uit het boek des levens worden geschrapt. 24. Zij die een zieke bespotten zijn reeds verloren.

48.

Over twijfelen en toetsen

1. Bespot dan het Tweede Woord des Heeren niet, en veracht het niet, want zulken zullen een zwaarder oordeel over zich krijgen dan hen die het Eerste Woord des Heeren hebben bespot en veracht. 2. Als dan het oordeel over hen die het onzuivere Woord hebben afgewezen al zo groot is, hoe zullen zij dan die het Zuivere Woord afwijzen dan ontkomen ? Ondragelijk zal het oordeel zijn over zulken. 3. Denkt dan niet dat het Tweede Woord lichter zal zijn dan het Eerste, want gij zult gaan van oordeel tot oordeel. 4. De Heere Heere dan laat niet met Zich spotten, en vreselijk zal het zijn voor de zondaar om in de levende handen te vallen van de Heere Heere. 5. Zij dan die het Eerste aannemen en het Tweede niet, zijn als de farizeeers en het oordeel over hen zal zwaarder zijn als over de farizeeers in de tijd van Jezus de Christus. 6. Want zij wezen het onzuivere af, en zouden zwaarder gestraft worden dan hen van Sodom en Gomorrah. Hoe zwaar zal dan het oordeel over hen heten die het zuivere hebben afgewezen ? 7. Bewerkt uw behoudenis dan in vrezen en beven, want de Heere Heere is een allesverterend vuur. 8. Zij dan die de Eerste Christus hebben aangenomen en de Tweede Christus verworpen vallen ten prooi aan de haaien. Onbarmhartig zal het oordeel zijn over zulken. 9. Maar als het u te doen is om gelijk te hebben, de Heere zeker niet. Zalig hen die twijfelen, maar vervloekt zij hen die niet twijfelen aan het Eerste, want dat woord, alhoewel het veel waarheid bevat, is onzuiver. 10. Toetst dan het Tweede Woord, want zij die niet toetsen leven reeds onder de vloek. 11. De Heere is niet onder de indruk van hen die zonder toetsen het Tweede Woord aannemen. De heere veracht zulken, daar zij zelf niet te vertrouwen zijn. 12. Zalig hen die twijfelen en toetsen. Vertrouwt dan niet te snel, want gij mocht eens misleid worden. 13. Kijk een dier dan altijd in de bek. Houdt dan het Tweede Woord niet tegen, want de Heere zal u als loopbrug gebruiken, en gij zult onder de voet gelopen worden.

49.

de Herman

1. En zo zal dan het openen van de eerste tepel des Heeren zijn. En de geslachten der apostelen zullen tot deze tepel komen, daar het de tepel der apostelen is. 2. En gij zult de dingen verstaan, en de verborgenheden Gods zullen tot u komen. 3. Ja, tussen Jupiter en Saturnus ligt de hof des Heeren, want daar heeft Hij zijn wortelen gewrocht. 4. En dan zult gij elkaar verstaan als in het

paradijs, en gij zult kennen de dingen Gods. 5. En wanneer gij dan de dove haai en de zwarte haai hebt ontmoet, zult gij u voelen alsof u de radio en de telefoon des Heeren in uw handen hebt, en hun hoornen zijn van goud. 6. En gij zult dan hen die verweg zijn kunnen vasthouden, terwijl de melk des heeren stroomt, en deze melk zal zoet zijn. 7. En wanneer gij slikt zal het bitter zijn, daar de hoornen uw buik doorboren. Ja, want het is de Heere Heere die wonden aanbrengt. 8. En gij zult de vuren des Heeren in uw monden voelen om het huis des Heeren te kunnen smeden. 9. En de apostelen van het brandende ijs zullen voortkomen uit de verheerlijkte Herman, de Wilde Christus, want Hij is de brug tussen het vuur en het ijs, daar Hij in de diepste krochten van het ijs is geweest tot aan het duistere toe. 10. Ziet dan toe dat gij Christus de Wilde niet afwijst, want dan hebt gij helemaal geen Christus. 11. Zij dan die de Herman bespot hebben om zijn wildheid zullen niet in het huis des Heeren wonen. 12. Weet gij dan niet dat de Christus is voortgekomen uit de Herman ? 13. Zij die daarom de Herman niet ontvangen hebben daarmede de Christus verloochend en in hen is het Licht Gods niet. 14. Leert dan uw Christus kennen, opdat Hij u zal kennen bij de ingang tot Zijn Heerlijkheid. 15. Zij die de Herman niet hebben, hebben ook de Christus niet. Leert dan de herman kennen, door naar deze Woorden te horen en door veel onderzoek te doen, opdat gij niet een andere herman ontvangt. 16. Want vele hermannen zullen komen om de aardbol te misleiden, maar doet gij dan de Ware Herman aan. 17. Niet allen die beweren van de Herman te zijn, zijn van de Herman. 18. De Herman dan zal voortkomen uit het ijs, en wederkeren tot het ijs en Hij zal het vuur des Heeren niet verachten. En zo zal Hij dan zijn als het brandende ijs, en Hij zal komen om de tepelen te openen. 19. Ja, als een vader zal Hij zijn tot hen die wild zijn, en de afzondering hebben gezocht. En wild zullen zij drinken van Zijn melk. 20. De Herman dan is een deel van Christus, het deel wat Hem tot de woestijn en de wildernis bracht, en wat Hem telkens afzonderde. 21. Zo is de Herman dan het IJs van Christus, brandende in de nacht. Zij die dan het ijs van Christus hebben veracht, hebben de Christus zelf veracht, daar de Christus in en door ijs bestaat. 22. Zonder het ijs zou Christus nooit tot het kruis gekomen zijn, en zonder het ijs zou de Christus nooit tot de hemel gevaren zijn. 23. Zonder het ijs zoudt gij nooit een schuilplaats in hem hebben, en zoudt gij Zijn Geest nooit kunnen ontvangen. 24. Zonder het ijs zou zijn vuur nooit hebben bestaan.

50.

Maser en Herman

1. Zonder de Herman zou de Christus nooit tot de dodenrijken zijn nedergedaald, en zou Hij nooit tot Heerlijkheid en Opstanding zijn gekomen. 2. Weet daarom tot wie gij spreekt, opdat al deze dingen niet aan u voorbij gaan. 3. Alle dingen worden dan in ijs gezuiverd, en worden rijk in Maser, die Christus de Arme is. 4. Ziet dan de weelderigheid, de overvloed en de rijkdom die de Armoee geeft. Zij die daar geen oog voor hebben, het is beter dat hun oog worde uitgerukt. 5. Gij bent volledig voorbijgegaan aan de schoonheid en de naaktheid der natuur. 6. In Maser worden dan allen rijk die hun leven hebben afgelegd, en de armoee beminnen. 7. Voor de rijken zal het dan zeer moeilijk zijn om tot het Koninkrijk Gods in te gaan, daar zij door de Mammon zijn gebonden, maar in Maser kunnen zij verlost worden, daar Hij de kracht van Christus de Arme is. 8. Gij hebt dan een Naam die gij kunt aanroepen, om tot de kloosters van de Herman te gaan. Want de Herman is voortgekomen uit de Maser, en gij die de Naam van Maser aanroept zal tot in alle eeuwigheden dubbel behouden worden, ook tot in het Tweede. 9. Maar zij die Maser vervloeken zijn reeds verloren. Nu bestaat het koninkrijk der hemelen dan niet in geld of namen, maar in armoee en wildheid. 10. Zo zult gij dan de Maser en de Herman dienen, opdat zij u dienen en u tot de volheid van Christus brengen. 11. Blijft dan niet op één been staan, en blijft de Christus dan niet in uw

harten kooien, en binden aan uw canons, want Maser en Herman zijn als de vleugelen van de arend die slaan om te openen en te doden. 12. Zo is dan de Christus in zijn armoe tot de wereld gekomen, en tot de kribbe, en zijn hart was met de dieren. 13. Zo bent gij dan in Maser verbonden aan de verborgen schatten Gods, en kunt gij tot de Herman komen. 14. Veracht deze Woorden dan niet, Mijn geliefden, opdat zij u niet verachten. 15. De Heere Heere dan laat niet met Zich spotten, en is als een verterend vuur. Zij die Maser niet hebben, hebben de Herman ook niet, en zijn slaven van de Mammon. 16. Gij kunt niet tot de Herman komen zonder de Maser aan te hangen, want dan komt gij tot het valse ijs, dat de doden tot slaven maakt. 17. Want vuil en leugenachtig zijn zij die zeggen de Herman te hebben, en de Maser hebben veracht. Zij dragen de lichten van de hel en van Orion. 18. Zalig zijn zij die als Maria Magdalena de voeten van de Christus kussen met tranen, want zij hebben ook de Maser. 19. En de zusters van de Magdalena hebben duizendvoudig troost gebracht aan Maser en de Christus, en zij zullen de Herman ontvangen. 20. Laat dan niemand uwer vergeten dat de wildheid een hogere orde Gods is. 21. De wilden kennen dan de schatten van vuur en ijs, en brengen hen tot het verborgene en de duisternis. 22. Bewaart uw harten dan in God, opdat gij genade vinde voor Zijn troon. 23. Gij zult de Christus dan kennen in Maser en Herman.

51.

De geslachten der apostelen

1. Laten dan de geslachten der apostelen zich opstellen op de Emelis Shatau opdat gij elkaar kunt verstaan. Zo kunt gij veelvuldig de gave van vertolking ontvangen, opdat de Vrede des heeren openbaar worde. 2. En zo zijn er dan veertien geslachten der apostelen. 3. En het eerste geslacht zijn de pleiaden, en zij zijn als de zonen des donders, de boanerges 4. En het tweede geslacht zijn de rode pleiaden daar zij de wijn des heeren bereiden. 5. En het derde geslacht zijn de zwarte pleiaden of duistere pleiaden die de verlamden tot Christus dragen of brengen, en tot de Tweede Christus. 6. En het vierde geslacht zijn de gele pleiaden, en zij dalen tot onder het gele om hen met diepe pijnen tot Christus te brengen, en tot het Tweede. 7. En het vijfde geslacht zijn de blauwe en witte pleiaden. 8. En het zesde geslacht zijn de roze pleiaden. 9. Het zevende geslacht der apostelen zijn hen van de rode kap, en het achtste geslacht zijn de hermanitische apostelen, zij die van Herman zijn. 10. Het negende geslacht zijn de apostelen van Metensia en het tiende geslacht zijn de apostelen van de Emelis Shatau, en zij zijn heilig en rein, daar zij de geboden des Heeren dragen in het Tweede. 11. Het elfde geslacht der apostelen zijn de apostelen van de schuine stang en het twaalfde geslacht zijn de apostelen van de Tweede Metensia, en zij dragen de heilige bouten vol van het brandende ijs. En zij zijn als de smidse des Heeren. 12. Het dertiende geslacht zijn de apostelen van de brandende vruchten, en het veertiende geslacht zijn dan de apostelen van de brandende angels. En zij zijn als de wespen des hemels, neerstrijkende op de daken. 13. En zij zijn dan allen zonen van de bliksem des Heeren, en ziet dan, het is als heilige melk.

52.

De Roze Verbinding

1. En als gij dan elkaar kunt verstaan, dan is de tweede tepel des heeren niet verre van opening. En zij zal liggen en opkomen vanuit de buik en het binnenste. 2. En zo zullen de woorden en koorden gereinigd worden, en zij zal worden tot een nieuw lichaam en een nieuwe schepping brengen. 3. En haar naam zal zijn de roze verbinding, en zij zal heilig voor de Heere wezen. 4. En zij zal zijn als de muis en het konijn des heeren en zij zal groot worden tussen Mokmos en Sarhem. 5. En haar vijvers zullen branden als het ijs en haar vissen zullen als lichtende bogen en kransen worden, komende

vanuit haar schoot en tussen haar handen. Ja, zij zal de ballen des Heeren dragen, brandende van ijs en zilver. 6. En zij zal dragen de geslachten der profeten en de geslachten der rechters als een heilig sieraad voor de Heere. 7. En zij zullen voortkomen vanuit haar schoot, gevormd wordende in het vuil des Heeren. 8. En dan zullen de darmen en de slangen reiken tot aan de schoot, en zij zal geboorte geven door haar aars. 9. En dan zal de aars gebruikt worden om te baren, en niet om uitwerpselen los te laten. 10. En de mannen zullen de slangen des hemels baren door hun benen. 11. En zij dan die het nieuwe lichaam van het Tweede niet kennen hebben veel te lijden.

53.

Jakob en Esau

1. Tweede Gad, je bent als een vlam in de nacht. Op de Emelis Shatau zit je. Tweede Aser, tot de profetische geslachten behoort je, als een veer in de wind. 2. Je bent de schaduw van de vleermuis. Al jouw spinnenmannen zijn daar. 3. Zij dan die Brannan openen zitten op de poorten als de raven des Heeren. 4. Zij dan die het heilige gordelschort dragen zijn als de ratten des hemels. Zij komen van het Tweede, en hebben geleden in het Eerste, en ziet, zij zijn rein en heilig. 5. Tweede Naftali, gij dan zijt als een rat des Heeren, en gij hebt de piraten des Heeren niet veracht, maar gij hebt uw hand over hun ruggen gestreken, en hebt hen door de nacht geleid in tranen. 6. Gij hebt hun laten drinken van de geheime kruiken der bruisende tranen, en gij hebt hen het tranenbrood niet onthouden. 7. Gij waart daar in de nacht voor hen. Gij zijt een waardig soldaat. 8. Gij dan hebt hen de grotten van Esau laten zien, en de liederen van Jakob. Ziet dan, zij zijn beiden wild. 8. Ja, want ook Esau zal behouden worden, daar zij met elkaar verzoend werden, na een lange oorlog. 9. Ja, want in de schoot vchten zij met elkaar, maar zij vonden elkaar voor de dood. 10. Zo zullen ook velen die tegen de Christus gestreden hebben Hem vinden voor het graf, en Hij zal Zijn als de Gezuiverde en het Heilige Tweede. 11. Want ook de Heere worstelt, slaat en geeft dan toe, zoals bij Jakob op Pniel. 12. De Heere dan heeft de worstelaars lief, en Zijn Heilige Haat leidt de mens niet altijd ten verderve. 13. De Heere dan heeft Esau in het gevecht gehaat, daar ook Esau gebroken moest worden, maar de Heere heeft Zijn hart liefgehad, daar het een wild hart was. 14. En zo is dan de Haat des Heeren een grotere liefde dan de liefde der aarde, want de Heere Heere, Uw God, haat in list. 15. Zo zijn dan ook velen tot de haat des Heeren gekomen, en zij hebben ervan geproefd, en zij zijn erdoor in zwijm geraakt, en verzoend met vele vijanden. 16. Gij zijt dan ook allen soldaten der liefde, gaande met list ten werk, maar niet om te vernietigen, maar om op te bouwen.

54.

De Haat des Heeren

1. En allen die dan tot Brannan gekomen zijn, dragen de gordel des Heeren, en het licht van Lapondria zal tot hun borstkas rijzen. Zij dan zullen hun mond opendoen, en lachen, daar het Grote Kanaan in hun monden is. 2. De Heere opent dan de profetische geslachten als zachte vlammen, want het rode sap heeft Jakob van Esau gescheiden, maar ditzelfde rode sap heeft hen ook weer tezamengebracht. En dit is het geheimenis des Heeren, want de Heere sprak over Zijn Tweede Bloed. 3. En ziet dan, zij zijn beiden wild. Grote Genade geeft de Heere hen die tot de Tweede Issaschar gekomen zijn, en zij zullen worden als de golven der zee. Ja, vele malen is het zeerood dan gezuiverd, en zijn vlammen rijzen voortdurend tot Brannan. 4. De Heere heeft dan hen van het geslacht van de Tweede Simeon en het geslacht van de Tweede Juda lief, want zij zijn profetische geslachten, en zij zijn wild en werken met list. 5. Ja, ook haat de Heere hen, want door haat bewijst hij zijn liefde. 6. Zo is dan het zeegeel vele malen gezuiverd door haat. 7. Gij dan die de haat des

Heeren niet hebt, en het bittere der zee niet hebt geproefd, hoe kunt gij in de liefde zijn ? De Liefde des Heeren komt immers voort uit Zijn Haat. 8. Zo kan dan niemand tot de Heere naderen, zonder de zonde en de oude natuur te haten. Ja, wie dan niet haat zijn eigen leven, kan het Koninkrijk Gods niet binnengaan. 9. En hij die niet haat zijn eigen zoon, en zijn eigen vrouw en bezit, die kan het Koninkrijk Gods niet binnengaan. 10. De Heere nu is haat, want de haat zuivert en toetst. Zo kunt gij elkaar dan opbouwen in liefde. Maar wanneer gij haat, haat in de Heere, want de haat der wereld leidt tot verderf, en zij hebben de Christus niet. 11. Laat dan niemand u misleiden met vrome en holle klanken van liefde, want de wet des Heeren is haat. 12. Gij hebt dan vele wapenen van de gemeente weggenomen en van het Tweede, wanneer gij zegt dat de haat des duivels is en niet van de Heere. De Heere heeft wapenen van haat, en gij dient daarop acht te slaan als licht in de duisternis. 13. Gij bent reeds overgeleverd aan de wereld en hen van de Mammon, wanneer gij liefhebt zonder de Haat des Heeren aan te hangen. 14. De heere toornt dan tot zijn vijanden, maar ook tot zijn kinderen. Vervloekt zij allen die de tucht des Heeren haten, en de haat des Heeren verachten. Zij zullen niet in de gemeente des heeren mogen komen, want zij hebben zelfs het Eerste veracht. 15. Leest dan van de Haat van het Eerste, en leert haar zuiveren, want wanneer gij haat om te haten, dan zijt gij vervloekt. 16. Maar wanneer gij haat om lief te hebben, ziet, gij zijt zalig. 17. En gij dient op deze woorden acht te geven als geboomte des levens met brandende vruchten, als op het zachte van Metensia. 18. Laat dan niemand u het heil ontnemen, want vele verlokkeners zullen tot u komen om u met list van de Heere proberen af te brengen. 19. Daarom is het soms beter om ver van de mensen af te wonen om dichtbij God te kunnen zijn, als de nabijheid van mensen u verre van God brengt. 20. Beproeft elkaar met deze woorden.

55.

De Heilige Ziel

1. En Naftali is als een brandende hinde voor de Heere, lichtend in het vuur Gods, en de Heere zal het duizendvoudig zuiveren. 2. Ja, ook alle andere stammen van Israel worden gereinigd in Zijn Vuur. 3. En de rook zal stijgen tot de Emelis Shatau voor een nieuwe dag. 3. Een nieuwe dag des heeren is gekomen. Laten de poorten van Brannan dan wijd worden, en verwijderd dan hen die het heilige gordelschort niet dragen, want zij is gegeven als een teken des Heeren. 4. En Naftali is als een vurige hinde voor de Heere, vol met het vuurrode, zingende de liederen des kruises. 5. En Naftali zal zijn als het hert van Maser, gehuld in armoede, om de rijkdommen des Heeren voort te brengen. 6. Brengt dan alle priesters tot de Heere, en laat hen gezuiverd worden door het vuur en het oog van Eminius. 7. De Heere dan kent alle priesterlijke geslachten, en de geslachten der koningen, en zij zullen de profetische geslachten niet meer onderdrukken. 8. De Heere dan kent al hun namen, al hun uitgangen en ingangen. 9. En in het oog van Eminius is dan de verbinding met Spricht, daar hij voor hem lijdt en strijdt. 9. En Eminius draagt dan het zwaard van Spricht, en brengt allen tot Zijn staf, zij die door Golgotha gekomen zijn. 10. Gij dan zijt allen op weg naar de Emelis Shatau, maar velen zullen onderweg struikelen, opdat er onder u zuivering wordt gebracht. 11. En dan zult gij reizen van Brannan tot de Emelis Shatau en terug, opdat het drop des hemels in uw harten zal groeien en uw zielen verrukt zullen worden. 12. Ja, want de wortelen des Heeren hebben vele sappen die hen zullen dienen die tot die wortelen gekomen zijn. 13. Zalig zij hen dan die diep geworteld zijn in de Emelis Shatau, en zalig zij hen die diep geworteld zijn in Brannan, want zij zullen het drop des Heeren kennen. 14. En er zal een man opstaan genaamd Drop en Hij zal zijn de vrucht en de zoon des kruises om het volk te lijden in de tijden dat de longen worden dichtgeknepen, en er zal een kleine bron van adem zijn voor de allerheiligsten. 15. Maar ook zij

zullen door tijden van ademnood gaan, opdat er onder hen zuivering aangebracht worde. 16. En de man genaamd drop zal zijn als de Heilige Ziel, en de Tweede Ziel des Heeren, en deze zal uitgestort worden over de leergierigen om velen te onderwijzen. 17. Ja, de haren zullen branden, als de Heilige Ziel uitgestort zal worden, en Hij zal tot een groot sieraad zijn in het midden des kruises, dragende de mysterieën en het bruisende Gods. 18. Zo is er dan veel siroop stromende uit het midden des kruises om enkelen tot genezing te brengen.

56.

Het Licht des Kruises

1. En in het laatste der dagen zal Drop branden en vuur spuwen, en het licht zal de heiligen leiden. En zij zullen door vele wildernissen moeten gaan, en aan die wildernissen gelijk moeten worden. 2. Want ook de Christus moest aan het lijden en het sterven gelijkvormig worden, om in te gaan ten eeuwigen leven. 3. En Eminius en Drop zullen één worden in het laatste der dagen als een lichtend schip, en de helikopters des hemels zullen van hen uitgaan. 4. En de paarse mug zal van hen uitgaan als het licht des kruises, en dit licht zal zijn mystiek, en zij zullen een nieuwe schepping bouwen. 5. Ja, tot de zevende dermense zal hun licht reiken, tot de lijmen Gods. En de paarse mug zal groot worden, en zal vele harten verblinden, daar zij gezondigd hebben tegen de allerhoogste. En zijn komst zal verschrikkelijk wezen, als de geheime donder des Heeren, bewaard tot aan het laatste der dagen. 6. En Hij zal de heilige attentaten en anfitaten leiden tot de heilige berg, en zij zullen de latijnen zuiveren en het vuurrode, tot aan het zeeroode toe. 7. En dan zal de ster Sirius gezuiverd worden, en de hondster, en zij zullen tot aan de latijnen toe gezuiverd worden, en tot het vuurrode schip. 8. Ja, de rode traan zal hen zuiveren, en hen die van onder het gele zijn, want het zal een dag wezen waarop de Heere Sirius zal heiligen. 9. Ja, Sirius zal branden voor de Heere, en ook haar oogst zal gezuiverd worden, zeventuizenvoudig. 10. En dan zullen er stemmen tot de Heere komen, en zij zullen de paarse mug aanklagen, maar de Heere zal hen werpen in de put des onweers. 11. En voor drie dagen zullen zij zonder adem zitten, en deze dagen zullen zijn als maanden. 12. En zij zullen schuldig worden bevonden als ontvoerders, ja, ontvoerders van wind, en zij zullen het lot van een ontvoerder uitzitten, tot in het zevenvoud, daar zij ernstig gezondigd hebben tegen de Heere, en ook van de oogst van de ontvoering hebben gegeten. 13. En dan zal de boot van Sirius oprijzen, en zij zal het licht des kruises dragen. En ziet, het is een boot van honden. 14. En de Heere zal de honden uitzuiveren. Zalig zijn dan de Honden des Heeren, want zij hebben genezing gedragen tot hen wiens harten gestolen waren. 15. De heere heeft dan harten teruggestolen als een heilige dief, en werd gevolgd door honden. 16. Wee hen dan tot wie de Herman is neergedaald om terug te stelen, want Hij zal des nachts hun huizen binnen breken, terwijl zij slapen. En dan zal er een angst over de wereld komen, zoals er nog nooit geweest is, en zij zullen denken dat zij alleen over zijn gebleven, terwijl er niemand is die redt. 17. Ja, zij zullen overgeleverd worden aan de angsten van eeuwige verdoemenis. Want Eminius is gekomen om angst te brengen, om hen als door de bliksem te treffen. 18. En zij zullen het Tweede vergeten, en wederom door het Eerste gegrepen worden, terwijl er niemand is die redt. 19. Zo zal de Heere dan doen met een ieder die tegen Hem gezondigd heeft. De Heere dan laat niet met Zich spotten. 20. Zalig zij hen die uit het Eerste getrokken zijn, en die het zaad dat het in het Eerste deed geloven niet meer dragen. 21. Laat u dan door de Herman redden uit de verschrikkingen van het Eerste, want Hij komt tot velen midden in de nacht om hen door slaap en dromen tot het Tweede te leiden. 22. Zoekt dan houvast in Hem, want Hij laat Zich verbidden.

57.

De ruggengraat des hemels

1. Gij bent dan dicht tot de paarse mug gekomen, die uw harten verwarmt. Zondigt dan niet tegen Hem, want Hij is het licht des kruises. 2. Want Hij ging uit van Golgotha toen onze Heere stierf, en was als de bliksem aan de horizon om het voorhangsel van de tempel te laten scheuren, en waarop zij allen zeiden : Ja, Hij is waarlijk de Heere. 3. Hij was het licht die de soldaten verlamde bij het kruis. 4. Hij dan slaat blind en slaat ogen open. 5. Hij dan is gekomen, Eminijs Metensia Matas. Hij komt dan om het Grote en Tweede Kanaan te openen, en zij zullen een kleine bron van adem hebben dat hen zal leiden. En Hij zal hen leiden tot vurige bronnen, en zij zullen hun monden wijd openen en niet kunnen spreken, want Hij dan verlangt offers van stilte. 6. En zo is dan het licht des kruises. En Hij zal komen om het Eerste en Kleine Kanaan te slaan, daar het gebouwd is op bloedvergiet en het vlees van dieren. 7. En Hij zal de zielen der dieren en hen die onschuldig gestorven zijn leiden tot Sinsabeine en het wilde. 8. Ja, tot onder het gele zal Hij ze brengen waar ze vertroost zullen worden duizendvoudig, en zij zullen het geheimenis der eeuwen zien. 9. En Sinsabeine zal zich hechten in hun stuitje, als een tand en dak des Heeren, en zij zullen vele uitzichten hebben. 10. Ja, zalig zij hen die de uitzichten des hemels hebben ontvangen, want zij gaan als op vleugelen. 11. En dan zal Abdal zich hechten aan het onderste van de ruggengraat als een tand en dak des Heeren, en de koopkracht zal des Heeren wezen. 12. En dan zal Tamille zich als een tand en dak des Heeren vasthechten boven Abdal op de ruggengraat, en zij zal de ratten vrijzetten in de dakgoten, en zij zullen tot de ramen komen op het daartoe bestemde uur. 13. En dan zal Tabulle tot de zolderramen komen, en zij zal de heerlijkheid der vogelen zijn. 14. En toen zag ik vleermuizen komen tot de daken, en hun macht was groot. 15. En zij kwamen van onder het paarse, en hadden het paarse vele malen gezuiverd tot zeventigduizend maal toe. En hun heerlijkheid kwam tot de sterren. 16. En er was een strijd genaamd Lapsalvania in de hemelen, en haar sap was als het sap der wespen, en zij kwam tot de ruggengraat des hemels en steeg daarover omhoog. 17. En de wortelen van orion werden blootgelegd, en ik zag sterren uit de hemelen vallen. En zij vielen op de aarde en maakten rumoer. 18. En de heiligen hadden uitzichten op de matadok, als op de heilige berg des heeren, en zij zagen de paradoxen des heeren als vogels op de daken zitten. 19. En zij stonden daar als de Marion, brandende als fakkels des Heeren, hun licht verspreidende. 20. En zij waren als van binnen verscheurd, en zij hadden wilde ogen als de Herman.

De Openbaring van Maser

1.

1. En gij dan die tot de Maser gekomen zijt : Kent dan de weelderigheid der armoe, en ziet, het zal u tot kled zijn. 2. Wees dan als de Assisi die de profeet van Maser was, van Christus de Arme, en de Armoe tot gezellin had. Ja, hij dan aanbad de armoe. 3. Gij dan zult de Ingeridtel, de kattenboom, moeten verslaan, zij met de vele dorens. Laat het u dan niet om eer gaan, maar om het oer. 4. Dan zult gij uw zelve ontvangen in het licht van Dezer, de Christus van het Oer. Gij weet dan dat de Maser een weelderige gierenraaf is, op u wachtende. 5. Zalig hen die zijn honger hebben gestild, en zijn konijnenbedelaars te drinken hebben gegeven. 6. Zij dan hebben om armoe gebedeld, en het rijkelijk ontvangen, tot weelderige kleding der wildernis. 7. Keert u dan tot de Franse schoolboeken des Heeren, en leert van Hem. Zij zijn u gegeven tot heilsraad en leidsgids. 8. Maakt dan vele geloftes tot de Armoe, en gij zult haar voor u winnen. Gij zult dan haar zeeën moeten bezwemmen

tot aan Narzia en de duivelse zeekatten zult gij overwinnen. De Jaguar wacht op u aan de kusten van Narzia.

9. Sluip dan door de wildernissen tot de berg van Dezer in het open veld. Gij doet er goed aan het oer tot u te nemen, en niet de eer, want de eer misleidt hen die niet in armoe leven, en geeft hen illusies. 10. En doordat Maser de weg van Dezer ging, werd hij weelderig als een wonderlijke vogel des heeren en als de zwarte panter. 11. Gij zult dan gaan van Assisi tot Assisi om tot het oer te komen. Neemt dan Dezer aan in het veld, opdat gij tot zijn zonen wordt gerekend en niet verloren gaat met valse hoop. 12. Leert dan uw Christus kennen in duisternis en ijs opdat u geen van zijn tranen verspild. Gij hebt dan het kruis als voertuig over de zeeën tot Narzia. Laat dan geen lek u de prijs doen missen. 13. En zo zijn dan enige profeten van het oude verbond aan de satan, aan lucifer en Ingeridtel overgeleverd opdat hen het lekkenslaan wordt afgeleerd. 14. Ja, ook hen die eens vaderen waren zijn niet ontzien. En zo dan hebben jonge profeten hun vaderen overgeleverd en in de ban gedaan. 15. Gij dan hebt Maser tot vader, en gij hebt niet van node dat iemand u lere.

Niet canoniseren

16. Neemt dan de oude eeuwen van Frankrijk als zilveren krokodillen tot u, om de Geest van Maser te ontvangen. 17. Weest dan als de fransen en hun vogelen, en weest als de armen. Zo zult gij uw zielen zaligen in Maser. Gij dan zult niet meer klagen, wanneer gij uit de lijdenscanon wordt getrokken. 18. Tot een dieper kruis zult gij gaan, en gij zult haar aanvaarden. Zij hebben dan het kruis gemaakt tot een wet des kruises, tot een canon. 19. En ieder die over de streep ging, ontving het loon zeer diep. Gij van de kruiscanons, breek. 20. Gij hebt de steen tot Narzia geworpen, en groten overwonnen. Maar wij zijn tot het kruis van Maser gekomen, leidende tot het oer. 21. Zet dan het kruis vrij, als een vliegende vogel, en haalt haar uit haar kooi, opdat ze zich niet zal wreken, maar dat zal ze toch wel doen. In al die tijden heeft ze gezeten, en het kruis van Frankrijk hebt gij niet aanvaard. 22. Oh weelderigheden des kruises, uw poorten zijn opengegaan. Spreidt uw vleugelen, oh karsuiken, oh putsen van Metensia. 23. Spreidt uw vleugelen, oh vogels van Michai en vogelen van Maser, en vliegt tot nieuwe en oude eeuwigheden. 24. Ja, tot het oer zullen zij gaan. Zij zullen het glas doorbreken. Ja, tot het Sneeuw wit zullen zij gaan. 25. Oh, Maser is tot de tempelen gekomen, waar ze de handel des kruises drijven, en waar zij met de zweep zijn geslagen. 26. Oh, Maser is tot de tempelen gekomen, om hen te verjagen, en de kooien te openen van de vogelen des kruises. 27. Oh, kruis van Maser, met rode edelstenen bedekt, als een vrucht der Armoe. Ja, tot het oer rijkt zij, in Dezer zijn zij vrij. Vrij om tot het veld te gaan. 28. Oh, steen van Maser, die de hoofdwond sloeg, gij bent niet meer gecanoniseerd, gij bent niet meer achter glas, gij hebt het sneeuw wit geslagen en gedragen. 29. Tot onder het roze bent gij gegaan. Want maakt dan niet het harde zacht ? Gij zult het harde dan niet canoniseren. 30. Maar achter het glas zullen zij het drijven, telkens weer, totdat zij van de roze spiegel zullen komen. Gij zult dan het zachte niet canoniseren, en niet de dorens waarmee zij werkt. De langste dorens zijn dan nodig om de dranken des hemels te doen vloeien. 31. En ziet, zij vloeien dan op hun tijd. Gij zult de nachtlatijnen niet canoniseren.

2.

1. Ik heb niks van node, ik ben gezond, sinds ik het kruis vond. Ja, het kruis heeft mij genezen, mij gevuld met hemels kruid. Zij gaf mij de kragen van bloemen, zij is de rode kap. 2. Aan de deur van zieken klopt zij, aan hun poorten staat zij, met de vruchten der hemelen. 3. Zij is de rode kap met haar sappen van vuur. Zij die het kruis beminnen, weten van haar lusten. In rivieren glijdt zij, tot het

koele water. 4. In bosmeren heeft zij haar kronen, zevenvoudig uitgelezen. 5. Zij spreekt als de bosfontein, tot allen die haar volgen. Ik heb niks van node, ik ben gezond, sinds zij mij aanraakte. 6. Op de pleinen wordt zij gemeden, maar kinderen volgen haar. 7. Zij draagt de ijsnoden en vuurnoden in haar mand. 8. De betekenissen der dingen veranderen onder haar strelingen. 9. Ja, zij schiep de Geesten Gods, en bracht de Karazuur tot het hart van Metensia. 10. Stille nachtspelers zijn zij, spinnende de karbulijnen en de karmozijnen, de nachtlatijnen en de vuurroden. 11. Ja, zij schiep het grote Eerst, als het hart van de hemelen en de aarde. In haar hebben zovelen schuilplaats gevonden. 12. Het kruis klopt aan de deuren als een geit, zoekende naar haar kinderen. 13. Zovelen hebben het nachtlatijn gevonden, gesponnen door de grote wonden. 14. Het kruis kent hen allemaal. Zij vond hun schaduwen en hun leven. 15. Zij reikt dan tot het levende in hun geest, om het de wateren des levens te geven. 16. Als een geit gaat zij langs de huizen, op de pleinen wordt zij gemeden, maar kinderen volgen haar. 17. Zij spreekt als de bosfontein, tot allen die haar volgen. Ik heb niks van node, sinds zij mij aanraakte. 18. Het nachtnood kent zoveel talen, allen volgen zij haar. 19. De vogels zingen van haar bloed, dat stroomt door duizend vaten. Zij is de rode kap. 20. Zij heeft de Marion in de schoten van Metensia en Mura gewrocht, als de boom des kruises. 21. Als een geit verzamelt zij de vruchten die het bos voor haar liet vallen. En zij brengt het tot de kinderen, want op de pleinen wordt zij gemeden. 22. Zij zien haar als het gevaar van de Karazuur, al die haar haten, al hen die de wereld dienen. 23. Zij hebben het hek der eeuwen opgericht.

3.

1. Zij is het bloed in koele meren, met vele kragen staat zij op Golgotha. Nadat de haai en de kip gekraaid hebben, zoveel tranen vallen daar, als de regen des kruises. 2. Zij houdt het leven in haar hand, met dampen van de Karazuur. 3. Zalig hen die voor haar beven, tot Golgotha leidt zij hen, als een geit die haar kinderen verzamelde. 4. Aan de deur van zieken klopt zij, staande aan hun poorten. De nachtspelers brengt zij, met hun weinige woorden. 5. Rozen vonden een onderkomen in haar. Aan lammen geeft zij een stok, om hen die haar haten te slaan. 6. Haat het kruis dan niet, opdat zij u niet vinde. 7. Vogels zingen van haar bloed, tot al die haar beminnen. Het bloed dat door duizend zielen stroomt, zij vonden genezing in haar ijsnood. 8. Waar de stille nachtspelers zijn, verblijft zij. Het rode bedekt haar. 9. Rozen komen voort uit haar schoot, als de bloemen des kruises. 10. Waar de stille nachtspelers zijn verblijft zij. Brengt dan lof aan het kruis, aan de rode kap. 11. Zij die onder haar schuilen hebben de schilden des kruises, en haar wapenen zijn als naalden, om de pantsers te borduren. 12. Zij werkt onder schuilnaam, vindt haar dan. Zendt bedelaars niet weg bij uw deuren, want gij mocht haar eens weggagen, om het voor eeuwig te betreuren. 13. Het hek der eeuwen brak zij, maar boze lieden hebben het weer opgericht. Zij echter vond toevlucht tot haar nachtgedicht. Zij dan schuile in al die haar volgen, zij schiep de Christus in het zilver, en de tweede in het goud. 14. Wederom zal zij het hek der eeuwen breken, en vogels zullen vliegen tot haar huis, waar de bramen branden, en de vruchten zijn van ijs. 15. Op de heuvelen der bramen klappen haar nachtgedichten als deuren, en de grote bomen komen voort met vele kragen. 16. Het verhaal bond ons allen, zegt het voort.

4.

1. Als het zuivere latijn, is zij tot hen die haar volgen, voor Jood en Griek die haar beminnen. 2. Aan de deuren van lammen klopt zij, staande aan de poorten van bedelaars. 3. Zij in lompen kennen haar, zij met de vele kragen. 4. De muizen des hemels hebben haar hart verstaan. 5. Zij die de mystiek dienen, hebben steeds tussen de regels gelezen. Haar Woord zal nooit teniet gaan. 6. Het Woord des kruises onder een spotkleed gebracht, bracht ons de rode kap over de doornenkroon. 7.

Zij is het hart des kruises bemin haar dan, waar de ratten des hemels haar hebben gezien. 8. Zij heeft de witte muil des satans verbroken. De doornenkroon is hier, weet dat wel. 9. Het spel der ratten is afgelopen, de muizen hebben geen vertier. Zij brak de koning der harten, en doorboorde zijn nieren, om zijn slaven een tijd van vrijheid aan te kondigen, als een schip in woeste zee. 10. De doornenkroon is hier, weet je het wel ? Als een ster boven bruisende zee, om hen te leiden naar het land achter de bomen. 11. Het huis der dokters kende zij niet. Zij had een kruid des kruises. 12. De witte muil van Beelzebul brak zij, en bond zijn zonen één voor één, om harten te bereiden, tot het grote nachtlatin. 13. Als lampen aan de zolder, brak zij de bedreiging, één voor één. Zij moesten dan allen voor haar staan, en zij bracht hen tot eeuwige rust in de rotsen. 14. Het lot des Heeren is dan niet om te verbreken, maar om voor altijd in slapen te laten gaan. 15. De Heere Heere kent dan de rust der zeeën. In hun slaap zijn zij woest, maar het schuim is het voor altijd vergeten. 16. Zij dan rusten in de vierde dood, waartoe de Heere hen dreef.

5.

1. Zij dan die niets weten hebben veel te lijden, maar de slaap brengt hen tot rust en zwijm. Zij borduren daar in nachtgedichten. 2. De Heere heeft van meet aan de rust gespannen, tot een boog om hen van de canon te weerstaan. 3. Opent dan uw poorten en laat de vogel wijd vliegen. De nieuwe dag breekt aan. Wie zou haar niet omhelzen. 4. Zij is de doornenkroon des Heeren. Zij sprak in vuur en heimwee. 5. Ja, tot slaap brengt zij, allen die Hem vrezen. 6. De doornen hebben diep gestoken, nu zet dan de rust in. Zij die dan niet diep wilden lijden, hebben haar gemeden. 7. Maar eens reikt de doorn tot de geest, tot de dieptes van het tweede, en dan zullen de poorten van slaap opengaan. 8. De naald is diep gestoken. Zij wist niet wat ze zei. Nu zijn ze weer van jou, die rozen. Ze zullen je breken, zij aan zij. 9. Want de Heere brengt hen die diep lijden tot verbrokenheid, en dan breekt een nieuwe dag aan. 10. Nee, je kunt de rozen niet ontwijken, wanneer zij opstaan en marcheren, tot de gebroken ruiten komen zij, om verder in te breken. 11. Ja, als een dief in de nacht komt de Heere. De doornenkroon hangt aan de muur, als een ster in de lucht is zij. 12. Zij schiep de Heere der Geesten, de Heilige Ziel, nu is Hij dan geworteld als een boom in diepe morgens. 13. Ja, de Heere schiep zij, zij is de Ziel des Geestes. Een doornenkroon is zij, en de Heere heeft haar waardig gedragen. 14. Zij brengt de legers tot rust en brengt hen tot de eeuwige slaap.

15. Als een koningin in haar paleis, bespeelt zij de viool. Zij werd dan gemeden, zij is de doornenkroon. Maar kinderen volgden haar, kennende haar geluk. 16. Zij bracht hen tot de rivieren, tot de wateren van slaap. Zij bracht hen zwijm en verdoving door haar steken. Als het vuur der rozen was zij. 17. Zij brak het hek der eeuwen. Zij leefde onder de rode kap. 18. Zij kwam uit het kruis, als vuurnood van de rode kap. De vurige steken der rozen beminden haar in zilver, en zij bracht het goud voort als de honing. 19. Als een gevangene van spinnen was zij, de doornenkroon. Zij maakten haar lang en bitter. 20. Komt dan tot de doornenkroon, al die zeggen Christus te beminnen. 21. Zijn diepe hart, zijn tweede geest, zou ik dan geheimenissen beminnen ? 22. Vurige sleutels geeft Hij hen die haar beminnen. 23. De doornenkroon als het hart der zee, als geheimenissen van zeemannen. 24. Laat haar dan de touwen tot rust brengen. Ze hebben te lang gewerkt. Laat zij hen brengen tot Spricht. 25. Waar deuren openen komt haar naam, waar ramen breken glijdt zij binnen. Zij is als de slang des kruises, komende tot al die haar beminnen. 26. Het kruid van slaap brengt zij, en de roerselen der wind. 27. Zoudt iemand haar verachten, zij brengt hem neer. Zij geeft het loon der slaap aan allen, naar de mate waarmee zij meet. 28. Onrechtvaardig is dan het oordeel over hen die onrechtvaardig waren, maar haar onrecht is rechtvaardiger dan het recht der mensen. 29. Zij is dan het recht der kooplieden en der slaven. Mocht het eens uit de hand

lopen, zij weet een ieder te vinden. 30. Op de zeekades maakt zij kabaal. Zij is de doornenkroon. 31. Toch is haar geschreeuw stiller dan de stilte der mensheid, en haar kabaal als het geluid der zeemeeuwen. 32. Ken haar dan in haar geweld. Zij is de doornenkroon des heeren. 33. Als het dan uit de hand loopt is zij daar. En merels dienen haar. 33. Ja, zij kent de mezen op het dak, en bracht de karsuiken en de putsen tot Metensia. 34. Raakt dan het verleden niet meer aan, wanneer zij spreekt, maar gaat door haar geopende deuren. Haar strelingen veranderen betekenissen. 35. Zij draait de doelen om, en is als de draaiende heg.

De Nieuwe Johannes

1.

1. Zo is dan Christus niet alleen mens geworden, maar ook engel, in de verborgen tijden. 2. Want de Heere had niet alleen een verlossingsplan opgesteld tot het redden van de mens, maar veeleer tot het redden van de engelen. 3. Want zoals de mens van de appel nam en viel, zo was daar ook een appel der engelen, en zij die daarvan hadden genomen werden niet gespaard. 4. En zo gingen vele geslachten der engelen ten onder door de vloedgolven des Heeren, om hun harten te testen. 5. Nu zijn er enkele lieden geweest die hebben gepredikt dat er geen verlossing voor engelen zou zijn, maar zulke lieden weten niets van de verborgenheden des Heeren. 6. Want Christus is ook engel geworden, om vele engelen te redden. 7. En zo daalde Christus af tot de wildernissen van de vierde dermense in waarin de engelen in gebondenheid leefden met hun geslachten en legioenen. 8. Zij leefden niet meer op de berg van Eeden, de heilige berg der goden en engelen, maar zij leefden in de wildernissen ten hoogte van Eeden. 9. En sommigen van hen leefden in genade in de uithoeken van Eeden. En Christus werd allereerst engel, om vele engelen tot zaligheid te brengen. En zo

daalde Hij af van de godenberg tot de wildernissen van de vierde dermense tot de plaatsen waar vele engelen gebonden waren. En Hij sprak hen toe, en trooste hen, door het Woord te verkondigen. En de Heere liet Zijn zwaard neerdalen op de gevallen engelen, en hen die met hen waren gevallen door geslacht of ras, en de Heere maakte scheiding tussen hen. 10. En Christus sprak vele woorden om scheiding te brengen en hun harten te toetsen, en velen van hen hebben Hem niet gewild. En zij namen hem naar een verborgen plaats, en sloegen hem en bonden hem aldaar. Ook maakten zij een masker en legden dat om zijn hoofd, en gaven hem een strop. En zo werd Christus, die engel geworden was, gehangen. En zij die van Hem hielden noemden Hem de ekster en de heilige dief. Want doordat Christus de gehangene werd roofde Hij velen uit de klauwen van Virtus, de geest van de appel, en de gevallen god. En zo is dan ook de mens gediend te weten van Christus de Gehangene, want het duidt op een ver verleden waarin de Heere engelen verlost uit het duistere mysterie van de zwarte appel. 11. En doordat Christus eens engelen had gered, zo kon hij ook de mens redden. En zo is Hij dan een heilig verbond, de weg tot de hof der goden, voor een ieder die de strop draagt. Want iedere gehangene dient te beseffen dat eerst Zijn Christus heeft gehangen. Maar velen hebben de strop bespot, en als onheilig geacht, en zij hebben het bloed dat Christus voor de engelen vergoot veracht. Daarom zal de Heere ook hen bespotten die van de strop een bespottung hebben gemaakt, zij die wandelen met een strop van stof om daarmee macht over anderen uit te oefenen. Laat u dan niet misleiden, want de ware strop was een touw. En ook zij die gemaskerd zijn hebben een troost dat ook hun Heer was gemaskerd.

12. Zo is dan de Heere veelvuldig opgestaan, en ook veelvuldig in de dood gegaan, en dit om niet alleen mensen, maar ook engelen te redden. Zo heeft hij zijn evangelieën opgesteld voor de mens, en voor de engel. Want de Heere straft niet voor eeuwig, en ook toetst de Heere niet onophoudelijk. De Heere is een liefdevolle en genadige God. Zijn werken zijn goed en groot. Nu zal ik u dan een geheimenis vertellen : de goden eten vlees, en velen vielen door te eten van het verboden vlees. Zo eten de Godslangen dan harten, en sommigen vielen vanwege het eten van het verboden hart. En zij hadden als verlosser de oude ekster. Want de ekster redde niet alleen door de strop en het masker de goden, maar ook de Godslangen die het wezen van God waren. En zo werd ieder verbond geheiligd. 13. En zo is ook Christus voortgekomen vanuit de werken van de oude ekster, en werd hij soms ook een ekster genoemd. Dit omdat het werk van Christus terugwijst naar de werken van de oude ekster. En de ekster dan zal komen als een dief in de nacht. Zo is dan de God-ekster het diepere en zuivere wezen van God. En eens schiep hij de berg van Eeden, om op zoek te gaan naar harten. En nog steeds gaan zijn ogen over de wereld uit op zoek naar harten. En de Heere verslindt harten door de heilige verslinding, en de Heere vult harten, en maakt scheiding tussen harten. Ja, de Heere maakt woning in harten, om tot Zijn doel te komen. En het verboden hart dan was zwart, en was als een lever.

2.

1. Dit dan is het oude boek van de eerste brief van Johannes gezuiverd door de door de Heere aangestelde apostelen, met belangrijke aanvullingen, omdat de Geest des Heeren vroeger op vele punten werd tegengehouden. 2. De Heere heeft zijn apostelen hiertoe de macht gegeven, en gij doet er goed aan hierop acht te geven als op een lamp die schijnt in donkere plaatsen. 3. Zo zijn er dan vele kerkleiders geweest en vele vertalers die het Woord des Heeren bezoedeld hebben. Zij hebben

het Woord des Heeren verdraaid, met toevoegingen en verzakingen die niet door de Heere waren ingegeven. 4. En daar menselijke handen zich in het werk des Heeren hebben vermengd is dit tot een vloek geworden. 5. Neemt daarom deze woorden ter harte en verwijderd de onzuivere en deels verduisterde eerste brief van Johannes uit uw Heilige Geschriften. 6. Laat zulk een brief tot de geschiedenis behoren, en vervuult uzelve daar niet meer mee. Weet wel dat dit een gebod des Heeren is. 7. Zo zult gij spreken van de oude eerste brief van Johannes en de nieuwe eerste brief van Johannes, door de Heere geheiligd. 8. Zo is het dan nu tijd om de vloek van het oude en het eerste te verbreken, opdat gij in het nieuwe en het tweede zult ingaan. 9. Heeft de Heere u dan zelf niet gezegd dat Zijn Woord met vuile handen is ontvangen, en dat de farizeeers het Woord van kracht hebben beroofd ? Ja, tegenstanders zijn binnengedrongen in het allerheiligste, om zich daar als een god te laten aanbidden. 10. Zoals Mozes alleen maar deels door de Geest werd geleid, zo ook Johannes. Johannes was niet volkomen, en gij zult vrij komen van de vloek wanneer gij de persoon Johannes en zijn brief als feilbaar en onvolkomen zult beschouwen.

11. God is licht. In Hem heerst geen duisternis. Wanneer wij zeggen met hem te wandelen, maar wij laten de duisternis over ons heersen, dan zijn wij leugenaars. Mijn volk, dit schrijf ik u, opdat gij niet tot zonde zult komen en de duisternis over u heerse. 12. Wanneer wij het licht over ons laten heersen, dan hebben wij goede omgang met elkaar, zoals de Heere Eén is. 13. Wanneer wij zeggen geen zonde te hebben, dan liegen wij, en de waarheid is niet in ons. 14. Wanneer wij zeggen dat er geen duisternis in ons is, dan liegen wij, en de waarheid is niet in ons. 15. Wanneer wij zeggen dat er louter goede omgang is met elkaar en met de Heere, dan liegen wij, en de waarheid is in ons niet. 16. Wanneer wij onze zonde belijden, dan is Hij trouw en rechtvaardig om die zonde te vergeven, en ons door het bloed van Christus te reinigen hiervan. 17. Het bloed van Christus reinigt van alle zonden. Indien wij zeggen dat wij niet hebben gezondigd, dan maken we daarbij God tot een leugenaar, en dan zal zijn woord van ons wijken. 18. Maar zij in Christus, zondigen niet. Zij die door de Geest leven en in Gods geheimenis zijn, zondigen niet. Maar dit alles is slechts ten dele. 19. Zo zijn dan allen die door de Geest gebonden zijn zonder zonde, maar ook dit is slechts ten dele. 20. Een ieder die uit God geboren is, zondigt niet, maar dit is ook slechts ten dele. 21. Want wanneer de Geest u grijpt, en u voor de troon Gods zet, en gij door de vreze des Heeren verlicht zult worden, dan zult gij zien hoe onrein gij bent. 22. Daarom zal God Zijn oordeel zenden tot de herder en de profeet die zeggen dat er geen duisternis en geen zonde in hen is. Want zo hebben zij gedaan om met macht te spreken zonder dat iemand hen tegensprekt. 23. Maar de Heere heeft het gezien, en zal die apostel en die evangelist slaan die zichzelf onfeilbaar heeft gemaakt om hierbij de omgang te verbreken en daardoor macht te vestigen over de andere. 24. Is er dan geen onfeilbaarheid voor een kind des Heeren ? Kan de Geest dan niet binden tot volkomenheid en volmaaktheid ? Is alles dan slechts ten dele ? 25. Om hierop antwoord te krijgen zult gij moeten gaan van gebondenheid tot gebondenheid en van toets tot toets, opdat slechts de Heere zal spreken wanneer gij gebonden zult zijn in de Vreze des Heeren.

26. Zo is er dan in Christus onfeilbaarheid, en gij dient deze na te jagen als een kostbare parel. Maar dan : elke onfeilbaarheid moet getoetst worden. Zij die niet toetsen zullen schade lijden. Zij zullen gegrepen worden door misleiders die hen naar de afgrond leiden. 27. Zo moest dan ook de onfeilbaarheid van Johannes getoetst worden, en zijn brief. Ook zijn volkomenheid, zijn volmaaktheid en gepastheid moesten gemeten worden, gewogen en getoetst. 28. En zo heeft dan de Geest door Zijn apostelen de brief gezuiverd van elke vloek. Gij hoeft niet meer te lijden onder de vloek, de verduistering en de druk van het oude. Het was een stem die altijd in de dieptes van uw

geest sprak en u verblind hield. 29. Laat de deuren vandaag geopend worden. Laat de Heere u vandaag wegnemen uit het bezoedelde woord.

30. Dit heb ik u geschreven, opdat u allen weet dat u in Christus eeuwig leven hebt. Wij hebben vrijmoedigheid om tot Hem te komen, en wanneer wij bidden naar Zijn wil, dan zal de bede ons geschonken worden voor het Heilige aangezicht des Heeren. 31. Maar zij die de Heere niet vrezen hebben niets. Zij halen de woorden des Heeren weg en maken het fundament zwak. Zij protsen rond in hun tradities en zeggen : Ziet, hoe wij het woord des Heeren krachteloos hebben gemaakt. 32. Maar velen zijn doof, en volgen hen blind. Nee, geen genade is er voor hen. 33. De Heere zal hen bezoeken op het door hem vastgestelde uur. En hij zal hun blinde ogen en dove oren verwijderen, omdat ze toch blind en doof waren, door hun zonden, tot nutteloosheid bestemd. En de Heere zal hun vlees aan de vogelen des hemels geven. 34. Ja, op die dag zal God veler vlees laten weggroten, terwijl niemand omziet. Duisternis is over hen gekomen, en zij zullen elkander niet kunnen vinden. 35. Volgt daarom geen leiders die u naar zo'n duisternis leiden. Want de Heere ziet getrouw toe op zijn woorden, opdat zij allen nauwkeurig uitgevoerd en volbracht worden. 36. Ja, de Heere snijdt recht met Zijn Zwaard, door de Waarheid aangedreven. Maar zij die dan geen dwazen des Heeren zijn, en zich als kerkwolven op de hoogste stoelen hebben gezet, hoe kunnen zij de Waarheid in zich dragen ?

3.

1. Zo is dan de Geest des Heeren buitengesloten door verdraaiingen van de woorden des Heeren. Zo is dan de Geest des Heeren op een rantsoen gezet. 2. Zo hebt gij dan Gods Geest laten hongeren en dorsten, en gij hebt voor Hem niet opengedaan. 3. En zo luidt het woord der apostelen : Gij hebt het boek des Heeren moeilijk gemaakt, en tot een bespotting. Daarom zal de Heere velen uitdrijven als boze geesten. 4. Geliefden, vertrouwt niet iedere geest, maar beproeft de geesten of zij uit God zijn, want vele misleidende geesten en valse profeten zijn in de wereld uitgegaan. 5. Zo heeft Johannes de Geest slechts ten dele laten spreken, maar het woord der apostelen aan wie God de macht heeft gegeven draagt de Geest van Johannes. 6. Zo is dan de tijdelijke sluier en schaduw weggehaald. Hieraan onderkent gij de Geest Gods : elke geest die zal belijden dat Jezus Christus, de Zoon van God, in het vlees is gekomen, is uit God. Zo is dan een iedere geest die dit niet belijdt niet uit God. 7. Dit is de geest van de antichrist, die Christus niet belijdt, en die komen zal om in de wereld te zeggen : ik ben God. 8. Zulk een geest zult gij verachten. Maar niet iedere geest die zegt : ik ben God, is een geest van de antichrist. Zo dan zijn er ook verdwaalde geesten, misleide geesten, en de geesten des Heeren. 9. Daarom geliefden : Gij zult moeten toetsen. Gij zult geesten niet herkennen aan hun woorden, zelfs niet aan hun daden, maar aan hun diepste en innigste hart. 10. God ziet de geesten aan, niet in hun woorden en daden, maar daar waar geen mens hen ziet, en waar geen autoriteit hen snapt, daar in hun diepste wildernis, waar hun ziel troont. 11. En deze ziel troont in gemis, omdat zij niet wordt gezien zoals zij is. 12. Zo heeft God dan de sleutels tot de diepste kennis, en stelt geen enkele profeet of apostel iets voor, voor Zijn aangezicht. Alleen zij die in de sleutel zijn hebben eeuwige en onverbreekelijke waarde. 13. Laat u daarom niet misleiden door een belijdenis bij het toetsen, maar dringt dieper door in de geest, wetende dat God de sleutels heeft. 14. Zij die zondigen kunnen niet toetsen, maar wat is zonde ? Hebt gij enig besef van wat zonde is ? Welke taal spreekt gij ? 15. Zo zijn dan vele engelen gevallen tezamen met de hemelen waarover zij heersten, en ziet, zij hebben geestelijke talen gecreeerd. En hierdoor misleiden zij velen. 16. God heeft niets aan talen. God vertaalt, en dringt door tot de kern. God leeft niet in misverstanden. Misverstanden worden door taal ingegeven. Taal is een vloek wanneer er geen vertaling is die tot

het diepste leidt. 17. Zo zult gij tot de diepste vertaling moeten komen om uw broeder te kunnen verstaan. Maar bovenal : gij zult door de deuren van Gods geheimenissen moeten gaan. Zo zult gij de talen des Heeren spreken.

18. Zo was Johannes dan niet zonder zonde, en ook niet zonder leugen en zonder duisternis. Hoe zou hij dan volkomen en volmaakt door de Heere kunnen profeteren ? 19. Toch slaat de Heere met kromme stokken recht, en grijpt Hij iemand om Zijn woorden te spreken. God kan alles als spreekbuis gebruiken, maar dat wil niet zeggen dat hetgeen daaruit voorkomt altijd volkomen is. 20. Zo is er dan strijd tussen God en de geest van de antichrist om de spreekbuis, en vaak zijn de wateren daardoor bezoedeld. 21. Ja, het woord is een groot kruis des Heeren, omdat Hij vaak slechts ten dele kan spreken, of in chaos. 22. Daarom heeft de Heere gekozen om te spreken in symboliek en criptiek.

23. Johannes was niet zonder zonde. Daarom is deze brief door de Geest geschreven die in Johannes leefde, de Geest van Christus, deels uitgedoofd, deels bedroefd, deels ingeknot, om de boodschap in het laatste der dagen door het woord der apostelen te zuiveren. 24. Zo dan zullen velen vrijkomen van de vloek, maar ook zullen velen zich tegen de gezuiverde brief verzetten. Zij zullen het oude vastgrijpen en hun machtsgebieden verdedigen.

25. Dit dan is de eerste brief en het eerste boek van het oude woord dat gezuiverd wordt en zal worden. Luister dan naar dat wat de Geest van Johannes tot de gemeentes predikt. De Geest en de Bruid zeggen : Kom. 26. Als iemand een broeder ziet zondigen, niet tot de dood, vermaant en bidt. God zal leven geven aan hen die zondigen, niet tot de dood. Er bestaat zonde tot de dood. Voor zulk een broeder heeft het geen zin te bidden. Alle ongerechtigheid is zonde. En er bestaat zonde tot de dood. 27. Johannes had een zonde, niet tot de dood. Zelfs nu spreekt zijn Geest, de Geest van Christus, nu Johannes tot de wolk van getuigen behoort. 28. Ik zag Johannes staan, zegt het woord der apostelen en zijn Geest, en ziet, hij stond in een deuropening, dragende een bloem. 29. En die bloem was om de bezoedelde brief uit de oudheid te zuiveren en te ordenen, op deuren te openen, en om de Geest te laten bloeien. 30. En Johannes sprak deze woorden, zeggende : Gaat uit, oh paarden des geestes, en brengt het woord, gij die uitgezonden zijt. Brengt het gezuiverde woord, door mijn dood gezuiverd, tot de aarde, en laat het wortelschieten in het bloed des Heeren. 31. En ik zag Johannes zijn hand opsteken, en ziet, hij zegende het woord. En ik zag hem huilen om dat wat hij Gods Geest had aangedaan in de tijden van zijn onvolkomenheid. En God gaf hem macht de vloek te verbreken. 32. En zo liet Johannes wederom een duif opstijgen.

33. Gij zijt uit God, gij die zijn kinderen zijt en zijn volk. En gij hebt de geesten der wereld overwonnen, omdat Hij die in u is meer is dan degene die in de wereld is. Zo hebt gij het Zwaard des Geestes ontvangen en het Zwaard van de Geest van Johannes, een speciaal deel Gods daartoe afgezonderd. 34. En paarden des Heeren en de paarden der engelen zijn uitgegaan om in de verschillende richtingen der wind en van het aardoppervlak de geesten des Heeren tot rust te brengen. Ja, ook zijn zij uitgegaan om de dwalenden en misleide geesten tot rust te brengen. 35. De geesten der antichrist echter zijn niet uit God. Zij zijn uit de wereld en spreken zoals de wereld. De wereld luistert naar hen. 36. Wij, die God kennen, zijn uit God. Wij zijn uit God, omdat wij in Hem zijn geboren, door Zijn geest. Zij die God kennen horen naar ons. Wie niet uit God is horen naar ons niet. Hieraan onderkennen wij de Geest der Waarheid en de geest der dwaling. 37. Zij die deze woorden niet toetsen zijn niet uit God. Zij die deze woorden toetsen zijn uit God. Dit is slechts ten dele, want God ziet het hart aan. 38. Zij die de geesten toetsen zijn uit God. Zij die de geesten niet toetsen zijn niet uit God. Ook dit is slechts ten dele waar, want God ziet het hart aan. God ziet het

kruis in een ieder. 39. Zo zijn er dan : kruizen van leugen en misleiding, kruizen van valse toets, kruizen van verdwaalde toets, en kruizen van toetsloosheid. God kent de duisternissen en versluierungen der harten, en de dieptes van geest en ziel. 40. Is er dan verlossing mogelijk ? Daarom heeft de Heere het woord der apostelen opgesteld.

41. En ik, apostel des Heeren, zag het oude boek van de brief van Johannes, en ziet, het was als een gevangenis. Want de stukken van die brief waren bouwstenen van het geweten, van de ziel en de geest, en hielden de Geest des Heeren vast als een gevangene. En ik zag toen die bouwstenen afbrokkelen en wegglijden, en alles begon in te storten. En een stem zeide tot mij : Klim hierheen op ! 42. En ik klom terwijl nog steeds de gesteentes onder mij afbrokkelden, totdat handen mij grepen, en mij op vaste grond zetten. Aldus was het woord der apostelen. 43. En ik zag een paard en een lieveheersbeestje des Heeren als engelenverschijningen, en van hen kwam stralend licht af. En ik zag wezens opkomen uit de put waaruit ik kwam, geketende zielen, en ziet, zij werden vrijgemaakt. 44. En er werd een grote ronde steen over de put heengeschoven.

4.

1. En het zwaard des Geestes is over hen die de Geest van Johannes kennen. En het zwaard leidt hen voort, en leert hen te strijden. 2. En zij bewaren de woorden van het zwaard in hun harten. Zij strijden onder de aanvoering van de legeroversten des hemels. Zij horen hun stemmen, want de Heere heeft hun oren geopend. Zij kennen de geheimenissen van Johannes en van zijn Geest. 3. En dit is het geheimenis : de liefde, waarover gij vanaf den beginne gehoord hebt. Niet gelijk Kain die zijn broeder vermoordde. Dit was uit den boze. 4. Waarom vermoordde Kain zijn broeder ? Omdat zijn daden boos waren, en die van zijn broeder rechtvaardig. Verwondert u daarom niet wanneer de wereld u haat. Zo hebben ze ook de koningen van Christus gehaat. 5. Door liefde tot de broeders zijn wij van de dood overgegaan in het leven. Zonder liefde blijven wij in de dood. 6. Wanneer wij onze broeders haten zijn wij moordenaars, en het leven is in ons niet. Geen moordenaar heeft het eeuwig leven blijvend in zich. 7. Wij herkennen de liefde in Hem die zijn leven gegeven heeft voor zijn vrienden. Ook wij behoren dit voor onze broeders te doen. 8. Wanneer je in de wereld je broeder gebrek ziet lijden en je sluit je binnenste en je hart voor hem, hoe zal dan de liefde van God in je blijven ? 9. Wij hebben dan de ander niet lief door woorden, maar door daden, en dan vooral door de waarheid. Wij zijn geen slaven, want daar Christus door de diepte zijn vrienden liefhad, en door de Geest werd vrijgezet, zo zullen ook wij door diepte elkaar liefhebben. 10. Wat houdt die diepte dan in ? Deze woorden hebben te maken met het kruis, en de afzondering tot diepere kennis. 11. Hieraan zullen wij weten dat wij uit de waarheid zijn, en voor Hem ons hart en binnenste overtuigen, dat indien ons hart en geweten ons in vurigheid veroordelen, God meer is dan deze dingen, en kennis heeft van alles. 12. Wij hebben vrijmoedigheid tot het komen tot God en Jezus Christus, wanneer ons hart ons niet schuldig acht. Dan ontvangen we alles wat we van Hem bidden. Dit omdat wij doen wat Hij van ons verlangt, en Zijn geboden bewaren en onderhouden. 13. Dit is slechts altijd ten dele, omdat het hart zich van nature voor God verstopt. Zo kan het hart zich dan onder duisternis verborgen houden, en zeggen : ik heb niks gedaan. De Heere kent echter alle harten. 14. Dit is Zijn gebod : dat wij elkaar in liefde bewaren, en dat wij geloven in de Naam van Zijn Zoon, Jezus Christus, die wij gehoorzamen. Dit is slechts ten dele. God wijst ons naar de diepte. Dingen zijn niet wat ze lijken. In de diepte krijgen wij goedkeuring, en wordt de symboliek van dit alles duidelijk. 15. God is geen wachtwoord, en zelfs zijn geboden niet, want zij kunnen door huichelaars en misleidende geesten gehoorzaamd worden tot het verkrijgen van macht. Die gewoonte hebben wij echter niet. Daarom is de naam en de daad van geen enkele waarde in de

diepte, en dient zij slechts tot symboliek, als een heenwijzer tot het openen van deuren. 16. Wie zijn geboden bewaart en onderhoudt, blijft in Hem, en Hij verblijft in hem. En hieraan weten wij dat Hij in ons blijft : door de Geest en de Geest van Johannes, die Hij aan een ieder schenkt die Hem waarlijk liefheeft.

17. Laten wij daarom elkaar liefhebben en in liefde bewaren. De liefde is uit God, en een ieder die waarlijk liefheeft is uit God geboren en kent God. Wie niet waarlijk liefheeft kent God niet. God is liefde. God heeft liefgehad door Zijn eniggeboren zoon te zenden in de wereld. Hierin is ware liefde geopenbaard, opdat wij daardoor zouden leven. 18. Hierin is de liefde, dat God ons heeft liefgehad, niet dat wij God hebben liefgehad. God heeft Zijn zoon gezonden tot verzoening voor de zonde. Zoals God heeft liefgehad, zo behoren wij ook lief te hebben. 19. Niemand heeft ooit God aanschouwd zoals Hij is. Niemand heeft ooit de mens aanschouwd zoals hij is. Maar door liefde verblijft God in ons, en is hierin volmaakt geworden. Laten wij daarom elkaar liefhebben. Hieraan weten wij dat wij Zijn Geest en de Geest van Johannes hebben ontvangen.

Ode aan de Maagden

1. Heilige maagden van het woud, heilige maagden van de vulkanen, hebt gij mij ooit gehoord, toen ik tot u bad. Hebt gij mij ooit gezien hoe ik naar u verlangde. Mijn hart bonsde reeds toen ik jong was in mijn hoofd, toen ik gedichten tot u zond. Gedichten der liefde, van volwassen taal, maar gij hebt mij tot de wildernis gezonden. 2. Heilige maagden der bergen, heilige maagden van de zon, heb medelijden wanneer ik tot U kom. Wanneer ik in Uw nabijheid een verkeerd woord uitspreek, straf mij niet te zwaar. Ik ben jong en onhandig van hart. Werp mij niet van te hoge bergen. Ik kan niet vliegen, mijn vleugelen zijn nog klein. Gooi mij niet in te diepe zeeën, want ik kan niet zwemmen in zulke woestenijen. 3. Denkt niet dat ik sterk genoeg ben de haaien te bevechten. Ik ben nog jong, en zwak. Straf mij niet te zeer. Denk niet dat ik wijs genoeg ben filosofen te misleiden. Ik ben nog een kind, teer en hulpeloos in de woeste hand der aarde. Heilige maagden der zeeën, ik zie naar u uit op mijn torens. Laat me weten wanneer gij wilt spreken. Ik ben Uw spreekbuis, als het aarden vat. 4. Vorm mij als klei, maak mij sterk in Uw hand. Maar gij hebt mij enkel zwakheid gegeven, in een droomwereld verkeer ik nu. Ik ben te zwak om op te staan, gij heilige maagden der nachturen. Gij hebt mijn hart verkleind, mijn voeten gebonden. Een woesteling ben ik nu, op mijn reis heb ik nooit rust. U wil mij tot uw dieptes lonken. Leer mij Uw wonden zien. Zij genezen niet snel. Ik ben genaderd tot de vulkaan. 5. Oh, heilige maagden der daguren, gij die de lampen draagt. Gij zijt wijs van binnen, daarom zijn uw lichten gezuiverd. 6. Zo zijn dan deze maagden heilig, want zij hebben het verborgene liefgehad. Zij hebben dan door hun dwaasheid ook het wijze gekregen, vorm mij in uw hand, maak mij in zwakheid sterk, en in dwaasheid wijs.

De Maagden der Uren

1. De maagd, gouden fontein, van reine waat'ren, van zuiv're waat'ren komende vanuit de duisternis. De maagd, teder woord, in zwakheid bent gij gekomen, in sterkte bent gij opgekomen. Als een schone zwakte, als een wijze zwakte, bracht gij sterkte tot het woord. Geen huis te hoog, geen brug te lang, gij gaat altijd voort. 2. De maagd, luchtfontein, bij de nachtlatingen te zijn, was U meer waard dan een gouden kroning, was U meer waard dan het dagrefrein. Avonturen hebt gij niet gemeden, door de nacht bent gij gegaan. 3. De maagden, tot de duisternis bent gij gegaan, het verborgene niet gemeden, gij hebt een plaats vooraan. Kom, voer mij weg tot het verleden, kom,

laten we tot de oermaagden gaan. In de diepste duisternissen leven zij. Zij hebben een plaats vooraan. 4. De maagden, gouden geluk, voer ons door de donk're dagen, leer ons U beter te kennen, en laat ons tot de uurmaagden gaan. 5. De maagden der uren, wij komen tot U, wij houden van Uw vuur, oh kandelaar, de jaren zijn verstreken, maar Gij bent nog steeds daar. Wij drinken van Uw stem, U bent de nachtwake waarop ik bouw. Ik slaap in rust en in geborgenheid, wanneer gij Uw vleug'len over mij spreidt.

Smeekbede tot Alika

1. Ik kan je niet zien, je bent te ver weg, als een koningin op haar troon. Ik kan je niet horen, je stem is zo ver weg. Ik hoor alleen wat gefluister, maar wie is het, ik weet het niet. Is het Uw boodschapper, of is het slechts de wind. De Maagd, Alika, Heilige Maagd, Wijze Maagd van binnen, gij komt overal te laat. 2. Waarom laat gij ons gillen, de doden zijn al gestorven, wij lijden pijn, geen boodschapper tot ons gezonden. De Maagd Alika, waarom hebt gij ons weggeduwd, in duisternis zoeken wij U. De Maagd, neem ons mee, straf ons niet te luid. Neem ons mee tot U, neem ons mee tot U. 3. Wij lopen tegen muren op, wij kunnen niets beginnen. Onze stem ketst telkens terug, ten dode opgeschreven. En gij komt altijd te laat, gij bezoekt ons in de hel. 4. De Maagd, Alika, wij bonzen op Uw poorten, maar U wil alleen de morgen laten overstromen. 5. Kom snel, en straf ons niet te luid. Wij waren jong en onhandig, maar wij groeiden op als rozen. Neem ons aan. U hoeft niet te glimlachen, een zorgzame blik is ons genoeg. 6. Ik heb duizend rozen in mijn mond, zij spreken allen van liefde, teed're woorden tot U, De Maagd, Alika. Met maagden zult gij rozen beminnen, met bloemen spreken, het licht breekt eeuwig door, in fluisteringen. Straf ons niet te luid. 7. Zij kennen hen niet, die geesten bezweren. Zij kennen hen niet, de zachtpaarse wevers der watervallen en rivieren. 8. Tot de taal der genade vlucht ik, tot de liefde daalt in teed're grond, waar de adem van het vuurnood mij overstroomt. Zij liet mij dalen door haar licht, tot een overvloedige morgen die streelde mijn gezicht. 9. Ik daal nu dieper in bloemengrond. Wat moet ik doen ? Leidt mij, doorgrondt mij en ken mij, oh De Maagd, Alika. In jou zijn de poorten open, maar hoe kom ik daar, hoe ken ik jouw hart. Door smart, mijn liefste, kom ik tot overig land. 10. Is daar dan geen andere weg, moeten wij voor eeuwig lijden, is daar dan geen andere poort, Alika, toe, vertel me. Is tijd te overbruggen ? Toe, redt ons uit de klok, en breng ons tot de kast, waar wij kunnen schuilen. Zachte roze stromen, paarse gebieden, druipend licht, is dit gedicht, waar liefde de tijd smelt, waar liefde de kast schept, waar wij weg kunnen drijven, tot een nieuw begin. 11. Ik moet zinken, tot Alika, ik moet zinken. Hier moet ik strijden. 12. Ik ken je nog steeds niet, Alika, na deze nacht. Ik zie je nog steeds niet, jou, één en al pracht. Ik hoor je niet, waar ben je gebleven. Hier op mijn kussen, liggen tranen van het verleden, en mijn deken spreidt zich als de hellevogel, waar ben jij ? Ben ik dan alweer bedrogen ? 13. Heel zacht in de morgen, verlegen sta jij aan de poorten, met je hand uitgestoken, om een broodkruimel op te vangen. In lompen gekleed ben jij, als de pracht van het getij, maar ik blijf diep verscholen achter mijn muren.

De sleutels van Sektia

1. Al wat ik nodig heb ben jij, de aarde wil mij verscheuren, bescherm mij, en leidt mij tot jouw putten, jouw schelpen waarmee jij je pracht omgeeft. Ik wil jouw littekens zien, waar zachte lichten stralen, het donkere heeft mij verlaten. 2. Laat mij al je ribbels zien, oh schelp, laat me je voelen waar je pijn hebt, waar je mij bent vergeten. Laat mij je liefdes-ader zien. 3. Blijf de schoonheid

belijden, blijf de aarde zien, om de kooien des tijds te verbreken, en de maagden te heiligen. Brandt poorten in de heggen, en vlucht. 4. Alike, breng de morgenstond nat. Alles wat je nodig hebt is daar. 5. Gij dan was bevroren, tot een kaars gemaakt, en een kandelaar, en zij brachten vele kaarsen tot U, opdat gij niet alleen waart, maar bereiken konden zij u niet. Gij was als een vurige wolkenhemel. 6. En Sektia, gij waart als de wilde vlam, maar ook als het vuur, als de zachte liefdesschaduw werd gij bemind, gij heilige maagd in alle eeuwigheden. Zij dan heeft mij de sleutels der leeuwen gegeven, zij die bevroren werden, en daarna hun zielen verbrand. 7. Sektia zij geloofd voor eeuwig, de Heilige Maagd der leeuwen, tot Uw poorten kom ik, en door uw vuren kom ik, tot de wilde vlam. 8. En ik riep tot Alike en Sektia, en ziet, zij waren als feeën. En ik kwam tot hun altaren, en ik dronk van hun bekers. En ik viel dronken in hun armen, en zij voerden mij weg. 9. En zij vlogen van mij weg, en ik kon hen niet volgen. Zij dan waren als vurige wolkenhemels, en zij schoten pijlen op mij af. En weer raakte ik dronken. 10. Toen moest ik uit vele bekers drinken, en ik voelde mij zeer zwaar worden, en het voelde alsof ik verpletterd werd. En ik kon nauwelijks overeind komen. En een maagd verscheen aan mij, en zij had vele geschenken, maar ik kon haar en die geschenken niet bereiken. 11. En ik begon te roepen : 'Dehu, Dehu !' En weer moest ik van vele bekers drinken. En nu werd ik zo licht als haar, en zeer lang en dun. Zij dan was de heilige maagd Dehu, en zij gaf mij de geschenken. Zij dan was als een roos van tranen, als het water onder de aarde, stromende vanuit de maagdelijke bronnen. 12. En ik zag de vruchtbaarheid van de maagd als een wond, een zeer tere en zachte wond, vele malen doorstoken. En de wond zelf was als een maagd. 13. En ik zag de mond en de tong van de maagd, en zij waren als een wond, en als een poort. En weer dronk ik van vele bekers en werd in de poort gezogen. En weer dronk ik van vele bekers, en ik werd dronken, en weer werd ik door een poort gezogen. 14. En zij waren ribbelig, en als de zeemaagden, en zij waren als haar vruchtbaarheid. En weer werd ik door een poort gezogen toen ik van vele bekers dronk. 15. En Dehu stond op, en sprak haar woorden, en deze waren zeer zacht en teder. En haar organen waren als tranen, als de wateren der maagden. 16. En de baarmoeder sprak en zei : 'Jou worden de sleutels gegeven van de geschenken en geheimenissen van Dehu. En nadat ik weer van vele gifbekers had gedronken, ging er een vreemde poort open, en ik zag een woeste, grijze zee voor me liggen, wiens golven traag en schokkerig bewogen. En uit de zee kwamen maagden oprijzen, en zij waren de eeuwigen. 17. En toen ik door een andere poort ging na het drinken van vele bekers zag ik daar eeuwigen, komende vanuit de vulkanen. En zij gingen snel. 18. En toen ik door een andere poort ging na het drinken van vele bekers zag ik daar eeuwigen als traag bewegende wolkenhemelen. 19. En in andere poorten zag ik eeuwigen, en zij waren als steen. 20. En weer kwam ik tot een oude trap, maar ditmaal ging deze naar beneden. En er stond daar op tafel een beker die nooit opraakte. En ik nam een slok. 21. De deur achter deze tafel leidde mij naar een grote woestijn. En midden in die woestijn stond een beker en een grote dobbelsteen. En uit de beker kwam een hart oprijzen dat ondersteboven kwam te staan, zwart werd, en in een lever veranderde. 22. En de beker was als gevuld met zware alcohol, en er kwam stoom en rook uit. En zij die er van dronken droogden ter plekke uit. En de beker dan was als een dokter des doods. En uit zijn mond en hand kwamen rivieren van zware uitdroging. 23. En er waren maagden die van de beker dronken, en direct neervielen. En zij waren als in zwijm, en zij werden geleid tot de bronnen der eeuwige maagdelijkheid. En naast deze bronnen stonden kippen en hanen. En zij waren als de uitgedroogden en de vergiftigden. En zij bewaakten de bronnen der eeuwige maagdelijkheid. 24. En zij hadden het gif van sterke drank, en zij waren als de advocaten des doods. En de maagdelijkheden werden zeer zwaar, en Dehu rees van hen op, en zij hief een vreemd zwaard op. En dit was de bevrorene en de doorstokene. En er kwam vuur uit het zwaard, en zij zuiverde de maagdelijke bronnen. En de wijze maagden die geen dwaasheid bezaten werden geworpen in een put. 25. En Dehu sloot de put af,

zeggende : Zij zullen tot in eeuwigheid niet meer van de gifbeker drinken. En gegil steeg op van de put, en zij begonnen te zoeken naar het gif, maar het vluchtte van hen weg.

Gebeden en Belijdenissen tot de Heilige Maagden

1. Heilige Maagd Isabella, waak over onze zielen. Geef ons de eeuwige koorden, om tot u te komen. Opent uwe heil'ge weg, een heilig pad vol vreemdelingen. Heilige Maagd Isabella, waak over onze zielen, schenk Uw woord tot een doorgang over bruggen, laat uw dalen vol van liefde zijn. Heilige Maagd Isabella, schenk ons uw geest, als een glorie van boven. 2. Heilige Maagd, laat ons niet in zonde glijden. Genees onze afvalligheid, en schenk ons uw liefde. Draag bij, aan onze eeuwige groei, in de veiligheid en rust van uw beminnelijke schuilplaats. Onder de putten heeft u het neergezet, wij komen tot u, in bewondering. Wij sluiten onze ogen, en denken aan U. Aan U, die ons leven schonk, aan u die ons opzocht in onze kerkers en putten, en leidde ons tot de diepere weg. Van onderen kwam u. Laat ons dan dichterbij komen. 3. Heilige Maagd Rozenweer, neem ons op in Uw lieflijke hand, en zet ons in uw koninkrijk neer, in Uw paradijs, waar wij in vrede kunnen leven. Uw paarse en roze vlammen is als verkoelend stoom van uw liefdeswoorden. Genees ons, en leer ons. Dank u dat u tot ons bent gekomen. Ja, diep in uw putten zonken wij, totdat u ons nam tot de dieptes van uw koninkrijk. 4. Op de bodem van onze putten vonden wij Uw weg. Heb genade, en leidt ons, neem ons mee. Heilige Bosmaagd, wij hebben uit uw rivieren van heil gedronken, en gij hebt ons de gouden vlam gegeven. Tot het groene goud leidde gij ons, en gij maakte onze werken schoon en zuiver. Uw lieflijke geuren stromen uit de bosflessen, en gij hebt uw broodbrokken in kruiken tot het voeden der wilde beesten. 5. Heilige Veldmaagd Saratus, gij bent mij grote liefde, overstroom mij met uw gloed, een bloeiende, groeiende ochtendvloed. Ik gloei wanneer gij mij aanraakt. Ik sta in brand, wanneer gij aan mij denkt. Ik kom altijd tot uw poorten. Ik ben nog nooit zo diep geweest als nu, in de dieptes van uw bloemenvelden, kom nu, en doe mijn diepste verlangens ontwaken. 6. Bloemen verwelken, zij groeien op mijn hoed, om voor altijd het geluk te aanschouwen, de glorie van de gloed, de moedergloed, zij heeft mij op rivieren genomen, tot dit paradijselijke eiland, zij is de veldmaagd Saratus, de Heilige. Overstroom nu ook mij, vergeet mij niet, wanneer je schrijft. Laat mij binnen in Uw koninkrijk, ik ben gemaakt aan U gelijk. 7. Zij hebben mij stijf gespoten, met het schuim des velds. Saratus, waarom hebt gij mij geslagen ? Zwaar tuchtigt zij haar helden. In haar manden draagt zij hen, tot de wolven van de oude dagen. Zij hebben mij zo koud gemaakt, maar er is een vlam die in mij waakt, de vlam van de heilige veldenmaagd, oh Saratus, bescherm mij tegen de kou. Mijn hart is zo koud, ik ben als een blok hout, tot Saratus mij kust, dan ontwaak ik tot hartelust. Dan voel ik alles in mij branden. Oh Saratus, waarom hebt gij mij geslagen ? 8. Tot haar dieptes ben ik gevlucht, want de vijand zat mij achterna, nu heb ik haar gekust, en vele zonden bedekt. Haar genade zocht ik, haar huis bouwde ik, nu heeft zij mij gezien. Ik ben een koningszoon, en in haar heb ik mijn troon. Oh, Saratus, waarom hebt gij mij verlaten. Steeds zoek ik naar U, steeds droom ik over U. Vaak kan ik er niet van slapen, het maakt mij zo moe. Waarom hebt gij mij geslagen ? Heel mijn leven geef ik U, waar moet ik anders naar toe. Zij zitten mij op de hielen. Tot U kan ik vluchten. 9. In veiligheid kom ik, maar ik kan uw huis niet vinden, onder mos en bloemen zal het zijn. Nog steeds slaat gij mij, hoelang zal het nog duren. Neem mij aan, ik ben een arme bedelaar, te zwak om tot U te komen, maar te sterk om door de vijand te worden weggenomen. Neem mij aan, ik ben een arme bedelaar, ik kan uw huis niet vinden, alles stroomt van mij weg. Toe, leidt mij, breng mij terug op het pad, en bedek mijn zonden. 10. Ik hoor Uw stem in de verte, bij de avondkoelte verlang ik naar de rust, maar gij laat Uzelf niet

snel kennen, ik wacht op U. Kon ik maar Uw wonden begrijpen, oh tedere snaar, gevoelige blik, als op een kaart getekend, als aan een woning vastgeketend. Kon ik Uw wonden maar begrijpen, ik wil ze graag voelen, als een woning onder de bloemen. 11. Zij hebben mij stijfgespoten, zij hebben mij bedrogen, en daarom vlucht ik tot U. Ik ben nog niet tot Uw woning gekomen, maar stil en stap voor stap zal mijn droom uitkomen.

De Nieuwe Johannes II

De Wraak van de Plaaggeesten

1. Dat de indiaanse elven hard hadden gewerkt wist iedereen. Het was een prachtig kamp geworden, en ze aten vollop van hun jachtmaal. Ditkeer hadden ze de beestachtige wachters van de keizer weten te strikken, en de toverkrachten vloeiden van hun monden af. Niemand wist van hun jachttactieken af, want die werden al eeuwenlang geheim gehouden. Als de bliksem sloegen ze toe, terwijl ze verwarrende sporen achterlieten. Niemand zou dit kamp ooit kunnen bereiken, omdat zodra iemand naderde, alles onzichtbaar werd. Dit ging automatisch. Zoveel toverflessen en toverkruiken verspreidden zoveel mysterieuze geuren die hiertoe in staat waren. Sommigen dachten dat die geuren iemands hersenen gek konden maken, zodat bepaalde dingen niet meer te zien waren, en anderen dachten dat het kamp daadwerkelijk als door een waas onzichtbaar werd. Hoe dan ook, de onbereikbaarheid was een feit. Daarom waren de indiaanse elven erg trots en voorzichtig met hun burgerschap. Het kwam weleens voor dat een elf om een bepaalde reden verbannen werd.

2. Sliktior had de keizer één keer ontmoet en vond het niet wat. Ook Sorsor kende de keizer een beetje. Ze dachten terug aan de tijden dat er vrede was, maar sinds de keizer beestachtige wachters begon in te huren leek het alsof zijn hersenen werden ingenomen. Het was een tovenaars die de keizer zo ver had gebracht, en de keizer dacht dat hij in z'n recht stond. Wat deden die wachters? Ze maakten alles en iedereen onveilig. Woorden schieten mij te kort om zulke afschuwelijkheden te beschrijven. Daarom waren de indiaanse elven zo blij het vlees van deze beesten in hun monden te voelen vloeien. Sliktior had het vlees niet aangeraakt. Hij was bang dat hem wat zou overkomen.

3. Sorsor dacht aan de keizer, en aan de tovenaars met zijn toveres. De tovenaars had die wachters eens gecreeerd, en het zou niet zonder gevaren zijn het vlees van zulke wachters zomaar te eten. De wachters waren deels leeuw, deels tijger en deels wolf, en verder steeg hun roofkwaliteit boven alles uit. Het waren de superroofdieren die de andere roofdieren aten. Vaak gingen ze op jacht om alles te verscheuren wat los en vaststond, maar bovenal waren ze gemeen. Een nachtmerrie zou het zijn om in hun kerken terecht te komen. Sorsor had het idee dat de keizer niet goed doorhad wat hij in huis had gehaald, dat hij niet wist wat er allemaal gebeurde. De keizer was zo druk met andere dingen bezig, en in Sorsor's ogen was de keizer totaal in de macht van de tovenaars en zijn toveres.

4. Sorsor had wel van het vlees gegeten, en vermomde zich tot een wachter. Hij ging naar het kasteel van de keizer, sloop naar binnen, en stal een bol met toverkooltjes. Snel ging hij terug naar zijn kamp, hief de bol op, en zei: 'Dit hier is het hart van de keizer. Voor ons is er geen hoop als wij

hen van het keizerlijk kasteel hun gang laten gaan. Zij zijn vol list en sluwheid, en de keizer zelf is een pion in hun handen. Wij kunnen hem niet redden. Wij kunnen niet op tegen de machten van de tovenaars en zijn toveres. Zij zullen ons hier vinden en geen spaan van ons overlaten. Daarom : deze bol met toverkooltjes is het dierbaarste bezit van de keizer, en hij zal zeker sterven wanneer de bol is gebroken.’ Toen brak Sorsor de bol, en er was luid gejuich. Allen wisten zij dat de tovenaars en toveres alleen konden regeren door de keizer. Nu was de keizer gestorven.

5. Sorsor ging terug naar het kasteel, en er was veel doodslucht en rouw. Met gebogen hoofden kwamen de tovenaars en zijn toveres uit een grot naast het kasteel. De tovenaars hief zijn handen op en riep : ‘De goden hebben wraak genomen.’

6. Sorsor nam twee messen en wierp hen in de harten van de tovenaars en zijn toveres. Nu was de omgeving en het land vrij van hun onderdrukking. Sorsor hield zijn laatste toespraak tot zijn stam, en maakte toen Sliktior tot opperhoofd. Sorsor zou beginnen aan zijn grote reis naar de bergen van de goden. Dit gebeurde altijd als een opperhoofd een daad begaan had zoals Sorsor. Ze zouden Sorsor herinneren als hun held, en Sliktior zou Sorsor de Tweede heten.

7. Sorsor pakte Sliktior vast, kuste zijn voorhoofd, en vertrok. Niet veel nam hij mee. Zijn klederen werden verdeeld onder de stam, en ook grote delen van zijn bezit, terwijl er ook veel werd verbrand. Twee misdadigers werden aan de martelpaal geslagen, en zij zouden sterven in plaats van verbannen worden. Zij verkozen de dood boven het verbannen worden, want de verbanning was in hun ogen een veel grotere schande. Door de martelpaal zou hun geest in het kamp blijven, en door mee te strijden in de oorlogen zouden ze hun eer kunnen herstellen. Ja, de regels van het kamp waren van grote wreedheid, maar ook van grote genade, als een geheimzinnige paradox van rechtvaardigheid. Zo had Sorsor het hen geleerd.

8. Sorsor was een man van grote wijsheid, geschonken door de goden die hij niet kende. Nu hij door zijn list en sluwheid de tovenaars en toveres had verslagen was hij waardig die goden te leren kennen. De goden woonden in de bergen, naast andere tovenaars en grote elven. Maar eerst zou hij door die verschrikkelijke woestijn moeten waar de goden hem op de proef zouden stellen.

9. In de woestijn werd hij gekweld door waanideeën, luchtweerspiegelingen, honger en dorst. De pijn van de droogte stak hem. Een oase was wat hij verlangde, een echte oase, maar alles was hier om hem te plagen. Er was hier niets te bereiken, en de plaaggeesten waren zijn enig gezelschap. Sorsor had niet geleerd in eenzaamheid te leven, en kon de leegte die zijn ziel teisterde niet aan. Hij wist dat de plaaggeesten niet per definitie slecht waren. Ze waren uitgezonden door de goden om hem te testen. Na een lange en angstige ervaring van leegheid en hopeloosheid riep hij het uit tot de plaaggeesten : ‘Als er dan niemand anders is, vullen jullie mij dan op, want de leegte vreet me weg.’ Gillend en joelend namen de plaaggeesten bezit van hem. Hier hadden ze lange tijd op gewacht, en nu zou Sorsor voorbereid zijn om de grotten van de goden te betreden. Het was de plaaggeest zelf die geplaagd werd en rust zocht, en die niet kon vinden. Nu de plaaggeest hem had vervuld stroomde er toverkracht door hem heen, en kon hij de goden bereiken zonder weg te smelten.

10. In een plaats van toverkolen ontmoette hij de god Prektiktion. De god bedankte hem dat Sorsor hem tot rust had gebracht, en de plaaggeest die Prektiktion tot hem had gezonden had aangenomen. Sorsor sprak over de verwoesting van het keizerlijke hart, en de god Prektiktion wist er alles van. ‘Ik heb jou die wijsheid gegeven,’ sprak de god. En de god vulde Sorsor met een hele reeks toverkrachten. De god Prektiktion had vele tovenaars in dienst, en kon ook Sorsor goed gebruiken.

De god gaf hem een fles vol andere goden die hij kon oproepen. Die andere goden hadden de meest vreemde namen die Sorsor moeilijk kon uitspreken.

11. Prektiktion sprak dat de stam van Sorsor nu was overgeleverd aan de krachten van de woestijn, want ook naar hen zouden de plaaggeesten op zoek gaan om hen te testen. Sorsor nam de fles en gooide hem tegen een stenen muur kapot. 'Ik had beloofd hen met mijn leven te beschermen,' sprak Sorsor. 'Waarom ben ik hier?'

12. 'Je had geen andere keus,' sprak Prektiktion. Sorsor viel op de grond en hilde. Hij miste zijn stam.

13. 'Als zij de plaaggeest aannemen,' sprak Prektiktion, 'dan zal je hart met hen verbonden zijn.'

14. Na vele lange jaren kwam ook Sliktior tot de plaats van toverkolen, en vertelde Sorsor dat hij niet kwam vanwege een grote daad, maar omdat hij was verbannen. Sorsor viel neer in woede. Hij kon zich niet voorstellen dat zijn stam tot zoiets in staat zou zijn, maar later begreep hij het. Sliktior had lafheid vertoond. Sorsor vroeg zich af hoe een verbannene hier kon komen. Uit het oog van Prektiktion kwam een straal vuur die in een flits Sliktior verteerde. 'Veel vaker komen hier bannelingen,' sprak Prektiktion. 'Zij kunnen hier komen met een geheime sleutel, maar hun lot is het vuur.'

15. 'Zijn zij indringers?' vroeg Sorsor. Maar Prektiktion schudde zijn hoofd. 'Nee, zij worden toegelaten omdat zij dieven zijn. Zij nemen altijd een stukje weg van de stam als zij gaan. Zij zijn dus bijzonder in onze ogen, en onze ogen zullen dat bijzondere dan nemen.'

16. 'Maar waar is Sliktior dan nu?' vroeg Sorsor.

17. 'Hij is overgeleverd aan de wraak van de plaaggeesten,' sprak Prektiktion.

18. Maar dat liet Sorsor niet op zich zitten, want hij hield meer van Sliktior dan van welke god of elf dan ook. Er was één ding dat hem liet strijden tegen de goden, en wat hij altijd droeg, en dat was een klein kruikje vastgemaakt aan een leren ketting om z'n nek. Zijn voorouders hadden hem verteld dat hij het flesje echter maar één keer kon gebruiken. Hij opende het flesje, en een stroom van gif sloeg de god neer. Sorsor greep een mes dat aan zijn been gebonden was door een band, en wierp het in het hart van de god zoals hij eens de tovenaars had uitgeschakeld. Op hetzelfde moment werd de huid van de god opengescheurd en Sliktior stapte eruit, als een priemend vuur. 'Raak me niet aan!' riep Sliktior. Maar Sorsor greep hem stevig vast. 'Aan de wraak van de plaaggeesten zal je niet overgeleverd zijn,' sprak Sorsor, 'maar weest gastvrij voor hen, want aan de wraak der goden waren ze overgeleverd.' Er zat nog één druppel in het flesje waar Sorsor Sliktior van liet drinken, en de plaaggeest vervulde toen ook hem.

19. Samen zijn ze toen door de woestijn naar hun stam teruggegaan. Maar de andere goden hadden zich gevestigd in het kamp, en hadden de indiaanse elven tot slavernij gedwongen. Het flesje was leeg, maar omdat Sliktior van het flesje had gedronken was hij immuun. En zo bevrijdde Sliktior zijn stam van de goden, en werd hij in ere hersteld.

20. Sorsor zou weer teruggaan naar de bergen, en ditmaal niet om tot de goden te gaan, maar tot de grote elven. De grote elven droegen zorg voor vele plaaggeesten die ze uit de verschrikkelijke handen van de goden hadden weggekregen. Toen Sorsor een groot aantal grote elven had leren kennen stelden ze hem aan als opperhoofd van een stam van indiaanse plaaggeesten. Deze indiaanse

plaaggeesten konden toveren als de beste, en Sorsor moest oppassen dat ze hem niet in de val lieten lopen. Vaak moest er een grote elf ingrijpen.

21. Na vele jaren kwam ook Sliktior naar deze plaats, en deze keer niet omdat hij verbannen was, maar omdat hij de stam van indiaanse elven een nieuwe grote dienst had bewezen, zo groot als de daad van Sorsor. Sliktior nam de taak van Sorsor nu hier over, en Sorsor vertrok dieper in de bergen. Sorsor kwam tot een plaats waar veel indiaanse tovenaars woonden, en hij zag in dat zij veel grotere plaaggeesten waren dan degenen die hij al kende. Ze waren duivels wreed, maar daarnaast ook genadig, als een wet die hij ook eens kende, de paradox van rechtvaardigheid. Fliktivian was een woestijnvlinder die grote luchtweerspiegelingen kon veroorzaken, en Sorsor ontmoette vele anderen. Sorsor kwam erachter dat zij uiteindelijk verantwoordelijk waren voor alle moeizame tafereeltjes van zijn leven, maar ditmaal waren ze vriendelijk naar hen, alsof hij nu één van hen was. Sorsor kwam er echter achter dat velen van hen niet deugden, en slachtte hen af in verschrikkelijke gevechten. In deze gevechten leerde hij wat ware gemeenheid was, en dat de ogenschijnlijke genade de gemeenheid nog groter maakte. Want Sorsor raakte ervan in de war, en werd zo een gemakkelijke prooi. Maar Sliktior volgde hem op de voet, en maakte zijn meester vrij. Er waren geheimenissen die Sliktior droeg waar Sorsor nog geen weet van had.

22. Sorsor had vele vragen, vragen die beantwoord zouden worden op zijn pad door de woestijnen en de bergketens. Het was alsof alles bijdroeg aan de grote puzzel in zijn hoofd, maar sommige stukjes leken alles weer af te breken. Sorsor raakte erg verwilderd. Op een dag vond Sorsor een heleboel plaaggeesten in een flesje. Als hij ze vrij zou laten, zouden dingen dan erger worden of beter? Hij wist dat ze waren gezonden om te plagen, en eigenlijk had hij genoeg van het geplaag. Hij wist dat als hij het niet zou openen, dan zou waarschijnlijk iemand anders het openen. Sorsor besloot het flesje om z'n nek te dragen, om het in gevallen van nood te gebruiken. Je kon nooit weten. Maar later besloot hij het diep in de woestijn te begraven, want er waren al genoeg plaaggeesten op de wereld.

De Eeuwige Vlam

1. Er was elvengetrommel in het kamp van de indiaanse elven. Salucia pakte haar speer en rende naar de dichtsbijzijnde boom waar ze in klom. Haar vader zou terugkomen, maar ook verwachtte zij een aanval van de Maribiren, een elvenstam aan de westkant van hun kamp. Ze zouden gehoord hebben van de terugkomst van Salucia's vader, die zolang bij de tovenaars van Ostford had gewerkt. De tovenaars zou hem beloond hebben met zoveel toverdingen dat de Maribiren daar graag een graantje van wilden meepikken. Maar alles bleef gelukkig rustig, en Salucia's vader maakte het goed. Misschien hadden de Maribiren de dreiging wel gevoeld die uitging vanuit het kasteel van de tovenaars van Ostford. Salucia's vader droeg een wapenrusting die zij nog niet kende: fier, maar ook teder en afschrikwekkend, verlokkelijk, als een verwarrende paradox. Ze voelde wel de nieuwsgierigheid van de Maribiren, maar besloot er geen aandacht aan te schenken. Ze voelde de donkere ogen van de Maribiren loeren, vol lust maar ook vol angst. Wat had de tovenaars van Ostford toch gedaan? Er kwam een wonderlijke, indringende magie vanuit het kamp van de indiaanse elven. Salucia was gerustgesteld. Alles was goed met haar vader. De tovenaars had goed werk verricht. Maar toen haar vader een paar littekens liet zien schrok Salucia. 'Ik weet het, mijn

kind,' zei haar vader. 'Werken bij de tovenaars was niet zonder gevaren. Ik moest ingewijd worden in de hogere magie. Ik heb gevochten met de wachters van de tovenaars, en zij hebben mij verwond, maar alleen zo kon ik het zegel dragen.'

2. 'Welk zegel, vader?' vroeg Salucia. Haar vader keek haar teder aan, en ze zag een glinstering in zijn ogen. Zijn ogen waren doorbloed, vol van geheimenissen, als grote bruine kralen die het zonlicht op een mysterieuze wijze weerspiegelden, maar ook zoveel duisternis. 'Ga slapen, Salucia,' zei haar vader. 'Het is laat.'

3. Salucia wist niet wat er die nacht zou gebeuren, maar Maribiren kwamen het kamp binnen om haar te ontvoeren. Ze brachten haar naar een plaats, een bron, waar het elvenlicht haar omhulde. Niets wist zij van de raadselen van de Maribiren. Het was een prachtige ervaring, iets wat ze niet had verwacht, omdat de Maribiren in vijandschap leefden met haar eigen stam. Maar wie waren dit? Het waren Maribiren die zij niet kende. Ze waren ouder, en ze leken rustiger. 'Ga maar, Salucia,' zeiden ze tegen haar. Maar Salucia wilde niet weg. Ze wilde blijven in deze elvenbron, die haar hart zo scheen te raken. Badend in licht zwom ze naar de andere kant van de warme bron.

4. Plotseling werd er een zwaard gestoken in de man die het dichtst bij Salucia baadde. Het was haar vader die haar kwam terughalen. Salucia had gemengde gevoelens. 'Ze willen je van de tovenaars van Ostford afhouden,' sprak haar vader, terwijl de andere gestalten om haar heen in de bron leken te verdrinken. 'Vader, wat doet u?' vroeg Salucia. Niet lang daarna hoorde Salucia een schot, en zag haar vader in vertraging neervallen. De bron vulde zich met bloed. Een donkere gestalte stond voor Salucia, en draaide zich toen om om in het niets te verdwijnen. Salucia slaakte een gil, en kwam er snel achter dat haar vader dood was. Ook was er geen enkele Maribir meer te bekennen.

5. Nu was het voor Salucia tijd om zelf de tovenaars van Ostford te bezoeken, want ze snapte niet wat er met haar gebeurde. In tranen zocht ze haar pad, terwijl ze de aanwijzingen van haar vader herinnerde. Haar vader had haar veel verteld over hoe de tovenaars woonden, maar vooral hoe er te komen. Toen Salucia bij de hoge verlichte poort van het kasteel van de tovenaars van Ostford aankwam viel ze huilend een lange elf in de armen. Snel en stoterig vertelde ze het verhaal. Ze wist dat ze hier troost en antwoord zou krijgen. De elf nam haar zorgzaam mee naar binnen. 'Er zijn zoveel dingen die je niet begrijpt,' zei de elf. 'Je bent erg jong, Salucia. De tovenaars wachten op je.'

6. Binnen leek alles heel anders dan wat haar vader haar altijd verteld had. Aan de muur hingen indiaanse speren, vreemde messen, en sommige muren waren doordrenkt met bloed. Salucia schrok, en vroeg wat dat bloed moest voorstellen. De elf sprak niet. Salucia begon bang te worden, maar ineens nam de elf Salucia weer in zijn armen. 'Je hoeft niet bang te zijn, lieveling,' zei de elf. 'Alles zal duidelijk worden, maar we mogen niet teveel praten. Ach, we mogen het wel, maar het is niet verstandig. Laten we de dingen stap voor stap doen.'

7. De tovenaars waren een wonderlijke man. Hij gaf Salucia ringen voor in het kasteel. De ringen werden aan haar klederen vastgemaakt, en de ringen zouden uitleg geven over alle dingen. Het waren sprekende ringen, en meer en meer begon Salucia zich op haar gemak te voelen. Maar ook proefde ze een soort dreiging die ze niet kon beschrijven.

8. De tovenaars droegen lange gewaden, en bracht haar tot een andere indiaanse elvenstam in de dieptes van het kasteel. De elven spraken niet, maar communiceerden op een andere manier, door hun ogen, en door het bewegen van hun lippen. 'Leer hen praten,' zei de tovenaars. 'Dat is je eerste opdracht. Ik zal je later alles uitleggen over je vader. Wie hij was, en ook wie de Maribiren zijn.'

9. Salucia nam de tijd om de elven te leren spreken, en ook leerde ze hun manier van communicatie. De tovenaar was na enkele maanden zeer tevreden, en bracht haar tot een andere indiaanse elvenstam dieper in het kasteel. Het kasteel was erg groot. Deze stam communiceerde door te gillen en door allerlei vreemde klanken overmatig te herhalen. 'Kom,' zei de tovenaar, en bracht haar tot een elvenbron in een grote ruimte. De bron was bijna geheel blauw, als blauwe bubbelende verf. De tovenaar maakte wat strepen op haar huid, en daalde toen zelf in de bron af. Salucia moest hem volgen. Hij zwom naar een deur diep onderin de bron, opende die deur en zwom naar binnen. Hier zwommen haaien en allerlei andere vissen, maar ze deden niets. Ze staarden alleen. De tovenaar zwom met Salucia door naar de volgende deur, en toen ze achter de deur naar boven zwommen kwamen ze in een geheel nieuwe ruimte terecht. 'Als ik er niet bij was zou je verslonden zijn door de haaien en de andere vissen,' sprak de tovenaar. 'Ik bepaal dus wie hier komt.' Er hing een vreemde indringende geur als een soort verf, maar het rook heel lichamelijk en warm.

10. Salucia keek haar ogen uit, want er dropen hier een heleboel vreemde stoffen met vreemde kleuren. Het was een soort modder. De tovenaar keek naar Salucia en knipoogde naar haar. 'Weet je, Salucia,' zei de tovenaar, 'ik laat je dit alles zien, en eens liet ik je vader dit alles zien, omdat ik wil dat jij en je nageslacht in dit kasteel zullen leven. Buiten zullen de Maribiren alles overnemen en ze zullen niets van je stam overlaten. Jouw vader hebben ze uit de weg geruimd, maar jou heb ik beschermd.' Salucia begon te huilen. Ze had verwacht dat ook haar vader beschermd zou worden, en daarom begreep ze niet waarom de Maribiren hem konden vermoorden. De tovenaar nam haar in zijn armen, en sprak : 'Ik zou je vader maar wat graag willen beschermen, maar de macht van de Maribiren is niet te onderschatten. Echter, als je getrouw het pad volgt, en bij me blijft, zul je je vader terugzien.' Maar toen werd de tovenaar ineens erg droevig. Ik zal nog even bij je blijven, totdat je totaal door het kasteel bent aanvaart en in veiligheid bent gebracht. Dan zal ik mijn reis moeten richten op de gebieden van de Maribiren. Ik zal de donkere en zwarte reis moeten maken, zodat ze dit kasteel niet zullen innemen.' Salucia greep de tovenaar extra stevig vast en sprak : 'Maar kunnen we niet samen in die veiligheid blijven ? Waarom zou u zoveel riskeren ? Dit kasteel is van u en blijft van u !'

11. 'Meisje,' zei de tovenaar, 'je kent de krachten van de Maribiren niet. Ik moet daar naartoe, anders zal dit kasteel van hen zijn en is er voor jou en je nageslacht geen enkele hoop. Zo zullen ook alle andere indiaanse elvenstammen vergaan, en zal de vlam van Ostford voorgoed doven.'

12. En zo namen die twee na een lange tijd van lopen en spreken afscheid van elkaar. De tovenaar had haar uitgelegd wat ze moest doen, en verder zouden de ringen haar leiden. Salucia zuchtte diep en probeerde moedig te blijven, maar al snel overvielen duistere angsten haar. Rustte het dan allemaal op haar schouders ? Waarom was alles zo ingewikkeld ?

13. Zoals de tovenaar had gezegd kwam ze eerst in een gebied vol met bomen. De bomen leken bijna op elven, en zij brachten vreemde eieren voort. De tovenaar had haar een speciale rode lap gegeven waarmee ze die eieren kon uitbroeden. Maar er was iets in haar wat zei dat ze dat niet moest doen. Ook de ringen gaven haar het advies om het niet te doen. De ringen hadden duidelijk een hele andere visie dan de tovenaar, en Salucia vroeg zich af waarom de tovenaar haar die ringen had geschonken. Maar veel plannen bleken overeen te stemmen. Salucia bond de rode lap om haar hoofd naarmate het warmer werd. Soms bleef ze wat rusten tegen de kasteelmuren aan, en trok dan verder.

14. Er waren zoveel dingen die Salucia niet begreep. Hoe zou ze aan nageslacht komen ? Waar zou ze haar vader ontmoeten en hoe ? De ringen vertelden nog niet veel. Het was alsof Salucia hun vertrouwen eerst moest winnen. Er waren een aantal dingen die ze heel strak in haar gedachten had, als een betoverend visioen, en dat was de reis van de tovenaars om hen veilig te stellen, en haar eigen reis om uiteindelijk de tovenaars veilig te stellen. Ze was vastberaden, en ze wist dat wanneer de tovenaars de eeuwige vlam had bereikt in het rijk van de Maribiren, dan zouden ze met elkaar verzoend worden. Maar dat kon alleen gebeuren als zij de eeuwige vlam van het kasteel zou bereiken. Zo niet, dan zouden ze beiden sterven, en zouden de Maribiren het kasteel voor altijd in handen krijgen. Het was vreemd als ze terugdacht aan de ontvoering. Ze kwam in een elvenbron van licht, en ze had even het idee dat de stam goed was, of tenminste een deel van die stam. Eén van de ringen vertelde haar dat er ook Maribiren waren die eigendom waren van de stam, als krijgsgevangenen die ingeburgerd waren. Ze probeerde het te begrijpen, maar het leek alsof ze het niet kon grijpen. En eigenlijk wilde ze het niet grijpen, omdat ze bang was om goede gevoelens te hebben over enkele Maribiren. Ze was bang dat hun krachten haar verstand zouden innemen. In dit was ze gemengd, en het trok haar bijna uit elkaar.

15. Een lange gestalte stond voor haar toen ze haar ogen langzaam opendeed. Ze schrok. Het leek op een Maribir, een wat oudere Maribir. De Maribir wilde zijn mond openen, maar zuchtte toen. 'Ik heb je vader verdraaid zien wegzakken,' zei de Maribir.

16. 'Jij, jij,' stamelde Salucia, 'was jij niet één van mijn ontvoerders ? Jullie hebben me niets gedaan, alleen gebracht naar die zalige elvenbron, waar daarna verschrikkelijke dingen gebeurde.'

17. 'Ja,' sprak de maribir. 'Ik moet je iets vertellen. Wij zijn wij waren krijgsgevangenen ... Jij hebt ons verlost Jouw hart De reis die je hier maakt zette ons vrij, trok ons los in onze gedachte'

18. 'Waar zijn de anderen ?' vroeg Salucia.

19. 'Verderop,' zei de man.

20. En toen zag Salucia in hoe belangrijk haar reis was. Zij was zelf een sleutel. Ze begreep alleen niet hoe, en nog steeds was ze bang om bedrogen te worden.

22. Na een tijdje kwam ze bij een kamp aan vol met Maribiren, maar deze waren anders, als de krijgsgevangen man. Misschien dat de man hen bedoelde. Het leek alsof zoveel angst van haar werd weggenomen toen hij haar zag. Ja, deze waren anders, ouder, rustiger, en het was alsof ze weer baadde in die elvenbron. Alleen nu hoopte ze dat er geen verschrikkelijke dingen zouden gebeuren.

23. 'Salucia,' sprak een vertrouwde stem.

24. En daar stond ze dan. Zolang in de armen van zoiets vertrouwelijks. En warmte stroomde haar trillerige lijf binnen, om haar rustig te maken. Sieraden kreeg ze om haar heen, en allerlei kleine flesjes, vol magie. 'Ik denk dat ik me vergis. Zijn jullie mijn ontvoerders ?' Niemand zei wat. Ze voelde zich alleen wegglijden in een diepe rust. De muren van het kasteel waren hier ver weg, het plafond hoog, en gloeiend als de hete zon, terwijl er zand op de geblokte vloer lag, rood en geel geblokt. Salucia zakte neer, en tranen stroomden. Een vertrouwelijke hand greep haar hand zachtjes en teder. Ze hield haar ogen stijf dicht.

25. 'Maar ik wil niet,' zei ze. En toen ze haar ogen opende was iedereen weg, en ook haar ringen waren verdwenen. Wat was er gaande. Ze wilde een gil slaken, maar kon niet, alsof er een hand op

haar mond lag. Een tedere hand, en daarom was ze nog steeds zo rustig, en ze zag nog steeds al die andere sieraden aan haar lichaam en klederen bungelen, en zoveel kleine flesjes.

26. ‘Ik heb zoiets vreemds meegemaakt,’ zei ze tegen zichzelf. Ze opende een flesje en een wonderlijke geur verspreidde zich. Een geest stond voor haar met een zwaard. Toen ze naar boven keek zag ze op een hoogte de stam weer, en vroeg vriendelijk of de geest haar daar naartoe wilde brengen. Dat was in een wip gebeurt. Ze wist niet wat ze moest denken, en weer omhelsde ze haar vrienden één voor één. Ze droegen hele aparte flesjes en kruikjes aan kettingen om hun nek, en hun broeken waren van prachtige zachte stoffen, als van fluweel. Maar alles leek wel nat, en één van hen hield zijn hand op waarin een vlam verscheen.

27. ‘De eeuwige vlam van het kasteel,’ zei een ander. Maar je hebt het nog niet bereikt. Wat zou het kosten om de vlam van de één naar de ander te laten overspringen ?

28. En hoeveel tijd zouden ze hebben ? De tovenaars had haar verteld dat er niet veel tijd was. De eeuwige vlam was nu zo dichtbij, maar tegelijkertijd zo verweg. Wat als de tovenaars al op haar zou wachten ? Wat als hij de eeuwige vlam in het rijk der Maribiren al had bereikt ? Paniek begon over haar te komen, maar tegelijkertijd suste ze haarzelf, en ook de anderen begonnen haar te sussen.

29. ‘Ik kan je die vlam geven,’ sprak hij, een lange Maribir, een voormalig krijgsgevangene, wellicht een slaaf. ‘Ik ben je veel verschuldigd,’ zei hij. Hij schoof dichterbij, maar de vlam begon te doven. ‘Zie je wat er gebeurt ?’ zei hij.

30. Salucia zakte weg in wanhoop. Ze dacht terug aan de tovenaars, en haar onwetendheid maakte haar onzeker.

31. ‘Sssh, praat niet,’ zei de man met de vlam. Toen vertrok hij.

32. ‘Je zal hem vinden,’ zeiden de anderen, ‘en dan zal de vlam overspringen.’

33. Daarna moest Salucia een lange reis maken door een woestijn, terwijl al haar toverij haar in de steek leek te laten. Boven op een hoogte was er niets dan droogte, waar de stralen van de inmens hete zon speelden, en ze wist niet hoe ze daar kon komen. Waar waren de anderen ? Ze wist het niet. Ze vaagden soms gewoon geheel weg, zonder dat ze het beseftte. Vaak sloot ze haar ogen en opende ze weer. Ze begreep er niets van. Achter een struikje zag ze een opening waar het zand schoof. Overall lagen rode lappen, en ze herinnerde de woorden van de tovenaars dat ze door die lappen verschillende soorten eieren kon uitbroeden. Ze besloot wat eieren van het struikje te plukken, en wikkelde ze in de rode lappen. Vogels kwamen voort, en brachten haar snel op die hogere plaats. Onzekerheid maakte zich meester van haar. Ook dorst vervulde haar, terwijl al haar flesjes allang leeg waren. Maar verderop was een bron. Langzaam liet ze zich in de bron zakken die heter was dan het zand, maar prettig aanvoelde. Plotseling voelde ze lippen op haar huid. Iemand was achter haar, en de hitte scheen te verdwijnen.

34. Het was de man met de eeuwige vlam. ‘Zie je,’ zei de man, ‘als ik dichtbij je komt vertrekt de vlam. Als hij geheel gedoofd is, is alles verloren.’ De man was een eind van haar weg gezwommen. De bron was koud geworden. Salucia schrok. Snel stapte ze uit de bron en durfde niet meer over de man na te denken. Even later kwam ze bij een blok ijs waar de vlam was. Voorzichtig stak ze haar hand in het ijs, en de vlam begon haar gezicht te verlichten. Ze voelde zich blij worden van binnen, en vol worden met een hele andere warmte. Op hetzelfde moment begreep ze waarom de tovenaars haar moest verlaten, en ervoer ze met haar hele wezen dat ook hij nu de eeuwige vlam had bereikt. Ze hadden het samen gedaan.

De Nieuwe Genesis

1. Dit is de nieuwe code opgesteld door de apostelen des Heeren. Gij moet weten dat het oude boek Genesis verloederd was en geïnfilterd. Wij voldoen hiermee aan de opdracht de Heilige Schrift te zuiveren. 2. Gij zult spreken van het oude boek Genesis, en bovenal van het nieuwe boek Genesis. Gij kunt deze boeken naast elkaar leggen, maar in sommige gevallen is het verstandig om door de profeten te beslissen welke bijbels er moeten verdwijnen. 3. Zo zal dan de nieuwe code afrekenen met de bezoedelingen en de overbodigheden. Weet dat de oude verzen diep in uw hart liggen als eieren, die telkens gif voortbrengen tot het vergiften en besmeuren van uw zielen. 4. De zuivering hiervan is niet voortgekomen vanuit het hart van een mens, maar vanuit de Geest des Heeren, en Zijn Heilig Vlees waardoor de oude en nieuwe schepping tot stand kwam en tot stand zal komen. 5. En zo is het onzuivere vlees als een tijdelijke gevangenis geweest, en de Heere wil hierin vertroosting brengen. 6. Zo heeft het oude woord dan velen aangeklaagd en ten onrechte veroordeeld, en ook hierin wil de Heere troost brengen. 7. Zo wil de Heere dan dat gij zult weten dat het Woord geschreven is als een liefdesbrief, en niet als een brief van aanklacht. Want het Woord is geschreven aan hen die hem liefhebben. 8. Of gij nu barbaar zijt, indiaan of wilde, de Heere heeft Zich een volk bereid. Zo heeft hij dan eieren aan het plafond der hemelen gehangen, die door kwalspinnen worden uitgebroed door de nieuwe code. 9. Gij doet er goed aan acht te geven op de criptische beschrijving, zolang uw hart u dat toelaat. Zo is de Heere dan een nieuwe hemel en een nieuwe aarde aan het scheppen door de vernieuwing van het denken en het Woord. 10. Want het Woord vernieuwt het denken, en brengt daardoor hervorming. De eieren van het Woord zijn vol van de verf des Heeren, de verf der gedachten. Broedt deze eieren daarom uit, daar gij daartoe geroepen zijt. 11. Bergt dan het nieuwe Genesis in uw gedachten, en zondigt niet. Want Gods Toorn is tegen alle zondaren. Maar : Beseft gij wel wat zonde is. Want velen, ook door het oude woord, weten dit niet, en noemen dat wat geen zonde is zonde, en dat wat zonde is noemen zij geen zonde. 12. Zo hebben zij dan het woord en het hart des Heeren verdraaid voor hun eigen leerstellingen. Luister naar zulke leiders niet. De Heere zal u leiden. 13. Want de Heere wil u opvoeden dat gij een relatie met hem hebt zonder de tussenkomst van mensen. Want mensenvlees leidt veelal tot verderf. 14. Zo brengt dan het nieuwe Genesis de verf der gedachtes. Ziet dan, de eieren des Heeren zijn vol met de verf der gedachtes.

15. Zo is dan de wereld en de aarde met alles wat daarop is voortgekomen vanuit de gedachte, en vanuit de verf des Heeren. Ja, daarmee heeft de Heere ook het geweten geschilderd. 16. Zo hebben dan de spinnen des Heeren de afstanden en de tijden geschilderd, de nachtvlinders des Heeren hebben de details en de miniaturen aangebracht, en zo hebben de lieveheersbeestjes des Heeren de duisternissen en de lichten geschilderd. 17. Maar ook de wespen des Heeren hebben geschilderd. Zij hebben de vormen aangebracht. Zo hebben de flora en fauna des Heeren meegewerkt aan de schepping. 18. Zo dient gij dan de verf des heeren en zijn woord zuiver te houden, want de Heere bouwt een nieuwe hemel en een nieuwe aarde, zoals hij van tevoren heeft aangekondigd. Richt daarom uw hoofden op, want uw verlossing is naderbij gekomen. De Heere zal al uw tranen van uw voorhoofden vegen. 19. Maar ik zal u een geheimenis vertellen : Alle tranen waren slechts verf, en zij kwamen voort vanuit de pijnen, de verfpotten. Weest daarom niet al te zeer bedroefd met uw wonden, want de Heere zal u nog meer geheimenissen laten zien. 20. Ook zij die het spotkleed des

heeren hebben gedragen : dit is een machtige verfkwest. Gij zijt de medescheppers des Heeren. 21. Zo zal de Heere dan u gebruiken om de hemel en de aarde te herbouwen. Er is dan niets zonder doel geweest. En er is loon naar werken. 22. Maar ziet toe dat gij niet werk noemt datgene wat geen werk is, want dit hebben velen gedaan, waardoor hun geloof schipbreuk heeft geleden. 23. Richt u dan ook niet op het loon der aarde, want zij die dat doen hebben geen loon in de hemel. 24. Laten uw werken dan in het verborgene zijn, waar geen oog ze ziet, want de Heere is met hen die in het verborgene zijn. 25. De lusten des Heeren zijn in het verborgene. En de Heere zal u hiertoe de wapenrusting geven. De lusten des Heeren zijn de muren rondom uw stad. 26. Zo komt gij dan met uw verstand niet ver, maar de lusten des Heeren komen uit onpeilbare dieptes. 27. Zo doet gij er dan wijs aan het verstand te verachten, want het is gebrandmerkt met leugensprekers, evenals het geweten. Richt u dan op de lusten des Heeren in vrijmoedigheid. Vanuit hen komt dan een zuiver verstand en een zuiver en vrijmoedig geweten voort. 28. De Heere wil dat gij bevrijd wordt van uw tradities, waarin boze geesten u gevangen houden. Tradities waren de steigers en de codes waarmee de voorouders in slavernij de vrijheid des Heeren voortbrachten, maar deze tradities smeekten ten hemel om in hun criptische beschrijvingen verlost te worden. 29. Zij riepen om integratie, en ontwikkeling. Zult gij dan altijd babies blijven, altijd leven van de moedermelk ? Daar doet gij uw voorouders geen dienst mee, en zo eert gij hen niet. Zij waren en zijn slechts op doortocht. 30. Bouwt daarom het huis des Heeren voort, en verscheurt de voorhangsels en zegels, verbrandt de steigers, en treedt in tot de dieptes des Heeren. 31. Hangt de lusten des Heeren dan in vrezen en beven aan, opdat gij uw behoudenis bewerkt in de vrijmoedigheid des Heeren. Want in de vreze des Heeren vindt gij alle vrijmoedigheid, en zal uw hart ruim worden tot verlossing. 32. Ja, want een jaar van verlossing heeft de Heere gegeven. Een jaar waarin gij de kosten kunt berekenen en afwegingen kunt maken. 33. Wees daarom wijs, en bega het pad stap voor stap, omdat gij niet nog een keer geknecht wordt. 34. Zo zult gij dan het oude niet verachten, maar in de diepte gaan, opdat gij de punten van verlossing zult vinden. 35. En zo zult gij dan denken : Spreekt de Heere in twee tongen ? En zo zult gij de paradox des Heeren ontdekken en zijn labyrinth. De aarde is vol met criptische beschrijvingen, vol met de vurige tongen des Heeren. 36. En gij zult u afvragen wie de verf zo heet en vurig heeft gemaakt, en gij zult dit ontdekken : De barbaren des Heeren, zij die de geest van Griekenland hebben overwonnen, hebben dit gedaan.

1.

Aanhef

1. Maakt u dan op om de Woorden des Heeren te horen. De Heer wilt dat gij de geschiedenis der schepping kent. Stopt dan met het doorvorsen van uw boeken, en stopt met uw arbeid om het Woord des Heeren te horen. 2. Het Woord des Heeren doorzoekt de duisternis en de nacht. Het Woord des Heeren doorzoekt de slaap.

De eerste aarde

3. Maakt u dan op om tot de berg des Heeren te gaan. In het eerste begin, nog voordat de aarde geschapen werd, juichten de morgensterren en de zonen Gods bij de aankondiging daarvan. 4. De

Heere had net de engelen geschapen, toen Hij bij de Geesten Gods was ingegaan. 5. Bij Eminijs schiep Hij de leeuwen des hemels en later de haaien des hemels. 6. Bij Metensia schiep Hij de gewesten des hemels, de slangen des hemels, en later het ijs des hemels. 7. Bij Matas schiep hij de wateren des hemels en de eerste aarde. Op die eerste aarde plantte Hij drie tuinen. 8. De eerste heette Roggio, de tweede heette Rietel, en de derde heette Eeden. En in de hof van Roggio plaatste hij de boskinderen Echte en Lirijn. 9. Maar zij vielen af van de Heere Heere en Hij nam Roggio weg van de aarde. In Rietel plaatste hij de slangenmensen en in Eeden de hondenmensen. 10. Maar daar zij zich groot maakten tegen de Heere en tegen Hem zondigden besloot de Heere de aardbodem te verdelgen. 11. In die tijd vielen er vele haaien af van de Levende God, en begonnen hen die op de aarde woonden te verleiden. 12. Dit was de eerste val der engelen. En de Heere Heere schiep een nieuwe hemel en een nieuwe aarde, en ging in tot Zijn Geest Santra. 13. En bij Santra schiep Hij een nieuwe hof, waarin Hij Morit, het hertenkind, plaatste. 14. Hij schiep nieuwe hemelen en een nieuwe aarde, maar de honden van Okil namen het kind mee. 15. En de hof heette Genesis, en werd tot God genomen. 16. In die dagen stond de vorst Dan Roland op, maar Michai met zijn tienduizenden engelen bracht hem ten val.

17. En in die dagen werden de engelen arxels genoemd. En er was een boek genaamd De Troiade, in het begin der dagen om hen die op de aarde woonden de hemelen te laten kennen. 18. En er was een man genaamd Michai. En hij was door God gezonden om een Heilig Evangelie te brengen. 19. Maar men heeft hem niet gewild, en de Heere begon tegen de aarde te toornen, en sterren begonnen te vallen, die grote woestheid brachten. 20. En vele leeuwen begonnen zich tegen de Heere te keren, en de Heere begon Zijn hand van de aarde en de hemelen terug te trekken. 21. Dit was de tweede val der engelen. En toen sprak de Heere Heere : Vanaf nu zal Mijn Hand niet meer op de schepping rusten. En duisternis kwam over de wateren. 22. En de Heere ging in Genesis wonen. En de Heere stelde de dagen in en de afwisseling der seizoenen. 23. En de Heere bracht Eeden terug in Genesis en begon te bouwen aan een nieuwe aarde.

2.

1. Laat Hem dan scheppen in u een nieuw hart in uw binnenste. Laat Hem u dan leiden tot Zijn nieuwe tempel, om de geschriften en materialen van de oudheid terug te vinden. 2. Laat Zijn engel Sarsia u dan leiden, tot het hart van Michai, daar waar Gods Tranen stromen. 3. Brengt dan troost aan het hart van God. 4. Laten wij dan gaan naar de hof Genesis, en komen tot Zijn Geest Santra. 5. Laten wij dan vluchten tot Zijn Schuilplaats, wanneer de elementen instorten. 6. Ja, laten we het nieuwe Genesis binnengaan, waar Morit zal terugkomen. 7. Nee, Morit is niet vergeten.

3.

1. Het boek der uittochten. Hoort dan het Woord des Heeren : De Heere Heere heeft uw stem gehoord in slavernij. Hij zal de macht van Farao breken, en u uitleiden. 2. God zal plagen zenden, en u uitleiden in het diepste van de nacht. 3. Hij heeft gezien hoe de vijand uw werk verdubbelde en verzwaarde. Hij heeft gezien hoe de vijand u geen rust gunde. 4. Maar de Heere Heere zal haken in de kaken slaan van dit beest, en hem uit de nijl trekken, om hem te brengen naar dorre plaatsen. 5. De Heere Heere heeft uw stem gehoord, en zal u leiden tot de tempel van ijs in het duisterste van de nacht. Hoort dan, want uw gebeden hebben Hem bereikt. 6. Een nieuwe dag is komende, voor hen die nu wenen. 7. En de Heere Heere zal uw monden vullen met gelach, en u nieuwe tranen van Zijn Geest laten zien. 8. Een kleine rust zal God u zenden in uw uittocht, en de engel Sarsia zal over u waken als de vurige vlam. 9. En de nachtspelers zullen u leiden tot in het binnenste der tempel, en

gij zult het altaar zien. 10. Dan zult gij zien dat de Heere vanuit het altaar spreekt. En die dag zal groot heten. 11. En de ark van ijs zal van steen zijn, en gij zult daar baden voor een dag en een halve dag. 12. Daar zal de Heere Heere u het Eeuwige brood geven. En de Heere Heere zal de ruiters van Farao uit uw geheugen en geweten bannen. 13. En de Heere zal er een banier oprichten, onder wiens teken een Eeuwige ziel geboren zal worden. 14. En die ziel zal de Heere dienen, en groot worden in de woestijn. 15. Ja, die ziel zal spreken als de tijger.

4.

1. En dan zal de Heere Heere roepen : Maakt dan vrij de baan des Heeren. 2. En de haaien des hemels zullen komen vanuit het gewest Spricht, en gij zult hun zielen aanschouwen. 3. En de Heere Heere zal roepen : Dit is de Dag waarop de haai spreekt, en zijn woorden zullen worden verstaan, op die dag dat het zegel der haaien zal worden verbroken. 4. Maar de Heere had enkele geslachten verblind, opdat zij de woorden niet zouden horen en verstaan. 5. Zij zouden nog steeds de Farao moeten dienen, totdat het getal van hun lijden vol zou zijn. 6. En de Heere sprak : Zij zijn het, die in de dagen van de tijger leven. En toen vertrok de Heere in Zijn vurige wagen. 7. En ik zag een verblindend licht langzaam uit de hemelen dalen, en de Heere zag dat het goed was.

5.

Het tempelpad

1. Ik ben het zat met een twistzieke vrouw te leven. Mijn vader heeft mij van jongs af aan onderwezen, en waarschuwde mij voor haar. Nu is het dan te laat en ben ik voor altijd geregen, als een parel aan haar zwaard. Nu zullen de dagen moeten slijten, en zal Gods Geest mij moeten opnemen. Ik zal haar niet verlaten noch wegsturen. Een huis van dokters scheurde ons uiteen.

2. Met winter alleen kan men niet leven, en zonder zomer zal het schip stranden. Als een vulkaan is de liefde zonder een vrouw. Want dan zijt gij aan Gods Geest overgeleverd.

3. Hebt gij gehoord van de vulkaan van ijs ? Bent gij al warm geworden door de kou ? Wees dan als de wees en de weduwe, en gij zult het pad Gods vinden, brandende van ijs.

4. Mijn schoeisel brandt aan mijn voeten, mijn lichaam baadt in edel ijs. Ik heb Gods boodschapper vandaag gevonden, als een vogel tikkend op mijn raam. Ook morgen zal ik weer op de uitkijk staan, waar hemelpoorten opengaan.

5. En gij bent gewaarschuwd voor de vreemde vrouw, met paarden aan haar voeten, met bellen rinkelend in de nacht. Laat haar uw hoofd niet zalven, voor dienst in haar tempelen, want het vuur zult ge niet kunnen doven, en alleen een huis van dokters zal u kunnen redden uit haar hand.

6. En ik daalde af tot het huis van dokters, waar niemand helpen kon. En ik stierf een koude dood, dwalende door duisternis. En ik ging geen vreemde huizen binnen. Ik was op reis naar een tempel, de tempel van het duistere ijs. Want God laat zich in duisternis kennen. In Zijn tempel is het medicijn.

7. In huizen zult gij het geluk niet kennen, maar in tempels is het medicijn. Door tranen van ijs worden de muren stijf. Verlaat dan de muren met ramen, en neemt uw pad tussen de muren van tempelen.

8. In huizen van spel zult gij niet winnen, want vreemde vrouwen zullen u binden. Drink dan niet van hun melk, maar blijf op het tempelpad. Want in huizen van spel zult gij niet winnen. Ze nemen

alleen je ziel weg. Blijf dan trouw aan de liefde van uw jeugd, en laat de banden slijten voor de Heer. Laat ge u dan op het altaar met koorden van liefde binden, en hangt de Geest van God aan. Dan zult ge eeuwig winnen, in de tempel des Heeren.

9. Blijf trouw aan de liefde van uw jeugd, en leg het op het altaar, zodat de vleugelen des Geestes u zullen wegnemen tot een nieuw land.

10. Laat de Woorden van de Heere u leiden, en laat u niet in met vreemde vrouwen. Hang de Geesten Gods aan, en laat u in met datgene wat in de tempel is.

6.

1. En hen die jong zijn vallen in vele strikken en verwarringen, maar hen die ouder zijn varen vaste koers. 2. Laat uw hart dan streven volwassen te worden, opdat gij voor vele dingen wordt behoed. 3. Weent niet wanneer een slang u meeneemt naar zijn nest. Zo ontdekt u de wereld. 4. De Heere geeft u wat nodig is, en houdt verre van u hetgeen schadelijk is voor uw ziel.

7.

1. Moeder brengt uw kinderen, tot de gebergten van Kabbernal. Brengt hen tot de vreugde van Metensia. Verbittert hun harten dan niet, maar onthoudt hen de tucht niet. 2. Heeft de Heere u zelf dan niet geslagen. Waarom zou u het dan uw kinderen onthouden ? 3. Weest zacht voor hen die gevoelig zijn, en voor de zachtmoedigen, en ook voor hen die voor de Heere vechten. 4. Omhul hen in moedergenade, opdat de Heere niet tot u kome, om hen te rukken uit uw hand. 5. Ja, de Heere is een jaloers God. Gij kunt niet één juk vormen met de wereld. 6. Wie dan een vriend der wereld is, is een vijand van God. 7. Oh, de Glorie van Metensia, heiligt moeders in hun liefde. Liefde als de brandende rivier, overvloeiende. Als de vulkaan is de toorn van de moeder. Kinderen, strijdt niet tegen haar, want de Heere staat aan haar zijde, met Zijn vurige wagens is Hij daar. Hij bemint haar. 8. De Geest van God, met waterige jurken zweeft over de wateren. In duisternis is Mura, in duisternis is zij, om de aarde in licht te scheppen. 9. De hemelen als haar waterige jurken, als haar vliezen, zij is strijdende, tegen de orkanen der duisternis. 10. Wat heeft satan gedaan en de zonen van Beelzebul. Zoveel engelen gevallen, zoveel waterplanten groeien nu tot de maan. Als eb en vloed zijn haar ogen. Zij gebruikt hen als mest voor een nieuw tij, maar ook dit tij zal keren. 11. Zij hulde de aarde in hemelen, zij gaf de mens een verstand, maar de aarde nam het over, en leidde hen tot het vuur binnenin. 12. In de hof van Eeden, zij vielen daar.

8.

1. Moeder, brengt uw kinderen, tot de harten van Kabbernal, tot de harten van Zijn Geest. 2. Onthoudt hen niet de Glorie, maar ook de roede niet. 3. Een tuchteloos volk is het volk des Heeren, hun kinderen zijn een wildernis. 4. Moeders, laat u leiden tot de straten van Kabbernal, en bemin de Heere. Keer terug van uw boze paden. 5. De Heere dan is God. Hij drage uw kinderen in Zijn schoot. Hoger dan de hemelen is Zijn Raad, de sterren schrijven van Zijn lof. Genade heeft Hij u gegeven, hen die Hem genade schonken. 6. Dooft dan de Geest niet uit, want gij zult mest zijn voor de nieuwe aarde en haar plantengroei. 7. Zo zult gij verdorren, als gij niet luistert naar de Stem des Heeren. 8. Kabbernal, maakt uw dalen wijd, en laat rivieren stromen. De kinderen zijn rijp geworden. Zij zullen dromen dromen. 9. Gij sluit de poorten der duisternis, en opent hen weer een andere keer. 10. Kabbernal, oh Geest van God, gij hebt tot Izu gezworen. De beminden lijden pijn, zij worden gemaald als koren. 11. Van edele verzen was Zijn Woord, maar er is nu niets meer van over. Vijanden waren in de poorten van de hof, en de bakker des Heeren had de strijd verloren. 12.

Zij hingen hem hoog, over vijanden niets meer, geen betoog. Hoelang zou zijn reis duren, naar de uiteinden van de eeuwigheid, waar lammeren hem volgen. 13. Zo werd het Woord dan zevenvoudig gelouterd, en konden zij niet zeggen : Het is er niet meer. De bakker heeft de kruik met melk gebroken, en zijn bloed doorstroomt het oude zeer. 14. Zij die dan het Woord zien, volgen Hem.

9.

1. Het Woord dan zeven maal gebroken, als zuiver zilver voor de Heere. De Heere heeft Zijn Weg gevonden. 2. Het Woord dan vertrapt en geslagen, daar waar bakkers het heil verloren zagen gaan, stond de spruit op, vol met gezichten. 3. De Heere heeft het zaad gezaaid, de splinters in de zon, brachten Hem tot het verloren goud. 4. Ja, de Heere heeft list gebruikt, om Zijn Woord te zuiveren en te behouden. Als een schat in aarden vaten heeft Hij gebrokenheid gebracht. 5. Nu stroomt dan het zilver, tot hen die willen smeden, de tempelen van de Heer. 6. Velen durfden niet te naderen, tot de tempelen van de Heere, want vijanden waren daar. Maar nu zijn de poorten open, en heil brandt in het midden van de tempel. 7. De Heere herschiep Zijn Woord, door de verdrukkingen heen. Nu heeft Hij dan een koord om hen die dwaalden en beangst waren te trekken. 8. Het Koord van Liefde opent ogen, laten zij dan Metensia zien. Gods Geest die verborgen was gehouden. 9. De Heere dan heeft list gebruikt, komt dan tot Zijn poorten om Zijn licht te aanschouwen, wat was gewikkeld in de duisternis. 10. Ja, de Heere streed met raad en overleg. In vurige wagens was Zijn inzicht. 11. Ademt dan nu, gij die geleden hebt onder het Woord van duisternis, want haar licht is opgegaan. 12. Nu is het licht dan gekomen tot Kabbernal, en God neemt Zijn zonen aan. 13. Vanuit alle windrichtingen zullen zij komen, de wijzen om hun schatten te brengen, tot het nieuwgeboren Woord. 14. Ademt dan nu, gij heiligen van een nieuwe taal, want het oude is voorbijgegaan, de onderdrukking des satans. 15. De Heere dan heeft Hebezeen gebroken, als Mozes splitsende de zee. 16. Een nieuw Woord is dan geschapen, ziet, het oude is voorbijgegaan. 17. Ik heb door Mijn dienstknechten gesproken, zegt de Heere, en Ik heb hen Mijn Woord doen verstaan. 18. Ademt dan nu, volk van God, want zijn heiligen zullen gaan van adem tot adem, en heil scheppen uit de levensbronnen van God. 19. De Heere dan heeft Tapas gebroken, en hem gespleten als een berg. Ja, de bliksem heeft hem getroffen. Wonderbaarlijk is Gods werk. 20. Komt dan tot de nieuwe tempel, en zie niet om, opdat gij niet worde tot een zoutpilaar, en de Heere daarin Zijn Woord beware. Zij die tegen het Woord strijden worden tot mest, en zij die teruggaan tot het oude zijn als zout. De Heere zal hen beiden gebruiken. 21. Zijt gij dan geen gereedschap in de Handen des Heeren ? Hij die de Zon in zijn handen draagt. 22. Daar waar de zonen van Belial zich tegen Hem keerden, daar kwamen de Geesten Gods tezamen. 23. Heeft Hij dan niet in u de aarde geschapen ?

10.

1. Reine handen gaf Hij aan de reinen. Verstand gaf Hij aan de verstandigen. De traagheid des heeren roepe u. Dit is een dag van vrijheid. 2. Genade heeft Hij opgewekt tot hen die Hem genade gaven, die Zijn Geest hebben gewekt. 3. Een goed bed gaf Hij hen om in te slapen. Daar waar de rozen bloeien, de dorens brengen u tot slaap, waar gif de lied'ren en gezangen laat keren tegen hen die Hem haten. 4. Een vaste burcht is uw God, met een veelvuldigheid aan wapenen. 5. Dit is een dag van vrijheid, waarin de Geest des Heeren Zich verblijdt. 6. Weest dan niet bitter tot de tuchtigingen Gods. Zij vormden uw ziel. 7. Dwaal dan niet af in oeverloze geslachtsregisters, getallen en geschiedenissen, daar de Heere u vrijgezet heeft. Zoekt dan de Heere en Zijn Geest. 8. Vele boeken vormen een strik, maar de Heere geeft het Zijn beminden in de slaap. 9. Hebt dan verbintenis met God, en leert te toetsen. Zij dan behoren tot de geboden van het zuivere Woord : Het eerste gebod is geen vlees te eten. Het tweede gebod is gij zult niet doodslaan. 10. Het derde

gebod is hebt dan uw naaste lief en God boven alles. Het vierde gebod is de wet niet te verachten, en de ander uitnemender te achten dan uzelf. Het vijfde gebod is te toetsen alle dingen en de profetieën niet te verachten. 11. Het zesde gebod is het dier lief te hebben, en te bestuderen, evenals de natuur. Het zevende gebod is de namen der Geesten te kennen, de namen der engelen en machten, daar zij de poorten des levens bewaken. Gij dan zult verbintenis hebben met God. 12. Dit gebod is het Woord des Heeren zuiver te houden, en de canon te verafschuwen, daar zij Gods Geest opsloot. 13. Het achtste gebod is in verbintenis te zijn met de martelaren van de tijden, het negende is de tijden des Heeren te kennen, en het tiende is de leugen te haten en het onderscheid te kennen tussen de verschillende gewassen, planten en groenten. 14. Zo te doen zult gij uw zielen zuiveren en behouden, maar hij die hierop niet acht geeft, op hem zal geen acht gegeven worden.

11.

1. En de Heere bracht deze geboden tot een zuivere ark, en liet de plaats verzegelen.

12.

1. Laten zij die werk doen ook tijd besteden aan de rust. Zij die elkaar geen rust geven bedrijven gruwelen voor het aangezicht des Heeren. 2. Leer dan elkaar te heiligen, en geeft elkaar rust, opdat gij zelf kunt rusten. 3. Apostelen zijn zij dan die het Woord zuiveren. 4. Zij behoeden uw ziel, en geven niets om tradities. Als gij een traditie vasthoudt, houdt het vast om de Heere. Maar bent gij er wel zo zeker van dat u de Heere ermee dient ? 5. Gij dan zult opgroeien in de Heere, en de planten laten groeien. 6. Indien gij dan niet vernieuwd wordt, hoe kunt gij de hemelpoorten bereiken, die het nieuwe aanhangen ? 7. De Heere dan bemint het nieuwe, en Hij zaait het oude als zaad op de akker. 8. De Heere is dan een landman, kennende de oogst der dingen. 9. Zo zult ook gij de oogst der dingen moeten kennen. 10. En ik zag de verzen van het oude gekooide woord als roofdieren tot de heiligen komen, en zij dronken hun bloed als wijn. 11. En ik geraakte dronken van het Zuivere Woord, en de Heere sprak : Zalig zij die het Zuivere Woord kennen. 12. En de Heere nam het oude en bezoedelde Woord en wierp het in een kuil van leeuwen. En het Zuivere Woord begon voort te komen. 13. En de profeten die het zagen kregen dubbel zicht en het zilver des Heeren kwam voor hun ogen, en begon hen te zuiveren. 14. En zij kregen de macht om de hemelen te openen en te sluiten.

13.

1. En de Heere sprak : Ja, de mens heeft een tweede geest, verborgen en opgesloten voor het Aangezicht van God, maar het Zuivere Woord zal het openen, en dan zal het Eeuwig Evangelie komen. 2. En het Zuivere Woord begon te waaien als de zeven winden des Heeren, en geruis brak voort vanuit Gods tempelen. 3. De Heere dan heeft het oude Woord gebruikt, en met een kromme stok recht geslagen, maar nu zullen dan de steigers waarmee het huis gebouwd werd worden verbrandt. 4. En ook de mest en het zout van de hel begon te branden. En de Heere bracht dan zuivere schatten tot de lichamen van zijn dienstknechten, en deze schatten waren tienvoudig gezuiverd, en enkelen honderdvoudig. 5. En het licht des Heeren rees op van de tempel, en ik zag een nieuw altaar staan. 6. En de Heere pakte een zware stok die alleen Hij kon dragen en sloeg daarmee op de zee. En walvissen kwamen voort en zij droegen het geheimenis des Heeren.

Het Eeuwig Evangelie VI

De Steen van Chawila

1.

1. En Jezus daalde tot de onderwereld waar Hij uiteindelijk kwam tot Chawila. En Jezus brak stukken van de steen af, en kwam tot de plaats waar het tweede beest was, diep in de afgrond. En Christus sprak tot het tweede beest, en omklemde de nek van het beest met een bereklauw. En Christus kwam tot de canon en brak het in stukken. En Christus kwam tot Chawila als tot een vrouw. En Christus sprak woorden tot de zee, en de zee trachtte Hem te verslinden. En de slangen en de wormen der zee trachten Hem te omknellen, maar Chawila beschermde Hem. En Chawila nam Hem mee tot een grot waar Hij veilig was. En Chawila noemde Hem de Indiaan en schonk Hem een veer. En zij bekleedde Hem met de wonderbaarlijkste sieraden en edelstenen en met dat wat leeft onder de aarde. En Christus sprak tot haar en zeide : Uw zand zal tot goud zijn van het goede, en het zal zich vermenigvuldigen.

2.

Rozinde

1. Er was eens een meisje dat heel diep onder de grond opgesloten leefde om voor een draak te koken. Het meisje heette Rozinde. Altijd als ze niet snel genoeg was met koken dan werden de vlammen onder haar grote ketel woester en woester. Ook wilde de draak altijd veel verschillende soorten vreemd vlees, en daarom moest Rozinde vaak op jacht. Als ze niet snel genoeg was met jagen dan werd haar boog ineens vuurheet en dan viel ze altijd op de grond van de pijn. Op een dag schoot een prins een pijl op de draak af en bevrijdde Rozinde. Hij nam haar mee naar zijn kasteel. Om tegen de draak beschermd te zijn moest ze elke dag baden in een bad vol met melk onder het kasteel. En elke dag moesten er wilde bloemen in geworpen worden. De prins hield veel van het meisje en op een dag trouwde hij met haar. Maar toen eens de prinses vergat in het bad van melk te baden sloeg de draak toe, en nam haar weer naar de diepe plaats onder de grond. Nu moest Rozinde nog harder werken, en was de draak woester dan ooit. Op een dag kwam de prins om zijn Rozinde te halen, maar de draak sloot hem op achter tralies van vuur. Rozinde werd elke dag steeds verdrietiger. Op een dag was ze weer op jacht voor de draak en vond een hert in het struikgewas. 'Heus, schiet me niet,' zei het hert, 'dan zal ik je al mijn melk geven.' En toen herinnerde Rozinde het weer dat de draak niet tegen melk kon. Ook vroeg Rozinde aan het hert waar wilde bloemen waren. Het hert had heel veel melk te geven, en al gauw was er een heel bad vol. Toen gooide Rozinde de wilde bloemen erin. Snel nam Rozinde een bad in de melk en ging met natte kleren terug. Toen ze bij de vuurtralies aankwam wreef ze met haar melknatte kleren er tegenaan terwijl de tralies kapot sprongen. Snel greep ze haar prins bij de hand en samen renden ze naar het bad. Hier waren ze veilig tussen de wilde bloemen. Maar al gauw kwam de draak een kijkje nemen. Hij wist dat hij niks tegen hen kon beginnen zolang ze iedere dag een bad zouden nemen in de melk. Maar hij wachtte en wachtte, en vandaag wacht hij nog steeds.

3.

1. En uiteindelijk kwam Christus tot de draak, en had Chawila als zijn boog. En hij doorboorde het hart van de draak met een pijl, en de draak kreeg varkenskoppen. En Chawila sprak dat na het zilveren tijdperk de draak geheel als een mak varken zou zijn. En Christus keerde om en ging heen van de draak, terwijl engelen Hem volgden. En Chawila sprak dat het goud der aarde de draak verder zou doorboren om een weg te vinden door zijn hart, tot het doen ontwaken van het zilver. En vele soldaten die door de draak waren opgeslokt zouden zo vrijkomen, en zij zouden de engelen van Christus volgen over het pad van Chawila. En Chawila nam haar fluit om die te bespelen, en bloemen begonnen voort te komen uit de draak, en zij droegen de gouden glazen wanden. En ziet, zij waren als de tegels van de nieuwe stad. En Chawila zag en sprak dat het goed was. Zo keerde zij terug tot Christus, en Christus kwam tot haar als tot een vrouw.

4.

Linana en de Carrousel

1. Eens in de tijd dat er nog geen bloemen waren leefde er eens een meisje dat zo mooi was dat iedereen haar 'Zwanenpracht' noemde. Op de hele wereld was er geen liever meisje te vinden dan haar, met een hart van goud en stralend licht. Haar vader, een koopman was erg trots op haar, en er was niemand met wie zij het beter kon vinden dan met haar vader. Maar op een dag was de vader erg ziek. Het meisje was erg bedroefd en na korte tijd stierf haar vader. Haar moeder was een edele vrouw en hertrouwde. Maar al gauw bleek dat het meisje niet met haar nieuwe vader kon opschieten. De stiefvader was erg ruw naar haar, en het meisje begon erg te veranderen. Na een aantal jaren was ze zo'n kreng geworden dat iedereen haar Zwanenplaag noemde.

2. Maar op een dag was er een koopman met een carrousel in het land. De kinderen waren dol op de carrousel en ook het meisje vond het fijn er ritjes in te maken. De koopman was direkt erg gecharmeerd door het meisje, omdat ze zo mooi was als een zwaan. Na de ritjes wenkte de koopman het meisje, en nam haar apart. 'Heus,' zei de koopman, 'ik heb in het hele land geen mooier meisje gezien dan jij, met een hart zo vol van goud en stralend licht.'

3. 'Iedereen noemt mij zwanenplaag,' zei het meisje, 'omdat ik zo'n kreng ben. Vanwaar uw belangstelling?'

4. 'Oh, maar ik zou jou Zwanenpracht noemen,' zei de man. Ineens moest het meisje aan haar vader denken.

5. En toen vertelde de man haar dat wanneer het midden in de nacht is, en alle kinderen slapen, dan wordt de zwaan van de carrousel wakker, en wie dan op haar rug zit maakt met haar een ritje in de

lucht. Als je het aan niemand vertelt, en naar de carrousel komt wanneer je de eerste sterretjes van de nacht ziet, dan is het aan jou de eer een ritje te maken, sprak de man.

6. De eerste nacht toen het meisje een ritje mocht maken op de vliegende zwaan van de carrousel kon ze alle lichtjes van de stad zien, en vertelde aan de man van de carrousel dat haar echte naam Linana was. Omdat het het meisje zo beviel mocht ze ook de volgende nacht komen. Ditmaal bracht de zwaan haar nog verder weg, en vertelde ze de man van de carrousel dat haar vader was overleden, en dat ze een boze stiefvader had. En de man nodigde haar nog een keer uit. Ditmaal bracht de zwaan haar naar een land zo ver weg dat ze het niet kende. Toen ze een voet op de grond had gezet vloog de zwaan weg. Ze riep de zwaan nog na, maar al snel was de zwaan helemaal uit het zicht verdwenen. Ze stond vlakbij een meertje waar een heleboel echte zwanen waren.

7. Linana mocht op één van de grotere zwanen een ritje maken over het meer, en ineens steeg de zwaan op. ‘Oh, kun jij me even naar mijn land terugbrengen,’ zei het meisje. ‘De zwaan van de carrousel is mij vast vergeten.’

8. Toen het meisje weer bij de man van de carrousel was aangekomen, vertelde de man haar dat de zwaan van de carrousel altijd op tijd terug moest zijn, anders zou hij in de lucht ineens weer van metaal worden en neerstorten. Toen begreep het meisje het. Maar ook de zwaan van het andere land wilde wel een plaats op de carrousel hebben. Voor de man met de carrousel was dat niet zo moeilijk, omdat hij immers toverkrachten bezat. En steeds kwam het meisje terug in de nacht om ritjes te maken op de zwanen, en ze nam telkens nieuwe zwanen mee. Na een tijdje was de carrousel vol met zwanen, en op een nacht steeg de hele carrousel op, en vloog naar het land van de zwanen.

9. Dus als je een keer in de nacht een carrousel door de lucht ziet vliegen, dan weet je dat het Linana met haar zwanen is. Op een keer vertelde de koopman dat er drie vlammetjes in het binnenste van de carrousel waren. Zodra het eerste vlammetje uitging ging er op aarde iemand dood. Altijd als het tweede vlammetje uitging werd er op aarde iemand geboren, en als het derde vlammetje uitging werd er iemand blij. Linana vond het een prachtig gezicht om naar de knipperende vlammetjes te kijken. Maar op een dag werd ook de man van de carrousel ernstig ziek, en stierf. Linana was nu bedroefder dan ooit, en sindsdien gingen de vlammetjes niet meer aan. Ook de carrousel draaide niet meer, en de zwanen kwamen niet meer tot leven. Niemand wilde een carrousel in het land hebben die het niet meer deed. Ze besloten de carrousel in een diep gat in de aarde te werpen. Linana was ontroostbaar. Maar op een dag kwam er een zwaan van het andere land, en nam haar mee. Het meisje wilde niet meer terug en besloot in een huisje te leven aan het meertje van de zwanen. Maar op een dag gebeurde er iets wonderlijks, vanuit het meertje kwam de oude carrousel opzetten. De carrousel was nu groter dan ooit, en er waren ook veel meer zwanen op. De zwanen vertelden het meisje dat in het diepe gat in de aarde een oude vrouw leefde die zoveel toverkracht bezat dat ze kon maken dat de zwanen altijd konden leven. Zelf had ze ook een heleboel zwanen, en die konden sindsdien ook in de carrousel zijn. En in het binnenste van de carrousel waren nu zoveel knipperende vlammetjes en was het er zo groot, dat Linana er voor altijd zou kunnen wonen.

10. En zo maakte Linana vanaf nu ook ritjes door het water en onder de grond. En als je haar eens tegenkomt, vraag dan maar of je met haar mee mag.

5.

1. En zo hing de Heere zeven dagen in de onderwereld aan de strop, toen hij engel geworden was, om zo vele engelen tot zaligheid te brengen. Ja, want enkelen onder hen waren door de vloek van de zwarte appel weggenomen, en leden in het verborgene, in gebondenheid. En de Heere hing daar, gemaskerd als de ekster. En zo is de Heere dan in het dodenrijk der engelen geweest, en in het dodenrijk der mensen, om velen tot zaligheid te brengen, zowel mens als engel. En sommigen hebben gepredikt dat engelen niet sterven, maar zij weten niets af van het verborgene des Heeren. Want ook als engel heeft de Heere de dood gezocht, en de dood heeft Hem gegrepen, opdat Hij velen zaligen zou. Weet gij dan niet van de verboden appels der mensen en engelen, waardoor zij zouden sterven ? En in hun val namen zij velen mee, hun generaties, hun geslacht, hun ras, hun legioenen, en iedere vorm van bloedband, en de Heere sprak dat Hij niet schuldig zou houden hen die door toedoen van anderen stierven. Maar ik zal u een geheimenis vertellen : dood en leven is enkel taalgebruik, want de doden leven, en de levenden zijn dood. En zo kwamen dan de engelen die gezondigd hadden, en die zij in hun val meesleurden op wat voor manier dan ook, terecht in het dodenrijk der engelen. Nu is de vraag : waar is het dodenrijk der engelen ? Zij vielen van de berg der goden, de berg van Eeden, en kwamen in de wildernissen van Eeden terecht, in de vierde dermensie, terwijl zij van de vijfde dermensie waren, en de goden van de zesde dermensie, hoger op de berg van Eeden. En zo reikt de top van de berg van Eeden in de zevende dermensie, waar de Godslangen wonen die het wezen van God zijn, en de oude ekster woont in de achtste dermensie. Is het dan zo dat zij die sterven een dermensie lager komen ?

2. Als een mens, die van de derde dermensie is, sterft, waar komt hij dan ? Toen Adam en Eva uit de hof van Eeden werden gejaagd kwamen zij tot de derde dermensie, en de cherubs werden tussen de derde en de vierde dermensie gezet op de weg tot de boom des levens te bewaken. Maar de cherubs zelf zijn van de vijfde dermensie. Zo zien we dat er raakvlakken zijn tussen de dermensies. Ook is het mogelijk in het dodenrijk te sterven, om zo van dood tot dood te gaan. Dit zijn de krachten van de goden en de engelen, en zij worden er niet door geraakt. Nu was Christus tot de dodenrijken der mensen en de dodenrijken der engelen gekomen, om daar weer te sterven, en velen doorgang te geven. Zo heeft Hij dan de evangelieën der mensen en de evangelieën der engelen verkondigd. En Hij heeft hen de wegen door de dodenrijken en door de poelen des vuurs laten zien, en Hij heeft aangetoond dat deze dingen ter zuivering en testing waren. En zo kwamen vele engelen en vele mensen tot verlichting. Het doel van Christus is dus tweevoudig geweest : het verlichten van engelen en mensen. En zo is Hij dan tweemaal Verlosser. De ekster was dit voor de Godwezens en de goden. Istus was de verleider der Godwezens, en Maktus de verleider van de goden, die ooit Virtus verleidde tot het nemen van het verboden vlees. Virtus was de verleider van engelen, en verleidde satan toen die nog een aartsengel en zoon Gods was. In vele opzichten is Christus voortgekomen vanuit de ekster, en werd ook zo genoemd. Hij heeft zowel de dodenrijken van mensen als die van de engelen bezocht, en is aan zowel mensen als engelen gelijk geworden. En zo bezocht Christus de eerste tot en met de vierde dood, en ging over de rivieren die deze vier

gebieden van elkaar gescheiden hielden. En de rivier tussen de eerste dood en de tweede dood was de Makasto, en zij hield het dodenrijk van de hel gescheiden. En de Kamsto was de rivier die de tweede dood van de derde dood gescheiden hield, als de hel van de slaap.

3. En de Vlamo was de rivier die de derde dood van de vierde dood gescheiden hield, tussen slaap en vergetelheid. En de Heere verlost velen uit de zielslaap. En de derde dood had als naam Fakaro en hij hield vele zielen in slaap, zowel mens als engelen, en de Heere dreef hem terug. En de vierde dood had als naam Zamisto, en hij hield velen in de greep, en de Heere dreef hem terug. En de Heere zelf had macht, als door het bloed van de ekster. Ook kocht de Heere velen vrij uit Gehenna en het tweede Gehenna, en ook uit Tartarus, die gebieden waren van de tweede dood. En de tweede dood had als naam Alsma, en de Heere dreef hem terug. En de Heere ging de berg van Eeden op, en nam vele mensen en engelen mee die Hij verlost had, en Hij sprak tot de berg, en die opende zich, en nam allen die door het bloed des Heeren waren gezuiverd aan. En de eerste tot en met de vierde dood kwamen klagen bij de oude ekster en bij de Heere, en Alsma, de tweede dood, trok zijn zwaard, maar de Heere wierp hen allen in de poel des Heeren. En de Heere maakte een eind aan het gehandel tussen de eerste tot en met de vierde dood, en liet de rivieren tussen hen overstromen, en aldus was de vloed des Heeren. En de Heere bracht de Zijnen tot een schuilplaats in het binnenste van de berg van Eeden, en liet hen aldaar Zijn dieptes zien. En allen waren verwonderd over de mysterieën van de berg van Eeden.

De Twee Zusters

1. Er waren eens twee zusters die water moesten putten bij een waterput. Op de put zat een mannetje die hen te drinken vroeg. 'Ga zelf water halen,' zeiden de twee zusters.

2. 'Maar ik heb geen emmer,' zei het mannetje.

3. 'Ga dan maar eerst een emmer halen,' zeiden de twee zusters.

4. 'Kan ik niet gewoon in jullie emmer naar beneden, dan kan ik daar wat water drinken en zorgen dat jullie emmer volkomt. Ik zal jullie er rijkelijk voor belonen,' zei het mannetje. Hij liet de twee zusters wat goudstukken zien, en de zusters stemden in. Ze lieten het mannetje aan de emmer aan een touw helemaal naar beneden gaan. Het mannetje stapte uit de emmer ging op een klein platform staan, en legde een schorpioen in de emmer. Toen de twee zusters de emmer terug hadden met de schorpioen erin waren ze woedend. 'Wacht maar, mannetje,' zei één van de zusters, stapte in de emmer en liet haar zuster het touw vieren om zo beneden te komen. Maar het mannetje was in geen velden of wegen te bekennen. De twee zusters hadden ook nog een jongere zuster, en de volgende keer lieten ze haar naar de waterput gaan. Het mannetje zat er weer, en vroeg ook aan dit meisje of

ze hem wat te drinken wilde geven. Het meisje gaf hem direkt te drinken. ‘Omdat je zo behulpzaam bent geweest,’ zei het mannetje, ‘zal je emmer altijd vol blijven.’ Het meisje ging weer naar huis en vertelde alles aan haar zusters. En inderdaad, zodra de emmer bijna leeg was raakte de emmer weer vol. Direkt zochten haar zusters een andere emmer op en gingen terug naar de waterput. Weer zagen ze daar het mannetje. ‘Zo,’ zeiden ze. ‘Zullen we jou eens goed te drinken geven?’ Het mannetje knikte, en ze gaven hem goed te drinken. Het mannetje dronk de hele emmer leeg. Maar toen ze voor de tweede keer de emmer omhoog haalde zat de emmer vol met vieze modder en spatte al hun klederen vies. ‘Omdat jullie mij alleen te drinken hebben gegeven om jullie eigen hebberigheid zal vanaf nu jullie emmer altijd vol zijn met vieze modder, en zullen jullie klederen altijd vies zijn. Huilend gingen de twee zusters naar huis om hun klederen te wassen, maar hoe meer ze hun klederen probeerden te wassen, hoe viezer deze werden.

1. En Christus sprak tot Chawila en tot haar steen, en blies leven in de steen, en leven in haar hart. En Chawila zegende Christus en balsemde hem. Nu dan was Christus tot diep in het dodenrijk afgedaald om velen van de draak vrij te zetten. En ook kwam Hij tot de ouders van de draak, het ijzeren beest en de panter. En Hij wierp hen beiden in de zee zoals men stenen slingert. En hun lichamen zonken beiden tot op de bodem, terwijl hun zielen werden verbrijzeld. En Chawila nam rust voor zes dagen, en na die dagen legde zij zich aan de voeten van Christus die op Zijn troon zat. En Chawila smeekte Christus om de Vokolkus en de Takalan te openen, de twee verborgen boeken voor Gods Troon. Zij dan waren bedekt met leer en met leren sluitsels afgesloten. En Chawila weende voor de troon, veertig dagen en nachten, maar niemand was bij machte deze twee boeken te openen. ‘Rust nog een tijd, Chawila,’ sprak Christus, want deze twee boeken zullen pas aan het einde der tijden worden geopend. En ik zag een ster uit de hemel dalen om Chawila rust te geven, en zij werd vertroost. En Christus sprak : ‘Ga dan, Chawila, naar uw stad, want uw stad zal vol worden, en er zullen lichten in haar binnenste zijn. Gij dan zijt een voedster. Ga daarom, Chawila, want de Heere is met u.’ En zo vluchtte Chawila door de bossen zeven lange dagen en zeven lange nachten, totdat zij eindelijk in haar stad aankwam, en de ster kwam over haar. En de ster sprak tot Chawila : ‘Ziet dan, de panter is neergedaald tot de dieptes der zee, en zal weldra tot de zeerotsen gaan. Ook het ijzeren beest is van zijn plaats uit de hemelen gevallen, en zal worden tot het groen der aarde. Ja, tot tere bloesem zal hij worden, want hij heeft grote en harde dingen gedaan.’ En Chawila legde haar hoofd ten ruste en bereidde haarzelf voor op het voeden.

2. En ook engelen kwamen tot de Heere en smeekten : ‘Is er dan niemand die de zegelen van de Vokolkus en de Takalan kan verbreken ? Zend dan uw profeet tot het einde der dagen om het te openen.’ En zij kregen een gewaad van de Heere, om nog enige tijd te rusten.

Het Meisje Dat Achter De Sluiertjes Woonde

1. Er was eens een meisje dat achter sluiertjes woonde. Haar vader had die sluiertjes gemaakt, en die sluiers waren heel lang. Tussen de sluiertjes leefden de gevaarlijkste roofdieren die het meisje

moesten beschermen. Haar vader was kleermaker. Hij had voor haar een huisje gemaakt als een poppenhuisje, ook met veel sluiertjes binnenin en met de prachtigste meubeltjes. Ook was er een prachtig keukentje binnenin, en door het huisje hingen de prachtigste gordijntjes. Vele ridders zouden wel met het meisje willen trouwen, maar zodra ze door de sluiertjes op zoek gingen naar het poppenhuisje werden ze door een gevaarlijk roofdier verslonden. Omdat de vader van het meisje ook schoenmaker was maakte hij op een dag de prachtigste schoenen die zo betoverend mooi waren dat ze met gemak bij het poppenhuisje konden komen. Zo bezocht haar vader haar elke dag eventjes. Maar op een dag had hij de schoenen voor de sluiertjes laten liggen, en de eerste de beste ridder die langskwam trok die schoenen aan, om zo met gemak bij het poppenhuisje aan te komen. Het meisje was erg verbaasd. 'Maar wie bent u?' vroeg het meisje. 'Dat zijn de schoenen van mijn vader?'

2. 'Oh, neem me niet kwalijk,' zei de ridder. 'Ik zag ze voor de sluiertjes liggen en ze waren zo betoverend mooi dat ik het niet kon nalaten ze aan te trekken.' De ridder mocht even wat bij haar drinken, maar toen moest hij weer terug. Netjes bracht hij de schoenen weer bij de vader van het meisje terug. De vader was de ridder erg dankbaar, want de ridder had de schoenen ook gewoon kunnen houden, en dan zou de vader van het meisje nooit meer bij haar kunnen komen. En daarom zei de vader van het meisje: 'Omdat je zo eerlijk bent geweest om de schoenen terug te brengen zal ik ook een paar toverschoenen voor jou maken. De schoenen die ik zelf heb kan ik niet meer namaken, maar zeg me maar wat voor een toverschoenen je wil hebben.'

3. 'Ach,' zei de ridder, 'ik zou graag schoenen willen hebben die de sleutel dragen tot het hart van uw dochter.' En zo maakte de vader van het meisje de prachtigste schoenen voor de ridder die haar hart zouden kunnen betoveren. Maar toen de ridder bij de sluiertjes aankwam lieten de roofdieren hem er niet langs. De ridder begon het meisje heel hard te roepen en na vele lange uren kwam ze eindelijk door de sluiertjes heen. Ze stond direkt als betoverd toen ze de schoenen van de ridder zag, en bracht hem naar het poppenhuisje. En daar zijn ze beiden voor altijd blijven wonen.

Susanna

1. Susanna was een heel bijzonder meisje. In de nacht kreeg ze altijd vleugels, en vloog ze naar verre landen. Maar als de ochtend viel verloor ze haar vleugels altijd weer, en daarom moest ze altijd op tijd terug zijn, voordat de zon opkwam. Op een nacht nam een heks haar gave van haar af. In ruil daarvoor kreeg Susanna vlindervleugels en een kroon van veren, maar ze kon nooit meer naar huis. De heks bracht haar naar een plaats waar het altijd nacht was. Hier waren een heleboel meisjes zoals haar, maar de nachten duurden er heel lang, en als een nacht was afgelopen dan kwam direkt de volgende nacht. Wel kregen ze allemaal na elke nacht een steentje aan hun halskettingen erbij. Die steentjes waren helemaal wit en werden morgenstenen genoemd. Als hun halskettingkjes helemaal vol waren met steentjes dan mochten ze de reis maken naar de plaats waar het altijd dag was. Daarvoor moesten ze door een hele lange donkere tunnel heen waar de oudste mannetjes woonden die bestonden. Na een hele lange tijd mocht Susanna de reis gaan maken. Toen ze in de

tunnel met de oudste mannetjes die bestonden kwam klampten sommige mannetjes haar direkt aan. 'Help ons,' zeiden ze. 'We kunnen niet lopen. Draag ons naar het morgenland.'

2. 'Maar natuurlijk,' zei Susanna, en droeg zoveel mannetjes met haar mee als ze kon. Maar de andere meisjes die met haar waren zeiden tegen de mannetjes die hen aanklampten : 'Zorg zelf maar dat je in het morgenland aankomt.'

3. Verderop kwamen ze bij een grote waterbron aan. 'Kun je ons wat water geven,' vroegen de mannetjes aan Susanna. 'Onze handen zijn te slap om water te scheppen.'

4. 'Maar natuurlijk,' zei Susanna, en gaf hen allemaal te drinken. Maar de andere meisjes namen alleen maar water voor henzelf. Na een hele lange tijd lopen kwamen ze eindelijk aan bij de rots die de ingang naar het morgenland blokkeerde. Een klein mannetje zat op de rots en vroeg aan hen allen waar ze de mannetjes hadden. Aan Suzanna's rug hingen er een heleboel, maar de andere meisjes zeiden lachend dat de mannetjes zelf maar moesten lopen. 'Dat is nogal erg dom van jullie,' zei het kleine mannetje op de rots. Zodadelijk schuift de rots namelijk van de ingang weg, en zal het vuurgordijn dat de ingang nog verspert door de tunnel heengaan. De mannetjes zullen hun dragers hiertegen beschermen. 'Geef die mannetjes hier,' riepen de meisjes naar Susanna.

5. 'Ga ze zelf maar halen,' zei Susanna. En toen zetten de meisjes het op een lopen naar het begin van de tunnel waar de oude mannetjes zaten. 'Spring snel op onze ruggen,' zeiden de meisjes, 'dan brengen we jullie naar het morgenland.'

6. 'Vanwaar jullie bereidheid ineens ?' vroeg één van de oude mannetjes.

7. 'We hebben ons bedacht,' zei één van de meisjes. 'En we zullen jullie ook te drinken geven bij de bron.'

8. 'Zo zo,' zeiden de mannetjes, en stapten op de ruggen van de meisjes. Toen ze bij de bron aankwamen gaven de meisjes hen te drinken, en na een lange tocht kwamen ze eindelijk bij de ingang naar het morgenland aan. De rots was inmiddels al weggeschoven, en het vuurgordijn staarde hen aan. Ze hadden allemaal zoveel mogelijk mannetjes op hun rug genomen, zodat ze goed tegen het vuur beschermd zouden worden, maar ineens sprongen de mannetjes van hun ruggen af en liepen door het vuur naar binnen. Direkt begon het vuurgordijn op hen af te komen, en zo moesten de meisjes zo hard mogelijk terugrennen als ze konden.

Arachundel

1. Arachundel groeide op in een donkere kerker onder de grond. Nooit kwam er een straaltje zonlicht door. Vaak lag het meisje huilend op de grond. Op een dag kwam er een prins langs de kerkers, en vroeg aan de baas van de kerkers of hij het meisje mocht kopen. De prins betaalde er vele goudstukken voor, want dat had hij er wel voor over. Arachundel was het mooiste meisje wat hij ooit had gezien. Het meisje was erg blij dat ze vrij was, maar toen ze in het paleis van de prins kwam moest ze in de keuken werken. En waar ze sliep was het nog wel viezer als in de kerker. Het meisje begreep het niet, maar op een dag liet de prins haar bij zich roepen. 'Majesteit, ik dacht dat u mij vergeten was,' sprak het meisje. Maar de prins riep haar alleen maar voor een vreemde opdracht : 'Ga naar de grot achter het bos, waar een waterput is waaruit je met een emmer goud water moet halen. Kook voortaan alles in het gouden water.' Het meisje vond het een vreemde opdracht, maar ging al gauw op pad. Toen ze eindelijk bij de waterput kwam zat daar een klein mannetje. 'Zo zo,' zei het mannetje, 'dus je bent door de prins op pad gestuurd. Hij laat je wel hard werken zeg, en je hebt het nu zelfs slechter als waar je vandaan kwam.'

2. 'Dat is waar,' zei Arachundel, 'maar hoe weet u dat allemaal ?'

3. 'Ach, zie je,' zei het mannetje, 'ik ben een tovermannetje, en als ik jou was, dan zou ik hier gewoon blijven. Ik kan je alles geven wat je hartje begeert. Er is hier volop gouden voedsel zodat je nooit meer hoeft te werken.'

4. 'Nou, dat lijkt me wel wat,' zei het meisje.

5. 'Maar,' zei het mannetje. 'Je moet me wat beloven. Je eerste kindje zal je aan mij moeten geven.'

6. Het meisje vond dat allemaal best. Ze dacht toch niet aan kinderen krijgen. Het mannetje opende een deur, en er stond inderdaad een berg van gouden voedsel. Het meisje begon direkt te eten. 'Zeg,' zei het meisje. 'Kan ik de prins vertellen van deze plaats ? Dan wil hij misschien wel met me trouwen.'

7. 'Wat je maar wil,' zei het mannetje. Het meisje nam wat van het gouden voedsel mee, en gouden water in een emmer en ging terug naar de prins. De prins was erg verbaasd, en vooral toen ze hem vertelde dat er nog meer van het gouden voedsel was. De prins was zo onder de indruk en was het meisje zo dankbaar dat hij wel met haar wilde trouwen. Een jaar later kreeg het meisje dat nu een prinses was geworden haar eerste kindje. Ze was haar belofte aan het mannetje allang vergeten, maar op een dag kwam hij aan het paleis. 'Tja,' zei de prins, 'als je het aan het mannetje beloofd hebt, dan moet je het ook doen.' Maar het meisje begon heel hard te huilen, zo hard dat het mannetje medelijden met haar kreeg. 'Okay,' zei het mannetje, 'je hoeft je kindje niet aan mij te verliezen, maar vanaf nu zal alles wat je eet vies en slierterig zijn.' Toen vertrok het mannetje boos.

Sindsdien was er in het hele paleis alleen maar vies voedsel te vinden, zo vies dat niemand er meer wilde werken. Het meisje moest zelf weer gaan koken, en huilde iedere dag als ze weer naar de keuken ging. Het eten was zo vies dat op een dag de prins, de prinses en hun kleine prinsje uit het paleis vertrokken en toen zijn ze voor altijd bij het mannetje in de grot gaan wonen.

Het Gelaarsde Meisje

1. Er was eens een indiaans meisje dat opgesloten zat op een heel klein eilandje in een vuurzee. Hoewel het vuur erg laag stond kon ze onmogelijk ontsnappen. Op een dag kwam er een oude vrouw vanuit de hemel neerdalen die haar hele lange laarzen gaf die tegen het vuur bestand zouden zijn. Het waren prachtige bruine kaplaarzen. Het was een hele lange wandeltocht door de vuurzee, maar uiteindelijk bereikte ze toch de overkant waar een prachtig bruin paard stond met lange manen. 'Het paard is voor jou,' zei de oude vrouw, maar je kunt hem alleen berijden als je je kaplaarzen aanhebt.' Het meisje was de oude vrouw erg dankbaar. Toen vertrok de oude vrouw, en het meisje reed op het paard door velden en wegen. Na een tijdje kwam ze aan bij een huisje. Het was een soort hotel of herberg, en de eigenaar had een hele grote witte baard. Er zaten wat rovers aan een tafeltje. Het meisje vroeg om een kamer, maar liet haar laarzen voor de deur staan. De volgende dag waren haar laarzen weg en ook het paard. Het meisje vroeg aan de eigenaar of hij wist waar haar laarzen waren en haar paard. Maar de eigenaar wist het niet. Het meisje begon hard te huilen, want die laarzen hadden haar leven gered. 'Ach,' zei de eigenaar van het hotel, 'ik heb nog wel een paar laarzen voor je en die bezitten zoveel toverkracht dat je er de gevaarlijkste rovers mee aankan.' De eigenaar gaf ze als een geschenk omdat hij zoveel medelijden met het meisje had. De dag daarop vertrok het meisje met de laarzen. Ze voelde zich nu zo sterk als een leeuw. Na een tijdje kwamen er wat roversmannen die haar wilden beroven, maar ze deelde een paar goede trappen uit, en al gauw renden ze gillend weg. Maar na een tijdje viel ze bij een boom in slaap, en toen ze wakker werd waren haar laarzen weer gestolen. Huilend stond ze op, niet wetende wat ze nu moest doen. Ze leunde tegen de boom aan omdat ze al haar kracht was verloren. 'Ach meisje,' zei de boom, 'huil maar niet, want als je een vrucht van me neemt, dan ben je al je zorgen kwijt. Geen vuur zal je meer kunnen raken, en je zal iedereen de baas blijven. Bovendien zal wijsheid je leiden de rest van je leven.' Voorzichtig nam het meisje een vrucht en nam een hapje. Direkt viel ze in een diepe slaap, en toen ze later opstond was ze niet meer dezelfde. Op blote voeten ging ze het pad weer op, en kwam even later bij een huisje aan waar ze haar beide paar laarzen zag staan, en haar paard. Het was een rovershuisje. Het meisje ging er naar binnen en zei : 'Ach, die laarzen en dat paard hebben jullie niet meer nodig. Ik weet een boom wiens vruchten jullie alles kan geven wat jullie nodig hebben.' Hebberig liepen de rovers naar buiten en volgden haar naar de boom. Direkt begonnen ze gulzig van de boom te eten. Maar de boom sprak hen toe en zei : 'Omdat jullie van iemand die niets had ook het laatste hebben afgenomen zal alles wat jullie aan je voeten dragen jullie als een vuur branden, en alles wat jullie zullen berijden zal jullie de verkeerde kant opleiden.' Sindsdien bleven de rovers van andermans laarzen en paarden af.

Het Versteende Volkje

1. Eens had een boze heks een sprookjesvolkje versteend. Alleen als de zon volop straalde, als het regende, en bij volle maan konden de stenen sprookjeswezens bewegen. Dan renden ze altijd naar het bos waar een vrouw woonde die straalde als de zon. Langs haar huisje stroomde een gouden rivier, en als de wezens die rivier zouden bereiken om zich daarin te wassen en daarvan te drinken, dan zouden ze nooit meer van steen zijn. Maar altijd als ze die rivier bijna hadden bereikt, dan kwamen de honden van de heks hen achterna, om hen terug te slepen uit het bos. De honden van de heks konden zelf wel van de rivier drinken, en veranderden dan altijd in leeuwen en arenden. Op een dag had de heks er genoeg van en liet grote hekken met een gouden gesloten poort rondom het volkje bouwen, zodat ze niet meer naar het bos konden. De vrouw die straalde als de zon had erg veel medelijden met het volkje. Ze hoopte altijd dat ze eens de rivier zouden bereiken. Op een dag besloot ze naar de tovenaars te gaan, maar dan moest ze eerst door de velden van toverbloemen heen. Dat zou een hele lange tijd gaan duren, want daar viel ze telkens in slaap. Na vele jaren kwam ze eindelijk bij de tovenaars aan die achter de velden van toverbloemen woonde. Toen hij het verhaal hoorde vertelde hij dat ze op zoek moest gaan naar het veld van de gouden sleutels. Dan moest ze eerst weer door een veld van toverbloemen heen. Maar de toverbloemen zouden haar er alleen maar doorlaten als ze bij elke stap een toverbloem zou plukken. Bij elke geplukte toverbloem zou ze tien jaar slapen. Ze moest er alleen voor zorgen dat ze niet de toverbloem van de dood zou plukken, want dan zou ze sterven. Gelukkig waren er miljoenen toverbloemen op het veld, waarvan er maar één de toverbloem van de dood was. De vrouw die straalde als de zon werkte zich er gelukkig goed doorheen, maar toen aan de andere kant van het veld kwam waren er al vele en vele jaren voorbij gegaan. Nu stond ze voor het veld van de gouden sleutels. Ineens verscheen de koningin van het veld van de gouden sleutels voor haar. Die vertelde haar dat van de miljoenen gouden sleutels die hier groeiden er maar één de toversleutel was. De vrouw mocht maar één gouden sleutel kiezen, maar toen het geen toversleutel bleek te zijn die ze had gekozen kreeg de koningin medelijden met haar. 'Ik zie dat je niet voor jezelf bent gekomen,' zei de koningin, 'maar voor anderen. Kies daarom nog een keer.' Maar de vrouw durfde niet nog eens te kiezen, omdat ze bang was weer de verkeerde te kiezen. Hoe kon ze nu de juiste sleutel kiezen uit miljoenen sleutels? En zo wachtte de vrouw de hele nacht, terwijl de koningin weer was vertrokken. Ineens zag ze een lichtje komen van bovenaf die op het veld daalde. Het was een klein elfje dat de juiste sleutel aanwees. De vrouw liep op de sleutel af en plukte het. En ja hoor, het was de toversleutel. Maar nu moest ze nog helemaal terug. Weer was ze erg bang om de toverbloem van de dood te plukken, vooral omdat ze nu de toversleutel had. Maar het elfje wees de toverbloem van de dood aan, en daar moest ze gewoon ver van uit de buurt blijven. 'Zeg,' zei het elfje. 'Ik weet ook welke toverbloemen je moet plukken om wakker te blijven.' En zo volgde de vrouw die straalde als de zon gewoon het elfje door het toverbloemenveld. Toen ze bij de gouden poort van het sprookjesvolk aankwam had ze die door de toversleutel snel open. Het was gelukkig volle maan, en de vrouw straalde zelf nu ook volop. Snel volgden de wezens de vrouw naar de rivier, terwijl het elfje de honden van de heks tegenhield. Snel gingen de wezens de rivier in, terwijl het gesteente begon weg te smelten. Sindsdien zijn ze allemaal achter de gouden rivier gaan wonen.

1. En Chawila verzamelde alle woorden die Christus tot haar had gesproken, en zij tekende ze op en bracht ze tot een open plek in een rots. En zij noemde de rots haar steen. En zij herinnerde Christus als de gekruisigde en de opgestane, als degene die zij had bekleed met haar sieraden en edelstenen en met dat wat onder de aarde leefde. En haar steen was als zuiver chrysopraas bekleed met goud, en de tegels van haar stad waren als het goud, en hierin bewaarde zij de goede dromen. En Chawila kocht een ezel waarmee zij tot de zilveren zee kwam, en een kameel om zo tot de gouden zee te komen. En paarden kwamen tot haar vanuit de hemelen met strijdkrachten, en zij streden voor haar. En Chawila verzamelde moed om weer voor Christus te verschijnen, en zij was Hem dierbaar. En Hij nam haar tot Zich en kwam tot haar als tot een vrouw. Zo is dan Chawila het zuivere en het goede van het paradijs, dragende de woorden van Christus in haar binnenste als het zoet des honings. En ook Christus draagt haar eeuwige woorden binnenin Zich, als het teken van de gekomen melk en de zaligheid der hemelen. Aldus was dan de steen van de Bruid van Christus, en haar ogen waren als de ogen der reeen. En zij opende boeken schoner dan het hooglied, en schoner dan melk, zoeter dan honing, en zij was als de Heerlijkheid van Christus in Zijn binnenste.

Het Meisje dat in een Paard Veranderde

1. Er was een meisje dat in de nacht altijd in een paard veranderde. Dan ging ze altijd naar de velden en de bossen maar dan moest ze wel altijd op tijd terug zijn, voordat de zon opkwam. Want altijd als de ochtend viel dan was ze weer een meisje. Op een nacht nam een heks haar gawe van haar af. In ruil daarvoor kreeg het meisje een paar laarzen, die zo prachtig waren dat ze er prinses mee kon betoveren. Al gauw wist iedereen van het meisje met de betoverde laarzen, en wilden vele prinses met haar trouwen. Sindsdien wilde het meisje alleen nog maar met koeien werken. Ze werd een herdersmeisje, zodat haar laarzen zo vies zouden worden dat de prinses haar zouden vergeten. Ook zocht ze vaak de paarden op, en ging diep in het bos wonen. Maar nog steeds zochten prinses haar op, en lieten haar niet met rust. Het meisje smeekte de heks haar laarzen weer van haar weg te nemen. Op een dag kreeg de heks medelijden met haar, en zei : ‘Als je je laarzen opgeeft dan zul je nooit meer terug kunnen naar het bos en de velden. Je zal dan onder de aarde moeten wonen, bang voor het zonlicht.’

2. ‘Zo zij het,’ zei het meisje.

3. Toen nam de heks de laarzen van het meisje weg, en het meisje moest vanaf toen diep onder de aarde leven, in de modder en in angst voor het zonlicht. Hier konden de prinses haar niet vinden. Onder de grond leefden de wilde paarden, en het meisje voelde zich alsof ze thuisgekomen was. Ze miste de wereld boven de grond niet eens. Maar één van de prinses vond op een dag in het bos een gat die diep onder de aarde leidde. Toen hij er doorging vond hij daar het meisje. Maar hij herkende

haar niet, omdat ze haar laarzen niet meer had, en ze was helemaal verwilderd. ‘Meisje,’ zei hij. ‘Heb je het hier niet koud. Je hebt vast honger. Zal ik je meenemen naar mijn paleis?’

4. ‘Nee,’ zei het meisje. ‘Ik kan niet tegen het zonlicht.’

5. ‘Oh, maar het is heel donker in mijn paleis hoor. En ik heb een kamer voor je zonder ramen, heel diep in het paleis,’ zei de prins.

6. Toen stemde het meisje in, en de prins bracht haar naar haar nieuwe kamer. Elke dag kwam hij even kijken. Al snel was het meisje op temperatuur en bijgevoed, maar ze kon nog steeds niet tegen zonlicht. ‘Je doet me aan iemand denken,’ zei de prins. ‘Aan een meisje met betoverde laarzen. Sinds ik haar niet meer kon zien heb ik die laarzen laten namaken. Zou jij die willen hebben?’

7. Het meisje knikte, en kreeg twee prachtige laarzen van de prins. Het meisje ging sindsdien vaak paardrijden met de prins, en kon steeds beter het zonlicht weer verdragen. Maar op een nacht begon het meisje weer in een paard te veranderen. Snel ging ze het paleis uit en zocht de velden en bossen op. Maar ditmaal bleef ze een paard. Slenterend ging ze terug naar het paleis, en toen de prins haar vond vond hij het het prachtigste paard dat hij ooit had gezien. De prins hield direkt van het paard als geen ander, maar voor hem bleef het gewoon een paard. De prins wist niet dat het paard eigenlijk het meisje was waarvan hij hield. Hij reed sindsdien meer op dit paard dan op enig ander paard, en zorgde goed voor het paard als voor geen ander paard, maar het paard mocht niet in zijn paleis komen. Elke keer na de rit moest het paard weer terug naar de stal. Het meisje was daar erg droevig over, want ze probeerde de prins telkens weer duidelijk te maken dat zij het meisje was waarvan hij hield. Maar de prins begreep het niet. Een paard kon nu eenmaal niet praten. Het meisje had een goed leven gehad, en vooral nu ze bij zo’n lieve en zorgzame prins was, maar daar zou het bij blijven. Al haar verdere dromen moest ze opgeven.

15.

De Boze Zon

1. De zon van het boze toverrijk zond zijn vlammetjes elke dag naar het volkje, zodat de wezens van het volkje elke dag zouden dansen. Dansen moesten ze, voor een boze heks. Er was een indiaans meisje die daarom nooit uit haar grot durfde te komen. Ze was bang voor de boze zon. Op een dag stond er een degen gestoken in het zand van haar grot, dichtbij de opening. Maar omdat het dicht bij de opening was durfde ze de degen niet te grijpen. Ze moest wachten tot het nacht was. In de nacht ging ze met de degen naar buiten. ‘Ach maan,’ sprak ze. ‘Kun jij er niet voor zorgen dat morgen gewoon de zon niet meer opkomt?’

2. ‘Als je mij je degen geeft, dan zal ik een gevecht met de boze zon aangaan,’ zei de maan. De volgende dag kwam de zon niet op, maar de maan. Het meisje was erg blij en kwam naar buiten. Er waren die dag geen dansers buiten, en het meisje was voor het eerst gelukkig. Maar na de nacht erna kwam de zon weer gewoon op, en bleef het meisje in haar grot. Maar de dag dat de zon niet opkwam is altijd in haar herinnering gebleven.

*Het Land van de Sprookjesprinsen
en Sprookjesprinsessen*

1. Er was eens een heks die heel jaloers was op prinsen en prinsessen. De heks was zo jaloers dat ze op een kwade dag boze geesten zond naar alle getrouwde prinsen en prinsessen van de sprookjesrijken. Die boze geesten zouden hen zoveel nare dingen over elkaar influisteren dat ze ruzie zouden krijgen en elkaar niet meer wilden zien. En zo gingen vele sprookjesrijken ten onder, totdat een sprookjesprins in de gaten kreeg wat er aan de hand was. Met zijn sprookjesprinses vertrok hij uit het kasteel, en ze deden hele arme, oude en versleten klederen aan om zo onder de mensen van het sprookjesrijk te wonen. De sprookjesprins ging aan de ene kant van het rijk wonen in een heel arm en oud huisje, en de sprookjesprinses ging aan de andere kant van het rijk wonen, ook in een heel arm en oud huisje. Ze spraken af dat ze elkaar elke nacht bij het maanlicht even zouden ontmoeten in het bos. Dan trokken ze weer even hun prinselijke klederen aan, en kwamen op hun vorstelijke paarden.

2. ‘Oh, prins, wat ben je toch mooi en lief,’ zei de prinses toen ze elkaar voor het eerst daar in het bos tegenkwamen. ‘En jij bent nog mooier en liever geworden dan je al was, prinses,’ zei de prins tegen zijn prinses. Maar toen moesten ze weer gaan, want ze waren natuurlijk bang dat de boze geesten van de heks hen hier zouden vinden. En zo ging dat iedere nacht, totdat de heks in de gaten kreeg wat er aan de hand was. Ze zond haar boze geesten naar de plek, en ook wat van haar wachters. Ze was inmiddels in het kasteel gaan wonen omdat het toch leeg stond, en liet de prins en de prinses in een diepe kerker opsluiten. Omdat ze in dezelfde kerker waren vastgeketend en de boze geesten hen nare dingen over elkaar influisterden maakten ze al snel ruzie. En die ruzie liep zo hoog op dat de mensen het buiten konden horen. ‘Hey, heks,’ riep iemand. ‘Dat zijn de stemmen van de prins en de prinses.’ En al snel kwam het sprookjesvolk erachter dat hun sprookjesprins en sprookjesprinses in een kerker waren opgesloten. Al gauw hadden de mensen van het sprookjesrijk de heks uit het kasteel verdreven, en maakten de prins en de prinses vrij. De heks werd het land uitgezet en de prins liet hoge en zwaar bewaakte muren om het land heenbouwen. Binnen de kortste keren hoorden alle omliggende sprookjesrijken van het verhaal, en de prins nodigde alle sprookjesprinsen en sprookjesprinsessen die niet meer bij elkaar woonden uit om in zijn land te komen wonen. Al gauw werd het het land van de sprookjesprinsen en sprookjesprinsessen, en de heks, haar wachters en haar boze geesten werden nooit meer teruggezien.

Het Goudspinstertje

1. Er was eens een meisje dat op de grote zolder van het paleis van gestolen klederen goud moest spinnen. De koning had daarvoor allerlei dieven die 's nachts die klederen stalen. Het meisje had voor het goudspinnen een verfje dat uit haar handjes scheen te komen. De koning had een heleboel prinsjes en die moesten altijd goed gekleed te zijn. Toen de prinsen ouder waren gingen ze zelf ook op dievenpad. Uit de voetjes van Goudspinstertje kwam altijd een poedertje waardoor iedereen in slaap viel. De prinsen moesten daarom altijd dat poeder meenemen als ze op dievenpad gingen. Maar op een dag werd Goudspinstertje ernstig ziek, en er kwam geen verfje meer uit haar handjes en geen poedertje meer uit haar voetjes. En daarom zond de koning zijn prinsen naar de heks in het woud. De heks had tonnen vol van die verf en dat poeder en het was nog wel veel krachtiger als dat van Goudspinstertje. Maar ze mochten die tonnen alleen meenemen in ruil voor Goudspinstertje. Goudspinstertje moest vanaf toen bij de heks in het woud wonen. De heks had haar door allerlei zalfjes en poedertjes snel genezen, en al snel bracht Goudspinstertje een betere verf en poeder voort dan ooit te voren en ook veel meer. De heks gaf al snel nieuwe klederen aan voor Goudspinstertje en zond haar terug naar de koning. De koning herkende Goudspinstertje niet meer, omdat ze zo gegroeid was en zo veranderd. 'Koning, ik ben het, Goudspinstertje,' zei ze. Uiteindelijk herkende de koning haar weer, vanwege haar lieve stem, en Goudspinstertje mocht weer bij de koning werken. Maar omdat ze nu wat ouder was geworden mocht ze nu ook weleens mee op dievenpad. Maar na een tijdje werd Goudspinstertje weer ernstig ziek, en weer moest ze naar de heks in het woud. Dit keer kon geen zalfje of poedertje van de heks haar genezen. 'Goudspinstertje,' zei de heks. 'Dit keer zul je naar de goudbronnen in de aarde moeten gaan. Als je in die bronnen baadt, dan zul je nooit meer ziek worden.' En zo begon Goudspinstertje aan haar lange reis naar het binnenste van de aarde waar de goudbronnen waren. De heks had haar de weg gewezen, dus na niet al te lange tijd kwam ze daar. Nadat ze daar gebed had en gedanst ging ze terug naar de koning. De koning was zo van haar onder de indruk dat hij geen koning meer wilde zijn, maar haar koningin liet zijn. En zo werd Goudspinstertje de koningin. En de koning en de prinsen ? Die zijn vanaf toen naar de goudbronnen in de aarde gegaan, en zijn daar altijd gebleven.

Het Apenpaleis

1. Er was eens een koopman die aan de deuren vleugels verkocht. Er waren nogal wat mensen die wilden vliegen, maar er bleek ook heel wat aan de vleugels te mankeren, zodat velen na een geweldige tochtje naar beneden stortten. De mensen waren al snel woedend op de koopman, en de koopman moest diep in het bos vluchten om aan de woedende massa te ontkomen. Ze hadden speren meegenomen, zwaarden, messen en bogen om de koopman eens goed mores te leren. Na een lange vluchttocht kwam hij aan bij een huisje waar een levensgrote aap woonde. De aap nam hem direkt onder zijn hoede en ging op het balkon staan om de koopman te verdedigen. Maar na een tijdje werd de aap er erg moe van en hij bloedde vanwege de vele pijlen. Hij ging naar binnen en zei

tegen de koopman : ‘Je moet naar de fee gaan, want ik kan je niet meer goed verdedigen.’ En zo ging de koopman door een achterdeurtje en rende hard naar het huisje van de fee verder in het bos. De fee was direkt erg vriendelijk naar de man en gaf hem direkt een heleboel vleugeltjes die nooit zouden neerstorten. Die zou hij dan kunnen verkopen aan de mensen in het vervolg. De vleugeltjes leken vol van vuurvlammetjes en toen de koopman daar even later bij de mensen mee aankwam werden ze direkt stil. Nog steeds wilden ze heel graag vliegen, en ze besloten de koopman een nieuwe kans te geven. En ja hoor, het werkte. De vleugels deden het goed, en de mensen waren zo blij en dankbaar dat ze de koopman koning maakten van hun volk. De koopman kreeg daarvoor een prachtig paleis. Maar omdat de fee de koopman zo goed had geholpen werd zij de koningin, en de aap werd de wachter van het paleis. Maar omdat het voor de aap wel moeilijk was om zo’n groot paleis in zijn eentje te bewaken toverde de fee er op een dag een heleboel apen bij.

Het Varkenshoedstertje

1. Er was eens een varkenshoedstertje die buiten de stad woonde om voor de varkens te zorgen. Ze gaf niet om de rijkdom van de stad, het rijke leven. Ze sliep altijd tussen de varkens, en at hetzelfde voedsel als zij aten. Verder zag er niemand naar haar om, en was ze niet welkom. Op een dag was ze uitgenodigd om op het paleis van de prins te komen. Dat vond ze wel wat vreemd, maar ze ging toch. Toen ze bij de prins aankwam vertelde de prins over het feest dat zou komen. De prins had alleen niet genoeg varkens, en vroeg daarom de varkens van het varkenshoedstertje. ‘Sinds wanneer ben ik en mijn varkens uitgenodigd op het feest ?’ vroeg het varkenshoedstertje.

2. ‘Nee, je begrijpt het verkeerd,’ zei de prins. ‘Jullie zijn niet uitgenodigd. Het is voor het feestmaal.’

3. ‘Mijn varkens hebben genoeg te eten bij mij,’ zei het varkenshoedstertje. ‘Daar hebben ze uw feestmaal niet bij nodig.’

4. ‘Nee, dat bedoel ik niet,’ zei de prins. ‘We krijgen hoge gasten, en dan moet er genoeg varkensvlees aanwezig zijn.’

5. Toen boog het varkenshoedstertje haar hoofd en sprak : ‘U gaat mij toch niet het laatste wat ik heb afnemen ?’

6. ‘Morgen zal ik komen,’ zei de prins. ‘En dan neem ik je varkens mee.’

7. Verdrietig ging het varkenshoedstertje het paleis weer uit. Ze zou vluchten met haar varkens, maar waar moest ze naartoe ? Diep in de nacht dwaalde ze door het bos. Na lang lopen kwam ze bij een huisje aan waar een oud vrouwtje woonde. Huilend vertelde ze het verhaal. ‘Je hebt een goed hart,’ zei het vrouwtje, ‘en ik zal je ervoor belonen. Boven liggen prinsessenklederen. Die kun je aandoen om naar het komende feest te kunnen. Ik zal hier op de varkens passen.’

8. ‘Maar ik wil helemaal niet naar dat feest. Ik wil bij mijn varkens blijven,’ zei het meisje.

9. ‘Ga nu maar,’ zei het vrouwtje, ‘je zult er geen spijt van krijgen.’

10. Toen het meisje even later in de prinsessenklederen aanhad streek het oude vrouwtje even met een toverstafje over haar heen, zodat ze als een echte prinses was. De volgende avond ging ze naar het feest, terwijl het oude vrouwtje op haar varkens paste. De prins was erg vrolijk, terwijl hij de varkens niet had kunnen vinden. Het meisje paste zich goed aan, en danste die avond de sterren van de hemel. Na een tijdje begon het oog van de prins op haar te vallen. ‘Wie is dat mooie, lievelijke meisje ?’ vroeg de prins aan zijn bedienden. ‘Ze lijkt me uit een ver land te komen, en ze is een echte prinses.’ Het meisje had een geweldige avond, en aan het einde van de avond kwam de prins naar haar toe om haar te vragen met hem te dansen. Het meisje stemde toe, en danste als een echte koningin. ‘Wie bent u eigenlijk als ik vragen mag ?’ fluisterde de prins naar haar tijdens het dansen. Maar het meisje glimlachte alleen maar. Iedereen keek vol verwondering naar de dansende prins en het meisje. ‘Je doet me aan iemand denken,’ fluisterde de prins, ‘maar ik weet niet wie. Iedereen zou wel met je willen dansen. Kijk ze eens kijken.’ Het meisje glimlachte. Ze had de avond van haar leven. ‘Zie ik je volgend jaar weer ?’ vroeg de prins. Het meisje knikte, en liep toen van het feest weg. Midden in de nacht kwam ze bij het oude vrouwtje. ‘En hoe was het ?’ vroeg het oude vrouwtje.

11. ‘Oh, het was geweldig,’ zei het meisje. ‘Vooral omdat ik wist dat mijn varkens veilig waren bij u.’

12. Het jaar daarop ging ze weer naar het feest en was dit keer mooier dan ooit. De prins had er pijn van in zijn hart, zo mooi was ze. En weer moest hij haar aan het einde van de avond laten gaan. Het jaar daarop greep de prins zijn kans en vroeg haar met hem te trouwen. Het meisje schrok, en rende weg. Toen ze het later het oude vrouwtje vertelde zei deze : ‘Ga terug, en zeg dat je dat wel wil.’

13. ‘Ja, maar dat wil ik helemaal niet,’ zei het meisje.

14. ‘Je zult er geen spijt van hebben,’ zei het vrouwtje. ‘Ik pas wel op de varkens.’

15. ‘Ja, maar dan moet ik op het paleis wonen,’ zei het meisje, ‘en dan zie ik u nooit meer.’

16. ‘Ga nu maar,’ zei het oude vrouwtje. ‘Alles zal goedkomen.’

17. Snel ging het meisje weer terug. ‘Waar was je gebleven?’ vroeg de prins met pijn in zijn hart. ‘Trouw met me.’

18. ‘Natuurlijk lieveling,’ zei het meisje, en kustte hem.

19. De dag erna was er bruiloft. Het meisje woonde sindsdien met haar prins op het paleis. ‘Nu je mijn vrouw bent mag je je wensen doen,’ zei de prins.

20. ‘Er woont een oud vrouwtje in het bos met varkens,’ zei het meisje. ‘Ik wil dat ze hier op het paleis komt wonen, en dat haar varkens prinselijk behandeld worden.’

21. De prins vond dat wel een beetje een vreemde wens, maar liet haar wens toch uitkomen.

20.

Jezus en de Draak

1. En Christus kwam tot de draak zeggende : ‘Kalum Hartiti’, hetgeen in hemelse taal betekent : ‘Zwijg, gij verachtelijke.’ En de draak dan bewaakte drie putten, en deze waren de putten van geluid, van visioen en van reuk. En Christus had een lange worsteling met de draak van drie dagen waarin Hij niet sliep. En velen waren geworpen in de put van visioen en zij droegen ondragelijke lasten, en werden door de draak bewaakt. En zij werden door hem opgeroepen tot slavernij en tot strijd tegen Christus. En ik zag een licht komen uit de put van reuk, en ik zag vele martelaren. En zij hingen in de put van reuk, maar het was alsof een wind van onderen en een druk hen tegenhield dieper in de put te dalen. En zij zweefden boven een leegte die krioelde van leeuwen en slangen. En ik zag wormen komen vanuit de diepten van de put van reuk, en rook kwam met hen mee. En zij begonnen de martelaren aan te vreten. En de martelaren weenden tot Christus, en zij riepen tot Hem, maar toen kwam er een grote stilte. En ik zag hoe Christus het hart van de draak greep en in de put van reuk afdaalde. En Christus deelde uit van het hart, en gaf de heiligen rode gewaden. En de heiligen moesten nog enige tijd rusten. Nu dan had de draak een tweede hart, een zwart hart die was als zijn lever, en ook had hij een derde hart, een zwart hart die was als zijn maag. En Christus nam die twee harten en wierp ze in de put van geluid en van visioen. En een luid gekrijs steeg op van de put, en de draak begon in een varken te veranderen. En zo streed Christus zes dagen met het varken dat als een roofvarken was, en Hij sliep in die dagen niet. En het varken begon een rood hart voort te brengen, als het hart der nieren, en dit hart streed tegen de heiligen. En weer sprak Christus : ‘Kalum Hartiti,’ hetgeen betekent : ‘Zwijg, gij verachtelijke.’ En het varken begon een wezen voort te brengen als een rood beest, en na een lange worsteling met het rode beest bereed Christus het dier en gaf het aan de heiligen. En uit de mond van Christus kwam een speer, een rode,

om het varken te doorsteken, en Christus wierp het varken in de put van reuk. En vele stemmen begonnen van de put voort te komen, en bliksem met veel rook. En een gelach steeg van de put op, en ging uit om de heiligen aan te klagen. En er was niemand die de geest van het varken kon vernietigen, want de geest was als een lam en een draak. Weent dan gij aarde, want de roofterlammen zijn tot u gekomen, en zij zullen velen misleiden. En het roofterlam kwam tot Christus, zij en haar legermachten, en zij voerde een strijd van zeventig dagen met Christus. En zou zij de macht hebben dan zou zij Christus verslinden en verleiden, maar aan het einde van die zeventig dagen voerde Christus haar met een zwart zaad, want het lam was erg hongerig geworden en niets kon haar honger stillen. En zij bewaakte een put van geluid, en een luid gekrijs was in die put. En zie, ik zag vele slaven in die put, en zij stierven aan brandende kruizen. En zie ik zag een bok komen met een hele lange hoorn, en doorstak het lam, terwijl de aarde in verbazing de bok achterna ging. En zij allen zeiden : ‘Wie is aan de bok gelijk, hij die het roofterlam heeft doorstoken. Want zij heeft ons gekweld, en zij heeft ons geknecht gehouden in lange dagen.’ En ik zag een groot oordeel komen over het roofterlam, en haar harten werden verslonden. En zie, deze harten waren zwart. En het roofterlam bracht een hart voort zoals er nog nooit een hart was voortgekomen, en het hart was blauw, en het begon woorden te spreken van grote godslasteringen tegen de allerhoogste. En het blauwe hart keerde zich tegen Christus, en Christus verslond het hart. En Christus greep het lam en wierp het in de put van geluid. En vele stemmen begonnen voort te komen en klanken, ja, schone klanken. En zo was dan het oordeel over de beesten. En Christus greep de bok die groot was geworden tot aan het zuiden der aarde, en Christus verscheurde de bok als een kleed. Zij komen dan allen voort uit de draak, en varen ten verderve. En allen die op de aarde waren zeiden : Ja, God is groot en machtig, Hij die deze dingen heeft laten geschieden. En ik zag een harig beest voortkomen met ijzeren klauwen, en hij richtte zich op tegen Christus, en zie, het beest werd als een rund gelijk. En Christus wierp het rund in de put der visioenen, en een lieflijke geur begon zich te verspreiden. Ja, het zoet der aarde begon voort te komen als een harem van Christus zingende : Christus heeft de draak verslagen. En de vrouwen droegen schalen. Aldus was de Bruid van Christus. En de vrouwen kwamen tot de aarde vanuit een diepe put, en zij dienden Christus. Na deze dingen die ik zag begon een zwarte wolk de aarde te bedekken. En de vrouwen begonnen hun schalen uit te gieten in de rivieren en de waterbronnen, en dezen werden als bloed. Aldus waren de vrouwen van het verbond. En zo versloeg Christus de draak om de harten van velen te verzachten. En ik zag een verzachting over de aarde komen zoals er nog nooit was geweest. En de voeten van Christus stonden op de berg der heerlijkheid. En nieuwe rivieren begonnen te stromen, als de rivieren des hemels. Zo was dan het oordeel over de grote aarde, en zie, dit oordeel was goed.

21.

1. En één der discipelen vroeg aan Christus : Wie zijn dan de vader en moeder van de draak ? En Christus richtte Zich dan tot hem en zeide : Weet gij dat dan niet ? Is het niet de grote beer die de draak voort heeft gebracht, de beer voor wie geen hart veilig was ? En was deze beer niet samen met een panter ? Zo kon het niet anders dan dat hun vrucht een draak zou zijn. Hebt gij dan niet gehoord van de leeuw en het beest die op de loer stonden om zodra het kind was geboren de vrucht te verslinden ? Waar waart gij toen dit gebeurde, want het heeft het hart van God voorzeker verzegeld, zeventig maal zeventig maal, en gij hebt het niet geweten. En een andere discipel vroeg : Och Heere, hoe lang zal het nog duren voordat zij verslagen zijn, en wie kan hen verslaan ? En Christus dan zeide : Kijk naar de zon, de maan en hun sterren. Voeden zij niet al deze geslachten.

Ziet dan, wanneer zij neer zullen vallen, dan is het einde daar. En Christus richtte zich tot de zon en zei : Kaditam Asbalit, hetgeen betekent : weest gesloten. En vanaf die dag gaf de zon geen licht meer, maar een zwart vuur. En de zon kwam tot Christus als gebrul en als het gelach van de draak, en Christus deed haar manschappen neer vallen. En Christus richtte zich tot de beer en sprak : veel vlees hebt gij gegeten, en veel bloed gedronken. Gij hebt grote woorden gesproken tot de allerhoogste, en uw zwaard tot het laatste toe bewaard. Toch bent gij gevallen, en velen hebben het gezien. Mogen uw woorden u dan meenemen tot het vuur der eeuwigheden, en moge uw hart in duizend delen uiteen vallen. En de discipelen waren verschrikt toen zij de grote beer zagen vallen, en een grote kou viel op hen. Christus nu nam van de huid van de beer en maakte vellen voor zijn discipelen om hen te warmen. Ook bond hij huiden aaneen voor laarzen. En de grote leeuw van het oude Babylon kwam tot Christus, en Christus sprak : ‘Eet dan niet van het berenvlees, opdat het u niet zal vergiftigen. Maar zijn huid zal u warmen tot in alle eeuwigheden. Omdat velen van het berenvlees hebben gegeten heeft hun geloof schipbreuk geleden, en zijn velen van mij weggeleden. Hun glans zal vergaan wanneer de engelen der voortijden zullen opstaan.’ En ik zag de maan haar glans verliezen, en grote sterren vielen neer, en de leeuw stond zeventig dagen en nachten voor het aangezicht des Heeren, en een grote schrik was op de discipelen. En de leeuw at van het berenvlees nu zijn wond was genezen, en de leeuw werd tot een rund. En een ijzeren beest bekleed met koper en goud streed met de rund om het vlees van de beer, en de discipelen maakten holen in de aarde waarin zij verscholen. En ik zag de grote zon op de aardbodem vallen om haar te verslinden, en het rund was als een dronken leeuw. En Christus voerde het ijzeren beest dat bekleed was met koper en goud dronken, en bracht het in een diepe slaap. En Hij leidde het ijzeren beest tot een diepe zee, en liet het daarin wegzinken. En Christus was bekleed met de donder en met bliksemstralen, en hij was als de rode speer. En ik zag de maan vallen in de zee, en zij bracht grote golven voort en het zilver. En Christus ging tot de grot waar de oude panter woonde. En de panter sprong voort uit de grot, en maakte jacht op het dronken rund en verslond het. Toen sloop de panter langzaam terug tot Christus, en Christus voerde de panter tot dronkenschap. Ook de panter leidde hij tot de zee, en liet haar in slaap daarin wegzinken. En het goud kwam over Christus, en de zee werd als goud. Nu waren daar sterren aan de hemel die de sterren der Filistijnen werden genoemd, en zij pronkten. En zij waren als roofvarkens en joegen op de heiligen. En Christus richtte Zich tot de sterren en liet ze door een boog één voor één uit de hemelen vallen. En zij hadden een beeld gemaakt voor Dagon, hun god, en zij zwoeren dat ze de heiligen te gronde zouden richten. Ook maakten zij een beeld van de oude draak, een beeld van het oude Babylon en van het oude rooflam, en zij pleegden afgoderij met deze beelden en zelfs hoererij. En zij zeiden : Laat ons een beeld maken van de oude panter en het oude ijzeren beest, want waren zij niet de ouders van de draak ? En laat ons beelden maken van de zon, de maan en de sterren, want waren zij niet de nakomelingen van de draak ? En zo trachtten ze een wond van de draak te genezen, en de gehele aarde ging het beeld van de draak achterna, en zijn genezen wond. In verbazing aanbaden zij hem. En in die dagen werd het beeld van de draak groot en het beeld werd een stem gegeven. En zij noemden het beeld Moloch. En ook het beeld van het rooflam werd groter, omdat het beeld als de profetes van de draak was. En het beeld was gegeven grote wonderen en tekenen te doen om zo velen te verleiden. En zij maakte dat hun armen en nekken verzegeld moesten worden, en dat er een zegel op hun voorhoofden zou rusten, en dat allen die dit zegel niet droegen niet konden spreken en eten. En in die dagen riepen de volgelingen van dit beeld : ‘Is er iemand groter dan het beeld van het rooflam ? Want zij heeft haar tienduizenden verslagen, ja honderdduizend maal.’ En ik zag het beeld vol van het bloed van de profeten en de apostelen, maar zij kwijlde en werd geleid tot een gat in de aarde. En het beeld van de oude panter en het beeld van het ijzeren beest werden groot en vervulden de

aarde, en deze beelden werden dronken van het bloed der heiligen. Maar zij voeren naar de afgronden der zee. En het lijk van de oude slang was er om de zeebodem te voeden. En na deze dingen zag ik heiligen bekleed met slangenhuiden, en zij waren de overwinnaars der beelden. En ik zag hen rijden op sierlijke paarden, die woest waren, omdat zij wonden hadden. En zij moesten bereiden worden en genezen worden tot aan de eeuwige slaap. En zo zag ik de Heere zitten op een troon temidden van de koorden der sprookjes, en ik zag velen opkomen om tot de afgronden te varen, omdat zij het sprookje niet gewild hadden. Weest daarom sprookjesachtig, beminden, want als de Heere komt om te bazuinen tezamen met Zijn karsuiken, dan zullen de sprookjes de heiligen bezegelen, en zij die die zegels niet dragen zullen tot de eeuwige slaap geleid worden tot in alle eeuwigheden. Rusten zullen zij van hun werken, want dezen waren boos. Maar zij wiens werken sprookjesachtig waren zullen geen rust hebben, dag noch nacht, want zij zullen de Heere voor eeuwig dienen tot in alle eeuwigheden. Ja, de liefde zal hen wakker houden, en zij zullen nuchter zijn. Laat daarom uw harten niet door dronkenschap ten verderve geleid worden, want de Heere Heere haat hen die in brasserijen verkeren.

Afsluiting van de Canon

1. Dit dan zijn de woorden van de afsluiting van de canon. Deze woorden zijn getrouw en waarachtig. 2. Ziet, Hij die op het witte paard zit komt, om levenden en doden te oordelen, en ook de lijdenden. Ja, Hij wordt gevolgd door een duizendtal martelaren, zij die hem getrouw zijn gebleven tot het einde. Volgt dan ook Hem die op het rode paard zit. Amen. Metensia Eminijs, de getrouwe. Laat dan de zegen des Heeren met u zijn. Hij laat Zijn belofte niet verloren gaan. 3. Hij kome spoedig. Zie dan niet om, maar richt u voorwaarts, want Hij die aan de deur staat klopt. Doet dan open voor Hem opdat Hij maaltijd met u houde. Zo zijn dan deze woorden ter afsluiting van de canon. Ziet dan, deze is de zuivere canon, die u openstelt voor de heilige boeken des hemels. Laat dit dan u tot geheimenis wezen. Gij dan hebt gehoord van lieden die zeggen dat er geen canon is. 4. Gaat met zulke lieden niet om, want zij vrezen de Heere niet. Maar is de canon dan niet onzuiver ? De eerste canon was dat zeker, maar deze was gemaakt door mensenhanden die de Heere niet kenden. De tweede canon dan is zuiver, en ziet, deze is eeuwig en raadselachtig. Maar zegt de schrift dan niet dat er geen canon is ? 5. Welaan lieden, wanneer gij de schriften bestudeert zult gij zien dat er geen canon is naar het vlees, maar naar de Geest, welke is de Geest des Heeren. En zij is gegeven als een zuiver zwaard om uw harten te zuiveren.

6. Zo zijn dan deze woorden eeuwig en heilig. Laat dan niemand toevoegen aan het Woord des Heeren opdat de Heere u niet geve van Zijn plagen. Ziet dan, aan het einde der tijden zullen er vele

lieden opstaan die de schrift zullen verdraaien, en zij zullen u trachten te verleiden door holle klanken. Gaat met zulke lieden niet om. De Heere zal zwaar straffen hen die eigenmachtig de Schrift zal aanpassen. Neemt ook niet af van het Woord des Heeren, want de Heere zal uw deel afnemen van de boom des levens, de witte steen en het heilig paradijs. Zo zijn er dan vele boeken geschreven, maar niet allen zijn des Heeren. Weest daarom waakzaam opdat de satan uw deel niet zal ontnemen. 7. Velen hebben zich door vele boeken laten afleiden van de Waarheid. Weest daarom gewaarschuwd, kindekens. Wat dan, zullen wij niet meer lezen en niet de schriften onderzoeken? Wanneer gij door de Geest geleid wordt zal Hij u leiden door het Woord en ook door geschriften buiten het Woord, daar de Heere ook met een kromme staf recht slaat. Maar laat u niet misleiden door een veelheid van woorden. Zo was dan de eerste canon onzuiver, maar de nieuwe canon is zuiver, en zij is opgesteld tot het slaan der harten, door rechte en kromme staven. Zo zijn er dan ook apokriefe geschriften en bijgeschriften buiten de tweede canon, waardoor de Heere ook kan spreken. Laat u daarom tuchtigen, en onderzoekt de profetieën.

8. Zo zijn er dan ook vele hemelse boeken die tot het Eeuwig Evangelie behoren en waarin profeten blikken kunnen slaan, maar zij zijn geenszins van de tweede canon. Zij moeten beschouwd worden als apocrief en als bijgeschriften, en zij zijn voor de engelen als een leidraad. Ook grote profetieën zijn opgetekend zoals de Risgamen, de Lokogamen en de Takalan, en zij zijn door engelen opgetekend, maar zij behoren geenszins tot de tweede canon. Zij behoren tot het Eeuwig Evangelie en zijn als de boeken der hemelen, de apocriefen en de bijgeschriften die slechts de tweede canon ondersteunen. Maar de Heere heeft de deuterocanonieke boeken lief, en Hij heeft ze beloofd in Zijn Woord. Ja, zij zijn verborgen geschenken die Hij geeft aan Zijn kinderen. Daarom: Laat de kindekens tot mij komen en verhindert hen niet. Laat hen de verschillende geschriften bespreken, maar weet ook dat zij een valstrik zijn voor de dwazen.

9. Hoort dan deze woorden, en laat het zijn tot afsluiting van de canon. Ziet dan, de Heere is vlees geworden door de tweede canon, om zo de eerste canon ongeldig te verklaren en onwaardig. Ja, niet verre van verwijdering is het eerste. Laat daarom zuivere lieden het eerste zuiveren, opdat het de Heere waardig zal zijn. Zo beschouwt de Heere dan ook het eerste tot apokrief, en spreekt Hij erdoor als door verborgen talen. Hij die op het witte paard zit komt, en zal de valse canon straffen. Ja, ik zag de valse canon, de eerste, geworpen worden in een put van vuur, en hij krijste tot de heiligen, maar de hand des Heeren kwam over zijn mond om deze te sluiten. Zo dan waren dit de laatste woorden van de eerste canon: een vals gebrul en gekrijs. En zo bracht de Heere een einde aan de verschrikkingen van de eerste canon, maar zijn staart nam vele van de heiligen mee, tot een eeuwig verderf.

10. Dit zijn dan de laatste woorden van de tweede en zuivere canon: Hij die komt kome spoedig. Bewaar daarom uw harten in reinheid. Veracht de apokriefen niet, en ook niet de bijgeschriften van het Eeuwig Evangelie, want zij zijn u gegeven tot gidsen. Laat het u tot een leidraad zijn. En zo sloot de Heere de canon, en verzegelde het met een onverbreekbaar koord. En ziet, engelen daalden neer, en zij zongen de verborgen liederen uit Zijn Woord. En de Heere maakte de nieuwe canon groot als een richtsnoer, om de heiligen te binden in Zijn Geest door eeuwige banden en ketenen. En ik zag duizenden heiligen opstaan die het martelaarsschap des Heeren droegen, en zij gingen in door een grote poort. En ik zag vele buitengeworpenen die tot de Heere weenden, maar Hij hoorde naar hen niet omdat zij Hem niet hadden bijgestaan in Zijn lijden en zich voor lange tijd doof hadden gehouden voor Hem.

De Draagster van de Canon

1. Lokogamen
2. Tokon
3. Risgamen
4. Talgamen

Lokogamen

1. Dit dan is het heilige boek door engelen gegeven tot draagster en zwaard van de canon. Zij is dan niet zelf de canon, maar de bewaakster van de canon, de tweede, die de zuivere is. En zo draagt zij dan het zwaard om de oude canon te doorspietsen. Amen Metensia Eminijs. Hij die komt kome spoedig.

2. Zo is zij dan als een muur opgesteld rondom de canon, de zuivere. Amen Metensia Eminijs, kom spoedig. Zij draagt het mes des Heeren. Zo is dan de Lokogamen opgesteld door engelen als de omhulster van de canon. En ik zag haar een kind baren, en het kind groeide op in de wildernis, tussen de slangen. En het kind leerde de boog des Heeren te gebruiken, en de Heere gaf hem grote macht. En ziet, hij was als rechter aangesteld over de dieren des velds, en mat hun tijden uit. En de Heere gaf hem de macht over dood en leven. En hij maakte het boek des Heeren groot, het boek dat de parel in zich droeg. En hij groeide op voor de Heere als een reus. En hij gaf zijn moeder eer, en werd een groot strijder des Heeren. Zo zijn dan de lokogamen de sieraden des Heeren.

3. En ik zag hem opstaan als een held, neervellende grote reuzen. En die reuzen vreesden hem, omdat zij tegen de Heere hadden gezondigd en hij als hun rechter was opgesteld. En zo oordeelde hij op een dag de levenden en de doden, en ook de lijdenden. En hij bracht de schapen van het veld naar de wildernis, waar hij hen scheerde voor hun wol, en ook oordeelde hij hen. En hij droeg de bokken der duisternis tot het altaar. Maak daarom de lokogamen niet kwaad, want ziet, zij zijn wreed, en dragen de wreedheid des Heeren in zich. De lokogamen dan zijn de sieraden des kruizes, en zij staan aan de weg om voorbijgangers te bespotten.

4. Diep in de wildernissen hebben zij hun hutten van vlees. Weet dat zij bloeddorstig zijn, want zij dragen de wraak des Heeren in hun binnenste. Oh pelgrims van het woord des Heeren die tot de lokogamen genaderd zijn : Volgt u alleen een vertaling van het Woord des Heeren, of volgt u de zuivere grondtekst. Want vele lieden hebben het Woord des Heeren vertaald om hun eigen lusten daarin weer te geven. Houd uzelf daarom dicht bij de grondtekst opdat uw ziel niet zal afdwalen. Wie heeft u dan betoverd en Christus als gekruisigd afgeschilderd ? Werd zijn ziel dan niet verscheurd en gebroken ? Zo is God in de grondtekst elohim wat goden betekent. En gij dient deze

goden te kennen om zalig te worden. Ook is elohim vrouwelijk, dus waarom zijn sommigen ertoe gekomen alleen het mannelijke te aanbidden.

5. Alleen door de Lokogamen komt gij tot God. Kunt gij met de lokogamen worstelen en overwinnen ? Zij zijn dan de delen van de ziel van Christus toen Hij uiteen werd gescheurd. Kunt gij langs deze woedende delen van Christus komen ? Ziet, zij zijn als wilden.

De verscheuring van het Verstand

6. En ik zag lichten vallen op het verstand van Christus toen Hij in het dodenrijk was om het te verscheuren. En de lichten waren als bloeddorstige roofdieren. En het verstand van Christus droeg de naam Debich, en toen zij verscheurd was, was zij Na'in, dronkenschap, en Nergun, bloeddorst. En ik zag Christus vele krijgsgevangenen omhoog nemen, en ook Na'in en Nergun werden verscheurd, en zij werden genoemd : de lokogamen. En ik zag vele verborgen en verloren lokogamen, en zij droegen het bloed van Christus. En ik zag het bloed van Christus door ringen vloeien, en vele roofgeesten van de oude canon werden door Christus omhoog genomen, en zie, hij hing ze op. En het andere deel van zijn ziel was de Haftlich, de sexualiteit, en ook deze werd verscheurd, en de afzonderlijke delen waren angst en depressie. En angst werd verscheurd en werd gevoel en wreedheid, en depressie werd verscheurd en werd spot en pijn. En ook zij werden verscheurd, en zij werden genoemd : de lokogamen. En ik zag vele verborgen en verloren lokogamen, en zij droegen het bloed van Christus. En ik zag de lokogamen die de wonderschoonste verhalen vertelden die sinds de grondlegging der wereld verborgen waren gebleven. En ik zag een geest genaamd schaamte die veel macht verloor en begon te smelten. En het bloed van de wildernis begon te vloeien, en de wildernis begon te bloeien, maar daar omheen begon een nog grotere wildernis te groeien. En ziet, deze wildernis was droog en dor. En zie, de buitenste wildernissen waren duister en diep, en zij werden genoemd : de alverzoening der lokogamen. En ik zag de verborgen en verloren lokogamen uit hun holen komen en zij omsingelden de grote stad, Babylon. En zij riepen de namen van hen die zich in de stad bevonden, en zij maakten van de stad een wildernis. En in de dieptes van de stad vonden zij terug dat wat verloren was.

7. En ik hoorde een bazuin klinken, en de stemmen van de lokogamen begonnen voort te komen, en ik zag zeven stemmen. En ik hoorde een stem zeggen : Kom. En ook een andere stem sprak : Kom. En toen de eerste stem der lokogamen sprak zag ik de Risgamen, de Geest van Christus, aan het kruis verbroken worden, en zij werd tot sieraden, die der bedieningen. En toen hoorde ik de tweede stem der lokogamen spreken, en ik zag de Beker van Christus aan het kruis verbroken worden, de Talgamen, en ziet, het werd tot sieraden, die der sacramenten. En ik hoorde de derde stem der lokogamen spreken, en ik zag de delen van de verscheurde Risgamen : de criptiek en het orakel. En ook deze delen waren verscheurd. De criptiek was verscheurd in twee delen : gebondenheid en slavernij. En ook deze delen werden verder verscheurd, en ik zag de verborgen en verloren risgamen. Ook het orakel was verscheurd in twee delen : vuur en ijs, en ook deze delen werden verder verscheurd. Het vuur tot woede en macht, en later werden die delen ook verscheurd. En ik zag de Beker van Christus in twee delen verscheurd, genaamd strijd en arena. En strijd werd verder verscheurd in lamheid en kracht, en arena werd verscheurd in verslinding en wacht. En ik hoorde een vierde stem van de lokogamen spreken, en ik zag verslinding en wacht verder verscheurd

worden. En zij werden talgamen genoemd, en ik zag vele verborgen en verloren talgamen, en zij omsingelden de grote stad. En met Babylon gebeurde wat met Sodom en Gomorah gebeurde. En dit werd de alverzoening van risgamen en talgamen genoemd. En ik hoorde een vijfde stem der lokogamen spreken. En ik zag dat grote botten werden gebroken, en van de delen werden sieraden gemaakt. Toen de zesde stem der lokogamen sprak zag ik het vlees van Christus verbroken worden. En aan het kruis werden de stukken verdeeld, en dit waren de namen der stukken : illusie en visioen. En illusie werd verscheurd in groei en wortel, en groei werd verscheurd in grootheid, en wortel werd verscheurd in licht. En visioen werd verscheurd in reuk in smaak. En reuk werd verscheurd in aantal, en aantal in groen. En smaak werd verscheurd in binnenste en controle, en controle werd verscheurd in traan. En bij het horen van de zevende stem werden de delen verder verscheurd, en zij werden genoemd inaputen, sieraden des doods. Daarna zag ik de wapenrusting van Christus aan het kruis doorboort worden en verbroken, en de delen werden sorsollen genoemd, sieraden van de hel. Daarna zag ik het Bloed van Christus verstrooid worden. En ik hoorde een stem zeggen : Kom, en een andere stem sprak : Kom hogerop, en ik zag de sieraden van de armoe, en zij waren het verstrooide bloed van Christus, de Tokon. En ik hoorde het geluid als van duizend stemmen, en ik keek achterom en zag velen ontwaken, en zij kwamen voort uit het stof. En zij droegen messen. En zij werden gedoopt in een rivier des doods, en ik zag een man opstaan die een jong schaap als een lam op zijn schouders droeg. En de man werd groot voor het aangezicht des Heeren, en droeg de wol der wildernis, en leerde met de boog des Heeren te schieten. En hij had het merkteken van de boog op zijn arm.

8. En ik zag een groot leger oprijzen tegen het oude Rome om deze stad te omsingelen. En ik zag verschrikkelijke insecten de oude stad binnengaan om deze kaal te vreten. Daarna zag ik het leger optrekken naar het oude Jeruzalem, en zij was als een korenveld, rijp om geoogst te worden. En een nieuw Jeruzalem daalde uit de hemel neer om het oude te verslinden. En ik zag grote mannen opkomen die in hun armen merktekens hadden van het laatste oordeel. En Assur was niet meer, en Egypte was als een zucht. En ook kwam het oordeel tot de tafel van Moab, en ziet, zij was niet meer. En in die dagen bevolkten grote spinnen de aarde, en zij brachten vliegen voort. En er was een man met het hart als van een ekster en een meeuw, en hij bespeelde vele instrumenten, en zijn naam werd groot op de aarde. En ik zag een ster vallen op de aarde om de wateren te bezoedelen, en ziet, de bomen van het oude Rome werden bloed, en ook haar bouwwerken. En ik zag de man tot het oude Rome komen en zie, zij was niet meer.

9. En door de alverzoeningen der lokogamen, risgamen en talgamen hebben wij ook hoop op de alverzoening van het bloed van Christus. Is dat niet de burcht Perlottia ? Want door de risgamen wordt het bloed van Christus gedronken, en door de talgamen heeft het zijn werkingen. Weest dan aan nek, handen en voeten gebonden, opdat gij in kunt gaan.

10. En ik zag een rode troon als van bloed, met daaromheen vierentwintig lokogamen. Ook stonden er vier dieren voor de troon waaronder een kip en een paradijsvogel. En ik zag de Beker van Christus, de Talgamen, verzegeld met zeven zegels. En ik hoorde een stem zeggende : Opent nu de zegels die het bloed van Christus achterhouden. En ik zag een van de dieren naar voren komen, en het dier was van voren en achteren vol van ogen. En toen het dier het eerste zegel had losgekauwd

zag ik een groene haan, en die haan kreeg grote macht. En de haan sprak : Laten we ons een stad op aarde bouwen en een grote naam, opdat onze stem ter hemel reikt. Maar zonder mensenhanden werd het dier weggenomen, en ik hoorde een groot geween. En toen kwam het tweede dier naar voren, en zie, het had neuzen van voren en achteren, en het droeg vele stemmen. En ik hoorde een van de stemmen zeggen : Kom, want het uur is gekomen. En ik zag dat het dier het tweede zegel begon los te kauwen, en een krachtige wervelwind begon te waaien. En ik zag een stad vol katten, en deze katten veranderden in vrouwen, en zij kregen grote macht. En zie, de laatste vijf zegels waren zwart, en de laatste twee dieren begonnen de zegels los te kauwen, en ik zag een leger van paarden. En de paarden kregen grote macht, en zij braken los uit hun banden. En achter hen liep een schare van wilden, en zij riepen boos tot de hemelen. En ik zag veel bloed vloeien. En een van de zegels begon zich groot te maken en kreeg opnieuw grote macht, groter dan de eerste macht. En ik hoorde veel geween en vele stemmen. En ik zag een groene paradijsvogel verschijnen en daarna een gele, en het zegel begon velen op aarde te binden. En ik hoorde een stem zeggen : Nu is het genoeg. En ik zag temidden van de dieren een bloedende bok die geslacht was, en zie, de bok betrad de rode troon die van bloed was, en de bok kreeg grote macht.

11. In de dieptes van Acha zag ik de lokogamen verzegeld, de draagsters van het Bloed van Christus. En ik zag velen wenen omdat niemand deze zegels kon openen. En ik zag een man met benen als van bot, en hij was als een haan, als een half skelet. En hij legde zijn handen op de zegels en smolt hen. En ik zag de zegels vluchten naar de lagere werelden, samen met de verbroken zegels van de talgamen. En vele heuvelen smolten en vluchtten voor het aangezicht des Heeren. Maar na twee dagen waren de zegels die de lokogamen hadden verzegeld terug. En een man op een paard en een man op een rund kwamen tot de zegels, en de zegels werden bij name genoemd, en zij werden verbroken, maar weer waren zij na twee dagen terug. En ook zag ik de zegels van de risgamen, die als katten waren, en de risgamen waren als botten. Plotseling zag ik een bliksemflits vanuit de hemelen komen, en de risgamen gingen recht overeind staan, maar na twee dagen zakten zij weer in. En ik zag het bloed van Christus door witte tabletten stromen, en ook deze tabletten waren verzegeld. En de zegels waren als ijzeren kettingen, en sommige zegels waren als wit leer. En de zegels hadden ogen als juwelen. En plotseling zag ik een rode bliksem uit de hemel vallen, en vele paarden stonden op, maar na twee dagen zakten ze weer neer. En ik zag het leer dik worden en taai, en het was als een slavenmarkt, als een circus en een kermis. En ik zag lichten verschijnen en ik zag een boek groot worden voor het aangezicht des Heeren. En ik hoorde een stem zeggende : ‘Kom hogerop.’ En ik zag de markt des Heeren. En ik zag dat er moest betaald worden met bloed, zweet en tranen, en dat er vele buizen gevuld moesten worden voordat een deur zich opende.

Tokon

1. De Tokon is het bloed van Christus en het bloed der lokogamen en zo mede-draagster van de canon. En ik zag hoe er geofferd moest worden, en de Heere sprak : Laat de tempel bekleed zijn met bloed. En ik zag het licht van het bloed, en zij bracht nieuwe visioenen. En deze visioenen waren eeuwig. En ik zag vele wachters op de muren, en zij verkondigden de leer van het bloed van Christus. En ik zag een harp waar pijlen uitkwamen en een fluit waar bloed uitstroomde. En de

pijlen en het bloed vulden het land. En ik zag paarden met ruiters, en zij waren op weg naar de eeuwige stad. Maar zij werden niet toegelaten, en er werd gesproken : Laat eerst het bloed tot aan de toppen der muren stijgen. En de paarden met de ruiters gingen uit, en zij weenden en werden vervuld met angst. En zij zeiden : wij willen liever werken en zo het zweet tot aan de toppen der muren laten stijgen dan dat wij bloed vergieten. En de Heere zag hun liefde en zegende hen, en liet hen binnen in de stad, want zij hadden wijs gehandeld. En zo waren er ook enkelen komende vanuit het oosten, en ziet, zij vergoten wel bloed, maar het bloed kwam maar tot aan hun heupen, en zij gingen in het bloed ten onder. En ik zag de Heere zitten op zijn troon in al zijn heerlijkheid, en de wateren werden bloed, zoals hij in zijn woord had aangekondigd. En ook de bomen werden bloed, en het gehele land. En zo was er dan een grote schare die tot de stad des Heeren kwam, maar de Heere opende voor hen niet. En de Heere sprak deze woorden : Ga het land in en werk, opdat de zegelen van de stad verbroken worden. Maar ziet, het waren allen bloedvergieters, en de zegen des Heeren rustte niet op hen. En de Heere goot zijn zweet uit op de aarde, en het bloed begon te branden. En er waren enige lieden die de Heere volgden, en ziet, zij werden gewassen door zijn zweet, en door het zweet wat zij met tranen voortbrachten, en de zegen en de vleugelen des Heeren rustte op hen. En zij hadden een geheime opdracht om het woord des Heeren te vervullen, en zij kregen rijkelijk toegang tot de stad. En ik zag de naam van de Heere groot worden, en de Heere zocht vele knechten uit, en zij gingen uit in de wildernis in het laatste der dagen. En zij vonden een schelp met geluiden, en aldus was de schreeuw van het bloed des Heeren. En het was een krachtig verbond dat sprak, en zij brachten grote troost aan de Heere. En de Heere sprak : Laat uw oorlog dan in de geest zijn, en in het spel des kruizes. En de Heere nam een stok en een touw, en brak het, zeggende : Zo zal ik op een dag doen met de zegelen van de token. En ziet, de delen van de gebroken stok en het gebroken touw werden als slangen. En er kwam vuur uit hen, maar de Heere bedekte hen met leer. En de Heere verbrak vele banden. En een groot schip kwam aan de horizon, en bloed kwam voort uit haar, en de Heere begon te spreken. Aldus was het sprekende bloed.

De Weduwe

2. En er was een weduwe op aarde, en zie, zij kreeg grote bekendheid, en zij zong door het bloed van Christus. De Heere maakte haar groot op aarde, en velen kwamen door haar tot de Heere. Maar de Heere sprak : dit is een demonisch geslacht, en ik zal veel verdelgen. Ja, Ik zal als een strijder tegen hen optrekken, want zie, zij zijn niet in Mijn Woord. En ik zag de Heere komen tot de oude aarde, en tot haar gezandten, en de Heere sprak : Door zweet zal Ik u oordelen, niet door bloed. En ik zag het zweet des Heeren, en het bedekte hen, en op hen werd een nieuwe stad gebouwd. En ik zag visioenen van bloed, en zie, deze waren eeuwig. En zij waren als de paradox, als dubbele gezichten en als mozaïeken en kransen, en zie, zij waren als de narren des Heeren. En ik zag hen rijden op hoge paarden.

3. En er was een vrouw genaamd witte weduwe, en ook zij kreeg grote macht op aarde, en zij voerde strijd tegen de narren des Heeren. En wie wijs is berekene deze woorden, want ze gaan over een verre geschiedenis. En zo zal er een punt in de tijd zijn waarin alles geschiedenis is. En ik zag de Heere de tijd afsluiten als een canon. Zo zal het brood wat u eet geschiedenis zijn, en het bloed wat u drinkt geschiedenis, en zal niemand nog een stap kunnen maken. Ziet, alles is dan bevroren,

en de vlam zal zijn des Heeren. Waakt dan, want gij weet de tijd noch het uur waarop deze dingen zullen geschieden.

4. En ik zag de Heere de canon van het materiele afsluiten, en de mens werd teruggedreven tot de geest. En aan het materiele werd niet meer toegevoegd, daar de Heere het had afgesloten, en ziet, alles was bevroren, en alles werd tot steen, ja, zelfs de bomen. En zo kon niemand meer van het letterlijke leven. En dit waren de dagen waarin het duizendjarig rijk aanving. En zie, het was een rijk van vrede. En de Heere sprak : Heeft er dan niet genoeg bloed gevloeid ? En de Heere sloot de canon van bloed af, en zo was het duizendjarig rijk als het rijk van zweet, en de dagen van het paradijs als het rijk van tranen. En zo werd het bloed van Perlottia verzoend, en werd de poort tot de Risgamen geopend, en haar woonplaats de Lapondria.

5. En ik zag vogels als bloedzuigers die de tabletten van het bloed van Christus bewaakten. En ik zag zakken met geld heen en weer gaan met ridders met grote pluizige veren op hun helmen die onderhandelden. En ziet, zij hadden vreemde mertekenen. Zij werden genoemd de vogels van aldebaran, de kooplieden der aarde. En ik zag twee zegels als bevroren die de tabletten gesloten hielden, en deze zegels hadden lange angels. En ik hoorde een stem zeggen : Kom volg mij. En een deur ging open, en ik zag een lange trap die draaiend naar beneden uitweek als in een spiraal. En ik zag hoe het licht van beneden afkwam. En ik liep naar het licht toe, en kwam in een groene tuin terecht, waar vreemde wortelen groeiden. En er waren hier hazen en konijnen en het licht had een vreemde geur. En ik zag hoe de wortels van de stenen tabletten vastzaten in het plafond, en een hand nam hen weg. En een man met een bijl hakte het plafond open, en de stenen tabletten vielen naar beneden, en zij vielen in vele stukken. En de stukken werden tot sieraden, en ik zag poorten rondom de tuin opengaan. En ik hoorde een stem zeggen : Kom binnen. En ik liep naar binnen en zag handen aan een vreemde muur, en ook voeten. En de sieraden in de tuin werden tot instrumenten. En door een vuur werden de instrumenten aan elkaar verbonden door vele smeltingen en verhardingen, en ik zag ridders verschijnen en zij hadden geen hoofden. En ik hoorde een stem zeggen : Breng mij het zilver en het goud. En de ridders stonden op, en verzamelden schalen met zilver en goud, en brachten hen door de poorten naar binnen. En een vrouw met een witte zijden doek begon de instrumenten schoon te maken, en de verbindingen ertussen, en zie, het was als een carousel. Aldus was de kermis des Heeren. En ik zag de handen en voeten aan de muren uitgroeien tot wezens. En weer werden er vele zaken gedaan. En ik zag grote webben verschijnen als mozaïeken, en sommige webben waren gemaakt van botten en graten. En ik hoorde een stem zeggen : Laat nu het licht schijnen.

Risgamen

1. En ik zag een nieuw betaalmiddel opkomen, en het was de Geest die altijd al een onderpand was geweest. En zie, de Geest van Christus was in vele stukken verscheurd, de Risgamen. En er was een groot gewezen. En de Risgamen werden tot geldstukken, en ziet, zij was als een veer. En ik zag een

groot vuur komen om de Geest te verslinden, en de Geest werd in vele veren verscheurd, en ik zag vele verborgen en verloren risgamen, en zie, zij waren woest.

2. En ik zag de risgamen vluchtten naar hun woonplaats Lapondria, en zie, deze plaats was woest. En de plaats werd bewaakt door woeste vogels, die waren als paradijsvogels. En ik zag velen die probeerden Lapondria binnen te komen, maar zij werden aangevlogen door de woeste vogels. En deze vogels waren als pauwen in al hun kracht, en grote vrees viel op hen die het zagen. En deze vogels waren bloeddorstig en honend, en sommigen droegen helmen. En ik zag Christus zitten op een hoge troon van parels, en zie, Hij verkoos de risgamen tot een nieuw betaalmiddel en een nieuw verbond. Zo is dan de uitverkiezing des geestes, de uitverkiezing van Lapondria, en deze is de enige. En ik zag de risgamen tot de stad Lapondria toegelaten worden, en zij droegen allemaal rieten in hun handen. En deze rieten waren zeer scherp en snijdend. En zij maakten merktekens op de muren, en kwamen volledig in de stad, doordat zij bedekt waren met het bloed van Perlottia, en haar merktekens droegen. En zij kwamen tot de hoge troon van Christus die van parels was, en Christus verzoende hen. Zo gaf de Geest haar veer aan Christus als een betaling, en zij was welkom in de stad. Zo is het dan : door de veer betalen wij, door de risgamen. Zo houden wij ons zuiver. En ik zag hoe Christus de risgamen tot sieraden reeg, en ziet, zij waren als wonderlijke verhalen, en zij gaven toegang tot de dieptes der stad. En ik zag een vuur van de sieraden afkomen dat krachtig genoeg was om het zilver te smelten. En ik zag deuren geopend worden tot de dieptes der aarde. En ik zag bloedbanden wegsmelten en ziet, zij werden geofferd. Zo was dan de alverzoening des geestes, en ik zag de Geest als rivieren stromen, tot overstroming toe. En ik zag de Aflaat des Geestes, als een hemelse betaling, en de Geest gaf wederom haar veer aan Christus, en ziet, zij werd gereinigd. En Christus gaf haar een wit boekje van wit leer, en het leer bond haar. Aldus was de Canon des Geestes en de gebondenheid. En dit was de enige gebondenheid, door de enige aflaat. En ik zag hoe Christus Zijn Geest doopte, en ziet, zij werd wedergeboren als een witte duif van wit vuur. Zo hebben ook wij, door de Aflaat des Geestes, door de Veer van de Geest, deel aan deze dingen. En ik zag een poort bekleed met wit leer geopend worden, en zie, dit was de enige poort om de stad binnen te komen. Maar de vogels die op de muren van de stad stonden waren sluw. En zo zag ik de Risgamen tot mede-draagster van de canon worden, de tweede, en zuivere.

3. En ik zag de Risgamen, en zij kreeg toegang tot de schatten der aarde, en ziet, zij was donker. En ik zag Lapondria groot worden op de aarde, en zie, zij was het centrum van creativiteit. En in haar hadden de heiligen een plaats van rust, maar zij werden voor enige tijd verscheurd door verwarring. En ik zag enige heiligen in opstand komen tegen lapondria, en zij kregen een kleed om te rusten. En na enige tijd van rust balden ze hun vuisten tegen Lapondria, en Lapondria bracht hen in ketenen en leidde hen tot de grote burcht. En Lapondria sprak grote woorden van wijsheid, en ziet, zij werden haar discipelen. Maar Lapondria bespote hen omdat zij lauw waren, en zij lokte hen in een valstrik. En aldus was zij de sluwheid des Heeren. En grote vrees kwam over de menigte. En zij vroegen : wie is zij ? Hoe durft zij zoiets te doen ? En zo vertrok Lapondria van de aarde en liet haar schaduw achter zich, en zij bracht grote verwarring. En zij omhulde haarzelf met duisternis, en bedekte haarzelf met stof. En zij maakte een reis tot de dieptes der aarde, en vond daarin grote schatten. En zij verscheurde het goud en het zilver, en opende grote poorten. Wie kan haar volgen ? En zij omhulde haarzelf in wraak en grote wreedheid, want zelfs haar trouwste volgelingen hadden tegen

haar gezondigd. Wee u, oh aarde, want Lapondria heeft groot gif tegen u bereid. Weent daarom, oh volk, opdat u kleine genade zult vinden in haar hand, licht als een veer.

4. En Lapondria groeide op tussen de apen der aarde, en ziet, zij volgden haar op de voet. En zij bedekte zichzelf met de slangen der dieptes, en offerde op de hoogtes. Zo werd zij dan tot de duisternis des Heeren.

Talgamen

1. Zo hebt gij dan in de canon gelezen dat er geen eeuwige verdoemenis is, en dit hebt gij gelezen in de tweede canon, de zuivere. Zo loopt dan alle dood op vernietiging uit. Maar ik zeg u : Kent gij de geheimenissen van Radth ? Er zijn dus wel degelijk uitzonderingen op de regel. Hebt gij dan niet gehoord dat de Heere de vijand heeft gemaakt voor de vernietiging ? Ja, de Heere zal zijn macht vernietigen, en zijn zonde, en zal zijn trotse bewustzijn verlagen, en doen wegzinken in dronkenschap en slaap. Maar na deze dagen zal de Heere hem als in een geheimenis een nieuw bewustzijn geven, en dit bewustzijn zal groeien tot in alle eeuwigheden. En deze dingen zijn moeilijk te verstaan, en vele lieden zullen deze dingen verdraaien tot hun eigen verderf. Kent gij de geheimenissen van de Beker van Christus ? Ziet, deze zijn heilig, en zoals de tweede canon al had gesproken : de tweede hel zal verschrikkelijker zijn dan de eerste. Want de eerste hel was verbonden aan een canon die onzuiver en onwaardig was, en daardoor ongeldig. En velen hebben zich door deze geschriften laten beangstigen. De tweede hel is echter erger dan de eerste, want alhoewel het oude bewustzijn geheel zal wegzinken, zal er een nieuw bewustzijn opkomen. Wat dan, is God dan een pijniger ? Absoluut niet. De Heere Heere is een God van list en sluwheid, en brengt allereerst slaap en dronkenschap. Zo is Hij dan een God van genade. Maar Zijn rechtvaardigheid straft de zonde.

2. Wat dan, zullen deze dingen ons dan opnieuw beangstigen ? Volstrekt niet, want gij die in Hem blijft zijt door het bloed van Christus zalig verklaard. Alle hel is slechts voor even in het licht van de eeuwigheid, en weegt niet op tegen de heerlijkheid die ons geopenbaard gaat worden. Wie zijn dan de vijanden van God ? Zij zijn door hem gemaakt, en ziet, zij zijn eeuwig. Zo hoeft een kind des Heeren niet bang te zijn om voor eeuwig te branden. De Beker van Christus heeft het zelfs niet over gevallen engelen die besproken werden, want zij hebben eerst de Heere lange tijd gediend, en waren volstrekt geen vijanden. Maar de Beker heeft het hier over hen die als vijanden zijn gemaakt, en zij zullen voor eeuwig branden in groeiend bewustzijn, ja, zelfs in groeiende pijn, omdat de Heere hen daartoe gemaakt heeft als een voorbeeld.

3. Zijn deze woorden dan niet wreed en misleidend ? Volstrekt niet. Wat weet gij van de raad des Heeren ? Er is voor een kind des Heeren en zelfs voor een gevallen engel geen eeuwige verdoemenis, daar de ziel zich zelf vernietigt door de zonde. Maar er zijn uitzonderingen : namelijk hen die als de personificaties van zonde zijn gemaakt. Zij zullen eeuwig branden, en hun oude mens zal vernietigd worden, opdat een nieuwe mens zal opstaan, namelijk de vernederde mens. En deze

vernederde mens zal voor eeuwig een teken en een waarschuwing moeten zijn, om de heiligen te vervullen met vrees. Zo hebben dan vele lieden de woorden van de tweede canon als een vrijkaartje tot zonde genomen, omdat zij belust zijn op de totale vernietiging en zo denken de eeuwige en altijddurende hel te ontlopen. Zij hebben het Woord misbruikt tot een eigen valstrik. Hebt gij dan niet de paradox des Heeren gezien in het verschil tussen het Oude en het Nieuwe Testament ? Zo moet gij dus op uw hoede zijn. Er is een punt van angst waar u niet aan kunt ontkomen, en wat nodig is een grotere vreze des Heeren op te wekken dan het eerste. Dit is namelijk dat zij die door de Heere als vijand zijn gemaakt zichzelf misleiden en huichelen.

4. Dit dan zijn de woorden van de Beker : laat de vreze des Heeren het begin zijn van alle wijsheid. Zij die gezondigd hebben tot de Vader zullen vergeven worden, en ook zij die tegen de Zoon hebben gezondigd, en zij die tegen de Heilige Geest hebben gezondigd, en Hem hebben gelasterd. Zelfs zij die gezondigd hebben tegen het Bloed van Christus zullen vergeving vinden, maar zij die de Beker van Christus hebben gelasterd door zich eraan te bezondigen hebben geen vergeving in alle eeuwigheden. Nu niet, en in de toekomstige eeuwen niet, want het zondigen tegen de Beker van Christus is een doodzonde waartegen geen medicijn bestaat, en waarvan geen omkeer mogelijk is. Maar troost u, geliefden, want alleen de vijanden van God maken zich hieraan schuldig, en zij zullen tot verschrikking zijn in alle eeuwigheden. En de rook van hun pijniging zal opstijgen voor het aangezicht van de Beker, de Geest en de Zoon. God dan zal zijn vijanden straffen, en ziet, zij zullen tot een eeuwig schrikbeeld zijn. Waakt dan, want God laat niet met Zich spotten. En zo is het dan : vreselijk is het om in de handen van de levende God te vallen. En dan zult gij berouw en boetvaardigheid zoeken, en het niet vinden. En angst zal u verteren wanneer gij zult bemerken dat u het heilige der heilige Gods hebt aangeraakt.

5. Troost u geliefden : Er is geen zonde tegen de Heilige Geest, maar de zonde tegen de Heilige Beker is des te erger. Zoekt daarom de Heilige Beker in vreze en beven. Weet dan dat het Eeuwig Evangelie een blijere boodschap is, maar ook een ernstigere en verschrikkelijker. De dagen dan zijn kwaad, en als God de zonde niet op die manier zou straffen, dan zou de zonde nooit overwonnen kunnen worden. Ja, de Heere voert zo eeuwige overwinning over de vijand, en maakt hem tot een eeuwig schrikbeeld. Zij zullen hun loon niet ontgaan. Daar waar de eerste hel nog genadig was : de tweede niet meer. Maar zij die met de Heere zijn hebben niets te vrezen.

6. Alleen door hun eeuwig lijden zullen zij neergehaald worden, de vijanden van God. En alleen door hun groeiende pijn en bewustzijn zullen zij loslaten datgene wat zij hebben gestolen. En God zal hen maken tot een eeuwige afschuw.

7. En als zij u vragen : Is uw God niet wreed ? Dan zult gij antwoorden : God is een paradox.

De Heraut van de Canon

1.

1. Dit zijn de heerlijke woorden over de jeugd van Christus, als zijnde het kindje Jezus. Zo heeft Hij dus vele wonderen en tekenen gedaan, die in dit geschrift opgetekend staan, woorden die in de geschiedenis verloren gingen. God heeft bij machte van Zijn dienstknecht deze woorden teruggebracht tot het heilige.

2. En ik zag een vuurstorm, en ik was niet bij machte te spreken. En de vuurstorm kwam over mij, en ik hoorde een stem zeggende : schrijf, want er zijn vele dingen die ik u zal tonen.

3. En ik nam mijn pen en schreef. En ik wist dat ik zou branden wanneer ik niet gedetailleerd en nauwkeurig zou opschrijven wat de vuurstorm mij beval. En ik hoorde geschreeuw.

4. En de vader zei : Treed binnen. Ik zag een poort van vuur opengaan.

5. En binnengekomen zag ik het kindje Jezus op een kussen zitten. En een engel bracht mij tot aan de voeten van het kindje Jezus, en het kindje begon te spreken, en wonderschone verhalen te vertellen.

6. En ik besepte dat het kindje was gekomen tot een oordeel over de volwassen wereld. En ik smeekte tot het kindje om in mijn hart te komen. En ik zag vele visioenen. En ik zag hoe het drie jaar oude kindje wonderlijke verhalen vertelde, en grote wonderen en tekenen deed. Het kindje kon zijn armen en benen verlengen om alles gedaan te krijgen.

7. En ik zag hoe het kindje kon rennen, sneller als een paard, en ook was het kindje sterker dan een leeuw, maar naarmate het kindje ouder werd namen deze krachten af.

8. En ik zag het kindje wandelen op water, en de woorden die het kindje sprak waren zoet. En ik zag hoe het kindje vanuit het niets duiven tevoorschijn bracht en ook kleine aapjes. En de Geest des Heeren rustte op hem.

9. En ik zag hoe het kindje in de nacht werd opgenomen door een vuurstorm, om vele visioenen te zien. En het kindje was vroeg wijs en vol met de kennis des Heeren.

10. En ik zag hoe het kindje later zijn kindschap aflegde om zo de weg van het kruis te gaan, en zijn krachten namen af.

11. Toen het kindje vier jaar was vertelde hij rond uit over demonen. Ook vertelde het kindje over engelen, en velen tekenden het op, maar deze geschriften zijn in de geschiedenis verloren gegaan en zoek geraakt.

12. En ik zag de vuurstorm tot mij komen, om zijn mond te openen, en ik gleed naar binnen, en ik was als een gebonden man. En ik moest veel schrijven. En ik zag hoe het kindje in de geest een paars kroontje droeg met vierentwintig uitsteeksels. En een zacht roze licht verscheen telkens in het kroontje. En ik zag hoe het kindje rijk was aan geestelijke gaven.

13. Ook zag ik hoe het kindje vruchten en ander voedsel vanuit het niets tevoorschijn kon brengen, en velen waren erover verwonderd. En het kindje waarschuwde hen hoe hun nakomelingen een oranje kerk zouden bouwen, waar leeuwen in zouden wonen, en hoe hun aandacht zou zijn gericht op spierkracht, en niet op de kracht van de geest. En het kindje weende.

14. En het kindje sprak dat de tijger zou komen tot deze oranje kerk, om zo veel gevangen vrij te zetten, en velen wisten niet wat Hij bedoelde, want hij sprak in gelijkenissen. ‘Wie wijsheid heeft berekent het nummer van deze kerk, en dit nummer is vijvenvijftig. En zij zullen een vals boek oprichten.’ En het kindje sprak daarmee over een verre toekomst.

15. En het kindje kon zomaar in het niets verdwijnen, en zomaar vanuit het niets verschijnen. En velen waren erover verwonderd en bespraken deze dingen met elkaar, en vroegen zich af wie Hij was.

16. ‘Ik ben gekomen om een kerk op te richten naar het hart,’ sprak het kindje. ‘De oranje kerk is van Ryan, de oranje wachter, hij die samenzweert met reuzen. Zijn hond is een wolf, met de naam Roodoog, en zijn honden zijn leden van de blauwe kerk. En ziet dan, deze kerken komen uit elkaar voort. En zij zijn niet van mij. Zij zijn van het verstand. Zij kennen mij niet als kind, en met hun gewichtigheden onderdrukken zij elkaar.’

17. En het kindje profeteerde veel over de dingen die zouden gebeuren, en het kindje weende veel. Het was een gevoelig kindje en tegelijkertijd sterker dan tienduizend haaien. Sommigen noemden

hem een leeuwenkind, anderen noemden hem tijgerkind. Hij trok zich vaak terug in de wildernis en de woestijn, en was tussen de wilde dieren.

18. En het kindje trok zich niet veel aan wat anderen over hem zeiden, maar leidde zijn eigen leven. Op een dag kwam er een blinde man tot het kindje, en het kindje genas hem. Ook genas het kindje een man die geen ledematen had, en gaf hem nieuwe ledematen. En sommigen begonnen te fluisteren : dit kindje is het kind van de duivel. En het kindje bestrafte hen. Soms verteerde hij zulke spotters door een blauw vuur wat hij vanuit de hemel op hen neer liet dalen. Daarom waren er enkelen die trachtten het kindje om te brengen.

19. Het kindje had veel vriendjes en vriendinnetjes, en verzon veel spelletjes. Maar naarmate het kindje ouder werd begonnen ouders voor hem te waarschuwen.

20. En ik wilde verder schrijven, maar mijn hand begon te beven onder de heiligheid van deze dingen. En een stem sprak dat vele dingen verzegeld zouden blijven tot aan het einde der tijden.

21. En ik zag het kindje op een fluit spelen, en een totempaal stond daar en een wigwam. En het was in een visioen. En ik zag indianen uit de wigwam komen, en zij dansten om het fluitspelende kindje heen.

22. En toen het kindje vijf was geworden begonnen al deze krachten langzaam weg te sijpelen, en groeide hij op als een normaal kind.

23. En in een visioen zag ik hoe het kind toen het ouder was geworden langs een stil pad liep en plotseling werd overmeesterd door een groep wilde kinderen. En het jongetje genaamd Jezus werd door de wilde kinderen vastgebonden aan een boom, waarna hij werd geslagen met stokken. En ik zag hoe Hij als kind vaak werd geplaagd en achternagezeten, en vaak werd vastgebonden om geslagen te worden.

24. En ik zag hoe de jongen genaamd Jezus terugverlangde naar Zijn oude krachten, maar Hij wist dat dit de wil van de Vader was. Hij moest Zich voorbereiden op het kruis. En het lijden in Zijn kinderjaren was diep. En het verlangen naar Zijn verloren gegaande kinderjaren verwondde hem diep.

25. En op een dag kwam er een engel tot Hem, verschijnende op een eenzaam pad, tegen het avonduur. En de engel sprak liefdevolle woorden tot Hem, en de jongen begon te beven.

26. Sinds die dag had Hij twee vriendinnen, na een lange en eenzame periode. Deze vriendinnen steunden hem door dik en dun. Vaak maakte Hij wandelingen met hen door de woestijn en de wildernis, en ze hadden diepe gesprekken, waarin ze zich verwonderden over Zijn wijsheid.

27. En de jonge Jezus kreeg steeds meer vriendinnen, en wekte daarmee veel woede en jaloezie op in de harten van veel jongens. Maar nadat de engel voor een tweede keer aan Hem verscheen kreeg hij ook veel mannelijke vrienden, en al snel ontstond er een grote groep discipelen rondom de jonge Jezus. Hij had een bovennatuurlijke liefde, deed hun harten smelten, en sprak over een ander pad.

28. En Hij sprak over het zijn als de minste als de ware weg van liefde. En Hij genas velen van hun innerlijke ziektes.

29. En vaak gingen ze in een grote groep met hem mee de wildernis en de woestijn in, waar hij hen vaak op een heuvel onderwees. En de wilde dieren waren aan hem onderworpen.

30. En Hij sprak over de dingen die komen zouden : Wanneer gij een luid geschreeuw hoort, en de wolken zijn zwart en rood, ga dan de heuvelen op en smee om genade, want dan is de Dag des Heeren gekomen. En wanneer gij de wilde kat hoort brullen, kijk dan uit uw huizen, en bidt in uw hart dat gij zult ontkomen aan de zware dagen die komen gaan. Want eng is de poort die tot leven leidt, en alleen kindekens zullen deze poorten binnengaan. Religieuzen zullen trachten de sleutels in handen te krijgen, maar zij zullen branden. Zij zullen in de rivieren geworpen worden en niemand zal met hen rekenen. Ik heb U bestemd voor liefde, en zij die in liefde werken hebben de wet vervuld. Zij zullen God niet als tegenstander hebben. Onderdrukt elkaar niet, maar heb elkaar lief, en ook uw vijanden, want zij mochten eens uw verborgen vrienden zijn.

31. Weest genadig naar elkaar, als een voorbeeld, en wees hierin de zwakste, want de Heere wederstaat de sterken. Denk aan het konijn die in zijn zwakheid hopen heeft kunnen maken, om te kunnen ontkomen aan de brandende Dag des Heeren. Zo zijn de konijnen de vrienden van het kindje Jezus, dat was, is en zal komen. Dit kind staat hier voor jullie.

32. En een liefde viel op de menigte, en zij waren in verwondering.

2.

1. Dit zijn de woorden opgetekend over het leven van het kindje Jezus. Toen Jezus twaalf jaar oud was, en aan de rand van het meer was, helemaal alleen, kwam vanuit de struiken een jongen op hem

afrennen. Jezus raakte met de jongen in gevecht, en zij kwamen beiden in het water terecht waar de jongen Jezus trachtte te verdrinken. Maar een engel sloeg de jongen.

2. En de jongen had een demoon, en Jezus sprak : ‘Ryan, opperhoofd der demonen, verlaat dit kind.’ En de jongen slaakte een gil, en werd genezen van zijn krankzinnigheid.

3. Ook toen Jezus achttien jaar was gebeurde het dat twee jongens Hem trachten te verdrinken, maar Jezus genas hen beiden van hun krankzinnigheid.

4. Toen Jezus twintig jaar oud was geworden leefde hij voor enkele maanden tussen de leeuwen, en de leeuwen waren aan hem onderworpen.

5. En na die dagen verscheen een engel aan Christus, en gebod hem een staf van de grond op te raken. Daarna gebod de engel Christus om de staf op de grond te gooien. Toen Christus dit deed veranderde de staf in een slang, en deze slang was zeer giftig. ‘Ga nu naar het huis van farizeeers,’ sprak de engel, ‘en breng hen het woord.’ Maar de farizeeers geloofden niet in hem, en zeiden dat Hij zulke dingen kon doen door de duivel.

6. En toen gebod de engel hem te gaan naar het huis der romeinen. Maar ook zij geloofden niet in hem. ‘Nu dan,’ zei de engel, ‘de koppen van dit volk zijn hard, en zij kijken nergens van op. Aan een kruis zullen zij u nagelen, en gij zult verlangen naar uw oude dagen.’ En toen week de engel van Hem.

7. En op Zijn vierentwintigste leidde Hij een menigte jongeren tussen de leeuwen, en leerde hen over de voetwassing, en elkaar te dienen in plaats van te leiden, en hij sprak voor enkele dagen achtereen. En er was een vrouw die hem trachtte te verleiden, en toen hij haar afwees vervloekte zij hem, en de leeuwen verslonden haar. En ook andere vrouwen trachtten hem te verleiden, vaak in groepjes tegelijk, maar zij werden allen door de leeuwen verslonden. En toen begon hij veel over de duivel te prediken, en enkelen zeiden dat Hij zijn verstand verloren had.

8. En Hij leerde hen over de dronkenschap des Geestes, en over de dwaasheid Gods, en velen zaten aan Zijn voeten in verwondering, en werden door dronkenschap gegrepen. En velen zeiden : ‘Wie is deze man ?’ En Hij leidde hen dieper in de wildernis, raapte een stok op, en wierp het op de grond, waar het in een giftige slang veranderde, en sindsdien geloofden velen in Hem.

9. En sommige vrouwen begonnen over de grond te rollen, en waren zo in dronkenschap dat ze niet meer konden staan of zitten. Zij waren zwak geworden, en enkelen voelden zich ziek. En enkelen begonnen dorst te krijgen, en engelen verschenen om hen te drinken te geven, en ziet, zij werden allen dronken.

10. En de hemel opende zich en een raaf en een ekster daalden op hen neer, en zij hoorden een stem zeggende : ‘Deze is Mijn Zoon, de verheerlijkte, ziet, Hij zal van u weggenomen worden, maar Hij zal wederkeren als een dief in de nacht.’

11. En vele vrouwen en mannen begonnen te wenen, want zij wilden niet dat Hij weggenomen zou worden, maar Christus troostte hen. ‘Ik zal in jullie hart wonen, en Mijn Geest schenken, zodat Ik altijd bij u zal zijn als in een mysterie. Wie Mij liefhebben volge mij.’

12. En Hij leidde hen tot een gat in de wildernis, een diep gat, en Hij sprak over datgene wat Hij moest lijden. En Hij nam een rood kleed en sloeg het om zich heen, en vlocht een doornenkroon van takken. Daarna strekte hij zijn armen uit, om hen te laten zien wat ze met hem zouden doen. En enkele mannen riepen : ‘Dat nooit. Wij verklaren hen de oorlog.’ Maar hij bestrafte hen zeggende dat de Zoon des Mensen veel zou moeten lijden. En enkelen van hen wilden samen met Hem gekruisigd worden. En Hij gaf hen een beker die zich vulde met rood sap. ‘Drink,’ sprak Hij, ‘en houdt u vanaf nu schuil hier, want de aarde gaat onder het oordeel komen, maar gij hebt hier een schuilplaats. Gij zult leven van het weinige wat gij hier zult vinden, en gij zult zijn als een gekruisigde. Maar Ik zal moeten wederkeren, en Mijn lot ondergaan.’

13. ‘Laat ons met U meegaan,’ riepen enkelen. ‘Wij zijn bereid met U te lijden.’

14. ‘Lijdt hier,’ sprak de Christus, ‘en leef met de armoe die de wildernis u schenkt.’

15. Maar velen konden deze boodschap niet aan, en gingen met Hem mee terug, en paken hun leven weer op.

16. En toen de Christus vele jaren later aan het kruis stierf, krijsten degenen die in de wildernis waren gebleven als wilde katten. Zij hadden van het rode sap gedronken, en leefden sindsdien met de engelen, macht hebbende over de wilde dieren.

1. Toen het kindje Jezus nog een zuigeling was konden zijn geest en ziel de hemel bereiken over de trappen van tijgers en de trappen van leeuwen, en in de hemel voerde Hij gesprekken met de engelen.
2. Langs deze trappen daalden de engelen af, en stegen weer op, telkens weer de ziel en de geest van de zuigeling opdragende aan God.
3. En zo sprak de kleine zuigeling met de dieren, en met de verborgenheden Gods. En deze zuigeling bezocht de zielen in de gevangenissen, en gaf hen hoop en bevrijding. En deze kleine zuigeling was de sleutel van het oordeel.
4. En de zuigeling bezat bovennatuurlijke wijsheid om de reuzen te oordelen. Een verwoester van demonen was Hij.
5. En deze dingen waren opgetekend, maar raakten door de eeuwen heen verloren.
6. En ik zag de vuurstorm opstijgende langs de trappen van leeuwen en tijgers, tot in de hoogste hemel, om het kindje daar te brengen, de kleine zuigeling. En de kleine zuigeling kreeg woorden in Zijn mond, om daarmee af te dalen in de diepte. En weer zag ik de vuurstorm over de trappen van leeuwen en de trappen van tijgers gaan.
7. En ik hoorde een geschreeuw en zag groot geweld, en geheimenissen werden voor mij ontsluit. En ik zag het grote raadsel van de kleine zuigeling genaamd Jezus.
8. En het kindje bezat bovennatuurlijke kennis, en had gaven om de diepst gevallen te genezen. En niemand kon tegen de kleine zuigeling op, die macht had gekregen.
9. En ik zag velen op aarde die de kleine zuigeling naden, en zij kregen grote macht op aarde, maar hun plaats was niet in de hemel.
10. En ik zag volkeren ontstaan die zich een beeld hadden gemaakt aan de kleine zuigeling gelijk, maar zij verdraiden zijn werken. En ik zag de kleine zuigeling wenen, en de grote beesten der aarde werden in hun oren doorstoken, en ziet, zij werden ten slachting geleid.
11. En ik zag de kleine zuigeling neerdalen in grote toorn, en toen de kleine zuigeling Zijn mond opende was er overal bloed. En ik hoorde overal smekingen tot de Heere, maar de Heere luisterde naar hen niet.

12. En ik zag de kleine zuigeling oog en hart hebben voor hen die in woningen onder de aarde leefden, en een liefde vervulde mijn hart.

13. En ik zag de kleine zuigeling de sleutels dragen van de hel en een nieuwe kerk. En ik zag hoe de geest en de ziel van de kleine zuigeling vleugels kreeg, en opsteeg langs hoge bomen, om zo toegang te vinden tot de Vader. En de Vader verborg de Moeder, en telkens wanneer de kleine zuigeling lachte kwam de Moeder tevoorschijn. En dit sprak over de dagen waarin de wind zou waaien, de hemelse wind van genezing over de aarde.

14. En ik zag de kleine zuigeling door zijn lachen een leger opwekken, en ziet, de soldaten ervan waren dronken. Zij hadden het hart van de kleine zuigeling. En het verstand werd niet meer geleerd. En ik hoorde gelach in de hemel, en ik zag de Vader lachen, en ook de Moeder.

15. Dit zijn de woorden over de kleine zuigeling Christus Jezus. Laat deze woorden opgetekend blijven van geslacht tot geslacht. Ik zag paarden, een koets, met daarop de kleine zuigeling, en door Zijn lachen genas Hij de aarde. En een leger van dwazen richtte Hij op, en zij hadden de autoriteit om de aarde te vernieuwen. Hoort dan deze woorden, en luistert aandachtig naar hen, want zij zijn getrouw en waarachtig. Hij die kome kome spoedig.

16. En ik zag de kroon van de kleine zuigeling, met paars en geel en roze, en oranje licht. En ik zag kikkers dansen om zijn troon. Het uur van de kleine zuigeling is gekomen. Maakt u allen gereed. Neem Hem dan aan die spreekt, want een vreselijk en verterend vuur is Hij tot wie Hem niet vrezen.

17. En ik zag Hem afdalen van Zijn troon, afdalen in de put van de romeinen, om gevangenen vrij te zetten, en Zijn troon daar voor eeuwig te bouwen. En een licht der lichten steeg op, roepende in de hemel, als een heraut des kruizes, als een vaderland voor velen. En ik zag het licht huizen bouwen, en een wildernis opende zichzelf, en krokodillen stegen op, ontvangende de vleugels van een eeuwig licht, van een eeuwig altaar.

18. En zij die verraders waren, leugenaars en dieven verschenen voor het altaar, en een vuur nam hen weg. En de kleine zuigeling opende boeken, om te zien wiens namen opgetekend stonden, en zij wiens namen Hij niet zag staan werden in een eeuwigbrandend vuur geworpen.

19. En uit modder schiep Hij ministers, en uit vuil schiep Hij kapiteinen, en Hij gaf hen wereldschepen, vol met brandende lichten, en de liefde was over hen, als de webben van het grote Metensia. En Hij sprak tot Eminius, en bad, eindigende met een gouden en paarden stem om de deur der hemelen te openen, waardoor velen ingingen. Ja, de massa's der hemelen zijn groot, en gij zult u verbazen over de menigte die niet heeft gebogen voor de afgod die de mammon is.

20. En het kind, de kleine zuigeling, greep de mammon en zijn zuster Izebel, en ook haar zusters Nemak en Jael, en de kleine zuigeling wierp hen in het eeuwigbrandend vuur, waar zij geen rust zullen hebben, dag noch nacht. En zij zullen worden tot een eeuwige schrik. Waakt dan, broeders en zusters, opdat gij niet in hun lot zult vallen. En ik zag Izebel worden tot een skelet, klaar om haar zwaard te grijpen, maar een wind des hemels sloeg haar neer, en als brandend as begon zij rond te zwerven, aan de zeeën des doods, en de meren van het kwaad. En niets meer dan een geest was zij.

21. En ik zag haar geketend worden onder zware ketenen, en ook Juno bracht zij neer. En grote reuzen vielen aan haar voeten, een koningin des doods was zij, en zij werd genoemd hellevaart. En de kleine zuigeling greep Ryan en zijn gezelschap Merve, en wierp hen van een saffieren trap. En ook Rodoog, de wolfshond, viel met al zijn dienaren in dit gat. En de kleine zuigeling nam een boog, en doorboorde de hond met een pijl. Ja, een jager is Hij, een groot jager, een groot veldheer van oorlogen. Met strakke vuist slaat Hij zijn slag.

22. En ik zag hoe boeken dichtgeslagen werden, en ik hoorde een groot geween. En velen werden geketend door de kleine zuigeling. En ik zag hoe boeken begonnen te branden en uit de hemel vielen, en een stem sloot de hemelen en sprak dat zij nooit meer konden terugkeren. En een gegil begon de aardbodem te vervullen, en velen zonken in diepe putten. De dag van het oordeel was gekomen. En de kleine zuigeling zat op een hoog paard, en maakte hen dronken door zijn pijlen.

23. Ja, een groot veldheer is Hij, een meester in veldslagen. En ik zag een gouden armband, gebroken, en een groot mes, en een stem zeggende : ‘Hier is groot vertier.’ En ik zag het spel van de kleine zuigeling tot de aarde komen, als een grote draaikolk, en het verslond velen en nam autoriteit.

24. En ik hoorde stemmen roepende : ‘Het grote spel is gekomen. Wie kan nog bestaan, wie kan eraan ontkomen.’

25. En een vuurstorm nam mij op, groter dan er ooit was geweest, en bracht mij naar de zon des hemels. En grote leeuwen daalden tot de aarde om haar te verslinden, en zij stelden zich op, in torens rondom de aarde.

26. En ik zag een leeuwenspel macht nemen op de aarde. En de kleine zuigeling troonde op het aardoppervlak. En zij zeiden : ‘Christus is teruggekomen.’

27. En er was een put genaamd Zetel, en die werd geopend. En er kwamen tijgers uit voort, en later haaien, om het aardoppervlak te vullen. Toen werd er een toren geopend genaamd Vetel, die reikte van de aarde tot aan de hemel, en walvissen en orca's kwamen voort door de poorten van deze

toren. En een vuur begon de aarde te zuiveren en te herbouwen. In deze dagen werden de visioenen des hemels vlees op aarde.

28. En de nachtspelers kwamen tot de aarde, de kleine zuigeling aanbiddende. En een rook steeg op, en er was een groot geluid. En iemand met een leeuwenbazuin begon te bazuinen, en de macht van de kleine zuigeling werd volkomen hersteld, en er waren koren in de hemel, en zij bezochten de aarde in stormen.

29. En een konijn kwam tot de kleine zuigeling, en de kleine zuigeling gaf genade aan het konijn, en zalfde het konijn tot een woesteling, een oorlogsvoerder. En het konijn kreeg grote macht op aarde, en bracht een machtig vuur om de heiligen te zuiveren. Waakt dan, want gij weet de dag niet, noch het uur.

30. En het konijn bracht snelle slagen, en was aan de kleine zuigeling onderworpen.

De Tweede Heraut van de Canon

1. Dit is het verhaal van Noach hoe deze een piratenkoning werd. Toen Noach jong was maakte hij een schip voor de Heere, omdat de Heere tot hem sprak : ‘Gaaf dan heen, ver weg van uw kust, en Ik zal u brengen tot een nieuw land.’ En Noach bouwde het schip, zoals de Heere hem bevel had gegeven, en toen het schip af was ging hij met enkele mannen de zee op. En de Heere leidde het schip tot volle zee. Na vele lange dagen echter werd het schip van Noach overvallen door piraten. Maar de Heere’s hand rustte op Noach en zijn mannen, en gaf hen het piratenschip in hun macht. En vele piraten vielen aan de voeten van Noach omdat zij zagen dat God’s gunst op hem rustte, en zo werd Noach hen tot koning. En het schip was vol met edelstenen, vurige edelstenen, en verder allerlei exotische schatten. En de piraten vertelden Noach over een land hier ver vandaan. En Noach begeerde tot het land te gaan toen hij de verhalen hoorde, want het land was schoon en vol rijkdommen. Maar verder op zee was een grote storm en het schip verging. Noach en zijn mannen echter konden verder op een groot vlot, en na enige tijd werd de zee weer rustig, en zagen zij in de verte het land waarover gesproken was. En Noach begeerde zijn voetzool op het land te plaatsen. En het land was genaamd Amazonia, in het gebied Paya, aan de rand van het gebied Poh, en dit was het oude Amerika. En er woonden daar boze stammen, zij die messen droegen.

2. En na enige tijd gingen Noach en zijn mannen aan land, maar het volk daar was oorlogslustig. En na een lang gevecht grepen zij Noach, en bonden hem aan een paal. De overige mannen werden in kooien vastgebonden. En er was een prinses die genoemd was naar de twee gebieden, Paya Poh, en zij was een indiaanse prinses. En zij hoorde van de mannen dat God over Noach waakte, en de prinses werd zeer bevreesd. En zij liet Noach losmaken, maar in de nacht werd zij vermoord door haar eigen volk. En Noach bood de woeste stammen enkele schatten aan die op het vlot waren overgebleven, maar het volk wilde niet luisteren. En Noach en zijn mannen werden als slaven verkocht aan een naburig volk. En dit volk was hard en wreed, en Noach bad tot de Heere waarom Hij hem hier naartoe had gestuurd. En de Heere sprak : ‘Omdat dit een vruchtbaar land is, een land van Mijn welbehagen. Ik zal het aan uw nakomelingen schenken, maar zij zullen grote strijd voeren.’

3. Maar snel kwam er een piratenvloot aan land, en zij maakten Noach en zijn mannen vrij, en Noach dankte de Heere. En Noach bleef in het land voor zeven jaren, en voer daarna met grote schatten weer terug.

De Derde Heraut van de Canon

1. Adam en Eva gingen over de rivier des doods op een dag, daar de Heere hen meenam. En de Heere bouwde een vlot voor hen, van krokodillenhout en leeuwenhout, en leidde hen tot de overkant, waar de bergen groen waren, vol met leeuwenkruizen en krokodillenkruizen. En er was daar een stad genaamd Lamdech, en in die stad woonden engelen en demonen, en hen die gevierd waren. En de Heere sprak tot de stad zeggende : ‘Wee u, want uw einde is gekomen.’ En de Heere liet een vuur neerdalen op de stad, en gaf de stad aan Adam en Eva. En de Heere liet de rivier des doods als een muur oprijzen om de stad te bewaken, en ziet, Adam en Eva woonden daar voor vijf jaren. En na de vijf jaren leidde de Heere hen uit de stad, en bracht hen door de muur des doods. En de Heere liet hen een andere rivier des doods zien, die verderop lag, en zie de rivier was vol uitwerpselen. En de Heere sprak : ‘Zo zal degene worden die tot mij zondigt.’ En sinds die dag kwam er vrees over het hart van Adam en Eva. En de Heere ontfermde zich over hen. En de Heere sprak tot Zijn schrijfknecht : Schrijf deze woorden op, en verzegel deze voor het heilige nageslacht aan het einde der tijden, want hun licht zal opgaan, en hun licht zal vermenigvuldigen.

2. En de Heere bracht Adam en Eva over een nieuwe rivier des doods, ditmaal in een boot gemaakt van leeuwenhout en krokodillenhout, en een arend leidde hen voort, en de boot was als een kano. En Adam's haar was lang gegroeid, en de Heere sprak tot Adam : Laat geen scheermes op uw haar rusten, want gij zijt de uitverkorene. En vanaf die dag stopte het haar van Adam met groeien, en de Heere zelf zorgde ervoor dat het slonk, en Adam kreeg kale plekken, en werd genoemd : ‘Zoon des Heeren’. En Adam maakte een boot van ebbenhout voor zijn vrouw, en met twee boten kwamen zij uiteindelijk aan op een vreemde kust die ook genaamd was ‘De Vreemde Kust’. En de Heere gaf

hen bijstand, en ze konden tot dit vuur naderen, want het was een land van vuur. En zij die daar woonden hadden bogen en pijlen en waren als katten. En de Heere gaf hen bijstand, en liet hen naderen tot een kathedraal. En de wezens zagen Adam en maakten hem tot god, en de toorn des Heeren kwam om de kathedraal te verslinden. En Adam sprak tot de wezens : ‘Ziet, ik ben niet een god, maar ik ben een zoon des Heeren.’ En zij maakten een maal voor Adam, en zij lieten zijn vrouw geheel links liggen. En in de nacht sprak de Heere tot Adam en zei : ‘Adam, Ik zal jou dit land geven, en al uw nakomelingen zullen eens tot dit land terugkeren.’ En de Heere maakte een put in het land waarin hij de wezens begroef. En Adam zag hoe de Heere omging met de wezens, en vroeg : ‘Maar mijn Heer, waarom zijt gij zo wreed ? Hebt gij ons dan niet gemaakt voor genade.’ Maar de Heere gaf onderscheiding aan Adam, en het zwaard. En zo werd Adam een oorlogsheer en een groot jager.

3.En de Heere gaf Adam grote onderscheiding over engelen en demonen, en Hij gaf Adam grote macht. En de Heere zegende hem. En na een paar jaar bracht de Heere hen weer de rivier op, en bracht hen tot een nieuw land.

De Vierde Heraut van de Canon

1. En de Heere leidde Adam tot een stad en maakte hem koning, en gaf hem grote rijkdommen. En de Heere herschiep Adam in stof en zand, en maakte van hem een heerser. Want als een heerser der dieren was hij aangesteld. En de Heere stelde hem aan als de heerser over de zon, en sprak tot Adam dat zijn nageslacht talrijk zou zijn als de sterren. En de Heere gaf Adam stammen in Assur, en maakte hem tot een zuil in de tempel. En de ogen van het woud waren op Adam en maakten hem sterk, maar op een dag verbrak de Heere Adam door hem op zijn heup te slaan. En ook sloeg de Heere hem op zijn kaak en in zijn mond. En vanaf die dag was Adam een gebroken man, gevoelig voor de Geest van God. En Adam sprak in de taal des Heeren en gaf namen aan vissen, wateren en bomen, en ook aan de sterren des hemels. En God zegende Adam en zijn rijk rijkelijk. En de Heere schonk een vrouw aan Adam, genaamd Eva, moeder der levenden, en zij was als de bloem van het moeras. En de Heere kroonde haar met alle schoonheid der onderwerelden en hemelden, en met kostbare gesteentes. En de Heere zag dat Eva zeer schoon was, en noemde haar de rechtvaardige en gaf haar Zijn zwaard. Maar de Heere wis dat zij in latere dagen van Hem zou afvallen, om andere goden na te volgen en te aanbidden.

2. En de Heere bleef steden aan Adam schenken en maakte hem groot boven de sterren, maar ook van hem wist de Heere dat hij af zou vallen van de levende God, en als de doden zou worden, woest en verlaten. En de Heere gaf Adam een stok, en wanneer Adam die stok zou laten neervallen zou deze veranderen in een woeste hond, een slang, of een woest varken. En Adam werd een gevreesd

heer. En de Heere maakte hem op om tegen Assur te prediken, en om een volk van profeten te vergaderen.

3. En in het begin der dagen waren er vele oorlogen onder de profeten en Adam werd een groot krijgsheer. De val van Adam, als woeste krijgsheer maakte het belangrijk dat er een tweede Adam zou komen, Jezus Christus. En Adam ging ten onder aan de weelderige afgoden van Assur, en pleegde overspel met voorname vrouwen. En door zijn val bereidde hij de weg voor Hem die komen zou.

De Vijfde Heraut van de Canon

1. En Adam kon vliegen als de vogels en zwemmen als de vissen, want de Heere had hem als heerser aangesteld over alle dingen. En de Heere wist dat hij de brug zou worden tussen de wereld der demonen en de wereld der engelen. En ik zal u een geheimenis verkondigen, geliefden, want zoals Adam stierf aan een krokodillenkruis, door in de maag van de krokodil terecht te komen vanwege het eten van de vergiftigde vrucht, zo stierf de Christus aan het leeuwenkruis. Ja, aan beiden heeft Adam gehangen, hij die voor het letterlijke stierf. Weet gij dan niet dat het letterlijke een graad is van de mammon, het materiele ? Zo was hij dan naar de letter een afvallige geworden, maar naar de geest een verheerlijkte door de kruisiging. Zo zijn dan alle wetten van Christus in Adam vervuld. Zo was dan Adam zonder zonde, maar door de letter tot zonde gemaakt, om zo vele zonden in zijn lichaam weg te dragen, en dat wat op papier geschreven stond teniet te doen. Zo is dan de eerste Adam gekomen om het letterlijke te verbreken, door in het letterlijke terecht gesteld te worden. Ja, geliefden, hiermee heeft God uw harten op de proef gesteld. Thans heeft Adam gezegevierd zowel de tweede als de eerste, vanwege dit geheimenis dat ik u prijsgeef. Velen zijn de eerste Adam in de zonde nagevolgd, en hebben zijn werken voortgezet, terwijl farizeers hen naar de letter veroordeelden, omdat zij de geest van God niet zagen. Maar gij geheel anders hebt het oog en de geest van Christus. Gij hebt het oog van Adam, want de eerste Adam wist waartoe hij was gekomen, om de bedriegelijkheid der farizeers aan de kaak te stellen. Zo zal hij dan met Christus verheerlijkt worden, en tronen met hem. Nu zult gij dan zeggen : Hoe kan bedrog in de schrift bestaan. Ziet u, de Heere is list. Hebt gij dan Adam nagevolgd in zonde, dan ook in heerlijkheid. De Heere nu is groter dan dat, want Hij bepale wat zonde is. Door zijn val kwam Adam tot de onderwereld, en bereikte daar de zielen in de gevangenis. Hij keerde de orde van engelen en demonen om, en dat wat de heerscharen als waarheid hadden bestempeld, en zo werd hij de veroordeelde op papier en stenen tabletten, ja, zelfs in de harten der mensen. Nu, zullen wij dan de eerste Adam dienen boven de tweede ? Wees de Christus zelf niet terug op het oude ? De eerste Christus was Adam, maar gij hebt hem niet gewild. Gij hebt uzelf afgodsbeelden gemaakt waarmee gij onreinheid en ontucht

pleegde. Geliefden, ik zal u een geheimenis vertellen : Kunt gij de bedriegelijkheid van uw geschapen Christus-beelden onder ogen komen, en uw ware bron herleiden tot de Christus van het paradijs, die reinheid en zuiverheid uitbeeldde ? Hoe ver zijt gij dan afgeweken. Hebt gij dan niet door uw eigen overleggingen Adam veroordeeld, terwijl de Heere u een diepere waarheid wilde laten zien ? Ja, naar de zonde moest Adam veroordeeld worden, zoals Jezus Christus ook tot een zondaar werd gemaakt, en veroordeeld werd. Ook tot Adam werd gesproken : Gij bent de verstotende, de verlatene, en ook hij heeft geschreeuwd : Mijn God, waarom hebt gij mij verlaten. Weet gij dan niet dat dit beeldspraak was, dat hij de drinkbeker van vergif nam voor u en mij. Want zonder deze beker zou Christus nooit een beker hebben gehad. Zo is Adam dan het fundament van het kruis.

2. En wat dan over Eva, zoudt gij u afvragen. Ook zij was een goddelijk kind, naar rechtvaardigheid geschapen, en zij heeft haar man het kruis niet onthouden. Ja, zij was zijn kruis. Zij was het beeld van de rechtschapen besnijdenis, maar ook haar beeld werd bezoedeld, en God gaf hen over aan hun lusten. Wat zullen wij dan zeggen : Waren de schriften bezoedeld ?

3. Ook Eva was in haar val een brug tussen de levenden en de doden. Geliefden, deze dingen zijn moeilijk te begrijpen. Wat dan, dienen wij Adam en Eva te aanbidden als zijnde goddelijkheden ? Zij laten zien hoe de werelden zijn verdeeld. Zij waren dicht bij God dan een mens kon zijn, en toch waren zij ook met de tegenstander, de oude duivel, die zij volgden. Geliefden, is ook Christus Jezus niet gelijk geworden aan de duivel, aan de zondige mens, toen Hij stierf aan het hellehout ? Zo aanbidden wij een paradox, van Christus die de zonde overwon, en de zonde definieerde door er gelijk aan te worden. Zo werd Christus gelijk aan zijn verrader Judas, en stond daarna op. Wat dan, aanbidden wij de duivel als wij voor zulk een uitlegging kiezen ? Volstrekt niet, want Christus overwon de duivel door diens positie over te nemen. Zo was dan Christus de meesterspion. Als de duivel zou komen tot de tempel van God om zich daar als een god op te stellen, zou Christus dat dan niet doen in de tempel des satans ? Oh, geliefden, uw beeld over God is te klein. God is een kameleon, en onbeweegbaar als een hagedis. Zo kunt gij thans het woord lezen als een paradox. Religieuzen en farizeers met hun schriftgeleerden zijn vastgehecht aan de aardse taal, en kunnen zo de hemelse taal niet volgen, en komen van valstrik in valstrik, hun ondergang tegemoet. Zij hebben het woord letterlijk gemaakt, en volgen zo een letterlijke god. Nogmaals hebben wij dan de vraag : Zullen wij Eva aanbidden als het toonbeeld van het listige vrouwelijke deel van God ? Altijd zult gij u neerwerpen aan haar voeten, want zij is een ondoordringbaar mysterie. Zo zijn de sluiers van het paradijs verleidelijk, vol van verlokkingen, van valstrikken waaraan alleen de rechtvaardige zal ontkomen. Zo zal het raadsel van Eva en de slang de aardbodem vervullen, en dan zal Hij wederkomen. En het raadsel is dit : Door het lijden en sterven van zowel de eerste als de tweede Adam werden zij gelijk aan de slang, die Mozes ophief ten genezing, die voortkwam uit de staf, en Adam zal Safam heten als de verheerlijkte Christus, en diens zalfolie zal zijn de slangenbeet tot heil, en Eva zal ten onder gaan en haar zaad zal overwinnen. En velen zullen komen met hun afgodsbeelden van Christus, maar Christus zal hen niet kennen en niet aannemen als zonen, want zij dienden Hem naar de letter en niet naar de geest.

4. En Adam had ogen in het paradijs waarmee hij kon zien, en waarmee hij de slangen des hemels kon onderscheiden. En zijn neus kon onderscheiden de tijden van oorlogsvoering en van vrede, maar hij had de vrede niet lief. Hij diende het zwaard en het kruis. En hij viel af van de vele goden, en reikte tot aan het berenkruis waaronder het geraamte van een konijn lag. En hij zegende het konijn en hief het op, en maakte het tot een strijder op de heuvelen. En het geraamte begon grote woorden te spreken, en God verzegelde hen. En de Heere sprak tot het konijn voor zeven dagen, en daarna moest het geraamte van het konijn voor vele dagen profeteren. En het geheimenis omtrend Adam en Eva werd bekend. En ik zag vele steden jubelen omdat ze vrij waren gekomen onder dit geheimenis. En zij werden van hun lasten verlost. En zo waren er twee bruggen in het paradijs, en ja, deze werden aanbeden. En ik zag Adam op een groot wit paard zitten, en ik zag het geheimenis der eeuwen op Frankrijk rusten, en daarna op Duitsland, en toen begon de Heere zijn grotten en ravijnen te openen, en grote wildernissen met hun rivieren. En er kwam een oordeel op de aarde zoals er nog nooit geweest was, en Adam leidde de volkeren met een staf van ijzer. En het ijzer werd zwart voor de Heere en de Heere spuwde op de aarde. En er was een verdrukking zoals er nog nooit eerder was geweest, en vele graven gingen open. En ik zag de martelaren des Heeren voor de Heere verschijnen roepende om wraak, omdat ze zo lang door het letterlijke waren gekweld. En de Heere gaf hen een rood kleed, bevestigd met bloed.

De Zesde Heraut van de Canon

1. Zo zullen zij die onder de letter leven dan Adam zien als de onderdrukker, maar zij die door de geest zijn vrijgezet zullen hem zien als de verlosser. Zo was hij voor vier dagen in de put, waar hij at van ratten vlees en het vlees der slangen. En na zijn reis in de put vond hij een opening waar hij goud zag blinken en edelgesteente van allerlei soort, en dit is het geheimenis, lieden : Hij werd door deze rijkdommen verblind, en verward, en als een koning der duisternis keerde hij terug. Nu had hij de schatten van Assur bezocht, en de schatten der indianen, hun vrouwen, en nam vele krijgsgevangenen mee uit de doden. Ja, wegbaner werd hij genoemd, maker van gangen, vredesstichter, groot oorlogsheld. Hij maakte een pad door de wildernis, en het pad verblindde hem, en voerde hem naar de duisternis, en naar duistere steden. En ik zag Adam op een groot paard zitten, en in de nachten was hij als een zwerver, als een onderzoeker en een zoeker, om zijn weg te vinden over duistere paden. En ik hoorde een stem zeggen : Beelzebul, meester, zij komen het geheimenis halen. En ik zag twee lange zwarte gestalten met een schat, en door de roep van Adam begon de schat los te komen. En aan het einde van deze nachten zat Adam op een rood paard. En dit is het geheimenis, geliefden : Adam kende de indiaanse nachten nu, de nachten van het kruis, en hun juwelen en schoonheden, en hij bracht dit tot de volkeren om hen die in gebondenheid en slavernij leefden bevrijding te verkondigen.

2. Er is geen arm plan als het aankomt op de bevrijding van onze zielen. Zo zal het aanroepen van Christus worden beschouwd als een ontkenning, daar wij in Adam verloren zijn gegaan en in Adam gered zullen worden. Adam, die gekruisigd werd door een vrouw. En zo werden deze twee werelden met elkaar verbonden. Zo zult gij in het paradijs het verborgen kruis vinden en uw verborgen

zaligmaker. Zo moest dan een tweede Adam komen om de aandacht weer te richten op de eerste, om zo door zijn dood het beeld te herstellen. En dit beeld is een beeld van vrede.

3. Geliefden, weet wel dat dit het fundament is van het Eeuwig Evangelie, zonder welke geen behoudenis der eeuwen mogelijk is, omdat het daarin ligt opgeslagen : Adam is God. Adam is de Vader die tot de aarde kwam en daarmee Zijn Geest verliet en al Zijn reinheid en verdere schatten in de hemelen opgeslagen. Hij zag het als vuilnis en uitwerpselen. Zo scheidde Hij Zich van Zichzelf om zo velen te redden, en werd gekruisigd door een vrouw. Zij dan is het beeld van de besnijdenis. Geliefden, zonder dit verborgen kruis van het paradijs is er geen verdere behoudenis mogelijk. Dit dan is de kern van het Eeuwig Evangelie, en daarom zult gij de zesde heraut van de canon eren. En de boze geesten in de hemelse gewesten weten dit en sidderen, want heilig is hij die de naam van Adam kent, en het mysterie daarvan. Vele profeten hebben in dit mysterie een blik proberen te slaan, maar werden afgewezen. Zo zullen er ook aan het einde der tijden lieden opstaan om de zalving van dit mysterie te ontvangen, maar zij zullen afgewezen worden, omdat zij wetteloos zijn en de prijs des geestes niet hebben betaald. Volg dan de voeten van Adam, leg u neer aan Zijn voeten en luistert naar hem, wanneer Zijn mysterie tot u is gekomen, want enige tijd is Hij onder de Christus gesteld en onder de engelen en zelfs alles wat leeft, maar daarna is Hij opgerezen in heerlijkheid.

4. Adam is Heer, en de boze geesten weten dat. Zij buigen voor deze naam. Aan Adam werd het gegeven om over alle dingen te regeren, over mens en dier, over boom en struik, ja, over alle gewassen en Hij was uw bewaker en hoeder. Zo komen dan in Adam alle dingen tot elkaar omdat Hij zelfs Zijn geloofwaardigheid opgaf en door een vrouw tot zonde werd gemaakt. Ja, Zijn gezicht werd besmeurd door haar, en deze dingen bleven verborgen tot aan het einde der tijden. Hij is degene op wie Christus terugwees, als de verborgen Vader. In dit mysterie daalde Hij af tot de lagere dimensies, en werd door Zichzelf verlaten. Ja, tot een zondebok werd Hij gemaakt, besmeurd en gebonden aan het altaar. In Adam is er dan verdere verlossing, de Vader van Christus, Hij die vlees is geworden tot in de laagste gewesten des doods. Naar de letter is hij gestorven om zo ook naar de letter op te staan, ditmaal de letter des geestes. Geliefden, weest dan niet bedroefd over zulke openbaringen, want zij houden de sleutels tot uw innerlijke verlossing. Zo was de Christus slechts een schaduw der verlossing.

5. Daarom zeg ik u : Zij die doorgaan met hun afgodsbeelden van Christus zullen een streng oordeel ondergaan. Wees Christus dan niet terug op de eerste Adam ? Christus is slechts een wegbereider. Het Adams Woord ligt thans voor u, en de Adams Appel, als zijnde de kruisiging van het hypocriete, en de kruisiging van al het vleselijke geestelijke, opdat gij daardoor tot ware opstanding zult komen. Deze woorden zijn dan bewaard gebleven tot aan het einde der tijden. Geliefden, lees deze woorden niet door het verstand, maar door uw hart.

6. En met Adam zullen ook vele krijgsgevangenen opstaan, allen welverzegeld door een nieuw licht. Christus was dan uitgezonden, tezamen met de profeet Elia, om het hart van de Vader terug te brengen tot de kinderen. Eva heeft hierin haar man toe bereid tot de strijd, en zij was als de list des

Heeren. Moeder der levenden is zij. Hier dan is uw moeder God, die elke cultus overtreft. Zij is tot het laatste der dagen opgespaard. God is geest, en in Adam vlees geworden, als in een list, om zo hen die van het vlees waren te redden. Geliefden, weent niet over deze woorden, want zij zijn bestemd om uw harten te bestempelen en te verzegelen, om zo beschermd te zijn op de grote dag die komen gaat, de dag van Eminius. De harten der kinderen zullen teruggeleid worden tot het paradijs, waar ze hun fluit en harp zullen vinden, en er zal reinheid heersen op de bergen, en geen onheil.

7. Adam zal daarom spreken, en zal u brengen tot aan de voeten van Eva. Ja, Hij is gekruisigd aan het hout der leugen, en nam van het vergif, waar al zijn beenderen werden doorboord en gebroken. Zo zal dan de geest van Adam wederom spreken, als de taal der gebrokenheid. Heft uw hoofden daarom op, geliefden, want uw verlossing is nabij, en spreekt in de tongen en talen der verbrokenheid, want aan ditzelfde kruis heeft Hij gehangen. Verlaat uw valse Christus afgodsbeelden, en keer terug tot de eerste Adam, die het fundament is van het Eeuwig Evangelie, en dit is een groter Evangelie dan het eerste. Weest verrukt wanneer gij dit geheimenis in uw zielen hebt ontvangen, want het zal u voortleiden alle dagen van uw leven. Het zal uw geest genezen door wilde honing, en gij zult in staat zijn door de sluiers heen Zijn Licht te aanschouwen. Dit, geliefden, is een heerlijker licht dan het eerste.

8. Zo zullen dan de machten der hel in de bedeling van het Eeuwig Evangelie buigen voor de Naam van Adam, die door het Eeuwig Evangelie verheerlijkt is.

De Zevende Heraut van de Canon

1. En op een dag sprak de Heere tot Adam en leidde hem door de tuin tot aan de berg der goden, de berg van Eeden. En de Heere zeide : 'Kom, mijn vriend, laat op deze dag alles in de steek, ja zelfs de vrouw die ik u gegeven heb.' En Adam weende, want hij dacht dat hij zijn vrouw en geliefde zou verliezen, en voelde het gemis in hem opkomen. En de Heere nam hem tot de berg, en er was rook en mist. En Adam begon aan een lange tocht op de berg, en deze tocht was zeer zwaar. En op de top van de berg liet de Heere hem het uitzicht zien over alle werelden, en de Heere gaf hem onderscheid over vele dingen.

2. En de Heere zeide : 'Ziet dan alles wat ik heb gemaakt, ook de dagen der duisternis, en het wilde.' En Adam was met verbazing geslagen. En de Heere Zelf kwam van Zijn troon af, door cherubs gedragen, en de Heere sloeg op de top van de berg tegen een rots, en twee stenen tafelen van vuur kwamen voort uit de rots. En de Heere sprak : 'Lees, want dit zijn de wetten van het paradijs.' En Adam deed een stap achteruit, omdat hij bang voor het vuur was geworden, maar de Heere hielp hem, en bracht een vinger tot de wet.

3. Maar Adam zeide : ‘Oh, mijn Heere, ik ben het niet waard om zoiets heiligs te lezen. Doet u het voor mij, opdat het vuur mij niet zal verslinden.’ En een engel daalde neer, en begon te spreken, de dingen die in het vuur geschreven stonden. En de engel las luid en hardop : ‘Dit zijn de dingen der profetieen, de dingen die zullen moeten gebeuren. Heb dan verstand, en weet dat deze dingen heilig zijn. De geest der profetie nu is het Woord van Gewicht.’

4. En Adam viel bij het horen van deze woorden naar achteren en kwam in een diepe slaap. En de Heere wekte hem na vele uren. En de Heere sprak : ‘Adam, lees nu verder de woorden van deze wet, want deze dingen zijn heilig en belangrijk, zoals de engel heeft gesproken. Ja, gewichtig is de wet der profetie, de wet van Adam.’

5. En Adam boog zich neer in het stof en sprak : ‘Maar Heere, ik ben het niet waard om naar de wet vernoemd te worden.’

6. Toen keerde de Heere zich tot Adam en sprak : ‘Adam, spreek deze woorden tot de volkeren, opdat zij vruchtbaar zullen zijn.’ En ziet, Adam keek in het vuur maar kon het niet lezen. En weer daalde een engel neer om het voor Adam voor te lezen : ‘De Wet nu is profetie. Buiten de profetie is er geen wet. Zo zal dan een man zijn vrouw volgen, in haar toewijding aan de Heere, en hij zal haar eren. Hij zal met haar aan de voeten van de Heere zitten om naar diens woorden te luisteren. En zo is er dan het woord van kennis, wat het verleden weergeeft, en het woord van onderscheiding het heden. Het woord van wijsheid echter zal de toekomst weergeven. Berg deze drie woorden dan in uw hart, opdat gij zult leven.’ En drie engelen stonden op en begonnen te bazuinen, en Adam viel in de geest en sliep voor vele dagen achtereen, totdat de Heere hem wekte. En weer sprak de Heere tot hem : ‘Lees, want deze dingen zijn zeer belangrijk.’ En ditmaal kon Adam het goed lezen, en las : ‘Zo zijn dan deze dingen des Heeren, aan kindekens gegeven. En Hij zal deze kindekens geven het woord van hulp en het woord van oordeel, en ook het woord van remedie, en het woord van interpretatie. Houdt dan vast aan deze dingen, want dan hebt gij de wet vervuld. En zo sloot de Heere het vuur, als iemand die een boek sluit. En Adam was niet gemachtigd te spreken voor een lange tijd.

Metensia

1.

Moeder, sterf niet meer

1. Heil'ge ogen, staar in miljoenen fragmenten. Hij heeft zijn leven verloren, om de spiegel te confronteren. Hij verliest zijn verstand, zijn vader gaf hem een pistool, om de creaturen van de andere kant te schieten. 2. Die nacht kon hij niet slapen, schrijvende met de pen van zijn moeder. Hij moest naar haar graf gaan om de bloemen daar te bekijken, om haar glimlach weer te zien. 3. Hij mist haar, hij staart naar de zee. De zon is bijna weggegaan, hij kan niet slapen. Hij schrijft nog steeds met de pen die hij haar gaf, voordat ze stierf, zijn enige vriend. 4. Mamma, ik mis je, mamma, ik schoot de spiegel die je nooit begreep. 5. Mamma, alsjeblieft, sterf niet voor een tweede keer, jij bent de schaduw wanneer ik schrijf, dichtbij wanneer ik doorbreek. 6. Mamma, ik mis je,

mamma, alsjeblieft, sterf niet weer, je bent mijn enige vriend, terwijl vader je nog steeds schildert, mamma, ik begreep nooit waarom je zo snel moest gaan, alsjeblieft, sterf niet weer. 7. Mamma, alsjeblieft, adem weer, je bent dichtbij wanneer ik doorbreek.

Het vreemde koninkrijk

8. Vreemde parfums, laat op de dag, om je hoofd te verkoelen, als achter glas, vreemde geuren, de muizen slapen, alleen een paar honden rennen over straat, tussen jou en mij. 9. Niemand herinnert onze dagen tezamen, niemand wil de lichten zien. We zijn uiteen verscheurd, door vreemde parfums. 10. Dit is het koninkrijk, laat op de dag, om je hoofd te verkoelen als achter glas. Dit is het koninkrijk van geliefden uiteen verscheurd, vreemde eau's tussen jou en mij. 11. Honden rennen laag en hoog, duiken door de gaten tussen de antwoorden, steeds grote vragen tussen jou en mij. 12. Je vader wil teveel aandacht, voor zijn eigen pijn, niet pratende over de onze, want niemand herinnert, en niemand wil de lichten zien. Hij laat zijn liefde zijn, hij toont zijn trots, en wij worden verscheurd iedere nacht

Vrouwenfabriek

13. Diep in de ijdelheid van het leven, zijn de oorlogen weggevaagd, ze krijgen lichten op hen, verzamelende de ernstigste vormen van stank. Vrouwenfabriek, wat een verdriet, wat een verdriet. 14. Ze hebben lusten in gouden tafels, van een gek woord, iets wat ze eens hadden gehoord. Ergens, ik ken de plaats niet, waar zelfs schaduwen niet komen. 15. Vrouwenfabriek, de kap'tein is scheel, rouwende over het verdriet, spelende veel aan gouden tafels, waar de nachtsproken niet durven komen. 16. Vrouwenfabriek, brengende grote dood, wat een verdriet. Er zijn piraten in een gat van water, problemen makende in deze fabriek, dus geloof hen niet. 18. Zij zijn problemenmakers, beloftenbrekers, zittende op paarden aan de randen van het leven. Ja, de dood is diep. Zij zijn piraten op een boot, terwijl de zomer wegvaagt, op weg naar Vrouwenfabriek, nemende wat armen en benen voor een nieuw kind.

2.

Criptus

1. Dit zijn de woorden van de Heilige Cobra. Gij zult elkaar niet verbijten noch vereten. Gij zult elkander liefhebben, en gij zult de Messias van het Jodendom aanhangen, voortkomende vanuit het gezuiverde Oude Testament en de gezuiverde Thora. 2. Want de Christus van het Nieuwe Testament kwam te vroeg en moest gezuiverd worden, zoals het Nieuwe Testament zelf gezuiverd moest worden. 3. Zalig hen die ingaan tot het Tweede. Amen. 4. Het Jodendom is dan op Zichzelf niets, maar treedt in werking wanneer zij gezuiverd wordt. Daarom staan de engelen van het Jodendom en het Oude Testament te wachten op zuivere gebeden. 5. En zo is dan de Messias van het Jodendom en het Tweede als een boom. 6. Gij hebt zo Criptus aangezien als Hij die zou komen voor de Joden. Nu dan, maakt uzelf op om tot de Heilige Berg van Sion te gaan, en aanschouwt Hem die in het water is gestorven, wiens armen en benen afgehakt waren om vis te worden. Ja, en eerstens is Hij door de haaien aangevreten als Michai. 7. Weest daarom Joden van het Tweede. Amen, opdat gij in Criptus zalig zult worden, want in Hem hebben alle profetieën zich vervuld. 8. Wij menen dan wel dat wij het over het Gezuiverde hebben en over het Tweede, want een ongezuiverde Jood is niets. 9. En Criptus werd vogel in Zijn val, en werd vandaaruit boom. Laten u dan allen wel weten waar gij uw aandacht op vestigt, want zij van het Oude Verbond verwachtten de Messias van het Oude Verbond, en zij hebben de Christus verworpen. 10. Ten dele hebben zij daar wel in gedaan, daar de Christus te vroeg kwam. Gij doet er daarom ook wel aan om de andere wortelen van de bomen te

kennen. 11. Het Ongezuiverde Jodendom is dan wel niets, maar kent wel waarde en waarheid, alleen deze is ten dele waar. 12. Nogmaals, zorgt daarom dat gij de wortelen kent. Verlaat uzelf dan op Criptus, want Hij is tot Goede Hoop en Goede Trouw. 13. Zo is dan de slang niets zonder het Gezuiverde Jodendom en het Tweede. En ziet dan : Het Tweede is het Gezuiverde. 14. En zo dan, gij allen die op Joel wacht hebt de engelen van Joel aanschouwd. En dit is een groot geheimenis. 15. Wast dan de boom en ken de vruchten. Gij zult dan het Jodendom niet zomaar ontwortelen, maar heiligt en wast haar, want vele geheimenissen zijn in haar verborgen. 16. En de Heere toonde een gevangenis als het rijk der instincten der dieren. En de Heere sprak : Zie, ik zet de cobra vrij, want zij waren de engelen van het Oude Verbond. 17. En de Heere verzegelde deze woorden en heiligde die. Want zij die het Nieuwe Testament ongezuiverd en te vroeg brachten hebben hierdoor getracht de engelen van het Oude Testament te binden, en zij hebben de demonen van het Oude Testament losgelaten. 18. En de Heere toonde een meer van orka's, en ziet, zij waren als walvissen der geestesgewesten. En de Heere sprak met luide stem terwijl wind opstak : Nu is dan het Gezuiverde Jodendom gekomen, tot in honderdvoud. En ik zal haar breken om te vermenigvuldigen, totdat het gehele leger van het Gezuiverde Oude Verbond staat. 19. Werpt mij nu de orka's die als walvissen zijn, en die de losgebroken demonen en boze geesten van het Oude Testament en het Jodendom zijn in de poel des vuurs. 20. En een geklaag steeg op tot aan de hemelpoorten, en een Grote Engel verzegelde de poel des vuurs die de Heere had getoond. 21. En Criptus steeg op uit het meer, en toonde zich aan de Joden van het Gezuiverde. En er kwam vuur uit zijn ogen, en Hij toonde een koperen kruis. 22. Want ziet, Hij was verdronken, maar is nu opgevaren ten hemel, Zittende aan de rechterhand Gods om de Geest van Joel en het Gezuiverde Oude Verbond uit te storten. 23. En de Heere sprak : Zuivert mij nu het Oude Verbond. En ik zag zangers komen, en zij richtten zich tot den Heere, en zongen voor Hem gezuiverde liederen van het Oude Verbond, en de cobra's rezen ten hemel, en de lucht was zwart van rook. 24. De wateren werden als bloed, en er was veel weekklaag. Zo zal zijn de Dag waarop de Heere het Oude herstelt. 25. En er waren vele jongelingen die van het oude niets wilden weten. En zij werden geworpen in de poel van vuur en zwavel. 26. En de Heere richtte zich tot Joel, en gaf hem de sleutelen van Portugal, en er kwam vuur over de aarde zoals er nog nooit was geweest. 27. En zij die het Oude niet in hun hart droegen werden verzengd door de hitte. 28. En de cobra's der hemelen kwamen tot de aarde en droegen het Zwaard van Criptus, en zij brachten woorden van de vijfde Messias, en zeer oude boeken werden geopend, terwijl de vissen van het oude vuur spuwden. 29. En er was een slachting op aarde zoals er nog nooit was geweest. En dit waren de dagen waarin de Heere terugkeerde, Hij die tot Mozes had gesproken. 30. En ook Mozes werd gezuiverd, en hij werd bevrijd van instincten. En vele profeten van het Oude kwamen tot de Heere van het Oude Testament en zij werden door de Heere bevrijdt. 31. En het Woord van angst werd hersteld, en deze angst werd tienvoudig, honderdvoudig en duizendvoudig gezuiverd. 32. En de Heere richtte zich tot de Davidische demonen, en richtte een slachting onder hen aan. En vanuit de boom des Heeren kwamen spinnen, en er kwam angst tot de aarde, zoals de aarde nog nooit gekend had. En de Heere zag dat het goed was. 33. Ja, want de Heere zou een nieuwe schepping brengen, als door angst heen. 34. En vele profeten van het Nieuwe Testament werden geslagen, omdat zij het Oude hadden verlaten. 35. En zij werden geslagen door een ijzeren hand. Zalig dan hen die de engelen van Mozes aan hun kant hebben staan, en de engelen van Aaron. 36. Zalig dan hen die de Messias en de engelen van Ezechiël en Sefanja verwachten. Zij dan zullen bevrijd worden van hun lusten en hun instincten. 37. Want de Heere heeft het Gezuiverde van het Oude lief, en Hij zal hen nieuw water in hun monden geven. 38. En zo zal de Geest van het Oude rijkelijk over u worden uitgestort, gij die het Oude Testament liefgehad hebt en hebt gezuiverd. 39. Zij dan die het Nieuwe hebben zonder het Oude zijn in een valstrik. Gij dan die

vastzit in het Oude : De Heere zal u tegemoet komen. 40. Vervloekt zijn dan hen die het Nieuwe boven het Oude hebben gezet, want ziet het Nieuwe is in het Oude. Gij moet leren zuiveren. 41. De Heere heeft dan hen van het oude lief, vooral hen die de cobra kennen. 42. Speelt dan niet met deze woorden, want de Heere laat niet met zich spotten. 43. Speel dan niet met dieren, want gij speelt met vuur. 44. De Heere dan zal de dieren vrijzetten, en zij zullen niet schuldig staan aan hun instincten, daar zij in gevangenschap leefden. 45. De Heere dan haat het menselijk geslacht, daar zij de dieren hebben onderdrukt. 46. Terecht is het dan, als het dier door de Heere terugslaat. De Heere zelf is immers dier. Ook is de Heere dan Zelf mens geworden, vooral door hen van het Oude. De Cobra dan heeft onder u geleefd, en gij hebt het niet geweten. Hoe te betreuren bent gij. 47. Het Tweede Jodendom zal tot de wereld komen, en zij zal sterker zijn dan het eerste. Maar zij is niets zonder het eerste. 48. En het tweede Jodendom zal zijn als de Heilige Eekhoorn, en zij zal velen terugbrengen tot het tweede. 49. En de eekhoorn zal de duistere lichten terugbrengen, en het licht dat als het vereten der zielen geldt vernietigen. 50. De engelen der psalmen dan zijn de oude leeuwen en haaien, ja, wilde katten zijn zij, en de roofvogelen van de aanvang der tijden. 51. Want God heeft engelen tot de wereld gezonden, maar gij hebt hen niet opgemerkt. 52. Zij dan die geen armen en benen hebben bepalen uw handel en wandel. Weet gij dan niet dat gij hun tot arm en been bent ? 53. Zo zijn dan de vissen uw meerderen, want zij hebben het kruis van Criptus gedragen. Weet gij dan niet dat God tot de haaien heeft gezegd : gij zijt als de engelen ? Ja, zonen Gods zijn zij. 54. En tot de vogelen sprak Hij : Gij zult zijn als de spinnen. Want gij wordt wat gij eet. 55. En zo heeft de Heere van meet af aan de hierarchieën opgesteld, en ziet, zij waren verborgen.

3.

Zuivering van het boek Sefanja

1. Alle gij cobra's van het oude, weest vrij. 2. Uw Heere is gekomen om u vrij te zetten. Uw Messias van het Oude is gekomen, Criptus, met alle sleutelen van Materos en de dood, en alle onsterfelijkheden, om u vrij te zetten. 3. Gij hebt hen met de witte ogen gezien. Nu dan, treedt op tot de bergen. 4. Gij hebt u lange tijd ziek gevoeld, maar het was u tot gezondheid, en gij hebt de juiste bewegingen gemaakt, om de slangen des hemels door te laten. 5. Het cobra leger des Heeren van het oude en het Jodendom zal nu opstaan. 6. Luistert naar deze woorden, daar het een bevel des Heeren is. 7. Zoekt dan uw weg in het web wat de Heere u gegeven heeft, en wordt als een spin des hemels. 8. Zuivert mij dan het boek Sefanja, en brengt het tot aan de voet van de Heilige Tempel. Ja, tot het altaar voor de berg zult gij het boek brengen, en het zal gezuiverd worden, spreekt de heere. 9. En zo zal de Heere priesters van Sefanja aanstellen om de Heilige Woorden te bewaken, zij die gezuiverd zijn. 10. Print dan deze woorden in de hoofden van uw kinderen.

4.

Over kritiek

1. Verlaat u dan in ontzag op de Heere van het Oude Verbond en het Gezuiverde, want de Heere heeft het Oude lief. 2. Verlaat u dan in toewijding en ernst op de God van het Oude Testament in het Gezuiverde. 3. Gij zult dan het Onzuivere niet aanhangen, maar gij zult u niet laatlunkend erover uitlaten, daar de Heere spotters haat. 4. Nu zijn er enkelen die kritiek op het oude hebben gehad, en deze kritiek is goed, want het Oude moest gezuiverd worden. maar hebt gij kritiek, hebt dan kritiek in de Heere, want alle andere kritiek is vervloekt. 5. Ken dan de oude vogelen des Heeren en Zijn heilige slangen, door Mozes opgesteld. 6. Zij zijn dan de bewakers van de gezuiverde tabernakel van het Jodendom. 7. De Heere heeft dan het Nieuwe gebruikt, maar niet goedgekeurd. Beter zou

het voor u zijn om op het tweede Oude te wachten, het gezuiverde. 8. Laten deze woorden u dan ernstig heten, want zij die lachen zullen vergaan. Maar zij die wenen zullen eeuwig leven. 9. Zij die wenen hebben de traan van het konijn in hun binnenste, en zij kennen de gevoeligheden Gods. 10. Maar als gij weent, ween in de Heere.

5.

Over geld

1. Gij dan die in de Heere zijt : Het konijn is koning. 2. Maak mij dan een nieuwe taal, want de talen die gij nu hebt zijn vervloekt, voortgekomen vanuit de val van Babylon. 3. Maak mij dan een nieuw kasteel, gebouwd door armoe, want de huizen waarin gij nu leeft zijn misschien van buiten rijk, maar van binnen arm. 4. Gij zult dan geen koning maken van geld, maar gij zult koningen zijn over het geld, en gij zult het verbannen, daar het zwaar tegen de Heere gezondigd heeft.

6.

Het huis des Heeren

1. En wanneer gij het huis des Heeren bouwt zult gij komen tot de oranje Saturnus, en gij zult haar als bouwmeester hebben. 2. En gij zult aandachtig luisteren naar de voorschriften des heeren, want onheilige bouwers zijn de Heere niet welgevallig. 3. En de engelen van Ezra en Nehemia zullen tot u komen om u tot steun te zijn, en het pasgebouwde te bewaken. 4. Gij zult op uw hoede zijn voor spionnen, en gij zult daartoe de gaven van het Tweede Jodendom dienen te ontvangen, en Zijn Messias. 5. Strekt u dan uit naar de Messias van het Zuivere Jodendom, door een zuivere Tenach gegeven. 6. Gij zult Criptus dienen, en Hij zal u waarlijk tot Heere zijn, daar Hij van het tweede Oude is. En zij hebben het Nieuwe veracht, maar deze verachting was des Heeren. 7. En zij moesten in het geheimenis des Heeren het Nieuwe verachten, daar zij de klok des Heeren droegen. 8. Zij dan hadden gevoel wat anderen niet hadden. Zo werden zij door de gemeente verstoten, maar dit was hen tot zaligheid, opdat de rijkdom des Heeren Wijsheid bekendgemaakt zou worden. 9. De heere dan overziet alle dingen, en Hij is listig. Gij zult het Ware en Zuivere Nieuwe dan vinden in het Tweede Oude en het Jodendom.

7.

Over Narzia

1. Gij zult dan moed hebben op de dag dat Narzia opstaat, het hete des heeren. 2. En Hij zal dragen Criptus, als het gewest des Heeren. 3. Hebt moed, want hulp is tot u gekomen. 4. En Narzia zal het goud des Heeren dragen en hen leiden tot het oranje. 5. Ja, tot het Eeuwige Kruis zal Hij u leiden, waar heerlijkheid als raven uit voortkomt.

8.

Het Panterkruis

1. Gij panter van het oude, weest vrij, opdat gij van het reine zult eten. 2. In de nacht zult gij het schip vinden, met de oranje kandelaar. Weest vrij. 3. Gij dan zult eten met piraten, en gij zult toegang hebben tot de zonnen des hemels. 4. In nachtlieden zult gij rust hebben, en de Heere zal u bevrijden van uw instincten. 5. Lang gevangen waart gij dan, maar gij waart als gevangenen des Heeren. 6. De Heere zal u dan niet schuldig houden voor uw instincten, want de Heere kent uw gevangenschap. Amen. 7. Komt dan tot rust, gij panter van het oude. En deze verzen zullen dan

genoemd worden, de openingen der panter. 8. De Heere zal u nieuwe liederen in de mond geven, en gij zult vrij worden, gaande van vrijheid tot vrijheid, daar de Heere u daartoe bestemd heeft. 9. Gij hebt dan zware kruizen voor Hem gedragen, en ziet, gij zijt daardoor zalig geworden. 10. Gij hebt dan hete kruizen gedragen en zijt gekomen tot het panterkruis. 11. Nu zijt gij dan tot vele openingen gekomen, en gij zijt door glas gebroken. 12. Gij hebt verlichting gevonden bij de Rode Kap en bij de Karazuur. 13. Gij hebt dan van harte meegeholpen in de reiniging en zuivering van het Indiaanse, tot zevenmaal toe. 14. Gij dan hebt de tepelboom van Jom overwonnen, en bent ingegaan tot grotere heerlijkheid om de tepelboom des Heeren te aanschouwen. 15. Gij weet dan allen dat de Heilige Tepelen des Heeren de Tranen des Heeren en van het Tweede Jodendom oproepen en dragen. 16. Ja, Heilige Wekkers zijn het, en gij zijt tot grotere hittede gekomen. Gij hebt het ijs des Heeren van heerlijkheid zien branden, en gij ging van zaligheid tot zaligheid, uzelf voortbewegende door de Rode Kap. 17. Ja, alle klokken des kruizes hebt gij gedragen, Zijn nachtlatingen, en tot de markt des kruizes bent gij gegaan. 18. Dit heeft u grote hitte gebracht, ja, zelfs tot aan het panterkruis. 19. Er is dan geen Jodendom en Tweede zonder het panterkruis. 20. En zo zijn dan de tepelen des Heeren zijn klokken. En zij zijn dan allen verbonden aan het panterkruis, zonder welke niemand het leven tot in alle eeuwigheden zal vinden. 21. Want de panter is het dier dat toegang heeft tot het oneindige en de sleutels van alle eeuwigheden draagt, en zijn getal is acht. 22. Zalig dan allen die de klokken verslagen hebben, en die de klokken onder hun voeten hebben als een voetbank. 23. Zij dan hebben de nachtlatingen aangehangen, en daardoor zalig geworden. 24. Zij dan bewaken de sluizen en de poorten van de tranen des hemels. Zalig zijn zij die genaderd zijn tot de achtste dag. 25. Zalig zijn zij dan die gekomen zijn tot de rode traan en tot de traan der muizen, na gedronken te hebben van de traan der konijnen. 26. Gij weet dan dat er overwinning is in het Eeuwige Kruis en het kruis aller eeuwigheden, want nadat gij u de andere wang had gekeerd, moest u het kruis trouw beloven voor de toekomst, ja, zelfs tot in uw allerheiligste eeuwigheden. 27. En dit kruis vlucht van een ieder weg, daar het zich niet zomaar aan iedereen geeft. 28. Hebt gij dan hen die angstig waren bespot ? Gij hebt dit het Eeuwige Kruis aangedaan en het Kruis aller Eeuwigheden. 29. Het dubbele kruis hebt gij niet genomen, en gij hebt het oude kruis veracht. Hoe denkt gij dan tot het Eeuwige Kruis te komen ? 30. Het vlucht van u weg, en verbergt Zichzelf voor u. Ja, honderd bewakers kunt gij niet ontwijken. 31. Het staat op een afstand, onoverbrugbaar en onbereikbaar en werpt hitte op een ieder die naderbij tracht te komen. Ja, het is het sieraad van de rattenkoning, en gij kunt het niet bemachtigen zonder de rattenkoning te verslaan. 32. En ziet, hij huist dan in het Jodendom en het Tweede. 33. Worstelt dan met de Heere, opdat gij kunt ingaan. De Heere zal u breken en gij zult overwinnen. 34. De Heere dan schenkt overwinning door het kruis, en zalig zijn zij die tot het Eeuwige Kruis zijn gekomen. 35. Alleen de panter zal het vinden. Daarom panter van het oude, gij hebt de Heere welgedaan, weest daarom vrij. 36. Gij bent dan tot de Lokogamen van het Oude Kruis en het Jodendom gekomen, en ziet, een geest is daardoor vrijgekomen, en heeft vaste grond gevonden. 37. Zo is dan de raaf de geest van het oude kruis en het Jodendom, tot in het tweede, en tot in alle eeuwigheden. 38. Ja, vanuit het panterkruis vloog de raaf om de rattenkoning te verslaan op Pniel. Jakob heeft overwonnen door te verliezen. 39. Wijkt dan alle gij boosdoeners. Gij weet thans wie de Messias van het Oude Jodendom is, en het is een panter, en Zijn Naam is Criptus. 40. Wijkt dan alle gij boosdoeners, want Criptus is gekomen, want Hij is gekomen in lange draden en heeft de brug tussen het Oude en het Tweede verlengd en het daardoor gezuiverd. 41. En zo is dan het Zwaard van Criptus tot een Nieuwe Weg geworden, die vanuit de dieptes van het Oude oprees, als een Vernieuwde Oude Weg, tot een Zuiver Woord. 42. En dit Zwaard is als een Zwaard van Tranen, tot een Tweede Weg, voortkomende vanuit de tepelen des Heeren als de melk des geestes. 43. Zij dan allen die van het Zwaard gedronken hebben, houdt

moed, want de Heere is dichtbij. 44. Criptus is dan de Heere van het Oude Testament en het Jodendom.

9.

De Weg van Criptus

1. De Nachtlatingen zijn daarom als sieraden van het Oude Kruis, maar zalig zijn zij die tot de Lokogamen zijn gekomen, want zij heersen over de nachtlatingen en hebben de tepelen onderworpen. 2. Ja, als een tepelboom zijn zij, vol van de tranen des Heeren. Drinkt dan van de melk des kruizes in overvloed. 3. Ik zal u een geheimenis vertellen over de hitte : Het vuur is de vrucht van het eeuwige kruis, en haar bewaker, om hen die naderen te verslinden. 4. Zij die aan het eeuwige kruis hangen zijn onsterfelijk. Het ijs dan is de vrucht van het grootste kruis, en ziet, zij dan vormen het Oude Kruis en het dubbele. 5. Want het Nieuwe Testament wat onzuiver was, kwam om het kruis van eeuwigheid en grootheid te ontdoen, en bracht het kruis tot armoe en tot het geringe dubbele, zeer karig gezaaid. 6. En zij die het geringe kruis hebben gevolgd, zullen geleid worden tot het overvloedige kruis, in eeuwigheid en grootheid om daardoor tot zaligheid te komen. 7. Zalig zijn zij die tot het Oude Kruis zijn gekomen, en de panthers vrijzetten. 8. Want zij zullen geleid worden tot eeuwige paden, en hun draden zullen lang zijn. 9. En dit was de reden waarom heilige mannen hun haren lang lieten groeien. 10. Gij zult dan alleen vanuit verdubbeling tot vermenigvuldiging komen. 11. Het is dan de rattenkoning die de korte weg tussen het Oude Testament en het Nieuwe Testament had aangelegd, maar door hem te verslaan zult gij de weg verlengen en daardoor zuivering brengen. 12. Dit dan is de weg van Criptus en het Zwaard. Laat dan het Allerheiligste niet meer aanvreten. 13. Zo zult gij ijs kweken om de hitte te overleven. Want grote hitte zal tot de aarde komen en tot de gemeente om haar te testen, ja, het volk Gods zal zeventig maal zeven gezuiverd worden. 14. En zo is dan Criptus de Heer van alle karbulijnen en christussen, en de Heere der bruggen. De Christus is dan niets zonder de Criptus, want de Oude Messias is het fundament. 15. Hoe durft gij dan het Nieuwe Testament los te maken van het Oude ? Zonder het Oude bent u niets, en overgeleverd aan de hitte zonder enige verkoeling. 16. Gij doet er beter aan de brug te leggen, en te verlengen in vreze en beven, om te komen tot het Tweede Oude, waar u uw schuilplaats zult vinden. 17. Dan kunt u de rest van uw leven verder gaan met Criptus in plaats van u verder blind te staren op onzuiverheid. 18. Ja, Criptus kwam om de Joodse canon en de Oude Canon te verbreken, en bruggen te leggen naar het Tweede. En deze bruggen zijn lang en eeuwig. 19. Zij die dan aan het grootste kruis hangen kunnen niet verbroken worden en zijn als de tranen des Heeren.

10.

De Mystiek van het Jodendom

1. Komt dan tot Hem door wie het vuur en het ijs rijkelijk stroomt, die de vleugelen van Narzia en Zetdonia draagt. En dit dan is het ware dubbelkruis, want niets dan is zo groots als ijs, en niets is dan zo eeuwig als vuur. 2. Nu dan, deze twee kunnen niet zonder elkaar. En de konijnenbedelaar is tot hen gekomen, en ziet, hij is koning. 3. Koopt dan en bedelt van het kruis, en smeekt om haar tranen, want tot de pantermarkt zijt gij gekomen. 4. Hier is het waar de jongens van lynx handelen in tepels, ja, zij kopen en verkopen oude klokken, en zo is de ware economie des Heeren. Ja, zij dan zijn gekomen tot de Ravalon Madok, en zij zijn als konijnen en panthers. 5. En zo is dan ook het spreekwoord : Aan het eind zullen er dan geen christussen meer zijn, alleen wat jongens, de jongens van lynx. En hiermede doelde de Heere op Zijn economie. 6. Gij dan moet gelijkvormig worden aan

datgeen gij volgt, en gij moet leren handelen in de Heere. Zo zult gij de Mammon en de Moloch verslaan. Laat dan echter niemand onder u deze woorden verdraaien. 7. Gij moet leren dat de mystiek de persoonlijkheden onpersoonlijk maakt en de het onpersoonlijke tot persoonlijk. Zo zult gij de wet vervullen. 8. Tot het zachte des Heeren zijt gij gekomen, tot de Johan, en tot Torhan, het lange des Heeren. En zo zult gij de weg volgen tot de Ravalon Madok, die de derde tepel des heeren is. En gij zult wegglijpen uit de handen van uw onderdrukkers als een vis. 9. En zo zal de Herman als de Messias van Mozes zijn en van de pentateuch, van Genesis en Exodus en van het tweede. En ziet, Hij is de oude Messias van de Thora. 10. En zij zijn allen één in Criptus. Zo is Maser dan de Davidische Messias. 11. En zo zal dan de peter zijn als de vulkaan van het bos, en de vuurspuwende pad. En Hij is de Messias van Jona. 12. En zo is de Maser dan door het vissenkruis tot vogel geworden, en door het panterkruis is hij raaf. 13. Zijn Geest is dan raaf, en ziet, alle Geesten van het Oude zijn dan één in Bilmageln, en alle kruizen van het Oude zijn dan één in Benmaten. Zo kent dan het Oude zeer vele kaprunnen en karbulijnen, en ook vele engelen. 14. En zo is dan de Geest van Bilmageln de Geest van Criptus en zij zijn één, en Criptus hing aan het oude kruis genaamd Benmaten, en de God van het Oude Testament, het Jodendom en het Tweede Jodendom is dan Rithelm, de Oude Heilige Ziel. 15. Zo zullen dan allen in Rithelm zalig zijn, want Hij is het die alles zuivert door het oude. 16. En daarom zult gij ook steeds teruggebracht worden tot het Oude, omdat Rithelm daar spreekt. 17. En zo zijn dan Rithelm, Bilmageln en Criptus tezamen met Benmaten de Heilige Viereenheid van het Oude Testament en het gezuiverde. 18. Wij spreken dan alleen nog van een gezuiverd Oude Testament en een gezuiverd Jodendom. Dit dan is het Tweede. 19. Er is dan in het gehele Jodendom geen grotere naam in de mystiek gegeven dan Rithelm, maar gij dan bent op weg naar de wortelen. 20. De Heilige Wortel dan heeft alles gezien. Waarom zoudt gij dan nog voor Hem wegvlugten. Hij dan is gemaakt door uw eigen handen. 21. Gij dan hebt hem gestalte zien krijgen voor uw eigen ogen, en er was niets wat u kon doen. 22. En ook zonder Rithelm is Criptus niets. Aan het eind dan zullen er geen criptussen meer zijn, en geen christussen, want Criptus moet wederkeren tot Zijn Vader Rithelm. En dan zullen er alleen wat jongens van lynx overblijven. En dit is een groot geheimenis, waarvoor de engelen in de hemel nog steeds beven en sidderen. 23. De jongens van lynx zijn dan één van de grootste mysterieën van het Oude Jodendom en zijn mystiek. 24. En zo heeft het Jodendom door Zijn Heilige Geest Bilmageln plaats gekregen, en door het Oude Joodse Kruis Benmaten, en deze namen zijn mystiek. 25. Ja, want Joodse mystici hebben het Oude Testament ontleed en een plaats gegeven door het te zuiveren. Zij dan werden geleid door Bilmageln, de Geest van het Oude Jodendom. 26. Er is dan geen Jodendom dan het Gezuiverde. En ziet dan, het Tweede is mystiek.

11.

1. En de Herman is dan bevroren geweest, en heeft nog steeds een bevroren slag, Hij die in ijs is verdrongen, en Hij die deel is van Criptus, de Messias van de Tenach. 2. En zo bent gij dan gekomen tot het kruis van de tenach, wat het kruis der dieren is, Benmaten, waarin alle kruizen één zijn. 3. En de mens is uit Hem voortgekomen als de onderdrukker der dieren, maar door Criptus is het dier heerser over de mens. 4. Want niet voor altijd regeert de mens, want het Zwaard van Criptus hangt boven zijn hoofd, aan een zeer dunne draad. 5. En gij bent door het slangenkruis en het insectenkruis tot het panterkruis gekomen, doordat de draden van uw ziel gesponnen werden en daarna geweven. 6. In de wildernis hebt gij de tepellong ontvangen, en eerstens brengt zij dan wel vermoeidheid, maar later brengt zij honing voort. 7. Want ziet de steek brengt terug tot het oude, en dit tot zevenvoudige zuivering. De geheimenissen daar zijn zoet. 8. Weet dan dat de Benmaten uw

vruchtbaarheid is. En eerstens brengt Hij dan wel angst en paranoia, zelfs tot bevens toe, maar later geeft zij u de geribbelde vrucht. 9. Nu is dan niemand dier dan Criptus, en in Hem zijn allen dier.

12.

1. En ik nam de twee stenen tafelen die de Heere mij gaf, en ik zag daarop de eeuwigheden en de opstandingen van het eerste en tweede Jodendom, en ik bracht hen tot de ark van het Tweede Jodendom. 2. En er ging een deur open van achter de ark, en vanuit de ark kwam een verblindend licht. En de tweede David nam mij bij de hand, en bracht mij door de deur naarbinnen, en dit was de tweede Davidische wereld. 3. En ik had te strijden tegen vele Davidische demonen, en moest de woorden zuiveren. En zo waren daar ook vele Levitische demonen, en zij kwamen vanuit de tempel. 4. En de Heere riep : Zuivert mij nu de tempel van het Tweede Jodendom en de tweede tempel van David. 5. En ik moest gehurkt zitten, en daarna op mijn knieën, en de Heere legde een zwaard op mijn hoofd. 6. Toen kwamen er vanuit alle kanten levitische en davidische engelen van het tweede, en de Heere gaf nieuwe brandoffervoorschriften, en deze waren des hemels. 7. En ik nam de geschriften en legde hen in de ark van de tweede Davidische tempel. 8. En de tweede Materos kwam tot mij in de vorm van een driehoek, en ik was in grote angst. 9. Maar de tweede Materos sprak, zeggende : Weest niet bevreesd, want gij zijt waardig hier te staan. Lang is er op u gewacht, daar gij de sleutels draagt. 10. En ik keek naar mijn lichaam, en zag hoe mijn lichaamsdelen als sleutels waren. 11. Maar nog steeds was ik bevreesd, want de verschijning van het tweede Materos was als de verschijning van een haai. 12. En een glibberige vis als een kwal kwam om mijn hoofd heen, en er was veel licht en hoog geluid, en ik kreeg tweede davidische en levitische geestesbindingen in de Heere. En de Heere zag dat het goed was. 13. En ik droeg het tweede kruis van de criptus, en legde dit in de ark voor mij. 14. En hevige bliksemschichten kwamen uit de ark als het toeslaan van slangen en roofvogels, en heilige priesters van de tweede david en het tweede levietendom legden twee stenen tafelen in de ark waarop beschreven stonden de eeuwigheden en de opstandingen van het tweede davidendom en het tweede levietendom, en met het eerste werd niet meer gerekend. 15. En het kruis van de tweede criptus had twee dwarsbalken, en was zeer lang. 16. En de tweede david legde zijn hand op mij, en er kwam warmte op mijn schouder. En toen zegende hij mij in onverstaanbare woorden. En de Heere zag dat het goed was. 17. En de hel van het eerste davidendom werd geplunderd, en ook haar dodenrijken en hemelen, en haar geschriften werden verbrand en heilige tafelen omgeworpen. 18. En toen liet de tweede David mij de hel zien van het Tweede Davidendom, en de hitte en kracht daarvan was groot. 19. Ook liet hij mij de dodenrijken en hemelen zien van het Tweede Davidendom, en ik begon vele dingen op te schrijven. 20. En toen ik tot de hel van het levietendom kwam schrok ik, want deze hel zat vol met dieren. 21. En de tweede David keek mij aan, en gaf mij beschrijvingen van de mechanismes van deze hel. 22. En grote toorn kwam over mij, en ik blies op deze hel, en mijn adem was als vuur en kokend water. En ik begon heel hoog en schel te gillen, en hen die deze hel gemaakt hadden hadden het bloed uit hun oren stromen. 23. Toen legde de Heere zijn hand op deze hel en sprak onverstaanbare woorden die alleen de engelen konden verstaan. 24. En ik zag de zielen van stieren vrijkomen, en de zielen van rammen. En de Heere sprak dat deze zielenslagerij geramd zou worden. 25. En nog meer onverstaanbare woorden werden gesproken, en het zachte des Heeren kwam vrij, en was als een draak. En ik kreeg de ark van het Tweede Levietendom te zien, en haar hel, en deze hel was zacht maar heet. 26. En ik zag de tweede Materos staan op deze hel, en hij had de dodenrijken van het Tweede Levietendom in zijn handen. 27. En de geesten die in deze hel waren geworpen begonnen te smelten, en de Heere vormde hen zoals Hij ze wilde hebben. En de Heere gaf hen de taken en

functies die bij hen hoorden. 28. En ik was zeer geschokt over de dingen die ik zag, en weer moest ik veel schrijven.

13.

1. En er kwam een enorme oorlog tussen de tweede levieten en de levitische demonen, en de Heere sloeg hen met vuur. 2. En de Tweede Levitische ark kwam vol met dieren, en er was veel licht, en na een tijd moesten de levitische demonen het opgeven. 3. En de Heer schiep het nieuwe verstand van de tweede levieten vanuit de testikel van een dode man, en het nieuwe geweten vanuit de teen van een dode man. Het gevoel werd geschapen vanuit zijn tepel. 4. En zo werd het bloed van de tweede levieten genezen. En zo schiep de Heere nieuwe altaren voor de tweede levitische tempel vanuit de andere testikel van de man. 5. En zo werd de adem van de tweede levieten genezen, en zij hadden voldoende lucht. 6. De Heere dan schiep nieuwe longen in hun binnenste. En de Heere zag dat het goed was. 7. En de paradijsen en hemelen van het Tweede Levietendom waren velen, en zij werden in boeken beschreven, en de tweede levieten waren als jagers, en beschermers van dieren. 8. De Heere stond niet meer toe dat er op dieren gejaagd werd, maar alleen op hen die dieren kwaad deden. 9. En de tweede levitische jagers werden groot voor het oog des Heeren, en zij brachten vele dieren tot rust en tot een schuilplaats. 10. En zo werden er tweede levitische steden gebouwd waar de dieren veilig waren, en de Heere stond niet meer toe dat er dieren geofferd werden. 11. En zo herstelde de Heere de bloedsomloop der tweede levieten, want de dieren waren de dragers der organen. 12. En de Heere herschiep de klokken der hemelen vanuit de andere tepel van de dode man. En de haaien des hemels begonnen doorkruisingen over de aarde te houden, en zo ook de schorpioenen des hemels. 13. En zij zagen er scherp op toe dat hen die op de aarde woonden geen eigen klokken meer bouwden. 14. En vanuit de andere tenen van de dode man schiep God de nieuwe grenzen der aarde. En de Heere sprak, en zag dat het goed was. 15. En de roofdieren des hemels werden vlees op de aarde en zagen er op toe dat de mensheid zich geen eigen grenzen meer bouwden. 16. En de Heere gaf de mensheid een nieuwe adem en een nieuw hart.

Koning van de Canon – Sleutel van de Canon

1. Het letterlijke heeft het verloren, nu de lucht de aandacht heeft gericht op een van de machtigste raadselen van alle tijden. In het letterlijke sterft men. In het raadselachtige komt men tot leven. Hebt gij niet in de psalmen gelezen dat David een koningszoon was, zoon van de allerhoogste. Hij was het die zijn volk redde. Een kruis driemaal gebroken is een wiel, en zal velen tot zaligheid leiden. Dit is het geheimenis van David, te lezen in de psalmen. Hij heeft zijn volk geleid door de zee, dit in symbolische zin, in geestelijke, want de letterlijke David was een terrorist. In de hemelen echter is hij een groot slachter, en een messias, zijn handen en voeten doorboort aan het wiel. Want aan het wiel hing hij, als de ekster, en de verhalen van Christus zijn slechts een weerspiegeling daarvan. David is en was de Christus. Er is nooit een letterlijke Christus geweest, want de ware Christus is in de geest, en is een raadsel. Zij die de Christus materialiseren zullen daardoor schade lijden.

2. Kijkt dan, want in de hemelen is een groot slachter opgestaan, wiens naam is David. Aan een eeuwenoud wiel hing hij, het leeuwenwiel, alwaar hij het pad beging, de Lemul. Deze woorden zijn getrouw en waarachtig. De lucht is zuiver door deze woorden, en de wet is geenszins tegen hen die dit woord in hun hart dragen. Volk, uw verlossing komt. Wij dan volgen een symbolische Christus, in de geest, niet in het letterlijke, en zo volgen wij ook geen letterlijke David. David dan is in de hemelen geschapen om eer te schenken aan hen die eer toekomt. David is dan de enige die de metafoor van Christus ten volle kan dragen. Alle woorden wijzen dan door naar hem, en zijn slechts zijn schaduwen. Maar schraapt u in de vuile aarde naar tekst, dan zult gij paarden en edelstenen vinden. Zo is er dan een weg tot achter het verstand. Geen mens zal op deze woorden beschaamd uitkomen. David kwam dan in vele gedaantes tot u, maar de aardse teksten zijn vuil. Neemt daarom dan alleen een spirituele betekenis van hen aan. Zo is David dan groot en hoog verheven, en een koning in het geestelijke, maar de aardse David was een terrorist. Kunnen we dan zeggen dat de ware David, niet in de aardse teksten, is de ekster? Volstrekt, want hij die naar de dieptes der aarde is gegaan, en leugens van hem op papier zag verschijnen is ook in diezelfde geest opgestaan. Nu rijdt hij dan op het paard van het vierde zegel, om te doden en tot leven te wekken. Dood en leven is in zijn rechterhand, hemel en hel in zijn linkerhand, hij die de alpha en de omega is. In hem is dan het geheimenis van de messias vervuld.

3. Nu zijn dan de hemelen zuiver, en spoedig zal de aarde gezuiverd worden. Ween nu, oh aarde en zee, want het geheimenis van licht heeft zich geopenbaard, en is als het zwaard des Heeren en zijn sikkkel. David dan zal spoedig komen om te oogsten. De sleutel draagt hij. Als dan de aardse teksten van David bezoedeld zijn, waar beginnen dan zijn geestelijke teksten.

4. En hij, David, groeide op in het woud, als een koningszoon. Dit was niet in de aardse gewesten, maar in de gewesten van de ziel. Hij droeg de sleutel, en hij voedde een leger op van kinderen, maar was tegen het zwaard van de vijand niet bestand. Hij dan overwon door zijn lijden. Ja, een

oorlogsheer was hij, een gezalfd heer van de jacht. Hij ontfermde zich over kinderen die in het woud waren verdwaald, en hen die verstoten waren uit hun stammen. Ja, als een vader was hij voor hen, maar in de oorlog werd hij aan het wiel geklonken en in de onderwereld gestuurd. Hierom wenen zijn kinderen. Deze sleuteldrager werd verkeerd begrepen, en de aardse teksten waren bezoedeld en hij werd verkeerd uitgelegd, maar hij was een oorlogsheer, en daarom was hij Christus, omdat niemand een groter oorlogsheer was dan hij. Over het leeuwenpad Lemul ging hij, waar hij bespot werd. Ja, een wiel droeg hij, een balk van hout op zijn rug. Men rukte hem zijn baard uit en bespuwde hem, en uiteindelijk hing men hem, zoals de ekster, ja, de gemaskerde was hij. Een oorlogskind was hij, een opperhoofd van groten, en nog steeds rouwt het kinderleger om hen. Zijn bloed wast hen vrij van valse schuld en schaamte. Zijn bloed wast hen vrij van de leugen, en doet hen groeien. Geloofd zij David tot in eeuwigheid. Ja, hij was de Christus, zoals de psalmen hem hadden aangewezen. Zijn handen en voeten waren doorboort, en men gooide de dobbelsteen om hem. Ja, er is grote almachtige kracht in zijn naam, David Christus, Hij die is Christus Jezus. Hij was dan geboren zonder moeder, maar Maria was zijn moeder in de geest. Er is dan geen Christus dan David. Zo zij dan de naam van David Jezus Christus geloofd. Hij was dan in de gewesten van de ziel geplaatst, op de aarde van de ziel, maar Hij had geen vader. Maria was zijn moeder in de geest. Ja, een vondeling was hij, gebracht door raven. Hij groeide op tussen beren en leeuwen. Geloofd zij de naam van Jezus David Christus, die is en die was en die komen gaat.

5. En hierom is het dat kinderen wenen : Hij werd geleid tot Herodes in de onderwereld, en van zijn klederen ontdaan. Ja, ontwapend werd hij, als een insect. Aan een wiel draaide hij, telkens het water rakende, maar zijn bloed opende de poorten van het dodenrijk. De hel heeft hij geplunderd. Hij is het die raad gaf aan kinderen en hen uitleidde. Zo is dan Hij, David, de tweede Jezus Christus, voortgekomen uit Adam, de Vader, die de eerste Christus was, en Eva is de moeder, de Heilige Geest. Zo werd David dan een ziel, maar zal in het vlees komen in het laatste der dagen, en weet wel dat Hij alreeds onder u is, wachtende op het openbaar worden van dit geheimenis. En dan : heeft het wiel niet de Ot voortgebracht, de verandering van gezichtspunt, en de Sidot, het meervoudige gezichtspunt. Zo is dan het wiel van David krachtig tot de genezing van alle verstand. Dit is dan zijn zwaard waarmee hij de verschrikkelijkste demonen velde. Ja, neergehaald zijn zij, en voor zijn naam sidderen zij. In David dan is totale overwinning, in Hem zijn alle dingen volbracht, Hij die Christus Jezus is in alle Geest, vleesgeworden aan het einde der tijden. Ja, in Eva is Hij opgewekt, in Adam heeft Hij zijn schuilplaats. Ja, het rad van David draait dan om u terug te leiden tot Zijn tuin, die wildernis is, en die veelvuldig zicht geeft op het arsenaal. Zo is het dan dat gij door Jezus David Christus tot Eva komt, en door Eva tot Jezus David Christus. Dit zal u leiden tot de gebondenheid in Eva, de gebondenheid in de Heilige Geest die zij is. Niemand kan echter Jezus David Christus volgen dan door Zijn wiel.

Koningin van de Canon

Tweede Sleutel van de Canon

1. Hebt gij dan niet in de geschriften gelezen, het grote geheimenis en het zwaard van het Eeuwig Evangelie, u overgeleverd door engelen ? Zalig is degene die dit geheimenis vindt. Want het ontsluit het geheimenis zal voorzeker degene die haar vindt omhullen in fluweel. Nu dan, geliefden, zo zult gij dan weten dat de tweede sleutel van de canon meer is dan de eerste sleutel, en groter, en

dat niemand haar kan bevatten dan het hart dat verlicht is, met een opgeheven ziel. Oh, God, alleen gij kunt haar benaderen en ontraadselen.

2. Zo las gij dan in de eerste sleutel dat Maria de moeder van David Christus, en dat Eva zijn moeder was, als Adam zijn vader. Ziet, dit is een geheimenis en teken in de hemelen, en ziet, Maria en Eva zijn een, ja, zij zijn een en dezelfde. Bestudeert dan de herauten, en kent hen, opdat gij zult weten en verstaan, dat Eva tot zonde gemaakt moest worden om velen te redden. Ja, tot een leugenaar moest zij gemaakt worden, om zo de leugen te overwinnen. De meesteres der spionnen was zij, en leidde hen tot de waarheid, zij die de waarheid droeg, vanwaar ook het spreekwoord komt : De leugen is het raadsel van de waarheid. Tot die waarheid bent gij genaderd, door vele schaduwen en sluiers der leugen. Daarom doet nu dan ook de leugen af, om de waarheid aan te hangen, en haar lief te hebben boven alles.

3. De kelk met het rozenschuim, bewaakt door twee slangen die om haar steel heen kronkelen, ja, want daar Eva de dood bracht, zo bracht Maria het leven, en ziet zij zijn een en dezelfde, daar Eva de moeder der levenden en van het leven is, en haar zoon heeft voortgebracht, de Verlosser. Het vlamvend zwaard van de smid, het oog van het geheimenis, de schone klanken van de stilte en van het zilver, loskomende in het gebruik, ja, de roos heeft gesproken.

Prins van de Canon

1. Welaan, ziet, en overzie de aarde. Strekt uw vleugelen uit over haar, en ziet hoe zij kerken heeft gebouwd, reikende tot aan de eeuwigheden. Ziet hoe zij zich een naam heeft gemaakt. De aarde huilt, en haar tranen reiken tot aan de hemelen. De Heere heeft haar hulpgeroep gehoord.

2. Welaan, bekijkt de aarde, stijgt hoog boven haar uit, als een ekster. Heeft God niet aan haar Zijn zalving gegeven, maar kijk, zij bouwde een naam voor zichzelf. Zij bouwde kerken. Ziet gij het niet ?

3. Welaan, kijk dan scherp. Zij heeft haar schuld opgehoopt. Zij heeft haar eigen huis gebouwd, haar schat, en naar een ander omkijken deed zij niet. Sluit daarom uw oren voor haar, en keert weder tot uw Heere.

4. Ziet gij dan niet dat de aarde vol is met uitwerpselen, met christus-cultussen, ja, afgoderijen. Zij verafgoden Christus, maar wees Christus als tweede Adam dan niet terug naar de eerste Adam, naar de natuur, het paradijs. En wijst de eerste Adam dan niet terug naar de God die alles schiep, de Vader. Maar de goden die gij hebt zijn geen goden.

5. Keert dan terug tot de ekster, en laat uw afgoden liggen. Verafgood gij dan niet een stuk hout, de kruizen die gij u hebt gemaakt ? Wijst het kruis dan niet terug op de paradijselijke geschiedenis.

Leed Adam dan niet als de gehangene ? Wees hij dan niet terug op de ekster die hing en gemaskerd werd ?

6. Aanbid gij dan geen aardse objecten ? Wijzen zij dan niet op een diepere werkelijkheid ? Zo dragen dan ware priesters de zes stenen van de canon als een hangzak aan hun gordel. Zij zijn uitverkoren door de ekster.

7. Verafgood uw kruizen niet meer, maar volg het pad waar het kruis op wijst, de diepere geschiedenis, want ver bent gij van de hemelse objecten afgedwaald.

8. Ik zal u een geheimenis vertellen : volg Lemul, het leeuwenpad, tot in de dieptes van het paradijs, waar de leeuwen van Eminijs neerdalen en opstijgen, de Geest voor Gods Troon. Ik zal u een geheimenis vertellen, over de namen van de zes stenen. De witte steen heet Puchalini, de rode steen heet Tupuchette, de steen der karsuiken heet Tuvunius, de steen der hermitaten heet Fluvulua, de steen der ekster heet Pirmumata, de steen van Chawila heet Kuzaponia.

9. Berg deze stenen in het hart opdat gij niet zondige. Wees dan een priester van de ekster, en weet dat de gehangene meer is dan de gekruisigde, hetgeen wijst op een diepere geschiedenis. En heeft dan de Christus niet de engelen vrijgezet door de strop ? En wijzen de geschriften dan niet terug op de diepere paradijsen waar men viel door het verboden vlees in plaats van een verboden vrucht ? En wijzen de grondteksten daar dan niet op ? En bent gij dan vergeten dat niet allen vielen door het verbodene, maar dat sommigen vielen door ontvoering ?

10. De ekster draagt de regenboog, en houdt het geheimenis vast van al het leven en de geschiedenis. En zo zijn het deze drie dingen waar het kruis op wijst : het gouden leeuwenpad, de strop en het masker. Want het kruis was een bezoedeld object, deel van de lagere aardse gewesten, waar de mens door zijn leugenachtigheid in verstrikt raakte.

11. De ekster zal een nieuw lied zingen, en velen zullen volgen, en anderen zullen achterblijven. Zo is dan wel het eeuwig evangelie door een duif gebracht, het eeuwig evangelie door een ekster. En zoals de duif bezoedeld was als het eerste evangelie, zo is het tweede eeuwig en heilig.

12. Kent gij dan het geheimenis van de mintstruik. Zij is Ot, de kameleon. Sidot is de pauw. Zo is dan Ot de weg tot de Sidot. Ik spreek nu over de geheimenissen van de dieptes van het paradijs, het leven en de geschiedenis. Ik spreek nu over verborgenheden : De Ot is de verandering van gezichtspunt, en de Sidot is het meervoudige gezichtspunt. Sid is het gezichtspunt, de hagedis.

13. Ziet gij leven in deze woorden ? Gij zult, want dit is het enige wat u kan leiden uit de valse kerk en het valse christendom. Hier snijdt het mes. Dit is wat God bestemd heeft voor hen die hem

ernstig zoeken. Wanneer gij in het paradijs aankomt, zoek dan naar het huis van de ekster, opdat gij aan het huis van de specht zult ontkomen. Nu, dit is een groot geheimenis. Gij zult eerst tot de tuin van de ekster moeten komen. Laat deze woorden tot u doordringen, totdat gij het geheimenis ziet.

De Nieuwe Petrus

1.

1. Zo is dan het oude woord als een steiger. Als het huis is gebouwd worden de steigers verbrand. De lichten gaan aan, en van een steiger zal men niet vaak spreken. 2. Zo is dan, naar de wil des Heeren, de eerste brief van Petrus geheel gezuiverd, dit door het woord der apostelen. Zo is het oude woord en de oude brief een plan van nood geweest in tijden van nood, en ziet zij was bezoedeld. 3. De apostelen hebben haar gezuiverd, hebben haar op maat gemeten, en hebben haar naaktheden bedekt. 4. Gij allen die de Geest van Petrus aanhangt : gezegend zijt gij. De persoon Petrus, en dit weet gij allen, was niet onfeilbaar. Zo was ook hij slechts ten dele verlicht en ten dele met de Geest vervuld. 5. Maar het heeft de Heere behaagd apostelen te zenden om de vloek van de oude eerste brief van Petrus om te buigen. 6. En zo spreekt dan ook de Geest van Petrus, en Petrus die na zijn dood in de wolk der getuigen werd opgeheven. 7. En de apostel zag Petrus staan. En Petrus zag de apostel staan. En Petrus zag dat de zuivering goed was. 8. Geloofd zij daarom God, de Vader, die Zijn eniggeboren zoon geschonken heeft in zijn grote liefde. Deze liefde ging uit tot de wereld, en de wereld heeft haar niet gegrepen. 9. Want zo was het opgetekend dat zowel de Vader als de Zoon verworpen dienden te worden. 10. Zo hebben dan vele apostelen en profeten de gruwelen van het oude woord als symboliek weten te gebruiken, om daardoor vele boze geesten in hun werken te belemmeren. 11. Zij hebben die symboliek weten te gebruiken om het kwaad een halt toe te roepen en te gebruiken ten goede. 12. Maar nu is het woord oud genoeg geworden om het te ziften, en zo zal er een nieuwe bedeling ingegaan worden. En er zal onderscheid komen tussen het steiger-woord en het gezuiverde woord. 13. Zo was dan het oude woord niets anders dan zaad dat kapot zou springen. Een nieuw en zuiver woord komt hier als een plant uit voort. Het koren is opgegroeid tezamen met het kaf, maar nu komt de bedeling dat het sterk genoeg geworden is om het te scheiden. 14. Zij die koppig en machtslustig zijn, zullen zich hiertegen verzetten. Uw tegenpartij, de duivel, gaat rond en tekeer als een brullende leeuw, zoekende wie hij zal verslinden. 15. Laat dan uw kooien opengaan, oh volk, en kwelt uzelf niet langer. Gij hebt lang genoeg onder de vloek van het oude geleefd. Maar ik ben in zorg over u, daar de slang listig genoeg is om u weer terug te leiden tot het oude. Daarom houd ik niet op voor u te bidden en te smeken. 16. Ook zal de Heere velen overleveren aan het oude, aan de angsten en de tradities, en niemand zal hen kunnen loskopen. Maar gij die de Heere gevonden hebt : zoekt troost bij elkander, en laat u troosten door de Heere die boven is. 17. Want velen volgen een Heere die onder de aarde is, en velen hebben als god de samenleving. Zo zijn dan woorden door de Geest uitgesproken zeer machtig, maar een beetje vlees daartussen bezoedelt alles en brengt de ketens van de hel. 18. En zo zijt gij dan allen slaven door het bezoedelde woord, niet bij machte om los te komen van het verduisterde verstand en het leugenachtige geweten. 19. Zo spreekt dan de Geest van Petrus en het volkomen woord tot uw verstand en geweten, wanneer gij beseft dat Petrus feilbaar was, en daarom ook zijn woorden. 20. Ja, de Geest sprak door Petrus, maar op een heleboel punten werd de Geest door de zonden van Petrus ingeknot. 21. Verwijdert daarom de bezoedelde brief uit uw Heilige Geschriften. Zo zult gij onderscheid maken tussen de oude eerste brief van Petrus en de nieuwe eerste brief van Petrus die zuiver is. 22. Hierdoor zullen uw geest en hart gezuiverd worden, en zal Gods Geest vrijgezet worden.

23. Zo heeft de Heere eerst steigers gebouwd rondom het huis der oude en verduisterde tijden, en ziet, hij heeft zijn eerste manschappen geplaatst om het oude woord te transformeren door de symboliek. 24. En de Heere heeft het oude, bezoedelde, door mensenvlees ontheiligde woord als een kruis gedragen. Maar nu heeft de Heere zijn engelen gezonden tot bevrijding. 25. Laat de vuurgloed die tot beproeving dient u daarom niet bevreemden alsof iets vreemds tot u kwam. Maar verblijdt u wanneer gij deel hebt aan dit lijden, want ook God zelf was geslagen aan een wiel. 26. En zo getuigt dan het wiel van een geestelijk kruis waaraan de Vader was geslagen toen Hij zijn eniggeboren zoon moest opofferen, een kruis waaraan ook de zoon uiteindelijk werd gekruisigd toen hij tot de onderwereld afdaalde, en waardoor hij zovelen heeft vrijgezet. 27. Zo heeft Mammon dan een flinke klauw gehad in het opstellen van dit wiel, de Mammon waartegen gij predikt. Want het is een materialistisch kruis wat gij hebt gebracht, en gij hebt het wiel verzwegen. Zo hebt gij dan uiteindelijk het kruis in de diepte veracht. 28. Want Mammon zelf heeft toen hij het wiel heeft opgesteld de kamer verzegeld, zodat zijn boze werken onopgemerkt door konden gaan. Zo heeft hij zich als een god opgesteld, zoals de profeten hadden voorspeld.

29. Simeon Petrus, een dienstknecht en apostel van Christus Jezus, aan hen die door gerechtigheid en waarheid een zuiver en kostbaar geloof hebben verkregen : genade en vrede zal vermenigvuldigd worden in uw midden door de kennis van de Vader en de Zoon. 30. Zijn Goddelijke kracht heeft ons met wijsheid begiftigd. Amen. Met grote beloften zijn wij begiftigd, en met hoop, om daardoor deel te mogen hebben aan de Goddelijke natuur, in Christus geschonken. 31. Gij dient op deze woorden en de woorden van profetie acht te geven als op een lantaarn die u leidt door een duister gebied. 32. Zowel de oude Schrift als de nieuwe gezuiverde Schrift laten geen eigenmachtige uitleg toe. Zo hebben dan wijze mannen het oude vastgepakt, en het voor de Heere gebruikt om zo velen tot troost te leiden. Maar zo zijn er ook vele valse profeten onder het volk geweest die van tucht niet wilden weten. 33. Zij hebben door de geest van Eli verderf gebracht. Zij hebben dat wat tot de geschiedenisboeken behoorde opgesteld als het Woord van God. 34. Zij hebben bloederige rituelen opgesteld en gezegd : Zie dan, dit is uw God. Zij hielden vast aan bloedoffers in hun geheime kamers en op de hoogtes van bergen. Zij brachten hulde aan de afgod in de dieptes en in de verborgen plaatsen van bosgebieden. 35. En gij hebt gezegd : deze lieden zullen ons uitleiden. Aan deze lieden verkopen wij onze harten en zielen. Deze lieden weten de weg. Zij zijn van God en uit God. 36. En gij hebt hen troost gebracht op de hoogtes van hun bergen, en zij hebben u misleid. Gij hebt uw gevoel en de samenleving tot God gemaakt. 37. En daarom zal de Heere u uitspuwen, gij die van deze dingen leeft. Want ook doet gij onrecht aan velen om u heen. 38. Zo duldt de Heere geen hoogspraak meer in Zijn huis. Kinderen, het is de laatste ure, en gij hebt gehoord dat er een antichrist zou komen, en dat er vele antichristen op zouden staan, waaraan gij herkent dat het de laatste ure is. Maar ik zeg u : de antichrist was in zijn list al gekomen vanaf de beginne. 39. En ziet, hij was in het verborgene gekomen om u te voorzien van allerheiligste boeken, zoals hij Eva misleidde door de slang. 40. Zo hebt gij van de verboden vrucht gegeten, terwijl gij het niet wist. Er werd gezegd : dit is uw god.

41. Maar dit is het uur van bevrijding. Gij zult het oude slechts gebruiken als een geschiedenisboek en als een museum. En gij zult zeggen : Hier zijn onze voorvaderen doorheen gegaan. 42. En gij zult nieuwe lichten aan het plafond zien, en gij zult u niet meer door de oude lichten laten verwarren. Want ziet, zij waren opgesteld als webben en als kruizen. 43. Ja, als aan een wiel werd de Heere gekruisigd, waardoor Hij slechts door orakelen kon spreken. Terwijl velen zeiden : De Heere spreekt niet meer. 44. Zo heeft de Heere het pad van symboliek gebruikt om te spreken. De Heere heeft kromme stokken gebruikt, en kromme zwaarden, om recht mee te slaan. 45. En velen

hebben gezegd : Oh, ziet, de Heere is gekruisigd als aan een wiel. Hij komt op en vergaat weer. Maar dit is de tijd dat deze zegels verbroken worden. 46. Ziet, de leeuw brult immers in de hemelen om de zegels te openen. Want de zegels waren het bezoedelde woord van God.

47. En zo is dan het wiel het kruis van de onderwereld, en hieraan hebben zowel Vader als Zoon gehangen. Door het wiel werden zij van elkaar gescheiden, en door het wiel komen zij weer tezamen. Zo is dan het kruis zonder wiel slechts een materieel kruis, een kruis waardoor de Mammon over u heerst en u in gebondenheid houdt. 48. Laat daarom de stem van Mammon die zo diep in uw geweten spreekt en zoveel deuren in uw geest gesloten houdt verbroken worden. 49. Gun uzelf een dag van genade, maar ik weet dat velen van u uzelf niet liefheeft, zoals gij ook de Heere niet liefheeft. 50. Gij hebt de naam voor uw naaste te zorgen, maar ziet, gij slacht dieren in het verborgene.

51. En zo is ook Petrus door zijn dood aan het wiel gekruisigd, om tot de Vader en de Zoon te gaan. 52. En zo heeft hij dan het licht aanschouwd als een nederdalende duif. Door deze ervaring dan is Petrus verheerlijkt, en spreekt zijn stem nog steeds vanuit de wolk van getuigen om het woord zuiverend zuiver te houden. 53. Koester daarom deze woorden, want zij zijn gesproken door de Geest van Petrus, die meer is dan zijn vlees. 54. En zo heeft het vlees van Petrus vele botten gebroken, maar de Geest heeft zijn vlees gebroken. En zo moet ook gij die door het vlees leeft tot gebrokenheid komen. 55. Want de Heere Heere en Zijn Geest spreken door zulk een verbrokenheid. Gij zult u daarom ook met deze gedachte moeten wapenen, dat zij die naar het vlees geleden hebben aan het vlees en de zonde zijn onttrokken. 56. Gij bent dan nu tot de nieuwe bedeling ingegaan, door het wiel, en het oude zal over u geen macht meer hebben. 57. Zo zult gij ook geen verantwoording meer hoeven af te leggen aan de begeertes van het oude, maar u aan de wil van God hechten.

58. Daar nu Christus geleden heeft aan het wiel, zo hebt gij ook door Christus aan het wiel geleden. Hieraan werden uw verstand, uw geweten, tezamen met uw ziel en geest gekruisigd. 59. Ja, aan vele rotsen werd gij geketend, waar vogelen van uw vlees aten. En gij waart dood, terwijl gij de naam had dat gij leefde. 60. Maar nu is er tijd genoeg voorbijgegaan waarin gij verantwoording aflegde aan de poelen van oude liederlijkheid en hun begeertes. 61. In Christus en door Zijn wiel zijt gij vrijgekocht. Laat u daarom niet wederom kruisigen, maar kruisigt uw vlees en uw begeertes voortkomende vanuit het oude. Zie dan, alle dingen zijn nieuw geworden. 62. Gij denkt niet meer zoals gij dacht, gij die aan het wiel hing, en door Christus zijt vrijgekocht. Gij draagt de helm van heil en hoop, gij die Christus volgt. 63. Wandelt daarom zoals Hij gewandeld heeft, en daarbij niet in letterlijke zin. Want zijt gij dan nog steeds van de Mammon dat gij u blindstaart op het materiele en het vlees ? Volstrekt niet. Gij kent de werken die Christus in de onderwereld heeft verricht, door Zijn geest. 64. Deze werken zijn u door het wiel geopenbaard.

65. Zo worden dan door het wiel de dingen met elkaar verzoend, en zo vindt gij een eeuwige schat door het wiel. 66. Zij die dan Christus volgen en zeggen : Er is geen wiel, zulken zult gij niet volgen. Zij die deze dingen zeggen volgen de Mammon, want zij geloven alleen de dingen die het vlees hen leert en laat zien, en laten het oude en bezoedelde zoals het is. 67. Zo zult gij dan de Mammon en al zijn werken afzweren. Want de Mammon is degene die Christus in de onderwereld aan een wiel heeft gehangen, en vervolgens heeft gezegd : Er is geen wiel. 68. Maar zij zullen Hem zien die zij doorstoken hebben.

69. De Mammon dan wist dat door het wiel waaraan Hij Christus in het verborgene had laten spijkeren hem ook ten gronde zou brengen. Daarom vreest Mammon het wiel, en wil niet dat er over gesproken wordt. 70. Maar wij willen dat er daarom des te meer over het wiel gesproken wordt. Omdat het de opstanding van Christus heeft bewerkstelligd. 71. Zo is dan het wiel meer dan het kruis. Zij die het kruis volgen zonder het wiel volgen het vlees. Hun vlees zal daardoor veranderen, maar hun geest blijft onveranderd. 72. En daarom ziet men elkaar in kerken aan naar het vlees, en niet naar de geest, en houdt men elkaar tegen om tot het wiel te komen. Dit dan zijn de werken van Mammon.

73. En zo zal het wiel in het laatste der dagen Mammon neerleggen en tot het altaar des Heeren brengen. En dan zal er een grote slachting zijn in het land, een slachting nooit eerder voorgekomen in het land. En dan zullen zij die ogen hebben zien, en zij die geen ogen hebben zullen wegteren. 74. En de Heere zal het profetisch oog herstellen door het wiel. En zij die het wiel volgen, zullen tot meervoudige glorie worden gebracht door het wiel. 75. En men zal zeggen : ziet, de vader van het kruis is opgestaan. En men zal over de werken spreken die Christus in de geest heeft gedaan, toen Hij in de onderwereld was.

2.

1. Dit zijn dan de woorden van Petrus de gestorvene om zijn woord en brief te zuiveren, en alle profetie daaruit voortkomende. Ja, als Christus is hij gestorven, opdat zijn Heere door hem zou spreken, dat is zijn Geest. 2. En ik, Petrus, opgenomen in de wolk der getuigen, zag hoe het volk mijn woorden bezoedelde. En ook zag ik hoe ik daar mijn eigen vlees het woord en de brief had bezoedeld en ontheilgd. 3. Ja, door mijn vlees zijn velen in slavernij gegaan, in dienst van de afgod. 4. En door mijn vlees moesten velen aan die afgod verantwoording afleggen. Zo werd dan het kruis gebruikt om tot slavernij te leiden. 5. En daar ik door mijn dood afstand heb moeten doen van mijn boze werken, en ook van mijn onreine, huichelende woorden, vol van hoogmoed en slavendrijverij, vol van valse pracht en eerezucht. Zo zult ook gij, gemeente, u van die woorden moeten ontdoen. 6. Zo zult gij mij door mijn Geest liefhebben, door de Geest van onze Heere Jezus Christus, en zo zult gij mijn woord verstaan. 7. Want zijn de woorden die ik spreek vanuit de wolk der getuigen niet hoger dan wanneer ik sprak door de aarde ? Volgt gij dan mijn vlees meer dan mijn Geest, die de Geest van Christus is ? 8. Ik ben bang dat vele lieden hiermee door zullen gaan, en mij daardoor telkens opnieuw kruisigen. De Heere sprak door mij, maar ook de satan sprak door mij, met holle, hoogklinkende woorden. Maak daarom onderscheid tussen het oude en het nieuwe. 9. De mantel die ik in de hemelen kreeg was een hogere mantel dan de mantel van het vlees. Want toen sprak de Geest slechts ten dele. Nu dan, de mantel die ik in de hemel en in de Geest draag is bemachtigd om het vlees te vernietigen. 10. Luister daarom niet naar de woorden van het vlees, maar veeleer die van de Geest.

11. En ik, de apostel, zag een steen uit de hemelen vallen, en de Heere sprak : Raak deze steen niet meer aan. En een engel daalde neer en legde een zwarte deken op de steen. En ziet, het leek op een graf. En de Heere sprak : Zou iemand van u dan weer teruggaan naar het graf, nu gij vrijgezet bent ? 12. En de engel hief de steen op, omhuld met een zwarte deken, en wierp het in de zee. En de Heere sprak : Vanaf nu zult gij het vlees niet meer aanroeren. En hij sprak hiermee over de geesten van het oude woord. 13. En er rees een zwart schaap op uit de zee, wat door de engelen geslacht werd. En de Heere sprak : Vanaf nu zult gij geen dieren meer slachten, maar de geesten der duisternis. 14. En de Heere was woedend, omdat er zo lang tegen vlees en bloed was gestreden, en niet tegen geesten in de hemelse gewesten. 15. En toen het vlees van het zwarte schaap zich met de zee vermengde

werd de zee als bloed en als een rode traan. 16. En de Heere sprak : Zij die tegen vlees en bloed strijden zullen ten onder gaan. Door hun eigen zwaarden en door hun eigen messen, hun eigen pijlen, zullen zij doorstoken worden. Zij die door het zwaard van Mammon leven, zullen ook door dat zwaard sterven. 17. En er was een tijd van rouw in de hemelen.

18. Zo heeft de Heere dan de oude brief van Petrus tijdenlang als een kruis gedragen, als een wiel, en werd het geschrift op het juiste tijdstip gezuiverd van onheil. 19. Maar de huichelaars en de farizeeers zullen zeggen : Er was niets kwaads in de oude brief. Zij zeggen dit omdat zij dingen naar het vlees aanzien, en niet naar de geest. 20. Door hun macht hebben zij de onderscheiding des geestes verloren, die voortkomt vanuit toetsen en de beoefening van nederigheid en de minste zijn. 21. Zij die de meeste willen zijn hebben geen plaats bij de Heere. Zij worden overgeleverd aan dwalingen en misleidingen, en zij hebben behagen in schandelijke huichelarij. 22. Zij noemen dat wat geest is vlees, en dat wat vlees is noemen zij geest. Zij zijn blind. 23. Dat wat blind is zal nog blinder worden, en dat wat ziet zal nog meer zien.

24. Verheugt u daarom niet al te zeer wanneer gij door het oude gered zijn, want zij die gered zijn door het oude, zullen door het oude ook weer ten gronde gaan. En ziet, zij zullen dieper vallen dan ooit. 25. Want het oude was als een steiger gegeven, en als zaad. Zij die dan het zaad niet laten sterven zullen honger lijden. 26. Maar zij die de zaaier volgen zullen eeuwig leven. En wie zal u kwaad doen wanneer gij u inzet voor het goede ? 27. Al moest gij lijden omdat gij het goede aanhangt, toch zijt gij zalig. Laat u daarom niet bangmaken voor enige dreiging of druk, maar heiligt Christus in uw harten. Hij is de zaaier. 28. Gij hebt aan vlees geen verantwoording af te leggen wanneer gij het oude gezuiverd hebt, en hebt doorgebouwd op hetgeen Gods Geest heeft bewerkstelligd. Bouwen wij dan van vlees op vlees ? Zeer zeker niet. 29. Wij bouwen door de Geest om de vleselijke werken te verbreken en te zuiveren. Hierin hebben wij het kruis niet verworpen. Maar wij hebben het vlees veelvuldig omgedraaid om te zien of er enig werk door de Heere gebruikt kon worden. 30. Zo is dan door de symboliek en door de criptiek veler vlees tot nut geworden. Maar hebben wij nog verantwoording af te leggen aan de begeertes van het vlees wanneer wij de oude wortel niet meer aanhangen ? Volstrekt niet. 31. Zo heeft de Heere ons allereerst vrijgekocht door het kruis, en daarna door het wiel.

De Nieuwe Efeziërs

1.

1. Daar de apostel Paulus een zuivere en door de Geest gebonden apostel was voor een groot deel, hebben zijn geschriften weinig zuivering nodig. 2. Toch moet er een zuivering zijn, omdat hij slechts op weg was in die gebondenheid en in het toetsen, en een klein beetje vlees kan de hele geest bezoedelen. 3. Zo zijn dit daarom de woorden van Paulus zelf, gezuiverd door zijn sterven en zijn groei in de wolk der getuigen. 4. Zo spreekt en zuivert Paulus nu nog steeds door zijn Geest, die de Geest van Christus is. 5. Dit dan zijn de woorden van Paulus, door de wil van de almachtige God een apostel van Jezus Christus, aan de heiligen en de gelovigen die te Efeze zijn. 6. Genade zij u en vrede, van God, onze almachtige vader, die troont in de hemelen.

7. Gezegend zijt gij in alle rijkdommen die de Heere u wil schenken. Hij heeft ons geschapen en gezegend in de hemelse heerlijkheden door Christus Jezus geworteld. 8. Door Hem zijn wij allen geroepen om onberispelijk, rein en heilig voor Hem te staan, om met Hem in Zijn huis te wonen. 9. Voor de grondlegging der aarde ging deze roep uit, en deze roep gaat nog steeds uit, tot allen die horen. 10. In Zijn grote liefde heeft hij ons geroepen om zonen te worden van Hem, door het werk

van Christus Jezus, de Gezalfde. 11. In Hem hebben wij de verlossing door het bloed, de vergeving van zonden, en het pad van genade. Dit geheimenis heeft hij ons leren kennen. 12. Onophoudelijk dank ik de Heere voor de liefde die ik in u heb gezien tot de heiligen, opdat de Heere u schenke de Geest van wijsheid en openbaring om Hem recht te kennen en het evangelie te brengen niet alleen aan de levenden, maar ook aan de doden. 13. Voorts, wees dan krachtig in de Heere, door de geschonken zwakheid. Neemt uw wapenen op door het oog van zwakheid, opdat gij zult zien. Doet dan uw wapenrusting aan die des Heeren is, om te kunnen standhouden tegen de verleidingen van de satan. 14. De Heere heeft u gewrocht in Christus boven alle overheid en macht, om u het Zwaard des Geestes te geven. Zo bent gij dan in Christus medeburger in de hemelen, boven elke heerschappij en boven elke naam. 15. Als gevangene in de Heere vermaan ik u dan te wandelen naar deze roeping, uw wijsheid volmakende. Nu is dan elke wijsheid zonder liefde waardeloos. Maar alle liefde kome slechts voort uit het Zwaard des Geestes. 16. Zo drage gij ook de helm des heils en van de boodschap, daar de Heere u daartoe geroepen heeft, als een licht te zijn in het vreemde land waar gij leeft. De helm zal u echter ook behoeden, en zal u leren stappen terug te nemen wanneer gij te ver en te snel gaat. 17. Weest dan behoedzaam en vol van zelfbeheersing in de Heere. Laat echter die zelfbeheersing niet tot de dood leiden. 18. Weest dan allen vol van de Geest, en laat u ook door diezelfde Geest leiden. Spreekt in psalmen en in heilige gebeurtenissen. Geeft heilig onderricht, en leer ook over het terugtrekken. Zo zult gij de wet des Heeren vervullen. 19. Zij echter die de liefde niet hebben zijn niks. Zij staan voor Gods aangezicht, maar de Heere kent hen niet. 20. Zo bid ik dan tot de Vader dat Hij u het volle begrip van de liefde zal geven. Dat gij de diepte van de liefde moogt kennen, en haar hoogte. 21. Zo bid ik ook tot de Vader dat Hij u zal schenken een bovennatuurlijke liefde die alle kennis te boven gaat, een liefde waarin gij zult reiken tot alle heiligen en tot hen die in de wolk der getuigen zijn.

2.

1. Zo hebt gij dan in het nieuwe woord een huis waarin vele deuren opengaan. Zo kunt gij dan het nieuwe woord naast het oude leggen, opdat het oude zijn vloek verliest. 2. Dit dan is het nieuwe woord van Paulus, want het oude moest gezuiverd worden. 3. Komt dan allen los van de vloek, want zelfs een beetje vlees vernietigd de gehele geest en leidt het tot de afgrond. 4. En ik, apostel, zag Paulus staan op een verhoging, met een duif op zijn hand. En ziet, hij hief zijn hand een beetje op, en liet de duif wegvliegen. Dit was dan zijn nieuwe woord, door zijn Geest gebracht, die de Geest van Christus is. 5. Zo is dan de persoon Paulus niet geheel onfeilbaar, maar zijn Geest wel, die de Geest van Christus is, en de Geest van de Vader. 6. En ik zag Paulus staan met een wit boek, en hij zei : Was het woord schoon. En boven hem werd een deur geopend, en een stem zeide : Klimt hierheen op. 7. En ik klom over wat stenen omhoog, en werd door handen gegrepen. En een stem sprak tot mij : Zoveel brieven zijn door corrupte kerkleiders tot het oude woord gevoegd. 8. De Heere heeft deze brieven noodgedwongen gebruikt, en door de Geest doorvertaald in de juiste banen, maar dit is het moment waarop de brieven uitgerukt gaan worden. 9. Dit wil niet zeggen dat de Geest niet aanwezig was bij het opstellen van de brieven, want er kan veel goed geestelijk voedsel tussenzitten, maar het hadden gewoon brieven en gewone boeken of geschiedenisdocumenten moeten blijven. 10. Zo zal dan de brief aan de Romeinen niet meer tot het nieuwe en gezuiverde woord behoren. Niet omdat er geen zuiverheid tussenzit, maar omdat het een brief was die niet opgenomen mocht worden in de heilige schrift. En omdat de kerkleiders het toch gedaan hebben en de brief hebben opgenomen, nu des te minder. 11. Wel zal er in het eeuwig evangelie een tweede brief aan de Romeinen zijn, die wel tot het woord van God behoort. 12. Zo ook zult gij uit

het woord wegbannen : Hebreeen. Verder : de brief van Jakobus. Maar in de andere nieuwe boeken van het woord zal dit verder besproken worden.

De Nieuwe Leviticus

1. En dit is het nieuwe Leviticus, de nieuwe code en wet, opgesteld door de apostelen. Ja, zeven apostelen hebben het Woord gesproken en gezuiverd. 2. Gij zult geen varkens slachten, noch andere dieren. Het slachten van dieren was ingegeven door boze geesten, omdat de Heere vanaf het begin had gesproken : Gij zult de boze overwinnen en slachten, opdat gij door hun bloed gereinigd zou worden. 3. Deze woorden zijn altijd bedekt gebleven. Zo zult gij stoppen met het slachten van varkens en andere dieren die door de Heere als vredetekens waren gegeven, en gij zult beginnen de varkens der duisternis te slachten, in de hemelse gewesten. 4. Ja, gij zult afdalen tot de hel, zoals Christus eens deed, om daar de gevangenen vrij te zetten, en de varkens die daar heersen zult gij afslachten met het Zwaard des Geestes, en met het Zwaard van het Heilige Vlees, het Woord. 5. Zo zal er dan een nieuw Leviticus zijn, nieuwe tempelvoorschriften. Gij zult stoppen met het slachten van kippen, maar gij zult de kippen der hel slachten door het zwaard des Heeren. 6. De Heere zal de tussenmuur tussen leven en dood verbrijzelen, en het leven zal zich met de dood vermengen. Ook zal de Heere de tussenmuur tussen hel en hemel verbrijzelen. Want gij noemt wat hel is hemel, en wat hemel is noemt gij hel. 7. Gij hebt altijd de paradox des Heeren veracht. Want de Heere sprak : Gij zult de dood door het vlees niet roeren, maar Hij toonde aan hoe de dood door de Geest te roeren. 8. Zo zal in de nieuwe wet de paradox centraal staan, en draait het om de lusten des Heeren die door het verstand niet te vatten zijn. De Heere zal u echter een nieuw verstand geven. 9. Zo zal dan de boze geest van het oude Leviticus uit het geweten gebannen worden. 10. Voert dan strijd tegen het oude Leviticus, opdat gij niet wederom geknecht wordt. Zo is dan het oude Leviticus als een geestesziekte. Gij zult de lever en de nieren uit de demonen snijden, en gij zult het doorboren. Zo zult gij geen schepselen des Heeren meer lastigvallen. 11. Want ziet, hun lust voor bloed kwam voort vanuit hun lever en nieren. Maar gij zult de lusten des heeren voortbrengen. 12. En gij zult de ingewanden der demonen op een hoop gooien, als een slachtberg des Heeren. Hierop zal de heere zijn koninkrijk bouwen. 13. De Heere heeft geen behagen in het bloed van onschuldigen, maar in het bloed van hen die de hel beheersen, en zij die handelen in de dood. Gij zult van de varkens en runderen van de hel de koppen afsnijden, en niet van hen die in vrede de aarde bewonen. 14. Zo zult gij afrekenen met uw geestesziekte, en uw bloed in vreze en beven voor de Heere behouden. Gij zult de ogen van zulke demonen uitsteken, en ze leiden tot de heilige berg des Heeren, waar gij hen zult afslachten. Zo zult gij afrekenen met al uw bloed-tradities. 15. De Heere zal niet onschuldig houden hen die vast blijven houden aan bloed-tradities. Gij zult uw bijbels beschouwen als bezoedeling, en gij zult overstappen tot het tweede en het gezuiverde, anders zal de Heere u bezoeken om u aan te treffen met bloed aan uw handen. 16. Ja, medeschuldig zal de Heere hen houden die de werkers van bloed blijven ondersteunen. De Heere zal hun schuilplaatsen vinden en deze medogenloos laten afbrokkelen. Hiertoe heeft de Heere Zijn spinnen in schuren des hemels bewaard. 17. En zo is er dan een dag des Heeren waarop de Heere zijn spinnen vrijzet, tot het bouwen van een nieuwe schepping. En zij zullen medogenloos zijn tot hen die medogenloos waren. Maar wat medogenloos is bepale de Heere. 18. Gij zult uw geestesziekte onder ogen komen, en uw verstand afzweren, want alleen zulken die hun hoofd tot de Heere opheffen zullen genezing vinden. 19. En zo zal er genezing zijn op de heilige berg des Heeren, en de Heere zal vele slachtbergen oprichten om af te rekenen met het oude. 20. En zo zal de paradox geheiligd worden, en de wet zal genoemd worden : schande ! En zo zullen de lusten des heeren opkomen vanuit de onpeilbare dieptes, en zij zullen de nieuwe verboden bomen omhullen, en deze bomen omkappen. 21. En zo zal

er rechtspraak zijn vanuit de lusten des Heeren, en zal het criptisch verstand daarvanuit oprijzen, en met het oude verstand zal niet gerekend worden. 22. En zo heeft de Heere dan de macht om de oude deur te sluiten en de nieuwe deur te openen. En op zijn heilige berg zal geen kwaad meer worden gedaan.

David

1.

Numeri

1. Zo zult gij de paradox des Heeren aanhangen en Zijn lusten, en stoppen kwaad te doen op zijn heilige berg. 2. Zo zult gij de bloed-tradities uit uw midden wegdoen, en belijden dat gij geestesziek waart. Zij die zeggen niet geestesziek te zijn geweest zijn leugenaars. Doet de leugenaar uit uw midden weg, maar geeft acht op de paradox en de criptiek des Heeren. 3. Reken dan met de maat des heeren. Gij waart allen geestesziek onder de onderdrukking van de vijand. Ja, gij leefde hierdoor in slavernij, maar de Heere heeft u uitgeleid. 4. Dit dan is het nieuwe Numeri, met de nieuwe code. Ziet dan, het oude is voorbijgegaan. 5. Laat gij hen dan nog teruggaan naar de oude wet die voortkwam vanuit geestesziekte, vanuit de onderdrukking van de vijand ? Heeft de Heere u dan niet uitgeleid ? Ja, de Heere heeft de onderdrukking gebroken, en het juk verbrijzeld. 6. Gij leve nu vanuit de paradox des Heeren en vanuit Zijn lusten, tot genezing van verstand en geweten. Gij zult het oude verstand en geweten verachten. 7. De Heere heeft de muur tussen leven en dood verbrijzeld, en ook de muur tussen hemel en hel. 8. De Heere heeft u uitgeleid uit het boze verstand en geweten. Keer niet om. 9. Voor u liggen de schatten van de paradox en de lusten des Heeren. 10. Vergiet geen onschuldig bloed om u een woonplaats te creëren. Grijp het Zwaard des Geestes en van het Heilig Vlees om door het criptische woord een slachting aan te richten onder de demonen die uw ziel tegenhouden. 11. Bereid u geen onschuldig vlees, maar kom tot de slachtbergen des heeren, om u tegood te doen aan het vlees van demonen en de heersers van de hel. 12. Keer niet om tot de oude code die bezoedeld was, want keer op keer zult gij uw geweten besmetten, en met bloed aan uw handen voor de Heere staan. 13. De Heere houdt niet onschuldig hen die keer op keer tot de slachtbergen van het oude gaan. 14. Door het criptisch zwaard zullen er hervormingen komen. Houd niet vast aan de materie, want alle materie zal vergaan. Grijp naar de hogere vleeswordingen van de lusten des Heeren. 15. Zo is het dan : het criptische tegen de materie. Het vuur van het criptische zal alles hervormen, door de vernieuwing van het denken.

2.

Jozua

1. Zo heeft dan het boek Jozua u tot slaven gemaakt, door u te laten geloven dat andere rassen uit de weg geruimd moesten worden. 2. Zo strijdt gij dan nog steeds om rassen in theologie, terwijl de Heere cryptisch leeft en niet in de materie. De Heere ziet het hart aan. 3. Zo strijdt gij dan nog steeds om de hoge stoelen, en drukt gij anderen opzij om u een woonplaats te bereiden. Zo doet gij onrecht aan vele broeders. 4. Daarom heeft de Heere de nieuwe code gebracht, opdat gij van de materiele strijd zou losraken. 5. De Heere wil u vastmaken aan de hogere strijd, die van het heilige vlees. 6. Gij hebt iconen van geliefden gevolgd die niet uit de Heere waren. 7. Nu opent de Heere dan het ei van de ware geliefden, vol van de lusten des Heeren, voortkomende vanuit het criptische. 8. Hebt de materie niet lief, maar hangt het Heilige Vlees des Heeren aan. 9. Over David valt veel te zeggen. Ook hij heeft veel slachtingen aangericht die niet uit de Heere waren. Zo zijn er dan de vele

slachtbergen van David. 10. Maar gij hebt een roeping om in het geestelijke te strijden. De Heere heeft geen behagen in slachtingen maar in het criptische. 11. Dit is de nieuwe code die gij leert om de boze machten van het oude te ontvluchten. 12. Koning David die veel slachtingen heeft aangericht gaf het koningschap aan Salomo. Zo werd het als de verhouding tussen het Oude Testament en het Nieuwe Testament. 13. Zorg ervoor dat gij een criptische beschrijving hebt van de boodschappen, opdat gij niet schuldig staat aan enig bloed. 14. Zoals het woord tot de profeten kwam, zo kwam het woord tot de mens, en bracht veel schade aan. Zorg ervoor dat gij een criptische benadering hebt van de boodschappen, opdat gij niet schuldig staat aan enig bloed. 15. De code in uw zielen komende van dit soort geschriften is een bloederige, zonder genade tot uw ziel. Zij die het criptisch bekijken staan op een balkon van een grote hal. 16. In die hal zijn slachtingen, wanneer gij de woorden van het oude boek kronieken serieus neemt. 17. Slachtingen zaligen de ziel niet, maar maken de ziel ziek. Het criptische echter brengt vreugde tot de ziel, en doet de lusten en de heerlijkheden des Heeren ontwaken. 18. De Heere heeft geen behagen in slachtingen, en de Heere heeft geen behagen in wetten daartoe. De woorden van dit oude boek moeten we rekenen tot de ziekten van de ziel. 19. Daarom heeft de Heere zijn code opgesteld, door het woord der apostelen, om het oude woord te zuiveren en te beteugelen. 20. Gij doet er goed aan u op deze code te richten, opdat gij ontkomt aan bloedschuld. Gij echter weet ook dat woorden en codes de ziel niet zaligen, maar een hart dat de Heere verheerlijkt. 21. Maar wat noemt gij Hem Heere, terwijl gij niet doet wat Hij zegt ? Volgen wij Hem in de materie of in de criptiek ? Ook daarin is het laatste woord nog niet gesproken, zelfs niet door de heere. 22. Zo zijn er bouwwerken geweest op de slachtbergen van David. Salomo bouwde voort op zijn vaders werk. 23. Wij als apostelen door de Heere aangesteld bouwen voort op zuivering en criptiek. 24. Welvaart is in de harten van Gods kinderen door de criptiek. Zij die de materie dienen volgen Mammon, een medebouwer van het valse woord. 25. Zieleziekten vereeuwigen zichzelf door binnenkomers te zuiveren. Ware apostelen zuiveren zichzelf door de binnenkomers.

De Nieuwe Henoch

1.

Over Ukalien en de engelen van Eminius

En de arxelen en geesten van Kabbernal waren dan de ukalien, wiens harten toegewijd waren aan God. En sommigen van hen stonden als poorten, opstandingen en standbeelden aan de kusten van de Emelis Shatau, en deze beelden waren dan reusachtig, ja, gebouwd van het allerzuiverste van Elip. En hun namen waren aldus : Eziem, Hulus, Ozam, Miskus, Miaakt, Ethelm, Ezuartes, Ezulechom, Amientes, Motek, Eklam, Riaakt, Huizes, Olam, Harf, Hiocht, Hitkus, Miakt, Mazou, Mochomba, Ethelmus, Etiam, Eguart, Meزالus, Tuchalem, Omokt, Azalm, Azahar, Azazahus, Ochahalm, Ezeptus, Skinhus, Skinhupt, Skirtzaus, Mochahelm, Ieptus, Ihuptus, Izink, Ikalus, Mizkin, Mihupt, Mahalmus, Ezeptus, Mioot, Onthicht, Riaaks, Rihelms, Rimus, Iript, Riaaks de Tweede, Oronteim, Azuuks, Sluum, Oost, Onoktok, Okolem, Immehipt, Ezpel, Rihimpt, Ezaaks, Helks, Hirem, Hiranga, Azalks, Ekst, Hiumpt, Uimpt, Hikong, Guhuit, Ireng, Ereng en Faliks. En zo waren de engelen van Eminius dan : Firengenhout, Firengenhout de Tweede, Oronsteim, Stamiks, Muet, Miaakt de Tweede, en zij waren opgesteld in zeven gewesten, en ziet : zij dan waren als de bruggen.

Over de Johan

En de Heere sprak : Nu dan is het uur gekomen om tot Johan te gaan, het zachte des Heeren. En de Johan werd groot voor de ogen des Heeren als een zoon. En de Heere sprak : Zalig zij dit gewest des Heeren, opdat het een leidsman mag zijn over alle gewesten des Heeren. En een duif daalde neer op de Johan, en zij veranderde in een mus en een merel. En zij was op weg naar een zee, om daar een vis des Heeren te worden. Maar onderweg hield de Heere haar tegen en sloeg haar op de kaak. En zij dan worstelde met de Heere en liet zich door Hem zuiveren. En de Heere gaf haar schalen van Solt, en deze wierp zij over de aarde als schalen van zout, en luid geweent steeg op. En de mensen klaagden over steek.

2.

Zuivering door Worsteling

En weer sprak de Heere : Zij hebben gezondigd en hun zal elk recht ontnomen worden. En Johan begon te spugen op de aarde, en ziet, uit het speeksel kwamen dieren voort. En de Heere sprak : Zuivert mij dan de harten der dieren, en ziet dan of zij rein zijn voor de Heere. Zij dan zullen de aarde beerven, en aan hen zal ik het koningschap geven, maar wee hen wiens harten onzuiver zijn voor de Heere. En God stortte zijn Geest uit op de dieren en gaf hen macht te spreken. En de Heere gaf de aarde in de handen van Hikong, een ukalie op de Emelis Shatau, en ziet, zij dan bracht de aarde tot in het hart van de Emelis Shatau, en haar tongen werden zuiver. En de Heere sprak : Ik maak uw tongen tot wegen, en ziet, zij zijn rein. Ik maak dan uw lippen tot poorten. En de Heere kwam van zijn troon om haar te zuiveren, en hij sloeg haar op haar schouder, en zij worstelde met de Heere, voor zevenenzeventig dagen. En de Heere dan sprak : Zalig zijn de worstelaars des heeren. En grote lichten stegen op van de Emelis Shatau, en grote visioenen begonnen vlees te worden, en zij openbaarden de staarten des heeren, waar de sleutelen waren. En toen kwam de Heere tot Eklam, en worstelde met hem, totdat de poorten van de Emelis Shatau veelvoudig gezuiverd waren. En haar wateren waren als spiegels. En de Heere dan nam zout van de aarde en wierp het tegen de kaak der hemel. En de kaak begon zich veelvoudig te openen, en de stemmen des heeren begonnen veelvoudig te spreken. En toen kwam de Heere tot Fezout, die de geesten der ooievaars en reigers droeg. En de Heere reinigde hem en bracht hem tot boven de Emelis Shatau. En de Heere sprak : Hier zal ik Mijn volk bouwen, met de gesteentes van Elip, en niemand zal haar kunnen breken, en niemand zal hen kunnen roven uit mijn hand. En zij zullen dan heten : doorknippers van touwen en brekers van schepen, en zij zullen de schrik der zeeën met zich meedragen.

Het Getuigenis van Jezus Christus

1. Ik ben die Ik ben, spreekt Christus Jezus, onze Heere, in de nacht van de woestijn. Zo zijn er dan vele onwaarheden in Mijn Kerk op aarde die Ik aan de orde wil stellen. Luistert dan allen, want dit is een Woord gericht aan Mijn Eindtijd-Gemeente. Ziet dan, Ik kom spoedig.
2. Hetgeen Ik tegen u heb, oh geliefde Gemeente Gods, is dat gij van Mijn Huis en Mijn Tempel een hoerenhuis hebt gemaakt. Velen zullen niet binnengaan op de Dag dat Ik wederkom. Ziet dan toe op uzelf, en vernedert u.
3. In het kort komt het hierop neer, geliefden. Ik zal geen mens beoordelen op theologie of kennis, maar weet dan dat geen enkele zondaar het Hemelse Huis des Heeren zal binnentreden. Ik duld de zonde niet, nu niet, en niet in de toekomstige tijden. Gij zal er goed aan doen om u heen te kijken, en te bemerken dat gij de strijd tegen de duisternis aan zal moeten gaan. Dit Woord is dan veelal verwaarloosd. Gij weet niet hoe gij met demonen moet omgaan. Gij ziet engelen voor demonen aan, en demonen voor engelen. Veelal is het onderwijs over de strijd tegen de duisternis zoek.
4. En omdat gij veelal de strijd tegen de duisternis hebt verzaakt zijt gij in strijd gevallen tegen uw broeders en zusters, en tegen de natuur. Dat gij in tijden van verwildering vlees hebt gegeten zij zo, maar dat gij nog steeds volop van vlees leeft na uw verlichting is des duivels. Hebt gij dan niet in het Woord des Heeren gelezen dat gij moet leven van het vlees der duivelen ? Waarom slacht gij dan nog steeds uw broeders en zusters af, en de dierlijke creaturen die naar Gods Aard en Gelijkenis zijn geschapen ? Ben Ik dan niet de Goede Herder ? Ziet dan, gij hebt veelal Mijn Woord bespottelijk gemaakt door het vlees van onschuldige lammeren te eten, zonder daarin de werken van het vlees gaandeweg af te leggen. Ben Ik dan een slager der schapen ? Zo zult gij dan ook geen slager der schapen behoren te zijn. Gij bent geschapen om een slager der duisternis te zijn. Stopt

dan uw broeders en zusters op het altaar te slachten, maar leg uzelf op het altaar. Stop dan met het slachten van onschuldige dieren die gij offert aan uw buik, de afgod.

5. Weet dan dat Ik spoedig zal wederkomen tot hen die in deze schandelikheden door blijven gaan. Beoefent uzelf dan in de strijd tegen de duisternis. Ik zal hen die doorgaan tegen de natuur te strijden in plaats van tegen de duisternis zeker slaan. Weet dan, dat dit een Woord des Heeren is.

6. Gij zult de bokken der duisternis dan bij de horens pakken om hen tot het altaar te slepen, en niet uw broeders en zusters, en niet de onschuldige en hulpeloze dieren om u heen, die door Gods Genade aan u geschonken waren als vrienden, en niet als vijanden. Zij dan wijzen op een diepere realiteit van God, maar gij hebt dit beeld besmeurd en zal daar rekenschap over moeten afleggen.

7. Gij zult dan de bokken der duisternis tot het altaar slepen om hen daarop te slachten. Zo zult gij met Mij deelhebben aan de Maaltijd des Heeren. Gij zult het vlees eten van de koningen der duisternis, en niet de hopelozen en onschuldigen der aarde. Gij hebt in uw verduisterde harten mijn Woord omgedraaid tot een schande.

8. Hoe is het toch in u opgekomen nog steeds te leven van het vlees van onschuldig en hulpeloos vee ? Zoudt gij hen niet beter hoeden, zoals zij over uw zielen hoeden ? Maar ziet, gij hebt hen afgeslacht en geofferd aan de lusten der buik, die in duisternis leven, en hierdoor leeft gij nog steeds onder de vloek. Nooit zal er vrede in uw harten dalen als gij niet in vrede zult leven met uw medeschepselen. Gij dan leeft in valse vrede, die komt van de anti-christ.

9. Gij dan zult de kippen der duisternis tot het altaar slepen om hen te offeren, maar gij zult de kippen van de aarde, die de Heere tot uw naaste mede-schepselen heeft aangesteld, niet aanraken. Gij zult de kippen der duisternis slachten en hun vlees eten, en niet het vlees van onschuldige en hulpeloze kippen om u heen. Hoe ver zijt gij dan gedaald ?

10. Maar Ik ken uw harten. Gij volgt thans valse leringen over Mij. Valse dienstknechten en hen die misleid zijn hebben verteld dat gij dient te leven door Mijn sterven. Maar ziet dan, gij zult alleen leven door Mij in Mijn voetstappen te volgen. Mijn Bloed stroomt door een ieder die Mij volgt. Mijn Bloed stroomt door een ieder wiens bloed heeft gestroomd door in Mijn voetstappen te treden.

11. Omdat gij blijft geloven in een offer dat voor u gebracht moet worden in plaats van zelf een offer te zijn, zo zult gij ook steeds om dit offer vragen en vanuit dit offer leven. Ik ben alleen gekomen om u tot een voorbeeld te zijn. Gij die blijft leven vanuit bloed-offers zult ook daardoor ten gronde gaan. De Heere duldt het niet op zo'n manier bespot te worden. Hierdoor blijft gij ook onschuldig vlees eten, omdat gij leeft vanuit de gedachte dat iemand voor u moest sterven. Gij zult niet leven door een leven te nemen, maar gij zult leven door leven te geven. Zo Ik dan Mijn leven gegeven hebt, zo zult gij ook uw leven behoren te geven. Stel uzelf dan op als offers Gode welgevallig, en niet elkaar. Blijft dan niet leven vanuit duistere bloed-afgoderijen, maar weest dan rein. Gaat dan de strijd aan tegen de duisternis en laat geen onschuldig bloed vloeien. Gij hebt een strijd te voeren in de hemelse gewesten, opdat gij niet meegesleurd worde met de onreine en afgodische stroom. Voert gij strijd, eet dan geen onschuldig vlees. Zet uw leven in voor elkaar, maar neemt elkanders leven niet weg. Gij bent geschapen om strijd te voeren voor uw mede-schepselen en niet tegen uw mede-schepselen. Weet dan wie uw vijand is.

12. Gij zult dan uw tempelen in het heilige opstellen, niet om onschuldig vlees te offeren, maar het vlees der duisternis dat in de geestelijke gewesten vertoeft. Zo zult gij uw zielen behouden en niet ten schande en schaamte worden gezet op de Dag dat Ik wederkome.

13. Weet thans dat dit Woorden van Mij zijn, opdat gij uw zielen zuivert. Zij die niet met deze woorden rekenen : Met hen zal niet gerekend worden.

14. Zo zult gij dan uw handen van onschuldige koeien, varkens en schapen afhaken, ja, ook van paarden, want hen die zulke dingen bedrijven hebben veel bloed aan hun handen. Voert strijd tegen de koeien en stieren van de duisternis die op uw ziel loeren, en niet de koeien en stieren die de Heere in vrede op de aarde heeft geschapen. Zij doen u geen kwaad. Doe dan ook hen geen kwaad. Zij die dat wel doen doen tevens kwaad aan de Heere, en de Heere zal zulken voorzeker kwaad doen. De Heere laat dan niet met Zich spotten. Laat dan uw vissersboten uit de tijden van verwildering achter u, om vissers van mensen te worden. Leert dan van de Heere wat het is om de vissen der duisternis te eten. Houdt dan op om op elkaar te jagen en op de onschuldigen, maar jaagt op de geesten die in duisternis leven, zij die op uw zielen loeren. Zo zult gij rein worden van bloed, en zal de Heere u voor onschuldig houden. Maar zo niet, dan staat u een Dag van Aanklacht te wachten, waarin de Heere u van uw hoge troon zal neerhalen. Zo spreekt Jezus Christus. Neemt daarom deze woorden ter harte, geliefden, en overpeinst dezen, opdat de Heere Zijn toorn zal wegnemen, en u van de vloek bevrijde. Zondert u dan af van hen die kwaad doen, opdat zij u niet meesleuren in het verderf. De Dag des Heeren is aanstaande. Vreest Hem en looft Hem, om uw harten zuiver te houden, en opdat Hij u behoede.

15. Weest dan verder gastvrij tot hen uit het Oosten, Zuiden, Westen en Noorden, en veracht hun geloofsstelsels niet. De Heere dan spreekt door alle geloven. Hebt dan verder geen deel aan hun afgoderijen. Waakt ervoor dat gij geesten niet beoordeeld op hun naam, maar op hun hart. Gij weet thans welke zonden de Heere het meest verafschuwt : huichelarij en valse vroomheid, hen die zeggen in het licht te leven maar dit niet doen. Zulk een licht is dan de grootste duisternis. Zo zult gij dan voorzichtig zijn in het beoordelen der geesten en bovenal zult gij veel en nauwkeurig toetsen, daar dit een Gebod des Heeren is. Gij zult dan bovenal strijd voeren in het toetsen, opdat gij geen onschuldige der geesten zult bezeren. Gij zult met de geesten worstelen zoals Jakob met de Heere worstelde in Pniel. Zo zult gij uw wapenen verre houden van enige smet.

16. Zo zult gij dan de bokken der duisternis naar het altaar dragen, en gij zult hen de strot doorsnijden, hetgeen een gebod des Heeren is. Zo zult gij hun ingewanden eruit snijden en op een apart altaar leggen, opdat zij de heiligen niet meer zullen verslinden. Zo zult gij tijden van verlichting brengen tot het volk des Heeren. Zo zult gij ook de kippen der duisternis naar het altaar dragen en ook hen zult gij de strot doorsnijden en hun vleugelen zult gij afsnijden, opdat zij de gelovigen niet meer zullen aanvliegen. Gij zult dan hun poten breken, opdat gij de wil des Heeren zult doen, en zijn paden zult kunnen bewandelen. Het vlees der koningen onder hen zult gij eten, daar de Heere u dat heeft opgedragen. Zo zult gij dit gedenken door symbolen, wanneer gij samenkomt. Op de elfde dag van elke maand zult gij gedenken dat de Heere tot u sprak dat gij van het vlees der demonen zult eten. Op deze dag zult gij niet alleen het vlees van de koningen der duisternis eten, maar ook van hun dienaren in de hemelse gewesten. Op deze dag zult gij het vlees braden van al de demonen die gij die dag tot het altaar zal dragen. Weet dan dat dit een gebod des Heeren is. Zo zult gij dan afrekenen met het eten van onschuldig vlees en het vlees van uw broeders en zusters. Zo zal dan de elfde dag van elke maand een dag zijn tot herdenking van die vrijheid. Want de Heere zal Zijn volk vrijzetten, waartoe ook de dieren behoren die naar Zijn aard en gelijkenis zijn geschapen. Voor hen dan is het koninkrijk der hemelen weggelegd, en hen zal een mond gegeven worden. Hen die tegen hen blijven zondigen : Hun monden zullen van hen worden weggenomen. Zo zal er dan een Dag van Gerechtigheid zijn.

17. In de maand augustus zult gij dan geen enkel vlees eten, want ziet, in die maand is al het vlees onrein. Gij zult in die maand niet het vlees der koningen noch dat van hun slaven en vrijen eten, noch van de groten, noch van de kleinen, daar het eten van alle vlees in die maand de Heere tot een gruwel is. Zij dan die deze dingen in Ere houden : Ik zal aan hen verschijnen. Ziet dan toe, en waakt, want gij kent noch de dag, noch het uur.

18. Op de dertiende dag van elke maand zult gij de runderen der duisternis tot het altaar des Heeren brengen en hen daar doorsteken met de speer des Heeren. Gij zult op die dag geen andere soort demonen voor het altaar des Heeren brengen. Aan het einde van deze heilige dag zult gij hen allen onthoofden. Tevens is de dertiende dag van de maand de bevrijdingsdag van de runderen die de Heere tot vrede op de aarde heeft gesteld als uw mede-schepselen. Laat dan geen onschuldig bloed meer vloeien.

19. Op de achtste dag van elke maand zult gij van alle demonen der duisternis die gij die dag tot het altaar draagt de nieren blootleggen, opdat het kompas des Heeren vrijkomt. Aan het einde van deze dag zult gij jagen op de wilde varkens der duisternis en gij zult hen tot het altaar des Heeren dragen, en hun huiden geheel wegsnijden. Dit dan is een gebod des Heeren. Tevens is de achtste dag aangesteld als een dag van bevrijding voor alle varkens der aarde die de Heere geschapen heeft. Gedenkt dan de varkens op deze dag. Heiligt dan deze dag, en zegent deze in de Naam des Heeren.

20. Gij zult u vanaf nu dan ook niet meer in onschuldig bloed wassen, maar in het bloed der duisternis, opdat gij ingaat in de heerlijkheid des Heeren. Zij die zich in onschuldig bloed wassen en zich in onschuldig vlees verlustigen zijn niet des Heeren. Draag voortaan dan ook altijd het slachtmes met uw geestelijke wapenrusting, opdat gij u niet in uw doel vergisse.

21. Weest daarom overvloedig in het aanrichten van bloedbaden in het rijk der duisternis, opdat uw hart zich niet richt op het laten vloeien van onschuldig bloed. Verlustig u in de Heere en zijn strijd, opdat gij u niet in verkeerde dingen verlustigt. Verlustig u echter niet in de strijd des vlezes, maar vreest de Heere, want vreselijk is het te vallen in de Handen van de Levende God.

22. De tempel des Heeren is dus een plaats der soldaten en geen plaats van duistere priesters die onschuldigen ombrengen. Tegen zulke priesters richt zich het Woord des Heeren. Weest daarom een ware soldaat des Heeren, en houdt uw wapens rein door het rijk der duisternis te bestrijden. Oefent u hierin, want de Heere heeft u vele voorschriften gegeven. Zo luidt het Woord van Jezus Christus. Ook profeten zullen dan uitgaan in de velden van de hemelse gewesten om daar te jagen, om later door de jacht en door zuiver te offeren zuivere woorden des Heeren te verkrijgen, want de Heere Heere spreekt door de jacht. Laten zij dan die jagen heilig zijn, opdat de Heere hen zal heiligen. Zij die vuil zijn worden vuiler. Reinigt u daarom door geestelijke oorlog te voeren en de heilige jacht. Zo zult gij Mij, Christus Jezus, volgen, ja, tot in Mijn Legerstede. Aan zulken zal Ik Mijzelf openbaren.

23. Zo zal de tempel een wapenplaats zijn, en gij zult de valse priesters uit uw midden wegdoen. Zij die niet strijden leven veelal van onschuldig bloed. Ook hen zult gij uit uw midden wegdoen.

24. Ik zal u duidelijke voorschriften geven omtrend Mijn tempel. Ook zult gij Mijn Heilige Speer dragen en leren pijl en boog te hanteren. Zo zult gij uw dagen zuiveren en zuiver houden. Gij zult onschuldige geesten vrijlaten en uw kooien zuiver houden. Gij zult niet boven de maat straffen, en gij zult allereerst uzelf straffen. Toets dan veeleer in plaats van te tuchtigen, opdat gij geen deel hebt aan de tafel der valse rechters. Ook zult gij valkuilen maken en valstrikken leggen om demonen uit te schakelen. Spreid dan uw netten uit en doet de werken des Heeren. Haalt dan grote oogsten

binnen, want de dagen zijn kort. Denkt aan de tijden dat gij niet zult kunnen jagen en strijden. Zo zult gij dan op de vierentwintigste dag van elke maand brandoffers brengen. Gij kunt dit ook op de andere dagen doen, maar de vierentwintigste dag is hier speciaal voor aangesteld. Deze dag zult gij niet jagen. Ook zult gij in de maand september niet jagen. Gij zult deze maand gebruiken om de tempel uit te bouwen, en gij zult diensten doen in de tempel. De maand oktober zult gij dubbel jagen, daar dit de maand van de jacht is. Ook profeten zullen deze maand uit hun schuilplaatsen komen om te gaan jagen. In de maand november zult gij veel tijd besteden aan het uitbreiden van uw wapens, daar het de maand der wapens is. Verder bent gij vrij in het doen en laten, daar gij geleid wordt door de Geest, die de Geest der vrijheid is.

25. Wat Ik tegen u heb, geliefde Gemeente, is dat gij engelen volgt die niet gekruisigd zijn. Leert dan de kruizen der engelen kennen, want zij zijn gekruisigd zoals Ik. Leert dan ook de maaltijden van Christus kennen, zo is er niet alleen een avondmaal, maar ook een ochtendmaal, een middagmaal des Heeren, een nachtmaal des Heeren, en de verschillende jachtmalen van Christus, spreekt Jezus Christus. Leert hen dan allen kennen, en zo ook de feestmalen van Mij, van Christus Jezus. Zij die overwinnen zullen aan deze maaltijden deelhebben. Ja, zij zullen het vlees eten van de welgeplaatste koningen der duisternis, van hun prinsen en prinsessen, ja, van hun vrijen en slaven. Zo zullen aldus de maaltijden des Heeren zijn tot allen die het beest en zijn valse profeet hebben overwonnen.

26. Wordt dan wederomgeboren door het bloed dat gij in de hemelse gewesten onder de vijand aanricht, en niet door het bloed der onschuldigen. Gij moet uzelf reinigen, gemeente. Gaat dan niet door met het beliegen en bespotten van elkaar. Zij die dit doen volgen een valse Christus. Wie dan een leugenaar of spotter wil zijn : Weest deze dingen in de Heere, opdat de Heere u kleine genade zal geven op de Dag des Oordeels. Leert dan de tranen van de Heere kennen, opdat gij een veel hogere weg zult bewandelen. Leert dan ook zijn boog kennen. Ja, laten uw vingers beoefend zijn in de strijd.

27. Gij zijt dan allen op weg naar het bloedend hart van Christus Jezus, naar zijn bloedende long en zijn bloedende lever. Hebt dan deel aan Mijn geheimenissen en leef. Alleen zij die Mijn spotkleed hebben gedragen zullen hieraan deelhebben. Zoals uw Heer eens gekruisigd werd, zo zult ook gij gekruisigd worden om in te gaan. Ik ben u tot een voorbeeld geweest. Meng daarom uw bloed met Mijn Bloed, uw tranen met Mijn tranen, opdat wij elkaar zullen versterken. Leef dan niet meer van onschuldig bloed, maar schenkt uw bloed tot vermenging, en leef. Dit is dan genade dat gij aan zulke goddelijke dingen deel zult hebben. Zo zult gij dan eerst van uw eigen bloed drinken, voordat gij van enig bloed drinkt. Vermengd dan uw bloed met het bloed der profeten en gij zult zalig zijn en een deel zijn in hun gemeenschap. Zo zult gij recht doen aan de profeten en de heiligen. Want door het bloed zult gij aan elkaar verbonden worden, met banden die niemand breekt. Zo zult gij dan allen de Heere kennen zoals Hij is.

28. Wordt dan wederomgeboren in de strijd en jacht des Heeren, opdat gij niet aan een andere strijd ten prooi zal vallen. De Heere rekent niet met de bloeddrinkers van onschuldig bloed. Zij zullen ten schande worden gezet op de Dag des Oordeels. Ja, tegen zulken strijdt de Heere. De Heere is tegen hen die vlees eten van onschuldig vlees, en zal hun vlees eten. Ja, vreselijk is het om in de Verslindende Handen des Heeren te vallen, want de Heere Heere is een verterend vuur dat merg en ziel scheidt. De Heere veracht de strijdswagens van hen die op onschuldig bloed loeren. Ja, de Heere zal hun bloed drinken. Zo zult gij dan zuiver voor de Heer staan.

29. Zo zult gij dan ook niet meer onschuldigen verdrinken, maar gij zult het rijk der duisternis verdrinken door de wapens die de Heere u zal geven. Ja, wanneer gij uw hand beweegt zullen zeeën zich verplaatsen, en gij zult zeggen : 'Heft uzelf van hier op, en valt over de vijand,' en ziet, zij zullen aan u gehoorzamen. Want het is de Heere die heeft gesproken, en het is de Heere die kracht heeft gegeven. Maar velen zullen ten dien dage tot de Heere komen, en zij zullen zeggen : 'Heere, hebben wij niet in uw naam grote dingen gedaan ?' Maar de Heere zal tegen hen zeggen : 'Wijkt van Mij, gij boosdoeners, want gij hebt onschuldig bloed vergoten, en gij hebt uzelf ten goede gedaan aan onschuldig vlees dat gij hebt laten verdrinken.' En het geweeeklaag van vele stammen zal groot zijn.

30. Gij dan zult wederomgeboren worden door het kruisigen van uw vlees, want velen die zeggen wederomgeboren te zijn, zijn wederomgeboren in onschuldig bloed, en hen wacht het oordeel. Ziet dan, de Jager staat aan de poorten van uw huis, om weldra uw huizen te doorzoeken. De Heere zal recht doen aan groten en kleinen, aan vrijen en slaven, die deze woorden bewaren. Houdt dan goede moed, want de Heere strijdt voor u, zegt Jezus Christus. En Zijn strijdwapens zijn talrijk, scherp om onschuldig bloed van het bloed der duisternis te scheiden. De Heere dan scheidt bloed en ziel, ja, merg en gebeente. De Heere Heere zij u genadig.

31. Zo zult gij dan deze woorden bewaren en opgroeien in de strijd des Heeren, opdat gij niet aan andere lusten ten prooie zult vallen. Hebt elkaar dan lief, en strijdt voor elkaar als ware soldaten des Heeren. Draagt elkanders kruis, en kent elkaars tranen, want zulken zullen de liefde volmaken. Weest dan ten allen tijde de mindere broeder en de mindere zuster, opdat gij het geheim van de hogere liefde des Heeren zult kennen. Want ziet, gij dan zijt allen geschapen om van liefde tot liefde te gaan, totdat gij de hogere weg zult vervullen. Heeft de Heere u dan gemaakt om elkaar te beoordelen en te bespotten ? Neemt dan uw wapens op, en strijdt voor elkaar. Sprekt waarheid binnen uw poorten, maar weest listig en behoedzaam buiten de poorten, opdat gij niet ten prooie zult vallen aan de wilde dieren. Werpt geen paarden voor de zwijnen, maar bestrijdt de geesten der duisternis met de scherptes van mes en pijl. De Heere bewapent u en kome spoedig. Mijdt hen die geen wapens dragen, maar leert elkander over de verschillende wapens. Zo zult gij uw zielen van smet bewaren. Mijdt ook hen die geen wonden dragen, maar kom tot de wonden des Heeren, opdat gij de wonden der duisternis niet zult genezen. Want velen zijn het spoor bijster geraakt door de wonden der duisternis te genezen.

32. Vat dan liefde voor elkaar, en behoedt elkaar, opdat de Heere tot u zal spreken, en gij niet zult afdwalen. Sommigen onder u hebben echter het spreken des Heeren en de tucht veracht. Na enkele vermaningen zult gij het stof van uw voeten afvegen en verder gaan. Weest echter niet hoogmoedig. Wie meent te staan, ziet toe dat hij niet valle.

33. Zo zult gij de gaven en wapenen der wedergeboorte rijkelijk ontvangen, wanneer gij in Mij blijft. Gij moet wederomgeboren worden in het bloed der vijand, en niet door het bloed der onschuldigen. Gij zult geen onschuldig vlees aanraken, noch dit eten, want zo zult gij uw gave opgetekend in Mijn Getuigenis verliezen. Blijft in Mij, en doopt uzelf niet meer in onschuldig bloed, maar doopt uzelf in de bloedbaden der duisternis. Hierin zult gij u wassen, en voor Mijn aangezicht vrijgezet worden. Zo zult gij de gaven en wapenen van deze doop kennen, wanneer gij in Mij blijft. En zo zult gij uzelf dopen in de bloedbaden van de varkens der duisternis, en niet in het bloed van onschuldige varkens op de aarde, die door de Heere geschapen zijn om uw zielen te behoeden. En zo zult gij uzelf dopen in de bloedbaden van de kippen der duisternis, en niet in het

bloed van onschuldige kippen, die de Heere op de aarde geschapen heeft tot uw naaste medeschepselen. Spot dan niet met de werken des Heeren, oh volk.

34. Zo zult gij het slachtmis des Heeren hoog houden op de heilige berg, en gij zult in de velden onder uw vijand bloedbaden aanrichten, waarin geen onschuldig bloed gemengd zal worden. Zij die onschuldig bloed vergieten zullen uit de tempel verbannen worden. Ja, de Heere zal hen vinden, al die priesters van onschuldig bloedvergiet. Hij zal hun schuilplaatsen slaan, en hen gebonden uitvoeren. Zo zal er dan een einde komen aan het binden van onschuldig vlees.

35. Oefent dan veelvuldig met de wapenen die de Heere u gegeven heeft, opdat gij niet ten prooi zult vallen aan de krijgsleer der wereld. En wanneer gij strijdt, draagt de doornenkronen des Heeren als uw helm, en het spotkleed des Heeren als uw pantser. Leert dan ook de doornenkronen en spotkleden der engelen kennen, want velen onder u volgen valse engelen die deze dingen niet dragen.

36. Zo kennen dan hen die de doornenkroon en het spotkleed dragen vele geheime wapenen. Zij dragen de slachtspeer des Heeren om onschuldig bloed en vlees te beschermen.

37. Zo zijn er dan aan de slachtspeer des Heeren vele geheime gaven verbonden. Ja, zij draagt de sleutelen tot de boogschutters des Heeren. Zij dan brengen voort vele slachtvuren des Heeren om hen van onschuldig vlees en bloed te beschermen. Ja, een schuilplaats des Heeren is zij, een hoge toren van het verbond van Mijn Getuigenis, spreekt Jezus Christus.

38. Ja, de slachtspeer des Heeren voert de boogschutters aan, en zij is de heerseres over de beminden des Heeren. Ja, de minares des Heeren is zij. Zij komt altijd van hoog om de boogschutters aan te voeren, om vele slachtvuren van hen uit te doen gaan. Zij zet de velden in een vlam, en neemt haar prooi tot de Heere. Zij die de slachtspeer dragen zijn heilig. Zij kennen de woorden des Heeren als een geheim vuur. Zij worden wederomgeboren op de slachtvelden des Heeren, en zij kennen al Zijn schuilplaatsen, waar onschuldig bloed en vlees vertoeft.

39. Zo zijn er dan vele slachtpijlen in de hand des Heeren, die allen naar Zijn stem horen. Hij is de Goede Herder en de Goede Jager, en niemand zal hen uit Zijn hand roven. Hij is Hem die bindt, terwijl niemand losmaakt, en die losmaakt, terwijl niemand bindt. De speerwerpers des Heeren zijn allen in Zijn hand. Hij kent ze allen bij name, en naar Zijn stem horen zij. Zij brengen voort de geheimenissen des Heeren, en zij behoeden de profeten. Vertaal het Woord des Heeren daarom niet voor Zijn tijd, doet niet af en voegt niet toe. De profeten des Heeren zijn talrijk, maar apostelen vindt men weinig. Zo heeft de Heere dan een wacht aangesteld om de duistere geesten der apostelen na te jagen. Deze duistere geesten worden door hem geleid tot het slachthuis des Heeren, want zij hebben het Woord vertaald voor Zijn tijd, en zij hebben aan de profeten afgedaan. Zo zult ook gij de schapen der duisternis tot het altaar leiden. Ook zult gij de bokken der duisternis niet voor het altaar sparen. Want zij die zulke dingen bedrijven zullen ten prooi vallen aan de profeten des Heeren. Spaart dan de duisternis niet, want zo zullen de zonden in stand gehouden worden. De Heere rekent niet met hen die zulke gruwelen verrichten.

40. Zo zult gij dan zijn : reine slagers des Heeren. Gij zult de zonde niet sparen, en gij zult het Woord niet voor Zijn tijd vertalen. De speerwerpers der wedergeboorte zijn talrijk. Wakkert dan uw wapenen aan, opdat gij niet door een poel van zonde in het verderf wordt gesleurd. Zij dan die wapens hebben en die niet gebruiken zullen door deze wapens ook ten gronde gaan. Zij dan die wapens dragen en deze niet verder verfijnen zullen door deze wapens ook ten gronde gaan. Zo zult gij u dan onderwerpen aan uw krijgsheer. Want gij zijt allen slagers, maar alleen hen die slagers zijn

in de Heere en zich hebben onderworpen aan hun krijgshoofd zullen binnengaan. De slachtingen des Heeren dan zijn groot, maar ziet, zij die zich tegen Hem verzetten zullen door deze slachtingen ook ten onder gaan.

41. Zo heeft de Heere dan in zijn gemeente gezet : slagers, jagers, profeten, herders en soldaten, maar meer nog : speerwerpers en mesvechters. Laat hen u dan leiden tot wedergeboorte en doop, opdat uw harten één zijn met de Heere, en gij in Hem blijft.

42. Wat Ik tegen u heb, gemeente van Amerika, is dat gij u tegoed hebt gedaan aan rijkdom. Ziet dan, gij zijt trots en hoogmoedig. Maar gij hebt enkelen onder u die de woorden des Heeren hebben bewaard. Ziet dan, Ik kom spoedig, en als Ik u zal vinden in zonde, dan zal Ik u slaan. Gij hebt de tucht veracht, maar gij hebt enkelen onder u die tucht hebben gebracht, en gij hebt hen vermoord. Ziet dan, er is bloed aan uw vingers, en Ik heb het geroken. Ik reken u tot hen die stank brengen in Mijn schepping, en Ik zal u spoedig van de aardbodem wegvagen wanneer gij u niet bekeerd, spreekt Jezus Christus. Oh, spoed dan tot de tijd van genade, zegt Jezus Christus, opdat gij verademing zult vinden voor uw volk. Ik heb u lief, omdat er onder u zijn die de minsten wilden zijn, en dit heeft hen grote rijkdom gebracht. Ik zal deze rijkdom niet verafschuwen. Zij dragen een sieraad niet van deze wereld, en Ik zal hen snel opstellen tot leiders van een nieuw geslacht. Maar wat Ik tegen u heb is dat gij onschuldig bloed laat schreien tot Mij, en Ik heb hun stemmen gehoord, en zal hen vrijzetten op de dag daartoe gesteld. Want ziet, Amerika, er is een Dag waarop de Heere Zich richt tegen alles wat onschuldig bloed heeft vergoten. Ziet dan, de Heere zal een slachting aanrichten, en het geweeeklaag zal groot zijn. Tot Mijn poorten zal uw stank oprijzen, en Ik zal niet helpen, omdat gij tegen de Heere gezondigd hebt. Ja, tot een bespotting hebt gij Mij gemaakt, daar gij Mijn spotkleed was. Ja, spoedig zal Ik wederkomen om recht te doen aan onschuldig vlees en bloed, en om Mijn mes tot scheiding aan te voeren. Gij hebt u versierd met het bloed van onschuldigen, spreekt Jezus Christus. Gij hebt u versierd met dat wat geen sieraad is, en gij hebt Mijn schepping gedwongen in u te doen geloven. Gij hebt u opgesteld als Christus, maar ziet, gij waart een valse. Daarom het loon hierop zal u tegenspreken. Ik zal enkelen nemen om uw land te herbouwen, maar ziet, gij zult zelf niet tot het beloofde land ingaan. En dan zult gij wenen en hopeloos verloren zijn wanneer gij hen van honing ziet eten, en gij zelf buitengesloten zijt.

43. En tot Duitsland spreekt de Heere : Oh, verachtelijke natie, oh hoogmoedig geslacht, levende van zoveel onschuldig bloed. Ik heb uw stem gehoord, maar zal niet naar uw stem luisteren, oh gij van de vliegende slang. Ik zal de speerwerpers uit uw handen nemen, en Ik zal het roest der aarde u laten tegenspreken. Keer om, oh natie, bekeer u van uw slechte daden, en gaat niet voort verrukt te zijn over uw onrecht. De Heere zal onder de bokken der duisternis slachting aanbrengen, en gij zult zelf niet ingaan in het land van melk en honing. Gij zult diep en innig weeklagen wanneer gij bemerkt dat gij buitengesloten zijt. Toch heeft de Heere enkelen onder u gespaard, en Hij zal hen sparen op de Dag des Oordeels die gaat komen. Ik kom spoedig. Laat Ik dan geloof en liefde onder u vinden, of u zult ten gronde gaan onder Mijn roede en speer.

44. En tot Frankrijk spreekt de Heere : Uw speerwerpers zijn verrot. Eeuwen van onschuldig bloedvergiet schreien tot Mij, en nog steeds bekeert gij u niet van uw boze werken. Gaat dan niet voort op uw paden, want Ik kom spoedig om uw kandelaar weg te nemen. Dan zal duisternis uw land vervullen, en gij zult niet meer kunnen bovenkomen.

45. Tot Nederland spreekt de Heere : Verachtelijke natie der zotten. Eeuwen van onschuldig bloedvergiet schreien tot Mij, en gij bekeert uzelf niet, oh koppig volk. Gij hebt uw monden wijd

opengetrokken om tegen de allerhoogste te spreken, maar ziet, Ik zal deze monden slaan. Ja, gebonden op strijdswagens zal Ik u wegvoeren, indien gij niet voor de armen en onschuldigen opkomt. Gij hebt de vreemdeling ten schande gezet, en gij bent zelf op zijn tronen gaan zitten.

46. Tot Belgie spreekt de Heere : Gij trotse natie zonder helden. Ik heb verderf in uw binnenste gebracht, en gij dacht dat de tegenstander u aanklaagde. Ziet, gij bent zelf een tegenstander. Toch heb Ik u ook troost gebracht, omdat er enkelen onder u waren die hun harten rein en zuiver hebben bewaard. Ja, zij hebben de Heere bemind. De Heere zal daarom grote delen van uw land sparen.

47. Zo heeft dan elke bediening zijn eigen wedergeboorten, en zo ook elke gave en elk wapen. Volg daarom uw krijgsheer die de Heere boven u heeft aangesteld. Doet dan naarstig onderzoek in de geschriften des Heeren en bewaar Zijn Woorden als ware het uw kinderen. En gij zult niet meer rijden op onschuldig vlees en bloed, maar gij zult rijden op het bloed der duisternis. Ja, de Heere zal u noemen : bokkerijders. En gij zult de vijand van vlees ontdoen en het bloed zal zich tegen u richten, maar gij zult erop rijden, omdat dit een gebod des Heeren is. Zo zult gij de natien in de hemelse gewesten aan Mij onderwerpen, en zij zullen krachteloos zijn. Zo heeft dan ook elke bediening, elke gave en elk wapen zijn eigen dopen. Streeft dan naar de hoogsten onder hen. Blink dan uit in strijdvaardigheid en in virtuositeit, en wees hierin de beste, ja, de kampioen. Want de Heere kent alleen kampioenen in Zijn werken. En als gij dan kampioen wilt zijn, weest kampioen in het zijn van de minste, en in het dragen van Zijn kruis. Zo zult gij uw zielen behouden, en zult gij de sieraden dragen niet van deze aarde. Want wilt gij sieren, sier in het zijn van de minste, en in het dragen van het kruis. Zo zult gij dragen een zaligheid en een wedergeboorte niet van deze aarde. Sier u dan niet met onschuldig bloed, maar met het bloed van koningen en raadsheren der duisternis, met hun beenderen, ja, met het vlees van de bokken der duisternis. Wanneer gij wilt sieren, siert in de Heere, opdat Hij u kleine genade geve op de Dag tegen al wat hoog is. Vernedert u dan voor de Heere, opdat Hij u niet hoeve te breken. Weest ledig voor de Heere, opdat Hij u niet hoeve te doen barsten.

48. Wanneer speerwerpers u hebben omsingeld : De Heere zal u uitleiden, u die Zijn Wil doet. De Heere zal u laten springen over muren, en u stenen laten breken, wanneer gij in Hem blijft. Maar zij die niet in Hem blijven vallen van hoge muren. Zij gaan krachtig voort, maar worden steeds zwakker, daar de Heere hen van binnen geslagen heeft. Zij vallen ten prooi aan vreemde krachten, en de Heere biedt hen geen bescherming. Nu niet, en niet in alle eeuwigheden. Want de Heere heeft hen verworpen, en de Heere heeft besloten aan hen geen aandacht te geven. Verdoemden zijn zij, op weg naar het eeuwige graf. Zij zullen alleen rust vinden in vernietiging. Vreest daarom de Heere en kijk naar Hem op, want Hij heeft macht over u. Hij dan behoeft de zielen van hen die Hem volgen en die met Hem waken, maar zij die in slaap vallen zijn reeds verloren. Krochten der hel wachten hen op om hun zielen te zuiveren. Tot verslinding zijn zij bereid. Daarom, volk, vreest de Heere en doe Zijn Wil, opdat Hij uw paden recht zal maken en voor struikeling zal behoeden. Maar in het laatste der dagen zullen er velen struikelen, opdat er onder hen zuivering wordt aangebracht.

49. Een krijgsheer is de Heere, uitgaande om vernietiging aan te brengen onder Zijn vijanden. Zij sidderen wanneer de Heere komt, en wanneer de Heere Zijn mes opheft. Alleen zij die de minsten wilden zijn zullen aan Zijn Hand ontkomen, maar de rest is reeds verloren. Verschrikkelijk zijn de oordelen die de Heere zendt, terwijl niemand hen kan stoppen. Daarom : Bekeert u tot de Heere, en doe Zijn werken, opdat Hij uw zielen niet van de aardbodem zal afvegen. De Heere is dichtbij hen die Hem vrezen, hen die sidderen voor Zijn Woord, maar de rest is reeds verloren. Zoekt dan berouw in uw harten opdat gij zult leven.

50. De Heere zal niet afwijzen hen die sidderend en bevend tot Hem komen, maar zij die Hem niet vrezen zijn reeds verloren. Zoek daarom in uw harten of er nog vrees over is, opdat gij niet onder ogen hoeft te komen dat gij reeds verloren zijt wanneer de Heere aan de poorten van uw huis klopt. Dan zal er nog enkel vrees zijn, als de vrees der hel, maar dan zal de Heere u niet aannemen. Vrees daarom de Heere nu, opdat gij niet later met uw vrees verloren zult gaan.

51. En door de wedergeboorte zult gij loskomen van de bloedbanden der duisternis en zult gij de bloedbanden van de Heere ontvangen. Hieraan zal uw eigen vlees zich hervormen. En deze bloedbanden zijn rein en heilig, en zij zullen u leiden tot de bronnen des Heeren. Maar gij zult vele vijanden dienen te verslaan om tot deze bronnen te komen, want alleen aan hen die Hem innig liefhebben zal de Heere Zijn geheime tranen tonen. Zo zult gij dan komen tot de honderdvierenveertig duizend dopen en de duizend dopen, welk een groot geheimenis is. En ziet, gij moet dan zeventig maal zeven maal wederomgeboren worden in het bloed der vijand. Laat dan nimmermeer onschuldig bloed aan uw handen kleven. Maar ziet dan, er zijn thans wolven rondom u, die u van de eenvoudige waarheid kunnen afleiden. Weest daarom op uw hoede. Legers zijn tegen u uitgezonden. Zij kijken door uw ramen en komen door openingen binnen, om uw zielen weg te voeren. Zij zullen u wegvoeren naar een diep woud, waar de Heere niet is. Daarom : weest nuchter en waakzaam, want uw tegenstander rust niet, en zoekt wegen om uw hart te doorzoeken, daar hij weet dat zijn tijd kort is. Houdt daarom stand in het laatste der dagen, en omwikkelt u met de Woorden des Heeren. Zij zullen u leiden en voorthelpen, ja, door stenen muren breken zij heen.

52. Dit dan is Mijn getuigenis dat Ik aan Mijn gemeente in het laatste der dagen schenk. Neemt deze woorden ter harte, en laat u erdoor zuiveren, opdat Ik niet kome om u met de roede te slaan. Mijn staf zal u vertroosting schenken, en Ik zal u leiden naar waterige bronnen, wanneer gij in Mij blijft en Mijn woorden en Mijn getuigenis bewaard. Bewaar dan Mijn getuigenis, want Ik kom spoedig. Laat niemand afnemen wat u heeft. Ziet, Ik zal Mijn speerwerpers om u heen zetten, wanneer gij de woorden van Mijn getuigenis bewaard. Zij zullen u beschermen en leiden. Zij zullen ervoor zorgen dat niemand u zal roven uit Mijn hand. Draag dan Mijn getuigenis tot de Dag dat Ik terugkom, gemeente, en weet dat gij hierdoor de vijand voorzeker zult overwinnen, zoals Ik gesproken heb. Maak dan dit Woord ook tot uw getuigenis, geliefden, en onderwijs elkaar met deze woorden. Gij zult elkaar dan herkennen aan het dragen van de doornenkroon, het spotkleed en Mijn littekenen, spreekt Jezus Christus. Ziet dan, in een duistere nacht zal Ik aan uw poorten kloppen en zalig zullen zij dan zijn die voor Mij opendoen en Mij binnenlaten. Zij dan zullen eten van de Maaltijden des Heeren, ja, aan Zijn tafel zullen zij zitten. Maar zij die niet voor Mij opendoen zullen zelf buitengeworpen zijn. Ik de Heere zal hen vinden, en aan handen en voeten binden, want dezen zijn bestemd tot de buitenste duisternissen, daar waar het geweest is en het tandengeknars. Ik zal niet onschuldig houden hen die Mijn Naam hebben verloochend voor de hoge raad.

53. Maar Ik, de Heere, zie de harten aan, en luister niet naar de woorden van de mond, maar de woorden van het hart. Zo zullen dan woorden geen betekenis meer hebben, daar zij wegbranden in het slachtvuur des Heeren. Zo zullen alleen hen die een hart hebben Gode welbevallig kunnen spreken. De Heere zal hiervoor de harten naarstig toetsen, want een toetsers is de Heere. En zij die hem volgen zijn daarom toetsers. Zij die niet toetsen behoren de Heere niet toe. Zij behoren tot de zwalkende profeten die rondgaan om op onschuldig bloed te loeren. Weest echter voorzichtig in het vertalen. Vertaalt het Woord des Heeren en Zijn getuigenis niet voor Zijn tijd. Dit is de Waarschuwing des Heeren. Maar zij allen die Mij volgen, Christus Jezus, zullen niet ten prooi vallen, want Ik ben het die hen leid. Haal dan het onschuldig vlees uit uw monden, en eet het vlees

der duisternis wat de Heere aan Zijn jongen geeft, opdat gij zult kunnen spreken op de Dag des Oordeels en niet zonder woorden uw hart verloren zult zien gaan. De Heere voedt Zijn kinderen met het vlees der vijand. Wordt gij echter gevoed met onschuldig bloed, dan mag u u afvragen of gij wel een kind des Heeren bent.

54. De Heere neemt echter kinderen aan, want zij die Hem willen volgen en naarstig aan Zijn poorten kloppen, voor hen zal Hij zeker opendoen, en hen aannemen als kinderen. Onderzoekt daarom Zijn woord naarstig, en strijdt indringend om in te kunnen gaan. Velen heeft Hij de macht gegeven om kinderen Gods te worden, maar slechts weinigen zullen door het smalle gat ingaan. Weest daarom snel in het toetsen en langzaam om te vertalen, dat gij niet afdoet aan het profetische woord. Want ziet, alle profetie is het getuigenis van Christus, spreekt Christus Jezus. En gij zult u aan Mijn Getuigenis warmen als aan een vuur tot u gezonden om u te leiden en te beschermen in duisternis en kou. Dit dan is Mijn Liefde. Ik heb u niet als wezen achtergelaten, maar Ik heb de woorden van Mijn Getuigenis tot u gezonden in het laatste der dagen. Nog vele malen zal Ik spreken, om Mijn Getuigenis voor het laatste der dagen te volmaken. Hoort dan naar deze woorden, opdat gij zaligheid vinde voor uw zielen. Ik, de Heere, heb u zeker niet als wezen achtergelaten. Zoek dan naarstig naar Mijn geheimenissen op verborgen plekken. Mijn messenwerpers zullen u bijstaan en beschermen, ja, zij zullen strijd voor u voeren, en gij zult voelen als de warmte van een gezin. Zij zullen ondoordringbare tunnels doorbreken, en zij zullen u voeren tot nieuw land. Zij zullen de snellen der duisternis neerhalen, en u de duisternissen der apostelen laten zien. Weest dan langzaam in het vertalen en langzaam in het doorreizen. Gij zult de lichten die geen lichten zijn doven, want de duisternis des Heeren zal u tot licht zijn. Dan zult gij komen tot de tempel van David, en Ik zal u nieuwe voorschriften geven. En Ik zal David aanstellen tot een licht en een schild, en hij zal u een nieuwe krijgsheer geven, en u onderricht geven in de strijd. En hij zal de geesten der duisternis niet sparen, en ook uw vlees zal hij niet sparen. En gij zult met hem worstelen in Pniel, omdat hij u zal toetsen, en u hem. Zo zal dan David de messenwerpers bijstaan, en u leren wat het is oorlog te voeren in de hemelse gewesten. En David zal u leiden tot een gat in de muur, waar heilige boeken zijn opgesteld. En gij zult deelhebben aan zijn maaltijden in zijn burcht.

55. En Ik zal u meerdere geheimenissen over David tonen, want een groot oorlogsheer is hij in de hemelse gewesten. Zo zet hij dan één blik van zijn ogen de velden in vlam. Zijn messenwerpers zijn onderlegd in het beschermen en bewaken van zijn burcht. Speerwerpers komen voort vanuit zijn mond, en boogschutters staan op zijn muren. Ja, heilige slagers heeft hij in zijn burcht aangesteld om het plan des Heeren te volvoeren. Zij zullen de geesten der duisternis niet sparen. Door bloedbaden zullen zij hun wegen vinden, en de raad des Heeren. Zo zal dan David tronen in het nieuwe Jeruzalem. En zijn troon zal zijn tot in alle eeuwigheden en utmiren. En de slachtspeer zal de poort openen aan het einde van alle eeuwigheden tot de komende Jedad, het nieuwe tijdperk der eeuwigheden. Elke Jedad draagt dan vierhonderdmiljard eeuwigheden in zich. Zo zijn er dan twaalfhonderd en vierenzestig Jedads in elke Johad. Zo zijn er dan vierentwintig Johads. De vierentwintig Johads zijn aangesteld om de tijden des Heeren te volmaken. Zo zal dan in de komende Johad het nieuwe Bethlehem gebouwd worden. Zo zal dan in de Johad daarna het nieuwe Pniel gebouwd worden, en het zal worden tot een grote vlakte. Ook zullen Nazareth herbouwd worden, Getsemane en Golgotha. En de Heere zal de volkeren leren geen onschuldig bloed meer te vergieten. De Heere zal een legermacht opstellen om Zijn werken te doen geschieden.

56. Leert dan van het kruis van David, een oorlogskruis, een rood kruis. Leert dan van het slachtmes van David, voortkomende vanuit dit kruis. Ja, al zijn oorlogsgaven en oorlogswapenen komen voort

vanuit dit kruis. Leert hen kennen, en leert hen te hanteren. Vele legers worden hierdoor aangevoerd. Leer deze legers kennen. Zo zult gij dan wedergeboren moeten worden in de velden en de burcht van David. Ook zult gij wederom geboren moeten worden in alle Jedads en Johads, opdat gij zult gaan van behoudenis tot behoudenis. Zo zult gij dan ook de littekenen van David in uw lichamen dragen.

57. Gemeente, gij maakt er vaak nogal een sport van om anderen Jezus te laten aannemen. Geliefden, laat hen de doornenkroon aannemen, en het spotkleed. Weet dan ook dat gij alleen tot Mij kunt komen door David's spotkleed en doornenkroon te dragen, daar hij door Mij gezonden was, evenals de profeten, om de weg te bereiden.

Notenkraker

1. Muizen met symmetrie, zij kwamen onder het roze, het mysterie. Alles was daar zwart en wit, terwijl het grijze koning was. 2. De muizen des hemels, zij staarden daar, waar mystieke ratten de trompet blazen. Oh ja, zij waren des hemels. Engelen waren zij. Zij volgden de duiven en de raven, het voedsel van merels aten zij. 3. Zij brachten hen tot het huis van slaap, waar alles vlam zou vatten. 4. De vlam is om te vernietigen, en niet om eeuwig in stand te houden. 5. De ribbels van de wateren des hemels, als door verbroken spiegels bekeken. 6. De muis dan slaapt niet meer, voor eeuwig ontwaakt in de waarheid, om te gaan slapen in een ander licht. 7. In de vijver ziet de koning goud en zilver. Daar waar het maanlicht haar raakt. Zacht beroert zij de gezichten, en niets doet er meer toe. 8. Alles is altijd toch weer anders, volgen kun je het niet. 9. De wereld is te groot om te bevatten, de ander kennen kunnen we niet. 10. Laten we de moed maar opgeven, want niets doet er meer toe. 11. Waarom moed hebben tot de kroon der ijdelheden, het zal toch vergaan, in het licht van de dag erna. 12. Waarom zouden we nog iets vasthouden, als we het snel weer zullen verliezen. 13. We worden gedreven tot de vlam die zevenvoudig brandt, oplossende in het niets. 14. We kunnen toch niet tegenhouden datgene wat gaat komen. Het maakt niet meer uit, waarom nog drukte maken ? 15. We leren door wijsheid niets te weten. Alles houdt zichzelf in stand. 16. Ketenen kunnen we niet breken. Het is toch altijd anders, het komt toch altijd van een andere kant. 17. Schrik maar als je wil schrikken, de muizenkoning is hier belandt. 18. Hier is altijd alles anders, en de betekenissen verbrandt. 19. Mijn hand kan mijn andere hand niet bereiken. Mijn voet brengt de ander tot struikelen. Ze verstaan elkaar niet.

Esmeralda

1. Gij dan met al uw canons, weet dan dat de pijn u tot stilte brengt. Want voor de Utmiren en de tijden der Geesten Gods waren de tijden van het kruis, de driehoek en de lijn. 2. Gij hebt dan aan persoonsanon gedaan, en aan christusanon. Deze twee geesten leven als spinnen in uw binnenste om u kaal te vreten. 3. Gij hebt niet willen weten waar uw Christus vandaan kwaamt, daar gij uw

tijdscanons had opgesteld. 4.Zeer te betreuren zijt gij, en gij hebt geen beleg op uw brood gehad en geen maaltijd bij de wijn. Gij bent geweest tot onderdrukkers, en onderdrukt werd gij. De Heere schiep u in ballingschap, en heeft u daar verwekt. 5.Gij hebt niet naar uw draken willen luisteren, maar ziet, zij waren de heeren van voor de Utmiren en tijden der geesten.

6.Want het sneeuw wit kwam aan de ramen, en gij hebt haar niet gewild. Ziet, zij was dan de christus van voor de tijden van Utmir, en de tijden der Geesten. 7.En zij leefden allen in de hemelen, daar er nog geen aarde was. Neemt haar dan aan, als gij tot deze wijnen wilt komen, want zij leven daar in de vijfde dermensie, terwijl de aarde van de derde is. Het paradijs nu was van de vierde. 8.Ziet dan waar ge in bent gevallen, en klimt hoger op. Want Gods deuren zijn geopend, om het sneeuw wit in uw harten te laten neerdalen. Neemt haar dan aan, en vraag haar in uw hart, opdat God Zijn kandelaar in u aansteke. 9.Dan zult gij allen wederomgeboren worden door haar geest, en gij zult Esmeralda ontvangen. Zij was dan de Geest Gods tot hen die in de vijfde dermensie woonden. 10.Gij dan zijt aards, en leeft in de derde dermensie, opdat gij haar niet zou ontvangen. Ziet dan van wat voor hoogte gij gevallen zijt, en neem haar wederom aan, allen die afgedwaald zijn. 11.Maar sommigen zijn tot u gekomen, als de engelen des hemels.

12.Gij dan die moeite hebt met het aanvaarden van nieuwe namen : doet dan uw persoonscanons af waarin gij gekooïd zijt, en legt de christuscanon af waaraan gij geketent bent, want zoals daar vele geesten zijn voor Gods Troon, zo zijn daar vele christussen. 13.Legt daarom de leugen af, opdat gij uw kinderen niet binde. En sneeuw wit dan was als een voorbeeld gesteld in de tijden voor de Utmir en de Geesten Gods. 14.En alleen in Sneeuw wit zult gij toegang hebben tot deze hemelen, daar zij de geurige kostbaarheden voor Gods Troon zijn. Zij dan zijn de spiegels van God. 15.Alle woord is dan onfeilbaar in symboliek, en in raadsel. Dit dan is een geheimenis des Heeren.

16.Zo hebt gij dan vele christussen nodig om tot het hart des Heeren weder te keren, en om deel te hebben aan zijn symboliek. Zij dan van de christuscanon hebben Hem gebonden en gekruisigd.

3.

de Strozalk

1. Draai nog even om met mij, het wordt krap in de kooi. Laten we naar buiten gaan, of is de moed verdwenen. 2. De muizenkoning raakte ons aan, en nu zijn we vrij. Als konijnen zijn we, in het veld, op zoek naar de kikkerkoning. 3. De strozalk is daar, de landbouwers van Metensia, en hebben de schatten diep in de aarde gevonden. Ja, schatten in aarden vaten zijn zij. 4. Moeders hebben hun kinderen verloren. Ze kijken hen na, maar kunnen niks beginnen. Ze zijn geslagen door het kruis van Marcia. 5. Zelfs tranen kunnen hen niet bereiken, en schreeuwen ketst terug van de ramen. 6. Ik moet zelf stiller worden, de strozalk zit achter mij aan. Zij zijn de soldaten van Metensia. 7. Met de Herman breken zij door de huizen, en laten hun sporen achter, maar zijn niet te volgen. 8. Overal zijn zij, maar kunnen nergens gevonden worden, wanneer zij op strooptocht zijn. 9. In Sarhem vond ik veiligheid, maar ik zie hen nog steeds staan, mij schrik aanjagende. 10. Het is de Vreze des Heeren, waar kunnen we gaan ? 11. Ontsnappen is niet mogelijk, in de kooi zijn wij, en buiten is een andere kooi. Nooit vrij zijn wij. 12. De strozalk is hier, ik kan niet ademen, zelfs niet huilen van de emotie. 13. Wat zullen ze doen, zullen ze me weer slaan ? 14. Rust en vrede vind ik in Sarhem, maar ik zie hen nog steeds staan. 15. Dichtbij me zijn ze. Wat zullen ze met me doen ? Ik heb hen toch niks gedaan ? 16. Tot Sarhem vluchtte ik, maar het is gewoon een andere kooi. 17. Hoeveel kooien hebben ze daar bij de Strozalk ? Wij gaan van kooi tot kooi. 18. Tot Sarhem zijn we gedreven.

4.

Pniel

1. Ik kan niks bewegen, ik kan niks beginnen. De Strozalk heeft me geslagen. Tot Sarhem kan ik vluchten, maar ik droom steeds zo naar. 2. Alles doet pijn, waar moet ik naartoe ? Ik schreeuw en gil maar niemand hoort me. Ik ben dan achter saffier en staal. 3. Nog dieper zullen ze me trekken, totdat dan alles scheurt. En zij zullen allen zeggen : Er is niks gebeurd. 4. Niemand ziet mijn wonden, niemand kent mijn pijn. Niemand ziet de kogel, diep in mij geschoten. 5. Een konijn was het, met een lang geweer, maar niemand had hem ooit gezien, en niemand zag hem ooit weer. 6. Het huis van dokters verstond mij niet, en zo daalde ik in de dood. 6. En de dood zei : Ik ken hem niet, en zo gleed ik nog dieper tot aan de poorten van de hel. 7. Maar in Sarhem kwam ik vrij, en kon ik weer ademen. Maar dat konijn woonde hier ook, en de Strozalk, als het kruis van Marcia. 8. Hoelang zal deze nachtmerrie duren, alles traant in mij, tot bevens toe. 9. Achter saffier en staal hebben zij mij gezet, achter drakentralies, diep in een kasteel. 10. Toe, prinses, red mij, red mij van de draak, of moet de draak gered worden van mij ? 11. Ik ben in gevecht met Metensia. Haar kussen branden mij diep, als een eeuwig teken van liefde, voerende mij naar het Sarhem. 12. Wie moet nou wie redden ? De draak redde mij van de prinses. Van de Strozalk zijn zij, worstelende in Pniel, om Jakob diep te breken. Overwin mij, zodat ik kan winnen.

5.

Sleutels van Sarhem

1. Zet mij vrij. In Marcia ben ik vrij. Het leed geleden. Mijn vrucht verloren, maar gezuiverd gevonden. Maar ik ben altijd in het sieraad geweest en het sieraad in mij. 2. De honger brak mij, brak de koek, om tot verzadigens toe te eten. 3. De dorst brak mij, brak de kruik open. Nu heb ik een wapen in Marcia. Als het Tweede Kruis is zij. De honger sloeg mij, om brood des kruises te brengen, als het Tweede Woord. 4. Marcia, door de dood herschiep gij mij. 5. Leer mij dan uw symmetrieën kennen, als sleutels tot de poorten van Sarhem. 6. Marcia, tot in de dood getrouw.

6.

Het Tweede Woord vleesgeworden

1. Blind als wilden, bewegingen te snel, sieraden honderdvoudig geweven, nu is het steen, en brandt als de hel. 2. Morgenoorlogen, zachte stralen in de vijvers, lofgedichten, zure wijnen, Golgotha echoot na, maar zal in de dag verdwijnen. 3. De honger roept je na. Tot het avondmaal ging je. In Spricht dan je laatste vakantie, waar de bommen vielen. Je kon nergens heen. 4. In de avond komt het voertuig van het tweede kruis. Sla de blaad'ren van het boek eens om, want letters vliegen om je heen. Een koude hand zette je vrij, de Herman in de vroege lente. Geen boeken meer, niets wat nog benauwd, de kou is in het hoofd geslagen. 5. Ik herinner niets meer van die dag, dat Marcia mij meenam. Tot Sarhem bracht zij mij, waar lijnen tezamen komen, waar driehoeken elkaar verstaan, en oprijzen tot een koningswoning. 6. Tot Sarhem bracht zij mij, en het Tweede Woord werd vlees in mij.

Het vergeten

7. De dieptes spuiten echoos, maar zij zijn niet te verstaan. Er zijn hier vijvers van tranen, en denk eens aan de oceaan. Zij zijn dol op wilde taal. 8. Zo kunnen zij vergeten, en de hoge orde zien. Het Tweede Woord is vlees geworden, als muren van een koningshuis, waar driehoeken elkaar vinden,

en lijnen scheiding brengen voor een tijd. Zij laten de tranen stromen, uit hoge broeken stromen zij. 9.De ketel is op tijd gekomen, zij hebben het niet verstaan, en daarom stromen zij, reizen zij, naar de andere kant van het verhaal. De spreeuwen komen als oorlog, de kou is in het hoofd geslagen. Ik herinner niets meer, van die mooie dag. 10.Toe, breng mij nog wat wijn van zwijm, en leidt mij tot de morgen, om in de uilentraan te ontwaken, en bij de kikkerkoning te zijn. Zijn zij dan allen stom in dit verhaal ? Zij praten niet.

Paradox van Liefde

11.Marcia, een mooie taal, letters aan elkaar verbonden, strijdend tegen elkaar, maar één in het vuur, allen één. Mooie letters, vlees geworden, tot een koningshuis gaan zij, in een grote stoet, zij komen, om te drinken uit een hoed. De kou is me in het hoofd geslagen, ik herinner niets meer van die dag. 12.Maar Marcia, de taal des kruises, brengt mij tot groot gelach. Ik ben alles weer vergeten. Toe breng mij nog wat wijn van zwijm, om tot die dromen te komen, waar tranen door hoge broeken stromen. Ben je dan vergeten hoe het was ? 13.Wij lazten als blinden, bewogen als wilden, in het hoge gras. Altijd reikende tot de morgen, als in bloesem geborgen, luisterende naar de taal van het morgenkruis, een oorlogskruis, letteren door strijd gebogen, maar in liefde vleesgeworden, wandelende tot een koningspaleis. 14.Marcia, een stoet van wilden, snellend van Pniel door het paradox van liefde, als een oude taal van dromen. Alles ben ik weer vergeten, toe geef me nog wat wijn van zwijm. Ik kan het allemaal nog steeds niet geloven, tot een kikkerhuis snellen zij. 15.De muizenkoning heeft mijn droom genomen, brak het in twee, maar ik ben het vergeten. Ik voerde op de golven mee. Ook mijn stem was dan verbroken, maar ik kon het niet geloven. Ik was al in een andere droom, en sprak een nieuwe taal. 16.Tot het Sarhem ben ik gekomen, het oude heb ik losgelaten. Zou jij dan niet dromen, of ben ik al te laat gekomen. 17.Als jij me nog wil helpen, je bent al te laat. Ik ben al waar ik wezen moet, woon al in een nieuwe straat, tot Sarhem ben ik gekomen, konijnen achter hoge ramen, en als de Marcia weer slaat, dan zullen weer de tranen stromen, stromen uit de hoge broeken, stromen uit de hoge luchten, stromen uit die oude dromen, geen glas meer, alles is stuk. 18.Morgen ben ik alles weer vergeten, dan zit ik weer hier, 'k doe and're dingen. Starende naar nieuwe verhalen, geen boeken meer, dat is voorbij, want letters zijn nu vleesgeworden, ik spreek met hen, en zij zijn reizende tot de kikkerkoning, groter dan geluk. 19.Smeer de ochtend uit over lange glazen. Morgen is alles stuk.

Het kind achter glas

20.Marcia, een mooie taal, dromen reiken ver, liefdes uitgedoofd, de haat stroomt nu zo snel, uit het liefdesparadox, vanuit Pniel. Heer, ik kan mijn kind niet meer raken. Ze ligt hier in een glazen kist als 't sneeuwwit. Zal de ochtend haar misschien doen ontwaken. 21.Mijn handen zijn gebonden als Rumah, ze hoort mij zelfs niet. Heer, ik kan mijn kind niet meer raken, achter glas is zij. Maar de morgen kan haar raken, en ik zal alles vergeten zijn. Wind, neem haar mee, ik kan het niet meer, de Heer heeft mij geslagen. 22.Van de Strozalk zijn zij, mij leidende tot een konijnenhuis, waar de kikkerkoning nieuwe broeken weeft van tranen, zoveel tranen, uit zoveel kruiken, om mij alles te doen vergeten. Kind, je kunt me nu niet horen. Je bent ver weg, je kunt mij ook niet helpen. 23.Tot het Sarhem zullen ze je leiden, tot de taal des kruises, en in Marcia kunnen we elkaar verstaan.

Van vader tot kind

24.Kind, de morgen duurt niet lang, alle dromen zijn snel over, en dan zul jij ook vergeten, alles wat ik van je nam. Kind, het turen duurt niet lang, want ook jouw oog zal snel gaan slapen, een nieuwe ochtend trekt jou aan, als een broek vol van tranen, ja, nog steeds achter glas, maar het glas is snel

gebroken, want alles is vergeten door de nieuwe droom. 25. De herman breekt door alles heen met de strozalk. Zij zijn soldaten van Metensia, komende ook tot jouw huis. Ze hebben je vergiftigd met christusverhalen, ze hebben je vergiftigd met de vruchten van het kruis. Maar tot Sarhem bracht het jou, de appel stierf in jou.

Van kind tot vader

26. Toe, vader, praat niet verder, ik kan het niet meer aan. Die glazen die naar mij turen, de ochtendjas trekt mij aan. Die seconde duurt wel duizend jaar, ik leef weer in het verleden. 27. Ik kan niet meer ontwaken, want zij van de strozalk hebben mij geslagen.

7.

Indiaan des Heeren

1. Groot is het heil van onze God, Hij die de indiaan geschapen heeft, en zevenvoudig gezuiverd heeft. Genade zij u en vrede, door onze Tweede Heere Jezus Christus en door de Herman die aan zijn zijde zijt. En ziet dan, zij zijn één. 2. En daar de Herman wild is kan hij zo meevoelen met de wilden en al die de Herman volgen. En de Heere is dan tegen het Eerste daar het eerste tegen het wilde en dierlijke was. 2. Daarom is dan ook het tweede gekomen, om de indiaan te zegenen en te zuiveren, zoals de heere zijn woord gezuiverd heeft. 3. En de heere zal al zijn stammen zuiveren. Zo spreekt hij dan die de slang berijdt : De heere uw god dan is wild, en heeft zich geopenbaard door de herman. De heere uw god dan is armoe, en heeft zich geopenbaard door maser. 4. Zij dan dragen het indiaanse volk voortdurend voor de troon van god. De heere dan heeft hen lief, en aan hen is het tweede gewijd, want zij hebben gods schepping niet veracht, zij die zich hebben laten zuiveren. 5. De heere zal uw wonden genezen, daar gij de natuur hebt liefgehad. Gij dan bent rein, en de heere heere houdt uw hand vast. 6. Gij gaat ge-ent worden op de boom des heeren, want gij zijt het volk des heeren, en allen die de heere willen blijven volgen, zullen wederomgeboren moeten worden door u. 7. Maar niemand is dan een indiaan naar het vlees, maar naar het hart zal men spreken over wilden en indianen. 8. En de heere zegt : ik houd van u, en houd uw hand vast, want gij hebt mij getroost, allen die in mij zijn. 9. Er is u dan onrecht aangedaan vanuit het grote spanje, maar ziet, ik heb de zwarte haai tot hen gezonden. 10. Gij dan zijt mijn volk, gij die in mij zijt. Komt dan tot mij, gij die vermoeid en belast zijt, en ik zal u rust geven. Doet dan uw ogen dicht en denkt aan mij, opdat ik aan u denke, en wij één zijn in elkaars hart.

Troost

11. Hebt elkaar lief, want Ik heb u lief, en ik heb uw nood gezien. Ik heb een plaats voor u bereid diep in mijn hart. 12. Ja, gij raakt diep in mij, en zijt mij tot genezing, daar gij mij gezien hebt in de schepping. Ja, want ik was de zon, ik was de rivier en ik was het dier. 13. En gij hebt mij gevolgd en geeerd. Gij hebt mijn piraten gastvrij ontvangen, en de Peter. ook bent gij tot de herman gekomen, en hebt gij maser gekust. 14. Indianen, ik heb u lief. Gij hebt mij liefde bewezen. Laten wij dan één zijn. 15. Ja, want door u heb ik het Tweede Woord geschapen en het Eerste Woord gezuiverd. Gij hebt de oude paden bewandeld en uw ouders geeerd, en zo Dezer, Christus van het Oer gevolgd. 16. Laten wij daarom één blijven, want gij staat niet onder de Joden. Gij zijt mijn volk. Ik heb al uw stammen lief. 17. Wij horen dan bij elkaar. Ik heb dan Narzia geschapen als de plaats van het verbond tussen u en mij, want in u heeft de Christus diepte gevonden, en bij u zijn dan de wortelen des kruises en het woord gods. Ik dan zal uw tranen drogen. 18. En enkelen onder u leven dan in diepe putten, maar ik zal deze putten openen. Want zij waren bestemd geopend te worden aan het einde der tijden.

Bemoediging

19. Gij bent dan een schuilplaats geweest voor de konijnen des hemels, en gij hebt Jezel en Jozef in hun verdrukkingen vertroost, niet alleen met woorden, maar ook met warmte. 20. Gij hebt dan plaats gegeven aan de leeuwen des hemels in uw tenten en gij bent altijd eenvoudig gebleven, levende van wat de hemel u gaf. 21. De Heere zal u een plaats geven naast zijn troon, en gij zult zijn oogappel zijn. 22. De Heere geve u dan warmte voor warmte, en kou voor kou. Gij die dan geluisterd hebt, de Heere zal uw oor nog meer openen. Gij die dan de Heere gevolgd hebt, Hij zal uw ogen nog meer openen.

8.

Geen dood en slaap

1. En ik kwam dan tot Spricht, want Golgotha had mij een gesloten deur gegeven, een brug waarover ik niet kon gaan. In het graf werd ik gedreven, waar ik een familie kreeg, maar die was des doods. 2. Want ook de Heere kreeg op Golgotha een deur te zien, maar die was gesloten. En Hij stierf voor die deur, roepende Eli Eli, Lama Sabachtani, hetgeen betekent : Mijn God, Mijn God, waarom hebt Gij mij verlaten. 3. Hij had dan geleden op de aarde, maar toen Hij opstond en ten hemel voer, zou Hij lijden in de hemelen, en ingaan tot Spricht. 4. Spricht, neem mij dan aan, gij die mij op Golgotha hebt geslagen, opdat ik niet alleen deel heb aan Zijn Lijden op aarde, maar ook aan Zijn Lijden in de hemelen. 5. Dood en slaap, wijkt dan nu van mij, opdat gij mij niet verlosse, maar laat mij lijden met de Christus in Spricht, opdat ik tot Zetdonia zal gaan. Ja, want dood en slaap brengt niets dan warmte, de verlossing uit het lijden. 6. En zo zou ik mijn Heer dan niet verstaan, en niet tot het ijs binnengaan. 7. Daarom, dood wijk van mij, en slaap, raak mij niet aan. Ik wil de ketenen des Heeren voelen, en tot Spricht ingaan. 8. Zij hebben mij geleid tot de driehoek, waar lijnen om te scheiden uit voort kwamen. Zij hebben mij tot Materos geleid, tot het Kleine Gods, en tot het Sneeuw wit dat daar verblijft. 9. En zij heeft haar Spricht tot Prins, aan de dood ontkomen, toe laat mij binnen. 10. Toe laat mij dan de paden van Spricht bewandelen, en niet slapen als de discipelen. 11. Heer ik wil uw pijnen dragen, en op uw lijnen lopen, als de acrobaten van het kruis. 12. Het graf heeft mij dan opgeslokt en uitgespuugd. Ik ben tot Spricht gegaan. 13. Dood en slaap, wijkt van mij. Gij hebt hier geen plaats. 14. Geen dood, geen slaap, geen rust, geen vrede, geef mij de zoetheid van de paranoia. Ik heb met de Heere geleden. 15. Ik ben niet gevluht tot de dood, heb ook de slaap mij niet laten pakken, maar het zwaard des kruises bracht mij de zwijm van Spricht. 16. Tot het Tweede Kruis gekomen, door Marcia ingegaan. Zij is de gans des Heeren, zij is de Herderin. 17. Ik strijd dan tegen de zwijm. Ook zij doet mij mijn hart verblinden, ik wil met de Heere zijn. Als de wespen des hemels, ziet, zij slapen niet, maar lijden met de Christus, tot in het diepste van Spricht. 18. Tot Zetdonia vliegen zij, waar de driehoek hun hart heeft gemeten. Van de zoete brij drinken zij. Toe, laat mij daar niet sterven, totdat ik in Materos ben gegaan, om het Sneeuw wit te aanschouwen, om voor eeuwig de angel te dragen, die mij één maakte met de Heere. 19. Van honing heb ik niet gedronken, nee, het zoete kende ik niet. Tegen het gif van een appel heb ik gestreden, maar de dood heeft mij niet genomen. 20. Nu ben ik dan de muizenkoning, nu ben ik dan de prins van Spricht, tot de putten van Zetdonia gekomen, maar sterven doe ik niet. 21. Ik heb de dood dan overwonnen, ik ben de koning van de dood, op zijn beesten gereden. 22. Ik ben de muizenkoning, in honger rondgezworven. Van sterven wilde ik niet weten. Ik liet de kou mijn meester zijn, tot Materos ben ik gekomen, om het sneeuw wit te aanschouwen, en het nachtlattijn. 23. Het nachtlattijn heb ik gesponnen, zonder eind haar draden. 24. Tot in Spricht ben ik gekomen, om te kennen al haar namen. Over haar bossen gleed ik, om tot Zetdonia te gaan. Door driehoeken

leidende tot Materos, mijn rozen zijn niet vergaan. 25. Nu branden dan mijn haren, en zijn mijn zeeën van goud. Mijn ogen die diep staren. Zij zijn wild en zij zijn koud. 26. Nee, geen vuur zal mij laten sterven. Ik ben tot de Heere gegaan. Tot hen onder het blauwe ben ik gelopen. Geen angst meer, ik heb de dood verslagen.

9.

De rattenkoning

1. In de dood was ik een slaaf der wereld, nu ben ik een slaaf van Spricht, gaande tot Zetdonia. 2. Nee, vuur kan mij niet branden, ik ben de muizenkoning. Straks ben ik een rat des hemels, sieraden hebben in mij woning. 3. Haalt het je dan uit je slaap. Door de dood dring ik heen. Je voelt mijn koele hand, om ook jou te verlossen, van de strikken van de slaap. 4. Ik ben de prins van het morgenrood, de ochtend komt nader. Ik ben de prins, ja, de avond die is dood. Voor eeuwig in de morgenstond, heb ik mijn troon gezet. Ik ben de prins van het ochtendrood, ik haal haar uit haar slaap, de rozendoorn. 5. De avond is gestorven, de nacht van een lang verleden. Nu is het morgen geworden. Ik haal haar uit haar slaap, het rozenrood, de zachte liefde. 6. Toe, lijdt met mij, tot de tafel door Hem bereid. 7. Toe, laat me niet alleen, in de dood raak je alles kwijt. Alles dat was tussen jou en mij. 8. Ogen hoog en laag, hij vecht tegen de slaap. Het is de kikkerkoning, makende in mij woning. Hij zal heersen op zijn tijd, als koning van de slaap, heeft overwonnen, zijn beesten bereden. 9. Koele wateren wekken je op, om tot het sneeuwwit te komen, en haar muizenprins, onder de dood maakten zij woning. 10. De rozendoorn, het rozenrood, met hun kikkerkoning, totdat de rattenkoning hen in Pniel verslindt. 11. Het overwint hen nog een keer, de kracht van het oude zeer. 12. Ik heb nu een tempel gebouwd, op Pniel, wachtende op de laatste keer. Al die mooie dromen zijn gebroken. 13. Koele waat'ren wekken je op, zij stierven niet aan het kruis, maar nog steeds lijden zij daar, in de hallen van Spricht, als de sieraden des hemels. Kijk er nog een keer naar, en alles is anders geworden. 14. Onder de dood maakten zij woning, onder slaap en onder zwijm, om het dromenbrood te verkopen. Ze raakten hier alles kwijt, de armoe aanbeden. 15. Ga er nooit meer naar terug, je bent nu een konijn achter glas, met de rattenkoning in het verschiep, een strijd die op Pniel zal eindigen. 16. Want als konijnen vechten wij tegen de wolken van zwijm, waaruit havikken en arenden komen, om ons mee te nemen naar Spricht. 17. De rattenkoning maakte in hen woning, om hen te maken tot konijnenkoning. 18. Zeg Elles, vertel eens, waar kom je toch vandaan ? Heb je je rattenkoning gevonden, doe mij toch eens je woorden verstaan. 19. Hij heeft je uit je zwijm genomen, tot een konijnenprins heeft hij jou gebracht. 20. Zeg, Elles, wie heeft jou meegenomen ? Was dat niet het witte konijn ? Al je dromen zijn nog steeds niet uitgekomen. De koningin van harten bracht jou uit je zwijm. 21. Word boos, heel heel boos, anders raak je weer in zwijm, en begint het verhaal van voren af aan. 22. Rattenkoning, vul mij met toorn, om tegen dood, slaap en zwijm te strijden, breng mij onder de zwijm, waar de Elles zit verlaten van haar dromen. Ik geef haar de veer, dan komt ze telkens weer. 23. Elles, wie heeft dan alles afgenomen. Wie heeft jou dan in Armoe laten gaan. Je hebt Maser dan in je boot genomen. De rijkdom bracht jou in al die zwijm, maar het wonderland heeft jou er uitgenomen. 24. Nu zit je dan hier onder het zwijm, tezamen met maser en de herman. Tot Zetdonia ben je aangekomen. Die kaarten van het kruis klagen jou nog steeds aan. 25. Mocht je mij eens nodig hebben, ik ben hier, de rattenkoning.

10.

Het Eeuwige Kruis

1. Ik heb dan niemand nodig, want allen leiden ze mij van Christus af. Ik wil dan met Hem lijden, in eenzaamheid. 2. Tot Spricht ben ik gekomen, mijn adem ingehouden, en het bovenlijf der wespen ontvangen. Ziet dan, zij zijn als de paarden des hemels. Begrijpen doe je ze niet. 3. Zij zijn dan de raadselen van het koninkrijk, je hart voor eeuwig laten kloppen in de tuinen van Spricht. 4. Dood ga je hier niet, je hebt hier eeuwig leven, waar de doornen diep steken. 5. Ontwaken doe je hier, en je staat op uit de doden, maar tot het kruis der hemelen wordt je geleid. Draag dan Marcia, het oude geheim, en honger voor Hem, bij het witte latijn. 6. Zij dan is het witte spreij der hemelen. Zij sterft niet meer, ziet, zij is rein. 7. En ziet dan, Spricht is als het tweede Golgotha, als hoog komende van de hemelen, tot de ziel. 8. Ken dan de drietand des Heeren, die dood, slaap en zwijm heeft verslagen, om tot het lijden van Christus in Spricht te gaan. 9. Ziet Hem dan, lijdende, hoog in de hemel, de Maser van het Tweede, ingegaan door Marcia. 10. Laat dan de golven u niet overweldigen om u te verdrinken, zonder dat gij de bloedende hand des heeren hebt aangeraakt. 11. Maar drinkt de tranen keer op keer, opdat gij kunt gaan van wond tot wond, om Zijn hart te raken, zonder dat de dood alles verderve. 12. Gij dan draagt de muizenparfum, gij dan raakt de rattensnaar, om in eeuwigheid te leven, te lijden met onze Heer, om tot het kruid te komen en de struiken van weleer. 13. Armoe redde mij van de dood, zij die rijk zijn slapen. 14. Door Spricht in te gaan, is te kennen alle snaren. 15. Tot het Eeuwige Kruis kwam ik, tot een Eeuwige Evangelie. 16. Het is het kruis van muizen, van ratten en konijnen, waar een kikkerkoning steeds zingt, om ons van de slaap te laten wijken.

11.

De honger

1. Tot het Eeuwige Lijden kwam ik, om ook trouw te beloven aan Hem en het Kruis in de toekomst. 2. Steeds dieper daalde ik in Zijn wonden, en kwam tot oude tuinen en hoven. 3. Verzadiging heb ik dan niet gewild, om tot zijn honger te komen, tot de varkens des hemels. Altijd honger hebben zij. 4. Ik nam hen in mijn armen en was hen tot een herder. 5. Maar Marcia leidde mij van hen weg, om zelf als hen te worden. 5. Zij zijn dan de varkens van het tweede kruis, en ik overwon de verzadiging die van Christus afleidde. 6. Maar Marcia leidde mij van Hem weg. Mijn Christus waarom hebt gij mij verlaten ? 7. En zo werd ik een christen van het tweede, om zelf zoals Hem te wandelen. 8. En ik kwam tot de putten van Marcia, om van de tranen te drinken, en de zeer oude tranen.

Symmetrie

9. Spin mij de symmetrie. Rozendoorn, verlaat mij niet. Gij weefde de varkenshemel voor ons in 't verschiets. Kus mij, verlaat mij niet. 10. De honger heeft mij niet verlaten, de lijnen hebben mij afgescheiden. Tot de driehoek ging ik, het zal mij verlaten door de pijn. 11. Die draden worden langer, ze sterven niet af. Die roos is eeuwig, afgescheiden van het graf. Spin met mij, Rozendoorn, de symmetrie, verlaat mij niet. 12. De pijn laat alles mij verlaten. De echo's op den duur vervagen. Spin met mij, Roosmarie, echtgenoot, verlaat mij niet. Kus me door de pijn, afgescheiden van het graf, toe laten wij voor eeuwig leven, maar de pijn scheidt ons allebei. 13. Alleen ben ik, in het uur van Spricht, van God en Christus verlaten, een uur van vreemd licht. Spin met mij, symmetrie, Rozengeur verlaat mij niet. Alles wat ik heb, zal door de pijn vergaan, totdat ik alleen nog over ben, als een tweede christen te zijn. 14. Christen van het tweede, afgescheiden van het graf, voor eeuwig te leven, iets spint in mij, de nieuwe dag. 15. Voor altijd zal het ochtend zijn, het morgenrood heel diep in mij, totdat de pijn het uit mij haalt, ik zal wel altijd in armoe zijn, zij is alles wat ik bemin, ik

hecht mezelf daar, toe verlaat mij niet, maar pijn zal haar dan ook wegnemen, om tot een diepere armoe te gaan. 16.Grote armoe, groot verdriet, Eeuwig Kruis, verlaat mij niet, of zal de pijn dit ook wegbranden, ik weet het niet. Het is eeuwig, zal het veranderen, zal het kruis mij dan ook verlaten, of moet ik worden als het kruis. 17.Tweede christen, als het kruis, als het zwaard van Spricht, kom jij, spinnende de symmetrie, wordende de symmetrie, tot Sorsion kwamen wij, als Sorsion werden wij, gelijkvormig aan zijn beeld, nu weer verlaten. Rozendoorn, verlaat mij niet.

De oude zon

1.De zon van de oudheid ; De zon was in ver verleden een driedimensionale sociëteit, een normale planeet met water en bossen. Het was als een aarde, maar nucleaire oorlogen hebben het verwoest, en na vele tijdperken werd het de zon die we nu kennen. 2.De ingewikkelde driedimensionale trechter op de zon was vernietigd, veroorzakende ernstige vormen van hitte. 3.De zonne-attracties veroorzaakten andere planeten te bewegen rondom de zon, en er waren zelfs planeten die werden vernietigd door de krachten der zon. 4.Het was een planeten-eter, als een kosmische vampier voor vele tijdperken.

5.De zon heeft een diepe historie waar wetenschap niet van weet. De magnetische kwaliteiten in de centrale positie heeft een lijn van gebeurtenissen als achtergrond, opgesloten in de ruggengraat.

6.Het eind van deze draad is in het stuitje, waar het elektrische toegang heeft tot de genetische zone en daaronder, in de bacteriele zone. De mens is gebouwd vanuit die laag van bacterien, en deze laag is nog dieper in de quantumdelen dan de normale genetische laag. Het is die bacteriele laag die de genetische laag heeft geprogrammeerd en daarbij het menselijk lichaam. 7.De zonnendraad in de ruggengraat is zulk een wijd-belangrijke draad van planetarische monarchie, dat alleen door dit neurale pad te volgen de hoogste krachten van het universum aangewakkerd kunnen worden.

8.Er zijn drie duistere wachters die deze koninklijke ruggendraad bewaken. Zij zijn extreem en hysterisch bang dat iemand deze draad zou binnendringen om vervolgens de zonnevloeistoffen vrij te zetten door de ruggegraat, om daardoor via het stuitje de genetische en bacteriele lagen te re-programmeren. 9.Deze gesloten en hoogbewaakte draad is hun staf om het universum te besturen. Deze draad bevat de koninklijke bloedlijnen van het sterrenstelsel Orion. De duistere wachters van dit zonnepad zijn Stalten Atmir, Vaten en Hebezeen.

10.De roze verbinding maakt dat geboorte plaatsvindt door Golgotha en Spricht, door de zielen van ooevaren. Zo laat Orion los, eindigen de darmen in de schoot, en word de schoot verbonden aan de aars. 11.Dit vindt plaats door tussenkomst van de zon. Door de inbreng van Spricht wordt het ritme anders en wordt de kracht van de dood ernstig verstoord. Dood, waar is dan uw prikkel ?

12.Geboorte, waar is dan uw komst ? Het eindeloos geboren worden is niet nodig. 13.Je kunt groeien in het kruis door Spricht. Laat geboorte en dood je niet wegnemen. Enkele andere namen die ons willen derdimensionaliseren zijn Whemmer en Aam, met zijn helpers Benshin en Tepil. 14. Valse genezers werken ook met deze krachten, maar de genezing des Heeren is in de Roze Verbinding.

Over buitenaardse ontvoeringen

1. Ze had mond-implantaten, de slangendanseres, en voet-implantaten, een vreemde reuk. Ze was een experiment van buitenaardsen, verboden schepselen. Niemand had toestemming dichtbij haar te

komen. 2. Ze leed, en ze viel vaak flauw, terwijl bloed uit haar mond kwam. 3. Haar voet-botten bewogen vreemd. Een ei groeide in haar, wachtende om op een dag uit te barsten. Ze kon andere slachtoffers herkennen. 4. Ze dacht vaak dat ze alleen was in deze dingen. Ze was als opgesloten in deze dingen. 5. Ze was overstuurd en zonder hoop. Er waren geen dokters die haar konden helpen. Machines kwamen in de nacht bij haar, om wrede dingen te doen, het installeren van de implantaten. 6. Zij wist niet dat deze implantaten een wachter van haar maakten. Zij werd een gesloten poort om anderen tegen te houden. Zij werd een blokkade. 7. Ze had nachtmerries waarin ze dingen deed die ze niet wilde doen. Iets leefde in haar, in haar aderen. Het was een buitenaards groen lichtend iets, een vreemd reptiel of insect. 8. Het had ogen vol van licht, en was gemaakt van zacht maar sterk vlees. Er droop groen bloed van het beest. Het had geen huid, alleen spieren en bloedvaten. 9. Ze was paniekerig. Het creatuur had een hoge intelligentie. Ze was zo paranoide naar zijn impulsen. Hij bewaakte haar tegen iets ergers. 10. Hij was haar agent. Zij was zijn gevangene, het object dat hij moest bewaken, maar zij bewaakte anderen, iets wat ze niet wist. 11. De deuren naar de hel moesten gesloten worden, want dit waren verboden vruchten.

14.

De groene ruiter

1. De groene ruiter had een ingebouwde tepelhuid, met een zoolgebaseerde wapenrusting waardoor hij de signalen van zijn thuisbasis kon triggeren. 2. De zoolgebaseerde wapenrusting bewoog over zijn lichaam. Het was als een creatuur, zwaar ademende, zacht en nat, vastgehecht aan zijn huid. 3. Op sommige plaatsen stak het diep, en dit was om enkele dieperliggende organen te stimuleren. 4. De samentrekkingen gingen erg diep. Het was als een pezige wapenrusting, maar leek meer op klieren, want hormonen in poeders en vloeistoffen werden door de wapenrusting voortgebracht. 5. Het groeide als een waterig insect op zijn lijf, en leek meer en meer op een vreemde vis. 6. De vis had vele tentakels, alsof er vreemde duistere tenen als draden vastgroeiden in zijn lichaam. 7. Het groeide naar zijn hoofd toe. Eerst groeide het in zijn mond, en hij kon de adem en de gassen ervan inademen. 8. Zijn eigen voeten werden heter en heter, en zijn zolen begonnen een klein beetje te zwellen, terwijl ze vreemde lijmen voortbrachten. 9. Toen begon het wezen in zijn neus te groeien, en hij begon onbekende dingen te ruiken. 9. Het veranderde zijn verstand, zijn manier van denken. 10. Hij zonk diep weg in zichzelf, alsof hij zijn eigen lichaam niet meer kon voelen. 11. Hij voelde zichzelf puur worden, rustig en vertrouwend op de buitenaardse chirurg. 12. Hij had een geweer gebouwd van tepels, en de trigger zat in een zoolgebaseerd aanhangsel. Het geweer was één met zijn arm, ingebouwd. 13. Het was alsof er een slang in hem groeide, als een rode streep. De zoolgebaseerde elementen begonnen ook diep binnenin te groeien en werden als pistolen. 14. Hij had groen bloed nu, en zijn gezicht begon ook groen te worden. Hij werd een ruiter, meer en meer. Een groene ruiter.

15.

De Chirurg

1. Op een zomerdag kwam een man laat van zijn werk terug. Het was een lange dag geweest op het werk. 2. In deze tijden moesten ze veel overwerk doen, want er was een virus uitgebroken door een vreemd soort gesteente dat in mensen groeide. 3. Ze waren nog steeds druk bezig met het vinden van een antistof. Tot nu toe hadden ze nog niet veel succes, en ook in de stad van de man verspreidde het virus zich als de griep. 4. Tot nu toe waren er nog geen doden gevallen, maar degenen die het virus droegen begonnen zich te isoleren en toonden vreemde gedragingen. 5. Omdat het virus erg

besmettelijk was vonden sommige mensen het dan ook wijzer om de mensen die het virus droegen buiten de samenleving te zetten in aparte gebouwen, waar de ziekte verder behandeld zou kunnen worden. 6.Hij was één van die mensen. Hoewel het virus nog niet direct levensgevaarlijk was, zag hij de gevaren voor de samenleving wel hangen. 7.Het gesteente was niet zomaar weg te snijden uit degenen die het droegen, omdat het zich op een ingewikkelde manier in de organen weefde. 8.En omdat het virus in de beginfase was, vreesde hij dat na een tijd het virus zichzelf zou kunnen ontwikkelen tot een dodelijk virus. Ook buiten zijn werk dacht hij er veel over na, en zijn vrienden zeiden dat hij stiller was geworden. 9.Ook in zijn huis had hij een klein laboratorium, waar hij soms buiten werkuren bezig was. Ook als hij 's nachts niet kon slapen was hij veelal daar. Hij leefde met zijn werk.

10.Hij had een klein stukje steen meegenomen van zijn werk om thuis te onderzoeken. En zelfs buiten het lichaam groeide het vreemde gesteente gewoon door. 11.Door dit vreemde gesteente werd het virus in het lichaam verspreid. Het was een soort gebeente, en snel werd er meer over de ziekte gerapporteerd. 12.Er waren enkelen die nog gewoon doorleefden zoals ze leefden, omdat het virus verschillende symptomen kende, en zich niet altijd bij een ieder op dezelfde manier manifesteerde. 13.Bij sommigen nam het virus naderhand toch weer af. Bij anderen groeide het gesteente ongenadig door, en bij sommigen begon het gesteente zich zelfs in de hersenpan te weven. De man nam het allemaal erg serieus, maar was opgelucht, dat bij enkelen het virus afnam en het gesteente begon te stabiliseren of zelfs afnam. 14.De man vroeg zich af wat de oorzaak daarvan kon zijn. Het onderzoek leidde tot Afrika, waar bij tijgers en bepaalde soorten slangen het virus ook voorkwam. Het gesteente werd er niet gevonden, maar wel soorten van vreemd weefsel die dezelfde stoffen produceerden. 15.De wetenschap stond voor een raadsel. Het weefsel leek te functioneren als nieren en klieren, en al snel werd er wereldwijd geluid aan gegeven.

16.De man was blij dat ze eindelijk wat op het spoor waren gekomen, maar er waren nog vele vraagstukken die opgelost moesten worden. 17.Het onderzoek werd een beetje in de war gegooid toen achteraf bleek dat de stoffen toch niet helemaal hetzelfde waren, en de symptomen toch anders waren. Meer en meer raakten ze ervan overtuigd dat ze hier toch met een uniek virus hadden te maken. 18.Maar het onderzoek bij dieren en ook bij andere levensvormen ging door, om een mogelijke overdrachtspoort aan te wijzen. Waar kwam het virus nu werkelijk vandaan, en wat zou de toekomst ervan zijn ? 19.Nog steeds waren er nog geen enkele medicijnen om het virus remmen of te genezen, maar ze waren blij dat sommigen alsnog een stabilisatie van het virus ondervonden. 20.Het gesteente kon bij sommigen zelfs afnemen, maar er was nog bij niemand totale genezing van het virus aangetroffen. 21.Er werd ook onderzoek gedaan bij mensen waarbij het virus zich had gestabiliseerd of afnam, om te kijken of enige levenspatronen of andere middelen daar invloed op hadden, maar men kon geen aanwijsbare overeenkomsten vinden. 22.Het leek een hopeloze strijd. Alhoewel de snelheid van de verspreiding van het virus afnam, kwamen er toch steeds meer landen bij die melding deden over het toeslaan van het virus. 23.Inmiddels was er bij onderzoek in de zee een bepaalde stof in zeepaardjes ontdekt die op de stof van het virus leek, maar later liep het voor de onderzoekers toch op dood spoor. 24.Op een nacht was er een uitzending op de televisie waarin sommige mensen met het virus werden geïnterviewd. De man zat op de bank en keek, terwijl hij notities maakte. 25.Eén van de ondervraagden had een opmerkelijk verhaal, en opmerkelijke symptomen. Het gesteente was als een mozaiek door de huid rond zijn tepels gebroken, en ook in zijn voeten was het gesteente al op een vreemde manier door de huid naar buiten gekomen. 26.De man die ondervraagd werd vertelde dat 's nachts vreemde wezens in zijn slaapkamer kwamen, met vreemde machines die zich op een vreemde manier vastklonken aan de

door de huid gegroeide gesteentes. 27.En dan voelde de man allerlei vreemde sappen door hem heen stromen, en dan hoorde hij vreemde geluiden, en dan was het alsof hij langzaam dronken werd. 28.De volgende dag vertelde hij op zijn werk wat hij op televisie had gezien, en niemand op zijn werk had hier al van gehoord. 29.Het was nog niet voorgekomen dat het gesteente door de huid groeide volgens hen, maar ze wilden toch meer informatie. 30.De makers van het programma werden gebeld, en er waren gesprekken. De makers wilden niet meewerken met hen, omdat het volgens de makers ging om de privacy van de mensen. 31.Bedenkingen kwamen bij het laboratorium waar de man werkte opzetten. Was dit echt of was er televisie-bedrog in het spel. De media behoorde toch samen te werken met de medici ? Ook hij kreeg bedenkingen over hetgeen hij gezien had op de televisie. 32.Waren het spookverhalen ? Was het trucage ? Het door de huid gekomen gesteente was echt te zien, maar of het nagemaakt was of niet, kon de man niet zeggen. 33.Midden in de nacht viel de man in slaap, na een lange tijd van piekeren. Opeens werd hij wakker van een enorm gekrijs. De lucht was blauw, en langzaam liep hij naar het raam. 34.Daar zag hij een enorme gestalte staan als een draak. Maar hij wist dat dit geen draak was. Dit was een wezen uit de zee. Hoe hij dat wist kon hij niet vertellen, maar hij zag het. 35.Hij was totaal niet bang, en na een korte tijd verdween de gestalte weer. De gestalte stond niet in zijn kamer, maar achter het raam van zijn flat, tussen de flat en de rijen van huizen aan de overkant. 36.De volgende dag wilden ze hem niet geloven, en ook zelf kon hij het maar moeilijk geloven. Misschien had hij het wel gedroomd, dacht hij. 37.Na een tijdje kwam het hoofd van het laboratorium na hem toe en zij : 'Zeg, ik maak me erg zorgen om je. Je werkt zo hard dat je veel te veel overuren maakt, en zelfs thuis ga je nog met je werk door. Zou je niet eens wat rustiger aan moeten doen ?' 38.Maar de man wilde hier niet van weten. Toen vroeg het hoofd van het laboratorium hem of hij voor zijn werk naar een laboratorium aan in zee wilde gaan voor zee-onderzoek. 39.Dit wilde de man wel, en nam het aanbod met beide handen aan. 40.Het was een groot laboratorium, een gebouw dat zelfs tot onder de zee reikte voor diep onderzoek. De man hield altijd al van de zee-natuur, en van de elementen die zich daar bevonden. 41.Hij wist dat daar vele medicijnen te vinden waren. Ook was men bezig met een project voor zuivere zee-voeding, om het vaak eenzijdige menu van de mens aan te vullen. 42.De man was een grootdenker, en had de visie in zichzelf uitgespreid. Veelal was hij bezig geweest de zee te bestuderen, en hier had hij natuurlijk de kans om er zijn werk van te maken. 43.Hij kreeg al direct vele mensen onder zich en zag dit dan ook als een promotie. Hij was zich ook bewust van de gevaren van de zee, en wilde daarom ook niks riskeren. Er moest verantwoord te werk gegaan worden, en men moest waaghalzerij uit de weg gaan. 44.Inmiddels was het virus aardig onder controle. Het werd niet meer zo zeer als een bedreiging gezien. Er kwamen weinig nieuwe meldingen binnen, en er waren nog steeds geen doden gevallen door het virus. 45.De meesten met het virus woonden in aparte gebouwen buiten de samenleving, omdat ze zich hier prettiger bij voelden. 46.Sommigen werden zelfs algeheel kluizenaar, en kregen van de staat daartoe een kasteel of ander landgoed dat leegstond, terwijl enkelen in staat waren om geheel terug te keren naar de natuur. 47.Er was nog geen enkel medicijn ertegen gevonden, maar de ontwikkelingen leken een ieder gunstig te stemmen. Alles begon weer te worden als vanouds en men begon te denken dat het virus zijn topdagen nu wel gehad had. Maar niets was minder waar. 48.Hij had net een kennismakingsperiode achter de rug die goed verliep, en het leek erop dat nu het contract wel zou lopen. Hij had meestal moeite met de eerste dagen van iets, maar dit was anders. 49.In dit werk lag zijn hart, nog wel meer als zijn vorig werk. Op een avond deed hij de televisie in zijn nieuwe woning aan. Hij woonde nu dicht bij de zee. Hij zat op de bank, en schakelde over naar de zender met berichten. 50.Opeens zat hij aan zijn bank gekluisterd. De namen van wat topmensen van zijn land verschenen in beeld met hun foto's. Zij waren die avond omgekomen doordat er een meteor

op het huis van hun vergadering was gevallen. 51.Niemand wist waar die meteor vandaan kwam. Het was allemaal erg snel gegaan, en het land was erg onthutst. De nieuwslezer veegde het zweet van zijn voorhoofd. 52.Na onderzoeken bleek heel snel dat de meteor dezelfde stoffen droeg als van het virus en op sommige plaatsen van hetzelfde materiaal was gemaakt als van het gesteente. 53.Ook werd er gewaarschuwd voor de zware straling die vanaf de meteor afkwam, en technici en specialisten konden deze niet op korte termijn onschadelijk maken. Men besloot enkele afgebroken stukken naar de zee te brengen. 54.Verder werd het terrein afgebakend. Er was een diepe krater in de aardbodem ontstaan. Na enkele dagen leefde het virus weer enorm op, en ditmaal vielen er wel doden. 55.De mensen die het virus hadden klaagden nu veelal over gekrijs in hun hoofd, en de symptomen waren dikwijls gepaard met zweren en brandende pijnen. Vaak sloeg het virus over in andere ziektes. 56.Alle dagen werd er op televisie voorlichting gegeven. En er kwamen steeds meer mensen op televisie die door de huid heengebroken gesteentes hadden. 57.Steeds meer mensen klaagden van brandende pijnen rondom hun tepels en in hun voeten. 58.En weer werden de sociale structuren van zulke mensen veelal afgebroken, en bij sommigen begon nieuwe huid te groeien, en ook de stembanden van sommigen raakten zwaar aangetast, of gingen dubbele stemmen voortbrengen. Dat waren stemmen die tegengesteld hoog en laag waren. 59.Meer en meer begon het gesteente over de huiden van mensen te groeien, als een vreemd soort van ivoor in verschillende kleuren. 60.En nog steeds was er geen enkel medicijn tegen opgewassen. 61.Sommige werden erg agressief door het gesteente dat in en over hen groeide, en vaak begonnen verschillende kleuren elkaar te bevechten, en gingen dezelfde kleuren zich bij elkaar voegen. 62.Vaak waren de kleuren tweezijdig en ontstonden er tussenpersonen tussen de verschillende groepen. Veelal voelden mensen zich overgenomen, alsof ze een machine werden. En de wetenschappers stonden radeloos. 63. Nog steeds hij bezig om antistoffen op of onder de zeebodem te vinden, maar nog steeds zonder enig resultaat. En de mensen begonnen wanhopig te worden, en keerden zich tegen de medici en de topmensen. 64.Ook hij moest in bescherming gebracht worden tegen razende groepen mensen die het hadden gemunt op de hogere lagen van de bevolking. 65.En hij kreeg militaire bescherming rond zijn huis en rond de plaats waar hij werkte. Op een gegeven moment was dit niet meer mogelijk vanwege de vele aanslagen, en na vele confrontaties tussen de burgers en het leger. 66.Er werden speciale oorden ingericht, waar de topmensen en de medici tezamen met andere verantwoordelijkheidsfuncties gingen wonen. 67.Degenen die onder deze mensen getroffen werden door het virus werden ogenblikkelijk van hun functie ontheven en naar diverse kampen van burgers gestuurd. Maar ook onder de burgers kwamen machtslijnen, en al gauw ontstond er een tussenveld. 68.En zij werden de chirurgen genoemd omdat ze contact bleven houden met de beide kanten van de samenleving. 69.Hij stond bekend als een contactpersoon waardoor zij met de opperlagen van de samenleving konden communiceren. 70.Hij vond dat belangrijk voor zijn werk, en voor hem was het onmogelijk om nog met de burgers contact te hebben sinds hij in het zwaar beveiligde oord woonde. 71.Hij kon de chirurgen erg goed begrijpen, en op een dag werd hij zelf door het virus getroffen. Al snel groeide het gesteente door zijn huid heen en kwam hij ook in de tussenlaag terecht en werd één van hen. Snel werd hij opgenomen in de groep. 72.Veelal was de basiskleur zwart met hier en daar een rode, witte of blauwe streep in een punt uitlopende. 73.Soms brak er wel eens wat van het gesteente af, en dat was een helse pijn als brandend zoet. Al gauw werd hij op de hoogte gesteld van een groot geheim van de chirurgen. 's 74.Nachts kwamen er Ufo's tot de kampen van het tussenveld en werden er operaties verricht in de tepels en de voeten. 75.De man herinnerde het televisie-programma dat hij er over gezien had. Het was dus toch waar, dacht hij bij zichzelf. Al gauw was hij bijna geheel gemaakt van dit vreemde gesteente, en begon hij zichzelf te voelen als een machine. 76.'s Nachts kwamen er bruinzwarte kappen over de kampen met rode gleuven die

licht gaven, en werden de operaties door draakachtige zeewezens gedaan. 77. Dit was dus wat hij gezien had, dacht hij bij zichzelf. Tijdens de operaties 's nachts kon hij ze goed zien, en sommigen hadden zelfs staarten als goudvissen. 78. Vreemdsoortige sappen werden in hem gespoten op een hele systematische manier. 79. Soms werden er grote stukken van het gesteente weggebroken, en dan voelde hij die helse pijn als brandend zoet, maar in zijn kamp vertelden zij hem, dat dat brandend zoet een nieuwe immuniteit zou brengen. 80. Wat die nieuwe immuniteit dan was, dat wist hij niet. 81. Bij de hogere lagen van de samenleving waren er berichten binnengekomen over de kappen en de operaties, en zij begonnen bang te worden. 82. Ze waren bang dat de macht in de handen van de chirurgen zouden komen, en begonnen een totaal-oorlog. Inmiddels waren er zoveel mensen door het virus uit de toplagen verdwenen, dat ze bang waren om meer mensen te verliezen. 83. Ze lieten daarom degenen die een wit soort van gesteente hadden blijven. Maar steeds meer onder hen kregen het virus met het witte gesteente. 84. En hem werd verteld door anderen uit zijn kamp dat die immuniteit juist tegen deze aanval was bedoeld. 85. Het was een oorlog van de bang geworden regering gericht aan de chirurgen. Maar omdat de regeringen met hun topmensen en medici merkten dat ze met wapens hen met de gesteentes niet konden uitschakelen probeerden ze het op een andere manier. 86. En dit werd de grote witte oorlog genoemd. 87. Ze probeerden met apparaten de machines onder controle te krijgen. Ze zouden hiervoor in eerste instantie bestraling gebruiken, om stap voor stap invloed uit te oefenen.

88. Inmiddels werden ze van buiten steeds harder en van binnen steeds zachter, en de operatie-apparatuur van de ufo's trokken de tepels van de chirurgen steeds dieper naar binnen, en er werden meerdere tepels geïmplanteerd. 89. Ze waren als vlakke, gesloten geraamtes geworden, als oesters in een schelp. 90. Ook de zolen en de huid van hun voeten werden steeds dieper naar binnen getrokken en gingen op een vreemde manier binnen het gesteente circuleren.

De Onaks

1. De Onaks waren groene, slijmerige gedachten. Zij spraken in een taal die zij niet verstond. Zij waren groot en harig, en soms boden ze haar wat voedsel aan, maar ze hield er niet van. De reuk was zo vreemd hier, en ze had problemen met ademen. 2. Eén van de Onaks nam haar op z'n rug. Het was er één met vleugels, en ze vlogen naar een hoog en duister slot. 3. Ze zag een kind staan in één van de gangpaden. Ze kreeg een lichte schok. Het kind leek meer op haar dan op een Onak. 4. Het kind had een rood gewaad, staande met een pop. Het kind verstond haar niet. 5. Toen de Onak tegen het kind sprak, scheen het kind het te begrijpen. 6. Ze gaven haar vlees, en ze vroeg zichzelf af wat voor soort vlees het was. 7. Toen ze ervan at werd ze heet van binnen. 7. Toen leidde de Onak haar tot een lift die diep onder de grond ging. 8. Ze hoorde allerlei soorten gegil en gehuil. Toen de deur van de lift openging zag ze een bal van vuur hangen in het midden van een zaal, terwijl wezens daar werkten. Aan de muren zag ze wezens als haarzelf hangen, maar ze leken bijna op bomen. 9. Tot haar schrik bemerkte ze de overeenkomst met het vlees wat ze had gegeten. 10. Ze had haar eigen evenbeelden gegeten. Plotseling nam een Onak haar bij de nek en tilde haar hoog op. Ze werd daar ook gehangen, terwijl ze gilte en schreeuwde. 11. Het kind met de pop kwam naar haar toe. De ogen van het kind waren vol rood, bijna vuurspuwend. 12. 'Je bent klaargemaakt om Onaks voort te brengen,' sprak het kind nors. 'Wanneer je weigert, zul je worden tot vlees. Ontsnappen is onmogelijk. 13. 'Ja, ik zal Onaks voortbrengen,' zei ze tot het kind. 'Goed,' zei het kind, 'dan zul je veel slijm moeten eten.'

De Ontsnapping

1. Zij moesten vele slangen bevechten in het duistere woud, terwijl ze door de modder en de aarde gleden. Zij voelden zichzelf prinselijk terwijl ze aten van het slangenvlees. 2. De wonden vormden vreemde golvende merktekenen op hun lichaam, alsof er planten op hen geprint waren. Zij voelden hoe ze de controle over zichzelf terugkregen na de ontsnapping. 3. Ze waren lang slaven geweest in ballingschap. Ze hadden nog wel vele brandmerken van hun slaaf zijn. 4. Maar doordat ze tegen zoveel wilde dieren moesten vechten kregen deze brandmerken een andere vorm. 5. Zij waren trots op hun nieuwe merktekenen van hun nieuw gevonden vrijheid. 6. Soms ademden ze zwaar. Ze moesten hier overleven. Ze moesten de wetten hier leren kennen. 7. De psychologische wonden van hen waren diep. Ze voelden zich verwoest in hun ziel. Ze waren geboren in slavernij en hadden nooit een taal kunnen ontwikkelen. 8. Zij waren wilden. Zij konden geen kracht ontwikkelen, want elk beetje kracht dat ze in hun lichamen vasthiielden werd gestoken door een soort van creaturen, terwijl hun energie weer wegsijpelde. 9. Zij waren altijd moe. Veel konden zij niet ontwikkelen door de grote mate van druk en aanvallen. 10. Al wat zij kregen waren flitsen en fragmenten, snel weggescheurd bij elke volgende stap. 11. Zij voelden de bossen als zwaar vampiristisch, hen uitzuigende. 12. Zij konden geen bezittingen hebben, alleen hun dolken en wat gescheurde klederen en riemen. 13. De slangen waren groot hier, steeds weer probeernde hen te wurgen. 14. De slangen waren niet makkelijk te verslaan, en soms duurde een gevecht wel uren. Ze moesten als dit bos en deze dieren worden, anders zouden ze niet overleven. 15. Door hun pijnen communiceerden ze met elkaar, kort en van een afstand, want ze waren ook bang voor elkaar. 16. Sommigen hadden merktekenen van duistere slangen op hun lichamen. Ze maakten klederen en tenten van hun verslagen aanvallers. De bossen waren lang, en ze maakten plaatsen waar ze vlees verzamelden. 17. De gevaarlijkste dieren waren de gehoornden, want zij konden hard lopen, en moordden heel makkelijk met hun hoornen. 18. De gehoornden maakten groot geluid en waren de wildsten in deze wouden. 19. Vaak vernielden ze de tenten, en hun vlees en bloed was het meest krachtige. 20. Ze wisten dat als ze de gehoornden niet zouden temmen, dan zouden ze door hen verwoest worden. 21. Ze klommen in de bomen, sprongen op de ruggen van de beesten en begonnen hen te berijden, maar door de wildheid van de beesten vielen ze vaak snel. 22. Ze wisten dat ze het stap voor stap moesten leren. Ze wisten dat wanneer ze door zouden gaan hun vijanden te bevechten, dan zouden ze alles verliezen. 23. Ze maakten hun tenten in de bomen. Ze voelden een woede naar de beesten, maar de pijn maakte hen moe en als verdoofd. 24. Ze moesten meer leren over deze beesten, over hun bewegingen, de manieren waarop ze aanvielen. 25. Zij waren niet de enigen die hongerig waren. 26. De ontsnapte slaven probeerden onderling wat warmte van elkaar te krijgen, want soms waren de winden koud. Maar ze waren geen contact gewend. 27. Het gaf hun zulke vreemde gevoelens van angst en paniek, en zulke vreemde gevoelens in hun buik. 28. Ook in de rivieren was er veel gevaar. En hier vonden vele gevechten plaats. Ze verlangden ernaar te zwemmen, en ze voelden een vreemde moed opborrelen, een vreemde spanning in hun lichamen. 29. Ze begonnen immuun te worden voor de angsten voor het water. Ze voelden zichzelf meer en meer als waterslangen, en het strijdveld verschoof naar het water, meer en meer. 30. Ze wilden graag aan de rivieren van deze bossen wonen, en aan de meren. 31. Ze verlangden naar een nieuwe hartslag, om hun verleden voor eens en altijd te ontvluchten, en om hun wonden tot nut te maken, en hun vergif. Dezen waren nog steeds machtige wapenen in hun handen. 32. De gevaarlijke creaturen in deze meren en rivieren konden soms veranderen in vrouwen. Er waren ook slangen die door hun wonden in hun lichamen konden komen, of zelfs door hun monden of andere openingen in hun lichamen. 33. Dan hadden ze

innerlijke gevechten, zulke vreemde gevoelens. Deze slangen probeerden hen weer tot slaaf te maken van binnenuit. 34. Soms gingen deze slangen dood in hen, en werden ze ziek, probeerende de lijken te verteren.

18.

Nu vrij

1. Zij allen moesten voor eeuwig ontwaken, zij allen moesten het duistere creatuur aanschouwen wat hun verstand had overgenomen, om hen mee te nemen naar een eeuwigdurende nachtmerrie. 2. Het geeft hen visioenen zo helder, als een wereld waarin zij leven. 3. Zij zaten op de rug van vreemde spinnen, die eruit zagen als vissen. Zij zagen ook de vliegende krabben en de andere creaturen van deze wateren. 4. Zij zagen de moederspin van het eiland, en haar kathedralen. Er waren daar vreemde tempelen, als een heilige plaats. 5. Het vreemde en duistere creatuur van de zee, het vreemde creatuur met de zovele tentakels, hen bewakende in een vreemde gevangenis, met een vreemde slavernij. Als vreemde webben over een eiland, waarin ze kunnen klimmen. Als taaie lijm die ze kunnen strekken, kneden en vormen. 6. Nu zijn ze dan vrij.

19.

Het wilde boek in het hoofd

1. In een vreemde secte vermoordden ze dieren voor hun god. Ze hadden vreemde verf op hun voeten. Ze waren geverfd en gekleed voor dit doel, de vreemde opsmuk van een religie. 2. In de nachten werden hun voeten vreemde spinnen, gaande voor de jacht. 3. Hun tenen groeiden uit tot lange moordklauwen om hun slachtoffers te wurgen, om hen tot hun rijken van de dood te brengen. 4. De vreemde verf heeft zo'n vreemde geur, en het neemt gemakkelijk het verstand over, en dan ook heel langzaam de emoties, stap voor stap, totdat zij geheel slaven zijn. 5. En dan worden de verhalen wilder en wilder. En het slachtoffer raakt vermoeid, en kan zijn werk niet meer doen. Hij is tot een nachtslaaf geworden. 6. Dit overkwam een slager, want door veel met vlees te werken word je zelf ook vlees. 7. Er stond een zwarte man in zijn deuropening, terwijl een kleine spin op zijn bed langzaam uitgroeide tot een voet. 8. De man heeft een hoed en een wit gezicht, maar verder is hij zwart. 9. De spin kwam tot zijn borst. Hij kreeg daar een merkteken, en voelde daar druk, ook tijden erna. 10. Wie heeft nou wie onder de voet. Hier is het : een voet voor een voet, een teen voor een teen, een tepel voor een tepel. 11. Religie zal je op een dag vinden, want je doet de werken van een religie. Je bent een priester. 12. Het is hier vlees voor vlees, een buik voor een buik. Er zit een wild boek in je hoofd, wachtende om op één dag geopenbaard te worden. 13. Een oog voor een oog, een tand voor een tand, wie heeft nu de wet verbroken ? 14. Geef je hem die je linkerhand eraf hakte ook je rechterhand ? 15. Dit dan is het wilde boek in het hoofd.

20.

1. Esmeralda, tot de tijd dat ik bij je ben, maak je huis in orde. Ik ben een feeenprins door haat geworden tot bloeiende liefde. 2. Esmeralda, liefste, kom thuis. Ik heb lang geleden aan het kruis. Nu ben ik dan tot de paal van Spricht gekomen, met al die dierengezichten, zij maakten in mij woning. 3. Ik heb stil van hun wijnen gedronken. Van genezing hebben zij niet willen weten.

4. Esmeralda, ze vertelden mij over de duivel. Dit is een geheim tussen ons twee. De duivel moest dan branden als een luciferhoutje, en zij maakten groot vuur, ik ben snel vertrokken, want het leven werd zo duur, langs de stad leefde ik. 5. De waat'ren hebben mij aangenomen. In grachten heb ik

niet gedreven. Alleen in bosrivieren, zoekende naar de vissen van Spricht. 6. Op hun ruggen heb ik gezeten, Esmeralda. Ik zal ze allen binnenhalen, oh feeenkoningin.

7. Esmeralda, liefste, ze hebben 't nooit geweten, ze hebben elkaar nog nooit verstaan, al die torens, al die huizen, al die wezen. 8. 't Zegt mij genoeg, voortaan wil ik met jou wezen. Als de vinger van Spricht mij 't nog niet heeft verteld, alles wat ik over jou moet weten. 9. Laat hem dan komen, de wijnen zijn klaar. Onze koffie zal snel stromen, naar het land van onze dromen. Ik ben ontwaakt, nooit zal ik meer slapen. 10. Feeenkoningin, bloemen over jouw namen, een hartsgedicht, wij moeten nu snel de liefde staken. Zij zullen ons achterhalen, al die bakkermans gezichten, zacht brandende in de nacht, ze zullen ons sleuren naar de gracht. 11. Tot al hun winkels zullen we komen, in de flessen zullen we gaan, om van elkaar weer te dromen, zij kunnen ons niet breken, want ver weg is zo dichtbij. Dat leerde je mij. 12. Esmeralda, bloemen over jouw namen. Met reukwaat'ren heb je mij ingespoten. Grote schatten uit vreemde bossen, we moeten nu snel weglopen. 13. Ze zullen ons achterhalen, om ons te sleuren naar de gracht, in hun winkels zullen we komen. In hun flessen te verdrinken, om weer van elkaar te dromen. 14. Ver weg is zo dichtbij. Esmeralda, mijn feeenkoningin, zoveel bakkermansgezichten tussen jou en mij. 15. Weet dat ik van je houd, ik zie je in al mijn dromen. Voor eeuwig ontwaakt zijn wij.

21.

Vreemd geluk

1.Vreemd geluk, ook voeren ze mij, naar babies in de wei. Ik word nooit meer geboren. Een kroon draag ik, van een fijn zacht latijn, komende van het rode, een wit latijn, sprekende onder een roze verbond. 2.Als lippen zwellen zij, als slangen van een Vreemd Woord, met hoogsprekende en blazende woorden. 3.Breng het voort, de rode draad, alleen Rachab wordt gered. Ik heb een rode tong, ik heb een rode lap, mijn armen zijn afgekapt, ik leef voor eeuwig lang. 4.Het mysterie duurde al veel te lang, als ik de paarden had gekend, dan had ik hen uitgenodigd. Mijn armen zijn afgekapt, ik ben een vis, strijdend in rode rivieren, in rode bossen kies ik voor honger, laat hen die verzadigd zijn nog meer verzadigd worden. 5.Ik ga de weg van honger, ik ga de weg van pijn. Zij hebben mij gered, nog steeds bang ben ik. 6.Hier heb ik al die jaren op gewacht, zij geven leven aan babies, maar worden zelf nooit geboren. Geboren worden hoeft niet meer, maar groeien. 7.Iemand bereed die man zonder armen, maar het was alleen maar een paard, met een rode lap, een rode streep. Jij bent de paardenkoning, tot Spricht kwam je.

8.Een paardenkoning maakte in mij woning. Christus aan het kruis van Spricht, na een tijd geen armen meer, twee stokken tegen elkaar, als een stekker. 9.Maar het was maar een paard, ik heb het zelf gezien. Nee, zonder ruiters, het paard was vrij, reddende jou en mij. Je dacht dat ze met hun tweeen kwamen, maar het was maar een paard tussen jou en mij. Ik ben alles weer vergeten.

10.Dingen zijn niet zoals ze lijken. Die witte paarden hebben verhalen, ik wil wel namen geven, maar ik doe het niet, want iedereen kijkt mee. Een paardenkoning maakte in mij woning, een kind van Spricht, zonder vader en zonder moeder. 11.Ik dacht dat ik een vader en een moeder had, maar het was alleen een paard. Het graast in de wei en houdt van mij. Dingen zijn niet zoals ze lijken. Ik zei je toch, dat dieren de geheimenissen Gods dragen. 12.Dit leven, het zijn allemaal kleine symbolen, wijzende naar diepe dingen. Nee, ik kom niet bij je terug, het ijs brengt ons dichtbij. Dichtbij verweg, en ver van dichtbij, het witte paard bracht mij daar.

13.Vreemd geluk, ook voeren zij mij, naar babies in de wei. Ik word nooit geboren, ik ga nooit meer dood. Ik ben de elvenkoning. 14.Wat weet je nu van God. Wat houdt Hij nog voor jou verborgen,

heb je moed, aanschouw de morgen. Veel wordt er voor jou achtergehouden. 15. Ga je door, of ga je slapen. 't Is aan jou om nu te kiezen, maar twijfelen is ook een pad. Het grijze pad, onder de kleuren. 16. Wat weet je nu van de ander? Je hebt de ander nooit ontmoet, slechts de visie die je over hem hebt. Een vreemde visie, een vreemd geluk.

Prinses van de Canon

1. En ik zag een boom geheel gemaakt van de voeten der mensenkinderen, een boom vol van gelach, en de boom droeg de naam de konijnenboom. En er droop melk van de boom af, en het regende melk, en ik was in een grote hoogreikende grot als temidden van bergen, en aan de bovenkant was een open plaats waardoor licht scheen. En de boom was hoog, en de melk proefde zoet als honing, en ik zag een man met een zwaard die de boom omkapte. En ik zag een konijn verschijnen, als geslacht, en het konijn droeg een gouden gordel. En het konijn sprak grote woorden die ik niet kon verstaan, maar ik zag de mensenkinderen tot de omgehakte boom komen, en ziet, de melk was zwartgeworden als siroop, en het proefde naar drop. En de mensenkinderen dronken van de zwarte melk voor zeven weken en zeven halve dagen. En een van de kinderen richtte een koord op. En het koord liep op tot helemaal door de open plaats in de hoogte, en ging naar binnen daar waar het licht was. En indiaanse piramides verschenen rondom het kind, en een vuur steeg op van de piramides. En de kinderen rondom dit kind begonnen het kind te haten, en dreven het kind naar een afgrond, waarin zij het kind wierpen. En ik hoorde een stem zeggen: Dit is mijn geliefde kind, mijn zoon, de Karmat, Karakter is Zijn Naam, ja, de Zevende, en mijn kinderen zijn het die van de zwarte melk hebben gedronken, de rode strepen, en zij zullen het touw vinden, wat tot de hemelen reikt, het touw dat Mijn Zoon heeft opgesteld. Zie, Ik ben dan de Christus, en dit is Mijn Zoon. En het konijn lag op de grond, als geslacht, en steeg toen op langs het draad, en het draad vermenigvuldigde zich.

2. 'Zij hebben mij verworpen,' sprak het kind, 'en zij zullen geen deel hebben aan mijn opstanding.' En er was een luid geween onder de kinderen, toen zij zagen wie zij in de afgrond hadden geworpen, maar de Heere luisterde naar hun geween niet. En hij sloot hen op in een duistere kamer, een duistere hut, ja, die van de satan. En onder hen waren zeven kinderen die door bleven wenen en smeken, en de Heere nam hen op tot Hem.

3. En de zwarte melk werd rood, rood als bloed, en niemand dronk het nog. En de Heere sprak : 'Is mijn beker dan niet gekomen om de zonden te verzoenen ? Grijpt dan naar het touw, en laat u optrekken tot mij.' En vele kinderen grepen het touw, en werden door het gat van licht getrokken, en de Heere keerde Zich niet tegen hen. En Hij noemde hen : 'Zijn getrouwe kinderen', en rekende met hun zonden niet. En Hij waste hen in de rode melk, en de melk werd roze, de melk van een nieuw verbond. Deze kinderen dan waren slaven, en zij hebben dingen in hun onschuld gedaan. En ik zag een leger van mensenkinderen opstaan, en zie, zij aanbaden het gevallen konijn, de Zoon van Christus, en deze zoon had de macht het gat te openen. En vele sterren vielen erdoor naar binnen.

4. En ik zag een totempaal gemaakt van uilen, en ziet, deze uilen waren van hout, en ik zag palen als kruizen, en de kinderen van Christus hingen eraan. En de Heere sprak : 'Zo zal dan het kruis leiden tot een diepere dood, maar zij zal niet het wrakhout zijn van overwinning. Er is in hout geen overwinning. Wees dan het kruis niet terug op een diepere waarheid ? Ja, dat is de waarheid van het touw. Want als gij door het kruis niet reikt tot het touw, hoe te betreuren zijt gij. Weet dan wel dat Rachab overwon door het touw, en dat zij door het touw gespaard werd in Jericho. En ik zag mensenkinderen hangen aan touwen, en ziet, zij werden genoemd overwinnaars.

5. En er steeg een geween op vanuit de omgehakte konijnenboom, en de konijnenboom werd wederom met touwen opgericht. En de Heere sprak : 'Zo is er dan geen opstanding door het kruis, maar zij die aan het kruis hangen, en hun bloed laten vloeien om met melk te vermengen, voor hen is het levensteken van het touw, en dit touw zal hen oprichten, zijn zij dan niet de rode strepen, de kinderen van Christus ?

Keizer van de Canon

Derde Sleutel van de Canon

1. Maakt u dan nu op om tot de derde sleutel van het Eeuwig Evangelie te gaan. Zalig is degene die dit geheimenis vindt. De val van Adam leidde hem tot de wereld van Simson, zijn spiegelbeeld. En Adam vatte hoop toen hij het mysterie zag. Onder modder lag het, en het slijk der aarde, op een

berg. En de berg begon te branden. En het zicht erop was als een brandende kaars. En Adam sprak deze woorden : Hesso Orteles. En Adam zakte in de grond als in een moeras. En een krokodil nam hem op de rug. En de krokodil leidde hem tot dichtbij de berg waar het mysterie van Simson was, als een vrouw gehuld in licht en zijde. En zij sprak tot hem : 'Welkom tot het mysterie van Simson, en dit mysterie zal u vrijzetten, en gij zult uw vrouw in een ander licht zien.' En de vrouw verdween als in een mist, en Adam volgde haar. En haar cryptische beschrijvingen maakten hem moe, en lieten hem zijn hoofd grijpen. En aldus was de keizer van de canon. En Adam zag zijn spiegelbeeld, Simson, en er was glas tussen hen. En bij het glas stond een zwarte hond, als een wolf. En het was niet duidelijk of de hond achter of voor het glas stond. En de hond begon lawaai te maken, en Adam greep naar zijn oren, terwijl het glas uit elkaar spatte. 'Nu is de markt verbroken,' sprak een stem. En Adam vatte hoop en moed, en ging door het glas naar binnen, maar uitsteeksels staken hem, en hij viel als een bloedende op de grond. En Simson raakte hem aan, en Adam trilde. 'Hier hebben de tijden ons geleid,' sprak Simson. En Simson hield de sleutels van het Eeuwig Evangelie in zijn hand, en sprak : 'Ik ben dan aangesteld om te sluiten en te openen.' En hij opende vele deuren, terwijl hij Adam meenam, en sloot vele deuren achter zich. En hij leidde Adam naar een plaats van spiegels, gemaakt in gesteentes. En verwarring maakte zich meester over Adam. 'Heer der vogels,' sprak Simson, 'Heer van de lucht, heer van vissen en sterren, van het aardrond en al wat daarop is, laat mij u het mysterie van de derde sleutel tonen.' En Simson tekende een kruis in de lucht, en dat kruis begon te bloeden. En ook de hoofdhuid van Adam begon te bloeden. Plotseling was er een vuur op Adam's hoofd, en Adam begon te schreeuwen. 'Adam,' sprak Simson. 'Dit is de doornenkroon. Het lijden van de Heer aan jou geopenbaard. Ik ben jouw evenbeeld, de Heer is jouw evenbeeld. Wij zijn één.' En Adam boog zijn hoofd, en boog neer voor Simson, die zijn hand legde op zijn hoofd. En Simson sprak over het indiaanse land, waar de voorouders eens van wegvielen, uit het paradijs, als een paradox, als een groot geheimenis. En hij sprak over de moeder god. En Adam keek op, terwijl Simson zijn ogen zalfde. En een groot licht daalde op Adam neer, en warme, grote vleugels omhulden hem. 'Kijk in de deken,' zei Simson. En een deken verscheen voor Adam, en hij keek erin. En hij zag Delila staan, en zij droeg een mand waarin duiven zaten. 'Ziet gij het raadsel, Adam,' sprak Simson. 'Nee, heer,' zei Adam.

2. 'Kijk weer,' sprak Simson. En weer keek Adam in het doek. En de duiven in de mand begonnen te veranderen in eksters. En een luid geschreeuw kwam voort van de deken, en de deken begon te branden.'

3. 'Ren, Adam,' sprak Simson. 'Want het grote raadsel des Heeren wordt geopenbaard.' En Adam rende weg, terwijl het vuur zich verspreidde. En na enige tijd brandde Adam ook, en begon te schreeuwen. En de deken viel op hem, en sloeg hem neer. En Simson sprak : 'Kunt gij dan ontkomen aan het vuur des Heeren ?' En hij trok Adam onder het vuur vandaan, en Adam keek recht in de ogen van Delila. En zie, zij was als het evenbeeld van Eva, en zie, zij waren één. 'Ziet,' sprak Simson, 'heeft zij mij dan niet met touwen gebonden, en mijn hoofdhaar, zelfs mijn hoofdhuid afgesneden, opdat ik tot de gescalpeerden gerekend werd ? En heeft zij mij dan niet verleid en verraden ? Ja, onbesnedenen hebben mijn ogen uitgestoken en mijn armen afgehakt, en mij bedekt met een rode lap. Mijn schaamte hebben zij met een rode streep bedekt. Ziet gij de diepte van deze dingen. Was uw vrouw niet een zelfde kruis, een lijdensweg, een lijdenstijd, waardoor gij gemerkt werd ? Ziet dan, wij zijn één. Wanneer gij deze woorden zult begrijpen, zult gij het verborgen paradijs hebben gevonden. Ziet dan, zij zijn delen van de moeder god. En wij zijn delen van de vader god. Onze hoofden moesten branden om onze ogen te verlichten. Onze kap moest afgesneden

worden om verbonden te worden met de moeder god die boven ons is. En wij hebben ons voor haar vernederd. Zij was het kruis wat ons tot overwinning leidde. Zij was het touw waardoor Rachab werd gered, en wij in haar.

4. En een zwarte panter kwam tot Adam. 'Zie dan, het mysterie van alle eeuwen is geopenbaard,' sprak Simson. En Delila kwam dichterbij, en greep Adam. 'Zij zal u niet meer loslaten,' sprak Simson. 'Zij zal het Woord in u ontzegelen.' En Adam was als in de greep van een python en kon moeilijk ademen, terwijl Simson verdween in de mist.

5. En Delila begon hysterisch te roepen tot Adam. En Adam probeerde haar te troosten, maar hij kon het niet.

Keizerin van de Canon

Vierde Sleutel van de Canon

1. En Adam, Simson, Jezus en David waren allen getroffen door de vloek van Delila, in allerlei vormen, waardoor zij hun hoofdhuid en haar verloren, zodat hun schedel in brand stond. Zij hadden de Heilige Geest, de moeder, ontvangen, in vele vormen, als een zachte zelf, verzachtende hun harten. Zij hadden zich geopent voor het raadsel der eeuwen. Dit zijn dan de bruids-visioenen die Christus ontving te Kana. En de hoofdwond van deze vier was teer en vruchtbaar, en een boom groeide voort van hen, als een boom des kruizes met rijke levens-sappen ten eeuwigen leven. En vogels zetten zich neer op de takken, en er waren vele stemmen. En de doornenkroon openbaarde zich temidden van de vogels. En Johannes de Doper kwam, dragende dit raadsel. En een helm verscheen, genaamd de helm der karazuren. En zoete honing vulde de helm. En zie, de honing was wild, en Johannes de Doper nam van de honing. En zie, hij was onthoofd.

2. Zo is dan het geheimenis der eeuwen dat al degenen die het boek des Heeren aannemen daardoor worden gescalpeerd en onthoofd, als de bruids-besnijdenis des Heeren. En deze besnijdenis om verbonden te worden aan de moeder, de Heilige Geest, die zich heeft geopenbaard in velen. Zij is dan de diepte van de doornenkroon. Zij is het die het hoofd heeft ontzegeld. Zij heeft hun ogen gezalfd en verlicht.

3. In de dieptes van het paradijs staat zij, voor de poorten, met de instrumenten van de besnijdenis. Geen van hen die dieper het paradijs willen betreden zullen aan haar ontkomen. Zij is de koningin van de jacht, de keizerin van de oorlog. Zij voert oorlog in gerechtigheid om de zegelen der eeuwen te verbreken. Zij haalt de schedels neer door haar pijlen. Ook aan David verscheen zij, als een python, Batseba. Zij nam hem mee op een reis door oorlog, en veroorzaakte zijn val. Nu, was deze val heilig of onheilig? Ook David moest als zijnde een type van Adam, Simson en Christus aan de zonde gelijk gemaakt worden. Ook hij moest besneden worden door een vrouw. Dit dan is het huis der eeuwigheden, om verzoening te bewerken. Zo zette hij Uria de Hethiet vooraan in de strijd,

opdat David zijn vrouw zou winnen. Is dit dan geen vrouwenroof ? In het letterlijke wel, maar in het geestelijke beeldt Uria de vleselijke en oude natuur uit, die overwonnen moest worden.

4. En Batseba nam David in en verslond het kind. Ze beet David en vernederde hem, want zij beeldde de vloek van de moeder god uit. En zij is de moeder van de openbaringen. Zo is zij het dan die de zegels opent, in eenheid met Delila, Eva en Maria, en zijn zij delen van hoe de Geest werkt. De Geest dan komt met list en besnijdenis. Zo zijn wij dan allen in Christus getuigen van deze dingen. Batseba dan draagt het mes des Heeren, en is de bruid van Christus. Zo is dan de Geest van Christus de Bruid van Christus, als een type van de moeder god. En gij allen die Christus volge, hebbe deel aan dit mysterie.

5. Batseba dan is het geheim van de moeder god, haar gordijn. En zij test allen die tot deze poort naderen. Ja, in de dieptes van het paradijs is zij. Ja, de glorie van het Woord draagt zij. Zij is het geheimenis des kruizes. En Delila is het geheimenis van de doornenkroon. Ja, een zwaard in haar handen is zij. En zij is gekomen om visioenen te geven, en om de heiligen doorgang te geven, want lang zijn zij door onderdrukking tegengehouden. Ja, zij zal binden hen die zich dokter noemen en het niet zijn.

6. Als een oorlogs-strijdster staat zij op. Hebt gij het verhoord en vernomen ? Zo zijn er dan hen die zich dokters der tanden noemen, en zij boren in tanden voor geld. Uit mijn heiligdom zal ik deze valse doktoren drijven ! spreekt de Heere. Zij hebben niets anders dan ellende gebracht, want zij hebben ketenen gelegd op Mijn volk, en deze ketenen waren giftig. Daarom, zegt de Heere, er zal een dag zijn tegen een ieder die zich valselijk dokter noemt, om het vlees van de kudde te kunnen eten. Kijk, een oorlogs-strijdster staat op, om te overwinnen. Koningen zal zij binden met ketenen, en keizers zal zij neerhalen met haken. Opgestaan is zij om oorlog te voeren, om het allerheiligste te verschonen. Mijn oog kan deze valse doktoren der tanden niet meer aanzien, spreekt de Heere. Daarom zal mijn zwaard op hen neerdalen, en er zal een grote slachting zijn. Ja, dronken zal Ik worden van hun vet. Mijn zwaard zal opstaan in de nacht, en hun eerstgeborenen zullen geslagen worden, en het eerstegeborene van hun vee. En de eerstelingen van hun oogst zal ik verbranden. En in de morgenstond zal Ik tegen henzelf komen, spreekt de Heere. Zij hebben geboord in de tanden van mijn volk voor veel geld, en daar gif geplaatst. Ziet, dienaren van de Mammon zijn zij. Zij buigen zich neer voor hun Roomse goden, maar ziet, Ik zal deze goden slaan, en uit mijn huis verdrijven. En tegen Spanje zal Ik een groot vuur aanrichten.

7. Nu, kent gij het geheimenis van Batseba ? Vergeet niet dat Eva haar man gaf van het vergif, en zo heeft Batseba ook David het gif niet onthouden, want zij beeldde het kruis uit. Zij leidden hen naar het kruis en de doornenkroon. Ook leidden zij hen tot het spotkleed. Zij gaven hen te drinken, wijn met gal. Zij waren de vloek van de moeder god, die haar kinderen terugriep tot het kruis. Nu, in letterlijke zin zouden deze vrouwen vernietigers zijn, maar in geestelijke zin zijn zij oprichters. Verbreek daarom de zegels van Batseba, en gaat in door haar sluiers. Als een zwaard is zij daar, om te oordelen de levenden en de doden. Zij is het Zwaard van David, en het Zwaard van Christus, en dit zwaard is twee-snijdend, komende van Zijn mond. Ja, oordelen zal hij hen die het gif der wereld geschonken hebben, en niet het gif des Heeren.

De Ridder van de Canon

1. Delila is de bewaakster van de diepere wouden en wildernissen van het paradijs. Zij draagt het zwaard om gelovigen te testen. Ook bewaakt zij de schatten van het paradijs. Zij is als de Lokogamen, de sieraden van het kruis. Zij spreekt recht in list en symboliek. Zij raakt het letterlijke niet aan. Zij draagt de sleutelen van het paradijs. In de wouden is zij stil, totdat iemand in haar webben raakt. Zij is de spin van het paradijs. Zij weefde het paradijs als in een mysterie. Bent gij dan al tot haar kleine huisje gegaan ? In de dieptes van het bos woont zij, om dapperen te onderwijzen, zij die door hun lijden tot haar zijn gekomen. Als de engel des Heeren is zij.
2. Zo was zij ook een test voor Simson, en hadden de verminkingen geestelijke betekenissen. Zij waren geenszins letterlijk. Zij is de ware dokter, met het kruid des kruizes. Zij was de bringer van de doornenkroon.
3. Nu weet gij dan allen dat de doornenkroon de poort der profeten is. Zo verliezen profeten hun hoofdhuid om door haar gekroont te worden. Door haar verliezen ze hun oude natuur. Door haar verliezen ze hun aardse ogen en handen, totdat alleen een rode lap hen bedekt. In haar worden zij kind, en groeien zo niet op als de nefilim. Zij is de honger en het kruid van armoe. Zij geeft en zij neemt. Zij leidt gelovigen dieper in de wildernissen van het paradijs, waar zij de geheimen openbaart, en deze zijn des kruizes. Nee, een gelovige zal niet uit haar hand ontsnappen. Zij draagt de stok des Heeren. Het geweten temt zij. Zij is de Wraak des Heeren.
4. En zij schonk Simson visioenen door zelf vanuit haar borsten, toen zijn aardse ogen waren uitgestoken. En Simson stierf aan zijn aardse leven en zijn aardse wapenen. En zij wekte hem op in een strijdswagen, om hem de mysterieën der eeuwigheden te tonen.
5. De bewaakster van het kinder-paradijs is zij. En Batseba is haar mede-bewaakster. Zij gaan uit om kinderharten te verzoeten, en het gif des kruizes is voor ouderen. Wordt daarom een kind, om aan de wraak van de toekomstige tijden te ontkomen. En zo zijn er dan vele gevaren voor kinderen, maar de Heere beschermt in die allen.
6. De bewaaksters van kinderharten zijn zij, onder de vleugelen van Metensia. Zij slaan de harten der ouderen, want des Heeren toorn en tucht is op hen. Wees daarom als kinderen, maar ziet, ook Zijn kinderen worden zwaar getuchtigd. Gaat in tot de burcht des Heeren, om het kinder-paradijs te vinden. En gij zult worstelen met de Geesten. Zo zult gij uw zielen behouden. En gij zult het zoete van Marion vinden.

1.

1. En ik kwam in een hal, en in de hal waren grote ogen die rondvlogen en vlees aten. En de Heere was verbolgen over deze ogen. En zie, de ogen dan waren de brieven van Paulus. En de Heere zei : 'Ik ga hen uit mijn Woord verbannen. Niet omdat ze zo onzuiver waren, maar omdat zij niet tot mijn Woord behoren. Zij waren dan profetische brieven, en zo moeten ze ook beschouwd worden.' En ik zag de Heere verschijnen en Hij nam een mes, en dreef hen uit de hal. En de Heere nam het boek Efeziers en zuiverde het, en maakte het tot een bijgeschrift. En zo werd het geheiligde boek Efeziers tot het Woord opgenomen, maar geenszins werd het een deel van de canon. In de steen der karazuur zal het opgenomen zijn.

2. En de Heere spuwde op de overige boeken, en zuiverde het, en liet ze geenszins tot Zijn Woord opnemen. Ziet, zij zijn dan profetische geschriften, en de oude versies waren veelal verkeerd vertaald en verkeerd uitgelegd om het volk te onderdrukken. Ook waren er duivels-verzen in hen. Waakt dan wanneer gij deze brieven leest, opdat gij niet misleid worde. Want velen zijn het pad naar de hel gegaan, en hebben met deze brieven gevleid.

3. En ik zag de Heere komen met een mes en sneed de duivels-verzen uit deze brieven. En er was een luid gegil dat ten hemel steeg. En de Heere gooide deze duivels-verzen in een put van vuur, en sloot deze met onuitspreekbare woorden.
4. En boze geesten waren woedend nu hun vrienden in ketenen waren gegaan, want dezen stonden bekend als dokters en als de dokters der tanden.
5. En een put werd geopend waarin het Heilige Lijden was opgesloten, en zie, zij werd vrijgezet. En zij ging uit om het land te slaan met plagen, want het had gezondigd tegen de Heere.
6. En engelen weeklaagden tot de hemelen, omdat kerkleiders zo lang rotte boeken tot het Woord hadden gerekend, en daarmee kindekens onderdrukten.
7. En de Heere nam een mes en sprak : 'Uitsnijden zal ik deze kerkleiders. Ik zal hen bannen uit het boek des levens, en hun namen zullen niet opgetekend zijn in de hemelen. Ja, ik doe hen vergeten.'
8. En een wolk vervulde het land, en zij die open stonden voor de zuiveringen ontvingen het Heilige Lijden. En zij weenden tot de Heere, en de Heere genas hen.
9. En mijn hoofd geraakte in ijs, en voelde als ijs, en ik zag demonen in gewaden staan in een kerk, en zij hadden rode hoofden, zeer opgeblazen. En zij werden geboden de kerk uit te gaan.
10. En deze demonen waren de demonische verzen in het evangelie, die er uitgesneden zouden worden. En zij begonnen vreselijk te gillen en te branden. En zie, zij begonnen langzaam in varkens te veranderen. En er was een enorme druk op mijn hoofd.
11. En ik zag in die kerk vier kasten opengaan, waarin vuil opgeborgen was. En een engel kwam tot deze kasten om ze uit de kerk te werpen. En deze vier kasten waren de vier evangelieën die door de kerkleiders tezamen gevoegd waren tot autoriteit. En de Heere was verbolgen op deze kerkleiders.
12. En ik zag een vuur komen tot die kerk om het uit te zuiveren. En de Heere raakte mijn hoofd aan, en sprak : 'Zie, ik trek het boze zwaard uit mijn gemeente. Dit zwaard heeft mijn

- gemeente vervolgd voor eeuwen. Ik zal het werpen tussen de honden en de wolven. En zij zullen het verslinden.'
- 13.En er was een explosie in de hemelen, toen de vier evangeliën uit de hemelen werden verdreven.
- 14.En daarna was er een grote stilte. En er gingen poorten in de hemel open die tijdenlang gesloten waren geweest. En karazuren gingen aan deze poorten staan om hen te bewaken.
- 15.En een groot vuur kwam mijn hoofd binnen, en zie, zij was het Heilige Lijden.
- 16.En een sportzaal begon te branden, en zij die buiten stonden hadden witte klederen. En degenen in witte klederen begonnen onderwijs te geven.
- 17.En apen begonnen de grote stad te omsingelen, en zij maakten plannen om de heiligen te bevrijden. En in het midden van de stad was een zaal met ridders.
- 18.Ook was er een sportveld dichtbij, wat ook begon te branden. En Christus begon Zich te openbaren op het veld. En ook was daar een conferentie-gebouw dichtbij, waar clowns zich voor begonnen te verzamelen.
- 19.En meer ridders begonnen zich te verzamelen in de ridderzaal, waar zij ook hun vlaggen hingen. En zij hingen vanaf het plafond naar beneden.
- 20.En het land brandde bij piano-spel.
- 21.Laat u dan redden van een vals evangelie.

2.

1. En ik zag een grote zaal met speelgoed, en zie, het speelgoed was opgevoerd en losgeslagen, geheel los van de orde des Heeren. En zie, het speelgoed bracht leugens, en terroriseerde de heiligen. En de Heere sprak : nu is het genoeg. En zie, het speelgoed was dan de boeken van het oude testament en van het nieuwe testament, en de Heere haalde hen uit Zijn Woord.
2. En het speelgoed begon nog meer leugens te vertellen, en het speelgoed werd ontmaskerd door de heiligen.
3. En de Heere sprak : Sommige boeken zal Ik vernieuwen, en Ik zal hen uitzuiveren, en zij zullen in hun nieuwe versie, en hun nieuwe code opgenomen worden in de Heilige Schrift.
4. En de Heere keek de uitgeworpen boeken aan, en begon hen te bestempelen als mythische boeken, maar zij hadden hun plaats in het Woord verloren.
5. En het speelgoed begon weg te rotten op verre velden en in woestijnen, daar waar de engelen des Heeren hen gebracht hadden. En kinderen begonnen vrij te komen uit deze neergestorte voertuigen.
6. En een wind maakte vele gevangenis-deuren los. En er was een grote opstand der kinderen.
7. En zij marcheerden naar een nieuwe schuilplaats waar de Heere en zijn engelen hen opvingen.
8. En de Heere bond enkele oude boeken met touwen, en anderen met zware ketenen, en wierp hen in een put van duisternis. En de Heere stak zijn zwaard in die boeken, want zij hadden veel gestolen. En zij moesten alles teruggeven op die dag.
9. En de Heere ontblootte hen, en maakte hen tot een bespotting. En zij werden in een kar door de heilige steden gedreven, opdat alle ogen het zouden zien.
- 10.Vrees daarom de Heere en geeft hem eer, want Hij zuivert zijn Woord, en maakt alle dingen nieuw. Zijn dag is gekomen. Zie, Hij komt spoedig.

Christus

1.

1. En Christus braakte van angst in de hof van Getsemane. En de moeder der goden kwam tot Hem, en Hij bevond Zich in haar tempel. En zij liet hem met touwen binden. Haar soldaten omsingelden hem, en hij viel neer aan Haar voeten. En zij sprak : 'Man van stand gij waart, maar gij hebt de zonden der wereld op u genomen, en al hun gevolgen. Gij weet dan dat ik en uw vader heilig zijt. Nu zijt gij een verworpene.' En Christus hilde aan haar voeten, en kuste deze, maar haar genade was over hem niet.

2. 'Gij zult sterven aan de paal, zoon,' sprak zij. En toen liet zij hem alleen. En hij riep : 'Moeder, moeder, waarom hebt gij mij verlaten.' En Christus begon dronken te worden van angst, en duisternis viel op hem, en gehoon. En Christus kwam tot haar engelen, en hilde aan hun voeten, en kuste deze, om ze te drogen met zijn haren, maar hun genade was niet over hem. En hij sprak 'Moeder, laat deze drinkbeker aan mij voorbij gaan, maar Uw wil geschiede.' En haar engelen lieten hem in de steek. En Christus brak uit in een groot gekerm. Zo zal een man die Christus volgt dan vele malen door vrouwen afgewezen dienen te worden, daar hij de zonden van de wereld draagt. Wee u wanneer alle vrouwen wel van u spreken, want zo hebben zij met de valse profeten gedaan.

3. In de tuin van Getsemane kreeg hij vervolgens een visioen van de tuin van Eden, waar het zwaard van Adam hing. Hij greep dit zwaard, en het begon te smelten in zijn hand, waarop een stem zei : 'Dit zwaard zal eerst sterven, en dan opstaan. Gij zult met dit zwaard sterven.' En op het zwaard stonden teksten geschreven, en openbaringen. En Christus begon zich zwakker en zwakker te voelen. Toen kwam Christus tot de hof van David, waar diens speer hing. Christus greep de speer, maar ook deze begon te smelten in zijn hand. En Christus gleed als in een diepe put. En hij was omringd door hyena's. En een stem sprak : 'Spoedig zullen zij dan uw vlees eten en uw bloed drinken, en gij zult komen tot uw beker.' En toen lieten de visioenen hem alleen.

4. En hij dacht na over hoe hij op aarde was gekomen, zijn aarde-vaart. En hij herinnerde hoe in de hemel engelen rondom hem stonden, en zij lieten hem een gat zien als van water. En hij moest vurige kolen van het altaar inslikken. En twee demonen grepen hem, en duwden hem in het gat. En in een straal van licht kwam hij in de schoot van zijn moeder Maria. En deze schoot was als een gevangenis. En hierin zou hij voorbereid worden voor zijn lijden op aarde. En Hij herinnerde de glimlach van zijn moeder Maria. En hij herinnerde de bloemen die zijn naam riepen. En in de baarmoeder van Maria was hij in gevecht met twee slangen, waardoor hij een enorme kracht kreeg. En hij beet de koppen af van die twee slangen. Maar de koppen van die slangen groeiden weer aan en er kwamen nog meer slangen uit hun bekken. En zij omsingelden Jezus, maar zij waren aan hem onderworpen. Maar nu was het uur gekomen dat zij Jezus zouden overweldigen. En hij zou tijdelijk onder hen gesteld worden.

5. En hij herinnerde nog meer van wat er voor de aarde-vaart gebeurde. Hoe hij een gesprek had met de vader, en dat zijn moeder huilend wegrende. En de vader sprak : 'Zoon, het is tijd dat gij u voorbereid een bruidegom te worden. En uw bruid zal zijn een kruis.' En de vader sprak over het vele lijden dat hij op aarde te verduren zou krijgen. En de moeder kwam terug met vele gerechten, en gebood haar zoon te eten. En dat wanneer hij op aarde zou eten, hij haar zou gedenken. En de moeder nam haar zoon apart. En zij bereidde hem voor op het vele lijden wat hij zou ondergaan. En zij sprak dat hij de muur zou moeten herstellen, de heilige muur. En zij liet hem een bol zien, en sprak dat zij als de bol om hem heen zou zijn, om hem te beschermen. En zij vertelde hem dat ook

zij zou moeten sterven, en de vader. Maar dat de dood hen niet zou kunnen vast blijven houden. En zij zong een lied voor haar zoon, en nam hem in zijn armen, en nam afscheid van hem. En ook de vele engelen kwamen om afscheid van hem te nemen. En sommigen huilden.

6. En in het licht verscheen een beker, waarmee hij tot de aarde zou gaan. En de beker zou gedronken worden door roofdieren.

2.

1. En Christus werd gevangen genomen, en gebeurtenissen volgden elkaar op tot aan het grote Golgotha, waar hij gehangen werd aan de paal, zoals zijn moeder had voorspeld. En in een visioen boog hij aan de voeten van de moeder der goden. En hij was uitgehongerd, en haar toorn was op hem omdat hij de zonden der wereld droeg. En hij was gemaakt tot zonde, en des duivels gelijk. En zij sloeg hem met haar stok. En een grote zwarte slang kwam uit haar hand om hem te verslinden.
2. En hij riep het uit : 'Moeder, moeder, waarom hebt gij mij verlaten ?' En de paal was als zijn bruid, en het was een bloeds-bruiloft.
3. En een stem sprak : 'En een man zal zijn vader en moeder verlaten, en zijn vrouw aanhangen, en zij zullen zijn tot één vlees.' En de stem sprak over de paal.
4. En een stem sprak vervolgens : 'En zij zal meesteres over hem zijn, want zij weerspiegelt de moeder der goden.'
5. En Christus weende luid, met angst voor de dood. En hij onderwierp zichzelf aan zijn bruid, en zijn bruid overweldigde hem. En in dat uur stierf hij.

Takalan

1.

1. De baard van Christus leek een stukje gegroeid te zijn toen hij in de hemel aankwam, en allereerst zag hij daar de rivieren. Een engel kwam op hem af met de vleugelen als van insecten. Het was alsof hij ineens was omhuld door een zachte baard, als de baard van Abraham, en honing droop hier. Overal waren tuinen, waar vruchten tezamen groeiden met drop. En Christus begon te lachen, en riep tot Zijn vader. 2. 'Moeder wacht op u,' sprak de engel. 3. 'Waar is vader ?' vroeg Christus. 4. 'Die is er nu niet,' sprak de engel. 'Die is ... Weet u het ? Die is dood. De vader stierf voor u. Hij stierf met u, en is nog niet opgewekt.' 5. 'Hoe wordt hij opgewekt ?' sprak Christus. 6. 'Gij zult de weg tot de diepste hemel moeten begaan,' sprak de engel. En de engel leidde Christus tot een enorme gouden rivier. 'Wast u dan in deze rivier,' sprak de engel, 'en overbrug deze rivier, want zij bewaakt de zilveren rivier en de holle boom, de boom des hemels, vanwaar de Geest als een Duif werd uitgezonden om u op te wekken. Zo zult gij wederom tot deze plaats moeten gaan, om de Geest uit te zenden om uw vader op te wekken. Moeder wacht op u. 6. De gouden rivier draagt dan dit geheim, dat aan de overkant aan haar kusten het Looft groeit, als een medicijn tegen het onstuimige van liefde en haat. Looft is dan de wet des hemels. 7. Gij zult boven de strijd tussen liefde en haat moeten uitstijgen, om gebonden te worden in de wetten des hemels, als het koude geweten en het kruid van ijs. Het hemels ijs zult gij binnentreden, door loofte, en gij zult zien, de eeuwige vlam. Maar weet, mijn kind, dat ook de strijd tussen vuur en ijs een strijd is waar gij bovenuit moet strijden. Samsael ben ik, een dienstknecht van Uw vader. Het genezings-werk van de vader is begonnen. Zijn oog zal hersteld worden, en de moeder zal over Hem zijn, de Geest. Zij verlangt Hem te zalven en te redden, ja, op te wekken van deze starre dood. Gij bent het Liefdes-

kind daartoe, oh Christus. Gij bent gezonden om uw ouders te redden. Ik draag het vaandel hiertoe. Ik heb u gezalfd daartoe, aan de wieg van uw bestaan. Ja, God's genade is op U. Op U rust Zijn Zegen en Zijn licht. En Christus wandelde over de gouden rivier, en hij zonk niet. En de golven waren hevig als de golven van een woeste zee. En een vogel kwam tot Christus, die was als een vliegende vis. En de vis was als van goud, en nam Christus mee over de rivier. En Looftte nam Christus in haar op. 'Ziet dan, Ik heb mijn gouden vogel tot u uitgezonden,' sprak Looftte. 'En deze is genaamd Zerrum, als uitstijgende boven de strijd tussen leugen en waarheid, en ziet, zij is het raadsel, een raadsel opgeborgen in de hoogste hemelen.' En de vogel was als een arend en een uil. 8. 'Ik ben de wet des levens,' sprak Looftte. 'Uw moeder wacht op U. Ik ben de keizerin des hemels, Uw schild en Uw vertrouwen, een dienstmaagd van Uw moeder. Kom, laat mij U leiden tot de rivier van zilver.' En de rivier van zilver was als een zee, onstuimig als een kudde strijdende herten. En Christus werd door Looftte in de rivier gedrukt. 'Zwem, Mijn Zoon, en ga op zoek naar Uw moeder,' sprak ze. 'Zij woont in de boom des hemels, achter de rivier.' En Christus werd duizelig, en staarde als in een holle boom. En de boom zweefde boven de rivier, en veranderde in een lange paal met een ei in het midden. En Christus probeerde de paal te grijpen, maar greep steeds mis. En zo zwom Christus vele dagen in de rivier die als een zee was, en begon uiteindelijk honger te krijgen. 9. En Christus riep om Looftte, en zij kwam Hem tegemoet. En zie, zij wandelde op de rivier, en trok Christus uit het water. 'Op het zilver kunt gij niet wandelen, Zoon. Gij hebt een vrouw nodig,' sprak ze. En Christus was in haar armen, en hij vroeg om Zijn moeder. En een grote storm kwam op de rivier, en het hart van Christus begon te smelten. En hij riep het uit, terwijl Looftte hem vasthield. En grote vissen kwamen op van de rivier.

De Bijenprinses

1. Hoog in de wolken leefden eens een grote groep indiaanse reuzen. Ze waren heel groot, heel dik, en alles ging erg langzaam. Op een dag besloten ze over de wolken naar beneden te komen. Dat ging allemaal erg langzaam. Ze wilden beneden op zoek gaan naar een splinter van een bijzondere rozenstruik. Die splinter die zou zo oud zijn, dat hij van goud zou zijn geworden. De indiaanse reuzen wisten dat als ze die splinter zouden zaaien, dan zou er een roos uitkomen, zo sterk en zo hoog, dat ze door te klimmen bij hun voorouders konden komen.

2. Na een tijdje hadden ze de gouden splinter gevonden, maar deze was in bezit van een dwerg. Ze boden de dwerg van alles aan in ruil voor de gouden splinter, zoals een wolkenspinner, of een wolkenwever, maar de dwerg wilde de gouden splinter niet ruilen. Maar omdat de indiaanse reuzen zolang en intens smeekten zei de dwerg uiteindelijk : 'Goed dan, ik zie dat jullie de gouden splinter erg graag willen hebben. Ik doe het alleen als ik jullie indiaans prinsesje ervoor krijg. 'Wat ?' dachten de indiaanse reuzen. 'Maar goed, als er geen andere ruil mogelijk is, dan moet het maar.' En zo gingen de reuzen terug om hun indiaanse prinsesje waar ze zoveel van hielden naar de dwerg te brengen. En zo kregen de reuzen de gouden splinter. Toen ze weer boven in de wolken waren zaaiden ze de splinter direkt in een grote pot. Niet lang daarna stond er een enorm grote, taaie roos die enorm hoog begon te groeien, en al gauw klommen de indiaanse reuzen naar het rijk van hun voorouders. Maar die voorouders waren helemaal niet zo blij. Ze vonden het dom dat de reuzen hun prinsesje hadden omgeruild. Maar de voorouders waren zo groot en zo dik dat ze niet over de roos naar beneden zouden kunnen. Dan zouden ze te pletter vallen.

3. Inmiddels bij de dwerg moest het indiaanse prinsesje een hoop zwaar werk verrichten. Ook moest het prinsesje veel kamers schrobben, en de was doen. Het meisje was doodongelukkig, maar op een dag nam de dwerg het meisje mee naar een diepe plaats onder de grond. Hier leefden een heleboel ratten, en de dwerg zei dat als het meisje de ratten tam kon maken, dan hoefde ze niet meer te werken. Dat was een zware opdracht voor het meisje. De ratten waren niet makkelijk en beten haar overal. Toch lukte het het indiaans prinsesje om de ratten tam te maken. Nu kon de dwerg ritjes gaan maken op de ratten, en ook het prinsesje ging vaak met hem mee. Op een dag kwamen ze nog dieper onder de grond. Hier leefden beren, en weer vroeg de dwerg of het indiaanse prinsesje de beren wilde temmen. Als beloning zou de dwerg haar dan meenemen naar een geheime plaats. Ook de beren waren niet makkelijk, en beten haar overal, maar uiteindelijk na een lange tijd waren de beren tam. Nu kon de dwerg ook op de beren ritjes gaan maken, en het meisje ging vaak met hem mee. Op een dag zei het meisje : ‘Je hebt me beloofd om me mee te nemen naar die geheime plaats.’

4. En zo nam de dwerg het indiaanse prinsesje mee naar een plaats waar een zeldzame roos stond. De roos was zo prachtig dat het indiaanse prinsesje haar ogen er niet vanaf kon houden. ‘Als je voor de roos zal zorgen en haar genegenheid wint, dan zul je kunnen komen waar je maar wilt, enkel door een gedachte.’ Het meisje begon de roos te verzorgen, en na een lange tijd won het indiaanse prinsesje eindelijk haar genegenheid. En inderdaad, door een enkele gedachte kon het meisje komen waar ze maar wilde. Maar het prinsesje dacht er niet aan om terug te gaan naar de indiaanse reuzen. Ze had het hier immers zo naar haar zin.

5. Maar op een dag werd de dwerg ernstig ziek. Het indiaanse prinsesje was erg verdrietig. ‘Ga naar het veld van rozen achter de zeldzame roos, en verzorg hen, want ze zijn blind, doof, en kunnen niet spreken. Als je hun genegenheid wint dan kun je wie je maar wilt genezen door enkel een gedachte.’ Het meisje ging naar het veld toe door enkel een gedachte, want zij had die gave van de zeldzame roos gekregen. In het veld zag ze de prachtigste rozen, en begon hen te verzorgen. Na niet al te lange tijd won ze hun genegenheid, en werd het indiaanse prinsesje begiftigd met de gave dat ze door een simpele gedachte kon genezen wie ze wilde. Snel ging het indiaanse meisje naar de dwerg toe, die inmiddels doodziek was, en genas hem.

6. De dwerg was haar nu zo dankbaar dat hij haar een gouden sleutel gaf, waardoor ze in het rijk van zijn voorouders kon komen. Toen ze daar aankwam zag ze de kleinste en dunste wezentjes, allemaal als gouden splinters. Toen ze ze aanraakte veranderden ze direkt in bijen, en vlogen met haar mee naar boven. De bijen brachten haar tot de meest zeldzame bronnen van wonderlijke honing. Het meisje was zo verrukt van de honing, dat ze er taarten van begon te maken. Eerst bracht ze de taarten naar de dwerg, maar later wilde ze ook de honingtaarten brengen naar de indiaanse reuzen. De bijen hielpen haar ermee, en uiteindelijk kwam ze terecht in het rijk van de voorouders van de indiaanse reuzen. Hier waren ze allemaal, en ze waren erg blij haar te zien. In een zaal werden de taarten op grote tafels gezet, en begonnen de reuzen te eten zoals ze nog nooit hadden gegeten. Maar daarbij maakten ze zo’n kliederboel, en werd er zoveel gemorst, dat zelfs grote druppels honing naar beneden vielen. Waar de druppels de grond raakten ontstonden er steden en dorpen. Maar het trok ook de roofdieren aan, en die waren al snel in gevecht om de overheerlijke honing.

7. Het indiaanse prinsesje keek naar beneden en zag wat er gebeurde. Ze was er erg verdrietig om. Maar ze wist dat ook de roofdieren kon komen waar zij was, door het liefhebben van bloemen, en door het temmen van ratten en beren. Ze wilde het hen wel vertellen, maar de roofdieren maakten

zo'n lawaai. Toen besloot het indiaanse prinsesje de bijen naar hen toe te sturen om het te vertellen. Maar één voor één werden de bijen door de roofdieren doodgeslagen. Het indiaanse prinsesje was woedend. Toen nam ze een kan met de wonderlijkste honing en goot het naar beneden. Al snel ontstond er een wilde zee van honing, en de roofdieren raakten geheel vast onder de kleverige honing. Toen kwamen de zon en de sterren naar beneden om de honing van de roofdieren af te likken, maar al gauw gingen de zon en de sterren ook in de honing baden, en wilden niet meer terug naar hun oude plaatsen. Omdat er steeds meer sterren kwamen begon de zee van honing te stijgen en te stijgen. Het indiaanse prinsesje moest nu iets doen, anders zou alles vollopen. Maar het meisje wist niet wat ze doen moest, en besloot de dwerg om raad te vragen. Maar die was niet meer te vinden, want beneden was alles ondergelopen. Ook de rozen kon het meisje niet vinden, en uiteindelijk besloot ze terug te gaan naar het rijk van de voorouders van de dwerg, in een kelder. Ook daar was alles al ondergelopen, maar in de verte zag ze iets glinsteren. Het was een gouden splinter, misschien wel de laatste. Ze raakte de splinter aan, en de splinter veranderde in een bij. Ze stapte op de bij, en vloog naar de plaats waar de zon eens stond. Hier was ze veilig, en niemand heeft haar ooit nog teruggezien.

3.

1. En Christus werd wakker in de armen van Loofte, en hij zag Zijn moeder. En de boom droeg de oranje zee van vuur, als een oranje zon. En zij was als een poort tot het natte bos. En de schepen op zee waren rijk, en zij droegen de sprookjes des hemels. En in de boom waren de honing-dwergen. En Christus voerde lange gesprekken met hen. En zij waren dienstknechten van de moeder. En zij bedekten zijn lichaam met hemelse honing, zodat hij de oranje zee van vuur kon overzwemmen. Maar kwallen begonnen de laag honing aan te vreten, en beten hem. En demonen vochten om zijn lichaam. En de demonen die de hemelen bewoonden voerden hem naar een paal, waar zij hem aan spietsten. En kwallen namen bezit van zijn verstand, en hij werd als een wilde. Maar hij stierf niet, alhoewel hij begeerde te sterven. En hij schreeuwde : 'Moeder, moeder, waarom hebt gij mij verlaten !' 2. En zeemeerminnen vonden zijn gespietste lichaam, en zalfden hem. En alhoewel ze hem niet van de paal konden loslaten, bewaakten ze de paal dag en nacht.

De Windemelk

1. Er was eens een indiaanse feeenkoningin die een hele bijzondere roos had. De roos kon spreken, en was zo prachtig dat een ieder die naar de roos keek versteende en voor altijd in verwondering naar de roos staarde. Daarom bracht de indiaanse feeenkoningin de roos naar een eenzaam kasteel waar twee rivieren omheen stroomden. De eerste rivier was zo zoet dat iedereen die er bij in de buurt kwam voor altijd in slaap viel. De tweede rivier was zo vies en vuil, dat degene die er te dichtbij kwam voor altijd in huilen uitbarste. De feeenkoningin vond dat niet zo geweldig, maar ze wilde de roos beschermen. Maar niet alleen wilde ze de roos beschermen, maar ook degenen die dichtbij de roos wilden zijn. De roos was namelijk erg gevaarlijk. En bovendien plaatste de feeenkoningin ook de gevaarlijkste spin die bestond om het kasteel te bewaken. Dat vond de feeenkoningin ook niet leuk, maar ze wilde geen enkel risico nemen.

2. De feeenkoningin zag wel dat het er zo niet makkelijker op werd, en al helemaal niet minder gevaarlijk, en daarom liet ze grote waarschuwingsborden neerzetten. Niet veel lieden waagden zich nog in de buurt, en op een dag vroeg de roos of zo een wandeling door het bos mocht maken. Uiteindelijk stemde de feeenkoningin toe. Toen de roos bij de vieze rivier kwam liet ze een traan

vallen, en toen ze bij de zoete rivier kwam gaapte ze even. Toen ze de waarschuwborden zag schrok ze heel erg. 'Maar ik ben toch geen roofdier?' vroeg de roos. 'Nee,' zei de feeenkoningin, 'maar heus, het is beter zo.' Maar met een ruk maakte de roos zich los van de feeenkoningin. De feeenkoningin kon niet veel doen, omdat de roos zo groot was geworden in al die jaren. De roos snelde dieper het bos in, maar verdwaalde al snel, omdat ze de weg niet wist. Uiteindelijk vond ze een bosmeertje waarin ze begon te baden. Gelukkig was er niemand in de buurt, want dat zou veel te gevaarlijk zijn.

3. Maar na een tijdje wilde de roos weer terug naar het kasteel, en barste in huilen uit. 'Ach,' zei de wind, 'mijn kind, maak je toch niet zo druk. Je vindt heus je weg naar het kasteel wel weer, volg gewoon de rivier van zoete en vuile melk, en je bent weer thuis, heus.'

4. 'Maar waar vind ik die rivier?' vroeg de roos.

5. 'Daar, in de lucht,' sprak de wind, en tegelijkertijd verscheen er een wolkendek met daarin de rivier van melk. De roos zwom en dronk. Het was het zoetste en vieste wat ze ooit had gedronken, maar snel was ze thuis. 'Mamma,' zei ze tegen de feeenkoningin, 'ik heb melk gedronken van de wind.' En ineens stond er een meisje voor de feeenkoningin zo prachtig als een roos. En sindsdien is ze altijd in het kasteel gebleven.

6. Haar moeder bouwde de prachtigste torentjes voor haar, de lieflijkste sluiers en gordijntjes, en het meisje had het altijd erg naar haar zin, alhoewel het een eenzaam en verlaten kasteel was. Vaak dronk ze nog van de melk van de wind die de wind bij haar bracht, door het raam, en op een dag had ze er zoveel van gedronken dat ze er erg slaperig van werd. Toen ze wakker werd zei ze tegen de wind: 'Zeg, waarom kom je niet gewoon bij ons wonen?' Dat liet de wind zich geen twee keer zeggen, en kwam door het raam naar binnen. Elke dag werd het meisje mooier en mooier door het drinken van de windemelk, en toen haar moeder stierf werd zij de feeenkoningin, maar weg van het kasteel wilde zij niet. Elke dag zond ze de wind uit om alle indiaanse feeën en toverrozen te verzamelen, en elke avond en nacht kwam de wind terug met vele feeenkoetsen. Allen hadden zij gedronken van de windemelk, en daarom waren ze hier.

7. Maar op een dag werd de wind oud, en stierf. De nieuwe feeenkoningin was ontroostbaar. Ook de windemelk begon heel langzaam op te raken. 'Maar,' zei de feeenkoningin, 'dankzij de windemelk zijn we allemaal hier. Misschien stroomt de windemelk nu hoger in de lucht. Laten we een toren bouwen die geen top heeft.' En zo bouwden de feeën een toren zonder einde, en kwamen op een plaats zo hoog in de lucht waar de windemelk nog stroomde. Ook kwamen ze tot de plaats waar de wind nu was, en tot de plaats waar de oude feeenkoningin nu leefde. 'Oh mamma,' zei de nieuwe feeenkoningin. 'Je bent niet dood.' En toen omhelsden die twee elkaar, terwijl de feeën zongen, en de wind heel warm werd van binnen.

5.

1. En de zeemeerminnen brachten de paal met Christus daaraan tot aan de kusten van het natte bos. En Christus was in een diepe slaap. 2. En een slang kwam tot Christus, en maakte hem wakker. 'Een wees ben je nu,' sprak de slang. 'Want je hebt niet alleen je vader verloren, maar ook je moeder.' 3. En Christus liet zijn Geest los voor een tweede maal.

Het Ravijn

1. Er waren eens twee sprookjesrijken die door een groot ravijn gescheiden waren. Een vliegend wonderpaard bracht de sprookjeswezens altijd heen en weer, maar op een dag was het wonderpaard ernstig ziek. De sprookjeswezens besloten een brug te bouwen, en een mannetje bracht de wezens heen en weer in een karretje. Maar omdat dat niet echt snel ging werd het karretje op een dag omgebouwd tot een treintje, en niet lang daarna gingen er vele treintjes heen en weer. Op een dag was ook het wonderpaard weer beter, en probeerde weer eens naar de andere kant te vliegen. Maar dat ging niet goed, want het grote vliegende wonderpaard had al zo lang niet meer gevlogen dat hij het eigenlijk niet meer kon. En zo stortte het reusachtige paard naar beneden, viel op de brug, die direkt in elkaar stortte. Vele treintjes vlogen nu in het enorme ravijn, en het paard kon alleen zichzelf nog maar net redden. De twee sprookjesrijken waren erg verdrietig, en het wonderpaard helemaal. Het wonderpaard voelde zich erg schuldig, en hilde de hele dag door. Het hele ravijn begon vol te lopen met de tranen van het wonderpaard. Nu was er een grote zee ontstaan tussen de twee sprookjesrijken. Het wonderpaard wilde nooit meer vliegen vanwege wat er was gebeurd, maar om het goed te maken wilde hij voor de twee sprookjesrijken vanaf nu een zeeschip zijn. Weer begon hij de sprookjeswezens heen en weer te brengen, maar alles ging erg langzaam. Na een tijdje ging geen enkel sprookjeswezen meer met het wonderpaard mee, omdat het veel te lang duurde. Op een dag dook het wonderpaard in de zee, en vond de treintjes en de brokken van de brug. Midden in de nacht bouwde het wonderpaard de brug opnieuw en liet de treintjes weer rijden. Weer dook het wonderpaard in de diepte en vond daar een grot waar nu alle sprookjeswezens woonden die eens in het ravijn waren gestort. Ze hadden het daar goed, en sindsdien is het wonderpaard daar gebleven.

De Dag dat Alles Stilstond

1. Er was eens een beest die heel diep onder de grond leefde in een keuken die niet meer gebruikt werd. Hier was het voedsel uitgestorven, en het beest was door de honger erg traag geworden. Eens in de zoveel tijd maakte hij een reis naar het aardoppervlak, en dan als hij na lange tijd aankwam, gebeurden er altijd verschrikkelijke dingen. Iedereen gooide dan altijd met stenen naar hem, en dan keerde het beest altijd weer verdrietig terug naar de keuken. Maar op een dag was er een nieuwe koning op het aardoppervlak, en hij heette het beest wel welkom. Het beest mocht in de grote eetzaal van zijn kasteel wonen, en de koning zorgde altijd dat de tafels volstonden met lekker eten. Het beest kwam hier zo van tot rust dat hij nog trager werd dan hij al was. Ook de bewoners van het aardoppervlak kwamen erg tot rust nu het beest geen verschrikkelijke dingen meer veroorzaakte, en iedereen werd trager en trager, totdat het hele koninkrijk stilstond.

8.

1. En aan de paal veranderde Christus in een kind, en kwam los. Diep in het natte bos kwam hij tot een huisje weer hij binnenging. Hier woonde Saakse, die boven de strijd tussen de zee en het droge was uitgestegen. En Saakse had hem lief, en onderwees hem over de hemelen. Ook was zij uitgestegen boven de strijd tussen hard en zacht. En zij was als vuur en licht. En haar zuster was Luchtse, en zij was duisternis. En zij gaven een zwaard aan hem, en maakten hem bos-kledij.

Medusa; De Zonderling

1. Ik denk dat ik doodga als ik naar haar kijk. 'Dit is het rijk van de dood,' zei ze. Ze had een suikerzoet jurkje aan, met de geur van een herfstbos. Ik draaide mijn gezicht om en keek naar

buiten, naar de grauwe stenen. Het was alsof ze lang uitgestrekt op de daken lag, alsof ik haar met mijn ogen niet kon ontwijken. De bus stopte dichtbij, mensen stapten in de bus, en het was alsof zij tussen de rijen stond. Ik denk dat ik doodga als ik haar aankijk, dat ik het dan gewoon niet overleef. Ze pakt me bij mijn hand, en trekt me naar beneden. Het is etenstijd. Zij smeert het brood, kijkt naar buiten naar de heg. Ik ruik haar suikerzoet jurkje, alsof het belegd is met hemelse rijkdommen, maar naar haar kijken durf ik niet. Ik ben laf. Ik voel haar hand nog steeds, terwijl ze me allang heeft losgelaten. Ze voert me.

2. Ze is als een rots waarvan ik af kan springen, daarom beklim ik haar niet. De pot pindakaas voelt nog warm aan van haar hand. Ze was hier. Nu is ze in de kelder. Omdat ze zo lang wegblijft drink ik de laatste slokken melk en thee, en dan ga ik naar bed. Het was een dag des doods, in de tuin van spot. En gisteren was ik in de tuin van wreedheden. Mijn herinneringen zijn daar. Mijn hersenen bloeden. Ze leest me een boek voor, terwijl ik probeer te slapen. Ik hoor haar stem echoen door mijn hoofd. Het zaad van de lindeboom houd ik stevig vast, en meng het met mijn tranen. Dan smeer ik haar lichaam in, met het mengsel dat lijkt op natte tarwe, griesmeel, het is als brood, en het bed is de oven. Zij is de vrouw van de bakker, en ik ben de bakker. Ik maak haar klaar voor het kostelijke dinner in het diepste van de nacht, en dan slaap ik.

3. Ze is als de boom aan de rivier. Ik krab aan het hout, het is alsof de sterren breken. Ik denk aan de tuinen waarin wij waren, de hoge poorten in de heggen, de vruchten die zijn als de meest kostelijke snoepjes. Wie plantte hen daar ? Ik keek naar haar gezicht toen ze sliep. Nu was het veilig. De lazarus-koekjes bungelden aan haar lichaam, slap, uitgedroogd, de nacht heerste hier over de dood, de gouden dood. Voor mij was het een vakantie, ze was even geen roofdier meer. Ik kuste haar lippen, en dan slaap ik, vrij, blij, zonder angst, want ze slaapt. Een diepe nacht die mijn bewustzijn breekt, ik ben er even helemaal uit. Tante Connie controleert later de kamers nog even, of alle lichten wel uit zijn voor de nacht, want als de nacht komt, dan moet de nacht echt goed komen. Zo praat ik 's nachts als met een pop. Ik hoor tante Connie op de gang lopen, als een lijzige boom, verzwakt door het gewicht van haar ouderdom, met passen als het slaan op de koekjestrommel. Ja, haar hele wezen klinkt me als muziek in de oren. Altijd is ze mijn lievelingstante geweest, daarom wonen we hier samen, maar de herinnering aan haar verzwakt. Ik leef hier in een dorre tuin, spot gemengd met wreedheden, de souvenirs van het duistere gat van het verleden. Geen lichtjes konden dat goedmaken, geen gouden pollepel van welke grootmoeder dan ook. Ik voel me verminkt.

4. Oom Joop is een man met humor, maar ook hij kon mij niet redden. Als ik wakker word zit er iemand op me, wassende mijn rug. Het is zij. Ik durf haar niet aan te kijken. Ze pakt me beet, laat dan los, pakt me steviger beet, en dan laat ze me helemaal los, om op te staan. Ik ben te moe, en het zonlicht kwelt me. Er liggen hier snoep papiertjes overal. Ik hoor haar lachen. Er is geen tuinman die de wilde tuin van mijn ziel op orde kan krijgen. Ik lig hier voor Jan Worst.

5. Ze is de laatste van de rozentuin, dus ik kan haar niet wegdoen. De geschiedenis van de graaf, en zijn kinderen. Zij is als de erfenis. Uit mijn gedachten is ze niet. Ze speelt de piano. Ik kijk naar buiten, en probeer langzaam grip te krijgen op de dag. De muren buiten lijken hoog, zoals zij hoog is, van adel. Tante Connie komt binnen, en sleept zichzelf over het tapijt. Het lijkt voor haar een woestijnreis om aan ons bed te komen, en alles lijkt verwaterd. Haar rumoerig kapsel was vroeger deftig en hehoudend. Ze staart in de spiegel. 'Ik moet me nog opmaken voor de dag, je weet wel, het harnas aandoen,' zegt ze. Ze gaat tegen de verwarming aanzitten, en luistert naar de piano. De schotel die ze in haar handen heeft maakt haar bijna als een bedelaar. Ze heeft behoefte aan een gesprek, en ik ben te moe. De dochter van de graaf daarentegen is vol energie, en begint het gesprek

met haar in zinderende vaart. Ze zijn als een stel vogels. Al snel prakken de vorken een maal. Ik krijg niks, want ik behoor niet tot de dag. Het is alsof ze elkaar voeren.

6. In de middag ligt ze weer op me. Het lijkt wel alsof ze draadjes aan me bevestigt om me op te hijsen. Er is nog maar een klein stukje van de dag over en dat eist ze helemaal voor haarzelf op, als met gloeiende handen. Buiten hoor ik de bus, mensen stappen in, verveeld, uitgeput. Ik vraag me af of ze ooit zullen aankomen. Zwetend en puffend kom ik aan bij de lift op de gang. Ik wil naar de zolder. Maar de lift schijnt niet te werken. Ik strompel naar de trap, want een dag met de dochter van de graaf is te veel voor mij. Ik zie bij de trap naar de zolder een andere vrouw staan, in wit kant. Ze helpt me op de trap. Ik plof even later op haar bed neer. Zij is de vrouw van de zolder, en ik heb de zolder bereikt, niet te bereiken voor de dochter van de graaf, de dochter des doods. Maar ik hoor haar krijsen beneden, als iemand die zich geprikt heeft bij het naaien. Ja, toe maar, druk die speld maar diep naar binnen, je verdient het, kreng, denk ik bij mezelf. Maar dan word ik ineens mild door de zachtheid van de vrouw hier. Ze komt dichterbij, spreid haar benen waarmee ze mij vastklemt. 'Ho, doe normaal,' zeg ik. Ze verzwakt de klem een beetje, maar ik voel haar gewicht op me. 'Slapen ?' vraagt ze.

7. 'Nee, dank je, ik heb net geslapen,' zeg ik.

8. Ze loopt naar een kastje, haalt wat brood eruit en besmeerd het. Daarna voert ze me. De lucht is donker hier, en ik hoor de dochter van de graaf nog steeds krijsen. Als ik naar buiten staar is het alsof ze zich heeft uitgespreid over de daken.

9. 'Waar kom je vandaan ?' vraagt de vrouw van de zolder.

10. 'Vanuit de tuin,' zeg ik.

11. 'Oh, de tuin der edelheden en martelingen ?'

12. Ik knik.

13. 'Zo'n zoet-bitter iets,' zegt ze. Ik knik weer. De verdiepingen onder de zolder lijken ver weg. Ik staar weer naar buiten, alsof ik mijn ziel zie vliegen. 'Waar ben ik ?' vraag ik.

14. - Bij mij.

15. Ze pakt een schotel en een kom, en voert me dan soep. 'Ik wil niet meer terug,' zeg ik. Ik kwam van een nachtelijk gebrul, en nu was ik hier, een plaats vol protserige spulletjes, over en weer gelakt en opgepoetst. Vanaf de zolder kon ik de tuinen zien, de heggen, met de hoge poorten. 'Ik ben een vergiftigd mens,' zeg ik. 'Een dwaallicht, een pop.' Ze knikt. Als ik naar buiten keek zag ik mijn weerspiegeling. Zij stond ineens voor de spiegel, en maakte zich op, met allerlei smeerseltjes. 'Goed spul van de bomen,' zei ze. 'Het is voor mijn huid. Ik ga niet naar het feest vanavond, ik blijf wel hier met jou.'

16. Het is alsof ik met haar hang tussen de verdiepingen, alsof ik met haar zweef boven de tuinen. Ik voel haar gewicht, en ben bang dat we naar beneden vallen, maar ze rekt me uit. Ik zie de begroeiing op de muren, en herinner de begroeiing van de tuinen, de dorens, de valstrikken, puur natuur.

17. 'Ik ben de maker van de tuin,' zegt ze plotseling. Ik schrik. 'Hoe kun je zoiets maken ?' vraag ik. Ze zwijgt, als het graf. Ik merk dat ik kwaad word van binnen, maar dan voel ik ineens genade.

Al snel voel ik niets meer, ik kijk alleen maar in een onbekend gat, als een mist, een waas. Ik kan niet meer nadenken. ‘Wat is er aan de andere kant van de tuin?’ vraag ik.

18. - Een snoepwinkel. Ze verkopen eigenlijk gewoon zoete vruchten.

19. Ik kijk naar haar kanten jurkje. Het is als een snoep jurkje. Ineens heb ik zoiets van : Als ik nog verder naar haar kijk, dan ga ik dood.

20. Ik rol van het bed af naar de trap, en laat mij naar beneden vallen. De dochter van de graaf vangt mij op, en de vrouw van het zolder stormt naar beneden. ‘Hij zit toch aan touwen vast, elastiek, draden, kettingen, dus wat wil je,’ schreeuwt ze.

21. ‘Is dit de oorlog van de feeen,’ vraag ik, ‘of van de indianen.’ Ze grijpen elkaar in de haren. ‘Uit dat licht,’ roept de vrouw van de zolder. Ik staar doelloos naar de hoeken van de trap. Dan voel ik de hand van tante Connie, die mij naar haar kamer neemt. ‘Thee?’ vraagt ze.

22. Ze maakt brood voor me, opgepoft en zacht, een beetje nat, met wat soep en pudding. ‘Je moet goed eten, jongen,’ zegt ze. Ik zie haar kauwen. Het zal wel avondetens-tijd zijn. Ik hoor vrouwen krijsen. Buiten hoor ik vogels krijsen. Het klinkt me als muziek in de oren. Bij tante Connie is alles altijd anders. Ze zorgt voor me, grijpt in wanneer het nodig is. Oom Joop zit aan de andere kant van de kamer. Een verfrommelde papieren zak ligt naast hem, met oud brood. De gouden klok tikt, en het is een rustgevend geluid. Ik probeerde vat te krijgen op de structuur van dit huis, maar het was alsof ik van de daken afgleed, of was dit huis slechts de weerspiegeling van de tuin. Het was niet bepaald mijn Eden, en toch wilde ik dit huis doordringen. Ik voelde mij een zwerver in dit huis, een huis wat ik nooit echt binnen kon gaan. Na een paar uur zaten de twee vrouwen keurig netjes tegen elkaar aan, in keurige zoete kleertjes, als feestbroodjes bij de bakker. Rozen op hen vastgespeld alsof er iemand jarig was, en de spelden gingen diep in hun vlees. ‘Ja dieper, dieper,’ dacht ik. Ik wilde het voelen bloeden. Het was al aan het bloeden. Het bloed sijpelde op de grond. Tante Connie raakte in paniek, en ik ook, omdat ik toch meer waarde hechtte aan de beoordelingen van tante Connie dan aan mezelf. ‘Waarom doen jullie dat!’ riep ze.

23. ‘Dit is ons verbond,’ zeiden de twee vrouwen. ‘Ons bloed-verbond.’

24. ‘Zie je,’ dacht ik bij mezelf, ‘dan had ik het wel goed ingeschat.’

25. ‘Geef me de speld,’ zei ik. ‘Ik wil ook deel hebben aan het bloed-verbond.’ Het was een hele opluchting toen ik de speld in mijn vlees voelde gaan, en ik de zachtheid van de roos tegen mijn huid aanvoelde. Ik voelde me een plak vlees bij de slager.

26. ‘Nu kun je het dak opkomen,’ zeiden de vrouwen. ‘Nu kon je de tuin bezaaien en besproeien.’ De poort van mijn hersenen leek open te gaan, en de waas leek even te vertrekken. Ik wilde meer van zulke lichaams-spelden. Ik herinnerde de dorens, ik herinnerde hoe genadeloos diep ze gingen, totdat alles binnenin me brak, en ik begon te zweven. Ik was nu boven het dak, maar de huizen om ons heen waren veel groter. Ik kon de zolders inkijken en zag de vrouwen. Ze leken eenzaam, en ik was eenzaam. Ik was met een helm op geboren, maar die ontplofte nu. Ik zweefde bij iemand binnen. En hier zag ik bomen groeien door het hele huis. Ik was nog steeds in de tuin. Hier hingen zoveel gouden klokken aan de muur, die allemaal heerlijk tikten, zo licht, zo zacht, zo helder, ontwakende de diepste roerselen van mijn hersenen. Ze waren als een vuur in mijn lichaam. De mensen die hier woonden hadden allemaal dialogen. Het moest vooral ergens over gaan, maar ze kwamen er nergens mee. Ze leefden in een cirkeltje. Ik had ze al snel door. Toch was het allemaal

erg verrijkend voor mij. Jurkjes hingen er aan de muur, vruchtjes lagen op schaaltes, gezet op oventjes. 'Is dit de weg naar de stad?' vroeg ik.

27. - Welke stad. Oh, de overstad.

28. Ik knikte. 'Daar heb ik vaker over gehoord,' zeiden ze. Ze lieten me ladders van touw zien. Ik klom en klom, dit huis was lang, als een herenhuis wat maar niet ophield. Mensen leefden hier als vogels. Ik wist niet waar ik moest kijken. 'De parel van de tuin,' zeiden ze, 'is daar,' en dan wezen ze omhoog. De ladder was glibberig, en ik gleed weg. In spiegels zag ik mezelf klimmen. Ik had weer het gevoel dat ik van de daken gleed, alsof ik het huis niet kon binnengaan. Tante Connie legde haar hand op mijn hoofd. Haar hand was gloeiend heet, of was mijn hoofd gloeiend heet. 'Waarom?' vroeg ik. 'Waarom is er hier geen doorkomen aan?' Tante Connie zei niks, zweeg als het graf. Ook de twee vrouwen zeiden niets. Het was als een schijnbaar open weg die dood liep. Een zwakte maakte zich van mij meester, en ik was gelijmd aan de grond. Met wilde maar beheerste ogen keek de dochter van de graaf naar mij, alsof ze een wild paard probeerde te temmen, met de koele zelfverzekerdheid dat dat haar aardig lukte. Even stond de tijd stil, en was het alsof zij de muziek van het moment perfect kon berijden. Als ze zou vallen zou ze aan draden verbonden zijn, als aan elastiek, zodat ze niet in de vlammen van het hellemeer zou vallen. Ik snakte naar adem. Ik hoorde haar ogen roepen. Toen greep ze me vast. 'Ik laat je nooit meer los,' zei ze. 'Nooit meer.' Even dacht ik dat ik thuis gekomen was. Ik probeerde me zo lang te maken als zij zich waardig voelde. 'Wie ben jij eigenlijk?' vroeg ik.

29. De vrouw van het zolder liep terug naar de trap. In gedachten zweefde ik langs het huis, en de dochter van de graaf lag uitgestrekt op de daken. Wij konden dit huis niet binnenkomen. Wij waren in de tuin. Het zonlicht was aangenaam, en het was alsof we beiden smolten en naar beneden sijpelden, om in elkaar te versmelten? Waren wij de vruchten van deze tuin?

De Sleutel

30. Tante Connie legt gouden bestek op de tafel voor het feestmaal. Oom Joop komt aan tafel zitten. Ik zit naast de dochter van de graaf. Ze houdt mijn hand vast. Tante Connie brengt dan de pan met het avondeten, en met een grote lepel laat ze het ploffen op onze borden. 'Is zij van het zolder niet uitgenodigd?' vraag ik.

31. 'Ze heeft haar eigen,' zegt tante Connie. Ik heb het gevoel dat ik wat mis, en ga na een tijdje naar het zolder. Ik voel me op en top. Ze ligt op bed, en staart door het raam. Ik ga bij haar zitten. Haar ogen kijken dwars door me heen, alsof ze me niet ziet. Als ik naar buiten kijk, zie ik haar weerspiegelingen daar, alsof ze uitgestrekt is over de daken, en langs de muren, als begroeiing. 'Zoveel mensen kennen me niet,' zegt ze. Dan staat ze op en geeft mij een bord. Het schijnt hier ook etenstijd te zijn. Ze schept op. We staren elkaar de hele tijd aan, en als ik dan later naar buiten staar is het al donker, en haar weerspiegelingen zijn als de lichten in de nacht, als woeste paarden over de daken. Ik hoor tante Connie beneden roepen. Het is tijd voor de nacht, maar ik wil niet slapen. Ik houd de hand vast van de vrouw van het zolder. Mijn hoofd voelt als een stad met huizen, grote huizen, hoge huizen, lange huizen, met bomen er tussen, met plaats voor de tuin. Het is alsof de vrouw van het zolder op mijn hersenen danst, en het doet pijn, en ik word al snel moe. Pudding voert ze me. Grote lange draden voel ik door mijn lichaam gaan, totdat ik het gevoel heb dat ik kan zweven. Haar bed is ineens zo dik en ver weg, haar kamer twee keer groter. Nee, naar buiten wil ik niet meer. Ik ben hier buiten. Zij is mijn wereld. Ik heb een kinderlijk geloof in haar.

32. Tante Connie laat me de schoonheid van het huis zien, van alle plekken, en ja, ik moet haar gelijk geven. Ze heeft een plaats in mij, alle dingen in dit huis hebben een plaats in mij. Ik heb ze nodig. Ik ben er bijna ziekelijk afhankelijk aan. Het is mijn levenswarmte. Maar toch voelt het alsof ik heen en weer gesleurd word. Ik heb nergens grip op, ik glijd telkens weg, dieper. Dit is een doodlopende weg, een fuik, van vuur. Ik zie ze het glas heffen. Zij zijn als de vlammen in mijn hoofd. Ik durf niet naar ze te kijken, want dan ga ik dood. Het zijn de hoofden van de Medusa. De mensen die hier wonen zijn net zo steen als dit huis, en iedereen die naar hen kijkt verandert in steen. Zo is het leven. Is dit de sleutel weg uit de tuin, of is dit de sleutel tot de tuin.

33. In de nacht danst de vrouw van de zolder als een zwaan, als een brandende struik. Ik probeer me om te draaien, maar ik kan niet. Deze dans is dodelijk, of misschien wel leidende naar de poort van de hel. Ik sta verstijfd. De uitsteeksels en aanhangsels van haar jurk raken mij. Ik kijk naar haar door mijn glas wijn. De poort brandt. Ik probeer me ergens aan vast te klampen, maar zonder success, totdat ik de stem van tante Connie hoor. Ik kan niet terugroepen. Iemand knijpt mijn keel dicht, maar ik heb geen verlangen om terug te roepen. Ik ben als een boom geworteld in de grond. Ik heb het geheim van Medusa gezien : Alleen met de ogen van wijn kunnen wij haar bekijken. Ze gilt en schreeuwt nu ik het geheim heb ontdek. Ik gooi de wijn in haar gezicht, want ze wil me verscheuren. Dan staat ze in vlammen, en het gehele huis brandt. Ik moet hier weg. Maar de trappen zijn hier van vuur. Alles is van vuur. Ik besluit te blijven. Medusa schijnt aardiger dan ik dacht. Haar hoofden leven hier in een vreemde vrede. Roofdieren bespringen mij en verscheuren mij, en mijn hart is blij. Het is mijn vuur, het is omringd door mijn hart. Ik heb mijn weg hier doorheen gebeten. Een huis met standbeelden. Het is als een brandend strand, en een brandend oog leidt mij uit, om dieper in te gaan. De brandweerman houdt mij stevig vast. Zijn jas is glibberig. En dan brandt hij ook.

34. Tante Connie doet alsof er niets gebeurt is en staart mij aan. ‘Nog wat koffie, jongen ?’ vraagt ze. Ik zeg niks. Tante Connie schenkt nog wat voor me in. Wie zwijgt stemt toe. Mijn oude bed in de kamer van de dochter van de graaf is versleten, scheuren in de matras, en de piano is vals. Maar niet minder mooi dan de gouden spulletjes van tante Connie. Als tante Connie lacht heb ik het gevoel dat ze op de daken fietst. Ik keek naar de vrouw van de zolder. Waren we niet net als Adam en Eva die door de brandende heg probeerden terug te keren naar het paradijs ? En was dit paradijs een mengsel tussen huizen en blote benen ? Ik keek naar de dochter van de graaf. Ik probeerde een weg door haar heen te graven. Maar ze hield alles tegen. Tante Connie dient de pudding op. Ik kan de borsten zien van de vrouw van het zolder, door haar doorzichtige jurk heen, en ze heeft haar jurk ook wel flink open. Haar borsten druipen nog, als de moederlijke fontein, maar er zijn geen babies. Ik besluit niets te eten. Hier kan ik niet tegen, en het is dodelijk. Als ik naar de dochter van de graaf kijk, dan zie ik hetzelfde tafereel. Het is onbeschoft tegen tante Connie om pudding te laten druipen terwijl zij pudding opdient. Ik kan oom Joop goed begrijpen dat hij zo ver mogelijk van de tafel afzit, als een bibberend hondje. Maar plotseling is het alsof de stoppen bij mij doorslaan. Ik voel me een baby, een hond zelfs, die gevoed moet worden. Wat een drama. Tante Connie ziet het aan mijn gezicht en raakt in paniek. Zelfs oom Joop staat op. Iedereen zit verstijfd. Ik begin met grote happen van de pudding te eten, zodat al snel mijn hele gezicht eronder zit. Oom Joop lacht mij uit. Dit is de tuin van spot. Waarom zijn Adam en Eva hier teruggekeert. Ook de twee vrouwen lachen mij uit, terwijl ze hun jurken nog meer open trekken. En dan smeren ze de pudding over hun lichaam heen en gaan op de tafel liggen. ‘Ik heb al brood gehad,’ zegt oom Joop. Ik kan hier niet tegen. Zelfs een hond wordt beter behandeld. Ik word er erg stil van, en ga bij oom Joop zitten. ‘Je weet hoe vrouwen zijn,’ zegt oom Joop.

35. 'Dodelijk is het,' zeg ik. 'We hebben niet zomaar met een stel hoofden te maken. Het zijn de hoofden van Medusa.'
36. 'Kijk naar hen door het glas wijn,' zegt oom Joop. Tante Connie loopt naar de vrouwen toe, en giet wijn over hen heen. 'Wat een vertoning,' zeg ik. 'Dit is toch niet meer normaal.'
37. 'Ik dacht ook dat ik naar een ander feestje was gegaan,' zei oom Joop.
38. 'Kom op, nu weten we het wel,' zeg ik. 'Zo lopen we de fanfare niet. Moet je dat nou eens kijken, ze vervuilen die hele tafel.'
39. 'Nee hoor,' zegt de dochter van de graaf. 'Dit is de oerbron, de big bang.'
40. 'Als je je maar niet verroert,' schreeuwt tante Connie. 'We gaan hier geen polonaise in de kamer houden, al mijn spulletjes worden vies. Is er nog respect in dit land?'
41. 'Likken, bloedvriend,' zegt de vrouw van het zolder tegen haar wederhelft. 'Alsof je leven er vanaf hangt.'
42. 'Als jullie niet eten wat de pot schaft,' zegt tante Connie, 'dan sodemieteren jullie maar op.'
43. 'We vonden het eten heerlijk,' zei de vrouw van het zolder, 'maar we hebben onze eigen toetjes meegenomen.'
44. 'Contractbreuk,' zegt tante Connie. 'Dat hadden we niet afgesproken zo, en voor half geld komen jullie er echt niet langs. Ik voel me door jullie verschrikkelijk door de tang genomen, als je dat maar weet. Ik heb nog wat blokken hout nodig voor het tuinvuur.'
45. 'Ik dacht anders dat Adam wel tegen een grapje kon,' zei de vrouw van het zolder, 'maar mijnheer loopt daar in het hoekje te kniezen.'
46. 'Oh, toe maar, geef mij maar weer de schuld,' zei ik. 'Het is nu oorlog.' Ineens stormden de vrouwen op mij af, en peperden mij in met pudding, en trokken me op de tafel. 'Dit is nog eens een kersttoetje, een vijf-gangen toetje is aan ons welbesteed,' zei de vrouw van het zolder. Ik was woedend. 'Als ik ooit loskom, dan zul je wat beleven,' riep ik.
48. Het was alsof alle machines ineens stilstonden. We staarden elkaar allemaal aan, maar deden niets. 'Ode aan de kok,' zei de dochter van de graaf. Na een tijdje lagen we in het bad, en het was nog gezellig ook. Het was als een lange brandende dag aan het strand. Ik was moe, ik had mijn portie wel gehad. Het was een vreemde gewaarwording dat roosjes zo konden zijn. Ik zou vanaf nu veel meer op mijn hoede zijn. Dit mocht niet nog een keer gebeuren. Tante Connie zou het niet overleven. Er groeiden sinds die dag struiken op het behang, die ervoor zouden moeten zorgen dat deze dingen nooit meer zouden gebeuren. Tante Connie was het goed zat, en huurde bewakers in, die een oogje in het zeil zouden houden. Ook liet ze overal cameras planten. We voelden ons vanaf die dag in ons huis bekeken. Maar de volgende keer dat we aan tafel zaten schoten bij mij weer de stoppen door. Ik verlangde zo naar de oermoeder, dat ik boven op de vrouw van het zolder klom, de stoel brak, en we vielen beiden op de grond. Een wachter schoot een pijl door mijn hoofd, net op tijd, en ik werd aan de muur gespietst. 'Geef hem melk,' zei tante Connie rustig. 'Jullie moeten niet zo paniekerig doen.' Pudding droop uit de borst van de vrouw van het zolder. Ik kon me niet bewegen. 'Eerste hulp bij ongelukken,' zei tante Connie. 'Hij is dood, hij heeft een pijl dwars door z'n kop. Geef hem de melk des levens, stelletje koeien. Nou, waar wachten jullie op.'
49. 'Hij hangt te hoog, tante,' zeiden de vrouwen.

50. - Nou dan spuit je maar. Druk de knopjes maar goed in.

51. 'Nee, hij is dood. Hij heeft Medusa gezien, en wie van haar melk drinkt gaat naar de hel.'

52. - Ik ben niet gelovig, stop met die onzin.

53. 'God, zelfs als je de tepels van Medusa ziet ben je al overgeleverd aan de vlammen van de hel, en haar duistere hulpjes.'

54. - Ja, die ken ik, rijden die hier niet de hele tijd rond ? Medusa is al openlijk te kijk gezet, je hoeft het knopje van de tv maar aan te draaien.

55. 'Arme jongens.'

56. Ik kon naar de melk fluiten. De dames gingen ieder hun eigen kant op. Ik was in de tuin der wreedheden, ik was op sterven na de dood met die pijl in m'n kop. Oom Joop was behulpzaam en trok de pijl uit mijn hoofd. Maar dat deed nog veel meer pijn, dus ik drukte hem er weer in. Even later klopte ik bij de vrouwen aan de deur, maar ze deden niet open. Ik sliep die nacht bij tante Connie en oom Joop in de huiskamer. De dag erna zaten ze allemaal aan tafel alsof er niets was gebeurd. 'Zo, de meer dan dodelijke borsten van Medusa zijn ook weer van de partij,' zei ik. De vrouwen zeiden niets. Ze aten gulzig en verslikten zich een paar keer. Het ging zoals gewoonlijk weer nergens over. 'Leuk,' zei ik. 'We zitten hier aan tafel met vergif. Killers.'

57. 'Houd je mond,' zei tante Connie. 'Jij bent ook niet een van de braafsten.' Plotseling stonden de vrouwen als een vrouw op, als Medusa, en de muren om ons heen begonnen te branden. 'Zie,' riep tante Connie. 'Ik wist het. Medusa is gekomen om wraak te nemen. Ren voor je leven.' Oom Joop gooide een deken om ons heen, en trok ons naar zijn kant. Hij was de slimste geweest want sinds de dames hier aten zat hij bijna nooit meer aan tafel. Een golf van geweld sloeg ons neer. Maar oom Joop gedroeg zich als een duivel, en dat moest wel, anders had hij niks bij Medusa in de pap te brokkelen. Ik heb oom Joop nog nooit zo te keer zien gaan. Al snel stond Medusa buiten het raam. 'Ik wist wel dat die wijven een grote pot met vergif waren,' zei hij. Ik had nog nooit zo'n groot machts-spel gezien. Ik trilde als een hondje. Oom Joop was een held.

58. Omdat Medusa ons bleef bezoeken kregen we een ander huis in een andere straat. Er groeiden hier zogenaamde borsten-struiken die vruchten hadden als tepels waaruit een sap voortkwam wat bestand was tegen het borstgif van Medusa. We konden zelfs hierdoor Medusa genezen van haarzelf. De vloek was al snel verbroken. Er hoefde verder geen apocalypse aan te pas te komen. Onze vriendschappen werden hersteld, en al snel leefden we hier weer met elkaar. Alles was veilig nu. We hadden onze condomen-boom gevonden.

59. Een vrouw leefde tussen de verdiepingen in, een vrouw in mijn hoofd, onderdrukt door de hedendaagse maatschappij, een deel gesloten door de hersenen. Medusa was de oorlogsgodin, weggepest door een maatschappij van valse vrede. Een vreemde vrede bracht haar terug. Zij kende de tuin van spot ook. Ze had die zelf gemaakt. Ook kende ze de tuin van edelheden en wreedheden, op maat gesneden. Ze had zich een weg door die tuin gebaand, terug naar het paradijs. Ze ontmoette haar Adam in de lucht, en leidde ook hem terug. Door de brandende heg gingen zij, en helemaal opgebrand kwamen zij aan. Heel snel kwamen zij erachter dat zij een cirkeltje hadden gelopen. Zo slaan dan al snel de stoppen door, en vinden ze de liefde in zichzelf, die na korte tijd niets dan haat blijkt te zijn. Het is alles niet wat het lijkt. Ik kreeg een fatalistische, nihilistische kijk op het leven door deze dingen. We waren weer terug bij af. Heel wat dromen waren kapot gesprongen, en we begonnen ons oude huis te missen, maar daar woonde een nieuwe familie in.

60. Waar we dan ook naartoe gaan, het is altijd hetzelfde. Laten we daarom naarbinnen keren, en elkaar daar vinden, of hele andere personen die eindelijk onze dromen kunnen waarmaken, maar dit is slechts ijdelheid, illusie. We jagen lucht achterna, iedereen weet het, maar we blijven proberen. We blijven happen naar de koek die voor ons wordt gehangen. We zijn geconditioneerd, slaven, hondjes van Pavlov. Alles is hier misleiding op misleiding. Ik begon een pessimist te worden, zwaar somber. Ik wilde niemand valse hoop geven, niemand voorliegen. We liepen de leugen achterna omdat er geen waarheid was, of was de waarheid gewoon in een heel klein hoekje ergens, daar waar we het onmogelijk zouden kunnen vinden ? Maar alle dingen zijn toch mogelijk voor hen die geloven. En zo ging ik geloven. Niet in het kerkelijk geloof, maar in die vrouwen hier met hun gekke spelletjes. Misschien dat de grootste leugen ook diep in haar de waarheid droeg. Ik had kans, want ik had een pijl door mijn hoofd. Denken was fataal. Het moest van een andere kant komen. Maar ik merkte al snel dat die vrouwen een gesloten boek waren. Ik kwam er niet ver mee. En ik wilde toch ergens in geloven. Een grote trots was er, ergens diep binnenin. Iets wat mij over het ravijn kon laten zweven, iets wat ik niet kon beschrijven, een mystiek gevoel. Oom Joop zei altijd dat een boek ons erdoor zou helpen, maar hij wist niet welk boek. Een popperige papieren kermis leek het. Tante Connie had een pop in een schoenendoos verborgen, een pop waarin ze heilig geloofde dat deze ons allen redden zou. Vaak sta ik op het balkon en voel me tussen de huizen, tussen de bomen, tussen de rivieren, overal tussen.

61. Het is een wonder dat ik nog leef met die pijl door mijn hoofd. Op een dag voel ik me door het gevoel dat die pijl in mijn hoofd geeft zo in de wolken, zo extatisch, dat ik merk dat ik kan vliegen. Heel voorzichtig vlieg ik van het balkon, tussen de huizen door. Mensen vallen flauw achter de ramen. 'Bedrieger,' roept er iemand. Ik kan er niet mee zitten. Ook al zou het bedrog zijn, ik heb er een goede tijd mee. Ik vlieg naar de top van het hoogste huis in de buurt. Als ik naar beneden kijk is alles wit. Ook het hoge platte horizontale dak waarop ik sta. Ik ruik bosgeuren. Dan vlieg ik over de stad. Wat als ik dit alles zou kunnen ontsnappen. Ik besluit naar de volgende stad te vliegen, daar waar de fabrieks-wolken zijn. Ik houd van de rook. Ik hoop dat we er allemaal in verzuipen. Dat is beter dan wat we hadden. We hebben niets te verliezen. Maar dan roep ik mezelf tot orde. Er staan wat meiden voor een raam. Ze kijken verwonderd. Ik zwaai naar ze. Ze wenken me. Een van hen opent het raam, en ik vlieg naar binnen. 'Kijk, die kan vliegen,' zegt er een. 'Een truc,' zeg ik. 'Leer het me,' zegt een van de meiden. Ik vertel hen over de pijl in mijn kop. Ze giechelen een beetje. Al snel hangen ze aan me. 'Mag ik in jullie geloven,' vraag ik. 'Ik wil ergens in geloven.'

62. - Wij geloven in de dominee.

63. 'Okay, maar dat is niet wat. Kan ik in jullie geloven ?'

64. - Ik weet niet of ik daartoe bevoegd ben.

65. 'Ik geloof in je.'

66. - Wat moet ik nu doen ?

67. 'Vlieg met me mee.'

68. - Ja, maar ik kan niet vliegen. Waarom blijf je niet gewoon hier. We hebben het hier erg naar onze zin.

69. 'Okay.'

70. Ik bleef bij ze staan, en ze trokken me aan tafel. Ik moet zeggen ze waren een stuk netter dan de vrouwen die ik kende, de Medusa-vrouwen. Ze aten deftig, met mes en vork, geen geklieder. Ik staarde naar buiten, allemaal rook. Ik kon niet veel zien. Ze sliepen allemaal in de huiskamer op matrassen. Ik kreeg ook een matras. Ik sliep al snel. Ik merkte al snel dat ik in mezelf aan het bidden was tot hen. Ik was op zoek naar een geloof. De volgende dag namen ze mij mee naar de kerk. Ik moet zeggen dat het mij aardig beviel. De dominee was erg aardig. Hij had ook wel wijze dingen te zeggen, en liep voortdurend met zijn sleutels te rinkelen. Had hij misschien de sleutels om Medusa te openen ? Na de kerkdienst liep ik op hem af om het hem te vragen. Zonder nadenken nam hij een sleutel van zijn sleutelhanger af en gaf het aan mij. 'Probeer het maar uit,' zei hij. Maar eigenlijk wilde ik hier niet meer weg. Deze mensen waren geweldig. Weer ging ik met de meiden mee naar hun huis. Omdat ik heel veel aan Medusa dacht, ben ik even later toch teruggegaan naar mijn eigen stad en huis. Ik begon direkt aan de Medusa-vrouwen te sleutelen. En het werkte, tot mijn eigen verbazing. Voor het eerst had ik het gevoel dat ik met hen ergens kwam. Alsof we de boom des levens hadden bereikt. We dronken koffie op het resultaat. Ik wilde de dominee bedanken, en vloog terug naar de andere stad. De meiden waren blij me weer te zien, en samen gingen we naar het huis van de dominee. De dominee was net zijn huis aan het schilderen. Na het bedankje nam ik afscheid van de meiden, en ging weer terug naar mijn eigen huis. Ik had Medusa verlost uit haar kooi.

De Gespleten Aarde

71. De meiden hebben al snel ons huis gevonden, en de dominee ook. Ze waren met de dominee meegereden. De sleutel had namelijk een zendertje van binnen. Natuurlijk waren ze van harte welkom, maar de Medusa-vrouwen werden snel jaloers. Daar wist de dominee wel wat op, want die had veel meer sleutels. Wat me opviel was dat alles snel verstijfde. Alsof de sleutels veel openden, maar tegelijkertijd viel er ook zoveel dicht. We kregen het idee dat er een vloek op de sleutel lag. De dominee was niet overtuigd, want die geloofde heilig in zijn sleutels. Omdat hij zich steeds arroganter opstelde heeft tante Connie hem even later het huis uitgezet. Ik bewaarde de sleutels sindsdien. Die waren veel te gevaarlijk in de handen van een dominee. De meiden aanbaden inmiddels Medusa aan haar voeten. De dominee was woedend en noemde hen afgodendienaars. Ze waren niet meer welkom in zijn stad. Het bleek dat hij ook nog eens de burgemeester was. Medusa begon trouwens door deze aanbidding ook steeds meer te eisen. Haar voeten moesten gekust worden, anders zou ze alles vertrappen. Ik had allang spijt dat ik haar had verlost, maar het kwam allemaal door die sleutels. Op een gegeven moment was ik het zo zat dat ik de sleutels inslikte. Maar sindsdien ging het niet goed met mij. Ik begon zelf een Medusa te worden. Wie had dat ooit durven dromen dat ik ooit de god der wrake zou worden. Het liep uit op een gevecht met de andere Medusa om de macht. De Medusa begon een gevaarlijk mechanisme te worden. Voordat het nog erger zou worden besloot ik een volgende vliegtocht te beginnen. Ditmaal kwam ik in een andere stad met de hoogste gebouwen. Een oud vrouwtje deed haar raam open, en nodigde mij uit. Toen ik haar het verhaal over de sleutels vertelde scheen ze mij te kunnen helpen. Zij was namelijk een heks. Ik moest een bepaald kruidendrankje drinken, en dan zou ik de sleutels kunnen uitspuwen, en dan zou zij de sleutels omsmelten. Maar alles pakte anders uit. Het kruidendrankje werkte niet. Ik had de krachten van Medusa. Ik was immuun tegen hekserij. Ik moest onder ogen komen dat ik in een monster aan het veranderen was.

72. Ik strompelde naar de uitgang van deze tuin. Ik had het in zicht nu, en greep naar mijn buik. Ook al verdween de uitgang en de buitenste heg in het niets, en leek het alsof het verder van me af

begon te liggen, ik liep toch door. Ik greep om me heen als tastende in het donker. Ik greep het touw mij toegeworpen. Een vriendelijk vrouwengezicht keek me aan. Rozensappen dropen in een fles. Ik hoorde gegorgel en gezang. Bloedende tuinen, zover het oog reikt, vermengd met regen, waar het oog van Medusa over waakt. Het koren dat het goud omhoog haalt, het licht der sterren weerkatsende, haar vrucht wordt vastgehouden. Medusa waakt. Het houten huis kraakt onder het getal van de lelies. Hier heeft ze haar woning. Hier voedt zij haar raadsel, haar mysterie, waar prinses op paarden al eeuwen naar zoeken. Nee, zij zullen niet vinden, want Medusa waakt over haar geheim. Haar kroning was een bespotting. Haar lijden was een ontmaskering, maar niemand is ooit tot haar parel gekomen, niemand heeft ooit haar zwaard gedragen. Allen sterven zij door een blik op haar te slaan. Tot steen werden zij in alle eeuwigheden. Haar discipel is zoek, haar beker verloren. Zij heeft haarzelf nog nooit gezien. Zou zij het weten, dan zou zij sterven, daarom weet zij maar half. De rozenkrachten hier zijn vol met parels. De mensen hier weten dat Medusa een geheim heeft, alleen ze kennen het niet. Ze hebben er alleen een glimp van opgevangen, en die glimp heeft hen voor altijd verblind.

73. Ik zit op mijn houten paard, mijn hobbelpaard van vroeger, met mijn lange speer, mijn lans. 'Open de poort,' roep ik, maar alles zwijgt. Ik vlieg hoog, over de muur heen, maar hier is niks. De aarde is dus toch plat. Is dit het onverbiddelijke geheim van Medusa? Ik stort hier uit alles wat ik nog in mijn hoofd heb, alle puinhopen, alles gaargebraden, en kijk in de enorme diepte. Nee, het is een ravijn. De aarde is gespleten. Een groot werk moet dat geweest zijn, met de schaar des hemels. Daar aan de overkant weten de mensen niet dat ze niet weten. Ik vlieg weer terug, en omhels mijn Medusa, en mijn meiden. 'Ik ben aan de andere kant van de schaar geweest,' zei ik. 'Daar moeten we ook niet wezen. Vernietig alle spiegels. We staren wel in een glas wijn, met wijn van borstestruiken.' Ik strek mij uit. Ze zijn blij dat ik terug ben. Ik solliciteer bij de zeevaart. Ik waarschuw hen dat de aarde wel degelijk plat is, en dat verklaart ook waarom er zoveel schepen zijn gebleven. Ik word er kapitein. Als ik thuis ben speelt oom Joop vaak op het orgel. Maar ik ben niet veel thuis. Ik moet de zee afbakenen. Een hoge rand moet er gemaakt worden, waar niemand meer overheen kan tuimelen. Medusa is als een moeder die haar kinderen terugroept. Zij heeft de tuin gebouwd, en haar muren, en die moeten we eren, omdat het buiten veel erger is. Er is geen paradijs aan de andere kant van de heg, maar de heg spreekt tot de verbeelding. Ik zie nog meer paradijs in een pot pindakaas. Als ik thuis ben zijn de vrouwen blij, dan is het feest, maar een paradijs zal het nooit zijn, en hebben we dat wel nodig. We hebben toch elkaar.

74. Op een dag ga ik met de meiden voetballen op het pleintje. Via een tunnel komen we in een ander deel van de stad, in een winkelstraat. We slenteren door de straten. Ik neem hen mee naar de bakker, en koop wat special brood voor hen. Brood kan mij nooit te luxe zijn. Het is een levensnoodzaak. Bij de speelgoedwinkel wanen ze zich in het paradijs. Bij het tuinhok laten we alle zorgen achter ons. Voor de chocolade-winkel danst de vrouw van chocolade. Ze roept herinneringen bij me op, ze danst als een zwaan. We gaan de stoffige winkel binnen. Een grote notenkraker-eekhoorn staart ons aan. 'Ja,' zegt de winkelier, 'veel noten altijd in de chocolade, we hebben een verdrag met de noten-industrie. We kregen dit beeld van hen, toch aardig, vindt u niet.' Ik knikte. De meiden keken de man vriendelijk aan. We konden aan hem zien dat hij er blij van werd. 'Ik zal u vertellen, ik ben mijn vrouw verloren,' zei de winkelier. 'Ik mis haar echt, en er is nu een zee van ruimte boven, want ze had zoveel spullen en die zijn allemaal in haar graf meegegaan. Komt u maar even mee, dan laat ik het u zien.' Boven stond alles leeg. Ik staarde naar buiten, waar de chocoladevrouw nog steeds danste. Ze was een zwerfster, en werd zo altijd genoemd.

75. Grote poppen van chocolade stonden in kasten. De man deed er erg zakelijk over, en kraste wat op papieren. Even later stonden we weer op straat. Aan het eind van de straat was een fontein. We zagen tante Connie lopen met een zware tas. 'Tante Connie,' riep ik. Ze had koffie gekocht, in allerlei soorten. Samen liepen we naar huis. Ik hielp haar de tas te dragen, en de meiden hielden ook wat spullen vast. Medusa wachtte ons op.

10.

1. En Saakse en Luchtse vertelden Christus alles over de ladder naar de Eeuwige Weide. En Christus was duizelig en staarde hen aan, en vroeg : 'Maar wie kan dan behouden worden ?'

11.

De Moederboom

1. Ze was verdwaald in haar hart, en de moederboom had bezit van haar genomen, door haar heen werkende, als een oneindig licht, wat ze niet kon bevatten. Ze was een bloederige wond in mijn hart, maar tegelijkertijd was ze de ridder die mijn kasteel beschermde. Ik was opgesloten in dit kasteel, maar tegelijkertijd was dit kasteel mijn schuilplaats.

2. Ik kon niet tegen haar op, ze was te sterk. Ze had vele namen, en blies als de noorderwind. Ze was als de moederboom met de vele takken en de weelderige bladeren, maar gelukkig met bloesem. Zij bracht mij voort, en brak mij, om me weer op te nemen door de wind. Ik kon haar niet doorzien, maar soms in flitsen was alles duidelijk. Ik had geen grip op haar, en ze gleed onder me weg. Later was ze als de zon waar ik niet naar kon staren. Ze was ver weg, en ik werd koud, en bloedde dood. Het kon haar niet schelen. Ze had dit pad zelf gemaakt. Het was haar ijzeren wil.

3. Ze zond mij poppen met kerstmis, en het was altijd kerstmis, en het sneeuwde altijd. Ik was verward, kapot. Ik was upgejut tegen de vele illusies die zij had gecreeerd. Ze speelde een spel met mij. Ik begon weer te roken om het te kunnen verteren. In haar genade zond ze weer een ridder tot mij, een witte ridder, zwart van binnen. Ik bekeek haar aandachtig. Ze was als een sprookjesprinses, als een boom vol witte bloesem. Ik had een worsteling met deze elf voor vele dagen, maar als ik viel, viel ik in zachte kussens. Zachte kussens met gouden fluwelen koorden, waar ik niet teveel naar kon staren, anders zouden ze mij verblinden. Maar zij was goed voor mij. Ze verzorgde mij goed. Ze kon goed koken, alhoewel er altijd gifbessen in de buurt waren. Daar zou zij me wel tegen beschermen. Het was gewoon keuken-decoratie.

4. Ze wilde altijd gifbessen in de buurt hebben. Het leek haar te inspireren. Het bleek het geheim van de moederboom te zijn. Gifbessen gebruikte ze op haar pijlen. Het was zeer medicinaal. Ik bleef maar staren naar haar. 'Kun je ... kun je ...' Maar verder kwam ik niet. Ik stond in de keuken met haar, maar het was alsof er glas was tussen ons, ook verbaal. Ze keek me vragend aan. Er kwam bloed uit haar ogen. Ze strekte haar armen naar me uit, en smolt weg. Even later stond ze er weer.

5. Ik brak het ijs, want ik had een handschoen van brandend staal, vuurheet. Rook kwam uit mijn vuisten. Het glas begon te smelten, als vele gezichten. Het was als een deuk in een auto. Maar bereiken kon ik haar niet. Ze was in de rook. Plotseling brandde alles. Er was oorlog in de stad. Planten met gifbessen schoten op om de stad te bedekken. En in het midden van de stad groeide de moederboom.

6. Ik was bezitterig en verdwaald. Ik stopte mijn huis vol met hebbedingetjes. Ze keek me aan met ogen van een hyena. Ik gromde. Buiten regende het, en er was olie in de plassen. Ik begeerde haar

te kennen. Zij was mijn innerlijke wond. Het was een vruchtbare plaats, als de tuin rondom mijn huis in mijn gedachten. Die tuin was roze, sprankelend. Ze stond daar als de ridder, met boeken vol gedichten. Ik werd er hebbertig van. Ik kon mijn gedachten niet keren. 'Lees eruit voor,' zei ik. Maar ze zei niets. De wond was te waterig om iets te zeggen. Alles wat ik greep sijpelde weg. De ridder draaide langzaam rond als een ballerina, verspreidende lichte, zachte muziek, als op de achtergrond. Het was niet eens goed hoorbaar, maar ik leek er rustig van te worden. Het greep mijn hart, en liet mij een gat in de tuin zien, waar zoete vruchten uit voortkwamen. Ik begon te eten. Waterige gestalten waren hier, die zeiden : 'Sophia ...'

7. 'Wie is Sophia ?' vroeg ik.

8. 'Zij is een religieuze ballerina die altijd in dezelfde cirkeltjes draait,' zeiden ze. 'Zij moet gedood worden, anders kom je nooit verder.'

9. 'Houdt ze mij tegen ?' vroeg ik.

10. 'Ja,' zeiden ze. 'Ze leeft in je. Ze vreet alles in je weg. Het is een religieus monster. Je moet haar overwinnen.'

11. 'Hoe ?' vroeg ik.

12. 'Verbrand je goden,' zeiden ze.

13. Ze lieten mij een waterige vlam zien. 'Neem het aan,' zeiden ze.

14. Ik pakte het aan en begon te branden, en er was gekrijs in mij. 'Alles wordt nat nu,' zeiden ze.

15. 'Daar gaan mijn hebbedingetjes,' zei ik. Ik stond op een kale berg nu, heel zanderig. De berg leek gemaakt van touw. Ik voelde me gebonden. 'Religie ... strijd ertegen,' zeiden ze. 'Religie is drama en kortzichtigheid, een band om je hoofd.' Ik gleed in een warm meertje, tussen het brandende zand.

16. 'Religie was gemaakt om mensen tot slaven te maken,' zeiden ze. 'Je kunt natuurlijk naar de diepte van zo'n religie gaan, om het te neutraliseren, en het een andere betekenis te geven, maar daarna moet je de religie verbreken en verslaan. Je moet tot de hogere ringen van het leven komen, en uiteindelijk de gouden ring, de ring van de moederboom.'

17. Ik voelde me als een slaaf worden, met een begeerte die gouden ring te vinden, om zo vrij te zijn ? Ik voelde mijn banden in het licht van dit meer. De waterige gestalten namen mij dieper in het meertje, waar alles veel heter was. Toen kwam ik in een riviertje dat naar een zee leidde achter de berg. De zee was vol met bomen met giftige bessen, en er waren overal haaien met miljoenen tanden. Het waren de poorten van de hel. 'Eet niet van de bessen,' zeiden de waterige gestalten, 'en wij zullen je beschermen tegen de haaien.' Ze vormden een cirkel rondom me, die uiteindelijk uitgroeide tot een bol. Ze leidden mij door de zee naar de overkant. Hier waren ook giftige bessen, maar die moest ik gebruiken voor mijn pijlen. Ik moest een jager worden.

18. Er was hier een stad in oorlog. Ik moest naalden bevestigen aan mijn pijlen, tezamen met de giftige bessen. En ik moest die pijlen door open ramen schieten. Het was een religieuze stad. Ook woonden hier filosofen. Door het midden van de stad groeide de moederboom. Ik was hogerop hier. Ik raakte de boom aan en stond in brand. Toen werd alles nat. Ik klom hoger, en kwam in een woestijn-wereld. Er waren tekenars hier en filosofen. Zij probeerden hun ringen te verkopen, maar ik was zoek naar de gouden ring van de moederboom. Er was een speciale taal in de gouden ring

gegraveerd, zeiden ze, bepaalde tekens. Ineens had ik de gouden ring in mijn hand, en ik steeg op, naar een wereld vol van bomen en struiken met giftige bessen. Er waren ook planten met giftige bessen, en heggen. Ertussen waren allerlei huisjes en flatgebouwen. Hier woonden verhalenvertellers die hun ringen probeerden aan te praten. Maar ik was doof. De gouden ring had me verdoofd. Ik liep op een trap naar boven en zag een bruisend licht. Er werden hier generationele bloedlijnen bewaakt door kikkers. Een ieder die deze bloedlijnen zou aanraken, zou in connectie komen te staan met de moederboom, en zij zou in die persoon opspringen. De magische bloedlijnen waren de trots van een kikkerkoning. Ik schoot de kikkers neer met mijn pijlen en raakte de fontein van bloedlijnen aan, en werd direct naar achteren geslagen. Ik begon kikkers uit te braken, en de waterige gestalten zeiden dat die kikkers de goden van de godenboom waren. Ik moest elke god achter mij laten. Een rijkere natuur ontvouwde zich voor mij. Ik was nu een deel van de familie. Het wemelde hier voor mijn ogen, als een zwerm vliegen of andere vliegende soorten insecten. Zij schenen zich niet om een god te bekommeren. Zij werden voortgestuwd door de familie, door de moederboom.

19. Er werd een bord voor mij op tafel gezet, en ik moest veel eten, maar ik raakte maar niet vol. Ik werd steeds hongeriger. Ik at van de honger, van het holle en het niets. Er werd nog een bord voor mij op tafel gezet, en weer moest ik eten. Ditmaal werd ik echt hebberig. Ik begeerde meer van de bloedlijn, als een gulzige gierigheid. Ik werd door de boom omhoog getrokken, en gehesen op een schip. Daarna werd ik in een zee van gifbessen geworpen. Ik wilde de religie overwinnen, de sluier verscheuren. Ik zwom naar de kust, waar zeemeerminnen zaten op rotsen. Zij waren erg filosofisch. Ze zeiden : 'Drink niet van het gif, maar zie het als dode kunst.' Ik rende het bos in, en joeg op bizons, met de gifbessen op mijn pijlen. Alle spoken van religie vielen neer, en ik maakte er tenten van. Het verloor zijn betekenis geheel. Niemand wist meer wat het was. Ook alle zwijnen waren vastgehaakt aan palen.

20. Niemand kon mij nog stoppen, geen haas en geen konijn. Ik was de jager. Ik had geen zin om in een ander wonderland verstrikt te raken. Ik smeerde mij in met de gifbessen. De geur was sterk. Ik bedekte mijzelf met zwijnnenvel. Zij was mijn innerlijke wond, gek geworden, woest geworden, maar zij beschermde mij ook. Zij ontdeed haarzelf van kleding, en smeerde haarzelf ook in met gifbessen. Zij was het geheim van de moederboom. Zij leefde diep binnenin. Haar vellen lagen op de grond. Zij had een speer in haar hand, en zou de tent bewaken. Ik was opgesloten in deze tent, maar deze tent was ook mijn schuilplaats. Zij had mij het geheim laten zien.

21. Ik kwam in mijn oude huis toen ik uit dit schilderij was gestapt. En het leek in de verste verten niet meer op wat het was. Het schilderij was nu een portret van een oudere man met een middeleeuwse haardos. Zijn ogen staarden mij aan. Vroeger was dit een schilderij van de bizonjacht. Eens stapte ik er in, en kwam in de klem van religie, omdat het schilderij mij gehypnotiseerd had. Maar ik kwam er ook weer uit. Wie was deze man ? En wie had het geschilderd ? De bizonjacht was een beroemd schilderij, maar dit schilderij kende ik niet. Het leek een beetje op een Amerikaanse president. Op de schilderijen ernaast waren wat landschappen, maar geen van allen hypnotiseerden mij zoals de bizonjacht deed. Ik besloot naar een ander schilderij van de bizonjacht op zoek te gaan. Ik vond er één, en hing het naast de man met de middeleeuwse haardos. Ik stapte in mijn bed en ging slapen. Ik droomde over de moederboom, en over de bizonjacht. De moederboom leek op twee indiaanse vrouwen tegenover elkaar. De indianen geloofden in voorouders, jachttrofeeën en zielen van de vijand. Zij geloofden dat wat zij hadden verslagen, zij op hun eigen manier konden gebruiken.

22. Ik werd wakker en ging naar de bibliotheek. Ik las boeken over indianen en raakte gehypnotiseerd. Ik stapte in het boek, of werd erin gezogen, en gleed weg. Schilderijen van de bizonjacht vlogen om mij heen. Ik ging een stenen trap op, waar ik haar zag staan, mijn innerlijke wond, met een mes en een speer. Ook had zij een boog met pijlen. Ze leidde mij naar een wigwam. Ze drukte mij naar binnen. Alles begon te draaien. Ik had geen kracht meer om op te staan. Ik was opgesloten in het boek. Ik nam het boek mee naar huis, en weer begon alles te draaien. Het was een betoverend boek.

23. Ik vond het boek gevaarlijk, en bracht het terug, maar ik kon mijn weg er niet meer uitvinden. Pas na vele jaren vond ik een uitgang uit deze kerk. Ik begon te waarschuwen tegen het boek, en het liep uit op een oorlog. In het midden van de stad, tussen de vlammen, groeide de moederboom. Ik ging binnen in de moederboom. Ik ging aan een tafel zitten, tegenover een waarzegster. Maar vlammen kwamen uit haar mond. Ik rende weg. Ik pakte de lift naar boven, maar ze kwam achter mij aan. Ze had een heel leger van waarzegsters met zich. Ik kwam aan bij een pot met gifbessen, en begon gewoon te drinken, te drinken zoals ik nooit had gedronken. Niemand kon me nog de wet voorschrijven. Ik brandde. Ik gilde. Ik moest gewoon overal doorheen. Haaien met miljoenen tanden slokten mij op.

24. Ik doorzag haar. Ik werd kalm. Ze rookte een sigaret. Ze probeerde me te wurgen, maar ik gooide haar van mij af. Ze zat hoog op een paard ineens. Maar werd toen weggerukt door een storm. De moederboom nam mij op, en ik braakte gifbessen.

De Nieuwe Romeinen

1.

1. Maria was gekruisigd in de hof van Lodorro, aan de blauwe boom. Ze riep Eva, moeder van de levenden. De wonderen komen van deze boom. Haar bloed geneest en leidt naar de schatten van de hemel. Een kroon van rozen was op haar hoofd gezet en ze was genoemd : 'Moeder van de Koning'. En ze verrees uit de doden na vier dagen.
2. Ze had Beelzebul onttroond, de bewaker van de schat. De hof van Lodorro zal bloesemen voor altijd in onze harten.
3. Het zal leiden tot de hof van Roggio, waar het mythische kind Echte speelt. In de bloemenhof Ezechiël werd Maria verzocht. Hier zorgden de engelen voor haar, en bereidden haar voor op de kruisiging in de hof van Lodorro.
4. Nog steeds zingt haar kruis, zoete liederen van Salomo. Nog steeds toont haar kruis, zoete schatten van Eden. In de hof van Lading werd ze geoordeeld door de Romeinen.

2.

1. Zoete Maria, godin van de tijden. Aan uw voeten buigen alle goden neer. U gaf ons gebeden om te overleven. U leerde ons hoe te bidden. Moeder Maria, Maagd van de tijden. Niemand zal u kwaad doen. De engel Sarsia is over u.
2. Het is volbracht. Moeder Maria, schat in mijn hart, zoetheid van mijn jaren. De vijand zal branden in de nacht, en uw schreeuw zal gehoord worden, en zal de boeken van honing openen. Er zijn geschenken aan uw kruis, en uw wonderen zullen voor eeuwig leven in de harten van hen die u volgen.

3, Maria, wonder van de lampen, uw hart is met ons. We zijn binnengekomen door uw tranen. Metensia Eminijs. Tara van de Roos, Uw tepelen voeden ons met liefde en drop, voedsel van het kruis. Tara van het bos, in Rhodes is uw tempel, het mystery van liefde. Uw tempel is brandende, en we komen dichterbij uw kruis. De oogst van de blauwe boom. De mysterieën van Moeder Maria aan het kruis zijn de fijnste mysterieën, opgespaard voor de laatste dagen. In de hof van Lodorro hebt u gewandeld.

4. Iemand anders droeg uw kruis, een discipel van u. Lamdich. Hij stierf met u. Oh mysterie zo zoet. Op de tafel is brood met rozen. En de boeken van honing zullen openen, spoedig. Heeft u de roos gehoord ? Zij spreekt van u. Zij roept uw naam in de hof.

5. Mysterie nu onthuld. Maria met de lammeren, die de duif vrijzet.

6. Zij was opgewekt door de duif en de ekster. Zij voer ten hemel door een heilige zwaan. Mysterie geopenbaard. De hemelvaart van Maria werpt licht op haar geboorte. Zij werd geboren in een wit huis met rozen. Mysterie zo zoet. Metensia Eminijs.

3.

1. Haar beker voedt de heiligen. Zij is het mysterie van alle mysterieën. Alle moeders buigen voor haar. En Babylon zal vallen aan haar voeten.
2. Ze zal een nieuwe hemel creëren, en een nieuwe lucht, en alle goden zal zij herscheppen. Ze zal hen leiden in haar boot, naar de nacht waarin alle vijanden vallen.
3. Geprezen zij Maria, de Eeuwige. Zij heeft zonen voortgebracht, en zelfs meer dochters, om de aarde te vullen. Zij herschept de hemel en de lucht. Metensia, kom spoedig.

4.

1. Een mysterie geopenbaard. Haar borsten tussen de honing. Om de boeken te openen en om laatste openbaringen te geven. Zij herbergt de sleutel. De mysterieën zijn nu geopenbaard. Zij wekte de doden op en genas de blinden. De lammen konden lopen toen ze haar in zicht hadden. Het mysterie is geopenbaard. In de hof van liefde was ze begraven. En ze verrees na vier dagen. En een licht viel op haar discipelen. En de engel Sarsia sloeg twee Romeinse soldaten. In de hof van Aethon werd ze opgenomen door de hemelse zwaan, en voer ten hemel.
2. In de hof van Aethon had ze het laatste avondmaal met haar discipelen, in een wit huis. En in haar leven deed ze veel wonderen, en ze bezocht de homo-sexuelen om ze te zegenen, en om te zeggen : gezegend zijn de homo-sexuelen, want voor zulken is het koninkrijk des hemels. En ze deed vele wonderen onder hen, en zorgde voor hen als haar kinderen.. En ze gaf hen haar geest. En ze at met hen en vertelde hen verhalen. En sinds die dag de religieuze orde had het plan om haar van het leven te beroven.
3. Ook omdat ze de mensen leerde dat de rijken het koninkrijk niet zouden beerven, en dat de Heere tegen hen is die in luxe leven. Ze onderwees de mensen om geen tienden te geven, maar om aan de armen te geven, en om te geven door Haar Geest. En ze onderwees om de religieuze orde te ontmaskeren. Daarom wilden ze haar ombrengen.
4. En er was een homo-sexueel genaamd Zorok, die haar wilde ombrengen. Maar ze bevrijdde hem van duizend en vierhonderd demonische geesten. En Maria leerde hen veel over exorcisme. En toen de romeinen en de religieuze orde haar hadden gevangen genomen, gaven ze haar een paarse mantel om haar te bespotten, en ze gaven haar een gouden beker met edelstenen, waarin de urine van romeinen was. En ze moest het opdrinken voordat ze gekruisigd werd. En romeinse soldaten speelden met dobbelstenen om te beslissen wie haar paarse mantel zou krijgen en haar gouden beker met edelstenen.

5. En zij verspreidden de leugen dat ze een hele rijke vrouw was. En het moment dat ze stierf braken de hemelen open, en het begon te regenen. En er was donder, en de zon verduisterde. En mensen stonden op uit hun graven.

5.

1. Ze was begraven in een rijk graf, in een rijke doodskist in de hof van liefde. Ook om haar te bespotten.
2. En de romeinen en de religieuze orde bekeerden zich niet van hun zonden. En alleen zeven discipelen werden toegelaten in haar graf. Dezen waren degenen die het dichtste bij haar hart waren. En ze weenden. En ze was in haar doodskist met een prachtige kroon op haar hoofd. Maar de romeinen hadden het op haar gedaan om haar te bespotten. En de muren waren geheel bedekt met de kostbaarste edelstenen.
3. Maria is de incarnatie van de heilige geest.
4. Moeder Maria betaalde voor onze zonden, en stierf voor ons. Ze maakte de weg naar de hemel vrij voor ons. Iedereen die haar volgt zal gereinigd worden door haar bloed. Wij zijn dichterbij de ark van haar verbond gekomen.
5. Haar wetten zijn om eeuwig leven te geven.
6. Zij is de brug tussen ons en god.
7. Zij is de verzoening, Haar getuigenis is getrouw en waarachtig.
8. Zij zit op een wit paard in de hemel, om spoedig geopenbaard te worden.
9. Zij is de Messias.
10. Oh zoete redder en messias, spoedig geopenbaard wordende. Wij komen tot de altaren in uw tempel. Wij brengen al onze lasten tot u, en de lasten van anderen. Genees ons. Er is nu een brug tussen hemel en hel. Er is nu een brug tussen demonen en engelen. Er is nu een oogst. God is Genadevol. En ik zag hen die gered waren uit de vuren van de hel, komende tot haar, en zij vielen aan haar voeten. En zij bevrijdde hen. En zij profeteerde over hen, en gaf hen een nieuw leven.

De Nieuwe Exodus

1. En op een gans ging zij tot de onderwereld, na de kruisiging, en een raaf bracht haar door de duisternissen van de hel.
2. En zij was de rover van alle rovers, om krijgsgevangenen vrij te zetten, en om licht te werpen op haar geboorte en incarnatie.
3. Ja, de Geest is zij, en zij is Eva, moeder van alle levenden. En zij zal wederkeren tot de aarde om haar bruid en bruidegom te oordelen.
4. En lammeren zullen haar volgen tot eeuwige velden. En zij zal alle tranen van hun ogen wissen.
5. Haar wachters zullen komen om haar dienstknechten te bevrijden in de hof van Lodorro.
6. Zij is Maria, God geopenbaard en geïncarneerd.
7. Ja, enige tijd is zij onder de man gesteld, maar nu heeft zij gezegevierd. Zij heeft het eeuwig evangelie vervuld en is het hart van het eeuwig evangelie.
8. Vrees dan uw moeder, opdat gij wijs worde, niet met een wijsheid van de wereld, maar veeleer met de dwaasheid Gods.
9. Ziet dan, uw moeder, oh gij discipel die Christus heeft gevolgd.

10. Leidde Hij u dan niet naar haar ? Volgt Hem dan tot haar baarmoeder.
11. En wordt wederomgeboren in Haar, zoals Hij.
12. Ziet dan, uw moeder, die velen hebben bespuwd. Haar toorn zal dan tot de aarde komen, en zij zal haar woord vervullen.
13. Wijkt dan af van het voorspoeds-evangelie wat ten verderve leidt.
14. Maar keer weder tot uw moeder.
15. Zij is de vervulling van Christus, en de volle waarheid.
16. Ziet dan, het voorspoeds-evangelie is vervloekt. Ik heb hen niet gezonden, spreekt Maria, uw moeder. Zij zijn gekomen, al die valse leraren en valse profeten, om met een omleiding van woorden u van het ware evangelie af te leiden. Zie, ik zal hen waarlijk slaan.
17. Ik zal hun harten verduisteren en verharden.
18. Zij zijn onder het oordeel.
19. Ik gaf hen deze misleiding, opdat zij mijn tempelen niet verder zouden vervuilen.
20. Ik heb hen overgegeven in de handen van hoeren, en ik heb hen rijk gemaakt, opdat zij niet tot de schatten van Mijn Geest zouden komen. Spoedig zal Ik hen verstenen.
21. Gij die dan homo-sexuelen probeert tegen te houden aan de poorten des hemels : vervloekt zijt gij. God ziet niet het geslacht of het ras aan, maar zijn oog is zuiver. En alle harten zijn ontbloot voor hem.
22. Daarom waarschuw Ik u, oh materialisten en religieuze racisten, die lasten opzadelen aan het volk : Keer weder tot uw moeder, opdat de vader u niet zal verslinden. Zie, hij is een roofgierige wolf.
23. Uw moeder is dan gesluiert en zij sluiert een ieder, en oordeelt rechtvaardig. Verkoopt dan de geest niet, opdat gij zelf niet verkocht zal worden. Als u mij verkoopt, en mij tot een hoer maakt, dan hebt gij uzelf verkocht aan Mammon tot een eeuwig oordeel.
24. Materialisten, hen die in luxe verkeren, en hen die homofoben zijn, zullen het koninkrijk niet be-erven. Het is beter dat er een molensteen om hun nek wordt gehangen, en dat ze in zee worden geworpen opdat zij de kinderen niet meer zullen misleiden.
25. Het oordeel over hen is welaangemeten. Uw geld vare met u ten verderve, opdat u het spotten wordt afgeleerd.
26. Wie heeft u misleid ? Hoe denkt gij de geest te kunnen kopen met geld ? Gij zult branden met uw geld.
27. Ja, een vuur is zij, geld, uitgezonden om de heiligen te misleiden. Bid dan dat gij aan haar zult ontkomen. Zij heeft vele folteraars.

De Nieuwe Psalmen

1. Aan het raamkozijn staat u. Rozen in uw haren. Moeder, u bent thuisgekomen. Moeder Metensia, Moeder Maria, u hebt ons niet in de steek gelaten.
2. U zond uw hyena's om ons te vinden. U zond uw jachtboot en uw jachtwagen. U bent de nieuwe zon die opkomt, een stralend licht, een glimlach en een zoen.
3. Uw kussen vliegen naar het schip, zij nemen alles in.
4. Zij bewaken de jachtkamer en de schatkamer. Niemand komt erin. Alleen zij die uw kus dragen.
5. Moeder Maria, Moeder Metensia, wij komen tot Sarsia. Vanuit uw dood groeide de boom, bedekkende alle huizen. Vanuit uw bloed kwam de bloesem, een nieuwe wereld. Demonen sidderen in uw naam.
6. Moeder Maria, Moeder Metensia, wij komen tot Sarsia. Moeder Maria, Moeder Maria, u bent Moeder Eva.

7. Wij komen tot de nieuwe stad, waar uw zon komt over de heiligen. De armen weten waar u bent. Zij zien u op elke berg. U bent overal voor hen. Gezegend zijn de armen, gezegend zijn zij, door u gekend.
8. Moeder Maria, u kocht ons vrij. En veel meer psalmen zijn er te vinden in Uw Woord, het Eeuwig Evangelie. U hebt hen allen hersteld in de Rode Steen.
9. Alle psalmen zijn gesluiert, want zij zijn uw schatten. En uw engelen waken over hen, als wachters aan de poorten en de deuren. Ja, als lichten zijn zij voor uw volk, waardoor u spreekt. Zij zijn uw heilige literatuur.
10. Weest vernieuwd, oh Psalm, hopende dat uw licht opgaat, om harten te verwarmen. De wereld was zo koud, maar zij is opgestaan. Hebt gij het nieuws gehoord. De Geest heeft het gedaan.
11. Ere aan de Heil'ge Geest die riep haar Naam, en stelde haar boven alle moeders, boven alle vaderen, boven alle goden, het geheimenis geopenbaard.
12. Kom tot de berg, al gij prinsen, ken haar Stem, volg haar weg. Tot aan haar voeten gaan wij. Zij vertreed en vertrapt de vijand. Zij sidderen in haar naam. Moeder Maria, het pad is vrij, het Eeuwig Evangelie geopenbaard, en haar sleutelen. De grootste is Zij.
13. En twee vrouwen gekleed in paars kondigden de geboorte van Maria aan bij haar moeder.
14. En toen zij vertrokken, begon het te regenen. En zie, de regen was paars.
15. En met de geboorte van Maria kwamen zij terug, en verzorgden haar tot haar tiende jaar.
16. En Maria was vaak in de wildernis, met leeuwen, wolven en andere roofdieren.
17. Maar toen zij zestien jaar oud was geworden, verloor zij contact met de wildernis.
18. En zij werd in het huis gehouden om te werken. En zij moest zwaar werk verrichten in de kelders.
19. En in die jaren werd zij veel door mannen misbruikt en verkracht, en bad zij stil tot God.
20. En een man genaamd Jozef bevrijdde haar uiteindelijk uit haar slavernij. En hij bracht haar tot een schuilplaats. In deze dagen kwamen de twee in paars geklede vrouwen terug om haar te verzorgen.

Het Indiaanse Boek van de Openingen

1. De reiziger ontvangt een vlag, en heeft daarmee toegang tot de nachtboot. Aan weerszijden van de reiziger staan flessen. Er valt een slang om de nek van de reiziger, de Kabrat, die hem zal beschermen tijdens de reis. Op een hogere verdieping staan zeventig heiligen, en op een verdieping daarboven staan twaalf indiaanse opperhoofden. In de boot zit een baviaan, Nebren, die verslag zal doen van de reis. Hij heeft een stift en een steen in zijn handen. Eerst zakt de boot in een massa van vuur. Van weerszijden wordt de reiziger met pijlen beschoten. Ook staan er vuurspuwende slangen. Een pelikaan op het schip beeldt de goddelijke intelligentie uit, en zal de wachters van de openingen aanspreken. Pres, is de naam van de pelikaan. Horit is de naam van de bever die het goddelijke woord uitbeeldt, de magie en de uitspraak. De Kabrat, de heilige slang, beschermt de boot. Eerst komen ze door een gang die Melenges heet. Hier staan wachters die vurige pijlen afschieten. Ook staan er vurige slangen. De nachtboot vaart over een rode schatkist heen, en dieper ligt een tapijt op de grond. Dan komen ze bij een deur waar Wekjem staat, een hond. Deze wachter wordt aangesproken door Pres. Dan vindt de reiziger doorgang. Dit gedeelte heet Savingses. Hier wordt de nachtboot ingeslikt door Nirben, om een reis door haar te maken, de godin van de nacht en de wildernis. In haar zal de reiziger tot wedergeboorte komen. De testikels van de reiziger worden hier doorboort. Hier hoort de reiziger het schreeuwen van Nirben, en gaat door het uur van de angst. Hier leert de reiziger troost te brengen aan haar. Dan gaat de nachtboot door een gang genaamd Dral waar een modderrivier is. De boot raakt hier vast, maar direkt begint Pres de wachter aan te spreken, en ze vinden doorgang naar het volgende gedeelte. De wachter is een zwarte gestalte met de naam Lepres, hij die verblindt. Nu zijn ze in Timmidat, een grote hal. Hier worden de doden geoordeeld. Mashamen is de meter. Hij meet de doden op. Als ze niet voldoen aan de juiste opmetingen worden ze in de Adit geworpen, de vuurkaken. En sommigen worden gegeten door slangen. Lavesgieres is de slang van de klok, die de indiaanse meisjes van de uren bewaakt, ook wel de maagden van de uren genoemd, die als vlammen zijn. Zij leven daar van het vuil der aarde. Lavesgieres brengt telkens mensenkoppen voort die op zijn rug groeien, die door de maagden van de uren worden verslonden. Als de nachtboot hierlangs komt worden de maagden vrijgezet, om de nachtboot verder te leiden. Wel blijven ze nog in het water. De reiziger zal de maagden een voor een moeten overwinnen. Dan komt de reiziger in een gang die als een grot is. Aan weerszijden staan vuurspuwende slangen en wachters die met vurige pijlen schieten. De gang eindigt bij een deur waar een hond staat, de Tiomot. Pres spreekt de wachter aan. Ook Horit spreekt de wachter aan. Dan wordt de deur geopend.

2. De reiziger komt nu in een ruimte genaamd Vismil. Hier heeft hij een worsteling met de eerste maagd, die uit het water komt en in de boot glijdt en daar in een slang veranderd. Als de reiziger

haar overwonnen heeft verandert hij zelf ook in een slang. Aan weerszijden van de reiziger zijn altaren. De eerste uurmaagd neemt een van die altaren en zet het op de boot, en zal voortaan in het altaar wonen. De reis is door het lichaam van Nirben om tot wedergeboorte te komen. Dan komen ze tot een gang genaamd het halssnoer van Nirben. Hier worden de vijanden van Nirben gemarteld, de gevangenen van de nacht en de wildernis. Een verdieping hoger staan zeventig heiligen, en weer een verdieping hoger staan twaalf indiaanse opperhoofden. De vijanden van Nirben hangen op de kop, en worden blootgesteld aan vuurvlammen. Ook krijgen ze kokend water te drinken, en worden hun ogen uitgestoken. Op de verdieping van de zeventig heiligen staat een grote ketel waar ze in terecht komen. Op de verdieping van de twaalf indianen staat een tafel met schalen waar het vlees en brood van de gemartelden op terecht komt.

3. Pres spreekt de wachter aan van de volgende hal. Deze wachter is een lange slang met veren en beenderen die uit hem groeien als een ruggegraat. Hij wordt genoemd de ratelaar, omdat hij zo ratelt als hij beweegt. Dan krijgt de nachtboot doorgang. In deze hal lopen maagden met de schalen rond, om die te brengen aan de goden. Dit gebeurt aan weerszijden. Het is de hal van de grote maaltijd. Op sommige schalen liggen hoofden, op anderen testikels, harten, fallussen of botten. Alles wordt gegeten. Hier komt de tweede uurmaagd uit het water waar de reiziger een worsteling mee heeft. Eerst verandert zij in een slang, maar later in een spin. Zij doorboort de fallus van de reiziger. Wanneer de reiziger haar heeft overwonnen verandert hij zelf ook in een spin. Dan neemt de tweede uurmaagd drie maagden met schalen en bindt hen aan de boot vast.

4. Dan komen ze tot een lange gang die de borsten van Nirben heet. Aan weerszijden staan hongerigen, armen, zieken en mismaakten. Ook staan er vuurspuwende slangen. Ditmaal gaat de boot over een blauwe schatkist en weer is er dieper een tapijt op de grond. Weer spreekt Pres de wachter aan. Wijde deuren openen zich, en de nachtboot staat vlak voor een afgrond van vuur. Dit is de grootste hal tot nu toe. Aan de overkant staan grote vogels. Pres spreekt de vogels aan, en die komen direkt om de boot over de afgrond te dragen. Deze hal heet de tepels van Nirben. Maar nu moet de reiziger strijden tegen tien uurmaagden tegelijk die allemaal in de boot glijden. Eerst veranderen ze in spinnen, dan in slangen, en dan in vliegen. Zij eten van het vlees van de reiziger. Als de reiziger hen heeft overwonnen komt hij tot de hogere verdieping, waar zeventig heiligen zijn. De gang achter de hal is de gang van vuur waar de nachtboot in ten onder gaat. De reiziger is nu een van de heiligen geworden. Achterin deze gang staat een nieuwe nachtboot, gedragen door vogels.

5. Pres spreekt de wachter aan, en dan komt de reiziger in een nieuwe nachtboot in een hal genaamd de ruggegraat van Nirben. Hier wordt de reiziger gevoed door vogels. Maar aan weerszijden van de hal is een overvloed aan voedsel, waar dikke mannen staan. Op een hogere verdieping staan zeventig heiligen en weer een verdieping hoger staan twaalf indiaanse opperhoofden. Dan komt de reiziger in een gang die het heupsieraad van Nirben heet. Hier zijn weer dikke mannen aan weerszijden, maar hier worden ze door slangen gegeten. Pres spreekt de wachter aan, en dan komt de reiziger in een hal genaamd de bilspleet van Nirben. Hier zijn een heleboel vogels waar de reiziger strijd tegen moet voeren. Zij pikken zijn organen uit hem. Ook pikken zij zijn fallus en zijn testikels van hem weg. Als de reiziger de vogels heeft overwonnen verandert hij in een vlieg. Dan

vliegt de reiziger naar de verdieping waar de twaalf indiaanse opperhoofden zijn. Zij trekken zijn vleugels uit hem, en dan is hij een van hen. Zij brengen hem naar een trap waardoor hij op een nog hogere verdieping terecht komt, genaamd de benen van Nirben. Hier heeft de reiziger een strijd te voeren tegen de tien tenen van Nirben. Zij veranderen in vrouwen, daarna in slangen, en brengen hem in een wurggreep. Als hij hen heeft overwonnen komt hij tot een verhoging waarop in een ketel zich de nektepel van Nirben zich bevindt waaruit zoete wijn en melk stroomt. Dan zijn de wezens van de nachtboot weer bij hem, die de wachter van de volgende deur aanspreken. De deur opent zich en komt in de hal die de tenen van Nirben heet. Dit is het einde van de reis. Weer wordt de reiziger hier door Nirben ingeslikt en de reis begint opnieuw.

Het Indiaanse Boek van de Geheime Kamer

1. De reiziger doorloopt een lange gang, ontvangt een vlag waarmee hij toegang krijgt tot de nachtboot. Hier zit Pelen, een kikker, die de wachters zal aanspreken. Ook zit er een beer, Oben, met een boog en pijlen, die de boot zal beschermen. Meslen is de slang die de boot omhult, en die vuur kan spuwen, ook om de reiziger en de boot te beschermen. Dimen is een indiaans opperhoofd met tussen zijn veren een kleine doodskop. Hij zorgt voor voedsel voor de reiziger. De aap Mathan zit op de voorkant van de boot. Zijn functie is onduidelijk, maar hij gebruikt magie. De boot wordt ingeslikt door de oerslang. De boot gaat langs tafels waaraan gegeten worden. Aan weerszijden van de tafels hangen lange gestalten aan hun ogen, sommigen aan hun tong, anderen aan hun testikels, weer anderen aan hun fallus. Ook hangen sommigen aan hun oren. De lichaamsdelen waarmee ze gezondigd hebben worden gestraft. De tafels staan vol met noten en vruchten. Dan komt de nachtboot in een ruimte waar krokodillen zwemmen die de reiziger moet overwinnen. De reiziger krijgt hiervoor een zwaard en een mes. Weer komt de reiziger langs tafels met dezelfde taferelen. Dan moet hij een deur door genaamd de Huro. De wachter is een vrouw die heel lang kan worden. Pelen de kikker spreekt de wachter aan. Dan komen ze in een ruimte van vuur, genaamd de Heo. In de ruimte van vuur zwemmen vrouwen die de boot aanvallen. Weer heeft de reiziger een strijd te voeren. De reiziger wordt vastgebonden, en de mede-reizigers worden overboord gegooid. Dan wordt de reiziger aan het einde van de ruimte van vuur opgehangen aan een touw, terwijl de nachtboot zonder hem verder gaat. De medereizigers zwemmen naar hem toe, maken een toren en redden hem. Dan zwemmen ze naar de nachtboot toe, maar de vrouwen duwen hen telkens met hun voeten weg. Dan keert Meslen de slang uiteindelijk de boot om, en zo overwinnen ze uiteindelijk de vrouwen. Dan komen ze in een ruimte van ijs waar orka's zwemmen. De orka's beschermen verder de boot. Weer komen ze in een ruimte van vuur, waar vrouwen zwemmen. Ditmaal kunnen ze niks doen.

2. Dan gaat de boot langs een heleboel fonteinen en gordijnen, en uiteindelijk langs woestijnen en velden. Aan het einde van die velden is een woest meer waar nog grotere orka's zwemmen om een klok heen. In de klok zitten de uurmaagden opgesloten. De reiziger krijgt een pijl en boog om de

klok open te schieten. De uurmaagden krijgen toegang op de boot, om verder de boot te beschermen. Dan komen ze in een meer waar woeste walvissen zwemmen, maar die doen hen niks. Dimen, het indiaanse opperhoofd vult wat lege flessen met het water. Wanneer de reiziger het drinkt wordt hij dronken. Ook de uurmaagden drinken ervan en worden dronken. Zo erg dat ze verscheurende beesten worden.

3. Dan komen ze aan bij een nauwe sloot met een grote buis. Hier worden de doden gevoed. De boot gaat door de buis, en komt in een zee van vuur, waar de doden zwemmen. De doden doen hen niks. Dimen en de reiziger voeden de doden. Ook hijsen ze enkelen van hen aan boord. De aap, Mathan, wijst hen aan. Ook zwemmen hier dolfijnen. Het vuur begint hier te stijgen en de boot komt op een hogere verdieping terecht waar een vrouw thee maakt in een ketel. Het is een kruidensap. De vrouw kan erg lang worden, en kan ook in een leeuwin veranderen. De kikker, Pelen, spreekt deze wachter aan. De vrouw grijpt de reiziger en werpt hem in de ketel. Daarna grijpt ze ook de anderen, maar ze werpt hen terug in de vuurzee. De reiziger zinkt in de ketel, en komt in een buis terecht die zo diep gaat dat hij terecht komt in een diep gat waar dode kinderen schreeuwen en gillen. De reiziger troost hen, helpt hen, en samen bouwen ze een toren om weer uit de ketel te kunnen komen. Doordat ze allemaal aan elkaar zitten kunnen ze ook een ladder vormen om de mede-reizigers van de nachtboot uit de vuurzee te halen. Dan komt er een krokodil vanuit de ketel die de vrouw grijpt en haar in de diepte trekt. De krokodil is vanaf dat moment een mede-reiziger en helpt om de boot te beschermen.

4. Dan komen ze in een zaal waar de doden geoordeeld worden. De krokodil verslindt de vijanden. Dan gaat er weer een deur open, waar weer een klok is, en waar weer uurmaagden opgesloten zitten. De reiziger schiet met zijn pijl en boog de klok open. Hier ontdoet de oerslang zich van haar huid, en verandert in een vrouw. De nachtboot is inmiddels bij haar billen terecht gekomen. De billen hebben tepels die vuur spuwen. De boot moet door de bilspleet waar de wanden ook vuurspuwende tepels hebben. De boot komt vast te zitten en wordt door de aars ingeslikt. Dan komt de boot in de zaal van de benen waar overal grote benen en grote voeten uit de wanden schieten en rondlopen om de boot onder druk te zetten en te pletten. Hier wordt de reiziger heel lang. Ook door meerdere aarsen en darmen wordt de reiziger naar beneden gezogen, en komt zo in een ruimte waar alleen maar grote voeten zijn. Hier wordt de reiziger verder onder druk gezet, geplet en uitgerekt, totdat hij net zo groot is als de oerslang die een vrouw is geworden. Dit laatste is een seksuele ontmoeting, waarin de vrouw de reiziger weer verslindt en de reis opnieuw begint.

Het Indiaanse Boek van de Nacht

1. De reiziger krijgt een vlag waarmee hij toegang krijgt tot de nachtboot, in de vorm van een haai. De oerhaai slikt de nachtboot in, en dan begint de reis. Eerst komt de nachtboot in een zaal van een vuurzee, waar ook vuur uit de muren komt. Het is een reusachtige zaal, waar enkele vogels rondvliegen. Zij komen naar de boot en dragen de boot naar de overkant van de zaal. Een grote

zwarte staande hondenwachter staat voor een reusachtig lange deur. Een van de vogels spreekt de wachter aan, en de boot gaat door de deur heen. Achter hen wordt de deur gesloten. Weer wordt de boot door een reusachtige haai ingeslikt, en de boot komt in een woeste zee. Een grote hand grijpt dan de nachtboot uit het water, en brengt het op een hogere verdieping. Hier staan tafels met schalen. Hier wordt de reiziger door vogels gevoed. Dan gaat de nachtboot verder, en wordt weer door een reusachtige haai ingeslikt. Dan wordt de boot door grote voeten geplet en uitgerekt. De boot is niet meer als een haai, maar als een krokodil. Deze krokodil spreekt de volgende wachter aan. Dan komt de boot in een enorme zaal. Hier staan overal tafels met voedsel. Weer krijgt de reiziger te eten. Dan komen er weer grote voeten die ditmaal ook de reiziger zelf pletten en uitrekken. De reiziger wordt heel lang. Aan het einde van de zaal wordt de reiziger opgehangen. Maar de vogels redden hem en maken hem los. Ze brengen hem naar een verdieping hoger waar een nachtboot staat in de vorm van een ooievaar en een reiger. Deze vogel spreekt de volgende wachter aan. Weer wordt het schip ingeslikt door een reusachtige haai. Nu verandert de reiziger zelf in een haai. Overal liggen stukken vlees die de reiziger moet eten. Maar van die stukken vlees wordt hij ziek, en hij verandert in een wolf.

2. De reiziger gaat nu visioenen zien en hallucineren. Ook hoort hij stemmen, en is het alsof er aan hem getrokken wordt. Hij wordt in de diepte getrokken als over een lange trap naar beneden, de trap des doods. Hier wonen de schaduwen, en hij wordt met gejuich ontvangen. Ze kronen hem tot koning, en hij krijgt een troon. Maar weer komen de grote voeten die hem pletten en nog verder uitrekken. Nu is hij zelf ook een schaduw. De reiziger wordt weer door een reusachtige haai verslonden, en ditmaal ontmoet hij een schaduw net zo lang als hem, een vrouw. De vrouw probeert hem te bereiken, maar er is een glazen muur tussen hen. Ze wil hem met geschenken overladen, en rent heen en weer, maar de geschenken blijven voor de glazen muur liggen. Ondertussen wordt de reiziger door meerdere haaien verslonden, en komt langzaam in de greep van een lange slang die hem steeds dieper in een wurggreep krijgt, zodat de reiziger steeds minder adem kan halen. Maar dan komt de vrouw met een sleutel, en bevrijdt de reiziger. De geschenken zijn voedsel. Als hij dit voedsel eet begint hij weer te hallucineren en visioenen te zien. Weer is het alsof er aan hem getrokken wordt en hij hoort stemmen. De vrouw spreekt de volgende wachter aan en ze komen in een paradijs. Op de grond liggen stukken vlees die de reiziger moet eten. Het is het vlees van de verslagen vijanden. Als hij het vlees niet eet komen ze weer tot leven.

3. De reiziger eet het vlees, maar een slang valt hem aan. De reiziger moet sterk worden van het vlees om de slang te kunnen verslaan. Weer komt de reiziger in de nachtboot en verlaat het eiland. Er zwemmen overal haaien, maar ze doen hem niks. We zwemmen er overal slangen die hem aanvallen. Maar vogels komen hem te hulp, pikken de slangen dood, en dragen de boot de lucht in naar een hogere verdieping. Hier zijn een heleboel krokodillen. De krokodillen vallen hem aan, maar de vogels beschermen hem. Dan komen er panthers die hem aanvallen, maar weer beschermen de vogels hem. Maar dan worden de vogels geplet door grote voeten, en dan wordt ook de reiziger met zijn boot geplet en nog meer uitgerekt. De nachtboot is nu een lange zwaardvis, en de reiziger is nu zo lang dat hij de oerhaai kan verslaan. Hij grijpt de zwaardvis en slacht daarmee de haai. Nu komt de reiziger tot de staart waar grote voeten hem weer pletten en uitrekken. Hij is nu zo lang dat de oerhaai zijn nachtboot is geworden. De reiziger trekt de nachtboot naar boven over een glibberige trap. Vogels komen hem te hulp en spreken de wachter aan. Dan gaat de deur open, en de

reiziger staart weer in de reusachtige bek van de oerhaai. Dit is het einde van de reis, waarin de oerhaai de reiziger weer inslikt en de reis opnieuw begint.

De Indiaanse Hondenreis

1. De reiziger gaat door de open mond van de hond. De reiziger komt in een boot terecht. De boot gaat langs ketels heen waar de veroordeelden in branden. De boot gaat over gouden golven. Gouden boogschutters komen uit de golven om de reiziger te beschieten, en dalen dan weer af in de golven. Dan gaat de boot over golven van rood goud, en weer komen boogschutters omhoog om te schieten en dalen weer af. Dan gaat de boot langs een kade met ketels waarin de veroordeelden branden. Uit de ketel loopt heet water wat naast de boot in het water terecht komt. Dan gaat de boot langs vier standbeelden van gouden katten.

2. Dan gaat de boot door een gouden deur, en komt in een ruimte waarin gouden kikkers staan die vuur spuwen. De reiziger moet bukken. Dan gaat de boot door een roodgouden deur, waarachter gouden krokodillen zwemmen die in de boot klimmen. De boot zinkt, maar de reiziger moet blijven zitten. De boot gaat over zwarte golven heen, de diepte in, waar een zaal is vol met goudzwarte standbeelden van honden. Uit de standbeelden druip koud water.

3. De reiziger krijgt een gouden boog met pijlen waarmee hij een grote zwartgouden hondenwachter moet verslaan.

4. Dan gaat er een deur open waarachter maagden dansen. Zij werpen met messen, en de reiziger moet bukken. Dan komt de reiziger in een zaal van vuur waar een klok hangt. Hier zitten de uurmaagden opgesloten. Wanneer de reiziger onder hen doorgaat komen ze vrij, en eten de reiziger. Dat is het einde van de reis waarin de reiziger tot wedergeboorte komt, en dan begint de reis weer opnieuw.

Mitlas

1.

1. Genade zij u en vrede, totdat de Heere wederkomt. Zalig zijn zij die deze woorden bewaren tot in eeuwigheid. Berg dan Zijn Woord in uw hart, opdat gij tegen Hem niet zondige. Waar droogheid heeft toegeslagen zal het schuim des Heeren binnenkomen. Zij wiens harten niet zijn afgeweken zullen tot de Heilige Orde des Heeren behoren. Al het mogelijke is gedaan om u een zalige plaats te bereiden. In de Heere dan is alles zalig. Amen. Tumbiach, Umiach.

2. Laten zij die alles weten tot de jongeren gaan om hen in te lichten. Zo zullen zij die volmaakt zijn ook de onvolkommenen tot zaligheid brengen. Gij zult hiervoor tijd vrijmaken, en uw wapenen neerleggen, op de dag die de Heere voor u zal aanwijzen. Dit dan is een grote dag. Amen.

3. Laten zij die nog niet alles weten naarstig de geschriften der engelen onderzoeken. Zij die nog niet alles weten zullen zo hun harten volmaken. Bestudeert de Wet der engelen dan nauwkeurig, opdat gij u doel niet misse. Gij zult de talen der aarde niet spreken, maar de taal der engelen. Gij zult de talen van onder de aarde niet spreken, maar de taal der engelen. Gij zult de taal van boven de aarde niet spreken, maar de taal der engelen. Zo zult gij heilig zijn en in stralen uw harten behoeden. Uw stralen zullen voor u uitgaan om uw komst voor te bereiden. Ook zullen uw stralen achter u aankomen om na uw heengaan uw tweede komst voor te bereiden, en uw heengaan waardig af te sluiten.

4. Gij draagt de angsten des Heeren in uw hart als honing. Weet gij dan niet dat armoe uw hart aan de Heere bindt ? Zo zult gij het evangelie van armoe in de hemelen en onder de hemelen verkondigen. Laten uw wapenen dan de wapenen der armoe zijn, omdat gij voor haar strijdt. De Heere zal uw stappen leiden.

2.

1. Niets zal dan zoveel autoriteit vestigen als een goed verhaal, en daarom zult gij de verhalen der engelen moeten kennen. Misleid de misleiders en spreek Waarheid tot hen die Waarheid spreken, opdat gij uw paarden niet verliest, die de Heere met zorg in u geschapen heeft. Gij dan kent allen de geheimenissen der tranen, en gij kent de schatten en sieraden van armoe, met hun weelderige geuren. De Heere heeft uw neuzen gevoeliger gemaakt dan de neuzen van hen die op de aarde en onder de aarde wonen.

2. Spreekt tot elkaar in de talen der engelen, en beroer de talen der aarde niet. Gij zult naar hen niet kijken, noch hen aanraken, daar dit een gebod des Heeren is. De Heere heeft u de neustepel gegeven, en gij voert een geheel andere strijd. Gij draagt ook een hele andere geur. De Heere heeft u gegeven van de honing der hemelen. Gij zijt dan allen vliegen des Heeren. En gij doet er dan ook goed aan deze gave aan te kweken want geen van hen die op de aarde of onder de aarde zijn hebben aan deze zaligheden deel gekregen. Weest dan allen als waardige insecten voor de Heere, opdat Hij u ook zal laten deelhebben aan de oogsten der insecten.

3. Leert dan van de talen der honing en die der vliegen. Want zij zijn overvloedig in de talen der armoe. Spreekt dan onder elkaar in de talen van angst, want dit zijn de talen der engelen. Spreekt dan onder elkaar in de talen van depressie, want dit zijn de talen der armoe, en de talen der engelen. Zo zult gij de talen der aarde, en de talen onder de aarde niet aanraken. De lange traditie der engelen zal u bekend zijn, en gij zult streven naar hogere vormen. Wanneer dan rook tot de aarde komt, zult ook gij tot de aarde gaan, maar gij zult uw harten in heiligheid bewaren.

3.

1. De ordes der armoe zullen aan uw harten verzegeld zijn, ook gij commanders. Zo zult gij in reinheid en zuiverheid werken, en uw bouwwerken plaatsen, want de Heere is een bouwer. De ijverigste onder allen is de armoe, en zij is als de ijverigheid der insecten. Zij die haar vinden zullen haar vinden als een kostbare parel. Haar schoonheid leidt velen tot de boom van het bloed, waar het bloed der engelen is.

2. De armoe wekt u op, iedere dag, en de armoe zendt u uit, en neemt u tot haar. De gebondenheid is een hoge vorm van armoe die uw gebeden met kracht uitzendt en ophaalt. Ook schenkt zij u dromen. Ziet dan, alle dromen der engelen komen voort uit armoe. De armoe zendt haar woorden krachtig uit, en haalt ze krachtig weer terug.

3. De schoonheid der armoe is wat de engelen vreugde brengt. Haar weelderigheid brengt hen wijsheid. Haar sieraden zijn vol van de kennis des Heeren. De jonge engelen zijn als wilde honden en wilde katten. Brengt hen dan tot de boom van bloed, om haar geheimenissen te leren kennen. Vanuit die boom worden zij tot boven de aarde gezonden, en door die boom worden zij teruggeroepen. Ik heb u geleid tot de boom der beenderen, zegt de Heere, daar waar de beenderen der engelen zijn. Daar heb ik u belegd met vlees.

Raakslik

1.

1. Zij die de kracht der armoe kennen hebben kracht voor de eindtijd. Alle gij engelen weet dat. Zo zult gij nieuwe kracht opdoen bij de boom van bloed, dat het bloed der engelen draagt. Zo zult gij ook uw verstand reinigen dat besmet geraakt is in de strijd. En zij die wonden hebben gaan tot de boom der beenderen dat de beenderen der engelen draagt. Daar zult gij uw wonden zien worden tot littekenen en tepels. Zij die de gevoeligheden des Heeren dragen hebben grote vrede. Zij dan zijn kanalen van de machtige melk des Heeren. Laat de Heere u dan opwekken in uw macht.

2. Zij van de Maraten hebben grote macht, daar zij de armoe tot leven hebben gewekt. Ja, zij hebben haar vertroost, en zij hebben haar machtige genezing geschonken. Zij zijn tot haar bomen gekomen waar zij de gave van macht ontvingen. Zij zijn haar tot een geschenk. Haar dienaars zijn zij. Wonderbaarlijk trouw zijn zij, en wonderbaarlijk is hun macht. Zij dragen de talen der aarde tot de oven waarin zij gezuiverd worden. De Heere wil u aansporen en bemoedigen om de gaven der engelen te leren kennen en aan te wakkeren. Gij dan draagt allen een heilige gave in u. Zo heeft de Heere u de gave en gaven gegeven om datgene te doen wat Hem behaagt. En zij allen werken voor de armoe. Haar gaven en weelderigheden zijn overvloedig om het goede te doen. Draagt dan haar klederen en wapenrustingen, opdat gij uw allerheiligste zielen zult vervolmaken.

2.

1. Oh, gij zifters en dragers der gebeden, stelt u dan op voor het aangezicht des Heeren opdat Hij ook u zuivere. De Heere heeft dan uwe monden opgesteld als een heilige oven en een altaar. De Heere zal uw gedachten behoeden, gij die de gedachten der engelen hebt. Al gij engelen, draagt de helm des Heeren, gij die strijdt en gij die de wegen des Heeren en Zijn heilige muren bouwt. Zij die tot Hem naderen en tot de heilige rustoorden des Heeren : Legt uw helmen af. Weet wel dat dit het gebod des Heeren is.

2. De Heere Zelf zal u ten tijde tot helm zijn, en ziet, deze helm is gevleugeld.

Het Boek der Engelen

Pilaap

1.

1. Aanhef : Aan Sadiadjel, Engel des Heeren, aan Tusioeël, Engel des Heeren, en Kopran, afgevaardigde der engelen, om de allerheiligste boodschappen tot hen die onder de aarde en hen die boven de aarde zijn te brengen. Williel dan, blaast de bazuinen, u en de uwen, gij die zijt aangesteld over zeventig legioenen.

2. Tweede Aanhef : Van Sandriel aan de gemeenten der engelen, zij die Gode prijzen op hun legersteden. Van Saaftiel, broeder van Sandriel. Opdat de engelen spreken van de woorden die zij gehoord hebben, tot de zeventig districten boven en onder de aarde, onder aanvoering van de engel Gammiel. De Heere zij geprezen. Tumdiach, Umiach.
3. Gij dan vrienden, en engelenvrienden, gij zijt genaderd tot de steden der engelen. Legt dan uw wapenen af, en komt tot rust, al gij die boodschappen hebt gezonden tot de onderste districten der aarde. Vrede zij u, en genade. Gij hebt gestreden, en gij zijt verwond door de vorsten der aarde. Brengt dan uw wonden hier, opdat gij genezing ontvange. Ja, de Heere zal u den angel uitrukken, en de doorn der engelen geenszins laten staan. De Heere dan zal de doorn doorsteken, opdat het zijn kracht verlieze, en opdat gij tot de bovenste engelensteden kunt gaan, oh gij brengers van boodschappen tot de onderste districten der aarde. Ik dan stel Tamaus aan uw zijde, de engel der genezing, opdat gij klaarheid en helderheid ontvange. Ik leid u op de goede weg.
4. Oh, engel van genade, gij die genade hebt gebracht tot de onderste steden onder de aarde, genade zij u en vrede. Uw genade worde u vermenigvuldigd.
5. Derde Aanhef : Zij die uit de verdrukkingen komen, ziet, gij zijt geeerd. De Heere zal u de witte klederen aanreiken, en deze klederen zijn zacht als dons, en schuimend als het schuim der zee. Gij dan zijt genaderd tot de zeeën der engelen. Leg dan uw oude klederen af. De Heere zal u Tuzi'el aanstellen om over uw zielen te waken, en om uw geest te verkwikken.
6. Weest dan vederlicht in uw voetstap, en maakt uzelf los van de aarde vanwaar gij komt. Gij zijt genaderd tot het heiligste der engelen, en tot God die heilig is. Zo zal er dan onder u geen enkele zijn die zich heeft vervuild met de schatten der aarde. Gij hebt uw schatten hier. Keert dan niet om, maar kom nader, oh schone engelen, opdat gij de klederen des heils ontvange. Gij dan met helmen : Legt deze af, opdat het vuur des Heeren u zal zuiveren in uw allerheiligste verstand en geweten.
7. Raziel en Tamael, gij die klaarstaat aan de poort des Heeren om engelen uit de strijd binnen te laten : Schenk hen boodschappen tot eer van uw Heere. Geeft hen lavende dranken, en geeft hen uit het allerheiligste des Heeren. Vervult uw taken dan goed, want Hij die komt, kome spoedig. Laat dan Hiarschi en Samalip de poorten van heil openen voor zulke strijders die zich waardig hun taak hebben gedragen. Oh, heilbrengers, schept dan uit de kolken van heil, en zuivert uw zwaarden. Legt uw zwaarden af, gij die zwaarden draagt, en komt tot de Heere, tot Zijn Aangezicht bedekt onder sluiers. Gij zult heil scheppen uit het heilbrengende Spaakse, en gij zult uw harten zuiveren en spreken tot de Allerhoogste in geheimenissen. Spreek dan ook in geheimenissen tot elkaar, in de tongen der engelen, opdat het u welga.
8. De Heere dan zij u zevenvoudig genadig, gij die op heilige grond staat. Gij dan zijt waardig de gedachten der engelen te dragen, gij die de gedachten van hen op de aarde en onder de aarde niet draagt. En gij weet allen wel, dat hij die de gedachten der engelen draagt door de Heere gezegend wordt. Hij dan zal vruchtdragen tot in het tiende geslacht van hen die hij dient.
9. Gij dan zijt genaderd tot de boom des levens. Neemt en eet allen daarvan, opdat uw verstand en geweten heilig staat voor de Heere. Ik heb u tot onder de aarde gezonden, en ik heb u teruggebracht, om u op te stellen voor de Heere. Gaat nu in tot uw rust. Bemoedig elkander met deze woorden, en vuurt elkaar aan.

Hektesiel, waar zijn uw engelen ? Gij dan die voor het aangezicht des Heeren stond zijt gevallen. Maar de Heere zal u wederom ophalen. De Heere zal zijn lichten op u laten nederdalen, want gij zijt diep in de put des satans gedaald. Hoe is het in u opgekomen de Heere ontrouw te zijn ? Gij echter zult gezuiverd worden door het vuur der engelen, en gij zult voor de Heere moeten verschijnen, opdat gij zult beslissen waar uw plaats is. De Heere zal naar u luisteren, en niet al te zwaar oordelen, daar gij hard hebt gewerkt voor de Heere, ja, zelfs nu. Gij bent velen tot voorbeeld geweest, en hoewel gij de dieptes des satans hebt leren kennen, hebt gij aan hem uw hart niet gegeven. Uw hart behoort nog steeds de Heere toe. Daarom, Hektesiel, weest niet bedroefd, want de Heere en ik hebben de nachten gezien waarin gij tot de Heere riep en u niet antwoorde. De Heere heeft gezien dat gij sprak als een kind om te worden als een kind, en de Heere heeft Zijn vleugelen op u gelegd. Daarom, vrees niet, maar laat de Heere u van uw ontrouw genezen. Niet voor eeuwig toornt de Heere, en de Heere heeft zijn dienstknechten lief.

3.

1. De Heere is u op uw vlucht tegemoet gekomen. De Heere heeft de tegenstander terzijde gedrukt, en voor u een pad gemaakt door de wildernis. De Heere heeft de duisternis van u weggenomen, waarin gij werd gevormd. Nu zal de Heere tot u komen, om uw boodschap te veranderen, want gij zult klaarheid en helderheid hebben nu. Gij hoeft niet meer in het duister te tasten. De Heere zal u antwoord geven.

2. De Heere heeft u antwoord gegeven, gij, de broeder der engelen, gij die tot de bovenste engelensteden zijt gekomen. Gaat dan binnen, en leg uw vleugelen ten ruste. De Heere heeft u de levendmakende drank der engelen gegeven, gij die van het onderste der aarde komt. Tussen de wateren heeft Hij u reine melk gegeven.

3. Nu is dan de Heere voor u uitgegaan. Hij dan drage uw hart naar binnen, en drage het tot een plek waar gij overvloedige vrede kent. Zo zal hij dan ook uw ziel binnendragen en al wat daarbinnen is, en Hij zal uw ziel verzadigen met het goede des lands.

4. Gelooft dan in de Heere, Hij die uw harten tot het binnenste heeft gedragen. Vertrouwt op Hem die uw zielen heeft gekneed voor Zijn Aangezicht. Zou Hij niet trouw zijn aan wat Hij geschapen heeft ? De Heere dan kent eeuwig trouw. Zalig zijn zij die hun harten niet voor Hem hoeven te bedekken. Zij stralen tot in eeuwigheid. Ja, zij zijn gekomen tot de eeuwigheden der engelen, waar zij van het zoete der engelen drinken. Hun namen zijn geheiligd, en zij staan op voor heilige tronen, waar de Heer Zijn veer op heeft gezet. Zij dan zullen staan voor vele veren, hen die oordelen, en zij die getrouw zijn zullen deze veren dragen. Zo zoekt de Heere dan hen die getrouw zijn, want de rest is reeds verloren.

5. De Heere dan heeft uw harten gedragen, de harten der engelen, en ziet, Hij heeft deze harten gewogen en beoordeelt door Zijn veren. Ja, langs vele veren gingen zij, om door de sluiers der steden binnen te gaan. En hij spelde boodschappen op uw zielen, en gij droeg deze boodschappen in hun zwaartes, opdat gij niet kon strijden, en daardoor lang in gevangenschap zat. Maar de boodschap heeft een uitweg gevonden. De boodschap heeft overwonnen, en heeft uw zielen vrijgezet. Nu staat gij dan om de Heere te aanbidden. Nu staat gij dan om de Heere lof te zingen. De Heere heeft trouw bewezen aan u, en heeft uw vijanden verslagen. Zo zult gij komen tot Taziel en Meliniel, zij die de heilige boekrollen dragen. Gij zult hen inzien, en gij zult in uw harten verzadigd raken en gelaafd worden.

Bashram

1. Verheft uw harten tot de Heere, gij die zijt aangekomen. Trouw hebt gij Hem bewezen, en Hij heeft trouw aan u bewezen. Komt dan nader opdat gij uzelf baadt in de poel van schoonheid. De Heere heeft uw zachtheid voor Hem gezien, en heeft u veelvuldig zachtheid geschonken. Zo doet ook de Heere trouw aan uw beminden. Rust dan in Hem, gij die aan Zijn poorten klopt, want met genade zult gij binnengaan tot de poelen van Looftē. Ja, tot Laafte zult gij gaan, om haar sieraden te dragen. Zij dan zal u dopen in haar poel van schoonheid, en zij zal u meenemen tot in haar dieptes. Gij dan zult het lied des Heeren kennen, en het lied van het Lam. Ook zult gij het lied der engelen kennen. Gij die door de Heere gekend zijt zult ook Hem kennen. Vertrouwt en bemoedig elkaar dan met deze woorden, opdat zij de bruggen vormen tot de hogere plaatsen.

2. Zij dan die komen van de plaats waar zij de Heere aan het kruis vertroost hebben : Genade zij met u. Vrede zal de Heere naar vermogen toedelen. Gij die de Heere aan het kruis bemint hebt : Genade zij met u. Open uw poorten opdat de Heere zal binnentrekken. Zo zal de Heere dan komen met al Zijn legerscharen, opdat uw huis vol zal zijn, en uw steden bevolkt.

3. De Heere zal uw ramen openen, en naar binnen kijken. De Heere zal uw onderkamers en bovenkamers bewonen, want gij zijt de Heere trouw geweest tot in tienduizend geslachten. Weldra zal de Heere uw harten openen, opdat gij het sieraad rijkelijk ontvange.

4. Zij die nog steeds tegen Tumalach strijden gebied ik te stoppen. Alhoewel hij hoog staat heeft de Heere liever dat gij de werken der mensen oordeelt. Zij die blijven doorstrijden tegen Tumalach zullen de Heere niet welgevallig zijn.

Fono'el

1. Fono'el, gij die de engelen der zonnen beheerst, gij bent de Heere getrouw gebleven, maar gij hebt uw taak verzaakt. Sta dan weder op, en voer uw engelen aan als een waardig aanvoerder. De Heere zal tot uw woningen komen, Hij en Zijn tienduizenden, opdat Hij u lere.

2. Niet een ieder die u volgt volgt de Heere. Zo zal de Heere de afvalligen en misleiders uitrukken. Laat dan lauweheid uw hart niet meeslepen, anders zal de Heere uw deel afscheuren en aan uw broeder geven.

Het Boek der Tepelen

1.

1. Gij dan die het geheimenis der tepelen kent, oh luistert, opdat de Heere u medele in de overige geheimenissen en de weelderigheden der geheimenissen. Komt dan tot verborgen grotten, om het hart der zee en haar geheimenis te aanschouwen. Zeven geheimenissen zijn over de aardbodem gekomen om hun geheimenissen te ontbloten. Ziet dan, zij zullen tot de hoeren der aarde gaan om onder hen zuivering aan te brengen. Deze woorden zijn waarachtig en getrouw. Bewaart hen totdat Hij die genadig is komt.

2. Zij dan hebben een geluid voortgebracht onder wilde honden en wilde katten, en hen van de karazuur. Aanvoerders hebben de heilige tepelen op hun voorhoofden ontvangen, reikende naar achteren, en hebben de buiktepel ontvangen. Ja, aan weerszijden van de zonnetepel hebben zij tepelen ontvangen, reikende naar hun schouders waar de aardkaarten liggen. Onder wilde honden en wilde katten werden hun namen groot gemaakt en op wanden geschreven. Ja, weldra zullen zij zonnetepelen op hun knieën ontvangen, zij die Hem getrouw zijn gebleven. Hij dan heeft zijn vorsten aangesteld, om hen wijsheden van toekomstige eeuwen te verkondigen. Ook gij zult dan

niet achterblijven, maar gij zult onderzoek doen, en uw kennis zal vermeederen. Grote zalving heeft Hij aan hen beloofd die zijn geboden onderhouden, ja, tot boven schuld en onschuld zal hij hen uitdragen en hen de woning der zonnen schenken.

3. Zo zult gij dan voor Hem uitgaan, en uw beloftes nakomen, gij allen die de Heere kent. Gij zult vanuit het zoete van het binnenste oprijzen, gij die de aarde kent. Zo zal de Heere u weldra zegenen, zowel in de hemel als op de aarde en onder de aarde. Nu zal er dan een vuur van de Heere uitgaan om u tot een licht te zijn, en om u te leiden van tepel tot tepel, daar zij de gevoeligheden des Heeren zijn. Zij zijn dan uitgegroeid vanuit zijn wonden als de vruchten van het kruis, waaruit de melk van alle eeuwigheden stroomt. Zalig zijn zij die toegang hebben gekregen tot deze dranken, en zalig zijn zij die het hun kinderen niet onthouden. Zo zal de Heere dan aan het einde der dagen zijn bronnen openen. Ja, aan het einde der goede dagen zal Hij Zijn kracht schenken aan hen die Hem oprecht hebben gevolgd.

4. Van kracht tot kracht zullen zij gaan, die uit Zijn bronnen hebben gedronken.

2.

1. De pilafen zijn de engelen die in de oerstrijd sneuvelden. De Heere heeft hier niet over gesproken tot Zijn kinderen vanwege de teerheid. Zij liggen verborgen in oergraven onder de aarde en onder de hemel. Ook liggen zij verborgen in putten tussen de wateren. Van hun bloed en vlees werd de kip geschapen, en de kip werd de bewaker der tepelen. De Heere zal de pilafen oprichten die Hij gebonden heeft gehouden tot deze dag. Hij dan heeft hen het pad der armoe laten bewandelen om zo veelvuldig één te worden met Hem. Zij dan zijn de rivieren in hun kracht, en de golven der zeeën. Zo dan is op dezelfde manier de pilaap de voorloper van het varken, die ook bewaker der tepelen is. Maar de Heere heeft de pilaap recht verschaft. Zij zijn als de winden in hun kracht, en de kracht der zon.

2. Weest daarom verheugd wanneer gij het pad der armoe bewandelt, want zo zult gij deelhebben aan het geheimenis der pilafen en pilapen. De Heere zal dan de tepelen die in de oerstrijd zijn gesloten wederom openen, ja als zegelen zal hij ze openen, en gij zult ingaan tot de veelvuldige vreugdes des Heeren. Heiligt dan uw zielen voor de Heere, opdat Hij uw koorden aanschouwt en u daarvan losmake. Weet gij dan niet dat de tepelen des hemels de wapenen der eindtijd zijn ? Alleen vanuit uw wonden zullen zij voortkomen.

3.

1. Hamaf, pilaaf van de derde oergraad, gij zijt tot het bos gekomen. Gij hebt daar melk gedronken, en gij hebt uw legers daar geboden. Gij hebt het heilige gras tot de Heere gebracht als een offer. De Heere nu opent uw tepelen als in het boek der engelen.

2. Ook zult gij naderen tot het veen. Gij zijt getrouw geweest tot in duizend geslachten, en draagt het schoeisel der armoe als een sieraad. Gij hebt genezing geschonken aan de Heere.

3. Tot een ander bos zult gij naderen waar gij uw legers zult gebieden. Gij zult hen sterk maken door uw bemoedigingen, en gij zult het geluid der vertroosting scheppen vanuit uw wonden. De Heere dan legge Zijn Hand op uw wonden, daar gij Hem overvloedige genezing hebt geschonken.

4. Gegroet, Hamaf, gij die de Heere kent. Gij die door Hem bent bevestigd, gaat heen in vrede. Gij die op zoek zijt om poorten te openen. Ziet, gij zult de poorten openen, en zij zullen zich voor u openen, omdat gij de tepel op uw voorhoofd draagt, reikende naar achteren.

4.

1. Gij dan kent de sieraden van gebondenheid als veren en muskus, als de sieraden der armoe. De Heere heeft u vleugelen gegeven. De Heere heeft u genade geschonken, en het zoete van melk en honing. Ja, Zijn heerlijkheid is over u. Schroomt dan niet om van Zijn bessen te eten en van het overvloedige. Want ziet, het stroomt vanuit Zijn wonden, en vanuit Zijn littekenen en vanuit Zijn bron van armoe. Zij die de armoe niet kennen zijn vervloekt. Zij voegen niets toe aan de Heere, en laten het hart van de Heere koud. Hoog staan zij op hun torens met hun ijdele bazuinen, maar ziet, als tinnen mannen vallen zij neer, om in de vurige ovens gesmolten te worden. Ziet dan uit naar deze dag, zegt de Heere, opdat gij één zult zijn met Hem. De Heere heeft geen behagen in hen die de armoe niet kennen. En zij die de armoe kennen : Komt tot haar diepste kamers, opdat gij genade zult vinden voor uw ziel. Zij die de Heere kennen sidderen en beven voor Hem, maar zij die Hem niet kennen gaan voort met grote monden. Ziet, de Heere zal deze monden uitrukken en brengen tot de ovens van vuur en ijs. Ja, harde klemmen zal Hij om hun monden doen, want zij hebben grote woorden gesproken, en zij hebben het land vereten. De kaalplukker zal Hij tot hen zenden, en het schuim zal uit hen worden weggezogen, totdat zij een kale rots zijn geworden. De Heere laat hen dalen tot het diepste der aarde, waar alle poorten voor hen gesloten zullen worden. Helpt hen dan niet, zij die ijdele woorden spreken, opdat gij niet tegen de Heere strijde.

2. Gij dan die de armoe volge, gij hebt nog niet van haar bessen gegeten, nog niet van het overvloedige schuim gedronken. De Heere voere u krachtig aan, gij die Zijn woord bewaart en Zijn sleutelen draagt. De sleutelen der armoe zijn u deels geschonken. Voert dan strijd om de armoe, en verdedigt haar, opdat de Heere u zal verdedigen. De Heere dan leide u tot de troon van armoe, waar ook gij een waardig oordeel zult ontvangen. De Heere heeft uw verdriet gezien, en zal al uw tranen wegwissen. Kom dan met vrijmoedigheid voor de troon des Heeren, want de Heere is vrijmoedigheid. Hij heeft uw liefdeslittekenen gezien. Melk vloeit daaruit voort met kracht om te onderwijzen. Het hart der zee zal de gebondenen vrijzetten. Zij die droog geworden zijn zullen gelaafd worden, want de Heere Heere is een genadig God. Hij is het die de armoe veelvuldig beloont.

5.

1. Zonder kracht zijn zij die de Heere verloochenen. Zij zitten op hun tronen van rijkdom en hebben het woord krachteloos gemaakt. Maar de Heere zal hen slaan, zij die laaghartig zijn. De Heere heeft hen gezien wiens monden schuimen en bruisen van gemeenheid. De Heere zal Zijn vorsten zenden en Zijn legerscharen om hun muren te doorbreken. Doorsteken zal Hij hun muren, en hun doornen breken. Een machtig koning is de Heere die baadt in armoe. Hij dan staat niet boven Zijn knechten, maar leert hen nederigheid door Zijn voorbeeld. Hij is hen als een spiegel.

2. Hij heeft hen geleid tot de schatten der armoe. Zijn bewakers zijn zij. Zij dragen Zijn sleutelen en de sleutels der armoe. Veelvuldig in zegen zijn zij. Ja, zij baden in de rode zon, en staan op om Zijn heerlijkheid te ontvangen. Niet zonder kracht zijn zij die Hem volgen. Zij maken de Heere groot op de hoeken der straten. Veelvuldig zijn zij in de woestijnen om nieuwe kracht op te doen. Veelvuldig zijn zij aan de randen van het veen om Zijn geheimenissen te overdenken. Zij aanbidden Zijn stilte, en brengen Glorie aan Zijn Woord. Genade zij u en vrede, indien gij behoort tot zulke meesters. Zij zijn de meesters der armoe die Zijn tepelen dragen.

Het Boek der Paradijsen

1.

1. Leg uw zwaarden en borstschilden op het altaar opdat de Heere het zuivere. Tot het altaar der engelen zijt gij gekomen. Zij die trouw zijn in alles zullen van de Heere een nieuw zwaard ontvangen. Laten zij die het vlammenzwaard dragen nader tot de Heere komen, en het in de handen des Heeren leggen. Gaat dan in tot de vreugde van uw Heer, want gij hebt waardig gestreden. Tazami'el zal u leiden tot de getrouwe post. Uw wonden zullen verheerlijkt worden, en de strakheid van uw riemen en gordels zal tot zaligheid worden. Ja, in armoe hebt gij gestreden. Gaat nu in tot de rijkdommen des Heeren. Zij dan die tot de bomen des Heeren zijn gekomen en tot de bomen der engelen : Maakt uzelf op om tot de vreugde des Heeren in te gaan. Gij die de vruchten der engelen draagt : Legt uw zwaarden af, en nadert tot uw rust. De Heere zal u met Zijn woorden bekleden, en u overvloedige rust schenken, gij die tot de krachten der engelen zijt gekomen. Zo zal Tazami'el uw leidsman zijn in het huis des Heeren, hij die aanvoerder is over duizend legioenen. Hij zal rust en orde tot u gebieden. Hij zal uw lasten afnemen, en nieuwe boodschappen bevestigen aan uw hart, waarmee gij de eer des Heeren zult verkondigen. Zij die de bazuinen dragen : Legt dezen af, en komt tot uw rust in het huis des Heeren. Tot de paradijsen der engelen zijt gij genaderd.

2. Ja, door vleugelgordijnen nadert gij en door de vliezen des Heeren, zij die van honing druipen. Legt uw boodschappen dan af, en treedt heilig binnen in de paradijsen der engelen. Zij die de zwaarden dragen om de hof te bewaken groeten u. Neemt dan uw zwaarden niet op, maar geeft ze aan Tazami'el die u leidt. Zij die de vlammenzwaarden dragen en de hof bewaken groeten u. Zij die de helm der heerlijkheid dragen en de hof bewaken groeten u. In de talen der engelen zullen zij tot u spreken. In talen der stilte zullen zij tot u komen. Buigt dan tot de heilige doorgangen der paradijsen der engelen. De Heere dan is Eén. Hij die u vlees gegeven heeft bij de boom des vlezes groet u. Zorgvuldig heeft hij u bedekt met het vlees der engelen, en het brood der engelen heeft hij u niet achtergehouden. Tot verzadiging toe heeft hij u laten drinken van de melk der engelen.

2.

Zo heeft de Heere u het goud der engelen geschonken. Het borstschild der engelen is aan u gegeven. Gij bent gekomen tot de boom waaraan de vlammenzwaarden groeien. De Heere heeft u de genade der engelen geschonken. De Heere heeft u bekleed met de riemen en gordels der engelen, en met hun veren. Oh, gij engel, die tot in de paradijsen der engelen zijt binnengekomen, sta op voor de Heere, en nadert tot de tronen der paradijsen, ja, tot de tronen der engelen. Want de Heere heeft Zijn engelen aangesteld. De rivieren der engelen zijn dan vol met het zachte der engelen. Laat uw ziel en geest daarin verkwikt worden, en laat u bekronen met het zachte der engelenzeen. Tot vorstendom heeft de Heere u geroepen. De raad der engelen is op u, om u te tooien met de wijsheden der engelen. De kennis der engelen vervulle de hemelen. Zij die de bazuin dragen en de zeeën der engelen bewaken groeten u. Zij die het zwaard dragen en de zeeën der engelen bewaken groeten u. De drank der engelen zult gij drinken, gij die tot de dieptes der engelenzeen nadert. De Heere zal u de geheimenissen van het hart der engelen en hun zeeën laten zien. Zij dan reinigen uw verstand en behoeden uw gedachten, daar het de gedachten der engelen zijn. De Heere en Zijn getrouwe engelen behoeden ook uw geweten, daar het een geweten der engelen is. Uw hart zij gezegend, daar het een hart der engelen is. De Heere zij daarvoor geprezen tot in eeuwigheden en tot in de eeuwigheden der engelen. De Heere dan spreke tot u in de talen der engelen, en uw hart stemt ermee in, daar het het hart der engelen is. Veelvuldig geprezen zij de Heere die de harten doorzoekt en verkwikt. De Namen der engelen zijn in Hem geschreven, op de poorten van Zijn Hart, en in de binnenkamers van Zijn Hart. Zij die het zachte der engelen dragen en zuiveren komen dan dagelijks voor Zijn Troon, en Hij behoede hun zielen.

3.

1. Legt dan al uw werken neer wanneer gij voor Hem verschijnt. Het lange des Heeren is een geheimenis voor hen die Hem liefhebben. Dezen zijn Zijn engelen. Aan hen zijn de geheimenissen van het binnenste gegeven. Zij dan, de engelen gaan door de lange traditie der engelen heen, opdat zij komen tot de hogere vormen. In de traditie komt de engel tot de boom der tepelen, waar de tepelen der engelen zijn, en daar ontvangt de engel tepelen op zijn billen, en op zijn onderrug. Elke keer dat hij tot deze boom terugkomt ontvangt hij een tepel hoger op zijn rug, waardoor hij de adem der engelen dieper ontvangt. Wanneer de tepelen zijn schouders hebben bereikt, komt hij tot de boom der adem. Zo dragen de engelen vele tepelen voor het aangezicht des Heeren, die de heerlijkheid der wonden en littekenen uitbeelden. Wanneer de tepelen op hun billen zijn uitgegroeid tot de randen zullen zij vlammen als de zonnen in hun heerlijkheid. Zij dan zullen de geheimenissen der zonnen der engelen kennen, en zij zullen door de engelen aldaar gegroet worden. Hier zullen zij de tekens der engelen leren. Hun macht en geest zal herkend worden door hun tepelen.

2. Zalig zijn zij die tepelen binnenin dragen. Zij wiens tepelen vanuit hun mond naar buiten groeien tot over hun lippen spreken van zaligheden. Zalig zijn zij die tepelen op hun tong dragen, en zalig zijn zij die tepelen op hun handpalmen dragen, boven de handen en op de vingers. Veelvuldig zijn zij tot de boom der tepelen gekomen. Zij dan kennen de geheime talen der engelen en hun tekens. Zij zijn beschreven door de zonnen der engelen.

3. Zij dragen de littekenen der engelen en hun tatoeages. Zij dragen de tekenen der aarde en de tekenen van onder de aarde niet, noch die van boven de aarde, daar zij door de winden des Heeren worden voortgedreven.

4.

Geen der engelen zal tot de tepelen des Heeren in hun macht komen die geen tepelen op hun voeten dragen. Zij dan worden geboren en geschapen met tepelen op hun voeten, en deze groeien uit tot de randen en brengen anderen voort. Geen der engelen zal tot de tepelen des Heeren in hun eer komen die geen tepelen op hun voeten dragen die tot de hoogtes der benen groeien. Zij dan worden geboren om tepelen te dragen die tot de hoogtes en laagtes der benen groeien, ja, zelfs tot onder de zolen der voeten.

Boek der Engelen der Prometheus

1.

1. Zo is dan de Prometheus de plaats der herhaling waar vele engelen werken, als een afdeling van de poel des vuurs. Ja, ook gij dient daardoor gereinigd te worden. Hier worden de wonden veelvuldig doorstoken om van daaruit reiniging voort te brengen. Niemand zal zeggen dat dit makkelijk is, maar ook dient gij deze symboliek te begrijpen. Door het kennen zal gij genezing ontvangen. Zo lijden zij die jong zijn veelal door hun onwetendheid, door misverstanden, en onbegrip, maar hierdoor groeien zij op. Ook gij zult rust ontvangen, waar de reis in eindigt. Zo zullen daarom alle engelen op de hoogte moeten zijn van de vuren van de Prometheus, en ook van de vuren van de Tantalos, de plaats van dorst.

2. Want het doel van de vuren van de Prometheus is opdat gij onthecht raakt, en gij uw werk zult doen. Blijft dan ook vasthoudend weerstand bieden aan hen die valse kruizen dragen, totdat gij in de rust des Heeren gaat. Het geheimenis ligt reeds voor uw klaar als een droom der engelen.

3. En uw wonden veelvuldig gestoken zullen uitgroeien tot zolen op een nieuwe aarde, waar ook gij deel aan zult hebben. Zo zult gij dan het schoeisel der engelen zijn. Gij dan zijt uitgezonden tegen hen die valse kruizen dragen, maar ook zijt gij gezonden om het kruis der engelen te verkondigen. Dit dan is uw allerheiligste taak, een taak die met zorg zal worden vervuld. De engelen van Gehenna groeten u, en zo ook de engelen van de Tartarus. Zij hebben u allen voor deze taak voorbereid. De engelen der Prometheus en van de Tantalos groeten u, zij die de draaiende zwaarden dragen. Zij die gevlochten zwaarden dragen groeten u, en zij die de draaiende vlammenzwaarden en de gevlochten vlammenzwaarden dragen. Gaat nu in door de poort der heerlijkheid, oh reiziger, en legt uw wapenen en boodschappen neer, ja, ook de boodschappen der kruizen. Legt uw helmen neer, ja, ook de gevleugelde helmen. Luistert naar uw Heere, en weest Hem welgevallig, want wat Hij doet is goed.

2.

1. Geen van hen die zwaarden dragen zullen ontkomen aan Zijn macht. En Zijn macht is goed. Zij dan wordt door armoe gewrocht. Door armoe wordt zij gevlochten, en zij is de dienaar der Prometheus. Zij leidt hen tot de Prometheus, en daarna terug tot de Tantalos. De Heere dan heeft u brood gegeven met zorg, ja, het brood der engelen, en ook het vlees der engelen. De Heere dan doe Zijn Aangezicht over u lichten en geve u vrede. Halleluja. De Heere zij hierom geprezen. Ook zult gij ontkomen wanneer roofdieren passeren, want gij zult hen het brood der engelen geven, en zij zullen verzadigd worden. De Heere twijfelt niet aan Zijn belofte, en geeft ook geen eeuwige teleurstelling. De Heere is een goede God, die Waarheid schenkt aan hen die in de Waarheid zijn en leugen schenkt aan hen die in de leugen zijn. Wanneer de Heere iemand roept tot de Prometheus, wie zal ontkomen ? Geen van hen die zwaarden dragen zullen aan Hem ontkomen. Waarheen zullen zij vluchten ? De Heere kent immers alle schuilplaatsen. Hiertoe heeft Hij Zijn engelen uitgezonden.

2. Waar heeft de Heere u gezonden, Emichti'el, gij die de lichten des Heeren draagt ? Tot de spelonken heeft Hij u gezonden, om rotsen te doorklieven. Geen vogeltje ontziet gij. Gij dan zijt een Engel des Heeren, Emichti'el.

3. Waar heeft de Heere u gezonden, Lazachel, gij die de duisternissen des Heeren draagt ? Gij dan zijt een Engel des Heeren.

4. Ik gebied u om de randen te begaan van de Prometheus om de wonderen te aanschouwen. Ik gebied u om daar een pad te banen. De Engel des Heeren zal u leiden. Over bruggen en over zeeën, ja, over de randen van de Prometheus, op de randen der hoogtes. Hier prijzen wij de Naam des Heeren. Hier smeden wij de zwaarden, en dan dalen wij af, opdat onze zolen de Prometheus raken. Op de randen staan wij niet meer, maar diep binnenin, om de wonderen te aanschouwen. Tuzuchi'el zal u leiden, en brengen tot het diepste der Prometheus, daar waar de honing rijpt, het wonder van een nieuwe schepping. Ja, de aarde is in een diepe oven, opdat zij daar opnieuw geschapen wordt, terwijl de engelen juichen. Een nieuwe schepping kondigt zich aan, en geheimenissen worden ontbloot. De Heere die goed is en goed doet vestigt Zijn Naam.

5. Zo zal Tuzuchi'el u leiden tot de boom der zolen, oh gij engelen, daar waar de paden zijn, de paden der engelen en hun zolen. En Tuzuchi'el zal u leiden tot het oude, en vele deuren van het nieuwe sluiten. Het nieuwe zal ontbloot worden in de diepe ovens van de Prometheus, en er zal niemand zijn die redt. Want het valse nieuwe wordt door de Heere veracht. Ja, engelen verachten

hen die het valse nieuwe brengen. De Heere wil u brengen tot de aloude paden en tot de tradities der engelen.

6. En gij zult vruchten eten van de boom der zolen en van zijn paden. En gij zult erdoor worden verzadigd. En zij die valse armoe dragen zullen tot in eeuwigheid geen deel hebben aan de boom der zolen en aan zijn paden. En zij die valse oudheid aanhangen zullen tot in eeuwigheid geen deel hebben aan de boom der zolen en aan zijn paden.

3.

1. En Tuzuchi'el zal u leiden tot de heerlijkheden der paden, die de heerlijkheden der engelen zijn, en gij zult tot heerlijkheid komen. Engelen van de Prometheus, de engelen der paden groeten u. Zij met de draaiende zwaarden groeten u, en zij met de gevlochten zwaarden. Zij met de draaiende vlammenzwaarden en zij met de gevlochten vlammenzwaarden groeten u. Legt dan uw zwaarden af, en volg Tuzuchi'el, opdat uw zielen door hem verzadigd worden. Hij zal u leiden tot de kennis en de wijsheid van de Prometheus, ja, van zijn engelen. Dan zult gij tot diepe rust komen, oh Engel van de Prometheus. En gij zult tot het zoete deel van de Prometheus komen, Sisefos. En gij zult op de bergen der Dana'iden staan. En gij zult luid tot de Sisefos spreken om zijn poorten te openen. Dit dan is het heerlijkste deel der Prometheus, waar engelen begeren een blik in te slaan.

2. De engelen der Sisefos groeten u. Hier bevinden zich de aloude tradities der engelen. Doet dan uw pantser uit, ja, ook uw borstpantser. Komt dan in heilige witte klederen tot de Heere, klederen verscheurd in de strijd. Laat dan uw wonden zien aan de engelen van Sisefos. Zij die geen wonden hebben zullen niet voor de Heere verschijnen. Zij die de engelen van Sisefos niet kunnen zien zullen niet voor de Heere verschijnen. Laat dan uw littekens aan de Heere zien. Zij die de lichtende littekenen niet dragen zullen niet voor de Heere verschijnen. Laat dan uw tekens en tatoeages zien, en de zonnetatoeages op uw rug. Zij die deze merktekens niet dragen zullen niet voor de Heere verschijnen. De Heere zal de zegels verwijderen, en zal u nieuwe merktekens geven. Zij zullen lichten als de zon, ja, als de boom der zonnen. En zij kennen allen hun eigen kleur. Zij kennen ook hun meesters. En Tuzuchi'el zal u leiden tot uw verhoging, en tot de ladder der engelen. Gaat dan over de randen van Sisefos, in vertraging, en aanschouwt zijn wonderen. Hier zult gij uw zwaarden smeden.

3. Oh, engel van Sisefos, legt uw helm af. De Heere zal u over de randen van de Dana'iden brengen tot een allerheiligst deel. De Heere zal u het brood van Zijn genade geven, en gij zult met de kruimels de roofdieren die passeren verzadigen. Ja, hen die gulzig zijn zult gij stukken brood geven. En de Heere zal u leiden tot de boom der broden, die de broden der engelen zijn, en gij zult volop verzadigd worden. En gij zult kleding dragen als brood, en schoeisel als brood, en gij zult de wonderen der Dana'iden zien, wanneer gij Tuzuchi'el volgt over hun randen. Op de aloude hoogtes bevinden zij zich, waar gij uw helm in het oude zult smeden. Dan zult gij afdalen in de putten der Dana'iden met macht, en Tuzuchi'el zal u terugroepen. Dan zult gij wederom afdalen in de putten der Dana'iden en Tuzuchi'el zal u terugroepen.

4.

1. En de engelen der Dana'iden en hun putten zullen u groeten, en gij zult de namen kennen van de putten. En gij zult tot deze putten afdalen met macht. En de Heere zal u terugroepen.

2. Engel der Dana'iden, legt uw zwaarden af, gij die tot de aloude tradities der engelen zijt gekomen en tot de tradities van de Dana'iden. Legt uw macht af, en uw helmen, want gij zijt tot de Heere

gekomen. Legt uw boodschappen af, en uw bazuinen. Legt uw hoorns en trompetten af, en komt in stilte tot de Heere. Engel der Dana'iden, laat uw wonden zien. Zij die geen wonden dragen zullen niet voor de Heere verschijnen. Engel der Dana'iden, laat uw armoe zien en hun weelderigheden.

Het Boek van de Putten

1. Engelen der Dana'iden, gij zijt tot de aarde en tot onder de aarde gezonden om haar en haar bewoners te sluieren. Gij bent gezonden om het verstand van hen die onder en boven de aarde leven te versluieren, daar zij vele dingen nog niet kunnen dragen. Hierin bent gij getrouw geweest. Ook hebt gij hun geweten versluierd en hen ongevoelig gemaakt naar de eis des Heeren. Gij hebt de wetten van hen weggenomen en aan de Heere teruggegeven. Gij hebt hun putten gesloten, maar nu is het tijd om die te openen. Zo zult gij de put van Hades openen, die tot het dodenrijk leidt, en tot haar paradijsen. Zo zult gij de put van Poseidon openen, die leidt tot de dodenrijken der zeeën en hun paradijsen. Zo zult gij de put van Zeus openen, die leidt tot de dodenrijken van de wind en de zon, en tot hun paradijsen.

2. Zo zult gij tot de put van Zeus komen om in haar af te dalen, en gij zult boodschappen verkondigen tot hen die achter de put leven. En gij zult een boodschap van verlossing verkondigen aan hen die daar gevangen zitten, en gij zult een eeuwig evangelie prediken. En wanneer een man in een vrouw afdaalt, zal hij tot haar dodenrijk komen, en zijn zaad zal de boodschap van verlossing verkondigen. Zo zult gij geen vrouw van node hebben, maar op gelijke wijze zult gij in de putten der Dana'iden afdalen om een tijd van wonderen aan te kondigen. Zo zult gij het geheimenis des Heeren kennen. Zalig zijn zij die vele putten der Dana'iden in hun lichamen dragen, want zo zult gij elkaar tot bescherming zijn.

3. De Engelen des Heeren hebben zich onthecht. Zij kennen de drangen van de aarde en van onder de aarde niet. Zij wassen zichzelf in het onbekende. Zij kleden zich als vreemdelingen, en kloppen aan de poorten van het oude. De drangen van het valse oude kennen zij echter niet, en zij brengen boodschappen van vrees tot zulke ouden. Zij brengen hun eeuwig zaad tot de putten der Dana'iden en verspillen het niet aan de aarde. Zij zijn tot de boom van zaad gekomen, dat het zaad der engelen is. Hier wassen zij zichzelf met bekenden. Hier dansen zij voor de Heere, en zijn zij als de vogels. Zij echter die het zaad der engelen verspillen worden het voorwerp van hun wraak. In de oude tuin staat de boom van het zaad.

4. De oude tuin is als het sieraad des Heeren. De Heere kent Zijn engelen bij name.

Het Boek der Bomen

1. Het gevleugelde zwaard is hen gegeven die Hem dienen. Legt uw zwaarden af. Het gevlochten zwaard is hen gegeven die Hem oprecht dienen. Legt uw zwaarden af, en uw helmen, want gij zijt genaderd tot Zijn Glorie. Zij die Hem oprecht dienen staan boven de rampen. Zij worden boven de golven uitgetrokken. Zij die Hem oprecht dienen kennen Zijn Luister. Zij kennen de slag van Zijn Hand. Legt uw zwaarden af, uw koorden, riemen en gordels. Doet uw pantser af en uw borstpantser. De Heere is een goede God, en tot Hem zijt gij genaderd. Zijn Woorden klinken door tot Zijn dienstknechten, hen die Hem oprecht dienen. Hij brengt hen tot rust onder Zijn bomen, en

verkwikt hun geesten. Zij die Hem dienen dragen Zijn heerlijkheden in hun zielen, en zijn genaderd tot de boom der zielen, die de zielen der engelen zijn. Zij kennen het schuim van de zeeën der engelen, en zijn vervuld met dit schuim. Ja, het schuim der engelenzeeën stroomt door hun ziel. Zij hebben hun ziel van de Heere, van Tanahach, die staat bij de boom der zielen. Hij heeft hun zielen vervuld. Zijn roep gaat tot hen uit.

2. Zo is Tanahach de eerste onder vele broederen geworden, daar hij de Heere in toewijding heeft gediend. Hij dan is gekomen tot de boom der geesten, die de geesten der engelen zijn. De Heere dan is het die hen van geesten heeft voorzien, en het schuim stroomt door hun geesten. Ja, de zielenschuim schenkt Hij in genade en in overvloed tot hen die Hem dienen. Ja, het geestesschuim is als Zijn Roepstem. Zo staat dan de Heere bij de boom van schuim, wat het schuim der engelen is. De Heere dan geve van Zijn schuim aan hen die Hem dienen in gehoorzaamheid. Doet uw pantsers af, en uw gordels, want gij zijt genaderd tot een ondoordringbaar licht.

3. Tanahach, broeder onder velen, veldheer van Christus, gij zijt schenker des Heeren. Laat hen die Hem dienen u volgen. Laat hen die Hem in oprechtheid en gehoorzaamheid dienen uw toewijding dragen. Schenk hen de koorden der engelen, en laat hen afdalen in de putten der Dana'iden. Zij hebben hun taken volbracht en zullen weldra de Heere ontmoeten. Zij zijn gekomen tot de boom der gaven, die de gaven der engelen zijn. Met vreugde zullen zij heil scheppen uit de bronnen des Heeren. De poorten der Dana'iden zullen hen niet tegenhouden. Zij zullen doorgang hebben tot de Heere die troont in Sebia.

4. Sebat Matachal, Sebat Moerdes, Sebat Majachin, zij zijn gekomen tot de bomen der talen, die de bomen der engelen zijn. Zij hebben het groene des Heeren gezien, en Zijn gloed, en zij scheppen heil uit de bronnen des Heeren met grote vreugde. Zij hebben de zaligheid des Heeren verdient.

5. Sebeat Menehis, Sebeat Shaoel, zij zijn in de putten der Dana'iden afgedaald om hun geheimenissen te aanschouwen. Zij hebben geluisterd naar boodschappen der engelen. Zij zijn tot de bomen der boodschappen gekomen, die der engelen. Zij hebben hun haren niet gevlochten, en zij hebben van het gif der aarde niet gedronken. Ook hebben zij niet van de drank van onder de aarde en boven de aarde gedronken. Zij zijn de Heere getrouw geweest.

Loofte

1.

1. Uw pijn zal tot schuim worden in de tuin des Heeren. Tot de tuinen der engelen zult gij gaan en tot hun paradijsen. Zij die op de eilanden der engelen zijn groeten u. De Heere vervulle u met schuim, de Heere vulle u met honing en melk, daar gij de Heere vrijmoedig trouw zijt geweest. Overvloedig zal Hij u vullen, gij die Hem getrouw zijt. De Heere zal u macht geven over de haaien der aarde en onder de aarde. Ook zal Hij u de sleutels geven van de putten der Dana'iden en de putten der haaien. Gij dan wordt beschermd tegen hun verblindende lichten, want de Heere heeft u gesluiert.

2. Hier zal uw schuim rijp worden. Legt dan uw sluiers af, gij die tot de Heere bent gekomen en tot de bronnen van warmte, die de warmte der engelen is. De Heere dan doet niets zonder Zijn engelen. Zij dan dragen Zijn naam. De Heere neme dan uw sluiers af, en verlichte uw verstand. Ook zal Hij de sluiers van uw geweten afhalen en het verlichten. De Heere dan is goed. Zijn Naam zij geprezen tot in de eeuwigheden der engelen. Hij laat het schuim rijp worden op Zijn schalen en vermengd het

met het zaad en de honing der engelen. Zo worden vele dingen van waarde geschapen. De Heere dan is goed. Rijs dan op voor Zijn Aangezicht en kom nader. Hij zal de sluiers van Zijn gezicht weghalen.

3. De Heere is goed. Gij hebt niets te vrezen. Hij kent Zijn dienaars bij name. Tot de tuinen der engelen heeft Hij u gezonden. Hij zal u daar geheimenissen leren, en wegen tonen. Hij heeft uw harten gewogen tegen een veer, en Hij heeft de koorden van engelen die u draagt gemeten. De Heere dan is goed. Gij hebt niets te vrezen. Zalig zijn zij die in Zijn Naam tot Zijn poorten komen. Hen wacht zaligheid en heerlijkheid voor hun zielen. De Heere geeft hen welgemeend van het goede en overvloedige van Zijn tuinen. De tuin draagt de kroon, en haar wachters groeten u. Welgemeende passen maken zij tot u. De Heere heeft hun harten vervuld en zij geven van hun overvloedigheid.

2.

1. De tuinen van Looftē zijn vol van het schuim des Heeren. Vol van het schuim der engelen is zij. Zij kent de wegen tot haar geest, en haar ziel is met heerlijkheden vervuld. Haar wachters groeten haar, en maken welgemeende passen tot haar. Ook maken zij de gebaren der engelen. In tekens spreken zij tot haar. De tuinen van Looftē zijn vol van genade. Zij kent de wegen en paden tot haar Heere. Zij spreekt met zachtheid en zoetheid. Vol van schuim is haar genade. Genade heeft zij bewezen tot velen. Een rustplaats der engelen is zij.

2. Zij onderwijst haar dienstknechten door heerlijkheden tot hun zielen te brengen, en door hun geesten te verkwikken met het brood der engelen. Als in het brood der engelen gaat zij gekleed, en zalig is hij die haar geheimenissen weet te ontbloten. Haar dienstknechten verzadigt ze door welgemeende passen te maken. Ook maakt zij welgemeende gebaren waarin zij tot rust komen. Legt dan uw zwaarden af, want gij zijt genaderd tot Looftē. Legt dan uw helmen neer, want zij zal u zijn tot een visioen der engelen. Alleen tot engelen nadert zij, tot hen die haar armoe in overvloed dragen. Zij kennen haar welgemeende kussen en haar welgemeende opvrolijkingen en gezegdes. Zij dragen haar woorden en manieren in hun hoofden en harten, en zij kennen haar wijsheden en de kennis die zij draagt.

3.

Gij zijt genaderd tot Looftē. Zij is genaderd tot u, om welgemeende passen te maken, en welgemeende gebaren. Haar woorden en manieren reiken tot in de dieptes van uw ziel, en de wegen tot uw geest kent zij. Overvloedig komt zij tot hen die haar dienen. Overvloedig kent hij hun namen. Zij omgeeft hen met haar zachte lichten. Boven liefde en haat vinden zij haar paden. Oprecht gemeend zijn haar kussen. Oprecht gemeend haar bewegingen. Zij schenkt Waarheid aan hen die haar in Waarheid dienen, maar zij misleid hen die van bedrog leven. Vrees haar, gij die haar oprecht dient. Dan zal zij uw hart verlichten.

Dodenboek van Christus

1. Dit is het boek dat de reis van Christus naar de onderwereld beschrijft, als een pilgrimage door het dodenrijk naar de grotten van het heilige wiel, waaraan hij ook gekruisigd werd. Ook zou je dit

boek Helboek van Christus kunnen noemen, omdat Christus ook in de hel kwam, om daar gevangenen te bevrijden.

2. Maar niet alleen dat. Zijn grootste taak was om daar te hangen aan een wiel. Dit wiel wordt ook wel het kruis van de onderwereld genoemd. In deze reis gaat hij door vier poorten tot aan een vijfde poort, waar iets wonderlijks gebeurt. De eerste poort is Egypte, waar hij ook gekruisigd werd.

3. De tweede poort is de poort van Izu, de derde de poort van Brannan en de vierde de poort van Lbok, daar waar de Boom des Doods staat. De boom des doods is de verboden boom van de onderwereld, met verboden vruchten des doods, bewaakt door de slang des doods. Wanneer Christus tot die boom komt, dan probeert de slang des doods hem weg te jagen.

4. De slang wil om een bepaalde reden niet dat Christus van de vrucht eet. Maar Christus is hongerig, en laat zich geen wetten en geboden opleggen door de tegenpartij. Dan raakt Christus in gevecht met de slang, en weet vervolgens een vrucht van de boom des doods te bemachtigen.

5. Als hij er van eet is de slang woedend, en begint te sissen. Dan verslindt de slang de ziel van Christus, en de ziel wordt aan een wiel gespijkerd. Hier geeft Christus geboorte aan een zoon door het lijden aan dit helse wiel. De pijnen van Christus in de onderwereld zijn dus eigenlijk gewoon barensweeen.

6. Zijn zoon kan uiteindelijk door de vijfde poort gaan, de poort van de rode strepen. Die rode strepen zijn allemaal kinderen van Christus, komende vanuit zijn wonden. Als het wiel begint te draaien brengt het Christus door alle paden van de hel, maar de vijfde poort haalt hij nooit. Juist door het draaien van het wiel komen de rode strepen tot leven. Zij zijn de geheimenissen en onpeilbare dieptes van God.

7. Toen Christus opstond uit de dood en de hel kwam hij niet terug als een levende, maar als een eeuwig levende, een verheerlijkte. Aan het wiel vond en kreeg hij namelijk een amulet genaamd de Grote Krurg, die de zessendertig krachten boven leven en dood droeg. Dit was en is een felbegeerd amulet van eeuwig leven, ook wel genoemd : het amulet van zaligheid en heerlijkheid. Het geeft de drager een onsterfelijk lichaam. Dat wil niet zeggen dat dit lichaam geen wonden meer kan hebben, en geen pijn, maar het kan niet meer sterven. In dit lichaam voer Christus op naar de hemel om op zoek te gaan naar een ander amulet, namelijk het amulet boven hel en hemel.

Roze Zwanen ; Het Zwaard Van Calvijn

1. De vlaggen hingen uit buiten. Hij zat in zijn zitstoel, zijn vrouw was in de keuken. Hij had net het gras weer eens gemaait, wat hij wekelijks deed. Hij staarde naar buiten, naar de begroeiing op de muur. De metalen platen zaten er goed vast tegenaan, en daar groeiden de planten omheen. Dat kon hem niet wild genoeg zijn. Hij was altijd al geïnteresseerd geweest in tuinieren, en hij had dan ook echt zijn eigen stijl, vurig, wild, maar ook piekfijn geordend. Het was een samenspel tussen natuur en mens. Hij had vroeger altijd bij de politie gewerkt, en daar ging het er eigenlijk hetzelfde aan toe : de buurt was wild, en de politie bracht orde, en zo was er een prachtig samenspel, heen en weer. De politie mocht volgens hem de soep niet te heet opdienen, en zo liet hij dan ook de natuur in zijn tuin een zekere vrijheid hebben. Wel hield hij alles goed in de gaten. Hij had een zekere strengheid als hij naar zijn tuin keek. Zijn vrouw kwam de huiskamer binnen met de koffie. Ze zeiden niks tegen elkaar. Het zonlicht golfde de kamer binnen toen zijn vrouw het gordijn iets verder opendeed. Beiden staarden ze naar buiten, de tuin in. De sproeier stond aan, het was een

warme dag. Aan de dag scheen geen einde te komen. Zijn vrouw was aan het breien, en hij staarde maar. Geen woord werd er gezegd. Het leek wel alsof zijn denken vastzat. Hij hoorde het getik van de brei-pennen van zijn vrouw.

2. Het leek wel alsof ze heel ver weg zat. Of kwam dat door de vele spullen die er tussenstonden. De tegels op de grond glanst in het zonlicht, maar ze werden er niet bruiner op. Het was een harde vloer. Je zou makkelijk wat kunnen breken als je erop viel. Er lagen ook wat tapijtjes in de grote huiskamer. Ze hadden een groot huis, een alleenstaand huis. Ook het fonteintje in de vijver stond aan. Hij worstelde zichzelf door de dag. Hij verveelde zich, maar wist niet wat hij moest doen. Hij bleef het tikken van de brei-pennen van zijn vrouw maar horen. Kinderen hadden ze niet, nee, ze waren tamelijk eenzaam. De man stond op en liep naar de kast, waar hij een fles sterke drank uittrok, en gaf zijn vrouw ook wat. Ze hielden wel van een borrel. Dat was goed voor het bloed, en dat hielp hen op de been. Eigenlijk leken ze in hun leven niet meer verder te komen. Ze waren in een nauw cirkeltje terecht gekomen, en gingen bergafwaarts. Ze leefden geïsoleerd. Er was nauwelijks contact met de buitenwereld, en daar hadden ze ook geen behoefte aan. De tuin was alles voor hen, en hun woning. Zijn vrouw was vroeger arts geweest, voornamelijk kinderarts, maar moest later stoppen vanwege haar alcoholisme. Nu had ze het veel beter onder controle. Haar man hield de wacht over haar, maar liet haar nog wel genieten van een borreltje op zijn tijd. Toch waren de twee erg zwaarmoedig en hielden er een kerkelijk leven op na. De kerk was alles voor hen, voornamelijk op de zondag. Een grote bijbel lag naast de openhaard. Het geloof in God gaf hen rust, als een oase in de woestijn van hun ouderdom.

3. Op zondag na de kerkdienst fietsten ze samen naar huis. Het was warm weer. Maar al snel zaten ze weer in hun oude positie. Hij had niet veel behoefte om dingen te gaan doen, ook al verveelde hij zich. Hij trok zich op aan de structuur van zijn tuin en zijn huis, wat hij streng in de gaten hield. Het was als het werken in de tempel, alsof hij in de kerk woonde. Hij voelde zich een nauwlettende koster, en dat was hij vroeger ook geweest. Veel was hij bezig met zijn herinneringen, die hem ook half depressief maakten. Een heleboel dingen zou hij terugwillen, maar ze waren onbereikbaar. Het was een treurig stel, en velen zouden hen saai noemen. Als ze kleinkinderen zouden hebben, dan zouden die hier geen leven hebben. In zijn gedachten was hij altijd de tuin en het huis aan het maaïen. De gelakte spulletjes waren als hun huisdieren. Maar het ging niet zo goed met zijn vrouw. Ze was aan het dementeren, en dat riep ook wel heel veel herinneringen bij hem op. Op een gegeven moment kon ze niet langer in huis blijven, en moest ze naar een verzorgings-tehuis. Hij kon dat moeilijk accepteren, maar hij had geen andere keus. Hij voelde zich al als een weduwnaar. Het was als een trauma in zijn hoofd, maar het kerkelijk leven beurde hem op. Hij wist dat zijn vrouw een verloren zaak was. Ook de tuin gaf hem rust. De maaïers in zijn hoofd waren nu als van vuur, als grillen. Hij had nu het gevoel dat hij de touwtjes nog strakker moest trekken. Nog steeds stonden de protserige spulletjes van zijn vrouw hier, de beeldjes, de hebbedingetjes, het antiek, en het gaf hem een gevoel van verbinding met haar. Aan de telefoon kon hij niet meer met haar praten, en ze wist nog nauwelijks wie hij was. Ze was aan het aftakelen tot aan het bot.

4. Hij ging meer en meer drinken, om het verdriet over zijn vrouw te vergeten, en bezocht kroegen voor het eerst in zijn leven. Het huis en de tuin werden wilder, omdat hij het onderhoud niet meer kon bijhouden, en het was voor hem ook geen prioriteit meer. Hij raakte verslaafd aan de fles, zoals zijn vrouw eens was. Hij kwam in het rijk der schimmen. De alcohol bracht hem een felle stem in zijn hoofd. Met het vele geld dat hij had schafte hij een bar aan in zijn eigen huis, helemaal voor hemzelf. Ook ontving hij vrouwen van lichte zeden aan huis. Maar deze tijden liepen snel ten einde,

door het knagend kerkelijk geweten binnenin. De God in zijn hoofd sleepte hem naar het graf, en sprak hem ernstig toe. Hij probeerde zo min mogelijk na te denken, en weer begon het vele staren. Hij was zelf ook door maaiers omringd, de gouden maaiers van de kerk. Zij zouden hem veilig leiden tot aan het graf en tot de hemelpoort. De bijbel scheen hem weer nieuwe kracht te geven, en hij las er veel in, en spoedig begon hij ook zijn tuin en huis te onderhouden als nooit tevoren. Ook koken ging hem goed af, ook al waren het alleen maar de standaard-gerechten. Maar het was alsof iets hem van binnen aanvrat, alsof er een spin in hem leefde. Wat als hij niet een uitverkorene was van de God die hij diende ? Het zwaard van Calvijn sneed diep in zijn ziel. Hoe meer hij de bijbel las, hoe meer hij ook de duistere andere kant van het verhaal zag. Vooral na zijn wilde uitstapjes begon hij de hel meer te vrezen dan ooit. Misschien was de God die hij diende wel helemaal niet zo tevreden over hem. En velen waren geroepen, maar weinig uitverkoren. Hij kwam in de eerstegrote geloofs-strijd van zijn leven, en lijstjes over wie er allemaal niet het koninkrijk des hemels zouden beerven bleven hem kwellen tot diep in de nacht. Het was alsof hij door duiveltjes was gebonden. Misschien ging hij er iets te hypnotisch mee om, maar hij kon er niet van loskomen, totdat ook bij hem Alzheimer toesloeg.

5. Hij wist niet meer wat de bijbel was. Hij kon er uren naar staren, naar het kaffee, maar wist het niet meer. Was het het dagboek van zijn vrouw ? Of het wetboek van de politie, was het pornografisch ? Was het onzedelijkheid ? Een enorme woede maakte zich van hem meester. Hij kon het zich niet meer herinneren. Wel wist hij dat het altijd heel belangrijk voor hem was. Was het een erfenis van zijn vader ? Waren het de liefdesbrieven van meisjes die hij in zijn jonge jaren kreeg ? Was het grootmoeders kookboek ? Een uitgelopen folder van de Jehovah's getuigen ? Een boek van een ons onbekende religie ? Was het een geschiedenis boek. Het zweet steeg hem naar het hoofd. Hij was bijna aan het klappertanden, aan het beven als een jong hondje. Was het een toverboek ? Nee, toverboeken bestonden niet. Een verzameling niet betaalde rekeningen ? Misschien was het van zijn vrouw ? Hij besloot het boek weer neer te leggen. In de kerk kwam hij niet meer. Hij voelde zich als levende achter tralies. Hij wist niet meer wie hij was. Hij werd als een wild dier.

6. Hij kon uren staren naar dingen, om zich af te vragen wat het was. Hij was de grip op de werkelijkheid kwijt. Het maakte hem kwaad, dat zijn hersenen hem in de steek lieten. Maar aan de andere kant kwam hij erg tot rust. Het leven was hier zwoel. Hij voelde zichzelf als levende op een tropisch eiland, badend in het warme zeewater. Het normale leven drong niet meer tot hem door, en waarom zou dat moeten ? Hij snapte de kaartjes die hij kreeg niet. Hij dacht dat het kokosnoten waren, of dat het herfst was. Weer wat blaadjes die van de bomen zijn gevallen. Soms probeerde hij ze op te eten, soms hing hij ze aan de muur. Sommige van die kaarten waren prachtig. Op een dag besloot hij zijn hele huis rood te verven, maar toen hem dat niet beviel verfde hij alles bruin. Het stond nog niet eens zo gek. Hij had wel stijl. Hij probeerde af te rekenen met het verleden wat hij maar niet begreep. Hij noemde zichzelf 'baas van de hel'. Ook dacht hij dat hij Calvijn was, maar hij wist niet meer wat Calvijn voorstelde. Hij droeg zijn oude politie-pak weer en was nu baas van de politie, iets wat hij overigens altijd al had willen zijn. Op een dag had hij even een flits in zijn hoofd. 'Had Calvijn niet de bijbel geschreven ? Dit is mijn boek. Mijn agenda. Hierin staat wat er moet gebeuren.' Hij greep de bijbel en liep ermee rond. Hij riep en schold, alsof hij een dictator was. Maar hij raakte in de war van zichzelf en plofte op de bank. Toen ging hij maar weer de tuin instaren. Hij werd er stil van.

7. In zijn hoofd regende het, en na een tijdje werd hij bedlegerig. Vreemde gezichten zag hij in zijn gedachten, die dan allemaal weer vermengd werden. Hij kon zich niets meer herinneren. Ondanks

zijn ziekte had hij een goede tijd. In zijn gedachten waren bomen personen en konden spreken, en hij voerde lange gesprekken met hen. Hij betuttelde hen, omdat hij nu eens eindelijk zijn onderdrukte vader gevoel kon manifesteren. De bomen in zijn hoofd waren als zijn kinderen. 'Jullie zijn de vrucht van mijn tuin,' zei hij altijd. 'Dan is het allemaal toch niet voor niets geweest.' De bomen in zijn hoofd gaven hem zijn geheugen weer een beetje terug, maar op een hele andere manier, met een hele andere kijk op het leven. Maar de bomen in zijn hoofd begonnen te rotten en stierven. Het was een hevig gevecht, want hij beschouwde hen als zijn kinderen. Hij werd weer geconfronteerd met de dorheid van het bestaan, hij nam het stof waar, om hem heen. 'Alles is een bende,' zei hij. Het was een traumatische ervaring zijn kinderen te moeten verliezen. Er was een begrafenis-stemming in zijn hoofd. Maar bloesem scheen voort te komen uit het dode hout, vrouwen. 'Mijn kinderen zijn gestorven,' zei hij. 'Hebben jullie hen niet kunnen redden?' Maar de vrouwen zeiden niks. Ze waren naakt. 'Toe, trek wat aan,' zei hij. 'Anders sterven jullie zo van de kou.'

8. 'Wij gaan niet dood,' zeiden de vrouwen. 'Wij zijn de vlammetjes van het eeuwig leven. En wij gaan u weer jong maken.'

9. 'Oh, de bron van de eeuwige jeugd,' zei de man. 'Zo, zo.' Maar de man werd steeds zieker. Zijn gedachten kwamen vast te zitten, en hij waande zich in de woestijn. Hij had niet eens de kracht een raam open te zetten. Er kwam een verzorgster langs, elke dag. Die moest dat maar doen. Ze wilden hem eigenlijk naar een verpleeghuis verplaatsen, maar hij wilde zijn huis niet kwijt. Zijn huis en zijn tuin, dat was alles voor hem, zijn tempel. 'De goden hebben mij hier gebracht,' zei hij.

10. 'U bent een kind van de goden?' vroeg de verzorgster.

11. 'Ja,' zei hij triomfantelijk, 'of hun vader.' De verzorgster las hem vaak voor uit de bijbel, maar hij begreep er niet veel van. Hij zag er hele andere dingen in, en het raakte hem niet meer. 'Wat een mooi sprookjesboek,' zei hij altijd. 'Het schuift maar, en het doet maar, en het komt maar nooit aan in mijn hart, maar het is een mooi gezicht, dat wel.'

12. 'Je bent zo mooi als mijn vrouw eens was,' zei de man op een dag tegen de verzorgster. 'Mijn vrouw was als een tuin, vol wonderlijke geheimen, en toen ik dacht, nu wil ik eindelijk dat geheim weten, toen ging ze weg. Ze werd van mij weggetrokken, naar een verpleeghuis. Maar ik had het boek nog niet uitgelezen.'

13. 'Veel dingen zullen nooit afkomen,' zei de verzorgster. 'Er is niet voor alles tijd.'

14. 'Is dat niet sneu?' vroeg de man. 'Of misschien hoort het zo. Weet je hoe ik het bekijk, ik denk dat het verhaal in een ander boek verder gaat.'

15. De verzorgster knikt. De kamer was vol met de geur van de tuin, gloeiende rozenblaadjes, gloeiend in de zon, bijna schroeïend. Het leek alsof ze van binnen bloedden. 'We zijn soldaten in de oorlog,' zei de man. 'We moeten ons pad zien te vinden. Zovelen weten niet wat hen te wachten staat, als ze dieper in de tuin van het leven komen. Alles sterft hier af.' De verzorgster knikt weer. 'Ja, we moeten op die andere frequentie zien te komen,' zegt ze. 'Want deze loopt dood. Het is een overgang, je voelt de stromen van de bloemen door de lucht heengaan om het pad voor ons te banen. Voelt u dat?'

16. 'Ja,' zegt de man. 'De bloemen weten meer dan wij. Dat is waarom ik altijd van tuinen heb gehouden. Er zijn daar geheime gangen. Zij kunnen leiden tot de hemel.' Midden in de nacht groef de man zich in in de grond. 'Ik wil een bloem worden,' zei hij. Het was tijd dat hij een plaats kreeg

in het verpleeghuis. Hij had het niet meer in de gaten, dat dit niet zijn eigen huis was. Hij was zich niet echt bewust van de overgang. En de verzorgster zocht hem nog vaak op, en er was een prachtige tuin, nog wel prachtiger dan zijn eigen tuin ooit was geweest. 'Wat is mijn tuin toch prachtig geworden,' zei hij trots. En als andere mensen over de schoonheid van de tuin spraken, dan zei hij altijd : 'Ja, ik heb er hard aan gewerkt. Het is niet voor niets geweest, al die lange jaren.' Ook het huis zag er *pico bello* uit, en hij voelde zich als een koning. In het verpleeghuis werden ook kerkdiensten gehouden, maar hij zei altijd tegen de predikant dat hij de politie was. Hij begreep de werkelijke strekking van het verhaal niet meer. Mensen vonden het altijd een beetje vreemd als hij over zijn kinderen, de goden, sprak. Veel van de mensen daar waren toch wel diep gelovig. Hij kon verschrikkelijk opscheppen, en vaak had hij het hoogste woord. Over zijn vrouw die de hemelpoort zou zijn, en dat iedereen zijn vrouw moest aanbidden om in de hemel te kunnen komen. Maar eigenlijk wist hij niet goed meer wat de hemel was. Eens stapte hij op een andere man af met zijn glas, wees in het glas en zei : 'Zie, daar is de hemel.' En sommige mensjes waren erg goedgelovig.

17. Op een dag moest en zou hij preken. Hij duwde bijna de predikant weg van zijn plaats, ging staan en zei : 'Geliefde broeders en zusters, wij, de goden, hebben vandaag besloten u op deze manier toe te spreken. U bent aangekomen in de hemel, gefeliciteerd. U mag elkaar de hand schudden en kussen.' En enkelen begonnen dat ook te doen, maar anderen werden overstuurd. 'Ik ben de kapitein van het schip,' zei de man. 'En wie het daar niet mee eens is wordt overboord gezet.' Na een tijdje luisterden ze allemaal aandachtig naar hem. Hij bedoelde het niet kwaad. Na een tijdje stapte hij op, maar al snel wilden ze hem weer hebben. Elke zondag wilden ze naar hem luisteren. Ook de verzorgsters en verzorgers vonden het interessant. Ze stonden ervan te kijken hoe snel hij leefde in het verpleeghuis. Hoe hij zich vrijer voelde dan hij ooit was geweest. 'Een groot profeet is opgestaan,' riep een man eens tijdens zijn preek.

18. Hij heeft zijn oude levensstijl vergeten, zijn oude denkstijl, en kan niet meer terug. Hij heeft het gevoel dat er wat fout zit, en kan daar vaak kwaad om worden. Hij wil weer tuinieren, en wordt kwaad als het niet lukt. Een vreemd gevoel heeft zich van hem meester gemaakt, en vreet hem aan van binnenuit. Alsof er een spin in hem leeft, dodelijk, onvermoeibaar, met een duidelijk doel. En hij ligt verstrikt in het web. Wat kan hij doen ? Alle ervaringen zijn maar voor even, om daarna nog dieper weg te vallen. Hij bereidt zich voor op de dood, die maar niet komt. Als hij vrouwen ziet borduren, is het alsof zij hem van binnen prikken. Hij kan daar kwaad om worden. Hij raakt meer en meer geïsoleerd van de anderen. Hij heeft zijn eigen kamer. Nog steeds denkt hij dat het zijn eigen huis is, en dat de anderen noodgedwongen bij hem logeren, want buiten is de grote zee, de vloed. Hij herinnert zich een oud kinderversje : Alle dieren twee aan twee, gaan met Noachs ark mee. Hij is er van overtuigd dat hij Noach is, en dat hij hen allemaal gered heeft met zijn ark, zijn huis. Maar nu heeft hij rust nodig. 'Waarom ben ik zo moe in het paradijs ?' vraagt hij zich af. 'Is er soms een slang in het paradijs ? Ben ik gebeten ? Of is dit de hel, is dit mijn straf, ben ik niet uitverkoren ?' Maar de religieuze verwarring maakt al snel weer plaats voor de grote trots over wat hij allemaal al heeft bereikt in zijn leven : kapitein op een schip. Hij wijt zijn religieus trauma aan een vroegere aanval van zeerovers. Die zouden hem op zijn hoofd hebben geslagen. Zijn geheugen gaat op en naar en maakt rare draaiingen. En dan valt hij op een dag helemaal in een grijs gat. Alles tolt voor zijn ogen. 'De zeerovers,' roept hij. 'Ze hebben teruggeslagen.' En dan zijn ineens zijn woorden niet verstaanbaar meer. In zijn hersenen gaat alles traag, alsof ze alles vormalen wat nog is overgebleven. Het is hem zwart voor de ogen nu. Hij kan zijn gedachten niet meer onder woorden brengen. Hij denkt dat hij overboord gegooid is, en dat vissen hem aanvreten, haaïen. Hij zweeft op het randje van de dood. Hij ziet bloeiende tuinen, gloeiend, bijna schroeïend in de zon. Hij denkt

dat hij dood is. Hij voelt zich alsof hij door een donkere gang met bloemen gaat. Hij kan met de bloemen spreken, ze verwelkomen hem. Maar dan is alle verbinding verbroken, en is alles zwart. Hij voelt zich hopeloos verloren, maar even later lijkt het alsof hij in een bloem ligt. De dood ademt hier.

19. Hij leeft weer in het verleden, alsof zijn vrouw er nog is, zijn zusjes, zijn vader en moeder. Zijn zusjes spelen op het plein. Ze zien eruit als popjes. Hij wil ze omhelzen, maar dan staat hij stijf. Zijn vader roept hem. 'Zeg Noach, afwassen.' Ook gaan ze naar de kerk. De stem van de dominee echoot door de kerkzaal. Hij zit weer op school. De leraren staan voor hun schoolborden, waaruit struiken komen om de kinderen mee te nemen. 'Eindelijk,' denkt hij. Al zijn nachtmerries komen terug, de struiken die hun dorens in de monden van jonge kinderen stoppen, en hen in hun tanden steken. En die dorens blijven daar zitten. En pepermunt wordt er in de kerk uitgedeeld, van de mintstruik.

20. 'Ik vraag jullie te luisteren,' zegt de leraar.

- Nee, zegt een kind.

'Dan ga je maar naar de directeur.'

- Geen sprake van.

21. Zo gaat dat altijd. Moe wordt hij ervan. Altijd en eeuwig die dictators. Slangen in het paradijs. Zijn hoofd is heet, zijn oude woede stroomt. Hij heeft zijn vrouw nodig, de poort naar de hemel. Maar hij is jonger nu, en speelt op het plein. De kinderen hebben ruzie. Honden in het paradijs. Ze rennen, ze zijn op jacht. Het zijn vuurbessen in zijn hoofd, de honden van gebrek. Hij ziet de engel des doods, zo vroeg al, zich mengende in het kinderspel. Zijn bittere klauw beroert het zoete kinderhart, en plant het trauma daar, als een pad leidende tot de dood. Zo zijn wij allen hier opgehangen. En op het huwelijk? Trots kijkt zij hem aan, en dan wordt de spiegel ineens ingeslagen. De engel des doods is hier. Ruw worden kinderdromen verstoord, moeders en vaders gillen. De engel des doods vertrekt met het kind, met de pop, ramen inslaande, deuren intrappende, baant hij zijn weg. De engel des doods is hier, waar Maria haar niet kan tegenhouden. Het is een vrouw, het gezicht van een lerares, een dokter, een arrogante blik. Ze heeft haar lange reis gemaakt vanuit de hel om toe te slaan. De oogst van de hel is bijna rijp, hier staat zij met haar sikkel en zeis, als de Zwarte Maria. Hij smeekt haar het kind te sparen, maar koelbloedig neemt zij het kind mee.

21. Onbarmhartig heeft zij toegeslagen. Bij het zien van het leed verroerde zij geen vin, koud als de dood was zij. Haar engel vindt haar weg door harten, om te verwonden. Zij sluit geen compromissen, laat zich niet omkopen. Haar zwarte klauw komt om te grijpen en te doden. Zij komt om te breken, om dat wat alreeds zwak is gemaakt mee te nemen. Ze laat woede achter, onbegrip, verscheurde gevoelens, een doorboord hart.

22. In haar doolhoven zijn we verdwaald, in haar web verstrikt. De confrontatie is onvermijdelijk. Ze laat al haar wapens zien in een reflex. Ze heeft een dodelijke wond, want eens kwam ze haarzelf halen. De engel des levens kijkt haar goedkeurend en bewonderend aan, en we staan schaakmat. Is er nog een andere engel die meeleven toont, dan is dat een gevallen engel, en zo wordt alles weggestreept. Hij wil opstaan uit de kerk, maar hij kan het niet. De woorden van de dominee geven hem troost.

23. De koude hand voelt hij, die zijn schouder indrukt, het machteloze gevoel, de woede, maar het woord van de dominee is verzachtend, ontgiftigend, totdat de engel des doods weer toeslaat. Haar reis vanuit de hel stopt hier. Hier neemt zij haar woning. Maria draagt een zwart kleed, haar

soldaten hebben zwarte helmen, en die zwarte bessen moeten gegeten worden. Hij schreeuwt, vol woede, maar ze sluiten hem op. Een gevallen engel noemen zij hem. Een engel ? Wat is dat ? Heeft dat met een auto-industrie te maken ? En de bijbel, wat is dat dan ? Hij weet het niet meer, in zijn hersenen verliest hij grip. Er is een koud gat in zijn hersenen, glibberig, als besmeurd met uitwerpselen. Het is maar een darm. Voedselresten, niets anders, en een grotere vertering moet nog komen ? Of blijft het hierbij ?

24. Hij staat op straat, het regent. De stad lijkt bezaait met hondenpoep, en nu zwemt het rond in de regen die zich ophoopt op de grond. Kinderen hebben plezier in rubberbootjes. Hier hebben ze altijd van gedroomd. Diepliggende garages lopen onder. Hij kijkt rond. Hij heeft een paraplu. Zo maakt de bakker dus zijn brood, denkt hij.

25. Hij mag er wezen. Hij voelt zich vrij. Het is dinsdag. Hij loopt naar de brug over het smalle riviertje. Dan gaat hij de winkelstraat in. Hij leest een krant die in het regenwater drijft, althans dat probeert hij. Op zoek naar een gouden boodschap, maar al wat hij ziet zijn de eentonige, naargeestige boodschappen van de engel des doods. Met monotone stappen loopt hij verder. 'Hier woonde Iris vroeger,' bedacht hij zich. Maar hij loopt haastig door. Het water is hem bijna tot de knieën gestegen. De stad lijkt nu bezaaid met de uitwerpselen van honden. Het zijn de honden van gebrek, maar hij is gelukkig nu. De apocalypse kent hij nu, de schalen des hemels die over het verloederd volk wordt uitgegoten. Hier heeft hij zo lang op gewacht. En het regent maar door, en de dijken breken door, en hij klimt in een boom. Dit is de boom waar hij als kind altijd in speelde, waar hij zijn hutten had, en zijn eerste vriendinnetjes. De boom was nu veel langer. Ja, hij zou de zondvloed overleven. Deze boom, als de kroon van zijn tuin. Lange schaakstukken staan op de dijken.

26. Hij zoent met Klara, dan met Els, maar op Klara wordt hij steeds verliefder. Hij trouwt met haar, alles in het wit. De tuin is voor hem het belangrijkste. Die boom moet groeien, anders redden we het niet. Op de dijken en duinen loopt hij, de koppen afhakkende van lange schaakstukken. Zij zijn de weg naar de hemel niet, en hij is de politie. Het gaat om de boom. Maar nieuwe koppen komen uit de schaakstukken ploppen. Hij is in een gevecht met de engel des doods. En de engel des levens lacht. Ze waren zo verliefd. Hij ziet haar staan, bij de brug, Kirsten, zijn eerste liefde. Ze is in schitterend wit met allerlei hangende touwtjes. Hij komt dichterbij en de bliksem slaat hem. Ze staan bij een boom, een andere boom, en dan kussen ze elkaar. Een langere jongen gaat er uiteindelijk met haar vandoor, en dan wordt ze een popje van een andere tuin, vreemd voor hem. En de jaren daarvoor was de liefde in hem zo zwak dat hij alleen maar kon dromen. Er waren zoveel andere dingen in hem die hij veel belangrijker vond. Een auto was belangrijker dan een meisje. De juffrouw was belangrijker dan een meisje. De sterkste zijn was belangrijker dan een meisje. Het meeste hebben was belangrijker dan een meisje. Hij trok aan datgene wat de engel des doods vasthield. Hij wist niet wat het was, maar hij wilde het hebben. Een ongelovelijke kracht maakte zich van hem meester, een jeugdige kracht, en zij liet los. Hij hoorde een schreeuw, een gil. Hij hield de engel des levens in zijn armen. Hij trok haar door het inmiddels tot de nek gestegen regenwater. 'Kom naar de boom,' riep hij.

27. 'Wij weten allemaal wat de enige weg is,' zei de dominee. Hij wist het niet meer. 'Ja, maar de stad, de stad,' riep hij.

28. 'Grijp de boom,' riep de dominee. 'Kus haar. Beklim haar. Ze is van jou. Ik verklaar u nu man en vrouw. En deze bijbel mag jullie huwelijk bezegelen.' Hij wist niet wat de bijbel was. 'Liefdesbrieven van Klara of van mijn eerdere liefdes?'

29. 'Allemaal,' zei de dominee. 'Onderhoud nu je tuin.'

30. 'Bind haar aan de boom,' riep iemand. 'Trek haar op,' riep een ander. Een politie-agent deed hem in de boeien. 'Waarom heeft u deze vrouw opgehangen?'

31. 'Ik probeerde haar te redden. Ik ben zelf een politie-agent,' zei hij.

32. 'U moet voorkomen bij de engel des doods,' zei de agent. Ze zat daar in de hal, vooroorlogs. 'Nu is het oorlog,' riep ze. 'Je hebt het vuur van de goden gestolen, Prometheus, en aan de mensen gegeven. Je kent je straf.' Een gier vloog op hem af, om van zijn lever te eten, die tegelijkertijd weer aangroeide. 'Gier,' zij hij. 'Breng haar tot de ark, de grote boom, we missen nog een paar dieren.'

33. De gier vloog op haar af en greep haar.

De Oase

34. Ze had satijn aan, als een popje. De juffrouw had alle kinderen onder haar macht. Als haar poppen waren ze, en ze behandelde hen goed. Alle jongens waren verliefd op de juffrouw, maar er waren belangrijkere dingen dan de juffrouw. Het jaar daarop kregen ze een nieuwe juffrouw, een verschrikkelijke, het tegenovergestelde van de vorige juffrouw. De nieuwe juffrouw was als de engel des doods, als een wild en gevaarlijk dier. En toch wist ze zich te gedragen dat jaar, en kwamen ze er heelhuids doorheen, en het was maar voor een jaar. De dag des doods was voorbij. Het schip triomfeerde in de haven, aan de kade. 'Moet dat nou, al dat bloot?' vroeg zijn vader toen hij meer en meer ging tekenen.

35. 'Ja, open en bloot,' zei hij. 'Ik laat ze niks meer verbergen. Dieren zijn toch ook bloot?'

36. 'Het is een onderwaardering van het vrouwelijke geslacht,' zei vader. 'Zie jij vrouwen als dieren?'

37. 'Bomen staan toch ook bloot?' zei hij. 'Het is onze enige redding.'

38. 'Nee,' zei vader, 'je weet wie onze enige redding is.'

39. Maar hij wist het niet meer. Hij was gefixeerd op de boom. De noot moest gekraakt worden, gepeld, tot aan de pit. 'We hebben lang genoeg gewacht, vader,' zei hij.

40. 'Jij groeit op voor galg en rad,' zei vader.

41. 'En jij groeit op voor de kus van de engel des doods,' zei hij tegen vader.

42. Maar het schip triomfeerde in de haven, aan de kade. De lage boompjes op de grond, de struiken in het diepe zand, warm zand was het, en het leek alsof ze allemaal bewust waren. Het zonlicht leek rinkelend. Hij kon het zich niet meer herinneren, en werd een treurig persoon. Hij wist snel niet meer wat bomen waren. Het dwaalde allemaal op hem heen. Hij lag vaak op bed. Hij was vaak moe, als gekust door de engel des doods. Een diersoort was het in zijn ogen, gemeen, opdringerig.

43. 'Praat niet zo over engelen,' zei vader. 'Het zijn heilige wezens.' Maar hij wist niet meer wat heilig was. Er was een diep gemis in zijn hart, het knaagde. De somberheid van het alledaagse leven overspoelde hem, verlamde hem.

44. 'Trouw haar,' zei de dominee. Het was zijn verlossing uit dat gezin. Klara dronk veel, en hij lustte ook wel een borreltje op zijn tijd, en steeds meer begonnen ze zich in hun huisje terug te trekken. Het was alsof ze alcoholische sappen aan de bomen konden onttrekken. Hij likte aan de bomen.

45. Zij was het schilderij in zijn huis, een schilderij van groen-metalen maaiers, waarmee hij wel over elke wilde haardos wilde gaan. De groen-metalen maaiers schitterden in het zonlicht. Het was een warme, mooie dag. Ze waren als de wachters van de engel des doods. Maar ze had haar betekenis verloren. Ze was als het ei op tafel. Het was paas-ochtend, de geur van het lijden na de dood, nieuw leven brengend. Zijn vrouw stond in de keuken. Hij staarde naar de tuin. Het zou een prachtige dag worden met veel zon. Er was geen krant vandaag, en op de televisie was er het levenslied. Zijn vrouw kwam even later met de koffie binnen, en ging toen zitten om te breien. Het was alsof hij alles weer opnieuw beleefde. Ze zat ver weg van hem, of dat kwam door de vele spullen die tussen hen stonden. Het huis stond vol met de dierbare spulletjes van zijn vrouw. Er werd niet veel gezegd. Het ging bergafwaarts met zijn vrouw, en snel werd ze door de engel des doods weggehaald. Een groot ei zweefde boven de vijver. Deze had zijn vrouw opgeslokt. Het was alweer pasen. Het jaar daarna was hij alleen. Hij at veel eieren, om iets van zijn vrouw terug te krijgen, maar hij ving veel bot. Hij liet schilderijen in zijn huis hangen, Franse schilderijen, met wulpse gestalten die 's nachts tot leven kwamen, tot hem kwamen, om hem te beladen met kerkelijke schuld. Hij wist dat er wat mis was met hem. Hij had aan bomen gelikt.

46. De nachten duurden lang, waren diep, waarin hij vele gesprekken voerde, naar de schilderijen staarde. Hij liet een bar plaatsen. De gestalten van de schilderijen moesten zijn vrouw vervangen, de leegtes opvullen. Maar de kerkelijke prijs was hoog, een prijs die opliep tot aan pasen. Hij was de gekruisigde, hij was de engel des doods. Hij was voortijdig gekomen, gevallen was hij. Maar het grote boek begon de betekenissen te veranderen. Het was een draaiboek, een boek van rekeningen, en hij doneerde veel geld om zijn geweten los te kopen, uit deze hel. Hij was het zelf die die lange reis vanuit de hel had gemaakt, en nu was hij hier, met al zijn groengelakte maaiers. De tuin vroeg erom om gemaaid te worden, en het was een mooie dag. De tuin was klaar om haar oogst te geven. Hij greep, miste, en greep nog een keer, en was vereeuwigd in een schilderij. Hij met de zeis, gedood om te doden. De vlaggen hingen uit buiten. Hij herinnerde de verzorgster die kwam. Hij liet haar ook aan bomen likken, en zij werd als hem. Zij leerde van hem. Hij had een machts-positie. Zij aanbad hem omdat hij ouder was, en veelkleurig was. Voor haar was hij niet ziek maar vrij, een verlicht mens. Hij liet haar het schilderij zien waarop hij stond. 'Is dat je grootvader?' vroeg ze.

47. - Nee, dat ben ik.

'Je lijkt veel ouder hier.'

- Macht verouderd.

'Wie heeft het geschilderd?'

48. Hij zwijgt, en hangt het schilderij weer terug. Met pasen eten ze altijd samen paas-eitjes. Dan herinnert hij zich niks meer, en gaat terug in de tijd, zo ver, dat hij bij de witte lijnen aankomt. Als hij erover gaat zal hij sterven. Hij beweegt zich helemaal tot het randje van de laatste streep. Hij kijkt in de diepte van een reusachtig ravijn. 'Hier wil ik niet sterven,' denkt hij. Hij gaat terug, en

hoort zijn vader en moeder tot hem spreken, hem betuttelen. Hij is niet vrij. Strak wordt hij opgevoed. Zijn vader bespeelt hem als een pop. Zijn moeder kan hem niet bereiken. Hij heeft een ei met vele stralen in zijn hart. ‘Alleen een vrouw kan me hieruit redden,’ denkt hij.

49. ‘Wil je met haar trouwen?’ vraagt de dominee.

‘Ja,’ zegt hij.

‘Dan is zij nu uw vrouw.’

50. De kerkdienst gaat verder. Zijn vader en moeder zijn verdrietig omdat ze hem kwijt zijn. Ze wilden hem in een hokje houden. De dominee neemt het hok over. Als dieren zijn ze in het schip van Noach, twee aan twee. Zijn vrouw kan goed naaien en breien. En borduren doet ze ook graag, maar het steekt hem. Het steekt hem dat ze toch ook zo ver weg is. Ze leven in verschillende werelden. Ze breekt zoveel van zijn hart weg, door haar geprik, als een spin die hem van binnen aanvreet. En met pasen zijn er nieuwe eieren. Hij is het paaskind, maar hij kan niet opnieuw geboren worden. Daarvoor zijn de banden te strak. De tijd brengt dood voort, geen leven. En hij gaat het tegemoet. Een vrouw moet hem redden. Zijn eigen vrouw is niet genoeg, het gaat niet diep genoeg, alhoewel ze diep steekt. Dan zijn daar de Franse schilderijen. Met deuren die 's nachts opengaan. Hij leert hen bomen likken. Ze worden als hem, en kunnen niet meer terug. Ze zijn de stralen van het ei. Hij is de kapitein op het schip, en buiten loeren de haaien op hem. Ze willen hem naar een verpleeghuis brengen, net als zijn vrouw. Zijn vrouw woont nu in de haaien, als de prinses der haaien is zij. Ze hebben haar overboord gegooid. Hij zal hen vinden. Hij is de engel des doods, het ei met de vele stralen. Hij had niet moeten slapen, hij had zijn tuin moeten onderhouden. Nu is ze weg. De Franse soldaten hebben hun Napoleon gevonden. Hij steekt zijn maaiers in de fik, en is klaar om te gaan grillen. De honden van gebrek zijn in de stad. Nu is alles in vuur. Hij zal zijn vrouw vinden. Hij zal haar vinden in de haai die haar opslokte, en van die haai zullen ze hun boot maken. Maar zijn herinneringen draaien, en zijn ziedend, en dan weet hij ineens niks meer. Hij weet niet dat hij ooit een vrouw had. Hij heeft nu de gedachte dat ze er nooit is geweest. Ze probeerden hem iets op de mouw te spelden. Hij woont alleen. Zijn huis staat in een klein bos, met een bloemenveld. Hij woont hier eenzaam en verlaten, met zijn maaiers. Veel te maaien elke dag. Daar trekt hij zich aan op. En schilderijen zijn zijn passie maar zij zijn dood. En ook boeken zijn zijn passie, maar zij zijn dood. Hij houdt van de engel des doods. Het leven is te eng. Hij heeft een Maria-beeld naast de televisie, wat hij ooit heeft zwartgeverfd. Er is een lamp in geplaatst. Hij aanbidt haar, maar dan verdwijnt haar betekenis. Ook zij is dood. De dode kunst trekt hem aan, en het dode water der bomen, de alcohol. De lucht ruikt naar drop. Hij durft niet naar het toilet, daarom gebruikt hij een po die hij eens in de week verschoont. De po staat boven, en bakent zijn terrein af. Het beschermt hem tegen de wilde dieren van het bos. Hij staart uit het raam en ziet de uitgestrekte velden der vergetelheid. Hier zijn de witte strepen. En nu wil hij er echt voor gaan. Hij vecht, hij schreeuwt, hij overwint, en verliest dan. Beelden staan er in zijn huis, die het Christus-verhaal uitbeelden. Vaak gaat hij langs die beelden. Die beelden zijn als zijn huisdieren, veilig in de ark van Noach. De ark van Mozes heeft horens. Hij komt dichterbij, en de geur van wierook, drop en chocola overspoelt hem, maar ook de geur van hondenpoep. Hij grijpt de horens van de ark, maar wordt dan achteruit geslagen. Boven de ark verschijnt een ei met vele stralen. De ark verandert in een doodskist, en hij heeft het gevoel alsof hij in een lift zit, en wordt uitgestrekt als een sigaar in een sigarenhouder. ‘Ik ben een van de velen,’ denkt hij. ‘Velen zijn geroepen, weinig uitverkoren.’ Doodsangst overvalt hem.

51. Zijn hang naar materiele goederen wordt groter, die zijn hersenen bevroren. Goud en metaal is zijn lust, edele metalen, het liefst gelakt. De badkamer is als een ark voor hem. Hij staart veel naar bijbeltaferelen op schilderijen, maar hij kan ze nauwelijks herinneren. Hij is alleen, in een koel huis. Hij strijdt tegen alles totdat het dood is. Het dode heeft de vlam van ander leven, elitair leven, fijngevoelige kunst. Maar hij kan dit leven niet opbrengen. Het hout om hem heen begint te rotten, het goud om hem heen begint te stinken, en het koele begint hem te steken. Een spin vreet hem aan, een groep dolle wolven. De honden van gebrek zijn hier, de honden van een duivels paradijs. Zij nemen hem mee naar het verpleeghuis, en zij gaan zijn huis bewonen. Zij hebben al zijn medailles afgenomen, om er zelf mee te pronken. 'Alleen de duivel kan de duivel overwinnen,' denkt hij. Hij weet nog nauwelijks wie of wat de duivel is. Hij ziet het als een wapen. Hij moet zich verdedigen, maar hij kan het niet. 'Ik kan net zo goed Frans praten,' denkt hij.

52. De juffrouw houdt hem stevig vast.

53. 'Wil je met haar trouwen ?' vraagt de dominee.

54. Hij knikt verlegen. Als hij thuis is maait hij het gras. Zijn vrouw komt hem een hoog glas brengen. Later zitten ze in de tuin. Ze gaan vroeg naar bed. Zijn vrouw leest voor. Over de engel des doods wordt niet gesproken. Wel weten ze dat het een plaaggeest is. Dan gaan ze slapen. Zijn vrouw kust hem. Hij houdt haar hand vast. Zijn zusjes wonen bij hem in. Ze zijn paas-eitjes aan het beschilderen. Als hij het ziet krijgt hij er honger van. Zijn zusjes spelen vaak op het pleintje, waar ze spelletjes doen. Ook zijn ouders wonen bij hem in. Hij draagt het ei met stralen. In de nacht maait hij. Dokters nemen hem mee in de nacht, zeggende dat hij schizofreen is, een gevaar voor de samenleving, met zijn maaiers. Zij nemen hem mee en sluiten hem op, ver weg van het oog van zijn familie. Zij willen het ei met de stralen uit hem roven, maar zij kunnen het niet. Hij denkt dat zij buitenaardsen zijn. Van de planeet aarde schijnt hij nog nooit gehoord te hebben, en wil er ook niet zoveel mee te maken hebben.

55. Met hem schijnt het beter te gaan nu ze hem nieuwe pillen hebben gegeven. Hij is inmiddels in het ziekenhuis, op een speciale afdeling. Langzaam begint hij weer uit bed te komen. De zusters bewonderen hem vanwege zijn humor en zijn markante persoonlijkheid. Hij is bijna hun god. Hij wordt hier als een prins behandeld, als een prins die van het paard is gevallen, zoals hij dat altijd zegt. Snel heeft hij een vriendin, en zijn gezondheid verbeterd steeds meer, tot zo'n hoogte dat hij zelfs weer op zichzelf zou kunnen wonen. Met zijn vriendin krijgt hij ergens een woning hoog in een flat. Zijn vriendin is veel jonger, maar door de pillen verjongd hij ook. In zijn flatwoning voelt hij zich al snel als de prins van Bagdad. Door de pillen loopt zijn leeftijd zo drastisch terug dat hij op een gegeven moment nog maar twintig is. Het voelt heerlijk aan tussen de hoge flatgebouwen. Hij staart vaak naar de overkant. Hij voelt zich vitaal. Tussen de flatgebouwen door zijn de prachtigste rozentuinen, waar hij vaak doorloopt of langsloopt met zijn vriendin. Er hangt een beetje een oosters of Arabisch sfeertje, en dat bevalt hem wel. Maar de rozenstruiken groeien steeds hoger en worden steeds dichter, om zo de flatgebouwen te isoleren. Nu voelt hij zich als Doornroosje. Ze gaan verhuizen en krijgen een flatje aan het weiland. Op dit tijdstip begint het weer slechter met hem te gaan, ook al is hij twintig. Misschien dat nu de ouderdom toch echt toeslaat. Weer belandt hij in het ziekenhuis, maar hij voelt zich nog steeds de prins van Bagdad, en zelfs van heel Arabie. Hij staart vaak naar de stenen van het ziekenhuis die zo'n aparte kleur hebben. Vooral als het zonlicht erop valt heeft het een prachtig effect. Zacht roze is toch wel de mooiste kleur, denkt hij.

56. En als zijn vriendin bij hem op bezoek komt heeft ze zo'n mooie roze jurk. Ze neemt hem mee voor een wandeling langs het meer. De melkfabriek staat hier dichtbij en alles ruikt hier aangebrand. In zijn gedachten zweeft hij met haar over het meer, en roze zwanen volgen hen. Even later liggen ze beiden in het koele meer. 'Zullen we naar de overkant zwemmen?' vraagt hij. Zijn vriendin vindt het best. Dat hebben ze al wel eerder gedaan. Achter het meer zijn de weilanden, en achter het weilanden is hun flat. Helemaal nat komen ze aan in hun woning. Maar hij zorgt dat hij voor het donker wordt weer in het ziekenhuis is. Ook al is hij nu dan weer in het ziekenhuis, deze laatste bladzijden van zijn leven zijn sterk en roze, als rotsen waarop hij kan bouwen. Hij voelt zich veilig hier, iets wat over hem waakt. De golfjes die hier aankomen brengen voornamelijk geluk. Een oase was over hem heengevallen, en dat was allemaal net op tijd.

3.

1. En de Zoon van Christus was genaamd Karakter, de rode spinvlieg, die de Poort der Rode Strepen opende, de vijfde poort. En de rode strepen zijn de vele kinderen van Christus. Zo is dan Karakter het hart van Christus, Zijn Naam, de tweede Christus, als het konijn der eeuwigheden, als de konijnenboom die tot in alle eeuwigheden groeit. 2. Roep dan Zijn Naam aan. 3. En zij die wijsheid hebben zullen het openen der poorten verstaan, en zij zullen deze poorten binnengaan door de Vokolkus. Bereken daarom de Vokolkus en doet onderzoek in haar, want zij is een licht op uw pad. 3. En de engelen droegen het Kind van Christus naar een verborgen plaats, waar de draak het kind niet kon vinden. 4. Kindekens, bereken dan ook het getal van de draak, opdat gij zult overwinnen. En dat getal is vijvenvijftig. Oh, hoe lang zult gij nog slapen. Wanneer zult gij opstaan om het licht te vinden. In de dieptes van het woud wil Ik u leiden. 5. Komt dan tot de rivier in het bos, waarover Christus ging in een boot, in de onderwereld. 6. Volgt dan nauwgezet in zijn sporen en voetstappen, opdat gij niet zult branden. Want velen zullen branden omdat zij andere christussen hebben gevolgd. Kent daarom uw lessen. 7. Zo zullen zij die de Vokolkus kennen deze dragen als een kroon. 8. Ja, heiligt dan de achtergrond-geschriften van het Eeuwig Evangelie, want zij zijn u ten leven, en zij dragen de sleutels tot de bijgeschriften en tot de canon. 9. Laat daarom niemand deze geschriften gering achten, want zij die deze dingen verachten, met hen zal niet gerekend worden. 10. Onderzoekt de schriften, en wordt wijs, want de dagen zijn duister. 11. Deze profetische geschriften dan zijn heilig, en aan u geschonken opdat gij Hem leert kennen die u schiep. 12. Ja, teder heeft Hij u geschapen, in een mand van licht, en Hij heeft u verre gehouden van de slangen. 13. Ontwaak uit de duisternis, en hangt Hem aan, want Hij leidt u. En Hij zal u leiden naar zachte rivieren en zoete wateren, om de wonden van uw harten te verbinden. Ja, Hij zal u tezamen smeden als kostbare metalen, tot een wapen tronende in alle eeuwigheden. 14. Zo bent gij dan ontwaakt uit het onrecht. Gij hebt deze dagen mogen aanschouwen. Weest daarom dankbaar. 15. En gij zult zien hoe de Zoon van Christus de vijfde poort opende. Ja, hij opende deze door de slang en het wiel. En dit, geliefden, is een groot geheimenis. En velen zullen komen om hun hoofden over dit geheimenis te buigen. 16. Let dan op het teken van de ekster, want zij bewaakt dit geheimenis. En zij die het geheimenis hebben verstaan, zullen hun jeugd hebben hervonden, ja, tot in alle eeuwigheden.

4.

Arabisch Amalgam

1. Ik, 27 jaar,
Lang,
Doe mezelf ouder voor dan ik ben.

2. Zij, 44 jaar

3. We zijn gelukkig samen, alsof we het eeuwig geluk hebben gevonden. Toch leiden we een saai leven, een sleur, zitten we opgesloten tussen muren. We leven meer in de dalen dan op de toppen. We mogen niet klagen, alcohol vult altijd de leegtes op. We moeten beiden oppassen geen alcoholisten te worden, maar we hebben het nu redelijk onder controle. Vaak als we klachten hebben wordt ons alcoholische dranken voorgeschreven door onze dokter. Onze dokter is wel alcoholist, maar daar hebben wij genoeg meegenomen. Dit omdat het een aardige man is, en dat zijn dokters zeer zelden. Hij neemt ons serieus en heeft ons op sleeptouw genomen.

4. Zij, is kleiner dan mij, heeft grote borsten die het leeftijds-verschil opvullen. We hebben geen kinderen, en dat willen we ook niet. Ze is rustig, ik ben tamelijk druk, dus we houden elkaar in balans. Zij leert mij nu om rustig te zijn, ook om mijn innerlijke stem te verstaan. Innerlijke vrede noemt ze dat. De dokter is hier weleens dronken geweest. We hebben besloten hem de hand boven het hoofd te houden. We zouden hem nooit verraden. We zijn niet kerkelijk, maar gaan wel naar een discussie-groepje om daar de dingen van het geloof te bespreken. Veelal wordt het geloof vanuit de atheïstische hoek bekeken, aangevuld met kunstzinnige ideeën. We beschouwen het geloof als een vreemde erfenis, als cultuurgoed, maar voelen ons ook ingenomen, onder schrikbewind, door kolonisten uit het midden-oosten. We hebben nog geen geestelijke onafhankelijkheid. Ook de psychische gezondheidszorg houdt ons nog in mentale afhankelijkheid, en de zogeheten tandheelkunde houdt ons in orale afhankelijkheid, en deze bezetters komen allemaal uit het oosten aanwaaien. Trots zijn we er niet op, we hebben meer binnengelaten dan ons lief is, en hebben onze onafhankelijkheid prijsgegeven aan idioten, beulen. Maar ja, het was immers oorlog, het was een strooptocht, kolonisten zijn uit op kolonies, het creëren van een apartheid. Deze kolonisten hebben een minderwaardig ras geschapen, wij. Het is voor het leken-ras verboden na te denken. Er wordt al voor ons gedacht, er is al voor ons gedacht, en er zal nog veel voor ons gedacht worden. Dat de etiketten niet passen is niet van belang. Het zijn de merktekens van het beest.

5. En dan is er nog de sex-politie die ons seksueel afhankelijk heeft gemaakt, bang dat een onzedelijk geluidje in een oplettend kinderoortje terecht zal komen. Maar diezelfde kinderoortjes worden niet gespaard voor het traumatiserende geschreeuw van knettergekke dokters en het erbarmeloze geboor van de zogeheten tandarts. Dat diezelfde kinderen voor de ogen van hun ouders door zulke misdadigers oraal worden gescalpeerd schijnt geen probleem te zijn. In Afrika worden kleine meisjes vanwege het volksgeloof aldaar vaginaal besneden, en daar is men in de hele wereld terecht ontdaan over, en wordt het als een godslasterlijke misdaad beschouwd, maar hier worden kinderen, zowel jongens als meisjes door de bezetter oraal besneden, en geen kip die erom kraait.

6. Mijnheer A. Hoekstra-Van Het Land denkt hier anders over. In zijn zogeheten tandartsen-praktijk wordt alles veilig gedaan, en zijn er strenge voorzorgsmaatregelen, die overigens overal gelden, en waar ook een strenge controle op is. Ook worden er na de besnijding betrouwbare, goed geteste stoffen gebruikt om de opening weer mee te bedekken, zodat het gebit van het kind extra lang mee kan gaan. Mevrouw T. Foppen sluit zich hier helemaal bij aan, en ja, wat hebben wij in te brengen tegen deze bezetters? We kunnen ons hoogstens aansluiten bij het verzetstrijders-front tegen zulke praktijken. Wij hebben allemaal het merkteken van het beest ontvangen, of we nu wilden of niet, en

het merkteken is eeuwig. Daar kan zelfs God of de keizer niets aan veranderen. Er zijn hier in dit land drie oppergeloven waar iedereen zich aan dient te onderwerpen, waarvoor elke knie zich dient te buigen, en waartoe elke tong zal belijden : het medische geloof, het geloof in de geestelijke gezondheid, en het orale geloof, tot aan het dentale toe. En of je nu een dentaal bent of je bent het niet : die kerk kent geen grenzen.

7. Maarten Stokmans-Van Zeilen, zogeheten tandarts, aan de Belgische grens, vermeldt dat er de laatste tijd vreemde dingen in zijn zogeheten tandartsen-praktijk plaatsvinden. Zo zouden beugels spontaan inkrimpen, en zogenaamd amalgaam, de zogeheten grijze roestvrije metaal-vullingen, zou spontaan in het niets oplossen. Hij gebruikt daarom nu veel vaker witte en rode vullingen, die volgens hem wat meer betrouwbaar zijn. Rood is tegelijkertijd de kleur van zijn lievelingskat, dus dat geeft ook direct een emotionele verbinding met thuis. Ook is Maarten tegelijkertijd een enthousiast lid van de pinkstergemeente, en staat hij elke zondag trouw in deze kerk te klappen op de maat van de overigens heel mooie en aanstekelijke muziek. Hij heeft een visie voor het invoeren van veel meer kleuren zogeheten vullingen, zodat de mensen kunnen kiezen waarmee de barbaarse boorgaten voor eeuwig kunnen worden verborgen. Dat zou ook wat meer vrolijkheid brengen onder deze groep mensen die zo lijden onder de orale bezetting uit het oosten. Hij vindt ook wel dat de paus van de zogeheten tandartsen, Alexander de Kleine, de touwtjes wel wat mag vieren.

8. Kaakchirurg Riekerd van Aarnautsen is het hier niet mee eens, want hij vreest dat een al te zeer bemoedigde jonge generatie wel eens het einde van de bezetting zou kunnen betekenen. En dat zou helemaal godsonterend zijn. De wet die hen door God gegeven is, en waardoor zij de macht hebben gekregen, moet gehandhaafd worden. Van Aarnautsen staat hierin niet alleen. Tenminste negentig procent van de zogeheten tandartsen en kaakchirurgen staan achter hem, alhoewel sommigen gedwongen zijn dit te doen. Ook is hij van mening dat het God Zelf is geweest die het zogeheten amalgaam heeft geschapen, en dat wij Zijn schepping moeten eren en ervan gebruik moeten maken. Hij is van mening dat het amalgaam ook goed gebruikt kan worden in andere delen van het lichaam, vooral in de botten. Hij vindt het onzin om mensen die jarenlang niet kunnen slapen van de heuppijn een nieuwe heup te geven. Implantaties van amalgaam zouden volgens hem wonderen kunnen verrichten. Dit omdat het volgens hem bewezen is dat amalgaam gevoeligheid van de botten kan afdekken.

9. Ja, de verschillende meningen over amalgaam en het gebruik ervan, dat is me er eentje. Nu wil Van Aarnautsen zijn naam veranderen in Van Aernautsen met Ae, want dat staat volgens hem veel deftiger. Men is er maar druk mee, met de grote drie, de drie supergeloven van dit land. Het christelijk geloof is daar helemaal aan ondergeschikt, want ook de christen buigt voor de dokter, de geestelijk verzorger en de zogeheten tandarts. Het geloof van de zogeheten tandarts is gebaseerd op de orale besnijding, als plicht, als prioriteit, en zij die rebels daartegen zijn worden doorverwezen naar de geestelijke verzorgers, want die mensen mankeren natuurlijk heel wat. Veel mensen denken dat we in 1945 zijn bevrijd van de nazi's, maar de bezetting door de nazi's is groter dan ooit, door de medi-nazi's, de psychinazi's en de nazi's van de mond, de orale nazi's. En dit is dan ook de drie-eenheid die alomtegenwoordig aanbeden wordt. Het vullingenbeheer wordt overgelaten aan de orale organisten, de tandpasta-producenten, die net zoals de nazi's fluor gebruiken, een afvalproduct, om de gehypnotiseerde kolonie gewillig te houden. Zij bespelen met grote flair en betutteling de monden van de leken-families, zodat er niet al teveel tegenspraak zal zijn. Men moet eten wat de pot schaft, en door het geпоets komt er ook nog eens lekker veel gifdamp vrij van de kwikhoudende en kankerverwekkende chemicaliën die ze vullingen noemen inplaats van

gedwongen bot-implantaten, als de kinderdoop na de besnijdenis. En na zulk een gebeurtenis is hun naam ineens haas, en zijn alle verdere klachten voor de psychiater en de zondagsschool. Nee, dan ben ik maar als een oude jood die zegt : De verlosser moet nog komen. Een geschikte kandidaat hiervoor zou zijn Nelson Lincoln, die ook nog eens voor de dieren opkomt.

10. Onder dwangverpleging moeten we vandaag de dag van de verboden vrucht eten, om zo vervolgens nog meer in de problemen te komen, om zo nog rijper voor de verboden vrucht te worden. Dit is een vicieuze cirkel. En gedwongen implantaten hebben meer te maken met bezoek van buitenaardse wezens dan met werkelijke zorg. We zijn allang niet meer van onszelf. Maar goed, elke religie heeft zijn ongelovigen, en die moeten naar de hel. De hele wereld zal het beest achterna gaan om zijn beeld te aanbidden en zijn merkteken te dragen. De vijand werkt met vergiftiging, en met ontkenning ervan, zo is het altijd al geweest.

11. Mijnheer Olafsen uit Zutphen aan de Rijn zegt dat aan amalgaam geen enkel gevaar zit, want alles zit netjes ingedekt binnenin de kies. Nooit van dampvorming en metaalradiatie gehoord, mijnheer Olafsen ? Vervolgens zegt mijnheer Olafsen dat er maar heel weinig van het amalgaam daadwerkelijk in het lichaam terecht kan komen. Hoe weet u dat mijnheer Olafsen ? Ooit weleens opgemeten ? En weet u niet dat de apparatuur van de bezetters zichzelf echt niet zullen gaan verraden ? Drogredenaties, mijnheer Olafsen. En u heeft geen respect voor de mening van een ander, zelfs niet als het om hun eigen mond gaat. Uw wil is wet, want u heeft uw kolonie bezet, en duldt geen verzet. U houdt hen allen in slaap door het stafke van Doornroosje, met uw prikkende boren, soms tot aan de zenuw toe, en dan maar de gepleegde misdaden afdekken. Wie heeft u gezegd in de monden van gevoelige kinderen te gaan boren ? Het is niet veel anders dan Karel de Kleine die met het zwaard de ongelovigen dwong het christendom aan te nemen. En zo is de orale besnijding net zo erg als de vaginale besnijding, omdat het beiden om dwang gaat, en de klachten erbij niet serieus worden genomen. Klachten zijn de tekenen dat de bezetting werkt. En men wil dat zo houden. Alle tong zal belijden, elke knie zal buigen.

12. Bert Ootjes is door het verzet als zogeheten holistisch tandarts geplaatst in Bergen aan de Maas. Hij werd geplaatst voor het verwijderen van brandmerken, mertekens en nummers van het beest, en werkte in opdracht van de patient. Door de ongelovelijke werkdruk is mijnheer Ootjes overspannen geraakt, en plaatste het verzet een tweede zogeheten holistisch tandarts, professor Joost Achterbergen. Ook hij werkte in opdracht van de patient. Sindsdien zijn er vele zogeheten holistische tandartsen in het land gaan werken om de orale besnijdingen tegen te gaan. Veel van die zogeheten holistische tandartsen waren boorloos, maar ook de bezetters infiltrerden in deze branche, maar dan met boren. Om het infiltreren tegen te gaan plaatste het verzet scherpjes die zelf dauwdruppels konden aanmaken, en die scherpjes bezaten twee soorten poedertjes die op de zogeheten tandarts zouden reageren. Werden de dauwdruppels blauwkleurig, dan was de kust veilig, maar als de dauwdruppels roodkleurig werden, dan had de patient te doen met een infiltrant. Zo konden patienten het snel testen. Het was een uitvinding van Bert Ootjes. Niemand heeft ooit het tegendeel van de werking ervan kunnen bewijzen, en als er wetenschappelijk commentaar van buiten het verzet kwam, dan werd dat gewoon niet erkend. Het kwam er al snel op neer dat minstens vijftig procent van de zogeheten holistische tandartsen infiltranten waren van de bezetting. Velen hadden gewoon hun eigen gifjes die ze gebruikten, en de orale besnijding werd gewoon doorgezet. Ook het half serieus nemen werd een grote trend.

13. Ik ben in het verzet gegaan toen ik 25 werd, maar omdat ik op straat werd neergestoken kon ik geen actief lid meer zijn, en beperkte mij hooguit tot discussie-groepjes. Ik raakte verlamd. Ik zit nu

in een rolstoel, en moet weer langzaam leren lopen. Mijn vriendin helpt me daarbij. Vandaag ben ik met haar naar het naaktstrand gegaan omdat het buitengewoon mooi weer was. Daar waren mensen met mooie naakte plekken in hun mond, niet vervuild door de zogeheten tandarts. Alles puur natuur.

14. 28 Januari 1971

15. De flower power beweging groeit nog steeds, meer dan ooit. Ook de 'Baas in Eigen Mond' beweging groeit hard, vooral onder de jeugd. Ik kan weer een beetje lopen. De wonden zijn aardig genezen. De naaktstranden zijn dichtbevolkt nu. Overall wordt geprotesteerd en gedemonstreerd tegen de bezetting, tegen de grote drie, maar het ministerie is niet onder de indruk. Het is volgens hen door de gezondheidsraad bewezen dat de grote drie geen kwaad hebben verricht en een bevordering zijn voor de volksgezondheid. Inmiddels grijpt de bevolking massaal naar speciale tandpastas voor gevoelige tanden, want nieuwe zogeheten vullingsoorten zorgen ervoor dat zelfs duikers niet meer zo diep konden duiken als voorheen, doordat ze de druk op de mond niet meer aankunnen vanwege deze nieuwe aanwinst in de farmaceutische industrie. Dit wordt door het ministerie ontkent. De nieuwe zogeheten vullingsoorten zijn prima. De bezetting kan er alleen maar van profiteren. Er wordt alleen vanuit het hogere elite-ras gedacht. Het leken-ras is niet interessant. Steeds meer jongeren beginnen zich tegen de flower power beweging te verzetten, omdat er maar niets gebeurt. Het is allemaal te soft, en de meesten worden gezien als watjes die niets ondernemen dan mantras zingen en mandalas tekenen. De heavy metal beweging begint te groeien, en kaapt veel van de flower power beweging weg. De zogeheten underground wordt een grote attractie voor degenen die maar geen aansluiting konden vinden in de flower power beweging, of hen die erin teleurgesteld waren en grote vraagtekens hadden.

16. Bert Ootjes begint een nieuwe pseudo-industrie en wordt door de politie opgepakt en vastgezet. Hij is inmiddels de grootste verzetsstrijder die het verzet kent, en de bekendste. Hij wordt ook wel de Vader van het Verzet genoemd. In de gevangenis vindt Bert Ootjes een nieuw hormoon uit wat tanden weer kan laten aangroeien. Wel zorgt dit hormoon ervoor dat de tanden om de zoveel tijd gewisseld worden, en dat betekent dus tegelijkertijd het einde van de hele zogeheten tandheelkunde. Het hormoon is een mengsel van een stof die door haaien en krokodillen wordt gedragen, en die door een simpele injectie in een mens ingebracht kan worden, eens en voor altijd. Vanaf het moment van de injectie maakt het lichaam de stof zelf aan. Het hormoon slaat in als een bom, en naast het verdwijnen van de zogeheten tandheelkunde valt ook de geestelijke gezondheidszorg en ook het medische bewind. Nu een van de grote drie is gevallen blijkt het dat ze hun belangrijkste schakel kwijt zijn. Mensen worden gezonder doordat ze niet meer als een afvalput van gifstoffen worden behandeld. Ook het kerkelijk geloof valt hierbij in, en onze erfenis bleek niet veel meer te zijn dan een zogeheten vulling na de besnijdenis, en nu de besnijdenis was verdwenen daalde ook de behoefte naar een zogeheten vulling, maar de dwang was er nog steeds. De grote twee adopteerden toen het kerkelijk geloof als nummer drie, maar de geloofwaardigheid hiervan was tot een minimum gedaald, en velen lieten zich niet zomaar meer afzetten.

18. Bert Ootjes komt vrij, en zorgt ervoor dat ons land de onafhankelijkheid krijgt. De geestelijke gezondheidszorg en het medische geloof worden tot liefde-werk gereduceerd. Het kerkelijk geloof mag daarbij helpen, maar verliest haar macht. Nelson Lincoln wordt de nieuwe anarchistische leider, en ook Joost Achterbergen speelt hierin een grote rol. Zij worden de nieuwe grote drie. Een man genaamd Tutuc zet een geheel nieuwe religie op gebaseerd op liefde en sex. Maas-Middelland

wordt de nieuwe hoofdstad, waar professionele prostituees zich zetelen en de stad leiden. Er worden meer naaktstranden geopend, en het land wordt voor vijftig procent naturistisch. Tutuc richt de Naturistische Anarchistische Partij op, de NAP, en krijgt zestig procent van alle stemmen. Velen hebben een andere definitie van naturisme, die volgens hen veel meer is dan gewoon naakt lopen. Binnen het naturisme komen vele stromingen. Er wordt fel uitgehaald naar de mode beweging die wordt gezien als sexuele onderdrukking en het creëren van een underdog. Nog steeds dertig procent van de bevolking hangt de mode beweging aan, en ze hebben grote invloed, vooral op scholen, waar andersdenkenden al snel als leken-ras worden gezien. De mode wordt steeds meer gezien als manipulatie en als een belemmering voor de vrijheid.

19. 28 Augustus 1981

20. Het land heeft de status van Utopia bereikt. Er is vrede overal. Men kan elkaar weer waarderen, men voelt zich weer veilig bij elkaar, er is weer vertrouwen, rust, maar ook onafhankelijkheid. Ik kan inmiddels weer goed lopen en alles weer doen. Veel ga ik met mijn vriendin naar het zwanenmeer, het plantsoen. Hier kom ik helemaal tot rust. We hebben het vaak over onze schooltijd. Ik ben erg veranderd volgens mijn vriendin, minder druk. De roosjes beginnen uit te komen langs het zwanenmeer, en ze brengen wit sap voort. De grootste zwaan van het plantsoen gaat stoer over het riviertje dat het slot omgeeft. Altijd ruikt het hier naar zeewier. Als ze van die grootste zwaan niet zouden zeggen dat het een zwaan was, dan zou ik denken dat het een paard was. De bloemen komen hier laat uit, en niemand weet waarom. Altijd pas na de mid-hitte van de zomer. De criminaliteit is hier tot een nulpunt gedaald. Ik voel me weer veilig op straat.

21. In andere landen is het nog geen Utopia, en zijn missionarissen van Bert Ootjes vaak niet welkom. Heel veel buitenlanders emigreren naar ons land, en er komen steeds meer flats, die ook steeds hoger worden, en dit schijnt een goede uitwerking te hebben op de onderlinge vrede. In de politiek in andere landen gaat het er hard aan toe, ze geven Bert Ootjes geen kans. En ons land noemen ze de nieuwe toren van Babel. Dan wordt Bert Ootjes in het buitenland vastgezet wegens het smokkelen van zwaar alcoholische dranken. Hier schrijft hij zijn apocalypse. In ons land wordt een standbeeld van hem opgericht. Zijn geboortedag wordt een nationale feestdag. Met de diertjes gaat het helaas nog steeds niet goed. Ze worden nog volop geslacht, en er wordt nog volop van hen genoten. Wel heeft Nelson Lincoln al heel veel voor hen gedaan. Vegetariërs proberen heel wat, maar worden aan alle kanten tegengewerkt. Hun hoop is eigenlijk op Bert Ootjes, maar die zit in de gevangenis. De dieren hebben zo nog steeds geen onafhankelijkheid, en behoren nog steeds tot het leken-ras. Slagers beginnen steeds meer reclame te maken, met de meest idiote, uit zijn verband gerukte, betuttelingen, en proberen de massa met liedjes en slagzinnen in hypnose te houden. Leuk, zo'n arm diertje slachten, en dan ook erbij gaan zingen. De zingende slagers zijn populair, en er worden veel platen verkocht. Ook banketbakkers werken veel vaker met vlees. De warme broodjes met vleesvullingen gaan pijlsnel over de toonbank heen. En ze vinden steeds weer nieuwe dingen uit, en verleggen hun grenzen voortdurend. Voor de dieren is het nog geen Utopia. In het buitenland hebben de dieren het beter.

22. In de ogen van de dieren zijn de slagers en hun consumenten de bezetters. Zij vinden het racisme, maar niemand schakelt in op hun frequentie, en zij hebben geen diploma's. Nee, dit land is met zijn kar vol diploma's aan de rand van de afgrond terecht gekomen, ook al noemen ze het een Utopia. Maar in de apocalypse hebben de dieren het laatste woord.

23. 2 Augustus 1982

24. Grillen zijn 'in'. Er wordt veel gebarbecued, veel gezongen en gedanst. Voor de dieren lijkt het alleen maar erger te worden. We zijn in de tachtiger jaren beland. Vlees wordt een handig weggevertje, een uitstekend kado voor speciale gelegenheden, en een bewijs van eeuwige trouw en liefde. Huwelijks-taarten worden meer en meer omgezet in bouwsels van vlees, en de miniaturen van zowel bruid als bruidegom op de top van de vlees-cake zijn steeds meer naakt, als een propaganda voor het naturisme, wat natuurlijk op zich niet verkeerd is. Steeds meer wordt er de nadruk gelegd op praktische collectieve ambacht, waarin de vlees-eter moet zien wat hij eet. Veel demonstraties van openlijke slachtingen worden vertoont, en het vlees bestemd voor een huwelijks-feest wordt op het feest zelf geslacht. Door dit soort openlijke vertoning steeg allereerst het aantal vegetariërs dramatisch, maar later werd het als cultuur-goed gezien, als educatief. Zo werd alles geheel gestileerd, en elke zenuw lamgelegd. Woorden als 'traditie' werden gebruikt, terwijl die traditie er nooit was. Vegetariërs hadden ingezien waar het anarchisme het land naar toe had geleid, en begonnen te verlangen naar een milde vorm van communisme. Een bekend schrijver sprak : 'Het educatieve zwaard heeft een praalwagen gemaakt voor het bandeloze verstand.' Het werd een chaos in het land. Iedereen zag uit naar de terugkomst van Bert Ootjes. Maar die kwam maar niet, want die zat vast in het buitenland. Joost Achterbergen promoveerde weer ergens met een verslag over de carnivorisische problematiek, maar dat haalde allemaal niets uit. Men was ergens in aan het vastroesten en kwam er niet meer uit. Er kwam een wet dat iedereen die nog vlees wilde eten de dieren zelf moest fokken en slachten. Negentig procent van de bevolking werd hierdoor boer. Nelson Lincoln had gehoopt dat ze door deze wet zouden terugschrikken, maar nee hoor, het werd een sport, een trend, een ritueel, ja, een geloof. En er werd zoveel mogelijk nonsense over verkocht. Het land kwam in een draaikolk van schaamteloos geweld en arrogantie tegen dieren. Dieren werden gewoon door de steeds naturalistischer wordende bevolking als minderwaardig gezien, als ondergeschikt aan, als plezier-leken die uitgebuit moesten worden. Het werd een agrarisch land van veeteelt waarin iedereen betrokken werd, en de vegetariërs zonderden zich veelal af. Zij konden dit zinloze geweld niet bevatten, en velen van hen vertrokken naar het buitenland.

25. Zovelen konden hun worstjes met karbonaatjes niet missen. Ze moesten er toch niet aan denken om zonder de speklapjes en de frikandellen door het leven te gaan. Vleesproducenten haalden zelfs stunts uit door het vlees te laten regenen op speciale dagen. Het land had een nieuwe bezetter. Men begon een hogere ethische en morele waarde aan vlees te hechten. Het zou gezond zijn en zelfs noodzakelijk voor het instandhouden van het menselijk ras. Het dierlijk ras stond dus zichtbaar op een lager plan volgens deze bezetter. En dieren konden niet spreken, dus die konden zich niet verzetten. De nieuwe orale bezetters waren gekomen. Het geloof in vlees redeneerde als volgt : Mensen waren engelen, en dieren waren gevallen engelen, duivels. Zo verdedigden ze hun handelwijzen, en daarmee beweerden ze ook nog eens dat wanneer zij die dieren verslonden, dan werden hun zonden vergeven. Ik legde me er bij neer. Ik kon niets doen. Vaak ging ik met mijn vriendin naar het zwanenmeer om te bespreken wat we konden doen, maar er was niet veel wat we konden doen. We voelden ons machteloos, en besloten te genieten van de dieren die er nog waren, en die met rust gelaten werden : zwanen. Vaak gingen we 's nachts naar het meertje, trokken onze kleren uit en gingen daar zwemmen met de zwanen. Op een dag nam de grootste zwaan ons op zijn rug, en bracht ons naar het slot. Er woonde hier niemand meer. Het slot stond vol met ridder-pantser. We zijn toen naar boven gegaan en gingen op een oud bed liggen. We waren helemaal naakt. Ineens kwam de zwaan binnen met een pluimhelm op. Dat was wel het zotste wat we ooit gezien hadden, en we moesten beiden heel erg lachen. Boven het bed hing een schilderij met naakte vrouwen en een wereldbol. We wisten dat het een naturalistisch slot was. Het was vrij toegankelijk

voor iedereen. Overal waren ook spinnewebben. Op een verdieping hoger waren nog meer schilderijen met naakte vrouwen. We besloten weer terug te gaan, zwommen het meertje over, en klommen even later ons bed in. Een man scheen het allemaal op camera te hebben vastgelegd. Hij had een zwarte hond met manen. Hij liet het ons zien en zei dat het het mooiste was wat hij ooit op kamera had vastgelegd. We voelden ons niet bespied ofzo. We vonden het wel dapper van hem, en bovenal knap. Hij wilde ons wel meer beeldmateriaal laten zien. Het waren veelal naaktscènes. Ik kwam dicht bij zijn zwarte hond met de zwarte manen. De hond had zulke prachtige ogen en ik moest hem gewoon omhelzen. Het dier was één en al geconcentreerde kracht. Het dier leek wel van adel. Alles was rust hier en vredig, en we kregen een goed contact met de man.

26. Hij wilde ons wel vaker filmen, en we stemden toe. Hij was een filmmaker die op zoek was naar unieke, zeldzame tafereeltjes. Wat deze man deed was kunst, hij had de gave om de climaxen en het goede van het leven te vereeuwigen. Mijn vriendin kreeg hem lief. Hij was van haar leeftijd. Ik zei : 'Ga je gang.' Ik kon me voorstellen dat ze iemand nodig had van haar leeftijd. Ik was altijd veel te jong voor haar, alhoewel ik me ouder voordeed dan ik was. Nu was ik me dan steeds kinderlijker gaan gedragen, omdat ik daar vroeger nooit de ruimte voor had gehad. Ik beleefde mijn jeugd nu voor de eerste keer in mijn leven. Ik ontmoette een jonge vrouw, jonger dan mij, een buitenlandse, en we werden smoorverliefd. We deden alles samen. Ook gingen we 's nachts vaak zwemmen in het zwanenmeer, en bezochten we vaak het oude slot. Ik bleef wel gewoon hele goede vrienden met mijn vroegere vriendin en haar nieuwe geliefde. Ik had het gevoel dat zij veel beter bij elkaar pasten, alhoewel we altijd een fantastische relatie hadden gehad. Het was goed zo. We waren beiden verzadigd van elkaar. Ik begon een nieuwe hoofdstuk in mijn leven, en zij ook, en ik was nog steeds verliefd op haar en zij op mij. En de liefde was mooi en goed. De man die van haar leeftijd was had haar op het moment meer te bieden dan ik had, en hij kon heel wat leegtes vullen die door het leeftijds-verschil tussen haar en mij waren ontstaan. Zij had mijn moeder kunnen wezen. Ik had nu behoefte aan iemand die op één lijn stond met mij, van dezelfde leeftijdscategorie, of iets jonger, omdat ik mezelf nu ook jonger gedroeg dan ik was.

27. De tuin rondom het slot leek Arabisch, hier in Rotterdam. Het had een beetje een pseudo-religieus-communistische gloed, wel heel mooi trouwens, bijna sprookjesachtig. Het was alsof de zwanen de sleutel ergens bewaarden. Mijn nieuwe vriendin had grote volle borsten die vol leken te hangen met melk, net zoals mijn vorige vriendin. Het leeftijdsverschil hoefde nu niet echt opgevuld te worden, want we scheelden niet zoveel in leeftijd, maar wel kon het lengte-verschil opgevuld worden. Zij was kleiner dan mij, maar verder absoluut niet klein. Omdat ze bruin was zei ze altijd dat ze chocolade-melk had, maar dat was natuurlijk maar een grapje. We hadden beiden een bepaalde orale fixatie en dat was tegelijkertijd om te overleven. Er woedde nu eenmaal een orale oorlog. We waren schaakmat gezet in een machtsspel. De gelovigen zeiden altijd dat het paradijs van Arabisch-Babylonische oorsprong was, dus voor ons was het gebied rondom het slot altijd paradijselijk. Hier moest ergens de sleutel hangen. Met mijn nieuwe vriendin dwaalde ik door de gangen van het grote slot, diep in de nacht. Overal hingen naaktschilderijen die ons denken leken te programmeren. Veel van die schilderijen waren enigmatische paradijselijke taferelen. Sommige vrouwen werden met een blinddoek beschilderd, naakt en met een zwaard. Soms een weegschaal vasthoudende, of een schaal met daarin een soort zwarte of grijze stof. Ze hadden een rechterlijke of richterlijke uitstraling of houding, als een vrouw Justitia. Ook gaven zij mannen die stof te drinken. Ik moest ineens weer aan die amalgaam-toestanden denken. Zou het een vonnis zijn gebaseerd op in het verleden gepleegde misdaden ? De vrouwen waren van bruine huidskleur, maar niet altijd. Zou de bron van dit alles in het paradijs te vinden zijn ? Zou daar wat mis zijn gegaan ? Waarom gaf Eva

haar man van de giftige vrucht ? Ik viel bijna naar achteren toen we in een kamertje kwamen met nog een schilderij. Dit schilderij was heel hoog opgehangen, boven een deur die een open haard verborg. De man was geblinddoekt in dit schilderij. De vrouw niet. Zij had twee ogen als rode appels waardoor ze naar hem keek. Hij zat op een stoel. Zij had een zwaard en een sigaar. Boven het schilderij was nog een schilderij met een geblinddoekte vrouw met een zwaard die stond alsof ze klaar was om te kappen. Maar dat was het schokkendste niet : Beide vrouwen waren als etalagepoppen, werkende voor een industrie, en ze hadden geen borsten. Die waren afgekapt. Ze konden hun moedermelk niet geven. Hun vagina's waren afgedekt met metaal en een slot. Zij waren kinderloos, ontdaan van hun sexualiteit. Daarom gaven ze niets dan gif en verderf. Mijn nieuwe vriendin schrok er ook van. Het deed haar denken aan de vaginale besnijdenis in Afrika.

28. 'Zouden dieren zich ook zo voelen ?' vroeg ik. 'Zij worden besneden tot de dood.' Mijn nieuwe vriendin knikte. Ik voelde me onwennig. Toen zijn we maar teruggegaan. 'Bij de indianen,' zei ik, 'in het amazone-gebied, werden soms de borsten van vrouwen geamputeerd zodat ze beter hun pijn en boog konden gebruiken.'

29. 'Ja,' zei zijn vriendin, 'en in Fenicie wat nu Turkije is werd Attis aanbeden, een aan zijn lot overgeleverde jongen die door wilde schapen werd grootgebracht, en zichzelf ontmande door een vloek. Uit zijn bloed kwam de naaldboom voort, en hij was een vroegere Jezus.'

30. Als in Turkije daadwerkelijk het paradijs heeft gelegen, dan ging daarachter nog steeds deze gruwelijkheid schuil : een dieper kruis, een genitale afsnijding, een sexuele apartheid. En dit had grote orale gevolgen. Het moederschap en de mannelijkheid werden ingeruild voor de oorlog, de jacht, de dood. Attis had zijn geliefde, Cybele, verlaten voor een sterveling, en werd door Cybele getroffen met de vloek van waanzin, vanwege de jaloezie. In de Joodse legendes duikt ook de naam van Lilith op als de eerste geliefde van Adam, maar zij werd al heel snel de hof uitgestuurd, omdat zij zich niet aan Adam wilde onderwerpen. En dit kruis was een enigma met vele gevolgen. Lilith zwoer dat zij de kinderen van Adam, de mensen, zou vernietigen. Zij kwam terug als de slang om Adam en Eva het gif aan te bieden. Ik ging op mijn buik liggen, en mijn vriendin ging op me liggen. Ik was niet getroffen door een vloek omdat ik een andere vriendin had nu, en mijn vorige vriendin had ook een andere vriend nu. Er was geen jaloezie. Er was vrijheid. Er waren geen rekken in onze monden meer.

31. 'Een vrouw zonder borsten heeft alleen gif te voeren,' wordt er weleens gezegd, figuurlijk dan. Dat betekent dat een vrouw die geen verantwoordelijkheid draagt, geen moederlijke empathie, een gevaar is voor de samenleving. Dat was de slang in het paradijs, maar we zagen al dat er vele kanten aan het verhaal zaten, vele factoren speelden een rol, en het is niet echt eerlijk om alles zwart-wit neer te zetten met vurig religieus fundamentalisme. Er waren andere kanten. Wie hakte de borst van de vrouw af ? Waarom was ze zo woedend op de man, en wilde ze hem berechten ? Is er een kant van het verhaal die wij niet kennen ? Of heeft ze haar borst zelf afgehakt, als een amazone, om zo macht te kunnen voeren over de man ? En met welke redenen ? Voelt ze zich bedreigd door de man ? Of wil ze gewoon dwars haar zin doorvoeren.

32. Ik besluit met mijn vriendin terug te keren tot het slot. Ditmaal gaan we nog hoger. Op een hogere verdieping vinden we veel olie-lampen, veel Arabische spulletjes. De schilderijen zijn veel bloederiger hier, met veel naakte vrouwen die oorlog voeren. Ook zijn er veel jacht-tafereeltjes. We lopen naar de volgende verdieping, waar het enigma al snel toeslaat : afgehakte koppen van bizons staan op de schilderijen. Ook zijn er veel azteekse schilderijen, waar azteekse priesters de harten uit

hun slachtoffers snijden en omhoog houden. Het is een dolle boel van besnijdingen en afsnijdingen, allemaal om apartheid te creëren. Weer een verdieping hoger staat een enorm schilderij met de toren van Babel. De toren van Babel is een verhaal uit de bijbel waarin mensen een toren proberen te bouwen naar de hemel, en naam te maken, maar dan daalt God neer om hen te verwarren en te scheiden, zodat ze elkaar niet meer kunnen verstaan. Nog een verdieping hoger staat een standbeeld van een engel, waarachter een schilderij is met de boom des levens. De engel lijkt op een wachter, zelfs op de engel des doods. Ik houd mijn vriendin vast. We zijn beiden naakt, en staren verschrikt naar de engel en het schilderij. Naast ons is nog een klein trapje naar boven, naar een zoldertje. We horen een stem : ‘Wie wil het ei uitbroeden, wie eet het, en wie staart naar de dop ?’

33. ‘Zei jij dat ?’ vraag ik aan mijn vriendin. ‘Nee,’ zegt ze. ‘Jij ?’ Ik schud mijn hoofd. Dan vliegt er een papegaai van het zoldertje naar beneden. ‘Opkrassen,’ schreeuwt hij. ‘Wie heeft jullie gezegd hier te komen. Het ei zal rotten.’ We lopen naar boven naar het zoldertje en zien overal rotte eieren liggen. Het stinkt hier ook verschrikkelijk naar rotte eieren. ‘Te laat,’ krijst de papegaai, ‘te laat. Jullie hadden eerder moeten komen om het geheim te zien. Nu is het weg, voor eeuwig. Dit is wat jullie krijgen voor jullie optreden : Rotte eieren.’ Tussen de eieren ligt een klein kruisje waaraan een staafje hangt dat lijkt op een mannelijk geslachtsdeel. ‘En nu oprotten,’ roept de papegaai. Het beest begint ons te pikken, en we rennen naar beneden. Het best blijft ons pikken totdat we uit het slot zijn. Snel rennen we door de tuin het water in, en zwemmen naar de overkant, maar nog steeds houdt het beest niet op met aanvallen. Dan komt de grootste zwaan ons te hulp. We houden er heel wat plekken aan over, en willen voorlopig niet meer naar het slot.

34. Blijkbaar is de vruchtbaarheid aan het lijden verbonden, onlosmakelijk, als twee tegengestelden, het naakte aan het bedekte. We moeten maar wachten totdat daarin vrede is gekomen. In de grondtekst van de bijbel is het paradijs Sheool, het dodenrijk, oftewel de tuin der doden. Ook de val was een werking van het paradijs, om het offer te doen rijpen. De ruwe diamant moest geslepen worden. Ze ligt op mijn rug en heeft haar armen onder mijn oksels door en houdt mijn schouders vast. Ze probeert me op te trekken, maar ik ben moe. Dan vallen we beiden in slaap.

35. Een oosterse tuin van geheimen, met religieuze valstrikken. Ik schrik wakker. Zij houdt me vast. Ik val weer in slaap. Voor een tweede keer schrik ik wakker. Zij houdt me weer stevig vast, en ik val weer in slaap. In wiens armen lig ik, of is dit weer een strik van de dood. Hoe dan ook, ik heb het nodig om door de dag te komen. Het is mij gegeven. Ze staan daar voor huizen als paardjes, paardjes van de apocalypse om de volle druiven te betreden, te vertrappen. De maan schijnt, de sterren vallen, een droomweb houdt mij vast. Houd mij vast, laat mij jouw trekpop zijn, in dit speelse paradijs is het beter te zijn, beter dan daarbuiten. Het paard van religie trapt hard, ongenadig, straft voor eeuwig, zet schaakmat, en trapt dan de druiven van het genot in, één voor één, en soms meerderen tegelijk. Een hard besluit, van een jaloerse God, een erfenis, van lang geleden, een raadsel dat brult, smeekt, dwingt. Kijk naar de vrucht, niet naar de dop, eet niet, want het is slechts vergif, maar zoek naar haar geheimenis, broedt het uit, en ren wanneer je kan, zweef over de wateren, als een afstandelijke liefde, veilig en ver weg als de zon. Laat de hoop je niet ontnemen, laat je niet zeggen dat ver weg alleen maar koud is, want kijk naar de zon, die het verste weg is van ons allemaal, en schijnt en warmte geeft zoals niemand anders dat kan. De zon, de astronaut, op zoek naar geheimenissen, het grote broeden.

36. Ik maak een verkeerde beweging en er knapt iets in mijn rug. Toch nog een complicatie van de steekpartij. Ik vecht tegen de dood, en heb een bijna-dood-ervaring. Ik kom in het paradijs, waar naakte vrouwen zijn, overal. Zij houden een geheim vast, een ei, een groot ei, een doorgang, een

weg. Het is een ei vol van bloed. Ik bekijk het ei vol belangstelling. En het bloed stolt, en brengt een lichaam voort met orale en genitale vrijheid. En er is een harmonie tussen die twee, en er is vrede. Na een paar dagen ben ik weer de oude. Er is iets veranderd in mij. Ik heb de dood ontmoet, en daardoor het leven. Ik sta aan beide kanten. Ik ben de brug tussen twee naturen.

37. Er stonden vele narcissen in onze tuin, vechtend tegen de koude dood. Zij gaven het leven warmte, de mensen een warme deken. Alles was bevroren, bevroren legers. Er werd gehandeld in mensen. De koude hand des doods greep hen, en wie kon daar tegen opvechten. Sommigen dachten harmonie in bloed te zien, anderen alleen maar twist. De raven kwamen over de stad. De stad was snel opengebroken. Er was plaats voor het enigma nu, men staarde niet alleen maar naar de dop. Men at niet meer van het vergif. De broeders waren gekomen. In de heldere zon stonden zij daar, in de Arabische zon. De raven waren uit het oosten gekomen. Oosterse wachters waren nu in de stad, kloppende op de deuren. Zij brachten dat andere nieuws. Zij geloofden dat zij het hart waren binnengegaan, op de zwaan waren zij geklommen, en het bracht hen hier. Ook zij hadden hun verwachtingen, hun verlangens, hun logica. De Arabische zon was heet. Zij waren de paarden van de apocalypse, maar niemand heeft hen begrepen. Zachte hoeven hadden zij, manen overal, lange wimpers, dromerige ogen, bruin, dromend van zachte winters, sneeuw witte daken, waarop het paarse zou neerdalen. De paarse hand zou hen allemaal wegnemen. Zij hadden hun schuilplaats in het oosten wanneer de winter zou vallen, en dan zou het pas echt hard en koud zijn. En de drop-verkopers zouden er rijk van worden, de banketbakkerijen vol, want iedereen wilde daar ineens slapen. Men zou vluchten tot het orale als de genitale klem zou worden gebroken. Nu lag zij nog vastgebonden op de grond, maar de wachters waren dichtbij haar. Ik hoorde een schreeuw. Zij stond op, en bedekte haar naakte lichaam met een nachtjapon. Zij ging de nacht in met een fakkel, zij was de moeder der raven. De paarse hand bracht haar op de punt van de kerktoren. Een sneeuw witte dag zou het worden, nu Doornroosje was ontwaakt. Niet door een kus. Neen. Door een warme hand, een innige omhelzing.

38. Het was een paarse dag met lange manen, een koninklijk feest. Doornroosje was opgestaan. Zij stond tussen haar vader en moeder in, de oude koning en koningin. Zij bracht hen de smeltende chocola die voor eeuwen verborgen was gehouden. Iedereen zou wel met haar willen dansen, iedereen zou wel een veeg van haar chocola willen krijgen. Maar zij was selectief in haar genade, zeer selectief. Zij bedekte de edele vruchten met chocola, en schoof hen in de ogen. De bakker stond buiten op een kist en zong van haar. Zo lieten zij het feest ten einde gaan. Maar tot diep in de nacht werd er nagenoten. De bakker stond bij de notenboom met een bijl, en brak het open. Kisten vol mandarijnen stonden hier, kisten vol oude mandarijnse koningen, met een mandarijns accent. Een zetel gaf zij aan de oude man die zij door het licht had geleid. De baard van de oude tovenaer die vastzat in de boomspleet was losgesneden door het zwaard van haar ogen. Haar ogen spoten vuur, en lieten de koralen zien. Dit allemaal in flitsen, niet teveel, want teveel van dit goede zou de draken opwekken. Zij wilden Doornroosje voor eeuwig laten slapen, en niet slechts voor honderd jaar.

39. Ik keek met haar over de rivier van gisteren, naar de dampen ervan en de spoken, en wij wilden er niet wezen. Wij waren gevangen door het morgenland, waar de prinsessen en prinses van gisteren niet meer regeerden. Wij konden het, ja, wij konden het wat we jaren niet gekund hadden. In het midden van de stad was zij verlicht. Wij werden door haar gevuld als roomsoezen. Van taai vlees waren haar vullingen, niet om te eten, maar om te broeden. De kok van de slacht werd terechtgesteld, en dit allemaal na een reeks lovende woorden. Morgen zou de maaltijd zijn, niet

vandaag. Nooit meer zouden wij van onrijpe druiven eten waardoor de tanden van onze kinderen slee waren geworden. En deze komende maaltijd was een maaltijd voor vogels, raven, want zij waren bestemd voor dat uur om het eerste aan tafel te gaan en te eten. Het oog van de stad wilde haar verlichten, want de stad had haar nodig, en wilde haar nooit meer uit het gezicht verliezen, maar op die dag vertrokken de zwanen naar het oosten. De raven hadden de stad nu, en zij werden ingenomen, zoals zij eens innamen. Het pasen met zijn versierselen van drop was nog steeds een ingrijpende gebeurtenis. Ik keek haar aan, zij keek naar mij. Ik had mijn oude jeugdliefde teruggevonden. Zij had kleine borsten, niet gevuld, zij was teder, intens, voorzichtig, zacht. Nooit zou er meer een zondvloed komen na die dag. Haar regenboog was een teken daarvan aan haar hemel. Ik schraapte de damp er vanaf. Een standbeeld werd van haar opgericht in de stad. Wij zouden haar nooit vergeten.

40. Na die week speelden de kinderen spookje in de stad, en werden de oude hobbelpaarden uit de schuur gehaald. Zij speelde, ik droomde. Het was de slag der herinneringen, rijkelijk belegde het mijn brood. Ik liet de raven er van eten. Ik at de worst van het verleden door de berg naar de andere kant, en daar werd het varken van de toekomst geslacht. Tijd was niet meer. De bezetters hadden de stad en het land ingenomen, weer vanuit het oosten, door de Arabische zon. En ik kon alleen maar glimlachen. Ik vond het wel grappig, al die vogels. Wij voerden de vogels aan het zwanenmeer, maar de zwanen zijn hier nooit meer teruggekomen. Zij hadden het geheim ergens anders gebracht. Ook voerden wij de paarden die dag, de paarden van deze apocalypse. Beschuit was haar lievelingsvoer, en rozen haar lievelingsbloemen. Een paard zwom door de grachten. Ik keek erna, en mijn rug maakte mij los van de aarde. Ik zweefde er boven, als een grote broer, als de lange neef. Ik verzorgde de aarde als mijn broertje.

41. Het regende buiten. Ik zat met mijn jeugdliefde op de bank. Aan al het oude was een einde gekomen, nu ik het oudere had gevonden. Het was als een harem in mijn gedachten, een doornenkroon, een rozenkrans, de cirkelzaag boven Bagdad, de ster van Betlehem. Een zoete ster was het, van genadeloos geduld. Haar licht was verblindend, en toen konden we ineens weer voelen, elkaar voelen. Voelen datgene wat zo lang was weggeweest. Zij liep zo langzaam in haar lange nachtjapon, een oosterse avondjurk, leren schoentjes met riempjes, met allerlei gaten, gelakt, en haar sokjes waren kinderlijk als de bloesem. En nog steeds dacht ik aan de zwanen. Waar zouden ze zijn ? Verblindend was haar licht, des te zoeter haar aanrakingen, haar verschijning. Teer licht, weeskind, wolf, onbegrepen. Ongezadeld in de nacht. Ik borstel haar, er is rust. Zij neemt haar pijl en boog, en gaat de stad in. In de stad staan beelden van zwanen, als een herinnering aan die dag. De zwanen zijn van steen, niet van vlees. De stad is verlaten van zwanen. De oorlog is dood. Elke knie zal zich buigen, elke tong zal belijden, en niemand weet wat. Een onverbiddelijk zwaard heeft de oorlog lamgelegd. Het vrede-rijk is aangebroken. De paarden van de apocalypse gaan streng door de stad heen, en dan komt de zon op, de Arabische zon. Het jachtboek is nu geopend. Men bekijkt de plaatjes, en begrijpt niet waarom. Men wil terug naar de oude dagen, maar het kan niet meer. Ik borstel haar haren, er is rust. Ze is in de stad met haar boog, als vrouwe Justitia. De rechtszaak begint. Zij was een vrouw van geconcentreerde kracht en zwakheid. De jacht-engel. Zij roepen vrede vrede, terwijl er geen vrede is. Na de duizend jaren zal er een nieuw tijdperk van vrede aanbreken. Ik borstel haar haren nog steeds. Ze zegt niks. Ik zak weg, en ze gaat op mijn rug liggen. Als een kat heeft ze haar prooi. De vlekken van de luipaard spreken van oude wonden. Dan breekt ze mijn rug, en ik ben niet meer van de aarde. Haar bereiken kan ik niet, alleen door stralen. Ik moet haar overgeven, ik moet haar loslaten, de afstand zal nu rechter zijn. Ik voel mij als een Arabische zon, die het ijzer laat stinken, die het leer zacht maakt.

42. Zij zal het grote ei uitbroeden, zonder dat het haar zal doden. Van het vergif zal zij niet eten. Eens sprong zij in het wespennest, en werd een luipaard. Nu komt zij niet dichtbij, maar broedt van ver weg. De dokters zeggen dat mijn rug nu goed is, maar ik heb pijn. Zij zeggen dat dat er niet is. Zij staren alleen naar de dop. In een vuur dat eeuwig brandt wonen zij. Van een afstand ontkennen zij de problemen, een naaldboom groeit uit mijn wond. Grootgebracht door wilde schapen ben ik. We zijn omsingeld en schaakmat gezet door levensgevaarlijke zotten. De idioten van de planeet Idiotia zijn gekomen. Waren de dokters maar dronken en aardig. Wat is er van ons Utopia overgebleven ? De nieuwe bezetters ruiken als het oude, de mondenrekken zijn weer terug. Ditmaal met veel prikkeldraad. IJzeren Jaap is uit zijn doos geklommen om de klokken terug te zetten. Waren de zwanen nog maar hier. Zij is een boogschutter, een teken aan de hemel, dat de oorlog nooit meer komen zal, maar we leven met de jacht. Een teken dat er nooit geen zondvloed meer zou komen, maar nu zijn we hier. De ijzeren maagd is onze straf. Zij broedt niet, zij steekt, zij is op jacht. Mijn rug is van ijzer, een bouwwerk van amalgaam, van kwik, van Mercurius, om de rest van mijn lichaam te verzieken. De dokters zien niets op hun foto's. Zij staren alleen naar de dop. Wij wachten allen op Bert Ootjes, die nu inmiddels een martelaar is. Maar de zwanen hebben hem bezocht. Mijn buik is gemaakt van witte en rode vulling, een eeuwig gif. Zelfs al is de wortel eruit, het symptoom zal altijd blijven. Een leuk syndroom waar geestelijk verzorgers aan kunnen blijven sleutelen. Ouders blijven met hun kinderen naar zulke dokters gaan, want als het kind geestelijk ziek wordt verklaard door de beroepsbeul, dan treft de ouders zelf geen schuld, want geestelijk ziek zijn dat ben je vanaf de geboorte, en zo hebben de ouders die hun kind verrot hebben geslagen een alibi. Zo is de zogeheten tandarts met zijn stiekeme, niet navolgbare, zogeheten vullinkjes die het kind beladen met complexe vergiftigingen en de syndrooms-stempeltjes van de geestelijk verzorgers, de zogeheten psychiaters en hun handlangers, een professionele ouders-bescherming geworden. En hoe kan een kind tegen zo'n doortrapt systeem opboksen ? Een kind heeft geen diploma's, geen zegeltjes, maar mag deze zegeltjes wel verbreken, door de paardjes van de apocalypse. Maar waar zijn de zwaantjes wanneer je ze nodig hebt ? En waar is Bert Ootjes ?

43. Rebelse kinderen worden al snel ziek verklaard, niet de maatschappij, nee, want de maatschappij is heiliger, in ieder geval heiliger dan degene die aan de bel trekt. De paardjes staan nog steeds in deze carrousel. En de mierzoete snoepjes van oma moeten de kinderen klaarmaken om een reis door de fuik van de zogeheten tandarts te maken. De zogeheten tandarts gebruikt hiervoor goedgepraat geweld. De Arabische tandarts was nu gekomen, en die was nog wel orthodoxer. Bij de balie werd snoep uitgedeeld wanneer een kind zich keurig en netjes had gedragen. Het hormoon van Bert Ootjes was inmiddels uitgewerkt. Ook de botten begonnen gaatjes te vertonen, en ook die moesten gevuld worden, en daar had de Arabische tandarts een heel arsenaal voor, en die duldde echt geen tegenspraak. Arabisch amalgaam werd daarvoor gebruikt, waarvan de ingredienten strict geheim werden gehouden. Alleen de ingewijden mochten de ambacht uitvoeren, en beunhazen werden streng gestraft. Die werden openlijk op de pleinen aan de schandpaal gezet. Nee, de Arabische tandarts, daar viel niet mee te sollen. Malafide tandartsen werden als kwakzalvers bestempeld, afgezet, en gingen sindsdien vaak zonder een ledemaat of ontmand door het leven. Azteekse praktijken kwamen niet zelden voor. De Arabische tandarts meende het. De bottenvuller, zo werd de Arabische tandarts vaak genoemd. 'Ik moet vandaag weer naar de bottenvuller,' klaagde een oud mensje. 'Ja, ik ook,' sprak een bijna tandenloos oud mannetje, en een ander moest de dag erna. Controles waren wekelijks, en sommigen moesten twee keer per week. Elke knie boog, elke tong beleed, en elke trotse nek brak voor de Arabische tandarts. Als er problemen waren met het Arabisch amalgaam, dan werd dat altijd op iets anders geschoven, en dan voelde de Arabische

tandarts zich diep beledigd, en kon erg kwaad worden, wat dan de meest verschrikkelijke consequenties had. Het was godslasterlijk om te twijfelen aan het Arabisch amalgaam. Zulke godslasteraars en aanstellers waren rijp voor de Arabische psychiater. De Arabische tandarts was wel heel goed voor dieren. Zo wreed als ze waren naar hun klagende patienten, zo genadig waren ze naar dieren.

44. Het lichaam van Bert Ootjes lag inmiddels op de bodem van het meer van Geneve, waar ze hem hadden gedumpt. Zijn botten werden later opgedoken en hij kreeg een eervolle begrafenis. De appel brandt, en kan niet meer gegeten worden. Er kan alleen nog maar gekeken worden als naar de uitbarsting van een vulkaan. De trekpomp van het verleden is stuk, maar de Arabische tandarts kan het nog wel maken, want die handelt ook in speelgoed. Bert Ootjes zal zich zeker in zijn graf omdraaien. Speelgoed, om kinderen klaar te maken voor de tandarts. Nu kunnen ze nog spelen, maar straks ? Onze enige hoop is de marsmannetjes, maar die bestaan niet. De marsman marcheert onderdrukt in ons geconditioneerd verstand. De Arabische tandarts is de banketbakker, heeft een hotel-keten, is ambitieus. Hij is de grootste snoep-producent voor kinderen. Hij verdient wat bij, om ook een zwembad te hebben onder zijn kast van een huis. De Arabische tandarts is hier kind aan huis. Om Bert Ootjes wordt inmiddels flink gerouwd. Velen worden monddood verklaard. Ik begin een Arabische tandartsen-praktijk, zo'n beetje de enige manier om aan de Arabische tandarts te ontkomen.

45. Een nieuwe Arabische vogelsoort is er toegevoegd in het plantsoen, om het verlies van de zwanen op te vangen : de draai-konten. Prachtige vogels, daar niet van, maar ze kunnen zo vanuit het niets bezoekers aanvallen. Zo van : van te voren maar eerst bellen. Hele statige, deftige vogels met een strenge zwaar-orthodoxe etiquette. Zo ken ik er nog één. Het doet me een beetje denken aan die papegaai van het slot. Ik durf niet zomaar meer naar het zwanenmeer, het plantsoen. Deze vogels zijn geen grappen.

46. 'IJs ?' vraagt ze.

- Ja, met slagroom, zeg ik

'Siroop erbij ?'

- Ja, die rode

'De Arabische tandarts zal daar blij mee zijn, die is lekker duur, en veroorzaakt veel gaten in je botten. Hij zal wel weer flink op je schelden bij de komende controle om zijn blijdschap om de winst goed te verbergen.'

- Nee, ik heb nu mijn eigen kwastjes. Ik kom niet meer bij die man. Ik ben nu zelf die man. Hij mag wel bij mij komen, dan zal ik hem een koekje van eigen deeg geven.

47. 'Arabisch amalgaam ?'

- Ja, schat, die met die vogelstront.

'Schat, je weet toch dat je de doodstraf kan krijgen voor het verraden van de ingrediënten.'

- Laat hen maar hierkomen met hun bekken vol mislukte plastische chirurgie en gedwongen eeuwige mode.

'Schat, je weet toch dat hun geloof is ? Ze weten niet beter, en dat moet je respecteren.'

- Ik heb daar allemaal geen respect voor. Heb jij respect voor een mes die in je rug wordt gestoken ?

48. 'Toe nou, liefje, dat moet je zo niet zien.'

- Oh, en hoe moet ik het dan zien ?

‘Moet je kijken hoe je jezelf opstelt, en dat noemt zich een Arabische tandarts. Een beetje professioneler mag wel.’

- Oh, gaan we het nu ook over professionaliteit hebben, en vergeet vooral het woord deskundig niet te noemen. Ga godverredomme een ezel kopen.

‘Zeg, jeetje, nu ga je ook nog eens een beetje lopen vloeken hier.’

49. - En doe jij nu maar niet ineens alsof je heilig Aagje bent.

‘Oh, heerlijk zo’n ruzie met jou, maar je weet wie er boven in bed de touwtjes in handen heeft.’

- Je hebt gelijk, ’t spijt me, zal niet meer gebeuren.

‘Goed, Jan Klaassen, dan is dat in ieder geval duidelijk.’

- Ja, Katrijn.

50. ‘Moet je nu nog ijs met slagroom en rode siroop?’

- Nee, Katrijn, ik heb geen honger meer.

51. We starten een restaurant in het midden van de stad, zoals elke goede Arabische tandarts zou doen. Het voedsel is er zalig, en mensen komen hier echt om heerlijk te genieten. We hebben ons eigen plantsoentje met Arabische draaikont-vogels, door ons getemd. Een betere plek kan ik me niet wensen. Mijn wereld kan niet meer stuk, en de hare ook niet.

5.

De Vierde Aarde

1. Wij waren gemaakt van een gouden amalgaam. Wij waren kinderen van de godin, die vrij in de tuin leefden. Alleen het gouden amalgaam kon de stralen van haar liefdeszon opvangen, om ons tot eeuwig leven op te wekken. Het was een liefdes-amalgaam, volkomen toegewijd aan de godin. Ook de hekken rondom de tuin waren van het gouden amalgaam gemaakt. Zij waren hoog en scherp. Wij voelden ons veilig binnen deze hekken. Eens aten wij van de verboden vrucht van de vleermuizenboom, een kaars, die in ons binnenste begon te branden, zodat we door een andere wereld geroofd werden, en wij kinderen van de hel werden. Maar de godin verstootte ons niet. Nog meer dan ooit wijdde ze zich toe aan haar liefde voor ons, en met geduld en passie probeerde zij ons terug te lokken naar de tuin. Een gouden vrucht hing zij voor onze ogen, en trok deze weg zodra wij ernaar grepen, om ons zo haar te laten volgen op het pad terug naar de tuin. Het was een verboden en geheime tuin voor velen. Deze wereld aanbad Doornroosje, de slapende prinses, en voor de paasheks hadden ze niet veel sympathie. Deze paasheks was Inanna, de godin van de armoede, die het geheim van Doornroosje kende. Doornroosje was een ei in haar handen, een ei die ze zou afpellen. Doornroosje sliep nog steeds in het paradijs, en zou tot de berg der goden moeten komen, de onderwereld.

2. Er was een doodslucht in de tuin, waarin zij die zich niet konden beheersen leefden. Altijd liepen ze hun begeertes achterna, als in een roes. Zij waren de schone slaapsters, de volgelingen van Doornroosje, van alles wat mooi en duur was. De onthechting was een groot geheimenis, maar zij werd gedemoniseerd en als heks bestempeld. Zij riep vanaf de berg, vanuit de wildernis. Zij wilde Doornroosje opwekken tot een hogere wereld. Dit zijn geen gewijde paadjes. Deze paadjes zijn afgesloten door de plaatselijke gemeentes. De draak zelf was de prins van de jungle die Doornroosje vrijkocht uit de kooi van de bebouwde kom. De kus wekte haar op tot de wildernis, omgeven door doornenstruiken.

3. De slang van het paradijs was eerst een draak, en zij gaf aan paarden de macht om zich te verzetten tegen hun ridders. Zij maakte eenhoorns van hen, de grote ontwaking. Ook gaf zij de macht aan bizons om zich te verzetten tegen hun jagers. Zij maakte eenhoorns van hen. Maar haar wijsheid werd buiten de poorten van het kasteel gezet, en zij veranderde in een vlam, om te verwarren en te verleugenen. Zij gaf haar aanklagers over aan een dwaalgeest.

4. Zij was de vleesgeworden boom die haar eigen koninkrijkheid had bewaard. Zij was de koninkrijkheid van het communistisch anarchisme. Zij was de koningin van de bloemen. Wilde bloemen had ze in onze haren gestoken, in deze drakentuin. Zij trok ons omhoog op het schip, toen de dauw ging vallen. De rivier van plastic omhulde ons. Zij had haar eigen pad, en wilde niks weten van het verwende gemeentepark. Daarom was zij onuitgenodigd, gehaat door velen, en gevreesd. De draak viel en werd in een kooi gestopt, maar niemand kon haar geheim doorgronden. Zij wist dat slechts hen buiten de kooi gekooid waren.

5. Ze hadden maar een fragment van haar vastgezet. Zij was natuurlijk veel groter. Zij leefde in plaatsen waar zij nooit zouden komen. Zij leefde in een mengsel van vuilheid in de dieptes van de wildernis, als sluiers van haar schoonheid. Deze schoonheid werd geproclameerd door een genetische collage van juwelen. De stenen stapelden zich op tot een druipkoninkrijk. Zij liet geen steen heel, perste hen geheel uit. Haar schoonheid kon niet uitgedrukt worden door stenen, alleen door wildernis. Zij ging over de muren. Zij van de smetvrees zouden daar nooit komen. Zij bouwden auto's die alleen maar op gladgestreken wegen konden rijden, en die het zonlicht als tralies weerspiegelden. Maar zij zocht het licht in de duisternis op, de zon van de onderwereld. En zij leefde in ons, op een diepere plaats. Hier in de diepe wildernis had zij haar huisje van snoep geplaatst, en was zij slechts een diepere inwijder. Het harnas van snoep lokte de soldaat tot een diepere strijd, de patronen van de wildernis, de verborgen arena waar slechts zij keek. Zij was het kruis van de jongen in zijn jeugd om hem te behoeden voor een veel groter kwaad. De kooi die zij hier had gebouwd was niets vergeleken met de kooi van de stad. Zij was immers het pasen gevierd met chocola. Zij was de moeder van de jungle, maar zij onderwees haar kinderen over de gevaren. Zij bewapende haar kinderen en ontzag hen niet. Zij tuchtigde haar kinderen reeds vroeg, en daarom moest de heks dood. De stad wilde kinderen verwennen met een allesverblindend licht, verlamrend en bemoederend.

6. Zij was de zwarte koningin des doods, de koningin van het oerwoud, toen het witte haar kinderen en haar schone land stal. En zij beval haar jager het sneeuw witte om te brengen, want het witte moest sterven, zeven maal. En zij hing haar vrucht van het gouden amalgaam. En het sneeuw witte was jong, oningewijd, omgeven door witte doornen. En zij lokte haar tot de deur van de dood in het oerwoud. En het sneeuw witte gewaad werd afgedaan, en een zwarte vrouw rees op.

7. Zij was de koningin van de wolven, de koningin van de zwarte draken. Vele andere kinderen waren tot de deur des doods gekomen, en haar moddermannen namen hen op en brachten hen tot haar. Wilde bloemen hebben hen toen ingewijd, en ze raakten verstrikt in haar webben.

8. Zij had ons geschapen in de dooier, omringd door het witte, in een ei. Zij hing dit ei hoog. Het was een ei omringd door vlees. Wij groeiden op en aten van het vlees, en kwamen tot het huisje van snoep in de wildernis. Binnenin waren paaseieren versierd. Ze had een paasrijk in het woud. Haar paaswachters liepen op haar druipmuren. Zij wilde de lichtjes van het pinksteren doven. In de poppenstadjes werden keurige pinksterfeestjes gehouden, vol van smetvrees. En zij was

onuitgenodigd. Daarom bracht zij haar stortvloed, en liet hen het ei van pasen zien, hun verboden vrucht. En hun kindertjes begonnen ervan te eten, en werden uit de stad gezet.

9. Zij had haar eigen stadje aan de rand van haar rivier, diep in de wildernis, een schilderachtig stadje, en zij gingen van vrucht tot vrucht, van ei tot ei. Haar eenhoorns liepen in pas, een drachtige optocht door de stad. En de stad lag op heuveltjes in de wildernis, en de eenhoorns gingen over de bruggen tussen die heuveltjes, langs de paars-rose sluiers.

10. 'Kun je van haar houden ?' vroeg ik. We zaten gehurkt op het bed. Ik hield haar billen vast die heet aanvoelden. Vanuit de raampjes konden we de bomen zien met hun blauwpaarse vruchtjes en hun donkergroene blaadjes. Ze duwde mij neer, en ging op me liggen. 'Natuurlijk,' zei ze. 'Ze is mijn moeder.' Ik kustte haar, en ze was gelukkig. We waren naakt, maar we schaamden ons niet voor elkaar, want we waren in haar hof. Van gouden amalgaam waren wij gemaakt. In een kooi vonden we doorgang. Het was niet onze dood, maar een transformatie. We waren als vlindertjes in haar bos. Wij kwamen voort vanuit het orgie der goden, het gouden amalgaam, wat als een vrucht voor ons hing, als een ei, en waartegen gewaarschuwd werd, want men vreesde de geheimenissen van het bos. De goden hadden er veel liefde in gestopt, als het serum van bevrijding, als de paradijselijke zweer. Maar zie, zij werd geweerd als een melaatse. En zij hield de raadselen van de tuin verborgen.

11. En het imperium werd gebouwd, en zij werd als een boeman beschouwd, maar in haar waren de rangen gegarandeerd. Er was niks mechanisch aan, alles was natuurlijk, vanuit de dood voortkomend, het was een roze spot. Er moest plaats voor haar gemaakt worden, dit was haar vereiste, want ze was al lang genoeg weggedrukt. Zij hadden naast haar niet veel in te brengen, want zij kenden het raadsel van de dood niet. Zij omsingelde de grote stad met haar eenhoorns, en trok haar kinderen er één voor één uit. Tussen haar woestijnen door zijn rivieren, met bruggen waar barbaren voor staan, één wachter per brug, en wie kan hen verslaan ? Maar kinderen trekken zij mij, hen die bezegeld zijn door haar liefde. Zartan was de poortwachter van haar secte, bestempeld als een verleider, maar haar strikken brachten hen tot leven, voortkomende vanuit het meer. Haar moddermannen werden zij, en zij schuwde de bokken niet, zij waren de dragers van haar geheim. De secte werd groot en gevreesd, en men vergat de secte van de grote stad. Arsis en Jupō waren twee andere poortwachters van haar, maar die stonden dieper in haar rijk, want dit rijk had veel gebieden. En ook de kinderen werden beproefd door deze wachters. En velen bleven steken. De worsteling met de roos was een grote. Haar secte scheurde families uiteen.

12. Ze zat rechtop. Ze had contact met de bloemen, met de Braziliaanse schietbloem, met de Rijnbloem, de vuurbloem, en de flamingo-bloem. Zij had het wilde witte konijn gevolgd tot de sprekende bloemen. En zij hadden verborgen de vrucht die haar deed groeien. Zij likte aan de vrucht, nam ervan, en begon langzaam te groeien, tot de hoge burcht in de woestijn. De zon van de Sumerische onderwereld verlichtte de woestijn. Hier werd nog het zuivere Ninurta gegoten, de boodschapper der goden. Nergal, de god van de onderwereld zat hier op zijn troon, met speren aan weerszijde. Hij sprak en genas. Het was hier waar de eenzamen elkaar hadden gevonden. Hier was de Sumerische ark, terwijl buiten het gif van Mercurius regende. Er zou een zondvloed komen, want het tijdperk van Mercurius was nog maar net begonnen. En daar stonden ze dan, drie boodschappers van de goden : Ninurta, Hermes en Mercurius, en zij kwamen tot de troon van Nergal. En Mercurius had het gezicht van een wortel en had een grote glimlach. 'Ik weet het, er zijn duizenden mercuriussen,' zei Nergal. 'En jij bent de enige die toegang hebt gekregen tot mijn paleizen.'

13. 'Vader,' sprak Mercurius, 'het kwik is alleen maar groeiende buiten, en u kent dit vergif. En u weet ook wat het enige anti-gif hiertegen is. De cocon van Mercurius heeft de wortelkwik-vlinder voortgebracht. Zij heeft uw ark gebouwd.'

14. 'Schenk mij het wortelkwik, Mercurius,' sprak Nergal. Mercurius deed een stap naar voren en gaf hem een zakje met wortels waarin het wortelkwik zat. 'Dit zijn de zaadjes voor wortelkwik-bloemen,' zei Mercurius. Toen vertrok hij.

15. 'Hermes en Ninurta,' zei Nergal, 'jullie gaan deze zaadjes zaaien in de koninklijke tuin.' Hermes en Ninurta deden direct wat hen gezegd was. Snel groeiden er in de tuin de weelderigste bloemen die zich in het snelste tempo begonnen voort te planten. Het wortelkwik was duizendmaal sneller dan het normale kwik. 'Dank aan Mercurius,' zei Nergal. En Nergal sprak tot al zijn volgelingen: 'Dank dat u allen gekomen bent. Zoals u weet kunt u niet alleen bevrijd worden van uw kettingen door exorcisme, maar ook juist door ingewijd te worden in de mysterien.' Een beeld van Mithras werd naar voren gebracht, die vlak voor de opkomst van het christendom door de Romeinen werd aanbeden. Mithras streed tegen het kwaad, wat de vorm had van een stier. Het centrale thema van Mithraïsme was de slacht van deze stier, het gedoopt worden in zijn bloed, en banket te houden met de zon. In het pre-atlantische was Mithras genaamd Matras, en werd het kwaad als een bizon uitgebeeld, waartegen Matras streed. Het afleggen van het oude leven door naaktheid, naturisme, was een belangrijk item in zowel Mithraïsme en Matraïsme, maar werd door de christelijke priesterdienst steeds meer ingebonden. Door onderwerping aan de goden kon men hogerop komen in het Mithraïsme en Matraïsme, maar het kerkelijke christendom legde vooral het accent op de onderwerping aan het kerkelijk gezag. Bij Mithraïsme en Matraïsme stond het loskomen van de aarde centraal. Dit kon bereikt worden door ascetisme. Nergal nam wat van het wortelkwik, smeerde het standbeeld ermee in, en het kwam tot leven. Iedereen begon te juichen. Toen werd het beeld van Matras naar voren geschoven die in worsteling was met de bizon. Het tot leven gekomen beeld van Mithras liet zien hoe Mithras in gevecht was met de stier, en werd geholpen door een hond, een slang, en een schorpioen. De schorpioen viel de genitalien van de stier aan, maar het standbeeld van Matras toonde geen schorpioen maar een spin. Verder werd hij niet geholpen door een hond en een slang, maar door een vlieg en een wesp. Ook dit beeld werd ingesmeerd door het wortelkwik en kwam tot leven, onder groot gejuich. Martarius was de pre-atlantische vorm van Mercurius, de boodschapper van de goden, maar gebruikte geen kwik maar zwavel, want kwik hield gebonden aan de materiele sferen. Ook zijn beeld werd door het wortelkwik tot leven gewekt.

16. Nergal maakte toen het wortelkwik tot een sleutel in zijn hand, en opende de deur naar een verborgen tuin. Hier brandde ergens het rode vuur, het verboden vuur, wat een mengsel was tussen het bloed van een rund en het bloed van een aap. De tuin was vol met rook. Ook is er hier een grot waar het rode vlies zich bevindt, de huid van een sprekend en vliegend varken. Deze huid wordt bewaakt door een schorpioen. Alleen degene die de schorpioen kan temmen en berijden kan het rode vlies bereiken. Dit rode vlies is het vlies van eeuwig leven. Alleen de godin Utanga, de pre-atlantische Athena, kan het hoofdstel, het zadel en de teugels hiertoe overhandigen, het tuig waarmee de schorpioen bereden kan worden. Zonder dit tuig zal een ieder ten prooi vallen aan de schorpioen. Zij kwam op een nacht tot Aleron, de pre-atlantische Jason, om dit tuig aan hem te geven. Zij kwam tot hem op haar rijtuig in de donder, omringd door luipaarden. Zij slachtte een pauw en bedekte hem met het bloed als met een deken. De pauw was de wachter van de grot waarin de schorpioen leefde. Als Aleron de schorpioen zou berijden, dan zou het rode vuur op hem vallen om naar de onderwereld te gaan naar zijn geliefde Averon. Ook aan haar zal hij een deel geven van

het rode vlies. En zij komen erachter dat dezen allen huwelijksgeschenken zijn. En wanneer hij zijn geliefde heeft bereikt zal de scorpioen in een rund veranderen.

17. Kamperdam aan Zee, Juni 1962

18. Mijn jeugd was een hel. Ik ben nu getrouwd en heb twee kinderen. Wij hebben hier een heel speeltuin-complex waar ze vaak spelen. Ook gaan we zo nu en dan naar het strand of de stad in. Ik heb mijn vrouw in het ziekenhuis ontmoet. Zij was de verpleegster, ik de patient. Het winkelcentrum van de stad is overdekt. Onze jongste dochter is het ijverigst. Sinds 1948 is ons land hermitatisch. Daarvoor was het land christelijk, omdat we werden bestuurd door Roomse keizers. De staatsgodsdienst was christelijk en heidendom was verboden. Sinds de hermitatische bevrijding zijn wij meer universeel. Ik zal die dag nooit meer vergeten dat onze hermitische bevrijders kwamen. Hoe dan ook, wij zijn allen slaven van de waarheid, en alles is een halve waarheid. We vallen totdat we vliegen. Ik ken een boom genaamd Torpoteo, een beetje de pre-atlantische vorm van Yggdrasil. Hierin kunnen we schuilen, als gevallen strijders die hun kruis binnengaan. En bovenin wonen de Wanen, de elven, de vruchtbaarheidsgoden, de Vanir, met de pre-atlantische vorm hiervan : de Targa. Het zal uitlopen op de Ragnarok, in het pre-atlantische wordt dit genoemd de Dordada, de grote eind-oorlog. Alleen in het diepste van de boom Yggdrasil zal er veiligheid en bevrijding zijn, als de vuurreus Surtr alles in vuur brengt door zijn zwaard. Ook de christenen hebben zo'n mythologie, over Armageddon, over de zondvloed van vuur, en een ark waarin bevrijding is. Het gaat allemaal om het binnengaan van het kruis, het ascetisme. De Torpoteo herbergt de bron van Tirz, die de pre-atlantische Mimir is, de bron van wijsheid. Odin gaf zijn oog op om deel te hebben aan die bron, maar de pre-atlantische Odin, genaamd Wassan gaf zijn vrouw op om deel te hebben aan de bron. Deze bron is het bodemloze ravijn, waarin Zolder viel, de pre-atlantische vorm van Balder, en door de rotsen gestoken werd, en hij zal vallen totdat hij vliegt. Hij zal voortkomen vanuit de Dordada, de grote eind-oorlog. De pre-atlantische Surtr is Staumi, met zijn zwaard Lauri, maar hij is een mengeling tussen een vuurreus en een ijsreus, dus Surtr-Ymir. De nadruk wordt vaak gelegd op het brandende ijs. Hij woont in Oswold, de pre-atlantische vorm van Jotunheim, waar de ijs-reuzen wonen. De stad waar wij inkwamen had muren gemaakt van slangen, waar het gif droop, waar de lucht was van bloed. Hier kwamen wij om de schilden te bezichtigen, maar zij waren bijna doorzichtig. Staumi had met het zwaard van wraak toegeslagen. De stad was nu als een woestijn. Zel zat hier op haar troon, in een ruimte achter rode doorzichtige sluiers, waar haar langharige leeuw ook was. Deze stad was genaamd Sogroff, en was omringd door een rivier genaamd Harenx. De scorpioen van Zel bracht wijn voort om de gevallen strijders die hier kwamen dronken te maken. Drie godinnen, Slova, Jarx en Slama, zouden hun verleden, heden en toekomst bepalen. Als ze goed hadden gestreden, dan gingen ze naar Travaska. Zo niet, dan werden ze door Zel opgeslokt. In Travaska woonde Rolf met zijn hamer Avik, die hen beschermde tegen boosaardige reuzen en dwergen. Travaska was een plaats in het hart van Zel.

19. En Zel bewoog zich gesluierd door de stad, en verspreidde haar bloemen van vuur. Kinderen groeiden hier in de bomen. Zij kwamen voort van een diepe eeuwige slaap. De tweede aarde was Trok, de derde Kempen en de vierde Saraul. En deze aardes waren al van een meer verheerlijkte stof. Men aanbad daar een ekster, een masker en een zeedraak. Er was daar alleen leven in het masker, en het masker was het oog.

20. Ik was de nachtleider. Ik had een nieuw pistool. Ik rende door de stad naar de kerk in de verte, en ik kon de kerk maar niet bereiken. In de top van de kerk woonde een geest. Ik richtte mijn pistool op de geest en schoot. Mijn kerkelijk hoofd spatte uiteen. Ik had de vrouwen in de kerk lief. Zij

waren aan zware ketenen, maar ik beminde hen. Ik had de sleutel die op hun sloten pasten, en ik voerde hen uit. Zij hadden mij ook lief. Ik nam hen mee door de oceaan.

21. Mijn huis stond hoog, op een rots in de stad. Ik liet hen mijn schilderijen zien. Hier konden ze veilig wonen. Het was goed zo. Ik had een kroon voor hen gemaakt. Zij reisden van wereld tot wereld. Zij aanbaden het masker. Het maakte hen sterk, en de man werd zwak. De man werd trager en trager, en stond plotseling stil. Zijn hoed was als het gesmolten zilver. Ook zijn schoenen waren als gesmolten zilver en goud. Het droop van hem af. Ik riep naar hem, maar hij hoorde mij niet. Hij staarde naar de kerktoeren. 'Daar bevinden zich al mijn geliefden,' zei hij. Hij wilde mijn pistool zien. Toen liet hij zijn eigen pistool zien.

22. Hij gaf mij geld, veel geld. Ik bouwde een brug, een brug tot zijn wereld. Hij kon me duidelijk horen nu. 'Ja, ik kan je duidelijk horen,' zei hij. We staarden samen naar het hoge kerkgebouw wat begon te druipen. Hij liet mij zijn horloge zien.

23. Ik zweefde tussen de werelden, tussen het westelijke paradijs en het oostelijke paradijs, en langs het voor-paradijs gleed ik terug naar de eerste aarde. En toen was de eerste aarde niet meer. En toen weer wel, en de eerste aarde begon te veranderen, en de man had een jas aan van zebra-huid. 'Ik ben de nacht,' zei de man. We klommen de kerk binnen, en die begon te druipen. Het was pudding nu. Wodan en Thor kwamen langs op hun paarden. Het land is van ons, zeiden ze. En ze wezen naar Wassan en Rolf. Ik droeg een masker, en de man was als een zeedraak op wiens rug ik zat, en we zakten in de zee, en kwamen in de lucht terecht. Zo ging dat op en neer. Hij strekte zich uit langs de kerkmuur. Hij strekte zich uit tot aan de rozenhaag waar alles begon te golven.

Karel Klouterwoes ; Blauwe Angels

1. Deze besjes waren giftig, en wel zo giftig dat ze dat nooit konden weten.

2. Bizonbloed was een heksenkind. Tenminste dat dacht ik, totdat ze mij de andere kant van het verhaal liet zien. Ze bewoog giftige bessen langs me heen. Ik had haar van een afstand gezien, en ze kwam steeds dichterbij. Het was een grauwe dag, en het leek overal te tochten. Toen trok ze mij in de sneeuw. Ze trok me diep weg.

3. Ze voelde zacht aan. Haar heupen waren fors, en ik lag daar. Ze trok me door de sneeuw mee naar haar hut. De sneeuw smolt weg door haar glimlach. En de tuin rood als bloed, verborg haar edelstenen, vastgeklonterd heil. En sneeuw wit kant bedekte haar voeten, en ze was de bloesem van het morgenrood. De tuin had haar schoonheid niet verloren in de winter, maar was gevlochten nu. Ze droeg de boog, en alles om haar heen vervaagde. Ze was als de oplossing van het gouden hertenkind.

4. Ze kwam langzaam op mij af met haar brede heupen, met de boog gericht op iets achter mij, een bizon. 'Ik ben dat mannelijke zwaard zat,' zei ze. Toen schoot ze een pijl af, dwars door zijn hart. Het beest viel neer, en ze duwde mij opzij, en trok mij in een woning. Vanaf hier konden we de tuin nog beter bezichtigen. Ze las rijmpjes voor uit een met goud gedecoreerd boek, een boek met een leren omslag. De tuin was haar trots. De sneeuw sijpelde naar binnen. Het was hierbinnen warmer. Ze deed wat kleding uit, maar was nog steeds bedekt met riemen. Ze was als de jagersgodin.

5. Ze droeg een jachtmaal binnen, en begon te eten. Ze liet mij niet dichterbij komen. Ik had het gevoel te verhongeren. 'Ik moet gaan,' zei ik. Maar ze liet me ook niet gaan. 'Wat wil je van me,' vroeg ik.
6. 'Kom hier,' zei ze. 'Maar raak het vlees niet aan. Het is verboden vlees. Je zal sterven als je er van eet.'
7. 'Waarom eet jij het dan ?' vroeg ik, terwijl ik langzaam dichterbij kwam. Ze zei niets. De tuin ruikte naar zure vruchten. Het was alsof de bommen in de tuin vlogen, wanneer zij zich bewoog. Zij was een oorlogsmachine. Zij danste in de tuin met trots, op het bloed van de gevallenen. Ze zag het als haar opdracht.
8. Ze trok mij dieper in het huis, waar ze op haar zwangere buik wees. 'Maar het kind zal vroeg sterven,' zei ze, terwijl ze een doktersjas aantrok. 'Waarom zeg je dat ?' vroeg ik.
9. 'Omdat het niet om het leven gaat. Het gaat om de dood,' sprak ze. Ze kwam met een injectie naald dichtbij me. 'Even de adem inhouden.' Ik trok mijn arm weg. 'Nee,' zei ze. 'Niet wegtrekken. Je moet gevaccineerd worden. Dit huis is gevaarlijk.' Ik keek naar buiten, naar de klonterige druiven die daar hingen, en dik sap droop naar beneden. Daar had ze mij al geprikt. 'Klaar,' zei ze. Ik glimlachte. Ik was bijna flauwgevalle. Ik trok mezelf aan haar op.
10. 'En nu de tuin in,' zei ze.
11. 'Waarom ?' vroeg ik.
12. 'Je moet werken, werken,' zei ze.
13. 'Wat moet ik doen ?' vroeg ik.
14. 'Je moet het zo doen, kijk,' zei ze. Maar ze deed niets.
15. 'Ik snap je niet goed,' zei ik. Ze bond een touw aan mijn nek en trok me weg. Even later knipte ze het touw door, zodat het een ketting was. 'Je moet er alleen voor zorgen dat je nergens blijft achterhaken,' zei ze. Rode bloesem omhulde hen, en de schaduwen van de roze nachten omhulden hen beiden. Weer trok ze hem het huis in, en het scheen er flink te tochten.
16. 'Ga nu eens zitten,' zei ze.
17. Ineens schrikt hij wakker na een zware hersen-operatie. Hij kan zich niet goed bewegen. Een vrouw in ridderkleding zit naast hem. 'Welk jaar is het ?' vraagt hij.
18. '1978,' zegt ze.
19. 'Waarom ben je gekleed als een ridder ?' vraagt hij.
20. 'Carnaval,' zei ze.
21. 'Wie ben je ?' vraagt hij.
22. 'Ik ben je vrouw,' zegt ze.
23. 'Ik kan het me niet herinneren,' zegt hij. Dan komt er een dokter binnen. De vrouw begint te snikken. 'Is dit mijn vrouw ?' vraagt hij aan de dokter.
24. 'Er is niemand anders in de kamer dan u en ik,' zegt de dokter.

25. Bisonbloed sleept hem uit het ziekenhuis, en brengt hem terug naar de tuin en het huis. 'Probeer niet te ontsnappen,' zegt ze. 'Ik wil dat je de wachter bent van de tuin.'

26. 'Waarom ik ?' vraag ik.

27. 'Omdat je ... laat maar zitten,' zei ze. 'Doe het nou maar gewoon.' Ik laat mijn hand zakken, en loop wat rond in de tuin. Ze volgt elke beweging die ik maak. 'Vanavond komen de heksen,' zei ze. 'Doe het nou maar.'

28. Dan stort hij neer. Een grote vogel staat naast hem, die hij vastgrijpt. En de vogel brengt hem naar een ver eiland. Ook hier is Bisonbloed. Ze kijkt hem aan. Ze is halfnaakt, als een wilde. 'Hoe ben je hier gekomen ?' vraagt ze. Ik wijst op de vogel.

29. 'Hier kun je ook waken,' zei ze. 'De heksen komen vanavond. Je moet wel wat te vertellen hebben.'

30. 'Maar ik heb niets te vertellen,' zei ik.

31. 'Geeft niets,' zei ze. 'Gewoon een brilletje op doen is ook goed. Het is carnaval.' Ik loop braaf met haar mee. Even later zitten we in tuinstoelen. Daarachter is een hutje waar ze aan het koken was, voor vanavond.

32. Hij staart voor zich uit. De dokter grijpt zijn hand. Hij vecht voor zijn leven. De dokter voelt zijn pols, en drukt een alarm-bel in.

33. Ze loopt binnen in het hutje. 'Kom,' zegt ze. Weer volg ik haar braaf. Ze roert in haar ketel.

34. Met wat reanimatie krijgen ze hem weer aan de gang. Ze besluiten nog een hersen-operatie te doen.

35. 'Waarom lach je ?' vraagt ze.

36. 'Niets,' zei ik.

37. 'Je hebt een mooie lach,' zegt ze.

38. Het klontert in zijn hoofd. Dan komt er ineens een straal vrij van zijn hoofd. De dokters springen op zij. Dan klimt er ineens een beestje uit de scheur in zijn hoofd. De dokters beginnen te schreeuwen in paniek en vallen neer. Een zoemend geluid neemt over.

39. 'Tatarak !' krijst het beestje. 'Opereer zijn hersenen.' Vrouwen komen de kamer binnen, en starten de operatie. Ze werken met gouden instrumenten. Er komt schuim op zijn mond. Maar ze krijgen alles weer goed op gang.

40. Hij zit op het witte zand. Hier en daar liggen wat bladeren, en Bisonbloed zit naast hem. Ze houdt zijn hand vast. 'Ik ben blij dat je er bent,' zegt ze. De geur van koffie zit in zijn klederen. Ze besluiten het uit te wassen in het meertje verderop. Het is als een heet stoombad. Snel zijn ze beiden naakt. Het zand aan de kusten ziet er niet zo best uit. En er is overal hondenpoep. Hij wordt onwel, en ze trekt hem uit het meertje. Al gauw ligt hij in een hutje onder een verrotte deken.

41. 'We hebben geluk gehad,' zei ze. 'Er ligt overal glas in het meertje.'

42. 'Waarom trok je me daar naartoe dan ?' vraagt hij.

43. 'Alleen daar kun je vrijkomen van de koffielucht,' zei ze.

44. 'Ik wil er weer naartoe,' zei hij.
45. 'Niemand mag daar ooit voor een tweede keer naartoe,' zei ze.
46. 'Ik wil bloeden,' zei ik. 'Al dat valse bloed moet eruit.'
47. Ze pakt een stukje glas en rijt hem open. 'Hier,' zegt ze.
48. 'Nee, ik moet naar dat meertje,' zei ik. Ik stond op, en rende naar het meertje.
49. 'Je zult sterven en door een haai gegrepen worden,' zei ze.
50. 'Kan me niet schelen !' riep ik, terwijl ik in het meertje dook. Alles was plotseling bruisend water. 'Er bestaat geen dood !' gilde ik. 'Houd toch eens op met je drama !'
51. 'En geef me nu van het verboden vlees !' riep ik. 'Waar is het !'
52. 'Je zult sterven,' zei ze.
53. 'Okay, dan ga ik godverredomme maar dood !' riep ik. 'Wie kan het wat schelen !'
54. 'Ik,' zei ze. Ze trok me er weer uit. Ik zat onder de hondepoep, onder het glas, en vreemde bessen. Ze stopte me in een kist en bedekte de kist met roze kant. 'Ik ben niet dood !' riep ik. Ze drukte op een knop, en er werd een slaaplied gespeeld. 'Ik voel me op en top, dus stop met die onzin !' riep ik. Ik proefde wat van de bessen. Ze waren zoet, zuur en bitter. Waarschijnlijk waren ze ook giftig.
55. 'Je speelt met je leven,' zei ze. Plotseling was de kist in vlammen, maar ik lachte. Ik stapte eruit, brandend, en greep haar beet. Ze had een laken om haar heen.
56. 'Je kunt ook wel een boom zijn,' zei ze. 'Het frisse, jonge hout brandt goed.' Ik knikte.
57. Het zachte zadel hield ze voor me. Ik ging er op zitten. Ik sloeg het brandend laken om me heen, en het was snel als kant. Ik was de prins van de molen. Ze had gelijk. Ik was dood.
58. Ik was in de lederen darm van een haai. In de buurt stonden overal rozenstruiken, en de straten waren bezaaid met vuurwerk. En alles was nat, want het had flink geregend. Ik had een nare smaak in mijn mond, van bessen, glas, metalen en hondepoep. Er liepen wat arabieren en punkers op de straat. Ik had last van de wind in mijn hoofd. Alles was zacht, en ik stortte in. Maar touwen trokken mij weer op. Ik moest dansen, zingen, en veel geld verdienen. Dan zou Bizonbloed weer langskomen, en op een dag was het dan zo ver.
59. Ik herkende haar bijna niet meer terug. Ze was wat ouder nu. Met een schaar trok ze mijn blaren open. 'Kijk naar die bloemen,' zei ze. 'Ze wijzen je de weg naar het leven.' Ik keek, en de kelken hadden bruisend sap in hen. 'Ik wil er van drinken,' zei ik.
60. 'Nee, want dan sterf je weer,' zei ze. Maar het kon me niet schelen. Ik liep af op de wulpse kelken, en begon te drinken. Ik verdrong er bijna in. Ik begon flink dronken te worden.
61. 'Domme idioot !' riep ze. 'Wat ben jij een koppige ezel, zeg. Je doet gewoon alles wat niet mag.'
62. 'En jij moet niet zo de baas over mij spelen,' zei ik. 'Ik bedoel maar, ik heb een blaas, weet je, en ik plas straks alles weer uit.'
63. 'Nou, je bent maar goed begenadigd,' zei ze. 'Je bent een begiftigd man.'

64. Ik knikte. Ik stortte neer aan haar voeten, en zij sleepte me weg. Ze dumpte me ergens in een sloot, maar touwen trokken hem weer op. Ik ging de eerste de beste stal in waar ik me kon wassen, want ik voelde me nu toch wel een beetje vies. Het water hier zat vol met modder, maar dat kon me niet schelen. Ik voelde me schoner nu. Ik ging ergens in het hooi liggen om op te drogen. Even later rende ik achter het weiland het eerste het beste huisje in en speelde de clown. Ik had ook een harp nu, en ze gooiden geld in mijn hoed. Ik ging van huis tot huis, om mijn kunstje te vertonen. Ik had een beetje drempelvrees, maar een snoepje deed altijd wonderen.
65. Met modderhanden streelde ze door mijn haren. Het was toch carnaval.
66. Hij lag aan de hart-monitor. Dokters vreesden voor zijn leven.
67. Hij zwom met de zwanen, en gleed door alles wat vies, gevaarlijk en verboden was. Iemand kamde zijn haren, en hij zonk weg in een put van stank. Hij was goed door een haai gegrepen, zoals Bizonbloed had geprofeteerd. Maar hij was nogal goddeloos, onkerks en tegen de draad in. Hij had een hekel aan geloof en regels. Zijn bloedvaten waren aan het exploderen, en hij hoorde gelach in zijn hoofd. Hij lachte mee. Kon hem het wat schelen.
68. Touwen trokken hem op, en hij werd op een podium gezet. Hij zwaaide naar de mensen, en begon te zingen, en te acteren. Het was per slot van rekening carnaval, en alles moest maar kunnen. Een raam werd ingegoooid, en hij begon aan zware epilepsie te lijden. Hij zat bij de kapper, en hij hoorde alleen maar lachen. Zijn hoofd werd ingezeept.
69. De dokters waren alweer een hersen-operatie aan het uitvoeren, om hem van de dood proberen te redden.
70. Hij had het gevoel alsof hij dronken was. Hij waggelde door de stad. Hij was een clown. Na een lange tijd zag hij Bizonbloed weer terug. Met een dronken stem zei hij dat hij niet had gedacht dat hij haar ooit nog tegen zou komen. Ze bracht hem mee naar een flatwoning, waar ze hem ging douchen. 'Nu is het afgelopen,' zei ze.
71. 'Wie denk je dat je bent ?' vroeg hij. 'De Jezusin ?'
72. Ze knikte.
73. 'Ik had toch een andere soort van wederkomst verwacht,' zei hij.
74. 'Nee, het is niet te berekenen,' zei zij.
75. Alle rozen in de stad waren blauw geworden, en het sneeuwde. De Jezusin liep een cafe binnen, en begon te drinken.
76. 'Tatarak !' schreeuwt iemand.
77. Hij wordt wakker in de tuin, met een beestje in zijn hand. Hij is de tuinwachter. Het beestje had een angel in zijn hand gestoken, waardoor blauw spul in zijn lichaam werd geïnjecteerd. Hij trok de angel eruit, en kon weer ademen. Hij voelde zich vies, maar ach, het was maar de natuur. Hij zag het als een onbekend vaccin. Waar het goed voor was, wist hij niet, maar het zou wel ergens goed voor zijn, dat wist hij zeker. Nog steeds had hij een beetje dat dronken gevoel. Ook voelde hij zich overgevoelig. Nee, hij wilde niet nog een keer door zo'n beestje gestoken worden.
78. Toen hij afgelost werd kon hij naar huis. Zijn geliefde was daar. Ze had een bloemenjurk aan van een hele fijne, zachte, plezierige stof. Als hij die stof voelde, voelde hij zich altijd heel veilig.

Ze was thee voor hem aan het zetten, van een soort blauwe bonen. Even later zaten ze beiden aan tafel.

79. Dokters hadden eindelijk ontdekt wat er mankeerde aan zijn hersenen. Het bleek dat zijn gevoelscentrums geïrriteerd waren, waardoor hij niet tegen aanrakingen kon. Het bleek te zijn ontstaan door een allergie tegen bacteriën die alleen maar in hout voorkwamen. Ook was er een vreemde uitslag op orgaantjes in zijn hersenen wat ze zouden moeten verwijderen, dus hij ging weer onder het mes.

80. Hij draaide maar in het rond in de tuin. Hij voelde zich goed.

81. Ze zaten tegenover elkaar. Ze smeerde het brood. Het was zonnig buiten. Het zonlicht weerspiegelde in hun gouden spulletjes. Er werd gebeld. Ze nam op, en legde weer neer. Hij droomde weg. Ze liep de kamer binnen. Hij keek naar haar door het raam. Plotseling begon het te waaien, dus ook hij ging naar binnen. Er droop zand uit de plantenbakken. De druiven in de tuin dropen. Het was allemaal zeer klonterig. Het leek goed rijp. Hij rende naar buiten in de regen, greep wat druiven en kwakte ze op een bordje.

82. 'Carolien, ik ben je wachter,' zei hij. 'Dat zal ik altijd zijn, wat er ook gebeurt.'

83. 'Ik weet het,' zei ze. 'Je bent zo trouw.'

84. Ze nam hem mee naar boven en trok aan de touwtjes van zijn blouche. Ze drukte hem op het bed, en ging naast hem liggen. Op het nachtkastje lag een boek genaamd 'Bloedbizon'. Het ging over de jacht op bizons. Het was een soort avonturenverhaal. Hij las er uit voort. Maar hij begreep wel waar de schrijver naartoe wilde. De bizons waren het beeld van mannen die de autoriteit hadden genomen, en die autoriteit misbruikten. Het was een heel feministisch boek, dat ook opkwam voor andere minderheden.

85. Hij legde het weer weg. 'Carolien,' zei hij. 'Je weet het. Ik sta aan de kant van de vrouw.'

86. Carolien knikte. 'Ik weet het,' zei ze. Toen gingen ze beiden slapen.

87. De hersenen werden getest. De man kwam tot leven. Er werd geapplaudiseerd.

88. 'Het leven is een valstrik,' stamelde hij. 'Een web van een vrouwelijke spin.' Hij stond in de bibliotheek. Hij bekeek de vele boeken over vrouwen. Vaak waren die vrouwen de heldinnen, of gevaarlijke vrouwen, waarin de hoofdpersoon verstrikt raakte. Op de kaften waren vaak woestijnen met schaars geklede vrouwen al dan niet met wapens en helmen. 'Ik wil meer weten over het gevaar,' zei hij.

89. Boven hem zag hij rozenstruiken, als een put. Hij werd naar binnengezogen, en kwam in een plaats waar een heleboel vrouwen waren, genaamd de danaiden. Op hun voetzolen waren de namen van hun vermoorde mannen te lezen, die zij zelf hadden vermoord in de huwelijksnacht. Zo leefden ze voort door de geroofde levens-energie van hun mannen. Het waren merktekenen op hun voeten, waarmee ze anderen ook konden merken. Er droop inkt uit voort. Ook gebruikten ze het voor handtekeningen op rekeningen en andere officiële papieren. Zo konden ze veel gedaan krijgen. Hij klapte het boek dicht, en stond weer met beide benen op de grond. 'Ik moet me van illusies onthouden,' zegt hij.

90. 'Besef het, je hebt een redder nodig,' zei Bizonbloed, de Jezusin.

91. 'Er wordt overal gejaagd, er is niet veel wat je kunt doen. Je zal erg moe worden.'

92. Er waren overal struiken, en tussen de takken door bloedende borsten. Zij bloedden door de scherpe doornen. 'Je moet het bloed drinken,' zei ze. Ze gaf hem een buisje met bloed, en hij dronk. 'Het is bizonbloed,' zei ze. 'Je hebt nu het vrouwelijke deel in je gevonden.'

93. 'Ik wil dit niet !' riep hij. Toen viel hij neer. Hij schoot een paar bizons van afstand, en ging toen slapen. Vanuit het bloed kwamen klimoppen. De klimoppen brachten hem naarboven naar een hemels paradijs. 'Tatarak !' riep hij. Het zand was hier wit. Er kwam een bruisend sap uit de klimoppen, en de bessen explodeerden. In de klimoppen leefden vrouwen met staarten.

94. Het merkteken was grijs in hun hoofd. Zij werden gevoerd door borsten, door leidingen die via een kraan getapt konden worden. Het was de moederstad. Zij troonde hier in vuur, zij, Bizonbloed. En Karel Klouterwoes was haar nar.

95. De stad leek als bedekt met takken, waardoor het bizon veld bezichtigd kon worden, midden in de stad. Hier moest veel gejaagd worden, zodat de man nooit meer zou regeren. De stad leefde door bizonbloed, en zo moest het blijven.

96. Haar klederen waren doordrenkt met bizonbloed, en zij brandde. Het hield hen dronken. Deze besjes waren giftig, en wel zo giftig dat ze dat nooit konden weten. Een lange trap gaf een antwoord aan Karel Klouterwoes. Ook hij moest buigen voor de koningin, en haar kunstzaal onder ogen komen. 'Verdomme,' zei hij. 'Zij kan het.'

97. Ik moest oppassen voor Karel Klouterwoes, zoals iedereen dat moest. Hij was door haar gedresseerd, maar het was een roofdier. Hij leefde in haar kooien wanneer zij hem niet gebruikte. En anders was hij gewoon aan de ketting. Er moest goed toezicht op deze man gehouden worden.

98. Maar op een dag ging het mis. Karel Klouterwoes brak los. Mensen renden in paniek hun huizen binnen, en deden alles goed op slot. Maar het was al te laat. Karel Klouterwoes deed de stad verdrinken in bizonbloed. Ik kon net op tijd ontsnappen. Hij was per slot van rekening maar mijn schaduw. Ook de koningin liet hij in leven. Zij was immers de Jezusin. Ik keek de takken door en zag de zee van bizonbloed. Het was warm op het strand. Het bizonbloed leek weg te trekken en weer op te komen door eb en vloed. Dit werd gereguleerd door een vreemde planeet, de bloedbizon. Deze planeet hing ergens in Orion. Door toedoen van de koningin werd de stad weer leefbaar. Ik keerde weer terug naar de stad, maar Karel Klouterwoes liet het er niet bij zitten. Hij omsingelde de stad met een leger. Ze waren op zoek naar mij.

99. Ze klopten op hoge deuren, maar ik was veilig met de koningin. Ze liet mij het geheim van de stad zien. Ik zag overal bloed stromen. Het leek van boven naar beneden te regenen. Ze leidde mij naar een trap die mij bracht naar een plaats diep onder de stad. Hier spreidde ze haar jurk uit en vroeg aan mij of ik een ballerina wilde worden.

100. Het zou het enige medicijn tegen Karel Klouterwoes, de dolle losgebroken nar, zijn. Ik ging staan als een standbeeld, en begon te draaien, terwijl mijn kleding en huid in goud en zilver veranderden. Ik hoorde slaapliederen op de achtergrond. Ze had ergens op een knopje gedrukt. Spoedig ging ik dansend door de stad. Er waren overal leeuwen in de stad, maar het was alsof er glas om me heen was. Ze lieten mij met rust. Met een fluit leidde ik de leeuwen daarna uit de stad, het woud in.

101. Het leek te verergeren met zijn hersenen. De dokters besloten dat zijn laatste hoop een hersentransplantatie zou zijn. Voorzichtig werden zijn hersenen eruit gesneden, en werden er nieuwe hersenen ingelegd. Hij moest er spontaan van overgeven. Hij voelde zich anders, bevrijd.

Maar daarna was hij in een shock. Weer begonnen ze in zijn hersenen te snijden, omdat ze er zoveel geld mee verdienden. Hij rook de geur van drop.

102. De bomen groeiden tegen de klok in. De koningin kwam hem redden, maar toen werden ze uit elkaar gescheurd. Hij voelde zich in een lange diepe put wegglijden. Karel Klouterwoes nam zijn lichaam. Hij voelde zich opgesloten in zichzelf, alhoewel hij nu wel moest lachen. Hij zag zichzelf liggen. Het was alsof er een lachgas over hem kwam. Hij stond op en was een geraffineerde nar nu. Hij zou trouw blijven aan de koningin, aan de koningin in zijn hoofd. Zij waakte over hem.

103. De stad was brandende. Hij klom naar een hogere verdieping in het flatgebouw. Karel Klouterwoes klom achter hem aan, in zijn lichaam. Een gevecht ontstond. 'Brandende dampen !' schreeuwde Karel Klouterwoes. 'Ik zal je wel krijgen.' Hij gaf Karel een trap, en klom verder. Alweer greep Karel hem. 'Je zal niet weg kunnen komen, ventje,' zei Karel. Weer trapte hij Karel weg, maar Karel had zijn jas gegrepen. Toen deed hij zijn jas uit, en klom verder, maar Karel had zijn broekspijpen gegrepen. Ook trok hij toen zijn broek uit, en klom verder, totdat hij helemaal naakt was. Een vogel wachtte hem op aan de top van het gebouw. 'De koningin heeft mij gezonden,' zei de vogel. Maar Karel greep een pistool en schoot de vogel neer. De man begon nu echt in paniek te raken. Door de rook zag hij nog een gebouw op het gebouw, met een ladder ervoor. 'Gelukkig,' zei de man, en rende er naar toe. Karel begon nu ook op hem te schieten. Maar snel was hij hoog op de ladder. Toen Karel bij de ladder was aangekomen, was de man al een raam binnen geklommen. Hij zag ergens een hoed hangen en deed die op, en daarna een lange jas en een broek. Snel rende hij naar de andere kant van het gebouw en begon de trappen op te rennen. 'Ik krijg je wel !' hoorde hij Karel roepen. Helemaal bovenin het gebouw aangekomen belde hij ergens aan, en de koningin deed open. 'Hier ben je veilig,' zei ze. Binnen maakte ze wat thee voor hem klaar, maar al snel hoorden ze gebons op de deur. 'Hier is Karel !' riep hij. 'Ik kom je halen !' Toen trapte Karel de deur in. De koningin drukte ergens op een knopje, en een kistje ging open die Karel helemaal begon op te zuigen. Toen dat klaar was ging het kistje weer dicht. 'Ziezo,' zei de koningin, 'die is weer waar hij wezen moet.' In de kamer was een doorzichtige bol gevuld met bizonbloed, en de bol brandde. 'Het is de stad die brandt,' zei de koningin. De man knikte.

104. 'Dus,' zei de koningin. 'Niemand heeft het ooit zo ver gebracht. Ik ben trots op je.' Het vuur begon weg te trekken. na een tijdje keek ik door het raam naar beneden. Er waren bizon gevechten. Er werd op trompetten geblazen. Weer zag ik alles door vuur wegvagen. Ze was naakt.

105. Er kwam meer en meer begroeiing. De stad begon op een oerwoud te lijken. De man zat nog steeds dichtbij de koningin. Ze had het kistje op haar schoot. Haar vinger bewoog heel langzaam naar een rood knopje. Plotseling werd er een spiegel ingeslagen, een grote wand. Electriche gestalten stonden daar in vuur. 'Luister niet naar haar !' riep één van hen. 'Zij is zelf Karel Klouterwoes, en zal je willen opsluiten in haar kistje !' Ze hadden gereedschap in hun hand, en sloegen toe. 'Ren door de spiegel !' riep een ander. Hij rende door de spiegel, waar het gebouw veel hoger was, en de brand veel erger. 'Het is niet waar !' riep de koningin. Hij zag toe hoe er een gevecht ontstond. De koningin had het kistje geopend, en Karel was weer tevoorschijn gekomen. Nu begon ook de koningin in Karel te veranderen. 'Ren !' gilden de electriche gestalten. De man zette het op een lopen, terwijl er overal explosies waren. Weer rende de man trappen op. Toen hij het plafond had bereikt belde hij ergens aan. De koningin deed open. 'Ik hoop maar dat u de goede bent,' zei de man.

106. 'Natuurlijk,' zei de koningin. 'Ik ben de echte.'

107. 'Ja, dat zeggen ze allemaal,' zei de man. 'Hoe kan ik dat zeker weten ?'

108. Daar kwam Karel al met een noodvaart door de deur heen. 'Klim uit het raam,' zei de koningin. 'Snel.' De man klom uit het raam, en de koningin deed hetzelfde.

109. 'Ik zie jullie wel,' riep Karel. Een helikopter kwam op de top van het gebouw, met elektrische gestalten. Snel stapten de man en de koningin in, terwijl het gebouw beneden ontplofte. Maar tot hun grote schrik zagen ze de hand van Karel Klouterwoes die een stang onder het toestel had gegrepen. Hij trok zich eraan op, en probeerde de deur te openen. Toen hij een ruit insloeg richtte één van de elektrische gestalten snel een laser-pistool op hem. De man trapte Karel Klouterwoes weg, maar Karel had zijn been gegrepen, en beiden gleden naar buiten. De man kon nog net de stang vastgrijpen. Hij probeerde Karel van zich los te trappen, wat niet lukte. En Karel begon zich al omhoog te trekken aan hem. Maar toen schoot één van de elektrische gestalten hem weg. De man werd weer naar binnen getrokken.

110. De man klaagde dat met de hersen-transplantatie hij het gevoel had niet meer in zijn eigen lichaam te zitten. Toen hebben de dokters hem een tweede hersen-transplantatie gegeven. De dokters leken op Karel Klouterwoes. Hij trapte hen van hem af, en rende naar buiten met schuim op zijn mond. Hij rende naar de tuin, waar hij tuinwacht was. Hij voelde Karel Klouterwoes in hem. Hij zocht naar het beestje wat hem eens stak. Snel had hij het beestje gevonden, zette het op zijn arm, en liet zich steken.

111. Iemand trok hem het huis in. Het was Bizonbloed. 'Heb je de oplossing gevonden ?' vroeg ze.

112. 'Ja, stekende beestjes,' zei ze. Ik glimlachte.

De Openbaring van de Steen der Indianen

1.

Lactaractus

1. Deze steen geef ik u. Dat gij God zal vinden als uw vrouw. En dat gij uw vrouw zal vinden als een wapen.

2.

Het Teken

1. Ik heb u geschapen, zegt de Heere. Ik heb u feest laten viëren onder uw huizen. Ik heb u laten weten dat Ik de Heere ben. Ik laat mijzelf kennen. Ik heb door de geschiedenis gesproken. Zoekt dan naarstig naar mijn woorden, opdat gij zult leven. Zij die in mij zijn, sterven niet. Ik dan ben de brug. Ik heb de hemelen om u heen gespannen. Gij kunt daarover met uw geest gaan om mij te zoeken. Ik ben hoog boven u. Tot de wederspanningen van geest zeg ik : Luister niet naar uw afgoden, maar doet hen uit uw midden weg, opdat gij zult horen wat Ik tot u zal spreken. En gij zult het gevoel hebben thuis te zijn gekomen. Ik heb u geschapen. Keer daarom weder tot mij. Ik spreek vanuit de aarde en het oerwoud, ja, vanuit de wildernis spreek ik, om dingen bij u recht te zetten. Houd dan moed, ik ben dichtbij. Ik heb de hemelen over uw uitgespannen als vele lagen vol visioenen. Kom daarom hogerop. Ik heb u geroepen en ga graag met u om. Laat u dan niet wederom door de zonde grijpen, maar kom tot Mij, en Ik zal u rust geven en wijsheid.

2. Laat u niet afleiden door stemmen van de wereld en van religies. Ik ben de Heere. Ik heb u uitgeleid uit tradities en religies, opdat gij Mij zoudt leren kennen, die Ik waarlijk ben. Gij hebt niet

van node iemand te kennen dan Mij. Ik ga voor u uit en kom achter u aan. Ik heb u geschapen, en Ik zie graag naar u uit. Neem daarom deze woorden ter harte. Ik ben uw vader, dragende het hart van een moeder. Ik heb Mijn woorden tot u gezonden, en zij die in Mij wandelen zullen deze woorden verstaan. Maar de wereld zal zeggen : Wij kennen deze man niet. De wereld echter is mijn vriend niet. Ik heb de geest der wereld niet geschapen, maar zal de wereld wel transformeren. Alles om u heen zal anders worden, en ook de woorden en gevoelens om u heen. Vele oude dingen zullen verdwijnen, en men zal zich afvragen : Waar zijn zij heengegaan ?

3. Zo heb ik dan Mijn woorden als een net om de wereld gespannen. Maar gij : gebruikt het net om tot Mij te komen. Ik heb welgevallen in hen die met Mij omgaan. Ik dan ben de Heere aangesteld boven alle religies. Zo zijn er dan velen van mij afgeweken om zich weer dienstbaar te stellen aan religies en tradities. Heb ik dan niet de religies geschapen om u tot Mij te brengen ? Waarom zou u uzelf er dan weer door laten knechten. Gij dan die vrijgemaakt zijt : Wees vrij en leef vrij, en geeft u niet meer over aan armelijke wereldgeesten, want ziet, al die religies waren religies van de wereld, religies van het vlees, omdat gij van vlees waart. Maar nu, gij die van geest zijt : Komt tot de dingen van de geest. Blijf daarom niet plakken aan aardse schaduwen, maar weest een pelgrim, om de hemelen te aanschouwen, en niet meer een slaaf van de aarde te zijn. Want de aarde heeft veel religies, maar ziet, zij zijn slechts van de buitenkant. En als gij niet verder trekt, dan zult gij door hen opgeslokt worden.

4. Hen die deze woorden horen, en die tot Mij zijn gekomen en Mij volgen, hen heb Ik de macht gegeven om door Mij vrijgezet te worden van de banden van religie. Ik zoek hen op in de oude kamers en onder de oude kamers waar zij gevangen zitten, en Ik maak hun banden los. Zo doe Ik dan goed aan duizenden van hen die Mij volgen en dienen, ja, zelfs hun nageslachten maak ik vrij, om hunnentwille. Weest daarom ootmoedig, en doe Mijn geboden. Mijn geboden zijn geen last, maar een plezier voor de ziel, omdat zij tot leven wekken en leven geven. Zo zijn dan mijn geschenken goed.

5. Zo is dan de aarde vol van Mijn Glorie, en Mijn lichten staan klaar om uitgestort te worden. Beproof en toets mij, want Ik ben de Heere. Ik heb u uitgeleid uit het diensthuis van de religies en de angsten. Want dat wat van de aarde is, is angst. Zo zijn er dan velen die in hun leven moeizaam voortgaan, zaaiende in angst. Maar heft uw hoofden op, want de ure van bevrijding is gekomen. Zult gij dan wederom tot de Mammon gaan ? Heeft de Heere u niet geleerd de materie los te laten, opdat gij de geest zult ontvangen ? Zo zult gij dan de materie van de geest leren kennen, die sterker is dan de materie van het vlees.

6. Luister, alle gij die door religie gebonden zijt : Ik heb hen gezonden om u tot Mij te zenden. Zij zijn opgebouwd in symboliek, omdat gij de dingen van de geest niet kunt verstaan.

7. Nu dan, gij heiligen, maakt uzelf op, om tot Mijn heilige berg te komen, want Ik, de Heere, heb een feestmaal aangericht. Een feestmaal, omdat Ik u bevrijding hebt verkondigd, en zo zal dit dan zijn een feest der bevrijding. Houdt dan op elkaar telkens te binden, maar zet elkaar vrij, daar Ik u heb vrijgemaakt. Zo is er dan genezing voor de geest en verlichting voor gebroken beenderen. Zo zal er dan een einde komen aan het vloeien van bloed op de heilige berg des Heeren. En het huis des Heeren zal niet meer tot een bespotting worden gemaakt. Want de Heere is heilig.

8. Zo luidt dan het Woord des Heeren : Er zal een einde komen aan de dagen van angst, en er zal een einde komen aan de dagen van het lijden. Want Ik zeg u : De wereld heeft u in angst en lijden gehouden, door u niet het rechte pad te wijzen. De wereld heeft u gebonden door tradities en

culturen, en gij kon daardoor geen pelgrim wezen. Maar heeft de Heere u dan geen voeten gegeven ? Gebruikt dan uw voeten. Heeft de Heere u dan geen schoeisel gegeven ? Ja, de Heere heeft u zelfs vleugelen gegeven om tot Zijn heilige stad te komen. Zo zult gij dan tot de Heere komen, en uw ziel zal Hem prijzen. Gij zult Hem aanschouwen met reine ogen, en gij zult u opmaken om voor eeuwig in Zijn stad te wonen.

9. Zij dan die op het veld zijn : Prijst de Heere. Maakt u op om de heilige berg des Heeren te bestijgen en om tot Zijn stad te gaan. Hier heeft de Heere een feestmaal voor u aangericht, voor u en uw nageslacht. En de Heere zal zeggen : Er is een Dag van Bevrijding voor u gekomen, voor u en uw nageslacht. En de Heere zal de oude putten openen en krijgsgevangenen opvoeren in de hoge, en zij die onschuldig vastzaten zullen vrijgezet worden. Zo heet het : Komt allen tot de Heere, die een Dag van Vrijheid heeft aangesteld. Op die dag zullen wij Hem loven en prijzen, en zullen wij zeggen : De Heere is goed voor ons geweest. Hij heeft de knellende banden van religie verbroken, en tot de vermoeiden heeft Hij gezegd : Ziet, Ik geef u vleugelen. Kom dan tot de wateren des levens die boven de hemelen vloeien, en drinkt daarvan, opdat gij eeuwig leeft. Zo heeft de ziel dan iets om aan vast te houden, en iets om zich aan omhoog te trekken. Zo zal dan de ziel voor eeuwig Gode prijzen.

10. Maar er zullen enkelen tot de hemelpoorten komen om te wijzen op de oude paden, en de Heere zal zeggen : Hebben de oude paden u dan niet hier gebracht ? Komt dan binnen, want ook voor u is er een feestmaal. Maar sommigen zullen teruggaan tot de oude paden. Want zij hebben zich van meet af aan dienstbaar gesteld aan de armelijke wereldgeesten.

11. Zo hebben sommigen van hen die het christelijk geloof aanhingen zich uitgestrekt naar de zon, en zij hebben de zon aanbeden. Zo is dan een ieder die de pinkstergemeente niet als een tussenstation ziet een afgodendienaar. Heeft de Heere de zon dan niet geschapen om onder te gaan ? Heeft de Heere de zon dan niet geschapen om heen te wijzen naar Hem ? Zo hebben zij dan die van het station een eindbestemming gemaakt hebben onrecht gedaan aan de Heere en aan de zon. De Heere heeft de zon geschapen om u vleugelen te geven. Zij dan die de monnik prijzen boven de pelgrim zijn zeer te betreuren.

12. Zo is het dan de Heere geweest die door de kracht van de zon de hemelen over u heeft uitgespannen, en ook heeft de Heere dromen en visioenen gegeven door de kracht van de zon. Maar de Heere gaat van zon tot zon. Hebt gij Hem dan nog nooit aanschouwd op Zijn zonnewagen ? Vanaf de daken prijzen Zijn engelen Hem. Ook hebben zij in de hemelen de treden geschapen. Komt dan tot de hoogste treden, en eert elke stap die gij daartoe zult zetten. Want de Heere eert het hele bouwwerk.

13. De Heere dan is de bouwmeester, en de Heere heeft het bouwwerk gemeten. Zult gij dan teruggaan naar de armelijke wereldgeesten die zich een steen hebben gestolen, om daarmee de mens af te houden van de heerlijkheid die voor hem klaarligt in de hoogste hemelen ? Ziet, dan zijt gij zeer te betreuren. Oh mens, laat af van zulke wereldgeesten, want de Heere heeft hen ten verderve weggelegd. Zo zijn er dan vele wegen in de Heere, en die allen leiden tot de Heere. Zo heeft Hij glorie vastgelegd in de hoogste hemelen, en zij die wild zijn reiken daar naar uit.

14. De Heere heeft u een rots bereid, als een rots der eeuwen, en daarop zult gij uw woning bouwen, en gij zult soms naar beneden kijken, om te zien hoe de hoogtes het zicht op die rots veranderen. Zo zal het ook gaan met uw geloof.

15. Zij die het principe Jezus Christus aanhangen : Dit is slechts een symbool om een diepere waarheid aan te duiden. Zo is Jezus Christus dan weggelegd om hen van de vleselijke ringen der aarde te wijzen op het geestelijke. Maar Hij die voortgekomen is uit het vlees zal ook door het vlees vergaan, en daarom zult gij verder moeten reizen. Zij die Christus verabsoluteren zijn afgodendienaars en materialisten. Zij volgen de Mammon en gaan voorbij aan de weg waar Christus hen naartoe heeft gebracht. Christus is een wegwijzer, maar voor die hogere wegen waarnaar Hij wijst, zult gij Hem los moeten laten. Zij die dit niet kunnen zijn geketend door de armelijke wereldgeesten.

16. Daarom heeft de Heere een Dag opgesteld, een Dag van Vrijheid, waarin de christen zijn oude pad mag afleggen als een oude deken, om de hogere wegen naar de geest te begaan. En er is onder de hemelen een teken gegeven om op die Dag te wijzen, en die Dag te laten ontstaan. En ziet, dit teken is de indiaan.

3.

Het Verhaal van Elf

1. Zo hebben velen van het heidendom het christendom omhelsd, en velen van het christendom het heidendom omhelsd. En enige tijd is er een muur geweest tussen die twee, en er zijn tijden van intense vermengingen geweest. Maar Ik, geheel anders, wijs u een hogere weg. De elf was zo lang het teken van verzoening tussen het christendom en het heidendom, maar tegelijkertijd was het het teken van oorlog tussen die twee kampen. De elf stond voor de paradox. De elf was het startfluitje van de arena, maar ook het eindfluitje. Zo was de elf vaak een bovennatuurlijke en bovengestelijke engel, waar de God en de goden van het christendom, en ook die van het heidendom vaak geen raad mee wisten. Voor hun volgelingen waren ze vaak oppermachtig en alwetend, maar ze wisten van elkaars zwakheden, en elkaars tekortkomingen. Vaak maakten ze gebruik van elkaars onwetendheden. Zo waren er dan vele complexen tussen de jonge goden. De elf was voor hen vaak ongrijpbaar, en werd in bepaalde tijden zelfs vervolgd. Ook zij die elven volgen moeten weten : Zij zijn wegwijzers, maar soms zelfs tricksters. Soms houden zij ervan om mensen en goden naar een arena te lokken, en dan worden zij het symbool van redding, maar ook van vernietiging, en zelfs straf. Zo is dat in de tijd ook met Jezus Christus gegaan. Hij was een bijzondere engel, en droeg de naam Eniggeboren Zoon van God. Het was Gods lievelingsengel, maar tegelijkertijd ongrijpbaar. Hierdoor werd hij soms door de goden 'elf' genoemd. Er werd een probleem gecreeerd door die engel, maar tegelijkertijd droeg hij ook de sleutel van de oplossing, alhoewel dat weer een nieuw probleem zou brengen. Op een dag werd die engel gegrepen en naar de aarde gezonden, waar hij hetzelfde deed, maar nu niet onder de goden, maar onder de mensen.

2. Zo zijn er dan vele verhalen in de omloop over Jezus Christus, maar er zijn dan ook meerdere Christussen. Er zijn zoveel Jezus Christussen die de wereld niet eens zou kunnen bevatten. En waarom zijn er zoveel Christussen ? Omdat het slechts een titel is. Zelfs in de onderwerelden, de hellen en de rijken van de duisternis zijn er Christussen. En sommigen zijn hun titel waard, en anderen niet. Daarom moet gij de geesten toetsen, maar meer nog : Hogerop komen. Zij zijn niets anders dan tussenstations in de vleselijke gewesten, heenwijzende naar de geest. Maar Ik zal u een geheimenis vertellen : Elk tussenstation kent zijn eigen Christus. Komt daarom tot de hogere Christussen, maar houdt in uw achterhoofd : Het zijn archetypes, symbolen, die naar een diepere werkelijkheid wijzen. Zo kunt gij door de mystiek die werkelijkheden betreden, en later door de cryptiek. Zo zult gij ontdekken dat alles een code is van de hemelse taal. De hel was vroeger een

persoon in de Germaanse Mythologie, en zij stond erom bekend dat zij ouden, zieken en zwakken door de plaatsen van loutering bracht, om hun zielen klaar te maken voor het Walhalla, de hemel, of het koninkrijk der doden. De hel was een plaats waar iedereen doorheen moest om daar liefdevol getuchtigd te worden om daar de klederen des hemels te ontvangen die men nodig had om tot de hemelpoorten te kunnen komen. De hel stond bekend als een plaats van zorg. Zo was de hel een onderdeel van de hemel, een soort badplaats, en niet het afschuwelijke wat ze er later van hebben gemaakt. Zo dient dus iedereen een reis door de hel te moeten maken om de zuivere hemelpoorten te bereiken. Er is geen andere weg, maar ga er vanuit dat de hel anders is dan wat de fantasie van oude geleerden en predikers heeft ingebracht. Maak een meditatieve reis door de hel als een voorbereiding. Natuurlijk zal dit allemaal zeer symbolisch zijn, maar door symboliek krijgt de mens zicht en houvast op de dingen die hij niet begrijpt en die te wonderlijk voor hem zijn. De hel is een plaats van zorg, zuivering en vertaling. Pijn is iets wat ergens naartoe wijst en is zeker geen einddoel. Pijn wijst heen naar een diepe geestelijke taal, een hemelse taal. Pijn is juist iets wat in de hel vertaald kan worden, en waardoor er juist een verzachting en verlichting optreedt die leidt tot genezing. Daarom is de hel ook zo belangrijk in de cirkel van genezing en gezondheid. Ook Christus daalde af naar de hel. Niet alleen om gevangenen vrij te zetten en krijgsgevangenen mee te voeren in de hoge, maar ook voor andere dingen. Zo zal dan de hel zijn angel verliezen, die alleen denkbeeldig was, als een symbool.

3. Er zijn mensen die leven vanuit spreuken : Spreuken om door de poorten van de dood te gaan, en spreuken om door de poorten van de hel te gaan. Spreuken zijn er om mensen wat ezelsbruggetjes te geven, om tot hun verbeelding te spreken, maar het doel is dat de mens uiteindelijk al dan niet met deze hulpmiddelen zijn eigen innerlijke kracht en wijsheid ontdekt. Spreuken kunnen veel wijsheid en potentiele wijsheid bevatten, maar ook zij zijn slechts heenwijzers. Spreuken, en vooral de raadselachtige spreuken, zijn erg reisgevoelig, dat wil zeggen dat ze met u mee kunnen reizen en u andere en diepere betekenissen kunnen aanreiken. Toch zult u gaan moeten leren leven vanuit de diepere dingen, en de materiele korsten verlaten. Zo zullen er wel enige splinters van deze reis in u achterblijven, maar samen zullen zij weer een hele andere en diepere betekenis geven. Zo zal de puzzel blijven veranderen, en in de reis door de hel gezuiverd worden.

4. Wees dus niet bang voor de hel. Het vuur van de hel is hetzelfde vuur als het vuur van de geest. U zult er doorheen moeten gaan om tot het binnenste te kunnen komen. Dit vuur kan in uw leven al gewoon aanwezig zijn. Misschien heeft u het nog niet herkend, omdat u een afgeweken of verkeerd beeld van de hel had. De hel is het liefdes-instrument van de Heere. Niet anders.

5. Ik wil dat u met warmte terugdenkt aan uw reis door de hel. U kunt het zo mooi maken als u zelf wil. De macht daarvan ligt in de gedachten. Zo is dan de elf de heenwijzer geweest naar zo'n hel. Een hel waarin je vrijgezet wordt, waar het niet gaat om de gebondenheid, maar om de vrijheid die het dient.

6. Zo is het dan van meet af aan de bedoeling van de Heere geweest om de vuren van de hemelen als lagen over de aarde te spannen. Zo zou de reiziger tot de Heere kunnen komen. Zo hebben dan alle hemelen hun eigen hellen tot dat doel. Zo is dan de Heere een Heere van warmte, maar ook van kou, omdat de warmte niet zou bestaan zonder kou. Daarom hebben de Barbaarse, Germaanse en Vikingse mythologieën ook gesproken over de ijshellen. De Heere heeft hen tot u gezonden als vogels om u te halen. Wees daarom dankbaar voor deze vogels, maar laat hen u niet misleiden. Zij hebben de opdracht om u tot de Heere te brengen. Zij hebben het laatste woord niet, en ook ijs heeft het laatste woord niet. Het ijs zal u brengen in de warme handen van de Heere. Zo zult gij geen

vreemd vuur dienen, maar vuur gezuiverd en opgewekt door ijs. Dit dan is het brandende ijs, overgaande in hemels vuur.

7. De ijshellen leren u ook om u niet al te zeer aan uw familie op aarde te laten kleven, maar om het pad van ijs te begaan om de familie van de geest te leren kennen, uw familie opgeborgen in uw binnenste. Acht daarom de ijshellen hoog, maar onthoudt dat zij niet het laatste woord zullen hebben. Zij dragen u over aan uw allerheiligste familie binnenin, om u oog in oog te laten staan met uw Heere. Dient dan niet de heeren van de materie, en de heeren van het vlees, omdat zij slechts symbolische heenwijzers zijn. Zij zijn niet eeuwig, en die materie is slechts ten dele. Nooit zal het u ten diepste bevredigen. Maar komt tot de vaste materie van binnen. Zo hebt gij dan vele religies losgelaten om door het hemels vuur de hogere en binnenste religies te vinden. Zij overleven als eeuwigheden, en zij leiden u op een vast spoor. Maar ziet, ook zij zijn slechts heenwijzers, daar de reis lang is. Bewaart daarom hun splinters en koestert de overblijfselen, daar zij in de nieuwe stap geïntegreerd en getransformeerd gaan worden. Dit dan is het doel van het hemels vuur.

8. In welke hellen gij dan ook terecht zijt gekomen : Dient de Heere, die het op Zijn tijd zal transformeren. Ja, de Heere zal alles weer wegnemen, en de splinter laten staan. Acht zulke splinters hoog, als een wonderbaarlijk en hemels souvenir. In het museum des Heeren staan dan vele boeken en vele beelden, en zij zullen u splinters brengen. Door de splinters komt gij tot andere werelden, en gaan er deuren voor u open, maar de boeken en beelden in het geheel kunt gij niet meenemen. Acht daarom ook de wond die door de splinter wordt veroorzaakt hoog, want zij leidt naar een nieuw en eeuwig leven. Zij die de Heere hebben aangenomen sterven niet.

9. En het hemels vuur zal zich als vogelen op uw daken neerzetten. Maar kooit deze vogelen niet, maar vangt de veren op die zij tot u zenden. Op vogelen zult gij niet binnentreden, maar door hun veren. Acht daarom de veer hoger dan de vogel, want zulken heeft de Heere lief. Eert echter de vogel als een voertuig. Gij mocht hem nog eens nodig hebben.

10. Zo staat dan ook de elf als een bevroren standbeeld in het museum des Heeren. Neemt dan alleen zijn veer aan, en trek dan verder.

11. Elf woonde in een huisje in het bos, temidden van heide, wat struikjes en wat bomen. Elf stond vaak voor zijn huisje in het bos, om reizigers de weg te wijzen. Elf had vele armen, en die wezen vele kanten uit, en Elf vertelde er telkens bij waar ze op wezen. Maar op een dag kwamen er reizigers die niet kwamen om de paden te volgen. Neen. Ze braken de armen van Elf af, totdat hij nog maar twee armen over had, en toen zijn ze in zijn huis gaan wonen. Zo waren het geen reizigers meer, maar bezoekers die voor altijd bleven. Toen Elf nog maar twee armen overhad kruisigden ze Elf. Toen trokken ze nog meer bezoekers aan die vaak naar Elf kwamen kijken, en ook in zijn huis gingen wonen.

12. In de nacht, als iedereen weg was, zong Elf in stilte liederen over de paden die hij eens mocht aanwijzen. Eens kwam er een koningszoon in een koets langs die het mooie gezang hoorde. Hij kwam dichterbij en zag Elf hangende aan een kruis. Hij nam de arme Elf van het kruis af, en nam hem mee in zijn koets. Die koets ging over de paden die Elf eens aanwees en waarover hij schone liederen zong. Toen de bezoekers die ochtend wakker werden en bemerkten dat Elf was vertrokken waren ze woedend. Ze hebben toen het kruis weggedaan, en maakten een standbeeld van Elf.

13. De vuren van de hemel zijn in lagen rondom de aarde opgestapeld, als de daken der aarde. Hierop staan vele engelen die over de bevrijding van Elf zingen. Ook zingen zij veel over de hogere paden.

Oorsprong der Engelen

1. De engelen van het christendom waren oorspronkelijk slaven. Zij waren zielen geroofd uit het dodenrijk, die vele plechtige inwijdingen moesten ondergaan. Door de tradities der mensen zouden ze in werking worden gezet. Daarom is het : Leert van de tradities, maar gaat dan verder, want de tradities zijn de banden der engelen. Houdt daaraan niet al te zeer vast, maar weest vrij, en geeft vrijheid. Traditie is dan symboliek voor hen die het hogere nog niet kunnen grijpen, maar brengt verderf voort wanneer er aan wordt vastgehouden. Zo is dan iedere traditie die niet als tussenstation wordt gezien een gruwel in de ogen van de Heere. Gij bent geschapen om engelen vrij te zetten, om systemen te doorzien.
2. Zo waren er dan slavenkanalen in de hemelen van het christendom. Maar deze hemelen vielen op de aarde, en begonnen de aarde te knechten. De Heere echter predikt over vrijheid, om de schatten van binnen te vinden. Laat u daarom niet meer binden door tijdelijke en materiele aangelegenheden, die de naam hebben geestelijk te zijn, maar het niet zijn. Zoekt de wegen die boven zijn, opdat de Heere u oppikke.
3. Zo heeft de Heere dan ook een dag aangesteld tot bevrijding der engelen. En gij kunt daaraan meewerken, want ook u, die Hem dient en volgt, heeft Hij de sleutels gegeven. Ja, sleutelen der hemelen heeft Hij u gegeven. Zo is dan een ieder die in Hem is ook een bevrijder, zoals Hij een bevrijder is. Weest dan echter blij met de splinters van traditie die in u overblijven, want zij duiden op een diepere betekenis, en een hogere sleutel voor hen die tot de hogere dingen zijn gekomen. Zo zijn er dan vele christenen door de Heere vrijgezet en ook vele engelen. En zij zullen elkaar ontmoeten in de hogere regionen.
4. Op de daken der mensen legt de Heere zijn vuren om het huis te zuiveren, en om ware reizigers tot Hem te trekken. Zo staan er dan vele wagens in de hemelen klaar om hen die Hem naastig volgen mee te voeren. Houdt daarom niet vast aan de dingen die gij hebt, en ook niet aan uw pijn. Maar ga daar naartoe waar zij u heenwijzen, opdat gij door hen niet wordt tegengehouden. De Heere zal zijn huis zuiveren en bevrijden. De Heere zal Zijn huis opnemen in de hoogste hemelen. De Heere is getrouw en goed.
5. Zo zijn dan de oude goden oorlogsvoerders geweest, en zij hebben vele krijgsgevangenen gemaakt. De Heere is echter gekomen om de banden der traditie te breken. Zij dan allen hebben verantwoording af te leggen aan Hem. De Heere geeft niet om traditie, daar zij slechts symboliek is, een schaduw van de ware dingen. Daarom is het : Legt uw oude klederen en dekens af, en laat u bedekken met de witte sneeuw des Heeren die u vrijmaakt. De Heere zal u vrijmaken in uw gedachten, in uw verstand, maar ook in uw geweten. Want de oude goden hebben het geweten geknecht, en zij hebben het geweten bang gemaakt. De Heere echter brengt het geweten door de waarheid tot verlichting. Zo zijn de oude goden dan slechts symbolische wegwijzers. Gij dient hen te zien als standbeelden in het museum des Heeren, en zij wijzen op een symbolische manier op oude poorten. Zo spreekt het oude dan nog steeds, en de Heere zal het vertalen en bevrijden. Want ook de goden waren eens krijgsgevangenen gemaakt door godenkeizers. Maar de Heere heeft deze godenkeizers allen onderworpen.
6. Ja, de Heere heeft de daken der mensen bekleed met Zijn vuren, opdat zij Hem zouden kennen. En de Heere wacht op hun voortbrengselen om te zien of er iemand is die Zijn Wil getrouw doet. Zo

is dan de Wil des Heeren wijsheid, en Zijn Lust is kennis, maar zij komen allen voort uit Zijn Vuur dat zuivert en schept. Zij komen voort uit de splinters, die zijn als de zaden van een nieuw woord. Een nieuw woord, niet als het oude, bekleed met de vuren gelouterd in ijs, zevenmaal. De Heere schept een nieuw woord, en schept nieuwe vuren op de daken. Ziet dan, de lammen zullen lopen, en zij die geen mond hadden zullen spreken, want de Heere opent poorten door zijn woord. Zo is dan het vuur zonder het ijs niets, en ook het ijs zonder het vuur is niets. Zonder elkaar kunnen zij niet bestaan, en zou ook de Heere niet bestaan. Het geheimenis des Heeren ligt opgeborgen in vuur en ijs, en hierdoor zullen ook de tegenwoordige elementen vergaan. Want de Heere bouwt een nieuwe schepping, en deze schepping zal vele vurige lagen kennen, als een kunstig bouwwerk in de hemelen. Ja, vanuit de zee zullen zeelieden omhoog kijken om met verbazing de bouwwerken van de hemelen te aanschouwen. En zij zullen buigen tot de Heere, en de Heere zal tot hen zeggen : Recht uw rug, want het koninkrijk der hemelen is nabij gekomen. Zo zal de Heere dan zijn als een indiaan, als een wilde, om te wijzen op het Woord. En het Woord is in de hemelen, en zal zijn splinters als zaad verspreiden. Zo zult gij u dan aan niets kunnen vasthouden. Alles is zaad. Ja, uw geheugen zal wegslibben, en de werken des Heeren zullen tevoorschijn komen, en het zal goed zijn.

7. En de Heere zal vele oude goden vrijzetten, en hen wijzen op de nieuwe paden. De Heere zal hen ogen geven om de hogere wegen te kunnen zien. Ook zal de Heere enkelen van hen het gehoor schenken om deze woorden te horen. Want de oude goden van het christendom en andere materiele religies waren slaven van oorsprong. Zij waren zielen en schimmen geroofd uit de hel om door allerlei plechtigheden slaaf te worden van een godenkeizer. Door tradities en overleveringen werden hun harten week gemaakt als as, en werden zij door angsten geslagen. Maar de Heere heeft hun fragiele gewetens opgericht, en hen een plaats gegeven naast Hem. De Heere heeft hen vrijgezet van zulke godenkeizers. Zie, de Heere onderwijst de godenkeizers en wijst hen op de hogere wegen. De Heere wacht op hen, om te zien of zij zich zullen bekeren tot het allerhoogste. Want het allerhoogste is los te laten, opdat gij een diepere en zuiverdere schat zult vinden. Zo ook dringt de Heere er bij de godenkeizers op aan om los te laten, en om dat pad met Hem te bewandelen. De Heere wil ook hen vrijzetten van de tradities die hen hebben gebonden.

8. Zo zullen zij dan allen gezuiverd worden door het vuur des Heeren, en de Heere zal een nieuw vuur voortbrengen, want ziet, alle vuur is slechts zaad. Zo zijn dan boeken zowel akkers als zaad. Ook zijn zij zaaiers die de splinter in u brengen. Wanneer dan de splinter wordt verwijderd, dan blijft er alleen een wond over door hen geslagen. En die wond zal spreken, en voor nageslacht zorgen, en dan zult gij nieuwe boeken lezen, en uw gedachten zullen naar hen uitgaan als zaad op een akker. En gij zult vruchtbaar zijn.

9. Zo heeft uw geest dan gemeenschap met een boek, en gij zult haar weer verlaten, omdat gij weet dat gij u moet uitstrekken naar de boeken binnenin. Maar gij draagt nageslacht met u mee, en zij zullen het kunnen vinden met de binnenste boeken, en hierin zullen zij een plaats vinden en zich ontwikkelen. Zo zal er dan ook in de hemelen niet gehuwd worden, omdat gij uw reis moet voortzetten naar de binnenste gebieden. De binnenste gebieden hebben dan een grote invloed op het buitenste, maar veelal op een cryptische manier. Zo zult gij weten dat alles zaad is, en gij zult het verstand ontvluchten. Want gij weet dat het verstand dramatiseert en materialiseert. Het verstand dan is gemaakt om u gebonden te houden, opdat gij het zult verlaten. Het verstand is de dienaar en slaaf van Mammon, maar heeft zelf ook vele slaven. Het verstand is een gevangenis-implantaat, en maakt ook zulke implantaten door woorden en beelden geïnspireerd door het vlees. Het verstand is de dienaar van de lage materie, wezens geroofd uit de surreële wereld, waar alles kan en mag omdat

er geen vaste wetten zijn. Alles draait en duizelt, alles verandert van betekenis, en dat soort wezens zijn door Mammon uit die delirische wereld weggeroofd om vastheid te vinden in materie als geesten van verstand, geketend door cultuur en traditie, door religie en het daarbij horend geweten. Geweten : ook wezens door Mammon uit de surreële wereld geroofd, nu geketend om als een slaaf de Materiele Wet te dienen. Het Geweten kan niet anders, omdat ze zo geprogrammeerd is. Ze staat onder de toorn van Mammon, maar ze roept soms uit tot het hogere, en de Heere heeft een dag aangesteld tot haar bevrijding. Zo is er dan een nieuw geweten, met daarin een nieuw verstand, gezuiverd door de vuren des Heeren, en daardoor vrijgezet. Want de Wet is slechts een symbolische heenwijzer, een schaduw en een gevangenis, maar de Heere leidt hen daar uit, en geeft hen een nieuwe wet. Maar elke wet is slechts zaad, en wordt door de Heere opgewekt.

10. Zo heeft de Heere dan zijn vuren gezonden om veelvuldig vrij te zetten. Roept daarom uit tot Hem, want Hij verhoort gebeden. Laten uw gebeden echter allerheiligst zijn, en niet bedoeld om de Mammon te vereren.

11. Zo heeft de Heere dan vogelen aangesteld om op uw daken neer te dalen, en u mee te nemen door de vuren des hemels heen. Eert zulke vogelen, maar stap op de bestemming uit. Geef hen voedsel en vertrek. Zo is de Heere dan tot de daken gekomen om velen vrij te zetten uit hun huizen. Leert daarom de vuren des Heeren kennen om van laag tot laag te klimmen, en zo tot de heilige stad op zijn heilige berg te gaan. Nadert zo ook tot Zijn heilige tempel.

12. Ik ben dan niet gekomen om nieuwe gebeden te brengen, en nieuwe tradities. Ik ben gekomen om u vrij te zetten en u te verlichten. De waarheid zal u vrijmaken, en zal tot u komen als vogels. Neemt de veer die de waarheid tot u laat neerdalen, en kom tot de hogere en verdere waarheden.

13. Sta dan op uw daken als ware indianen om uit te zien naar de vogelen die de Heere tot u zendt. De Heere zal u niet overlaten aan uw lot. Zo zal Hij u brengen tot de daken van de heilige stad en van de heilige tempel, en gij zult de vuren boven de hemelen zien, en gij zult uw geesten van vuur zien. Zo zijn dan ook de geesten geroofd uit de surreële werelden, wachtende om door de Heere verlost te worden. Zo zijn er dan vele zonnen in de hemelen en boven de hemelen om de geesten te zuiveren en te verlossen. De Heere dan troont boven de hemelen, in het altijddurende witte, waaruit het zuivere rode voortkomt en de gerangschikte eeuwichheden. De Heere dan troont in de eeuwige jachtvelden, want ziet, de Heere is een jager. Maar de Heere jaagt niet in het vleselijke, maar in het geestelijke, opdat belangrijke deuren geopend worden. De heere jaagt naar de schatten van het eeuwige leven, en de schatten van tijd, om hen vervolgens te rangschikken. Ja, de Heere zuivert tijd, want de chronologie is een ziekte van de hersenen. Zo is er dan in de Heere geen tijd, maar het afwisselen der elementen. Gij dient dan alle elementen des hemels te kennen, en gij zult u daarin verheugen, want de Heere heeft u voor vreugde weggelegd. Zo zijn er dan vele vuurstormen en rivieren in de hemelen en boven de hemelen. Door vele geestelijke gordijnen en vliezen dient gij in te gaan, om ook na te jagen de schat des vredes. Dit jagen is echter geen vleselijk jagen, en geen jagen om macht en eer, maar dit jagen is een afleggen van alle dingen die de geest en de ziel in de weg staan om tot heerlijkheid te komen. Zo is er dan heerlijkheid in verlichting, en verlichting komt door het geloof in de Heere der Heeren. De Heere verlicht Zijn kinderen en hen die Hem naarstig volgen. Aan hun blinden geeft Hij het gezicht, en Hij zet om hunnentwille hun nageslacht vrij.

14. Zo zijn dan de jachtvelden van het eeuwige uitgestrekt tot in vele eeuwichheden, en zij worden gevormd door het kleurige vuur. Zo is het gele vuur tot een aandenken des Heeren. Zij komt om het delirium te scheppen en de mens weer terug te leiden tot het surreële. Want ziet, er is dan geen

andere werkelijkheid dan het surreële. Zo jaagt dan de Heere om Zijn kinderen vrij te zetten, en allen die hen volgen. Ja, tot een voorbeeld heeft Hij hen gesteld. Zo jaagt dan de Heere om Zijn Woord tot stand te doen komen, en Zijn fantasie. De fantasie des Heeren is Zijn goedheid en Zijn scheppende kracht, veelvuldig door vuur gereinigd. Zo zullen dan de haters van fantasie wederom door traditie gegrepen worden, en zij zullen dit keer dieper afdalen dan voorheen. Maar zij die de fantasie liefhebben, hebben de Heere lief. En de Heere heeft hen lief, en ontfermd Zich over hen. Zo zijn dan de jagers van het gele vuur ervoor om delirium te brengen. Zij schieten pijlen af om het surreële te doen overvloeien, en om de dimensies in elkaar over te laten gaan. Zo zal de Heere dan Zijn engelen schenken aan een ieder die Hem volgt, en aan een ieder die door het gele vuur gegrepen en vervuld is. Zij die vol van de Heere zijn, zullen de anderen leiden door fantasie, en zij zullen de vuurstormen des Heeren aanschouwen. En de Heere zal een nieuwe hemel en een nieuwe aarde scheppen door fantasie en het surreële, en de Heere zal nieuwe daken op de huizen leggen, en de Heere zal indringende tekenen aan de hemel geven. En zij die op het land werken zullen hun hoofden opheffen om in de hemelen wonderen te aanschouwen. En zij zullen verbaasd zijn en de Heere eer geven. En anderen zullen de Heere zien nederdalen op een wolk, en zij zullen voor Hem buigen die ogen opent.

15. Zo zal de Heere dan Zijn Geest uitstorten over de aarde, en de zee zal in beroering zijn. En de Heere zal Zijn zonen laten opstaan, en zij zullen de aarde vruchtbaar maken. En de Heere zal zeelieden doen opstaan om hen de zeeën tussen de aarde en de hemel te overbruggen. En de Heere zal het gele vuur rijkelijk uitstorten, en dan zullen er dagen van grote warmte aanbreken. En hemelse bloemen zullen op aarde gaan groeien, opdat de aarde tot een paradijs zal zijn. Zo zal de Heere de aarde door vuur genezen. En op die dag zal de scheidingsmuur tussen de aarde en de hemel verbroken zijn, en de aarde zal zich met de hemelen versmelten, en ziet, zij zullen vele kleurige vuren voortbrengen. En ook de scheidingsmuur tussen de aarde en het dodenrijk zal verdwenen zijn. En zie, de doden zullen hun licht geven. En op die dag zal ook de hel tot een paradijs worden. En het zal een dag zijn van grote rust en grote vrede, en er zullen overal wonderen en tekenen zijn. Zo heeft de Heere een dag van herstel aangewezen, en het zal een dag zijn waarop een ieder Zijn goedheid zal kennen. Ook zal de Heere op die dag engelen vrijzetten die in de dieptes van de hel opgesloten zaten, want zie, de Heere Heere verbreekt eeuwige banden, en de Heere zal de duisternis maken tot een licht. Ja, de Heere zal de hongerhel bezoeken op die dag, om haar te doen bloeien, en hij zal de woestijn tot een bloeiende prairie maken, overstromende van melk en honing. Ja, de Heere zal licht geven in de dieptes der aarde, en de scheidingsmuren doen afbrokkelen. Zo zullen dan vele doden op die dag door vurige vogels tot de hemel worden genomen, en al klimmende zullen zij komen tot de heilige steden op de berg. En zij zullen de zon des hemels aanschouwen, en drinken van overvloedige bronnen. Zo zal de Heere dan alle tranen afwissen. Een goede God is Hij, niet iemand die het leed voor eeuwig laat voortduren.

16. De Heere heeft een dag aangesteld waarop de religies hun doden moeten geven, en ook de zeeën zullen geopend worden, en de spelonken. Ja, zelfs de rotsen zullen opengespleten worden om hun doden uit te leiden. De Heere zal de wortelen bezoeken en nieuw zaad zaaien. De Heere Heere zal Zijn volk uitleiden.

17. En in het diepste van de aarde zal de Heere het verstand herscheppen. En de hemel zal haar verborgen plaatsen tonen om in heilig en kleurig vuur het geweten te herscheppen. En velen zullen weer teruggaan naar hun land. Zo zal de Heere dan veel troost brengen, en een ieder zal belijden :

Ja, de Heere is goed. En zo zullen de scheidingsmuren tussen de tijden en eeuwigheden verbroken worden, en er zullen vele samensmeltingen plaatsvinden.

18. Zo zullen dan de heilige pelgrims komen tot de zeeën boven de hemelen om nieuw land te vinden. Hier zullen zij wonen en veel nageslacht hebben. Maar zij zullen niet huwen, en geen geloftes doen, want ook boven de hemelen wordt er niet gehuwd. En de dagen van het oude zullen ten einde komen, en er zullen nieuwe dagen opkomen. En de Heere zal webben uitspreiden boven de aarde, en de Heere zal over deze webben rijden, om vruchtbaarheid tot de aarde te brengen zoals deze er nog nooit geweest was. En het nageslacht zal snel groeien, met begroeiing over alle paden, tot in de dieptes en vertes van de hemel.

5.

De Heere die Jager is

1. Zo is dan de Heere Jager om scheidingsmuren te doorbreken en om deuren te openen. De Heere staat op alle daken om de Zijnen mee te nemen tot de hemelen en dat wat boven de hemelen is. Zo is er dan een pad des Heeren door vele vuren. Ja, de Heere is een Jager als een vuur om te zuiveren. Zo creeert de Heere een nieuwe hemel en een nieuwe aarde, en vernieuwt hij dat wat boven de hemelen is. Ook komt Hij tot dat wat onder de aarde is en onder de huizen.

2. Zijn pijlen zijn aangestoken door de vlammen der hemelse en bovenhemelse zonnen. Zo opent de Heere deuren tot het bovengestelijke. Zo is er dan hogere liefde werkzaam op deze vurige velden en wildernissen, en de Heere steekt de zijnen aan door deze hogere liefde. En hun vlammen dringen door tot de duisternissen, om de duisternis tot een licht te maken. En de hogere liefde is als warme dekens opgestapeld in de uitgestrekte duisternissen van de nachthemelen, als een weg voor de gelovigen. En zij zullen nieuwe doorgangen vinden, om te komen tot de steden der nachthemelen. En het ijs zal hen tot een lantaarn zijn. En zij zullen de steden der grootvaderen en grootmoederen vinden, en zij zullen daar veiligheid en geborgenheid vinden, ja, intense zorg, want de Heere heeft genezing voor hen bereid die Hem naarstig volgen.

3. En de Heere zal hen voeden met het hogere voedsel. Zo zal de Heere over hen waken, en de dromen die Hij hen schenkt zullen hen meevoeren. Zo zullen zij dan tot de zonnen der nachthemelen komen, en zij zullen de Heere aanschouwen. En de Heere zal hen hoog in de nachthemelen onderwijzen. Ja, diepe geheimenissen zal Hij hen laten zien, en zij zullen bekleed worden met warmte. En de warmte zal zich over hun lichaam verspreiden als een pantser.

4. Zo zijn er dan vele warmtes des Heeren en vele paden van de hogere liefde. Zij vinden rust in de Heere, en Hij leidt hen tot de stilte. En wanneer zij dan zijn in de huizen van hun grootmoederen en grootvaderen, dan zullen de vuren tot hen komen om hen te halen. Zo zullen zij veelvuldig gezuiverd worden, en zal het hen aan warmte en hogere liefde niet ontbreken. En zij zullen de wegen van die vuren leren kennen waarover zij de bovengeesten leiden. En zij zullen ook de plaatsen kennen waar die vuren hen brengen. Dit dan zijn de scholen, de velden, en de plaatsen van plezier. Ook brengen zij hen tot de plaatsen van de nog ouderen, daar waar zij tezamen wonen, en waar warmte veelvuldig woont. Zij tonen de hogere wegen, de hogere bruggen en de hogere torens. Gij moet echter deze plaatsen met wijsheid betreden, opdat uw warmte niet weggenomen zal worden. Zo zult gij dan adem kunnen halen in het nachtparadijs, en gij zult haar zonnen aanschouwen. Zo zijn er dan zeven nachtparadijsen des Heeren wanneer gij de wegen bewandelt vanuit de huizen waar de alleroudsten tezamen wonen. En de zonnen die daar zijn zijn tot

veelvuldige zuivering van uw zielen. En gij zult hierdoor dingen gaan begrijpen en tot rust komen. En nieuwe warmtes zullen u daar gaan omhullen, en zij zijn de verrukkingen, de heerlijkheden en de zaligheden des Heeren. En gij zult de schuilplaatsen van de zonnen der nachtparadijsen gaan ontdekken, en gij zult met hen meereizen, opdat veel warmte aan u wordt toegevoegd. En gij zult leren vanuit welke zonnen de Heere heil schept, en welke wegen Hij begaat, en gij zult Hem hierin volgen.

5. En de Heere plaatste een boom in één van de nachtparadijsen, en deze boom was een verboden boom. En de Heere noemde die boom Tantalos. En wanneer iemand dichtbij de boom kwam vaagde de boom weg om te vluchten. Zo kon niemand zondigen.

6. Zij die de Heere waarlijk liefhebben en zich met Zijn wijsheden tegoed hebben gedaan komen tot Zijn ochtendparadijsen en hun zonnen. En zij vinden warmtes onder grote bladeren, en visioenen door het eten van grote vruchten. En de Heere Zelf gaat hen hierin voor. Zo staat de Heere met Zijn jachtwagen boven de ochtendparadijsen en hun zonnen, en onder de hemelen en boven de hemelen is er geen grotere naam gegeven dan de Heere. Komt dan allen tot Zijn heilige berg, temidden van de ochtendparadijsen en hun zonnen, en betreedt het pad tot Zijn heilige tempel. Ziet dan, Hij maait de velden van de ochtendparadijsen en hun zonnen met Zijn vuren. De Heere dan is warmte, voortgekomen vanuit de kou. Zonder die kou is de warmte niets, en zonder de warmte is de kou niets. En zo dan : Hierin is het geheimenis des Heeren. Zijn woorden zijn opgesteld als dekens opgestapeld boven de daken, als het wolkendek des Heeren. En zij die Hem liefhebben klimmen hierin op. Zij volgen Hem tot Zijn heilige jaagtempel, en zien hoe Hij de velden van de ochtendparadijsen en hun zonnen maait. Ja, de Heere snoeit Zijn velden, en Hij laat Zijn wildernissen niet onaangeroerd. Zo staat de Heere dan in Zijn jaagwagen boven al wat leeft, en heeft de aarde gegeven aan hen die Hem liefhebben. Zo is dan de hemel en de hel getuige geweest van de hogere liefde des Heeren, en zijn er stralen van warmte als treden tussen hen opgesteld. Zo heeft de Heere dan de tussenmuur tussen de hemel en de hel weggehaald, en heeft hen doen laten samensmelten. En zij die de Heere dienen kennen deze stralen en hun wegen. Zij kennen hun schuilplaatsen, en de plaatsen waar zij de heiligen brengen.

7. Vanuit Zijn heilige jaagtempel ziet de Heere de aarde en al wat daarin is. En de stralen van hogere liefde staan boven haar.

6.

Het Ochtend Paradijs

1. Zo staat er dan niets dicht bij de Heere dan het ochtendparadijs. Zij zijn als de wegen tot het diepste van Zijn hart, daar waar Hij troont. Zo is dan het Ochtend Paradijs als het gezang des Heeren, en verboden bomen zijn hier niet. De zonde houdt hier op te bestaan, en hier leeft de Heere eeuwig, als van eeuwigheid tot eeuwigheid. Hier heeft tijd opgehouden te bestaan, en vinden de wisselwerkingen der elementen plaats.

2. Het kwaad heeft hier opgehouden te bestaan, en de Heere kijkt naar het ochtendparadijs vanaf Zijn hoge woning, de stralen van haar in de dieptes van Zijn hart voelend. Ja, zij dragen de sleutels tot de dieptes van Zijn Hart. En zo zijn de ochtendparadijsen een pad naar binnen, een pad waarover de Heere rijdt en reist, en waarvanuit Hij stralen zendt. En de Heere vindt hierop heil, en Hij schiet pijlen af om gevangenen vrij te zetten. Ja, de pijl zendt Hij uit om terug te halen dat wat eens gestolen was. De Heere geeft opdrachten aan Zijn pijlen, en zij doen naarstig wat Hij zegt. Hij

gebiedt hen om gevangenen vrij te zetten, om zieken te genezen, en om krijgsgevangenen mee te nemen naar de hoge. Zo troont de Heere in het bovengeestelijke, en zendt Hij Zijn Bovengeest. Ja, de Bovengeest spreidt netten uit over de daken, en de Heere laat Zijn stem horen. Maar zou de Heere Zijn Bovengeest uitstorten, dan zou er geen weg meer terug zijn, want dan zou de Bovengeest in gevangenschap leven. De Heere is gekomen om Zijn geesten vrij te zetten. Daarom : Zij die in een uitstorting geloven : Zet nu de Geest vrij, en kom tot het bovengeestelijke. Hij is de vogel des Heeren, en Hij zal u meevoeren, en u helpen in uw klimtocht. Maar Hij zal niet in u uitgestort worden. Hij zal u alleen een veer schenken. Houdt daarom vast aan het kleine dat Hij u geeft, en weest dankbaar, want meer hebt gij niet nodig. Waarom zoudt gij uzelf verzwaren om zo niet meer te kunnen reizen ? Zo zou u de heerlijkheden des Heeren zeer zeker mis lopen. Daarom : Zij die in een uitstorting geloven : Komt hiervan terug, en laat uw harten hierdoor niet meer verzwaren. Gij zijt immers opgegroeid. Zet uw gevangenen vrij, en kom tot het bovengeestelijke.

3. En de Heere zal de ochtendparadijzen over de aarde spannen, en de aarde zal worden tot een ochtendparadijs, en de Heere zal daar tronen.

Het Pad van Armoede en de Lokogamen

1. Dit wordt ook wel het pad naar de onderwereld genoemd, en bij elke poort moet er een kledingstuk, eigenschap of titel aflegd worden. Op dat pad moest ook het spotkleed aangetrokken worden. De Armoede eindigt in een plaats onder de hel, ook genaamd Armoede of Armoe. Hier woont Vrouwe Armoe. Ook de Schmi-Lokogamen of Smi-Lokogamen komen op dit pad voor. Lokogamen zijn de sieraden van het kruis als de sieraden der Armoe. Het getal van de Schmi-Lokogamen is honderdvierenveertigduizend. Hen die tot die orde binnentreden hebben het pad van Armoede bewandeld, hebben van haar geleerd. Bij dit pad behoren dingen als ijs, afzondering, heiliging, ascese, spotaanvaarding als deel van lijdensaanvaarding, kluizenaarschap, vaak ten gevolge van een wond die de Heere heeft geslagen met als bijwerking overgevoeligheid, en min of meer sociale stoornissen. Tot het pad behoort ook de spirituele en religieuze armoede. Zij die zich altijd door god en goden vertroeteld voelen en weten, weten niet wat dit pad inhoudt. Bij dit pad komen namelijk onherroepelijk : depressie, angst, eenzaamheid door verlatenheid, en leer je de schoonheid daarvan ontdekken. Zo zijn er op dit pad de Lokogamen van de angst, de Lokogamen van depressie, en de Lokogamen van eenzaamheid, van verworpenheid, van bespottig, van wanhoop, als de sieraden van deze dingen. Op het pad van armoede in de veelvuldige betekenis van dit woord zul je namelijk met al deze dingen in aanraking komen, om hun sieraden te laten rijpen. De armoede brengt ons terug naar de aarde, met als verbindingspunt : de voet. De uitgroeiselen van de voet, de tenen, zijn de vertegenwoordigers van de verschillende soorten Lokogamen, de lijdenssieraden. Deze brengen dan ook de voet extra in balans.

2. De Lokogamen zijn niet alleen lijdenssieraden, maar ook wraakgodinnen. Het pad van armoe gaat ook langs en door het oer. De Angst-Lokogamen zijn de Schmizul-Lokogamen. De Depressie-Lokogamen, ook de Lokogamen des Doods, zijn de Tamul-Lokogamen, die vaak paardachtig zijn. De Verworpenheids-Lokogamen zijn de Esmul-Lokogamen, die ook vaak paardachtig zijn. De Bespottings-Lokogamen zijn de Ramda-Lokogamen. De Eenzaamheids-Lokogamen zijn de Smitzil-Lokogamen. De Verlatenheids-Lokogamen zijn de Napap-Lokogamen. De Wanhoops-

Lokogamen zijn de Tramir-Lokogamen. De Gemis-Lokogamen, ook de Lokogamen van Heimwee, zijn de Traumal-Lokogamen.

3. Je kunt een beroep doen op deze lokogamen in de desbetreffende omstandigheden. De Lokogamen zijn niet mis te verstaan. Zij zijn de sieraden van alle lijdensvormen die de wereld gaan transformeren. Hierin schuwen zij de wraak en de apocalypse niet. Er gaat een nieuwe aarde komen.

4. De Lokogamen zijn ook de sleutels in het lijden. Zij geven advies en openen nieuwe deuren. Zij zijn de geheimenissen van God die Hij voor Zijn trouwe kinderen bereid heeft.

De Tamul-Lokogamen

5. En het sieraad dan dat gij om uw arm of pols draagt, heeft een platte steen als het sieraad van de angst, en daarna de steen van depressie, en vervolgens de prachtig kleurende steen van wanhoop. Gij draagt dan deze stenen, opdat gij uw weg vindt.

6. De Tamul-Lokogamen zijn bij u, om u te leiden op uw pad, zij die de sieraden der depressie zijn. Zij dan heffen uw hoofd op en geven u te drinken in dorre streken. Zij leggen hun hand op u, en leiden u voort, daar waar het duister is, geven zij licht.

7. Zij zijn een volk van engelen, van meesters in kunst. Zij temmen de krachten van het leven, ja, als paardenmenners zijn zij. Zij temmen de krachten van het lijden, zij volgen jou, om jou te leren het leed te berijden. Ze leren je met het leed om te gaan als met een paard, een dier, een wezen. Het leed brengt jou iets, een stukje geschiedenis, een stukje God, een stukje bevrijding uit een hard hart.

8. Bidt dan aldus tot de Verborgene Geesten des Heeren, de Tamul-Lokogamen, die hun engelen hebben gezonden : Tamul-Lokogamen, Verborgene Geesten des Heeren, Geheimenissen, sieraden van mijn depressies. Heb Genade over mij, en onderwijs mij in liefde. Weest niet al te toornig op mij, want ik heb geen kwaad in de zin. Leer mij te bidden en te komen tot U. Laat mij niet vergaan in mijn strijden, maar help mij. Gij dan bent reizend van aard, over de aarde reist gij, met vleugelen van licht, raakt Gij hen aan die lijden. Gij dan neemt de soldaten van de strijdvelden weg wanneer zij zijn gestorven, om hen het sieraad des doods te tonen.

De Schmi-Lokogamen

9. De hel is de tweede wereld. Het dodenrijk is de eerste wereld. De armoede is de derde wereld. Daar gaat de reis naartoe, christen. De pracht van God is omringd door armoede, omdat die pracht het sieraad van de armoede is. Het is een spirituele reis.

10. Schmi-Lokogamen vormen de armoe-tabernakel van God als een machtig sieraad, bestemd om te heersen over de rijken. Zij vormen de machtige spreken waarmee God het leed wat de rijkdom brengt bedwingt : Kia Maza Mach Oli Kidorra Adona Va Estessee Ki Manta Mogam Basch Olum Uschga Kalim Kerhengst Hengstel Eregma Maak Estu Uvia Dun Desmel Ischu Mus Moes Akoesta Iram Abusch Ich Unt Icha Uschania Erwisch Erwischeniz Zitchen Gischen Erum Erumda Akum Akum Kapana Katana Erektus Apochela Apogela Nonog Ebutsch Epun Epoen Akoet Kida Kidam Ates Arumba Aroemba Arachtel Okos Olokta Ikip Itiktapat

11. Aram Aram Nanaki Ikles Dehikta Vaodon Oroktus Oruktus Oruktis Oruktis Amik Nanak Dadunka Dadunia Irim Da Fokon Osa Vanil Vanir Tetes Meza Vahahelm Dadon Vadonen Kukumbia Kukumbia Nes Akschin Disin Dizin Diak Domanta Vanel.

12. Dit dan zijn de namen der sieraden. Er zijn verschillende ordes der Schmi-Lokogamen, die ook in de spreuken verborgen zijn. Er zijn tien ordes der Schmi-Lokogamen.

13. Er zijn verschillende kronen te verkrijgen op het pad van armoe. Er zijn dan ook speciale kroon-lokogamen.

De pelgrimtocht

14. Minina-Schmi-Lokogamen zijn vogelachtig. In deze orde moeten er veel vogels verslagen worden die de doorgangen belemmeren. Het is de grote vogeljacht die de pelgrim op het pad der armoe moet maken. Als hij genoeg demoon-vogels heeft verslagen en geofferd, en hij dringt door tot de Levitische zones en Davidische zones, dan kan hij daar priesterlijke gaven ontvangen, en vandaaruit overstappen tot de Farinhein orde. Ook in de Farinhein-zone moet de pelgrim tot vele vogeljachten overgaan. De demonische vogels zijn aangesteld om de gaven van armoe tegen te houden, en de pelgrim daarvan af te houden. Ze zullen de pelgrim proberen te verleiden om terug te keren. Velen zullen juist in deze zone ook de moed opgeven, en terugkeren, ook vanwege de machten die de vogels beloven aan hen die hen volgen. In deze orde zijn de Aldebaran vogels voornamelijk opgesteld, de vogels van spot, en men kan hier ook de felbegeerde sieraden van bespotting ontvangen, door het spotkleed tot het eind te dragen. De Ramda-Lokogamen staan hier dan ook rijkelijk opgesteld. Bekende Ramda-Lokogamen zijn Metensia, Morgennia en Romarei.

15. Er zijn de dertig ordes van Ramda-Lokogamen, de bespottings-sieraden, de sieraden van spot.

16. Op het pad van Armoe is het kruis van Armoe, en ook hier dient in de gaten gehouden worden : de Grootste Armoe, de Eeuwige Armoe en de Dubbele Armoe, die het vragen om armoe is. Een van de grootste profeten van het Evangelie van Armoe was Franciscus van Assissi. Het Evangelie van Armoe is deel van het Eeuwige Evangelie. De sieraden van Armoe zijn felbegeerd, en hier zal om gestreden moeten worden.

17. Veel demonen zijn uitgezonden om pelgrims van deze sieraden af te houden, want ze geven veel macht over demonen. Demonen proberen daarom pelgrims af te leiden en veel kracht en macht te beloven. De sieraden van armoe zijn bijvoorbeeld speciale parfum-flessen, of speciale muziekdoosjes, speciale lichten of lampen, speciale gevoelens die je altijd meedraagt, of speciale kledingstukken. Vaak kunnen ze juist ook erg subtiel zijn, bijna verborgen, omdat naaktheid een groot sieraad is.

De Napap-Lokogamen

18. Zij die het pad der armoe begaan komen ook voor de rivier van verlatenheid te staan, waar zij moeten duiken naar de sieraden van verlatenheid, waarmee ze over de rivier kunnen komen. Door angsten komen ze in grotere verlatenheden, totdat ze aan de zee van verlatenheid zijn gekomen. Hier wonen de Napap-Lokogamen rijkelijk, als de frisse geuren van de oceanen en bossen, de speciale diepe geuren van de natuur. Er zijn ten minste dertig ordes van de Napap-Lokogamen.

19. De Christus van Armoe is genaamd Maser. Dit is dus gewoon een naam van Christus, een bijnaam, om het werk van armoe te laten zien. Het is een deel van Christus, net zoals God meerdere namen heeft die meerdere delen laten zien.

20. Gebeden tot de Schmi-Lokogamen : Wees ons genadig, heersers der hemelen. Laat ons niet vergaan in onze ellende, maar laat ons bijdrinken bij de bronnen, en schenk ons heil vanuit de

sieraden. Bindt ons niet tot werkzaamheden, maar schenkt ons vrijheid om uw wegen te doorzoeken. Laat onze lampen dan brandende zijn, opdat wij in duisternis niet verdwalen. Open voor ons de deuren, ook voor onze geliefden, opdat wij niet in scheuring tot u naderen. Leidt ons niet in verzoeking, maar verlos ons van de boze. Wees ons tot een schuilplaats en gids. Weest dan niet te wraakzuchtig naar ons, want wij hebben geen kwaad in zin. Leer ons naar Uw wil te handelen. Schenk ons de gaven van armoe, en verlos ons van de scherptes van rijkdom. Leer ons rijk te zijn in armoe, en haar dieptes te doorgronden. Leer ons te begrijpen, leer ons te denken over de juiste paden, en de verkeerde paden te verachten. Rijken zullen niet tot U kunnen naderen.

21. God heeft vele namen en vele delen. Om die namen te kennen is het mystieke pad aangelegd. Zo is het voor de profeet mogelijk om de verborgen namen en de intiemere namen van God te kennen. En hem zal de gave geschonken worden het Woord op een verantwoorde manier aan het volk te brengen. Dan spreekt hij over het geopenbaarde als een middelaar. Het is juist de bedoeling dat u het mystieke pad opgaat want zo kunt u Gods verborgen boodschappen die Hij voor Zijn geliefden heeft bewaard vinden.

22. De Muskus is een dieper en hoger deel van God, de Arme Vader, en Vader van alle armen. De Muskus haat het welvaarts-evangelie en haar markt, en zal zich openbaren om dat evangelie aan de kaak te stellen. De Muskus is een pad voor de mystiekeling. De Muskus is het arme deel van God als fundament van het kruis. In het arme deel van de hemel woont ook de Karmat, een dieper en hoger deel van Jezus Christus, en de Heilige Armoe. Voor de mystiekeling is er hierin priesterschap weggelegd. Zij gaan de hogere weg van God om uiteindelijk bij Zijn verborgen traan te komen. Zij weten dat zij door de Armoe tot de diepere kruizen des Heeren en der hemelen kunnen komen. Zij zijn de troosters van God, en zij hebben de canon, het hek tussen hen en God, verbroken, om Zijn bevroren hart te verwarmen. Zij hebben geen genade gehad tot de canon en de canonieke beschaving, maar hebben zich teruggetrokken om zich te wijden aan geestelijke oorlogsvoering en groei.

23. Het priesterschap van de Muskus is voor hen die als de engelen zijn geworden in hun wandel met God. Zij zijn tot de boom van de Karmat gekomen, de boom van Armoe, en hebben van haar vruchten gegeten. Deze boom is het rozenkruis, het kruis der armen en mystiekelingen. Hier leert de mystiekeling de geheimen van het bloed van Christus kennen.

24. De eerste priesterlijke bediening van Muskus is de oorlogsvoerende. Zij leren dat de geestelijke oorlog heilig is, en zij strijden met heilige wapenen. Het slagveld der hemelse gewesten is hun tempel. Zij leren de wapenrusting van het bloed van Christus kennen, en de wapenrusting van de armoe. De hogere soldaat in Gods leger is een priester, en hij voert oorlog in heiligheid. De tweede priesterlijke bediening van de Muskus is de priesterlijke wapendrager. Hij moet de diepere arsenalen van het bloed van Christus leren kennen, en is tevens een wachter, een beschermer van die arsenalen, waartoe hij de sleutels draagt. De wapendrager dient hierover veel profetische informatie te ontvangen, en dient dicht bij de Muskus te leven, als een arme. Zij die in rijkdom leven kunnen en mogen dit vuur niet ontvangen. Het gaat om de nederigen, en zij die de minste willen wezen, de minore.

25. Het arsenaal is heilig voor de priesterlijke wapendrager van de Muskus. Hij ziet zijn geheugen als heilig, en is heilig in het uitzoeken van de wapenen, die hij eruit pikt door de profetische gave. Zijn geheugen is zijn arsenaal, en zijn herinneringen zijn zijn wapens. Hij draagt de wapens over aan de priesterlijke soldaat van de Muskus. Hierdoor is hij een middelaar.

26. De derde priesterlijke bediening van de Muskus is de priesterlijke geneesheer. Veelal werkt hij met het kruis, omdat het kruis genezing brengt. Zo is hij een vader van tucht, en een rechter. Hij draagt de arsenalen en geheimen van priesterlijke genezingsmiddelen met zich mee, zoals de schatten van het bloed van Christus en de Karmat. Hij weet dat genezing heilig is, en alleen kan gebeuren in de tempel en tabernakel. Wel is er aan elke genezing een prijs verbonden, in de vorm van lijden, dat vroeg of laat geopenbaard wordt. Genezing is verbonden aan het kruis, en mag daarvan niet losstaan. Zo is het toedienen van genezing iets priesterlijks, als het toedienen van het kruis, van het bloed van Christus en de Karmat, en het daarbij horende lijden. Er stroomt genezing uit de wonden van de Christus en de Karmat, maar dan moeten we die wonden wel dragen.

27. De vierde priesterlijke bediening van de Muskus is de priesterlijke exorcist. Tevens is hij een profeet, want door het kruis werpt hij geesten uit die woorden verzegeld hielden. Dit is de viervoudige priesterlijke bediening van de Muskus, door hen die de Heilige Armoe in hun binnenste dragen.

28. De engelen van de Muskus hebben Zijn Traan ontvangen, en doen daardoor Zijn werken. Zij zijn bekleed met de krachten van de Muskus, stromende vanuit de Traan. De eerste engelenbediening van de Muskus is de legendarische Lokogaamse. De Lokogamen zijn de sieraden van het kruis, de sieraden van het lijden, en tezamen vormen zij de Ziel van zowel God als Christus. Zij dragen het bloed der gaven, en zijn de wapenen en schenkers des Heeren. Ook zijn zij de voeders van Zijn engelen.

29. De tweede engelenbediening van de Muskus is de Talgaamse. Talgamen zijn de sieraden der sacramenten, en de engelen van de beker. Tezamen vormen ze de Beker van Christus, de vierde persoon van de eenheid. Zij zijn de engelen van het lijden, en zij leiden tot de lokogamen, de sieraden van het lijden.

30. De derde engelenbediening van de Muskus is de Tokonse. De Tokon is de heilige Leer van het Bloed van Christus, maar ook is zij het sieraad van de armoe. Zij zijn de engelen van het bloed, en tezamen vormen ze ook het bloed.

31. Het van geen bevrijding willen weten, oftewel het pad van het Eeuwige kruis is de hogere weg van Christus. Zij die gevoelig geworden zijn voor het lijden van Christus en God begaan dit pad. Zij willen lijden met de Heere en Zijn kruis dragen om dieper één met Hem te worden en Hem te vertroosten. Zij zijn de troosters van God, de bemoedigers, en ook de aanmoedigers. Zij weten dat het kruis een pad is wat bewandeld moet worden voor een oplossing, en voor een eeuwige inwijding. Deze inwijding is zowel mystiek als cryptisch. Niets is wat het lijkt. Deze inwijding is het Sebek-Kruis, oftewel het Kruis van Egypte, waar Christus volgens Openbaring in de onderwereld aan hing. Ook wordt er gesproken over het Kruis van Sodom. Het Sebek-Kruis is het kruis van de onderwereld.

32. Toen Christus door de eerste poort van de onderwereld ging kwam Hij in de gevangenissen van een onderwereld genaamd Egypte. Zovelen van Zijn volk zaten hier vast, en ook zij die door de oordelen en plagen over Egypte waren omgekomen. Hier predikte Christus het evangelie aan de doden. Ons de opdracht gegeven om aan doden het evangelie te verkondigen. Wij mogen dit doen door het lijden wat we zelf dragen. Hiermee komen wij met hen in contact. Let wel : Dit mag dus alleen door de Geest van Christus, en niet door het vlees. Dit is één van de grote paradoxen. Maar

let nu goed op wat er gebeurde, en wat Christus de macht gaf in het dodenrijk om dit te doen : Het Sebek-Kruis was een kruis van verscheuring en verzoening, als een dieper deel van het lijden en het kruis van Christus dat we kennen. Het was het kruis van de onderwereld. In de onderwereld houdt het kruis namelijk niet op te bestaan, maar gaat gewoon door. Wij moeten ons dus niet blindstaren op alleen maar het materiele kruis van Christus. Zijn wij dan materialisten ? Zijn wij volgelingen van de Mammon ? De Mammon heeft een kruis-canon opgesteld, waardoor we niet verder komen. Hiermee wordt het pad van Christus in de onderwereld gelasterd. Het Sebek-Kruis was het lijden van ijs, het lijden van afzondering, als het kruis der hermeten. Afzondering en onthechting brengt je in contact met de onderwerelden, wanneer je het materiele gaat verloochenen, en de aardse, gevallen zintuigen als leugenaars gaat behandelen. Nu, luister goed : Het Sebek-Kruis had Christus al geslagen toen Hij nog leed aan het kruis van Golgotha, waar hij riep : Vader, vader, waarom hebt gij mij verlaten. Door het Sebek-Kruis werd Christus losgescheurd van Zijn Vader, God. En waarom eigenlijk ? Dat werd maar al te duidelijk in de onderwereld. Hier kon Christus een dieper en hoger deel van Zijn Vader ontmoeten : de Sebek. Christus was door Zijn lijden en sterven afgedaald in de put der geheimenissen van Zijn Vader. Hier kon Christus in aanraking komen met het oneindige leed dat in Zijn Vader door de wereld en de gevallen engelen was geslagen. De verscheuring was dus eigenlijk om een diepere verzoening te brengen, als een heilige verslinding.

33. En ook kwam Christus hier tot een dieper deel van Hemzelf, het deel dat het lijden door vuur en ijs weerspiegelde. Dit deel werd genoemd de Herman. De Herman was dat deel van Christus waarmee hij werd gekruisigd aan dit Sebek-Kruis, het Eeuwige Kruis. Hier leerde Christus de Eeuwige stilte kennen, en Hij zweeg. Hij wilde van geen bevrijding weten, omdat het Hem in contact bracht met het grotere lijden van Zijn Vader.

34. De canon, de verabsolutering en afsluiting van het corrupte en geïnfilterde Woord van God, opgesteld door machtslustige, geldzuchtige en eierzuchtige kerkleiders, stond schuldig aan het opwekken van demonie elders. Dit wordt verklaard door de zogeheten delen-theorie : Daar waar Gods mensen delen van God gingen verwaarlozen, tegen zondigden of niet in geloofden, daar werd een stuk van Gods Geest afgehakt, en dat veroorzaakte een leegte die zich uitte in een verschrikkelijke demonische geest. In India waar het meergodendom het sterkst heerste kon zo'n geest makkelijk in het systeem opgenomen worden. De aantallen groeien daar als wij niet onze taak op ons nemen de delen van God te beschrijven en op te nemen. De Geest niet laten spreken is levensgevaarlijk, want zo groeien elders de demonische geesten. Dit is ook de reden waarom zulke hindoestaanse goden zoveel van God in zich kunnen dragen in de vorm van Wijsheid en Liefde. Wij moeten dan ook heel voorzichtig zijn in ons oordeel over deze goden en geloofsstelsels. Het komt meer terecht op een zuiver ziften dan op totale en algehele afwijzing. De totale en algehele afwijzing van andere geloofsstelsels met hun wijsheden is ook niet goed. Geografisch gezien gingen de afgewezen uitgedoofde krachtbronnen met informatie van de Heilige Geest terug in de aarde, en kwamen er demonische krachtbronnen in de voeten van de eigengerechtigde mens om de krachtbronnen van God te blokkeren. Dit trok boze geesten aan. In de eindtijd zal God deze demonische krachtbronnen en blokkades transformeren, als een muur die door de kracht van God plat wordt gelegd en als brug gaat functioneren. Dan zullen de verborgen en afgewezen delen van de Heilige Geest vanuit de aarde opkomen door de voeten van Zijn Volk. Dit zal een basis leggen voor nieuwe genetische veranderingen. God zal niet alleen een God zijn van genezingen maar ook van anatomische vorderingen. Dit zal gebeuren wanneer de vloek der aarde wordt verbroken. Er zal een dimensionale overgang moeten komen van het tegenwoordige lichaam des doods dat onder de vloek der zonde en onwetendheid leeft, naar het lichaam des levens en het zogenoemde

verheerlijkte lichaam. Dit is waarom geschiedenis zo belangrijk is om de verloren delen van de Heilige Geest en Zijn werk terug te vinden. De geschiedenis is de diepte van Gods heilige meer. Onze kennis van de geschiedenis kan mede de diepte van onze relatie met God, onze geliefde, bepalen.

35. Het profetische pad leidt tot het mystieke en het cryptische, als je het goed wil doen, en dan ga je echt het belang van afzonderen inzien, het ijs. Dit deel van Christus is zeer belangrijk op onze reis. Op het canonieke pad van het kruis denken we : 'Nu is het wel welletjes, even het kruis van mijn rug afhalen, hoor,' en dan duiken we in een bron van genezing. Dan dragen we soms het kruis, en de verlichtende bronnen naast ons verlokken ons. Ons kruis wordt zwaarder en zwaarder, of blijft gewoon zoals het is, en we denken : 'Wanneer breekt het seizoen van genezing nu aan, of moeten we in actie komen ? Wat moeten we doen ? Wanneer gaan we om genezing en doorbraak bidden en in het geloof belijden dat we het in Christus hebben ontvangen ? Wanneer mogen we ons uitstrekken naar de verlossing ?' Maar de volgelingen van het Eeuwige Kruis hebben maar één doel voor ogen : het kruis, verzoend worden met de hogere en diepere delen van de Vader. Voor hen is er geen verschil tussen lijden en genezing, tussen leven en dood, hemel en hel. In het kruis vallen zij samen. Dit is de dimensie van Sebek, de vaderlijke liefde. De liefde die lijdt tot verzoening, en niet tot genezing. Want is het kruis niet onze genezing ? Is de verzoening met onze Vader niet onze genezing ? Dit is het pad van het Sebek-Kruis. Je hebt één doel voor ogen : Vader. Hierdoor laat je alles achter je, en ga je door ijs en vuur, als door een heilige verslinding. Je ontwaakt in nieuwe realiteiten, in nieuw perspectief, door het Eeuwige Kruis. Want het niet van bevrijding willen weten leidt tot de Ware Bevrijding. We geven alles op om de Herman, het ijsdeel van Christus, te volgen. Dit leidt tot een nieuw visioen waarin wij leven, een nieuwe wereld. De leugen van kruisafleggende genezing is door het Sebek-Kruis verbroken, en dit kruis geeft ons ook de kracht en het verlangen, ja, de lusten des heeren, om het te dragen. Oh, Sebek-Kruis, zo rein van kracht, komende tot ons in onze diepste nacht, nemende ons mee als een Eeuwig Kruis, een nieuw en diep geruis neemt ons mee, als een heilige ontvoering, een heilige verslinding, om God te kennen zoals hij is. Hij is de Vader van de nacht en de Vader van de dag, in de nieuwe ontwakingen van het Eeuwige Kruis.

36. Christus bestaat uit meerdere delen zoals ook de Geest. Zo is de Herman daar één van. We zien hier een bepaald deel van Christus naar voren komen, en een bepaald deel van het kruis. Het weerspiegelt de hogere weg van Christus, als de Christus die komen gaat. Dit is de tweede Christus, de komende Christus, het verborgen deel van Christus wat geopenbaard gaat worden. Herman is wilde deel van Christus, als een wapen tegen de canon en de canonieke beschaving.

37. We zien daarom een diepere eenheid voor de mystiekelingen in de relatie tussen de Sebek en de Herman, als een eeuwige vlam omringd door ijs en duisternis. Het Sebek-Kruis van verscheuring en verzoening heeft hen tezamen gebracht, door een vlam van ontwaking, als een eeuwig kruis. Voor hen die aan het eeuwig kruis vasthouden is het een onoverwinnelijk wapen, een schild van vertrouwen en rust.

38. Voor de mystiekeling is hierin een pad gelegd om tot de eeuwige traan van de Vader te komen. Het gaat hier om de profetische bedieningen van de Sebek. Geen enkel profetenschap heeft waarde wanneer het niet wordt opgelost en gewassen in de eeuwige traan. De eeuwige traan is een algehele verzoening, niet onderbroken door de hekken van de canon, de materie en de zonde. De eeuwige traan is een diepere verzoening, die verzadigt. Zij sluiten een verbond het kruis niet af te werpen. Zij komen in het eeuwige kruis, om de gebondenheid van de Vader te ontvangen. Alleen die

gebondenheid zal tot ware vrijheid leiden. De eeuwige traan is de Eeuwige Geest en de Eeuwige Ziel des Heeren.

39. De tepel is als een zegel. Er zijn veel geheimenissen en raadselen van de tepel. De tepel is de voedingsbron, en ook een gevoeligheidsbron, heenwijzende naar de gaven van de geest. Hier op aarde hebben wij de tepel des doods, maar onze reis is naar de tepel des hemels, de tepel der heerlijkheid. De wond zal worden tot een litteken, en het litteken zal worden tot een hemelse tepel, als de stof van het verheerlijkte lichaam. Ook engelen dragen veel van deze stof in hun lichamen. Is het zo makkelijk : van wond naar litteken naar hemelse tepelstof ? Neen. De wond zal vele malen doorstoken worden, de wond van de heilige, en ook het litteken, zodat het een hemels litteken wordt, en vandaaruit een hemelse tepelstof. Het spreekt over een vuur, over verbranding, waaruit deze veranderingen voortkomen. En zo is het leven ook, als een prometheus, een afdeling van de hel, waar het immergroeiende vlees telkens weer gegeten wordt, totdat het gelouterd is, en als onoverwinnelijk oprijst. Dit is het geheim van de hemelse tepelstof. Het is een immerbrandend vuur waarin we sterk moeten worden, opgroeien. De tepelboom zal opgroeien om de ogenboom te verslinden. Nu, dat is natuurlijk beeldspraak. De ogenboom wordt beschreven als de Geest. Het gaat hier om hele diepe beeldspraak : het eten van Gods Geest. Van de Geest moet je drinken, maar hier wordt er van de Geest gegeten, als van een ogenboom door een tepelboom. Nu, dat gaat heel diep. Natuurlijk is dat allemaal symboliek.

40. Het gaat hier dus over de Geest, de ogenboom, die door de tepelboom wordt verslonden, en dan strijdt de verslonden Geest tegen de eeuwigheden, en zal overwinnen. En met die eeuwigheden wordt bedoeld : de Ziel des Heeren. Het gaat hier dus om heilige verslinding en heilige strijd en overwinning, als in vriendschap, éénwording. Dat soort strijd is als toetsing en zuivering. De Heere zuivert Zichzelf. De Heere toetst Zichzelf. In dat verband wordt er ook wel gesproken over Pniel, waar Jakob met de engel streed, en uiteindelijk met God Zelf. En dan staat er dat de ogen tot rust zullen komen om heilige dagen te zien. Door de heilige verslinding, en dit is weer diepe symboliek, komt de Geest binnen, de ogenboom, en dan wordt er een hart van heilig vlees in het binnenste geplaatst, en komen de ogen tot rust om heilige dagen te zien. De tepelboom draagt die tot rust gekomen ogen, als eeuwige ogen. Dat is het uiteindelijke doel van de tepelstof des hemels, om zo gevoelig te worden dat het eeuwige ogen van heiligheid en rust zal zijn. Daarom vreest de canon deze hemelse tepelstof als geen ander, en zal hij er alles aandoen om het uit te doven. De tepelboom des hemels is als de heilige kandelaar, vol van de eeuwige gaven, maar alleen door de heilige verslinding, door het eeuwige kruis, oftewel het Sebek-Kruis. Het Eeuwig Evangelie spreekt over tepelen die in de traan zullen groeien en zullen worden tot tempelen. Dit is ook ons vooruitzicht.

41. Zo zijn dan de profetische bedieningen van de Sebek heilig om de profetische woorden van het Eeuwig Evangelie uit te bouwen tot een nieuwe aarde. Zij zijn geroepen om helderheid en duidelijkheid te verschaffen over dat wat moet gebeuren. Maar geenszins is het een canon of een nieuwe canon. Neen. Er zal afgerekend moeten worden met de canon en de canonieke beschaving. De Sebek-profeet strijdt daarmee een strijd in de hemelse gewesten, een strijd die niet van de aarde is. Zij hebben geen strijd der aarde te voeren, geen strijd tegen vlees en bloed, want zij zijn cryptisch. Zij zijn hermeten en puzzelaars voor het aangezicht des Heeren, vertrouwd met de onderwereld en het hemelse pad. Zij kennen en doorzoeken zowel de hemelvaart van Christus als Zijn hellevaart.

42. Zo willen we dan nu de profetische bedieningen van de Sebek bespreken. Sebek is het diepere en hogere deel van de Vader dat nog in duisternis gehuld is. Het is een raadsel van de Vader. Sebek-profeten zijn geen overmoeds-strijders. Zij weten dat ze op de aarde niets te zoeken hebben. Ze zijn niet uit op macht en hoge posities, maar hangen het kruis aan, en wel het Eeuwige Kruis, als het Kruis van Sebek, de Verborgene Vader. Ze leren de paden van het ijs te bewandelen, en ontdekken de plekken waar het ijs begint te branden. Hier glijden zij in onbekende duisternissen. Zij wekken de vlam niet op, maar omhelzen het kruis van ijs als een ijspegel totdat het smelt. Zo komen zij tot het diepere ijs, en uiteindelijk het eeuwige ijs dat brandt. Naarstig en vol van passie zoeken zij naar de uitstorting van de eeuwige traan, de eeuwige ziel en geest van God. Hierdoor verandert het eeuwig visioen waarin zij leven. Hierdoor verandert de materie om hen heen. Maar zij zijn niet gericht op de materie, maar op de eeuwige traan, en de eeuwige stilte. Ze zwijgen, om deel te hebben aan het diepere lijden, en het diepere ijs. Zij geven alles op voor de traan van Christus, om het te verruilen voor de eeuwige traan.

43. Sebek-profeten hebben een passie voor het angstige, het lijdende, en komen tot de diepe angsten in zichzelf om daardoor verenigd te worden met God. Ze geloven hun zintuigen niet, maar de eeuwige traan, het verborgen en verbroken, streng bewaakte Hart van God de Vader.

44. De eerste profetische bediening van de Sebek is de oorlogsvoerende. De profeten van deze orde groeien op door onderricht over de heilige verslinding en de heilige strijd, en leren hoe God hierdoor alles transformeert. Ook leren ze over de heilige verzachtingen en de heilige ontwaken door de Sebek. Ze zonderen zich af voor studie en onderricht, en leren over de wapenen van de Sebek, de Eeuwige Vader. Bovenal is het hen gegeven om strategische informatie te ontvangen. Ze zijn listig, kennen de listen des Heeren, en grijpen niet snel naar hun zwaard in geestelijke oorlogsvoering. Ze hebben andere manieren. Ze hebben geleerd te zwijgen, om niet teveel met hun verstand en gedachten in discussie te gaan, maar door de Traan communiceren ze met God, en bovenal door de Eeuwige Traan. Ze richten zich hierbij op Sebek, de Eeuwige Vader. Ook wordt de Sebek het gebeente van God en Christus genoemd, en de Eeuwige Ark. Uiteindelijk, en dat is iets wat we ook al in de Bijbel kunnen terugvinden, is er geen redding dan door het Eeuwige Kruis. Het kruis mag niet afgeworpen worden. Het kruis is een pad, en we moeten in het kruis gaan wonen. Het kruis is een tempel, en een arsenaal. Zo komen we tot het Eeuwige Kruis, tot de eeuwige traan waar de eeuwige tepels der heerlijkheid groeien, de bron van de eeuwige geestesgaven.

45. De tweede profetische bediening van de Sebek is die van het maal des Heeren. Ook deze profeten leren over de heilige verslinding, maar ook over de onderscheidende verslinding, namelijk het verslinden van demonen, en het bereiden van demonen, het fokken van demonen, maar dan als in mystiek en cryptiek. De profeet moet leren van de achterliggende bedoelingen, van beeldspraak. Het kruis heeft alles te maken met het fokken van demonen. Je grijpt niet naar je zwaard, maar naar het kruis. Hier zoek je niet allereerst de kruisiging van het vlees en de betrokken demonen, maar juist het deelhebben aan het lijden, om verbonden te worden met God. God roept ons op om eerst het lijden te aanvaarden. Vandaaruit zal het kruis groeien tot brandend eeuwig ijs waarin het vlees, de demon sterft. Vaak wordt er daarom in het exorcisme ook gewaarschuwd om niet direct alle demonen uit te drijven, want daarmee trek je dan ook de doorn des vlezes, het kruis eruit. Ware exorcisten werken met kruiswapenen, maar dan in de vorm van list en strategie. Je trekt het kruis aan als een mantel, en gaat het pelgrimspad van het kruis op, en dan zal de mantel vanzelf ergens gaan branden. Pas op voor allerlei toverijen. Het kruis is geen toverstokje. Leg je toe op de diepere werkingen, en vraag jezelf af waar het je nu eigenlijk om te doen is. Het kruis is als een oven waarin

de demonen en het vlees gebraden worden. Zo zijn hen van de tweede profetische bediening van de Sebek de profetische bakkers des Heeren. Zij dienen in de tempels bij de tafels der broden, de tafels der bekers en de altaren. Maar hier doen zij geen rituelen. Neen, ze communiceren met God. Niet rechttoe rechtaan. Neen, mystiek en cryptisch. Zij kennen de profetische wegen des Heeren, zij kennen Gods bazuinen en hun betekenissen. Ze hebben niks van doen met één of ander canoniek avondmaal waar alleen het vlees en bloed van Christus wordt genuttigd, en de demonen vrijuit gaan. Zij kennen het Eeuwig Maal des Heeren, de diepe symboliek en criptiek van de heilige verslinding.

46. Zo strekken dan de ware discipelen van de Sebek, het diepere principe van God zich ook uit naar de gebondenheid in de Eeuwige Traan, de Eeuwige Geest en Ziel, opdat de reis van het kruis door zal gaan tot het doel : Het Grootste Kruis. Hierin : De Grootste Kracht, en de Grootste Heerlijkheid. Dit Principe noemen we Khnum, zo groot dat God er nauwelijks iets van liet doorschemeren. Khnum is ons volgend station en traject naar het verloren Vaderhart van God. Maar eerst gaan we nog de weg tot Khnum beschrijven : de engelenbedieningen van de Sebek.

47. De Risgamen zijn de eerste engelenbediening van de Sebek. Zij vormen de Geest van Christus, en zijn de sieraden der bedieningen. De inaputen zijn de tweede engelenbediening van de Sebek. De inaputten vormen het lichaam of vlees van Christus, maar meer nog : De Leer van het Vlees van Christus. Ook zijn zij de sieraden van de dood.

48. Khnum is de Naam van het grootste kruis, daar waar de Vader door Zijn lijden aan het grootste kruis gelijkvormig is geworden. De Khnum legt er des te meer nadruk op dat we engelen moeten worden. Khnum woont in de arrataharen, hoge hemelen, en heeft daar zijn engelen, die Stitchiren genoemd worden. Khnum is het geliefde deel van God. Door de Droom werkt hij, iets waarmee al Zijn engelen vervuld zijn. Khnum is een geheim en raadselachtig deel van God, waar hoofdzakelijk engelen mee vertrouwd zijn. Khnum is de verborgen rustplaats en schuilplaats des Heeren.

33. Khnum is het scheppende deel van God, en de rustgever. Engelen verkondigen dag en nacht Zijn Naam. Zij kennen geen rust in het heiligen en belijden van de Khnum, maar Khnum heeft hen diepe rust van binnen gegeven.

34. Het heeft te maken met het uitbroeden van dromen en visioenen. Dromen en visioenen zijn als eieren. Ze kunnen de wereld veranderen. Khnum wil de mensen leren dat zij net als Hem kunnen scheppen op deze manier. Dat betekent : Hem volgen. In het Grootste Kruis is de Grootste Creativiteit en de Grootste creatieve Kracht.

35. Alle lijden is slechts inwijding tot de hogere hemelen en de hogere bedieningen. Zonder dat zouden we daar nooit kunnen komen of toegelaten worden. Maar het kruis is een vuur waaraan we ons kunnen warmen, wanneer we de moeite namen om er onze woning van te maken, en dieper naar binnen zouden gaan.

2.

Het Paranoia der Profeten

1. Het profetische leven kenmerkt zich door de worsteling met jezelf en je interpretatie. Ontbreekt die worsteling, dan kun je je afvragen of je wel profetisch leeft. Vaak is datgene waarvan men denkt dat het profetisch leven is gewoon sociaal leven. De worsteling met jezelf wordt vaak extra verhit

door de sociale machine, en zo probeert de profeet die dan ook zo veel mogelijk te ontvluchten, om innerlijke rust te vinden. Vaak zal de profeet dan merken dat hij een gevangene is van die machine, terwijl zijn gevoeligheid dat idee steeds zwaarder maakt voor hem. Dit zal onherroepelijk leiden tot een escalatie, een soort profetische verbrokenheid, waardoor de profeet min of meer bevrijd wordt. Dit kan door een trauma, overspannenheid, een ziekte of iets anders. Dit wordt vaak niet door de samenleving geaccepteerd waardoor de zwaar beproefde profeet een soort paranoia ontwikkelt, en zelfs vormen van heilig autisme. De profeet gaat inzien hoe diep de aarde en de wereld gevallen is, en wil niet meegesleurd worden. Zo worden vaak zijn paranoia en autisme gescherpt. Hij zal zich eerder identificeren met een dier of een boom, dan met een mens. Maar toch is hij ook een mens, en zal daardoor een tussenvorm proberen te vinden.

De Goddelijke Gespletenheid

2. De zwaar gekwelde profeet gaat de gevaren inzien van het overmatig communiceren, van zintuiglijke informatie door bijvoorbeeld licht en geluid. De profeet zoekt meer en meer de stilte op, ook de stiltes van de geestelijke wereld. Hij leert de subtielere talen kennen, de zogenaamde stille talen, en merkt dat daarin de geheimen van het leven zijn opgeborgen. Hij merkt dat lichten verblinden, en dat dit een zegel is dat hij dient te verbreken. Hij merkt dat geluiden verdoven, en dat hij ook dat zegel moet verbreken. Maar hij merkt ook dat hij zonder licht en geluid niet kan leven. Zo gaat hij op zoek naar een tussenvorm. Maar hoe ver hij ook hierin komt, het verleden lijkt hem te achtervolgen, om hem weer in worsteling met zichzelf te brengen, met zijn interpretatie. Zijn herinnering dient genezen te worden.

3. Zo ontwikkelt hij meer en meer een Goddelijke Gespletenheid. Er zullen tijden zijn dat hij zich meer en meer gaat voelen als een insect, en hij begint vertrouwd te raken met de cocon en het wezen wat daaruit voort komt. Hij leert de mechanismes kennen.

Interpretatie of Profetie

4. De wereld is wreed, een wrede cocon voor de profeet. En in zo'n wrede cocon wordt een wreed schepsel ontwikkeld, iets waar de profeet tegen strijdt, maar wat hem telkens weer overwint. Maar ook wordt er in de cocon iets anders ontwikkeld, namelijk een teder en genadig schepsel. Hiertoe voelt de profeet zich bijzonder aangetrokken, maar ook tot het ander wezen, als in een Goddelijke Gespletenheid. Het is als het ei van een scorpioen, als iets wat hem van binnen verscheurd, als een put van schuld en schaamte. En zo ontdekt de profeet de cocon in de cocon, en gaat op zoek naar zijn diepere zelf, niet naar de schijn-zelven en de illusie-zelven aan de oppervlakte, die een product zijn van interpretatie. Interpretatie is een projectie, en is nooit in staat iets geheel naar waarheid over te dragen. Daarom streeft de profeet naar Profetie. De profeet zal een keuze moeten maken tussen Interpretatie en Profetie, tussen Projectie en Profetie, steeds weer. Interpretatie komt telkens weer opduiken, en verwond de profeet telkens weer, maar dit is nodig om het diepste van de profeet te doen ontwaken.

5. Vaak doet het extra pijn wanneer de profeet denkt dat hij hier voor niets doorheen moet, en dat hij hier alleen doorheen moet. Maar het Pad van de Profeet is standaard. Profeten zijn vaak eenlingen. Het hoort bij de proef dat ze in ketels worden geworpen waarin honderden valse profeten om hen heen staan.

Het Rozenkruis

6. Het is een vast pad waarover de Heer de profeet leidt, terwijl de profeet zelf vaak het idee heeft alsof alles los staat. De worsteling met zichzelf brengt vaak een bepaalde woede omhoog in de profeet. Woede is een vorm van pijn, en dit is voor de profeet zeer belangrijk om tot het Kruis der hemelen te kunnen komen. Zie het kruis als een bloem, een bloem van de armoe. Het kruis is een boodschap, en als we haar haarzelf laten ontvouwen, dan zal ze ook de oplossing en de transformatie geven. Het kruis is niet een stuk hout, maar een groeiend en bloeiend geheel.

7. Het Rozenkruis is een Hemelse Realiteit. Het Rozenkruis kon daar terecht waar de Kerk haar niet aanvaardde. Wij zien liever geen roos op sterk water. Het Rozenkruis behoort de profeten toe. Zij worden door haar bemind. Het Rozenkruis is het kruis van heilige Armoe, en zij draagt diep in haar de technologie van het geestelijke leven. Laten we goed beseffen dat waar die balans zoek is de Roos sterft.

8. Daar waar de kerk de geestelijke technologie opzij schoof ontstond er een behoefte aan die geestelijke technologie. De kerk zette de stolp over de roos, in de vorm van de canon. Nu was de canon geen nieuw apparaatje in de handen van de leiders.

9. Wij speuren naar de verloren delen, en moeten daarna de puzzel weer helemaal opnieuw leggen. Dat de werelden wilde werelden zijn is vaak genoeg voor gewaarschuwd. Je begeeft je op een plaats die als dumpplaats van de Kerk functioneert, een verwilderd en verlaten gebied, zonder omheiningen van een beschermende canon. De mystiek brengt ruimte, maar brengt tegelijkertijd ook grote gevaren met zich mee. Het is een oorlogsgebied. Om deze verborgen schatten en eilanden wordt gestreden.

10. Het Rozenkruis heeft steun gezocht in de technologie, en zij wordt ook gezien de Sleutel.

De Karmat en het Rozenkruis

11. Christus moet op zijn beurt verantwoording afleggen aan de Karmat. De Heilige Geest aan de Heilige Armoe, en het Kruis aan het Rozenkruis. Christus was een eerste gave aan de gemeente, een milde vorm van energie. Nu is het ware volk van God toe aan een hogere energie, de Karmat. De Karmat is nauw verbonden met het Rozenkruis. Zoals Christus dit was, de Karmat des te meer.

12. Beschouw de Karmat gewoon als een deel van Christus. De canon is een beschermende, behoudende geest, een cocon, en die zal uitbloeien tot een prachtige, uitbloeiende en bevrijdende roos.

Het Canonieke Christendom - Een Gevangenis

13. Wanneer iemand gevangen is gezet door de canon, zij het door het voorgeslacht en de opvoeding, zij het op latere leeftijd, dan gaat dit meestal gepaard met veel demonie. Lange slangen vanuit de weelderige afgronden van de hel houden het slachtoffer in de greep, zodat het slachtoffer geen deel zal hebben aan die weelderigheden. Het is de kracht van het kapitalisme. Ze houdt zichzelf in stand door anderen af te houden van het kapitaal. Dit gaat dus door kooien, door canons. Het canonieke christendom functioneert zo als een soort gevangenis, maar erger nog : als een web van vampieren waardoor zij hun slachtoffers periodiek aftappen. In zo'n gevangenis ben je dus niet alleen een gevangene, maar ook levend voedsel, en hoogstwaarschijnlijk een slaaf.

14. Het Rozenkruis kan het slachtoffer hierin tegemoetkomen. Het Rozenkruis laat zien dat zij zelf ook in een kooi leeft.

15. De lange slangen van de canon, die vaak ook heel dun zijn, en ongelooflijk sterk en geconcentreerd, regelen de ademhaling van het slachtoffer, en bewonen vaak een zachte plek op borsthoogte, die als een geestelijke zonnentepel is. Ook regelen ze hierdoor de spraak van het slachtoffer. Als het slachtoffer uiteindelijk met het Rozenkruis in aanraking komt, zal zij op die gevoelige plek gaan wonen, en hierdoor de spraak en de ademhaling regelen. Door de juiste vibraties zal zij proberen de hersenen vrij te maken uit de greep van de canon. Dit zijn vaak hersenklemmen die zij moet openen. Zij gebruikt hiervoor haar nektars, honingen en melkselen en haar weelderige odors. Zo zal zij alles helemaal opnieuw gaan programmeren. Zij zal de spraak en de ademhaling in balans brengen, en de overbelaste spraak weer verbinden met een ademhaling die diep van binnen komt, en die zij ondersteunt.

De Boom van Karmat

16. Het is ontleding, de beschrijving der delen, waar je nooit diep genoeg in kan gaan. Wanneer je door de Roos gestoken bent wil je meer. Dan kun je ook dieper gaan. De Roos is niet alleen de sleutel, maar is ook een middel om deze te zuiveren.

17. Het Rozenkruis is als de Boom van Armoe, een Paradijselijke en Heilige boom. Dit is als een Verborgene Boom, en alleen te bereiken door hen die het Ware Pad van de profeet begaan : Het ware pad van mystiek. Dit is een pad dat haaks op het canonieke staat. Het is de Boom van Karmat, de Heilige Armoe, met zijn drie principes : de Verborgene van de Heilige Armoe, de Vruchtbaarheid van de Heilige Armoe en de Weelderigheid van de Heilige Armoe.

De Heilige Armoe

18. Heilige Armoe is de Rijkdom van de ziel. De Heilige Armoe is de Sleutel op het Pad van het Kruis. Er zijn verschillende graden in armoe. De eerste graad is depressie, de tweede angst, de derde pijn en de vierde chaos. De Armoe loopt gelijk op met het Kruis. De Armoe bemint de Gekruisigde.

19. De Heilige Armoe schenkt haar Stigmata, haar lijdenstekenen, aan de ziel, als punten van eenheid. Zij die deze littekenen dragen worden door haar geleid tot de Eeuwige Stad. De Heilige Armoe spreekt in Mystiek. Zo schept zij ruimte, en zo geeft zij verborgen boodschappen door aan haar geliefden.

20. Kapitalisme is de weg niet. Kapitalisme is slechts een illusie geschapen om hen van het glazen huis even weg te nemen uit de publiciteit. Maar de werkelijkheid is dat alles door het kapitalisme nog transparanter wordt, en dat het nog meer bezoekers trekt. Sommigen willen uit deze vicieuze cirkel ontsnappen, maar kunnen het niet meer. Ze voelen zich als marionetten van iets dat groter en hoger is dan henzelf. Ook voor dezen is de Heilige Armoe gekomen, om hen door de ziele-stigmata daaruit los te doen breken. De Heilige Armoe leidt hen tot een diepere rijkdom, door een dieper armoe, namelijk de armoe van de ziel.

Izu

21. De ziele-stigmata zijn als de bloemen der ziel, komende en opbloeiende vanuit een diepere wereld, een wereld van intense tederheid. De Heilige Armoe spreekt door die stigmata, in mystiek, de taal van de armoe. Zij spreekt over de sieraden van de Armoe, en de schatten van de Armoe.

22. Zij leidt hen tot een Eeuwig Evangelie, tot een geheel andere natuur, en een andere insectenwereld. Door haar geheime paradoxen opent zij de wereld van het Insectisme, Izu.

23. Het Insectisme staat haaks op het canonieke christendom, als een grote Exodus, een uittocht. Het Insectisme is een alternatief voor al die stromingen waarin geen wetenschap is.

24. Velen die vanuit de kerk waren gevlucht kwamen er achter dat er ook een Exodus in de Exodus moest komen, een uittocht vanuit de uittocht. Ook waren er velen die de macht en de moed niet hadden om uit de kerk te vluchten. En het Insectisme is alleen te bereiken via het Pad van de Armoe.

De Heilige Geest leidt tot de Heilige Armoe

25. De Heilige Armoe zal een heel ander stelsel creëren. Dit zal door de Stigmata gebeuren.

26. Ook het Geweten, het Verstand, het Geheugen, de Emotie en de Wil zullen deze Stigmata dienen te ontvangen.

27. De Heilige Geest leidt naar de Woestijn, waar we de Heilige Armoe mogen ontmoeten.

28. Na en tijdens de Zegeningen van de Heilige Geest mogen we ons ook al openstellen voor de Zegeningen van de Heilige Armoe. Dit is waartoe de Geest ons leidt.

29. De Heilige Armoe zal ons de Verborgene Sleutels der Hemelen brengen. Zij zal ons in een dieper contact met de engelen brengen. Zij zal ons haar sleutelen van de dood aanreiken, als we gewillig zijn haar te volgen. De Heilige Armoe zal de discipel dichter bij de troon brengen dan de Geest ooit heeft kunnen doen. De Heilige Armoe zal de getrouwe discipel bekleden met de machten en krachten van de Eindtijd, en de toekomstige eeuwen en eeuwigheden.

30. De Heilige Armoe zal ons onze identiteit terugbrengen en ons bevrijden van verworpenheid doordat we verbonden worden met onze verloren delen.

Het Diepere Kruis

1. Vaak zijn er patronen te vinden voor hen die met het diepere kruis in aanraking komen. Zij zijn als het ware door het klassieke kruis heengebroken, door het algemeen aanvaarde en algemeen ingeburgerde kruis. Zo komen zij dan tot het kruis van woede, het kruis van haat, en daarna tot het kruis van stilte. Vaak wordt dit door farizeeers als zonde bestempeld, wat dan ook veel gevoelens van schuld en verwerping met zich meebrengt in de lijdende. De lijdende aan het diepere kruis kan zich dan zelfs door God verlaten voelen, maar uiteindelijk brengt dit diepere kruis hem tot de diepere en verborgen delen van God, die niet zomaar toegankelijk zijn. Het zijn ontoegankelijke, duistere plaatsen waartoe de Heere zo'n lijdende brengt.

2. Zo ontstaat er vaak een soort wiel waaraan de gekruisigde steeds dieper in de sferen van de onderwereld terechtkomt. Vaak wordt zo'n lijdende verteerd door wroeging. Had hij nu maar niet dit gedaan, of dat gedaan, dan hing hij nu niet aan zo'n verschrikkelijk kruis, stond hij nu niet schuldig aan zo'n verschrikkelijke zonde. Misschien dat de lijdende vroeger deel had aan allerlei charismatische zegeningen, hoorde hij regelmatig de stem van God, en ervoer hij Gods genezende

hand, maar nu ? God spreekt niet meer tot hem, en hij hoort al helemaal Gods stem niet meer. Waar zijn al de gaven gebleven ? Al de zegeningen ? Waar is het leven in overvloed des hemels gebleven ? De aarde, en vooral het geestelijke, was een paradijs voor hem, maar nu ? Wat is er van dat paradijs overgebleven ?

3. En zo ziet hij om zich heen anderen die wel deel hebben aan die zegen. Zij zijn niet gevallen, de Heere heeft hen niet verstoten. Hij is de buitengeslotene. Zou hij ooit nog terug kunnen komen, of zal dit wiel waaraan hij hangt, waarvan hij denkt dat het zonde is, hem nog dieper brengen ? Waar een kruis voor zonde en schuld wordt aangezien wordt de ellende nog erger.

4. God lijdt aan een dieper kruis. Dit kruis is de oorzaak van Zijn woede, het diepere kruis. De woede kan erg uitputtend zijn, en leidt bij herhaling aan het wiel tot een heilige haat. En deze zakt uiteindelijk diep in een grote stilte, een groot, diep en geheim kruis, vol van raadselen. God spreekt niet meer. Zij die hem horen horen het verleden, het geschrevene, het gelezende, en die raadselachtige echo, als een orakel. God spreekt niet meer. Het is duister geworden in het hart van de lijdende, die het diepere kruis van God heeft ontmoet. God is stil geworden na de herhaalde klappen van het kruis, waar telkens Zijn woede en haat oplaait, als in een raadselachtig wiel. God spreekt niet meer. Alleen nog door raadselen en orakels. En wie kan die verstaan ?

5. Het is het onontkomelijke pad van het kruis voor hen die Hem waarlijk liefhebben, te komen tot het diepere kruis, waar het wiel draait, waar alles erger wordt, en te komen, zo diep, daar waar God niet meer spreekt. Hier luistert God niet meer, omdat Hij niet meer kan luisteren. Zijn oren zijn hier doof geworden door de klappen van het kruis. Deze plaats, en dit deel van God wordt door mystiekelingen wel Kruim genoemd. Kruim spreekt cryptisch, door raadsels en orakels. Dit is voor profeten een hogere weg, om los te komen van het materiele. Profeten die uiteindelijk dit pad niet opgaan worden vroeg of laat door de Mammon gegrepen. De Mammon is zo'n beetje de baas van het materiele christendom, al dan niet van het voorspoeds-evangelie.

6. God spreekt niet meer. Zijn paden zijn vaag geworden. Door het diepere kruis komen we tot een versteende, bevroren God, monddood gemaakt door zijn volgelingen. Als dolle dwazen dansen ze om de paal heen waaraan ze hem hebben gekruisigd. 'Nee, God spreekt niet meer, omdat jullie,' zouden de oude profeten zeggen. Inderdaad, God spreekt niet meer. En God zal ook nooit meer tot jullie spreken. Hij heeft jullie overgeleverd aan de misleiding. Dat is het woord van de profeten tot een joelende kerk. En wat zullen ze met die laatste profeten doen ? Waarschijnlijk ook aan een paal spietsen om er als zotten omheen te dansen. Nee, God spreekt niet meer. En Hij is ook niet meer van plan om het te doen. Het Eeuwig Evangelie zal als een orakel komen, als een pad voor de raadselachtigen, zij die tot het diepere kruis van God komen en willen komen. Ook zal het komen om de dwazen te verdwazen en de misleiders te misleiden. Resultaten kunnen verschillen.

7. De Heere zendt Zijn Paradox tot de cryptischen, de schijnbare tegenstelling, want er zijn meerdere seizoenen, en je kunt de diamant draaien om van meerdere kanten te bekijken. Ook worden er meerdere talen gesproken. Het Eeuwig Evangelie heeft dus een veelvoudig doel, om de gelovigen binnen te halen, en de afvalligen af te scheiden. Het Eeuwig Evangelie is als een zifter en een toetser, een Eeuwig pad voor de rechtvaardige, een nieuw vuur, en tot een oordeel over de onrechtvaardige.

8. God spreekt niet meer. Ze hebben zijn mond gekruisigd, doorboort. God luistert niet meer, want zij hakten zijn oren af. Wilt u tot deze God komen, of wilt u verder gaan met uw papieren kruisje, als een idioot bloemetje op weg naar de bruiloft tussen Mammon en de gevallen bruid ? Zij pleegt

overspel, want zij behoorde Christus toe. Zij hebben van de Bijbel een boek van materie gemaakt. Zij hebben God bevroren.

9. Diep onderin de aarde woont God als de indiaan die door de christelijke kolonisten werd vermoord, opdat zij het Grote Amerika konden bouwen, het verborgen Rome, de verborgen Grootmoeder van Alle Hoeren. Wist u dat alles wat we om ons heen zien gebeuren, en wat gebeurde in de geschiedenis, naar boven kwam als een weerspiegeling van Eeuwige Realiteiten ? Zij kwamen aan de oppervlakte als verborgen boodschappen van God. Maar wij staarden ons blind op het papiertje, en ons papieren koninkrijk. Wat is bijvoorbeeld het kruis van de indianen, het bloed en gebeente waarop Amerika werd gebouwd ? Wat is het ketterkruis, het kruis der heksen, en het kruis van hongerend Afrika ? Zijn wij niet geroepen om die kruizen tot ons te nemen ? Waarin God tot ons spreekt in verborgen taal ? Waardoor we kunnen zeggen : God spreekt toch nog ? Zijn wij niet geroepen om die kruizen aan te nemen ? Of staren we ons blind op een papiertje, en op Jezus aannemen, om vervolgens ons kruis van ons af te werpen ? Hoe komen wij tot Christus. Door het kruis ! Waar is dit kruis ? Op een papiertje ? Neen. Dat kruis is om ons heen, en in de geschiedenis. God plantte ons in een tuin vol kruizen. Kijk om je heen.

10. Heere, ik draag het Kruis van Hongerend Afrika, als een verborgen boodschap van u. Heere, ik draag het Kruis der Indianen in mijn hart, en neem het aan, om tot u te komen. Ik draag hun kruis en neem het aan, om tot u te komen, die lijdt in het binnenste der aarde.

11. Het diepere kruis een kruis van woede, heilige haat, leidende tot diepere stilte. Hieraan kun je ze herkennen, zij die Christus volgen. Ze haten de wereld, de zonde, zij haten de materie, en hun woede groeit. Ze zijn apart gezet door Gods Toorn. Het is alsof zij worden bewaakt door draken. Niet alleen de draken van het kwaad, maar ook de draken van de Heer. Zij zien de aarde als gevangenis, en voor hen is het als een cocon.

12. God spreekt niet meer, en toch spreekt Hij, als een prachtige Paradox. Zij die Hem volgen hebben een nieuwe taal geleerd, hebben Zijn orakelen leren kennen : de geschiedenis, het cryptische. Oh ja, zij gaan door grote lange woestijnen heen. Zij honger en dorsten, maar van binnen brandt een vuur dat hen op gezette tijden hoop geeft, als een wiel. Telkens weer komt de vlam langs. Maar soms breekt het wiel, en zakken of vallen zij nog dieper. Door de rijken worden zij zondaren genoemd. Want er zijn maar wat veel rijke christenen die armoede als zonde zien. Kom daar eens mee aan in Afrika. Daar stikt het zeker van de zondaren dan. Maar God laat zien dat het een kruis is. Armoede is het voorportaal van het kruis, en zij die de armen en de armoede niet in hun binnenste dragen, kunnen niet tot het kruis komen. Het kruis en de dood vlucht van hen weg, en zij leven in de leugen van voorspoed, de glitterwereld. Ik zal u haarfijn uitleggen wat dit inhoudt. Het zal niet voor eeuwig zo duren. U wordt gefokt door de Mammon. Straks haalt hij de glitters weg, en dan kunt u de rest van uw leven, en zelfs misschien na de dood en in de eeuwigheid : honger naar de vruchten en de heerlijke wijn van vroeger, honger naar de moederborst, maar het zal er niet zijn. Kent u dat plaatje waar een drenkeling op een schildpad of vis zit en aan een stok wat voedsel voor de schildpad of vis laat bungelen ? Zo brengt het dier hem naar een eiland. Het is een slavencode, die ook wel Tantalus genoemd wordt, een deel van de hel. Daar worden de rijken en de voorspoedigen dus voor gefokt. Na de val van hun glitters zullen ze gekweld worden door hun herinneringen, en die herinneringen zullen hen allerlei klusjes laten doen. Er hangen vruchten voor hun ogen, en zodra ze naar voren buigen om ervan proberen te eten trekken de vruchten zich terug. Dat is de tragedie van het voorspoeds-evangelie. Het is een slavenfokkerij. En God kan niks voor ze

doen, omdat ze het kruis verworpen hebben. God is het kruis, hieraan gelijkgeworden in zijn lijden. Dat is de tragedie der rijken. Het zijn tragische figuren die naar de putten der danaïden geleid worden, oftewel de bodemloze putten waar ze voor eeuwig water naartoe moeten dragen. Eeuwig is altijd aeonisch, dat wil zeggen : tijdelijk, totdat de straf is uitgezeten. Altijd is dus heel cryptisch : Tot de volle munt terugbetalen. Er is geen altijddurig en oneindig leed, niet voor de arme, en ook niet voor de rijke. Indien wel, of voor u nog steeds : De cryptiek zal dit een halt toeroepen en doen afbrokkelen. Cryptiek is tijdloos.

13. De Paradox heeft altijd voor onschuldigen gepleit, en heeft altijd een ruimer begrip gegeven over het verschil en de overeenkomst tussen goed en kwaad. Zoals de Paradox de schijnbare tegenstelling is, zo is de Naradox de schijnbare nutteloosheid. Uiteindelijk bestaat er geen nutteloosheid. Alles dient ergens voor. De Naradox schijnt hier licht over, en komt op voor dat wat als nutteloos bestempeld wordt. Als je tot het dieper kruis bent gekomen, en je ziet geen uitweg meer, en je ziet het nut er niet van in, bedenk dan dat dit wiel waaraan je hangt de deur opent naar een dieper leven, daar waar de Naradox en de Paradox voor je pleiten. Het is een deur in de aarde waardoor je leert dat God op vele manieren kan spreken. Je leert je te warmen bij het stille en dove kruis des Heeren, en je leert een diepere en grotere kracht van God ontdekken. Het is een klein, zwak vlammetje, een waakvlammetje, maar eigenlijk een slaapvlammetje, want God slaapt hier. Het kruis heeft Hem in een diepere slaap gebracht. Ja, God slaapt.

14. Kun je dat volhouden, om met een slapende God te zijn ? En dat terwijl de stormen zo bulderen ? We zitten als discipelen in Romeinse ballingschap, en onze God slaapt. Tot wie roepen we dan ? Of omhelzen we Zijn diepere kruis, worden we stil om alles te aanvaarden.

15. Laten we er aan gewend raken dat God niet spreekt. We leven in een wereld van het consumeren. We leven in een wereld van veel vragen en weinig geven. Oh, hoe we druk in de weer zijn met onze eigen huisjes en kruisjes. Maar het ware kruis des heeren kennen we niet, het kruis dat alle grenzen doorbreekt.

16. God lijdt in het binnenste der aarde, daar waar alle stemmen doven, en soms afgrijselijk gegil. Daar waar alle oren zijn afgestorven, uitgestorven, maar waar op sommige plaatsen die oren weer aangroeien, gevoeliger dan ooit. God is er voor weggevlucht, die alarmen. God is blind geworden door de felle lichten. En openbaringen krijgen we niet, want wij hebben zijn woord : het geschrevene en het gelezene, en wat echoes die in de wind verdraaien. Visioenen zijn hier uitgestorven, en ook dromen. Wij dromen niet, maar rommelen nog wat na. God is gevlucht op het diepere kruis. Waar is God ? Wij weten het niet. Onze dromen zijn slechts gebrabbel, onze profetieën zijn slechts geruis. God heeft ons verlaten. Noemen we het zonde, of noemen we het kruis ? Wat hebben ze gedaan met de laatste profeten ? Waar zijn zij ? Laten we hen opzoeken, maar nee, laat maar. Zij zijn op dezelfde plaats als God, daar, diep in de aarde, daar waar alle oren zijn gesloten, en soms hevig gedruis. Laten we het allemaal maar rusten. Of zijn er toch enkelen onder ons die het niet willen laten rusten, die het als een uitdaging zien. In voor een avontuur ? Kom met mij mee, want ik zie wat licht. Ik weet niet hoe lang het duurt, het kan zo weer weg zijn, dus kom mee. Kom mee.

17. Waar oren zijn gesloten, waar monden zijn afgebroken, uitgestorven, doorboort, gekruisigd en gesnoerd, daar, ergens, zie ik een kleine vlam. Het ruist en suist licht, en dan is het weer weg. In de verte zie ik het weer als een lichtende mist. Laten we erop afgaan. Misschien wil het ons ergens naartoe leiden. Het diepere kruis van woede, van haat, waardoor God niet meer kan spreken, zo stil

geworden, kijk het slaapt. Door lichtgebaren spreekt Hij, zie, het lijkt wel onze wereld. Zoveel kruizen in een rij, maar wat doen wij ? Het is de taal des kruizes, maar ziet, wij spreken 't niet. Wij hebben allen grote monden, brengende zoveel verdriet. Onze monden zijn vuil, niet door stilte getemd. Maar kijk, door dat licht, God spreekt door lichtsignalen. Het lijkt op onze wereld, al die kruizen, en dan ineens zoveel namen.

18. De oorlog heeft ons kapotgemaakt, 't spreekt van een Eeuwig Kruis, zoveel vrienden verloren, en de herinnering leeft voort. En dan de indianen, wiens botten werden gebroken, zij waren het laatste stukje natuur, het grootste kruis, de aarde. Nog steeds vind ik die botten daar, zo diep in de aarde, een dieper kruis vond ik daar. En dan het dubbelkruis, zij die zelfs het laatste wat zij hadden weggaven, hun andere wang toekeerden, de extra mijl gingen, zowel het kleed als het hemd, naakt lagen zij daar. Iedereen kon het zien, en zapte toen naar een feestje op kanaal tien. Oh, hongerend Afrika, het dier kan nu alleen nog maar zwijgen. Teveel gezien, teveel woede, teveel haat, 't heeft hen stil gemaakt, maar er zijn nog steeds lichten van de camera. Want daarboven in de rijke landen hebben ze nog niet genoeg. Maar ik ben met jullie, dat is alles wat ik vroeg. Te zijn met jullie, te dragen jullie kruis. Nu ben ik één van jullie. Het is hier kerk of kruis. Ik heb voor het laatste gekozen.

19. Kerk, vaarwel. Kruis, welkom. In het Kruis heb ik mijn eigen kerk, waar God niet meer spreekt, alleen door wat orakelen, de echo's van een oude lange preek. Ik herinner die dominee nog wel, hij zat altijd vol fratsen. Maar nu heb ik zijn preek omgedraaid, achterstevoren beluisterd, en ik hoorde de prachtigste klanken, van een stille God, die slaapt in het bed des kruizes, ja, gespijkerd aan een hout. Hij rekent af met een verleden : Kerk niet langer zijn bruid meer, het is nu stil geworden hier. Het Diepere Kruis is wat Hem bezig houdt, waar Hij van houdt. Hij heeft Zijn Kerk verworpen, roept zelfs niet meer vanuit de woestijn. Hij is de aarde ingetrokken, waar Hij hangt en zwijgt aan een dieper kruis.

20. Maar oh, zelfs dit laatste vlammetje zullen ze ook doven. Dan verdwijnen de wegen hier in het niets. Alles vaagt weg aan het einde van de dag. Het te doen zonder antwoord, zonder moed, zonder pad, is een groot kruis, maar toch een onzichtbaar pad. Hij is onzichtbaar. Niemand ziet Hem wanneer Hij door de straten gaat. Hij is onzichtbaar en Hij slaapt, als een slaapwandelaar. Hij weet de weg naar de kelders te vinden, om weer diep in de aarde te gaan, Zijn kerk vindende in een dieper kruis, Zijn bruid, een fles vol dronkenschap des Geestes. Ik heb Hem horen schreeuwen, en dan is het weer stil. Hij is dronken in de Geest en woest, door dit kruis, maar vindt Zijn Bruid, allen die Hem volgden. Zij zijn elkander tot troost.

21. In het diepste van de aarde, Hij hangt daar. Niets willende weten van troost of verlichting. Hij wil het kruis niet verliezen, oh doof Zijn kruis niet uit. Hij is op weg naar het kruis des geestes. Zij hebben Hem bedroefd, geschopt, uitgedoofd, en tegen Hem gezondigd. Hij leeft niet meer. Ja, God is dood. En weet je waarom ? Hebt gij niet de geest gedood ? God is er niet meer. Er is geen God. Je hebt gelijk, en weet je waarom ?

22. God spreekt niet meer, en bestaat niet meer. Er is geen God. Jullie hebben je doel bereikt. Het is maar een halve waarheid. God is een Paradox. Maar niet verder te trekken zou een zonde en een leugen zijn. Daarom volg ik het diepere kruis, ook in de Paradox. Het kruis der kinderen is zo groot. Er gebeurt zoveel, en zij begrijpen het niet. Zij zijn blind en doof voor zoveel dingen, worden heen en weer geblazen door zoveel winden.

23. De lijdende aan het diepste kruis spreekt niet meer, maar brengt een heel ander geluid voort, als het zingende geluid van een vlam. Natuurlijk is dit beeldspraak, en trouwens alles wat hierboven stond was beeldspraak. De stem van de zingende vlam is als een zingende kaars. Waarom denkt u dat ze zoveel lofprijzen ? Om dat vlammetje van het diepste kruis te doven natuurlijk. De lofprijsbeweging is een groot kruis voor de Heere, een grote last. De Pinksterbeweging is gemaskerd. Wij doen er daarom ook beter aan om verder te trekken na de Pinksterbeweging. Maar de ware profeet draagt ook het Pinksterlijke Kruis.

24. De afgodische orde uit het Oude Testament leeft nog gewoon voort : priesterlijk bloedvergiert. Ze vergeten dat ze die strijd geestelijk moeten voeren, en dan niet tegen onschuldigen, maar tegen de boze geesten in de hemelse gewesten. De Ware Leer rondom het bloed moet hersteld worden. Bloed is geestelijk geld, maar er moeten wel wetten van economie zijn, en die zijn er niet. Er is van bloed een markt gemaakt, en hierop heeft men het rechtswezen gebouwd, en zelfs het medisch circuit.

25. Zij stalen het laatste vlammetje uit ons hart, het laatste vonkje. Als zelfs de sieraden van ons kruis, de vruchten van ons lijden, worden gestolen, waar moeten we dan naartoe ? Dit is de plek genaamd de Prometheus, waar alles wat in ons groeit weer weg wordt gevreten. Het is een fokkerij. We moeten vruchten voortbrengen, en geloof maar niet dat we die zelf mogen opeten. Neen. Ze worden geplukt, en verkocht. We zijn slaven van een markt, een Marsiaanse markt.

26. Wat doen de Marsiaanse demonen precies als ze zo'n vonkje hebben gestolen.

27. Gladiators voor de oorlogen die zij voeren. In die oorlogen worden eieren gecreeerd, door de wisselwerkingen van energieën. Ook om die eieren wordt weer gestreden. Het gaat om een galactische, universele fokkerij. In die fokkerij zijn er vele dimensies waarin strijd plaatsvindt. De bazen van die fokkerij hebben die strijd zelf opgezet als een arena. Dit is het principe van de fokkerij. Er is altijd weer baas boven baas. Moe kun je ervan worden. Dit hoort allemaal bij de Territoriale Oorlogsvoering : het ontmaskeren van de bazen boven de bazen, en zo een weg te vechten trede voor trede. Dat is de bediening der richteren, rechters, oftewel de Territoriaten.

28. Territoriaten zijn de Gladiators van Gods Volk. Zij zorgen voor nieuwe doorbraken en nieuwe doorgangen. Hierbij vertrouwen ze niemand : geen man, geen vrouw, geen beest, en zelfs hun eigen broeders en zusters niet. Niemand is te vertrouwen ! Hier is bedrog op bedrog. Het enige wat zij vertrouwen is hun zwaard.

29. Het zijn geen slijmerds die feestjes aflopen om mensen te behagen, of vrouwtjes om hun vingers te binden. Het zijn geen patsers die als pronkhanen de gemeentes langsgaan om hun krachten te vertonen, hun profetische gaven, hun gaven van genezing, het laten vallen of lachen in de geest. Maar als God hen roept, dan gaan ze, en dan spreken ze het woord van scheuring. Ze komen niet om vrede te brengen, maar het zwaard. Ze ziften de kudde.

die aandacht los te komen, om te komen tot Hem die niet hoort, tot Hem die niet spreekt, tot het diepste kruis. En ook de Territoriaat zal zien dat zijn laatste vonkje wordt weggenomen, en dat hij daar staat, naakt en wapenloos, als een prooi voor demonen. De Heere heeft het over verslondenheid. Zonder die verslondenheid kunnen we niet tot Hem komen. We zullen oorlogen gaan verliezen, maar wat dan nog ? Het brengt ons tot Hem, tot die verborgen putten waarin Hij opgesloten zit. Territoriaten zijn geen protserige overwinnaars die overal hun krachten demonstreren. Neen. Het zijn geen kampioenen. Ze dragen het kruis. Ze strijden door het lijden. Hun wapen is een kruis, hun schild een grafsteen, en hun pantser een spotgewaad. Zij zijn dwazen voor de Heer.

Inaput

1.

1. Het cryptische kan grote boodschappen dragen, kan bescherming bieden op grootse wijze, en kan er voor zorgen dat iets ook daadwerkelijk zijn doel bereikt. Als iets te openlijk en te direkt wordt gebracht verliest het vaak op den duur zijn kracht en wordt het onderweg aangevreten. Door cryptiek kunnen wij namelijk alles omsmelten om het voor ons bruikbaar te maken. Dit wordt ook wel de Faraatse bediening genoemd, als een soort van apostolisch verlengstuk. Beseffen wij dat de wereld om ons heen vol is met de cryptische tongen des Heeren ? De vertaling gaat ineens veel dieper en maakt grotere en moeilijkere sprongen. Dit wekt dan ook weer nieuwe tongen van vuur op, maar als gemeente zijn wij er na al die eeuwen aan toe gekomen om verder te kijken dan onze neus lang is. Er veranderde namelijk niet veel in de wereld door al onze standpunten en kortzichtigheid. Is het niet tijd dat we al onze ideeën gaan herzien en doorvertalen ? Er is altijd weer een betekenis achter een betekenis. Dit is het mystieke, maar meer nog : het cryptische pad. Alle andere paden zullen doodlopen.

2. Op het mystieke pad kun je alleen maar kon sterven. Het Faraatse zwaard is een cryptisch zwaard. Dit opende een heel ander pad voor mij, namelijk het cryptische pad.

3. Er schuilt een wereld achter de hedendaagse tafereeltjes. Die tafereeltjes worden aangedreven door bepaalde cycli die telkens weer terugkomen. We kunnen diep geschokt blijven over alles wat we zien, maar we kunnen ook alle fragmenten van elkaar losscheuren en gaan puzzelen. Het zijn boodschappen van een andere wereld.

4. Symboliek heeft zo zijn wetten, en ook de allegorie, maar cryptiek maakt daar korte metten mee, als een soort van heilige losbandigheid. Niets is wat het lijkt. O ja, je kan doorgaan in een pure materiele beschouwing van de Schrift, maar God is niet van de materiele orde. God is enorm door de knieën gebogen, en heeft zich in allerlei vormen en bochten moeten wringen om ons te kunnen bereiken. In de cryptiek kunnen we uiteindelijk volwassen worden en met Hem verbonden worden.

5. Laten we bedenken dat de cryptische bediening een oven is waar de vlammen heter en hoger branden dan al het voorgaande wat God ons heeft gegeven. Het mystieke pad loopt dood. Zijn we ervoor om ons hele leven naar opgepoetst fruit te blijven kijken ? Bijt er eens in. Het mystieke pad komt tegemoet aan een enorme leegte en onkunde om door de muren heen te breken, maar later kom je erachter dat je ook in deze cocon moest sterven, en moest uitreiken naar iets groters. In de cryptiek duizelt het helemaal voor je ogen. Je wereld lijkt om te draaien, als een grote bevrijding, als een grote uittocht. De cryptiek is de overtreffende trap van mystiek, als stap twee in Gods

bevrijdingsplan. Zijn Woord is een Pad, geen meubiliair. In de cryptiek kunnen weer een heleboel dingen die anders niet konden. Er worden als het ware deuren geopend.

6. Zoals eerder gezegd : De cryptiek is een diepere smeltoven, waar diepere transformatie in kan plaatsvinden, zodat nu ook de echt gevaarlijke dingen binnengebracht kunnen worden om betekenis te krijgen. Maar de cryptische deuren worden alleen geopend door het kruis. Zij die het kruis niet willen dragen, en ook niet het kruis van anderen zullen die cryptiek nooit begrijpen. Het kruis en de cryptiek zijn onlosmakelijk met elkaar verbonden. Zij die het verstand tot God hebben gemaakt zullen ook niet veel van die cryptiek begrijpen. De doornenkroon is een beeld van een ieder die z'n verstand heeft laten doorboren voor het aangezicht van God. De cryptiek kent hele andere wetten dan het verstand. De Bijbel zegt dat het verstand verduisterd is door de zonde. Hoe denkt u dit verstand te reinigen ? Hoe denkt u dit verstand weer helder te maken ? Door uw verstand ? Dat zou een doodlopende weg zijn, want hoe kan een blinde een blinde geleiden. Hoe kan een misleider je op het juiste pad brengen ? Het verstand wordt door de Bijbel aangetekend als één van de hoogste vormen van misleiding. Het verstand is overgeaccentueerd, juist door het verstand. Zij die hun hart willen laten spreken kunnen daarom in conflict komen met het verstand, wat zich soms uit in een soort hoofdpijn. Dit kan erg vermoeiend zijn. Ook mystiek kan erg vermoeiend zijn : Op zoek naar de symboliek, wanhopig zoeken naar een vertaling, iets waar we een onderkomen en een beschutting in hebben. We kunnen ons mystiek gaan kleden en heel geheimzinnig gaan doen, maar wat schieten we er mee op ? Wat is nou precies het doel van al die mystiek ? Is het nu werkelijk de bedoeling dat we ons zoveel mogelijk afzonderen en dat we overal een diepere betekenis achter zoeken ? Is het allemaal niet veel simpeler ? Ja, ook in de mystiek kan het verstand om het hoekje komen kijken, en zodra we dat proces doorhebben zal het verstand ons in vermommingen bezoeken. We proberen te mediteren, storten ons misschien op poezie, of worden rebels. God laat een kruis zien. Het is een bijzonder kruis, want het staat in brand en er hangt een doornenkroon boven. De mystiek wordt nog veelal door het verstand geleid, en is nog vaak om indruk te maken en een plaats te hebben in de maatschappij. Velen zien de mystiek als een icoon. Het verstand heeft de puzzel verkeerd gelegd, en daarom is het plaatje ook zo verschrikkelijk. Daarom is het belangrijk om de doornenkroon te vragen.

7. De cryptiek is een vuur wat dieper van binnen komt. Het is uitgezonden om de hedendaagse apostolische canon en mystieke canon, oftewel de grenzen en de wetten van vertaling en symboliek te verbreken. Als het apostolische niet overgaat in het faraatse, het cryptische, dan zal de apostolische weg daarmee doodlopen. Met de Apostolische Bediening zijn we er nog niet. Een vertaler of een mystiekeling kan nog heel erg materieel leven, afkerig van armoe. Een mystiekeling kan voor velen nog best te volgen zijn, maar een cryptisch iemand is meer dan raadselachtig. Een cryptisch iemand staat niet onder de wet, niet boven de wet, maar heeft helemaal niets met de wet te maken. Hij leeft door Gods Geest en kent Zijn paradoxen : Niet door het vlees, maar door de Geest. Zo boort hij vele geheime bronnen aan. Dit is als het ware het delirium van de profeten. Profeten die op het pad van mystiek zijn vastgegroeid, moe zijn geworden, en misschien wel wanhopig zijn, zullen in de cryptiek weer tot leven komen.

8. God is een cryptische God. Hoe vaak is Hij niet gekruisigd aan het materiele, in een hok gestopt : Dit is uw God, die u verlost heeft. Is God een gouden kalf ? Dan zouden we weer het verstand aanhangen, want die houdt zich veelal aan de materiele wetten. Hiermee zullen we nooit ver komen. Oh, hoe lang draaien we al wel niet in hetzelfde cirkeltje rond, zonder te veranderen. De wereld ziet evangelisten die alles van Christus weten, die altijd weer met dezelfde verhalen komen, en het komt

God de neus uit. Zij prediken een materiele Christus, een materiele boodschap, maar God is toe aan cryptische evangelisten die de kloppende levende boodschap brengen. Het is tijd dat de wereld wakkergeschud wordt, maar dat gaat niet door een geschiedenisboek. De Geest moet het Woord levend maken, laten spreken, laten baren, laten groeien. De Mammon is tot ons gekomen in vele vermommingen. Het materialisme komt in vele graden. Materiele evangelisten houden Christus gevangen. Maar zij blijven die boodschap aan ons opdienen totdat het volledig vertaald is.

9. De tweede Christus is de boom van armoe, de heilige Karmat, die de goddelijke gebondenheid is. Blijf niet alleen met uw eerste Christus, want Zurastael zal u slaan.

10. Ik heb overwonnen de honden van de valse Christus. En Ramonde, de moeder van liefde nam de zorg over mij. Ze nam mij op en bracht me naar haar huis, ja, de Karazuur is over haar. Wie kent haar bossen, wie kan haar wildernissen doordringen. Ja, deze honden braken me, maar zij nam de zorg over me, mij voedende, zoals ze roofdieren voedde. En vekeb zullen komen aan het einde der dagen om het mysterie te zien. Ze zullen er op hun knieën naar zoeken.

11. Hoor dan de roep van Ramonde, en help haar, troost haar hart, want zij is uw moeder. En de karsuiken zullen over haar zijn, zeven bij zeven. Luister dan naar haar roep, en leef.

12. En ze nam dan de zorg over mij voor zeven dagen en zeven nachten en onderwees mij over de vogels van haar bossen. En haar roep gaat nog steeds uit in de nachten, zoekende naar haar kinderen.

13. Zij is dan de moeder van velen, haar tepels openende hun longen en de stralen van zuurstof. Zij blijven veilig dichtbij haar borsten.

14. Zij is de raaf van de tijden van zo lang geleden dat ze uit het zicht zijn. Luister dan naar haar stromen van wijn. Kom tot haar wiel en altaar. Zij is de moeder van alle wijn, ja, de faraten zijn over haar.

15. Zij was een eenzame ziel in haar huis van ratten waar ze was gevangen door de zonde der mensheid in de tijden van het oude. En langs de hondenhaag kon ze de karazuur voeden, maar ze kon nooit vluchten. De ratten waren over haar, en hielden haar gebonden aan kettingen en wielen, en ze maakten haar werkende en lopende. Maar de karazuur was op een dag sterk genoeg om haar te bevrijden, wat haar mysterie is.

16. Drie engelen waren geplaatst over de bosrivier van Ramonde. Zij zijn Ramonde, Sarsia en Davinde.

17. Ken dan het mysterie van Davinde. Zij was opgesloten in een kooi door de rovers voor wie ze moest werken. Maar toen ze sliepen nam ze genezende zalf uit hun wonden waardoor haar genezende gaven begonnen te groeien. Op een dag kon ze zichzelf bevrijden en Ramonde nam de zorg over haar. Ramonde is dan geprezen in alle eeuwigheden. Zij is dan ook onze Heere die een engel werd.

18. En ze nam dan Davinde naar een schuilplaats waar ze veilig was, en Ramonde ging in de nacht

naar de drie rovers en onthoofde hen. Hun hoofden zullen een verschrikking zijn in alle eeuwigheden.

19. En dit is waarom zelfs Sarsia de Grote als dood viel aan haar voeten, en haar voeten zijn de wijnpers vergezeld door twee zwanen.

2.

1. Een jongen en een meisje wonen in een prachtig paradijs. Lirijn en Echte wonen in het paradijs Roggio van Metensia.

2. Op een dag voelt het meisje zich niet lekker, en trekt zich terug. De jongen begint haar na een tijdje te missen, en begint vrouwelijke eigenschappen te ontwikkelen. Hij vertrekt naar de rand van het paradijs, op zoek naar zijn eigen vrouwelijkheid, maar valt over de rand naar beneden, en krijgt te horen dat hij niet meer terugmag, omdat hij uit balans is.

3. Hij had zijn mannelijkheid met zijn vrouwelijkheid moeten balanceren, en niet zijn vrouwelijkheid laten overheersen. Het meisje is ontroostbaar als ze ontdekt dat de jongen vertrokken is, en begint door het woud te rennen

4. Nog steeds rent ze door het woud om haar geliefde te zoeken.

5. Ik rende achter Echte aan, en riep haar om te stoppen. Maar Echte hoorde mij niet en rende verder. Maar later kwam ze naar me toe en zei : 'Jij, jij, jij hebt me doen stoppen. Jij hebt mij tot rust gebracht.

6. Ik bad tot Echte. Het is de taak van iedere gelovige om Echte tot rust te brengen. Zij mist haar geliefde, de Afgedwaalde, de Verlorene, waarvan Lirijn het beeld is.

7. En zo zult gij bidden : Wie je ook bent, Echte, ik houd van je, en wil meer van je weten. Openbaar uzelf aan mij.

8. Echte, wij brengen uw hart tot rust. In uw tederheid zijn wij verborgen. Wij dragen uw kruis, en zeggen tot uw ziel : Waak op, en rust in de tederheid van de dag die door ons tot u komt. Weest gegroet en gezegend, nu wij in uw voetsporen wandelen. Ja, met u rennen wij, en met u komen wij tot rust.

9. Heilige Echte, wij komen tot u. Aanvaard ons in onze zonden en reinig ons. Wij buigen voor u neer, tot u die heilig zijt. Schenk ons de predictaatse gave en laat ons er zuiver mee omgaan. Wij zegenen u. Wees ons tot brug, opdat wij in uw kracht staan.

10. De predictaatse bediening, het geestelijk reizen, heeft als altaar het kruis van Echte.

11. Echte de vluchtende van het paradijs Roggio, het paradijs van Metensia, waar Echte haar man verloor die zijn vrouwelijke kant liet overheersen en daardoor door God weggenomen werd.

12. Echte, zijn geliefde, zoekt hem nog steeds, rennende door het paradijs.

13. Echte is het beeld van absolute verlorenheid, zoekende naar dat wat ze liefheeft om zorg te dragen en zorg te ontvangen. 14. Dit is het predictaatse altaar. Wij moeten allen reizen in de geest van Echte, om op zoek te gaan naar onze geliefde, dat wat verloren is gegaan.

15. Zo kunnen ook wij door ons gemis, en door het verlangen naar onze geliefden, geestelijk reizen, en zo het verlorene zoeken en vinden.

16. De predictaatse bediening is de motor van de territoriale oorlogsvoering.

17. Er zijn verschillende vormen van aanbidding waren, en de aanbidding moet verdeeld en gebalanceerd worden. Aanbidding is een vorm van respect en verbintenis, die voortkwam vanuit een stelsel van voorwaarden en regels. Zo is aanbidding een vorm van samenwerking, en van samenhang. Door het vlees mag niet aanbeden worden, maar door de Geest des te meer. Door de

Geest komen er steeds meer voorrechten bij.

18. In de aanbidding speelt Echte een grote rol, want aanbidding had alles te maken met geestelijk reizen.

19. In Roggio hadden Echte en Lirijn de eigenschappen van planten, bloemen, bomen en struiken.

20. Ik hield een zwaard vast, waaruit rood spul vloeide en daarna groen spul, om de hof te bevochtigen en vruchtbaar te maken. Daarna kwam Echte op mij af en gaf mij een vrucht. Dit was een verborgen vrucht. Ik at ervan. Toen zei Echte tot mij : 'Wie van de verborgen vruchten van het paradijs eet, zal tot nog meer verborgenheden komen, en van paradijs tot paradijs, die in de oudheid verdwenen zijn.' Toen vertelde ze mij van een gelijkenis waarin God telkens weer lieden zendt tot de aarde om de aarde wakker te schudden. Maar telkens worden deze lieden van de hemel teruggezonden of vermoord. Er zijn vaker kruisigingen geweest, ook voor het ontstaan van de huidige schepping. En Echte wilde mij die oude kruizen laten zien, want ze waren belangrijk voor de verdere voortgang, en voor het overwinnen van de canon.

21. Weer gaf Echte mij een vrucht, en ik at weer. Het leek wel alsof ik door de vruchten ontwaakte, en ik had een licht gevoel in mijn borst. Toen wees Echte op mijn tepel, en sprak : 'De tepel is de vertegenwoordiger van de canon.' En ze scheurde de tepel van mijn lichaam af, terwijl er een andere soort tepel op mijn lichaam begon te groeien. De tepel gloeide als de zon en was als de golven van de zee. De tepel begon te groeien en te groeien, en Echte zei dat ik veel van de verborgen vruchten moest eten. Ze wees mij de bomen van het paradijs aan. Ze zei mij dat die bomen hele oude kruizen waren, en dat door de vruchten daarvan te eten ik geestelijk zou kunnen reizen. Ik viel voor de voeten van Echte neer, en wilde haar aanbidden, omdat ze zo heilig en rein was, en straalde als een engel of als god. Maar Echte zei : 'Aanbidt God, aanbidt zijn Geest. De wezens van God waren nederig waren, en alleen in noodzaak richten ze de aandacht op henzelf. Ik kon mij niet inhouden, en bleef Echte prijzen. Maar toen begon Echte weg te rennen. 'Ga niet weg,' zei ik, en ik merkte dat ik Echte troost begon te geven in zijn hart, en ik sprak tot haar geest, biddende. Voorzichtig ervoer ik weer contact met haar, en langzaam kwam haar ziel dichterbij, maar ze was als water nu, niet meer zoals ze eerst was. 'Wat heb ik gedaan,' zei ik bevend. 'Het is niet erg,' zei Echte, 'maar dit gebeurt er als mensenkinderen de hemelse realiteiten overmatig aanbidden. Het is goed om eerst troost en genezing te brengen tot ons, en daarna pas dankzegging en lof. Wij zijn veel te fragiel voor overvloedige adoratie, oftewel aanbidding. Breng je aanbidding in eerste plaats tot de Almacht van God en Zijn Geest. En ook als je tot Hem komt, balanceer dan alles met het brengen van Troost, Hulp en Genezing. Vraag Hem niet alleen maar dingen voor je te doen, maar doe ook dingen voor Hem. Hij heeft ook jouw hulp nodig. Ook Hij hangt aan het kruis wat de mensheid voor Hem gebouwd heeft. Dit kruis gaat veel dieper dan wat ze vertellen. Dat kruis kun je alleen ontdekken in je hart.'

22. Toen begon ik gebeden van troost en genezing tot Echte op te zenden, en langzaam werd het water waarin ze verscheen tot een vaste gestalte. En ineens voelde ik haar hand weer op mijn hand. 'Betekent het nu echt dat er een volgorde is van eerst Gods Geesten, dan Zijn engelen en dan Zijn heiligen ?' vroeg ik. 'In sommige opzichten wel,' zei Echte, 'maar het wil niet per definitie zeggen dat een Geest van God hoger is dan een engel of een heilige, of dat een engel hoger is dan een heilige. Denk aan Christus die mens werd en heilige, en denk aan de vele engelen die Hem daarin gevolgd zijn. Er zijn verborgenheden die je dient te ontdekken. God doet niet zozeer aan rangen, want de laatste en laagste rang is vaak ook de hoogste. Er zijn geestelijke wetten waar rekening mee gehouden moeten worden. Vaak hebben die hoge wezens opdracht om in een tussenlaag of onderlaag te incarneren, oftewel geboren te worden. Zo kan een kind dus de moeder zijn van zijn moeder, en de vader zijn van zijn vader.'

3.

1. En de vruchten van Roggio waren als verhalen. En Echte begon ze aan te reiken, terwijl ze vertelde :

2. En als eerste vertelde ze het verhaal genoemd Het Vogelbalkonnetje. En ze gaf de bijbehorende vrucht.

3. En Echte sprak : Er was eens een koning die een dochtertje had. Omdat hij niet wilde dat ze een verwend prinsesje zou worden liet hij haar opgroeien in een donkere diepe keuken om mee te helpen de grote beesten onder de grond te voeren. Maar het meisje verveelde zich vaak, en had het vaak koud. Op een dag klom het meisje door een buis boven het fornuis naar boven, en kwam boven op het kasteel terecht. Ze sloop door een torenraampje naar binnen, en zag daar een oude vrouw zitten achter een spinnenwiel en een weefraam. De oude vrouw zei dat ze weleens wat anders wilde, en het meisje vertelde haar over het keukentje. Ook het meisje wilde weleens wat anders en ze besloten van plaats te ruilen. Het oude vrouwtje klom door de lange buis naar het keukentje toe. Na een aantal dagen kwam het oude vrouwtje terug en vertelde het meisje dat ze het zo naar haar zin had in het keukentje en dat ze het meisje er zo dankbaar voor was dat ze het meisje een sieraad gaf. ‘Als je erover wrijft, dan verander je in een vogel,’ zei het oude vrouwtje. Het oude vrouwtje ging weer terug naar het keukentje, en het meisje wreef over het sieraad om in een vogel te veranderen. Het meisje wilde altijd al vliegen, en ze vloog over de zee en terug. Na een tijdje vloog ze door de lange buis om het oude vrouwtje te bezoeken.

4. Het meisje had eigenlijk nog nooit de grote beesten gezien. Ze moest vroeger alleen koken en het voedsel door een raampje schuiven. Maar nu was ze klein genoeg om zelf door het raampje heen te gaan. Hier kwam ze op een klein balkonnetje waar een heleboel andere vogels waren, groten en kleinen. In de verte waren de grote beesten, waar de vogels altijd het voedsel naartoe brachten. Dan moesten ze eerst over een heel diep en groot ravijn vliegen, want de beesten waren op een soort eiland. Nu kon het meisje zelf eens wat voedsel naar de beesten brengen. Ze kreeg een mandje mee, dat ze in haar snavel kon houden. In het mandje waren wat appels, wat druiven, en wat pastei. Om alles te bedekken werd er een doek overheen geschoven. Het meisje keek haar ogen uit. Na een tijdje ging ze weer terug. In het torenkamertje lag nog steeds het sieraad. Even wreef ze er met haar vleugel overheen, en veranderde weer in een gewoon meisje.

5. Op een dag wilde de koning haar zien, en het meisje nam haar sieraad mee. Het meisje vertelde alles wat ze had meegemaakt aan haar vader, en over haar liefde voor de grote beesten. De koning pinkte een traantje weg, en sprak : ‘Die grote beesten zijn jouw eigen broers. Een boze heks heeft hen eens betoverd.’ En toen vertelde het meisje over het sieraad waarmee ze in een vogel kon veranderen. Zo zouden de grote beesten ook in vogels veranderen als het sieraad over hen heengewreven zou worden. De koning vond het een goed idee, en het meisje wreef even over het sieraad heen, veranderde in een vogel en nam het sieraad mee naar het vogelbalkonnetje. Met het sieraad vloog ze heel dicht naar de grote beesten toe, en wreef met het sieraad over hun huiden heen. Direkt veranderden ze in vogels, en in een grote zwerm vlogen ze terug over het grote ravijn heen. De koning was erg blij toen hij de vogels zag, maar het waren nog steeds geen prinsen. ‘Oh, maar dat is heel eenvoudig, vader,’ zei het meisje dat inmiddels weer een meisje was geworden. Ik wrijf gewoon nu de vogels met het sieraad. Kort daarna stonden er een heleboel prinsen voor de koning. De koning omhelsde ze één voor één, en ook het meisje viel haar broers één voor één in de armen.

4.

1. En toen begon ze het volgende verhaal te vertellen, en reikte de bijbehorende vrucht aan. En ik at van haar. En zij sprak : 'Zie dan. Dit is mijn lichaam.' En ze begon te huilen, en ik trooste haar.

2. En toen sprak ze : Het Wonderpaard. Er was eens een meisje dat altijd hele nare karweitjes moest doen van haar stiefmoeder. Haar echte moeder was al heel lang geleden overleden, en die had ze eigenlijk nooit gekend. Vaak wilde ze dat haar echte moeder nog zou leven. Veel tijd om te slapen kreeg ze niet, en ze moest altijd haastig eten, want er was veel werk te doen. Op een dag was het meisje het zo beu, en ze was zo moe dat ze het bos inrende. Al gauw verdwaalde ze, en ze was zelfs een beetje bij dat ze verdwaald was, want eigenlijk wilde ze helemaal niet meer naar huis.

3. Na een tijdje lopen kwam ze aan bij een tafeltje. Dat was erg vreemd zo in het bos. Het tafeltje was mooi versierd met wat randjes, en op de tafel stond een bak met brood. Het meisje ging op één van de hoge stoelen zitten, en begon van het brood te eten. Na een tijdje kwamen er wat haasjes aan, en een kikker. De haasjes waren in verschillende kleuren. Eén haasje was roze, een andere paars en weer een andere was groen. Naast het meisje zat een wat grotere witte haas.

4. 'Wie moet er wat thee ?' riep één van de haasjes.

5. 'Nou, ik lust wel wat thee,' zei het meisje.

6. 'Nee, jij niet,' zei het haasje. Het was het groene haasje.

7. 'En waarom niet ?' vroeg het meisje.

8. 'Omdat jij hier pas nieuw bent,' zei het groene haasje.

9. 'Ach, let maar niet op hem,' zei het roze haasje, 'hij doet wel vaker vervelend, en het is een mopperpot, net als het paarse haasje.' Ook het paarse haasje begon wat te brommen, maar niemand kon het verstaan. Het paarse haasje keek het meisje al een hele tijd erg boos aan. Even later schonk het roze haasje wat thee in voor het meisje, en zei : 'Als je een keer bij mij op bezoek komt, dan krijg je roze thee of elventhee.' Het meisje keek het roze haasje vriendelijk aan, alsof ze wilde zeggen : 'Ja, graag.'

10. 'Dank u wel,' zei ze tegen het roze haasje.

11. 'Oh, je mag ook wel bij me blijven logeren, hoor, dat is nog leuker dan bezoek, en dan kunnen we ook de andere haasjes eens samen bezoeken,' zei het roze haasje.

12. Dat leek het meisje wel leuk.

13. Maar toen zei het paarse haasje : 'Niemand komt ooit bij mij op bezoek. Ik woon veel te ver weg, helemaal achter de bergen bij de zee.'

14. 'Oh, maar ik heb een wonderpaard,' zei het roze haasje, 'we komen je vast wel een keer opzoeken.'

15. 'Oh ja ?' zei het meisje, 'oh ik ben dol op paarden.' Het paarse haasje keek even niet meer zo boos naar het meisje.
16. 'En ik dan ?' zei het groene haasje. 'Ik woon over de zee. Kan dat wonderpaard daar ook komen ?'
17. 'Ja hoor,' zei het roze haasje vriendelijk. Het witte haasje dat iets groter was had al een hele tijd niets gezegd, en huppelde plotseling weg. Na een tijdje kwam het wonderpaard eraan. Het wonderpaard had vleugels en kon vliegen. 'Stap er maar op,' zei het roze haasje, 'dan gaan we naar mijn torenkamertje, heel hoog in het paleis van de koning.'
18. 'De koning ?' vroeg het meisje. 'Maar welke koning ?'
19. 'Oh, koning Griebelgrutjes,' zei het roze haasje.
20. 'Wie is dat nu dan weer ?' vroeg het meisje.
21. 'Nou, de koning van het hazenland,' zei het roze haasje, 'en tegelijk de opperkok van de elventhee. Hij moet de thee altijd eerst proeven voordat het opgediend mag worden.'
22. 'Oh,' zei het meisje, 'dat wist ik niet.'
23. 'Maar wat doet die kikker hier dan ?' vroeg het meisje weer.
24. 'Oh, de kikker zorgt altijd voor de tafels,' zei het roze haasje. Toen ze beiden op het paard zaten steeg het op en bracht hen helemaal tot in het hoogste torentje van het koninklijk paleis. Dat was wel even een eindje vliegen, maar hier hadden ze dan een prachtig uitzicht over het land. Ze konden vanaf hier de bergen zien, en zelfs de achterliggende duinen en de zee. Ook konden ze hiervandaan goed het bos bezichtigen.
25. Er waren een paar torenkamertjes, en in één kamertje mocht het meisje logeren. In een ander kamertje dronken ze samen thee, roze thee, en elf-thee. Het meisje vond de thee erg lekker, vooral de elf-thee. Door de trap naar beneden te gaan, kon het meisje ook bij de koning op bezoek, en een verdieping lager was de keuken. De koning zelf ging niet zo vaak naar de keuken. Voornamelijk hield hij zich bezig met het regeren van het land. Maar soms moest hij toch echt naar de keuken om de nieuwe soorten elf-thee te proeven. Telkens kwamen er weer nieuwe soorten bij.
26. Op een dag gingen ze met het wonderpaard naar het land van otters en hermelijnen. Dat was een groot land met bossen en rivieren. In het land van otters en hermelijnen stond ergens een hele grote elventafel, waar volop elventhee werd gedronken. Nog nooit had het meisje zoveel otters en hermelijnen bij elkaar gezien, en ze waren allemaal even vriendelijk. Er waren hier zoveel soorten elventhee waar zelfs de koning niets van wist. Ze hadden hier een keuken die wel duizendmaal groter was dan de keuken van de koning. Eén zaal van de keuken was als een kerkzaal. Zo'n grote keuken had het meisje nog nooit gezien. Overal liepen bedienden rond met grote schalen. Heel in de verte zat een lange witte haas op een stoel met hele lange poten. De witte haas had het overzicht

over de zaal. Na een tijdje werd er een enorm lange tafel naar binnen geschoven, en de bedienden begonnen de schalen op de tafel te zetten. Toen de schalen geopend werden schrok het meisje heel erg, want er kwam zoveel rook vanaf dat het vuur leek. Na een tijdje zag het meisje dat het van binnen schelpen waren. Maar niemand at van de schalen. Het meisje vroeg zich af waarom er niet werd gegeten. Maar na een tijdje liep het wonderpaard naar voren en begon van schaal na schaal te eten. Alle bedienden die aan de zijkant stonden klaptten in hun handen. Het roze haasje glimlachte. 'Dat doen ze altijd als het wonderpaard hier is. Ze zijn dol op hem.'

27. Na een tijdje kwamen er ook andere paarden binnen die van de schalen begonnen te eten. Toen alles was opgegeten kwam er een kikker binnen die de tafels begon op te ruimen. En even later haalden de bedienden de lange tafels weer weg.

28. 'Zo, kies maar een paard uit,' zei het roze haasje, 'dan gaan we een stukje wandelen. Het wonderpaard moet nu rusten.' Het meisje koos een wit paard met vlekjes uit en wat roze strikjes, en ook het roze haasje koos een paard uit, en toen gingen ze een stukje paardrijden door het bos van het land van otters en hermelijnen.

29. Ze kwamen langs vele huisjes waar boeren en boerinnen woonden met heel veel vee, zoals paarden, koeien, varkens, geiten en nog veel meer. Na een tijdje waren ze zo ver gekomen, en om wat bergen heen gegaan, dat het roze haasje vond dat ze best wel even op bezoek konden gaan bij de paarse haas aan zee. De paarse haas woonde in een woonboot, aan een riviertje dat in de zee uitliep. Alles was hier erg klein, en na een tijdje kreeg het meisje het erg benauwd. 'Dat je hier kunt wonen,' zei het meisje. Maar dat schoot bij het paarse haasje in het verkeerde keelgat. 'Nou, dan kom je toch gewoon niet?' riep het paarse haasje boos. Niet lang daarna stonden het meisje en het roze haasje op straat. Het paarse haasje had hen eruit gezet. Maar het roze haasje klopte weer op het deurtje van de woonboot en riep toen door het raampje: 'Ach, zus, laten we nu geen ruzie maken. Laten we gewoon wat spelletjes doen. Kaarten ofzo.' Na een lange tijd deed het paarse haasje het raampje eindelijk open, en zei slaperig: 'huh? Oh ik ben vast in slaap gevallen. Ja, laten we dan maar een spelletje doen.'

30. Maar het spelletje liep helemaal verkeerd af. Het paarse haasje verloor telkens elk spelletje kaart, en begon steeds meer te mopperen. Ook toen ze wat bordspelletjes gingen spelen werd het er niet beter op, en na een tijdje gooide het paarse haasje het speelbord boos om, terwijl alle pionnetjes op de grond vielen.

31. 'Ach zus,' zei het roze haasje, 'het is toch maar een spelletje?'

32. 'Spelletje, spelletje?' zei het paarse haasje. 'Ik verlies telkens. Dat noem ik geen spelletje.' Maar na een tijdje viel het paarse haasje weer in slaap.

33. Het was maar een klein stukje lopen naar de zee, en het roze haasje en het meisje besloten nog even wat te gaan zwemmen, maar een grote golf nam hen mee, en al gauw waren ze op de open zee. De golf nam hen zo ver mee, dat ze uiteindelijk maar besloten door te zwemmen naar het groene haasje dat achter de zee woonde. Maar het leek wel alsof ze er nooit kwamen, en na een tijdje begonnen ze allebei erg moe en duizelig te worden. Het meisje begon al weg te zakken, en niet lang daarna het roze haasje ook. Maar ineens voelden ze wat onder hen komen. Het was het

wonderpaard, en toen ze op z'n rug zaten steeg hij op uit het water. Snel nam hij hen mee naar de overkant waar het groene haasje woonde, maar toen ze bij zijn huisje kwamen was hij er niet. Toen besloten ze maar naar het bos te gaan. In het bos stond een hele grote draaimolen. En ja hoor, daar was het groene haasje aan het spelen. Achter de draaimolen stond een stal met een heleboel wonderpaarden.

34. 'Waarom heb je me dat nooit verteld dat je hier zoveel wonderpaarden hebt?' vroeg het roze haasje.

35. 'Gewoon,' zei het groene haasje, 'omdat je er nooit naar gevraagd hebt.' Het meisje keek haar ogen uit, en omdat ze met z'n drieën zo'n mooie dag beleefden mocht het meisje een wonderpaard helemaal voor haarzelf uitkiezen.

5.

1. En ik had Echte lief, en zij openbaarde zichzelf aan mij. En ik kwam tot haar door vele sluiers waarachter zij zich verborgen hield.

2. En toen gaf zij mij een andere vrucht, en sprak : Langbeentje.

3. Er was eens een indiaans meisje dat Langbeentje heette. Als ze verdrietig was dan groeiden haar benen altijd zo lang dat iedereen haar altijd zo noemde. Maar de koning vond het maar vreemd zo'n meisje in zijn koninkrijk te hebben, en toen ze wat ouder werd begon men steeds banger voor haar te worden. Daarom liet de koning haar op een dag opsluiten in een toren van het koninklijk kasteel. Natuurlijk was het meisje nu nog vaker verdrietig, en altijd groeiden haar benen dan helemaal door de tralies heen over de trappen naar beneden.

4. Op een dag was het meisje zo verdrietig dat haar benen helemaal het kasteel uitgroeiden. In een dorpje in de buurt zag een jongetje een schoen binnenkomen met een heel lang been. Hij besloot het been te volgen en kwam helemaal bij het kasteel van de koning terecht. Helemaal over de trappen volgde hij het been en kwam uiteindelijk bij de tralies terecht waarachter het meisje opgesloten zat. Het meisje was erg verdrietig, en hij probeerde haar te troosten. Ook ging hij naar de koning toe, en vroeg of het meisje weer uit het kasteel mocht, maar de koning wilde daar niets van weten. Het meisje zou veel te gevaarlijk zijn met die groeiende benen. Iedereen was bang voor haar.

5. Maar vanaf die dag was het jongetje zoveel mogelijk bij haar. Op een dag was er brand in de andere toren van het kasteel, waar het dochttertje van de koning woonde. Ze riep om hulp vanuit het torenraampje, maar niemand kon haar helpen, omdat de toren al bijna helemaal in brand stond. De koning was in rep en roer, en wist niet hoe hij zo'n groot vuur kon blussen. Maar snel ging het jongetje naar de koning, en zei dat Langbeentje wel kon helpen. Direkt liet de koning Langbeentje achter de tralies weghalen, maar ook Langbeentje kon niets tegen het vuur beginnen. Maar ze kon wel het dochttertje van de koning redden. Haar benen groeiden zo lang aan dat ze makkelijk in het torenkamertje kon komen door het raampje. Ze greep het dochttertje van de koning, en bracht haar snel uit de brandende toren.

6. Snel brandde het hele kasteel af, maar iedereen was veilig. De koning was zo blij en dankbaar dat Langbeentje een wens mocht doen. Langbeentje wenste dat ze gewoon weer in het land mocht wonen, in een huisje naast de koning en naast het jongetje. En zo ging niet alleen Langbeentje weer gewoon in een dorpje wonen, maar ook de koning en zijn hofhouding. En zo zijn ze altijd naast elkaar blijven wonen.

6.

1. Maar toen zij de verhalen had verteld, begonnen de vruchten te branden, en ook mijn mond begon te branden. En Echte sprak : 'Vreest niet, geliefde, want dit zal uw mond zuiveren, en gij zult reine woorden spreken van grote kracht. En mijn handen begonnen te branden, en ik begon te rennen als Echte.
2. En Roggio begon te branden, en de Geest des Heeren daalde op haar neer.

7.

1. Morit werd uit het paradijs van Santra ontvoerd door de honden van Okil. Onze geestesdelen en zielendelen worden ook vaak zonder het te weten geestelijk ontvoerd door demonen. Als wij dit onder ogen komen en leren beseffen dat we door ontvoering de geestelijke wereld leren kennen en verkennen, dan wordt het kruis van Morit, het hertenkind, tot een prachtig Excarnaats Altaar. In vele schoten worden we herboren, om los te raken uit de gevangenissen van het vlees, de incarnaties.
2. Heilige Morit, weest gegroet. Wij zegenen u en spreken genezing uit over u in uw tranen. Wij banen de weg voor u, en stellen ons voor u op als uw vruchtbaarheid. Weest geheiligd en komt over ons, wij die uw bruggen zijn.
3. Heilige Sarsia, wij branden onze vlam voor u. U die ons heeft gered uit de diepste groeven. Weest gezegend, en weest getroost. Wij staan met u, krachtig, dragende uw wapenen. Leer ons te bidden en strijden in uw naam. Leer ons te overwinnen en ons kruis te dragen, ja, ook uw kruis dragen wij. Leer ons het pad van armoe te bewandelen, en leid ons op de eeuwige weg. Onze vreugde is u te volgen, in al uw voetstappen, oh Heilige Sarsia door God bemint. Waak over ons en geef ons vrede in alle dingen. Behoed onze gedachten in u, en zegen onze gevoelens.
4. Ramonde, groot is uw naam. U die ons schiep en onze voeten zette op de rots der hemelen, geprezen zij uw naam, gij die onze gebeden tot God draagt. Gij hebt onze voeten stevig en vast gemaakt op de heilige berg, en gij hebt ons ten hemel laten varen op uw wolken, opdat wij een plaats zouden hebben in de naam boven alle namen. Gij strijdt voor ons. Gij helpt ons. Leer ons zo te strijden en te helpen als goede soldaten brengende het eeuwig woord van heil en zegen. Laat ons niet in de steek, en leid ons niet in verzoeking, maar verlos ons van de boze, want van u is het koninkrijk, de kracht en heerlijkheid, Talgamen.
5. Ramonde geprezen zij uw naam, u die op de berg woont. Daal tot ons neder in vrede en richt onder ons geen slachting aan. Uw naam zij geprezen, wij aanbidden uw naam. Wij offeren u lof vanuit ons hart, terwijl onze lippen gesloten blijven, want in stilte hebt gij welbehagen, en in armoe. Leer ons zo over de weelderigheden der armoe, en leer ons van haar lusten. Wij hebben dan lust uw wil te doen, oh heilige naam boven alle naam. Gij dan die met Sarsia pleit voor onze zielen bij de hemelse vader : weest gezegend en geheiligd, gij die komen zal. Ja, op de wolken zult gij komen met uw legerscharen, en gij zult zien op uw heiland, en gij zult genade hebben voor hen die uw heiland volgen. Weest zo geheiligd oh vrouwe van het altaar, want genade van God is uw deel, Hij die u uit het slijk heeft opgeheven en bevrijd heeft uit het huis der ratten.
6. Davinde groot is uw trouw. Wij naderen tot u in vreze en beven, want gij hebt welgevallen in hen die uw woord vrezen. Hebt genade tot ons, en verwoest ons niet, want wij willen uw wil doen. Wij begaan de paden van uw woord, en wij brengen het woord van verzoening in u. Oh Davinde, hebt genade met ons volk, en verzoen ons opdat vrede van u ons zal leiden. Gij zijt de gezegende, en gij zult komen op uw paarden en winden om de aarde nieuw te maken. Ook zult gij uw schalen met plagen uitgieten over de boosdoeners en zult gij de heiligen hierdoor reinigen en afzonderen tot

dienst in uw heiligdommen. Schenk ons zo genezing, want vanuit uw wonden is er genezing. Talgamen.

7. Ramonde, zacht zijn uw lichten, hoog uw vuren. Gij zijt de brullende leeuw voor gods aangezicht, een geheimenis gods, geopenbaard wordende aan het einde der dagen. Pleit voor ons bij de hemelse vader, opdat het kwade ons niet zal innemen en overwinnen. Hebt medelijden met ons, en schenk ons een nieuw leven in u. Heilig onze gebeden, en brengt hen tot in de troonzaal des heeren voor zijn heilig altaar, opdat wij heilige dienst zullen verrichten voor zijn aangezicht. Wij zelf zijn dan de bewerkers van de gebeden in uw naam. Talgamen. Zo zij Ramonde geprezen tot in eeuwigheid. Lokogamen. Leer ons uw nieuwe lied, opdat wij in reinheid voor uw aangezicht komen. Geef ons dan de kracht en de genade om voor uw heilig aangezicht te verschijnen, en leer ons lust te hebben in uw gebeden. Heilige gebeden zijn het, om uw eeuwig offer te aanvaarden. Schenk ons uw geest, opdat wij u zullen vertroosten. Wij dan zijn op weg naar uw heilige land. Leer ons uw geschriften na te volgen en te ontdekken zoals het uw wil is. Leer ons elkaar te onderwijzen in uw naam, opdat uw heerlijkheid ons zal volgen tot in alle eeuwigheden. Leer ons van uw seizoenen, Talgamen.

8. Het Rad der Bedieningen zal de Heilige Kerk voortbrengen, de Bruid van Christus, en hun vrucht zal zijn : Karakter, en de Rode Strepen. Deze zullen vormen het Heilige Rad van de Hemelse Bedieningen, het Rad van de Identiteiten.

8.

1. Er was ook een Hof genaamd Rietel die aan Mura was gegeven om die te behoeden. Ook de hof Rietel had vele verborgen vruchten. In Rietel hadden de bewoners de eigenschappen van slangen. Dit was het verborgene van God, door de geschiedenis weggespoeld, verdwenen in de golven van de tijd.

2. En de vruchten van Rietel kwamen ook als verhalen : De Toverkaars. Er was eens een oud vrouwtje die een kaars had die zo bijzonder was, dat wanneer iemand in de vlam keek, dan zag hij mooie herinneringen terug, of zag waar zijn verloren spullen waren. Ook kon je in de vlam de toekomst bekijken, of dat wat er op een andere plek op de aardbol gebeurde. Het oud vrouwtje verdiende er haar geld mee, maar elk jaar werd de kaars steeds een beetje korter.

3. Toen de kaars na vele lange jaren helemaal was opgebrand was het vrouwtje heel verdrietig, want waar moest ze nu haar geld mee verdienen. Maar een arm jongetje dat altijd gratis in de vlam mocht kijken vroeg haar waar hij een tweede toverkaars voor haar kon vinden. 'Ach,' zei het vrouwtje, 'dan moet je daarvoor over de bergen heen, maar daar woont een wolf die de bergpas bewaakt. Als hij je te pakken krijgt, dan mag je uit drie dingen kiezen : in het ravijn geduwd te worden, opgegeten te worden, of levenslang opgesloten worden.'

4. Maar het arme jongetje ging toch voor het oude vrouwtje op pad. Bij de bergpas werd hij door de wolf gegrepen, en moest inderdaad uit die drie dingen kiezen. Toen koos het jongetje maar om opgesloten te worden, want dood wilde hij niet. De wolf had ook een vrouw, en die kwam de jongen iedere dag voedsel brengen. Na een tijdje kreeg de vrouw medelijden met de jongen en vroeg of ze iets voor hem kon doen.

5. De jongen vroeg of de vrouw van de wolf wanneer de wolf zou slapen zoveel mogelijk matrassen en kussens in het ravijn wilde gooien, en de volgende dag aan hem te vragen of de jongen voor het eerste mocht kiezen, in het ravijn geduwd te worden. De vrouw deed wat de jongen vroeg, en de volgende dag kwam de wolf de jongen ophalen om hem in het ravijn te werpen. Dat was snel

gedaan, en gelukkig viel de jongen zacht. Na een lange reis door grotten en inkepingen kwam de jongen aan de andere kant van de berg aan, waar hij al gauw de toverkaars vond. Maar nu moest hij nog terug.

6. Na een tijdje kwam hij de wolf weer tegen, en die zei : ‘Jou ken ik. In het ravijn heb ik je gegooid, en ik heb je ook al opgesloten, dus nu zal ik je opeten.’ Maar toen de wolf z’n bek opende gooide de jongen snel de kaars erin. ‘Maar wat is dat ?’ sprak de wolf. ‘Ik voel me ineens zo anders.’ De wolf was ineens heel vriendelijk, en wilde de jongen wel weer terugbrengen naar het oude vrouwtje. Toen het vrouwtje naar de kaars vroeg vertelde de jongen het verhaal. Maar de wolf leidde hen beiden naar een geheime grot vol met goudstukken en sieraden, zodat de jongen en het oude indiaanse vrouwtje nooit meer armoede hoefden te lijden.

9.

1. En de vruchten van Rietel waren bitter toen ik ze at.

2. En de vijf ouders des Heeren verschenen aan mij, genaamd : Uruk, Nanak, Koshau, Irim en Mirik.

3. Ik wist dat dit een heel belangrijk moment was.

4. En een vrucht werd aan mij geopenbaard, en toen ik at, veranderde mijn lichaam.

5. En een verhaal verscheen op de vrucht. En ik las : De Paradijselijke Boom. Er was eens een boom die zulke bijzondere vruchten had dat de mensen die ervan aten er heel blij en gelukkig van werden en alles schenen te vergeten. Maar omdat de boom steeds minder vruchten begon te geven begonnen de mensen erom te vechten. Op een dag besloot de koning van het land waar de boom stond de boom om te hakken. Maar aan de wortels van de omgehakte boom begonnen nieuwe vruchten te groeien, en dit keer besloten degenen die dat hadden ontdekt er niets over te zeggen tegen anderen. Het was maar een klein groepje die nu in het geheim van de vruchten aten, en niemand wist waarom ze altijd zo blij en gelukkig waren en alles schenen te vergeten. Maar op een dag ontdekte ook een andere groep dat er nog steeds vruchten aan de wortels groeiden, en er kwamen weer ruzies en gevechten. Dit keer had de koning een beter plan, en liet zijn paleis op de plek van de wortels bouwen. De hofhouding van de koning was de enige groep die nog van de vruchten kon eten. Maar er was één jongetje die van vroeger een pit had bewaard. Op een dag zaaide hij de pit in zijn tuin. Weer groeide er een boom met de bijzondere vruchten, en dit keer kon iedereen van de boom eten, zolang ze de jongen maar veel geld betaalden. De enigen die de vruchten gratis konden krijgen waren de duiven die in de boom woonden. Zo nu en dan brachten ze de vruchten naar verre landen, en daar werden de duiven als goddelijke boodschappers gezien vanwege de vruchten die zoveel plezier brachten. De vruchten door de duiven gebracht brachten dromen aan hen in de verre landen, en al gauw werd de boom van de vruchten een boom van het paradijs genoemd. Maar ook in de verre landen werd er om de vruchten gevochten, en al gauw werden de duiven zo verdrietig dat ze niet meer kwamen.

6. En Ramonde kwam tot haar broer, de vos Zurastael, en zij werd de godin der verbindingen.

7. En mij werd een nieuwe vrucht aangereikt. En ook op deze vrucht stond een verhaal geschreven. En ik las : De Bultjesboom.

8. Er was eens een vrouw die geen melkvoeding in haar borsten had, maar tranen. Haar kinderen groeiden op met vreemde bultjes op hun lichamen die zo prachtig waren dat ze allemaal koningen werden van het rijk. Als iemand hen vroeg hoe ze aan die prachtige bultjes en vlekjes kwamen, dan zeiden ze altijd dat dat door hun moeder kwam die tranen in haar borsten had. Op een dag vroegen de koningen aan hun moeder hoe het toch kwam dat haar borsten tranen gaven in plaats van melk.

‘Ach,’ zei hun moeder, ‘op een dag was ik verdwaald in het bos, en kwam bij een open plaats als een woestijn, waar een boom stond met prachtige vruchten. Sinds ik van die vruchten heb gegeten gaven mijn borsten tranen. ‘Maar moeder, u heeft geen bultjes en vlekjes,’ zeiden de koningen. 9. ‘Dat komt omdat ik nooit van de tranen heb gedronken,’ zei hun moeder. ‘En nu ben ik te oud om nog tranen te geven.’

10. ‘Maar kunt u ons dan vertellen waar die boom is?’ vroegen de koningen. Toen hun moeder het hun uitgelegd had gingen ze met z’n allen naar de boom toe. Toen ze van de vruchten begonnen te eten. Ze begrepen toen ineens dat hun rijk niet lang meer zou bestaan. Ze gingen terug naar het volk, en vertelden het slechte nieuws. Wel vertelden ze het volk over de boom met de vreemde vruchten. Velen gingen naar de boom om er ook van te eten, en de moeders gaven tranen aan hun kinderen in plaats van melk, en ook die kinderen kregen vreemde maar prachtige bultjes. Door het hele rijk werden nu zulke bomen geplant, en na een paar generaties had iedereen zulke prachtige vlekjes en bultjes. Niemand had nog een koning nodig. Iedereen zorgde voor zichzelf, en het rijk viel uit elkaar. Vandaaruit verspreidden degenen met de bultjes en de vlekjes zich over de gehele aarde.

10.

1. En ik nam een andere vrucht, en las : Het Rode Serum.

2. Er woonden eens drie zusters in een hof met prachtige verwilderde struiken en bomen. Naarmate ze ouder werden veranderden ze steeds meer in beelden gemaakt van pepermunt. Door de zon en de regen werden de beelden steeds kleiner, maar ze verloren hun prachtige vormen niet, omdat ze nog steeds een hart hadden. Dit hart was bedekt met prachtige paradijselijke rode zweren. Uit de zweren kwam een rood serum waar ze bezoekers van de hof mee genazen. De namen van de drie zusters waren Wanata, Munto en Munit.

3. En op weer een andere vrucht las ik : De Wonderveer.

4. Er was eens een man die een wonderveer probeerde te verkopen. Maar niemand wilde de veer kopen, omdat ze niet geloofden dat de veer wonderen zou kunnen doen. ‘Heus waar,’ sprak de koopman. ‘Degene die het geld geeft wat de veer waard is zal kunnen vliegen zolang hij de veer dichtbij zich houdt.’ Na een tijdje kwam er een goedgegelovig jongetje aan die de koopman het geld gaf. Toen hij de veer kreeg steeg hij op, terwijl iedereen verbaasd en verwonderd keek.

5. Elke dag vloog de jongen met zijn veer rond, en de mensen om hem heen begonnen steeds jaloers(er) te worden. Als de jongen sliep, dan hield hij de veer altijd stevig tegen hem aan. Maar op een dag was de veer verdwenen.

6. De jongen ging terug naar de koopman, maar die had geen tweede veer voor hem. Wel vertelde de koopman dat eens in de zoveel tijd een wondervogel in de nacht bij de zee zou komen. De jongen ging sindsdien vaak naar de zee, maar de wondervogel kwam maar niet. Toen de jongen wat ouder was besloot de jongen in een hutje bij de zee te gaan wonen, en stond elke dag op de uitkijk. Maar de vogel kwam niet.

7. De koopman had de jongen verteld waar de vogel woonde : op een eiland ver weg in de zee. Op een dag besloot de jongen naar dat eiland op zoek te gaan. Hij nam een bootje en ging de zee op. Oh, wat verlangde de jongen ernaar om eens weer te kunnen vliegen.

8. Toen het nacht werd viel de jongen in het bootje in slaap. Na een tijdje werd de jongen weer wakker van wat geklapper. Het bleek de wondervogel te zijn. De jongen schrok, zag een veer liggen op een plankje in zijn boot, terwijl de wondervogel ook schrok en weer wegvloog. De jongen greep de veer en kon weer vliegen. Snel vloog hij de vogel achterna en kwam op het wonder-eiland. Maar

voor de tweede keer werd zijn veer in de nacht gestolen terwijl hij sliep. Toen hij wakker werd en merkte dat hij zijn veer kwijt was en niet meer kon vliegen, zag hij een heleboel wondervogels hoog in de bomen zitten. De jongen begon aan een klimtocht, maar het leek wel alsof hij nooit bij de top van de boom aankwam.

9. Op een tak zat een klein mannetje. Het mannetje zei dat het jongetje alleen bij de top zou kunnen komen als hij een tover-hoofdband zou dragen. Maar het jongetje wist niet hoe hij aan een tover-hoofdband moest komen. Maar daar zou het mannetje wel voor zorgen. Alleen moest het jongetje beloven dat als hij bij de wondervogels was gekomen, dan moest hij ook een veer naar het mannetje brengen. En zo gebeurde het. Het jongetje kreeg de tover-hoofdband van het mannetje, en kon zo bij de toppen van de bomen komen waar de wondervogels waren. Met gemak had het jongetje een veer te pakken, en al heel gauw ook een tweede. Direct vloog hij naar het mannetje op de tak toe om hem een veer te geven, en vloog weer terug. Nu kon het mannetje ook vliegen.

10. Het jongetje vond het fijn om bij de wondervogels te zijn, maar op een nacht stalen ze zijn tover-hoofdband en zijn veer, en vertrokken om niet meer terug te komen. Nu kon het jongetje weer niet vliegen, en kon ook niet meer naar beneden. Oh ja, het jongetje probeerde wel om naar beneden te klimmen, maar het leek wel alsof hij nooit beneden kwam, hoe ver hij ook naar beneden klom. En het mannetje was ook nergens meer te bekennen. Wel kon het jongetje met gemak naar de toppen terugklimmen, en kon hij van de ene top naar de andere top springen.

11. Hij sprong helemaal naar de boom die het dichtste bij de zee stond, en sprong vanaf het topje in de zee. Maar de zee greep hem en bracht hem helemaal terug naar huis. Zijn kleren waren helemaal nat en verscheurd toen hij in zijn woonplaats terugkwam. Zijn hutje was weg, en daarom ging hij naar de plaats waar hij eens woonde.

12. Op een dag was er weer een koopman die een veer probeerde te verkopen. Volgens de koopman bezat de veer wonderlijke krachten, en kon de bezitter ermee vliegen. Nog voordat anderen de veer konden kopen kocht de jongen de veer. Maar de koopman bleek een bedrieger te zijn. De veer was maar een doodgewone veer. Verdrietig ging de jongen naar huis. Hij ging naar zijn bed en legde de veer op zijn nachtkastje. Al was de veer dan geen wonderveer, het deed hem wel herinneren aan de wonderveer, en elke keer voordat hij ging slapen keek hij er heel even naar. Zo lag de veer jaren en jaren op zijn nachtkastje totdat hij op een morgen wakker werd, en de veer was verruild voor een echte wonderveer. De jongen pakte de veer en was dolblij. Nu kon de jongen weer vliegen, maar naar het eiland van de wondervogels is de jongen niet meer gegaan. Ook vertrok hij uit zijn woonplaats, want hij wilde niet dat de veer nog een keer gestolen zou worden. Waar de jongen naartoe is gegaan weet niemand. Niemand heeft hem ooit nog teruggezien.

De Steen van Zurastael - Buiten-geschriften van het Eeuwig Evangelie I

Kabouters

1.

1. Op de rug van Rapunzel, op de rug van verleden jaren, komt de spruit als een struik van al die dagen, kom binnen, algeheel, breng ons tot de grote grenzen, want hierbinnen is alles paradox, je bent zo klein, een gebroken hart, als de splinters en het poeder van het lot,

2. zij borduren daar jouw namen, zij borduren daar de visioenen, en brengen dromen door hun snaren, als je niet kan begrijpen wat het is, dan is dat een groot gemis, een groter kruis, kom dan dichterbij, en vind je thuis, geen moeder en geen vader, maar alleen wat grote namen.

3. Op de rug van Rapunzel, op de rug van verleden jaren, als een struik van zoveel dagen, wie is jouw wever, wie is jouw borduurder, wie daalt er af in jouw verstand, kabouters zijn hier aangeland. Wie is er langs jouw huis gegaan, als een struik voorbijgegaan, als een bos van herinnering, trillend, zwevend, verwisselt zij betekenissen, in een cryptisch land, wie heeft er nu verstand. Op de rug van Rapunzel,

4. onder Mokmos gegaan, onder zoveel zegeningen, verloren wij onze naam, nu zijn wij hier naamloos zonder stem, maar de engelen van oudsher, kabouters zijn op jacht, zeg, vertel me waar ik kan schuilen in deze vreemde nacht, van duizend duizelingen, tot het vrede-rijk,

5. tot het rijk van vreemde koningen, vanuit een oud boek komen zij, ik kan het niet stoppen, zolang hebben zij hier op gewacht, ik kan je alleen vertellen : zwijg en kijk naar die pracht. Het tocht hier, ik doe de deur dicht. Ik ga zitten en kijk om me heen. Zoveel hebben hun sporen hier achtergelaten als poeder in de nacht,

6. een magische nacht waar alle koningen van dromen, maar ziet, zij hebben daarvoor geen kracht, want hun kronen zijn te zwaar, en hun tronen hebben tralies, waar de tranen stromen, rondom de lelies. Het is een boek van duizelingen, een boek van echo's en van genade, voor iedereen, maar wat voor een genade, vraag de kabouter, hij draagt de sleutel van het verlee. In het verleden vinden wij allemaal een plaats,

7. maar toekomst zal komen om veel weg te nemen. Hoeveel tranen in een bak, hoeveel potten die zich openen tot in de laatste nacht, ik ben op weg naar het verlee, zeg, waar kan ik hier ergens schuilen, in de toekomst is het groene, ik wilde dat ik kleiner was, als de kabouter weg te rennen,

8. als de vlam die telkens lacht. Open deze poorten en ga met mij mee, als de beer toont zij haar bos met haren. Deze vrouw, deze vrouw, bedroog jou. Deze vrouw, deze vrouw, lachte naar jou, bracht jou naar de strikken door een doodskus, in de hondenhaag was jij een gevangen vis,

9. verstrikt in de webben van haar haren, maar nu kan zij alleen nog maar staren. En alleen kan zij nog roepen : Ga niet bij me weg, ga niet bij me weg, en haar tranen laten jouw bootje varen, dieper in haar buik, en jij denkt je bent nu eindelijk weg. De vreemde vrouw bedroog jou, zij kwam alleen maar dieper maar jij zag het niet. Ga tot een kabouter, en vertel hem wat je ziet. Ga niet bij me weg, en de tranen laten jouw bootje varen, dieper in haar strik, maar wees wijs, kom tot de kabouter, en

vertrek uit dit gesticht. Wij zijn altijd weggedrukt, maar laten het bootje varen, tot ons geluk, ergens brak het bootje stuk.

2.

1.Eens werd ik dan gestoken, eens liet ik jou weglopen. Ik was niet op mijn hoede, je ontglipte mij. Ga niet bij me weg. Kabouters staan op de weg, en zij brengen je altijd bij me terug, want de kaars is opgebrand aan het einde van de dag, door de wind, de kandelaar zal uitdoven, eens werd ik gestoken, door een wesp, door een struik, eens werd ik gestoken, eens zakte ik door de brug met al die ratten en muizen,

2.tot een watergevecht, wegvretende mijn geluk. Ik reikte uit, en jij duwde mijn hand weg, tot de kabouters ging ik, om te geloven, het was alleen een spel. Eens werd ik gestoken, eens zakte ik door de brug, verloor de hemel, verzamelde hel, en toen kwam ik weer terug,

3.eens kom ik weer terug. Eens werd ik dan gestoken, eens zal de kandelaar doven, ik zakte door de brug tot een watergevecht, wie nam mij mee, en waar naar toe, ik durf er niet aan te denken. Waar gaan we naartoe, waar gaan we naartoe. Ik zakte door de brug, eens werd ik gestoken, tot de kabouters ging ik,

4.ik had een pijl in mijn rug, en ze zeiden : Ja, jij moet het geloven, alles is een spel, alles is een spel. Totdat ik ook een fee zag, een elf en een roos, en ik zei : Wat gebeurt hier allemaal, ik weet niet of ik dit geloof. Engelen van verleden tijden waren zij, uit de canon verjaagd,

5.heus, ik sprak hen aan, en zei : jullie horen er ook bij. Het is voorbij, mijn liefsten, het is voorbij, vanaf nu horen jullie er ook weer bij. Ik geef jullie je namen terug, als de naamloze, de naamloze is gekomen, en wie ik ben, daar kun je alleen van dromen.

II Kabouters

1.

1.Ik herinner me jouw zoete stem, jouw zoete blik. In jouw kasteel was ik, je gaf mij een zoete wapenrusting en een zwaard, een speer en de warmte van een open haard. Als een kachel was jij in dat kasteel, zoveel warmte had ik nooit gezien en nooit gevoeld, hete chocolade, hete drop en zoveel namen. Jullie waren terug, na een lange nacht, jullie waren terug, wie had dat ooit gedacht. Ik herinner me jouw stem van chocolade, zoveel borduursters dreven mij voort, ik zag zoveel visioenen ongehoord. Ik herinner jouw blik van zoete drop, jouw blik van zoveel warmte, dieper dan de diepste oceaan, en de vissen die daar in jouw ogen zwommen. Zoveel komt hier aan, de grootste namen, kleine kabouter,

2.warmte door de kou, centen door de armoe. Onder een mantel van paradoxen bracht je mij in liefde. In dit kasteel maakte jij mij heel, leerde jij mij te begrijpen, leerde jij mij grijpen. Jij bracht mij tot de hutessen, tot de pilapen en de pilafen, karsuiken herinnerden jouw naam, jij nam hen allen aan. Jij kende de engelenoorlogen, de scheppingen bij namen, groot in getal, jij gaf hen hun plaats, jij zuiverde hen in jouw vurige ovens, ja, de spruit was jouw naam. Eindelijk ben jij dan gekomen, oh stem der kabouters, oh engelenstem van verleden tijden, dragende zoveel duizelende geheimen, de boeken gingen open, verkondigden jouw naam, en jij nam hen allen aan.

2.

1. Als een pad van bliksem, als een trap, waarop ik klom, hoger in het kasteel, dieper tot de torenheuvels, waar hoeden en kappen vertelden over jou. Wie is de hoed, wie is de kap, wie is de schoen, is het echt dat wat het is. Niets is wat het lijkt, dus stap over je ernst, stap over datgene dat je begrijpt. Niets is wat het is, alles is wat het niet is, kom nu mee met mij, en gooi alles weg, wees weer vrij, tot armoe gekomen, hier kun je verder dromen, de rest loopt dood. Ik zie daar licht in een kabouterkasteel. Waar zijn de reuzen, en zijn ze met veel. Waar kunnen we vluchten, naar wie moeten we toe, kom naar het kabouterkasteel, en begrijp wat en hoe. Hier is de brug tot de reuzenwereld, hier is de oven waar je zuiver wordt, hier is de melk waar je ouder van wordt, hier is het gat, hier is de voet,

2. vertellende hoe je verder moet. Oh vrome, doe je hoed af. Jouw hoed die spreekt, maar je geloofde dat niet, jij geloofde zelfs niet dat de Heere kon spreken, jij was een woordendief, een woordendief. Jij was rijk in het woord, en arm in de liefde, je durfde niet in de armoe van sprookjes te leven, hoe arm zijt gij, oh woordendief, oh bouwer van papier, oh moordenaar van bomen, alle wegen eindigen hier. Nog steeds geloof jij in marsepein, in jouw eigen straatjes van zilverklei, dat wat jij eens schreef op het papier, of jouw grootouders, alle wegen eindigen hier. Nog steeds bouw jij je koninkrijk van marsepein, en je straatjes van zilverklei. Nog steeds druk jij hen het papier door de mond, maar hier eindigen alle wegen.

III Kabouters

1. De kabouter, brug tot de reuzenwereld, brug tot jou, ring van fluisteringen, ring van hebbedingen, ring van goud, ring van het kostbaarste hout, ring van demonenvellen, het kostte je alles wat je had, naakt ben je, rennende naar de reuzenschat, diep in het woud, warmte grijpt je door de kou, en dan draait je verstand zich om, en alle dingen en betekenissen,

2. als een raadsel, als een schat, maar heus, het is gevaarlijk, straks overkomt je wat. Dit is als lopen op zilver, glijden op goud, en je weet niet of het je houdt, het is als lopen op een graf, dansen op een gouden dag, maar de armoe loert, en jij weet wel waarom, want er zijn kabouters in de buurt, ook al geloof je 't niet, 't zijn de engelen van verleden tijden, die slechts hun kruizen spreiden, zoekende naar gaten, waardoor zij opnieuw kunnen binnenkomen, je zag ze als demonen. In de canon alles omgedraaid, als een reuzenschat, zo gevaarlijk, nu door zoveel wespen doorstoken en door het engelenzwaard van vervlogen jaren, door kaboutersperen en door pijlen van een duister woud, waar het licht zich verscholen houdt. Ik ben er nog niet over uit, 't is een boodschap van verleden jaren, nog steeds verzegeld, maar dat maakt niks uit, want eens zullen deze reuzenzegels opengaan,

3. en al die schatten zullen belijden hun echte naam. Het is hier nat, het water spreekt, de reus verspreid angst, en wat pijn en wat depressie, alles is hier opgebrand, en dan slaat de kou zevenmaal toe, als een verwonderd sieraad, niet wetende hoe, haar schat te bewaken. Noem me dan die zegels, noem me dan die namen, laat de weg zien, het pad tot openingen, als het raadsel moeten we het draaien. Hoeveel reuzenzegels op de fles, hoeveel demonen om te verslaan. En zijn het wel demonen, of zijn het engelen van vergeten namen. De reus huilt, hij was net nog hier, snel verplaatst hij zich, waar kan hij schuilen. Niets is meer hier. Alles opgebrand, en kou slaat toe, zevenmaal, als de bossenwijn van verleden tijden. Wat kan de reus nog doen, kunnen wij nog binnenkomen, kunnen wij zijn woorden nog verdraaien, kunnen wij nog betekenissen zien, en kunnen wij nog omdraaien. De reuzenzegels in een rij, en leeuwen die hier brullen, klaar om aan te vallen voor een nieuw getij, zij hebben de bedelingen gedraaid, zij hebben een doorweg gevonden.

Karsuiken

1.

1. Zij die de brug tussen de kabouterwereld en de reuzenwereld kennen zijn als de elven, ja als karsuiken zijn zij, als het gegrom van roofdieren, wachtende om toe te springen. Zo zijn de karsuiken lijdensgezind in hun aanval, en zijn zij voorzichtig. Zij laten zich gewillig uiteen trekken en verpletteren om tot de kabouterwereld en de reuzenwereld te komen. Zij hebben vrij toegang tot Spricht, waar zij vele namen dragen.

Reuzensieraad

2. Het is verblindend, als de zonnenscepter, het reuzensieraad, waarmee de reuzen met elkaar spreken. Tot Rapunzel gingen zij, daar bij die heg, nu branden haar vruchten, en rent zij altijd weg. Het is verblindend, als de zonnenscepter, het reuzensieraad, waarmee de reuzen elkaar bevechten, soms valt er iets naar beneden, in het heetst van de strijd. De Heere heeft mij hier naartoe geleid. Ik zag Hem staan op de ladder, en Hij zei : Kom tot Mij, ik heb je zoveel te vertellen, en Hij gaf mij het reuzensieraad, en ik sprak met Hem in een diepere graad. Als verblindende lichten tussen ons, nee niemand kan het horen, het is alleen tussen ons. Als iets tussen jou en mij moet blijven, kom dan dichterbij, en laat je sieraden achter. Een reuzensieraad vond ik op een berg, stralende van licht, stralende zoveel namen, kan ik jou vertrouwen, of kan ik beter naar Rapunzel gaan, om te vluchten met haar tot de diepere koude. Hier is verblindende sneeuw, in een reuzensieraad.

Reuzenschat

3. Het is hier stil, de nachten duren hier lang, en Arabische koningen hebben een val gezet, zij grommen luid, en dan vallen zij aan, zij rennen door de fuiken, tot hen die daar vielen. Arabische koningen, ladders zo hoog, wie glijdt er naar beneden, ik zie een reuzenschat, zij dansen eromheen in Bagdad. Hoeveel poorten hebben zij verzegeld, hoe vaak zal dit raadsel nog schreeuwen.

4. Koningen in Bagdad, leeuwenklauwen in Bagdad, heffen hun hoofden tot de zon, en dan is er een slag, en dan keert alles om. Ik zag een reuzenschat in het zand, en een reuzenschat in de bergen, een oase om in te duiken, maar alles was slechts drijfzand. Koningen in Bagdad, leeuwen op de muren, handen draaien het rad van dode uren.

5. Ik klom laatst op de ladder. Niemand was daar, de wind raakte mijn snaren, en ik hilde, maar toen dacht ik : alles is genade, alles heeft een doel, alles zal veranderen, altijd, alles zal veranderen. Ik klom laatst op de ladder. Ik viel er bijna af. Ik zag koningen in Bagdad in de verte, zeggende alles was mijn eigen straf. In een reuzenschat woonde ik, uit een reuzenschat kom ik vandaan, nu ga ik naar de volgende, verliezende mijn naam. In een reuzenschat woon ik, naar een reuzenschat ben ik op zoek, verliezende al mijn namen, op mijn echte naam stuit ik.

6. Ik zag het oog der reuzen. Ik had dit nog nooit eerder gezien. Piraten waren beneden. Pilafen en Pilafen.

7. Op een piratenschip zat ik, met mijn hoofd in de wolken. Ik zag de zon schijnende in de wateren, en toen stond mijn schip in de fik. Een reuzenschat is wat ik vond, 'k verloor alles, alles zinkende bloedend in de zon. Het was een vreemde spiegel, niemand wist wie hij echt was. Op een berg stond ik, als in een droom zag ik het piratenschip, waarachter de zon scheen in de gouden wateren. Als vuur viel de zon naar beneden, als een vallende ster, om zoveel te vernietigen, en toen hoorde ik een stem. Een reuzenschat is wat ik vond, een kat op een kussen, een vuur dat alles verslond. Een reuzenschat vond ik, een naam in ijs geschreven, de grafsteen van een verbrand schip. Kastelen achter struiken, parels in de diepste fuiken, bodemloze putten, 't geheim van zilver en goud, en van

het emerald. Kastelen achter struiken die branden, als zonnehagen achter de stranden, hier groeit alles verkeerd, de puzzel wacht op tedere kracht. Op een piratenschip zat ik, het vuur viel aan de andere kant. Ik kon net ontsnappen en zwom naar het strand, waar ik het oog der reuzen vond, poort van het oer, poort van tedere kracht, poort van engelenkoren vervagende in de nacht. Neem mij nog eens mee op reis, oh reus, en geef mij vleugels. Schenk mij licht, en breng mij tot de snaren. Een droom viel op mijn bed, als een reuzenschat, een visioen. Mijn nachtmerrie vond het tijd om zich om te draaien.

Piratenschip

8. Sorg Sorba, de mussen zijn hier, zij kijken naar hen die onder het gele waren, kijken naar hen met het reuzenoog. Sorg Sorba de mussen zijn hier. Open de deuren, kom snel, we moeten hier vandaan, want dit schip gaat zo branden, de zon is neergevallen, en de zee is al in vuur. Sorg Sorba, heus, we moeten rennen, geef mij vleugels, of moet je eerst aan mij wennen. Sorg Sorba, de mussen zijn hier. Neem ons mee, alles is in vuur, alsof Narzia het schip heeft geslagen. Laag voor laag, uur voor uur, waterplanten groeien, achter brandende doornen is het schip. Piraten praten, pilafen en pilapen.

9. Vogels komen van ver. Mussen komen van dichtbij. Tropische woorden, ik was er bij. Nu kan ik niet meer terug. Ik zit hier opgesloten. Een piratenschip achter doornen en zeeslangen. In 't hete uur, viel er een draak naar beneden, een zeedraak, waterplant, verspreidende zijn zaden.

Nachtspelers

10. Zij stonden op, zij stonden op, overal vuur, overal flitsende geluiden, als waterstromen, als waterdromen, stilte als de muis, een nieuw kruis, tonende de fuiken, door de nacht, door nachtzeen, door de witte chocola, door de tedere kracht. Zij stonden op, zij zweefden hoog als vogels, als arenden, als piraten in de nacht. Zij kwamen om te stelen, kwamen om te installeren, kwamen om te delen, kwamen om de zee te breken. Nachtspelers, nachtspelers, komen onverwachts, als dieven in de nacht, heldere stemmen, en dan is alles te laat, dan moeten we naar hen luisteren, naar de vogels van een diepere graad, nachtspelers, verhalen in de muur, komende tot leven, komende tot dit uur, nachtspelers. Zij zullen de zegelen openen, vertellende de verhalen ongehoord. Nachtspelers, de dieptes van het woord. Nachtspelers, levende achter de schermen, in de muren, nachtspelers, zegt het voort.

11. Vader, wij zijn omringd door brandende struiken, hier in de kasteelkamer, we kunnen nergens heen, laat de nachtspelers nu komen. Ze komen tot leven in de muren, en dan stappen ze eruit, en spelen hun verhalen. Vader, laten we zitten en kijken wat ze gaan doen, we kunnen niet anders, en ik wil hier niet verbranden. Nachtspelers, zullen zij ons blussen, of zullen zij ons in het vuur laten vergaan, reikende tot een nieuwe morgen. Nachtspelers, in onze kamers wonen zij, diep in de muren, wachtende op het reuzenrefrein. Nachtspelers, zij kennen de brandende struiken bij name, wachtende op hun sein. Zij kennen de kastelen hier, zij kennen u en mij, zij kennen de refreinen van hen die hen haten. Nachtspelers, als straatvechters komen zij op, als de dieptes van het woord, de straatputten verliezen hun kop. Nachtspelers, als de kraaien van de nacht, in de muren staan zij op wacht. Ik zag een bliksemschicht, die mij zeer beangstigde, toen gingen de graven open. Nachtspelers, een wonderlijk verhaal, nachtspelers, niemand kan nog vluchten, allen deel van het verhaal. Kijk naar hun koetsen en hun teugels, kijk naar hun spinnen en hun webben, hun netten en hun fuiken, de nachtspelers komen eraan. De dieptes van het woord gaan open, geen canon meer, zij hebben het raam opengebroken.

12. Als een vreemd wonderbaarlijk sieraad, als de reuzenschatten opengaan, zij verbreken de zegels. Nachtspelers, een vriendelijk woord tot hen die trokken aan het koord. Nachtspelers, een vriendelijk gebaar, tot hen die kwamen tot de diepere snaar.

13. Ik kon mijn vleugels weer bewegen, lang waren zij doorboort geweest, nu is de nacht over. De nachtspelers waren hier geweest. Ik zit op mijn schip, alle piraten zijn vergaan, maar pilafen en pilapen zijn dichtbij me. De nachtspelers zijn hier geweest, ik kan weer vliegen, ik kan weer gaan naar de eilanden, ik strek mij uit tot het nieuwe land. Nachtspelers, zij hebben mij bekleed met reuzenschatten en reuzensieraden, en mijn schip van piraten ontdaan. Maar zalig zijn de piraten des Heeren, zalig zijn de reuzen des Heeren, tot hen wil ik gaan. Neem mij mee, over deze zee, langs de zwarte gaten, over de groene draden. Ik leg mijn wapenrusting neer, ik kom eraan, maar mijn vleugelen doen nog zeer, karsuiken neem mij mee, pilafen en pilapen zullen voor mij strijden. Ik kom tot de poorten der nachtspelers, tot hun landen, en tot hun vuren die fel branden, als verblindende lichten. Nachtspelers, als de reuzenschatten opengaan, schatkamers komen naar voren. Nachtspelers, lange gangen, lange kamers, als de reuzenschatten opengaan, licht in die donkere kamers, verbrekende de zegels. Nachtspelers, als tere vlinders opgestaan, oh zo sterk, want alles stort in, wanneer zij het hebben opengedaan, een nieuwe wereld komt eraan. Nachtspelers, als tere vlinders opgestaan, als tere ketenen zo sterk, want als zij bewegen stort alles in.

14. Een zwarte roos gaf je mij, om af te dalen in jouw dieptes, waar de spinnen woonden, ik beklom hun webben, fuiken waren zij, om dieper in te verdwalen. Een zwarte roos gaf je mij, als het sneeuwwit was jij, als een droom van vervlogen jaren. Als een brandende struik was jij, als een kasteel was jij. Door een zwarte roos kwam ik tot de onderwerelden, daar, waar de fuiken waren, dromen van vervlogen jaren. In de fuiken vond ik jou, maar wat ik vond was niets anders dan raadselen, sappen van spinnen, webben zonder genade.

15. Als de brandende struik, gaat zij langs de zeeën, om de zonnen te verwelkomen, tot het nieuwe uur. Duimelotje, de eerste die ik hoorde, zij die Jakobs God ter hulpe heeft, de Heere, oh sterkste aller sterken. Zij was de eerste die ik hoorde, maar ik verstond haar niet, zij is de brandende struik, langs de zeeën gaat zij, om de zonnen neer te laten komen, de zeeën uit te drogen. Zij is de vijand van de zee, vanuit de lelie ontwaakte zij, mijn Duimelot.

16. Als de brandende haag is zij, zwerver langs de bossen. Roodkapje kennen zij allemaal, altijd vertellende een ander verhaal. Zij is het brandende bos aan het einde van het verhaal.

17. Eikels in de bossen, noten op de heuvels, haar haren zijn los, ze is op weg naar het hoge mos, waar nog steeds haar kasteel staat achter struiken en draken, na al die jaren is zij daar weer terug, zij is de brandende roos, zij is het teugelloos verhaal, zij is de onderwereld, een neergaande spiraal, door de fuiken dwaalt zij. Kus me, doe me ontwaken, een judaskus velde me neer.

18. Toen stond hij voor mij als de gelaarsde kat. Hij had de reuzenlaars gejat. Kon nergens anders heen. Ik sloot hem in mijn armen. Ren, jongen, ren, maar alles is hier veen en drijfzand, ze zullen je vinden, en dan nemen ze je mee. Ren jongen ren, maar je kan toch niet vluchten, een moeras is om ons heen. Wij zitten in de fuik, we moeten het samen zien te klaren, maar straks komen ze, en dan nemen ze ons mee, naar de reuzenwereld achter hoge tralies, maar tot Spricht zullen wij gaan.

19. Als de brandende braamstruik is zij, met brandende vruchten, loopt ze langs de heide en de velden. Wanneer zij rondkijkt vallen de zon en de maan, alles in vuur achterlatende.

20. Als de groene roos is zij, als een vuur, kent zij al onze namen.

21. Eindelijk tot leven gekomen, eindelijk tot rust gekomen, als het vuur der bomen, brandend in je botten, ja, vanavond zullen de kabouters komen. Eindelijk tot leven gekomen, in een boshuisje ver weg in onze dromen.

22. De wesp heeft gestoken, de wesp heeft het gedaan, alles is in vuur verzopen, door het neervallen van zon en maan, zeeën van bloed, en rivieren van honing, waar de melk stroomt, morgen is alles weer goed.

23. Wij vragen om een druppel van het kruis. We weten het is van ons weggevlogen, maar wanneer kunnen we naar huis.

2.

1. Oh, vader van het kruis, vader der fuiken, heb medelijden met ons. Wij zijn verstrikt in de webben van spinnen, verdwaald in hun netten, en in brandende struiken, visioenen leiden ons voort, naar een nieuwe dag. Heb medelijden met ons, toe leidt ons uit, toe help ons voort. Wij leven in bodemloze putten, als verschrikkelijke visioenen, dit noemen wij leven, maar het is de dood, als een pantarhei, alles is in wording, in deze vreemde cocon waaruit geen ontsnapping mogelijk is, slechts het naderen tot de zon. Nooit bereiken wij haar, maar komen steeds dichterbij, als kijkende naar een vreemd schilderij. Toe breng onze boeken tot leven, en leidt ons tot Klaas Vaak.

2. Zacht vuur in wording, door de dagen heen, of waren het jaren, betekenissen veranderen door uw woord. U hebt het gesproken, uw dieptes getoont. Het woord uiteen getrokken, het woord gebroken, op een gouden schaal van zilverlichten, emerald treden, als een pad tot de maan. Klaas Vaak, gij komt voort vanuit de dieptes, Klaas Vaak, maar zij bezoedelden uw naam, als die gek van de slaap. U hoeft maar een woord te spreken en alles is voorbij. Wij komen tot u, op feenwolken en elvenkoren. U dreigt, het sprookjesboek is van u, en wij hebben daar allen een plaats in. Toe, breng ons tot leven, en vertel uw verhalen. Wij staan klaar, om het door te geven. Toe, spreek tot ons, door de dromentelefoon, toe breng ons tot uw slaapliedereenkoor. Oh, brandende struik, laat vanavond uw woede gaan.

Duimeliesje

3. Zij kwam in een nacht vol trauma, op een rozenblad, zij daalde af, als de druppel van het natte gewas. Duimeliesje, jij kwam als een droom tot hen. Duimeliesje, zij kwam in de nacht van 't duistere ijs, kwam het trapje af, aan een rozenblad hing zij, blies het trauma weg, en zakte weg in 't rode ijs. Duimeliesje, als de brandende roos, op een lelieblad voer zij door de nacht, als in een boot. Zij bracht mij, tot een vreemde wederkomst, tot al die vreemde namen die eens tot mij kwamen. Zoveel herinneringen hier, iets om te vieren, op deze boot in de nacht. Mijn bed is een boot, en Duimeliesje houdt de wacht. Eens zal zij komen door de ringen, door ringen der duisternissen, komende vanuit de draaiende lelie van het zilverstrand. Eens zal zij komen als de wind, als het windekind, als het avondkind, die mij in stilte vindt. Eens zal zij komen tot mijn nacht, komen tot de dieptes van deze pracht. Duimeliesje, windekind, voerende door de wind, door de avondkoelte riep zij mijn naam, kom in de boot met mij, en sluit deze rij. Door de nacht raakt zij de lelies aan, dan draaien zij ook, en verspreiden hun naam. Door de avondstilte komt zij, als een roos die brandt vervult zij mij. Duimeliesje, onder het woord, hangt een trekkoord, open het, en verspreid je naam, als veldpoeder door de wind verdeelt. Duimeliesje, vervul mij steeds weer, kom telkens, keer op keer.

4. Diep in de nacht voelde ik haar hand heel zacht, en zachte fluisteringen, kolkende door het raam, oh Duimeliesje je hebt mij eindelijk gevonden na al die jaren. Laten wij de dieptes van het woord oprichten door het trekkoord.
5. Diep in de nacht voelde ik haar stem kolkend door de ruimte, als duizenden duizelingen, ze nam mij mee in een droom, ja, ik heb God gevonden, Hij stuurde jou.
6. Duimeliesje, jij gaf mij de roos met de snaren, je gaf mij de lelie met de vele namen, jij gaf mij een boek vol verhalen, een eeuwig evangelie, om te helen het trauma wat canon heeft geschapen. Duimeliesje, jij gaf mij een narcis vol van wond'ren, jij sloot het boek van schuld en erfzonde.
7. Ik hoorde haar roepen in haar kamer. Ik ging naar haar toe, en ik suste haar. Ze had een nare droom, over een boek dat haar wilde pakken, het was het eerste woord, dank God voor het tweede. Dank God voor het diepere woord, dank God wanneer de zegelen zich openen.
8. Ken je de schat van Duimeliesje, alleen de kinderen en kabouters kunnen binnengaan, alleen de zaadjes die hun mond kunnen houden, wij moeten sterven in stilte, tot Spricht zullen wij gaan.
9. In het bos tussen de bospoeders vond zij haar schat, in het duister nam zij een bad.
10. Door het sieraad spreekt ze tot mij, als door een droomtelefoon, als duizenden duizelingen tegelijk, ik val tegen de grond, en mijn ziel stijgt naar haar op, als een vogel kan ik vliegen, toe laten we gaan naar de bergtop. Door een duister gat komen wij altijd binnen, in een zaal vol gesteentes, waar sieraden van piraten liggen, engelen van verleden tijden, onder de deur door zullen ze glijden, zij zijn als de wind. Wind in alle kleuren, door Duimeliesje's sieraad zal het allemaal gebeuren.
11. Duimeliesje's parel, waar spinnensappen stromen, hier heeft de wesp gestoken. Haar vleugels groeien, oh zo fijn, haar veren zijn als melk, ik kan haar sporen volgen. Duimeliesje's parel, ik kreeg haar in een nacht, ik zag haar gloeiende en bloeiende pracht. Duimeliesje's parel, een parel van duizenden fuiken in de nacht, bruggen tot de eeuwigheid, parelvisioenen drijven door de ledigheid. Duimeliesje's parel, een parel vol van teed're kracht, een parel vol van fuiken, brengende ons in een diepere nacht, tot het kruis van onze Heer, tot het kruis van al die namen van vervlogen jaren. Zij wierp de parels in canon's gezicht, als kogels waren zij, als een wapen van verleden tijd. Duimeliesje's parel, vol van visioenen, vol van lang vergeten namen, ja de parel weerkaatsende het licht van een oud gedicht.
12. Duimeliesje's parel, stromende door het water, glippende onder de deuren door, als de winden dragende al die vergeten namen.
13. Diep in het bos, onder bospoeder verscholen ligt Duimeliesje's parel, de bron van onze dromen. Het rees op uit onze diepste nachten, als een geluid van fuiken, wegnemende onze laatste krachten. In zwakheid daalden wij, tot wij het zoete raakten, vol van poeder zijn onze monden.
14. Duimeliesje's blad raakt ons aan, zoveel poeders, zoveel vleugels vallen aan, zoveel kracht om op te komen, vliegen en zweven wij naar onze dromen, naar de dromen in de lucht, als een blad over rivieren vinden wij alles terug. Duimeliesje's blad raakt ons aan als een boot, als een waterval, een rivier door de dood, als een tuin van poeders, tuin van paddestoelen, ja, hier wil ik zijn.
15. Brandend blad, rakende ons aan, ik duik in een bad van het verleden, als de bosfontein, als de rode vlam, het volgt mij, laat mij nooit meer gaan, toe, zwem weg met mij, naar de overkant van dit verhaal.

16. Het hangt voor mijn gezicht, het geeft mij visioenen in poeders en licht, van een kasteel, in duisternis, het is Duimeliesje's kasteel, daar waar de fuiken toe reiken. Duimeliesje's kasteel, haar blad voor mijn ogen, haar visioenen hebben mij nog nooit bedrogen, vertellende verhalen, openende haar boeken en haar zalen. Duimeliesje's blad, openende de dieptes, achter elk blad zien wij de dieptes van haar rinkelende schat.

17. Ik woon in een boshuisje, ik woon op een boerderij, maar het is een kasteel, zorg ervoor dat ik mij niet verveel. Er is zoveel te doen, zoveel te zien, zoveel om te kleuren, zoveel om te draaien, al mijn deuren hebben namen, al mijn muren dragen de winden van een vervlogen tijd. In de nacht komen zij tot leven. Wakker worden, in het kasteel ben je. Duimeliesje's kasteel, voor de kinderen en kabouters, in Spricht zullen wij binnengaan.

18. Duimeliesje's kasteel, zoveel schatkamers dat ik mij niet verveel, achter de muren wonen elven, achter de deuren staan de feeën, en op de zolders wonen de reuzen.

19. Duimeliesje's kasteel, in de nacht komen zij allen tot leven, en als de morgen komt dan slapen zij weer, dromende, wachtende, uitstreckende tot de avondveer.

20. In Duimeliesje's kasteel zullen wij binnengaan, en dan zullen wij tot Spricht gaan. Vele elven kennen onze naam, ja, wij zullen tot Spricht gaan. Door de ramen komen wij binnen, door de struiken van vuur, door de plassen en de open haarden. In Duimeliesje's kasteel zullen wij binnengaan, een klok staat op de tafel in de dinnerzaal, en wat oude gestalten hebben daar maal, altijd spreken zij over Duimeliesje's kasteel, ja, ook Spricht kennen zij. En Spricht staat op de tafel, naast de klok, zij hangen hem aan de muur, als een weerhuisje, als een schilderij, als een raampje. Hier praten de oude gestalten, over het weer, over het blad, dat hen eens hierbracht, zij hebben allen hun kamers, in Duimeliesje's kasteel, over Spricht praten zij veel.

21. In Duimeliesje's kasteel, achter de brandende doornstruiken, daar wonen de oude gestalten en de elven, ja, zij kennen onze namen, zij weten waar wij over praten. In Duimeliesje's kasteel, achter de brandende hagen, achter doornstruiken, daar vochten eens soldaten, maar een blad bracht hen hier, waar ze veilig zijn in Duimeliesje's kasteel. Achter de brandende struiken en hagen, waar de keukens als lichten stralen, eens vochten hier de draken, maar Duimeliesje heeft hen laten slapen. Hier praten nog steeds de oude gestalten, zij hebben elk hun kamer.

22. Ik ben nog steeds bang voor het groene vuur. Hier in Rapunzel's kasteel. Hier is alles zo duur, door de wespen en de steekstruiken gestoken, en brandende struiken dansen om het kasteel heen. Niemand kan hier komen, niemand kan hier binnendringen, dan hen met de diepe doornen.

23. Ik ben nog steeds bang voor het groene vuur, door spinnen ben ik gestoken. Ik ben tot deze dieptes gekomen, in dit uur.

3.

1. Ik ben in Rapunzel's kasteel, al het groene wordt hier geel, totdat het onder het gele daalt, en alles is in een vlam. Heb ik dit vuur nu zo gevreesd, in dit uur raakt alles lam. Ik ben in Rapunzel's kasteel, en nu wordt alles duidelijk, jij gaf mij een steek maar het was een streling om mij te verbinden aan de diepe namen. Hier waait een vuur, een oud vuur komende over alles heen,

2. bedekkende als de sneeuw der spinnen. Ik ben in Rapunzel's kasteel, ik maak hier overuren. Elke steek is een streling, elke doorn brengt bloesem, bloedend als het rode sap, kom ik telkens dieper

stap voor stap. Onder het groene wordt alles geel, als de kleuren van de herfst, in Rapunzel's kasteel,

3.als het gif van verleden tijden mijn hoofd binnenglijdt, brekende de zegels van een canonic verstand, dan staat mijn geweten in brand. In Rapunzel's kasteel ben ik aangekomen, ik kan nu alleen nog maar dromen. Kon ik jou nu maar zien, maar alles wat ik zie is vuur,

4.het groene wordt hier geel, en grote spinnen kruipen over de muur. Kon ik jou hier nu maar voelen, maar je bent zo ver weg, of is dit jouw manier van laten weten dat je er nog bent. In Rapunzel's kasteel, bedekt door sneeuw van spinnen, bedekt door al die herinneringen. Kon ik jou nu maar zien,

5.kon ik jou nu maar geloven, dat je steeds dichterbij komt, in Rapunzel's kasteel ben ik beland, in een bed met wespdekens, brekende de zegels van mijn canonic verstand. Kon ik jou nu maar voelen, 'k wilde dat je hier zou staan, maar ik kan alleen maar dromen, alles is maar een verhaal.

4.

1.Ik ben in Rapunzel's kasteel, het groene wordt hier geel, en dan wordt alles nieuw, door vele ovens worden wij nieuw, door vele ovens vinden wij een nieuw vuur, zoet maar ook zuur en bitter, het leven is hier duur. Ik ben in Rapunzel's kasteel, en ik zie Grietje staan, zij die de heks heeft verslagen, van een ander verhaal. Alles is hier maar een verhaal, de canon is verbroken. Ik ben in Grietje's kasteel,

2.onder wespdekens, alles is teveel, niets is naar vermogen, wij moeten veel dragen zonder kracht, niemand heeft aan onze zwakheid gedacht. Ik ben in Grietje's kasteel, en dan ontwaak ik. Alles was maar een droom, en dan sta ik op, en loop door de kamer. Grietje staat in de keuken, en wijst door het raam naar het kasteel van Hans. Hans, de heks wilde jou vetter maken, als maal voor de canon. In het kasteel van Hans aangekomen,

3.dit oude sprookje, een griezelig verhaal, alles is hier van snoep gemaakt, en alles spreekt een andere taal. Ik voel mij zo verloren hier, niemand begrijpt me, oh was ik maar niet hier, maar toch wil ik dieper gaan, oh Hans, leidt me verder in dit dromenweb van verloren dagen. Hier spreken de oude engelen, en hier wonen de ouden van dagen, hier wonen de oude christussen van vervlogen dagen. Hans, weet je nog, jij in die kooi, waarom staan hier nu zoveel kooien, als in een boerderij, die heks versloeg jij, door jouw zoete dromen. En dan word ik wakker in Rapunzel's kasteel, alles was teveel.

4. Alles staat hier in brand. Alles is hier duur. Alles zoet, zuur en bitter, Grietje rent door de gangen, door de gangen van dit avontuur. Het is een griezelig verhaal, alles is hier teveel, 'k zie overal kooien staan, met vreemde dieren, en 's avonds laat dan komen ze er allemaal aan. Er zijn spinnen op de muren, zij krijten de visioenen, en wespdekens vallen op mij als hete brij. Grietje, waar ben je, ik ben hier zo alleen in jouw kasteel, ik verdrink in de stilte, oh dit griezelig verhaal. Grietje rent door de gangen, ik hoor haar, ze komt laat thuis, met zoveel muizen en ratten achter haar aan. Ik moet me verstoppen, maar waarheen kan ik gaan. Zoveel kooien in dit kasteel, zoveel kooien in dit huis, zoveel vlammen om mij heen, sneeuw der spinnen, bedek mij. Ik klim over de oude webben, tot de zolders en de torens, maar alles wat ik vind zijn splinters, alles wat ik vind zijn diepe doornen. Alles staat hier in brand, goud met visioenen, leeft de heks nog, dat is mijn vraag, woont ze boven, of woont ze laag. Wat moet ik doen om van hier te vertrekken. Dan sta ik plotseling in

Hans' kasteel, en Rapunzel grijpt mij aan mijn haren. Kom mee, zegt ze, dit is je straf, een straf van genade. Alles is van snoep gemaakt, zoveel kooien staan daar.

5. Alles staat hier in brand en is duur. Hans' kasteel staat open, alles van snoep gemaakt, als de straf van genade. Raak hier niets aan. De heks schreeuwt van de daken, het oude vuur bracht haar hier, we hebben nog steeds met haar te maken. Hans' kasteel, alles staat in brand, als het vuur van oude dagen. Hans' kasteel, en de heks woont op de daken, zij heeft alles gezien, zij heeft alles gehoord, en wij horen haar stem, nooit hebben wij rust. In Hans' kasteel, zoveel kooien staan hier, zoveel fuiken lokken ons, fuiken van oude brandende struiken. Kan ik tot onder het zwarte dalen.

6. Alles is hier van snoep gemaakt, alles is hier om te verleiden, tot de oude paden zullen wij gaan.

7. Alles is hier van snoep gemaakt, alles brandt hier, waar spinnen wandelen, oh sneeuw der spinnen neem mij mee naar het einde van deze zee.

8. Zoveel stemmen zijn hier, stemmen van vervlogen dagen, vervlogen jaren, vervlogen eeuwen. Rapunzel's schat, een stem diep in mijn hart, het canonieke geweten weggebeten.

9. Rapunzel's Sieraad waardoor spinnen met elkaar spreken, zij bracht het mij, zodat ik haar altijd kon verstaan, zij leidde mij tot een plaats hier ver vandaan. Rapunzel's Sieraad, vlammen waardoor de spinnen met elkaar spreken, zij hebben mij op de juiste plaatsen gestoken. Nu kan Rapunzel's Sieraad tot mij komen. Een spinnendeken, in deze lompen kan ik mij bewegen. Als door groen sap bewegen wij, in Rapunzel's kasteel zijn wij.

10. Grietje's sieraad waardoor wespen met elkaar spreken, zij bracht het mij, zodat ik haar kon verstaan, zij leidde mij tot een plaats hier ver vandaan.

11. Hans' sieraad waardoor brandende doornenstruiken met elkaar spreken. Hij bracht het mij, zodat ik hem kon verstaan, zoveel wespen volgden mij, naar een plaats hier ver vandaan. Hans' sieraad, waar de wespen mij niet kunnen breken, waar zij mij niet meer kunnen spreken, ik ben tot Spricht gegaan. Hans' sieraad, waar de wespen mij niet meer kunnen kwellen, ik ben tot Spricht gegaan, en ik ga Grietje en Rapunzel vrijbaan. Kom dan binnen over de ladder van Rapunzel, kom tot haar toren, grijp haar bij de haren, en klim op. Ga tot Grietje, en kom tot haar daken, en kom tot Hans' kasteel, het brandt niet meer, verleden tijd zijn al die dagen, nu bedekt door spinnensneeuw.

12. In het fontein van Hans daar zwemmen de kikkers, daar zwemmen de zegels tussen jou en mij, vreemde vissen, als wespen komen zij. Zij kunnen ons niet meer steken, want het canonieke hart is opengegaan, een zwarte speer is er doorheen gegaan. Het hart nu zwart geworden, als een lever is het nu, sprekende zoveel woorden, brengende de dieptes tot het nu.

13. Nu komen de ketenen los, staan de ridders op, wanneer zij bewegen stort alles in. Maar in Hans' Bosschat zijn we veilig, oude christussen wonen hier. Tot het huis van de Marion en haar moeder zullen wij gaan. In Spricht, een kabouter in een boerderij, versperrende de trap tot de kikkerkoning. Een huis staat op een heuvel, en jij bent bij mij. Buiten is alles donker, brandende struiken dansen om ons heen, nu is het kasteel open, en wij gaan daarheen.

14. Hans, wij staan op de bergen als spinnen, wij dalen neer, en stijgen dan weer op in dit pantarhei.

15. Alice, ik hoor jouw naam, onder een wespendeken ben jij. Laat mij dichterbij komen, ik heb de sleutel van het verhaal. Straks als ik de sleutel omdraai, dan komen er duizend duizelingen en miljoenen oude engelen om een nieuw verhaal en spel te beginnen.

16. Wit konijn, wit konijn, bij jou wil ik zijn, op jouw rug, gaande naar alles terug. Wit konijn, en alles zal anders zijn.
17. Sprookjes en spelen spreken door haar. Alice's Sieraad in een winkel op een heuvel, ik kocht haar daar.
18. Verhalen en oude spelen en sporten spreken door hem. Wit Konijn Sieraad in een winkel onder de heuvel vond ik het.
19. Hoog in de bakkervelden, waar bakkerman's gezichten staan, waar wilde wespen zingen, en wilde struiken de diepte ingaan.
20. De letters vagen hier weg, waar bakkerman's gezichten staan, het hoge kruis toont de weg door de wespenlaan.
21. Wild dansende struiken, hoge tonen in mijn hoofd, om hen van de canon te verjagen, hen van de kattenboom.
22. Wild dansende struiken, wild dansende haren, hoge tonen in mijn hoofd, om terug te gaan naar al die jaren.
23. Ik heb het lang genoeg geprobeerd, maar dit ding brandde mijn vingers weg, ik zocht naar hoge dromen, maar alles spoelde weg. Nu is het bedekt met sneeuw der spinnen, en ik probeerde het weer, maar zoveel wespen begonnen mij binnen te dringen. Ik verbrandde van binnenuit, ik leef nog steeds in dit vreemde huis. Maar eens komt er dan wespensneeuw, als zomersneeuw, bedekkende alle vaten, en dan kan ik normaal met je praten.
24. Het heeft lang geduurd, maar het is er nu, zoveel dromen komen hier tezamen. Vroeger kon ik het nooit aanraken.
25. Bevroren zomer, bevroren wind, in dit kasteel waar Grietje's toverfluit zich bevind. Bevroren vlammen, ik kan er langs gaan zonder te verbranden. In de verte stijgt de toverfluit op, ik grijp erna, ik duik ernaar, dan val ik en stijg weer op, 'k heb nu vleugels, ik kan nu zonder jou verder leven.
26. Wij woonden allen in hetzelfde huis, maar nu zijn wij van elkaar verlost, door Grietje's toverfluit. Bevroren zomer, bevroren wind, in dit kasteel waar Grietje's toverfluit zich bevindt. Bevroren namen, zij die hier kwamen, hebben het nooit kunnen zien.
27. De rozen luisteren naar haar stem, de narcissen buigen als zij langskomt. Wanneer zij spreekt komt er goud uit haar mond, en zoveel diamanten, emerald, en rode robijn, Grietje's toverfluit, het is goed om bij je te zijn.
28. Groot was de dag, daar verschenen zij, hand in hand, en toen vertelden ze mij, nu zijn ze groot en sterk genoeg om de poorten te openen, de poorten van de wonden, niets dan de gaten van fluiten.
29. Staf van Spricht, toverfluit, een zeer oud kruis, wonderbaarlijk verlicht, als een totempaal met zoveel gezichten, al die bakkerman's gezichten, gezichten van het kruis, slechts gaten van een toverfluit.
30. Tovertrommelaars, twee stokjes in hun handen, twee staven van Spricht als het dubbele kruis, op weg naar het grootste kruis, over het eeuwige kruis. Tovertrommelaars, die wonden zijn trommels, meerdere malen gestoken openen zij de zegels.

31. Ik kan het niet verstaan, er staat een trommelaar voor mijn raam. Daar staat hij, ik kan het niet geloven, maar ongeloof is hier een zegen, langzaam trekt het je naar beneden.
32. Ik kan het niet verstaan, buiten is er toverregen, en Grietje trekt haar degen. Ze gaat de oorlog aan, en strijdt haar strijd, in opgetogen waan.
33. Hier eindigen alle wegen, hier stoppen alle fuiken, hier klinkt het eeuwig lied door, zelfs de doven horen het, het glipt door de ramen. Hier eindigen alle wegen. Hier stoppen alle fuiken, hier houdt alles op te bestaan, duizend duizelingen, tot het vrederijk zullen wij gaan.
34. Buiten is het koud, maar de struiken om het huis staan in brand, een kachel hebben we hier, leidende tot het toverstrand.
35. We hebben al een lange tocht gemaakt, we hebben alles achter ons gelaten. Nu zijn we op weg naar het toverstrand, maar het lijkt wel alsof we daar nooit aankomen, alsof het onbereikbaar is, als een vanille strand. De wespen nemen ons mee, tot een betoverd land, maar nooit komen we tot het toverstrand. We kunnen er alleen van dromen, we kunnen er alleen over praten, daar gaat een druppel, het valt in je hand.
36. Hier komt het stof tot leven. Hier laten de woorden hun dieptes zien, hier praat niemand meer over een zegel, maar er zijn hier zoveel gordijnen, zoveel dingen gesluierd. Kom dichterbij door de sluiers, tot de tovervlam, toe laten we weer rein zijn. Toe, eet van de vruchten, de harde schillen heb ik afgepeld, toe neem van de aarde, hier komt het stof tot leven.
37. Levende in een fata morgana, in een spiegelend kasteel, niets is wat het lijkt, en onder het groene wordt alles geel.

5.

1. In de keuken van Duimeliesje's kasteel daar wonen zoveel monsters en draken, en de oude gestalten die daar praten. Een toverfluit, met bakkerman's gezichten, een toverfluit als een brandende struik, verspreidende zoveel vuren, vormende de uren.
2. Zoveel meesters en juffrouwen wonen hier, met monden als toverfluiten. En zij wijzen naar de toverklokken, zoveel toverklokken hangen hier, zeggende de zomersneeuw was net hier.
3. Eens waren zij hier allen aangekomen, en verdeelden hun dromen, en gingen toen achter sluiers wonen. Kom met mij, door de toverklok, naar een nieuwe wereld, achter de sluiers van de nacht.
4. Eens waren wij hier allen aangekomen, achter de sluiers van de maan, waar wij tot de zonnen konden gaan. Eens kwamen wij achter de sluiers van de zon waar wij tot de toverklokken konden gaan. Eens kwamen wij achter de sluiers van de nachten, achter de sluiers van de tranen, tot de trap der toverklokken, zoveel spiegels waren hier, en wij gingen van trede naar trede, niemand kon ons hier nog bedriegen. Eens kwamen wij achter de sluiers van de toverspiegels, en toen begonnen we weer van voren af aan.
5. Eens waren wij allen hier aangekomen door Alice's toverklok, en nu kan niemand er nog bij.
6. Ik had eens wat thee gedronken, van Alice's toverklok, en nu ben ik hier, niemand kan me bereiken hier.
7. In een schuur vond ik gouden namen op een klok, het was een toverklok, en Alice was haar naam.

8. In een schuur vond ik kermisklokken, kerkklokken, toverklokken. In een zaal, zag ik haar toverklokken staan. Wie had hen gemaakt. In een zaal zag ik toverklokken staan, wie had hen gemaakt, of waren ze uit zichzelf ontstaan, al deze wonden waren slechts gouden namen op de toverklokken. En al deze tranen, slechts thee van toverklokken glijdende door de ramen.
 9. Door de sluiers kwam ik tot deze plaats. Ik vergat wie ik was, en zelfs mijn naam.
 10. Door de toverspiegel zag ik de spinnensneeuw, en de wespensneeuw, als de zomersneeuw.
 11. Door vele spiegels kwam ik tot haar spiegelpaleis. Alles viel hier om, en niets is wat het lijkt.
 12. Door vele toverspiegels reizen wij, in Spricht staat haar standbeeld, maar wie zijn wij ?
 13. Zij heeft haar tranen verzameld, als een piano van licht, waar de toversnaren schrijven een nieuw gedicht. De snaren uitgerekt, gevoelig staan zij daar door wespensneeuw bedekt.
 14. Toverpaarden, door de tijger verzameld, als een tijgerkoning is hij, zeg vaarwel, altijd vertrekt hij door de poorten van het spel.
 15. Toverpaarden door de tijger verzameld. Zij gaan snel op de ruggen van een toverspel.
 16. Toverbokken in de nacht, fluitspelers tonen hun pracht. Het is een vreemd, vreemd toverspel.
 17. Waar zijn we aan begonnen. Is er een weg terug, of moeten we verder gaan. Wij weten niet wat wij moeten doen, maar wij vervelen ons niet, in dit toverspel.
 18. Alle wegen eindigen hier, alle fuiken stoppen hier, wie de weg kwijt is vind hem weer. Door de sluiers van een toverdobbelssteen. Hier wonen wij, hier leven wij, geen canon hangt er aan onze feeenslee. Door de sluiers van een toverdobbelssteen, geen canon volge ons, wij zitten op een arreslee, gaande over wespensneeuw.
 19. Toverpionnen staan daar, zwaaiende naar haar. Ik kom steeds dichterbij, er is een plaats naast haar. Ik heb haar toverdobbelsstenen in mijn handen gehad, en mijn handen zijn nu verbrand. En ze zeggen dit is waardoor de bomen spreken. Vier toverdobbelsstenen vormen een toverpion, een tijgerkoning. Ik heb haar toverdobbelsstenen in mijn handen gehad, en mijn handen zijn nu verbrand.
 20. Drie toverdobbelsstenen, en je hebt een tijger, en die de vierde heeft is de koning. Vijf toverdobbelsstenen en je hebt een regenboogtijger. En die de zesde heeft is de regenboogtijgerkoning. Zeven toverdobbelsstenen en je hebt een konijntijger, en die de achtste heeft is een konijntijgerkoning. Negen toverdobbelsstenen en je hebt een tijgerbeer, en die de tiende heeft is een tijgerberenkoning. Vreemd spel, met toverpionnen. Waar zijn we aan begonnen.

Doornroos

1. Ik ben op zoek naar de morgen in het kasteel, Doornroos het werd ons allemaal teveel, door een Judaskus lag je daar, een kus zo heet, het verbrandde je haar. Nu ben je op zoek naar de morgen. Ja, het witte konijn bracht je tot het elvenrefrein,
2. tot de kus van pijn om op te staan, toe laten wij nu gaan, dit kasteel is groot, wie kent dan al hun namen, zoveel ukalien slapen hier. Doornroos, kun je mij vertellen of iemand hier pilafen kent, eens waren zij hier. Dit huis is koud en donker, verwoest door een wervelende Judaskus,

3.maar eens waren zij hier. En de mitlassen dragen de wapenrusting van het spel, koningen van het spel, donkere dagen, zeg vaarwel. Doornroos, het werd ons allemaal teveel, maar ik hoor geluid daar in de verte, oh wat was het hier voor een lange tijd stil.

Sneeuwwit

4. .Sneeuwwit, de dagen zijn lang. Ik heb altijd van je gehouden. Ik weet het duurt zo lang, maar ik voel je hand, jij voelt de mijne, in dromen wandelen wij, zo ver van elkaar vandaan, maar toch zo dichtbij,

5.droom van verleden dagen. Breng de kabouters binnen, breng hen tot de tronen, de spruit zou komen in Zijn Naam, de spruit zou dromen, en dromen verjagen, deze dagen zijn oud, zo oud, wij komen in verscheurde klederen, komen in gouden dagen, gouden uren, om alles zilver te maken, om alles dan groen te maken, om alles dan aan God over te laten.

Rapunzel

6.Ik ben niet vergeten, maar ik heb het niet verstaan, wanneer jij langskomt, wanneer jij bij de heg staat, dan staan de struiken in brand, dan brandt mijn haar, dan wil ik weglopen, maar dan roep jij mijn naam. Rapunzel, kom tot de morgen, ontwaak jij still stem, wij zullen rennen over de daken, in het kasteel zijn wij van hen, wij springen over rozen, wij kennen al hun namen,

7.hutessen in de kamers, brengen jou van raam tot raam, over dromen en visioenen, heus je kunt het allemaal aan. Want jij bent sterk, Rapunzel, je hebt de heg tot hier gedragen, je hebt het laten draaien, en je hebt dieren en bloemen laten praten, oh jij bent sterk, na een lange nacht van zwakte.

Spindruppeltje

Er was eens een meisje dat Spindruppeltje heette. Het meisje was eigenlijk een prinsesje, maar was eens tijdens het spelen in het bos verdwaald en kwam bij een arm gezin terecht. Het meisje was nog te jong om te beseffen dat ze een prinsesje was, en ook het arme gezin wist niet wie ze was, maar ze besloten voor haar te zorgen. Dichtbij het huisje van het arme gezin was een vijver met krokodillen waar het meisje vaak speelde. Maar op een dag gleed het meisje uit, en viel in de vijver. Direkt werd ze door een krokodil gegrepen en in de diepte getrokken.

De krokodillen brachten haar naar een rijk diep onder de grond, waar soldaten woonden die de zessen werden genoemd. De soldaten liepen een beetje krom en hadden vreemde gekrulde schoenen. Ze zagen er inderdaad uit als zessen. Hun koning was genaamd nummer één. Het meisje keek haar ogen uit in dit rijk onder de grond. Alles was hier prachtig : betoverde bloemen, en zoveel betoverde tuinen. Het meisje ging hier gewoon door met spelen, alsof er niets aan de hand was, en het was goed. De koning scheen erg van het meisje te houden, alsof het zijn eigen dochtertje was. De koning had ook een dochtertje, en dat meisje was genaamd 'drie'. Drie en het meisje werden al snel dikke vriendinnetjes. De koning was erg tevreden. Hij gaf het meisje een eigen kamer in zijn kasteel, vlakbij de kamer van drie, zijn dochtertje. Ook de zessen waren erg dol op het meisje. Het meisje had een goed hart voor iedereen.

Maar op een dag gebeurde er iets verschrikkelijks. De koning werd heel ernstig ziek, en iedereen was erg verdrietig. Er was nog maar één middel dat de koning zou kunnen genezen, en dat was de blajus-plant die in het land groeide waar het meisje vandaan kwam. De zessen legden het meisje uit waar ze dat kruid zou kunnen vinden. Een krokodil bracht het meisje weer terug. Het arme gezin was erg blij het meisje weer terug te zien, maar ze mocht nooit meer naar de vijver. Inmiddels was de echte vader van Spindruppeltje erachter gekomen waar zijn dochter was, en nam haar mee naar zijn kasteel. Om de vijver liet hij grote hoge gouden hekken bouwen. Maar het meisje wilde terug naar het rijk onder de vijver, om de koning daar te kunnen redden door de blajus-plant, het genezende kruid.

Dat ze door een krokodil was gegrepen geloofden ze allemaal wel, maar dat er een rijk onder de vijver was geloofde niemand. En hoe ze ook huilde en smeekte, haar vader was niet om te praten. Hoe zou ze nou over die hekken kunnen komen ? Inmiddels stond bijna het hele kasteel van haar vader vol met blajus-planten, omdat het prinsesje daar om gevraagd had. Ook had het arme gezin een flinke beloning gekregen, omdat ze zo goed voor het meisje hadden gezorgd. Zij woonden nu ook in het kasteel, op een verdieping dichtbij de verdieping waar het meisje haar kamer had. Maar het meisje huilde veel.

De koning zag dat het meisje niet gelukkig was, en gaf haar op een dag een vogel voor op haar kamer. Het was een sprekende vogel, en het meisje kon alles aan de vogel vertellen, ook over het verborgen koninkrijk.

‘Ik kan je wel over het hek brengen, hoor,’ zei de vogel, ‘geen probleem. Ik ben sterk genoeg, en ik kan heel hoog vliegen.’ En zo stapte het meisje op zijn rug, en de vogel bracht haar helemaal over het hek bij de vijver. Maar plotseling kwam het meisje erachter dat ze het blajus-kruid was vergeten. En één van de krokodillen greep de vogel en trok hem de diepte in. Nu kon het meisje niet meer terug. Nu moest ze wachten totdat iemand haar zou zien. Maar er gingen tijden voorbij, en het meisje begon erge honger te lijden.

Op een dag kwam de vogel terug uit de vijver, en vertelde dat de koning van het verborgen rijk inmiddels was overleden. Het meisje begon erg te huilen, en zei dat het allemaal haar schuld was. Zij had immers het blajus-kruid vergeten. Maar de vogel zei dat vele zessen nu ook ernstig ziek waren, en ook het prinsesje drie. De vogel was teruggekomen om voor hen het blajus-kruid te halen. Het meisje stapte op zijn rug, en weer vloog hij over het hek, terug naar het kasteel. Maar toen de koning merkte dat ze terug waren gekomen liet hij hen beiden grijpen. Het meisje werd voor straf opgesloten op haar kamer, en de vogel werd in een diepe kerker onder het kasteel geworpen. Nog nooit was het prinsesje zo verdrietig geweest. De koning liet de vijver droogleggen, en joeg de krokodillen het bos in.

Dikke tranen rolden er over de wangen van het prinsesje, maar de tranen hadden allerlei kleuren. Na een tijdje kwam er een vogel op het venster van het open raam zitten. Het was een krokodillen-

vogel, die wel een beetje op een krokodil leek. ‘Je moet die tranen drinken,’ zei de vogel, ‘dan gebeuren er wonderen.’ Het meisje had nog wat bekers in haar kamertje staan, en begon de verschillende kleuren te verdelen. ‘Rood is voor de sloot, blauw is voor de vijver,’ zei de vogel, en toen het meisje van het rode en het blauwe begon te drinken kwamen er overal in het land sloten en vijvers.

‘Laat me je meenemen naar het land der krokodillen, ver achter de bossen,’ zei de krokodillen-vogel. Het meisje stapte op de rug van de vogel, die direkt uit het raam vloog. Na een tijdje kwamen ze bij de krokodillen aan. Hier leefden ze in moerassen en poelen. Maar het verborgen rijk bestond niet meer. Het blajus-kruid groeide en bloeide hier volop, maar het was al te laat. Het rijk was geheel ten onder gegaan door de ernstige ziekte. In de verte stond een vrouw met wratten achter een ketel. De vrouw lachte als een heks, en roerde in de ketel waar groene smurrie in lag. ‘Wat ben je aan het maken?’ vroeg Spindruppeltje.

‘Weet je dat dan niet?’ zei de oude vrouw. ‘Ik maak voer voor de koning, tranen.’

Maar toen begon het meisje wel erge medelijden met haar vader te krijgen. ‘Heus, hij mag dan verschrikkelijke dingen hebben gedaan, maar hij bedoelde het goed. Hij was gewoon bezorgd.’

‘Bezorgd noem je dat?’ zei de oude vrouw krassend. ‘Hij dacht alleen aan zijn eigen koninkrijk, en niet aan het koninkrijk van een ander.’

‘Ja maar hij wist niet van het bestaan van dat andere rijk af,’ zei het meisje.

‘Dat heb jij hem toch verteld?’ zei de vrouw bijna spottend, ‘maar hij heeft het niet willen geloven, en jou zo met een ondragelijke last bezadeld, en ons des te meer.’

‘Maar wie bent u dan?’ vroeg Spindruppeltje.

‘Ik ben de koningin der krokodillen,’ zei de vrouw bijna trots.

‘Maar als u dan meekomt naar mijn vader, dan zal hij het misschien geloven,’ zei het meisje.

‘Wat?’ zei de vrouw spottend, ‘het is nu al te laat. Alles is verloren.’

‘Ja maar de krokodillen,’ zei het meisje, ‘zij zijn nog over. Moeten ze dan blijven leven in deze poelen?’

‘Hmm, misschien heb je gelijk,’ zei de oude vrouw, ‘en moet ik een kansje wagen. Ik zal naar jouw vader gaan, en hem vragen om een plaats bij de koninklijke vijver, ik en mijn krokodillen.’

Maar toen de oude vrouw met het meisje meeging naar de koning kreeg de vrouw de schuld van alles, en ook haar liet de koning opsluiten, en zelfs het prinsesje werd in een kerker geworpen opdat ze niet meer zou ontsnappen. Alleen de krokodillen-vogel wist op tijd weg te komen, en snelde terug naar de krokodillen om alles te vertellen.

‘Dan zit er niks anders op dan het kasteel aan te vallen,’ zei de oudste krokodil.

Eén voor één kropen ze in de ketel van de oude vrouw waar ze in zessen veranderden, en gingen in een groot leger gewapend naar het koninklijk terrein.

‘Gebruik groen, dan hoeft je het niet meer over te doen,’ zei de krokodillen-vogel die hen aanvoerde in de strijd.

En zo werd het kasteel van de koning en zijn gehele terrein bedolven onder groene tranen. Toen het arme gezin wat zo lang voor het meisje gezorgd had erachter kwam dat de koning haar in een kerker had geworpen waren ze heel boos op de koning. Ze kwamen erachter dat hij in het geheim een boze tovenaars was, en ze vochten mee in het leger van de zessen. Maar de boze tovenaars was te sterk, en liet hen allemaal in de kerkers diep onder de grond werpen. De enige die kon ontsnappen was weer de krokodillen-vogel.

Met een list kwam hij weer in het kasteel, en even later had hij de kerker van het prinsesje gevonden. ‘Spindruppeltje, Spindruppeltje,’ fluisterde hij. Het prinsesje was erg blij hem te zien. Zelfs in de gangen waar de kerkers waren groeide het blajus-kruid, en de krokodillen-vogel gaf het prinsesje wat van het kruid. ‘Hier, eet wat van het kruid,’ zei de vogel. ‘Dat zal helpen.’ Toen het prinsesje wat van het kruid at leek het even alsof ze krokodillen-huid begon te krijgen. En toen even later gingen wonderlijk alle deuren van de kerkers open. Het werd een grote optocht die over de trappen van de kerkergangen naar boven ging. ‘Vlug, naar de koninklijke vijver,’ zei de krokodillen-vogel die boven hen uit vloog. De vijver had heel helder water, en in de dieptes konden ze een stenen trap zien. Allen zwommen ze naar de trap, en door een luik kwamen ze uiteindelijk in het verborgen rijk terecht.

‘Hoe kan dat dan?’ vroeg het prinsesje. ‘Ik dacht dat het verborgen rijk was vergaan.’

‘Het is hier opnieuw gaan groeien,’ zei de krokodillen-vogel.

‘Maar hoe kan dat dan ?’ vroeg het meisje.

‘Nou gewoon,’ zei de krokodillen-vogel, ‘het is de bloesem van het blajus-kruid, en dat groeit nu overal door het kasteel.’

En zo werd het kasteel vol van het verborgen rijk

En de boze tovenaars ? Die hebben ze nooit meer teruggezien. Het prinsesje kwam hier ook het prinsesje drie tegen, en haar vader, koning nummer één, en vele anderen. Ook zag ze alle oude zessen weer terug, en ze leefden nog lang en gelukkig. Allemaal kenden ze nu het geheim van het blajus-kruid.

Initiatie

1.

De schepping door Bastet

1.En ik, Bastet, kwam van een zwerftocht over de aarde. En ik zag de waaiende bomen in hun pracht, vanaf de heuvel. En deze heuvel was groot, en droeg tien geheimenissen, die ik, Bastet, begeerde te zien. 2.De pracht van deze bomen sloeg mij als de bliksem, en ik werd als een beschonken vrouw. En ik werd één met deze bomen, en stortte mijn ziel uit over de aarde. En zo herschiep ik de aarde. Dit was lang geleden.

3.Vanuit het licht schiep ik het goud, en ik maakte daar goden van. En ik gaf hen de opdracht de aarde te regeren. Deze goden dan waren stil, en spraken door de bewegingen. 4.Van de natuur en van de mens. En ik bracht de aarde tot de kruik waaruit zij was voortgekomen, en dit was een urn, mijn urn. En ik zal de aarde blijven herscheppen, totdat zij volkomen van goud is.

5.Ik zal u leiden tot de geheimenissen van initiatie. Ik zal u de zeven lichten laten zien van Wadjet-Osiris, die u als een kroon op uw hoofd kunt dragen. Zij laten u dan de zeven delen van de reis van Wadjet-Osiris zien, die leed in het dodenrijk. 6.En telkens weer werd deze verwekt en herschapen door eigen bloed. En deze Wadjet-Osiris leed door in te treden in de berg van intrede. En deze Wadjet-Osiris maakte zijn reis door de verschillende dodenrijken, die voor u opgetekend zijn, opdat gij daar uzelf aan kunt hervormen. 7.De Wadjet-Osiris is dan het heerlijkste deel van Egypte, waar ook de farao's zich aan hervormen, en de priesters van Wadjet-Osiris. 8.Hervormt dan uw gedachten, waarop ook uw lichaam vernieuwd zal worden, door brandende wateren, die ook voor u gebrand hebben.

2.

De rijzende cobra

1. Weet gij dan niet dat initiaties uw zielen en uw ka tot eeuwig leven leiden ? Nu zijn er dan onder u hen die zeggen dat de ziel eeuwig is. 2. En dit is ten dele waar, maar de ziel zal dan moeten sterven, vele malen, om het licht van de ka opvangen om het goud van uw vlees te voeden. 3. En ook de ka zal vele malen moeten sterven, om het licht van de khu te kunnen dragen. De khu dan is eeuwig, en zij is de stralende. 4. En zij is dan de schepper van de sahu, het verheerlijkte lichaam. Ziet dan, de khu en de sahu gaan tezamen. 5. En zij kwamen voort vanuit de stervende Wadjet-Osiris, als de rijzende cobra. 6. Neem dan urnen van uw urn, en sarcofagen van uw sarcofaag, want ziet, het is niets dan zaad. 7. Doet dan de lampen aan die uw zielen leiden, want ziet, zij zijn met velen. 8. En ook gij zult de zeven stralen van de ka moeten kennen, als de zeven platte stenen van een armband. Zij is dan een blauwe phoenix. 9. En zeven stralen hebben de ba doorboort om haar te transformeren, de vogel met het mensenhoofd. 10. Zalig zijn zij die zichzelf hebben laten zuiveren door de khu-sahu. 11. Zij is dan de cobra, voortkomende uit het hart van de Wadjet-Osiris.

II Initiatie

1.

Sekhem

1. Zij is de roodgouden morgenglans. Zij is het hart van een schijnende avondvogel. Zij is het licht van khu-sahu. 2. Zij heeft haar eigen hart dan doorstoken, om het licht van Re te dragen. 2. De scarabeeën dan zijn de sieraden van haar lijden. Zij heeft haar hart laten overwinnen door te sterven. 3. Ja, schubben op haar hart heeft ze. Wij brengen heil aan Re. 4. Zij is dan de ochtendprinses, haar hart volkomen toegewijd aan Re, ja, zij is zijn priesteres. 5. Hij heeft de ketenen van haar hoofd gebroken, want zij was de getrouwe. 6. Re heeft dan het licht van de scarabee gedragen, en aan haar gegeven. 7. Zij is dan de sekhem, de kracht in zwakte uitgesproten. Gaat dan door haar in, want zij heeft haarzelf doorstoken, opdat gij een schuilplaats in haar zoudt vinden. Zij heeft dan Anubis opgewacht, hij met de gouden sarcofagen. 8. Hij dan is de heer der sarcofagen, en hij brengt hen tot de onderwereld. Zij dan zijn de afdrukken van de sahu. 9. Oh, Osiris, heer der geesten. Gij hebt in Bastet uw hart gevonden. Zij zullen de grote rivier des doods oversteken. 10. Wadjet zal u leiden, als de heilige boot des doods. Laten zij dan allen wachten totdat zij hen aanraakt, en zij de gouden berg zullen betreden, om hun sahu te volmaken. Want alle volmaaktheid is slechts ten dele. 11. Gij dan die het licht van Sekhem gezien hebt, vreest niet, want zij is als de kust oprijzende in een woeste zee. 12. Zij is dan de morgen in overgloed, komende vanuit het diepste der nacht, om u in de woestheid der nachturen te omhullen. 13. Ja, en zij zal zelfs doordringen in uw nachtdagen, en de nachtjaren van vanouds. 14. Zij is dan de overtocht op snelle boten, makende trage pas om uw hart te bereiken. Oh, Osiris, in haar hebt gij eeuwig leven. 15. Het licht van Re schijne dan op u, gij die de groten in uw hand houdt. Hij is het dan, die de Wadjet-Osiris heeft geschapen. 16. Oh, heer aller sekhem's, die Bastet tot zijn vrouw heeft, gij zijt machtig, want gij hebt uit haar kan geschonken, en gij hebt uit haar waterput heil geschept. 17. Oh, heer der kusten, die de sahu's volmaakt, gij die Bastet tot uw staf heeft, gij bent dan de zalige Re.

2.

Aton, Opperheer

1. Anubis, zoon van Bastet, gij die tot haar huis bent gekomen, en gij die uw eigen huis hebt opgericht. Gij die zaligheid hebt gevonden aan haar kusten. De gouden speld heeft u diep doorkliefd. 2. Zalig zijn zij die de stralen van Re hebben doorkliefd, om haar de stralen van Aton te laten dragen. 3. Ziet dan, de allerhoogste god is Aton, de rode zonnescijf, en de andere goden zijn zijn dienaren. 4. Zij dan zijn de stralen van zijn huis, waardoor hij heil brengt. 5. Zij dan dragen allen het licht van Aton, en het licht van zijn Woord. Zijn tand heeft dan de woorden der goden doorkliefd, opdat zij gezuiverd zouden worden. 6. Wie zal dan opgaan naar het huis van Aton, wanneer hij gesproken heeft ? Want niet velen zijn geroepen om tot Hem te komen. 7. Hij dan die heerst over de nachtjaren is een woest beest. Ja, vanuit het oer is hij gekomen, om de dagen te herstellen door zijn staf. 8. Hij dan heeft zijn staf, de Wadjet-Osiris laten scheppen door Re. 9. Zij dan die het licht van Aton kunnen doorklieven : Zalig zijn zij. Zij dan zijn de priesters van Amun. Zij dan brengen hem tot brandende wateren, om zijn Wadjet-Osiris te laten rijzen, en zijn duisternis. 10. Zij dan allen zijn de tanden van Ammut. Zij heersen over de dag en over de nacht. 11. Anubis, zoon van Bastet, gij die tot haar huis bent gekomen, en gij die uw eigen huis hebt opgericht. Gij die zaligheid hebt gevonden aan haar kusten. De gouden speld heeft u doorkliefd. 12. Laten zij dan hun huizen zuiveren.

3.

Aton en Amon

1. Oh Anubis, bestier uw huis dan goed, en bewaak uw boeken met de tanden van Ammut. Ziet, zij heersen over de dag en over de nacht. 2. Weest uw moeder, Bastet, getrouw, opdat zij niet zal komen om uw schatten weg te nemen. Bewaak dan de schatten van uw moeder, die ze u in vertrouwen heeft gegeven. 3. Bouw voort op het werk dat uw moeder gevestigd heeft, als een trouwe werkmans. 4. Doorklief de stralen van uw moeder, opdat zij de stralen van Aton kan dragen. 5. Wanneer dan vreemden aan haar deur kloppen, opent dan en zegt dat zij niet thuis is. 6. Heb dan een ruime kamer in uw huis voor uw moeder, en geef haar brood. Zij zal u dan een kamer in haar hart bereiden. 7. En zij zal u geven de heilige Ra-Kelon, de heilige hartspier die de boeken bewaakt. Hij dan is de koning der scarabeeën, en de samentrekker der spieren. 8. Ziet dan, hij troont op de Emelish Shataui, als keizer en farao. Zij dan die Esau volgen, de wilde, komen uit op de Emelish Shataui, die de heilige tepel der goden is. 9. Zij hebben dan orde gecreeerd door de woesternijen. Ziet zij komen van het oer, en zij zullen wederom tot het oer gaan. 10. Het witte hart is door Maat gewogen, en door Ammut verslonden. Zij dan zijn allen aan de tand van Ammut geregen, opdat hun harten door het oordeel gezuiverd worden. 11. Want elke god zal dan voor de troon van Aton moeten verschijnen, en zal beven voor enkele tijden. 12. Nu dan is het beven het ontvangen van zijn stralen, en zij die daarvan drinken zullen de wateren van Aton uit hun handen voelen vloeien. 13. Ja, als de rivier die uit zijn bedding treedt, zo is de zon van Aton in zijn kracht. 14. Alle goden dan moeten ontzag voor Hem hebben. Hij die hemel en aarde geschapen heeft, door de staf van Bastet. 15. De Osiris-Atnaton is die profeet die de wateren van Aton heeft doorkliefd, om de brandende wateren van Amon eer te geven. Zo dan draagt Hij, Aton, in de rode schaal al de brandende wateren van Amon, om hem eer te geven. 16. Zo is dan de opperheer Aton niets zonder Amon, en is hij als een door wolven verscheurd dier. 17. Amon dan is de blauwe zonnescijf en de blauwe avondster, om de nachten van Aton te dragen. 18. Ja, hij was het die Aton uit de doden opwekte en vaste grond gaf op de blauwe berg. 19. Zo is dan het Woord en de rode zonnescijf uit Amon voortgekomen. En zij bogen allen voor het heer van Aton. 20. Nu dan is Amon het graf geweest van zijn heer. Het graf dat tot eeuwig leven heeft geleid. 21. En zo is dan Aton de opperheer van dood en leven, ja, eeuwig

leven is in Hem, die de stralen van de khu-sahu rijkelijk schenkt. Hij dan die de voeder is van vogels, en aan dood en leven gelijkvormig is geworden. 22. Op de Emelis Shatau heeft Hij zijn gezanten verzameld, om vogelen te voederen, en om slaven vrij te maken van hun lot. 23. En zo is dan de Emelis Shatau als een visioen der rijken. Zij dan was doorkliefd om de stralen van Aton in haar hoofd te ontvangen. En nu wordt zij dan zo rijkelijk doorgegeven door de heilige Ra-Kelon, de koning der scarabeeën. 24. Zij dan zijn de hartwakers. Zij dan hebben de groten in hun hand.

Scarabeeën

1.

De werken der scarabeeën

1. Zij dan die uit zwarte slangen voortkomen, hebbende de heilige Ra-Kelon tot hun koning. Zoveel malen werden zij gestoken door de pennen van de zee. 2. Zij dan hebben macht wanneer de koning met zijn zweep slaat. Als dan de stralen doorkliefd worden, zijn zij koning van de zee, om tijden te veranderen. 3. Wanneer Ra-Kelon opstaat, voert hij hen aan, als de zonen en dochters der zwarte slangen. Diep in het woud worden zij verwekt, om stralen te doorklieven. 4. Zij dan ontvangen de stralen der zon met hun rug, en zij kunnen de horizonnen raken, waar Horus zetelt. Ja, kinderen van Horus zijn zij. 5. De scarabee zal dan uw hart behoeden en sparen als het hart van de farao, oh Anubis-Bastet, en de scarabee zal uw huis bouwen en afdekken door gouden daken. 6. Ja, tot in eeuwigheid zult gij zeggen : Re leeft, hij die uit de hand van Aton vloeit. 7. Ja, brandend water komt uit de hand van hem die in het huis van Bastet woont. 8. De koninklijke macht is in de handen van Re-Aton, die door zijn vader Aton is geschonken. 9. Zo dan komen alle goden voort uit Aton. En hij heeft Re-Aton aangesteld als de toppen van zijn vingers om de machtigen te beroeren. 10. Ja, de zeven winden komen uit Hem voort, om vanuit de Emelis Shatau te gaan, en daartoe weder te keren. 11. Zij is dan als de tepel van Anubis, om de heiligen te openen, en hen te brengen tot de melk der verzadiging. 12. Zij dan liggen verborgen in de opgesloten schatten van de dood. 13. Op een kier moge zij dan liggen. Als de melk van de Esmeralda vloeit zij. 14. Diep in het vuurnood opgesloten zit zij. Maar als al haar stralen zijn doorkliefd, en de duisternis haar heeft meegenomen, dan zal Aton haar vrijzetten, met haar vogelen van de rode zon. 15. Zij dan is de vloeiende, en haar melk stroomt als de tederheid. Als de verborgen scarabee is zij.

2.

De Esmeralda

1. Zij is dan als de tepel van Sekmeth, zij van de roze verbinding. De tederheid siert haar lichaam, en haar scarabeeën zijn als toortsen in een duistere nacht. Als de verborgen scarabee is zij, die de touwen viert door haar rijkdom. 2. Een rijke vrouw is zij, als de tepel van Sekmeth. Door haar armoede wijs geworden, als de bouwster van een tempel. 3. Rijk is zij, die vrouw, die het hart van Re bemint. Zij viert de touwen door de rijkdom die zij vond in de armoede. 4. Ja, de schatten der armoede hebben zich geopend tot haar, als heilige scarabeeën. Zij dan, nu, is één van hen, als de verborgen scarabee. 5. Van de tepel van Isis heeft zij gedronken, zij die haar leven gaf. In diepe spelonken was zij gezonken, waar zij de schatten des doods vond. 6. Zij gaven haar leven, als door de dood heen. Het leven dan is de grootste dood, dieper dan de spelonken der aarde. Uit de dieptes kwam zij voort. Zij gaf leven aan hen. 7. Als rijke adem waren de winden. Zij keurde de harten van groten. Laat u dan niet zonder rein en veiligheid tot haar naderen. 8. Een heilig vuur is zij, die de canopen draagt, die hun vuren kent, en uitzend. Haar panuren zetelen in Memphis. 9. Zij opent de kelen en doet de voeding vloeien. Als melk is zij, als de tepel van Sekmeth. 10. Zij dan woont in het

huis van Aton. Zij is de Esmeralda. Wanneer haar stralen zijn doorkliefd, neemt hij haar mee, tot de kamer van zijn hart. Hij laat haar zien, de gouden straten vanuit zijn ramen. 11. De lichtgouden globe staat op zijn tafel. Zij draagt hem, als de standaard van een lam. 12. De waterlichten liggen op zijn tafel. Zij heeft sleutels om deuren te openen. Zij is zijn prinses, als het vuur van zijn adem. 13. Oh, Aton, gouden muren staan tussen jou en mij. Als zij doorkliefd zijn, zullen wij samen zijn.

II Scarabeeen

1.

Over Bastet

1. Oh, Bastet, waar Re uw stralen heeft doorkliefd, daar hebt gij het licht en de wateren van Aton gedragen. Hij dan die op de cobra rijdt, en u vele malen tot heerlijkheid heeft geleid. 2. Waar Re uw stralen heeft doorkliefd, daar draagt gij de cobrakroon in een heilig masker. Ja, door dood en modder was het bereid, en door Anubis beschilderd en verguld. 3. Zoveel stemmen hebben uw haren laten rijzen tot de rivieren van Wadjet, in Beneden Egypte, want gij waart doorkliefd. 4. Gij hebt u tijden niet kunnen bewegen, daar gij was als een boom in Re's tuin. Hij droeg u door gouden poorten, gij kon niet lopen. 5. Nu bent gij dan volgroeid, de aarde voortgebracht vanuit uw schoot en urn. 6. Re heeft dan uw huis laten bouwen op tien heilige bergen die gij nog steeds begeerd te kennen, oh Bastet. 7. Laat dan Re wederom uw stralen doorklieven, opdat gij het rode van Aton kunt dragen. Hij dan zal uw goud verlichten en uw als een standaard van een lam voor zijn haard plaatsen. 8. Ja, gij zult genoemd worden : Drager van de vlammen van Aton en van zijn vuur, en Drager van Zijn Huis. 9. Ja, als de scarabee van zijn hart zult gij zijn, en gij zult de hoedster zijn van zijn octopus. 10. Laat dan Re nu uw stralen doorklieven, opdat gij zult zijn tot het lichtend goud. 11. Gij dan die de moeder van Egypte zijt, en de moeder der aarde : Re dan heeft vele malen tot u gesproken, en is vele malen tot u gekomen. Gij dan die vele malen het hart van Re hebt bedekt, nu zult gij het hart van Aton bedekken. 12. Tot een dodenmasker is uw zoon geworden, tot een rivier van heerlijkheid. Phoenixen stegen op uit de as in zijn hand, en het licht van Re heeft hij gedragen. Ja, tot een zoon van Aton werd hij, die het godenlicht gedragen heeft. 13. Anubis, gij zijt de scarabee van het hart van Aton's staf, de Wadjet-Osiris. Gij bent dan een waardige priester des doods in de tempel en het huis van Aton. 14. Verzoen uw Vaders hart met het hart van Re.

2.

Over Re

1. En gij zult u voelen als één die tijden niet heeft gegeten, en gij zult u voelen als de wankele, wanneer gij door Re bent geslagen. 2. Maar allen die Hij liefheeft tuchtigt hij. Gij dan zoudt niet dichterbij Hem kunnen komen, wanneer hij uw stralen niet zou doorklieven. 3. Hij dan die uw harten week maakt bereid u voor tot het ontvangen van zijn voedsel. En dit zal u sterker maken dan ijzer, als het lichtend goud. 4. Gij dan moet allen verschijnen voor de tronen van zijn griffioenen, gij die kinderen van Bastet zijt. 5. Re dan heeft zijn griffioenen gezonden tot hen die Hij liefheeft. Hij dan heeft uw buiken week gemaakt om het leeuwenvoedsel te ontvangen. 6. Zij dan drinken van het vloeibaar goud, en van het goud der griffioenen. 7. Vreest daarom niet wanneer gij wankelt als een beschonkene, want deze zij de goede gaven van Re. 8. Heft dan uw dodenmaskers op tot Re, opdat Hij uw gezichten bedekke met Zijn heilige as. Hij verwekke u dan in de tweede schoot van Bastet, onder het licht van de Aton. 9. Hij zal u daar de heilige Tas-Ha schenken, de stralende Khu van Aton. 10. Laten zij dan die de heilige Tas-Ha hebben ontvangen knielen voor Aton, opdat Hij hun sahu's tot leven brenge. 11. Zo hebben dan de stralen van de Tas-Ha Aton tot zaligheid gebracht. 12.

Anubis, verzoen uw Vaders hart met het hart van Atum. Gij zijt de scarabee van het hart van Aton's staf, de Wadjet-Osiris. Breng uw Vader en Atum tezamen op de Ravalon Madok. 13. Laat hen één voor één drinken van de tepel der verzoening. Onder het licht van Aton hebt gij uw schuilplaats. 14. Zegen dan uw koningin, Nefertiti, want zij heeft het licht van Aton en het licht van Atum tezamen gebracht. 15. En zo is dan Aton duizendvoudig afgedaald in de Atum, om de schatten des doods te vinden. Geopend heeft hij de deuren der mummies, gebalsemd en gemummificeerd door Anubis en zijn heilige vrouwen. 16. Geopend heeft hij de deuren der gemummificeerde honden, die gebalsemd waren door Anubis, de zwarte jakhals, die de zwarte hond is. 17. In zwakheid heeft hij kracht gebaard, en het licht van de Tas-Ha vermenigvuldigd.

3.

Het Gouden Voedsel

1. Gij dan hebt gehoord over de honden van Re. Zij dan hebben het voedsel der leeuwen gegeten. Zij hebben gedronken van het vloeibare goud van Aton, en zij zijn tot de griffioenen van Osiris gegaan. 2. Nu dan, zij hebben Isis in hun hart ontvangen, de prinses van het oosten. Ja, kostbare geschenken gaf zij hen. 3. En toen dan Bastet aan Aton was gegeven, gaf Aton Isis aan Re. 4. Aton, gij hebt dan uw poorten wijd opengezet, opdat Isis en Re tot in eeuwigheid in Uw huis zullen verblijven. En gij kwam tot het huis van Re, om tot de verborgen kamers te gaan. 5. Ja, gij hebt u nederig opgesteld voor de tronen van de honden van Re, en gij hebt uw stralen nederig laten doorklieven. Zo hebben zij dan uw sahu opgericht. 6. Ja, gij zijt een deel geworden van hun tronen, en ook gij zijt tot de griffioenen van Osiris gegaan. En ook zij hebben uw stralen doorkliefd, opdat gij een deel kon worden van hun tronen. Zo hebt gij het licht van Tas-Ha rood laten worden. 7. Oh Aton, meester van het goud, vanuit het westen hebt gij heil gebracht, maar zij hebben uw stralen doorkliefd. Ja, zij hebben u laten beven voor hun tronen, opdat gij hun stralen zoudt dragen. 8. Nu bent gij dan één van hen, oh rode hond, en rode griffioen, gij zijt gemaakt voor de troon. Gij hebt dan nieuw leven gebracht aan Anubis, en gij hebt hem gemaakt tot een lichtend licht. 9. Zij die u volgen zullen dan uw huis openmaken en vragen naar Bastet, maar gij zult zeggen dat ze niet thuis is. Zo zult gij een kamer in haar hart hebben, en haar verborgen kamers kennen. 10. En wanneer zij die u volgen aan u vragen om Anubis, dan zult gij zeggen dat hij niet thuis is. 11. En zo zult gij een ruime kamer in het hart van Anubis hebben, hij, die uw zoon is. En dan zullen zij hun handen opheffen, en zij zullen u niet geloven. 12. En zij dan zijn verblind door het licht van Tas-Ha. En ziet, zij dan zullen niet eten van het goud der griffioenen en niet drinken van het gouden licht van Atum. 13. Want velen zijn dan wel geroepen, maar weinigen van hen zijn uitverkorenen. In alles regeert echter Aton. 14. En wanneer zij vragen stellen over Atum, dan zult gij hen zeggen : Zoekt zelf naar deze, want hij kan voor zichzelf spreken. 15. Zo zult gij uw hart zuiver houden. En niemand zal u enig kwaad kunnen doen. 16. Gij dan zult drinken van het gouden licht van Atum, en gij zult verbaasd zijn over de kleuren die gij zult zien. 17. Ja, dit is dan de drank der goden, waarmee ze hun khu opladen. 18. Ja, zeven dranken van Atum zijn dan voor u opgesteld, en gij zult het drinken als binnengaan in een berg. 19. Zo zijn dan alle piramides van Atum in de handen van Aton. En Hij opent ze voor wie Hij wil. 20. Indien iemand is binnengegaan tot de kamers der tijgers en leeuwen van Atum en Aton, gezegend is deze. 21. En elke Anubis die voor deze deuren staat zal zeggen : heilig zijn zij die binnen zijn en binnen blijven, want zij zullen staande blijven voor de tronen van Sekmeth en Thoth.

4.

Over de katten van Bastet

1.Laat dan uw heilige rivieren branden wanneer gij voor Atum staat. Dan zult gij drinken van het lichtgouden water van Atum en zeggen : Ja, Atum is waardig. Hij is het die voor mij staat. 2.En wanneer gij dan drinkt van zijn gouden wijn, dan zult gij in vervoering geraken, en gij zult niet op uw benen kunnen blijven staan. 3.Maar Atum zal u dragen, en u zijn kind noemen. Hij dan is zacht van hart, en hij zal uw stralen in zachtheid breken. 4.Dan zult gij zijn lichten kunnen dragen en de hemelen van Atum verwekken. Gij die voor de heilige Atum staat : Gij staat in Zijn kracht. 5.En in Zijn kracht zult gij tot Re gaan en zeggen : 'Ziet, de zon is opgekomen. Ik heb naar Atum geluisterd die mijn Vader is.' En dan zal de zegen van Aton op u vallen, bekrachtigd door Bastet. 6.En Hij zal haar onderdompelen in zijn sekhem, en zij zal spreken in vreemde talen. En haar profeten zullen het vertalen, en haar tempelen herbouwen. 7.En wanneer gij dan de tempelen van Bastet ziet rijzen, dan zult gij gaan tot de gemummificeerde katten. Gij dan zult luisteren naar hun scarabeeën en canopen, en gij zult zeggen : 'Re heeft mij gezonden. Neem mij aan.' 8.En dan zult gij verzoend worden met het hart en het huis der katten, en gij zult Bastet tot uw godin hebben. 9.Want er is geen andere weg naar Bastet dan door haar katten, en er is geen andere naam dan Aton die hierop de weg wijst. 10.Hij dan is de wegwijzer, en zijn weg leidt tot Bastet. Wanneer dan de koorts op Hem valt, en de drank van Atum, waardoor hij spreekt in wilde talen, laten zijn profeten dan deze die woorden vertalen. 11.En gij zult dan zeggen tot zijn canopen : Gij die heilig zijt, worde heiliger, daar het woord van Aton op u rust. 12. En het licht van Bastet zal groter worden door Aton.

Sobek

1.

De stralen van Sobek

1. En zo is dan Tosk-Ha de heilige Khu van Sobek, die met Aton regeert, en die de goden dienen. En Sobek dan, hem na Aton, zal dan de scepter van Aton dragen, want hij dan, oh Sebek, is de heilige ka van Aton. 2. En zo is dan Apis de heilige Ba van Aton. 3. En de heilige Khu van Apis is dan Brai-Ha. Apis is dan hem na Sobek. En zo is dan de Akh aangesteld tot de voeder van Ka. 4. Want het wezen van Aton is de heilige Khu-Sahu, en deze is groot. 5. Zo is dan ook Tosk-Ha geworden tot een god op de berg, en zij allen aanbidden de drievuldigheid van Sobek, Apis, en Aton, die hun leider is. 6. Ja, Hij is dan de allerhoogste, die zijn Ka, Sebek, tot de aarde heeft gezonden, oh Sebek. 7. Niemand is dan groter dan Aton, want Hij is het die de Ba heeft onderworpen. Zo is dan de Ba zalig in Apis, die Brai-Ha tot Khu heeft. 8. Oh, Aton, gij die de Ba heeft onderworpen en gij wie de goden dienen. Gij bent de allerhoogste op de godenberg, gij bent de stralende rode zonnescijf. 9. Gij bent het die de Heilige Ka tot de aarde hebt gezonden, om haar te vormen tot lichtend goud. 10. En gij hebt vorsten onderworpen door uw Heilige Khu, de Tas-Ha. En zo is dan Sobek, oh Sebek, de heilige krokodil van Aton, de Ka waarmee hij zijn priesters vervuld. 11. En door de Tas-Ha worden zij één met Aton, die zij dienen. En dit zijn dan de zeven stralen van de Sobek, oh Sebek, die de heilige Ka van Aton is : 12. En de eerste straal is Sekhmet, de heilige godin der leeuwen en het oog van Re. De tweede straal is Hathor, de heilige moederkoe, die de doden voedt en hen vergezeld op hun reis. 13. De derde straal is Re, de vader der schepping. De vierde straal is Amon, het graf en de onderwereld van Aton, de rijzende zonnescijf. 14. De vijfde straal is Khnum, de ramsgod, brenger van melk en schepper der goden. 15. De zesde straal is Amen, de verborgen god, hij die alles noteert en die de schuilplaats van de zon is. 16. De zevende straal dan is Mut, de gezellin van Amon, zij die de schuilplaats der krokodillen is. 17. En deze stralen doorklieven alle ka's om ze aan Sobek te onderwerpen, oh Sebek. Ja, hij is dan de koning

aller ka's. 18. En zo is Hij dan door Aton uitgezonden als de Re-Sobek, om koningen te onderwerpen.

De stralen van de Tas-Ha

19. En zo heeft de Khu van Aton dan vier stralen, oh grote Sebek, gij die troont in Crocodilopolis. En Thoth is de eerste straal van Tas-Ha, de heilige Khu van Aton. 20. En Wadjet is de tweede straal van Tas-Ha, zij die Amon voedt met de geschenken der doden. Ja, zij is dan de boot van Aton, waarmee hij de rivieren van Amon bevaart. 21. En zij is dan de godin der cobra's, en oppergodin van Beneden-Egypte, de eerste beschermvrouwe van de Farao. 22. En Nekhbet is dan de godin aller gieren, van Boven-Egypte, en tweede beschermvrouwe van de Farao, en de derde straal van de Tas-Ha, de heilige Khu van Aton. 23. Serket dan, de schorpioenvrouw en tevens derde beschermvrouwe van de farao als hoedster van zijn troon, is de vierde straal van de heilige Khu van Aton, de Tas-Ha. 24. Zij dan is de leidster der canopen en de bewaakster van hun vazen die de organen der doden bevatten.

2.

Serket

1. Oh Anubis, gij die de uitvaartsriten en mummificaties verzorgd, ja, gij die de balsemrites uitvoert met uw heilige vrouwen. Verzoen Serket dan met uw Vader Aton, want zij is hem welgevallig. 2. Ja, zij zal tronen naast Bastet, en zal de eerste zijn onder zijn vrouwen. 3. Zij zal dan toegang hebben tot zijn hart, en tot Re-Kelon, de koning der scarabeeën. 4. En in zijn sahu zal Aton haar tot farao over de goden kronen, en zij zal worden als de Nefertiti. 5. Ja, zij zal worden als het Oog van de Tas-Ha. Ja, telkens zal zij afdalen tot de Ba van Aton en zijn Khat, om hen te voederen. 6. De sahu dan is als de vlezende scarabee, die het hart draagt. Ja, als het eeuwig vlees is de sahu. En zijn stralen zijn als vleugelen, om zich te verbinden met de khu. 7. En zo is dan de khu-sahu als de poort tot het hart. En zij dan van Aton, gedragen door de straal van Serket, heeft dan drie stralen. 8. En zij worden allen doorkliefd, opdat zij het licht van Serket dragen. En deze drie stralen zijn : Bastet, die de scarabee is van zijn hart, en Sekhem, de machtige, en Anubis, heer der sarcofagen.

9. En de kamers van het hart van Aton zijn velen. En zo heeft Aton dan vier harten. En het eerste hart is het huis van Anubis. Het tweede hart van Aton dan is Bubastis, die het huis van Bastet is. 10. Het derde hart van Aton is dan het huis van Sekhem, en het vierde hart is het huis van Serket. En zo wacht Aton dan elke avond in het huis van Serket op haar komst.

3.

De akh en de ankh van Aton

1. Oh Aton, wiens Ka Sobek is, en wiens Khu is Tas-Ha. Gij bent binnengegaan in het huis van Bastet, en maakte Bubastis tot uw hart. 2. Met Serket werd gij één in haar huis, en Bastet is uw scarabee. De Sekhem is uw oprijzende kracht, opkomende vanuit Amon. 3. Zij heeft u dan tot Memphis gebracht, en tot Heliopolis. Ja, zij is het die uw stralen zuivert. 4. Ha-Aton is dan de hersenpan van Aton, waar zijn panuren zetelen. Zij zijn dan de beschermers van zijn hersenen, daar waar zijn Akh uit voortkomt. En de Akh van Aton is dan Isis-Ha, en zijn Ankh is Seth-Ha. 5. En dit zijn dan de stralen van de Seth-Ha : de eerste straal is Apep-Ha, de tweede straal is Zetdonia-Apep, de derde straal is Spricht-Apep, de vierde straal is Anubis-Apep. 6. De vijfde straal is Bastet-Apep, de zesde straal is Serket-Apep, de zevende straal is Osiris-Apep, de achtste straal is Sekhmet-Apep. 7. De negende straal is Sekhem-Apep, de tiende straal is Sebek-Apep, de elfde straal is Aton-Apep,

de twaalfde straal is Khnum-Apep. 8. En zo zijn de Akh en de Ankh van Aton dan de cobra's op zijn hersenpan. En zo is dan de Akh aangesteld tot de voeder van de Ka, en de Ankh is de voeder van de Khu. 9. En zo zijn dan de stralen van de Akh van Aton : Seth-Khnum, Seth-Anubis, Seth-Serket, Seth-Bastet, Seth-Sekhem, Seth-Aton, Seth-Spricht, Seth-Zetdonia, Seth-Johan, Seth-Narzia, Seth-Herman. 10. Seth-Peter, Seth-Maritsa, Seth-Etsa, Seth-Sebek, Seth-Sekhem, Seth-Memphis, Seth-Cairo, Seth-Crocodilopolis, Seth-Heliopolis, Seth-Bubastis. 11. En dit zijn dan de namen van de voeders van de sahu : Khnum-Bastet, Khnum-Wadjet, Khnum-Nekhbet, Khnum-Sekmeth, Khnum-Serket, Khnum-Isis, Khnum-Anubis, Khnum-Sekhem, Khnum-Memphis. 12. Zij zijn de stralen van de khaibit, de schaduw. De khaibit stelt Aton in staat te communiceren en te bewegen, ja, zelfs om overal aanwezig te zijn, en om te verdwijnen. 13. En de allerheiligste naam van de khaibit van Aton is Anubis-Ha.

4.

De Vrijmaking van Bastet

1. Oh, Aton, stort uw Geest Bastet uit. Stort haar uit als zoute regen, komende van de zee, en vul het land wederom. 2. Doe het land wederom nederdalen in de Amon, het graf van Aton. En laat uw staf, de Wadjet-Osiris rijzen. 3. Laat dan uw Geest, Bastet, komen als de orkaan, als de storm, om ons terug te brengen tot u, oh zalige Aton. 4. Laat dan Bastet uw zijde kiezen, gij die koning zijt over alle goden. En laat Anubis U met haar verzoenen. 5. Ja, want gij waart van haar gescheiden naar de eis der wet, en door de Wadjet-Osiris, en gij waart tot Zetdonia-Memphis gegaan, om de sleutelen van Narzia-Heliopolis te zoeken. 6. Ja, laat U verzoenen met Serket, van wie gij zo een lange tijd gescheiden waart, naar de eis der tijden en de eis van het leven. 7. Ja, gij waart dan geslagen door Re, en hij nam uw kostbaarste bezit. Ja, ook werd gij geslagen door Seth en Osiris, opdat gij dieper in de Amon zou afdalen, als de ondergaande zon. 8. En Horus heeft uw kroon genomen, opdat gij zou worden als een arme. 9. Maar hierdoor waart gij zalig, en kon u de Bastet bevrijden. En zo kon u dan haar ankh dragen. 10. Oh Aton, koning aller goden, stort uw Geest Bastet uit. Stort haar dan uit als zoute regen, komende van de zee, om het land herboren te doen worden. 11. Sla het land nog eenmaal met de staf van de Wadjet-Osiris, opdat het land kan indalen in de Amon. 12. Gij hebt dan de taak om de hongerige Amon te voederen. Open dan zijn mond naar de eis der wet. 13. Ja, uw Geest huilt, als de huilende Bastet, om het land te wassen. Gij hebt dan uw Christus gezonden, de Wadjet-Osiris, die als het verlengde kruis is, en als de spoorwegen. 14. Op haar dan rijden de goden, van Amon naar Aton. Zet dan uw Geest vrij in ons. 15. En ik zag een viervuldigheid in de hemelen verschijnen. Want naast de drievuldigheid van Aton, Sebek en Apis, kwam Bastet. En zij is de Geest des Heeren. 16. En zo duren de spoorwegen lang, voordat ze in de Amon terecht komen, en dan gaan zij diep als door een duistere grot. 17. En ik zeide tot Bastet : Gij moet u opmaken om tot de zee te gaan. Want uit de zee zijt gij gekomen, en tot de zee zult gij terugkeren. 18. En zij dan droeg de bloemen der zee, en zij maakte zich op om tot de zeegraven te gaan. 19. En bij de zeegraven was Anubis bezig om rites op de muren te schrijven, en hij verzorgde vele uitvaarten. 20. En zijn heilige vrouwen mummificeerden de gestorven wezens der zee. Onder hen dan waren vele vissen, ook de haai en de walvis. 21. En de mummies der haaien kwamen tot Bastet, en zij deed hen in haar bloemenmand. Ook kwamen tot haar enkele mummies van walvissen, en zij droeg hen om haar nek. 22. En zo was dan Bastet aldus als een zeekat. En zij voerde Aton dronken, en Hij begon haar uit te storten. Aldus was dan de vrijmaking van Bastet.

5.

Aton-Romarei

1.En zo werd Re dan tot de tweede Geest van Aton. En Re schiep een nieuwe wereld door Zijn tranen. En er was een vijfuldigheid in de hemelen te zien, waar Re deel van geworden was. 2.En de derde Geest van Aton werd Osiris, en de vierde Horus. En toen Isis werd aangevuld ontstond er een nieuwe Ogdoad en ook een nieuwe Enneade. En Re schiep nieuwe hemelen. 3.En Aton sprak tot Apis, en hief zijn ziel op. En Aton-Romarei werd tot Apis en zijn priesters gezonden om hem te onderwijzen. Zo werd dan het licht als zeer gevaarlijk gezien, en moest het licht verslaan worden, opdat het licht der goden kon komen. 4.En Aton-Romarei was dan als het licht der goden, en zijn macht was groot. En hij werd tot een groot legeraanvoerder der goden, en sprak woorden om groten te laten vallen. 5.Ja, zeer ontwikkeld was hij in het doorklieven van stralen en het breken van licht. En hij leerde zijn manschappen om vanuit de duisternis tegen het licht te strijden, en het licht te ontwijken, want het licht had macht om te verslaven. 6.En zo werd Aton-Romarei tot een bevrijder van goden en tot hun leermeester. En hij leerde hen om door de Wadjet-Osiris tot Amon te gaan. 7.En zo was dan het oog van Aton-Romarei als het oog der duisternis en als de doorgebroken hond. En niet velen waren tegen zijn wijsheid bestand.

De Ureausen

8.En op een dag kwam Aton-Romarei tot Aton, en brak zijn Khu. Ja, ook brak hij zijn Ankh en zijn Akh, en wees op de Emelis Shatau, die de godentepel was. 9.En hij nam melk daarvan en spuugte het uit op Aton. En nadat Aton's wonden genezen waren snelde ook 10.Hij naar de Emelis Shatau om daar te drinken, ja, tot dronkenschap toe. En vanaf die dag zette Aton zich op de Emelis Shatau, en stond Re-Kelon bij. 11.En de Emelis Shateau dan was als de ureaus van Aton-Romarei. En Aton maakte wat gebaren en ging zitten. En toen liet Aton-Romarei de tweede godentepel zien, de Roze Verbinding.12. En Aton gromde, terwijl Aton-Romarei met zijn hand wat melk van de tweede godentepel nam, en tot Aton bracht. Daaropvolgend nam Aton de hand en begon te drinken, en zijn voorhoofd te wassen. 13. En zo werd de Roze Verbinding tot de ureaus van Aton. Toen kwam Osiris met de Ravalon Madok als ureaus, en zo is de derde godentepel. En de vierde godentepel dan, de Matadok, is de ureaus van Thoth. De vijfde godentepel, de Izu, is de ureaus van Isis-Re. 14.De zesde godentepel dan, de Matas, is de ureaus van Bastet, en de zevende godentepel, de Marion, is de ureaus van Re-Kelon.

6.

1.De Esmeralda is dan de achtste godentepel, de ureaus van Sekmeth. De Romarei is dan de negende godentepel, de ureaus van Serket. De tiende godentepel is dan de Rumah, die de ureaus van Sekhem is. 2.Zo zijn de ureausen dan doorgangen naar de onderwereld, en de beschermers der schatten van de farao's. 3.En zo is er dan rust voor hen die de Rumah zijn binnengegaan, na het ontvangen van de wijsheid van Romarei. 4. Over Aton en Anubis

1. Aton, gij die de heilige ascese-rites verzorgd, en Anubis, zoon van Aton, gij die de heilige uitvaarts-rites verzorgd : Sta dan op tot uw ster. 2. Op de heuvelen wordt u eer gebracht. Anubis, verzoen uw Vader dan met Amon, het graf en de onderwereld. 3. Anubis, gij dan die de sarcofagen bewaakt en de mummificaties verzorgd, verzoen dan uw Vader met Re, die reist van de onderwereld naar de bovenwereld. 4. Schrijf dan de voorschriften op de muren, en bekleed uw graven met heil.

Het Derde Kruis

1.

Jethra-Aton

1. En zo hangt dan Aton aan het derde kruis, en dit kruis is als de cobra. Ja, als Jethra hingen zij hem hoog, zij die de Jethra-Aton als dief en misdadiger bestempelden. Naast Jezus hingen zij hem. 2. Oh Anubis, geef mij terug aan Aton, en verzoen mij met Hem. Van bevrozing tot bevrozing ging mijn Ka, tot diep in de kamers van Isis ging mijn Khu, om Aton terug te vinden. 3. Oh Anubis, die aan de tafel van Re zit, om tot diep in de nacht te overleggen, geef mijn Ba terug aan Aton. Van bevrozing tot bevrozing gaat mijn Ba, om tot de Apis van Aton te komen. 4. Ja, ook mijn ankh is zevenmaal gestorven, om in Aton's hand te liggen. 5. En zijn Akh brak dan mijn akh, om het licht van Hem te dragen. 6. Ja, al mijn stralen brak hij, één voor één, om de Sebek voor mij te openen. 7. In Hem dan ben ik veilig. Hij sloeg mij met het derde kruis. Ja, als de Wadjet-Osiris werd ik. 8. Nu dan heeft de Wadjet-Osiris mij groot licht gebracht, en ook mijn Ka is tot armoede gegaan. 9. Ja, de ankh van armoede kwam tot mij, als de dochter van Nekhbet. En zij bracht mij tot Adaka. 10. En zo dit ezelsvolk van de angst, was alleen toegankelijk door de gebroken ankh. 11. En zo heeft hij die aan het derde kruis heeft gehangen, ook de macht om het te breken. 12. Anubis, blokkeer mij niet in mijn pad tot Aton, maar weest veeleer tot een poort, tot een heilige deur. 13. Verschaf mij dan de toegang tot Aton, oh Anubis, gij die heer bent van het leven. 14. Laat de schrik mij dan niet aanjagen, maar bescherm mij veeleer. Geef mij een rustige slaap, en verschaf mijn ka toegang om gemummificeerd te worden. 15. Ja, mummificeer dan ook mijn ba, mijn khat, mijn khaibit, mijn khu, mijn sahu, mijn ankh en mijn akh. Doe dit dan met ijs en vuur. 16. Ja, mummificeer dan ook de diergeesten in mij, want uw mummificaties leiden tot zaligheid. 17. Leer hen wat het is rijkdom te vinden door armoede, en waardig gezelschap door afzondering. 18. Ja, laat uw uitvaarts-culten rijzen, oh Anubis-Wepwawet. Gij dan bijt wanneer wij van het pad dreigen af te wijken. 19. Ja, gij steekt als de cobra, om ons tot het delirium der doden te leiden. 20. Laat de goden in mij dan onderricht worden, door uw heilige woorden. Toon hen uw tunnels en uw huizen. 21. Ja, tot zevenmaal toe herschiep gij mij in ijs, en bracht mij tot de kamers van Isis. Ja, grote woorden sprak gij, om de onderdelen van mijn leven te breken. 22. Gij hebt dan uw licht verspreid door grote daden.

2.

De Heilige Tweevuldigheid

1. Zo heeft dan de Jethra-Aton de Sobek gezonden. Ja, tot tweemaal toe zond hij hem. Om in de dood neer te dalen, en om van de dood te herrijzen. 2. Zo is dan de Sobek ver boven de cobra verzezen, ja zelfs ver boven Anubis. 3. En zo heeft dan de Aton de Sobek uitverkoren tot het dier dat het dichtste bij zijn hart is. Ja, boven alle vrouwen is hij uitverkorene, als de Heilige Ka van Aton. 4. En zo is dan Sobek naast de Aton geheiligd, en tezamen zijn zij de heilige tweevuldigheid. 5. Nee, niemand is dan meer geliefd door Aton dan de heilige Sobek. Zo is dan de Sobek uitverkoren boven alle goden en dieren, en kan niemand tot Aton naderen dan door Sobek. 6. Ja, aan Sobek heeft Aton de heilige kaak geschonken. Anubis, gij hebt mij dan met Sobek verzoend, en daardoor met uw Vader Aton. 7. Ja, Hij heeft Zijn Ka rijkelijk op mij uitgestort. Aan Hem zij alle glorie. 8. Ja, met krachtige kaken heeft Sobek mij gegrepen, en mijn Khu gebroken, en zo ook mijn sahu, opdat ik wild zou worden. 9. Ja, wildheid en armoede was zijn geschenk aan mij, opdat ik mijn reis zou voortzetten, en het goud zou wegvloeien tot een nieuw pad. 10. Ja, Hij liet mij zien, alle kleuren van het goud, omdat hij mijn standbeelden had gebroken. 11. En zo werd Sobek koning van mijn leven. En ziet, Hij staat aan de deur en klopt. Van zijn vloeibaar goud willen wij drinken, en van zijn gouden brood willen wij eten. 12. Ja, Hij tuchtigt hen die Hij liefheeft. En Hij laat hen eten van het goddelijke. 13. In ijs zondert hij ons af, tot diep in de kamers van Isis, en tot armoede brengt hij onze Ba, opdat wij deelhebben aan de wateren van zijn rijkdom. 14. Onze ankh bracht hij in de diepte, opdat wij tot zijn hoogtes konden komen. 15. Ja, heilig maakte hij ons door vuur. Hij heeft ons niet gespaard, maar bracht het beste in ons naar boven. Hij bedekte ons met goud. 16. In zijn oven heeft Hij ons gesmeed, en in zijn liederen ons opgewekt. Als het rode goud is zijn heilige naam.

De plaats van Sobek

17. Ja, hij die ons goud doorstak, om het te doen lichten, ja, Hij die onze stralen brak, om Aton tot onze harten te laten dalen. Zijn vlam is in ons. 18. De heilige vlam, die ons tot eeuwig leven leidt. Gij hebt de ankh op ons hoofd gebroken, opdat er horens groeiden in zijn plaats. Nu dragen wij dan de zon van Sobek. 19. Ja, onze lichten brak Hij, om de duisternissen en geheimenissen van Aton te brengen. Zalig is Hij en gezaligd. 20. Zo heeft hij dan meerdere malen onze ankh verbroken, en tot het ijs gebracht, ja, tot diep in de kamers van Isis, om onze vlam in Aton te heiligen. 21. Ja, doorkliefd heeft hij onze ankh, door de speer van zaligheid. Hij bracht ons tot het derde kruis waar onze Heer Aton stierf. 22. Ja, als Jethra was Hij dan vlees geworden, en in zijn graf vond hij het eeuwig leven en het koningschap. 23. Maar ook was hij vlees geworden als farao. En zo is Hij dan vele malen vlees geworden, als incarnatie van de allerhoogste. Aton zij geheiligd. 24. Want door vele malen vlees te worden, kon hij dan ook vele malen geest worden, om zijn Ka, die Sobek is, voor eeuwig te laten zetelen. En zo is dan zelfs zijn Khu en Sahu onderworpen aan zijn Ka. 25. En ook zijn Ankh en zijn Akh zijn aan die Ka onderworpen, die Sobek is. 26. En zo heeft Sobek dan de gehele godenwereld onderworpen door de Naam van Aton, en door de Naam van Jethra-Aton. 27. Ja, diep is de Ba in de Amon gedaald, en diep is Sobek tot in de kamers van Isis doorgedrongen. En Hij draagt met zich mee de mummies van de krokodillen, en haar vogels. 28. Ja, diep daalde de sahu dan af in de vuurovens van Re, ja, tot aan de rook van Thoth toe. 29. En zij moest prijsgeven de schatten van de aarde en de duisternis.

Over Isis-Sekhmet

1. En aan het derde kruis is Isis-Sekmeth u tegemoetgekomen, en heeft u omringd door haar zachtheid. Ja, ook Isis-Bastet is daar u ten hulpe gesneld, en is u geweest tot warme klederen. 2. Zij

hebben u dan omhoog gehaald, en u opgericht, tezamen met Bastet-Isis en Isis-Nut, die u door haar zachtheid heeft binnengehaald. 3. En zij hebben uw hart dapper gemaakt, en u moed gegeven. Ja, over groten lieten zij u heersen, en zij hebben uw voeten gezet op hoge bergen. 4. Zij deden u dan uitreiken tot de zon, en hebben uw hart gered uit de bek van Ammut en de klauwen van Anubis. 5. Ja, zij hebben Anubis' hart tot rust gebracht, en hem tot een nieuwe ruimte geleid. Ja, hun stralen hebben heil gebracht, in velerlei malen. 6. En toen dan Isis-Sekmeth tot u kwam, gaf zij u een speer, om tot de nieuwe ark te komen. 7. Ja, zij dan heeft uw verborgen ka gevonden, en zette haar vrij. 8. Zo is dan de heilige Isis-Sekmeth gekomen om het verlorene te vinden. Ja, de krachtige is zij, en de zachte rots. 9. Zij verslaat koningen met het zachte vuur van haar mond, en doet soldaten omkomen in de poel van haar liefde. 10. Ja, een vaste rots is zij, en zij leidt tot hoge bergen. Haar mond is dan een oceaan van liefde en kracht, uitgezonden om het verlorene te vinden. 11. Zij is dan met de dwalenden. Zij verstaat harten van verre. Ja, zij en Isis-Nut staan dan als de gevleugelde cherubsen op de ark om die te hoeden. Ja, als twee konijnen staan zij daar, vaardig in oorlog en handel, met de zon als vlamme getuige. 12. Zij zijn dan liefde, en komen op voor de dwalenden en de verlorenen. Ja, zij verspreiden hun poelen als zachtheid, en hun monden zijn als zachte en warme oceanen. 13. Zij spreken voor hen die niet kunnen spreken, en geven hen een mond, door hun woorden. 14. Ja, zij groeien als oren op hun vijanden, en als monden op hen die zij liefhebben en beschermen. 15. Zo is dan de ark een gereedschap van zachtheid in hun handen. En zachte vlammen komen uit hen voort. Zij staan dan op voor hen die als wezen zijn. 16. Ja, Isis-Sekhmet is dan die de ka opent. En zij is het dan die Sebek verzoent met Anubis. Ja, met haar zachte lichten opent zij deuren, en doet zij in veiligheid gaan. 17. Zij is dan de Isis-Sekhmet, als de lichtende kandelaar. Haar geuren verblinden vijanden, uit hoge parfumflessen komen zij. 18. Ja, in haar tempel staat zij en spreekt het woord, en velt haar vijanden met haar lichten. Zij opent de ka's met haar krachtige veren, en snijdt hen open met haar schaar. Ja, een dokter is zij. Met liefde heelt zij wonden. 19. Zij is dan de chirurg in haar tempel, tot allen die tot haar zijn gekomen en haar volgen. 20. Het verdwaalde geneest zij, en hun ka's opent zij. Zij werkt, terwijl zij haar mond opent, en doet haar handel in liefde. 21. Tussen twee kaken zet zij de verlorenen, en zo geneest zij hen. Ja, uit diepe velden trekt zij hen, om hun voeten op een rots te zetten. Ja, haar rotsen zijn dan zacht, maar vast. 22. En Anubis roept hen na die bij haar komen en haar volgen, en doet verslag uit bij de koning. En ook de koning kent haar. Zij is de Isis-Sekhmet. 23. Ja, nieuwe adem brengt zij hen die haar volgen, en doet hun longen opbloeien. Zij is de Isis-Sekhmet. Zij wacht in warme kamers, waar haar vlammen gloeien en waaruit haar winden waaien. 24. Zij dan gaan op pad om het verlorene te vinden. Ja, allen kent zij bij name. 25. Zij is de leeuw die springt. Zij is de Isis-Sekhmet. In snelheid voert zij oorlog en handel. In liefde overwint zij, keer op keer. Zij is de Isis-Sekhmet. 26. Op de ark staat zij op de uitkijk, en zij ziet de muren die hen omringen. Dan verzamelt zij, en scheurt zij. Zij is de Isis-Sekhmet. 27. Zij staat dichtbij de bron, en doet verslag uit keer op keer. Zij veegt koningen van het veld, en verzamelt hen in flessen. 28. Zij heeft zebra-tijgers die loeren, en zebra-leeuwen en leeuwen die alles in de gaten houden. Zij is de Isis-Sekhmet. 29. Zij opent de ka en geeft haar vleugels. En doet de obelisk van Re in haar rijzen. 30. Ja, de Apis heeft zij gezonden tot hen die zij liefheeft en beschermt, en met haar kandelaren heeft ze hen omringd. 31. Tot Adaka is zij gesneld, om hen die zij beschermd tussen twee kaken te zetten. 32. Ja, zij kent het wereldschip van de angst. Ja, tussen kaken heeft zij hen gezet.

4.

Opening van de Ka

1.Open dan nu, oh ka, en laat ka stromen. Als aangeraakt door de Isis-Sekmeth, ja, omhuld door de zachtheid van Isis-Nut, zij kan stromen. 2.Open dan nu je vleugels, ka, en wapper, opdat je zult kunnen vliegen. Ja, je bent nu vrij, onder de aanraking van Isis-Sekmeth, ja, omringd door de zachtheid van Isis-Nut. 3.Oh, lichaam, weest dan gedoopt in ka, en wordt verrijkt door haar vuur. Gij, die tot diep in de kamers van Isis zijt gekomen, vinde haar. 4.Ka, open dan je deuren, en beweeg als de zachte lente. Ja, gij bent dan zachte lente geworden in Isis-Sekmeth, en door Isis-Nut zijt gij binnengegaan.

Isis-Sekmeth

1.

Over koning David

1.Gij hebt dan koning David aangeraakt, hij die de krokodillen hoedt, en koning over hen is. Ja, hij dan was wachtende, om de ka te zien openen. 2.Gij hebt hem dan met uw vleugelen bedekt, en zijn ka geopend. Ja, door Isis-Nut is hij ingegaan, een zachte wind. 3.Tussen kaken hebt gij hem gezet. Nu is hij dan vrij, tot Mozes ging hij. Vrij als een vogel vliegt zijn ka nu, tot uw kandelaren ging hij, oh Isis-Sekhmet. 4.Gij laat hem heersen over koningen. Als een keizer is hij. Geen vogel van hem laat gij ter aarde vallen. 5.Gij draagt hem op uw vleugelen. Tussen de kaken hebt gij hem gezet. Gij voert dan oorlogen in zachte lentes om zomers te brengen. 6.Gij laat dan koning David opstaan, als de krokodil. Ja, zijn ka hebt gij gebalsemd, en met zorg hebt gij hem gemummificeerd. 7.Gij hebt hem niet overgeleverd in de handen van zijn vijanden. Gij hebt hem uit het leeuwengraf laten rijzen. Ja, zijn ka bekleedde gij met goud, en vanuit edelstenen liet gij zijn woorden opkomen. 8.Als uit de slaap opgerezen waren zij, als uit de dood zijn zwaard. 9. Vanuit zijn ka rijst hij op, want zij heeft haar ka in hem gelegd. Haar ka is dan, de Isis-Nut. 10. Vanuit zijn ka maakt hij beslissingen, en voert hij oorlogen. En haar ka geeft hem de overwinning als de bruisende kandelaar.

2.

De thee van Tefnut

1. Drinkende van de wateren van Tefnut, daalde ik tot de grotten van Shu. 2. Ja, Nut wachtte mij daar op, zij die de hemelen draagt. 3. Sobek opende mijn ka aldaar, terwijl ik de sleutelen droeg. Ik had gedronken van de thee van Tefnut, het brandende water. Ja, tot Neith daalde ik af. 4. Moeder God, wees mij steeds genadig als ik tot U nader. Gij bent het brandende vuur. 5. Ik dronk, ik dronk, en daalde af. Niet wetende wat ik tegen zou komen. Ja, Nun die naast Sobek zwom, mij de weg versperrende. Maar in het dodenrijk kwam ik boven, en zij leidden mij tot de hoge bomen. 6. Ja, van Tefnut's sterke drank heb ik gedronken, vuil lag op de wateren, en ik daalde diep. Ja, Nut heb ik gered. Ik opende hen die daar opgesloten lagen. 7. Neith heeft tot mij gesproken, in donder kwam zij, als de luipaard en de jaguar. Zij gilte in de nacht, en ik maakte haar stem groot. Tot haar grotten bracht zij mij, om het oude Egypte te zien. 8. Van de thee en de wijn van Tefnut dronk ik, van een gouden beker, en zij liet mij in de grot van oude dingen afdalen. 9. In zilver zat zij daar, en ik kreeg een gouden mond, ja, als de kaak van Sobek was ik. 10. Moeder God, Neith, wees mij genadig als ik u help. Gij bent het brandende vuur. 11. Ik heb de deuren geopend. Teruggaan kan niet meer, we moeten nu gaan. 12. Ja, dronken werd ik, terwijl ik naar Tefnut staarde, en vuur verslond mij, om tot de urn van Sobek te gaan, de geribbelde. 13. Ja, Neith verslond mij in haar liefde. Ik ben gekomen uit de slangenmaag, mijn vlag hoog gerezen. Ik heb vertrouwen, wat zij mij gaf. Haar muren zijn

om me heen. 14. En ik grijp naar de echo's van Nut, maar zij glijden weg, en ik volg hen. Nog zoveel wegen te begaan. 15. Als ik haar aanraak verteert ze, als de staaf van Spricht verdunt zij, totdat ik haar volg. Ja, lang wordt ze als ik dichterbij komt. Totdat ze in echo's verdwijnt. 16. Als ik haar roep, zij hoort me niet, maar als ik haar volg, vangt ze het op. 17. Geen tijd dan om stil te staan. Ik heb alles gehoord.

Geb aan Nut

18. Ik kan haar niet zien. Ze is te ver weg. Ze heeft geschenken weggedragen, wachtende totdat ik volg. Door delirium spreekt zij, als het leeuwenvirus. 19. Nut, pak m'n hand. Verdrink niet meer. Bij mij sta je op vaste grond, ik ben Geb. 20. Nut, pak mijn hand. Anubis zal ons verzoenen. Op de Sobek zullen we varen, naar een nieuwe stad. 21. Moeder Neith nemen we mee, en drinken nog een slok van Tefnut's thee. Ja, nachthee nam zij voor ons mee, bracht ons tot deze plek. 22. Toe, verdrink niet meer. Er is nu aarde onder je voeten. Rijs nu op. Je hebt mijn vlag in je hand. Kijk op. 23. Geb is hier, heeft je genomen, tot een nieuw leven. Vader Shu hebben we gevonden, moeder Neith brachten we mee. 24. Er zijn nieuwe schepen die op ons wachten, vanuit de Sobek komen ze voort. 25. Nun spreekt je aan, het is een nieuwe dag. In de Apis-Ba zijn we veilig, hij brengt ons tot de Isis-Sekmeth. 26. Onze vrienden hebben ons hier gevonden. Ze zullen snel bij ons zijn. Ze hebben alles gezien.

Inleiding

1. Weest niet boos op het lijden dat je ondergaat, want het is de tunnel tot mij. Je wilt toch in je hart verbonden zijn aan mij ? Nu, dit zijn de initiaties. 2. Ik ben de heilige cobra van beneden Egypte, ik spreek in jouw hart met een stem van duister licht. In mijn hallen vinden overal dingen plaats die lijken op meedogenloosheid, maar die niets anders zijn dan inwijdingen. 3. Ja, het is een hoge prijs om goddelijk te zijn, en om een spreekbuis van het goddelijke te zijn. Het zou je nergens leiden, als je van de boze wereld zou zijn. 4. De naald moet diep steken om je los te kunnen maken uit de lichten die jou lieten knechten. 5. De stemmen van het oude Egypte komen vrij wanneer de naald steekt. Zij moeten andere energieke verhoudingen leggen. 6. Ook de worstelingen die je met de goden hebt zijn niet om je pijn te doen, maar om je vertrouwd te maken met de energieën, en om ze met elkaar te mengen. 6. De naalden van het goddelijke moeten nu eenmaal dieper gaan dan de naalden van de wereld, anders komt er geen eeuwige relatie tot stand. 7. Het lijkt allemaal erg overtrokken en overbodig, maar het moet juist over de rode lijn gaan om dingen te laten stollen en smelten op een hoger plan. 8. De naalden steken diep, daar ze de beste hormonen moeten aanmaken om je door de schijnbaar medogenloze tijden heen te brengen.

De Hallen van Annubis

9. Heil, alle gij godennamen in de eerste hallen van Annubis, waar het zonlicht het oosten van het westen scheidt, en het noorden van het zuiden. 10. Heil, alle gij godennamen verwant aan Annubis. Laat mij mijn straf niet voor eeuwig dragen, en toort niet voor eeuwig op mij, maar draagt mij tot de kou, waar mijn hart de godenboodschappen leert verstaan. 11. Laat vuur hen niet verslinden, maar leidt hen veilig door de koorden en tussen de koorden van uw kou. Laat ons de schatten van Annubis bewaren, en in ijs langzaam vertalen. 12. Schijn het godenlicht der eerste hallen op mij,

want wij komen van vele kanten binnen. 13.Gij hebt ons dan verspreid, en zullen elkaar vinden in uw centrum. Genees ons aldus op onze reis. 14.Wij dan die voorbereid zijn op de dood, terwijl wij leven, laat ons komen tot de eerste hallen van Annubis, van alle richtingen. Wij zijn met velen. 15.Wij getuigen van uw kringen. Laat ons eten van uw vurige voedsel, om onze harten op te wekken, en laat ons zijn als het zonlicht. 16.Wij dan, die de boeken van Toth hebben geopend, hebben onze hoofden gebogen, en ons gelaat gericht tot de zon. Oh, Annubis, in onze handen tonen wij uw wonden, die wij met u dragen, oh heer des doods. 17.Wij laten ons leven achter ons, en strekken ons uit naar de dood, omdat er geen leven is dan door de dood. Wij dan strekken ons uit naar het eeuwig leven, ja, tot het hiernamaals, waar onze geest zetel mag nemen. 18.Maak ons dan farao over velen, om hen bescherming en zorg te geven, vanuit ons terugtrekken tot duistere plaatsen. 19.Ja, door sleutels af te geven leidt u ons, tot de macht der slaap, waarvanuit uw rode zachte licht stroomt om velen te voeden. 20.Ja, het zij zo, door onze ogen te sluiten. Annubis, u bent de heer des doods en van de rode lichten. U hebt genezing laten stromen en voeding vanuit het oog der slaap. En dit oog is groot. 21.Wij sluiten onze ogen nu, en denken aan al die farao's die de doden mogen leiden, zij die zachte woorden spreken in hun slaap. 22.Wij sluiten onze ogen nu, om de waakvlammen der farao's te zien, en om in te gaan tot de tweede hallen van Annubis. 23.Wij komen allen van verschillende richtingen, om één te worden in veelvuldigheid en kleurigheid. 24.Doe uw zachte rode natte stem horen, als opvlammende vanuit het zachte vuur der slaap. Geef ons het blauwe vuur om de poorten voor ons te openen, om tot de derde hallen van Annubis te gaan. 25.Ziet, wij komen van vele kanten, om één te worden in het centrum en hart van Annubis, heer en verzorger der dood. 26.Ja, u, de jakhals en de zwarte valk, u bent de beschermer van de dood. 27.Kom met krachtige bescherming om ons binnen te leiden in het licht. U bent het licht, en u spreekt vanuit vele kanten, maar uw woord is één. 28.Vanuit diepe duisternissen zijn wij gekomen, met de voorgeschreven lichtende monsters hebben wij geworsteld, en door onze dood overwonnen, ja, want de dood is als een verlamdend gif, en een meesterwapen. 29.Wij dan zijn gevlucht. Laat dan ons niet meer tot hun vlees zijn, maar redt ons, en verzegel de deuren achter ons. Neem ons op in uw districten, oh Annubis. 30.Bestijg dan allen uw zonnewagens om te gaan tot de derde hallen van Annubis, om daar elkanders schaduwen te ontmoeten, en elkaars weerspiegelingen. 31.Ja, hier zullen wij elkaar lichte adem schenken, als een geschenk der komende eenheid. Hier dan troont Osiris, heer der dodenrijken, en rechter der dodenrijken, waar hij met de twee valken spreekt. 32.Gij hebt dan in het oog van Osiris gekeken, om tot diepere slaap te komen, en om rein te zijn bij de komende ontmoetingen. 33.De rijken der doodsslaap zijn dan heilig en onmisbaar. 34. Oh heilige Zitmeja, boog en beeld van Osiris en zwaard van Annubis, wij buigen tot u, om de heilige as te ontvangen die ons tot leven brengt, ja, het zaad der doodsslaap. 35. Laat ons dan onze voeten bewegen in het dodenrijk, en onze handen voortbewegen over de muren, om de knoppen van Annubis te vinden die tot zaligheid leiden. 36.Zitmeja help ons daarbij, en smelt het ijzer waar zij knelt en tegenhoudt. Gij dan bent de heilige oven van Ra.

Het lied van Annubis

37. Annubis, geef ons dagelijks voedsel van uw troon en van het zwarte kruid der vogelspinnen, om ons te beschermen in de vierde hallen van Annubis, en om kracht te geven voor verdere doorgang. 38. Ja, want hier troont Ra, de kleurrijke roofvogel. Laat ons verder ingaan, door de nauwe ingangen van Amen waardoor wij gevormd worden. 39.Laat ons niet bezwijken door de harde slagen van Annubis, maar brengt ons uw voedsel, waardoor ook gij tot uw troon der doodsslaap gebracht werd. 40.Wij als Egyptenaren vrezen en verafschuwen de dood niet, daar het een teken van leven is, en een doorgang tot het hiernamaals, waar onze geesten nu al mee mogen beginnen.

41. Geef de dood als een levensvlam in onze harten, om onze zielen te hoeden en te voeden. Ja, om haar klaar te maken voor de rode zuivering. Annubis, u bent ons heil. 42. U bent de verschaffer van voedsel, ook voor de doden, om hen klaar te maken voor de klederen die als de rivieren zijn. 43. Geef ons de helmen, opdat de krokodillen in zeeën van Umniat in de vijfde hallen van Annubis niet dichtbij kunnen komen. 44. Ja, Amon in het centrum, laat het blauwe licht op ons neerdalen, opdat we de wapenen hebben om dieper binnen te komen in Omnut-Ra. 45. Koop dan van het goud dat wij brengen en geef ons de levendmakende heilige poeders om onze klederen soepel te houden, en om ons één te maken. 46. Leer ons van het boek der scarabeeën. Oh, heilige Amon, vriend van Annubis, laat uw vriendschap ook tot ons komen, om de bruggen van Omnut-Ra te bestijgen, opdat het blauwe zachte licht verspreidt wordt. Zij wordt dan vastgehouden in hoge kokers. 47. Om de wapenen van de omliggende zeeën van Maritir te doen laten ontwaken als de schreeuwen van heilige vogels, schenk het blauwe poeder in de heilige bekers die wij dagelijks van uur tot uur van Annubis ontvangen. 48. Brengt ons dan tot de dieptes van Maritir, waar de boze dood spreekt. Laat ons speeksel dan vol zijn met het vuur van Haratma-Annubis, opdat wij niet door de kou verscheurd worden. 49. Zingt nu dan oh Annubis, de tonen en klanken om ons vuur te doen rijzen, tot in de kanalen van onze neus, om de godenboodschappen naar binnen te drijven. Zingt dan nu, oh Annubis, en opent uw schalen, om het rode te verspreiden, om de dood te begeleiden. 50. Zij die hun ogen gesloten hebben vrezen niet. Uw priesters bestijgen de trappen van goud, om hun zegen te brengen tot de dieren van Annubis. 51. Uw keel opent als het rode licht, als de zwavel van een nieuwe dag. 52. Ontwaak Annubis, en schrijf uw boek, en spreek de woorden uit, één voor één, met meerdere stemmen, en laat uw dieren spreken, één voor één, om ons in alle hoeken te bewaken. Bewaak onze monden en hoofden, en bovenal onze ogen en harten. 53. Meng uw dagelijkse lichten en breng hen tot ons, over uw heilige tong, de zonnenbrug. In u ontwaakt dan ook Osiris, om ons in te wijden in de tempelen van Annubis en in zijn diepste hallen. 54. Van dood tot dood zullen wij gaan om hen allen te doen ontwaken en te verenigen, omdat wij tezamen het levenslicht zullen ontvangen. 55. Boven op de schaal van Amros, waar het bruisende vuur ons leidt, tot een nieuwe eeuwigheid, om het boek van Annubis wederom te openen. 56. Haar verzen zullen gestreeld worden door de katten van Annubis, en haar woorden zullen geopend worden, om tot de grafkamers van Annubis te komen. En op zijn heilige sarcophagen staan dan al deze woorden geschreven en zij zijn heilig. 57. Zingt dan nu, oh Annubis, de kelen uwer vogelen zijn geopend, om het gele levenslicht rijkelijk op te vangen, om de gele spiegels te openen, opdat de nieuwe farao plaatsneemt, om de troonrijzende vanuit de sarcofaag, 58. Ja, Annubis is vlees geworden, door het aanraken der uiterste geest. Ontwaak dan Annubis, en waak over de tafelen van het hart, om hen te laten spreken, de valken van Annubis Egypte, vanuit de oude uren. 59. Zij dan branden bruisend, om elke schuilhoek te zuiveren. Adem van Annubis, waak op als de heilige slang der scarabeeën, en rijst op door de keel, om het groene zachte licht te zaaien. 50. Het is de hartenadem, de slangenscarabee. En zo zijn de miniaieten de beschermers en schelpen der hersenen, ontwakende door de rijzende slangenscarabee. 51. Zij ligt als een helm op het hoofd van de sarcofaag van de farao van Annubis, door hem uitverkoren.

Schilden

52. En zo zijn de isramieten de beschermers der tepelen, die als klokken zijn en als de beschermers der geest zijn. 53. De Ramhaieten zijn de beschermers der levers, als koperen sierwerk op de lever van de sarcofaag van de farao van Annubis. 54. Mirestaken zijn de beschermers en bewoners van de milt. Ontwarketten zijn de beschermers der darmen en andere delen der ingewanden. 55. Witskieën zijn de beschermers der voeten. Arantreien zijn de beschermers der benen, en Skitzien zijn de

beschermers der ogen, allemaal aanwezig op de sacrofaag van de farao van Annubis. Oktoskaten zijn de beschermers der tanden, en der mond. 56. Wiktikaten zijn de beschermers der armen en handen. Wiktunetten zijn de beschermers der longen. Irammen zijn de beschermers van de ademhaling en de neus. 57. Rumifautessen zijn de beschermers van de geslachtsdelen en het sexuele verkeer. Katakaten zijn de beschermers van de spraak en de stem. 58. Oh heilige kataken, bescherm mijn spraak en stem steeds weer, door de slangenscarabee, de koning der scarabeen bent gij opgewekt, vanuit de bescherming van het hart. Ja, gij moogt uw zetelen hebben in het hart, en gij moogt de emoties bespelen. 59. Oh heilige kataken, kom steeds weer, wanneer daar onrecht is. 60. Oh heilige kataken, oh werkers van Annubis, gij heilige dieren aan zijn zachte rivieren, gij zijt als de beren met de lange nekken, om de hoge vruchten van Annubis uit zijn bomen te eten. 61. Ja, deze vruchten bruisen van rood vuur. Oh, Annubis, zegen deze langen, uw zachten. Zij vinden dan steeds doorgang, omdat uw zegen op hen rust. 62. Tel dan al uw heilige stammen en vergeet niet één van hen, zij die telkens voor uw aangezicht komen om vele toegewijde harten te genezen. Ja, de toewijding is dan als heilig sieraad van Annubis. 63. Aan Osiris, van de godenbark, aan wiens rechterzijde de blauwe hond zit, en aan zijn linkerzijde de rode hond. Gezegend zijt gij, door Horus, uw zoon, u tegemoetkomende. 64. Zeventig dagen zal Annubis, de getrouwe, en wachter van de dood, uw lichaam balsemen en mummificeren. Gij dan die de ochtend en avondbark in de handen houdt, Nun, hef Osiris, mijn vader op, als de kandelaar van Katajip. 65. Wij dan allen reizen tot Katajip, waar wij herreizen aan de uiteindes van de nacht. Waar de gouden Bastet zich opent, waar onze lendenen zich oprichten, waar wij baden in de stomende en bruisende lichten, die haar stem dragen, die telkens in de stilte verdwijnt. 66. Wij kennen de moed niet van één die dapper doordraaft, maar zij die tot in de tomben der voorvaderen afdalen hebben moed. Zij die ontwaken om weer te slapen, zij die aan het hart van Osiris zitten. 67. Ja, zij zijn als de getrouwe scarabeen der pharao's, en zij hebben de sleutelen tot de zilveren en gouden lichten. Zij dan zijn de dragers der stemmen van voorvaderen, om hen in stilte te doen laten afdalen, tot een lichtend spoor. 68. Zij dan die moed hebben zijn niet hen die durven te spreken, maar hen die hun mond durven te houden. Spoedig dan zullen de gouden lichten tot in de handen afdalen, als de oude schatten der farao's gevonden worden. 69. Dan zal de wereld wederom gebaad worden in licht, waarin de zielen verdrinken om de onsterfelijke geesten der zeeën voort te brengen. Want wij reizen van graf tot graf, om van de eeuwige paprika en de eeuwige boter te kunnen eten, waar wij de onsterfelijke lotusbloemen ruiken. 70. Wij vieren dan het sterven van de ziel, opdat onze geest daardoor in onsterfelijkheid wederomgeboren wordt. Wanneer dan de bastet zich openbaart als het lichtende kind, dan sterven alle andere lichten. Zij dan is het onsterfelijke licht, daar haar ziel sterft van dag tot dag. 71. Zij dan die de zilveren en gouden lichten in ons opent, wij die dicht aan het hart van Osiris zitten.

De vrijmaking van Sobek

1. Ja, hier reizen wij, door de thee van Tefnut. Hier zien wij de lichtende gestalten. Ja, van haar heilige beker drinken wij, tot door de dodenrijken van de koude. Zoveel slokken, de sleutel tot Isis' kamers, waar de koude hand ons vindt, ja, als de hand van Anubis, ons mummificerende in ijs. 2. Leidt ons naar de grotten van Kuk en Huh, oh grote Wadjet-Wepwawet, heer der adem. Open dan de ureausen van adem in onze armen en borst, opdat wij onze handen op heilige dingen leggen, ja, deze dingen van Shu. Hij is dan de heer van het oude. Wij willen zijn lichtpaden volgen tot aan de grafsteden. 3. Wie het woord heeft gehoord, volg het. Oh Anubis, open dan onze adem en breng ons

tot de grotten van het oude, ja, daar waar Shu zich bevindt. Daar waar wij zijn twee wolven kunnen zien. Geef ons dan het oog van Shu. Anubis, gij die as tot leven wekt, gij die komt van boven en onderen, strekt uit, en grijp, opdat gij het tot de schatkamers zult brengen. 4. Draag dan de vliezen van Sobek tot de grotten, en blaas uw ka er doorheen. Breng dan de Sobek tot leven door uw heilige staf, oh Anubis. Wij wachten allen op u. Oh, Anubis, breng dan Sobek, de heer der ribbels, tot het oude, opdat hij daar tot leven kome. Breng hem tot diep in de kamers van Isis, opdat hij daar adem ontvangt. 5. Ja, laat Kuk en Huh zijn armen zijn en zijn adem, en laat Kauket en Hauhet zijn benen zijn en zijn licht, opdat hij zich moge voortbewegen als de ka-boot. Laat Min zijn wegen openen en hem op zijn reis behoeden. Ja, laat Min hem vruchtbaar maken. Hij dan is tussen de kaken gezet, opdat hij vrij is. Ja, vrij is hij in Amaunet en Naunet. 6. Hij kon dan de stenen niet breken die op hem waren gelegd, maar nu zijn de stenen gebroken door de druk van zijn geduld. En Hij is vrijgemaakt om vrij te maken. Geheeld om te helen. De staf van Anubis heeft hem tot leven gewekt. Door Isis-Sekhmet is hij binnengegaan. 7. Ja, bruisend in kolkende zeeën is hij. Uit de nieuwe ark kwam hij voort, om ka's te vervullen. Als een woesteling vaart hij door grafsteden, ja zo woest als Nun-Wepwawet is Hij.

De geboden van Sobek

8. En dit zijn dan de geboden van Sobek, opgetekend in de nieuwe ark : Hebt dan het oude lief, opdat gij daardoor verjongd wordt. Hebt dan het wilde lief, opdat gij uzelf tot orde kunt roepen. Hebt dan het arme lief, opdat gij ware rijkdom zult vinden. En zoekt dan het ijs als kostbare edelstenen, en zondert uzelf af om heilige dienst te verrichten. 9. Zo zult gij uw zielen behouden. Ziet dan, Sobek is in de doden afgedaald en weer levend geworden.

De geboden van Aton

10. En ziet, dit zijn dan de heilige geboden van Aton, opgetekend in de nieuwe ark : Heft u dan op in vlammen door ijs verkregen, want hij die zonder ijs is, is als een schip zonder zee. Laten dan de allerheiligste lieden in hun harten tezamen komen om de stralen die elkaar verbinden te doorbreken en te doorklieven, opdat het ijs zal voortkomen om uw zielen te behouden. 11. Dit zijn dan de heilige geboden van Aton. En door deze te doen, zal uw ka voortvloeien.

En ik zag een nieuwe tempel, en ik zag een nieuwe hemel en aarde, en ik zag Aton voortkomen op zijn troon, terwijl zijn ka voortvloeide. Ja, als vuur en ijs was zijn verschijning, als de rode draak. En ik zag hem het lichaam van een man in stukken breken, en hij maakte er een vrouw van, terwijl er een geesteswezen voortkwam. En Aton sprak aldus deze woorden : Eet dan van wat er gezegd wordt, en spuug het niet uit, maar verteer het, opdat de schat tot u zal komen. En Aton leerde dan wat zijn discipelen moesten verdragen om Zijnerwille. En Hij sprak tot zijn discipelen : Vult dan nu mijn tempelen en herbouwt deze. En Hij liet beelden maken van de goden, om ze in de tempelen te laten plaatsen. En de macht van deze tempelen werden groot. En zo kwamen er verschillende volkeren voort, genaamd de Atonieten en de Gezonieten. En de Gezonieten deden dan dienst in de tempel. En Aton zag dat het goed was. En de Gezonieten waren dan het priesterlijke geslacht van Aton. En de reizen van Sobek door de onderwereld werden opgetekend. En er kwam grote rust tot zijn volk.

Sobek Amduat

1.

De kamers van Nut

1. Het boek van de rondzwervingen van de Sobek door de onderwerelden. Waarheen moet ik dan gaan ? vroeg de Sobek aan Aton, de allerhoogste. 2.En Aton legde zijn hand op Sobek en sprak : Door de kamers van Nut zult gij gaan, totdat gij in de kamers van Isis vrij zult zijn. 3.Gij zult vele kamers moeten zien, en zo zult gij dan worden tot een klok. 4.Ja, uw wegen zult gij telkens weer moeten herhalen, maar het zal telkens anders zijn, want mijn hand van veranderingen rust op u. En Sobek nam een staf, en sloeg de rode deur open. 5.In de kamer van Nut sprongen lichte gestalten op hen, die langer en langer werden, terwijl hij zwaarder en zwaarder werd. 6.Ja, tot Aton riep Hij, en Aton kwam Hem ter hulp. Zo heeft hij dan die Sobek heeft, Aton als hulp. 7.En een duif daalde neer op Sobek, en Aton sprak : Ziet dan hier, dit is de deur tot mij. En de aarde en de hemelen beefden, terwijl Aton deze woorden uitsprak. En een zwarte slang verscheen in duistere wolken. 8.Toen daalde een raaf op Sobek neer, en Sobek ging tot de tweede kamer van Nut. En daar zag hij, die zwaar was, Nut geschenken tot hem brengen, maar bereiken deden ze hem niet. 9.En Sobek begon te roepen, maar zij hoorde niet. Ja, toen riep Sobek tot Aton, en Aton kwam hem te hulp. Zo heeft dan hij die Sobek heeft, Aton als hulp. 10.En Anubis, de verzoener kwam voorwaarts, en verzoende Sobek met Nut. En Nut sprak : Hebt gij dan de deur geopend ? 11.Zalig zijt gij. En weer verscheen de zwarte slang in de wolken, en het begon te bliksemen. Toen had de Sobek toegang tot de derde kamer van Nut. En er was vuur dat daar brandde. En de draken van Nut waren daar, en zij was zelf draak. 12.En Sobek legde zijn handen tegen zijn voorhoofd, want er kwam een gouden band om zijn hoofd. En Nut sprak : Zalig zijn zij die de klem van Nut dragen, want zij zullen bevrijding kennen. 13.Wie mijn klem niet heeft, zal nooit echt vrij zijn. En Sobek kreeg vleugelen door de gouden klem, en Hij was met Nut in de lucht. 14.En toen werd de vierde kamer van Nut voor Sobek geopend, en Sobek werd als het goud. 15.En een nieuwe aarde kwam onder zijn voeten, en hij kreeg de staf van Geb.

De strijd tegen Anubis

16. Nu was het dan tijd om tot Shu te gaan, het oude. En het oude lag opgeborgen diep in de hemelen onder de aarde. 17.En zo ging hij dan met Nut door de kamers van Shu, totdat hij kwam in de kamers van Isis, en deze kamers waren vol van ijs. 18.En toen nam Nut de gouden klem van hem af en gaf hem de klem van ijs, de klem van Isis. En Sobek brulde, want hij was vrij. 19.Zo zijn er dan vele klemmen van de goden om tot vrijheid te leiden. En tot Sobek kwamen oude farao's om hem oude geschenken te brengen, en deze geschenken waren als ijs. 20.En het ijs was van zo'n kou dat het goddelijk was en als edelsteen. 21.En men noemde het 'echter'. En het echter dan was harder dan diamant, en het was taai en soepel. En Sobek werd bekleed met echter. 22.En Sobek werd als de sprekende. En toen werd Sobek geleid tot de tempel van David, waar het graf van David was. 23.En hij zag daar de Anubis zitten op de doodskist van koning David. En hij raakte in gevecht met Anubis over het lichaam van koning David, en hij overwon, en nam plaats op de doodskist. 24.'Ja, op deze kist zal ik rijden,' sprak de Sobek, 'op deze kist zal ik varen. Op deze kist heb ik toegang tot de kamers van Nut en de kamers van Neith.' 25.En een jaguar stond voor Sobek, en nam hem mee tot de kamers van Neith. En zij was als een brullende, spuwende vuur. 26.En Sobek kalmeerde haar. En Sobek stapte van de doodskist af, waarop hij had gereden, en opende de kist. 27.En de kist was als een ark, en paste precies in de nieuwe ark. Zo herbergt de kist van David dan vele geheimen, en vele boeken. 28.En Sobek ging op de ark zitten, en sprak : 'Op de ark zal ik zitten, op de ark zal ik gaan, als mijn voertuig door de kamers, ja, tot de diepste kamers van Neith zal ik gaan.' 29.Maar hij kreeg daar geen toegang. En Sobek vocht met de jaguar. Neith brulde en spuwde vuur. 30.Hij was niet gemachtigd om tot de diepere kamers van Neith te gaan. En ze vocht tegen hem als een leeuw. 31.Toen riep Sobek om Aton, en Aton kwam hem ter hulp, en ook Anubis kwam met Aton. En

Anubis verzoende Sobek met Neith en de jaguar. 32.En Aton was als een rode straal, openende de deuren van de diepere kamers van Neith. 33.Hier stonden de graven van Mozes en van de engel Michael. En op de doodskist van Michael zat een zwarte hond, die geleek op een spin en een jaguar. 34.En weer moest Sobek vechten tegen Anubis. Anubis schreeuwde, terwijl Sobek werd als een dove. 35.Ditmaal kwam Aton hem niet te hulp, en het was alsof hij geheel was overgeleverd aan de wraak van Anubis. 36.En het gevecht ging door, drie lange nachten, totdat uiteindelijk Neith hem tegemoetkwam. Ze brulde tot Anubis en spuwde vuur, en uiteindelijk moest Anubis de doodskist loslaten. 37.En weer paste de doodskist precies in de nieuwe ark, en Sobek beklom hem. Zo zijn er dan vele geheime wapenen in de doodskist van Michael, en in de kist heerste diepe stilte. 38.En zo werd Sobek als de nieuwe ark en zijn muil als de hoeder van vele doodskisten. En als hij zijn mond opende kwam er vuur en ijs tevoorschijn. 39.En na drie lange nachten van doodse stilte kwam Aton als een rode straal van boven tot de ark, en er waren bliksemschichten.

De verzoening met Anubis

40.En toen Sobek in de volgende kamer van Neith kwam, viel weer een zwarte hond hem aan, en deze hond was als de dood zelf. 41.En Sobek was als verblind voor enige tijd. En Neith was er niet, en ook Aton niet. En uiteindelijk bevond hij zich in een doodskist die van hemzelf was, en de zwarte hond. 42.En hij rees tenslotte op als Sobek-Anubis. Ja, als een wolf was hij. In eenzaamheid groeide hij op. 43.En zo werd Sobek tot de oprijzende zon. En toen Sobek weer door de kamers van Nut ging, waren ze als twee lichtende insecten. 44.En Nut sprak tot Sobek als lichtend vuur. 45.En toen Sobek weer door de kamers van Shu ging, ging Nut met hem mee als de lichtende stem. 46.En toen zij uiteindelijk de kamers van Isis hadden bereikt, was Isis als een grijze hond, en zij zat daar in droefheid. Zij was in droefheid om wat Anubis haar had aangedaan. 47.En Sobek troostte haar. 'Al jaren bewaak ik de kamers van Re,' sprak zij. Maar nu was de toegang haar ontzegd. 48.En toen snelde ze tot haar grafkamers. En hier lagen de sarcofagen en dodenmaskers van vele farao's, en ook de doodskist van de engel Gabriel. 49.En Sobek verslond die allen. Uiteindelijk kwam ze bij haar eigen doodskist en graf, en ging erop zitten. Maar Sobek duwde haar weg en verslond haar graf, haar doodskist en alle schatten die er lagen. 50.Snel sprong ze op Sobek's rug en Sobek ging richting de kamers van Ra. Maar Ra, die als een vogel was, begon te krijsen. 51.Maar Sobek liet de straal van Aton op Ra neerdalen, en die gaf hem toegang. En zo ging Sobek met Isis op zijn rug door de tunnels en doorgangen van Ra, en kwam tot zijn kamers. 52.Hier waren de doodskisten van Jahweh, Christus, en vele engelen. Sobek slokte deze allen op, en was voor enige tijd ziek. 53.En weer moest hij strijden tegen Anubis. Ditmaal vochten Isis en Ra met hem mee. 54.Maar de strijd tegen Anubis was zwaar, en alle drie werden ze uit de kamers van Ra verdreven. En ook Ra werd tot een grijze hond. 55.En Ra en Isis waren zo aangedaan over wat Anubis hen had aangedaan, dat Sobek hen moest troosten, drie lange nachten. 56.En Sobek's troost was als de zachtheid zelve. Maar weer viel Anubis aan, en verdreef hen alle drie uit de kamers van Isis tot aan de kamers van Shu. 57.Maar Shu troostte hen alle drie en werd tot een lichtend en warmend vuur om hen heen. En ze vonden troost in de oude dingen van Shu. Maar Anubis viel weer aan, en ook Shu werd tot een grijze hond. 58.En ze werden allen verdreven tot de kamers van Nut. En Nut was bedroefd om dat wat Anubis hen had aangedaan, en veranderde ook in een grijze hond. 59.En Anubis dreef hen tot de kamers van Sobek, maar ook daar waren zwarte honden, en verder komen konden ze niet. 60.En weer werden ze gedreven door de kamers van Nut, door de kamers van Shu, door de kamers van Isis, door de kamers van Ra, tot aan de kamers van Neith. 61.En in de verte zagen ze Sobek's kamers weer, maar konden daar niet komen, want overal waren zwarte honden. 62.En toen werden ze weer teruggedreven, door de kamers van Ra, van Isis, van Shu en van Nut tot aan de kamers van

Sobek. 63.En zo was de klok geworden als een gebroken cirkel, en ze gingen telkens voorwaarts en achterwaarts, terwijl het aantal zwarte honden leek te groeien. 64.Maar ook de kamers leken te groeien, en nieuwe kamers tussenin begonnen open te gaan. En uiteindelijk zakten ze door tot de kamers van Aton. 65.Anubis stond naast Aton, als een lange zwarte hond, en achter hen lag de doods-kist van Anubis en Aton. 66.Weer raakte Sobek verblind, en uiteindelijk lag hij in deze doods-kist, en rees op als Anat-Sobek. 67.En Aton verzoende Sobek met Anubis, met een dubbele verzoening. En een dubbele verzoening wordt niet snel verbroken. 68.En Sobek kreeg een klem van echter, de klem van Anubis. 69.En Sobek kwam dan tot de doods-kist die alleen van Anubis was, en die zijn lichaam herborg. 70.En Sobek ging op de kist liggen. En op die kist stond ook een urn van Anubis. En Sobek dronk hieruit, en nam een sprong. 71.En deze sprong was zo ver dat hij op de doods-kist van Aton alleen was gekomen. Ook hier stond een urn, die van Aton was, en Sobek, die Sebek was, dronk van deze. 72.En weer sprong Sobek zo ver, dat hij weer op de kist van Anubis lag. En Aton verzoende Sebek met Anubis drievoudig. 73.En de rode zon daalde tot Sebek neer, en kwam tussen zijn horens. En Aton sprak woorden tot de Sebek die niemand kon verstaan. 74.En aan Sebek werd macht gegeven woorden en boeken te zuiveren. 75.Ja, aan hem werd gegeven rechten en wetten te herschrijven, en hiertoe gebruikte hij een zilveren pen, een gouden pen, een rode pen en een bloedzilveren pen. 76.En de inkt was gemaakt van echter, en van het zuivere van de farao's. En zo herschreef Sebek de woorden der tijden en de boeken van het oude en heilige in één dag en één nacht. 77.En deze nacht werd genoemd de rode nacht, en deze nacht was zeer lang. 78.En na deze nacht kwam Aton tot Sebek en sloeg hem op de kaak. En Aton en Sebek werden verzoend vijfvoudig. 79.En Anubis werd door Aton en Sebek opgedragen om de aarde en alles wat daarop en daarin was te oordelen binnen een bepaalde tijd. 80.En haastig vluchtte Anubis tot de wereld, wetende dat hij weinig tijd had. 81.En Anubis' werk droeg veel vrucht, en Aton en Sebek waren trots op hem. Anubis kwam dan tot Maat, met een mand waarin hij de aarde droeg met al wat daarin was. 82.En Ammut kwam voorwaarts om de wereld te verslinden. 83.Maar Maat hield hem tegen. En Maat haalde dan het hart uit de wereld en legde het op een weegschaal. 84.En later legde zij ook de andere harten op deze weegschaal, en daarna hun andere organen. 85.En Sebek had haar wetten herschreven door de staf van Mozes en de staf van Jahweh. 86.En toen verzoende Aton Sebek met Maat als een zesvoudig sieraad. En Sobek begon te brullen, en vuur begon uit hem voort te komen om de aarde en alles wat daarop leefde en alles wat daarin en daaronder leefde te testen. 87.En weer werd Ammut opzij gedrukt, want ziet, hij was zeer hongerig. Maar toen hij dat wat van de weegschaal kwam niet mocht eten, begon hij Maat aan te vallen. 88.En zij vochten voor zeven lange dagen. En Sebek nam de weegschaal en bracht het in de handen van Aton om het te laten zuiveren. Maar de weegschaal maakte zich groot tegen Aton, en viel hem aan. 89.Maar Sebek nam een ijzeren pen en graveerde nieuwe letters in de weegschaal, en de weegschaal kwam tot rust, en droeg de stralen van Aton. 90. En Aton bracht klemmen van echter en het zalige van de farao's om de weegschaal, en de weegschaal begon te spreken.

De listen van Kauket

91. En de naam van de weegschaal was Zaine, en een slang genaamd Kauket was om haar heen gekronkeld. Zij kwam van de oerzee. 92. En Aton blies op de weegschaal en sloeg een gat in de bodem om er een rode snaar doorheen te trekken. Voortaan moest alles zo dun zijn als de rode snaar, anders zou het gegeten worden door Ammut. 93. En Aton trok de snaar door tot aan het plafond. Voortaan moest ook alles zo lang zijn als de rode snaar. 94. En toen verzoende Aton Maat met Ammut. En Thoth opende boeken, en begon te meten, te wegen en te schrijven. 95.En weer kwam Anubis tot Maat. Ditmaal met een mand gevuld met de sterren en een mand gevuld met de zon en

de maan. 96. En Ammut had een klem om zijn muil, als de klem van Aton, en kon niet spreken, tenzij Aton het wilde. En ook eten kon hij niet, tenzij Aton het wilde. 97. En Kauket troostte Ammut, want deze had grote honger. En zij gaf hem vreemd brood. 98. En Ammut maakte zich groot tegen de sterren, maar Aton stak hem in zijn buik, en vele verslondenen werden verlost uit de buik van Ammut. 99. En Ammut ging in gevecht met Serket, de schorpioenenvrouw die de canopenvazen behoedde met de organen van de doden. 100. En Ammut overwon Serket voor enige tijd en begon uit haar vazen te eten. Maar uiteindelijk lokte Kauket Ammut weg met het vreemde brood. 101. En Ammut raakte verzadigd nu hij Serket had verslagen, en kwam tot rust bij het vreemde brood. 102. En de dieren der gewichten en afmetingen kwamen tot de hallen van Maat, en begonnen te eten dat wat van hen was. 103. En ook de temperaturen werden gemeten en het licht. En dat wat onder en boven de maat zat werd gegeten. 104. En zij die hongerig werden werden weggevoerd door Kauket. 105. En ook Ammut moest op de weegschaal komen, en daarna Maat, daarna Thoth, en daarna Anubis en alle goden en gediertes die in de hallen van Maat werkten. 106. Ook Aton en Sebek werden gewogen, en daarna alles wat nog buiten de hallen van Maat was. 107. Ja, elke dag moesten ze komen voor een heilige weging en een heilige meting. 108. Maar er waren enkele goden die niet gewogen en gemeten wilden worden, en zij werden door de listen van Kauket gelokt met het vreemde brood. 109. Maar er waren ook enkele goden die een oorlog begonnen tegen de plicht tot weging en meting. Zij dachten dat zij hierboven stonden. 110. En zij hadden een oorlog te voeren tegen Anubis en zijn zwarte honden. 111. En er werden nieuwe dodenboeken opgesteld, en er kwamen nieuwe helboeken. 112. En zo werd Anubis heer der hellen. En in de nacht kreeg hij drie koppen. Eén die at, één die sliep, en één die waakte. 113. Maar soms moest Kauket ook Anubis wegleiden met het vreemde brood. 114. En het as van hen die verbrand waren werd door rode banden tezamen gevoegd. Zij werden dan genoemd : de rode mummies, en zij woonden in urnen en leefden in de hellenrijken van Anubis. 115. Ja, zij waren dan zorgvuldig door hem gemummificeerd en ingegaan door uitvaartrituelen. Ook organen werden op die manier vaak gemummificeerd om tot de hellenrijken van Anubis te komen. 116. En zij die al lang in die hellenrijken leefden, veranderden 's nachts in honden. De rode honden werden zij genoemd, en zij hadden Anubis tot hun koning. 117. Zij die taken kregen in het dodenrijk veranderden daartoe in zwarte honden. 118. Er was slechts één plaats die dieper was dan de hel, en die plaats was genaamd delirium. Hier leefden de gele mummies die tot gele honden uitgroeiden. 119. Het was de plaats die zelfs Aton vreesde, want de profetieën zeiden dat hieruit iemand voort zou komen, die alle macht zou hebben op hemel en op aarde. 120. Deze zou dan voortkomen vanuit Aton, de allerhoogste. Aton, die God was van hemel en aarde, beschreven in het derde oude testament, zou plaats moeten maken voor Hem van het vierde oude testament. 121. En deze Zoon van Aton zou Aton's andere zoon, Anubis, maken tot koning der aarde. Ja, die Anubis zal de Ka zijn van de nieuwe koning van de deliriumrijken. 122. En dan zou Sobek worden tot de Ba van de nieuwe koning van de deliriumrijken, die de Zoon van Aton is. 123. En zo zullen dan Aton, Anubis en Sobek tezamen met de nieuwe koning van delirium een nieuwe viervuldigheid vormen.

2.

De Hellevaart

1. Initiaties in de tempel van Wadjet, zij die bitter is. Ik ben de cobra-godin van Beneden Egypte. Open nu je hart om mij te ontvangen. Leg je beide handen op je knieën, en adem dan in, heel diep en langzaam. 2. Jij kunt ook een rode hond worden, door mijn urn binnen te gaan. 3. De hellenrijken zijn dan om jezelf te zuiveren, als deel van jouw persoonlijke reis door de onderwereld.

4. Het is geen plaats waar slechte mensen naartoe gaan. Het is voor iedereen. Iedereen zal net als doodgaan de hellevaart moeten ondergaan, en het is goed om je daarop voor te bereiden. 5. Het is de plaats van zuivering. Adem in en stel je een piramide voor die tussen je longen zit. Adem weer in vanuit die piramide, en stel je voor dat je longen steeds verder van elkaar vandaan komen te liggen, terwijl de piramide helderder wordt en groeit. 6. Stel je nu voor dat de piramide met de punt naar beneden komt, terwijl er een oog in verschijnt. Adem dan weer in vanuit de piramide. 7. Stel je nu voor dat de piramide zwart wordt, en dat er een lichtgouden globe uit omhoog stijgt. Een gevleugelde cobra komt voort uit de globe. 8. Het is Horus-Sekhmet. Zij openen alle verborgen urnen van Wadjet. Zij omringen de urn van Horus-Sekhmet. 9. Alleen zij die ter helle zijn gevaren en de reis daar hebben voortgezet kunnen komen in het rijk van delirium, door de urn van Horus-Sekhmet. 10. In die urn zit een canopenvaas, waar een orgaan van Horus-Sekhmet zich bevindt. 11. In deze canopenvaas wordt een orgaan van jou gemummificeerd door een gele band, op zo'n manier dat je uitgroeit tot een gele mummie en daardoor in het rijk van delirium kunt komen. 12. Zij die daar veel tijd hebben doorgebracht, kunnen in gele honden veranderen. 13. De canopenvazen zijn doorgangen tot deze rijken. Zij worden bewaakt door de godin Serket, de schorpioenvrouw. 14. Nu zijn er ook nog verborgen canopenvazen die beheert worden door een andere godin, de lichtoranje octopus. 15. Vaak leven deze twee godinnen op goede voet met elkaar, maar zo nu en dan hebben ze ook heftige ruzie. 16. Beiden staan ze bekend om hun grote geschreeuw, en ze zijn de brengers van ziekte. 17. Net zoals de hel is ziekte niet bedoeld om kwaad te doen, maar om te veranderen. 18. En zo is dan de staf van Horus-Sekhmet de staf der zaligheid, gedragen door de koningen van delirium.

Doodslieden

1.

Nut's Delirium

1. Zij staat tussen de kandelaren, zij staat tussen jou en mij, zij staat tussen de kaken, waar jij verdween, op 't pad van satijn. 2. Koningen kennen hun draken, en jij kent jou schaakstukken. Het is dan tijd dat ik je bevrijd uit deze droom. 3. Ik breng jou tot de kamers van Nut's delirium, om bij te komen, om anders te dromen, anders dan je deed voorheen. 4. Ik breng jou tot de kamers van groot delirium, draai de dobbelsteen weer om, om van armoe in de hel te komen, dat kost een grote som. 5. De vlam van armoe is de vlam waaraan wij ons warmen, en haar kou leidt tot delirium, haar kou bestuurt ons lot. 6. En de kou tussen jou en mij, de delirium die stak mij, bracht mij naar het grote bos. Ik kende niet de overkant. 7. Ik wou dat ik de liefde kon sparen, temeloos vloeit zij over, totdat delirium haar slaat, en de hel haar bitter maakt. Tot de dood zijn we gezonken.

8. Toen ik nog bij je was, dan zei ik weleens : Kun je dat nog eens herhalen, want ik wil dat ik je begrijp, maar je ging te snel. 9. Zij staat tussen de kandelaren, staande tussen jou en mij, het schaakbord hoog ophoudende, tussen de kaken waar jij verdween. 10. De schaakstukken bewegen vanzelf. 'T is tijd dat ik je bevrijd uit deze droom, ik breng jou tot de kamers van Nut's delirium, om bij te komen, weg te dromen, anders dan je deed voorheen. 11. Ik breng jou tot de kamers van groot delirium, waar de liefde het uit zal schreien, al die dingen die wij hebben verloren. 12. Zij komen hier, zij lopen over dromen, komen hier, waar zij temeloos stromen, totdat de wind hen uit zal blazen, de bitterheid hen verdrijft. 13. Tot de dood zijn wij gezonken. Geen kracht om op te staan, geen kracht om tot elkaar te komen, waar de hel ons tot delirium leidt.

2.

Kracht in de nacht

1. Ik kan nergens heen, ik kan mij niet bewegen. De vervloeking eet mij, en waarom zou ik leven. In de woestijn ligt mijn ziel, hopeloos geworden, in de brandende nacht daar wacht zij, totdat de deuren van de hel opengaan. 2. Hel, de verlossing, uit 's werelds slavernij, niets om bang voor te zijn. 3. De hel als troost, ons onderdompelende in delirium. De flessen gaan open. Morgen zijn we vrij, zo vrij als een vogel, als vliegende cobra's en krokodillen. 4. Delirium na rouw, waar harten elkaar ontmoeten, in dromen zijn we vrij. Ik ben nu weg, maar morgen zie je mij terug.

5. Ik kan nergens heen, ik kan me niet bewegen. De armoe bracht mij hier, als de vlam der woestijn mij heeft bereikt, dan zal ik branden, als de vlam van delirium, gevende mij, kracht in de nacht, zeeën van kleuren, hoe lang heb ik hier op gewacht. 6. Land van mijn dromen, ster van de liefde, maar door bitterheid drijf ik steeds af, mijn armoe bouwt een graf. 7. Ik kan jou niet verstaan, je bent te ver weg. Als je mijn stem hoort moet je huilen, maar ik kom nooit meer terug. De bitterheid heeft mij weggenomen. 8. Ik sluit mijn oren nu voor je. Ik weet niet eens wie je bent. Ik geloof niet in een paradijs. Delirium bracht mij van de wijs. 9. Ik kan nergens heen, ik kan mij niet bewegen. De vlam van delirium, gevende mij, kracht in de nacht, zeeën van kleuren, hoe lang heb ik hier op gewacht. 10. Die kracht neemt mij nu mee. Door bitterheid drijf ik af. 11. Kracht in de nacht. Na de steek zag ik de sterren. Zeeën van kleuren, hoe lang heb ik hier op gewacht.

3.

Anubis-Ra

1. Zie je de koeienletters niet ? Wanneer ik je schrijf, vergeten doe je 't niet. Zie je dan niet de bomen door de letters ? 2. De bitterheid heeft me in 't graf gegoten, als oude regen na een lange dag. 't Onweert, ik ben de zwarte slang, verpakt in letters. 3. Zie je dan niet ? 't is oorlog, haal je kop eens uit het zand. Ik ben de zwarte slang. 4. Ben je al vergeten wie ik ben ? Wat ik je schrijf vergeet je niet. Maar echt zien wat ik schrijf ? 5. Je durft niet in de diepte te kijken. Zie je dan niet de bommen door de letters ? 6. Het is mummificatie door Anubis-Ra. Zie je dan niet dat de dood je roept ? Ten helle varen zul je, dat is een ieders lot.

7. Zie je dan de koeienletters niet ? Wanneer ik graaf denk je het is het tikken van de vogels. 8. Jouw begrafenis ben ik al aan het regelen, dat is een ieders lot. Zie je dan niet de bomen door de letters ? 9. Je denkt ach 't is de sier van de wind. Maar ik ben je urn aan 't opmaken, mijn kind. 10. 't Onweert, ik ben de zwarte slang. Ik ben bijna bij je, het duurt niet al te lang. 11. Bereid jezelf voor, nu het nog kan. Lees dan over dood, hel en delirium, opdat het je op een dag niet zal overvallen. 12. Ik ben je al aan 't mummificeren. Ik ben Anubis-Ra. Het leven duurt maar kort.

Het Geheimenis van Anubis

1. En de Ba zal koning worden over de Ka, en dan zal de Khat, het lichaam, de koning worden over de Ba. En Sobek zal de Ba zijn van de nieuwe koning, en Aton zal de Khat zijn van de nieuwe koning, en Anubis zal de Ka zijn, de koning der aarde. 2. En de khu, de sahu, de akh en de ankh zullen aan hen onderworpen zijn. Zo zal dan de Khat grote macht hebben in het rijk van de koning. 3. Er zijn dan dertig rijken van het onderbewustzijn. Deze zijn de goden. Het eerste rijk is Mahel-

Neith, het tweede rijk is Mahel-Nut, het derde rijk is Mahel-Mattina, het vierde rijk is Bussel. Het negenëntwintigste rijk is Benshalen-Neith, en het dertigste rijk is Benshalen-Nut. 7. En gij zult dalen tot de diepsten der onderbewustzijn en om uw kronen en schatten te vinden. Zo is dan Anubis uitgeworpen uit de onderbewustzijn. 8. Laat dan hij die heer van de dood is dat blijven, en laat iemand anders heer zijn der onderbewustzijn, en deze heer is Sobek, en zijn engelen zijn Nut en Neith. En hij heeft zijn raven, Etsa en Maritsa uitgezonden. 9. Ja, zij brengen dan troost tot het bewustzijn, dat omhuld is door het onderbewustzijn. 10. Laat dan Nut hen voortleiden, om het bewustzijn te veranderen. 11. En zo zijn er dan achtëntwintig lagen van het bewustzijn. En de eerste laag is Sobek-Ra, de tweede laag is Nut-Ra, de derde laag is Anubis-Ra, de vierde laag is Anubis-Nut, de vijfde laag is Anubis-Neith. 12. De zesde laag is dan Etsa-Ra, de zevende laag is dan Etsa-Maritsa, de achtste laag is dan Etsa-Anubis. De negende laag is dan Etsa-Maritte, de tiende laag is dan Etsa-Apres. De tiende laag is dan Etsa-Maroen, de elfde laag is dan Etsa-Monaride. De twaalfde laag is Etsa-Vaai, de dertiende laag is dan Etsa-Marentes. 13. De zevenëntwintigste laag is Etsa-Abhertahnen, en de achtëntwintigste laag is Etsa-Brannan. 15. En zo is dan Etsa de heer der bewustzijn. En ziet, hij zal Anubis geheel uitwerpen. 16. Want een hond om uit te werpen is Anubis, en hij zal in de avond terugkeren om rust te zoeken. 17. En voor de tweede maal uitgeworpen zal hij voor u strijden. Ja, met Wepwawet zal hij staan, om geheime delen te bijten. Hij is de zwarte hond. 18. Want hij is volkomen eigendom van Etsa, en wordt steeds volkomen tot de eer en trots van Etsa uitgezonden, om nieuwe steden te bouwen. 19. Weest dan bevreesd en benauwd, oh volk zonder stad, want Anubis is tot u uitgezonden, wetende dat zijn tijd kort is. 20. Wee u, oh zee en aarde, gij die dan zijt zonder een enkele stadsmuur. Want de zwarte hond is in grimmigheid naar u op zoek. 21. Wee u, afgedwaalde Egyptenaren, want de zwarte hond zal u terugbrengen naar uw plaats, en daarvan tekenen bijten in uw nek. 22. Gij afgedwaalden, keert weder, want ziet, de Anubis is tot u uitgezonden, om het verlorene te vinden. 23. Zij die dan Anubis getrouw zijn, vrezen niet. Want hij zal u brengen tot Etsa. En gij zult de oude schilderijen zien, waardoor gij kunt wegvlugten. 24. Ja, want een tijd van vluchten en wederkeren is het. Gij hebt dan net genoeg energie en tijd gekregen om uw werk te doen. Klaag dan niet. 25. Gij hebt dan net genoeg warmte gekregen, en net genoeg kou. Wederom : Klaag dan niet. 26. Gij hebt net genoeg klederen, en net genoeg te eten. Maak dan van het kleine iets groots. 27. Gij zult dan aan Etsa niet twijfelen, hij die de heer der voorzieningen is. En al zou hij u voorzien met armoe, beschouw het als het grootste geschenk. 28. Ja, volg de armoe na, opdat gij de Etsa zult kunnen volgen en zult kunnen schilderen. Gij kunt dan nieuwe werelden schilderen met uw armoe. Zij die rijk zijn kunnen niet

veranderen. 29. Toch heeft Etsa u dan veel rijkdom gegeven. Bouw daarmee uw tempelen voor hem, en verspil het niet aan tijdelijke dingen. 30. Bouw dan aan het eeuwige koninkrijk, dan zal Etsa u zijn staf geven. 31. Denkt dan niet dat u van zulk een hoogte zijt gevallen. Want wat diepte en hoogte is bepale hij. 32. En ziet : hij zal dan tronen op de hoogtes van Izu.

2.

Woorden van Troost

1. Gij hebt dan adem vanuit uw onderbewustzijn, waar de schatten van uw identiteit en verleden liggen. Ja, hier kunt gij de goden ontmoeten. 2. Indien gij in Hem blijft, zult gij de trots en eer der karsuiken ontvangen, en zult gij gaan tot de karazuur. 3. Zij die dan rillen van de kou van het leven, en het omslaan van de zon : Houdt goede moed, want zo houdt gij contact met de goden die van een andere orde zijn. 4. Gij leert dan golven als de vissen en de slangen, en gij leert u te strekken als de panthers, opdat gij in leven zult blijven. 5. Zij die dan de zon niet vrezen en zijn disken, ziet, zij zijn reeds dood. Voor eeuwig zullen zij vergaan. 6. Zij die aan Etsa vasthouden, en aan zijn staf, zullen door hyperventilatie een nieuw leven ingaan. 7. Zij die aan spasme lijden : Zalig zijt gij, want gij kent de bewegingen der goden. Weet dan dat dit de bewegingen der dieren zijn. Ziet, gij moet weer dierlijk worden. 8. Zij die aan epilepsie lijden : Zalig zijt gij, want gij zijt middelaars tussen de goden en het leven.

De Derde Opstanding

1.En zo is dan Tifiat de doodskist van de Heilige Geest. En zo zal dan Tifiat's naam groot worden, want deze is het die ons heeft uitgeleid. 2.Ja, Hij is het die de derde geest, de derde ziel en het derde vlees heeft geopend. Met het derde kruis heeft hij geslagen, en zo zijn dan de karmozijnen van het derde met Hem. 3.Ja, ook de Karazuur van het derde volgt Hem op de voet. 4.En zo is dan de derde Heilige Geest door zijn handen gevloeid, en is Hij als een wever geweest. 5.Hij is het dan die de Heilige Tempel van het Derde, en de Derde Ark heeft opgericht. En zo is dan de derde geest onderworpen aan de derde ziel, en de derde ziel is onderworpen aan het derde vlees. 6.En zo is dan de derde Heilige Geest gekomen, om de irammen op te doen rijzen als de nieuwe adem. 7.Ja, en zij beschermen de adem, zoals scarabeeën de harten beschermen. 8.En zij zijn dan opgesteld aan de voeten van de derde ark. Heilig zijn zij. En zo is dan de heilige Derde Christus gekomen, oprijzende vanuit het Derde Kruis. 9.Ja, Hij is het die de muren van het oude van elkaar heeft gedrukt. En zo heeft dan de Derde Christus het derde vlees aanbeden. 10.En zo heeft de Derde Jahweh de derde ziel aanbeden. Ja, gij zijt dan thans genaderd tot het Derde Jeruzalem, waar de Tweede Ra zal tronen. 11.Gij dan allen zijt genaderd tot het Tweede Egypte, en het Derde, gij allen die uit het derde graf zijn opgerezen. Zalig zij die thans deelhebben aan de derde opstanding. 12.Het derde paradijs is thans aan de voeten van Egypte gekomen, en zij heeft haar met beide handen aangenomen. Zo zult gij dan allen die de Derde Christus volgen, priesters zijn van het derde. 13.En de engelen van het derde zullen u leiden naar diepe bronnen. 14.Geef dan de moed niet op, gij allen die beproefd worden, maar houdt het lijden vast, opdat het derde bij u aanspoele.

De Derde Alverzoening

15. Zo zal dan de Tweede Ra tronen in het Derde Jeruzalem, en ook hij zal de irammen aanbidden, daar zij de nieuwe adem zijn. 16. En de derde geest zal uitspruiten en uitbloeien in de tempel. En zij zal zijn als de verborgen kamer. 17. Streeft dan naar de uitstorting van de Derde Geest, opdat gij in haar vrijheid zult vinden. 18. Acht dan de koorden van gebondenheid niet gering, daar zij u leiden. 19. Zo zult gij dan ook komen tot de Tweede Isis, zij die het ijs en het echter draagt, en zij zal u

vrijmaken van oude ketenen, opdat gij de ketenen van het derde zult ontvangen. 20. Hecht u dan niet aan een mens, want gij weet dat een mens verderfelijk is. 21. Streeft dan naar de verlichting die in de Derde Christus is, en hoe zoudt gij die verlichting bereiken en ontvangen, zonder deze in de duisternis te zoeken ? 22. Daalt dan af tot de diepste duisternissen, om de heilige weg der zaligheid te vinden. 23. Gij die dan vrijgekomen zijt in uw derde geest, die de verborgen geest is, gij bent tot uw derde lichaam genaderd, het lichaam dat Tifiaf aanbidt. 24. Zo zult gij u dan uitstrekken om op te gaan tot de Derde Heilige Ziel, als het voertuig en de zetel van uw lichaam. 25. En zo zijn dan de irammen als heilige vlammen die het lichaam dragen en de Tifiaf. 26. En zij zijn het die de derde karmozijnen aanvuren. Ja, de derde brokaten hebben zij afgemeten, en de derde nachtlattijnen ondergedompeld in het heilige derde water. 27. De derde Michael is aan de zijde gesteld van het volk in grote verdrukking, waarvan gij wist dat het zou komen. 28. Want gij allen zult ingaan door grote verdrukkingen, door de derde alverzoening. 29. En zo is dan alle alverzoening in Egypte, waar de doden niet vergeten worden, maar omringd worden met zorg.

4.

De Derde Tempelen

1. Zalig zijn zij die vleesgeworden zijn in Tifiaf, want ziet, zij dragen het derde vlees. Zo is dan de derde alverzoening verlichting voor uw zielen, en een verkwikking van uw geest. 2. Gij bent dan door het derde kruis geslagen, opdat gij de hellenreis zou maken, waardoor gij de derde zaligheid zou bereiken, en de bronnen van delirium. 3. Zonder het derde kruis zoudt gij dan niet de slavernij der wereld kunnen ontkomen. Het derde kruis heeft u dan geleid tot een heilige slavernij, om uw zielen tot verlichting te brengen, door de derde alverzoening. 4. En zo draagt thans het derde kruis dan meer eeuwigheden dan het tweede. 5. Zo hebt gij dan in het derde kruis rijkelijk toegang tot het eeuwige kruis en het langste kruis, waarop de irammen rijden, als de spoorwegen des kruizes. 6. En zo zijn dan de engelen van het derde : de irammen, de wiktunetten, de scarabeen, de canopen, hen van de derde karazuur, en zij zullen u leiden tot de tempel van de Derde David. 7. Zo is dan de tempel van de derde simson, daar waar vuur en ijs tezamen komt. 8. Zo is dan de tempel van de Derde Mozes het domein der slangen, en zo is dan de tempel van de derde Abraham daar waar water en mos tezamen komt. 9. De tempel van de derde samuel is dan het licht der rozen, en de tempel van de derde petrus is de schuur der cobra's. 10. Zo is dan de tempel van de derde paulus de plaats der konijnen, en deze konijnen zijn wild. 11. De tempelen dan van de derde christus zijn dan als het hooi, het gedroogde gras en het graan. 12. In het derde kruis hebt gij zo rijkelijk toegang tot zulke tempelen, en tot de altaren van het derde.

Schilden van de Derde Christus

13. En zo is dan de harab de beschermer van het hart van de Derde Christus, en de perewulschen zijn de beschermers van zijn longen. 14. Zo is de kiwat de beschermer van zijn maag en ingewanden en de kiwab de beschermer van zijn hersenen. 15. Zo zijn de kolochten de beschermers van zijn mond en spraak en de achubben de beschermers van zijn slikken en ademen. 16. Zo zijn de munessen de beschermers van zijn ogen, en de milabben de beschermers van zijn oren. 17. De mikatischin is dan de beschermer van zijn neus, en intieme delen. De onktwono is de beschermer van zijn aars en zijn ruggegraat.

5.

Het Davidskruis

1.En zij dan die het derde davids-kruis volgen, hebben een levende getuige, die voor hen zal spreken in de dodenzaal des oordeels. Ja, en deze muren zijn marmer. 2.Zo hebben dan zij die de derde davids-doornenkroon dragen eeuwigheids-waarde binnenin, en niemand zal hen roven uit de vaders hand, terwijl zij door de moederhand worden geleid. 3.Zo zijn dan zij die de derde voetspijkers van de derde david dragen tot het eeuwige en zalige kruis genaderd, en ziet, zij zijn wild. Zij zijn door armoede dronken geworden. 4.Toon mij dan de derde handspijkers van de derde david en zijn derde speer, opdat de vogelen van het derde davidskruis tot u komen, en zij van het derde canopenkruis van david. 5.En gij zult de derde Uria zien staan in de deur der hemelen, en de derde Batseba in de andere deur der hemelen. En zo zult gij tot de derde hemel gaan. 6.Hebt dan moed, allen die door de derde hel zijn gegaan met doorgebrande sandalen, want het derde Jozefskruis zal over u komen, om u op te doen rijzen tot zijn put. 7.Strekt dan uw polsen uit opdat zij door de derde Jozefsketenen gebonden worden. Zo zult gij net als hem koning van Egypte zijn. Veracht het lijden dan niet, maar zoek haar naarstig, en verzamelt haar als goede oogst. 8.Zo zal dan de derde jozefsdorrenenkroon u tot kroon worden, en haar vogelen zullen u voorzeker tot heil brengen, en tot het derde boek des levens. 9.De derde jozefspijkers in handen en voeten zullen u leiden tot waterige bronnen, gij dan die het derde en eeuwige bloed van jozef en david aanbidt. 10.En ziet dan, het derde davidskruis is dan het canopenkruis, als het kruis van verzameling. En ziet dan, het derde kruis is als het eeuwige kruis.

Tifiaf

1.

Egyptisch-Communistisch Betoog

1. Isis, Isis, lopende in de nacht, met ijs in haar handen, met ijs op haar schouders. Sneeuw in de nacht, brandend ijs, en Isis, wandelende over het water. Sekhmet, Sekhmet, in duisternis zit zij, waar de kandelaar uit voortkomt, zij hoort al het geschrei. 2. Ra, Ra, tot de schat der woestijn zijt gij gekomen, waar vogels opstijgen, waar ladders neerdalen. Als een ladders des hemels is hij. 3. Osiris, Osiris, degene die ik bemin, degene die het zwaard van Tifiaf draagt. Hij is het die de morgenstond opvangt in zijn armen, en langzaam loopt hij met zijn vrouw, naar 't koele baden. 4. Deze cavia's van hout, is wat mij nu nog benauwd, als ratten gingen zij over de brug, totdat één van hen viel, en toen vielen zij al, maar in Tifiaf zijn zij nu aangekomen, als een wonder van de morgenstond. 5. Als gouden sigaren kwamen zij tot mij, om mij te benauwen. 't Morgenrood is mij als goud, ja, Tifiaf is gekomen, ja, Tifiaf is gekomen. 5. Zeg me wat jou nu nog benauwd, het is alleen maar volgen, en zij volgen mij, volgen en zij volgen mij. Osiris uit het water gekomen, dragende de zon in zijn schoot, en tussen zijn armen, als een bal van vuur, 't ochtendgloren, doet mij bekoren. 6. Ik heb het niet verloren. Ik zal het niet verliezen. Ik zal niet gaan, ik zal niet komen, ik zal alleen maar dromen. Dromen op mijn plek. Ik hoef niets te raken of geraakt worden. 't is goed zo. Dit is mijn plek. 7. Wegen van genade als een dromenpubliek. Er is niets waar ik me voor moet schamen. Er is niets om genade voor te moeten hebben. Dit is mijn weg. 8. Vergeving is het land achter mij. Er is niets te vergeven. Alleen een vlam draagt mij. In Tifiaf ben ik. Ik hoef niet te gaan, en ik hoef niet te komen.

9. Dit is mijn plek, geen vergeving of genade van node. Dit is mijn plek, ik moet niks. Niemand kan mij nog benauwen, alleen dat wat ik volg, en wat mij volgt. 10. Volgen en gevolgen worden, geen genade, geen vergeving, alles doe ik naar eigen keuze, naar eigen geweten, gedragen in de armen

van Osiris. 11. Door de straten van de Anubis heen, op de rug van de Sebek, tot Aton te gaan, is te beseffen dat je in Tifiat bent. Niet om te komen, niet om te gaan. 12. Geen vergeving, geen genade, want dat is allang achterhaald, allang achter mij gekomen. Toe, achtervolg mij niet meer. Ik bepaal wie mij volgt. Dat ben ik zelf, als de schaduw van een verleden, als de paradox van een held. 13. En nu nog de symmetrie en de asymmetrie, om telkens weer te vluchten tot het beseffen en de herinnering aan Tifiat diep binnenin. 14. Het is al tastbaar, echt dichtbij, als de scarabee van mijn vinger, als de scarabee van het zijn. 15. Mijn Khat is nu hier, omdat ik besef dat hij hier is, maar hij was er altijd al. 16. De benauwende plek, Tifiat, het besef wankelt nog. Maar ik ben krachtig genoeg om daar te komen waar ik al ben. 17. Ik moet het alleen geloven, als gedrukt in mijn vlees, waar mijn oog op valt. Ik heb de strijd gestreden. 18. Ik geloof in overwinning, altijd is het daar. Je sprak : Ik had verloren, en dat was de grootste overwinning. Geef mij het besef, wat ik eigenlijk al heb. Zo diep binnenin, maar ook zo dichtbij, aan mijn Khat. 19. Ja, ook mijn sahu is onderworpen aan mijn khat. Geloof je dat ? 't is zo dichtbij ik kan het zien en voelen, ik kan het beseffen. Tifiat aan mijn hand, mijn eigen lichaam. Mijn zelf, ja, dat ben ik.

20. Ga weg, al gij dienstknechten van genade. Ik heb niet gezondigd. Ik heb niet het gevoel dat ik iets mis heb gedaan. 21. Ga weg van mij, al gij dienstknechten van vergeving. Ik ben mijn eigen rechter. Ga weg, oh politiek, gij bent een hok vol sectes. 22. Ik ben een mens en een god van anarchie, en communisme in vele lagen. Laat iedereen dan zichzelf berechten. 23. In Tifiat ben ik aangekomen, terwijl ik daar al was. Ik besepte het slechts. Maar komen en gaan bestaat niet. 24. Slechts ons bewustzijn beweegt. Ik heb een nieuw bewustzijn ontvangen. Nu lijkt het alsof ik in een nieuwe wereld leef. 25. Maar ik was hier altijd al. Ik heb mijn Khat gevoeld en tot mij genomen, als krijgen wat ik al heb. Is het leven niet altijd zo ? 26. Ik moet worden wie ik ben. Vergeving en genade is niet de weg, want dan neemt iemand anders mij weg. Ik moet verlicht zijn, anders duwen ze mij in duisternis.

27. Ik ben krachteloos, en kan niks incasseren. Dagenlang denk ik na over wat een mens mij zei. Er zijn wel betere dingen om mijn hoofd over te breken. 28. Ik heb geen weerstand, geen tussenlaag, als bloot in een gevaarlijk oerwoud, kruip ik als een slang over 't mos, schichtig, want de dood ligt op de loer. 29. Ik ga elke dag dood, daal ik in de dieptes, tot een plaats waar ik niet meer doodgaan kan, als de eeuwige dood. 30. Ik wordt elke dag gestoken, totdat ik niet meer gestoken kan worden. Ik ben er nog niet, ik voel het nog steeds, of zijn dat hen die mij volgen, en hen die ik volg, kan ik mij hieruit niet losbreken ? 31. Maar ik ben op weg. Ik kom er wel, als ik besef er is geen komen meer en geen gaan. Ik nestel mij, ook worstel ik, maar het besef en de herinnering doet alles verstommen.

32. Ik moet alles maar accepteren, als de onontkomelijke weg tot verlichting. Elke stap die ik zet, zo velen hebben die stap gezet. In dat zijn wij allen één, als een spiritueel communisme, een communistisch lijdenskruis. Het kost wat om in Tifiat te zijn. Voetstap voor voetstap, nader ik, tot mijzelf, alleen mijn besef moest nog komen. 33. Een communistisch koninkrijk, in vele lagen, zal de weerstand ooit weer rijzen, met al z'n tussenlagen, als de zachte vliezen die de schok opvangen. 34. Besef het, 't is al gebeurd, in 't verleden ligt de sleutel. Tot de derde alverzoening, tot de derde opstanding, tot het eeuwige kruis. 35. De stem van het verleden, smeekt om te worden ontleden. Een communistisch lijdenskruis, een communistische doornenkroon, en het spotkleed niet te vergeten, dat leidde ons tot de communistische troon. 36. Anarchie vindt elke verzadiging daar, anarchie bladert door alle boeken, om het communistische zwaard te vinden, een communistische kandelaar. 37. Egyptische goden houden de cirkel vast, totdat het anarchistische vuur de banden breekt. Zinken tot een duistere nacht, waar een eerste vlam zich heeft ontworsteld, allen volgen zij.

Ja, Tifi af herinneren wij. 38. Communisme maakt ons vrij van de voet van het kapitalisme, van al die politieke sectes die ons door democratie hebben overgeleverd aan de meerderheid. 39. Laat een goede communistische en anarchistische dictator komen, die ons onderwerpt aan gelijkheid en gelijke rechten. 40. Zo een dictator is als de Egyptische god in Tifi af zijn besef hebbende.

41. Wij zien uit naar een Egyptische dictator, die ons vrijzet, die ons geeft wat we hebben, die ons besef bijbrengt, ons doet herinneren. 42. Wij zien uit naar een Egyptische dictator, die ons verlost uit de moordende democratie van een bloedlustige meerderheid. 43. Geen meerderheid, maar gelijkheid is wat wij willen zien.

Slotrede

1. Communistisch kruis, de zegen, de doornenkroon heeft ons hier geleid. Wij hadden niets meer om te eten, maar nu is overvloed ons deel, want communistische opstanding verspreid haar gaven rijk, gedreven door de meerderheid onderworpen aan gelijkheid, als gelijke gerechtigheid. 2. De democratische dictator is nu gevallen, als een secte is hij nu, als een wederzijdse ontmaskering. Dat weten we nu. 3. Communistisch kruis, communistische zegen, de democratische leugen is gevallen als het democratische kapitalisme. Als er dan democratie moet zijn, dan is zij onderworpen aan het communisme en de anarchie. 4. Want gelijke rechten hebben wij allemaal, diep binnenin, en de khat spreekt, en is te zien, zo dichtbij. Communisme duurt in eeuwigheid, want als er één valt vallen wij allemaal. Als er één opstaat, staan wij allen op. 5. De zegen dient zich aan, in communistische taal. Tifi af, de banden doorgesneden. Isis, Isis, lopen wij, over water, over het grote wij. Osiris, dient de zonnen op, in zijn armen zijn wij, dragende gouden pilaren. Ra, Ra, steeds komen wij, totdat wij besef hebben. 6. Egyptische zegen, als wezen van droefenis, strekkende de armen totdat alles gelijk is. 7. In de derde alverzoening, vinden wij onze naam. Tot Tifi af gekomen, totdat wij besef hebben. Wij zijn alreeds daar.

Het Kruis van Egypte

1. Zo is dan het kruis van Ra tot ons gekomen, als het kruis van Egypte, en zo ook het kruis van Sekhmet en haar doornenkroon. 2. Het kruis van Isis hebben wij dan niet veracht, en het spotkleed hebben wij gedragen. 3. Zo hebben wij dan tot volheid gebracht het kruis van Sebek, en zijn wij tot in de kamers van zijn dubbele doornenkroon gekomen. 4. Ja, het kruis van Egypte is ons tot zwaard, waarmee wij over ravijnen springen. En als wij het gebieden tot brug, dan zij het zo. 5. Het levendgevende bloed van Ra strome dan door onze botten, en zo ook het levendgevende bloed van Horus, opdat wij hun kruizen dragen, en hun doornenkronen. 6. En zo is dan het derde kruis een Egyptisch kruis, vanwaaruit het eeuwig bloed stroomt, als een waardig mengsel van Aton en Serket. 7. Zij dan die het kruis van Khnum hebben afgedaald zijn tot aan de bronnen van het zachte gekomen, en ziet, zij drinken van de melk der goden. 8. En zo is dan het kruis van Khnum tot een weg der edelen, en ziet, zij zijn dan allen maagden. 9. Zalig zijn dan zij die met Sekhmet troost hebben gebracht aan het hart van Khnum, de zachte ram. 10. Ja, wijsheid is voor hen bestemd die de doornenkroon van Khnum dragen, en zijn spotkleed. Ja, de vogelen van zijn kruis zullen voorzeker tot deze zulken komen. 11. Gij dan vindt gerechtigheid door het kruis van Khnum, en zijn spijkers, en gij zult onschuld vinden door zijn speer. 12. Zo is dan hij die zoveel onrecht heeft geleden, rijp

geworden tot recht. 13. Daarom houden wij ook niet op om het kostbare kruis en bloed van Khnum te aanbidden, en dragen wij hem in onze khat. 14. Zo strome dan het eeuwig bloed van Khnum door onze khat en ons hart, daar wij in lijden en sterven met hem ééngeworden zijn. 15. Zo zullen wij dan ook niet ophouden om Khnum voor het aangezicht van Sebek en Aton te brengen. 16. Ja, ook de beeltenis van zijn muis staat in onze tempel, en hij dan is geborgen in Tifiaf. 17. Duizendvoudige lof komt tot hen die zulk een Khnum dragen, en zijn kruis. Zalig ook hen die tot het graf van Khnum gekomen zijn, en zijn doodskist hebben gekust. 18. Kust dan de zoon, opdat hij niet toorne. Want hij draagt de Goddelijke speer.

2.

Egyptisch Getsemané en Golgotha

1. Ook zijt gij genaderd tot het kruis van Izu en Tifiaf, en zij worden bewaakt door slangen. 2. Zij dan die het kruis van Egypte dragen kunnen dichterbij komen. En dit kruis is eeuwig, als de staf der zaligheid. 3. Leert dan de Egyptische voorwerpen des kruizes kennen, als de Egyptische kaprunnen, opdat gij niet onderweg teruggewezen worde. 4. Komt dan naderbij tot de Egyptische gaven des vlezes, en tot haar vruchten, opdat het eeuwige bloed van Egypte door u strome. 5. Laat u dan voeren tot het Egyptische Getsemané en het Egyptische Golgotha, opdat uw vlees Egyptisch zal zijn in Tifiaf. 6. Leert dan alle de Egyptische hoven des kruizes en der graven kennen, opdat gij uit de Egyptische beker zult drinken. Zo dan is deze beker eeuwig, en gij zult nimmer dorst lijden. 7. Zo dan is het Gestsemané en het Golgotha van Khnum tot een speelplaats geworden, waarin zuigelingen veilig grootgebracht worden. 8. Leert uw kinderen dan van het lijden, en leert hen de vruchten kennen. Zij dan zijn tot de zaligheid hunner harten geschapen. 9. Gij dan zult rust vinden in de heilige vleesvaart, wanneer gij komt tot het kruis van Brannan. 10. Hier dan hebben de goden leren lopen. Zo hebt gij dan vuur leren vinden in het kruis van Narzia, en zachtheid in het kruis van de Johan. 11. De Johan dan is de staf van Khnum. Het kruis van Zetdonia dan, is de poort tot Spricht. Een lange tocht is het om de kruistocht van Anubis te gaan, en het zal eindigen in Torhan. 12. Zo is dan het kruis van Anubis een zwaar kruis, maar zijn doornenkroon is licht. En gij doet er wel aan ook zijn spotkleed te dragen, anders zult gij hem niet begrijpen.

Het kruis van Anubis

13. En het kruis van Anubis leidt dan tot diep in de schatkamers van de oude farao's, en tot zijn hogepriesters. En zo is dan de speer van Anubis en zijn spijkers tot de derde vleeswording. 14. En zo is dan het lijden van Anubis tot u gekomen, opdat gij zult deelhebben aan zijn eeuwig bloed, opdat u volkomen één zult zijn met hem. En ziet, hij zal u tot steun zijn in de dood, en in zijn kamers. 15. Zijn kruisvogelen dan zullen u leiden op zijn paden, en zij zijn het die het begin en het einde kennen van zijn nachtlatingen. 16. En de kaprunnen van Anubis zullen u zijn tot wapenen in de strijd des doods, en zij zullen u tot eeuwige overwinning brengen. 17. Zo is dan Anubis tot het vuur der heiligen, voortkomende vanuit het kruis van Narzia. 18. Ja, als de zwarte hond zal hij u beschermen, en u leiden door gevaarlijk gebied, zonder te falen. 19. Ken dan zijn littekenen, zijn striemen en zijn wonden, opdat hij u zal omhullen in zijn warmte. 20. Ja, ook zacht is Hij, daar hij het kruis van Khnum heeft gedragen. En zo is hij ook deel van de Johan. 21. En overvloedig deelt hij uit, de gaven van zijn liefde, aan hen die hem liefhebben. En hij schenkt hen zijn helm des heils, en zijn pantser der gerechtigheid. 22. Want allen die hij macht heeft gegeven zijn kinderen te worden, en allen die hem nauwgezet volgen, zijn rechters en dienaren van gerechtigheid.

3.

Door Ascetisme naderen tot Anubis

1. Kruis van Anubis, weg van licht, door de duisternis gegeven, en omhuld, oh weg der eeuwigheid, die tot verlichting leidt. 2. Wij vragen om het grootste kruis van Anubis, om tot zijn diepste lijden te komen, dit met hem te dragen, opdat hij verlichting zal ontvangen. 3. Wij vragen niet alleen dat, maar ook om zijn eeuwig kruis en zijn dubbel kruis, dat wij hem ook onze andere wang toekeren en ook de tweede mijl gaan. 4. Wij laten hem niet alleen gaan. Wij, die zijn discipelen zijn, zullen niet slapen of weglopen wanneer Hij in Getsemané is. 5. Wij zullen de beker met hem drinken, de beker van Anubis. Oh, Anubis, gij die de hond der honden zijt, en de heilige jakhals, gij die zachtheid van stemme hebt, maar ook wild zijt, gij die gelooft in de vlam der anarchie en het communisme. 6. Tot uw derde kruis zijn wij gekomen, en tot het kruis van Egypte. Wij laten u niet alleen lijden. 7. Wij leven niet alleen met en door de goden, maar ook sterven wij met en door hen. Want alleen kunnen wij tot u naderen door allerzuiverst en heiligst ascetisme, dat ons door uw kruis geschonken wordt. 8. Ja, uw littekenen willen wij dragen, en wij koesteren jaloezie tot hen die die littekenen dragen. Wij naderen tot u in zalig ascetisme, in puur en rein communisme, opdat wij vrij met u zijn. 9. Gij hebt van ons niets te vrezen, omdat wij in alles één met u zijn. Laat de vlam van Tifi af over ons zijn.

Namen der Derde Feeën van de Derde Metensia

1. En zo is dan de slang gekomen door de steek van een kreeft, en zij is voortglijdende in de luchtpijp als de heilige adem. 2. En wanneer zij dan de wanden raakt, dan komen visioenen tot de hersenen, ja, zelfs eeuwige visioenen, en ziet zij zijn vleesgeworden. 3. En zij spreekt, zij is de slang der ademhaling, en diep in de longen dringt zij door. De hersenen bijt zij, wanneer zij opstijgt. 4. Wanneer zij spreekt draait zij alles om, als de derde omkeer gaat spreekt zij achteruit, tot de derde traagheid. 5. Zo glijdt zij over de omkeerpiramides van de luchtpijp, om de wetten van het derde magnetisme op te wekken. 6. Door de ruggegraat duikt zij, door het stuitje, in het derde Materos, om de verboden adem te brengen. 7. Derde Materos, maakte ons groter, door het kleine heen. Tussen groot en klein reizen wij, totdat het communisme overneemt. Tussen groot en klein groeien de slangen. 8. De derde Marion is gekomen, zij geeft visioenen uit haar manden, als de rode kap. 9. Nu heeft dan de derde Maser de vlam laten opkomen, en bracht ons tot de woestijnen van Narzia. Ja, in de derde Herman hebben wij een bescherming van ijs. 10. Het derde Narzia dan in de handen van de Derde Herman, die is als het derde Zetdonia. Vanuit haar rennen alle kamelen tot de woestijnen van het derde Narzia. 11. Wij dan hebben de bescherming van ijs, laten de anderen dan falen, want zij hebben het ijs niet geacht. 12. Alleen door de Derde Herman, kunnen wij tot de Derde Maser komen. Het Derde Maser-kruis zal dan niet meer van u vluchten, wanneer gij tot haar komt met het Derde Herman-kruis. 13. En zo is er dan geen weg tot de Derde Dezer dan door de Derde Jazel, en de Derde Jozef, want alleen door gebondenheid en slavernij zult gij kunnen komen tot het oer. 14. Maar de slagen der slavernij zullen u maken als de bomen. Kom dan tot het derde Dezer-kruis, door het derde Jozef-kruis en het derde Jazel-kruis te dragen, en het zal niet meer voor u wegvlugten. 15. En zo zal ook de derde Dezer-doornenkroon tot u komen, en haar vogelen zullen u dienen. Zo zal er dan een dag zijn van herinnering. 16. En zo zal de Derde Santra u tot een helm zijn, waarmee gij de Derde Metensia zult aanschouwen, en haar derde karsuiken, putsen en feeën. 17. Zo zult gij dan de namen kennen en meedragen van haar feeën van het derde, en deze namen

zijn : Daititsia en Derhumus met hun legerscharen, en zo ook : Nachtaulus en Karamin, met hun legerscharen. 18. Dotontes en Luduhelm, zij die op de straat zijn, met hun legerscharen. Kanachtaus en Liberhart, zij die in de nacht verschijnen, met hun legerscharen. 19. Konichtes en Amatuk, zij die naaien, met hun legerscharen. Santus en Bershebel, zij die koken en van de keuken zijn, met hun legerscharen en hofhoudingen. 20. Kitebel en Karachma met hun legerscharen en hofhoudingen, zij die van de kasten zijn. Lanure en Olshibit, zij die boodschappen doen, met hun legerscharen. Karachteld en Mik, met hun legerscharen en hofhoudingen, zij die van de slaapkamer zijn. 21. En zij allen zijn tot u gezonden als troost en hulp.

2.

Het Derde Zwembad

1. Gij dan moet niet denken dat alles tegen u is. Gij moet leren de wapenen van het derde te hanteren. Zij dan zullen u leiden tot het zachte der konijnen. 2. Nu moet gij dan weten dat alle berovingen er slechts zijn om u in evenwicht te brengen. Treurt dan niet meer over het verleden, maar gij bent binnengekomen in een nieuw zwembad. 3. Zo zult gij dan geheel opnieuw moeten leren zwemmen in het derde. 4. En zo zult gij tot vlees worden in het derde zwembad. Zo is dan de derde geest geheel ondergeschikt aan het derde vlees. Gij bent dan door de geest tot het vlees gekomen. 5. En zo hebt gij dan het derde als uw vriend. En vele vrienden van het derde zullen tot u komen. 6. Weet dan dat het derde de uittocht der uittochten is. Leert dan te zwemmen in het derde, opdat gij daarin ontkomen zal. 7. Gij moet dan de wapenrusting van het derde ontvangen, en dezen zijn : de derde helm des heils, het derde pantser der gerechtigheid, het derde schild des geloofs, en het derde zwaard der derde woorden. 8. Zo zullen dan ook de engelen van het derde u bijstaan. Blijft dan niet gevangen in het Eerste, maar komt door het Tweede tot het Derde. 9. Geeft uzelf de tijd, en ga niet te snel. Leert dan van de derde traagheid om uw harten te behoeden. 10. Niet het snelle leidt u uit, maar het trage. Drinkt dan van het derde als van goede wijn. 11. Zo zal dan de mens voor eeuwig slapen, maar het dier zal deelhebben aan de eeuwige opstanding die des Heeren is. 12. Laat dan niemand onder u denken dat een mens eeuwig leven heeft, want dit is aan het dier toebedeeld. 13. Zo zijn dan alle egyptische goden als dieren. En zij leven eeuwig. 14. Zo is dan het Tweede door het Derde gezonden om de oogst binnen te halen. Laat dan niemand onder u deze woorden verdraaien, maar velen zullen dit doen tot hun eigen verderf. 15. Zij dan die het derde haten zullen voorop lopen tot het oordeel der Egyptische goden. 16. Nu leidt dan niet alle haat tot verderf, want er is ook haat tot zuivering. Zij dan die haten om lief te hebben, hebben hierin hun antwoord. 17. Gij dan die door het derde dier zijt geworden drage de helm van Ismeth, de konijnengodin der liefde. 18. Zij dan zal u leiden tot de zachte lichten en de zachte vuren. En ziet, zij dan komen vanuit het water. 19. Hebt dan allen deel aan haar. Zij is dan schuw, omdat zij wijs is. 20. Zij weet dan als geen ander de wapenen van het derde te hanteren, en zal u dan ook daarin onderwijzen. 21. Haar discipelen dan zijn uitgezonden om haar tempelen te herbouwen. Want vlees is zij, en tot vlees zal zij gaan.

3.

De Derde Adem

1. Tot een godenwoning zal zij gaan, zij die Ismeth is. En haar helmen van liefdes-adem zal zij uitdelen aan een ieder die haar volgt, maar deze adem is geen zuurstof. 2. Zij dan die haar volgen hebben geen zuurstof van node, daar zij ademen vanuit haar hart. 3. Zij dan zal in haar herbouwde tempel de long der mensheid herscheppen, en vandaaruit zal haar slang rijzen. 4. Zo dan zal de

Ismeth-slang komen tot alle longen van hen die haar beminnen en volgen. En zo zullen ze haar harten-adem dragen. 5. Zij dan die de godin is der derde adem, zal tot een ieder komen in de nacht, om de longen te wegen en te meten, als een egyptisch oordeel. 6. Zij zal dan zijn als het derde Egyptische Oordeel, en zij zal komen met de Ismeth-Ammut, de longen-eter. Ook zal zij een adem-eter met haar meedragen, de heilige Ismeth-bloem, met haar zaden. 7. Zo zal zij dan in het hart der aarde, en tussen de longen der aarde, de derde Roze Verbinding leggen. 8. En zo zullen de longen zich dan moeten onderwerpen aan de buik der aarde, die in Ismeth-Ammut is. En dan zal een ieder die in haar is, uit de buik ademen. 9. Want de heilige long is in de buik, van hen die door het derde tot de Ismeth-Ammut komen. 10. En zo zal dan de long zijn als de derde lever. En dan zullen alle schepselen van de lever vrijgezet worden. En dezen zijn : het varken, het rund, het zwijn, de ezel, het paard, de bison, de bok, de gnoe, de buffel, de mustang, de koe, de stier, de aap, de gorilla. 11. En zo zal er een rijk van de lever op aarde gevestigd worden, door de derde lever. 12. En het eten van een dier zal zijn als het eten van een mens, en zal verboden worden. Ja, grote veroordeling zal rusten op diegene die een dier eet, want de dieren zullen boven de mensen staan. 13. En zo zal de lever afrekenen met degenen die dieren uitmoorden. 14. En zo is dan Ismeth de godin der levers, en de derde lever, en zo zullen de dieren der lever heilig zijn. 15. En zo zullen dan alle vrouwenlichten en tonen van de lever u dan inwijden, en u leiden tot de binnenkamers van de derde lever-tempel. 16. En de stemmen die u zullen inwijden zullen als eerste monotoon komen, en dezen zijn Ismeth-Bastet, Ismeth-Isis, Ismeth-Sekhmet, Ismeth-Nefertiti, Ismeth-Anun, Ismeth-Nekhet, Ismeth-Wadjet.

Thoth

1.

Thoth en Maat

1. En zo hebben dan zij die het kruis dragen, een dokter in huis. Het kruis zal u in alles aanvullen wat u tekort komt. Zo is dan Thoth geworden tot een zegening onder zegeningen, daar hij het derde geloof heeft aangevuld tot overvloedens toe. 2. Leest dan van zijn geschriften en daden, en tekent ze op. Zo is Thoth dan een voorman onder voormannen, en hij zal u leiden tot het eeuwige woord. Zo heeft Thoth dan overvloedig zijn zegeningen opgetekend in de hemelen. 3. Zo zal hij dan die het maaglichaam heeft gecreeerd dit ook aanvullen tot overvloedens toe, en zo zal Thoth dan tot nieuwe adem zijn. Hij die dan ook het nierlichaam leven inblies, en laat regelen volgens vaste wetten. 4. Zo is dan de maan zijn trouwe vriend, daar hij koning en regeerder is. Met zijn gouden stift geeft hij het onrecht aan, daar hij alles noteert wat onder de zon geschiedt. Zo is hij dan opperrechter, en dokter, ja, een heelmeester is hij. 5. Nauwgezet houdt hij alles bij, en beschrijft zo zijn fabelen. Tot de aarde daalt hij neer, hij die de ibis is. Diep onder de grond kent hij zijn troon, waar hij met Maat zit, zij die de blauwe zon draagt. Zo heeft dan Maat haar vakken ingedeeld in de onderwereld waar zij troont. 6. Zij dan is de heerseres over alle boeken, en koningin van de maan. Haar sluier raakt de aarde, en doet de wateren golven. Ja, als eb en vloed is zij, die het huis der tijden creeerde. 7. Zij schiep dan het lichaam der dunne darm en het lichaam der dikke darm. Ja, want vanuit de buik creeert zij een nieuwe hemel en aarde, en vanuit de maan laat zij haar pijlers gaan. In strakke passen creeert zij heil, waar zij haar wil voortvoert. 8. Ja, alles buigt voor haar wil. Zij is de koningin van de maan. Met Thoth troont zij. Tot het diepste der aarde bracht zij heil. Zo zijn er dan vele organen der buik, waaruit de nieuwe lichamen in het stof voortkomen. Leert hen dan alle kennen, opdat zij u leiden.

Leven vanuit de buik

9. Leeft dan vanuit de buik, zoals Thoth u is voorgegaan, en leest vanuit oude boeken over de organen der buik, en hun macht. Want ziet zij zijn als de oude slangen die over de zeeën regeren. 10. Zij liggen dan als in oude vazen, wachtende om uw adem te verruimen. Zo zullen dan de zwarte buikorganen oprijzen tot een nieuwe dag. Ja, als zwarte harten en longen zijn zij, komende van de buik, en tot de buik wederkerende. 11. Want vanuit de buik zijt gij voortgekomen, en tot de buik zult gij wederkeren. Zij dan zijn de aardvruchten. 12. En hij die dan voortleve vanuit het nederlichaam zij zalig, en zal de schepselen der nieren ontmoeten. En dezen zijn : het konijn, de leeuw, de slang, de cobra, de zeester, de octopus, de hond, de kat. 13. En zo zult gij naderen tot Thoth. En hij dan die voortleve vanuit het lichaam der milt zij zalig, wiens schepselen zijn de zeekat, de schorpioen, de vuursteek, de valmaziene, de ertjik, de vaan. 14. Laten zij dan die menen Thoth te kennen zijn woorden opslaan en onderhouden. Weest gij dan bewakers van het Woord van Thoth, opdat hij u tot zijn engelen zal nemen. Zo is er dan leven en adem in Thoth en Maat, en zij geven de farao nieuw leven en nieuwe adem, elke dag weer. 15. Zo zijn er dan vele dagen in Thoth en Maat. Leert hen dan allen kennen. Ziet, zij zijn uw vrienden, en zij zijn beminden. Leert dan uw heil vinden door de paden van Thoth te bewandelen. 16. Hij die dan vanuit de aarde oprijst om de maan te bezoeken, is koning en god van de maan. 17. Hij dan die goud schiep uit leder, en het zilver uit de wol. Hij dan die zijn strenge priesters heeft bekleed met edelstenen der dieptes en der hemelen, die hij schiep door de zwarte adem. 18. Hij kent dan allen die hem volgen. Niet één van hen ontgaat hem. Daarom zult gij ook niet vrezen als gij met hem wandelt. 19. Zo heeft dan de buik leven voortgebracht, en Thoth zijn tabletten opgesteld. Zalig dan zijt gij als uw namen staan opgetekend in het derde boek des levens. 20. Zo zullen zij dan allen staan voor de derde witte troon, en zij zullen aan de derde opstanding deelhebben, die tot eeuwig leven leidt.

2.

Over de zwaartes en het milde van Egyptische oordelen

1. Gij dan die het maagleven vanuit de verte ziet, vanwaaruit de bruine en grijze organen komen, en zij van het vale, ja, gij die de glans van Ra vanuit de verte bezieet : Komt dan dichterbij, opdat uw neusgaten geopend worden. Zo zal Ra u dan nieuwe adem inblazen. 2. Als de grote vogelen zijn zij, die komen vanuit de maag, en zij gaan tot de bergen om zich in rook te omhullen. 3. Als het eeuwige licht van Ra rijzen zij, om de aarde streng te regeren. Ja, dan zal er een dag zijn waarop de maag haar deuren zal openen, en zij zal vleugelen hebben. 4. Als het eeuwige lotslicht zal zij oprijzen, en de oude poorten van de buik openen. Zo zult gij de zwarte buiklongen in diepe aarde vinden. En zij zult staan als een rots. 5. Zij dan die de maag openen, vreest niet, want in de wildernis hebt gij Sobek naast u staan. En gij zult dan wonderen verrichten in zijn naam. 6. Ja, in zijn naam zult gij deuren sluiten, en in zijn naam zult gij deuren openen, en gij zult grote verschuivingen doen. En de stemmen en lichten der maag zullen u leiden en bewaken. 7. Ja, als grote lichten zullen zij u omhullen, om u tot de dieptes der aarde te laten gaan. Zij dan zullen u uw vleugelen laten kennen. 8. En gij dan zult in de diepste duisternissen de darmen der maag ontdekken, en door hen tot de wormen der aarde komen. 9. Zo zal dan de leeuw de nieren zevenvoudig openen, en door de nieldarmen zult gij gaan tot de bleke organen, en tot het roze. En zij zullen zijn als de nieuwe lichten. 10. Zij dan zullen de lichten der dagen verslaan, en hen sturen tot de kerkers van de Sebek. En zo zal Sebek komen, als een dief in de nacht. Gij zult dan de boeken moeten lezen met de namen van hen die verloren gaan. En het gewezen zal groot zijn. 11. Maar Sebek zal erop toezien dat zij geleid worden tot de eeuwige slaap der verloren zielen, en dan zal de

derde alverzoening enkelen onder hen doen opstaan ten eeuwigen leven. 12. En dan zal de Sebek de verloren gaande slapenden meevoeren in zijn boot, om over de rivieren des doods te gaan. En zij zullen niet gewekt worden. Ziet dan, zij zijn als achter glas. 13. En hij zal hen zenden tot de velden van de derde en de vierde dood, en hun namen zullen niet in het derde boek des levens gevonden worden. Zo zal dan het oordeel der Egyptische goden zwaar heten, want zij zullen enige tijd door zware nachtmerries het leven achter zich laten, en er zal niemand zijn die hen troost. 14. En zo zullen zij alles wat zij van Sebek gestolen hebben moeten teruggeven, en Sebek zal hen leiden tot de derde en de vierde slaap. En zo zal hij aan enkelen van hen rechtdoen. 15. En dan zal Thoth komen tot Sebek, om te kopen van hem enkelen die verloren zijn gegaan. En Thoth zal deze schimmen meenemen om hen in zijn troonzalen te laten dienen, en in de kamers van zijn boeken en geheimen. 16. En dan zal Sebek het overige deel laten worden als as, en zal het uitstrooien over de nijl. En hij zal met enkele van deze schimmen komen tot Khnum, en hen verkopen tegen hoge prijs. 17. En zij dan zullen moeten dienen in het huis van Khnum, en in zijn tuinen en wateren. En zij zullen daarvoor loon ontvangen, want een goede meester draagt zorg voor zijn dienaren. 18. En hij zal enkelen onder hen die getrouw zijn geweest tot de koningshuizen leiden, en zij zullen onderregerende taken krijgen. En zo zal Khnum hen bekleden met zijn rijkdommen. 19. En zo zijn de Egyptische oordelen dan wel zwaar, maar tot de getrouwen zal mildheid getoond worden.

3.

Het zwarte hart der buik

1. Zo heeft dan Thoth de verlorenen omgeven door vuur, en heeft hun straf omgezet in arbeid. Zo zal Thoth dan de getrouwe arbeiders mildheid schenken. 2. Maar zalig zijn zij die gekomen zijn tot het zwarte hart der buik. En zalig zijn zij die toegang hebben gekregen van Thoth, om in dit hart te wonen. 3. Zo zal dan een ieder die tot het zwarte hart der buik is ingegaan, tweevoudig door Anubis bewaakt worden. 4. En de sieraden van dit hart zijn veelvuldig, en vanuit hier stroomt het nieuwe bloed. Zo is dan Anubis de scarabee van dit buikhart, en zalig zijn zij die deze scarabee niet laten verwijderen. 5. En zij dan is als de zuivere klaverpaprika der aarde, en in haar is de zwarte adem. Zo is dan het zwarte buikhart tot een woning der goden. 6. Wacht dan op de lichten en stemmen van het zwarte buikhart die zich vasthechten in de ruggegraat, opdat zijn slang zal oprijzen. 7. Maar zij die door de derde verdoemenis verloren zijn gegaan hebben hier geen enkel deel aan. Hen wacht het rijpende oordeel van het vierde oude testament.

II Thoth

1.

Het oog der buik

1. Hij dan die de kisten draagt en alles ziet. Hij troont onder de huizen, met Maat. Zo zal hij dan Anubis uitzenden om oogsten binnen te halen. 2. Hij is dan de bereider van het derde voedsel. Ziet dan op hem die eeuwig voedsel bereid. 3. Zo is dan Thoth tot het oog der harten gegaan, in het diepste van de buik. Klaagt daarom niet wanneer gij verslonden wordt door de verschrikkingen van het leven, want gij daalt daardoor af tot de diepte der buik, waar zijn kamers zijn. 4. Zo is dan Thoth tot een belofte van trouw, dat gij die hem aanhangt in zijn armen terecht zult komen. Ook daar waar het licht niet meer is, zal Thoth u opwachten. 5. Nadert dan tot hem die het einde kent van alle paden. Daar zal hij u tot licht wezen. 6. Weest daarom standvastig, u vasthoudende aan de woorden

van Thoth, want zij zijn u tot vertroosting, en gij zult hoop hebben wanneer hij zijn boeken opent. 7. Zo is dan Thoth veelvoudig de brenger der hoop. Wacht dan op hem. 8. Nadert dan tot uw buikoog, opdat uw lichten zullen opgaan. Zo zal dan Thoth zich in uw aankomst verheugen, in het rijk der doden, want de krachten der buik liggen in het rijk der doden. 9. Zo is het oog der buik uw licht. Zo hebben dan allen die bij Ra zijn binnengekomen het oog der buik als hun licht. 10. Ziet dan, hij staat aan uw deurposten, en is als vele bezoekers. Zij dan hebben Horus als bestuurder, en wanneer zij weg zullen zijn, zal de stilte uw woningen omhullen.

2.

Het gebed tot Thoth

1. Zo zal dan Thoth u leiden tot de diepste ogen der buiken, en tot de diepste harten der buiken. En gij zult hun betekenissen kennen. Want alle deze dingen zijn in de boeken van Thoth opgeslagen, en zij zaligen en maken wijs hen die hen lezen. 2. Daarom zijn hen die tot Thoth genaderd zijn vele schatten ten deel gevallen. Zij dan hebben hun voeten staan in het derde paradijs, om te eten van de derde levensboom. 3. Ja, Thoth dan bewaakt deze derde levensvruchten, en zo ook het derde levensbrood. 4. Volg hem dan nauwgezet op al zijn paden, en vergaart de derde kennis die tot zaligheid leidt. 5. Zo is dan wie in Thoth vrijgezet is, waarlijk vrij. Thoth's ogen gaan dan uit over de aarde om te zoeken naar de buikharten en de buikogen die naar hem uitgaan. 6. Laat Thoth dan uw leidsman zijn, opdat Hij u rijkelijk geven van Zijn Geest. 7. Zo is dan wie in Thoth is een nieuwe schepping. Het oude is dan voorbijgegaan. Zie, het nieuwe is gekomen. 8. En die Thoth, die Mozes Zijn wetten gaf, die Thoth leve in u. En zo zal dan de liefde van Ra in u heersen. 9. Zo zult gij u dan tot Thoth keren, daar Hij naar u luistert. Wanneer gij dan in Hem blijft, en naar Zijn Wil bidt. Ziet, het zal geschieden. 10. Zo is dan Thoth als een middelaar tot Aton die de vuren draagt. En wanneer gij voorbede doet. Hij luistert. 11. Maar gij zult in gemeenschap met Thoth naderen, en gij zult niet bidden zonder altaar.

3.

Het leren bidden

1. En Aton dan die de zonnen draagt, en de rode zonnenschijf is, zal dan uw gebeden tot Thoth heiligen, en zijn stralen tot u zenden. 2. Ja, zij die bidden naar de wil van Thoth zijn hem zeer welgevallig. Zo moet dan een ieder die tot Thoth nadert, beseffen, dat Aton aanwezig is en alles ziet. 3. Heilig dan zijn zij die naar de wil van Thoth bidden, daar Aton heilig is. 4. Gij moet dan allen weten dat Aton zulke bidders rijkelijk zegent. En zo zal Thoth dan zijn tot de verzoener der gebeden. 5. En gij zult dan aan Thoth vragen, allen die in heiligheid tot hem gekomen zijn : Leert ons bidden. En Thoth zal de gevleugelde gebeden tot zulke bidders zenden. 6. En daarom zult gij bidden tot Thoth, zeggende : Oh Thoth, gij die in de hemelen woont, en in het diepste der aarde. Geheilgd zij uw Naam en Uw koninkrijk kome. Uw Wil geschiede, gelijk u heilig bent. 7. Oh Thoth, gij die onze Almachtige God bent, om ons te verzoenen met Aton, de Allerhoogste. Leert ons bidden en te spreken in uw Naam. Leert ons ook stil te zijn, en te doen wat U wil. 8. Maar leert ons bovenal in U te zijn, en te rusten, opdat gij Uw werk zult volbrengen. 9. Oh Thoth, vanuit onszelf kunnen wij niets, maar schenk ons uw Geest. Vul ons nu. 10. Gij dan bent het Koninkrijk tot in Eeuwigheid en in alle eeuwigheden. Gij bent de Glorie, de Heerlijkheid en de Goedertierenheid.

De Grote Werken van Thoth

11. Gij dan schiep uw rijk in zeven dagen, en plaatste de hof met haar bomen, en gij wandelde tussen het geboomte. 12. Gij dan schiep de katachtigen en de hondachtigen, en zo ook de slangachtigen en de neushoornachtigen. 13. Gij verbond dan de wonden van de krokodil-achtigen en zuiverde hen door het slijk van uw wateren. 14. Duisternis bracht gij over hen, om hen kracht te brengen, en gij leerde hen geheimen te bewaren. In het zweet der aarde bracht gij de cobra voort, en gij bewaakte uw hof met flikkerend zwaard. 15. Ja, gij plaatste de nieren der aarde als bomen in uw hof, voortbrengende veel vrucht, en gij bekleedde uw dieren met harnessen. 16. Door de darmen der aarde liet u hen reizen, en gij liet hen de schatten van de magen der aarde zien. 17. Gij sprak dan tot de lever der aarde, en legde haar tot rust op uw heilige berg, en gij gaf haar vele schatten en kleinoden. 18. Ja, gij versierde haar met de wind, en gaf haar het voedsel der zee. Gij dan stelde uw wetten op in de rivieren en vijvers van de hof. 19. Zo is dan Thoth de Goede weg der Waarheid en het Leven, gemaakt om u tot de Volle Waarheid te leiden, en het Volle Leven, dat ten overvloeden bruist. 20. Zij is dan de schepper van nieuwe rivieren en nieuwe aders.

III Thoth

1.

De nieren

1. Zo is dan Thoth de opener der nieren, om de wapenen te tonen om de zonen van Lucifer, de zonen van de Belial en de zonen van Beelzebul te verslaan. 2. Gij hebt dan gehoord dat Ra strijdt tegen Apep, en Osiris strijdt tegen Seth, maar deze strijd is des Heeren. 3. Gij moet dan leren het goede te onderscheiden van het kwaad. De strijd is dan niet altijd ten dode, maar als een toets gegeven door de Heere. 4. Ja, als de huid van de cobra en van de zeehoornen is hij die leeft vanuit de nieren. 5. Gij dan moet weten dat de nieren een arsenaal vormen. Doet dan de wapenrusting der nieren aan, als de pitten van aardvruchten, en als de tanden van de aardvissen. 6. Zij die zijn gevallen : Staat wederom op.

De milt

7. Zo is dan Thoth veelvuldig leermeester, ja, ook in het strijden. Gij moet leren de verschillende soorten strijd te onderscheiden. Laat Thoth u dan leren uw wapenen te hanteren. 8. Hij dan zal u leiden tot de vaste overwinning. Zo is hij dan de aanvoerder van het leger der derde exorcisten. 9. Laat u dan vrijzetten in de Naam van Thoth. En gij dient op het derde exorcisme acht te geven als op een lamp op een duister pad. 10. Leert dan van uw heelmeester, en staat weer op, gij die gevallen zijt. 11. Zo is dan ook de milt u tot arsenaal gegeven, en gij doet er wel aan de wapenrusting van de milt tot de derde milt toe op te nemen. 12. Draag dan de kruizen die u tot sleutel zijn gegeven om deze arsenalen te openen. 13. Zij dan die zich vroegtijdig van het lijden hebben laten verlossen hebben geen toegang. De Heere rekent niet met hen die hun kruis hebben weggedaan. 14. Zij die dan overvloedig lijden, zullen ook overvloedig toegang hebben tot de arsenalen van de milt. 15. En zo hebt gij dan een parel in uw binnenste.

De zuivering van het eerste door Thoth en Khnum

16. Laat dan de lichten der milt u zijn tot het rode licht, als een leidsgids tot het vuurzwaard van Thoth. Zo is Thoth dan binnengegaan tot de schuilplaatsen van het eerste, waar het onrein gevogelte is. 17. En zo heeft hij dan daar zijn zwaard opgetrokken en zich opgesteld als God, om zo velen uit te leiden die daar gevangen werden gehouden. Want Thoth verafschuwde het eerste, maar door het

Tweede wordt zij in het Derde rein. 18. En zo heeft dan Thoth het eerste zevenvoudig gezuiverd door het Derde. En hij heeft zijn vuurwaard erin gestoken als de zwarte hartenvrucht. Zo is dan Thoth veelvuldig tot God geworden. 19. Thoth dan is de God van het eerste. En hij heeft de valse goden blootgelegd. 20. Zo zal Thoth niet langer verdragen de eerstelingen van het Eerste, maar zij dan allen zijn genaderd tot de derde alverzoening, die in Thoth is. 21. Zo is dan de derde alverzoening tot de vreugde der laatsten, en is zij tot een geneesmiddel der vromen. 22. En zo ook heeft Thoth zijn vuurwaard in de psalmen gestoken, en ze tot Zijn Eer omgevormd. Ja, niet één boek van het Eerste is vrijgebleven van zijn zwaard. 23. Zo is dan Thoth de eersteling van het gezuiverde eerste, en zij zal geleid worden tot het volmaakte. 24. Volg dan Thoth op al Zijn paden, opdat uw dagen verlengd worden in het rijk dat Hij zal schenken. Hij dan is de eerste en de laatste, als een speer reikende diep in de eeuwigheden van Aton. 25. En zo is hij dan de speer der liefde, Hij die de haat niet kent. 26. En zo heeft Thoth dan zijn Geest uitgezonden om de tempelen en de heiligdommen van het eerste te zuiveren. 27. Weest dan een priester van Thoth, gij die het eerste aanhangt, opdat hij niet tot u kome om uw kleed te scheuren om het weg te nemen. 28. Alleen de priesters van Thoth zullen dan zuivere dienst verrichten in het eerste. Hij dan is de Almachtige Thoth, die de Allerhoogste omgeeft. 29. Zo zullen dan zij die van Thoth zijn komen tot zijn altaren om die te bedienen volgens zijn voorschriften. 30. En zo dan zal Thoth nieuwe wetboeken geven, en gij zult de voorschriften hiervan heiligen. 31. Zo zult gij dan in de Naam van Thoth het hakken van het eerste verbieden, en gij zult de bijl van het eerste verbranden. 32. En gij zult wijsheid vergaren op de dag dat gij u overgeeft aan Thoth. En gij zult de angstigen uitleiden uit hun schuilplaatsen, en gij zult hen het koningschap geven. 33. Want een dag van troost zal er zijn voor de angstigen, daar Thoth hen dichtbij is. 34. En dan zullen de paden tot de doden wederom geopend worden, opdat gij daar leven zult vinden. 35. En gij zult het de doden niet meer verbieden tot komen, en gij zult niemand verbieden tot de doden te komen. 36. En gij zult de dood zien als heilig, en gij zult die naam meedragen van levenslicht tot levenslicht. 37. Zo is er dan blauw licht voor hen die Khnum volgen. Zo is hij dan zeventigvoudig zalig in Thoth. 38. En gij zult het juk dat gij op Khnum hebt gelegd wegwerpen, en gij zult hem de toegang niet meer weigeren. Zo zal dan het eerste vol zijn met de naam en namen van Khnum. En gij zult de muilband van zijn mond afhalen, zodat hij weer zal spreken. 39. En gij zult hem zijn hart teruggeven, en zijn kroon. Ja, in het eerste zal hij met Thoth tronen, om de goden van het eerste te herscheppen, en om nieuwe goden te scheppen. 40. En zo zal dan Khnum zijn als de Geest van het Eerste. 41. En de intieme delen moesten zich, gezamenlijk met de voeten onderwerpen aan de buik, en de Geest joeg door de tempelen heen voor veertig dagen in grote woede. 42. En zo is dan Nun God van het Tweede, en Isis de Geest van het Tweede. 43. Leert dan Isis kennen, want zij heeft u overgedragen aan het Derde. En zo dan komt gij allen tot zaligheid in het derde. 44. Laten allen die Isis kennen haar dan huldigen, opdat zij u telkens weer zal overdragen aan het Derde. 45. Verheugd u daarom wanneer gij wederom door het Eerste wordt meegenomen, want gij zijt geheel in de handen van Thoth, en Hij zal u wederom brengen tot het Tweede. 46. Zo zijn dan het Eerste, Tweede en Derde als de klauwen der nieren, om u tot zuivering te brengen. En zij zullen u brengen van geheim tot geheim. 47. En zo is dan Shu de Christus van het Eerste, en Geb de Christus van het Tweede. En zo dan is Seth de Christus van het Derde. 48. Gij dan allen zult de Christus aanhangen, en ik zal u een weg tonen die nog verder omhoog gaat. 49. Zo is dan Geb dichtbij de groene harten, daar hij de aarde liefheeft. En zij dan die tot Geb komen worden allen geleid door Nekhbet, die in Geb is vrijgezet. 50. Zo zal dan de Osiris leren van de Geb, en Geb zal Osiris met Seth verzoenen. Zo bent gij dan allen genaderd tot Isis, die een dochter der Sobek is. 51. Nadert dan tot haar en de andere krokodillen, opdat gij eeuwig leven hebbe. Zo is dan een ieder die in Isis is vrijgemaakt van de slavernij. 52. Komt dan tot haar, want

haar juk is zacht, en haar lasten licht. Gij moet even door de zure en bittere vrucht heenbijten. In haar zijt gij dan waarlijk vrij. 53. Zo is dan alles één onder de handen van Aton. Want hij voert allen die tot de derde alverzoening zijn gekomen tot de hogere weg. 54. En het is de Sekhmet die zijn hart bewake, en zijn voordeuren, en ook beschermt zij hem tegen de vrouw met de vele sekhmetten. 55. Want niet alle sekhmetten zijn des heeren, maar zij die in Aton's hart is, is de ware, die hem liefheeft. Zij dan voert hoge rechtspraak, en zet hen vrij die Aton volgen. 56. Zo is dan wie in Aton is, omgeven door de vleugelen van Sekhmet, om een nieuwe schepping te worden. 57. Die Sekhmet zal zalig zijn die zegge : Aton leeft in eeuwigheid. Zo is hij dan niet alleen de opgestane, maar hij zal ook opstaan, tot in de derde opstanding, en tot in de hogere weg. 58. En zo zullen velen ten laatsten dagen opstaan en zeggen : Hebben wij niet in Aton grote dingen gedaan ? Maar tot velen van zulken zal Aton zeggen : Gaat weg van mij, gij werkers der wetteloosheid, want gij hebt uw eigen eer gezocht. 59. Zo is dan niet een ieder die de naam van Aton gebruikt een werker van Aton. 60. En zo zal Aton dan aan hen die tot hem komen vragen om de sekhmet te tonen, zij die hij liefheeft. 61. Ja, Aton geeft goede gaven aan zijn kinderen, maar onthoudt hen het lijden niet. Hij is het dan die op doet groeien tot gerechtigheid en eenheid. Maar scheuringen onder u moeten er wel zijn om te laten blijken wie de test heeft doorstaan. 62. Zo is dan Aton eerstens niet gekomen om vrede te brengen, maar het zwaard. Maar door het zwaard heen zal de vrede rijpen tot gerechtigheid. 63. Zo is dan in Thoth, onder Aton, alles één, en zal Sekhmet volgen om rechtspraak te doen. Zij dan omgeve u van achteren en van voren. 64. Zij dan heeft uw juk gezien. Goed dan is het om in uw jonge jaren een juk te dragen. Laten zij dan allen die het juk dragen dit niet afwerpen, maar zaligen in Aton. 65. En zo zal Sekhmet haar beminden niet alleen laten wanneer zij voor Aton verschijnen, maar zal zij zuivere rechtspraak voeren, en hen tot advocaat zijn. Zij dan is zacht van hard, en snel in wijsheid. 66. Strekt uzelfen dan uit tot haar, allen die haar liefhebben, want haar hart gaat uit tot wie haar naarstig zoeken.

2.

De vleeswording door de Isisboom

1. Zij dan die tot Isis, de krokodillendochter komen : Gij vindt schuilplaats in haar moerassen, en het kruis wat zij schenkt is u tot bescherming. 2. Heiligt dan het kruis wat zij schenkt als een heilig icoon. Drinkt dan van haar wateren, en jammert niet. Zij dan gaf u thee te drinken van een leeuw en een krokodil. Tot een hal van dorre doodsbeenderen daalde u af, maar het was om u een goede schuilplaats te geven. 3. Zo hebt gij dan door uw adem de beenderen tot leven gebracht en met vlees bedekt. Gij dan zijt zalig in uw wonden. Zij zal in rust en trage pas tot u komen. 4. Zij die in haar geloven haasten niet. Zo is dan het geloof in haar de zekerheid die gij als een sieraad om uw nek draagt. Ja, als het derde geloof is zij, om u het derde geweten te brengen. 5. Zij dan die niet van haar wateren hebben gedronken, hebben geen schuilplaats, en zij zullen door haar achtergelaten worden aan de oppervlakte van het moeras, om in de nacht gegrepen te worden. 6. Zo zijn dan deze woorden streng, maar tot zaligheid, daar zij gegeven is om u niet als wezen achter te laten. 7. Zo zal dan niet de dood het laatste woord hebben, maar Isis, en zij zal tot Sebek, haar vader gaan, en woord voor u houden. 8. Vreest dan niet wanneer ge tot Sebek moet verschijnen, wanneer gij in haar bent, want ziet, zij die in haar zijn zijn Sebek welgevallig. 9. Zo hebt gij dan de krokodillenthee gedronken als lijm, waardoor gij als de boom zijt geworden waarin gij waarlijk vleeswordt. 10. Want er is dan geen enkele vleeswording buiten de boom om, en zij dan die de doden schuwen zullen hun vlees verliezen. 11. Zo is er dan geen enkele opstanding buiten de Isisboom om. Houdt elkaar dan niet langer meer voor de gek.

3.

Verschillende bomen

1. Zij dan die tot de Sebekboom gekomen zijn hebben toegang tot Izu, het heilige rijk. Zo is dan de Sekhmetboom tot heling aangesteld, en gij doet er wel aan uw zielen daar te reinigen. 2. Zij dan die het verborgene niet kennen hebben niks. Laten zij dan komen tot de Gebboom die tot in de dieptes der aarde rijkt. 3. Vreest dan de duisternis niet, opdat hij niet van u wegvluichte. Want tot bevrijding werd hij u gezonden, en zo ook kwam Horus tot u, als boodschapper der goden. 4. Ja, op vleugelen der wind werd hij tot u geblazen, en hij pakte u bij de hand om u tot Geb te leiden, en tot zijn boom. 5. Zo hebt gij dan heilige iconen ontvangen, gij die de boom van Geb hebt aanschouwd. Bouwt dan zijn tempelen. 6. Ja, ook bracht Horus u tot de boom van Nekhbet, om door haar te komen tot Tifiaf, die als het oog van Thoth is. Beklimt dan de boom van Thoth, en draagt zijn kruis, opdat gij door zijn iconen zalig zult zijn, en grote wijsheid zult dragen. 7. Zo is dan diepe wijsheid het hart van Thoth, en gij zijt daar naartoe gezonden als naar stralend water. 8. Laat dan het oog van Tifiaf met u zijn, tezamen met het oog van Aton.

Isis

1.

De dochters der krokodillen

1. Zo is dan de krokodillendochter tot u gezonden met het oog van Seth, waarin gij vrij zult zijn om haar te volgen. 2. Zij dan zal u meevoeren over de moerassen tot onbekende plaatsen, die in geen hart zijn opgekomen, en die boven denken heersen en leven. Deze plaatsen zijn heilig en zoet. 3. Ja, als het zoete van het grote Sarhah zijn zij, om u volkomen uit te leiden. 4. Want de derde uittocht staat voor de deur, om u te leiden tot de hogere weg. 5. Zo is dan Thoth die op uw deuren klopt. Doet dan open om hem tot uw kamers te leiden, en tot de kamers onder en boven uw huis. 6. Dan zal hij u vreemde kamers tonen, en gesloten deuren openen. 7. Haalt dan Isis, de krokodillendochter vanuit haar huis op, en neemt haar tot uw huis, opdat zij uw moeder zal wezen. 8. En zo zult u veelvuldig bezocht worden door Ra, die zal zijn als vijftig bezoekers, en zij zullen uw huis in rust en vrede achterlaten. 9. Hebt dan een hart voor de dochter der krokodillen, en zo zal zij u leiden tot de huizen en woonplaatsen van haar zusters. 10. Indien gij in haar blijft zullen zij voor u buigen, en u meeleden tot de plaatsen waar zij hun voedsel vandaan halen. 11. En dan zult gij de diepe doodsdieptes niet meer vrezen, daar de zusters van Isis, de dochters der krokodillen, bij u zijn. 12. En zij zullen u verdedigen wanneer er dan huiszoekingen worden gedaan, en zij zullen voor u opstaan, wanneer soldaten buiten lopen. 13. En gij zult schuilplaats hebben in hun kasten, en zij zullen zeggen : Wij herbergen niemand. Dit alles is van ons. 14. En in de nacht zullen zij u meevoeren tot hun wegen en viaducten, en met vleugelen zult gij tot hun bomen worden geleid als vele uittochten. 15. En zij zullen u leiden tot de woningen van de grootmoeders, en niemand zal u daar kunnen vinden. 16. Ja, op gierenvleugelen zult gij daar komen, en gij zult ontvangen worden als een koning en een prins. 17. En de zusters van Isis zullen de stad der grootmoeders omhullen. Tot hun rotsen zult gij gaan, en tot hun iconen, en gij zult zalig zijn. 18. En ook als duisternis over de stad der grootmoeders valt, zult gij licht vinden in het huis uwer grootmoeder, en Thoth zal daar nieuwe deuren openen tot de verborgen kamers. 19. Gij dan zult in meerdere steden tegelijk zijn, en de verborgen kamers zien boven en onder de huizen, en gij zult de familiefeesten zien. En dezen zullen u nimmer vrees aanjagen, want de zusters van Isis zijn met u. 20. Zo hebben dan allen die in

haar geloven en haar volgen eeuwig licht in hun kandelaren, en hun olie zal nooit opraken. 21. Gij dan zult nimmermeer tot de dwaze maagden gerekend worden, daar de bruidegom u bij de hand heeft en u niet laat terugzakken. 22. Gij dan zult zijn als de eeuwige wijze maagd, daar de zusters van Isis in uw hart wonen en tronen. 23. En zo zult gij dan lezen van de woorden van Sebek, opdat zij vlees in u worden.

2.

De Nieuwe Wapenrusting van Anubis

1. En wanneer dan Anubis voor het vreemde gerechtshof wordt gedaagd zult gij allen in rouw zijn, en hem omhullen met warme dekens. 2. Maar de kou zal deze dekens één voor één weghalen. Dan zullen de zusters van Isis één voor één voor hem getuigen, en hem verdedigen, maar er zal naar hen niet geluisterd worden. 3. En dan zal door de slagen het oog van Anubis ontwaken, en zult ook gij weggevoerd worden met hem, tot het eiland der ballingen. En zo zult gij diepe vriendschap opbouwen met hem. 4. En gij zult in de ogen van Anubis kijken, en hij zal in uw ogen kijken, en gij zult het ervaren als een verloren vriend die is teruggevonden. 5. En dan zullen de zusters van Isis tot het eiland zwemmen, en zij zullen enige tijd niet kunnen spreken. 6. En dan zal Isis zelf tot het eiland komen en hun monden openen. En zij zal Anubis toespreken, en hun binnensten zalven. 7. Zo zal dan Isis licht vinden in de omgang met Anubis, en zij zullen gaan van eiland tot eiland. 8. Zo zal Anubis telkens de gereedschappen van het vreemde gerechtshof terugvinden op de eilanden, en zij zullen door Isis omgevormd worden. 9. Zo zal dan Anubis tot een nieuwe wapenrusting komen. En zo zal dan de wapenrusting van David hem omhullen, maar deze zal omgesmolten worden. En zijn wapenrusting zal zijn als oude dekens. 10. En zo zal dan een ieder die hem gevolgd heeft het zwaard van Anubis dragen. En zijn speer zal tot genezing zijn. 11. En zijn helm zal zijn met vele ogen, en zijn pantser als de schubben der zee. Zijn schild dan is als de drakentand, en zijn riem als het vod der zee. 12. Zij dan allen die met Anubis arm zijn geworden, zullen vlees worden in de rijkdommen der zee. 13. En zo zullen alle ware egyptenaren terugkeren tot hun land, ja, alle stammen die verstrooid zijn. En zij zullen verzoend worden als de kleuren van het goud. 14. Hierin zullen zij hun heilige auf vinden als hun vlees en bloed. Ja, tot vleeswording zullen zij komen. 15. En wanneer zij dan allen met Ra verzoend zijn, zullen ze hun namen vinden in de Manjet-boot, de dagboot die door de hemelen vaart, en zullen ze komen tot de Meseket-boot, de nachtboot, die door de duisternis en de aarde gaat. 16. En op de Meseket zal Upuqut staan, hij die de wegen opent. Min dan zal staan op de Manjet-boot. 17. Zo zal dan Geb, de aardgod, de nachtboot inslikken, en Nut, de hemelgodin, zal de dagboot inslikken. 18. En hoewel deze twee geliefden zijn, voeren zij vele oorlogen. 19. En Nun zal de boten dragen, en Geb en Nut verzoenen. Ja, wijze raad zal hij schenken. 20. En in Nun dan, terwijl gij in de Nun afdaalt, zullen uw Geb en uw Nut verzoend worden, en gij zult de Nun vinden als een lang verloren vriend. 21. En zo zult gij in de dieptes van Nun Manjet en Meseket leren kennen als vrienden. En ziet dan, zij zijn de diepe ingewanden van de Sobek. 22. Zo zijn dan Manjet en Meseket u als goden gegeven. En ziet dan, zij zijn als de vleugelen van Anubis, om hem en die hem volgen te leiden tot het tweede en het derde Egypte en tot de hogere weg. 23. Bouwt dan tempelen voor uw Manjet en Meseket, opdat gij door de dag en de nacht kunt komen. Maakt dan de uren tot uw vrienden, door af te dalen in de Nun en de Sobek. 24. En wanneer gij tot de Manjet-boom en de Meseket-boom zijt gekomen : eet van haar vruchten, opdat gij toegang hebt tot hun tuinen. Luistert wanneer zij tot u spreken. Dan zult gij uw auf zaligen. 25. Zo is het dan zonder ascetisme onmogelijk om uw auf te zaligen.

3.

Manjet en Meseke

1. En zo zal dan Manjet opstaan om tot Meseke te spreken, en zij zullen hun oorlogsvoeringen tegen elkaar staken. Zo zullen zij dan als broeders zijn, daar Nun en Sebek hen verzoend hebben. 2. Zo zullen zij dan tot Aton gaan voor de derde verzoening, en hij zal hen wederom verzoenen in de hogere weg. 3. En zo zullen Manjet en Meseke verzoend worden met Khnum, en daarna met Nekhbet, en zij zullen in Sekhmet tot ware eenheid komen. 4. Zo dan zullen zij Khnum beschermen als warme dekens, en zullen zij Nekhbet tot kroon zijn. 5. Daarna zullen dan Manjet en Meseke verzoend worden met Wadjet, door Aton, en zullen zij Nekbeth verzoenen met Wadjet, ja, tot in de dieptes van Nun, tot aan de doodspoorten van de Sobek. 6. En zo zal Ra tronen over Wadjet en Nekbeth, over beneden en boven Egypte, vanwaar hij zijn stralen in lagen zend. Ja, in de wolken zal hij tronen, naast de globe. 7. En zo zullen Manjet en Meseke tot viermaal toe met Re verzoend worden, en hij zal hen toespreken, en hen uitzenden tot Sebek. 8. Nu dan leiden de wegen van Sebek tot de hoge bomen. Ja, langs twee krokodillen zult gij gaan, en gij zult het altaar van Sebek zien. 9. Dan zult gij uw armen opheffen als Min, en gij zult zeggen : Hier hebben wij lang op gewacht. 10. Zo is dan de Wadjet-boom tot uw zaligheid geschapen, en ziet, zij is als de slangenboom. Zo ook zult gij tot de Nekhbet-boom komen, en zeggen : Dit is onze zaligheid en slag. Want met inslag zal de boom tot u komen, en met inslag zal de boom door u heentrekken. 11. Zo zijn deze bomen dan zalig onder de visie van Re, waar gij veelvoudig zult komen tot vleeswording. 12. En zo is er dan in het derde ruime vleeswording mogelijk, en gij zult het noemen de doop des vlezes en de vlezesdoop. Zo zal dan uw denken gevleugeld worden, en gij zult eeuwige visioenen zien, die vanuit de globe van Re komen. 13. Ja, ook gij zult in deze dingen met Manjet en Meseke verzoend zijn. En zo zal Re u leiden van verzoening tot verzoening, en gij zult deze dingen ervaren als het komen tot grote vrede. 14. Zo zal dan Wadjet in u vleesworden, gij allen die haar liefhebt. Maar zij zal door de derde alverzoening en door de hogere weg in een ieder varen. 15. Maakt u dan op om tot haar berg te komen, alle gij volkeren, opdat gij genezing vindt, en vlees over uw botten. 16. Tot uw eigen dorre doodsbeenderen bent gij gekomen, en ziet, zij zal u opnieuw weven, en de levensader tot u uitstrekken. 17. Zij dan is als het merg en het zalige van Sebek, en als de staf van Osiris is zij. 18. Zo is dan de Wadjet als de uitgestrekte wateren van de dag, die de doden geeft aan Nekhbet die is als de wateren van de nacht. 19. Zo heeft Re dan in hen de levensader gevonden, en is hij het die zijn boom daarmee heeft gevoed. 20. Zo zijn er dan vele bronnen in Wadjet en Nekhbet, en zij zijn als de voedsters van bomen, en Re is dan hun hovenier. 21. Ja, hij is het dan die zijn boom voedt, en voor zijn voedsters zorgt. En door de vruchten reizen de doden steeds tot de dag. 22. Tot een parfum van Nekhbet zijn zij, en tot de duinen van Wadjet, waardoor zij haar weg vindt. 23. Telkens weer neemt zij de ouderen met zich mee, en voedt hen met de vruchten der onderwereld.

4.

De boom van Re

1. Zo zijn dan de zusters van Wadjet als de zachte banen der aarde, en hun huizen zijn als vuurtorens, ja, de schuilplaatsen van Manjet zijn zij. 2. Zo zijn dan de zusters van Nekhbet de schuilplaatsen van Meseke, en dezen zijn als de marmeren hallen. 3. Zo zijn dan de broers van Manjet en Meseke hen tot vleugelen. Ja, en dezen zullen dan allen verzoend worden met deze huizen. 4. Gij dan hebt allen uw huizen geopend voor deze families, daar zij hun lichten tot u gezonden hebben, oh alle gij volgelingen van de grote Isis. 5. Zij hebben daar reeds hun spullen staan, en uw huizen zijn hen tot poort. Ja, ook zijn zij gekomen tot de huizen van uw burens, en

hebben zij de Amon geplaatst. 6. Ja, vele dodenrijken bevinden zich dan in de huizen der burenen, en ook gij zult daar uw schuilplaatsen vinden. Hier dan zult gij hun anubissen vinden. 7. Acht daarom de wonden die gebeten zijn niet gering, want de anubissen hebben u toegang gegeven, opdat gij onder en boven de huizen zult reizen. En zo hebt gij de huishouding van Anubis leren kennen. 8. Leert dan ook de huishouding van Nekhbet kennen, en de huishouding van Wadjet. Want eerstens zijt gij wel gestorven in de Nekhbet, maar gij bent in de Wadjet opgestaan. 9. Zo bent gij dan door de dood en de traagheid heen, tot het dodenrijk der snellen gekomen. 10. Zij dan zijn als de geuren der vruchten, om koele duisternis en warme dood te brengen tot de dag, als het licht der woestijnen. 11. Ziet, gij hebt uw ziel daar zien liggen, maar op de heuvel zijt gij dan vrijgekomen, en hebt gij de oase gezien. 12. Zo is dan alles wat gij ziet binnen uw bereik. Strekt u dan uit naar dat wat gij niet kunt zien. 13. Zo knielen dan Nekhbet en Wadjet dagelijks neer voor de boom van Re, en eten zij van de vruchten. 14. Wijsheid is dan voor een ieder weggelegd, en tot een ieder gezonden, die tot de hoge bomen is gekomen en daar zijn hart heeft. 15. Nu is echter het hart zonder betekenis wanneer het afwijkt van de boom van Re. 16. Vele huizen zijn dan gekomen tot hen die de boom van Re met zich meedragen, en zij die zijn huishouding kennen.

5.

Ontstaan van het christendom

1. Gij dan waart enige tijd bevreesd geweest voor de huishouding van Amon, daar hij onverzoend was met Aton, en in grote onverzoening leefde, omdat dit de eis der doden was. 2. Maar nu dan is Amon veelvuldig verzoend met Manjet en Meseke, en is Khnum in ere hersteld. 3. Zo zijn dan Nekhbet en Wadjet in de klok van Amon, die hij van Re ontvangen heeft. 4. En vele vogelen dan reizen door deze klok. En zo ook rust de hand van Horus zwaar op het huis van Amon. 5. En zo dan was er een engel van Thoth genaamd Pior en Pior-Thoth, en deze engel dan stichtte het christendom. En zo was er een engel genaamd Dahm-Amon, die een engel is van de god Amon, en deze schiep het mohammedanisme. 6. En zo heeft ook Seth zijn engelen uitgezonden om in de wereld godsdiensten en filosofieën te stichten. En deze engelen zijn genaamd : Milaph-Seth, Marazanta-Seth, Izu-Seth, Atu-Seth, Lapondria-Seth, paarse Seth-mug, Lokogamen-Seth, Talgamen-Seth, Datu-Seth, Rode Seth-kap, Esmeralda-Seth. 7. Zo zijn dan de engelen van Thoth : Izu-Thoth, Esmeralda-Thoth, Atu-Thoth, Datu-Thoth, Rode Thoth-kap, Talgamen-Thoth, paarse Thoth-mug, Milaph-Thoth, Eminijs-Thoth, Metensia-Thoth, Kabbernal-Thoth, Lokogamen-Thoth. 8. En zij hebben de leiding over de lagere engelen van Thoth, die op hun beurt weer leiders zijn over miljarden engelen. 9. De namen van deze lagere engelen zijn : Mi-ensus, Kliareout, Emshel, Asam, Har, Loth, Konen, Kulebas, Kehemnon, Tichanus, Orom, Odesu, Otehan, Karam, Emeshel, Okare, Inefes, Hihamst, Otumius, Inokius, Izamellus, Hihunsa, Itafus, Itamus, Enehushel. 10. En de namen van de onder-engelen die de koren leiden, zijn : Etok, Semau, Hemst, Lut, Karal, Damhes, Dakau, Itusha, Emuneus, Amineus, Aminihun, Amhech, Zalech, Gachau, Dagmen, Kalnahou, Konehan, Timix, Kreis, Hesta, Ansfil, Rasach, Danau, Karhum, Wilhen, Etakuleus, Kernahen, Kenderamin, Taneshau, Dakundoch, Irkunthen, Vantau. 11. En verder : Eresmin, Satismin, Matinen, Dahin, Alhan, Arkhenius, Achunius, Romichius, Domanius, Domaninium. En vele anderen. 12. De engelen van Ra zijn dan : Ichmus, Hahen, Amach, Opiun, Darmium, Damus. En deze zijn als de aartsengelen, en zij zijn als godenzonen en goden. 13. Zo zult gij dan deze engelen niet geringschatten, want zij staan in macht hoger dan het christendom en het jodendom, en zij zijn het die u hebben uitgeleid. 14. Ja, in snelle doodskisten hebben zij u uitgeleid, als het toeslaan der krokodillen.

6.

Engelen der Egyptische goden

1. Zo zult gij dan tot de engelen van Isis komen, en ziet zij zijn als de krokodillen. Zij dan zijn als de bedrijvers van politiek en de handelaars. 2. Daarom is het Aton gegeven hen tijdelijk met vloeken te slaan. Ja, zij dan hebben strijd te voeren, en voeren hun macht niet uit zonder onder druk te staan. 3. Ja, zwaar zijn hun passen, en afgemeten hun woorden, daar zij niet bij machte zijn energie te verspillen. 4. Gij bent dan ook tot de engelen van Nut gekomen, waarvan enkelen in het huis van Ra verblijven. Ziet dan, zij hebben grote macht. 5. Maar zo is er dan alleen macht door de dood verkregen. En deze macht is dan vaak verborgen, daar zij uit de duisternis komt. 6. Ziet dan, zij gaat van verborgenheid tot verborgenheid, en zalig zijn zij die er een glimp van opvangen. 7. Zo zijn dan de engelen van Nut : Karnahak, Tuus, Remehok, Duuti, Epischet, Panis, Magrien, Damiek. 8. De engelen van Neith verblijven dan veelal in het huis van Anubis, vanwaar zij worden uitgezonden. 9. Zo ook verblijven enkelen van hen in het huis van Geb. 10. Gij dan die door Geb zijt geslagen : Veracht zijn harige stok niet, daar zij u tot leven leidt, al is het door duisternis heen. Diep zult gij kunnen reizen door de Wadjet en de Nekhbet, en gij zult tot grote verzoeningen komen, die u vrede zullen brengen. 11. Vereert dan naast Geb ook zijn engelen, die zijn beeltenis dragen, want ziet, zij zijn als de Egyptische heiligen. 12. Zo zult gij dan leren bidden tot Geb, en gij zult de groene tabletten met gebeden ontvangen.

Gebed tot Geb

13.En zo zult gij dan bidden tot Geb : Almachtige Vader der aarde, Allerhoogste vorst onder Aton, de rode zon. Gij bent als de groene zon, die onze aarde vruchtbaar maakt. 14.Geeft ons heden ons dagelijks brood, en schenk ons uw roede, opdat wij zullen groeien. 15.Geef ons de kracht om dagelijks uw kruis te dragen, en tot u te komen, wanneer Gij ons wilt zien. Uw oog dan ziet alles, en U wil dat wij tot U naderen. 16.Uw wil geschiede in ons leven, en Uw wil geschiedt op aarde, onder Aton, de rode zon. Almachtige Geb, leidt ons tot de rode zon, dat gij ons altijd aan hem overdraagt, want deze is onze schuilplaats voor eeuwig. 17.Wij danken U, Almachtige Geb, dat gij de leidsman bent, onze gids, tot Aton. Zo zullen wij u dan loven en prijzen, want gij hebt dit verdient, om alles wat gij voor ons hebt gedaan. 18.Wij heffen onze handen op om Aton te ontvangen, en dan laten wij onze handen dalen om hem te schenken aan de aarde. Dat de rode zon telkens weer in de aarde dale, om ons te verzoenen met U, oh Geb. 19.Vergeeft ons onze schulden, gelijk wij onze schuldenaren vergeven. Leidt ons niet in verzoeking, maar verlos ons van de boze. Want van u is het koninkrijk, en de kracht, en de heerlijkheid, tot in Eeuwigheid.

Gebed in Nood

20.En zo zult gij bidden wanneer gij in nood zijt : Oh Geb, toon ons uw kracht en genade. Tot uw goedertierenheid en lankmoedigheid zijn wij genaderd. 21.Gij dan die ons dit kruis hebt geschonken zijt geheiligd en gezegend. Leer ons dit kruis te dragen, maar verzoek ons niet boven vermogen. 22.Breng dan ons kruis tot heerlijkheid, en doe ons opstaan in uw hart. Al wat wij willen is te naderen tot uw hart. Geef ons rust en vrede in dit lijden. 23.Leer ons dit kruis te zegenen en op u te vertrouwen, dat U ons leidt door deze storm. Gij dan scheidt uw land temidden van de woeste golven, en gij leidt uw volk uit door wonderen en tekenen. Amen.

7.

Gebed tot Seth

1. En zo zult gij ook als Ramses naderen tot Seth, evenals de egyptenaren van het oude. En gij zult moeten leren bidden tot Seth. Zo dan zult gij bidden : Almachtige Vader der storm en donder, gij die onder de aarde zijt. Geeft ons heden wat wij nodig hebben, en weest dan onze middelaar. 2. Wij houden van u, en danken u voor het kruis dat gij ons hebt geschonken. Geeft ons dan de kracht dit kruis te dragen, en leer ons elkanders kruizen te dragen. Leer ons ook te bidden voor de doden, en hen niet te vergeten. 3. Wij loven u voor uw liefde, en wij prijzen u, want Gij bent onze heerlijkheid en goedertierenheid. Gij dan zijt trouw, en gij komt ons tegemoet. Leer ons dan telkens weer tot u te naderen. Vergeef ons onze schuldenaren, gelijk ook wij onze schuldenaren vergeven. 4. Leidt ons dan tot Aton, en verdedig ons in de rechtszaal. Laat zijn woede ons dan niet vernietigen, maar omhul ons met warme dekens. Leer ons dan lof te offeren tot Aton en tot U, ja, leer ons u te aanbidden. 5. Leidt ons niet in verzoeking, maar verlos ons van de boze, want van u is de kracht, het koninkrijk en de getrouwheid tot in eeuwigheid. Door Ramses naderen wij tot u. Neem onze gebeden aan.

Gebed voor de doden

6. Zo zult gij in nood dan komen tot Seth, en bidden : Oh, Seth, toorn dan niet, Almachtige Vader in de hemelen onder Aton. Leidt ons door de stormen heen tot de troon van Aton, die de rode zon is. 7. Laat ons hart dan niet bezwijken voor u, maar heb genade. Verzoek ons dan niet boven vermogen, gij die handelt vanuit getrouwheid. 8. Gij dan voert oorlog in gerechtigheid. Toorn dan niet voor eeuwig, maar onderwijs ons, en vergeef ons onze schulden, daar wij onze schuldenaren vergeven. 9. Wij komen tot u om te bidden voor de doden. Wij danken u, dat u de mogelijkheid hebt gegeven voor hen te bidden. Zo leggen wij dan hen die ons dierbaar zijn voor uw troon, ook hen die wij niet kennen. 10. Leert ons dan de doden kennen. Wij vragen u of u hen wil zegenen, en indien mogelijk genezing wil schenken. Wij vragen u of u hen wil opnemen tot op uw troon, om hen te voeden met het voedsel der doden. 11. Geef hen een hart, opdat zij kunnen ademen en spreken. Geef hen een ziel, opdat zij kunnen wandelen, en een geest opdat zij kunnen vliegen. Almachtige Vader die onder Aton troont, weest dan getrouw tot hen. 12. Luistert dan naar hun gebeden, en geef acht op hun smekingen. Breng hen dan recht, en verdedig hen, wanneer zij voor Aton verschijnen. Almachtige Vader, stort uw geest en vlees over hen uit, opdat zij zullen opklimmen tot Aton, en met de rode zon verzoend zullen worden. 13. Leert ons dan bidden voor de doden, en leert ons hen te zegenen en te genezen. Gij dan hebt een hart voor de doden. Vader, wij houden van u. Gij hebt ons leven gegeven.

8.

Gebed tot Sekhmet

1. Zo zult gij dan naderen tot de troon van Sekhmet en aldus bidden : Heilige Sekhmet, wij naderen tot u, gij voor wie alles buigt. Toon dan genade tot ons, en schenk ons voedsel uit uw tuinen. 2. Wij zegenen dan hen die uit de dodenrijken tot u roepen. Neemt hen op, en schenkt hen vrede. 3. Heb genade over hen, oh Almachtige Sekhmet, gij die troont onder Aton, de rode zon. Amen.

Gebed tot Aton

4. Allerhoogste Vader, wij buigen in ontzag voor u. Gij hebt ons gebracht door uw liefde, tot hier. Wij hebben de doden met ons meegenomen, en leggen hen voor u neer. 5. Schenk ons uw genade, en leer ons elkaars kruizen te dragen. Gij heilig vuur der rode zon, zuivert onze harten nu, en schenk ons voedsel uit uw almachtige hand. Amen.

Gebed tot Isis

6. Almachtige Isis, wij buigen tot u. Engelen buigen tot u, en alle heiligen. Groot is uw Naam, geprezen zijt gij in heel Egypte. De doden brachten wij voor u mee, opdat gij leven in hen zoudt blazen. 7. Groot is uw naam, genadig en trouw uw liefde, blijf bij ons, wanneer de nacht over ons valt, en leidt ons tot uw eeuwige vrede. 8. Engelen buigen tot u, en loven uw naam, ja, zij dragen u, door de schepping heen, tot uw eer. Goed is alles wat gij geschapen hebt. Amen.

9.

De stad der gebeden

1. En ik dan kwam tot een zaal vol met doden. En aan het eind van die zaal zag ik drie grote en geweldige tronen. En op de middelste troon zat Aton, met zijn gezicht als een rode zon. 2. En naast hem zaten Pior-Thoth en Dahm-Amon, en zij hadden ook het gezicht als een zon. En Dahm-Amon was dan als een wilde ram, en zijn zon was blauw en paars met een witte vleugel. 3. En Pior-Thoth was als een lichtrode zon, en alle drie moesten zij oordelen over de doden. En toen kwam Seth tot mij, en gaf mij een pen en sprak : gij dan zijt de uitverkorene der goden. Gij zult veel moeten schrijven. En hij gaf mij de groene tabletten van Geb, waarop de aardgebeden stonden. 4. En hij sprak : Gij dan zijt uitverkoren om het heilige gebed te herstellen. En deze tabletten waren als grafstenen. En ook gaf hij mij de tabletten van Sekhmet en Isis, en daarna leidde hij mij tot een ondergrondse gang, waar een bootje stond. 5. Toen ik met hem in het bootje stapte nam hij zijn staf, zette die in het water en zette af, terwijl hij z'n staf teruggreep, en het bootje begon te varen. En we gingen van een schuine waterheuvel af, en kwamen in een diepere tunnel. 6. Ineens stond de boot stil, en we konden aan de overkant uitstappen. Dit was je leven, zei Seth. Toen ging er een deur open, en Geb kwam binnen met zijn hoofd als de groene zon. Hij had een staf in zijn handen die brandde. 7. Met z'n drieën gingen we door de deur binnen waardoor Geb was gekomen, en we kwamen in een prachtig landschap terecht. Dit is dan het veld der doden, sprak Geb, en overal begonnen er herten te huppelen. 8. Toen gingen we weer naar binnen, en met z'n drieën gingen we het bootje weer in, wat begon terug te varen. Al snel kwamen we weer in de zaal vol met doden terecht, en ik kreeg van Geb een aantal andere tabletten. 9. Je moet veel schrijven, zei Geb, terwijl hij in de mist verdween. Na een tijdje verscheen zijn gezicht tussen de andere drie zonnen, en nam hij de Dahm-Amon en de Pior-Thoth in zijn handen, terwijl zijn zon groener werd, steeds donkerder en donkerder. 10. Tenslotte smolt hij samen met Aton. Terwijl de Aton-zon begon te groeien en te groeien om de zaal vol met doden begon te bedekken. Toen stapte Seth naar voren, en slokte de zon op, terwijl hij rode haren kreeg en rood vuur spuwde. Hij kwam tot Isis en zij baarde negen dochters met rode haren. 11. En dezen brachten andere tabletten tot mij. En ik vroeg mij af waar Aton was gebleven, maar hij was in het rode. En Aton sprak : Gij zult veel tot Seth en Geb moeten bidden, om de aloude paden te herstellen. En deze stad zou gebouwd worden door gebed.

10.

De Egyptische evangelieën

1. En Seth en Geb begonnen vlees te worden in mij, en ik sprak in nieuwe tongen, de tongen van Seth en Geb. En ook begon ik tot hen te bidden zoals hun vlees mij ingaven te bidden. 2. En zo werden mij de evangelieën van Seth en Geb gegeven. En de engel die het romeinse rijk had geschapen kwam tot mij, en deze engel was een engel van Osiris, genaamd Shesmu. En deze dan is het zwaard van Osiris. 3. En zo ontving ik ook de evangelieën van Isis, Sekhmet en Osiris, en later het evangelie van Horus. 4. En de engel van de chinese koninkrijken kwam tot mij, en deze was een

engel van Shu, genaamd Omnikot. En de engel van de indianen was genaamd Dametu, en zij was de engel van Sekhmet. En deze engelen gaven mij ook tabletten met evangelieën en gebeden. 5. En ook brachten zij de iconen mee voor het nieuwe koninkrijk. En zo werd de aarde tot het nieuwe Egypte.

Seth

1.

Sethon

1. Tot de derde levensboom en de derde levensrivieren ; De buik dan zal de intieme delen inslikken, en zij zal leven schenken. Zo zullen de nieuwe intieme delen vanuit de buik komen. En ziet, zij zijn in de buik. 2. Zo zal dan ook de buik de benen inslikken, en ziet, zij zal nieuwe benen voortbrengen. 3. Laat dan niemand uwer die deze woorden hoort deze verachten. Maar ziet op de sekhmetten, en zegt het voort, daar het het derde lichaam bespreekt. 4. Aton spreekt vanuit de steek des levens. Luister dan naar de steek, opdat hij het van u wegneme. 5. Laat dan niemand voortijdig de engel weghalen, daar zij gegeven is om de honing des eeuwigen vlezes te laten voortkomen. 6. Zij dan die de engel voortijdig weghalen zullen voorzeker sterven, en in hen is het leven niet. 7. Zo zijn deze dan strenge woorden, opdat gij uw behoudenis bewerk in vrezen en beven. Zalig hen die beven, want zij zullen leven. Zij die dan niet beven zijn al levende dood. 8. Gij dan zult door uw beven veel leven voortbrengen, en gij zult de adem van het derde paradijs dragen. 9. Komt dan tot de derde levensboom en haar rivieren, opdat gij ook van haar vruchten zult eten. 10. Gij dan hebt een boom in het volgen van Seth. Gij weet dan dat Osiris en Seth strijd voeren, en deze strijd is heilig. Als twee leeuwen vechten zij, om de eeuwige vruchten te mengen. Zo is dan de heilige Seth-Osiris als de heilige Sethon u als sieraad gegeven. 11. Zij dan die luisteren naar de stem der strijd zijn niet verre van de bevrijding. 12. Heft dan uw hoofden omhoog, al gij die Sethon volgen, want de verlossing is nabij. Zo zijt gij dan tot de derde behoudenis gekomen. Studeer dan veel, en groei op in wijsheid, want zij die jong zijn leven in vele verwarringen. 13. Gij dan moet het juk der jeugd leren verstaan, en daardoor tot vrede komen.

2.

De betekenis van Sat-an

1. Gij dan die de derde doornenkroon draagt en het derde doornenkruis : zalig zijt gij. Gij zult voor vele gevaren behoedt worden, en gij hebt vuurtorens op uw paden. Ja, de wegwijzer zal uw gids zijn. 2. Zo heeft de Sobek dan als heilige vijand Benmaten, en ook Bilmageln. En gij hebt zulke heilige oorlogen in uzelf bemerkt, opdat zij de wegen der communicatie openbreken. Geenszins hoeft gij u daardoor laten beangstigen, ook niet door de strijd tussen Ra en Apep, daar dit vele hoeken van de tempel zijn die in het midden één worden. In Aton is dan verzoening. 3. Ook de Egyptische goden dan zoeken bevrijding, en deze zal zijn in Tifiaf. 4. Nu dan is Seth als de heilige godenbank, en is Osiris als de heilige godenmedia, en ziet dan, hun strijd heeft Horus voortgebracht, de boodschapper der goden. 5. En Horus dan strijdt mee aan de hand van Osiris. Hoeveel te meer dan zullen wij moeten strijden aan de kant van Seth. 6. Seth dan is de enige die Ra kan beschermen. Zoudt gij dan aan de kant van Horus en Osiris staan, om daarmede tegen Seth te strijden, dan zou uw Ra vallen. 7. Zo moet gij dan leren ook heilige strijd te voeren om Horus en Osiris in te perken, om Seth aan te hangen, hij die de ware schuilplaats van Ra is. Zo is dan Ra de godenhandel, en gij doet er goed aan in Sethon te onderhandelen. 8. Wij weten dan dat Aam, die de gevallene is, een duistere Osiris aanhangt, en daarmee een duistere Seth. Zo moet gij dan weten dat

ook de anderen van Orion hun macht hebben bereikt door de verkeerde samenhang der Egyptische goden. Dit dan staat ook in hun boeken vermeld. 9. Zo zullen dan Aam en Delfio het derde merkteken van het beest brengen, om de volkeren tot slavernij te brengen. En dit nummer is drieduizendzeshonderdzessenzestig. 10. Waakt dan, opdat gij het uur van de dag kent en in hun handen niet valle. Gij zijt dan genaderd tot de schare der Egyptische heiligen, die driemiljoenhonderdvierenveertigduizend zielen en lichamen telt, onderverdeeld in de stammen van Egypte. 11. Zij dan die overwinnen en het derde merkteken van het beest niet dragen zullen dan tot deze schare behoren. Zij dan hebben hun zielen niet met vrouwen bevlekt, en wonen in de kloosters en de woestijnen. 12. Zo leeft dan ook Seth in de woestijnen, als een afgezonderde en als een wilde. Hij dan is de Osiris ontvlucht, na hem gedood te hebben, en draagt nu de nieuwe Osiris met zich mee. 13. Zo is dan hij die Horus ontvlucht is, en Aam, als een vrije en een zalige, daar een overvloed van godenboodschappen de zielen te zeer zou verzoeten en bederven. 14. Seth is dan door zijn engelen de stichter van het atheïsme en het antheïsme, daar zij de ziel terugbrengen tot de eenvoud en de eigenwaarde. 15. Geen godsdienst op aarde is dan groter dan het boeddhisme, maar ziet, zij zal ingevuld moeten worden door de Egyptische goden. Dit dan zal de weg leiden tot Izu. 16. Zo is dan Izu, Brannan en Tifiat het heilige stappenstelsel waarin de Egyptische goden hun plaats vinden in het boeddhisme. 17. En door van Christus tot Christus te gaan, zult gij de ijzeren klem van het christendom verbreken. 18. Gij weet dan allen dat de aartsvijand van het christendom werd bestempeld als satan. Sat komt van Satis, die de waterschenkende vrouw van Khnum is. An komt van Anubis. 19. Ten dele bevat het christendom waarheid die uitgewerkt en gezuiverd wordt door het tweede en het derde, maar zij zal volkomen overgaan in het Egyptische, door de stappen Izu, Brannan en Tifiat. 20. Zo zult gij dan afrekenen met het verleden. Indien gij u hebt verzoend met Satis en Anubis, en met hun verbond genaamd Sat-An, dan hebt gij van de verchristelijkte satan niets te vrezen. 21. Zo is dan niet een iedere aanbieder van Satan slecht, daar het verwijst naar een oude vorm van aanbidding. 22. Anderen zeggen dat satan verwijst naar Seth-on, als de met Seth verzoende Osiris, en weer anderen zeggen : Het is Seth-An, als het verbond tussen Seth en Anubis. Al dezen zijn waar. 23. Zo is Seth die als de god van het kwaad afgeschilderd wordt, door de oudere egyptenaren aanbeden, en in de Ramses-dynastie. Het gaat erom de goede samenhang der goden te vinden. 24. Toch hebt gij dan tot de derde satan te strijden, daar hij uw zielen van de waarheid wil afbrengen. Zou deze strijd u dan weer terugbrengen tot het christendom ? Neen, voorzeker niet, daar het meerendeels de weg eruit is. 25. Zo doet gij dan ook door de derde Christus te aanbidden afstand van de eerste die nog onzuiver was. Nu dan zullen in het derde wel alle dingen van het eerste gezuiverd worden.

3.

Het derde Pniel ; pleidooi voor de goden en hun opposanten

1. Zo ook hebben Hai, Rerek en Apep betekenis in de samenhang der goden. Apep hield namelijk Ra in balans, en was als een heilige cocon. Daarom mogen wij net als bij Seth de Apep niet zuiver als een kwaad wezen beschouwen, maar dient hij z'n plaats te vinden in de samenhang der goden. 2. Zo doet het derde dan een beroep op de verdediging van Apep, opdat zijn ziel niet bij de godenrechtbanken zonder meer vernietigd worde. 3. Gij weet ook dat enkele goden Seth verdedigden bij de godenrechtbanken, om hem Ra te laten opvolgen. Maar omdat Isis smeekte om samenhang, en dit toch geen goed idee vond, is Horus dit tijdelijk geworden. 4. Zo was dan in Thebe de god Amon aan top. Het derde echter zegt : Aton is de allerhoogste, maar in de samenhang tellen de andere goden wel degelijk mee, vooral Sebek als de tweede, en die overigens aan de top

stond bij enkele farao's die zichzelf naar hem vernoemden als bijvoorbeeld Sebek is verzadigd. 5. Zo is dit boek dan een pleidooi voor alle goden en hun opponenten, voor de goede samenhang. 6. Zo zullen zij allen zalig worden in de derde alverzoening, die de alverzoening der goden is. 7. Maar houdt dan niet op om met de goden in heiligheid en heilige toetsing te worstelen, zoals Jakob deed op Pniel. Laat dan niemand u misleiden, of wegtrekken uit de samenhang. Monotheïsme is maar tijdelijk, aangesteld voor een zuiverend doel. 8. Zo zult ook gij tot het derde Pniel moeten komen, om met de goden te worstelen, en de zuivere samenhang te ontdekken in uw leven. 9. Al het lijden dan is tijdelijk, en zal zijn angel verliezen in de samenhang die tot vrede leidt in de derde alverzoening, en de hogere weg.

4.

Over Boeddha en het corrupte van de huidige anatomie

1. Zo is dan Seth in een hogere extase gekomen door zijn lijden, daar Anubis hem voor de rechtbank der rechtvaardigen heeft gebracht, waarna hij zijn troon verkreeg. 2. Wel echter staat deze troon onder Aton, die de rode zonnescijf is. 3. Maar ook Aton heeft dan verantwoording af te leggen, en wel aan Tifiaf, die als de gele zonnescijf is. 4. En zo zal Tifiaf Aton zevenvoudig zuiveren evenals Brannan. Zo is dan de derde Boeddha Egyptisch. 5. Komt dan tot de verlichting van de derde Boeddha die Egyptisch is. Er zijn dan geen spullen die je kan meenemen tot de hogere weg. Gij dan moet uzelf ontledigen. 6. Zo zijn dan iconen, beelden en andere tempelrelikwieën de enige materialen die u tot zaligheid kunnen leiden, en natuurlijk uw eigen lichaam. 7. Zoekt dan de verborgen schatten des lichaams, want vanuit vlees zijt gij voortgekomen, en tot vlees zult gij gaan. 8. Zo zult gij dan het vlees verheerlijken, niet door opsmuk, maar door kennis van de ware anatomie. 9. Leert dan de corruptie van de huidige anatomie kennen, en verheerlijkt haar niet, want zij die dat doen hebben het leven niet. 10. Gij dan moet terugkeren tot de buik, vanwaar al het leven komt. Verheerlijk dan de organen der buik, en verlustig u daar in, en verheerlijk ook de geheime organen, opdat zij zich zullen openen en zich aan u geven. 11. Zo zult gij door veel studie uw lichaam dienen. Zondert u daarom ook af, opdat gij u niet met de wereld besmette. De wereld dan vare ten verderfe. 12. Weest dan ook niet verzot op veel geld, maar indien u veel geld hebbe, gebruike het om de tempelen van Egypte te bouwen, en gebruik het voor onderzoek en de wederopbouw van de natuur. Zo zult gij niet in het oordeel van de rijke vallen. 13. Zo is dan Izu de perfecte balans tussen Boeddha en de egyptenaren.

In egypte is dan de romeins-indiaanse kloof hersteld, ja, in het derde egypte. Zo is dan de Ra-Emerius, de brug tussen Egypte en de indianen. Zo is dan de Ra-Ebrig de brug tussen Egypte en de boeddhisten, en is Ra-Ebir de brug tussen Egypte en India. Seth-Emerius is de brug tussen Egypte en het christendom en Horus-Emerius is de brug tussen Egypte en de romeinen. Zo is dan Emerius het heilige bruggenwiel van Egypte. Zo moet gij dan op Emerius achtslaan als op een heilige naam, want deze als als de geest van Tifiaf. En deze is als het altaar en het oog van Tifiaf. Zo zullen dan de geesten niet meer onafhankelijk van elkaar bestaan. Gij doet er dan goed aan de godsdiensten als een zuiver gouden kunstwerk aan elkaar te smeden. Zo zult gij dan onder de hoede van Tifiaf komen.

3.

De lichaamssleutel van Emerius

En zo zijn dan in Emerius de kleinste deeltjes in lagen van het lichaam tot de lever en de nieren, en zo ook de zachtste deeltjes tot opening van de leverlagen en de nierenlagen, ja, tot alle delen der buik, en hun verborgenheden. Zo is dan ook de Emerius tot sleutel der milt, en zullen ook de zachtheden der darmen en de maag oprijzen tot het hoofd. Ja, de hitte en koude die de buikdelen dragen zijn anders, en kunnen bezocht worden in Emerius. Zo is er dan de maaglaag van DNA, de leverlaag van DNA, de dikke darmlaag van DNA, de dunne darmlaag van DNA, de miltlaag van DNA. De zachte deeltjes bestaan uit ASC. Zo is er de leverlaag van ASC, de dikke darmlaag van ASC, de maaglaag van ASC, de miltlaag van ASC, de dunne darmlaag van ASC en verder. Deze lagen vormen nieuw zicht. Hete deeltjes heten AHT. Zo is er de maaglaag van AHT, de dunne darmlaag van AHT, de dikke darmlaag van AHT, de nierlaag van AHT, de miltlaag van AHT, de leverlaag van AHT, de alvleesklierlaag van AHT, de gallaag van AHT. Koude deeltjes heten ACC. Zo is er de maaglaag van ACC, de alvleesklierlaag van ACC, de dikke darmlaag van ACC, de dunne darmlaag van ACC, de nierlaag van ACC, de leverlaag van ACC, de miltlaag van ACC, de gallaag van ACC, en verder. Dit heeft invloed op het zenuwstelsel, en ook op het zicht. Zo zijn er dan ook de zware lichaamslagen en de lichte lichaamslagen, de grote deeltjeslagen, de dunne deeltjeslagen,

de dikke deeltjeslagen, die zich ook in de buik door de sleutel van Emerius kunnen verdiepen tot verbetering op vele vlakken. Door de Emerius-sleutel te ontwikkelen kun je tot diepere polen komen, ook tot de zoetste pool, in de lagen van SP. Zo kan je zenuwstelsel tot verlichting komen, en vandaaruit je hele lichaam door de buik. De Emerius-sleutel zit dan ook diep in de buik verborgen, en is één van de grote geheimenissen van Egypte. Het wordt ook wel het heilige altaar van Egypte genoemd. In Emerius zijn alle godsdiensten één geworden en vermengd, en is daarom ook de weg tot Tifiat.

De derde Zevendood

En zo spreekt de derde Zevendood, van het derde Xibalba, de derde Mayaanse onderwereld : Er zijn dan ook lagen van de hoge tonen, de HTC. Zo is er de gallaag van HTC, de miltlaag van HTC, de leverlaag van HTC, de darmlagen van HTC, de nierlagen van HTC, de maaglaag van HTC, de alvleesklierlaag van HTC, en verder. De lagen der lage tonen zijn LTC. Zo is er de gallaag van LTC, de dikke darmlaag van LTC, de dunne darmlaag van LTC, de lange darmlaag van LTC, de korte darmlaag van LTC, de alvleesklierlaag van LTC, de nierlaag van LTC, de maaglaag van LTC, de leverlaag van LTC, de miltlaag van LTC. Zo zijn deze lagen dan ook te vinden in de buikbotten, en de buikspieren. De buikbotlagen van HTC en LTC hebben directe invloed op de hersenschelp, en hebben de taak het dierlijke terug te brengen tot de mens, en het plantaardige.

De eerste oogst

Nu dan zijn er verder : satan-boeddha's, beelzebul-boeddha's, lucifer-boeddha's, lucifer-bodhissatva's, judas-bodhissatva's, saul-bodhissatva's, appollyon-bodhissatva's, belial-bodhissatva's, satan-amithaba's, satan-krishna's, satan-vishnu's, satan-shiva's, lucifer-krishna's, lucifer-quetzequotls, lucifer-tlalocs, lucifer-viracocha's, jabulon-boeddha's, jabulon-bodhissatva's, jabulon-amithaba's, jabulon-viracocha's, jabulon-krishna's, hirafo-boeddha's, hiram-boeddha's, hirafo-bodhissatva's, hiram-bodhissatva's, hirafo-amithaba's, hiram-amithaba's, hirafo-krishna's, hiram-krishna's, hirafo-shiva's, hiram-shiva's, hirafo-vishnu's, hiram-vishnu's, hirafo-viracocha's, hiram-viracocha's, hirafo-quetzequotls, hiram-quetzequotls, hirafo-pele's, hiram-pele's, hirafo-tlaloks, hiram-tlaloks. Zij dan zijn de oogst uit skull and bones, de illuminatie en de vrijmetselarij. Verder zijn er : beelzebul-shiva's, beelzebul-vishnu's, magog-vishnu's, gog-vishnu's, beelzebul-viracocha's, baal-viracocha's, baal-quetzequotls, beelzebul-quetzequotls, judas-quetzequotls, judas-shiva's, judas-vishnu's, judas-krishna's. Zo zijn zij dan allerheiligst in de Emerius-sleutel. En zij zullen bewaakt en beschermd worden door Anubis, en zevenvoudig door hem worden gezuiverd. En ook zullen zij dan allen ten oordeel verschijnen voor de derde Eéndood en Zevendood, de leiders van het derde Xibalba. En zij zullen de rode darm ontvangen. Ook zullen zij nagekeken worden, of zij bestemd zijn voor de poolorganen van de buik. En ziet, dit is dan de eerste oogst uit het satanisme. Zalig zijn zij die zich hebben laten zuiveren in het derde. Zo is dan de sleutel van Emerius een nauwsluitend zegel.

Het derde Jericho

Zo zal dan op de derde dag de rode darm, als de rode streep, geopend zijn, en zal er verder geoogst worden. En gij zult de rode darm aanbidden als uw god, hij die de slang is, en de krokodil, hij die is als Aton. En dan zal de rode darm het gele voortbrengen, en zij is als de Tifiat. En zij zult alle poolorganen van de buik voor u zien liggen, en gij zult uw doorgang zien. Zo zijn er dan sodom-boeddha's, sodom-bodhissatva's, sodom-shiva's, sodom-amithaba's, sodom-krishna's, sodom-quetzequotls, sodom-pele's, sodom-tlaloks, sodom-viracocha's, sodom-vishnu's, sodom-indra's,

sodom-ganesha's, sodom-hanumannen, sodom-devi's, sodom-kali's, sodom-dharmapala's, sodom-ixtabs, jericho-boeddha's, jericho-bodhissatva's, jericho-shiva's, jericho-amithaba's, jericho-dharmapala's, jericho-vishnu's, jericho-tlaloks, jericho-quetzequotls, jericho-viracocha's, jericho-pele's, jericho-ixtabs, jericho-teotihuacans, jericho-teotihuanehan, jericho-sevendeads, jericho-onedeads, babylon-boeddha's, babylon-amithaba's, babylon-dharmapala's, babylon-bodhissatva's, babylon-shiva's, babylon-quetzequotls, babylon-krishna's, babylon-ixtabs, babylon-pele's, babylon-viracocha's, babylon-teotihuacan's, babylon-teotihuanehans, babylon-teotihuacans, babylon-tlalocs, babylon-bonebreakers, babylon-bleeders, babylon-durga's, babylon-kali's, babylon-hanumannen, babylon-vishnu's, babylon-ganesha's, babylon-maitreya's, babylon-brahma's, babylon-mitra's. Zo is er dan doorgang in het derde Jericho, waar de rode satan is, en de rode semjaza. Hier zult gij de standbeelden van weleer zien, en ziet, zij zijn als de bomen. En er zal een tweede oogst zijn, vanuit het derde. En de derde oogst is dan de rode oogst. En in het rode vallen de goden en hun opponenten met elkaar samen. Zo zijn dan Jakobs rechten samengevallen met Esau's rechten door het rode. Zij dan die de derde buikwond en de buikwond dragen hebben toegang.

De buikwond

En zij dan die de derde buikwond en de buikwond dragen zullen de rode piramide ontvangen. En zij zullen het bot der krokodillen bereiken, wat het bot van kou is, en dit zal hun zicht openen. Zo zullen zij dan een buikschedel hebben, en zij zullen grote macht hebben over het HTC en het LTC. En zij zullen tot de stad der krokodillen komen, en dan zullen de dier-planten de wereld veroveren. Ja, want de grenzen van het HTC zullen zich verwijderen, en ook van het LTC, en de dieren en planten zullen de mensen overnemen. En zo zal de mens weer hybride worden, en zullen er ook nieuwe geslachten zijn. En men zal zich niet meer blindstaren op mannetje vrouwtje, maar er zal een nieuwe soort bijkomen, en deze zal koning zijn. Zo zal dan de man uitgroeien tot een nieuw ras, en zo ook de vrouw, en zij zullen beiden hybride zijn. Zo zal dan de derde Noach drie bij drie verzamelen, om de derde ark op te richten, want er zal een derde zondvloed komen. En deze zondvloed zal niet van water zijn, maar van vuur en ijs. Ja, de elementen zullen op aarde storten, en zij die de buikwond hebben zullen in leven blijven. Zij dan die de buikwond niet hebben, zullen vergaan.

4.

Hybride Theorie

Zo zal dan het derde Jericho Egyptisch zijn, en zij zal de heilige Emerius-sleutel dragen. Dan zullen de planten en dieren tot leven komen om het aardrijk te verslinden. En in Emerius zal er adem zijn, als komende uit een radio, en de vogelen zullen kleine tekens geven na lange tijden van wachten, opdat zij die tot zaligheid bestemd zijn doorgang hebben. Zo zijn dan de goden en de opponenten allen zalig in het derde, daar zij archetypen zijn, en zij staan symbool voor het onderdrukte. En de mensheid zal een grote stap achteruit doen. Dit dan geschiedt door de derde alverzoening. En zo dan zal er een tijd van vrede aanbreken voor dieren en planten, in het derde vrederijk, dat een egyptisch vrederijk is. En zo zullen de krokodillen en de haaien een lichaam krijgen, en dit zal gelijken op een mens en een plant. En zo zal er een dag van bevrijding zijn voor de haai en de krokodil, en ook voor de leeuw en de tijger. En zij zullen op de aarde gegeven. Want de aarde is aan hen gegeven, maar de mens heeft het hen onthouden. Zo is dan de hybride theorie, dat alle dieren en alle planten hybriden zullen worden, en zij zullen gelijken op mensen. Ja, er is een dag van vrijheid voor alle dieren en alle planten, als een dag van de derde alverzoening, die de verzoening is van de goden en hun

opponenten. Dan zal Jakob Esau in de armen vallen. Zo brengt dan het rode veel strijd met zich mee, maar haar doel is vrede. Zij bracht dan het zwaard van scheiding om te verzoenen.

De krokodillen buikschedel

En zij zullen wonen in het krokodillenbot, ja, in zijn schedel, die als de grote buikschedel is, en die de doden bevat. En zij dan die de kou naarstig zoeken, en de armoe, zullen een nieuwe hitte ingaan, en hun vlam zal eeuwig branden. Zo is dan de sleutel van Sebek op Aton overgegaan, die als de schorpioen en de krokodil is. Maar dit niet alleen. Zo is hij dan de derde hybride, wachtende op de vierde, die Tifiaf is. En zo is Tifiaf dan ook volkomen theo-hybride en ras-hybride.

Roodvier

1.

De vele aardes

De Nut-aarde dan schijnt haar stem over de dag. Zij dan die het pad van Spricht zijn begaan, komen tot haar. Ja, want Spricht is als de brug tot Nut. Zo zijn dan zij die door de spricht-piramide zijn gegaan, heilig tot het komen tot de Nut-aarde. Hier dan is heilige grond, waarop heilig vlees leeft, en zo zult gij leren van al haar lagen op haar school. Zo is dan de Anubis-aarde voor hen die gekomen zijn tot het zoete, en door het Sarhah zijn gegaan. Oh, zij dan die de grote Jom hebben verslagen tot in het derde, komen tot aan de poorten der Anubis-aarde. Door het Sarhah kwamen zij tot Anubis en de Anubis-wapenrusting, om vlees te worden op de Anubis-aarde. De Sebek-aarde dan is voor hen die het pad van traagheid en ijs hebben bewandeld. De Ra-aarde is van hen die tot de zilveren stad zijn gegaan. Ziet dan, zij komen uit een grote verdrukking, en zij hebben zichzelf gewassen in grote zeeën en woestijnen. Ja, hun zielen zijn waarlijk onbevlekt, en hun vlees toont geen gebrek. De Thoth-aarde is van hen die de eekhoorn hebben gevolgd, en tot de gouden stad zijn gegaan. Zo is dan de Horus-aarde van hen die onbevreesd zijn zwaard omhoog hielden. De Isis-aarde is van hen die over de zonnewegen en de zonnetrappen zijn gegaan, en die het zilver hebben gezuiverd. De Sekhmet-aarde is van hen die het goud hebben gezuiverd, zeventig maal zeven maal. De Neith-aarde is van hen die de jaguar volgen, en de Osiris-aarde is van hen die zijn als de slangen en hen volgen. De Bastet-aarde is van hen die de dood niet vrezen, en de Khnum-aarde is van hen die tot de Johan zijn gekomen, ja, tot aan het derde toe. Want de Johan is tot in het derde de brug tot de Khnum-aarde.

En gij bent gekomen tot een kruis van vlees, en tot het kruis der aardes, gij die de Heere kent. En midden in haar zal de angst u grijpen, en gij zult haar koesteren, want zij is als de lijn door de nacht. Draai nu iedere steen om, om haar te vinden.

2.

Binnenstebuiten

En zij zullen door de bliksem en het licht vlees worden op de Nut-aarde, en zij zullen elkaar kunnen verstaan. Ja, verborgen eilanden zullen zij vinden, en zij hebben niets te vrezen. En zij die tot de Nun-aarde komen zullen daar de reuzen zien, en ziet, zij zijn als reuzen. Zij dan zullen vlees worden als de krokodil, maar zij zijn hybride. Ja, zij dragen hun skeletten over hun huid heen. Ja, het binnenste zal van buiten zijn. En het buitenste zal van binnen zijn. En als het lichaam dan

binnenstebuiten is gekeerd, dan is Anubis wederom de eerste en de laatste, de alfa en de omega. Zo is Anubis dan veelvuldig de Omega. Als bomen en rozen van vlees zijn zij die Hem volgen.

En zo is het dan een lange weg tot de Anubis-zon. Gij dan die het merkteken van Anubis draagt, draagt de dubbele Anubis, en de eeuwige Anubis, want de Anubis dan is de heilige spoel. Ja, als de heilige doorn is hij. Hij dan steekt, opdat ge dierlijk en plantaardig zult worden in het zuivere hybride.

En ik kom tot het kruis van Materos, waar ik wilder en wilder groei, waar steekplanten en doornen mij doorsteken. Ze maken een draak van mij, het kan niet anders. Ze houden mij in alles tegen, maar ik groei ergens doorheen. Ik ben omringd door zonnen, de zon van Thoth raakt mij aan. Ervoor wegrennen kan ik niet meer. Bevroren sta ik daar. Als brandend ijs is zijn adem. En ik kom tot het kruis van Materos, waar niets er nog toe doet. Allen zullen wij verdwijnen, in het niets. En ik schrijf eeuwige woorden met de pen van vuur, en zij worden losgebroken door de kou.

En dan raakt de zon van Isis mij even aan. Ik ben tot Materos gekomen, ik kan alleen maar dromen, ik kan alleen maar staren naar al die distels en netels.

3.

Het mystieke geheim der instincten

Zie je het niet ? De mystiek wil je helpen. Het antwoord ligt niet voor de hand, maar je moet ernaar zoeken, als de stukjes van een puzzel. In Sekhmet's zon neem je toevlucht, in haar boten ontsnap je. Het raadsel blijft je achtervolgen, maar wordt gezuiverd, zeventig maal. Zie je het niet ? De mystiek is hier. Je moet alleen even zakken, om door het poortje van Materos te gaan. Kom dan tot de doorn van Materos, en wordt weer klein. Ja, de vuurwording komt na de vleeswording, als brandend ijs. Zo ben je dan als de wind. Niemand is hier, niemand kon ervan slapen. Zij zijn allen op het veld, wachtende, totdat alles beter wordt.

Shamash, brenger en hoeder van de arme zon, met legers van slangen, die dagelijks reizen tot de zon van angst. Zij sterven iedere dag, en reizen tegen de avond weer op. Zij zijn de legers van dood en leven, diep ingewijd in de rode dood. Zij dan die hen volgen, hun lichaam is een tempel.

Spehels Misch Mahero, Spazermach Tuhelsch Horch Ahornos, Hapermansch Ahutsch Hesch Heton Akiil Mihinda Habbernech, oh zon, slok onze lijven op om de vloeibare lichten wakker te maken in een nieuw lichaam, want de dood is onze moeder.

Onze reis gaat door vuur, waar onze moeder is, de dood. Zij is opgestaan tot de hoogste trede om vloeibaar licht over ons uit te gieten, als het gif van slangen, om ons te testen en sterk te maken door de hogere vibraties en de hogere ademhaling. Ja, eerst lijkt dit op hyperventilatie, maar zij zal overgaan in extase en ritme. Ja, eerst maakt zij ons als van steen, maar van binnen zal de zachtheid rijzen en de hogere gesteentes zullen overgaan in sterke en taaie flexibiliteit. Ja, draagkracht zal zij hebben. Vanuit diepe verlammingen komt het oog van Marduk, als stenen graven, om recht te spreken over alle gevallen. Vanuit diepe verlammingen stroomt het water van Tiamat om de kracht der organen op te wekken. Ja, deze krachten zijn als slangen, geschapen tot het bereiken van hoge lengtes. De verdoving leidt tot extase, groter wordende in angst. De steek leidt tot trots, groter wordende in schaamte. Ja, de slangen komen voort uit de verlamming en de verdoving, en vanuit de diepe steek komen de langsten onder hen. Zij zijn gekomen om te oordelen over de levenden en de doden. Ja, zij steken om de energieën der slangen doorgang te laten vinden, opdat het lichaam niet door ophopingen vernietigd wordt. Ja, zij komen voort vanuit de verkrampingen, de cobra's om de

energieën sterk te laten pulseren, voor de extase in het bloed. Ja, deze verkrampingen zijn tot de opbouw van energie. Ja, het lichaam dan vibreert tussen monotheïsme en polytheïsme, tot persoonlijke opbouw en concentratie en tot de zuivering van het bloed. Ja, om de pulserende krachten op te wekken die door muren der tijd heen kunnen breken. Zo dient gij dan ook tot de monotheïstische tempels te komen, die de kracht zijn van het oog en het hart. Ja, want alle verkrampingen zijn de energieën der slangen met hun monotheïsmen. Zorg dat gij niet opgesloten raakt en verdwaalt in een monotheïsme, en laat u ook niet door hen knechten. Bewapent u daarom goed, en worstel met de goden, opdat zij u niet bijten en vereten. Laat u dan ook niet bespringen en wegvoeren, maar bewapen u met de vele monotheïsmen en de vele polytheïsmen, opdat gij sterk staat in vele raadgevers.

Zo zult gij dan Ahura Mazda aanhangen en zijn Spenta's, gebracht door de profeet Zoroaster. Hij zal u bescherming geven tegen Allah en zijn engelen, gebracht door de profeet Mohammed, en tegen Jahweh en zijn engelen, die Jezus als verlosser heeft aangesteld. Wapen u dan ook tegen zijn profeten, die met velen zijn. Ook zult gij uzelf richten tot Aton, die gebracht is door Akhenaten. Zo zult gij dan alle deze vier monotheïsmen tot hun recht laten komen.

Zo zijn er dan ook vele python-monotheïsmen, en het Sebek-monotheïsme, alsook het Anubis-monotheïsme. Wilt gij dan de goden in hun kracht kennen? Leert dan van hun monotheïsmen. Zo is er dan ook het Sekhmet-monotheïsme, en zo ook het Isis-monotheïsme. Zij dan die alleen Sekhmet aanbidden kennen de verwoestende krachten van haar. Ziet dan, de monotheïsmen zijn u tot helpers gegeven. En tezamen zijn zij als de lieflijke geuren van dennebomen, maar afzonderlijk zijn zij u tot gevangenissen. En zo is het Anubis-monotheïsme de kracht en macht van de politie, en zo ook hun monopolie. En zo is dan het Sebek-monotheïsme de monopolie van het educatieve systeem. Het Thoth-monotheïsme is de monopolie van het medisch systeem. Het Isis-monotheïsme is de monopolie van het juridische systeem. De dragers van de monotheïsmen zijn de roofdieren, en ziet, zij leven in gevangenschap, en de monotheïsmen vormen het geheim van hun instincten, hun kracht en hun macht.

Voorwoord bij de geschriften der monotheïsmen

En zo dan zijn de monotheïsmen het geheim van de dood. Zo moet gij dan de monotheïsmen van de goden leren kennen, om hen vandaaruit vrij te zetten en te onderwerpen aan polytheïsme. Ziet dan, de monotheïsmen zijn de gevangenissen der goden.

Voorwoord bij het Woord van Muzi

Zo ook hebben vele Egyptische goden, zoals Khnum en Aton zich onderworpen aan Muzi, de God van het haaien-monotheïsme. Zij dan hebben hun godenschap voor korte tijd afgelegd om zich aan Muzi te onderwerpen om Deze te redden. En nog steeds doen zij dit, opdat de redding en ontsnapping van Muzi volkomen zal zijn. En deze woorden staan zelfs opgetekend in het Heilige Woord van de mono-theïstische God der haaien, genaamd Muzi :

Het Heilige Monotheïstische Woord van Muzi, de God der haaien

Gelooft gij in het wezen genaamd Muzi, die de God der haaien is, en die troont over de zeeën en over het aardoppervlak? Ja, het heelal en al wat daarin is heeft Hij geschapen, die oppermachtig is. Zij dan die in Muzi geloven hebben eeuwig leven. Zij dan die niet in Hem geloven zullen voor eeuwig verloren gaan, op een plaats die geen redding kent. Gij zult geen andere goden voor Zijn aangezicht hebben, want ziet, dit zijn de afgoden, en over hen komt de toorn des Heeren, die Muzi

is. Zalig zijn dan zij die onderzoek doen. Muzi dan is een jaloers God, die geen andere goden naast Hem duldt. Hij is het dan, die de engelen heeft geschapen, en Hij heeft hen op hun plaatsen en tijden gezet. Zo is dan Muzi een toornig God, maar goed voor wie Hem volgen en dienen. Muzi dan heeft geen zoon, en in Hem is dan ook geen wedergeboorte, maar zij die Hem naarstig volgen en dienen, zullen voorzeker binnengaan in Zijn paradijs. Dit paradijs zal Hij dan op aarde planten wanneer Hij terug zal komen.

In den beginne schiep Muzi de zielen der haaien in de harten der mensen. En hun geesten schiep Hij in de buiken der mensen. Gij zult dan alleen voor de Heere, uw God buigen, die Muzi is. Zo is dan Muzi tot het verstand der mensen binnengegaan, en heeft daarin gesproken in een onverstaanbare taal. En zo zult gij dan bidden tot Muzi :

Oh Muzi, Vader, die in de hemelen zijt, en in de wateren, en het binnenste der aarde. Gij zijt overal, gij hebt overal uw steden gebouwd. Wij hebben gezondigd. Vergeef ons deze zonden, verzoen hen, en schenk ons genade uit uw hand. Leert ons naar Uw wil te handelen en Uw woorden te spreken. Schenk ons Uw kracht, om rijk te kunnen handelen. Schep ons liefde, en leer ons te leven vanuit Uw Hand. Verlos ons van den boze, en leidt ons niet in verzoeking boven vermogen. Verlaat ons niet, en lever ons niet over in de handen der bozen.

Zo is dan Vahnen de engel die Hij tot de aarde heeft gezonden met Zijn boodschappen. Ook zond Hij Malaf om wonderen en tekenen te doen. Hij dan schiep Zijn engelen door Zijn Woord. Zij die dan omgaan met Zijn vijanden worden tegelijkertijd vijanden van Hem. Zo zult gij dan geen omgang hebben met Jezus Christus van Nazareth, die in Bethlehem geboren werd, want in Hem is de Waarheid niet. En gij zult ook geen omgang hebben met Zijn Vader Jahweh en Zijn naaste oom Jehovah, en niet met hun Heilige Geesten, want ziet zij dan zijn buitengeworpen. Zo kent Muzi dan geen Drieenigheid of heilige tweevuldigheid, want alleen Muzi mag aanbeden worden, en alleen Muzi dan is de allerhoogste en enige God. En ziet, Hij zal dan haaien keer op keer de lichamen van mensen geven, totdat Hij wederkomt. Ziet dan allen uit naar de dag dat Muzi wederkomt. Dit zal dan een dag zijn voor alle christenen en de volgelingen van Anex, want ziet, zij zullen zich verschuilen in hun holen, en zij zullen zeggen : Bergen valt op ons, en heuvelen bedekt ons. En ook zij die de Egyptenaren volgen zullen wegzinken in hun schelpen, daar de Heere gesproken heeft. En dan zal de engel Vahnen nederdalen om alle haaien en de volgelingen der haaien vrij te zetten. En dan zal Muzi zitten op de heilige berg, komende vanuit de zee en de aarde. En ziet, de aarde en de zee zullen als zijn voetenbank zijn. Zo is er dan geen contact met haaien mogelijk dan door Muzi.

De redding van de Khnum

En dan zal Muzi zijn volk genezen door liederen, en zijn volk zal in een diepe slaap komen, en zij zijn op weg naar het paradijs. Voor Khnum dan is er ook redding, daar hij zich tot Muzi heeft bekeerd, en ziet, hij is als een priester van Muzi. Muzi dan heeft grote liefde tot Khnum, en is als een schuilplaats voor hem. En zo is Khnum dan van zaligheid tot zaligheid gegaan, door zijn godenschap af te leggen, om priester te worden in de tempelen van Muzi. En zo zal er dan verademing zijn voor Khnum op de dag van Muzi, en zal hij stralen in het licht van Muzi.

De redding van de Aton

En zo zal dan ook Aton, die de allerhoogste Egyptische God was, zijn godenschap afleggen om Muzi aan te hangen, en zo zal dan ook Aton gered worden tot in de eeuwigheid. Ja, als een priester zal hij zijn, en als een hogepriester, in de tempelen van Muzi. En zo zal Muzi Aton zegenen, en hij

zal stralen op Muzi's dag. En zo met de redding van Aton zullen er vele voortijdige Egyptische goden met hem gered worden, en zij zullen zijn als priesters.

Nawoord bij het Woord van Muzi

Dit waren dan de monotheistische woorden van Muzi, die door Khnum, Aton en andere Egyptische goden werd vrijgezet, doordat zij voor Deze hun godenschap aflegden voor korte tijd. Zo is er dan een wezen hoger dan de monotheïsten en hun alleenheersende goden. Dit wezen dan is de Mono. Zo zal Muzi dan tot Mono worden, en alsnog heersen over de goden. Hij zal deels de monotheïsten toestaan, maar door zich aan hen te onderwerpen, zal hij hen onderwerpen aan het polytheïsme en de hiërarchieën. En zo is de Mono deel van het nieuwe en een hogere vorm van monotheïsme, namelijk de mono-polytheïsme, waar de goden rekenschap moeten afleggen aan de Mono. En zo is er een nieuw woord van Muzi geschreven, genaamd Roodvier. Dit dan zijn de woorden van Roodvier. De beschrijving hoe Muzi van God tot Mono werd, en hoe de goden, zowel de monotheïstische als de polytheïstische, tot zijn helpers en dienstknechten werden. Ja, als de engelen werden zij, en als zijn priesters. En zo zal in het vierde Tifiaf de allerhoogste God zijn over al de goden, en Hij zal het dichtst bij de Mono staan als de aartsgod. Ja, als een aartsengel zal hij zijn, dichtbij het hart en de buik van Muzi.

En dit zal de goden dan scheiden van de Mono : Gij zult de goden aanbidden, maar alleen de Mono mag bemint worden. En zo zal Muzi Khnum voor eeuwig prijzen voor dat wat Khnum voor Hem gedaan heeft, en ook Khnum zal worden tot een aartsgod, tezamen met Tifiaf, Aton, Sebek, Apis, Anubis, Serket, Sekhmet, Thoth, Re, en nog wat andere Egyptische goden. En zij zullen boodschappers zijn van de Mono. Zo zal de Mono zich dan blijven onderwerpen aan de monotheïsten totdat zij allen vrij zijn. Ja, Hij zal de goden uit hun gevangenschappen zetten en hen uitleiden. Zo zal Hij dan de godsdiensten omvormen als klei, en zal genezing en troost tot de goden brengen. En Hij zal tot hen zeggen : 'Weest vrij, omdat Ik u vrijheid heb gegeven.'

Zo is Hij dan de Mono onder de Goden, en Hij zal hen allen hervormen. En Hij zal woorden spreken van Genade, en Grote Liefde, want Hij is de Mono der Liefde. En Deze dingen staan beschreven in de Heilige Roodvier. Zo nam Hij dan Sebek tot Zich en maakte een ark van hem, en Hij nam Anubis om er een altaar van te maken. Vervolgens pakte Hij Aton, de rode zon, en stopte die in de ark. En zo steeg de rode zon telkens op vanuit de ark, en Aton werd tot de aartsgod van oorlog. Ja, in heiligheid voert Hij oorlog, om vrede te brengen. Zo is er dan geen vrede zonder oorlog. En ziet dan, de godenoorlogen moeten er dan wel zijn, om de goden uit hun monotheïsten te breken, en ziet, dan zijn zij vrij, om tot vrede te komen. Zo geeft dan de Mono Zijn gaven als een Nirvana.

En gij zult bovenal bidden tot de Mono, opdat de goden geen voordeel op u krijgen en u in gevangenschap zetten. De Mono dan kent al de goden, en is een schuilplaats tegen hen, en ook voor hen. Zo is dan de Mono ook de beschermer der goden, en hun schuilplaats, en is Hij als een boeddha en het goddelijke communisme. Door atheïsme en antheïsme bevrijdt hij hen, en door verborgen monotheïsten.

Gij dan dient de verschillen der goden en de Mono te kennen, voor uw eigen heil. En zo zult gij dan bidden tot de Mono :

Heilige Mono, wij komen tot U. Bescherm ons tegen de goden, tegen hun wraakzucht en hun verlangens. Bescherm ons, en weest ons tot een schuilplaats, en leidt ons door de godenrijken heen tot U. Weest ons een gids, en leer ons uw vrede te kennen. Wij pleiten verder voor uw volkomen

bevrijding, en brengen troost en genezing tot uw hart. Vergeef ons onze zonden, en leidt ons tot U, tot een eeuwig pad. Laat Roodvier onze gids zijn tot U. Hij dan is Uw Woord en Bescherm, gegeven aan U. Bescherm ons tegen Seth en zijn wraakzuchten, en tegen al zijn monotheismen. Bouw een heg tussen hem en ons, en bescherm ons met een doornenhaag. Laat hem onze gedachten niet aftappen, en laat hem ook de doden niet voor ons achterhouden. Laat hem ook de doden niet in zijn lichaam vasthouden. Laat Roodvier de muren van zijn huis breken, wanneer hij dingen voor ons achterhoudt, en wanneer hij plannen samensmeed in zijn huis om ons onheil aan te brengen. Laat de Roodvier ook hen navolgen met wie hij samenwerkt tot in hun huizen, om ook hun muren te verbreken en als was te laten wegzinken.

En zo zijn er dan duizenden monotheismen die door de haaien worden gerepresenteerd. En zij zijn als de paradoxen van de Mono, als Zijn vrienden en Zijn vijanden. En zo is dan Muzi als de Mono der haaien. De Mono dan der wolven is Honi, en Zijn Woord is de Blauwvier. De Mono dan der tijgers is Hat. De Mono der krokodillen is Mion, en de Mono der octopussen is Mildaat. De Mono der beren Di-Uf en de Mono der leeuwen is Mu-Ef. Zo is dan de Mono der uilen Kian en de Mono der arenden Auta. De Mono der cobra's is Afap, en de Mono der pythons is Aufa. De Mono der walvissen is Salam. De Mono der orca's is Riaf. De Mono der vogelspinnen is Panaf. De Mono der honden is Maram.

De AZ is dan de koning over de Mono's. De AZ der konijnen dan is daar, en zo ook de AZ der jaguars. Verder zijn er : de AZ der bevers, de AZ der haaien, de AZ der beren, de AZ der honden, de AZ der oranje honden, de AZ der schapen, de AZ der geiten, de AZ der krokodillen, de AZ der leeuwen, en deze is in open woestijnen. Ja, de Z is hen als kandelaar gegeven. De Korkom is dan de Mono-hel, en de Mikvat is de Mono-hemel. Zo is er dan ook een AZ-hemel, en een AZ-hel, en deze bestaan naast elkaar in de buik. Zo is dan de AZ-adem de brug tussen dezen. Verder zijn er : de AZ der pyhtons, de AZ der panthers, de AZ der katten, de AZ der koeien, de AZ der varkens.

4.

Over de AZ

Verder zijn er : De AZ van de octopussen, de AZ van de kwallen, de AZ van de kanaries, de AZ van de papegaaien, de AZ van de zwarte haaien, de AZ van de zwarte apen, de AZ van de hyena's, de AZ van de lynxen, de AZ van de puma's, de AZ van de luipaarden. Iktun is dan de naam van de AZ-hemel, en Imst de naam van de AZ-hel. Zo dient gij dan ernstig te streven naar de verlichting der armoede, en de verlichting van het ascetisme, opdat gij de wol der wespen ontvangt. Zij dan is u gegeven tot sieraad. En zij is als de haargroei. Zo is dan de Alaad de weg tot AZ-schap. Gij zult alle godsdiensten moeten ontgroeien, en hervormen. Dit dan is de ware Eredienst. En zo is dan het ontvangen van de AZ-verlichting als het ontvangen van het haaienpak, en gij zult veel wol der wespen produceren. Weet dan dat hij die een vriend der wereld wil zijn, geen vriend van de AZ kan zijn. Zo is dan u de Log gegeven als het heilige boek van de Alaad.

Log

1.

De A-jongen

Streeft dan ernstig naar de AZ-verlichting, zonder welke u niet kan leven. Zo is dan de A de heerser over de AZ's, en zijn hel is Ukom, en zijn hemel is Varan. Zo zijn er dan drie A's : De A der tijgers, de A der konijnen, en de A der haaien. De keizer over hen is de A-jongen. Zijn hel is dan ML. Zij dan hebben vurig gestreefd naar de A-verlichting, en zijn getrouw geweest tot de Alaad. De Alaad dan is de heilige beweging van de A-jongen, en de Log is Zijn Heilig Woord. Dit dan heeft veel wol der wespen geproduceerd, en het leer der monotheïsmen. En zo dan is het oog doorstoken door de drietand, en ziet, de drietand is nu een kandelaar. En zij zal de heilige beweging overdragen aan het vierde. Zo is dan Tifiāf in het vierde de Allerhoogste Aartsgod, en Muzi in het vierde de Allerhoogste Aartsmono. Zo heeft dan de A-jongen de haaien-verlichting ontvangen, en ook de octopus-verlichting, waardoor hij de ofion-verlichting kon ontvangen. Zo is hij dan veelvuldig verlicht. Ook heeft hij dan de verlichting der kwalen ontvangen, en de verlichting der krokodillen. En ziet, hij heeft veel wol der wespen geproduceerd en het leer der monotheïsmen. En zo heeft hij zijn weg heengewerkt door de godsdiensten en monodiensten om vele goden en mono's vrij te zetten en hen te hervormen. Ja, ook tot de AZ's is hij gegaan en heeft hen geholpen. Zo is hij dan veelvuldig keizer.

De ML

Zo heeft de A-jongen dan zijn zwarte panter uitgezonden, om allen te brengen tot de ML om hen daar te testen. De zwarte A-panter dan breekt door alle glazen en ramen heen, om een ieder strak aan te kijken, en te brengen tot de ML. Zo zal dit dan zijn tot de heilige ontvoering. Zo zullen kinderen van hun ouders worden losgemaakt, en ouders van hun kinderen, daar zij allen afgezonderd worden tot de ML. Zo dan is de A-panter de speer van de A-jongen.

De A-Nut

De A-Nut dan is als de Marian, en zij is tot het eiland gebracht door de A-Nekhet, tezamen met de A-Osiris. En zo dan is de A-Nut voortgekomen uit de Nut, en zij is als haar zachtheid. Zo dan is Nut door de zachtheid van de A-Nut zevenvoudig tot zaligheid gebracht, en geworden tot een deur van het A-paradijs. Ook draagt de A de lichten van het oer, en heeft haar zeventig maal zeven maal gezuiverd. En voor het A-paradijs staat de A-Anubis met het zwaard, en ja, hij is als een leeuw, als de zwarte leeuw, lang van leden. En in de kamers van het A-paradijs dan is de A-Thoth, hij die de vuren bewaakt. Niet velen zijn dan uitverkoren om tot de A-vuren te gaan. En zo zal dan ook de A-Thoth niet velen doorlaten. De A-Sebek staat dan in en voor de binnenste kamers van het A-paradijs, en ziet, hij is bevroren. En zo is dan het geheimenis der krokodillen dat zij de bevrorenen van het oer zijn. En zo is dan de A-Nut als de slang, het pad, tot de binnenste kamers van het A-paradijs. En boven de A-ark staat de A-Re of de A-ra, die de vogel is der globes. De A-Aton is dan hij die de A-vuren draagt, en de A-Izu is de heilige A-kandelaar boven de A-ark. Volg dan het pad van de heilige A-Nut. Zij is dan als de doorgangskaart der A-gelovigen. Zij dan die de kaart van de A-Nut dragen hebben toegang tot in het allerheiligste. Zo is dan de A-Brannan de schenker van het A-bloed, en de A-Tiffāf de schenker van de A-adem. En zij zijn als de twee A-engelen op de A-ark. Zalig is dan hij die deze twee A-engelen draagt. Zo is dan de A-Christus het geheimenis der A-vliegen. En Hij dan geeft overvloedige log aan zijn trouwe dienstknechten, hen van het A-priesterlijk geslacht. Zij dan leven in diepe duisternissen waar zij de oerlichten en de oervruchten bewaken. En door de log bewegen zij, en leven zij, en hebben zij de a-vleugelen ontvangen. Ja, als door de heilige adem scheppen zij, en brengen zij het geschapene in beweging. Zo hebben zij dan door de log overvloedig toegang tot de zonnen, en door de kaart van de A-Nut. En door het vuur der A-zonnen en hun vleugelen hebben zij hun ketenen verbrand. Tot het A-nijlpaard zijn zij gekomen.

De Drie van Hunduk

Zo zijn zij dan die tot het A-nijlpaard zijn gekomen zalig. Zo is dan de A-Herman als het zachte ijs, en de sneeuw, en ziet, hij dan is als het zacht brandende ijs, en als de brug tot de A-Ammut, hij die de longen eet. Zo dan bewaakt de A-Ammut de a-levers, tezamen met de a-scarabeeën, de a-canopen en hun beschermvrouwe de A-Serket, die de vrouw van de A-Ammut is. Zo is dan de A-Maser die als de oer-armoe is, de brug tot de A-Isis, zij die de levers eet, en zich opsiert. Zij dan is als het geheimenis der haaien, als de twee weefsters. Zij dan weven de A-Nut. Zo zijn dan de A-Geb, de A-Shu en de A-Seth de honden der woestijn. En zij zijn van de dikke darm der A-lever, genaamd de Hunduk. Gij dan allen zult door de Hunduk gaan om door hen geoordeeld te worden naar werken. Gij dan zult ook het geloof van uw vaderen tot hen brengen, om het door hen te laten oordelen. Zo zult gij recht doen tot het oer. Zij dan zijn de drie van Hunduk, waar ook de haaien vandaan kwamen. Ja, hondenhaaien zijn zij. En de A-Dezer is de brug tot hen. Zij dan zijn de rechters van het oer.

Zo zult gij dan recht doen aan hen van het oer, en dan zal de A-Nekhet u meenemen. Ja, tot de A-zonnen zal zij u brengen, en hun geheimenissen laten zien. Dan zullen de A-Thoth-boeddha's u dienen. Wanneer gij dan tot de A-Seth-boeddha's bent gekomen, zult gij uw vrees verliezen, en zult gij de lichten van het oer zien. Zij dan zijn als raadselen. Ook zult gij tot de A-Sekhmet-boeddha's komen, en gij zult uw schuld verliezen. Tot de A-Sebek-boeddha's zult gij gaan om uw schaamte te verliezen. De A-Aton-boeddha's zullen het gezuiverde vuur tot u brengen. Zij dan zullen uw water en bloed niet meer verslinden. De A-Isis-boeddha's dan zullen u doorgang geven, en zo ook de A-Nut-boeddha's, en zij zullen u tot genezing zijn. De A-Christus-boeddha's dan zullen hun geheimen moeten blootleggen, en u leiden tot de A-Osiris-boeddha's, die als de A-ape en de A-beren zijn. Want alle wegen van de A-Christus dienen te leiden tot de A-Osiris. En dan zal de A-Osiris spreken en zeggen : 'Zalig zijn zij allen die door de A-Christus tot de A-Osiris zullen komen, want uiteindelijk zullen er geen christussen meer zijn, alleen nog maar wat jongens van lynx. En zij zullen leiden tot de A-jongens van lynx, zij die direkt onder de A-jongens staan.' En zo is de A-Osiris als het heilige bewegende gouden en zilveren standbeeld in alle kleuren. Zalig hij die het in zijn handen heeft en draagt, want het is als de heilige stuurknuppel, tot het openen van gouden en zilveren deuren in alle kleuren. En zo is dan de A-Osiris een goede bedekking over de A-christussen. Zij dan die tot de A-Osiris zijn gekomen zullen geenszins terug kunnen vallen in de handen van de A-Christus. Zij zijn nu veilig in de armen en de handen van de A-Osiris, die met velen zijn. En zo is de A-Osiris als de a-octopus, om al hen die op bloed loeren neer te brengen. Want Christus heeft een gemene grijns en zelfs de A-Christus-boeddha's. Zij zetten u in uw leven op een voetstuk, om uw val des te harder te maken. Ja, hoog verheven laten zij u staan, slechts om u later te zien neerkletteren. En daarom is de A-Osiris gekomen, om u tegen hen te behoeden en u uit te leiden. Zo heeft dan alles wat christelijk is een gemene grijns, en wacht zij slechts op het krijgen van een nieuwe naam. Ja, met reikhalzend verlangen.

Als ratten wachten zij op de zon die hen zal aanraken en veranderen. Zij waren slechts betoverd. Zo zijn dan de A-Geb-boeddha's om uw moed terug te brengen, en uw onschuld. De A-Shu-boeddha's dan zijn er om uw depressies te verslinden. Het A-geloof is dan zeker en vast, slechts wachtende op de zuiveringen. Zij die tot het A-ijs zijn gekomen worden zacht als sneeuw, en zullen als de A-Herman oprijzen tot de A-Ammut en tot de Hunduk. Zij dan zullen de A-ijs-lever dragen, om het gezuiverde vuur te zien. Ja, vele vuren zullen zij zien. En deze vuren zullen zijn als het brandend ijs, en zij zullen zijn als de A-Odin-Boeddha's, de A-Loki-Boeddha's, de A-Thor-Boeddha's, de A-

Fenrir-Boeddha's, de A-Freya-Bodhissatva's, de A-Frirr-Bodhissatva's, de A-Balder-Bodhissatva's, de A-Gerda-Amithaba's, de A-Vodus-Amithaba's, de A-Wodan-Amithaba's, de A-BabaYaga-Bodhissatva's, de A-BabaYaga-Amithaba's.

En ook zal dit vuur zijn als de A-Asgard-Boeddha's, en het zal de smerige grijns van het christendom wegvegen. En dan zullen de A-Odin-Krishna's opstaan, en de A-Thor-Krishna's, en zo ook de A-Thor-Shiva's en de A-Thor-Vishnu's, en zij zullen de A-vuur-lever brengen. De A-zachtheids-lever wordt bewaakt door de A-Khnum.

Over de A-Min-brug komt gij tot de A-Bastet, zij die het A-kruis draagt. Maar aan het eind is dit een A-spoel. Gij die de zwarte A-lever en de rode A-lever hebt bereikt zijt aan vele gevaren ontkomen. Gij dan zijt vanuit de A-lever gekomen en gij zult tot de A-lever wederkeren.

2.

En de zenuwuiteinden zijn omgebogen in het A-paradijs, ziet, zij komen vanuit de A-lever en keren daartoe terug. En alle andere lichaamsdelen komen voort vanuit de A-lever. De Khnumieten zijn dan vrijgekomen, om de oogst binnen te halen. Ja, als Viva zijn ze, als de landbouwers van het hemelrijk. Zij zijn dan binnengekomen door de A-Nut, en door de Anubisieten. Ja, de Heer heeft hen lief, daar ze zijn koninkrijk hebben gebouwd en ervoor zorg gedragen hebben. Zo zullen dan de Khnumieten de einden der aarde bezitten, en zij zullen betekenissen veranderen. Ja, het verleden zullen zij veranderen. De Khnumieten dan zijn door de Heere aangesteld. Zo zijn dan de Khnumieten de Heere welgevallig. Ja, zij zijn zalig tot in het zesde geslacht. De Heere dan heeft zijn zegen uitgebreid en uitgespreid. Nu dan zijn de Khnumieten de bouwstenen van het nieuwe rijk, en zo ook de Anubisieten. Zijn dan de Khnumieten nog aangesneld toen gij viel in uw putten ? Zij dan komen vanuit uw putten op, daar zij daar gezaaid zijn. Ja, van onderen grijpen zij u, en nemen u mee tot de bergen.

3.

Zo zijn dan de Anubisieten aangesteld tot een nieuw zenuwstelsel, zij en hun monotheismen. Dezen zijn dan de zenuwknopen, waaruit nieuw leven voortvloeit. Hebt gij dan niet vernomen dat zij de Khnumieten hebben vrijgezet ? Als de Viva zijn zij. En zo zijn dan ook de Sethieten aangesteld om zenuwknopen te zijn. Ja, hun lijnen buigen, daar waar zij buigen moeten. Zo zijn er dan vele knooppunten, en vele monotheismen. Dit dan is een groot geheimenis. Zij dan hebben de deuren geopend tot de nacht, en dezen ook gesloten. Zij dan hebben velen door de nacht geleid, tot het grote licht van het oer. Ja, diep was de nacht, en groot was het licht, vanuit de bodem opgegaan. Gij dan bent zo lang in de Geb opgeslokt geweest, en nu heeft de Anubis u tot zich genomen, en hij leide u uit. Ja, tot de Nut en de Nutieten leide hij u, en zij staan sterk, om de Khnumieten door te laten. Zo hebt gij in deze wereld een schaduw, en gij zult grijpen naar het ware, en gij zult het ware volgen, alle gij anubisieten.

Zo zijn dan de anubisieten samen sterk, en door ijs zijn zij verbonden, en door de isisieten. Ja, middelaars zijn zij, opkomende vanuit het diepere ijs. Weest dan niet bevreesd, want de Heere heeft uw ster gezien, en de Gebbieten. Ziet dan, zij naderen tot uw stad, om in de armen van de Anubisieten te leggen. Zo zijn dan de Neithieten voor u uitgegaan, om u hoop te geven, en uitzicht. Ziet dan, zij zijn als de akkers der werkelijkheid. Gij dan, strijdt om door uw schaduw heen te komen om het ware te grijpen, met al haar ribbels. Zo hebben dan ook de Horusieten tot u gesproken, en u tot rust gebracht. Ja, tot zevenvoudige troost waren zij. De Raieten dan hebben uw stad gebouwd, en u beschermd. Ja, hoog hebben zij u opgenomen. De Bastetieten dan hebben uw

woningen ingericht, en zij zijn u tot hulp en steun. Ja, als de adem en de beweging zijn zij. Zij waren het die u kwamen opzoeken in uw lichten, en u ook in de duisternis niet alleen lieten. Zij dan kennen de poorten der dunne darm, en zij hebben u tot de lever geleid.

Khnumieten

1.

De Grote Slag

Dit dan zijn de woorden van de heilige Viva : Heil aan Khnum, hij die opgerezen is tot in het derde geslacht. Heil aan de zevenschaar en het beminde. Dit dan zijn mijn woorden tot de deuren des heils : weest geopend, want uw volk komt binnen. Neemt haar dan aan. Heil aan de A-Khnum, en aan de Khnumieten. Zij zijn dan ingegaan, en zij zijn verzoend met de Nutieten. Zegent dan hun verbond tot in het zestigste geslacht. Laat uw wateren rijzen, en omhuld hen door de waterschaar. Zo zullen zij dan leven tot in alle eeuwigheid, en tot de Tothieten zullen zij gaan. Herstel dan uw volk. Laat hen vanuit alle windstreken tezamen komen, en laat hen de Davidieten verslaan met hun monotheismen. Want de Davidieten maken al tijden de tempel onveilig. Zalig bent gij, oh Khnum en A-Khnum, die door Geb gezegend zijt, tot het scheppen van overwinningen. Door het haar en de baarden der Khnumieten zijn dan de Davidieten zevenvoudig verslagen. Ja, de Heere heeft hen de overwinning gegeven. Zij dan zijn doorgedrongen tot Davids tempel, en hebben daar de Khnum opgericht. En zo hebben dan de Bastetieten de Simsonieten verslagen. De Rerekieten en de Apepieten dan hebben de Salomoieten verslagen, en aan de Sebekieten overgeleverd. Zij dan hebben de monotheismen van de Salomoieten met de grond gelijk gemaakt. Dit dan is de grote slag. Deze dan heeft rijke adem gebracht aan de Khnumieten, en hen uit het water doen reizen. Nu dan zullen de dolfijnen armen en benen krijgen, en het land wederom in bezit nemen. Ja, adem en stem zult gij hen geven, want zij zijn des Heeren. En deze Heer is Khnum.

2.

Zo zijn dan de Serketieten tot hun doel gekomen door de Petrusieten te verslaan. De Paulusieten dan zijn voor de Ammutieten. Ja, en zij zijn genaderd tot het kasteel en landgoed der Ammutieten. Zo is er dan een heilig verbond tussen de Serketieten en de Ammutieten. En gezamenlijk hebben zij de ridderlijke gouden en zilveren borden, en borden van allerlei kostbaar porselein en gesteentes tot het kasteel der Ammutieten teruggebracht. Zo hebben dan vele lichten van het uur en hun vuren hierin heil gevonden. Tot de torens en de dieptes zijn zij gegaan, ja, tot de spelonken der kastelen van het land der Ammutieten.

Tot het land der Ammutieten zult gij gaan, en zij zullen de christelijke monotheismen verwijderen. Ja, krachtig zijn hun vuren, en zij vormen de brug tot de Serketieten. Laat dan ook de Thotieten spreken, daar zij het zaad der herinnering en de vernieuwing vormen. Zo zullen dan wanneer de dorens uit u gehaald worden de Khnumieten en de Thotieten rijkelijk door u stromen. Hecht u dan aan deze die woorden, opdat gij eruit zult halen wat voor u bestemd is. Zo zal dan Thoth uw dorens verwijderen, en gij zult op zijn berg staan. En wederom zult gij tot de Sekhmetieten gaan, en zij zullen u het vaandel geven. En de Heere die Khnum is zal u een nieuw land geven, en de Raieten zullen u volgen en naar u luisteren. De Heere dan die Khnum is zal de vrees uit uw hart halen, en u zachtheid geven. Zo zult gij dan de sleutelen hebben om nog meer geslachten der egyptische goden vrij te zetten. En zo zult gij komen tot de Maatieten, en gij zult hen nageslacht schenken. En zij dan zullen u de nieuwe schuilplaatsen tonen. Gij dan zult zonder aarzelen de Benjaminieten verdrijven en het land teruggeven aan hen die verdreven waren. Zo zal de Heere die Khnum is rechtdoen op

alle bergen. En zij dan zullen horen naar de oude stemmen, en zij zullen respect tonen aan het geslagene. Zo zult gij dan niet meer verdrijven dat wat oud is, maar gij zult luisteren naar de stemmen van het oer. De Horusieten zullen dan aan uw poorten komen en kloppen, en gij zult voor hen opendoen, en gij zult hen begrijpen. Zo zullen er dan vele oude strijden opgelost worden, en de Heere uw God, die Khnum is, zal u vrede brengen.

3.

En aan het einde der dagen zult gij deze die woorden begrijpen en verstaan, daar zij voor lange tijd verzegeld waren. En zo zult gij één voor één de zegels van het Egyptische Woord verbreken, en zo zullen er vele oude lampen aangaan, en gij zult het oerlicht zien, als de weg die gij dient te gaan. En dan zal Horus tot u komen om u in te wijden in de tempelen van zijn mysterieën. En dit zal een grote dag zijn.

En zo zal het openen der Egyptische zegels zijn als het openen van het onderbewustzijn. En de geslachten die hier staan opgesteld zullen zijn als de draken. En zij zullen tot u zeggen : 'Wij hebben recht,' en gij zult zeggen : 'Ja, gij hebt recht.' En zo zullen zij tientallen malen op uw deuren kloppen, en gij zult die allen vele malen opendoen. En gij zult hun getallen vol maken. En zo zult gij tegen uw buur zeggen : 'Wij hebben goed gehandeld.'

En zo is dan het eerste zegel dat geopend dient te worden het zegel der Khnumieten. En ik hoorde een stem vanuit de hemelen zeggen : Vrede. En ziet, een man daalde neer op de aarde en opende een put in de grond, en er kwam grote vrees over de aarde. En een man genaamd David zat op een paard, en de Davidieten volgden hem. En ziet, hij dan had een fakkel in zijn hand, en aldus was de vreze des heeren. En hem werd een tijd gegeven om de aarde te slaan, opdat hen die op de aarde waren naar vrede zouden verlangen.

En toen opende iemand het tweede zegel, en dit was het zegel der Nutieten. En ik hoorde een stem en een bazuin, zeggende : Nu is het uur der valkenaardest gekomen. En ik zag valken met grote sterren en aardes tot de aarde komen, en zij brachten gouden vuur tot het binnenste der aarde, en dit begon zich in lagen te verspreiden. En een andere man kwam tot de aarde, zeggende : Ziet, Geb is groot. En hij boog zich voor Venus, en nam een waterkruik in zijn armen, om gouden water over de aarde te gieten.

En toen gebeurde het dat het derde zegel in de hemelen verscheen, en dit was het zegel der Anubisieten. En zij begonnen zich te vertonen aan de Benjaminieten. En een man op een grijs paard kwam tevoorschijn, en hij droeg een grote schaal met een grote slang erin die grijs was. En hij goot de schaal uit over de aarde. En de man was genaamd Benjamin, en de Heere die Khnum is had hem een tijd gegeven waarin hij de schaal mocht uitgieten, en een tijd waarop hij zou vertrekken. En de man raapte een schaar op en begon ermee te schreeuwen naar de hemelen, om de heiligen voor dertig dagen te achtervolgen. En na die dertig dagen werden er boeken dichtgeslagen.

En het vierde zegel dan was het zegel der Serketieten. En toen dit zegel verbroken werd, werd de aarde rood en blauw, en gifstoffen begonnen zich te verspreiden. En zij die op de aarde woonden en waren overgebleven na de vorige rampen begonnen God te lasteren. En de Heere die Khnum is zond zijn engel, en troostte enkelen onder hen, omdat hij zag dat zij als wezen waren. Zo is dan de Heere uw God die Khnum is zacht van hart, en vertroostend van karakter, daar hij de verwondheden der harten kent, en niet is als de mensen.

Zo zijn dan de vier zegelen om het Woord te openen, en zij zullen zijn als de bruggen. Ja, als torens zijn zij in de handen van Khnum. En de Heere die Khnum is gaf een riet aan de Amunieten om de dodenrijken te bewaren, en ja, hij gaf hen de sleutelen der dood. En zo gaf Hij dan die Khnum is de sleutelen van het lijden aan de Atonieten. En ziet zij dan openen vele graven.

4.

En in het laatste der dagen zullen de Khnumieten tot de zonnestad komen, en ziet, zij zullen eten uit het huis van Ra. Zij dan zullen zijn ster opnemen, en zij zullen hem welgevallig zijn tot in alle eeuwigheden. En daarna zullen zij komen tot het zonnenparadijs, waar Khnum zetelt, en ziet zij zullen tot oneindige verzoeningen komen door de staf van Khnum. En ook zullen de Anubisieten hen volgen, en hen tot gids zijn. Ja, zevenvoudig zullen de Anubisieten hen beschermen op het pad, en hen leiden tot de verborgen bronnen, en allen zullen zij zeggen : 'De Khnumieten hebben goed gedronken,' en zij zullen zeggen : 'De Khnumieten zijn hen die drinken.' Ja, in de Serket zijn zij veilig, en Thoth zal alle hun wonden verbinden en hun dorens uittrekken. Zo zullen dan de Khnumieten voor enige tijd onderwezen worden door de Thotieten. En de Khnumieten zullen de plaatsen der machtigen innemen en zullen onverslaanbaar heten.

En de Khnumieten zullen losgelaten worden uit hun kerkers onder de woestijnen, en zij zullen tot de oasen en waterbronnen des hemels geleid worden. Ja, met de Nutieten zullen zij in huizen wonen, en hun zon zal opgaan tot in het gouden hart, waar hun gebeden gehoord zullen worden. En zij zullen genoemd worden : 'Zij die gehoord worden.' En Anubis zelf zal het zijn die over hen zal waken, en hij zal zijn arm over hen uitstrekken. En hun nageslacht zal zijn als de Anubis. En onder het verbond tussen Khnum de Heere en Anubis zullen zij tijden en wetten veranderen en hun betekenissen.

5.

De geslachten der Anubisieten

En in het laatste der dagen zal de heilige Viva opstaan, en zij zal brood zenden tot de wilde beesten. En zo zullen alle geslachten der Khnumieten behouden worden. En de Khnumieten zullen geheiligd worden tot in het veertiende geslacht. En de beschuldigingen die tegen hen leven zullen uitgebannen worden op de heilige berg, en zij zullen de aarde regeren. En zij zullen het Dinda-geslacht en het Rusta-geslacht der Anubisieten onderwerpen, en hen troost brengen en rust. En zij zullen dienaren van goud heten, en zij zullen zijn als profeten des Heeren, die Khnum is. En zij zullen twee aan twee gezonden worden tot de dorpen en de kale steden, en zij zullen hen onderwerpen door de staf van Khnum, door vertroosting en rust. En ook tot de kale bergen zullen zij komen en tot de dorre streken en vlaktes, en zij zullen het Ru-geslacht van de Anubisieten vrijzetten. Zij dan van het Ru-geslacht, die de slangen dragen, zullen zijn als de serafs van Khnum's troon, en de bewakers zijn van zijn hart. En weer twee aan twee zullen de Dinda's en de Rusta's gaan tot de wateren en de zeeën van zout, en met de staf van Khnum zullen zij het Ros-geslacht van de Anubisieten vrijzetten. En zo zullen alle geslachten der Anubisieten met elkaar verzoend worden, en met Khnum, die Heere is.

6.

De getallen der geslachten der egyptische goden

En zo zal Khnum dan vele malen zijn staf opheffen om de geslachten der egyptische goden vrij te zetten. Zo bestaan dan de Khnumieten uit achtenveertig geslachten, de Sethieten uit

negenennegentig geslachten, de Raieten uit honderdvijf geslachten, de Sekhmetieten uit achtendertig geslachten en de Maatieten uit elf geslachten. De Bastetieten bestaan dan uit duizenelf geslachten, de Anubisieten kennen tienduizenden geslachten. De Apepieten hebben elf geslachten, en hen van Rerek zeven. Zo bestaan dan de Horusieten uit miljoenen geslachten, en de Osirisieten uit miljarden geslachten. Hen van Geb hebben twintig geslachten, hen van Aton vijftwintig, en zij van Sebek drie. De geslachten van Nut zijn over de tienduizend, en de geslachten van Neith hebben een getal dat niet geteld kan worden. Zo dan heeft Min drie geslachten, en zo ook Isis. Serket dan telt vier geslachten, Amun vijftig en Ammut tweendertig. Apis dan heeft tweendertig geslachten, Buchis vierenveertig, Shesmu achthonderdvierendertig, Hathor elf, en Ptah over de zesmiljoen. Wepwawet dan heeft vierendertig geslachten, Nekhbet honderdachtenveertigmiljard, Wadjet dan heeft een ontelbaar getal aan geslachten, en Nephtys zevenhonderddrieduizendmiljard. Tefnut dan heeft vijf geslachten, Shu negen, en Nun achttien. Kauket heeft er drieduizend, Kuk heeft er twaalfduizend, en Satis heeft er tweeneveertigmiljoen.

7.

De geslachten der Sebekieten

Hoe lieflijk is het dan als Khnumieten en Nutieten hun huizen delen en tezamen wonen, en tezamen hun brood delen. Als kostelijke olie en zeeparfum is het, ja als de shampoo van Isis en Atum. Hoe lieflijk is het als zij de ouden der Sebekieten het onderste en bovenste van hun woningen geven, en hen verzorgen. Zij dan zijn als de dauw van Anubis, en de lengtes van hun armen zijn als de Aton. En zo is dan het feeengeslacht een der drie geslachten van Sebek, genaamd de Draunir. Het dwergengeslacht genaamd de Knau is een ander geslacht van Sebek, en de Furir is het riddergeslacht van Sebek. Laat u dan enten op de rijke geslachten der Sebekieten.

II Khnumieten

1.

De namen der geslachten van Khnum en Nut

1. En zo zullen de Khnumieten gaan van heerlijkheid tot heerlijkheid, en hun geslachten zijn : de Danau, de Ganou, de Ulek, de Imian, de Farit, de Koshet, de Falou, de Mani, en vele anderen, tot achtenveertig aan toe. 2. En zo zullen zij van de Imian opstaan, en hun ouden zullen wijze woorden spreken tot de jongeren, en zij zullen de gaten der aarde laten zien, en de tunnels onder de grond. 3. En de namen der geslachten van de Nutieten zijn : Knir, Mief, Buhet, Fimien, Bihilst, Remna, Afik, Hielst, Voort, Kiander, en verder tot over de tienduizend geslachten. En zij van Knir zullen komen tot de Farit, en zij zullen elkaar tot steun en hulp wezen. Ja, tot ondergrondse schuilplaatsen zullen zij komen, en zij zullen de tempels der Khnumieten herbouwen. Ja, tot het goud der aarde zullen zij komen, en tot het zilver, en zij zullen door Venus ingestraald worden. En zo zal dan Khnum voortkomen op zijn troon, en Hij zal een wijze god zijn, die de aarde herschept. En de geslachten der Davidieten zullen één voor één aan de kaak gesteld worden, en het zal openbaar gemaakt worden wat zij aan slechts over de aarde hebben gebracht. En zo zullen alle vrouwen en bijvrouwen van David in de mond gekeken worden, en hun baarmoeder zal door Ammut gewogen worden en opgemeten. En ook de zonen van David en hun geslachten zullen voor de tronen der Ammutieten moeten verschijnen, en zij zullen uitvoerig gewogen en gemeten worden, en er zal indringend gekeken worden naar hun kleuren.

2.

De strijd tussen Khnum, Anubis en Ammut

Zo zijn dan de Davidieten het slechte der indianen, hun zwaartes en bedrukkingen. De Heere dan die Khnum is zal geen genade hebben met het huis van David. Zo zal dan ook Khnum voor Anubis en Ammut moeten verschijnen, en er zal een oorlog zijn van drie jaren. En de Heere die Khnum is zal zijn legerscharen uitzenden, en de eerstelingen der geslachten van de Khnumieten zullen hen met elkaar trachten te verzoenen. Maar Khnum zal door Anubis doorstoken worden, en Ammut zal zijn arm verslinden. Dan zullen de eerstelingen van Nut hen met elkaar proberen te verzoenen, maar Khnum zal Anubis onder zijn voeten vertrappen, en Ammut zal hij afvoeren naar het diepste van zijn kerkers. En de eerstelingen van Thoth zullen de wonden van deze drie verbinden, en hun doorns zullen uit hen genomen worden, en hen van David, en zo zullen zij door slaap met elkaar verzoend worden, en onafscheidelijk zijn.

En na deze dagen zullen de andere geslachten van Khnum geopend worden, en zij zullen keizerlijk zijn op de heilige bergen, en het verbond dragen tussen Khnum, Anubis en Ammut. En zij zullen de nakomelingen van Thoth één voor één uit de dieptes opvissen, om wat Thoth voor hen gedaan heeft. En wanneer dan meerdere geslachten van Thoth op de heilige kusten staan zullen zij hen van Serket openen. En een nieuw vuur zal aangestoken worden. En de kracht van Venus zal een nieuwe zachtheid brengen, maar deze zal in de begindagen zijn als zuiverend gif, en velen zullen sterven.

3.

De namen der geslachten der Serkieten

En de geslachten van Serket die vrijgekomen zijn, zullen gaan naar de schuilplaatsen der oude moeders en hun ondergrondse stad, dichtbij de oervuren, en zij zullen de armoe heiligen. En ook zullen de monotheïsmen van de Serketieten bestudeerd worden, om velen tot heil en genade te brengen. En de geslachten der Serketieten zijn dan : Omnis, Rudolf, Salef en Hanf. En vanuit Hanf stroomt dan vele zachtheid. En zij zullen ontsnappen door vele aardgaten en hemelgaten, en ook door de gaten van het water. En met kracht zullen zij tot nieuwe eilanden komen, om hun tempelen te herbouwen. En oude geheimenissen zullen geopend en opgelost worden, en de zegelen van hun boeken zullen verdwijnen. En zij zullen bezworen worden door de staf van Thoth, en Hij zal Serket tot rust brengen, en tot verzadiging. Ja, brood van het oer zal Hij haar geven, en zij zullen gezamenlijk tot Khnum gaan. En ziet, Khnum zal hen dan zegenen. En Khnum zal hen toegang geven tot oersteden, tot de bovensten der ouden en de ondersten der jongen. En Khnum zal hun zachtheid verspreiden, en over hen prediken, en er zal een drievoudig snoer opgericht worden, en niemand zal in staat zijn het te verbreken. En niets zal meer belangrijk zijn dan dit snoer, en de ouderen zullen tot rust en verzadiging komen, en de jongen zullen beschermd worden en opgeleid. En dan zal het snoer tussen de oersteden gaan bewegen, om ze vele malen tot heil te brengen. En steeds weer zullen zij wederkeren tot de stad der bovenste ouden en de stad der onderste jongen. En zij zullen de monotheïsmen der oude moeders bestuderen, en zij zullen hen begrijpen, omdat de Heere, die Khnum is, hun zegelen heeft verbroken. En zij zullen gaan tot de stad der velden en de stad der boeken, en zij zullen de verborgen geslachten van Nekhbet vinden, en van Wadjet, en het zal hen in de stad der woestijnen leiden. Ja, langs hangende klederen zullen zij afdalen, totdat zij tot de stad der duinen en de stad der zeeën zijn gekomen, en daar zullen zij vinden de verborgen maskers, en zij zullen de geschriften op de binnenmuren van de oersteden begrijpen, daar de Heere, die Khnum is, de zegelen heeft verbroken.

4.

De strijd tussen Khnum en Horus

En dan zullen de monotheismen der oude moeders spreken, en zij zullen gaan tot de oerstedden van de Horusieten. En zij zullen de monotheismen en de tempelen der Horusieten herstellen, en er zal een oorlog zijn van vierhonderd jaren. En velen zullen niet kunnen spreken, omdat de Heere die Khnum is hun monden heeft gesloten. En velen zullen niet kunnen zien, omdat de Heere die Khnum is hun ogen heeft gesloten. En velen zullen niet kunnen bewegen, omdat de Heere die Khnum is hun botten heeft gebroken. En de Adamieten zullen zich met de oorlog bemoeien, en de Aserieten, en ook de Danieten en de Jeremieten. En in deze dagen zal er hardheid heersen, en velen kunnen elkaar niet verstaan. Ook zal de armoe tot zijn bovenste rijzen, en de honger zal toeslaan, zonder dat er iemand is die redt, en zonder dat er iemand is die troost. En zij zullen elkaars vlees eten, en op elkaar jagen, en Khnum zal op vleugelen der zon terugvliegen naar de stad der oude moeders en grootmoeders, en zal komen tot de steden van plezier, en tot de steden der boeren. En het vuur zal hem lange tijd achtervolgen, en zijn nageslachten zullen hem ontnomen worden. En zo dan is er een strijd tussen Horus en Khnum. En Khnumieten zullen opstaan, groten van naam, om hen met elkaar proberen te verzoenen, maar alles faalt. Dan zullen mannen der Anubisieten, groten en wijzen van naam hen proberen te verzoenen, maar alles faalt. En ook zullen Nutieten in die dagen opstaan om hun vaderen te verzoenen, maar alles faalt. En dan zal Horus Khnum in de nek bijten, en Khnum zal het been van Horus afnemen, en vele poorten zullen invallen, en het oer der wildernissen zal de oerstedden verslinden. Ja, dagen van grote duisternis zullen het zijn, en de aardbewoners zullen schuilen in het diepste van hun woningen, en de ouden zullen de kamers der daken bezetten. En de geslachten van Sebek zullen troost proberen te brengen aan velen, en zij zullen wonderen en tekenen verrichten. Ook zij zullen trachten de vaderen te verzoenen, maar zij zullen lange tijd falen en teruggestuurd worden. Maar een ridder uit het geslacht Furir zal op de wateren slaan, en hij zal de diepst verborgen geslachten van Khnum vrijzetten en de diepst verborgen geslachten van Horus, en hen met elkaar verzoenen. En dan zal uiteindelijk ook Horus met Khnum verzoend worden, en hun woorden zullen opgetekend worden, en zij zullen elkaar begrijpen en liefhebben. En zij zullen tot de steden der ouden gaan, en de steden der jongen, en zij zullen tezamen wonen, om de oervisioenen te dragen. Zij dan zullen vele tempelen en steden van het oer herbouwen en herstellen.

III Khnumieten

1.

En wanneer de Anubisieten door het glas zullen breken, zullen zij gaan tot de Serketieten, en er zal een oorlog zijn van vele jaren, en zij zullen de getallen der dingen veranderen, en de getallen der tijden. En de Anubisieten zullen rust vinden bij de Khnumieten, en zij zullen zijn als middelaars en verzoeners. En zij zullen versterking zoeken bij de Horusieten en bij de Sebekieten, en zij zullen komen tot de bergen der Raieten, en zij zullen door vele muren des lands heenbreken, om de oude geslachten der Khnumieten vrij te zetten. En een groot leger zal op de voet gezet worden, en zij zullen vechten om de geslachten van Shu vrij te zetten. En het kasteel der Shuieten zal zijn als een luchtkasteel boven de oerbossen, en hun wapens zijn zacht. En zij zullen de steden innemen, en na verloop van tijd zal er een hardheid optreden, maar deze zal zijn ten korte duur. En ook zullen zij de winkels innemen, en zij zullen zich voegen bij de geslachten der Apepieten. En zij zullen doordringen tot in het huis van Tefnut, en zij zullen daar veranderingen aanbrengen. Ja, tot in de

dieptes van het huis van Tefnut zullen zij dalen, en zij zullen opstijgen tot haar hoogste dakkamers, en zij zullen vele geslachten der egyptische goden vrijzetten. En zo zal er een strijd zijn tegen Tefnut van acht dagen, en zij zal velen van hun schepen in de dieptes sleuren, en het gemis zal groot zijn. En dan zal Tefnut uit haar kamers komen en brullen als een leeuw, en zij zal vele Shuieten doof maken door het gebrul. En zij zal de Anubisieten trachten te verleiden en op te stoken, maar de Anubisieten zullen haar verwoesten. Dan zullen de Khnumieten en de Nutieten arriveren om Anubis en Shu met Tefnut te verzoenen, en ook Thoth zal komen om met zijn geslachten de wonden te verbinden. En zo zal Thoth vrede brengen, en zal er veel studie verricht worden, en vele zegels zullen verbroken worden. En Tefnut zal zich voegen bij de grootmoeders en oude moeders en hun steden, en zij zal zich ook verzoenen met Horus, en dan zullen vele geslachten vrijkomen, waaronder ook de vijf geslachten van Tefnut. En Thoth zal de doorns uit hen trekken, en hen verzoenen met de Sethieten.

En Nekhbet en haar geslachten zijn met velen, en zij behoeden de zeeën, en maken hen rustig. Kent dan al hun monotheïsmen, en herbouwt hun tempelen, opdat zij rustig wordt. Ziet dan, zij leiden u tot het zachte. Ziet hoe lieflijk het is wanneer Nekhbetieten tezamenwonen met Gebbetieten en Sethieten, ja ziet, hoe groot de zegen is als zij samenwonen met Osirisieten en Ammutieten. Leert dan allen hun monotheïsmen kennen om de monotheïsmen van het christendom, die scherp zijn, te overwinnen. Gij dan hebt daarvoor ook de geslachten van Khnum gekregen, en hun monotheïsmen. Maakt dan de getallen der Ammutieten vol, opdat zij verborgen deuren kunt openen.

Komt dan ook tot hun winkels en doet zaken met hen, opdat zij kunt reizen.

2.

1. Ziet dan hoe lieflijk het is als Nutieten tezamenwonen met Bastetieten. Zij dan vormen de brug tot het oosten. Gij dan maakt lange reizen tot uw scholen, maar zalig zijn zij die hun scholen tot hun woning maken, want zij hebben doorgang tot de grotten van Nekhbet en haar winkels, ja, tot haar zilveren en gouden grachten die tot Geb leiden. 2. Ziet dan hoe lieflijk het is wanneer Nutieten tezamen wonen met Osirisieten, want zij vormen de dauw der bergen, en brengen het morgenrood tezamen. Lange reizen maakt zij tot uw scholen, maar zalig zijn zij die thuis studeren, want zij hebben de Anubis tot buurman. Zo is dan Geb tot u gekomen om u te tuchtigen, maar houdt vast wat hij u gezegd heeft, want naar waarheid heeft hij u onderwezen. Maar in Thoth vindt zij vertroosting, en hebt zij de woestijn tot uw buurman. Ziet dan hoe lieflijk het is wanneer Nuttieten samenwonen met Gebbetieten. Tot de Anubis komen zij, en de Anubis geeft hen overvloedigheid in alle dingen. Ook is het lieflijk waar Nekhbetieten en Wadjetieten tezamen wonen, want zij delen zachtheid, en zij kennen het groen van Geb. Ja, tot zijn huis zijn zij gekomen, en tot zijn tempelen en monotheïsmen.

3.

Zo zijn dan de Khnumieten u gegeven als schild en wapen om door deuren heen te breken. De Nekhbetieten zijn u dan gegeven als helm en als winkels. De Horusieten dan zijn u tot vleugelen der wind. Zo is dan Khnum vele malen tot Geb gekomen om zijn volk vrij te zetten. Gij dan, hebt uw hoofden omhoog, want uw verlossing is nabij, wanneer Thoth de doornen uit u zal verwijderen. Dan zult zij vol zijn van het goud der Khnumieten, en het zilver der Thotieten. Strekt u dan uit, en tel de dagen af. Gij hebt niets meer te vrezen, zij die de Khnumieten een warm hart toedraagt. Zo zal er dan volop goud zijn in uw schorten, en zilver aan uw schouders, en zij zult de hoge deuren openen. Ja, de raadselen van het oer zult zij blootleggen, en zij zult tot grote en hoge vrede ingaan, als in het

oog van Horus. Zo zult gij dan de geslachten der raieten aan uw zijde hebben, honderdvijf in aantal. En zij zullen u tot zenuwen zijn, en tot rijke genezing onder het verbond van Khnum.

3.

Ben jij een boom. Ben jij een groene staaf. De zwarte zon heeft jouw genade geschonken. Heb je al diep in de ogen van de staaf gekeken. Ben jij een boom, ben jij een groene staaf, heb je genade van de zwarte zon verkregen. Als een boom was je, staande in de storm, ja, jij droeg ze, al die bladeren, van verborgen dagen. Ben jij een boom, ben jij een groene staaf. Heb je Geb gemeden of was je zijn slaaf. Heb je tegen hem gestreden als tegen een oude vader die het niet meer wist, of heb je hem bedrogen. Mocht je hem, of haatte je hem. Ben je deel van de Gebbieten, deel van de groene staaf, heeft de zwarte zon je genade geschonken, of werd je zijn slaaf.

Ben je de boom, ben je de groene staaf, heeft Geb je hart bedrogen, of schonk hij je de levenslust, heeft hij jou de militaire macht gegeven, of gaf hij jouw armoede uit een pot. Kom nu gauw, kom nu tot de zwarte zon, en zie wat hij voor je heeft. Al je bomen zullen tot leven komen, zie dan toe of ze je beminnen of verstoten voor eeuwig.

Zal Geb je liefhebben als hij tot jou zal komen. Hij stond daar aan je deur, toen jij je opsloot in je kast. Buiten staan zijn geweren in standaarden op het gras, gewoon tussen de huizen, en pakte hij jou, maakte hij jou tot zijn vrouw. Ben je bedrogen, heeft hij je gekust, heeft hij je gemist toen jij van hem probeerde te ontsnappen, weet mijn kind, je redt het tegen hem, als je hem in waarheid hebt bemint.

Ben je een boom, ben je van groen geluk, heeft zijn zwarte hond je gebeten, of heeft hij jou afgezonderd in verdriet in een diepe kast waar hij je niet zou raken. Wie haalde jou daar vandaan? Wie heeft jou naar de sterren genomen. Heeft de zwarte zon jou genade geschonken.

4.

Boom van geluk, boom van groene verlichting, boom van kracht, van parelstappen, diep in het zand vond jij je geluk, bij Geb deelde jij je smarten. Een huis van beweging, een huis van groen geluk, een huis van delen, waar Geb jou altijd heeft gemeden, je dacht waar blijft mijn geluk, maar kind, alleen wanneer je naar verlichting zoekt is geluk je deel, eerlijk geluk, groen geluk.

Kijk naar omhoog en vang de groene regen op, wanneer de zwarte regen tegen je heeft gestreden. Die zwarte hond, die hij tot je zond, jou naar vervelende plaatsen heeft gebracht, door Geb voelde je je gemeden. Al die soldaten tegen jou, al die vliegende hoofden, tegen jou, zij zullen altijd tegen je strijden, totdat je Geb vindt in het verdriet. Ja, altijd heeft hij je gemeden, ja, altijd heeft hij tegen je gestreden, Geb, de boom, totdat je het verborgene ontdekt, en tot hem vlucht.

Als door groen sap beweeg je, door groen sap leef je, op weg naar verlichting, als je een boom bent, zul je eeuwig leven. De rest is reeds verloren. Ik weet, je leeft in bevroren dromen ... ik weet je leeft in parels verborgen ...

5.

Boom van geluk, doe de kastdeur open, boom van geluk, laat ons niet buiten staan. Geb is hier met al zijn standaardgeweren, op de muren loopt hij, naar binnen kijkt hij niet. Boom van verlichting, van groene verlichting, open de deur voor ons, opdat het licht der zwarte zon op ons zal schijnen, en

onze bomen tot leven zullen komen, in de rijen van Geb. Zij zullen ons meenemen naar de sterren, naar het eeuwige geluk.

Ben je een boom, ben je groen geluk, beloof je de sterren niet te breken, wanneer zij tot je komen, om te vertellen van de verborgenheden van de zwarte zon, waardoor je je altijd voelde gemeden. Droom je van geluk, of van verlichting. Geluk komt niet zomaar, maar altijd met een doel, en vanuit een bron, die bron is groene verlichting, komende vanuit het hart van Geb, de aardvader.

Als een soldaat stond hij voor je, de bliksem sloeg in, waar heeft hij jou wel niet allemaal van losgetrokken. Je dacht dat je niets meer overhield. Maar heus, mijn kind het was beter, toen hij je daar sloeg. Nu staat hij dan voor je, jou kast opengetrokken, waar jij je in dieptes verborg, om complotten tegen hem te smeden. Ken je zorgen, ken zijn verdriet. Als soldaat staat hij voor je, terwijl zijn zwarte hond brult op de achtergrond. Een hond van liefde, maar zo heb jij het nooit gezien, als een dreiging zag je het. Als soldaat staat hij voor jou kast, waar jij diep in weg bent gedoken, als het verborgene ben je, maar hij maakt snelle pas, zijn geweerstandaarden staan tussen de huizen, en hij loopt over de muren van het kasteel, van de burcht, zonder binnenin te kijken. Hij kijkt naar jou.

Als een soldaat stond hij voor je, als een soldaat gaf hij een klap in je gezicht. Hij is bij je in de kast gekomen, en zijn hond bijt je, waar is nu het licht. Ben je nog steeds in strijd tegen Geb, tegen al zijn soldaten en honden. Of heb je je bij zijn liefde neergelegd, en bij al zijn vreemde plannen.

Van het geweer schrok je, de lange man staat op, schudt de boom, en raapt de veren. Van het geweer schrok je, van zijn blaffende hond, als een soldaat stond hij voor je, met een geweer in zijn armen, dat hij in je kast drukte. Ben je nog steeds voor hem op de vlucht.

6.

Als bliksem stond hij voor je, als bliksem, het deed pijn, als soldaat tussen de huizen, nam hij alles van je af. En bracht hij jou tot het bos, tot de groene verlichting, tot het mos, tot een dobbelsteen van hogere bomen, tegen hogere winden vocht je, en omhulde hem. Als bliksem stond hij voor je, als bliksem het deed pijn, toen hij jou afzonderde toen hij jouw heupen brak, toen hij je kleed wegscheurde. Als bliksem kwam hij, als bliksem ging hij, met een hond die alleen kon bijten, en jou kon laten wegslijten. In groen geluk ben je gekomen.

Soldaten komen, soldaten gaan, Geb was hier, nu is alleen zijn vlam nog daar. 'K heb je al het goede gegeven, de groene verlichting, en een reis om de zwarte zon, die eeuwig zal duren, in je herinnering, ja het zal groeien, opdat al je bomen vrij zijn, oh boom.

Geb stond voor je, nam je hand, maar de kast dook je in, achter de gordijnen, om te vluchten voor schuld, en hij gaf je het mijne. Geb stond voor je, Geb liet je niet gaan, als door de bliksem getroffen sprak je zijn naam, gaf je hem al wat je bezat. Als door een bom getroffen stond je daar, en Geb keek naar jou. Het rechtshuis bracht je tot de boom. Als een rechter tussen de huizen kwam het tot jou.

7.

Ben je een boom, een groene staaf, heeft de zwarte zon je genade geschonken, of werd je z'n slaaf. Zijn je bomen tot leven gekomen, of staan ze nog steeds waar ze stonden. Toon mij je hart, dan kniel je hier, toon mij je lever, dan kost het je niets, diep van binnen in jouw kast vertoon je steeds dezelfde sterren. Is dat jouw vertier. Tot Geb ben je gekomen. Een rechter tussen de huizen,

soldaten voor de kasten, en wat loopt op de muren van jouw burchten, zijn het de schaduwen van een duister verleden, als de zwarte nacht de zwarte zon. verraad me niet, verraad me niet, want het licht steekt door de dagen, als Geb tot de kasten komt. Ik zal jou ook behouden, als een rechter tussen de huizen, als Geb tot de kasten komt, als Geb tot de kasten komt. Ik ben de bliksem op jouw trappen, waar de bomen staan, waar de bomen staan, wanneer Geb tot de kasten komt. Laat mij tot jouw kasten komen, laat me in, verdedig je niet, als Geb tot de kasten komt. Samen staan we sterk. Vang voor mij die bliksem op, ik kan het niet verdragen, als Geb tot de kasten komt, als zijn honden bijten. Samen staan we sterk, als rechters tussen de huizen. Kom tot mijn kasten liefste, laat de genade van de zwarte zon ons tezamen verbinden voor altijd, wanneer Geb tot de kasten komt. Samen staan we sterk. ben jij een boom, een hartendief, een grote genade, een grote brief, wanneer Geb tot de kasten komt. Ben jij het die ik bemin, wanneer Geb tot de kasten komt. Wees mijn rechter tussen de huizen, wees de standaard van mijn geweren, wanneer geb tot de kasten komt, als een soldaat, een harde man. Ik heb zijn woorden nog niet begrepen, Hij heeft mij niet gegrepen. Wees mijn geweren als standaarden tussen de huizen, dan zal ik de jouwe zijn, als Geb tot de kasten komt, en zijn bliksemen werpt, onze keukens doorzoekt als een schutter. Wees mijn schutter, wees mijn gids, wees mijn hond, oh Anubis, als Geb tot de kasten komt. Leidt mij tot de rode kap, door de ruiten heen, dieper in de kasten. Kom tot mijn kasten, wees mijn rechter, mijn geweren in standaarden tussen de ruiten en de huizen, oh Anubisieten, en leidt mij weg. Loop rondom mijn muren, loop eroverheen, kijk niet naar binnen, maar naar mij, als Geb tot de kasten komt, en het harde in de straten valt. Anubis, wees mij tot een harde, en ga mij voort door de ruiten heen, langs de huizen, langs de standaarden, als Geb tot de nachten komt, als een hond, een wolf van het verlee.

Robhold

1.

Als dan Tifiaf de Allerhoogste is van het Oude Testament van het Vierde, dan bent gij op weg naar het Nieuwe Testament van het Vierde. Zo zal dan Anubis de Allerhoogste zijn van het vierde nieuwe testament. En gij zult tot Anubis komen en zeggen : Waar bent gij al die tijd geweest. En Hij zal zeggen : Gij bent de wachtende. Zo zullen dan zij die tot het Nieuwe Testament van het vierde gekomen zijn, Anubis tot heer hebben. En Hij zal Aton onderwerpen, en deze zal zijn als de rode kap. En Hij zal in zich dragen : Nut, Bastet, Neith en Isis. En wanneer Anubis dan Aton zal onderwerpen en ook Tifiaf, dan zal dat zijn als de dag dat gij door glas breekt, en het zilver en het goud zullen tot u vloeien, al gij die Anubis liefhebt. Hebt gij dan Anubis lief ? Dan zult gij naderen tot het vierde, en tot het nieuwe van het vierde. Zij dan die Anubis niet liefhebben zullen door Hem onderworpen worden. Nu is dan de liefde niets zonder de haat, en de haat is niets zonder de liefde. Gij dan die deze woorden geloof : Hebt moed, want gij zijt genaderd tot een helpend vuur. Gij dan zult tot de bruggen tot Izu komen, waarin Anubis u zal zaligen, oh geliefden van Anubis. Gij dan zult komen tot de wereldschepen. En deze dagen zullen groot heten. Ja, ook uw oude dagen zullen groot heten, en zij zullen scheef staan. En gij zult door Torhan komen tot Nut. Want alle wegen van Torhan zullen in haar eindigen, daar Torhan de brug is tot haar. Ja, als haar zwaard is hij. En op die dag zal Anubis Geb verslaan, en Hij zal Nut aan Aton geven. En dan zal Nut wenen om Geb voor veertig dagen, en zij zal zijn als een weduwe. En haar tranen zullen Geb tot leven wekken, en zij zal toestemming krijgen om eens in de vier dagen bij hem te zijn. De andere dag zal ze zijn bij Aton, en een dag bij Tifiaf, en een dag bij Bastet. Bastet zal dan eens in de vier dagen bij Nut zijn, ook zal zij een dag bij Aton zijn, een dag bij Tifiaf, en een dag bij Biskidde, die de brug tot Izu is. En Anubis zal hen allen doorklieven, opdat zij zijn stralen en licht dragen. En Anubis zal zijn tot een jaloerse

God en Mono, en zal het masker van Re dragen. Dit dan is als het masker van een eend. En zo zullen de doden tot Anubis komen, en zij zullen Anubis-Re aanbidden, als de heilige eend. En die eend is zwart.

En Anubis zal tot de doden komen, en hen leiden tot de hallen van Thoth, waar zij zullen zitten op rode fluwelen stoelen, en zij zullen zijn als de kijkers naar films. En zo zullen zij het zilver en het goud zien bewegen op het scherm. En dan zal Anubis komen om zich uit te storten over hen die Hem liefhebben, en zij die Anubis-Re volgen. En zij zullen verlicht raken als door een heldere donderslag. En zij zullen in bliksem leven. En zo is dan Anubis als de donder die de zonnen draagt, en zijn geliefden vult met bliksem tot overvloedens toe. Zij dan zullen komen tot het koude van Isis-Anubis, en zij zullen Isis kennen als de koude, en haar brug Zetdonia betreden, om tot haar te komen. En het koude van Isis zal hen tot leven wekken, en zij zullen tot de vuren van Anubis gaan. Strekt u dan uit tot het vierde, gij die in het derde leeft. En Anubis zal geheel uw Christus vervangen, en gij zult niet meer zeggen : Wij hebben niemand die ons helpt. Zo zult gij dan Anubis tot steun hebben, en tot troost, maar gij zult uzelf moeten redden.

Mijn vrienden kwamen naderbij, maar zij bevroren en werden tot Egyptische goden. In de Isis-kloof bevroren zij, als Geb en Nut werden zij en wij van elkaar weggenomen. Achter glas gingen zij, als konijnen, totdat Anubis het glas brak, en ons leidde tot de Rode Kap. In de Rode Kap werden wij allen weer één. Zij heeft een Roze Verbinding diep van binnen, in de Nut vinden wij een brug. Een brug, een weg, een omhelzing, een dobbelsteen voor een muur. Zij jagen ons achterna, maar door Anubis breken wij door een muur. De zwarte panter is gekomen, de zwarte hond, de wolf, de bokser, om door glas en muren heen te breken, tot achter de stadspoort. Op die dobbelsteen staan zij allen beschreven. Als steen zijn zij. Zij versteenden toen zij tot mij probeerden te komen, mijn vrienden. Tot Egyptische goden werden zij. De één is Khnum, de twee is Nut, de drie is Bastet, de vier is Neith, de vijf is Re, de zes is Anubis. Met de zes breken we er doorheen. Tot een dobbelsteen werden zij, als steen aan elkaar verbonden, ze zijn tenminste vrij van de kou van de Isis-kloof, want Anubis had het glas gebroken. Nu dan is er warmte, maar zij kunnen zich niet verroeren, totdat de dobbelsteen rolt, en de zes wordt aangeschoven. Dan gaan de deuren open.

In een dobbelsteen wonen wij, diep van binnen opgesloten. Verroeren kunnen wij ons niet, maar wij zijn de kou ontvlucht, de Isis-kloof verlaten. In Nut vonden wij een brug, door Anubis vrijgekomen. Tot de rode kap kwamen wij, het was al laat, waar wij een vlam kregen, komende uit het diepste ijs. Zij was deze weg ook gegaan.

Mijn vrienden versteenden om mij heen, tot een kap waren zij, tot een grote bescherming. Als een dobbelsteen waren zij, vallende van grote hoogte in de Nut-kloof. Zij dan was diep en lang, tot een brug was zij, waarover Anubis ons vrijzette, de dobbelsteen nu gebroken. De deur nu geopend, de muur door Anubis ingebroken. Zij dan die tot het nieuwe van het vierde zijn gekomen : Aanbidt Anubis, hij die het kaartenspel gemaakt heeft, de duivelskaart heeft ingezet. Hij dan die de christussen tot kaarten maakte, de jahwehs en de jehovah's, aanbidt hem. Hij dan die God en Mono is, met het masker van Re, het eendenmasker groet u. Zo zijn dan de vier wereldschepen Trideria, Adaka, Kmer en Biskidde de bruggen tot Izu. Zo zal dan de ere-dienst aan Anubis ingewikkeld heten, en zal zijn als een pad door het verkeer. En de wegen van Tifiaf zullen dan allen eindigen in de Anubis, daar waar het zwarte konijn de konijnen hoedt. Ja, als de konijnenhond is hij. En zo zullen dan de vier wereldschepen worden tot wegen, en zij zullen leiden tot Izu, en van Izu tot Brannan en van Brannan tot Tifiaf, en vervolgens van Tifiaf tot Anubis. En in de Anubis zullen wij allen onze wegen kwijtraken.

Zo dan : Lof zij aan Anubis. Wij dan die in het derde leven verlangen naar het vierde. Zonder Anubis is er dan geen vierde, Hij dan is koning over Tifiaf. Zo zal Hij dan ook Sekhmet onderwerpen aan de rode kap, en zij zal daar tot genezing komen. Ja, Anubis zal haar dragen tot de handen van Aton en haar daarin heiligen, en zij zal daarin zalig zijn. En zij zal zevenvoudig tot verlichting komen, en de indiaanse geslachten duizendvoudig zuiveren. En daaruit zal zij oprijzen van bevrijding tot bevrijding. Ziet, zij zal dan vrijgezet worden door het derde en het vierde. En alle zachte wegen zullen in haar eindigen, zij die het zachte is. Ja, ook de Johan zal in haar eindigen, daar de Johan de brug is tot haar. En ook Khnum zal tot Sekhmet komen, en hij zal zachter worden. Ja, op zijn rug zal Hij de vruchten dragen tot de aarde, en ook de eerstelingen van Geb, en Hij zal ze brengen tot Nut. Ja, de Johan, de bruggenboom zal Hij beklimmen, en Hij zal zijn armen uitstrekken als een die aan de hemelen staat. Zo zal hij dan Nut's hart verwarmen. En zo zal dan Sekhmet eens in de vier dagen bij Aton zijn, de andere dag bij Geb, en ook een dag bij Khnum, en een dag bij Anubis. En Anubis zal haar liefhebben en vrijzetten. Ja, als zijn ring zal zij zijn, en zij zal Hem haar zachtheid brengen en haar oogst. En Anubis zal ook Seth vrijzetten door het derde en het vierde, en tezamen zullen zij de aarbessen en de aardvruchten plukken. Ja, het eendenmasker zullen zij dragen, en zwemmen over hoge zeeën. Ja, gevleugeld zullen zij zijn.

Gij dan die tot Anubis gekomen zijt : vreest niet, want Hij brengt rust en overzicht aan hen die hem liefhebben. Maar zij die hem haten hebben alles van hem te vrezen. De ring van vuur dan heeft een ieder die in Sekhmet opgesloten was dan vrijgezet, en onder de hoede van Anubis gebracht. Zo zal dan Bastet uit de handen van Aton gehaald worden, en uit de handen van Re en Ptah. Anubis zal Re en Ptah onderwerpen, en zal Bastet heiligen. Zo zal dan Bastet een ring zijn aan zijn vinger, zeer geliefd, en net als Sekhmet, en zij zal de hoedster van Sekhmet zijn, en zij zal haar opnieuw opvoeden. En Anubis zal met zijn staf luid op de troon slaan, en op tronen, en de tronen, opdat het spreekwoord in vervulling gaat : En Anubis zal slaan, op tronen en de tronen. En hij dan zal hoedster worden over de slang. Nut is het dan die de slang heeft geschapen in haar borst. Weet gij dan niet dat elke borst door Nut is geschapen ? Zult gij dan de lange slangen niet vrijzetten ? Alle langheid eindigt dan in Nut, en zij vindt haar zachtheid in Bastet. Zo zal Bastet dan de huizen van Sekhmet zeventig maal plunderen, opdat zij het zachte zal dragen. En zo zal het spreekwoord in vervulling gaan : Het zachte dan behoort Bastet toe. Ook zal Bastet zeventig maal de huizen van Khnum plunderen en hem het zachte ontnemen. En ziet, Hij dan zal zeer hard worden. En hij zal een volk voortbrengen van harde mannen, en vreze zal komen over het volk. En ziet, Hij dan zal zijn volk opdragen tegen Bastet te strijden, en zij zal een schuilplaats hebben in Anubis.

Zo is dan Nut opgesloten in alle borsten, en zal zij door Bastet worden vrijgezet, zij die de meester der zachtheid is. Zo is er dan veel langheid nodig om het zachte te openen, opdat de kloven en hun scherptes gekooid worden. En zo dan heeft Anubis dan het verbond tussen Nut en Bastet voor eeuwig gezegend en hoog opgezet. Bastet dan zal de schuilplaats zijn van Nut, en zij zal een nieuwe borst scheppen. Ja, op gezette tijden zal zij het eendenmasker dragen. En vele vrouwen zullen hun borsten verliezen, daar zij tegen de Heere gezondigd hebben. En de Heere zal het lange vrijzetten, en Nut. En zo zullen dan ook alle wegen van het dunne in Nut eindigen. Zo is er dan ook veel dunheid nodig om het zachte op te roepen, en zo zullen dan de dunne wegen door Nut zich nestelen in de Bastet, en zij zullen haar opwekken. En zij zal over de aarde schuiven en zigzaggen. En zo zal Anubis tot Bastet komen, en zij zullen de Nut herscheppen. En ook zullen zij Khnum herscheppen en hij zal zijn als de bok en de ram des doods. En ziet, hij was als het zwarte en zijn ogen waren wit. En Khnum rees op en scheurde de hemelen open, en de goden werden door Anubis en Bastet herschapen. En ik zag vanuit de lever een dikke leverdarm opkomen, die de wetten van Anubis

beschreef en benadrukte in herhalingen. En het geheugen der aardbewoners werd gewist, en ziet, zij spraken in andere talen. En de leverdarm kwam dan op, en kronkelde om de ruggegraat en de ribben om de botten te voeden, en ook stuwde zij voort door de slokdarm, en nestelde zich in de longen. En ik zag het opkomen als de slang van Anubis, als de zwarte slang. En deze overname was groot. En de naam van deze slang dan was Robhold-Anubis, en ziet, zijn ogen waren geel. En hij was als de grafsteen. En hij dan was beschreven met de wetten van Anubis, en ging uit om recht neer te zetten. En als hij zijn mond opende kwam het gele vuur, en verscheen er donder en veel bliksem. Ziet dan, hij is uitgegaan om de aarde te hervormen. En hij is dan wel als een dag van vrede voor hen die Anubis liefhebben, maar voor hen die Anubis haten zal het een dag van grote verschrikking heten. En de Anubis-Robhold en Robhold zullen hen eten van binnenuit. Maar zij die Anubis volgen en Zijn geboden bewaren hebben niets te vrezen. En ziet, zij haalden diepe adem, en de adem begon hun lichamen te vernieuwen. Ja, zij werden gevuld met het kostbaarste zilver en goud, en zij kwamen tot de bergen der maan, om overgoten te worden met het licht van Anubis. Zo zal dan Robhold zijn als een kikker en een pad, en als een schildpadslang zal hij liggen in de overdekte zee achter de Johanboom. En ziet, hij zal de Ammut eten. En die dag zal groot heten. Zo is dan Robhold tot Anubis gekomen, en van hem uitgegaan, en heeft hij Anubis viervoudig gezegend. En zo zullen de nieuwe slokdarmen en ademhalingspijpen zijn als slangen of cobra's. En ziet, zij zullen nieuw leven schenken in het licht van Anubis. Ziet, deze dag is dan zeer groot, en zal komen. En Anubis zal blazen op zijn zware hoorn, en er zullen tekenen en geluiden aan de hemelen zijn, en er zal grote verschrikking komen over de vijand. En zij die hebben gezegd : Ziet, alles is vrede, laten we vrolijk zijn, zullen van de heilige berg vallen, en hun val zal groot zijn. Zo dan zal Robhold zijn als een kikkerkoning, en hij zal de groene zon tot Anubis brengen.

En Anubis dan zal de wateren aanraken, en ziet, zij dan zullen zijn als goud. Looft dan hem die zelfs bloed doet veranderen in goud. Zo zal dan Robhold de weg bereiden voor Anubis als zijn profeet.

Vele keren dan heeft Robhold Anubis de wetten en het wetboek laten herschrijven, daar hij de seizoenen kent. Vele malen is dan ook de Robhold tot hem gekomen om de stralen te doorklieven. Hebt dan goede moed, wanneer gij door de Robhold tot Anubis bent gekomen, want ziet, gij zijt op de juiste weg. Gij dan bent niet tot de surrogaat gekomen. Zo zijn er dan op asfalt hete plekken. Alleen door het zachte zal het vuur gereinigd worden, en dit is alleen mogelijk door het dunne en het lange. Weet gij dan niet, oh kinderen der nieuwe tijd, wat voor darmen er in u geschapen gaan worden ? Dezen dan zijn dun en lang. En velen van hen zullen zorgen voor de nieuwe ademhalingen en de nieuwe bewegingen die daardoor tot stand komen en worden gevormd. Ja, als het afdalen in een koele vijver in een huis zal het zijn. Zo zal dan Bastet ook de vuren dragen, en zij zal hen brengen tot Anubis. Want alleen Bastet is dan waardig het vuur door te zuiveren tot aan het duizendste geslacht toe. En zij is het die de straten zal herbouwen. En Anubis zal haar noemen : Mijn geliefde. Zo is dan Anubis door listen tot de tegels gekomen, en is gaan staan op de zwarte tegel. Prijst dan hem die door zijn listen u tot de schuilplaats heeft weten te krijgen. Zij dan die vijandig zijn : Weet dan dat Anubis uw schuilplaatsen zal vinden. Niets is er dan voor zijn oog verborgen. Zo is het dan Nut die in zijn pupil kronkelt, en zijn licht heeft geschapen. Ja, zevenvoudig is zij dan de schepper des lichts, en Bastet heeft haar gezegend. Zo zal zij dan al het licht in Anubis herscheppen. Zo zal er dan regen komen uit Zijn boom om de aarde te wassen.

Zij dan die het eendenmasker draagt is tot Anubis gekomen. Zij dan troont over het ganse universum, zij die Bastet heet. Ja, op gezette tijden draagt zij het masker. Zij dan kent de seizoenen van haar troon. Zij dan heeft daar de lichten van Nut gevormd. Vanuit een mand heeft zij ganzen en

zwanen laten oprijzen, en ziet, zij dan vliegen door de mond van Tefnut, wanneer zij spreekt. Zij dan komen tot het land der vrijheid en tot vrijheid. Zo is dan de mond van Tefnut tot een verblindend licht, opdat er geoordeeld wordt zonder aansziens des persoons. Haar lichten dan zullen door Nut en Bastet het lichaam herscheppen. Zo zal er dan in rechtvaardigheid en communisme geschapen worden. En elke Egyptische god zal hierin zijn plaats weten. Alle goden zijn zo in de derde alverzoening opgevangen, en hebben hierin hun schuilplaats en zuivering. Ziet dan, zij zijn allen op godentocht naar de vierde alverzoening, en dit is een groot geheimenis.

En zo zal er dan in en door Nut een totaal nieuwe wereld geschapen worden met nieuwe wetten. Zij dan zal de Anubis dragen, en in Hem een schuilplaats hebben, als de schuilplaats der Allerhoogste. En zo zullen dan alle monotheïsmes van Nut tot elkaar komen en in elkaar versmelten, en de deuren tot andere goden zullen opengaan. Ja, een nieuw wetboek en een nieuw rechtsboek zal geschapen worden, als in een zak van zwarte lijm. En dan zal de Anubis spreken, en zijn slang zal opgaan. Met luide stem zal hij spreken, en het zware zal een nieuwe toon brengen. En het hoge van Nut zal een nieuwe hoge toon van Anubis brengen, en deze toon zal de aarde vernieuwen. Ja, de lichten van Venus zullen tot de aarde glijden, en zich in het diepste der aarde nestelen, om haar magnetisme te draaien en te veranderen. Deze ingreep zal groot zijn. En Venus zal haar Anubissen tot aarde zenden, en zij zullen de Tefnutten en de Tefnut laten spreken. Ook zal Venus haar Nutten zenden en haar Bastetten, en zij zullen ruimere communismen zenden en grote cirkels. Zo zal dan de aarde tot een nieuwe zachtheid komen, en zal er een nieuwe Geb opstijgen om het vocht te laten cirkuleren. Ja, de lichten zullen uit het water rijzen, en Bastet zal de aarde afdekken. Zo zal dan Bastet de aarde bevochtigen, en Geb duizendmaal zuiveren. En ziet, zij zal dan de lichten der aarde aandoen, en zij is het die spreekt. Zo zullen dan alle wegen van Tifiaf in de Anubis eindigen, en hij zal zijn trein tot de aarde zenden, ondergronds. En Anubis zal de vruchten der aarde proeven. Ziet dan, hij is het die oordeelt.

2.

En zo kwam Tefnut tot mij, met haar stem als rinkelende parels. Zij goot drank vanuit het emerald en de canopenstenen, en melk van de scarabeestenen, en ik kwam tot verzachting. Ja, zij joeg de dorst voor mij weg, en leidde mij tot de oase der woestijnen, en deze oase was groot. En ik vroeg mij af waar al die hitte vandaan kwam, en zij zeiden tot mij : ach, je bent dronken. Anderen zeiden : hij is verliefd, en weer anderen zeiden : hij is gek, terwijl sommigen mij benijden. En zo raakte Tefnut mij aan, en bracht mij tot de bruine vlam. Ja, over de brug Narzia kwam ik tot haar, en zij verslond Ingridtel, de zeekattenboom. En ik vroeg haar genade te hebben met Bastet, mijn geliefde, maar zij verslond haar. En zo keek ik in de ogen van een monster, en zij probeerde mij te benauwen, maar ook stelde zij mij gerust. En de zielen van Bastet vochten voor vijftig dagen tegen haar, maar zij behaalden geen overwinning, daar Tefnut te sterk was. Ja, heet was zij, als heter dan het heetste van Narzia. En Narzia, haar zwaard begon tot de aarde te komen, om velen te verslinden, en zij maakte velen tot haar slaaf. En toen ik probeerde te vluchten bracht ze de tralies van de sfinx en van nut om mij heen, en zij begonnen te draaien, en ik was voor enkele dagen ziek. En zij goot thee over mij, en bracht mij tot het boshuisje. Hier liet zij mij afdalen in de grotten des doods, en de grotten der beenderen, en ook tot de grotten van het oer. En zij bekleedde mij met edelstenen, en sprak in raadselen tot mij, voor een lange tijd.

En toen kwam Geb tot haar om mij uit haar handen op te eisen, maar zij liep van hem weg. Toen liet zij Geb door haar honden verscheuren. Naderhand kwamen de zielen van Geb tegen haar, maar zij verscheurde hen, en liep weer weg. Na enkele dagen kwam Ra tot haar woning om mij op te eisen

uit haar hand, maar ze bespuugde hem en lachte hem uit. En zo was er een godenoorlog van veertig maanden en enkele weken, maar geen van hen kon tegen haar op. Na de godenoorlog kwam Anubis, de zwarte hond tot haar, en zij gaf hem een deel van mij. Maar Anubis nam geen genoegen, en begon tegen haar te schreeuwen, en zij raakte aan één oor doof. Toen begon Anubis te lachen en sneed met zijn mes een ander deel van mij weg. Maar toen liet Tefnut kokende olie met kokende parfum over hem gieten, en hij liep jankend weg. En zo had Anubis twee delen van mij, maar zij had vierhonderdvierenveertig delen van mij. Na enkele jaren kwam Anubis weer tot haar, en ditmaal kwam hij in vermomming. En zij verkocht aan hem nogmaals twee delen, maar de rest hield ze zelf. Toen ze er later achterkwam dat het Anubis was die haar had bedrogen, zond ze vierduizend manschappen tot hem, die hem onthoofden. Toen kwamen de zielen van Anubis tot haar, maar zij liet hen verscheuren. Maar toen kwam het canopenbot van Anubis in opstand, en zo was er een tweede godenoorlog tegen Tefnut. Het canopenbot van Anubis wekte het scarabeenbot van Anubis op, en de goden Ptah en Nut, en zij versloegen haar, en verdeelden mijn delen onder de goden. Maar Tefnut strompelde tot Shu, haar echtgenoot en tweelingbroer, en tezamen lieten zij alle wateren branden. Zij hief de Bastet als haar zwaard omhoog, en vuurballen kwamen voort uit het zwaard, en vielen op de aarde en de godenwerelden en hemelen. Toen pakte zij het paradijs en zette Bastet daar neer om de hof te bewaken. En Bastet vatte liefde voor haar, en vocht mee aan haar kant. En zij baarde een dochter genaamd Lilith-Bastet. Ook baarde zij een dochter genaamd Desai-Bastet. En aan Desai-Bastet gaf zij de Metensia tot zwaard. Aan Lilith-Bastet gaf zij de Mura tot zwaard. En in honderdtachtig dagen hervormde Shu de hof. Toen greep Tefnut Anubis en zette hem in de hof, maar deze veranderde in een zwarte slang, en begon het paradijs te verslinden, en hij kwam tot grote verzadiging. Toen was er een derde godenoorlog, en Tefnut maakte Anubis tot haar slaaf, terwijl de goden niets konden doen. En zo had Tefnut een grote overwinning op de godenberg. En na tijden werd Anubis tot een zoon van haar, en zij gaf hem de helft van haar lagere koninkrijk. En in dit koninkrijk had Anubis grote macht, maar hij was niet tevreden, en reikte tot de zomen van haar kleeid. En Anubis bracht het tot grote overwinningen, en toen hij in haar ogen de volwassenheid had bereikt maakte zij hem tot haar man, tot groot ongenoegen van haar echtgenoot Shu, die een vloek over hem uitsprak dat hij zou sterven. En hij zond de herdershond Vodus tot hem, om hem dood te bijten. Maar de herdershond vatte liefde voor Anubis en spaarde hem. Na enige tijd begon Tefnut bang te worden voor de groeiende macht van Anubis, en zij vluchtte. Shu echter ontfermde zich over Anubis, en werd als een vader voor hem. Anubis was ontdaan over het feit dat Tefnut hem had verlaten, maar voelde zich ook bevrijd. Bastet ontfermde zich over Anubis, haar zoon. Tefnut smeedde in het geheim een plan om Anubis om te brengen, maar Bastet hield haar tegen.

In de vierde godenoorlog vond Anubis haar schuilplaats en verslond haar. En al haar zielen werden in de Isis-kloof geworpen. Zo werden dan de Oost-Aziatische landen veelvuldig gezuiverd.

Tefnut

1.

In Tefnut dan hebben duizend tongen een naam, en zij zijn van het hete deel des heeren. Zo is dan een ieder die in haar is, meester over de beer. In Tefnut dan springt gij over bergen, en hebt gij de gouden reuzen onder u. Anubis heeft dan vele malen haar stralen doorkliefd, opdat zij zijn lichten en vuren draagt. Zij dan heeft vuurreuzen in haar macht, en Narzia tot zwaard en de Bastet. Ja, een dubbel zwaard is het, gemaakt om reuzen en vuren te vellen. Ziet dan, zij draagt het hete Gods van

plaats tot plaats. Als het vuur opspringt beweegt zij. Raadselen draagt zij in haar hand, en zij maakt van orde chaos. Tot Shu vliegt zij, en verspreidt zijn lichten. Van chaos maakt zij orde. In Tefnut hebben duizenden tongen een naam, tot Brannan rijst haar faam. Delirium brengt zij tot hen die haar liefhebben. Zij heft hen op boven de problemen van het alledaagse leven. Ja, zij komen tot verlichting, en zij maakt hen gelukkig. Izu bracht zij voort als een geschenk voor de volkeren. Tot volle wasdom zal hij komen. Zij omhult de monden van haar volgelingen met lichten.

Zij laat de Sebek rijzen tot de uithoeken der lucht, vanwaar hij zijn zachte lichten verspreidt. Zij verspreidt hem als dromen tot hen die haar liefhebben. Niemaals zal zij hen beschamen of teleurstellen, zij die op haar vertrouwen.

2.

De steen, de doorn en het sap

In Tefnut hebben wij volmaakte liefde, slaaplieden en nachtlieden om de poorten te openen. De nachtspeelers wekt zij op, en zij komen tot het zwarte gat. Zij leert hen harp en viool te spelen, en te duiken in de nacht. Grote glorie trekt zij voort, en zij laat niet weinigen achter. In Tefnut hebben wij volmaakte liefde, door nederigheid voortgetrokken. In stilte is haar vertrouwen, en zij leidt haar geliefden van stilte tot stilte. In Tefnut hebben wij volmaakte liefde, door pijn verkregen, door moed om door te gaan, om de doorn te laten indalen. Doornen hebben wij gegeten. Schorpioenen zijn in ons binnengekomen. De stenen van Tefnut kennen wij, waaruit zij haar sappen schenkt. Haar stenen en doornen kennen wij, de steen, de doorn, en het sap wat erdoor stroomt. Haar geheimen kennen wij, die zij ons door Bastet heeft gebracht. Ja, niemand zal ons de Anubis ontnemen. Zij heeft hem verzegeld. Wij hebben haar slaaplieden gespeeld, wij hebben schaamte en schuld gedragen om haar wil. Door betoveringen bracht ze ons tot leven in de nacht. Zij maakte van onze pijnen een schip, van onze angsten een zeil. Zij maakte van onze schaamtes een roer, van onze schulden een zee.

3.

Zij die Bastet tot ons bracht, aan haar is de glorie. Teleurstellen zal ze ons niet, zij leidt ons met vaste pas, tot de oasen in de woestijn. Ja, Anubis heeft zij tot ons gekomen. Onder een rode kap kwam hij. Wij hebben onze pijnen niet herkend. Haar engelen waren zij. Nu zijn wij verlicht, zij raakte onze ogen aan, en schonk ons de vuurbollen van Shu, tot het spelen van eeuwige liederen. Ja, Anubis is tot ons gekomen, heeft ons gegrepen, en heeft ons tot het bos gebracht, onder de rode kap. Onder de rode kap kwam hij, maar wij hebben hem niet herkend. Wij dachten dat wij geplaagd werden. Zo is er dan niets te vrezen onder Tefnut. Zij dan die de raadselen brengt, en hen oplost in het diepste der nacht. Tot vele geheimen zult gij gaan, en water en vuur zal niet over u heengaan. Gij dan zult drinken en verzadigd worden, daar Tefnut voor u zorgt.

Zo heeft zij dan Nut uitgezonden, en haar uitgestrekt, opdat u haar zoudt vinden.

II Tefnut

1.

Zij dan kent de tijden der vlammen en de tijden der stenen. Zij weet wanneer zij opstijgen en wanneer zij slapen. Zij weet wanneer zij hun verbindingen hebben, en wanneer zij indalen. Ook kent zij de tijden der doornen, als een machtig hemels kunstwerk, om Geb te doen ontwaken, en om

hen allen te brengen tot de oerwateren, tot Nun. Zij kent dan het huis van Hauhet temidden tussen de wespen. Vele bloemen dragen haar naam, en zij geeft de slangen hun strepen en schubben. Zij zal helpen banden te verbreken. Zo is zij ook gekomen tot de huizen van Amaunet en Naunet, waar zij haar lichten bracht. Genezing dan is in haar handen, en de rode braam. Zij dan brengt dronkenschap en delirium tot hen die haar volgen, en zij leidt hen door de bossen heen tot de oasen. Zij dan die eeuwig dorst hebben geleden vinden troost bij haar, en hebben niets te vrezen onder haar hoede en kap. Zo heeft zij dan Kuk onderworpen. Zo heeft zij dan Geb tot het bos gebracht, en Horus weggedrukt tot in de hoogste hemelen. Zo is dan de leiding en omhelzing van Horus diep, daar Tefnut hem heeft aangesteld. Zalig zijn zij die zijn hand voelen. Zalig zijn zij die over hem dromen.

En zo trekt Shu haar dan elke dag tegen de avond op, en vormen zij de nachtelijke sterrenhemel. Ja, in haar zullen de sterren u niet overvallen, daar zij hen allen onderdompelt in Geb en Nun. Niets is het dan dat haar tegenhoudt, en niemand houdt stand voor haar naam. Als de walvissen in hun kracht is zij.

2.

Zij dan bouwt steden door de Horus, en schept liefde en zorg door Geb. Ja, haar dauw komt samen met de sneeuw, en Anubis is geheel vrij in haar huizen. Ja, zij houdt rigil kent in haar hand, en de huizen der zeeën. Zij weet wanneer zij tezamen komen. Zij schenkt haar sappen vanuit Rosmalen, de moeder-constellatie van Rigil Kent, en heeft Orion onderworpen. Ja, door haar heeft Marion Okil neergehaald, de godenburcht van Orion. Zij dan die Orion volgen hebben geen plaats bij haar. En zo zal zij Orion duizendvoudig en daarna miljoenvoudig zuiveren tot veertig miljard toe, en tot de getallen der sterren. Ja, een groot werk is zij in Orion begonnen. Een nieuwe taal zij creëren door Ptah, en zij zal de tanden van Anubis dragen. Ja, alleen zij is het die de Delfio kan zuiveren. Zij is een moederwerk begonnen. Wie kan haar stoppen? In raadselen spreekt zij, met vermommingen komt zij. Niets kan haar stoppen, want Anubis heeft haar zijn zegen gegeven. Ja, met de Aakse en door de Dan Roland heeft zij Orion en Karsa verslagen, en de hondenmachine in bezit genomen. Ja, zij is het, die Anubis heeft vrijgezet. Ook heeft zij de Wepwawet uit de handen van Karsa weggenomen, en zijn bolwerk opgeblazen. Zijn letters roofde zij, en zette hen vrij. In Egypte zal verlossing zijn, over Izu, Brannan en Tifiaf.

III Tefnut

1.

Zo heeft zij dan de Geb meegenomen uit Okil, want zij kende al hun verborgen plaatsen. Ook de Bastet nam zij mee. Zo moet dan alles wijken voor haar verstand en haar liefde. Ja, ook Dan Roland moest zich aan haar onderwerpen, en toegeven. Maar als zijn kracht is weggenomen zal hij komen tot de aarde in een laatste opleving, totdat de gouden zwaan hem opvolgt. En zij zullen Tefnut tot moeder hebben, en zij zullen schreeuwen, maar zij zal geen voedsel geven. Te drinken zullen ze hebben, elf maanden lang, en dan zal hun einde gekomen zijn. Dan zullen de schreeuwen en de gillen van Tefnut de hemelpoorten bereiken, en zal zij staan in het paradijs, terwijl haar sappen omhoog klimmen. Tefnut dan zal spuwen en overgeven, en de aarde zal in chaos zijn, omdat nieuw geboomte moet opkomen, en dit zal zijn geboomte van dronkenschap tot verlichting en delirium. En niemand zal zijn broeder nog achterna zitten, en er zal liefde zijn onder de volken, en onder de wet van Anubis. Zo zal dan Tefnut de wetten van Anubis voor vijftig dagen achtervolgen om hen te

zuiveren, en dan zullen zij als goud opgedient worden. En zij zullen allen de stemmen zien als goden.

2.

En zij die de wetten van Anubis onderhouden na de zuiveringen van Tefnut, zullen geheimen zien die verzegeld waren en door geen oog gezien konden worden. En gij zult zien dat zij van wijsheid hebben gesproken, en gij zult bij machte zijn te begrijpen en te rusten. En zo is dan Tefnut zij die verbindt en scheidt, en zij is het die zaad werpt in de kloof van Isis. Hoe goed is het dan om in de huizen van Tefnut te wonen, waar zusters tezamen zijn en in vrede leven. Zo stijgt dan het verbond van Tefnut boven de familie uit, en brengt zij groter geluk. En onder de schaal van Tefnut kunnen vele dingen besproken worden, en ook vele dingen kunnen onbesproken blijven. En zij die haar krachtig blijven navolgen vol aanhoudendheid en volharding zullen tot het huis van Tefnut en Shu komen, en zij zullen voor gek verklaard worden. Maar door ook vol te houden in het huis van Tefnut en Shu, en Shu te geven van de oogst, zullen ze tot de zolder van dit huis komen, van Tefnut en Shu, en zij zullen hun sfinx en Bastet vinden, en hun letteren, en zij zullen in nieuwe talen spreken. En zij zullen de verborgen Shu ontdekken en er zal een gevecht zijn van vijf dagen. En zij zullen stoppen met het proberen te overtuigen van Anubis, en zij zullen staren naar de bollen aan het plafond, die zijn als zaden. En het oog van Shu zal tot hen spreken, en zij zullen komen tot grote verlichting.

3.

En Anubis zal wonen in het huis van Tefnut en Shu, en zal vandaaruit regeren. En Anubis zal de zin van het prediken niet inzien, en zal stil regeren. En zij van het oer zullen binnengelaten worden door Anubis in het huis van Shu en Tefnut, en hun vlaggen zullen daar wapperen. En zij zullen zeggen : 'wij zijn door Anubis goed onthaald. Zalig is hij. En Anubis zal zijn onzekerheid verliezen, en koning zijn over de dood, en ja, ook over de slaap en de droom. Zo zal hij dan door Tefnut slapen en dromen, en in haar zal hij zijn zwaard hebben. En dit zwaard zal niet verslappen als dan Whemmer de piraat voor hem staat als de dood. Maar het zwaard zal canopenstenen en scarabeestenen hebben, en zo zal hij doorgang vinden op zijn reis, en nieuwe bedden vinden van het oer. En zij zullen voor hem klaarstaan en hem omhelzen, en hij zal verlichting vinden, en zijn onzekerheid zal verdwijnen. Ja, hij zal de raadselen begrijpen, en hij zal koning zijn voor eeuwig. En in Tefnut zal hij gaan van ster tot ster, en dezen zullen hem niet meer bijten. Wel zullen zij hem tegenhouden en in gevangenschap houden, als de pijn van het zachte, maar de doorn zal verteerd zijn. En zo zal Anubis komen tot het zachte van Tefnut, en hij zal zijn als in een tijd van duizelingen.

4.

En Anubis zal zijn tot een vleugel en een zwarte zak op de toren van het huis van Tefnut en Shu, en daarin zal een vleeswording zijn en een botwording, en gij zult eeuwig materiaal vinden, als een zuiver eeuwig materialisme. En door Tefnut zult gij tot ontwaking komen, en zij zal u schelpen voorhouden, als de stenen der zee. En een gouden verlichting zal u over de zee brengen, tot het huis van Amaunet, waar het schaakspel staat. Zij dan leidt hen van Anubis onder de rode kap. En Nut zal zeventig dagen tot haar schreeuwen om haar te zuiveren, en zij zal troost vinden bij Wadjet. En op nat rood fluweel zult gij lopen en op natte rode tapijten, en gij zult komen tot haar verborgen Shu. Zo zijn er dan velen die een verborgen Shu hebben, en gij die de heere dient zal die allen vinden. Zo zult gij dan het land zuiveren, en gij zult bekleed worden met canopenbotten. Ook zal de gouden verlichting u leiden tot het huis van Sekhmet en gij zult haar verborgen Shu ontdekken.

5.

En als de zilveren verlichting tot u komt, dan zult gij gaan tot het huis van Wepwawet, en tot het huis van Re, en gij zult daar de verborgen sfinxen vinden. Ook zult gij daar wederom een verborgen Shu vinden. Dan zal de zilveren verlichting u brengen tot het huis der eekhoornen, en tot het huis van Bastet, waar gij wederom een verborgen Shu zult vinden. Ook zult gij de verborgen Nut vinden tussen vele boeken, en in Tefnut zult gij geen problemen hebben met Mars. Door de liften van Shu zult gij omhoog geleid worden, en gij zult door lichten vermomd worden. En het huis van Wepwawet zal flonkeren, en gij zult door Tefnut Virgo veertig maal veertig maal zuiveren, en gij zult de heldere rivieren zien. En Wepwawet zal u zegenen.

En in de chocolade van Tefnut zal dan alles hervormd worden en gezuiverd, en de doorn zal geheel verdwenen zijn. En gij zult bemerken dat alles slechts een machine was, en nu is deze opgestart. Zo zult gij dan zijn in de fabriek van Tefnut, en gij zult de fabriek van Thoth kennen.

6.

En Tefnut zal u haar testament schenken, en het woord van Anubis zal groot worden in uw leven. En zij zal u brengen tot de grote zee en tot de hoge bomen. En zij zal uw Sebek tot leven brengen. Ja, vlammen uit uw vlammen zullen doorbreken, en tegen glas aantikken, en gij zult uw Sekhmet zien, door Ptah gebracht. En de adem der buik zal heet zijn, wanneer gij het bot der lever zult aanschouwen. En op dit bot zal een tepel verschijnen, daar waar de doorn was, en deze tepel zal zuiver zijn, en chocola schenken als melk. Wit zal deze chocola zijn, en zij zal tot genezing der zielen zijn. En deze tepel zal heten : zuivere tepel der lever, bringer van zuivere melk, en tepel der ademhaling. En gij zult diep ademen. En gij zult Tefnut kennen als zij die sappen uit botten schenkt, en gij zult al haar botten kennen. En gij zult haar kennen als zuivere adem en mist.

7.

En gij zult het geheim der katten kennen, en gij zult verrukt zijn. En gij zult uw Bastet tot leven leren te wekken en te doen ontwaken. Zo zullen dan de oranje vlammen haar boomdelen laten vleesworden tot dieren, en de witte vlammen zullen de elementen in haar brengen. Zo zullen dan de bruine vlammen het overvloedige tot voorwerpen maken, en de grijze vlammen zullen haar botanisch maken. De zilveren vlammen zullen haar een geweten geven, en de gouden vlammen zullen haar verbintenissen schenken. Zo zullen dan de groene vlammen haar een geheugen geven, en de zwarte vlammen zullen de restanten van haar boomdelen tot hybriden maken. De roze vlammen dan zullen de overvloedige elementen in haar tot leven brengen, tot hybriden, en de paarse vlammen zullen haar overvloedige voorwerpen tot hybriden maken. De blauwe vlammen zullen haar emoties schenken. Daarna zal zij geworpen worden in de Isis-kloof, zodat zij zal oprijzen.

En zo zult gij ook Khnum en Nut tot leven wekken, en de sfinx. En hun stenen en botten zullen tepelen hebben, en zij zullen bedekt zijn met chocolade. En zo zult gij moeten leren de vlammen te bezweren, opdat zij u niet zullen vernietigen. En gij zult de stenen moeten leren kennen : het emerald, het topaas, de citriene, het diamant, de paarden, het chrysal, en al de anderen. En ook zult gij de Anubis tot leven wekken, en de Shu.

IV Tefnut

1.

En gij zult de betekenissen leren van de rode vlammen en de gele vlammen, en zo ook van de koperen vlammen. Komt dan tot de vlammenring, die de ring van Anubis is, door Tefnut geschonken. Ja, zij heeft hem koning gemaakt. En door de ring zult gij opstijgen met arendsvleugelen en komen tot de velden van Bastet. En gij zult haar bellen kennen. En het zal ringen in uw oren op die dag, en het zal u brengen tot de verborgen graven.

En op de velden van Bastet zult gij leven vinden, wanneer gij haar hebt doen ontwaken. Zij zal u naar zich toezuigen, en haar arenden zenden om u geheime boodschappen te verkondigen. Deze boodschappen komen subtiel en als raadselen, en zij zijn uitgespreid over tijden. Ja, tijden brengt zij om grote boodschappen te verkondigen. En zij zal Shu tot u zenden om u voor te bereiden. En gij zult verlangen naar de vlucht tot haar velden, maar gij zult haar niet begrijpen.

2.

En er zullen dagen zijn dat gij ernstig vertoornd op haar zal zijn, omdat gij haar niet begrijpt. Maar in haar velden, daar in de dieptes zult gij antwoord vinden over uitgestrekte tijden, als arendsvleugelen uitgespreid. En zij zal u leiden tot haar putten, en gij zult het licht zien. En gij zult u voor uzelf niet meer schamen, daar gij inziet dat gij ook boodschappen verspreidt. En zo zult gij zien dat gij door haar gezonden bent, en dat gij tot haar zal terugkeren.

En gij zult de tepel vinden op de diamant, en gij zult nieuwe melk drinken van het oer, en dat zal zijn als de melk van Bastet. En gij zult ver in de diepte kunnen kijken en door dingen heenprikken. En gij zult prikken met uw ogen als prikkers. En gij zult de tepelen vinden op het emerald, en gij zult tot de rauwe melk des doods komen, en leven. En als gij tot de tepelen der kristallen komt, zal dat zijn als het opspringen der vlammen, en uw ring zal draaien.

3.

En zo zult gij ook tot de velden van Tefnut komen, tot de tepelen van het goud en de zilver, en gij zult u kunnen bewegen. En gij zult naderen tot de chocolade-boom, en diepe genezing vinden. En de chocolade zal door uw lichaam stromen, wanneer bloed goud wordt, en de dagen van het bloed zullen over zijn. En door de rode vlammen zult gij weer dromen, en ook Khnum en Bastet zullen door de rode vlammen dromen en in dromen ontwaken. En door de gele vlammen zult gij tot delirium komen en tot dronkenschap en de geneugtes van het bestaan in Tefnut. En gij zult voorzichtig zijn met de gele vlammen. Door het verkeer zult gij gaan, tot de zee zult gij komen. Zo zult gij spaarzaam om gaan met de gele vlammen, opdat zij u niet verslinden. Strekt u dan uit naar het hogere. Kom dan tot de velden van Tefnut, en leert om te gaan met de gele vlammen, opdat zij uw land niet verbranden. Tem dan de gele vlammen en leer hen temmen. En de velden van Tefnut dan zijn als delirium en als de wildernissen van wespen, en zo ook als de velden van Nut. En hier zult gij ook de geheimenissen der spinnen vinden. Tot Brannan zijt gij genaderd, tot de koningen en prinses op hun tronen. En de beenderen en lichaamsdelen zullen tot leven komen, en tot persoonlijkheid, zoals de Sebek. Dit dan zal een grote dag zijn.

4.

Gij dan zult Tefnut moeten leren bezweren, want zij is als een wild beest en een verzengend vuur. Kom dan tot het vierde. Gij moet haar leren bedwingen, en berijden, anders zal zij u verslinden en tot as verzengen. Onderwerp haar dan aan Nut, aan Khnum, aan Anubis en aan Bastet. Onderwerp haar daarna aan Sekhmet en Ptah, en vervolgens aan Sebek. Zij dan zal u uitleiden uit de Geb en u tot de velden van Nut en Bastet brengen, waar Anubis u zal hoeden. Ja, het overgrote deel van de

dag zult gij in de velden van Anubis zijn, en zijn staf is u tot vertroosting. Zo zult gij dan de letteren van Ptah leren om haar te bedwingen, en de wetten van Anubis. En gij zult haar gebieden in de Isis-kloof. En gij zult haar bezweren met deze woorden, zeggende : Talibiha Khun Mihab Bihalel Etmiga Misschin Kirt Hirhenk Dulamas, Dumamas Okohomel Irgwint Icht Ikles Miga Mag Mogt. Dan zult gij u richten tot Bastet en u aan haar vasthouden opdat Tefnut u niet verbrande. En gij zult spreken tot Bastet : Oh koningin der koninginnen die troont in Bubastis, gij hebt ons uw velden getoond waarin wij veilig zijn tegen de toorn en het vuur van Tefnut. Neem ons in, en bescherm ons. Leidt ons tot uw huizen, en haal ons weg uit de huizen van Tefnut. Gij dan hebt eeuwige wijsheid en raad. Neem ons aan. Bibahas Miset.

En dan zult gij nogmaals spreken tot Bastet : Gij bent de koningin der luchten en der velden. Hef ons op, en breng ons tot uw heilige en zalige vruchtbaarheid. Buiten u is geen leven. Hidasda Himel Hok Lok Kubahus Etmir Bihel. Bezweer dan Tefnut voor ons, opdat zij ons niet overvalle. Als een onstuimige vulkaan is zij. En gij zult tot Isis zeggen, koningin van het ijs : Breng ons tot uw velden, hef ons omhoog, en toon ons uw stenen. Schenk ons uw heilige botten, en bescherm onze harten en levers tegen Tefnut met uw canopen. Wij dan drinken van uw sap, en niet van Tefnut. Hikus Irma Himst Hinel Hingel Etmal Dimes Heksch.

En vervolgens zult gij zeven dagen tot Anubis komen, opdat hij u vrijkope uit de handen van Tefnut.

5.

Anubis, schepper van alle dingen. Wij komen tot u, als wij op de hielen gezeten worden door Tefnut. Stel Nut aan als onze beschermster, en ga voor ons staan. Leg uw hand op onze mond, en laat ons wegvlugten in stilte. Zuiver dan Tefnut in uw vat, en geef haar het goddelijk voedsel. Verzadig haar door uw hand, en schenk haar vruchtbaarheid. En zo zult gij de ring der vlammen werpen in de Isis-kloof. En dan zult gij gaan tot Fenrir-Anubis, Jotunheim-Anubis, Thor-Anubis, Wodan-Anubis en Odin-Anubis, om doorgang te vragen tot het duistere ijs. En zij van het duistere ijs zullen u vrijzetten, en gij zult weten wat de dood is. Ja, wanneer wij door Tefnut op de hielen worden gezeten, dan vluchten wij naar het boshuisje. Want zij heeft Portugal in haar handen, en Spanje, en ook Zuid-Amerika. En dezen zullen in Brannan gezuiverd worden. Tot de goden der muizen snellen wij, en tot de goden der konijnen. Tot de goden der insecten vluchten wij, en tot de goden der bomen. Ja, tot de goden der voorwerpen snellen wij, en tot de goden der elementen. Tot de goden der vruchten snellen wij, en tot de goden der lichaamsdelen. Ja, tot de goden der lever vluchten wij, en de goden der leverbeenderen en hun tepelen. Tot stenen richten wij ons voor een woord. Tot de goden der nacht komen wij, en tot de goden der klok.

En wanneer de Tefnut u dan achtervolge, dan zult gij vluchten tot het vierde christendom en de vierde christus. Ook zult gij dan uw toevlucht zoeken tot het vierde kruis en de vierde herman. Maar gij zult zien dat zij alles verbrandt, en gij zult wanhopen. Dan zult gij komen tot de vierde Renok en de vierde Metensia, en ook zult gij gaan tot de vierde Heilige Geest en de vierde Jahweh, maar zij kunnen niets voor u doen. En gij zult komen tot de vierde Zurastael en de vierde Eminius, en ook zult gij komen tot de vierde Esmeralda en de vierde Ra. Zo zal dan de vierde Anubis u een kleine schuilplaats verschaffen, maar Tefnut zal deze vinden en verwoesten. En gij zult vragen : 'Waar moet ik naar toe ?' En gij zult geen antwoord hebben. Dan zult gij gaan tot de vierde Mozes en de vierde Maser, en ziet, hun handen branden, en gij zult zeggen : 'Hier is overal vuur, want Tefnut is hier geweest.' Dan zult gij tot de tweede Tefnut gaan, tot de derde Tefnut en tot de vierde, en gij zult ook tot de vierde Izu gaan en de vierde Brannan, maar niets zal u kunnen helpen, en gij zult dieper

wegzinken. Ook zult gij roepen tot de vierde Bastet, en zij zal u een lichte steun zenden. Dan zult gij gaan tot de vierde Boeddha, en de vierde Amithaba, en ook zult gij tot de vierde Ganesha gaan, en tot de vierde Shiva, en zij zullen u lichte troost bieden. Gij zult u onderwerpen aan de vierde Rumah en de vierde Romarei en zij zullen u de weg wijzen. En tot de vierde Dezer zullen zij u brengen, de vierde Christus van het Oer, en zij zullen u brengen en dragen tot de vierde Jozef en de vierde Jezel, opdat gij kunt komen tot de vierde Peter. En gij zult in paniek raken, omdat gij merkt dat het u niet verder helpt. En in wanhoop begint gij te roepen tot God, maar de hemel zal gesloten blijven, ook wanneer gij zult roepen tot het vierde communisme en het vierde atheïsme zult gij geen vrede vinden in uw hart. Al wat gij ervaart is strijd en oordeel, en zoveel vooroordeel. Zo zult gij u richten op de vierde alverzoening, om rust en vrede te vinden, en het zal u genade schenken, en het zal zijn is binnengaan in een gouden stad. En het zal zijn alsof u een gouden sleutel hebt gevonden. Maar Tefnut zal om deze sleutel strijden, en gij zult u bevinden in een worsteling. En gij zult vluchten tot de vierde Tifiaf en tot de wereldschepen. En gij zult Egypte zien als in vuur, en zelfs het vierde Egypte. Ook zult gij de vierde Nut zien branden en de vierde Khnum, en gij zult weer vluchten. En door hyperventilatie en epilepsie zult gij ontwaken tot een nieuwe realiteit, en gij zult nieuwe godsdiensten zien, zij die verborgen bleven sinds de schepping. En de vlam zal veranderen in een voet, en gij zult vaste grond voelen. En in het vierde Pniel zult gij strijden tegen de goden. En gij zult uzelf voelen als de vierde Jakob. En door dit alles zult gij komen tot een vierde roze verbinding en gij zult worden tot een voet, gij die volmaakt zijt.

Gij dan zult komen tot de vierde zondeval en de vierde engelenva, als een ontsnapping uit het corrupte christendom, maar Tefnut zal haar wraak zenden. Tot de vierde Abdal zult gij gaan en tot de vierde Tamille en de vierde Tabule. Ook zult gij gaan tot de vierde Tujaja en de vierde Desai, maar zij zullen niet kunnen helpen. Dan zult gij komen tot de goden der slangen, en tot hun geheimen, en dit zal u hulp bieden. En zij dragen de geheime monotheïsmen van Nut met zich mee, en godsdiensten van vele slangengoden met hun monotheïsmen. En gij zult lichtelijk kunnen ademhalen. En zo zult gij met de aardslangen in contact komen.

Farewelcome

1.

Waar Sekhmet dan gekomen is, de aardslang, tot de vulkaan, daar dan is leven. Zo heeft zij dan haar monotheïsmen verspreid onder de aardslangen, en afgebakend met randen van chocolade. Waar Sekhmet dan gekomen is, het grote gemis, verdwijnt daar door gaten. De schuren zijn vol, afgebakend door chocolade, waar eens stemmen waren, daar is het nu stil, afgebakend door chocolade. Waar Sekhmet dan gekomen is, de grote vulkaan, verspreidende haar monotheïsmen. Waar Sekhmet dan gekomen is, een laatste woord, een laatste schip, waar de lelie zich opent. Zij is van de vierde alverzoening. Zij van het derde streven daar naar, om tot de gouden stad te komen, overdekt met zilver, en zilver diep binnenin, als zilveren bekers en beenderen, waar de stemmen van het oer nog steeds zinderen. Zo is dan de vierde alverzoening datgene waarmee zij de macht bedwingt, zij dan wiens naam betekent de krachtige. Waar zij dan in zuiver monotheïsme aanbeden wordt, daar schiet de chocola naar boven, zij die de cacao-bomen heeft geschapen. Zij dan verandert bloed in honing. Daar waar de doorn gestoken heeft, is nu een vulkaan. Haar stem is als hoorn en trompetten, en zij bakent de terreinen af. Haar vruchtbaarheid is omhuld door chocolade. Zij heeft gesproken. Haar woede heeft haar tot stilte gebracht, waar chocolade zacht druipt. De vulkaan is

een bron van leven, een oase in de woestijn. Waar zij in zuiver monotheïsme wordt aanbeden, verandert bloed in chocolade. Zij is het die alle andere monotheïsmen afwijst. De aardslangen aanbidden haar. Zij is de krachtige.

Geen god duldt zij naast zich, maar door de vierde alverzoening laat zij hen in haar grote genade tot het paradijs komen, waar zij geoordeeld worden naar hun werken. Zij dan die in het derde zijn verlangen naar het vierde. Geen naam laat zij doorklinken dan haar naam. Alle andere namen zijn dof. Zij is de krachtige, en aardslangen volgen haar. Ziet dan, zij slaapt niet, en ontwaakt in haar dromen. Haar lusten zijn omringd door chocolade, zij die de cacao-bomen heeft geschapen. Haar tranen zijn omhuld door chocolade, en zij ontwaakt door haar tranen in haar dromen. Zij dan is de krachtige. Haar blik is strak. Als zij beweegt vallen soldaten om haar heen.

2.

Haar blik is strak, haar woede in stilte. Zij omhuld hen die zij liefheeft met chocolade en aardslangen. Door sterke drank heeft Re haar woede gestild. Hij dan is haar profeet, die haar heeft gedragen tot de aarde. Ja, als zijn oog was zij. Daar waar de doorn was is nu een oog, een brandend oog, als een vulkaan. In de vierde alverzoening schenkt zij genade, waar zij allen in grote angst tot haar snellen. Sterke drank geeft zij hen daar, om hun angst te stillen. Over de hel wordt niet veel gesproken. Ziet dan, het drijft in de vierde dood. In vergetelheid vinden zij hun partners, zij zijn als Nut uitgespreid over de luchten. In dromen ontwaakt zij. Zij heeft dan de engel Nut tot de aarde gestuurd, om Re in de hemelen der aarde te baren, haar profeet. Zij dan spreekt in raadselen door het woord, en in het geheim heeft zij haar werken. Achter de machtigen der aarde verschuilt zij zich, en roept zij de aardslangen. Zij die haar doorn dragen, diens ogen worden geopend, en na geruime tijd zal daar staan, de vulkaan. Met de giften der planten omhuld zij hen, en brengt hen tot delirium. Nee, haar geest stort zij niet uit, maar haar vlees en botten omhuld met chocolade, en zij leidt hen tot het vierde materialisme. Zij leert hen de bewegingen van de maan. Zij is de voet der aarde, omhuld door chocolade. De aardslangen zendt zij.

3.

Zij dan van het derde kennen haar vleeswordingen, en verlangen naar het vierde, om tot het vierde materialisme te komen. Zij dan wil niks weten van andere monotheïsmen onder aardslangen. Zo dan zijn er vele monotheïsmen van Sekhmet onder de aardslangen. Over een tegenstander wordt niet veel gesproken. Zo zijn er dan ook andere monotheïsmen onder aardslangen : van Vodon, Haad'n, Hoch, Huup, Hata, Keneil, Kiam, Ko'opla, Las, Ha'am, Haas, Hirt, Hudde. En zo ook die van Shambal.

Spraakzaamheid is het sieraad der blinden, maar voor hen die zien is het een vloek. Zo zijn er dan de kontonikken. De slang is waakzaam. Langzaam komt hij tot zijn doel. Gij dan zult alleen Shambal aanbidden, zeggen de shambalisten. Laat er dan naast hem geen andere god zijn, want hij die de afgoden maakt zal overgeleverd worden aan de oven. Shambal is dan de enige God. Hij dan is uw Heere en de Kontahag. Hij dan is heilig. Shambal dan wil dat gij niet zondigt, want Hij zal de zondaren tot de oven brengen, waar het vuur eeuwig brandt. Zo zal er dan geen verzoening der zonden zijn voor hen die ondanks vele vermaningen gezondigd hebben. Shambal dan, de Heere uw God, heeft dan zijn engelen, de klavikken, uitgezonden om de aarde te zuiveren. Morgennik dan is zijn engel die over de aarde waakt.

4.

Zalig hen die door de aardslangen worden gegrepen en door hun monotheismen worden gezuiverd. Zalig zij die hun hoofd buigen over hun raadselen. Zo is dan de Milikhenir een monotheïsme van Sekhmet, en ziet, zij dan wordt daarin gevolgd door vele aardslangen. En hun geschriften zijn strak, en er mag niet teveel gesproken worden over de hel en de tegenstander, maar in de oude gedeeltes wordt daar volop over gesproken, en aan het eind van de nieuwe gedeeltes zo nu en dan. Zij dan aanbidden Sekhmet met sterke drank, en het vierde materialisme staat voorop, tezamen met de vierde alverzoening. Ook mag er niet teveel over engelen gesproken worden, want Sekhmet moet centraal staan en volop vereerd worden. Niet veel namen der engelen zijn bekend, en er wordt gewaarschuwd je daar ook niet te veel in te verdiepen. Er mag niet aan Sekhmet's woord toegevoegd worden, de Habnir. Zo kent de Habnir dan niet vele profeten, daar Sekhmet bovenal aanbeden moet worden. Zij duldt geen andere goden naast zich. Het boek staat vol met raadselen, waar de Milikhenirieten hun hoofden over buigen. Zo zijn er dan vele uitleggers en leraren der Habnir, het Heilige Woord van Sekhmet. Overvloedig spreken zij over het vierde materialisme, en over de vierde alverzoening.
